

The Weekly Observer.

HILLSBORO, N. B., June 6, 1889.

Observations.

The Pennsylvania Horror.

One of the most appalling disasters of modern times is that which befell Johnston and other Pennsylvania towns last week. Heavy rains caused the breaking of a reservoir above Johnston, when the flood of water let loose thereby swept down upon the surrounding country destroying everything within its reach.

The exact number of lives lost by the disaster will never be known but a despatch from Lynchburg, Va., June 3, stated that over 1000 bodies had been found and yet thought the remains of thousands more rest beneath the debris above Johnston bridge. The latest estimate places the number of victims at about 15,000. The disaster is too horrifying for contemplation and its magnitude cannot be grasped by mind of man.

Domestic Election.

Voters of Albert should bear in mind that Judge Wedderburn is now engaged in revising the list of voters for this county, under which the next Dominion election will be held; and that it is important that they should communicate with the Judge or with Mr. A. W. Bray, at Hillsboro, by other means ascertain whether their names are duly entered, and that they should not wait until it is too late. Persons on the list should see that their names are continued if they are entitled to vote; and each should notify the officers immediately of his present occupation or calling, as required by the amended law passed during the last session of Parliament. This must appear on the lists now being prepared. Any change in the circumstances of the voter, as to his right to vote, should be communicated at once. Deaths, removals from the district, change of residence, transfer of property, and items of information would greatly facilitate the perfecting of the lists and no doubt would be gladly received. It is important, therefore, that each voter make this a matter of personal concern, and as soon as possible, endeavor to find himself debared from voting when he desires to do so, and merely in consequence of his own neglect.

Mount Allison.

Close of a very Successful Term.

The closing exercises of the Sackville Methodist Institutions took place last week and were as usual very interesting and instructive. On Monday the closing exercises in connection with the Mt. Allison were held. An attractive programme consisting of music, recitation, an essay, oration, debate, etc., was very successfully carried out. A new and pleasing feature of these exercises was that part of the music was rendered by students of the Academy.

The Prize Winners.

The following are the prizes which were awarded at the close of the exercises: The alumni classical scholarship—Harry A. Woodworth. The alumni mathematical scholarship—Amos Chapman. For eloquence and composition—1st prize, to J. W. Turner, 2nd, E. J. Dobson. For English—1st prize to Frank Allen; 2nd to L. Wasie. For penmanship—Fred Tingley. For primary arithmetic—Willie Sprague.

A Large Number Deceased.

A large number deceased honorable mention, among whom is named R. Townsend, H. Woodworth, Alex. Allen, F. Matham, Raymond Archibald, L. Bishop. At the conclusion of the programme the students presented to Principal Davis the following address, beautifully illuminated by Miss Hart of the ladies' college, and framed:

T. T. Davis, B. A., Principal of Mt. Allison Male Academy, Sackville: Dear Sir—We the members of the Mount Allison academy debating society beg your acceptance of this address as a token of our esteem for you and our gratitude for the faithful and impartial manner in which you have ministered to us as a teacher and friend, while we have been under your guidance. We have every reason to believe that you have sought at all times our best interests, and we in return offer you our sincere regards, praying that you may long be spared to adorn the position which you so admirably fill.

Monday afternoon the musical recital of the ladies' college was held in Music Hall and was highly appreciated by the large audience in attendance.

The ecsthetic exercises by the gymnasium class of girls also attracted much attention.

Rev. Fred Wright delivered the theological union lecture which greatly surprised his hearers. The same correspondent in referring to the lecture says: The theological union lecture by Rev. Fred Wright, was a sort of bombshell in the ranks of the Methodist clergy. Mr. Wright maintained that the second coming of Christ will precede the millennium and supported his contention with quotations from Christian fathers, apostolic writers, and Jesus Christ himself. He argued that what is now regarded in many places as the orthodox theory that the second coming cannot be expected before the millennium is a misconception of the scriptures. In the course of his address he referred to the Argument of Shedd,

whose work on theology is a text book at Mt. Allison, and contended that this author was both inaccurate and unaided in his citations from early writers on this theme, though in the main he was a most able writer.

