PRICE—TWO CENTS.

MEETING IN CITY PARK FOR THE I.L.P.

Large Gathering Listened to Interesting Address by Prominent Speakers.

Quite a large gathering of citizens was present in Montebello Park last night and listened with considerable interest and close attention to the address delivered by Mayor McBride, Brantford and Mr. Allan Strohmer, M.P.P. of Hamilton. Mr. Cheevers, president of the I.L.P., who had previously appeared before an audience in Merriton, Mr. Strohmer will speak in Port Dalhousie tonight.

Mayor McBride is a man of commanding platform appearance. He is rational and moderate in his speech and conveys the impression of a man who believes in the working class getting the best wages and living conditions they can but he approves of these things being secured along constitutional lines. He strongly scored profiteers and said that the money of the country and its control was in the hands of a small group of financiers who grew rich out of heavy interest payments. He called this group the blunderbuss and said that the working men of this country were entitled to a larger share in the wealth they helped to produce and they were going to get it.

Mr. Strohmer wandered considerably in his address and did not get down to cold hard facts and reasoning as well as he can when he wishes. He reviewed the hard times that New Zealand had once known and said that the late premier Dess Selden and Ward, out of the ranks of the workers had risen and saved the State. They were honest, courageous men who appeared to the sense of the working classes. What had been done in New Zealand could be done here. He said that the workers should have a heavy duty and interest charges. Mr. Strohmer discussed the high cost of living and the forces among the "big fellows" that were taking in the profits. The working people produced the wealth of the country and were entitled to have a greater voice in the government of the country. They should give Grit and Tory politicians both a wide berth and get a man who was friendly to labor elected to the Legislative halls.

Both speakers were listened to with close attention.

PRINCE TO FLY IN CANADA

Toronto, June 11.—The Prince of Wales will be one of the first to fly in Canada's new flying circus to be inaugurated during the C.N.E. The Dominion Government have asserted to the plan for organizing a flying circus, which will be made up of 250 aeroplanes that have either been surrendered by the Germans or have been presented to the Dominion by the Governments of Great Britain, France and Italy.

WOMEN MAKING HEADWAY

SPRINGFIELD, June 11.—Illinois is the first state to ratify the woman suffrage constitutional amendment. The General Assembly approved the measure yesterday. The vote in the Senate was unanimous, while in the House the vote was 132 to 3. At Madison the Wisconsin Legislature yesterday ratified the Federal suffrage amendment, the Assembly voting 64 to 2 and the Senate 23 to 1.

AUSTRIANS ASK JOINT PROTEST

PARIS, June 11.—An Austrian delegation at St. Germain has asked Germany to protest to the allies against the rigor of the peace terms presented to Austria. The Havas Agency says it is informed from a reliable source. The reported action of the Austrians is unfavorably commented upon here.

CHANCE FOR TRADE IN JAPAN IS REPORTED GOOD

Replying to an enquiry from the Canadian Trade Commission at Ottawa, regarding possibilities of trade in Canadian fish in Japan, Mr. A. E. Bryan, Trade Commissioner at Yokohama, says:

"Wholesale grocery travellers from other countries come out once a year or so to show the various brands; they bring their samples with them and quote right on the spot. So far as the writer is aware, there has never been any Canadian wholesale grocer or traveller come to Japan for this purpose. Today, when I was in one of the stores an American traveller had about half a dozen large trunks open and was displaying as well as taking orders for the various lines which he carried. Everything looked attractive and he did some good business. This should be done by Canadians. Fish packers should combine for export and should send a traveller out once a year who would carry their goods, as well as perhaps a general line of Canadian groceries. Nothing can be done here without samples and prices f.o.b. Vancouver or preferably c.i.f. Yokohama. Canadian packers should come out and study the market not only here, but in China, Korea and other eastern countries."

ALL MUST ARBITRATE

Halifax Builders Will Not Arbitrate With Five Unions While One Declines.

HALIFAX, N.S., June 11.—The employers in the building trades decided that they could not arbitrate with five of the unions while one declines. They agreed to pay men who return to work the advanced wages they offered, the final amount payable to be adjusted after the arbitration award is made.

DEATH OF MRS. PATTERSON

There passed away at the family residence on Tuesday night, Caroline Ann McDermott, beloved wife of William Patterson, at the age of 77, following a brief illness. Deceased who was a general favorite with all she came in contact with, a devoted member of St. George's Church, and took an active part in every organization that led to good causes. She was born in this city, and during her useful walk of life was noted for her kindness shown at different homes where trouble or sickness prevailed. Besides her sorrowing husband she is survived by one daughter, Mrs. William Forster, and one son, Hugh C. Patterson, both of this city. Three sisters, Mrs. Joseph Smith, of Niagara Falls, Ontario, Mrs. George Booth, Detroit, Mich.; Mrs. Albert Honsinger, of this city, and one brother, Mr. Charles McDermott, also of this city, survive.

POLICE COURT

Harry Houghton, Norman Shaver, Alfred Wright, Harvey Wood, were before the magistrate this morning on a charge of creating a nuisance in the vicinity of the General and Marine Hospital. They were given a severe lecture by the magistrate and ordered to keep away from the corner and vicinity of the hospital.

Alfred Hudson was this morning before Magistrate Campbell on a charge of having a dog at large which bit Harris Thurson on the leg. He was fined \$5.00 and cost and ordered to have the dog destroyed.

WOMAN DEAD; SON HELD

Mrs. Margaret Lennox, Ottawa, Found Badly Cut and Bruised.

OTTAWA, June 11.—Mrs. Margaret Lennox, living at 395 Arlington Avenue, was found dead in bed with her face badly cut and bruised about 7 o'clock yesterday morning. Her son, Wm. Lennox, aged 40, a returned soldier was arrested and is being held on a charge of vagrancy. Her husband Robert Lennox, who did not live at home through the alleged quarrelling proclivities of his son, was informed by his son that the mother was slep. When he went to investigate he found her dead.

FRENCH GENERAL TO HEAD CZECH ARMY

PRAGUE, June 10.—Gen. M. C. J. Pelle of the French army has been appointed to the Supreme Command of the Czechoslovak fighting forces by President Masaryk. Gen. Pelle, in 1916, was Chief of Staff to Marshal Joffre. The Bohemian press is greatly pleased over the appointment.

BIG EVENT FOR JUNE

Excellent Programme Being Arranged for Chautauqua to be Held on Armoury Grounds.

At a largely attended meeting in John Gordon's office last night of the Chautauqua Association the arrangements of the special committee were confirmed giving all profits over and above expenses to the Building fund of the G.W.V.A.

The commencements so far are quite different from last year as already there is a brisk demand for tickets.

The programme far exceeds anything yet arranged by any Chautauqua.

The event will be held on the Armoury grounds from June 18th to 24th afternoon and evening. The Junior Chautauqua will meet directly after the afternoon performance. The local arrangement of this department is under the direction of Mrs. Cameron of the Library.

HYDRO-RADIALS WANTED SOON

Hamilton Controllers put Resolution Before Council.

HAMILTON, June 11.—The board of control was asked yesterday to pass a resolution requesting the Hydro-radial association to proceed with the construction of the Hydro-radials as soon as possible. It was stated that only survey work could be done this summer, but unless this resolution was passed and an order-in-council secured, not even this would be proceeded with.

It was explained that the municipalities which passed the Hydro-radial bylaw would, in the event of the Hydro-radial association, have to assume the guarantee of Saltfleet and Plamboro, which did not pass the bylaw. In this connection it was said that even if this were done it would not be likely that the municipalities would run the risk of paying more than the present guarantee, as the estimates were high and would probably cover the guarantee. Saltfleet and Plamboro would have made had they passed the by-law.

The labor controllers were favorable to recommending the adoption of the resolution, but Controller Jutten thought they should know what additional guarantee Hamilton would be required to make before taking action.

The board decided to send the resolution along to the city council.

SAY COUNCILS COMING TO AID WINNIPEG MEN

Report Given Out by Strike Executives—Car Service to be Resumed.

WINNIPEG, June 11.—There was no outward disposition on the part of the union leaders to call off the sympathetic walk-out yesterday. The strike executives gave out a report that a number of Canadian trades councils "were preparing to come to the assistance of the Winnipeg workers."

Street railway officials informed the city that they would take action on the request made by the City Council that street car services be resumed immediately. Collapse of the sympathetic strike does not mean the end of Winnipeg's strike problems; however, the dispute between the Metal Trades Council, the largest union body in Winnipeg, and the industrial employers is considered a separate issue.

The Government postal service is close to normal.

Striking employees whose places were filled have asked the Government to reinstate them. The provincial telephone service is being maintained on a nearly normal basis by volunteers and a few veteran employees.

WORKERS RETURN

It was stated at the Board of Trade that from 2,000 to 3,000 workers of various crafts had gone back on their jobs or were conferring with their employers. Several hundred union men are on duty in the three

SITUATION UNCHANGED

Up to this afternoon there was nothing new in the situation of the strikers who went out from the metal trades in five or six of the local factories. The Mayor who was asked to act as an intermediary between employers and employees to bring them together in conference was informed by the manufacturers that while they had no objection whatever to meeting the men it seemed useless, for there was little that could be arbitrated.

SAYS STRIKE IS NOW INEVITABLE

Telegraphers to Walk Out Today, Says Koenenkamp—Intimates Surprise.

CHICAGO, June 10.—Mr. Koenenkamp today sent the following telegram to Samuel Gompers, President of the American Federation of Labor, which is in session at Atlantic City: "The commercial telegraphers of the United States will strike tomorrow for the fundamental rights to organize into trade unions and to bargain collectively. The attitude of the wire administration under Burleson and his restoring President Carlton to control of the Western Union for the purpose of destroying us, make this strike inevitable. You are aware of the promises made to us by the government. You know how they were violated. Mediation, conciliation, and arbitration have not been available for us, because the employers doubt our strength and our rightness; and will surprise the action by tomorrow's response. I earnestly ask the convention now in session to take some action to help us destroy the worst labor atrocity this country has ever known."

PARIS STRIKE ONCE MORE AT ACUTE STAGE

Labor Extremists Seeking to Strike Into Political Movement.

PARIS, June 11.—The labor crisis, which was suspended over the Pentecost holidays, became acute again today. Numerous meetings were to be held by labor organizations, including the metal workers, the Paris railway men, the National Council of Miners' Federation, the Executive of the General Labor Federation, and the Congress of Registered Seamen. It is expected that the meetings will show whether the extremists or the Conservatives will control the unions. The extremists are seeking to strike into a political movement, and the Conservatives condemn such a policy as playing into the hands of the government.

