### Municipality of the Village of Waterdown

#### By-Law No. ....

To Provide for the Issue of Debentures to the Amount of Twenty Thousand Dollars (\$20,000.00) for the Erection and Equipping of a Memorial Hall.

Whereas it is desirable to erect and equip a Memorial Hall, under the provisions of 9 George V., Chapter 46, Section 11.

And whereas the amount of the whole rateable property of this Municipality, according to the last revised assessment roll is \$311,708.00.

And whereas the amount of the debenture debt of the Corporation is \$81,677.00, exclusive of local improvement debts secured by special rates or assessments, of which debt no part of the principal or interest is in arrear.

And whereas the sum of \$20,000.00 is the debt to be created by this By-law.

And whereas it will require the sum of \$1,743.69 to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law for paying the said instalments of principal and interest.

And whereas it is necessary that such annual sum of \$1,743.69 shall be raised and levied in each year during the said period of twenty years by a special vote sufficient therefor on all rateable property in this Municipality as hereinafter provided.

Therefore the Council of the Corporation of the Village of Waterdown enacts as follows:

1. For the purpose mentioned in the preamble, there shall be borrowed on the credit of the Corporation the sum of \$20,000.00, and debentures shall be issued therefor on the instalment plan in sums of not less than \$109.00 each, which shall have coupons attached thereto for the payment of interest, with a facsimile of the signature of the Treasurer engraved thereon.

2. The debentures shall be dated and issued on date this By-law takes effect, and shall bear interest at the rate of six per cent. (6%) per annum, payable yearly from the date the By-law takes effect in each and every year during the currency thereof.

3. The said debentures shall be payable in twenty annual instalments during the twenty years next after the date when they shall be issued, and the respective amounts of principal and interest payable in each of such years shall be as follows:

Year	Interest	Principal	Total Annual
1. 1921	\$1200.00	\$ 543.69	\$1743.69
2. 1922	1167.38	570.31	1737.69
3. 1923	1132.80	610.89	1743.69
4. 1924	1096.14	647.55	1743.69
5. 1925	1057.29	686.40	1743.69
6. 1926	1016.11	727.58	1743.69
7. 1927	972.45	771.24	1743.69
8. 1928	926.18	817.51	1743.69
9. 1929	877.13	866.56	1743.69
10. 1930	825.14	918.55	1743.69
11. 1931	770.02	973.67	1743.69
12. 1932	711.50	1032.09	1743.69
13. 1933	649.68	1094.01	1743.69
14. 1934	584.04	1159.65	1743.69
15. 1935	514.46	1229.23	1743.69
16. 1936	440.70	1302.99	1743.69
17. 1937	362.52	1381.17	1743.69
18. 1938	279.65	1464.04	1743.69
19. 1939	191.81	1551.88	1743.69
20. 1940	98.70	1644.99	1743.69

\$20,000.00

4. The debentures as to both principal and interest shall be expressed in Canadian Currency and be made payable at the Royal Bank of Canada in the Village of Waterdown.

5. The debentures shall be sealed with the seal of the Corporation and signed by the Reeve and countersigned by the Treasurer of the said Corporation.

6. During the currency of the said debentures there shall be raised and levied annually by a special rate sufficient therefor over and above all other rates on all rateable property in the said Municipality the sum of \$1743.69 for the payment of the said instalments of principal and interest.

7. The moneys realized upon and from the said debentures shall be used for the purpose above mentioned only.

Passed this ..... day of ....., 1920.

..... Reeve  
 ..... Clerk

Take notice that the foregoing is a true copy of a proposed By-law of the Corporation of the Village of Waterdown to be submitted to the votes of the Electors qualified to vote on a money By-law, at the same time and at the same place as the annual election for the Municipal Council, and

the Returning Officer appointed to hold the said election shall take the vote.

And that Saturday, the 27th day of December, A.D. 1919, at two o'clock in the afternoon at the Council Chamber in the Village of Waterdown has been fixed for the appointment of persons to attend at the polling place, and at the final summing up of the votes by the Clerk.

And that the Clerk will attend at the Council Chamber in the Village of Waterdown on the 7th day of January, 1920, to sum up the number of votes given for and against the proposed By-law.

And that if the assent of the electors is obtained to the said proposed By-law it will be taken into consideration by the Municipal Council of the said Corporation at a meeting thereof to be held after the expiration of one month from the date of the first publication of this notice, and that such first publication was made on the 11th day of December, 1919.

Take notice further that a tenant who desires to vote upon said proposed By-law must deliver to the Clerk not later than the tenth day before the day appointed for taking the vote a Declaration under the Canada Evidence Act, that he is a tenant whose lease extends for the time for which the debt or liability is to be created, or in which the liability is to be raised by the proposed By-law is payable, or for at least twenty-one years, and that he has by the lease covenanted to pay all municipal taxes in respect of the property of which he is tenant other than local improvement rates.

Dated the 11th day of December, A.D. 1919.

J. C. MEDLAR,  
 Clerk.

### Letter to the Council

Waterdown, Ont.,  
 Dec., 5th 1919.

To the Reeve and Council.  
 Gentlemen:-

Just as soon as we are over the Xmas Rush and I have a breathing spell I am going to write one whole extra page for the Waterdown Review in honor of the Reeve and Council of the village of Waterdown. An "OBITUARY". I will hold them up individually and collectively to public ridicule in a manner that was never dreamed of. It might do some good?