On Tuesday the closing exercises of the Ladies College were held, when an interesting musical and literary programme was very successfully carried out.

At the close of the programme Rev. Principal Borden made his annual report. He stated that during the past year the attendance was large, 148 students enrolled, and 86 resident. Educational work satisfactory in every department. In the literary 87 out of 73 were placed in the first rank. A short-hand and typewriting department was opened in December last under the management of Miss Wells; those of the students who applied themselves well to the study having gained considerable proficiency. He recommended the acquisition of this art, as those who mastered it sufficiently were thus enabled to earn their own living and it was desirable that the L. C. should be able to give a practical as well as ornamental education. It is to be hoped that Miss Wells will be given every encouragement by the management in her important work.

There were 4 graduates in Arts, one in Music and one in Fine Arts.

On Wednesday the convocation of the University of Mount Allison College was held in Stilling Hall. The graduating class was so large that only a few of the orations could be heard. The degree of B. A. was conferred upon 17 young men and of M. A. upon one.

Shediac as a Summer Resort.

"Its Present and Possible Attractions."

Shediac is prettily situated on Shediac Harbor and is surrounded on all sides with beautiful scenery. Looking north and west we see a magnificent sheet of water stretching as far as the eye can reach. Nearly a mile distant from the shore rests the small, though somewhat historical, "Little Island." A little farther appears, conspicuously, the Beacon Lights along the shore of Shediac Island. In the north-west is seen Shediac Cape with winding shores, fine trees, verdant fields, or farther to where the adjoining bay of "Grand Digue" rises precipitously in view with its neat little cottages and chapel dotting the shore. While towards the east looms up the extensive dock of P. duChene, where may be seen the P. E. Island steamer daily steaming to and from the harbor, and also numerous sailing vessels and pleasure boats, with their brilliant flags floating gently in the breeze.

With respect to the climate, we need but say that it is unsurpassed, in this province at least, having all the essential qualities for health, including pure, bracing and refreshing element known only in country air, and which alone might prove attraction enough as a "summer resort." We all know how glad the city and town people are, to hasten from their close, stifling, crowded streets, to some cool sequestered spot, and why should Shediac not be the place for that? Perhaps the principal and most attractive feature is the salt water, being excellent for bathing, boating, etc. Bathing houses are conveniently situated along the shore, and, in connection with the Hotel, being especially so. It is built upon an old saw out in the water and connected with the mainland by a wooden walk, thus presenting rather a picturesque appearance. There the bathers are enabled to step right into water deep enough for swimming, instead of wading out as they do from those on the shore. Close by is a small wharf, built out in the water and to which numbers of pleasure boats are attached in command at all times and where the pleasure seeker is able to exercise his skill in sailing a boat over "the billowy foam," or strengthen the muscle, though the hands in rowing. The beach is hard and sandy, so that when the tide is out, horses and carriages are frequently seen winding slowly along and enabling the occupant to drink in the "salt sea breeze" in a very leisurely and comfortable manner. The beach also affords much amusement and attracts the attention of children in digging the soft shell clams which abound in great quantities. Masked fishing is attractive especially to the male sex, who always do light in such spots. We have many other features equally attractive and suitable to the most fastidious taste; for instance our woods where we are at liberty to ramble, our fields to roam over and where we can at leisure gather the ferns, masses and wild flowers growing in such profusion, and many pretty places for picnics, charming enough in themselves to attract the most aesthetic eye, and numbers of pleasant drives in which all lovers of scenery may delight. Perhaps one of the prettiest and most interesting drives is the road which goes into Smith's mill, about 2 miles. Driving along this one gets an excellent view of Shediac River winding in and out with the trees overhanging its banks. This river and road became quite famous a few years ago from their connection with the McCarthy murder and has consequently attracted many visitors. I may also mention the base ball club, who have a large field where they play every evening and which does not fail to draw the attention of many persons interested in such a game.