TO IMPORT HORSES

Animals May be Allowed into France Free.

OTTAWA, June 11.—The Canadian Trade Commission, has information from an authoritative source in France that the Ministry of Agriculture has permitted the importation of horses into France free. All animals are subject to sanitary inspection and must be accompanied by a certificate of origin stating freedom from contagious illness. The trade commission adds that there is now a possibility of a large trade in horses between the Dominion and the French Republic as the class of horse which has been bred in Canada in the last three or four years, which had originally come largely from French stock, especially the Percheron, would be most acceptable for French use.

OFFERS \$500 REWARD

The Police department of this city is announcing a reward of \$500 to any person who will apprehend the man who murdered one Sergeant in the Engineering & Machine Works in the east end of the city sometime ago, during his night watch.

COUNCILS HEAR RADIAL SCHEME

Necessity of Resolution on Behalf Municipal Bodies Being Presented by Mr. Heuston of the Hydro Staff.

Mr. Heuston of the engineering staff of the Hydro Electric Power Commission appeared yesterday before the township councils of Clinton Louth and Grantham and outlined what is now necessary to be done to get the proposed hydro radial railway scheme between Port Credit and St. Catharines under way. An outline of the situation was partially given in The Journal yesterday. Further facts will be disclosed before the City Council of St. Catharines at an early date.

NECESSARY TO PASS RESOLUTION

During the last session of the Ontario Legislature there was an act passed validating certain agreements between the municipalities and the Commission and setting forth other requirements that are to be met. It is now necessary for municipal councils to pass resolutions saying that they are prepared to go into the construction of the line. The Councils thus far addressed express their approval of the needed legislation and some have already passed the resolutions. If all the municipal councils between Port Credit and this city pass these resolutions the Commission can go ahead at once with the final surveys for the railway. There is much yet to be done in connection with locating suitable spots for terminals, branch lines, factory spurs, etc.

CROSS WINNERS ARE BOTH DEAD

Highest Award for Bravery Announced in Cases of Estob and Sayer.

LONDON, June 11.—Victoria Crosses have been awarded to an officer and man whose gallant deeds were performed in time of war and are only now gazetted.

One was the late temporary Colonel Wilfrid Estob, Manchester Regiment who displayed conspicuous bravery and devotion to duty during the operations at Manchester redoubt near St. Quentin, on March 21, 1918.

At the opening of the great enemy offensive he encouraged his men all day long, and actively participated in the defence. All the time he showed the most fearless disregard for his own safety, though he had been twice wounded. The redoubt was surrounded in the first wave of attack, but by means of buried cable Col. Estob was able to assure the brigade commander "The Manchester Regiment will defend Manchester Hill to the last." The post was substantially overcome by a vastly superior force. Col. Estob was killed in the final assault, having maintained to the end the duty which he impressed on his men. "Here we fight, here we die."

The other Victoria Cross winner was Lance Corporal Sayer, Royal West Surreys, who on March 21, 1918 held the flank of a small isolated post at La Vergerie for two hours, despite incessant attacks. Owing to the mist the enemy approached past both sides within thirty yards before discovered. Though attacked by rifle and machine gun fire, bayonet and bombs, Sayer repulsed all attacks, killed many and wounded others. Though continuously exposed to fire he skillfully held the post until, early in the afternoon, he was killed and himself wounded and captured. Sayer subsequently died as a result of his wounds.

REVOLT AGENCIES ARE OPERATING IN CANADA

Hon. Hugh Guthrie Moves Adoption of Report of Committee on Sedition.

Ottawa, June 11.—Hon. Hugh Guthrie moved yesterday afternoon in the House that the Commons concur in the report of the special committee on sedition. The recommendation had no intimation of effecting any recognized labor organizations. Their recommendations were not a result of the Winnipeg strike. The report would not have any effect on labor organizations.

THREE AVIATORS KILLED

BUENOS AIRES, June 11.—Three aviators were killed yesterday in a collision between two airplanes at the military flying grounds here. The machines met while they were flying at an altitude of 900 feet.

THE WEATHER

JUNE 11.—The area of high pressure is now centred north of the St. Lawrence Valley and extends westward over the great lakes and eastward over the Maritime Provinces. Showers have occurred in many parts of Saskatchewan and Alberta.

SOLEMN SERVICE OVER REMAINS OF BOY

Rt. Rev. Monsignor Officiates at Solemn Mass for Late John Cartmell.

Solemn and impressive were the obsequies over the mortal remains of the late John Cartmell, son of Mr. and Mrs. W. Cartmell of Thorold, which were held in the Church of Our Lady of the Holy Rosary on Tuesday morning.

Right Rev. Monsignor Sullivan officiated at the solemn Mass of Requiem in the presence of a large congregation that had assembled to contribute their last mark of esteem to the memory of the departed sanctuary boy. Rev. J. A. Mogan acted as sub-deacon. Assisting in the sanctuary were Rev. A. J. O'Brien, T. Battle and C. M. Brennan.

Among those present in the church were the school children, boys and girls of the Separate School, who testified their grief in the loss of a faithful school friend and trustworthy companion. A touching feature of the service was the guard of honor furnished by the children who lined the main aisle of the church as the funeral procession entered and departed.

At the close of the Mass Elsworth Meuen and Helen Herb sang sweetly a hymn in honor of the Sacred Heart, and as the remains were slowly borne from the church the children's choir rendered the hymn "Jesus Lover of My Soul."

Monsignor Sullivan paid a touching tribute to the character and worth of the deceased boy, who, he said, had been a faithful altar boy of Thorold church from his earliest childhood.

The added solemnities of the Mass and the special selections of the children's choir, he explained, were justly due to him who had been privileged so long to assist at God's altar. The reverend speaker likened the altar boy assisting at the sacrifice of the Mass to the beloved disciple St. John as he stood at the foot of Calvary's Cross. Though his death had been sudden still he was not unprepared as he had ever been a faithful weekly communicant and had received what proved to be his last Communion only a day before he died. Monsignor Sullivan alluding to the loss sustained by his parish at the death of the boy of his country just nine months ago. Yet, he said, the bereaved parents were rather to be congratulated spiritually in giving to God two of their model sons.

Interment took place in Lakeview Cemetery, the following acting as the bearers: W. Urlocker, W. Coplen, W. Gavard, T. McManamy, V. Cyr and J. J. J.

REMAINED TILL FRIDAY

Mrs. Margaret Robertson, of Merriton, was before His Honor Judge Campbell, this morning on a charge of concealing the birth of her child, the body of which was found in the old Welland Canal on April 8th. Ingersoll & Kingston appeared for Mrs. Robertson, who pleaded guilty to the charge and her case was remanded until Friday morning.

CLAIMS \$5,000 DAMAGES

TORONTO, June 11.—Susanha Murton, a widow of West Hill, is suing the Toronto & York Railway Company for \$5,000 in the Assize Court yesterday, for alleged damages received while riding on one of the company's cars in March of last year.

ENGLAND HAS SELDOM BEEN SO ENVOYED

A policy of passive inactivity was apparently followed throughout the British Empire in time of peace, in normal times the good common sense formed a sufficient safeguard to the constitution and the throne. A change though, undoubtedly has come over the world as a result of the war. The serenity of the past has been followed by unrest throughout the world. Canada must face the situation as it is today.

OLEO DOESN'T AFFECT PRICE OF THE BUTTER

On the Contrary, Mr. Fox Says it Helps the Creamery Business

OTTAWA, June 11.—Before the Cost of Living Committee yesterday, E. C. Fox, of the Wm. Davies Co., Toronto, said his firm did not manufacture oleomargarine, but imported it from the United States. They sold about 25,000 pounds a day. Oleomargarine did not affect the price of butter. He always thought it rather helped the creamery industry. He found this in Denmark. The two went hand in hand to help to a higher standard of both. They paid between 25 and 32 cents for oleomargarine in carload lots. This sold at from 32 to 34 1/2 cents.

With regard to margarine sold in England at 16 cents, Mr. Fox stated that this English margarine had no oleo in it. It contained vegetable oil and fish oil. They had a patented secret process for hardening the fish oil, which was also deodorized.

He remarked incidentally that oleomargarine did not keep, and it was no use putting it in cold storage, the reason being there was milk in it.

Turning to bacon he said they got about 120 pounds of bacon out of a 200 pound pig, 26 per cent disappeared. Operating costs had doubled since 1917. The English market affected Canadian prices.

Mr. Devlin asked for an explanation of the statement that Canadian bacon was sold in England at lower price than in Canada. Mr. Fox said they were two different things. Wilshire bacon to suit the English market cost less to prepare. Canadian bacon was smoked, and more expensive to distribute. In his opinion the returns to an export house were greater to a house doing a domestic trade. The packer was not responsible for the price after the bacon reached England. There was a shrinkage, he said, of five pounds in every 100 pounds.

Asked what would happen if a lower price was paid on hogs, Mr. Fox said the trade would go to the United States, and if they stopped the hogs going out it would be a tragedy. As to Government control of packing houses he was against it on personal grounds and also on national grounds, because it would not be well done. There also would not be the response from the live stock industry that might be expected.

REVOLTS IN CANADA

Hon. Hugh Guthrie Moves Adoption of Report of Committee on Sedition.

Ottawa, June 11.—Hon. Hugh Guthrie moved yesterday afternoon in the House that the Commons concur in the report of the special committee on sedition. The recommendation had no intimation of effecting any recognized labor organizations. Their recommendations were not a result of the Winnipeg strike. The report would not have any effect on labor organizations.

OPERATING IN CANADA

There were many associations in Canada, for dangerous propaganda. If allowed to continue it would be a serious matter. The same insidious agencies of revolt acting in the United States and other countries were operating in Canada.

Their organizations were foreign importation or Canadian imitations. Their growth was a development of the great war. This pernicious propaganda should be stopped. At the same time there should be no interference with free political thought and free speech, it was hard to say where to draw the line.

MUST FACE SITUATION

There had been so little sedition in Canada that there was no law nor precedent to go upon. The law even in

VIEW OF MANUFACTURERS

That there will not be much chance of getting the workers of the country and the employers together, so as to overcome the present industrial difficulties, if the labor men cling to the one big union idea, appears evident from the statement made yesterday at the annual meeting of the Manufacturers' Association. It is significant and sets out what that body, representing as it does, the industrial leaders of the country, has to say to labor. It reads:

"We are not opposed to labor unions; we are not opposed to collective bargaining; we are opposed to the One Big Union, and to sympathetic strikes in public utilities. Until those questions are settled you need not look for any adjustment of trade disputes in this section of the country."

