The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Explanation of the Articles of the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	—5' 58"	—4' 5"	—2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 30'...1st correction = — 4' 5"	2nd correction + 2.0 × 20 = + 40"
" " 47° 40'... " + 4' 32"	" " + 2.5 × 40 = 1' 40"
" " 45° 10'... " + 0' 0"	" " + 2.2 × 10 = 0' 22"

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction both for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec. The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning; and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The column, UPPER TRANSIT OF POLE STAR shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 8, and in the afternoon for the rest of the year, excepting on October 9, when it does not cross the meridian.

The four last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a Star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1864 there will be two Eclipses, both of the Sun.

I.—An Eclipse of the Sun, May 5, 1864, invisible in Canada. II.—An annular Eclipse of the Sun, October 30, 1864, invisible in Canada.

The mean value of the variation of the compass or magnetic declination at Toronto, for the year 1864, will be probably about $2^{\circ} 23'$ W. The magnet has a general westerly movement, of which the mean monthly value is at present $0^{\circ} 27'$ nearly, and by aid of which the mean value of the declination for each month may be obtained.

The magnet attains its greatest easterly elongation in the diurnal period about 8 a.m., and its extreme westerly elongation from 1 p.m. to 2 p.m. The positions of the magnet at the hours of extreme elongation on the average of the year are distant about $5'$ from the mean position, but are more widely apart in summer than in winter.

The hours in which the disturbances which affect the declination are commonly less than the average are from 10 a.m. to 7 p.m.; the three most tranquil hours being 1 p.m., 2 p.m. and 3 p.m.

HOLY DAYS, MORAL MAXIMS, PROVERBS, &c.

JANUARY.

A sure means to become inaccessible to disappointment is to become penetrated with the inconstancy of fortune and to be prepared for all her capriciousness.

PLUTARCH.

That is a two-fold knowledge which profits alike by the folly of the foolish and the wisdom of the wise; it is both a shield and a sword; it borrows its security from the darkness and its confidence from the light.

COLTON.

- 1 F *Circumcision.* Sufficient for the day is the evil thereof.
- 2 S In a fool's hand the burler learns to shave.
- 3 S *2d aft. Ymas.* Every one feels his own burden heavy.
- 4 M When a thing is done advice comes too late.
- 5 T Nothing falls into the mouth of a sleeping fox.
- 6 W *Epiphany.* Easy to say is hard to do.
- 7 T To a bold man fortune holds out her hand.
- 8 F He pulls at a long rope who desires another's death.
- 9 S He cannot be a friend to any who is his own enemy.
- 10 S *1st aft. Epiph.* After mischance every one is wise.
- 11 M Nothing is impossible to a willing mind.
- 12 T The receiver is as bad as the thief.
- 13 W Beauty and folly are often companions.
- 14 T It is well to fly low on account of the branches.
- 15 F A good swordsman is never quarrelsome.
- 16 S The sheep that is too tame is sucked by many lambs.
- 17 S *2d aft. Epiphany.* Ill luck is good for something.
- 18 M A 100 years is not much, but never is a long while.
- 19 T Every one should sweep before his own door.
- 20 W As you make your bed so must you lie on it.
- 21 T A man who wants bread is ready for any thing.
- 22 F Twist the word and the deed there is a long step.
- 23 S Precious ornaments are put into small boxes.
- 24 S *Septuagesima.* God's work is soon done.
- 25 M *Ann. of Paul.* Drop by drop wears away the stone.
- 26 T A foolish woman is known by her flattery.
- 27 W He has great need of a fool who makes himself one.
- 28 T He knocks boldly at the door who brings good news.
- 29 F He is just preaching to who does not care to do well.
- 30 W He that would eat the kernel must crack the nut.
- 31 S *Scaryesima.* A great talker is a great liar.

FEBRUARY.

Present fear begetteth eternal security. Fear God, which is above all, and no need to fear man at all.

ST. AUGUSTINE.

Know your opportunity, and do not speak beforehand of that which you will do. Should your project fail, you will furnish subject for ridicule to those who are jealous of you.

THALES.

- 1 M One must needs like what one cannot hinder.
- 2 T *Puri. B.V.M.* One must be either anvil or hammer.
- 3 W Never sell the bear's skin till you have killed the bear.
- 4 T One scabby sheep is enough to spoil the whole flock.
- 5 F There is no pride like that of a beggar grown rich.
- 6 S There is nothing so well done, but may be mended.
- 7 S *Quinquagesima.* It is only good bargains that ruin.
- 8 M The only way to keep a secret is to say nothing.
- 9 T *Shrove T.* At shrove tide everyone needs a frying pan.
- 10 W *Ash W.* Turn your tongue seven times bef. speaking.
- 11 T There is no bush so small but casts its shadow.
- 12 F Better be mad with all the world than wise alone.
- 13 S There are more foolish buyers than foolish sellers.
- 14 S *1st in Lent.* There is remedy for everything but death.
- 15 M The fault is great in proportion to him who commits it.
- 16 T Fortune can take from us only what she gives us.
- 17 F Money is a good servant, but bad master.
- 18 T Wash a dog, comb a dog, still a dog remains a dog.
- 19 S Life is half spent before one knows what life is.
- 20 S Misfortune comes on horseback & goes away on foot.
- 21 S *2nd in Lent.* The greatest cunning is to have none.
- 22 M He is the wisest man who does not think himself so.
- 23 T The rich man has more relations than he knows.
- 24 W *St. Matthias.* The tree does not fall at the first stroke.
- 25 T Fools invent fashions and wise men follow them.
- 26 F Many a one is good because he can do no mischief.
- 27 S A bad workman never finds a good tool.
- 28 S *3rd in Lent.* Little presents maintain friendship.
- 29 M Better a slip of the foot than of the tongue.

MARCH.

Fix'd to no place, the weevil always about,
Obedient to th' uncertain wav'ring blast;
But when the wind has ceas'd to blow, in doubt,
The weevil to one point is fix'd at last,
Vain heart! go search the world's remotest nook,
Pry into all, examine every book,
With equal thirst and hunger still oppress'd,
In God, the Lord, thou'lt find alone true rest.

- 1 T *David.* A friend is known in time of need.
- 2 W Split not in the well, you may have to drink its water.
- 3 T Don't find fault with what you don't understand.
- 4 F No one is so liberal as he who has nothing to give.
- 5 S Eat bread at pleasure, drink wine by measure.
- 6 S *Wh in Lent.* Think much, say little, write less.
- 7 M He asks advice in vain who will not follow it.
- 8 F When all other sins are old, avarice is still young.
- 9 W He who begins and does not finish loses his labor.
- 10 T He that reckons without his host must reckon again.
- 11 F He who listens at doors hears more than he desires.
- 12 S Could a man foresee events he would never be poor.
- 13 S *5th in Lent.* He who spares vice wrongs virtue.
- 14 M He who goes to collect wool may come back shorn.
- 15 F If a man would learn to pray let him go often to sea.
- 16 W He had need the early who would please every body.
- 17 T Fair is he that comes, but fairer he that brings.
- 18 F He who lives long knows what pain is.
- 19 S See a pin & let it lie, you'll want a pin before you die.
- 20 S *6th in Lent.* Who speaks sows, who listens reaps.
- 21 M Nothing is more like an honest man than a rogue.
- 22 T Without bread and wine even love will pine.
- 23 W Follow the river and you will reach the sea.
- 24 F Some thinking to avenge their shame increase it.
- 25 F *Good F. Annun. V.M.* Man proposes & God disposes.
- 26 S Not every sort of wood is fit to make an arrow.
- 27 S *EASTER DAY.* What is worth receiving is worth ret'g.
- 28 M Every body is wise after the thing has happened.
- 29 T To the jaundiced all things seem yellow.
- 30 W He pays dear for honey who licks it off thorns.
- 31 T Too much scratching smartens, too much talk'g harms.

APRIL.

Let reason guide you at all times, even in the most unimportant things.

PYTHAGORAS.

It is the devil's part to suggest; ours not to consent. As oft as we resist him, so often we overcome him; so often we bring joy to the angels and glory to God; who opposeth us that we may contend, and assisteth us that we may conquer.

S. BERNARD.

- 1 F One fool always finds a greater fool to admire him.
- 2 S One take this is better than two thou-shalt-haves.
- 3 S *Low Sunday.* Soon gained is soon squandered.
- 4 M The town that parleys is half surrendered.
- 5 T Let us have florins and we shall have consins.
- 6 W Associate with the good and you will be one of them.
- 7 T There is no helping him who will not be advised.
- 8 F He that laughs on Friday may cry on Sunday.
- 9 S To him who is determined it remains only to act.
- 10 S *2d aft. Easter.* At a good bargain pause and ponder.
- 11 M He who likes drinking is always talking of wine.
- 12 T When a tree is falling, every one cries down with it.
- 13 W Every one thinks his own cross is heaviest.
- 14 T A tree often transplanted is never loaded with fruit.
- 15 F The liar is not believed when he speaks the truth.
- 16 S Pretty women generally fall to the lot of ugly men.
- 17 S *3d aft. Easter.* Saying is one thing, doing another.
- 18 M The friendship of the great is fraternity with lions.
- 19 T Love rules his kingdom without a sword.
- 20 W No one likes justice brought home to his own door.
- 21 T He is rich enough who does not want.
- 22 F That is done soon enough which is well done.
- 23 S *St. George.* A great liar has need of a good memory.
- 24 S *4th aft. Easter.* A ragged coat finds little credit.
- 25 M *St. Mark.* An old flag is an honor to its captain.
- 26 T He who pays well is master of other men's purses.
- 27 W Bad is the sack that will not bear patching.
- 28 T He who makes himself a dove is eaten by the hawk.
- 29 F He that's born to be hanged will never be drowned.
- 30 S Who would have many friends let him t-st but few.

HOLY DAYS, MORAL MAXIMS, PROVERBS, &c.

MAY.

Despair not that the writing on the tree
Is indistinct at first appears to thee;
Of one day's growth was virtue never known;
The light of grace spreads by degrees alone;
Utt'li throughout illumin'd by its ray,
The soul of man made perfect in each way
By faith and works, is fitted to partake
The joys of heav'n for his Redeemer's sake.