Here we have a group of men (the selected men of the town) elected to do business for the village and not one among them knows enough to insist on extending to an enquirer the common courtesy of a reply. I have reference as you know to my letter of November, 3rd.

This is not bad business, it is not carelessness, it is not neglect, it is inefficiency and ignorance, and if anyone thinks it will be tolerated in this case they have one more think.

In the space allotted to me on this occasion by the Editor of the Review I will show too just what inducements are held out by other towns to a manufacturer, and what it might have profited the village of Waterdown to have a factory locate here had not the council been asleep at switch.

Yours as here 2-4.  
 Geo. W. MacNeill

NOTE:— Since writing this letter I have been approached by a member of the Council and asked for an apology. I have this to say. There is no apology forthcoming from me. An apology is due me from the Reeve and Council and unless it is forthcoming the above mentioned "OBITUARY" will be written. If the said Council Member makes good his threat I may be obliged to ask the Jail Warden for the loan of his pen and ink, however that does not matter to me, in fact I rather like the idea as under those circumstances I could do a much better job. Concentration of thought is a great thing some times and has been known to reflect itself even in the point of a pen.

Geo. W. MacNeill

### Open Letter to Waterdown Citizens

Some five years ago our ladies of Waterdown united day after day in making soldiers' comforts, and month after month sent parcels to our lads at the front or in England or the training camps in Canada, and everyone wished them God speed in their work and labor of love and patriotism. Of course some found fault because things were not done thus and so but they were usually looking for an excuse to cover their own shortcomings in work or money, and now that the boys are home again and the band stopped playing there are many who say "the war is over forget it" but the great heart of humanity still beats and everyone who loves his fellows wants to see a fair deal for all especially those heroes and heroines who who fought and won a war to make life worth living, and the North American continent a safe place for democracy and he who is worth listening to wants to do his part.

In following this thought out the citizens met some weeks ago and formed the Community League composed of nearly every society grown out of the war and every loyal Citizen of our community, and this League has since purchased property in the heart of the village next to our Bell House and proposes to erect a Memorial hall for the use of our young people giving both boys and girls proper means of recreation and and properly governed sports. Everyone who knows anything of life knows that all work and no play makes Jack a dull boy but the play must be so governed that it will be possible for the smallest child to have as safe and good a time under proper guardianship as the big strong fellow, the aim being to make the best of every one of the youth of our neighborhood.

The Y. M. C. A. Rural Work Department are now organized in our village as part of Wentworth County Rural Y. M. C. A. work.

The intuition is to organize winter sports at once and summer sports next summer as best we can.

The citizens realize that our indoor accommodations is very limited and a By-law to raise debentures to build a Memorial Hall will be submitted to our electors in January when it is expected that all who know what a great asset a good boy and girl is to us, will vote in favor of the By-law.

Anyone who does not understand what this vote means should consult one of the officers of the Community League and find out the exact truth of every detail as there is nothing for anyone to hide but rather his duty to tell cheerfully what he knows.

Yours for a better Waterdown,  
 "Citizen"

### Flamboro Centre

About sixty five friends and neighbors gathered at the home of Mr. Osear Lester, Flamboro Centre on Tuesday evening December 2nd in honor of Mr. and Mrs. William Smye. Many handsome and costly presents were showered upon the young couple and a very pleasant evening was enjoyed by all. At midnight a dainty lunch was served and all dispersed wishing the bride and groom all future happiness.

Simple Resistance Units.

To a British firm goes the credit for introducing a very simple type of resistance unit which possesses numerous and important advantages. The wire or strip member is supported on a single rod passing through the centre section of each leg of the zig-zagged wire or strip. Among the special advantages claimed are: Very large radiating surface for a given capacity; small weight for a given capacity; absolute freedom for expansion; owing to the large surface and small bulk of metal they cool very quickly; they are absolutely unaffected by vibration or jolts; units can be run red-hot without danger of sagging; repairs can be effected on separate units; tapping can be taken off anywhere along the centre clamp. The number of units being small compared with a grid resistance of equal capacity, there are not many joints to cause trouble.—Scientific American.

Minard's Liniment Cures Garget in Cows.

LET'S GO

Put one hundred men on an island where fish is a staple article of sustenance. Twenty-five of the men catch fish. Twenty-five others clean the fish. Twenty-five cook the fish. Twenty-five hunt fruit and vegetables. The entire company eats what thus is gathered and prepared. So long as everybody works there is plenty. All hands are happy.

Ten of the allotted fish catchers stop catching fish.

Ten more dry and hide part of the fish they catch.

Five continue to catch fish, but work only part of the day at it.

Fewer fish go into the community titchen.

But the same number of men insist upon having the same amount of fish to eat as they had before.

The fifty men who formerly cleaned and cooked the fish have less to do owing to the undersupply of fish. But they continue to demand food.

Gradually greater burdens are laid upon the fruit and vegetable hunters. These insist upon a larger share of fish in return for their larger efforts in gathering fruit and vegetables. It is denied them, and soon twenty of the twenty-five quit gathering fruit and vegetables.

But the entire one hundred continue to insist upon their right to eat.

The daily food supply gradually shrinks. The man with two fish demands three bananas in exchange for one of them. The man with two bananas refuses to part with one for fewer than three fish.