This was spoken by Mr. W. J. Bulman, President of the Canadian Manufacturers' Association just before delivering his annual address to the association's annual meeting in the King Edward Hotel, Toronto, yesterday, when he discussed for a minute or two the situation in Winnipeg, which is his home. Speaking more as a member of the citizens' committee than as the president of the C.M.A., Mr. Bulman said that in Winnipeg they had the labor situation in its most acute form. Nothing was being done regarding the question between employers and employees he said, until the question as to who governs the country was settled. The situation in Winnipeg, he said, was developing a "siege tactics"; when it would be over no one knew. Every one of the citizens' committee was determined to fight to a finish.

In his address to the association, Mr. Bulman went into labor troubles at considerable length. He touched upon the appearance in Canadian labor of the radical element, that did not want peace, but war, and said that labor would have to rid itself of such elements if it were to hold the public confidence. He incorporated in his speech a number of reports of the American government to show the futility of the Soviet system of rule, and in one instance, "articles are dear now because they are scarce, and they will be dear until they become plentiful again," summed up his views as to the reasons for the high cost of living.

THE PRICES OF FOOD

(From the Farmers' Sun, Official Organ of the U. F. O.)

The proposed Parliamentary inquiry into the high cost of living will probably prove a farce. It is, at all events, doubtful if a committee of members of the House of Commons, who will presently be scouring the labor vote, will have the courage to say that the high cost of living is in large measure due to the high wages exacted by labor for war work. We shall listen for terrible fulminations against the packers and the storage people and for a rearrangement of Brother Playelle. There will, doubtless, be an inquiry into the effect of food control by the state, which is now said by some to have operated to raise prices.

High prices of food, we know in a general way, are a consequence of war. Millions of men were withdrawn from the farms to serve in the armies or in the workshops, and it may be assumed that in the countries at war there was, at least, an appreciable diminution of food production. It is also assumed that the consumption of food by the soldiery

and by the well paid industrial laborers increased. The summary warfar was directed to the starvation of Great Britain and France and it succeeded to the extent of practically limiting the sources of food outside of Europe to the United States and Canada. As a precaution, Britain bid up the markets of origin to lay up a store of meats, dairy products and wheat, just as wool was accumulated last year at a price of sixty cents or more.

At the close of the war it was thought that food prices so bid up might fall. But, shipping had been greatly reduced; the troops were to be transported to their homes, and it is said that the distant supplies of food remained, in fact, unavailable. There was also the task of provisioning the conquered during the period of peace negotiations. It is suggested, too, that there is concerted action of Great Britain and the United States to maintain all prices, so that a sudden dislocation of finance and industry may be avoided, it can hardly be contended that the object is to pay off with artificially high priced commodities war debts created in a period of high prices, because no one suggests that the war debts will be paid in a generation and the interest of governments with prices for more than a few months is inconceivable.

There is also the bearing of finance on prices, which has not been frankly discussed by experts. There has been generally a vast expansion or inflation of credit and an inflation or depreciation of the currencies. In Canada, a stupendous business has been done on credit, and the government and the banks have materially increased their bills or paper in circulation.

"AEROGRAMS"

(Toronto Globe)

A new system of communication has just been announced, to be called "aerograms." It is intended by a combined use of telegraph, telephone and airplane to link together the business men of England and France.

The scheme aims to do three things: (1) To use the airplane for urgent messages between London and Paris instead of the cable thus obviating the delay which often occurs in cable transmission. (2) To put the conveniences of an "aerogram" service at the disposal of the entire business community of England, and not merely to confine them to those residing in London and Paris. (3) To save all the delays incurred by the land transport of an airmail letter between a city and the aerodrome on its outskirts.

The practical working would be something like this: A man in London wishes to send an urgent communication to Paris. He calls up the aerodrome by telephone, dictates the message, which is at once sent by high speed airplane to Paris. There the message is telephoned direct to its destination. This would probably all be accomplished in less than three hours.

The man in Manchester would also be enabled in this way to send an urgent message to some business house in Lyons, with which he has dealings. This would go to London by telegraph, and then on to France as above.

What is aimed at is to connect the whole of the telegraphic and telephonic systems of the two countries by means of this high speed aerial link. Cable delays are often serious and the practical value of the proposed plan is obvious.

As to the charge to the sender of the "aerogram" this will depend on the Postoffice Department of the two countries, who have to decide the form in which this new facility shall be put before the public. But, if the business world adopts it, the charge, it is said, will be extremely small.

Many in Canada will watch with keen interest this new development. The possibilities of the airplane seem almost unlimited.

Michael Brady of Oakley has replaced C. H. Hoffman of Philadelphia as leader in the American national open golf championship as a result of the second day's play.

THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my household work. I had the best doctors in East Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. BINGER, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binger that have made this famous root and herb remedy a household word from coast to coast. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities of the blood or the bowels, or any ailment which has given it a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass.

WHAT EXCHANGES SAY TROUBLESOME PANTHERS

Victoria Daily Colonist: Those who are most closely in touch with the situation believe Vancouver Island could be swept clear of panthers within a very short time, and that only a small expense would be involved. It would be small, indeed, compared with the benefits which would accrue to the sheep breeders. In the Court enar district at present a large number of returned soldiers are engaged in preparing land for a community settlement, and no doubt many of them will wish to engage in sheep-breeding. While they are awaiting the clearing operations, would be glad to take part in panther hunting, provided it was made worth their while. We say to the Government, double the bounty, divide the Island into districts, engage salaried hunters and set to work systematically to clear out these wild animals.

PRICES AND WAGES (Toronto Times)

A review of current prices in Canada and other countries appears in the May number of The Labor Gazette. The average family budget for staple foods was \$13.35 at the middle of April, as compared with \$12.57 in April, 1917, and \$9.51 in April 1914. The Index Number showing the whole price of 271 commodities, calculated in accordance with the average demand for such wares, is 279.6. The normal of 100 is based on the prices of the same goods during the period 1890-1899. The purchasing power of the dollar has fallen to 36 cents in thirty years. In April, 1914, the Index number was 136.7, so that the dollar of 1914 buys today only 4 cents' worth of goods at the pre-war prices.

That is a fact to be reckoned with. The buying power of the people has been blown away, not only in Canada, but the world over. Food prices are also high in the United States and in European countries. South America is not exempt, and the neutrals are no better off than the belligerents. It is no wonder that there is unrest. Workmen see that wages are inadequate for the times. The salaried classes, unorganized and helpless, find themselves in a deplorable situation.

There is apparently little chance of an early reduction in the cost of production. World-wide scarcity will maintain high prices, and will give farmers a chance to gain a decent reward for their labor. They will pay more than formerly for clothing and other manufactured goods; but in general they will have little cause for complaint. There will be no letting down of transportation charges. The railroads have increased freight rates, in an endeavor to overtake the immense outlays required for advancing wages, and rising costs of materials.

The only hope of easing prices lies in a closer supervision of the methods of distribution. That is the direction in which Government investigators should move. How far could the principle of co-operative buying and distributing be extended? The Budget Speech promised the removal of customs dues on certain foods, but no striking-price reductions are likely to follow immediately. A peace-harvest is the one thing needed before the world can discover where it stands.

The workers are not unreasonable in demanding higher wage-schedules. They are unable to wait and see. They have families to support and rent to pay. We have no doubt that in time cost-of-living and wages will be balanced as they were to some extent before the war; that is to say, wages, as well as prices, current will follow the fluctuations of the Index Number.

FALL FAIRS PAY WELL

Prepare Now to Harvest and Store Root Crops.

Best Mixture and Methods of Making Bread With Flour of Various Cereal Grains.

(Contributed by Ontario Department of Agriculture, Toronto)

To the general farmer who grows good grain for seed, to the specialist in garden and truck crops, and particularly to the live stock man the Fall Fair offers an opportunity. It pays to advertise and the Fair is the place where the people see the goods produced, and seeing is believing. Moreover, the papers report the winnings and through these the exhibitor gets a large amount of advertising free. It would otherwise cost him a considerable amount of money. Winning in close competitions under a competent judge adds dollars to the value of stock shown and increases market price of any commodity as well as giving the exhibitor a standing not only in his own community but over a section of country corresponding to the size and influence of the show at which prizes are won. The Fair is a good place to make sales. Prospective buyers see the good exhibits made and enquire about the breeding stock at home. Stockmen show at Fairs largely to make sales rather than to win prizes although the latter is a factor in the sales and they are not disappointed as evidenced by the growing interest in the Fall Fair. Showing at the Fair, coupled with a judicious newspaper advertising policy which should never be neglected, is good business. The two go together and work hand in hand. It pays to let others know of your good stock. Use printers' ink and show at the Fall Fair.—Prof. Wade Toole, O. A. College, Guelph.

Taxes Year 1919

Under the authority of By-law No. 3200 passed on the 25th day of March, 1919, notice is hereby given that all taxes for the year 1919 are now due and payable but may be paid in three instalments as follows, subject to the following exceptions and conditions:

Taxes which are not payable by Instalment.

Taxes in Income Assessment, Arrears of Taxes and charges collectable as taxes for any work done or services rendered by the Corporation are due and payable in full on or before the 25th day of June, 1919 (and not by instalments.)

Payments by Instalments

1st. Instalment—due and payable on or before the 25th June 1919. One-half of the taxes will be the amount of the 1st. Instalment.

2nd. Instalment—due and payable on or before the 25th. September 1919. One-quarter of the taxes will be the amount of the 2nd. Instalment.

3rd. Instalment—due and payable on or before the 25th. November, 1919. One-quarter of the taxes will be the amount of the 3rd. Instalment.

Taxes not paid when due.

If default is made in the payment of any instalment on the above dates, the privilege of payment by instalment becomes cancelled and the whole of the taxes or the balance unpaid, as the case may be, at once becomes due and payable together with percentages in addition, as follows:

On default in payment of taxes on the dates appointed,

Penalty On amounts paid within ten days of time of such default, a percentage charge of one per cent. will be collected.

Penalty 2% On amounts paid within twenty days of time of such default, a percentage charge of two per cent. will be collected.

Penalty 3% On amounts paid within thirty days of time of such default, a percentage charge of three per cent. will be collected.

Penalty 5% On amounts remaining unpaid after thirty days of time of such default, a percentage charge of five per cent. will be collected.

Failure to pay the above instalments of taxes as they become due not only forfeits the right of settlement by instalments but brings the parties under the penalty of the Assessment Law, which enacts, that in case any party shall REFUSE OR NEGLECT to pay the taxes imposed upon him for the space of fourteen days after demand, the Collector shall levy the same, with costs, by distress and sale of the goods and chattels of the party who ought to pay the same.