- 1 S *Regation. St. Philip & James.* Silence gives consent.
2 M If this world each man has as much as he takes.
3 F Where remedies are needed sighing avails not.
4 W He who has a bad tongue should have good loins.
5 F *Ascension.* It is truth that makes a man angry.
6 F Who is in the right fears, who is in the wrong hopes.
7 S He who builds by the road side has many surveyors.
8 S *1st aft. Ascen.* He gives twice who gives in a trice.
9 M Where there is least heat there is most tongue.
10 F It is easy to preach fasting with a full belly.
11 W He begins to grow bad who believes himself good.
12 F It is easy to threaten a bull from a window.
13 F Better have an egg to-day than a hen to-morrow.
14 S He that shows his money shows his judgment.
15 S *Whit Sunday.* Better alone than in bad company.
16 M It is always good to leave two strings to your bow.
17 T Among men of honor a word is a bond.
18 W The flatterer's throat is an open sepulchre.
19 T Where the devil cannot put his head he puts his tail.
20 F All luck comes by pounds and goes away by ounces.
21 S The difficult thing is to get the foot in the stirrup.
22 S *Trinity Sund.* Do what you ought, come what may.
23 M The devil tempts all, but the idle tempt the devil.
24 F A well-fed man does not believe in hunger.
25 M Willows are weak, yet serve to bind bigger wood.
26 T The hardest step is that over the threshold.
27 F Conscience is as good as a thousand witnesses.
28 S The cat loves fish, but is loth to wet her feet.
29 S *1st aft. Trin.* The beard does not make the philosopher.
30 M The longest way round is the shortest way home.
31 F Pride went out on horseback and returned on foot.

JUNE.

Conduct thyself always with the same prudence, as
though thou wert observed by ten eyes and pointed-at by
ten fingers. CONFECTION.

Shun the society of the depraved, lest you follow their
pernicious example and lose yourself with them.

PLATO.

- 1 W Many desire the tree who pretend to refuse the fruit.
2 T No one ever became poor through giving alms.
3 F Hear, see and say nothing, if you would live in peace.
4 S Every one knows where the shoe pinches him.
5 S *2d aft. Trinity.* Measure three times and cut once.
6 M No one ever repented of having held his tongue.
7 T Through being too knowing the fox lost his tail.
8 W As you would have a daughter so choose a wife.
9 T A wise man does at first what a fool does at last.
10 F That is easy to remember which was hard to endure.
11 S *St. Barnabas.* Never do evil that good may come of it.
12 S *3d aft. Trinity.* Every one for himself and God for all.
13 M Women are wise impromptu, fools on reflection.
14 T It's a very proud horse that will not carry his oats.
15 W There is never enmity between the cook and butler.
16 T One hand washes the other and both wash the face.
17 F He got out of the mud and fell into the river.
18 S It is all one whether you die of sickness or of love.
19 S *4th aft. Trinity.* Many a true word is spoken in jest.
20 M A pitcher that goes off to the well is broken at last.
21 T Revenge a hundred years old has still its milk-teeth.
22 W The virtue of silence is a great piece of knowledge.
23 F One pair of ears would exhaust a hundred tongues.
24 T *St. John Baptist.* What costs little is little esteemed.
25 S They who shun the smoke often fall into the fire.
26 S *5th aft. Trin.* If you can't bite don't show your teeth.
27 M He is a fool who thinks that another does not think.
28 T When his head is broken he puts on his helmet.
29 W *St. Peter.* A living ass is better than a dead doctor.
30 T To be content, let twelve pennies pass for a shilling.

JULY.

All men have their trials and afflictions, but a contented
mind accommodates itself to every vicissitude of life;
neither poverty nor distress, neither losses nor disappoint-
ments, neither sickness nor sorrow, can affect its equali-
ty. DR. BARBER.

Be discreet in your discourse, but much more in your
actions; the first evaporates, the latter endures for ever.
PROCLIDES.

- 1 F Apes remain apes though you clothe them in velvet.
2 S Everything would be well were there not a "but."
3 S *1st aft. Trinity.* Even the best hack stumbles once.
4 M The beguiling hut, the middle lukew'm, the cold cold.
5 F Even the lion must defend himself against the flies.
6 W Better go to bed supperless than run into debt.
7 T The master's eye does more than both his hands.
8 F Fortune gives many too much, but no one enough.
9 S One beats the bush, another catches the bird.
10 S *2d aft. Trin.* In the evening one may praise the day.
11 M The dog rages at the stone, not at him that throws it.
12 F He laughs at scars who never felt a wound.
13 W The road to ruin is paved with good intentions.
14 F It is a bad horse that does not earn his fodder.
15 F A single penny fairly got is worth a 1000 that are not.
16 S The wise man has long ears and a short tongue.
17 S *3d aft. Trinity.* Better alone than in bad company.
18 M The sundial counts only the bright hours.
19 T A fence between makes love more keen.
20 W Fire and water are good servants, but bad masters.
21 F Early to rise & late to bed lifts ag'n the debtor's head.
22 F What is said is said, and no sponge can wipe it out.
23 S Never give the skin when you can pay with the wool.
24 S *4th aft. Trinity.* The key that is used grows bright.
25 M *St. James.* The young may die, the old must die.
26 F Fortune and misfortune are two buckets in a well.
27 W Wealth causes arrogance; poverty weakness.
28 F High houses are mostly empty in the upper story.
29 F A 100 yrs. of wrong does not make an hour of right.
30 S In the mirror see your form, in wine the heart.
31 S *10th aft. Trin.* 'Tis the mind ennobles, not the blood.

AUGUST.

Example works more than precept; for words without
practice are but counsels without effect. SEAR. PALMER.

A contented mind is free from the distressing passions
of ambition, covetousness, jealousy, envy, and the like,
which prey like vultures upon the peace of the discon-
tented. DR. BARBER.

- 1 M *Lammas.* God helps those who help themselves.
2 T Ever one hair, only one, and the man is bald at last.
3 W Buyers want a hundred eyes, sellers only one.
4 T Every man is the best interpreter of his own words.
5 F Let not thy right hand know what thy left doeth.
6 S Light is light, though the blind man see it not.
7 S *11th aft. Trin.* As soon as man is born he begins to die.
8 M Don't carry your head too high, the door is low.
9 T Many a one threatens while he quakes for fear.
10 W Who the daughter would win, with ma. must begin.
11 T Fools build houses, wise men buy them.
12 F Stevenge converts a little right into a great wrong.
13 S Disputing and borrowing cause grief and sorrowing.
14 S *12th aft. Trin.* He is rich enough who is contented.
15 M Speaking comes by nature, silence by understanding.
16 T A bad beginning may make a good ending.
17 W Locks and keys are not made for honest fingers.
18 T Fair flowers do not remain long by the wayside.
19 F Never trust to another what you should do yourself.
20 S Be silent, or say something better than silence.
21 S *13th aft. Trin.* Saving is a greater art than gaining.
22 M The drunken mouth reveals the heart's secrets.
23 T Our neighbors' children are always the worst.
24 W *St. Bartholomew.* Faint heart never won fair lady.
25 T Truth may be suppressed but not strangled.
26 F What the eye sees not, the heart sees not.
27 S The weeping bride makes a laughing wife.
28 S *14th aft. Trinity.* What is no sin is no shame.
29 M What three know will soon be known to thirty.
30 F When the jest is at its best 'twill be well to let it rest.
31 W When a man is down, everybody runs over him.

HOLY DAYS, MORAL MAXIMS, PROVERBS, &c.

SEPTEMBER.

Th' upward soaring spirit ever
Craves the joys of heaven to know.
But, alas, the vain endeavour!
Bondslave of the flesh, below!
Though they be but frail as straw,
Worldly joys more strongly draw.

Throw aside prejudice and thou art saved. Who prevents thee from doing so?
MARCUS AURELIUS.

- 1 T When we think to catch, we are sometimes caught.
- 2 F Make a bridge of silver for the flying enemy.
- 3 S The lucky man has a daughter for his first born.
- 4 S 15th aft. Trinity. To a hard knot a hard wedge.
- 5 M A fair-weather friend changes with the wind.
- 6 T He who has a good wife can bear any evil.
- 7 W The bow that is always bent slackens or breaks.
- 8 T Every man is the son of his own works.
- 9 F The threestriker loses the opportunity of vengeance.
- 10 S It is the best that fures, not the fisherman or rod.
- 11 S 16th aft. Trinity. Another's care hangs by a hair.
- 12 M The wise man does not hang his knowledge on a hook.
- 13 F Doing is no salt, but where it falls it works miracles.
- 14 W A blow from a frying pan, if it does not hurt, smuts.
- 15 T He who is in the mud likes to get another into it.
- 16 F Enjoy your little whilst the fool is seeking for more.
- 17 S A grain does not fill a sieve, but it helps its fellow.
- 18 S 17th aft. Trin. He who makes a law should keep it.
- 19 M Do what I say well, and not what I do ill.
- 20 T The tongue of a bad friend cuts more than a knife.
- 21 W St. Matthew. A long tongue betokens a short hand.
- 22 F Poverty does not destroy virtue, nor wealth bestow it.
- 23 S What is much desired is not believed when it comes.
- 24 S Many lose hands they would have seen chopped off.
- 25 S 18th aft. Trin. Rise early and watch, labor and catch.
- 26 M What does not happen in a year may in a moment.
- 27 T He has much to do who would please everybody.
- 28 W In the garden, more grows than the gardener sows.
- 29 T St. Michael. None so deaf as he that won't hear.
- 30 F Let not the tongue utter what the head must pay for.

OCTOBER.

The goal of yesterday will be the starting point of to-morrow.
CARLYLE.

It is better to be poor and not have been wanting in discretion, than to attain the summit of our wishes by a loose conduct.
DIOGENES.

The friendship of the wicked has no duration; but Time worketh no change in the friendship of the good. ISOCRATES.

- 1 S There is no beast so savage but sports with its mate.
- 2 S 19th aft. Trin. God does not smile with both hands.
- 3 M What's everybody's business is nobody's business.
- 4 T If you pay what you owe, you're worth you'll know.
- 5 W For all one's early rising, it dawns none the sooner.
- 6 F Who is tender in every thing is a fool in every thing.
- 7 F He who has two masters to serve must lie to one.
- 8 S He who tells his own secret will hardly keep another.
- 9 S 20th aft. Trin. The absent were never in the right.
- 10 M He who does what he likes does not what he ought.
- 11 F If you would make a thief honest, trust him.
- 12 W The gossips fall out and tell each other truths.
- 13 F He that has no ill luck grows weary of good luck.
- 14 F Do not tell your secrets behind a wall or a hedge.
- 15 S I stubborn & you stubborn, who is to carry the load?
- 16 S 21st aft. Trinity. A rolling stone gathers no moss.
- 17 M A friend's fault should be known but not abhorred.
- 18 T St. Luke. He who avoids temptation avoids sin.
- 19 W Good words and bad acts deceive both wise & simple.
- 20 F Every one stretches his leg according to his coverlet.
- 21 F The dog that barks much is never good for hunting.
- 22 S Hunger and cold surrender a man to his enemy.
- 23 S 22nd aft. Trin. Rather lose the wool than the sheep.
- 24 M He has nothing who is not content with what he has.
- 25 T What was hard to bear is sweet to remember.
- 26 W The blunders of physicians are covered by the earth.
- 27 F Promising is not giving, but serves to content fools.
- 28 F St. Simon & Jude. He that does ill never wants excuse.
- 29 S If you would be good judge, hear what everyone says.
- 30 S 23rd aft. Trinity. He who knows little soon blabs it.
- 31 M Time and the hour are not to be tied with a rope.