Finally the ten men remaining at work quit in disgust. Everybody continues to eat. The hidden fish are brought to light and consumed. Comes a day when there is no food of any kind. Everybody on the island blames everybody else.

What would seem to be the solution? Exactly! We thought you would guess it.

For we repeat that you can't eat, buy, sell, steal, give away, hoard, wear, use, play with or gamble with what isn't.

ANARCHY IN THE SCHOOLS.

(New York Sun.) There is no place so unfit for an anarchist, bolshevist, communist or other revolutionary radical as the desk of a public school teacher. The man or woman who holds red opinions and still draws pay from the State to educate the State's children must of necessity be of low moral character.

If he—or she—teach the red doctrines, he is guilty of treason with the added dishonor of taking the State's money while undermining the State. If he—or she—keeps silent and suppresses opinions really held, it is plain that the individual is willing to sell out his—or her—convictions for cash. There is no third possibility. As a matter of fact, what generally happens is that direct teaching of subversive doctrines is cunningly avoided for the purpose of keeping within the letter of the law and regularly drawing the salary that the State so liberally pays; but, at the same time, by insinuation, by the coloring of instruction, and their loyalty is undermined.

The hope of the future for the United States and for the world is in the children. If their innocence is to be betrayed and their impressionability abused with teachings of hatred and spoliation and immorality—all of which are bound up together in the Red gospel—the generations to come are doomed to barbarism, to misery, to chaos until a new evolution recreates a world of sanity. To protect the rising youth from such a horror is a duty of the present generation with which the peace and prosperity of the existing generation is a secondary matter.

This is not only the sacred duty but the deliberately undertaken personal obligation of every public school teacher in the country. Those who disavow the bond openly or who meanly violate it by secret methods are simply persons of depraved mind and perverted conscience. They are entitled to neither respect nor sympathy in their illicit activity. They deserve, in fact, even greater condemnation, even severer penalties in proportion to the degree of their offending.

When the unattached madman or mischief-maker who hires a hall or mounts a soapbox, instead of morally poisoning a platform, in order to diffuse his poisonous fallacies.

We do not assume, naturally, to pass on any individual cases. That is the business of the proper authorities. But on the general principle of cleaning the school system of traitors to the Government, or ridding it of the enemies of civilization, the propagators of just rebellion and murder, we cannot go too far. Not only should these be expelled from the places they outrage, but if their overt acts warrant it, they should be prosecuted and punished with the full rigor of the law.

Minard's Liniment Cures Distemper. The noblest motive is the public good.—Virgil.

CORAL REEFS.

Nature's Methods in Building These Seashell Monuments.

Coral reefs surround many of the islands in the Pacific. They protect the lowlands from the washing of the waves, and the still waters enclosed by them are the only harbor of refuge for snips. The reefs themselves furnish the greatest peril to navigation, and if there were no inlet through which a vessel could enter their protected circle they would be a danger and nothing else.

But almost every reef has such an inlet. It is a necessary result of the laws under which the forces of nature work. To understand this we must see how these reefs are formed.

Chemically the reef corals are almost pure carbonate of lime, the substance of ordinary limestone and marble. The reef grows as the shell of the oyster or any other shellfish grows. It is itself the common and undivided shell of innumerable polypi, or minute insects, which are being produced and are dying in successive generations.

These tiny beings get all their living from the waters of the sea. It is from this source also that they derive the salts of lime from which they secrete the bony structure that remains after the animal is dead.

The coral polypi cannot live in fresh water. Their food supply is brought to them by the waves and currents of the sea. As a result it is found that directly opposite the mouth of the stream from the island the reef does not grow. There will be the inlet to the inclosed waters.

Childhood Constipation

Constipation is one of the most common ailments of babyhood and childhood and unless it is promptly cured will undoubtedly lead to disastrous results. To cure this trouble nothing can equal Baby's Own Tablets. They are a mild laxative which instantly regulate the bowels and sweeten the stomach, thus banishing constipation, colic, colds, etc. Concerning them Mrs. Eugene Vallancourt, St. Mathieu, Que., writes: "When my baby was constipated I gave her Baby's Own Tablets and am well satisfied with the result. I would strongly recommend them to all mothers for this trouble." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CANADA'S AGRICULTURAL POSITION.

The Hon. S. F. Tolmie, Canada's new Minister of Agriculture, has summed up the outstanding facts of Canada's agricultural position in an article appearing in the November number of the Agricultural Gazette. He presents statistics showing the growth of Canada's financial burden during the past five years and points out means by which our national debt will be reduced. He says in part "I am confident that this Dominion, through the development of her natural resources, will in time wipe out her debt. Forests, fisheries, and mines all contribute their part of the revenue but by far the greatest returns will be derived from agriculture which industry we must continue to establish in permanency and increase in magnitude. One of the greatest responsibilities that falls on either the federal or provincial departments of agriculture is the conservation of the great wealth that lies in the virgin soil. Innumerable considerations are involved in this one problem, but the whole affair can be accomplished if we engage in mixed farming with live stock as a basis. This is a fundamental principle underlying success in agriculture."

Minard's Liniment Cures Diphtheria LANGUAGE AND BIBLE.

The Book That Standardized All the Dialects of Britain.