1. Ratepayers who do not receive their tax bills by the 1st day of June should notify Tax Collector's Department of the fact.

2. Cheques tendered in payment of taxes must be "marked" by bank and made payable at par to the City of St. Catharines.

3. Taxpayers sending amounts by mail for payment of taxes should also enclose the tax bill and a self-addressed and stamped envelope for the return of receipted Tax-bill.

4. Taxes are payable at the office of City Tax Collector.

STUART K. WATT,
City Treasurer.

CITY TREASURER'S OFFICE, ST. CATHARINES, 17th May, 1919.
M19181151141821

Roots for Harvesting Root Crops.

Root crops should be taken up before the weather becomes too wet and disagreeable in the fall if in any quantity. It is slow work at any time and becomes much more so under cold damp conditions. Lift the roots with a digging fork and twist off the tops, leaving in place and covering with the tops. If a large area is to be lifted, and one is expert with a sharp hoe, he can very quickly remove the tops, but they will not keep quite as well. The tops should be piled out, showing them as much as possible on the top. Bins with slatted sides and bottom should be used for storage where possible, as this gives the roots the best air circulation. The storage room temperature is above 40°; cover them with sand. Carrots should not be deeper than two feet in a bin, others may be four feet. Where cellars are not available use pits. Trenches should be three feet wide, two or three feet high and of any length. Run the pits north and south where possible, and have them on well-drained ground. Put a layer of straw on the ground and cover with straw 6 inches deep then 6 inches earth, and as the frost gets harder cover with fresh straw manure. Have ventilators every 15 or 20 feet. These may be filled with straw during cold periods.

Cereal Grains for Bread-making.

On this continent and in Europe we use wheat in much larger quantities than any other grain. This is because the flour made from wheat contains the constituents necessary to form gluten. Gluten is a substance to a lesser extent, while the other grains do not have any of this material. Gluten is a tough, elastic, tenacious substance, capable of considerable expansion. Consequently, when the gas liberated through the action of yeast seeks to make its way out of wheat flour dough the gluten expands, retaining the gas and causes the dough to rise. When the bread is baked the gluten is "set" or coagulated, and this accounts for the light porous structure of wheat bread. When surrounded by a proper crust the moisture is retained and the bread may be kept for several days and still be an attractive article of food. Rice, oats, and barley cannot be used for the purpose of bread. They cannot be expanded by means of yeast for their is no cohesion in the mass. They may be used in making biscuits and cakes or quick breads which breaks easily, dries out readily, cannot be safely transported, and must be consumed within a few hours after being prepared.

On the other hand, there is comparatively little difference in the composition of the various cereal grains and, consequently, one will furnish about as much digestible nutrients as another. If, then, in a time of wheat shortage, like the present, we substitute some of the flour of corn, oats, barley, buckwheat, etc., for wheat flour in making bread, we do not decrease its nutritive value. We do decrease the gluten and thus limit the power of expansion of the dough and we make the bread darker, but we have retained the desirable features of bread. Sixty-six per cent of the weight of crumb were counted points of excellence in the bread of the old high patent flour, but under the present conditions of longer extraction of the wheat grain and the introduction of substitutes, it is wrong for the consumer to place a high valuation on these points.—Prof. R. Harcourt, O. A. College, Guelph.

A strike of railway shompen that would be up every railway in Canada is threatened if the demands of No. 4 Division are not granted by 10 o'clock next Tuesday morning.

THE PASSING TEST

What do they mean by wealth untold?
 There's no such thing anymore. Everybody has to make an income tax statement.—Kansas City Journal

What do you know of international affairs?
 Nothing, but that doesn't keep me from discussing them as though I knew all about them.—Louisville Courier-Journal.

Dearest, he said, I have lost all my money.
 How careless of you! she replied. The next thing you know you'll be losing me.—Boston Transcript.

I saw an announcement that you will not be a candidate.
 Did you? rejoined Senator Sorghum with mild interest. Surely you knew about it.
 Not definitely. But it's all right. My campaign manager always put that statement out about this time. It stimulates interest without starting serious dispute. His next job will be to give out a string of reasons to show why the public interest compels me to change my mind, regardless of personal sacrifice.—Washington Star.

CANA

A handsome tribute of

franchisees was paid by shareholders of the annual to-day. Mr. Huntly R. moved the following resolution: Resolved—That here be in the record of this meeting the appreciation of the shareholders of the great S. H. Falkner, Manager of the Canadian Bank of Commerce, for his services to the Canadian people, and for his contribution to the welfare of the country. The resolution was carried unanimously.

The outstanding position of the Canadian Pacific Railway in the markets of the world is the subject of a report by the Hon. Lord Shaughnessy, who has retired from the Presidency of the Canadian Pacific Railway. The report is a masterpiece of clear and concise writing, and is a valuable contribution to the knowledge of the Canadian people. It is particularly gratifying to see that the report has been built up and consolidated with such efficiency and economy, and that the Canadian people have a clear service at moderate cost. PUBLIC NOTICE.

ORDER W. D. 3706

TAKE NOTICE that the Council of the Corporation of the City of St. Catharines intends to construct certain Pavements on the streets and portions of streets and between the points mentioned and described in the schedule hereto appended as Local Improvements, and intends to specially assess all or a part of the cost of each of the said respective works on the land abutting on each respective work. The estimated cost of each said respective work is shown in appended schedule for which the respective amount (estimated) as shown are to be paid by the Corporation. The estimated special rate per foot frontage is shown in the schedule together with the number of annual instalments in which the special assessment is to be paid.

A petition against any of the said respective works will not avail to prevent its construction.

J. ALBERT PAX,
City Clerk.

St. Catharines, June 11, 1919, H.H.S.

CANADA'S RAILWAY GIANT

A handsome tribute to Lord Shaughnessy was paid by the C.P.R. shareholders at the annual meeting today. Mr. Huntly R. Drummond moved the following resolutions:

Resolved:—That there be inscribed in the record of this meeting an expression of the appreciation of the shareholders of the grant service rendered to the Company and to the Dominion of Canada by the Rt. Hon. Lord Shaughnessy who has recently retired from the Presidency and assumed the Chairmanship of the Company.

The outstanding position held by the Canadian Pacific Railway in the markets of the world has in the respect and affection of Canadian people provides the greatest of all tributes to the services with which Lord Shaughnessy has directed the affairs of the Company, but the shareholders cannot let this occasion pass without the further tribute of their thanks for the services he has rendered during the thirty years with which he has been associated with this enterprise.

Through Lord Shaughnessy's financial skill and executive ability, an immense transportation system has been built up and consolidated with such efficiency and economy that the Canadian people have enjoyed efficient service at moderate rates, have seen their resources developed beyond all expectation and have been encouraged during normal years by a steady flow of immigration, while the financial returns of the Company itself have amply justified the confidence placed by investors in Canadian industry and management.

It is particularly gratifying to the shareholders that under Lord Shaughnessy's Presidency the Canadian Pacific Railway Company should not only have rendered such signal services to the cause of the Allies during the recent Great War, but should also have maintained its efficiency and financial standing in the face of the direst conditions created by that war. The shareholders consider it due largely to his far-sighted policy that under such circumstances the Canadian Pacific Railway Company should not only have required no assistance from the Canadian Government but should

actually from his reserves have been able to provide such a vital aid to the Government in maintaining the high standard of Canadian credit.

The shareholders deeply appreciate and honour the spirit of self-sacrifice with which Lord Shaughnessy has discharged the arduous duties of the Presidency during the anxious years of the war in spite of physical disabilities. They rejoice that these disabilities have been ameliorated and that with renewed vision he can once more enjoy the beauties of that Canadian landscape which the Canadian Pacific Railway has made accessible to the world.

When the prospect of peace enabled him to hand over the more active duties of the Presidency with confidence to a younger man, it was with genuine pleasure that the shareholders heard of Lord Shaughnessy's decision to remain as Chairman of the Company, not only because they realized that the Company was thereby retaining to have the benefit of his counsel and advice, but also because they are proud to retain as their titular head one who is held in such universal honour.

The shareholders trust that the indomitable spirit which has been so characteristic of Lord Shaughnessy's whole splendid career will be rewarded with many years yet to come of health, prosperity and happiness.

Moved by:
Huntly R. Drummond,
Seconded by:
Colin Campbell.

Lord Shaughnessy replied: I appreciate most heartily and thank you, Mr. President and fellow shareholders, for the complimentary remarks referring to myself in the President's address, and in the Resolution adopted by the meeting. I would be lacking in candour if I failed to admit great pride in the progress of the Company during my Presidency and in the present splendid position, physically, and financially, and equal pride in the faith and confidence of the shareholders who, with marvellous unanimity, responded to calls for new capital by subscribing for additional issues of stock, even on occasions when in deference to popular clamour the issue price was less favourable to the subscribers.

GRAIN GROWERS CALL CONVENTIONS FOR ALL THEIR FEDERAL RIDINGS

REGINA, June 11.—Grain Growers conventions have been called as follows by the Executive of the Saskatchewan Grain Growers' Association: Qu'Appelle on June 10 at Walseley; Assiniboia on June 10 at Estevan; Weyburn on June 11 at Weyburn; Moose Jaw on June 12 at Assiniboia; Maple Creek on June 13 at Shaunavon; Swift Current on June 14 at Swift Current; Salford on June 17 at Melville; MacKenzie on June 18 at Canora; Last Mountain on June 20 at Nokomis; Battleford on June 23 at Wilkie; North Battleford on June 24 at North Battleford; Saskatoon on June 25 at Saskatoon; since Albert on June 26 at Prince Albert; Kindersley on June 28 at Rosetown; Regina on June 29 at Regina.

Another chapter in the history of the Grain Growers movement in their fight against the tariff and for better economic conditions is commenced by the announcement from the central office of the Saskatchewan Grain Growers' Association that the schedule for Grain Growers' conventions in every Federal constituency in the province has been completed. The whole of the convention will be held during this month, commencing at Walseley for the Qu'Appelle constituency, and terminating with a double convention on Saturday, June 28, at Rosetown and Regina.

In view of the existing dissatisfaction with the Budget proposals of Sir Thomas White and the declared views of Mr. D. D. McKenzie, the Opposition Leader at Ottawa, the Grain Growers are talking seriously of separate political organization.

AGED TRIPLET IS DEAD

COBourg, June 11.—John Henry Macklin, one of triplets born more than 65 years ago, of Haldimand Township, is dead at his residence at Hagerman's Corners. The other two: Thomas R. Macklin of Fenelon, Haldimand township, and W. L. Hamilton township, both respected farmers, other brothers are George of Fenelon and Fred of Southern Nebraska.