In regard to its possible attractions, I suppose there are many which might be added and tend to its improvement and making it popular as a summer resort.

From the fact of its being centrally situated, trains coming and going at all hours convenient for business men, and but a few hours drive from our principal city and town is much in its favour. The place is provided with an excellent hotel, where the general proprietor has everything for the convenience, comfort and pleasure of his guests, having a "lawn tennis and croquet grounds," and every day a large wagon is seen driving off from the hotel filled with women and children, who are bound for the shore. The improvement of our streets, by having decent sidewalks, and planting of trees, would do much towards beautifying and would prove the most attractive of anything I know of, not only to visitors but to natives themselves. We might also have a public garden, where could be made pretty walks, flowers growing, grounds laid for lawn tennis, croquet and all kinds of athletic sports, and to be added to this a band which would send forth "sweet strains of an air" upon the "balmy green air," would indeed heighten the effect. Our driving park, if properly attended to is given in and nicely fitted out, bids fair to become a great attraction in the place. Perhaps if we could but import a few young men in the place, we need hold out no greater inducement to the female sex. As my rate I think that if the people

here were a little more energetic and looked to the interest of the place, which with its many advantages and attractions now and what it is possible to add to it, might easily be made the Saratoga of New Brunswick.

Letter from Moncton.

The Short Line—Scott Act—Arbitration—Frost—Excursions, etc.

Mr. Editor:

It is some time since I sent you any Moncton items and perhaps a few might be of interest to your readers. Moncton has still strong hopes of the short line coming through this section despite the effort made to kill it by Senator McCallan and his associates, and Moncton will no doubt become a vast railway centre. The price of land is still going up higher and higher every year and new tracts and farms are being laid out in streets and lots to accommodate the demand.

The Scott Act is in full force and effect and the rum gussers are in full force round the various bars and seem to be effected also with what they get there. The query seems to be why it takes so much more evidence to convict some rum sellers than it does others, yet such is the case. It is rumored that the town marsh is connected in some way with the rumshops in town. For some years he has acted as if he was running both sides of the question. We are fast becoming Americanized.

The Baetouche and Moncton Railway advertised and ran an excursion party yesterday to and from Baetouche, and the steamer Arbutus, of the Petitoiside Steamship Co. Line, also took a load of excursionists from Moncton, and towed the schooner Mary O. on Sabbath morning, so you see that Albert Co. is not well served although the Salvation Army are doing their best for it.

The Queens birthday passed off very quietly here. There was an excursion to Shediac, that nearly half of us were very queer cold, and one down the river in summer Arbutus, some of whom got their clothes spoiled with the beautiful Petitoiside mud, and others were fagged out trying to climb the rocky river banks to try and find some inhabitants and yet failed in doing so. One young lady remarked that the Petitoiside mud had better elugnic qualities than any mud man of her acquaintance ever possessed.

We had a heavy frost here last night. It killed apple blossoms and some other tender garden plants.

The Arbutus machinery met with another mishap towing the Mary O. down the river on Sunday. This is the second break down in succession while towing vessels from Moncton. It is said the machinery is too tight for the purpose intended.

On 7 about 5 or 6 availed themselves of the excursion to Baetouche yesterday and the promoters of the several churches denounced it in the strongest terms.

FAIR PLAY.

May 27th, 1889.

Young Peoples Entertainment.

An Important Suggestion.