Before the printing of the Bible there was no English language. It was the Bible that standardized all the dialects of England and that bound them together into a living speech, and it was the Bible that was the foundation of the education and culture of England. As the English historian Green says, "The English people became the people of a book, and that book was the Bible."

To a large degree the same is true of Germany, but it is not necessary to go back to the middle ages to find the Bible forming a nation's culture and fixing its language.

On many of the mission fields, especially in Africa, the language of the natives has never been reduced to writing until the missionary provided them with an alphabet in order that the Bible might be translated into their tongues. The Bible has then become both the language textbook and the spiritual guide of these African nations. In mission schools the world over the Bible is the language textbook. The people of the mission lands want their children to learn the western tongue, and they send them to the school. They learn the missionary's language, but in the learning they find the missionary's God.—Christian Herald.

VERY SIMPLE CURE FOR BAD COLDS

Let your cold gain headway and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs, then it's too late!

Drive colds and catarrh right out of your system while you have the chance.

Easily done by inhaling Catarrhazone, which instantly reaches the true source of the trouble, gets right where the living germ of catarrh are working.

Catarrhazone

A Convenient Inhaler Treatment is the Proper Remedy to Cure.

Hawking and spitting cease, because the discharge is cured. The nostrils are cleared, headache is relieved, breath is purified. Every trace of catarrh, bronchial and throat weakness is permanently cured.

Shun medicines that contain harmful drugs—use a safe remedy that is prescribed by doctors, that is used in hospitals, that is endorsed by thousands of Catarrhazone has cured. For winter ills there's nothing half so good.

Two months' treatment, large size, price \$1, and guaranteed. Small size, 50c, trial size 25c, at dealers everywhere.

SANG REQUIEM OF HUN.

How Cannon Roared During Offensive of Argonne.

It was night in France and the great Argonne offensive was on.

The section chiefs grew hoarse shouting their commands, the gunner corporals manipulated their sights with speed and accuracy and the gun crews eagerly put forth superhuman efforts in serving their pieces which were being loaded and fired as quickly as possible. The terrific detonations shook the forest which actually seemed like a live, throbbing, burning monster, who vomited fire and flame, and roared inhumanly with its terrible voice. Every man in the four gun crews was soon rendered temporarily deaf.

Lit up by the ghastly flashes from the fire of their own guns, they looked like veritable devils, their faces gleaming with fiendish joy as they leaped into the pit to shift the gun trail or sprang to the wheels, at which they tugged and pulled with might and main. It was exceedingly tiresome work for the earnest lads. The rate of fire was so rapid that it was necessary for them to pause occasionally in order to permit the intensely heated pieces to cool.

Presented a thrilling scene to see, in the dim light of the early dawn, a stalwart lad, bareheaded, eyes heavy, and red from the burning powder gas, his square jaws grimly set and shirt open at the throat, his arms bare to the elbows and black with grease, standing out there, swabbing out the steaming gun with the tender rain-

mer. A lanyard broke from too constant use on one of the guns. Not hesitating a moment to repair it, the "No. 1" man simply used his fingers to draw back the "striker." A lad fell limp and exhausted into the gun pit, but was quickly pulled out of danger, where he lay quite still and was undisturbed by the terrible barrage. Another man quickly took his comrade's place.

So the terrible fight continued. The great iron orchestra played its terrible symphony wadly until ten o'clock in the morning, when the tired musicians began one by one, to lay aside their weary instruments, for the score they had been playing had sent the Fritzies scampering over the hills and far away.

PARKER'S WILL DO IT

# U. S. SENATE'S COURSE STIFFENS THE GERMANS

Complete Transformation of Feeling Since Refusal to Ratify, and Now They Refuse to Sign the Protocol

Paris Cable — Germany has decided not to sign the protocol presented her by the Allies as a condition for putting the peace treaty into effect, the Peace Conference has been notified.

It was learned to-day that Baron Kurt von Lersner, head of the German delegation here, called on Secretary Dutasta, of the Conference, on Monday, and told him that Germany had made such a decision.

This attitude is taken as confirming the reports of a sharp reaction in Germany within the last fortnight. Trained observers of German developments have expressed to members of the Peace Conference the view that there has been a complete transformation of the situation in Germany, brought about, in their opinion, by the failure of the United States Senate to ratify the peace treaty.

These observers declare that while the vast majority of the Germans, before the Senate's adjournment, desired the peace treaty ratified as soon as possible, they are now supporting the Government's attitude in resisting the demands of the Allies for indemnity for the sinking of the German fleet at Scapa Flow, recompense for which was provided for in the protocol.

The question upon which the German representatives here, however, upon the trial of German officers accused of the commission of crimes in France and Belgium.

Thus far, it is stated, no indications have reached Paris of any disposition on the part of the Germans to modify their attitude.

The Supreme Council to-day addressed a note to Germany protesting against the increase of Germany's armament contrary to the provisions of the peace treaty.

## Catarhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portions of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE.

All Druggists 75c. Circulars free. P. J. Cheney & Co., Toledo, Ohio.

## REPATRIATION ALL PRISONERS

Urged by Swiss Federal Council for Safety.

Social Danger if Men Not at Once Freed.

Berne cable says: An appeal for the repatriation of all war prisoners as yet held by the belligerents has been addressed to all nations which participated in the war by the Swiss Federal Council. Special reference is made to prisoners still in Siberia and in France, and also Russian prisoners remaining in Germany.