FINANCIAL

Business was heavier and prices stronger on the mining market.

It is expected that dividends on Donic will be resumed next January.

Six Canadian war bond issues made new high quotations on the Toronto

SECURITY

A Savings Bank Account not only provides an assurance for the present, but guarantees you security in the future.

To save is to succeed—

THE CANADIAN BANK OF COMMERCE

In The Hills Above Ice River

Please, Mother! It's Nasty! Give Me a Candy Cascaret!

TO MOTHERS! Instead of the dreaded dose of castor oil, drops, calomel or pills, give your children Cascarets and save money, worry and trouble. Children love Cascarets because they taste like candy. Nothing else acts so gently but surely on the child's little stomach, liver and bowels.

When one of the kiddies has a white tongue, tainted breath, sour stomach or a cold; when cross, bilious, fussy, constipated, remember, a Cascaret quickly "works" away the nasty bile, sour fermentations and poisons should always be the first treatment given. Cascarets never gripe, the tender bowels, never injure, and never disappoint the worried mother. Each 10 cent box of Cascarets contain directions for children's dose from one year old and upwards. Also for adults.

THIS man is not carving his name on a stump. By looking closely through sticks and stones, Bruin, one will identify the claws on the downbeat right forepaw as those of a good sized black bear. So the human operator is removing a handsome black coat from a sleek, fat faller bull moose that ventured its innocent ignorance out on the open in search of such interesting changes as a diet of berries. He did not know that men with guns were creeping up the slope toward him. So the wind was sweeping down from the peaks above and the only scent that tickled his keen nostrils was that of the fresh, sweet snow that was strewn waiting the peak above Ice River, north of the C. P. R. transcontinental line.

So the bear walked along with an investigating nose close to the slope and stones he turned over with great paws. He paused at a log that had fallen betwixt him and the fire which had swept the side in the decades past, and he turned over with an ease that spoke highly of strong claws and big muscles; he found some grubs and he licked them up; he snatched at twigs and gnawed at wood; he had dried grasses that looked as if they might contain some tender young mice. A hundred yards away, down the slope, a man's weak ankle that had been strained in days gone by a skating twist, turned on a stand and sent it clattering down over the rise and out of sight, toward his hanches in curiosity. He spied the crown of a hat rising slowly over the ridge and he turned and stepped away with a backward, shambling gait, as if he were a second class passenger out on the open in search of such interesting changes as a diet of berries. He did not know that men with guns were creeping up the slope toward him. So the wind was sweeping down from the peaks above and the only scent that tickled his keen nostrils was that of the fresh, sweet snow that was strewn waiting the peak above Ice River, north of the C. P. R. transcontinental line.

So the bear walked along with an investigating nose close to the slope and stones he turned over with great paws. He paused at a log that had fallen betwixt him and the fire which had swept the side in the decades past, and he turned over with an ease that spoke highly of strong claws and big muscles; he found some grubs and he licked them up; he snatched at twigs and gnawed at wood; he had dried grasses that looked as if they might contain some tender young mice. A hundred yards away, down the slope, a man's weak ankle that had been strained in days gone by a skating twist, turned on a stand and sent it clattering down over the rise and out of sight, toward his hanches in curiosity. He spied the crown of a hat rising slowly over the ridge and he turned and stepped away with a backward, shambling gait, as if he were a second class passenger out on the open in search of such interesting changes as a diet of berries. He did not know that men with guns were creeping up the slope toward him. So the wind was sweeping down from the peaks above and the only scent that tickled his keen nostrils was that of the fresh, sweet snow that was strewn waiting the peak above Ice River, north of the C. P. R. transcontinental line.

A steel-jacketed bullet whistled when it kicked out of the running boots, cast upon it turned upon the shoulder. Bruin snarled and went faster. Another bullet struck his ribs and he stepped to the right at the hurt and to gain back at the source of his worry. Then, as he growled low in his throat he prepared to resume his flight a third bullet broke his neck, and his body huddled forward and settled down like a huge chunk of jelly that had scarce set. And there we found some grubs and he licked them up; he snatched at twigs and gnawed at wood; he had dried grasses that looked as if they might contain some tender young mice. A hundred yards away, down the slope, a man's weak ankle that had been strained in days gone by a skating twist, turned on a stand and sent it clattering down over the rise and out of sight, toward his hanches in curiosity. He spied the crown of a hat rising slowly over the ridge and he turned and stepped away with a backward, shambling gait, as if he were a second class passenger out on the open in search of such interesting changes as a diet of berries. He did not know that men with guns were creeping up the slope toward him. So the wind was sweeping down from the peaks above and the only scent that tickled his keen nostrils was that of the fresh, sweet snow that was strewn waiting the peak above Ice River, north of the C. P. R. transcontinental line.

JOURNAL

It Took Ages to Make Natural Gas

Fresh easterly winds, cool Thursday. FASTERLY winds, fair and warm.

Millions of years were spent by Nature in making the present concentrated supplies of natural gas. When it is used up, millions more years will be needed to replenish the supply. It is well that you should realize this and be sparing in your use of gas, so that it will not be rapidly exhausted by wastefulness.

ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT, THE SUPPLY IS NOT EVERLASTING.

THE UNITED GAS COMPANIES, Limited.

You Have No Right To Suffer

Suffering is unnecessary and with CHIROPRACTIC at hand, ready and willing to help you, you are acting very foolishly if you do not consult your Chiropractor at once. Upon the condition of your spine depends the state of your health and your suffering is without doubt due to a subluxated vertebra which is pressing upon the nerves causing the stop of mental impulse from the brain to the various organs. Your Chiropractor will give you a Spinal Analysis, will locate the place where the subluxation occurs and will proceed to adjust it. Mental impulse will then flow freely and unimpeded and your sufferings will be over.

Consultation and Spinal Analysis Free.

CITY AND DISTRICT

We buy everything you want to sell. McGuire & Co.

Choice cut flowers, potted plants and floral designs, at all times, at Walker's, Florist, 164 St. Paul street Phone 783.

The offices of the City Hall will close at 12 o'clock noon on Saturdays during the months of June, July and August.

For the June Bride, let us suggest an "Eureka" Vacuum Cleaner, or one of our One Minute Washing Machines. We have them at different prices, either Electric, hand, water or power driven. The Martin Electric Co., 9 St. Paul St. J. 9 m. t. & E. t. f.

A successful rehearsal of the Haynes Avenue Presbyterian Church Choir was held last night for their concert to be held on Monday night, June 23rd.

Gunner E. J. Billings of Burlington, formerly of the journal staff who enlisted with the 7th Field Battery and has been on active services since the outbreak of the war, arrived safely home to Canada last Friday. He is spending a few days visiting friends in the city.

Miss Lydia Hay, of Thorold is at present in Buffalo, N. Y., attending the funeral of a niece who passed away at that place on Monday afternoon.

A serious automobile accident occurred last night at the corner of Thorold Road and Westchester Avenue, when a Ford car driven by a farmer from Fonthill collided with a Chevrolet car driven by S. Hesson of Stamford. The former car was badly damaged while the Chevrolet suffered a broken axle and bent steering gear. They were both brought into the city for repairs.

A NEW PROBLEM

What of Customs When Air Services are Developed.

OTTAWA, June 11.—W. D. Cock-shutt, of Brantford, is concerned as to steps to be taken for the collection of customs duties when international air services have been developed. He told the Railway Committee of the Commons this morning that he did not want and "Free traders flying over the border, and dropping farm implements and other articles."

Serious clashes occurred in Winnipeg between strike sympathizers and the special soldier constables, numbers on both sides being beaten, one mounted policeman, a Victoria Cross winner, being so severely injured his recovery is doubtful.

FIVE HUNDRED DOLLARS REWARD

The above reward will be paid for information that will lead to the arrest and conviction of the party or parties who on the night of April 29th, 1919, assaulted and killed one Charles Sergeant night watchman at the Engineering and Machine Works Limited St. Catharines, Ont.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back hurts or Bladder troubles you

No man or woman who eat meat regularly can make a mistake by pushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weaknesses.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Pte. Burn of the 102nd Battalion arrived in the city yesterday morning from overseas.

WANTED—COMPETENT STENOGRAPHER. Must have experience. Highest wages. Apply The Pedlar People Limited, Oshawa, Ont.

A telegram was received this morning announcing the safe arrival in Montreal of Gnr. John W. Lalor.

HEROINE OF THE WAR TO ATTEMPT TRIP

NEW YORK, June 11.—A rival for the woman's trans Atlantic flight honours, Edna Nichol, a 29 year old heroine of the war, arrived on the steamer Savoie and announced that she was planning an overseas flight this summer.

Miss Nichol wears the uniform of the French motor corps with two French military decorations—the Croix de Guerre with palm and star and the Mons Military Medal—and bears the scars of two wounds suffered while driving an ambulance at the front. She made several trips over the enemy lines as an airplane observer and later learned to pilot a machine on the French training grounds.

EXPRESS WORKERS RETURN

OTTAWA, June 11.—Hon. Gideon D. Robertson, Minister of Labor, left last night for North Bay and Fort William. It is possible that he will go farther West, proceeding to Winnipeg before returning to the Capital. The Minister will try to adjust the strike of dockmen at Fort William, and use his influence at other points where labor difficulties prevail.

Before leaving, Senator Robertson stated that he had been advised that the Dominion Express employees at Calgary, Edmonton and Lethbridge were returning to work. The C.P.R. shops at Calgary, he said, were also to be re-opened shortly.

The City of the Reversible Falls

The Bay of Fundy is famous for its tides which are reputed to be the highest in the world, and the variation in the harbor depth, owing to the great rise and fall in the tides, is from 20 feet at ordinary neap tides to 28 feet of water at ordinary spring tides. St. John is the winter port of the C.P.R. and has splendid facilities for handling ocean traffic. The harbor is entered from two channels. The east channel being used for large vessels and that on the west side for smaller craft. Numerous large berths stand in the harbor and alongside them there are many capacious warehouses and some big grain elevators. The war has stimulated building in St. John.

The chief attraction for the tourist to St. John is the Reversible Falls, a curious phenomenon due to the great tides. When the tide of Fundy Bay is low the water of the St. John river pour under the great railway bridge in the form of rapids. But when the tide begins to rise it forces back the current of the river and gushes up into its bed with great force. This continues until full tide. Then as the tide recedes, the immense volume of water in the bed of the river dashes to the Bay in a massive whirling sheet of foam. At low tide the piled up waters of the river are higher than the sea, and at high tide the incoming flood of the Bay of Fundy is higher than the river. That is the explanation of the phenomenon. It is only at certain periods of the day that the falls may be seen at their best. The river is deep, but no boat, however large, dare venture on these waters when they are falling. Small boats

ARRIVE ON S. S. LAPLAND

The following St. Catharines men have arrived per S. S. Lapland: Pte. T. P. Cook, 204 St. Paul St. Pte. A. McBain, 8 Macdonald St. Gnr. M. P. Gordon, 29 Chestnut St. Gnr. H. Wilson, 1 Vine St. Pte. R. J. Fleming, 85 Sherbourne St. Gnr. W. J. Morton, 35 Cherry St. Pte. W. Clements.