Mr. Editor:

We cannot refrain from expressing the pleasure we experienced in being present at the young peoples entertainment held in the vestry of the first Baptist Church on Friday evening last. Does it not strike us all at times that in giving advice, more especially to the young, which consists largely in "do's" without regard to the surplus energy and spiritiveness of youth that we are but exercising that faith which without charity availed nothing, and that the practice of kindness and overt acts of beneficence are of more importance in keeping our youth from the habits of vice than tedious lectures and proxy precepts? And while we would not vanish exhortations and sermons, we would as best relegate them to a "do's" and make way for these with that active energy and generous flow of the warm "milk of human kindness" necessary to constitute a bond of union, and draw into closer fellowship the great brotherhood of mankind. Methinks if such entertainments as we have here referred to were of monthly occurrence without any door fee they would be a great benefit to the young men and boys of the village. It is true that the greatest drawback in conferring benefits of this kind is the ungenerous conduct of our boys, but does not this show the greater need of a reformation in this very direction? And how is the evil to be cured but by continuing these entertainments until our boys come to see and hold in just contempt that boresome air that is now so annoying to those who are trying to benefit them.

Yours, etc., FANNY.

Hillsboro, N. B., June 3rd, 1889.

Albert Co. Sabbath School Association.

A meeting of the Executive Committee of the Albert Co. S. S. Association was held at Hillsboro on Monday evening, Rev. Mr. Camp, A. W. Leman, Chipman Bis' and John I. Steeves were present. Letters were read from several members of the committee, regretting their inability to be present. A communication was read from the Elgin S. S. writing the association to hold the next meeting with them. It was decided to accept the invitation. The time of holding the association was not fixed, as the Provincial executive have secured the services of Mrs. Crafts, a noted S. S. worker, to make a tour of the province, attending each County association. The time of holding the association in Albert will therefore be fixed by them, but it is expected the meeting will be held about the middle of October.

Mr. Chipman Bis' Corresponding Sec & Treasurer asked to be relieved of the duties of his office, as he is shortly to leave the Province. His request was complied with, and Mr. John I. Steeves was appointed to the office for the remainder of the year. Regrets were expressed by the committee that Mr. Bis' is to leave and at the loss they will sustain by his removal.

Com. Moncton, N. B.

Little Women

are as a rule possessed of happy dispositions; but when their sweet dispositions become sour and irritable, in consequence of the long train of distressing features peculiar to female complaints, they are then not companionable to say the least. It is the duty, not only of little women, but of all women so afflicted, to bring about the correction, and immediate removal, of these painful maladies. This is easily accomplished by the use of Dr. Pierce's Favorite Prescription, the great specific for "female weaknesses."

HOSPITAL REMEDIES.

What are they? The growth of intelligence in medical matters has given rise to a demand for a class of genuine, reliable medicine, the efficacy of which is not in the least questioned, and which is ready for use at a single thought. To supply this demand, the following list of remedies has been compiled. They are the favorite prescriptions of the most famous medical practitioners of the day, gathered from the hospitals of London, Paris, Berlin and Vienna. Prescriptions which cost the patients of these specialists from \$25 to \$100 are here offered prepared and ready for use at the nominal price of one dollar each. Not one of them is a cure all, each one has only the reasonable power of curing a single disease, and each one keeps its contract. Sufferers from Catarrh, Disordered Lungs, Bronchitis, Asthma, Consumption, Rheumatism, Dyspepsia, Liver and Kidney Complaints, Fever and Ague, Neuralgia, Female Weakness, Leucorrhoea, should send for this list of Hospital Remedies, 303 West King St., Toronto, Canada. If your druggist does not keep these remedies send for them and we will send direct.

Local Matters.

HEAVY rains this week. VEGETATION advancing rapidly. RIFE BERRIES—Addie Jump left a ripe strawberry at the OBSERVER office last evening...

GRANTED DIPLOMAS—Manning M. Tingley, Anby, Melrose, of Albert, and Charles H. Carruth, of Riverview, have been awarded the college diploma from St. John business college.

WANTED—Immediately a steady boy, with fair education to learn the printing business. Apply to the OBSERVER PUBLISHING CO., Hillsboro, A. Co.