Recalling the work done in Switzerland during the war, looking to the alleviation of the condition of prisoners and the sufferings of all nations during the struggle, the Council's appeal says:

"It would be a social danger of the hundreds of thousands of prisoners still in captivity were allowed to remain prisoners any longer. It has been a whole year since the armistice was signed, and the state of mind which these men might be in when returning to their former homes might make them a menace to society, if their imprisonment is prolonged."

It urges that all the belligerent Governments immediately repatriate the war prisoners, so that, as far as possible, they may spend Christmas at their homes.

Cardinal Gasparri, the Papal Secretary, has replied to the Swiss Government, accepting the invitation, and promising to send a note to this effect to all the heads of the Governments concerned, including the King of Italy.

It Makes New Friends Every Day.—Not a day goes by that Dr. Thomas' Electric Oil does not widen the circle of its friends. Orders for it come from the most unlikely places in the west and far north, for its fame has travelled far. It deserves this attention, for no oil has done so much for humanity. Its moderate cost makes it easy to get.

him this morning, "there are some remarkably good toppers here also. The grade Hereford steer that won the Grand Championship yesterday, for instance, is one of the sleekest animals I have ever laid hand on."

Mr. Cridlan's opinion is also held by many visiting stockmen. Undoubtedly this is the largest live stock show yet held at Chicago. All classes are remarkably well filled, but it might improve the show to cull out more of the poorer stuff by a system of feeders to the International before the latter opens.

There were some disappointments among the exhibitors when the prizes were awarded to-day. Men whose beasts have carried off many honors formerly were left out here. The only reason given is the changing of the type. Of course there is some individual preference for different types on the part of the judges, but about all there is a distinct general change in many breeds. Take, for instance, the Belgian or Percheron breed of horse. In a short talk with the Secretary of the Belgian Horse Society of the United States and Mr. G. G. Good of Gaden, Iowa, a noted breeder of Belgian horses, on this side of the line, I was convinced that the type they had developed here are bigger every way and snappier than the horses being bred in Europe and are so superior to the imported animal that it is very doubtful whether there will be any more importations of these breeds from Europe.

Hogs, too, are changing. The old, low set, fat type of animal is meeting with disapproval at the modern show. Hogs which are carrying off the ribbons this year are those of the higher and longer type. It looks before long as if the bacon hog will be as popular in the States as in Canada.

About the only prize of interest to Canadians awarded to-day was the winning of fifth place in the aged shorthorn bull class by "Campanis," owned by Robert Eastwood, of Long Branch, Ontario.

Sheep men will do well, according to Mr. Will Dryden, of Brooklyn, but no prizes are known yet. The authority on sheep and cattle after carefully looking over the exhibits declared that the Canadian sheep, with the exception of the long-wool breeds were in a class by themselves. So many persons are allowed in the judging ring that it is almost impossible to see the animals or get any idea of the judging while in progress. In planning the live stock arena at Toronto next year steps should be taken to prevent a repetition of this mistake there.

## Dr. Martel's Female Pills For Women's Ailments

A Scientifically Prepared Remedy, recommended by physicians, and sold for nearly fifty years for Delayed and Painful Menstruation, Nervousness, Dizziness, Backache, Constipation and other Women's Ills. Accept no other. At your druggist, or by mail direct from our Canadian agents, Lyman Bros & Co., Ltd., Toronto, Can., upon receipt of price.

## Brazilian English.

"The river of Parana," declares the prospectus of a real estate agent in Parana, Brazil, "is the most watery in the state, one of the most extended in the world, it is navigable until to this state for ships of great profundity; it is also sufficiently fishy." The same cheerful chap it is who further asseverates that "the vegetable realm is excessively represented in resinous, oily and gummy plants."

The captain in the army is one man who is known by the company he keeps.

## TORONTO FAT STOCK SHOW.

The Toronto Fat Stock Show will be held at the Union Stock Yards, West Toronto, on Thursday, December 11th, and Friday, December 12th. The entries this year are very large and the exhibit will be one of the best ever held at the Union Stock Yards. Farmers, butchers and others, who are interested in fat cattle, should not miss attending this show. Judging will take place on Thursday, December 11th, at 10 a.m. and the Auction Sale at 10 a.m. Friday, December 12th.

## Misquotations.

No book has contributed more to the general stock of misquotations than the Bible. No book exists in such a multitude of forms, which may account for some of the popular departures from the wording of the King James Version. But it is not easy to supply reasons for most people's habit of saying "In the sweat of thy brow," when the text reads "In the sweat of thy face shalt thou eat bread." Why "the parting of the way?" "Bone of my bone," instead of "bone of my bones and flesh of my flesh" may be due to the desire for perfect parallelism. And the same explanation may hold for "Thus far shalt thou come, but no further," instead of "Hitherto shalt thou come." But why the general preference for "better part," when we are expressly told that "Mary hath chosen that good part?" The Vulgate, for whatever reason, says "the best part"—optimam partem—often cited in the Middle Ages in proof of the superiority of the contemplative life, as represented by Mary, over the active life, symbolized by Martha. But apparently no such contrast was originally intended. Why, again, "a multitude of sins," when it is said of charity that it "shall cover the multitude of sins?" Perhaps there is no other reason save that the tongue is an unruly member: such at least the world agrees in calling it, though the Biblical text describes it as "an unruly evil."—Harry Ayres in the Review.