DAYLIGHT ROBBERY

TORONTO, June 11.—A daylight robbery was committed yesterday afternoon, between the hours of 3 and 5, at the residence of Mr. James Pape 10 St. James avenue during the absence of the family. Evidently the thieves got into the yard by the side entrance and then by removing a wire screen in a rear window gained entrance to the house which was completely ransacked from top to bottom fortunately Mrs. Pape had taken her jewelry with her. Several valuable articles were carried away including a club bag, gold watch and chain, gold and silver ornaments and heirlooms, also some clothing belonging to the family. There have been several robberies in this locality the past few weeks.

NURSES' ULTIMATUM

TORONTO, June 11.—Toronto Hospital Boards are considering an ultimatum from nurses to the effect that graduate nurses will "down tools" for an eight-hour shift, beginning January 1, 1920. The hospital authorities have frowned the ultimatum out of countenance, some say. Nurses declare that on private cases they will work twelve hours a day, but in hospitals eight hours. A month ago hospital nurses asked a ten-hour day.

CUPID HARD AT WORK DURING BIG STRIKE

WINNIPEG, June 11.—Cupid has had the busiest-time of the year in Winnipeg so far this month, according to City Hall statistics. Up to Monday 163 marriages had been registered since June 1.

PLANS TO FIND WORK FOR DISCHARGED MEN

LONDON, June 11.—Robert Horne, British Minister of Labor, has written to the annual conference of the Federation of Discharged Soldiers at Manchester, announcing the steps to be taken by the Government regarding unemployment of ex-service men. A scrutiny is to be made of the Government offices to find suitable places for demobilized men. There is also a project for a certain number of partly disabled men to be provided with work in each trade. This to be enforced by Act of Parliament, if necessary. Preference at employment exchanges to applications of discharged men is also provided for.

Farms Wanted for Soldier Settlers

Powers are proposed to be granted at the approaching session of Parliament to the Soldier Settlement Board of Canada to purchase lands to be resold to qualified returned soldiers settling on land. In the case of undeveloped lands the Board will be granted powers of forced purchase at prices judicially determined.

To enable soldiers to locate in any district in Ontario that they wish, the Advisory Board for the Province of Ontario desire to have filed with them a full description and lowest cash prices on a small number of select farms in each district of the Province, available for purchase.

The public are hereby informed that this land is for returned soldiers, and no tenders to sell are requested except for land of good quality and location, and reasonable value, making possible the success of the soldier as a farmer. The purchase price in all cases will be fixed by the Board after the land has been inspected and valued.

The information received will be treated as confidential. No commission will be charged or paid. No offer to sell will be binding on the person offering unless a sale is effected, and no obligation will be on the Board to accept any offer.

If application from a returned soldier be received for a farm listed with the Board, a valuation for such farm may be at once made by the Board and, if approved, negotiations may be entered into for the purchase and sale thereof. An approved list is desired for each district of Ontario.

HIGH FOOD VALUE OF CANADIAN FISH

Demands Would be Much Greater if Result of Government Analysis Were Known.

A Governmental analysis of the food values of certain Canadian fish has just been completed at Ottawa, and the Canadian Trade Commission believes that if the results were widely known there would be a much greater demand for the products of our waters rather than for the foreign brands of fish, which have merely a wider advertisement to recommend them. For instance, in four classes of the much boosted Norwegian sprats and bristlings packed as sardines, the salaries given are 1,314, 1,640, 1,663 and 1,474 Canadian little herrings, our equivalent fish also packed as sardines contained 1,832, 1,720, 1,649 and 1,795 calories, respectively.

High Food Value
The same revelation is made in the case of herring—the Canadian variety stands out for its better food value. The best known British brand packed in tomato sauce, contains only 775 calories, as compared with four leading Canadian varieties of 890, 1,061, 1,081 and 1,024 calories. The calorie, it may be mentioned, is the recognized measure of nutrition in foods, just as the pound is for weight, and the yard for length. The higher the calorie for the same price, the better the value of the food. The Trade Commission is omitting no occasion to point out the advantage of consuming Canadian produced food within the Dominion both for its excellence and for its undoubted cheapness compared with imported classes.

WHEN MILLIONS COUNT FOR LITTLE

Estate of a Multi-Millionaire Gets Into Difficulties on Account of Succession Duties.

Every once in a while there appears in the papers a story that carries a striking lesson, remarks the "National Underwriter." This recently came to light in the application to sell property belonging to the late John T. Milliken, of St. Louis; whose estate is estimated at \$20,000,000. The point of interest is the fact that there was not sufficient money to pay immediate obligations. It was a man worth \$20,000,000, yet he has not enough liquid assets to meet current needs. A man of his great wealth probably postponed life insurance because he felt that he could make more money by creating a different kind of an estate. Yet his great estate, or at least part of it, will be sacrificed because the cash is lacking to meet the immediate demands. Mr. Milliken is said not to have been interested in life insurance. He spent vast energy and thought in building up his tremendous fortune, and yet, at the critical time, his estate needs the cash to save the property.

There are inheritance taxes of \$2,000,000 to meet Mr. Milliken could easily have carried sufficient life insurance to satisfy the demands that would be made on his estate in a short time. The St. Louis "Republic" carried the following story regarding

SLEEPLESS NIGHTS OVERCOME BY SAFE METHOD

SUGGESTIONS GIVEN WHEREBY INSOMNIA CAN BE SAFELY AND QUICKLY CURED.

Worry, overwork, overstudy and indigestion cause insomnia. Healthy, natural sleep can't be produced by drugs. First, the blood circulation must be improved: Congestion of blood in the head must be removed. Irritation in the brain must be relieved. It's because Ferrazone equalizes circulation, because it soothes the irritation, because it does cure insomnia. For building blood and nerve, for instilling force and life into overworked organs, for establishing strength and vitality, where can you find anything so efficient as Ferrazone? Remember, sleep is just as important as food. You must sleep or break down, but if you'll use Ferrazone and thereby remove the conditions which now keep you from sleep, you'll get well quickly. Ferrazone is not a narcotic, not a dope; it is a health-giving tonic that any child or delicate woman can use. Absolutely safe is Ferrazone. Take it for a month, take it for a year—no harm, but immeasurable good will result. To sleep well, look well, feel well, to be free from depression, nervousness or blues—use Ferrazone. It's a food tonic, a healer to the weak and wretched, a bon to the sleepless—sold in 50c boxes, six for \$2.50, at all dealers, or direct from "The Catarrh-ozone Co., Kingston, Ont.

Wash The Kidneys!

After Bad Colds or Influenza Look to Kidneys and Bladder!

Owing to bad colds, over-eating or intemperance, or to the after effects of influenza—uric acid and toxins (poisons) are stored up in the body and cause backache, lumbago, rheumatic pains and stiff joints. It is most essential that treatment be directed towards prompt casting out of the poisons from the body which cause these pains and aches. This means that the excretory organs—the bowels, skin and kidneys—should be excited to their best efforts. Every one should clean house—internally—and thus protect one's self from many germ diseases, by taking castor oil or a pleasant laxative such as Dr. Pierce's Pleasant Pellets, which are made of May-apple, aloes and jalap. Take these every other day. This will excite efficient bowel action. If you suffer from backache, irritation of the bladder and the kidneys, shown by the frequent calls to get out of bed at night, considerable sediment in the water, brick-dust in the urine, or a headache in the morning, you should obtain at the drug store "Auric" (anti-uric acid), first put up by Dr. Pierce. To build up the strength and improve the blood, take an iron tonic such as "Irronic" manufactured by Dr. Pierce, to be had in tablets at drug stores, or some good herbal tonic such as Dr. Pierce's Golden Medical Discovery, made from wild roots and barks without alcohol, and put up in tablets or liquid.

the predicament in which the estate found itself.

An application to the probate court to sell property belonging to the late John T. Milliken, millionaire, chemical manufacturer, oil and grain dealer, whose estate is estimated at \$20,000,000, yesterday disclosed that there is not sufficient money on hand to pay immediate obligations, including expenses of his last illness and funeral and the cost of administration.

The application was made by John G. Lonsdale, president of the National Bank of Commerce, and Dr. H. W. Loeb, executors of Milliken's estate. The application recites that Milliken, at the time of his death, was indebted in various amounts, secured by pledges of stocks, bonds and other securities. He also owed, it is asserted, personal bills aggregating a large amount, in addition to the expenses of his last illness and funeral and obligations of a preferred class, which must be paid first. The application also states he left a comparatively small amount of cash, which is insufficient to pay the claims and meet the administrative expenses. Permission was asked to sell at private sale stocks, bonds and other securities to meet the demands.

THE VALUE OF A GOOD PIANO

A good piano is a positive necessity to every musical student. Yet there are few parents who know how to select the right instrument for their children.

One of the greatest obstacles to the acquisition of a trustworthy piano is the piano salesman who delivers pianos on fret terms, in homes where the people are ignorant of music and entirely incapable of judging a really good piano. A brilliant tone and fine showy case are often the main things looked for in a piano by this class of people. The result is that they purchase a cheap piano, whose tone grows brassy and harsh after three or four years' usage. For the same price had they only known, they could have bought a good standard piano that would have lasted through their children's practice years, and which would still be an excellent instrument after they had reached their musical goal.

Before selecting a piano always get someone who genuinely appreciates musical tone—an artist, if possible—to give you his honest opinion of its merits or put yourself in the hands of a reliable dealer. He is anxious to have you provided with an instrument that will give you permanent satisfaction. It is impossible to create artificially any musical composition on a piano that has faulty action or which lacks depth of tone. Poor pianos, or even good pianos not properly tuned, are frequently the cause of students quitting their music in disgust and thus abandoning a profession which would have meant both pleasure and profit to them.

TRIPLETS SURVIVE SIXTY FIVE YEARS

COBURG, June 11.—John Henry Macklin, one of triplets born more than 65 years ago to the late Edward Macklin and his wife, Dorcas Staples of Haldimand township, is dead at his residence at Hagerman's Corners. The others are: Thomas R. Macklin of Fenella, Haldimand township, and W. L. Hamilton township both prosperous farmers. Other brothers are George of Fenella and Fred of Southern Nebraska.

