Reciprocity Not Wanted.

III.

In former articles on this question we recited in brief the history of our reciprocity treaty with the United States, and the attitude of the Ameri cans towards us in this matter, since the abrogation of that treaty. We also briefly referred to the changed con dition of things in Canada consequent upon the inauguration of the National Policy, as well as to the course pursued by our Liberal friends regarding this policy, while in opposition. It was pointed out that the Liberals conmeasured terms the policy of protection; declared them selves free traders, and boasted that their advent to power would be signalized by a renewal of reciprocal trade relations with the neighboring Republic. We showed that all these boastful predictions failed of fulfilment; that the Liberals in power maintained the protective policy; that they abandoned all their free trade pretensions, and that they utterly failed to secure reciprocity with the United States. It was made apyears, our friends in the to negotiate with Canada any kind of mutually advantageous reciprocal trade arrangement. Let Us Make Your Suit!

Have you been giving your money away to a poor tailor for clothes that did not satisfy you? or worse still have you, thinking you were saving two or three dollars on your suit, paid your good money for a "Ready, Made" -a suit that stays good fitting qualities make you appear poorly dressed. Have you ever thought that a "Ready-Made" was the most expensive Suit you could buy. Do you know that one good Tailor-Made Suit at \$20.00 to \$25.00 will outwear any two Ready-Made at \$15.00, and that the made-to-order suit will hold its shape and its good looks until the cloth is worn out, while a Ready Made will only look good for a short time. Isn't it cheaper for you to invest \$25.00 for a good suit once a year, than to invest \$15.00 for a poor one, twice in that period? You will agree with us in that, wont you? Then our proposition is this: We keep a stock of all the best cloths made—we have Worsteds, we have Tweeds, in all the leading shades; we have Serges and Vecunias in blue and black-in fact we have everything that's made for men's clothes. We have expert cutters, men who have spent years in studying the art of designing men's clothes, and we have a staff of workmen trained in every branch of the trade, men who put into a job work of the highest order.

You can select a suit at any price from \$18.00 to \$30.00. We will make it to your individual measure, we will put the best of trimmings into it, and we give you good style and the best of workmanship. In short, your money is not ours until you are satisfied with the suit in every particular.

Don't you think it will pay you to leave your order with us?

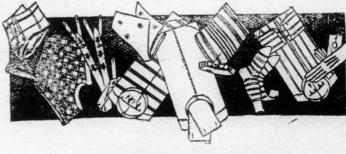

The Swellest Line of Men's Furnishings In the City is Here---Moderately Priced.

From the Federal Capital. OTTAWA, June 3, 1910. Hon. Frank Oliver, the minister of Interior, whose admitted aim is to fill up the greast West with Americans, and raise all sorts and conditions of prohibitive regulations against the entry of people from the British Isles, has overstepped the mark in his new immigration bill. This legislation was forced through parliament at the last session, when everyone was anxious to get home, and some of its provisions would do credit to a Russian administration. The whole aim of the bill is to make things as uncomfortable for the immigrant as possible, and to hedge him about with a mutiplicity of con- benevoleut bodies will hold their ditions which are almost impossible annual conventions in the West this to fulfil. The maximum of incon- year, some of which are shown bevenience is caused the newcomer low with the dates tickets will be on with a minimum of real advantage sale, etc., and the Grand Trunk to Canade. While everyone admits Railway System is granting special that there should be some super- low excursion rates, which can be vision over immigration and that taken advantage of by the general Canada should not become the public, as well as the members of the dumping ground for the riff-raf of different organizations mentioned Europe, yet the government in its below. It is for this purpose we regulations which have now come wish to draw the attention of the into force, has deliberately followed public generally to this matter, as the drastic laws of the United States, we know that a number of the people which country has to deal with con- who would like to arrange for a ditions with which Canada will not vacation trip to the Pacific Coast have to meet for many years to this summer, have an idea that these come. This slavish copying of the low special rates are only intended United States laws has spelled for the delegates of the fraternal trouble in the past, and in the case bodies. Such is not the case, bowof Mr. Oliver's immigration bill it ever, as anyone who wishes to make has already been fruitful of hardship this trip can secure these rates on to intelligent would-be settlers from application to any of our agents, or the old land who find themselves by communicating with Mr. John blocked by babyish regulations Quinlan, District Passenger Agent, framed in the Laurier nursery. It Montreal. is surely time that Canada was able to stand on her own feet, and make her own laws, instead of enacting the very letter and spirit of United States legislation. But with the present aggregation of incapables in power nothing but hanging on to the Cal., July 11, 16, 1910. rear of Uncle Sam's band waggon may be expected. When British subjects are barred from a British