NOVEMBER.

It is sad to die before the time: idle speech! Before what time? Before that prescribed by nature! But nature lent life to us only, without fixing the term of its withdrawal.
CICERO.

Our life is taken from us but to give
A better life, wherewith in heav'n to live;
Unquenched, our spirit, by our body's death,
Rises refresh'd, to breathe with purer breath.

- 1 F All Saints. Every man's friend is every man's fool.
- 2 W Before you make a friend, eat a peck of salt with him.
- 3 F If he waits long enough, the world will be his own.
- 4 F When the pig has had a belly-full it upsets the trough.
- 5 S From the make debts and debts make promises.
- 6 S 24th aft. Trinity. Better keep peace than make war.
- 7 M Better a fold with the birds than hanging on fords.
- 8 T Nobility of soul is more home, than nobility of birth.
- 9 F Fool's ask what's o'clock, wise men know their time.
- 10 T Who don't keep faith with God won't with man.
- 11 F He that can be patient finds his foe at his feet.
- 12 S He that will not be counselled cannot be helped.
- 13 S 25th aft. Trinity. With the good we become good.
- 14 M He that despises the little is not worthy of the great.
- 15 F A hired horse and one's own spurs make short miles.
- 16 W No greater promisers than they who have not to give.
- 17 T Fortune does not stand waiting at any one's door.
- 18 F The art is not in making money, but in keeping it.
- 19 S Better twice remembered than once forgotten.
- 20 S 26th aft. Trinity. Evil words corrupt good manners.
- 21 M His howls with the wolves and bleats with the sheep.
- 22 F A man is not known till he cometh to honor.
- 23 W After honor and state follow envy and hate.
- 24 T Better lose your labor than your time in idleness.
- 25 F Out of the abundance of the heart the mouth speaks.
- 26 S Fire in the heart sends smoke into the head.
- 27 S 1st in Advent. Necessity is the mother of invention.
- 28 M He who slanders his neighbor makes a rod for himself.
- 29 F A wound never heals so well the scar can't be seen.
- 30 W St. Andrew. Envy does not enter an empty house.

DECEMBER.

There is a jewel which no Indian mine can buy,
No chemist art can counterfeit;
It makes men rich in greatest poverty,
Makes water wine, turns wooden cups to gold,
The homely whistle to sweet music's strain,
Seldom it comes, to few from heaven sent,
That much in little—all in naught—Content.
WILBYE.

The mean temperature of the year 1862 differed very slightly from the average of 22 years, being only 0.23 in excess. The monthly means likewise conformed in an unusual degree to their respective averages, the mean deviation without regard to sign being 1.42 in 1862, while the average of these deviations in 22 years was 2.46.

As regards the distribution of temperature through the year, the first seven months, with the exception of May, were relatively cold, being on the whole 0.75 below the average, while the temperature of the remaining five months exceeded the average by 1.60, and, with the exception of November, were all relatively warm. January and February, though comparatively cold, do not supply examples of very low temperatures, the minimum of the year, -5.2 on February 15, being the highest minimum that has occurred since 1847, and 7.0 warmer than the average of the yearly minima. Again, while July was relatively cold it furnishes the highest maximum, 89.5, that has been recorded since 1856, when the temperature reached 90.0.

The year was on the whole deficient in rain, the total fall being less than the average by 4.705 inches. The excess of snow, which may be taken as equal to 2.377 inches of rain, still leaves a deficiency of 2.418 inches from the average annual precipitation. The lack of rain that occurred in April, May, and June, was in some degree compensated by the abundant snow in January, February and March, which exceeded by 75 per cent. the usual fall, and served to maintain below the surface an amount of moisture sufficient for the supply of the more deeply rooted plants, and to mitigate the ill effects that might have been apprehended from the drought of the three following months.

In the following summary several of the results of 1862 are compared with the averages derived from a series of years, as well as with extreme values of analogous results that have occurred during the same series.

TEN REASONS FOR EMIGRATING TO CANADA.

The aim of the man who contemplates changing the land of his birth for another being, generally speaking, the improvement of his condition, the question where the circumstances may be looked for most favourable to the realization of his desire, claims his best thought. Such thought he owes to himself, to his family if he has one, and to those among whom he may decide on taking up his abode; because mistake in his choice may involve him and those he loves in disappointment and distress, and entail weakness on those to whom he should bring strength.

In favour of the selection of Canada as his future home, the attention of the intending emigrant is respectfully invited to the considerations which follow.

1. Its accessibility.

Compared with other regions open to him, it may be reached in a very short time (eleven days by steam), at a trifling expense, and with a small amount of inconvenience.

In sailing vessels, the rates of storage passage vary, according to accommodation, from three pounds to four or five pounds sterling. The charge between Liverpool, London and Glasgow, and Toronto, by the Montreal Steamship line, is \$34, including provisions; between Glasgow and Quebec or Montreal, \$23. By the Anchor Line, the charge between Glasgow and Quebec is \$25. The Great Eastern charges \$30 between Liverpool and New York. Its cabin rates are—1st cabin, \$35–\$35; 2d cabin, \$70; 3d cabin, \$50. By the Montreal Line, the cabin passage varies, with accommodation, from \$72–\$88. The cabin fare between Glasgow and Quebec, by the Ocean Line, is \$68; intermediate, \$44. By the Anchor Line, \$60; intermediate, \$30. Children are carried by them all at lower rates, generally half-price.

Once landed at Quebec or Montreal, the emigrant may pass on to Toronto, or Hamilton, or any intermediate

locality, by steamboat or railway; and thence by railway to the western extremity of the province. The Northern Railway will take him to any place he pleases on the route between Toronto and Collingwood. Lake Huron, whence he can pass on to Owen Sound and intermediate places by steamer. The cost of the passage by deck of steamer and second class cars is, from Quebec to Toronto, a distance of 600 miles, about \$5; with corresponding rates for places intermediate; to Windsor, the western extremity of the province, 631 miles from Quebec, \$7 12½; to Barrie, 565 miles, \$4 50; to Collingwood, 593 miles, \$7. The time between Quebec and Toronto is by railway about 30 hours, by steambath a day or two longer. Toronto may be reached by railway from Portland, the ocean terminus of the Grand Trunk, in from 25 to 26 hours.

As, moreover, he may return to his old home so much more easily, should he for any reason wish to do so, he is less irrevocably committed by coming here than by going elsewhere. A visit to it is at any time much more practicable, other things being equal. His friends may likewise, if so disposed, follow him with much less of difficulty, thus renewing associations of which necessity had compelled the temporary interruption.

2. The scope afforded by its extent, both for the successful employment of his capabilities and the gratification of his tastes in the choice of a home.

Leaving out the territory to the northwest, the opening of which may be looked for ere long, Canada occupies a space, stretching in a south-westerly direction from the Island of Anticosti in the Gulf of St. Lawrence, to the south-western extremity of Lake Erie, of about 1,400 miles in length; with a breadth varying from two hundred to four hundred miles. Including water-surfaces, it is computed to contain an area of 349,821 square miles—242,482 exclusive of water. The number of acres comprised within it is estimated at 160,405,219—128,459,884 of which are reckoned to Canada East; to Canada West, 31,745,533.

"If an area," it is remarked in a pamphlet published in 1860, by authority, "be traced in Europe, corresponding generally to that occupied by Canada, in America, and the meridian of the most southern part of Canada be supposed to be upon the meridian of Greenwich, in England, the south of France, at the base of the Pyrenees, will represent the south frontier of Canada; the south eastern boundary of this area will stretch through France, Switzerland, Bavaria, and Austria, to a point in the south of Poland, and a line drawn northward to Warsaw will delineate the mouth of the Gulf of St. Lawrence. The north western boundary of this area will extend from the south of France, in a northerly direction, towards and beyond Brest; and a line drawn from near Brest to the British Channel, thence through England, Belgium and Germany, to Warsaw again, will establish the position of a European area, corresponding to Canada in America. The inhabited and highly fertile portion of Canada is represented in this area by those regions which lie in the south, centre and south-east of France, and in those parts of Switzerland, Bavaria and Austria, included within its boundary. The other portion, although of vast extent, and not so well fitted for extended agricultural operations, is highly valuable on account of its timber and minerals.

The Province of Canada embraces about 350,000 square miles of territory, independently of its north-western possessions, not yet open for settlement: it is consequently more than one-third larger than France, nearly three times as large as Great Britain and Ireland, and more than three times as large as Prussia. The inhabited or settled portion covers at least 40,000 square miles and is nearly twice as large as Denmark, three times as large as Switzerland, a third greater than Scotland, and more than a third the size of Prussia; but such is the rapid progress of settlement through immigration, that in ten years time the settled parts of Canada will be equal in area to Great Britain or Prussia."

According to the Crown Lands Report for 1856, the peninsula of Gaspe alone, which is 175 miles in length, with an extreme breadth of 90 miles, comprises an area, after the deduction of a small portion covered by New Brunswick, of 11,800 superficial miles, equal to that of the European peninsula of Denmark, which it resembles in form. The Tadoussac territory, valued as yet chiefly for its timber trade and its fisheries, is there stated to have a coast of six hundred miles in length on the Gulf and River St. Lawrence, with a breadth of 100 miles and an area of probably 65,000 square miles; more than twice that of Scotland. The country drained by the Saguenay includes an area of 27,000 square miles, an extent equal to

the Tyrol and Switzerland taken together. The quantity of land in it capable of cultivation is estimated at about 3,000,000 acres. The area drained by the St. Maurice is about 21,000 superficial miles; about one-sixth larger than the main land of Scotland, and containing about as much arable land. "Admirably watered, and intersected by magnificent rivers, with forests of pine alternating with rich tracts of hardwood land, and with that most valuable of all minerals, iron ore, in unlimited quantities, the country wants but the hand of man and the course of a few years to make it equal to the most flourishing parts of Canada." The area of the Ottawa and tracts therewith connected is estimated at 82,000 miles; one-fourth greater than that of the New England States.

In the Great Manitoulin Island, which contains about 3,000,000 acres, upwards of 200,000 acres are expected soon to come into market. On the north sides of Lakes Huron and Superior there remains to be noticed an area of about 48,000 miles; one-half greater than that of the State of Maine.

Regard as so vast afford certainly ample room and verge enough, and will do for some time to come. Should they, however, become too strait we have the North West to fall back upon, one-fifth of which, the Red River and Saskatchewan country, is computed to contain a territory exceeding in extent the empires of France and Austria united.