No better protection against worms can be got than Miller's Worm Powders. They consume worms and render the stomach and intestines untenantable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.

## Economical.

A good story is related of an English theatrical manager who by thrift and hard work had amassed a fortune. Previous to the production of one play the stage carpenters had to repair a trap, and the head carpenter went to the manager and informed him that it could not be done in the dark.

"Well, lad, thee won't have 't gas," answered the manager. "Here, tak' this and buy a candle."

And he handed him a halfpenny. The carpenter pleaded that they wanted two in order to get sufficient light.

"How long will 't job take thee?" asked the manager. "About ten minutes," was the reply. "Then cut 't candle in two," was the answer. "Thee won't have any more money."

## QUITE RIGHT.

Customer—Have you anything in the shape of bananas?  
Greengrocer—Yes; cucumbers.

## ASK BOTH LAND AND INDEMNITY

Why Jugo-Slavia Has Not Signed Treaty.

Prince Regent Gives Views in Paris.

A Paris cable says: Prince Regent Alexander of Serbia, who came to Paris yesterday in connection with the situation over the Austrian treaty, which the Jugo-Slav state has not yet signed, declared to-day that the allies ought to see that his nation should not be asked to sign new engagements presented at the last moment. He was referring to the annex to the treaty submitted for signatures which contained a provision setting off the debts of the new parts of the kingdom against the indemnities due Serbia. This, Prince Alexander declared, was incontestably a new provision. "We are obliged to make this declaration," said Prince Alexander, "while holding sentiments of the utmost devotion to our friends and allies, but conscious of our responsibility toward our people. They desire to be useful members of the society of nations, and they will be such if we and our friends alike bear in mind the principle, 'No one can be compelled to do the impossible.'"

## A Friend of the Policeman.

Continually on their feet, the "Peelers" are invariably troubled with corns and bunions—but not for long, because they know of a quick cure, Putnam's Corn Extractor. It cures painlessly in 24 hours; try "Putnam's," 25 cents at all dealers.

## Telling Time in Turkey.

In various parts of Turkey the watch and the clock are extremely rare, but the natives have an exceedingly ingenious way of approximating the time, and some of them hit it with considerable accuracy. They locate two cardinal points of the compass, and then folding their hands together in such a manner that the forefingers point upward and in opposite directions, they observe the shadow cast. In the morning or the evening at certain known hours one finger or the other will point directly at the sun. A comparison of the two shadows will determine the hours between.

Another system followed in Turkey and some other countries of the Orient is to observe the eyes of a cat. Early in the morning and evening the pupils are round. At 9 and 3 o'clock they are oval, and at noon they consist of a narrow slit.

Faultless in Preparation.—Unlike any other stomach regulator, Parmelee's Vegetable Pills are the result of long study of vegetable compounds calculated to stimulate the stomachic functions and maintain them at the normal condition. Years of use have proved their faultless character and established their excellent reputation. And this reputation they have maintained for years and will continue to maintain, for these pills must always stand at the head of the list of standard preparations.

## Dark Nebulae.

A new astronomical belief is that there are not only dark stars in space, but dark nebulae. The dark stars are invisible, revealing themselves only by their effect on the motion or light of bright stars, but dark nebulae may be visible as unlighted masses showing against the feebly luminous background of space. Professor E. E. Barnard notes that many striking dark patches of sky hitherto supposed to be simply starless regions may be really dark nebulae. The case of Hind's nebulae in Taurus, which is now feebly visible after completely fading away from a state of conspicuous brilliancy shows that a nebula may lose its light, and perhaps many have never had any light.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often effects a permanent cure. Why not get this long-famous remedy to-day and commence its use? Inhaled as smoke or vapor it is equally effective.

## A Proud Moment.

"The proudest day of her life this is," said the woman who watched the third floor bride go out dressed in her prettiest frock.

"How do you make that out?" said another woman, enviously. "I thought last Thursday was her proudest day. She got married then."

"Ah, yes, but to-day she goes calling for the first time and leaves one of her husband's cards with her own. Any married woman who can remember back that far will tell you that the first time she distributed the calling cards of some man who belonged to her was the day she truly felt her importance."—New York Sun.

Corns are caused by the pressure of tight boots, but no one need be troubled with them when so simple a remedy as Holloway's Corn Cure is available.

## CHANGED TYPE OF LIVE STOCK

Shown in Exhibits at Big Chicago Show.

Canadians Expect to "Clean Up" in Sheep.

Chicago despatch: Live stock exhibitors at Canadian shows might well take a leaf from the book of their southern neighbors in connection with the preparing of live stock for exhibition. Although the bulk of the animals showing at the International Fat Stock Show here are no better than the average seen at Guelph or Ottawa with few exceptions, a great deal more care has been taken in preparing the beasts for the ring. This is particularly true in the case of the large class of Percherons and Belgian horses exhibited to-day. The animals, though many were off type from a breeder's standpoint, were all in the pink of condition, fat and well groomed. The manes and tails were done up in ribbons and bamboo pins with more care than the ladies take with their hair. As pointed out by several live stock authorities from Ontario, this "fixing up" would be the deciding factor in a case where two animals were evenly matched in other points.