STUDENT PRACTICER—Mr. Carvill Steves of Salem, A. Co., and a graduate of McHenry Hall, Toronto, is to occupy the pulpit in the Hillsboro Baptist Church next Sunday evening.

A. S. R.—It is rumored that A. E. Killam, M. P. P., has purchased the Albert Southern railway and will commence work on it in a short time.

OWING to certain repairs that are being made to the railway between Riverview and Harvey, the Albert trains have only gone as far south as Riverview for some days.

VIOLIN MUSIC—Mr. G. Dobson at Dorchester, and a student at Mt. Allison, came to Hillsboro yesterday. If he meets with sufficient encouragement he will visit this village once a week during vacation to give instructions in violin playing.

FIND—Two or three young men were arrested last evening and fined for disturbing the concert last Tuesday evening. We trust this lesson will take effect and be the means of improving the manners of some of our young men and boys who are inclined to rowdiness.

My daughter was greatly troubled with Scrofula, and, at one time, it was feared she would lose her sight. Ayer's Sarsaparilla has completely restored her health, and her eyes are as well as ever, with not a trace of scrofula in her system.—G. King, Killingly, Conn.

BURNED BY CARBOLIC ACID—On Wednesday morning the two year old child of Alfred Birkie, of Hillsboro, was very badly burned by the upsetting of a bottle containing carbolic acid. The breast, abdomen and legs are severely burned and the little sufferer lies in a very critical condition.

THE vocal organs are strengthened by the use of Ayer's Cherry Pectoral. Clergymen, lawyers, singers, actors, and public speakers find this preparation the most effective remedy for irritation and weakness of the throat and lungs, and for all affections of the vocal organs.

TO LEAVE HILLSBORO.—H. F. McLaughlin Esq., intends to leave Hillsboro next Friday morning for Campbellton where he will enter into partnership with William Murray, a rising lawyer of that place.

WHAT IS NEEDED—Hillsboro should have a stipendiary magistrate and one or two night policemen to preserve order on our streets. There has been considerable noise and rowdiness lately, and ladies cannot pass along the streets evenings without being insulted or shocked by the obscene language of certain street corner loafers.

IMPROVEMENTS.—Wm. Steeves of Weldon has erected the frame for a large barn to take the place of the one destroyed by fire a few months ago.

Wm. Clark has bought a piece of land from Israel Steeves, of Demolville Creek, and is erecting a house thereon.

Edgar West of Lower Hillsboro has purchased a building lot from D. Marshall and has already commenced the digging of a cellar over which he intends erecting a cottage.

NEW TIME TABLE.—Next week there will be some important changes in the running of the Albert trains as will be seen by the time table published elsewhere. The changes cannot but please the patrons of the road as the trains will run more speedily than at present and the connections with the I. C. R. will be more satisfactory.

THE WEEKLY OBSERVER AND THE Canadian Agriculturist AND HOME MAGAZINE without a rival in Canada, and unsurpassed in America, for the Stock Raiser, Dairyman, or Fruit Grower.

We are enabled by special arrangement, to offer that splendid publication, the Canadian Agriculturist, clubbed with this Journal for the small sum of \$1.25 a Year.

(Subscribers may be commended at any time) The Canadian Agriculturist is a large 36-page Journal, neatly illustrated, and printed in a first-class manner. In amount and practical value of contents, in extent and value of correspondence, in quality of paper, style of publication, it occupies the FIRST RANK.

It is believed to have no superior in either of the three chief divisions of FARM CROPS AND PROCESSES, HORTICULTURE AND FRUIT-GROWING, LIVE STOCK AND DAIRYING.

While the Canadian Agriculturist contains all the most important of all questions—When to Buy and When to Sell. It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of a term, a Live Agricultural Newspaper.

Although the Canadian Agriculturist is larger than any of its contemporaries (its size being from 20 to 36 pages monthly, according to circumstances), the terms are

\$1 a Year, strictly in advance.