3. The physical characteristics of the country, its natural resources, and its healthfulness.

The variety of its products and abundance of its harvests attest, where proper care is bestowed on its cultivation, the excellence of its soil. And although in the longer settled parts of the country the best lands may be supposed to be occupied, and therefore attainable only at a considerable advance on the original prices, others quite equal to them are to be found in the newer regions which every year is bringing into the market. According to the Crown Land Report for last year, there are now in the hands of the Government (surveyed) for disposal 5,008,557 acres, in Lower Canada; in Upper Canada, 2,829,358½—in all, 8,747,915½—varying in price with situation.

"In Upper Canada, it is 70 cents per acre for cash, or one dollar when paid in instalments—one at the time of purchase, and the remainder in four equal annual payments with interest. In Lower Canada, the highest price is 60 cents, but the larger quantity is disposable at 50 cents per acre. In the Algonia District, Upper Canada, and in those of Gaspe and Saguenay in Lower Canada, the price is only 20 cents. The condition of settlement is exacted in all cases.

Through these newer lands seven great roads have recently been laid out in Upper and five in Lower Canada. The Upper Canada roads are—1. "The Ottawa and Opeongo road," which runs east and west, intended to be 171 miles in length, and to connect the Ottawa river with Lake Huron,—of this, 62 miles are finished, on which 235 settlers are already located. 2. The "Addington Road," which intersects the Opeongo Road,—on this, which is about 61 miles in length, there are 178 settlers. 3. "The Hastings Road," running nearly parallel to the Addington Road, and connecting the county of Hastings with the Ottawa and Opeongo Road, 68 miles in length—on which there are 306 settlers. 4. "The Hovey's Road," running north from Bobcaygeon, between the counties of Peterborough and Victoria, meant to be continued to Nipissing,—the number of miles completed is 35, the number of settlers 108. 5. "The Frontenac and Madawaska Road," of which the number of miles completed is 33. 6. "The Muskoka Road," which runs from the head of the navigation of Lake Couchiching to the Grand Falls of Muskoka, where it will intersect what is called Peterson's line, which will eventually meet the Ottawa and Opeongo Road, now gradually opening westwardly. By this road, the intending settler can reach the centre of the county in one day from Toronto, whence he will proceed by Northern Railway to Lake Simcoe, and thence by steamer,—21 miles are completed. 7. "The Saint Ste. Marie Road," intended to run from Saint Ste. Marie to Goulais Bay,—four miles of which are completed.

The five in Lower Canada are "The Elgin Road," in the county of Elgin, 38 miles in length, from St. Jean Port Joli to the Provincial Line; "The Montreal and Cap Chat," "The Taché Road, from Buckland, county of Hochelaga, to Kamptuland, Minouck, about 200 miles; "The Tennis court Road," from River du Loup to Lake Temiscouata; and "The Kempton Road," from Melville to Redoubt.

Along these roads, free grants, not exceeding 100 acres

In each case, are given by the government for the purpose of facilitating settlement, on the following conditions.

1. That the settler be eighteen years of age.

2. That he take possession of the land allotted to him within one month.

3. That he put into a state of cultivation 12 acres of land in the course of four years.

4. That he build a log house, 20 by 18 feet, and reside on the lot until the foregoing conditions are fulfilled.

"Families may reside on a single lot, and the several members having land allotted to them will be exempt from building and residence on each individual lot. The non-fulfilment of these conditions will cause the immediate loss of the land, which will be sold or given to another. The lands thus opened up, and gratuitously offered by the government for settlement, are chiefly of excellent quality, and well adapted in respect of soil and climate, to all the purposes of husbandry.

"The reports of the resident agents on these roads, for the past year, convey the most favourable accounts of the prosperity of the settlers thereon, and of the large amount of produce they have raised on the newly-cleared lands."

In the Crown Lands Report for 1862, similar accounts are given; though a late statement excepts certain parts of the Openzoo Road, which are said to be so rocky as to be incapable of cultivation.

In its mines, in its forests, and in its fisheries, Canada has stores of untold, of almost incomprehensible wealth; which its numerous lakes and rivers supply facilities for conveying to market.

Of metallic minerals, the following are enumerated in a catalogue contained in "Canada at the Universal Exhibition, 1856," to wit: Magnetic Iron Ore, Specular Iron Ore, Limonite (Red Ore), Titaniferous Iron, Sulphate of Zinc (Blende), Sulphate of Lead (Galena), Copper, Nickel, Silver, Gold, Non-metallic—Ceranum, Chromium, Cobalt, Manganese, Iron Pyrites, Graphite, Dolomite, Carbonate of Magnesia, Sulphate of Barvta, Iron Ochres, Steatite, Lithographic Stone, Agates, Jasper, Labrador Feldspar, Aventurine, Hyacinth, Cornudum, Amethyst, Jet, Quartzose Sandstone, Bethune and Basalt, Gypsum, Shell Marl, Phosphate of Lime, Millstones, Grindstones, Whetstones, and Tripoli. Under the head "Building Materials," are specified: Granites, Sandstone, Calcareous Sandstone, Limestones, Hydraulic Limestones, Roofing Slates, Flagging Stones: Clays suitable for the formation of red and white bricks, tiles and coarse pottery; Moulding Sand, Fuller's Earth; and Marbles, white, black, red, brown, yellow and black, grey and variegated, and green. Of combustibles—Peat, Petroleum and Asphaltum, are named. Some of these are confined to a single locality, others to a few places, but the more useful of them are widely distributed and their quantities very great.

Though our fisheries are as yet in their infancy, they employ from 1,200 to 1,500 boats, with nearly 100 vessels. The annual value of their products is, for Lower Canada, \$342,523; for Upper Canada, \$380,000; total, \$722,523.

Exclusive of furs, the products of the forest amounted, in 1860, to \$11,012,253.

Our climate, notwithstanding the extremes of cold and heat to which it is liable—which, however, are often greatly exaggerated—is eminently favourable, as the tables of longevity and the habits of the people prove, both to life and enjoyment.

According to Professor Guy, the proportion of deaths to the population is, in

"The salubrity of the Province," remarks Mr. Hogan, from whom we have taken the above table, "is sufficiently proved by its cloudless skies, its elastic air, and almost entire absence of fogs. The lightness of the atmosphere has a most invigorating effect upon the spirits. The winter frosts are severe and steady, and the summer suns are hot, and bring on vegetation with wonderful rapidity. It is true that the spring of Canada differs much from the spring of many parts of Europe; but after her long winter the crops start up as if by magic, and reconcile her inhabitants to the loss of that which, elsewhere, is often the sweetest season of the year. If, however, Canada has but a short spring, she can boast of an autumn deliciously

mild, and often lingering on, with its Indian summer and golden sunsets, until the month of December.

"A Canadian winter, the mention of which some years ago, in Europe, conveyed almost a sensation of misery, is hailed rather as a season of increased enjoyment than of privation and discomfort by the people. Instead of alternate rain, snow, sleet and fog, with broken up and impassable roads, the Canadian has clear skies, a fine bracing atmosphere, with the rivers and many of the smaller lakes frozen, and the inequalities in the rough tracks through the woods made smooth by snow, the whole face of the country being literally macadamized by nature for a people as yet unable to macadamize for themselves."

4. *The constituents and character of its population.*

As a matter of course, its inhabitants share in the common characteristics of the races whence they have sprung—which include the leading peoples of Europe, those especially of the British Islands, and France and Germany—and natives of the United States. The circumstances in which they are placed—the constant demand on them for exertion during the earlier period of their residence in the country, the selfdependence they are called to exercise, connected with the measure in which they are thrown on one another's sympathy, and the hope amidst which they work—have a direct tendency to develop not a few of their better qualities. Even the variety of their previous modes of thought and action, though condemning perhaps for a time some inconvenience, is a gain to them in the end by the contributions which it enables them to make severally to the common stock of ideas, and the habit which it produces of tolerance for unessential differences, consideration for one another's feelings, and appreciation of each other's virtues.

An incidental advantage of no small value, resulting from the variety of origin to which allusion has been made, is the sympathy which the new-comer may look for from his countrymen, with the measure in which the privilege of association with them helps to make him feel himself at home. This is a source of comfort specially open to emigrants from Britain, France, and the neighbouring States.

Among the larger portion of our people there exists, alongside of the variety of origin alluded to, a homogeneity which greatly facilitates their welding into one community, imparting to them, while the process is going on, a coincidence of feeling which makes living among them easy and pleasant, and secures their acting together in all matters of special moment.

The beneficial influence mutually exerted by the new-comer and the older resident on one another, is well brought out in the following passage of Mr. Hogan.

"It is a remarkable fact, that the farmers of Upper Canada have opportunities of improvement, and of enlarging and correcting their views, beyond what are enjoyed by many of their class even in England. And this arises from the circumstance of the population being made up of so many varieties. The same neighbourhood has frequently a representative of the best farming skill of York,shire, of the judicious management and agricultural experiences of the Lowlands, and of the patient industry and perseverance of Flanders. In a country so peopled, the benefits of travel are gained without the necessity of going away from home. Other countries, in fact, send their people to teach Canadians, instead of Canadians having to go to other countries to learn. A thousand experiences are brought to their doors, instead of their having to visit a thousand doors to acquire them. Nor is the advantage of this happy admixture of population altogether on the side of the Canadian; for whilst he glean from the old countryman his skill and his science, he teaches him, in return, how to rely upon himself in emergencies and difficulties inseparable from a new country, how to be a carpenter when a storm blows down a door, and there is no carpenter to be had, and how to be an unsmuggled wheelwright when a wagon breaks down in the midst of a forest, and there is no one either to instruct or assist him. The one, in short, imparts to a comparatively rude people the knowledge and skill of an old and civilized country; the other teaches skilled labour, how to live in a new land. The consequence is, the old countryman of fact becomes, in all that relates to self-reliance and enterprise, a capital Canadian in a few years; whilst the Canadian, in all that pertains to skillful industry, becomes an Englishman."

The operation of the same fact, the mixed character of our population, on the culture of taste is shown in continuance of the above, but our space compels us to leave it unquoted. The principle may be applied more widely than it is in our whole 5. *Its climate.* No wonder Of a state difficult or our own courts eat appointing managed for their care a power in the more a tunity of higher d securing station, th may not g "The Canada, as different as the sys "The in ship, are, is ceeding w is made circumst from the for regul the mun be gener nature, h ways, th common dation for collectio ment of f regulatio providin o' structi edles an enforce tion of p habours lations f ing gas s ing rates incomes, ing mon tore, esse "In ed you th equalled principle conduct of qualifi performi social po raise the or at a c log of a are repli lles; w training learning moderate be dispn their c From for 1801 of the e and 1861 The r 1847, 2 pupils a 124,829 Roman 1851, in 1857, 10 school i and in f of comm school b in 1855, reports in 1861, In 18

5. *Its institutions.*
No where is a more perfect freedom enjoyed than here. Of a state of liberty more complete it would indeed be difficult even to form a conception. We live under laws of our own making or voluntary adoption, administered in courts established by ourselves, and by judges of our own appointing. The men by whom our general affairs are managed are chosen by ourselves and responsible to us for their conduct. Our municipal system gives the people a power in local matters which is supreme, and affords to the more ambitious and intelligent among them an opportunity of preparing themselves for the performance of higher duties, as well as of attracting the notice and securing the respect of the community. Of influence or station, there is nothing among us to which the poorest may not aspire.