STIMULATING MUSICAL PROGRESS

People who have no great desire to learn to play or sing will find abundant satisfaction with self playing instruments such as the player piano and the phonograph who care absolutely nothing at all for music. "When we purchased a phonograph," said a gentleman in a large western Canadian city recently "people said we would lose interest in our own music as we would prefer to 'run a piece' through on the machine rather than practice it on the piano. But we have found that the talking machine has had a wonderful effect in stimulating our interest in music and now our children are trying daily to duplicate the playing of the records of famous artists.

Untold good in musical progress has been accomplished by the phonograph. In the vocal studio today the reproducing instrument is becoming a real necessity on account of its invaluable assistance to the teacher and pupil while in the public schools the question is already being mooted with the object of using it in developing music appreciation in the minds of the children. Certainly the phonograph is a great incentive to thousands to try and do something with their music.

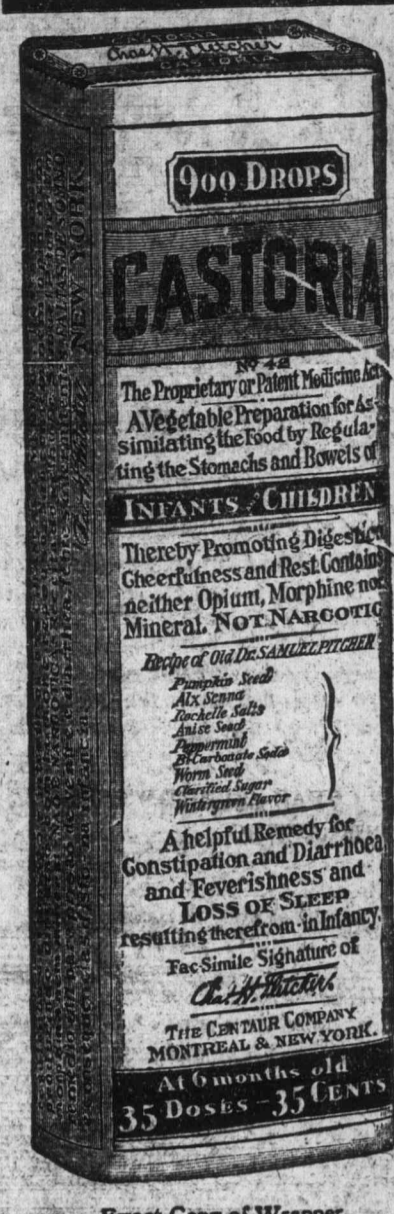

VERY SIMPLE CURE FOR BAD COLDS

Let your cold gain headway and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs, then it's too late! Drive colds and catarrh right out of your system while you have the chance. Easily done by inhaling Catarrh-ozone, which instantly reached the true source of the trouble, gets right where the living germs of catarrh are working.

CATTARRHOZONE

A Convenient Inhaler Treatment is the Proper Remedy to Cure. Hawking and spitting cease, because the discharge is cured. The nostrils are cleared, headache is relieved, breath is purified. Every trace of catarrh, bronchial and throat weakness is permanently cured. Shun medicines that contain harmful drugs—use a safe remedy that is prescribed by doctors, that is used in hospitals, that is endorsed by thousands. Catarrh-ozone has cured. For winter ills there's nothing half so good. Two months' treatment, large size, price \$1, and guaranteed. Small size, 50c, trial size 25c, at dealers everywhere.

A Wonderful Fishing Region

THE rivers and lakes in the vicinity of Cranbrook, British Columbia, on the Crow's Nest line of the Canadian Pacific Railway, are happy and prolific haunts for lovers of fishing. All these waters are well stocked with mountain or cut-throat trout, rainbow trout, Dolly Varden trout, bull trout, landlocked salmon or Kamloops trout. Excellent catches are made in the fishing season. Foremost amongst the fishing waters of this region are: St. Mary's Lake and river, Kootenay River, Moyle Lake and river, Gold Creek, Cherry Creek, Perry Creek Lake, Doyle's Lake, and Premier Lake. Perhaps the favorite rendezvous is Premier Lake. This lake is situated about thirty-eight miles from Cranbrook. It is three and a half miles long and one mile wide. Mountains surround it on every side, and it is very deep. There is no visible outlet for the waters. Springs that rise adjacent to the lake and streams from the mountain sides rush to rest in its placid bed. On August 12th, 1915, the Game Conservation Board of the Eastern District of British Columbia furnished Premier Lake, along the Kootenay Central Railway, a branch of the C. P. R., with 10,000 Kamloops trout fry, each one then being about three-quarters of an inch long. A prophecy was made that the fry within four years would develop into fish weighing between twelve and fifty pounds. The accompanying illustration shows some of the fish caught within three years.

Realizing the sporting possibilities of the Cranbrook region some of the residents met in Cranbrook on November 7th, 1917, and formed the Cranbrook District Rod and Gun Club. A hatchery was started in Cranbrook; 200,000 eggs were brought in and incubated. The enterprise was a huge success, and fry were distributed: 75,000 in St. Mary's Lake, 12,000 in Rock Lake, 25,000 in Premier Lake, 50,000 in Moyle Lake, 2,000 in Doyle's Lake, about 4,000 in Perry Creek Lake. These fish will grow to the age of four years, and

Landlocked salmon caught in Premier Lake, British Columbia, on May 15th, 1918.

Distances from Cranbrook to the different fishing waters vary, but some of the lakes and rivers is difficult access. Good automobile roads radiate in all directions. The scenery of the Cranbrook fishing district is beautiful, and in addition to a creek laden with splendid trout, the fisherman will bring home with him memories of a landscape as fair as the eye can anywhere behold.

HERE AND THERE IN SPORT

The Leafs seem to play their very best ball behind the pitching of John Paul Jones.

Apparently the M. and O. League consists of seven ball clubs and London.

Bunny Hearn is reported to have turned in a no-hit game in a workingman's league. Suppose everybody went out on strikes.

George Gibson's Leafs are off to a good start on the long trip around the circuit. They have 25 games to play in three weeks, all on the grounds of the enemy.

John Hyslop, retired American yachtsman who in 1887 measured the Voltmeter and Thistle for their race for the American Cup, and officiated in five of these international contests, died at his home in New York on Monday in his eighty-sixth year.

Charles (Chick) Evans, U. S. national open golf champion, who is this week defending his title in the open tournament at Newton, Mass., has sent in his entry in the Western amateur championship to be held in St. Louis next week.

Because of danger of infection, Jack Kearns, manager of Jack Dempsey, challenger for the world's heavyweight championship, to-day decided not to allow Dempsey any more boxing till the wound over his eye, inflicted in a training bout yesterday, is thoroughly healed.

Charles (Chick) Evans, U. S. national open golf champion, who is this week defending his title in the open tournament at Newton, Mass., has sent in his entry in the Western amateur championship to be held in St. Louis next week.

MISS ELLEN ROCK DIES STRATFORD, June 11.—(Special).—The death occurred yesterday of Miss Ellen Rock in her 76th year, at the residence of her niece, Mrs. Robert Hurst, 21 Perth Street. She was born in Gravesend, England. She had lived in Stratford for the past seven years and made her home with her niece, Mrs. A. Marshall, Port Colborne, in another niece and Alfred Rock, of Woolloomooloo, Australia is a brother.

TEDDY MAKES LAST LEAP FROM TREE TO TREE ON RESERVATION AT FALLS NIAGARA FALLS, June 10.—Teddy, the largest and oldest red fox squirrel on the state reservation, was killed yesterday when he miscalculated the distance between two trees. He tried to leap from one tree to the other and fell to the ground.

Teddy was the tamest of all the squirrels on the reservation and was very popular with children. He was one of twelve red fox squirrels brought from the south three years ago when the red fox squirrels were placed on the state property to replace the small red squirrels which were exterminated because they destroyed birds' eggs.

Davenport and Ulster, in an Ontario Cup series game, played a 1 to 1 draw last night. The fixture was a replay of the first game of a week ago.

Tex Rickard, promoter of the Willard-Dempsey bout, has requested President Anthony Drexel Biddle, of the Army, Navy and Civilian Board of Boxing Control, to appoint the referee and all other officials for the contest. The boxers have agreed to accept Mr. Biddle's appointment.

English conditions would not suit raccoons in this country. As, for instance, this note in a London paper's report of the race for the Victoria Cup at Hurst Park: "The barrier, we are told, ascended to a splendid start, but as the end-off takes place out of sight of the stands we must accept the description as having been supplied by some one in a position to make so definite a statement. At all events, Canada came into view with a clear lead."

This year's Italian Derby at Milan was won by Capt. E. Tesio's Meissonier, a son of Signorino, out of Fausta, by Sparafantini from Madree, by Flying Fox out of Maskery (dam Masque II, by Mack) Madree won the French One Thousand Guineas in 1907, and the rich Grand Premio Ambrosiano at Milan. Capt. Tesio has a remarkable record in Italy's chief classic race, as within the space of nine years he has won the Derby six times, this being an achievement unprecedented in any country.

J. R. Heffner of Philmont, Philadelphia, led the field of 132 competitors in the first day's play of the United States national open golf championship yesterday.

An effort will be made to have the Royal Canadian Henley held before instead of after the American national regatta in order to attract United States entries.

Pitcher "Rube" Marquard of the Brooklyn Nationals fractured his leg in a game at Cincinnati yesterday and will be out of baseball for the remainder of the season.

Eddie Cicotte of the Chicago Americans won his seventh game in a row when he won a pitchers' battle from Ruth of Boston yesterday.

Both Baltimore and the Leafs were defeated yesterday. Reading worsted the Orioles 5 to 1, while Gibson's men lost to Binghamton 3 to 2.

THE MERCHANTS BANK OF CANADA Statement of Liabilities and Assets at 30th April, 1919. Table with columns for 1918 and 1919, listing various financial items and their values.

THE LAKE OF BAYS

There was never a region better designed for vacation purposes than the "Lake of Bays" district. Huntsville on the Grand Trunk Railway 145 miles north of Toronto is the gateway through which you pass to this lovely summer playground. Good fishing, high altitude (1000 feet above the sea) immunity from hay fever, lovely water trips, good hotel accommodation and gold are some of the many attractions. An interesting booklet telling you all about it sent free on application to Grand Trunk Agent or C. E. Horning D.P.A. Toronto, Ont. J11

ST. THOMAS TOURNAMENT

ST. THOMAS, June 11.—Notice are being sent out to various lawn bowling clubs through Western Ontario by the St. Thomas Lawn Bowling Club announcing that on Wednesday, June 19, the fifth annual tournament will be held. Fourteen greens will be available for the day of play.

