

SPORTING NOTES.

A rowing club has been organized in Trenton, with D. Gilmour as president. The organization of a Lower province cricket association is proposed by the Trenton, N. S. club.

The Chicago directors of the driving park have decided to have races Sunday during the coming summer. The yacht mystery of Toronto has been purchased and taken to Hamilton waters by Messrs. Farnham and Furlong.

The moorhose Doncaster, which once won the English Derby, has been sold to the Hungarian government for \$250. Sam Ward, a noted English pugilist, died at Egghill, Italy, yesterday.

The Toronto cricket club has now a good team in the field, and will play matches this season. Annotator, Galt, Guelph, and Chatham and Detroit are among the matches arranged for the coming season.

George W. Hamilton, the champion jumper, ran sixty yards against J. W. Secor of Houston at Galveston, Tex., on May 8. Hamilton was beaten. Secor ran the distance in 6 1/2 seconds.

The Toronto cricket club ground (Eloor street), the finest in Canada is at present in splendid condition, and as well as a billiard table. Mr. Hamilton, the caretaker, has been assiduous in his attention to it, with the above result.

An account appeared in a late issue of the Daily Beacon, Akron, Ohio, of a 5-mile walk through F. Meyer of Canton, a amateur champion of Ohio, and John A. Sharpe of Akron, formerly of Ottawa. Sharpe crossed the line with a time of 75 feet. Time 40 min. 11 sec.

As secretary of the Toronto Licensed Victuallers' club, I hereby challenge the licensed victuallers of Guelph to two friendly games of bill, the first to be played in Guelph on Friday, May 30, the return match to be played in Toronto on a date agreed upon at the first match.—L. S. FELCHER.

THE WORLD AT LARGE.

The health record of Cincinnati is reported to have greatly improved since the flood cleaned the unwholesome districts. Cardinal Howard, the English cardinal, on May 1 took possession of the suburban diocese of Frascati, memorable to Englishmen as having been under the charge of the last of the Stuarts, Cardinal York.

Plunger Walton, immediately on his arrival in England by the Arizona announced his intention to "break the ring" before his return, but whether his deeds will come up to his words remains to be seen. At present they do not look that way.

Many months ago the medical press was crowded with articles to show the action of a so-called new remedy in heart disease—extract of Hye of the valley. But a year or two ago it was found that the remedy was highly esteemed in Germany for the same malady prior to the year 1821.

The latest investigations of M. Bloch to show the rapidity of perceptive power seem to show that studied vision is quickest in its operation, and auditory perception occupies the seventy-second part of a second part of a second longer for transmission than a visual perception.

A correspondent writing to Nature states that the past winter has been remarkable for differences in large areas, served within short distance in Norway. For instance, while at Christiania the ice was from ten inches to twelve inches thick last January, at Stavanger the thermometer fell to freezing point only once during the whole month.

Rev. Dr. Wright, a distinguished A.M. of Trinity college, Dublin, has created some sensation by an article in which he says that many of the fellows that university do not believe in divine revelation or the existence of a personal God. Several are, at the best, agnostics, if not atheists. There is no way for disciplining either a fellow or a professor for erroneous views, and so it is a propaganda of skepticism.

From a French state paper, lately brought to light, it appears that in 1770 the following parliamentary decree was solemnly passed and duly registered under King Louis XV.: "Whoever, by means of artificial teeth, false hair, corsets, hoops, shoes with high heels, or false hips, small seek to entice into the paths of matrimony any male subject of his majesty, shall be prosecuted for witchcraft, and declared incapable of matrimony."

Handkerchiefs this season in Paris match the gown, so that if your gown is made of a material with a design or a rosette, or trimmed with rosette embroidery, you should have a handkerchief with a rosette border. If your gown is bronzed, your handkerchief should have a brown border, and if your dress is made of striped material your handkerchief should have a border of red or black, devils in grotesque attitudes.

A Bank President and Lyarist.

Fish is the oldest of three unfortunate bank presidents; but, notwithstanding his age, he was a lyarist in his ways, and strange stories are told of wild doings in the luxurious apartments he inhabited over his bank office. Rumor says that those rooms were a dazzling dream of oriental splendor in their appointments, and were a centre of attraction for the beauties of the city. In fact, this was no secret to Mr. Fish's associates, but does not seem to have disturbed their confidence in his powers as a successful financier.

Cataract—A New Treatment. Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Elix treatment for cataract. Out of 2000 patients treated during the past six months, fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of the patients presenting themselves to the regular practitioners are cured, while the patient medicines and other advertised cures never cure a cure at all. The Elix treatment is a new and general remedy, lived by the most scientific men of the day is due to the presence of living parasites in the tissues. Mr. Dixon at once adopted his cure for their extermination; this accomplished, the cataract is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure cataract in this manner, and no other treatment has ever cured cataract.

Consideration of a Mother. From the Chicago Sun. A dwelling house took fire in one of the chambers the other night from an exploding oil-lamp. The flames were extinguished after a sharp struggle by the woman of the house, who had her hands pretty badly burned. She was relating her adventures to a neighbor next morning, and the woman asked: "Why didn't you raise an alarm; were you deaf?" "Deaf and her head was hurting in the parlor," was the calm reply. "And you never called on them?" "No, I never have known cases where a sudden alarm has upset a young man just as he was about to propose and change the whole future of two lives."

By land or at sea, out on the prairie or in the crowded city, Ayer's Cathartic Pills are the best for purgative purposes, and every where alike convenient, efficacious and safe. For sluggish bowels, for liver, indigestion, bad breath, flatulency, and sick headache, they are a sure remedy.