"The general features of the municipal law of Upper Canada, and which, with some modifications suited to the different state of society in Lower Canada, may be stated as the system in force throughout the Province, are—

"The inhabitants of each county, city, town and township, are constituted corporations; their organization proceeding wholly upon the elective principle; and provision is made for the erection of new municipalities, as the circumstances of the country require, by their separation from those already existing. A complete system is created for regulating the elections, and for defining the duties of the municipalities and their officers. Their powers may be generally stated to embrace every thing of a local nature, including the opening and maintenance of high-ways, the erection of school houses, and the support of common and grammar schools; the provision of accommodation for the administration of justice, goals, &c., and the collection of rates for their support, as well as for the payment of petty jurymen; granting shop and tavern licences; regulating and prohibiting the sale of spirituous liquors; providing for the support of the poor; preventing the obstruction of streams; effecting drainages, both in the cities and county; inspection of weights and measures; enforcing the due observance of the Sabbath, and protection of public morals; establishing and regulating ferries, harbours, markets, &c.; abating nuisances; making regulations for and taking precautions against fires; establishing gas and waterworks; making police regulations; levying rates upon all real and personal property, including incomes, for all purposes, and for certain objects, borrowing money; together with a great number of minor matters, essential for the good government of a community.

In educational advantages we know of no country so young that exceeds us. By few of that class are we even equalled. Our common schools, established on the best principles and taught by well-qualified and honourably-conducted teachers, offer to our youth at large the means of qualifying themselves for the intelligent and efficient performance of the duties awaiting them in their present social positions, or adding them, if such be their wish, to raise themselves to such as are higher, either without cost or at a charge little more than nominal. For the obtaining of a still better culture our Grammar Schools, which are rapidly improving in character, offer all reasonable facilities; while our Colleges and Universities place professional training and instruction in the higher departments of learning and science within the reach of the possessors of moderate means, or such as, in the absence of these, may be disposed to maintain for a time a manly struggle for their own advancement.

From a valuable table (T) given in Dr. Ryerson's Report for 1861, we extract the following particulars illustrative of the educational progress of Upper Canada, between 1842 and 1861.

The number of common schools was, in 1842, 1,271; 1847, 2,727; 1852, 2,992; 1857, 3,621; 1861, 3,910. The pupils attending these numbered, in 1842, 66,978; 1847, 121,829; 1852, 179,557; 1857, 262,673; 1861, 310,287. Of Roman Catholic separate schools there are reported, for 1861, in which year they first appear in the returns, 16; 1857, 100; 1861, 100. There were in 1845, 2,500 common school teachers employed; in 1850, 3,470; in 1855, 3,565; and in 1861, 4,336. There was paid for salaries of teachers of common and separate schools, erection and repair of school houses, libraries and apparatus, in 1850, \$410,472; in 1855, \$899,272; in 1861, \$1,191,413. Of the schools thus reported there were 252 free in 1850; 1,211 in 1855; and in 1861, 2,903.

In 1842, there are supposed to have been in existence 25

county grammar schools. They numbered 32, in 1847; in 1852, 60; in 1857, 72; in 1861, 86. On these schools there were in attendance, in 1847, 1,000 pupils; in 1852, 2,043; in 1857, 4,073; in 1861, 4,760. The scholars paid the masters were, in 1852, the first year in which they are given separately, \$40,255; in 1861, \$71,034.

In 1842, we have reported, in addition to the above, 44 separate schools and academies (a supposed approximation); in 1847, 90; in 1852, 181; in 1857, 270; in 1861, 337. The number of pupils in these institutions was in 1847, 1,831; in 1852, 5,684; in 1857, 4,073; in 1861, 4,760.

We had in operation, in 1847, six colleges, with an attendance of 700 students; in 1852, eight, with 751 students; in 1857, twelve, with 1,335 (approx.); 1861, thirteen, with 1,373 (approx.)

The amounts reported as paid for educational purposes, in Upper Canada, were, in 1851, \$509,950; in 1860, \$1,320,992; in 1861, \$1,470,107.

The following table, by J. G. Hodgins, LL.B. F.R.S.C., taken from "Eighty Years' Progress," &c. (p. 524), will give an idea of the educational advance of Lower Canada between 1852 and 1861.

Year.	Educational Institutions of all kinds.	Pupils.	Assessments and Fees.
1853	2,352	108,284	\$105,548
1854	2,795	119,730	238,032
1855	2,808	127,058	249,130
1856	2,919	133,141	406,764
1857	2,980	148,709	424,208
1858	2,955	156,872	459,350
1859	3,100	168,148	408,436
1860	3,254	172,155	603,850
1861	3,345	180,845	624,219

As to religious privileges, we are also on the whole favourably situated. The right of judging for ourselves in these matters is universally recognized; and in the eye of the law we stand on an equality. The common denominations have all a place among us, so that we may each, if such be our desire, have the opportunity of connection, in the older portions of the country, at any rate, with those among whom we may have been brought up, or who may be preferred by us. Fair allowance being made for difference in circumstances, the means of instruction will compare favourably, as to character, in the greater part of these bodies, with those enjoyed by them elsewhere. Speaking generally, the usual forms of Christian education—the Sabbath school, Bible class, Bible Tract and Missionary Societies, and kindred organizations—are found in plentiful and vigorous operation among them. Notwithstanding their differing views, these denominations, moreover, dwell side by side in peace, treat each other with the courtesies common in other parts of the Christian world, and co-operate with one another for common objects, as much at least as is common in the lands whence they have come. The institutions for the relief of want and distress in its various forms, which usually follow in the wake of Christianity, have place and are carrying on their good work in our midst.

6. *The union which it offers of the advantages characteristic both of the older and the newer states of society.*

By selecting as their home the older parts of the country, those whose tastes would lead them to give the preference to the former may secure them in fair measure, provided they bring with them the necessary requisites in character, habits and means; while such as are willing to share the usual fortunes of the latter, may calculate on the chances open to them in ordinary circumstances. Growth, with its attendant advantages, is in these chiefly a question of time and patience. At a much earlier age, and with much less of struggle than is requisite in older countries, the diligent and economical may hope to place themselves in a position of independence. As a general thing, the means of comfortable support is within the reach of the industrious, on conditions much less onerous than in these.

7. *Its relations and status.*

The emigrant to Canada has, in the fact of its forming part of the British empire, the guarantee of one of the most powerful nations of the earth for his protection against injury from without. In this respect, as in every other, the mother country has of course a right to expect that we shall make every reasonable effort to help ourselves. Should the necessity arise, this will be done; and being done, there need be feared on her part no failure.

Against the risk of any movement from within, which would interfere injuriously with him, he has equal assur-

ance in the hearty loyalty and affectionate attachment of our people to the parent state, which would make them contemplate the prospect of separation with dislike, rather than pleasure.

The connection of Canada with Britain gives her also a standing, which, in addition to its agreeableness, is fitted to render important aid in her development. It tends to operate thus by the feeling of self-respect which it inspires and fosters, by the honour which it holds out to the ambitious the hope of sharing, and by the examples that are felt to be constantly inviting imitation.

Retaining, as he does, his connection with the land of his birth, the native of the British Islands who chooses Canada as his home, is saved from much of the feeling of expatriation which he would experience elsewhere. He finds himself but half a stranger. If even that. He looks with a pride, of which he was perhaps never previously conscious, on the old flag, as it floats over him; exults in his country's glories as his own; and finds a hymn in the National Anthem.

8. The steadiness and satisfactoriness of its growth.

A few particulars are all our space will admit in illustration of this.

The population of United Canada numbered in the year 1800, 230,000. It was in 1825, 581,921; by 1851 it had reached 1,812,265. In 1861, it amounted to 2,500,755. The advance in Upper Canada between 1825 and 1861 has been from 551,027 to 1,390,091—not much less than 800 per cent. in 36 years.

In 1861, the number of cultivated acres in the whole of Canada, Upper and Lower, was 2,884,345. It came up, in 1844, to 4,098,408; and in 1851, to 7,300,837. The returns for Lower Canada, for 1861, have not yet been published. In Upper Canada alone, 6,051,619 are reported for that year.

Upper Canada had, in 1851, 99,990 occupiers of land. They numbered, in 1861, 131,983. It produced, in 1851, 12,082,550 bushels of wheat; 11,391,807 of oats; 9,982,180 of potatoes; 3,110,118 of turnips; of flax or hemp, 59,680 lbs.; 3,069,874 lbs. of maple sugar. Its produce of these articles was, in 1861—wheat, 24,290,425 bushels; oats, 21,226,874; potatoes, 15,525,920; turnips, 18,203,950; flax or hemp, 1,225,834 lbs.; maple sugar, 6,370,005 lbs. The value of the live stock in Upper Canada was, in 1861, as much as \$53,227,486; its agricultural implements, \$11,280,347; its farms, \$236,162,315. A similar progress will, we doubt not, be shown in Lower Canada, when its agricultural statistics for the year in question appear.

In 1808, the value of the entire trade of Canada was about \$8,400,000. The value reached, in 1852—exports, \$14,055,973; imports, \$29,280,493; total, \$43,342,466. In 1861, its imports amounted to \$36,614,195; exports, \$43,040,823; total, \$79,655,018. The value of the trade with the United States alone was, in the last of these years, \$35,455,515; the imports from that country reaching \$21,069,388, and the exports to it \$14,386,127.

In 1851, the net revenue yielded by the customs was \$2,808,831; in 1861, \$4,411,160. The value of books imported was, in 1850, \$213,580; in 1861, \$5,056,943.

On roads, navigation and railroads, the Province has expended as much as \$60,000,000, over and above the interest in the latter of parties out of the country. There are in use at this moment between 1,800 and 1,900 miles of railway; besides 3,422 of electric telegraph, belonging to the Montreal Telegraph Company, which had, in 1861, a capital stock of \$400,000 (to which it had advanced from \$30,000, in 1847), employed 400 persons (35 in 1847), and conveyed 300,000 messages; the number conveyed in 1847 having been 33,000.

Our post offices have multiplied from 3, in 1766, to 69, in 1824; 601, in 1859, and 1,698, in 1860. The number of miles of established post roads was, in the first of these years, 170; in the second, 1,902; in the third, 7,695; and in the last, 14,202. The miles travelled were, in 1824, 309; in 1766, 616; in 1851, 2,287,000; in 1860, 5,712,000. In 1852, 3,700,000 letters were transmitted; in 1860, 9,000,000. The expenditure of the Post Office was, in the former of these years, \$276,191, and its revenue \$230,629; in the latter, its expenditure was \$354,681, and its revenue \$658,451. One hundred and ten thousand dollars additional is paid per annum, by way of subsidy, to railroads; and four hundred and sixteen thousand to steamships.