According to J. J. Cridlan, of London, England, judging grade and cross-bred cattle, the Chicago International exceeds anything of a similar nature held in the old country as far as numbers are concerned, but in his opinion there is far too much common stuff in the cattle line for an event of this kind. "However," explained Mr. Cridlan in a short interview I had with

The Canadian Express Company and the Grand Trunk System, in conjunction with the Handley-Page Air Line, is now despatching express packages from London to Paris, Brussels and Amsterdam by aeroplane, with return service from those points to London. This illustration

shows shipments from Paris, destined for Canada, being unloaded from one of the big machines at Brooklands. These shipments include high class model millinery purchases by Canadian merchants in Paris and shipped from that fashion centre at the latest

possible moment to catch the fast steamships, so that such models will be able to reach the cities of the Dominion as quickly as similar models reach New York. Passenger service by aeroplane is also in operation between the same points.

## THE WATERDOWN REVIEW

Issued every Thursday morning from the office, Dundas Street, Waterdown  
Subscription \$1.00 per year. Papers to the United States, 50 cents extra.

Advertising rates furnished on application  
G. H. GREENE  
Editor and Publisher

THURSDAY, DEC. 11, 1919

### LOCAL MENTION

Wedding Bells are ringing in the village to-day.

Mr. W. Johnston has started a milk route in the village.

Mrs. J. Carter returned Tuesday from a pleasant visit at Blythe.

Mr. and Mrs. John Kitching have moved to their new home in the city.

Mrs. Geo. Dougherty returned home last week after several weeks visit in the West.

Mr. Dave McMonies of Huron So. Dak. spent a few days at his old home here this week.

A number of our Poultry fanciers have been attending the Guelph Winter Show this week.

Mr. Harold Rutledge of London has been spending a few days with his brother Jas. Rutledge.

Our popular merchant, Mr. O. B. Griffin, is all smiles these days. The cause of the joy was the arrival of a fine baby daughter at his home last Friday.

The pupils of St. Thomas Church Sunday School will hold their annual Xmas tree entertainment on Tuesday evening December 23rd in Assembly Hall of the Church.

Mr. A. Maxwell, after years of faithful service with the C. P. R. has been superannuated and will shortly move to the village, having leased the house recently occupied by Mr. P. H. Davidson.

Mr. Stewart Gallagher and family have moved to Woodstock where they will make their home. Mr. Gallagher being the District Representative at that city for the Gray-Dort Co. which position he secured some time ago.

The canvas for new members for the Library has proven very successful, about 150 names have been added to the membership. Another purchase of new books has been made this month, to meet the increased demand for good reading. If you are not a member of the Library you are one of the few.

### The Navy League

Mr. F. J. Shaidle, president of the Waterdown branch of the Navy League, and Dr. J. O. McGregor, one of the executive members, attended the dinner given in honor of Admiral Viscount Jellicoe at the King Edward hotel, Toronto, last Saturday evening. Among the large number of prominent guests present were Sir Thomas White, Hon. N. W. Rowell, Sir Frederick Stupart, Hon. and Mrs. W. E. Raney and Sir John and Lady Willison.

Mr. Shaidle states that he is more firmly convinced than ever that Canada's future depends upon her merchant marine, and that every effort should be made to make our navy one of the most efficient in the world.

Our local branch of the Navy League has been somewhat silent of late. A meeting will be held in the near future at which some important matters will be discussed. We might also say that the secretary, Mr. A. Davidson, still has a few League buttons which are available for anyone desiring them.

## NOTICE

NOTICE is hereby given that a By-Law was passed by the Corporation of the Township of East Flamboro on the 3rd day of Nov. 1919, providing for the issue of Debentures for \$29,576.35 to pay the Toronto-Hamilton Highway Commission for East Flamboro's share of the cost of construction of the Toronto-Hamilton Highway. For the purpose of paying the amounts due for principal and interest in respect to said Debentures, there shall be raised annually for 20 years commencing with 1920, the sum of \$2,588.60 by special rate on all the rateable property in said Township.

Any motion to quash or set aside this By-Law, or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated this 13th day of November, 1919.  
L. J. MULLOCK,  
Clerk, East Flamboro Township

STOCK—In loving memory of William E. Stock, who died suddenly December 9th, 1918.

It's just a year ago today  
That our dear loved one passed away;

We miss his kind and thoughtful word,

But know he's resting with the Lord.

He always had a willing hand  
To help along his fellow man;

His step was firm, his conscience clear,

The thought of church was always near.

When days are dark in this wordly race

His example will brighten a saddened face.

Never will be forgotten by Wife,  
Daughter and Son.

### Nelson

The Farmers Club held their annual meeting on Monday night and the election of officers and report a successful year.

The Box Social was a big success, most of the intended girls were purchased by the right boys, the boxes were very nice and sold from \$1.25 to \$5.75.

The wind done considerable damage around Tansley unroofing barns upsetting driving sheds, the Presbyterian church had the chimney blown off, the English church at Lowville had the roof removed.

Mr. and Mrs. T. M. Alton attended the funeral of Mrs. Sidney English of St. Catherines.

Mr. and Mrs. Blake Springer intend to move to Toronto in the near future, where they have purchased a house.