country, by the whim of immigra-

powers that be, then it is time to

rier government forgets that Canada

is a British possession, and any at-

tempt, as the present one, to place

ever and anon a jarring note of dis-

cord rings in. If Mr. Oliver is really anxious to introduce a policy of "hand-picked' immigration, he must drop these American notions and put into force regulations which, while rigorous, are fair and just. To insult a stranger at our threshold is barbarous, and to permit officials to have such sweeping power as now exist under the new act, is little short of folly. The west is crying out loudly and constantly for bired men. Ontario is in the same boat, and through out the length and breadth of Canada there is a need, in some districts acute, of the brawn and muscle o the old land. Then the question arises: Why spend hundreds of thousands of dollars in advertising pionship of the world, to be held in Canada as a land of promise, as a San Francisco on Monday, July 4th, country overflowing with milk and will no doubt also be a drawing card honey, with fields of golden grain, and trees groaning under their fruity public. A special party in connecburdens, if the gate is locked to the tion with same is now being organwould-be settler as soon as he knocks ized from New England States, by thereat for admittance? The whole thing is the height of absurdity, of which this government alone could be capable. Canada wants men and Pullman reservations, etc., apply to wants them badly, and if the farmers Mr. Jos. M. Ahern, or E. F. Mo. of Ontario and the west find they Laughlin, c. o. John F. Ryan Co., cannot get the help they need they No. 93 Summer St., Boston, Mass. know at whose door to lay the blame. The government in this matter has acted according to its past record. It has built up needless barriers against men and women of British stock, by reason of an extravagan fear that the scum of Europe is headed for these shores. Why pay the passage of a Douhkobor, give to promptly, and early replies given him rich farm lands of the west, feed, pamper and look after bim, keep from starving on the prairies in a naked hunt for the Redeemer, and with the other hand slam the door tight in the face of an Englishman, Irishman or Scotchman, who perhaps has not the necessary \$25 which the regulations require, but who has what is far more valuable, the willingness to work, and the determine. tion to hew out a competence in this new land? Keep to the Straight Line.

A teacher of wide experience, now at the head of a noted Sisterhood, once gave the following motto to her graduating class:

Keep to the straight line-cost what it may, come what will.

A member of the class said not long ago that this motto had done more for her than any minor thing of indecision, and the memory of it of many an unpleasant task, which And, it is, after all, no minor

It aims to show them the preparation for His coming and the most important facts concerning His person and His work. I am sure that its loving and reverential spirit, its simple, easy style and its winning love, which shows that the writer understands and sympathizes with the child's mind, will make a deep and favorable impression on its young readers." In 62 pages of a handsomely illustrated quarto Miss Kiely weaves the story of Christ from creation to the Ascension with a skill and touching simplicity that should reach the minds and

An Unbiassed Tribute to The Church.

Two or three paragraphs of a speech delivered by Governor Marshall on occasion of the delegation of St. Joseph's College Chapel at Rensselaer, Indiana, May 21, deserve to be treas ured in the memory of Catholics. It s not often that the "Prudent" policy of statesmen permits plain, straightforward speech, and the courage that throws such prudence to the winds is worthy of our esteem:

If I had any fault to find, it is not my business to find fault with the looks face to face upon the Bestific people who have been kind to me; if I had any fault to find with secular education it is that there are too many men loosing their moorings; that they are turned out upon the sea of life without realization of the eternal. And why should I not be proud to be present upon an occasion such as this, at an institution such as this, where these young men are trained in liberal education, an education which teaches them their duties to the family, an education which teaches them their duties to their State; an education which teaches them their duties to the