There will be a number of prizes, among them the Times-Journal Trophy, now held by the London Rowing Club. This trophy was donated to the club last year and can be challenged for at any date, but must be brought to St. Thomas at the annual tournament.

F. W. Jedd, Tournament Secretary announces that he expects to have a record attendance this season.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for repairs to breakwaters at Port Colborne, Ont." will be received at this office until 12 o'clock noon, Friday, June 20, 1919, for the construction of repairs at two points on the eastern and two on the western breakwaters at Port Colborne, Welland County, Ont.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineers, Equity Building, Toronto, Ont.; Shaughnessy Building, Montreal, Que.; and at the Post Office, Port Colborne, Ont.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein. Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender.

War Loan Bonds of the Dominion will also be accepted as security, or Bank Bonds and cheques if required to make up an odd amount. Note—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of \$20, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, May 27, 1919. J4-11-18

SICK--WEAK--MISERABLE THOUSANDS OF VICTIMS

Man feels bad all over...feels weak...feels nervous, irritable, gloomy...gets angry at little things that ordinarily would not be noticed. You feel tired mornings. Your sleep does not rest you. You feel nervous. You dream at night. Your memory is poor. You can't concentrate your mind. No appetite. You lose flesh...all run down. You can't understand why.

Men! Are You In Doubt? Weak and relaxed state of body, nervousness, dependency, poor memory, lack of will power, timid, irritable disposition, diminished power of application, energy and concentration, fear of impending danger or misfortune, drowsiness and tendency to sleep, unrefreshing sleep, dark ring under eyes, dizziness, pimples on face, palpitation of heart, easily tired, weakness or pain in back, lumbar, dyspepsia, constipation, headache, loss of weight, indigestion. Dr. Ward gives you the benefit of 28 years' continuous practice in the treatment of all chronic, nervous, blood and skin diseases. The above symptoms, and many others not mentioned, show plainly that something is wrong with your physical condition and that you need expert attention.

COL. WINDEYER FOUND DEAD IN HIS BED

TORONTO, June 11.—Lt. Col. R. C. Windeyer, organizer of the 74th Battalion, and for some time attached to the Assistant Adjutant-General's Department at Exhibition Camp, was found dead in his bed yesterday.

Colonel Windeyer had been spending the night with his brother, Walter F. N. Windeyer, at his cottage on Wards Island, and had felt perfectly at ease the evening before. On Monday he was at the office as usual. Doctors pronounced death due to heart failure. Colonel Windeyer's wife and family, who were at his residence in Oakville, were notified immediately.

CASE WAS ADJUDGED
The first case heard at the sessions at two o'clock Tuesday afternoon was A. C. Russ, Montreal, making claim on Andrew W. Eichmeyer of Jordan Station for a damaged car of truck shipped last summer. Ingersoll and Kingstone appeared for Russ, while James Campbell appeared for Eichmeyer. The only witness sworn was A. C. Masson, in favor of Russ, who was present when the car was unloaded at its destination. The case was adjourned until the next sitting of the court.

DR. ARTHUR B. COBB
Dentistry

Of all tests of real merit the test of time is the greatest.

Anything that lacks merit can not survive the test of passing years.

Our Dental Offices have stood the test of time. We have been established in Buffalo for more than twenty years, and with each passing year our business has expanded and our fame for skilled Dentistry has spread.

Patients of twenty years ago are still our patients, and they have remained loyal to us only because we have served them faithfully. If your teeth require Dental attention and you recognize the great importance of having a skilled Dentist to treat them, it is to this Office that you may safely turn, well knowing that you will receive the best of care promptly and at the lowest cost.

Offices 368-378 Main Street, Corner of Eagle
Open until 8; No Sunday work.

USE A HYDRAULIC RAM

Now Recognized As the Cheapest Power for Pumping.

When and How It is Used—Complete Information Given—Tuberculosis Cows a Menace to Health—Why It Pays Farmer to Test Cattle and to Discard Reactors.

WHERE conditions are suitable for an hydraulic ram it is without question the cheapest and most satisfactory method of pumping water. It has one drawback—it wastes far more water than it pumps to the building, and hence can only be installed where the supply is from five to twenty times as great as required at the building. The efficiency of the ram is from 65 to 90 per cent, i.e., it uses 35 to 30 per cent of the energy of the falling water. Suppose the spring supplies 10 gallons per minute and the fall from the spring to the ram is 100 feet. Mainly losses are caused by the take 65 per cent of the product, and we have the energy available for driving water to the building.

Energy in this case 65-100 x 10 = 6,500 foot-gallons—\$2.5 foot-gallons. Now divide this by the height of the buildings above the ram and we have the number of gallons the ram will deliver per minute at the building. If, for example, the height is 32.5 feet then

Number of gallons per minute—22.5 divided by 32.5 = .692, which is 1-10 of the water supplied by the supposed spring.
Number of gallons per day—60 x 24 = 1,440 gallons (about 20 barrels). Consequently with five feet of pipe and 32.5 feet of lift the ram will deliver at the building 1-10 of the water in the spring. The quantity that will be delivered with other heads, lifts and spring-flows may be calculated in a similar way.

Generally speaking it is found that for each 10 feet of lift there should be one foot of head, but there is a limit—it is seldom advisable to install rams where the head is less than two feet, although they have been known to work with as little as 18 inches. The length of drive pipe should not be less than three-quarters of the vertical lift to the building, nor less than five times the fall from the spring to the ram. It may be longer, but seldom over 600 feet, and 75 feet might be taken as an extreme length for sizes of ram suitable for farm conditions. If too long a drive pipe be used, the friction in it prevents the water from striking as heavily or as frequently as with a drive pipe just the right length.

The cost of installing a ram is not great. For the smallest size of ram it will run in the neighborhood of \$25 to \$35 and about \$15 extra for each hundred feet between the spring and the ram. Thus a ram 100 feet apart the total cost would be from \$40 to \$50, but if 500 feet then from \$55 to \$65, and when distances in proportion. The latest size of standard ram can be installed at about \$100 if the ram and pump are 100 feet apart, and \$125 if 200 feet apart. R. B. Graham, B.S.A., O. A. College, Guelph.

Tuberculosis In Cattle.
One reason why farmers should have their cattle tested for tuberculosis is that financial loss which they suffer by having tubercular animals in their herds. As the disease is at first slow in development and does not induce sudden death, like anthrax, black leg or hog cholera, the farmer does not realize the loss that he endures by having tuberculosis in his herd until one or more animals develop the disease. In an advanced stage and before the animal is slaughtered, the disease is in their milk, saliva and droppings, large numbers of tubercular bacilli. In this way the bacilli are spread around, and the atmosphere in the stable gets contaminated with them and other members of the herd contract the disease from these contaminated materials. The tuberculin test will indicate whether or not an animal is tubercular long before any clinical symptoms are visible, thus enabling one to deal with such an animal before it becomes a dangerous spreader of the disease. When an animal is shown to be tubercular it should not be allowed to mix with the rest of the herd. When a cow is purchased and taken to the herd it should be only when subject to the tuberculin test, as cattle may have every visible indication of good health and yet be tubercular, the disease not yet having developed to an advanced degree. It is therefore strongly recommended that farmers: 1st. Have their herds tested for tuberculosis with the tuberculin test. 2nd. That they slaughter the animals that have the disease in an advanced degree. 3rd. That they separate the cattle that react to the test from those which do not react. 4th. That they remove the calves from tubercular mothers as soon as dropped, and feed them on milk from healthy cows or on their mother's milk after it has been properly pasteurized, i.e., after it has been heated to 145 degrees for half an hour. 5th. That they apply the tuberculin test to every new purchase of cattle that are to be placed in the clean herd. 6th. That the herd be tested with tuberculin annually.

Obtaining Tuberculin For the Test. The manufacture and supply of tuberculin is kept under the Dominion Government control. It is required that a veterinarian be employed by the farmer to make the test. Prof. Dan H. Jones, Ontario Agricultural College, Guelph.

Premier Lloyd George has received the South African Nationalist delegates and informed them that Britain can take no action upon their demands.

Rates for Telephone Service

THE new rates for Long Distance Service, effective May 25th and based upon air-line mileage, correct inequalities in the old schedule and embody both increased and decreased charges.

Following is a comparison of old and new rates for a 3-minute talk to points most frequently called by local subscribers:

	OLD RATE	NEW RATE
St. Catharines to Hamilton	\$.30	\$.30
Toronto	.40	.30
Brantford	.40	.40
London	.60	.70
Guelph	.40	.45
St. Thomas	.60	.70

The hours during which reduced Long Distance rates (night rates) are in effect are now:

From 8.30 p.m. to 11.30 p.m., 60 per cent of day rate
From 11.30 p.m. to 6 a.m., 40 per cent of day rate
Night rates are based on Standard Time

LOCAL SERVICE
Rates for local service to present subscribers will be increased ten per cent, effective from July 1st next.
Applicants for service will be charged at the increased rates, from May 25th.

Every Bell Telephone is a Long Distance Station.

The Bell Telephone Co. of Canada

VICKERS-VIMY IS READY FOR FLIGHT
Test Made at St. John's Was Entirely Successful—Await Good Weather

ST. JOHN'S, Nfld., June 11.—The Vickers-Vimy entry in the London Daily Mail's \$50,000 transatlantic flight competition made a trial flight here today. The machine, piloted by Capt. "Jack" Alcock, took the air at 5:47 p. m. local time and descended 40 minutes later after a highly successful test. With motors running perfectly the big plane cruised over the city and surrounding country, and then headed out to sea for about 20 miles, returning at great speed. A landing was made at the new Vickers-Vimy airfield near Rope Walk, where the machine will await suitable weather for the transatlantic attempt. Capt. Alcock said that the test was entirely satisfactory and that he had been especially pleased with the performance of his wireless equipment.

DO IT NOW
(Philadelphia North American)
If with pleasure you are viewing any work a man is doing, if you like him or you love him, tell him now.

Don't withhold your approbation till the person makes oration as he lies with snowy plumes o'er his brow; For no matter how you shout it, he won't really care about it; He won't know how many teardrops you have shed; If you think some praise is due him, now's the time to slip it to him; For he cannot read his tombstone when he's dead. More than fame and more than money is the commend kind and sunny And the hearty warm approval of a friend. For it gives to life a savor, and it makes you stronger, braver, And it gives you heart and spirit to the end.

If he earns your praise bestow it; if you like him let him know it; Let the words of true encouragement be said; Do not wait till life is over and he's underneath the clover. For he cannot read his tombstone when he's dead.