From the above, it will be seen that our growth has been rapid, steady and general; not clogged by fits and starts, or confined in its sphere.

9. Its prospects.

It cannot fail, without fault on the part of its people, to

continue growing and to become strong and prosperous and influential; for it has in itself, in its geographical position, and in its relations, all the elements of greatness. But such failure is not to be anticipated, as self-respect, interest and duty, unite in urging us to make the best of our position. The worst part of the struggle is over. To carry us to the height of any reasonable ambition, all that is necessary is perseverance for a moderate time in the self-denial and exertion of the past, with the careful avoidance of its errors, as far as they may be discovered.

The motive to throw in their lot with us, held out by such a state of things to those who may be contemplating change, is manifest. To witness progress is pleasant, how much more to share in it and to be made partakers of the advantages it yields.

10. The common feeling of such as have made trial of the country.

Few who have lived in it for any length of time, possessing the characteristics and pursuing the course necessary to success, would willingly exchange it for the lands whence they came. Nothing is more common than for those who visit their old homes, after a few years' residence in it, to feel impatient till they get back. Numbers who have left it with the intention of remaining at home, have returned to it, unable to enjoy themselves there. The freedom realized here from the burdensome restraints of older societies, and the social consideration which the deserving seldom fail to receive, help to explain the above state of feeling. In the fact of its existence the new comer, or the man contemplating coming, has fair promise and assurance that he will, in due time, feel himself one of us and at home among us.

The classes to which Canada will be found specially adapted are—

1. Farmers and parties accustomed to agricultural pursuits.

These may, if they bring moderate means with them, find cleared or uncleared farms, according to their taste, in most parts of the country, at prices moderate, though of course varying with quality of land, value of improvements, and location. Such as may be without the advantage of means may generally, if prepared to accept of reasonable wages, find employment and comfortable homes among our farmers. By satisfying themselves for a time with these, they gain an acquaintance with the country, the modes of working best suited to it, the most desirable locations, prices of land, &c., which will save them much to which they would be in danger otherwise of being subjected, and help them to work at advantage to themselves.

Though not in an equal degree, parties previously unaccustomed to agriculture, if disposed to devote the selves to it, may secure these advantages by the pursuit of the same course. Numbers are found all through the country, with good farms and in comfortable circumstances, who had their knowledge to acquire after their arrival. If possessed of the physical requisites and the power of adapting themselves to new circumstances, none who make up their minds to persevere, need despair, though, compared with the others, they must labour for a time under disadvantage.

2. Mechanics, those especially of the more common descriptions.

These may generally find employment in one part or another. Indeed in almost any part of the Province, at fair wages, and within a reasonable time. If well-behaved, industrious and economical, they may hope to attain ultimately a good position both as to comfort and standing. Many of this class are to be met with in our cities, and even smaller towns and villages, living on their savings while yet comparatively young. Those of trades less common run, of course, more risk, though numbers even of these succeed in making themselves positions in the cities.

3. The possessor of spare means.

What they may be able and disposed to invest will afford this class much better returns here, without the adoption of any course involving wrong, than at home. They may also, if desirous of making themselves useful, obtain (provided they possess the necessary requisites) abundant means of doing so in harmony with their habits and tastes.

The things needful to success in Canada, without which none can hope for it, and with which none need despair of it, are—

1. Fair health, intelligence, and capacity for useful action.
2. Good principles and correct honourable habits.
3. Steady and patient perseverance.
4. A cheerful and hopeful spirit.
5. The blessing of God.

Courts.

COURT OF ERROR AND APPEAL.—Constituted for the hear-
 ing of appeals in civil cases from the Courts of Queen's
 Bench, Chance and Common Pleas; and appeals in crimi-
 nal cases from the Courts of Queen's Bench and Common
 Pleas. From the judgment of this court, an appeal lies to
 Her Majesty in Privy Council, in cases over £1,000, or
 where annual rent, fee, or future rights of any amount,
 are affected. *Judges*—Hon. Archibald McLean, President;
 Hon. Wm. H. Draper, C.B., Chief Justice of Upper Canada;
 Hon. P. M. M. S. Vankoughnet, D.C.L., Chancellor of Upper
 Canada; Hon. William Buell Richards, Chief Justice of
 the Common Pleas; Hon. J. C. P. Esten, Vice Chancellor;
 Hon. John Godfrey Spragge, Vice-Chancellor; Hon. John
 Hawkins Hagarty, D.C.L., Judge Court of Queen's Bench;
 Hon. Jos. Curran Morrison, Judge Court of Queen's Bench;
 Hon. Adam Wilson, Judge of the Court of Common Pleas;
 Hon. John Wilson, Judge of the Court of Common Pleas.
Clerk and Reporter, Alexander Grant.

COURT OF IMPEACHMENT.—For the trial of Judges of
 County Courts in Upper Canada, under Con. Stat. U. C.,
 cap. 14.—*Judges*—Hon. W. H. Draper, C.B., Chief Justice
 of Upper Canada; Hon. Philip M. S. Vankoughnet, D.
 C.L., Chancellor of Upper Canada; Hon. Wm. B. Richards,
 Chief Justice of the Court of Common Pleas. *Clerk*: W.
 B. Howard.

COURT OF QUEEN'S BENCH.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also with the inquest of twelve good and lawful men (except in cases otherwise provided for) all issues of fact, and give judgment, and award execution, thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. *Chief Justice*—Hon. William Henry Draper, C.B. *Puisne Judges*—Hon. John Hawkins Hazarty, D.C.L., and Hon. Joseph Curran Morrison. *Clerk of the Crown and Pleas*—Chas. Coxwell Small. *Reporter*—Chris. Robinson, Q.C. *Taxing Officer*—John Small. *Clerk of the Plea Department*—John W. Dempsey. *Clerk of the Docket*—Thos. Coxwell. *Registrar of Crown Bonds, &c.*—E. G. Small. *Clerk of the Vault Department*—Thos. Goldsmith. *Crier and Usher*—Andrew Fleming.

COURT OF CHANCERY.—This Court has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law. *Chancellor*—Hon. P. M. S. Vaneaucliet, D.C.L. *Vice-Chancellors*—Hon. James Christie Palmer Esten and Hon. John G. Spragg. *Special Examiners*—John Hector, Q.C., and Wm. V. Bacon. *Registrar & Reporter*—Alexander Grant. *Deputy Registrar*—William N. Radenhurst. *Clerk in Chambers*—John Black. *Accountant*—John Gray. *Examining Clerk*—Arthur Holmsted. *Clerks*—Michael Hayes and John Irwin. *Usher*—John Oliver. *Messenger*—Donald Sulherland.

MASTER'S OFFICE IN CHANCERY.—*Master in Ordinary*—Andrew Norton Huell. *Taxing Master*—George Hemmings. *Master's Chief Clerk*—Walter M. Ross. *Clerk*—John P. Shanley. *Niagara*—John Powell. *Ottawa*—John Wilson. *Owen Sound*—David A. Cressor. *Park*—W. O. Buell. *Simcoe*—David Tisdale. *Sandwich*—Samuel S. Macdonell. *Sarnia*—P. T. Poussett. *St. Catharines*—Charles Henry Powell. *St. Thomas*—James Stanton. *Stratford*—R. T. Huggard. *St. Ste. Marie, Algoma*—Hon. John Prince, Q.C. *Whitby*—George H. Dartnell. *Woodstock*—H. B. Beard.

COURT OF COMMON PLEAS.—This Court has the same powers and jurisdiction as a Court of Record, as the Court of Queen's Bench. Writs of summons and capias issue alternately from either court. *Chief Justice*—Hon. William Buell Richards. *Puisne Judges*—Hon. Adam Wilson and Hon. John Wilson. *Clerk of the Crown and Pleas*—Lawrence Heydon. *Reporter*—Edward C. Jones. *First Clerk*—Augustus B. Sullivan. *Second Clerk*—S. B. Clark. *Crier and Usher*—Daniel O'Connor.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. *Clerk, Common Law*—Wm. B. Heward. *Clerk, Chancery*—John Black.

HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or as

signees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, criminal, or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to the Court of Chancery.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Clerk*, C. Fitzgibbon, Toronto.

COURTS OF QUARTER SESSIONS.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of larceny, misdemeanor and other offences.

RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—Geo. Duggan, Junr., Toronto; Arch J. McDonell, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTORS' COURTS.—The County Judge in each county presides.

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, criminal, seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Courts are held once in two months in each division, or oftener, at the discretion of the Judge. Two Divisions are established by the Courts of Quarter Sessions.

Crown Law Officers.

ATTORNEY-GENERAL—Hon. John Sandfield Macdonald, Q.C. **SOLICITOR-GENERAL**—Vacant.

Officers of the Courts.

CLERKS OF ASSIZE.—The Deputy Clerks of the Crown are ex-officio Clerks of Assize and Marshals in their respective counties.

DEPUTY CLERKS OF THE CROWN.—The Clerks of the County Courts will be ex-officio Deputy Clerks of the Crown and Pleas of their several counties as the present incumbents vacate by death or otherwise.

DEPUTY REGISTRARS AND MASTERS IN CHANCERY.—These officers are appointed by the Court, for each County, as occasion requires. (See title Master's office in Chancery.)

CLERK OF THE PROCESS.—For sealing and issuing Writs of Summons and other Writs in the Queen's Bench and Common Pleas (alternately)—Robt. Stanton. The Deputy Clerks of the Crown in the several Counties are supplied with writs from Toronto, and re-issuance the same in their respective counties.

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per $\frac{1}{2}$ oz., but if posted unpaid such letters are charged 7 cents per $\frac{1}{2}$ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per $\frac{1}{2}$ oz., with optional prepayment.

The rate on Letters to the United Kingdom, by Canadian Packet,

Not exceeding $\frac{1}{2}$ oz. 12½ cents.
Exceeding " and not exceeding 1 oz. ... 25 "
" " 1 oz. and not " 2 oz. ... 50 "

and so on, increasing two rates of postage for each additional ounce.

And by Cunard Packet, 17 cents per $\frac{1}{2}$ oz., &c.
Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States,

(except California and Oregon) 10 cents per $\frac{1}{2}$ oz.
" for California and Oregon 15 "
" to Cuba 20 cents per $\frac{1}{2}$ oz.

The postage rate to British Columbia is,

Letters 25 cents per $\frac{1}{2}$ oz.

Newspapers 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Barry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per $\frac{1}{2}$ oz.

The British Post Office forwards Letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America 2 cents.
On Letters for the United States 5 "
On Letters for the United Kingdom 12½ "

On Letters for British Colonies or Possessions, sent via England 25 "
On Letters for France and other Foreign Countries, via England, an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Province, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelope, whether sealed or unsealed, are liable to letter postage), Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The postage upon Printed Circulars and Prices Current addressed to the United Kingdom is two cents each, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the sender.