### Greenville

Mr. David Black of Dakota and Mr. Jas. Black of Copetown were calling on friends here on Monday.

Miss Blanche Surerus is spending the week in Dundas with her aunt Mrs. S. Tudor.

Mr. and Mrs. W. Hopkins entertained a number of friends from Hamilton with progressive euchre on Wednesday evening of last week.

Mrs. G. H. Greene, of Waterdown spent the week end here with her sister Mrs. J. Surerus.

Mr. Maxwell Walker and Miss Isabel Surerus were quietly married in Hamilton on Saturday last.

The professor of elocution was instructing the young man in the art of public speaking.

"When you have finished your lecture," he said, "you must bow gracefully and leave the platform on tip-toe."

"Why on tip-toe?" queried the youth.

"So as not to wake the audience," replied the professor.

**Oil Cheaper Than Coal.**  
The high price of coal and the prospects of it becoming dearer still has resulted in a big demand for oil fuel. It is now cheaper to use oil fuel in ships and factories than it is to use coal. Perhaps before long we shall be using it in our homes, too.

The great coal strikes of 1911 and 1912 made hundreds of big firms turn towards oil, and it is a remarkable fact that once oil fuel has been used coal is abandoned forever.

Oil is not only cheaper than coal, but it is cleaner and less trouble. It is ever so much easier to transport and to supply to engines. A few feet of tubing and a main line express engine, for example, can take in 600 gallons of oil fuel in from four to five minutes. Oil, too, has the advantage that there are so many big deposits of it in various parts of the world that it is not affected by strikes so much as coal.

When proper oil-burning machines are used, there is no smoke attached to it at all, and factories using oil have no tall chimneys, no piles of ashes, no tedious shovelling of coal into the furnace. Just a few pipes, that's all. A few taps regulate the oil supply to the boiler furnace, and, in fact, with oil the grimy coal stokers can be replaced by girls in spotless white caps and aprons.

**Vet. Could Tell Him.**

A member of Parliament called another an ass in the sacred precincts of the House. Unparliamentary language being forbidden, the offending M.P. had to apologize and withdraw his statement. He didn't like doing it. "I withdraw," he said very stiffly; "but I maintain that the honorable member is out of order." "How am I out of order?" asked the other man heatedly. "Probably a veterinary surgeon could tell you," was the retort.

**Not So Dull for Prince.**

In Western Canada they are telling this story about the Prince of Wales. Some one was complimenting him upon the fact that he had set up his own bachelor establishment in London.

"Yes," said the prince, "it's been quite dull at home in the evening. Father and mother always read, and sister Mary knits."

**Point Blank.**

Jack—And when I proposed at the dance she asked for time to think it over. What do you suppose she did that?

Bess—Well, a girl naturally hates to think of disagreeable things while enjoying herself.

**Two Explorers.**

Martin Killin and Adelbert Gumaer, the last two members of Vilhjalmur Stefansson's Canadian Arctic Expedition to leave the Arctic, are reported aboard the trading schooner Anna Alga, which is working its way toward Nome.

Killin and Gumaer were not members of Stefansson's original party. They were members of a party Storker Storkerson, Stefansson's lieutenant, led on to an ice-free last year in the hope that the Arctic drifts would carry the floe westward to Siberia. After spending eight months on the ice the men found themselves about fifty miles from their starting point. They all came ashore and Storkerson and one other member headed overland for the outside world. Killin and Gumaer boarded the Olga and started for Nome.

Storkerson's trip outside was his first in eleven years. He has been an explorer, trader and trapper along the northern rim of the continent ever since 1908. He expects to associate himself with Stefansson in handling the Canadian Government's proposal to stock the northern tundra plains with reindeer.

**Dogs Eat Esquimo Church.**

In the Hudson Bay country, where the dogs are half wolves, a band of these famished animals actually ate up a church. The Esquimo Christians had built a tiny chapel to hold twenty people. But the poor converts did not long enjoy the little church, of which they were so patriotically proud. The building was of whalebone, an edible substance, and one Sunday the pagan dogs ate every morsel of the sacred edifice.

**Belgians Decorate Graves.**

For the first time since the war the Belgians were allowed to commemorate the death of their fallen heroes on November 1st. All Saints' Day was celebrated with great pomp in Brussels. Burgomaster Max deposited flowers on the graves of Belgians, Canadians, British, French and Russians. Wreaths were also deposited on the grave of Van Campenhout, the composer of La Brabantonne, the Belgium national anthem.

**Old Hats Exported.**

Thousands of hats discarded by English women are exported every year to Brazil, where they are eagerly bought by the Indians. The feathers and other ornaments on the hats are taken by the men, and the bare straw shapes given to their women-folk.

**Getting Together.**

A youth named Beer was arrested the other day for breaking into a public-house. The magistrate decided that the proper place for him was the jug.—London Punch.

**Peter Mitchell**

**WATERDOWN,**

**ONTARIO**

It was a grand review of German troops at Potsdam. The Kaiser called out to the officer commanding the Prussian Guard in a voice loud enough to be heard by all the distinguished guests around: "Pick me out a hundred men from the Prussian Guard." Then, taking the arm of our late King Edward VII, he escorted him round the hundred men, and said bantering-ly: "Well, do you think you could find a hundred men in England to beat those?"

"I don't know about that," promptly replied the late king, "but I could easily find fifty who would try."