The charge on Books, &c., by Book Post to England, is 7 cents on packets not exceeding 4 oz. in weight, 12½ cents on $\frac{1}{2}$ lb. packets, and 12½ cents additional for every additional $\frac{1}{2}$ lb. These charges must be prepaid. Photographs, provided they are not upon glass or in cases containing glass, may be forwarded to England at the Book rate of postage.

BOOK POST WITH FRANCE.

For a Packet of Printed matter, or single Newspaper, Book, &c. not over 2 oz. 4 cents.

Do. exceeding 2 oz. and " 4 oz. 8 "
Do. " 4 oz. and " 8 oz. 17 "
Do. " 8 oz. and " 1 lb. 34 "

And so on, increasing 17 cents for each additional $\frac{1}{2}$ lb.

The Book Post regulations between Canada and England apply to matter between Canada and France.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter.
" " 3 " 20 "
" " 2 " 13 "
" " 1 " 6 "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canada. Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on Periodical Publications is, if not exceeding 3 ounces in weight, 1 cent; over 3 ounces, 4 cents.

If prepaid by postage stamps from the office of publication, Periodicals published in Canada, weighing over 3 oz., may pass for 2 cents each.

Periodicals, printed in this Province, other than Newspapers, when specially devoted to the Education of Youth (both religious and general), to Agriculture, to Temperance, or to any branch of science, and addressed directly from the office of publication, to be transmitted to any post office in this Province, are exempt from charge.

Transient Periodicals—including Canadian Periodicals not prepaid the commuted rate from the office of publication—nor exempted by the preceding clause, and all other Periodical publications posted in this Province, must be prepaid by Stamp, the full rate, at the time of posting.

Periodicals received in Mails from the United States are charged with the rates named in the 1st clause of this section.

MONEY ORDERS.

Money Orders payable in the Province may be obtained at any Money Order Office in the annexed list, at the following rates of commission:

On Orders up to	\$10.....	5 cents.
Over \$10 and up to	\$20.....	10 do.
Do. 20 do.	40.....	20 do.
Do. 40 do.	60.....	30 do.
Do. 60 do.	80.....	40 do.
Do. 80 do.	100.....	50 do.

N.B.—No half cents to be introduced in the Orders.
No single Order can be issued for more than \$100.

Money Orders, payable at any Money Order Office in Great Britain and Ireland, can be obtained at any Canadian Money Order Office. The Orders are drawn in Sterling, the commission chargeable being: for £2 and under, 2s; over £2 and up to £5, 5s; over £5 and up to £7, 7s; over £7 and up to £10, 1s. No order can be drawn for more than £10, but any number of orders of £10 each may be procured.

POSTAGE STAMPS.

Postage Stamps are provided for sale of the respective values of 1 cent for Newspapers; 5 cents for ordinary Pro-

vincial Letters; 10 cents for United States rate; 12½ cents for Canadian Packet; and 17 cents for Cunard Packet.

Letter Envelopes are provided, Impressed with medallion stamps, and equivalent to the prepayment of postage to the amount of 5 cents and 10 cents respectively.

The 5 cent envelopes will be sold to the public at the rate of \$5 50 per hundred, or 66 cents per dozen. The price of a single envelope is 6 cents.

The 10 cent envelopes will be sold at the rate of \$10 50 per hundred, or \$1 20 per dozen. Single envelopes 11 cts.

PENAL CLAUSES.

The Act contains the following penal clause:—

To inclose a letter or letters, or any writing intended to serve the purpose of a letter, in a Parcel posted, for the Parcel Post, shall be a misdemeanor.

To inclose a letter or any writing, or to make any written marks to serve the purpose of a letter, or to inclose any other thing in a newspaper posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers,) shall be a misdemeanor.

List of Post Offices in Canada on the 1st September, 1863.

The Offices whose Names are printed in Italics are authorized to Grant and Pay Money Orders.—Those with an obelisk (†) are Sub-Offices.

Connon, LL.D., English Classical Master; John Martland, B.A., Second Classical Master; Michael Barrett, M.A., M.D., First English Master, and Superintendent of College Boarding House; Rev. E. Schluter, M.A., French and German Master; C. Thompson, Second English Master; W. J. Wadsworth, Assistant Master; R. J. Baigent, Drawing Master; Capt. Goodwin, Fencing, Drill, and Gymnastics. D. Alderidge, Janitor and Messenger.

The College year commences with the Autumn Term. The Autumn Term begins Sept. 10; Winter do., Nov. 20; Spring do., Feb. 15; Summer do., May 1. Reports of the progress and conduct of the pupils are sent to parents twice each Term, or oftener if desired. Deducting the Vacations, the Terms are ten weeks each. The Tuition Fee is \$10 for one Pupil, \$9 each for two (Brothers), \$8 each for three (Brothers); and the Fee for Boarders, inclusive of Tuition, is \$15 per Term. The many improvements made in the arrangement of the College Boarding House have been found to add very materially to the comfort of the boarders. A large paved Ball Court and a Gymnasium, fitted up with the most approved modern appliances, and a spacious playground and cricket ground afford ample facilities for out-door exercise and amusement within the College bounds. The Boarding House is conducted strictly as an integral part of the Institution, its disbursements paid out of, and its returns paid into, the general funds. Prizes of books and certificates of honor are given every year to those who distinguish themselves in any of the subjects taught in the College

COMMON SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In cities, towns, and villages, the schools are managed by a Board of School Trustees, elected for the Municipality. There were 4,104 Common Schools, with 343,733 pupils, in Upper Canada, in 1862.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal Corporation, desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent. on local appropriations, and supplying books from the Depository in connection with the Department. Up to the end of Dec. 1862, about 618 Libraries had been established, containing more than 1200 sub-divisions, and 108,843 vols.

EDUCATIONAL MUSEUM.—Connected with the Educational Department is a Museum, containing specimens of School apparatus and furniture; a valuable collection of Italian, Dutch and Flemish Oil Paintings and Statuary casts and busts. The Museum is freely open to the public.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all kinds reported by the Educational Department as in operation in Upper Canada during 1862 was 4,554, attended by 357,672 pupils, and expending \$1,703,216 in their support. Under the superintendence of the Council of Public Instruction, Lower Canada.

JACQUES-CARTIER NORMAL SCHOOL, MONTREAL.—Rev. H. Verreau, Principal, Professor and Director of Students' Boarding School; Leopold Devisme, *B.A.*, Ordinary Professor; P. Birt, Maître d'Etude; François J. V. Bognand, J. Bruneau, F. M. Ossay, Fancourt, Destalier, Patrick Delaney, Dom. Boudrias, Associate Professors.

MCGILL NORMAL SCHOOL, MONTREAL.—J. W. Dawson, *L.L.D.*, Principal and Associate Professor; W. H. Hicks and Sampson Paul Robins, Ordinary Professors; J. Duncan and R. J. Fowler, P. J. Darcy, *M.A.*, Associate Professors; Jos. McGregor and Mary Ann Coady, Teachers in Model School.

LAVAL NORMAL SCHOOL, QUEBEC.—Rev. Jean Langevin, Principal, Ordinary Professor, and Director of the Students' Boarding School; F. X. Toussaint and N. Lacasse, Ordinary Professors; Ernest Gagnon, Norbert Thibault, Associate Professors; F. N. Fortier, Maître d'Etude; Andrew Doyle, Associate Professor and Teacher of Boys' Model School; J. B. Cloutier, Teacher of Boys' Model School. The Ladies of the Ursulines have charge of the boarding department of the female pupil-teachers, and attend to part of the Normal School teaching, and the girls' Model School.

THE BELLEVILLE SEMINARY.—Incorporated, 1857.—This Institution is the property of the Methodist Episcopal Church, but free to all denominations, no religious creed being taught in it, and students being required to attend

such places of worship as their parents or guardians may direct. It is affiliated to the University of Toronto. Ample accommodation is afforded for the instruction of two hundred students. Both sexes are included in the provision; ladies being instructed in the ornamental as well as solid branches, and gentlemen being afforded a commercial, mathematical, and classical education. Ladies may take a thorough course of instruction, prepared expressly for them, and receive degrees and diplomas. The following compose the Faculty and Board of Instruction: Rev. A. Carman, *M.A.*, Principal, and Professor of Mathematics, History and English Literature; Rev. H. F. Shepard, *M.A.*, Professor of the Latin and Greek Languages; J. E. Howitt, *B.A.*, Professor of Natural Science, and Rector of English Department. Miss Anne Green, Preceptress, and Teacher of Music, Piano, Melodeon and Guitar and the French Language; Mrs. A. Carman, Assistant in French and Music; Mrs. H. F. Shepard, Teacher of Drawing and Painting of all kinds. Besides the above, others, not of the Faculty, are employed to teach in the Institution. The academic year is divided into two sessions of twenty weeks each. The first begins the third Thursday of September; the second the third Thursday of February. The winter vacation is two weeks long; the summer ten.

A SAFE AND CERTAIN CURE FOR RHEUMATISM, GOUT, LUMBAGO, TIC DOLOUREAUX,
SCIATICA, SPRAINS, &c., &c.

TESTIMONIALS.

From Captain F. Macdonald, Commander of the East India Ship the "Lord Auckland."

"I feel it a duty incumbent on me to inform you of the very beneficial effect I have received by the use of your infallible Embrocation for Rheumatism, from which complaint I have suffered most severely for more than a month, and was quite unable to leave my bed. I have had the best medical advice, and everything done possible, but to no effect. I heard by accident from a friend of your Embrocation, and immediately sent for a bottle, and after applying it two or three times as directed, I felt very much relieved, and in a week I was perfectly cured. You are quite at liberty (Indeed I should wish it) to make what use you please of this document for the benefit of those who may be similarly afflicted.

From Mrs. Hughes, 3 East Street, Red Lion Square.

SIR,—I have been for many years a great sufferer from Chilblains, which usually attack my feet the whole winter. I was urged very much to try your Embrocation (by a friend who had been cured by it) from which I found almost immediate relief. This winter (about three weeks since) I was attacked again, so that I was unable to wear a shoe or put my feet to the ground, and I believe they would have broken in a few days, but I am delighted to say that after a few applications of your Embrocation, before I had finished one small bottle, they had entirely disappeared, and I have now no fear for the future. If any use you can make of this fact may be the means of affording relief to others, it will be a great source of satisfaction to me.

Sold by all Chemists and Patent Medicine Venders, price 2s. 9d. per bottle.

CAUTION.—See the words "Thos. Feaver's Embrocation" on the Government Stamp.

[389]

BRYANT, STRATTON & DAY'S

Commercial College,

KING STREET, TORONTO, C. W.,

First door East of Wesleyan Book Room.

Established in connection with Bryant, Stratton & Co.'s, chain of International Commercial Colleges, located in fifteen of the largest cities of the United States and Canada, employing sixty Professors and Lecturers—with a large daily attendance of young men—the most extensive series of educational institutions ever established in any country, and the progress which the enterprise has achieved during the past ten years is as gratifying to the Proprietors as it is creditable to the energetic and intelligent purposes of the thousands of young men who have completed the course of instruction, and the other thousands who are at present enrolled in the daily classes of the respective colleges comprising the "chain."

DESIGN.

The purpose in establishing these institutions has been to furnish young men with the facilities of a Business Education which will enable them to enter at once upon fields of usefulness and honor.

The tedious years of Apprenticeship which, under the old system, was considered the only stepping stone to remunerative positions, are epitomized into a few months of pleasant study, where the mind is trained not only to appreciate the minor details of business, but the grander principles which underlie the economy of life, and without which no business education can be considered complete.

The advantages possessed by such institutions over counting-house experience, in laying the deep foundations of a complete and symmetrical education applicable to all the varied exigencies of a business life, are many and indisputable.

First, the course of instruction is specially prepared to bring into proper relief those essential facts which in the usual processes of experience do not occur in such order or frequency as to be susceptible of being arranged into a system, or of establishing a logical sequence in the mind. Next, the various departments of business, with all the accessories, are so completely illustrated and enforced as to convey special and permanent instruction as to details in the matter of buying, selling, shipping, receiving, and in all the processes of Commerce and Finance applicable to both inland and foreign trade.

COLLEGIATE COURSE.

The course of instruction in these Colleges has direct reference to the requirements of business. The main branches pursued are: BOOK-KEEPING, in all its departments and applications.

COMMERCIAL LAW, including both the Law Merchant and such statutory regulations as pertain to questions of property and personal rights.

COMMERCIAL ARITHMETIC, embracing all subjects applied in business transactions, the great majority of which are either entirely omitted or very lightly and unsatisfactorily treated in the prevailing text-books of the day.

BUSINESS PENMANSHIP, upon the Spencerian basis, under the instruction of the best teachers of this system in the country.

BUSINESS CORRESPONDENCE, including the principles of English Composition, and such thorough practice in connection with the daily exercises as must secure the most satisfactory results.

Incidental instruction is also given in Political Economy, the Science of Government, the Customs of Business, etc.

The modern languages and higher mathematics are taught when desired.

PLAN OF INSTRUCTION.

REGULATIONS.

Each student is admitted upon his own recognizance as a gentleman; is treated as such, and is expected to consider himself, in all respects, responsible for his own acts. Having purchased a scholarship, which secures to him the necessary instruction to make him a thorough accountant, he is permitted to elect his time and place of attendance within the prescribed jurisdiction of the colleges; but it is expected of all students that they will observe all possible diligence and regularity in their attendance. The general discipline, while it does not descend to those

minute and specific requirements which seem necessary in the conduct of schools more primary in their character, is, nevertheless, sufficiently strict and exacting to place the responsibility of the student's progress upon himself. A record of attendance is kept in connection with the recitations, and promptness, as far as may be, is required. The progress of each student in his course is regulated by such frequent and thorough examinations as shall be competent to satisfy the teachers in charge, and no student is permitted to pass from one division of his course to another without giving evidence of suitable proficiency.

THE INITIATORY COURSE

Comprises a complete knowledge of the THEORY OF ACCOUNTS and the collateral branches, embracing Penmanship, Commercial Law, Commercial Calculations and Correspondence.

This part of the collegiate course is most carefully and critically watched, no student being permitted to pass from one step to another without a thorough and satisfactory examination.

His knowledge of BOOK-KEEPING, before passing to the Counting-house or Graduating Course, must cover the entire field of the science, embracing the Departments of Retail and Wholesale Merchandising, Commission, and Forwarding, Agencies—both Simple and Compound—Joint Stock Companies of all kinds, such as Banking, Manufacturing, Railroadings, Insurance, Mining, &c. &c., requiring him to open, conduct, and close over TWENTY SETS OF BOOKS, with every variety of partnership contract, and division of gains and losses. The sets are short, embracing a large variety of entry, and bringing into requisition all the forms of business paper, such as notes, drafts, cheques, certificates of deposit, bills of exchange, statements, &c.

GRADUATING COURSE.

After passing through the initiatory course, and giving satisfactory evidence of a thorough knowledge of the principles and practice of business, the student is advanced to the COUNTING ROOM, where his proficiency is put to the most severe practical test. The "Counting Room" is a miniature business world, in which are presented all departments of economy, and affording to the student a novel and interesting glimpse of the outer world for which he is preparing. Here he sees, in actual and harmonious operation, the different branches of trade and commerce which unite countries, states, communities and individuals, in the closest bonds of mutual interest, and make up that grand system of economy which men call business.

PREPARATORY EDUCATION.

PREPARATORY EDUCATION.—A fair knowledge of the ordinary English branches constitutes a sufficient preparation for entering upon a Commercial Course.

TIME OF COMMENCEMENT.—As there are no term divisions, Students can enter any time, and pursue their Course as rapidly as their ability will admit.

TIME REQUIRED.—The time necessary to complete the full Course is from ten to fourteen weeks, varying according to the ability of the Student.

DIPLOMAS.—Those Students, and those alone, who fulfil the prescribed course of study and pass the requisite examination, are entitled to the honors of Graduation. Diplomas are awarded to all such, free of charge.

EMPLOYMENT.—It is for the interest, as it will ever be the pleasure of the Principals and Teachers at these Colleges, to use their best exertions to obtain good situations for their graduates. In this they have, heretofore, been very successful; and while it is not our practice to hold out inducements in this direction, we hazard nothing in saying that we possess unusual facilities for securing desirable positions for competent young men.

EXPENSE OF COURSE.

Life Scholarship (good in any of the Colleges, for full course).....	\$40 00
Text Books and Blank Books for full course.....	12 00

READING ROOM AND LIBRARY.

WEBSTER'S DICTIONARIES A NATIONAL STANDARD.

PRESIDENT FANSON, of Columbian College, Washington, says, April, 1860, "The just principle of its collection, the thorough scholarship of its etymology, the clear analysis of its definitions, and good sense in its orthography and orthodoxy, must make it for a time to come the National Standard; for it is one of those works so true in its model and complete in its execution, that any material variation from it must introduce imperfection."

FROM LEADING NEW YORK PUBLISHERS.

We have observed that with literary men generally spelling is entirely a matter of habit, very few of them conforming strictly to the authority of any dictionary; while, in this country at least, the authors of educational text books, and other works in reference to which the question of orthography is carefully considered, very generally recognize and carefully follow Webster as their standard.

D. APPLETON & Co.
CHARLES SCHUBNER.
GEORGE T. PUTNAM.

New York, May 16, 1860.

From Lord Brougham, High Chancellor of England.
A necessity to every educated man.

From Hon. George Bancroft, the Historian.
The etymological part surpasses any thing that has been done for the English Language by any earlier laborers in the same field.

From Daniel Webster.

I possess many dictionaries, and of most of the learned and cultivated languages, ancient and modern; but I never feel that I am entirely armed and equipped, in this respect, without Dr. Webster at command.

From Rufus Choate.

Messrs. G. & C. Merriam, Gentlemen,—I have just had the honor of receiving the noble volume in which you, and the great lexicographer, and the accomplished reviser, unite your labours to 'bid the language live.' I accept it with the highest pride and pleasure, and beg to adopt, in its utmost strength and extent, the testimonial of Daniel Webster.

From Elihu Burrill.

Webster's great Dictionary may be regarded as bearing the same relation to the English Language which Newton's Principia does to the sublime science of Natural Philosophy.

From Rev. Dr. Huntington, of Harvard University.

No student, as it appears to us, has access to the needful resources for understanding or using our native tongue who does not keep this vast and rich repository of philological labor and learning at his side. Its definitions—now almost universally acknowledged to be

unrivalled for completeness, accuracy, and the avoidance of mere synonyms,—together with some of its other features, render it indispensable in every library and at every writing-desk.

From Hon. John C. Spencer.

Unquestionably the very best Dictionary of our language extant. Its great accuracy in the definition and derivation of words gives it an authority that no other work on the subject possesses. It is constantly cited and relied on in our courts of justice, in our legislative bodies, and in public discussions, as entirely conclusive.

From John G. Whittier.

The best and safest guide of the students of our language.

From the Boston Journal, July 23, 1863.

DICTIONARIES IN ENGLAND.—There are at the room of the agent for Webster's Dictionaries, at Mason & Hamlin's, 274 Washington street, specimen copies of six different editions of Webster's Dictionary, published in England, and also specimens of "Noah Webster's British and American Spelling Book," and "The Illustrated Webster Reader," also from the English press. No person can examine these volumes without realizing how very great a popularity the name of Noah Webster has attained in Great Britain.

From R. H. Smart, the well-known English Elocutionist and Lexicographer.

The Pictorial Edition of Webster's Dictionary, unabridged, take it altogether, must be considered, in America at least, as the surpassing work of its kind.

WEBSTER'S SCHOOL DICTIONARIES.

1. The Primary, 42c. 2. Common School, 62c. 3. High School, 75c. 4. Academic, \$1 50. 5. Counting House, \$1 25. 6. University, \$1 50.

AMERICAN BOOKS IN ENGLAND.—An American publisher, now in London, writes to a friend, that more than one half of all the Dictionaries published in England are Webster's. In other words, the works of the great American lexicographer have a greater sale in England, as in this country, than that of all other Dictionaries of the English language combined.

These popular School Dictionaries have been thoroughly revised within the last three or four years, being extensively regarded as the standard authority in Orthography, Definition, and Pronunciation, and, as the best Dictionaries in use, are respectfully commended to teachers and others. They are much more extensively sold and used than all others combined. Sold by all Booksellers.

DR WORCESTER'S ROYAL QUARTO IS THE

STANDARD DICTIONARY

With Scholars and Literary Men wherever the English Language is spoken. It is a necessity to every educated man. Its extraordinary excellence and cheapness render it the most desirable Family Dictionary ever published.

From Herbert Coleridge, Secretary of the London Philological Society, England.—As a work of practical utility, your book appears to me to be NEARLY PERFECT, and I expect to derive immense assistance from it.

From H. R. H. Prince Albert, in an Autograph Letter to Hon. Ed. Everett, dated Buckingham Palace, May 9, 1860.—MY DEAR MR. EVERETT: I have to acknowledge the receipt of the very handsome copy of Dr. Worcester's Dictionary, which you have been good enough to send me; and I must beg of you also to assure the publishers that I am very sensible of the kind feeling which they manifested towards me. It is very gratifying to see that the parent language receives such valuable aid for its development and the preservation of its purity in your country.

From Thomas Carlyle, England.—New fields are opened with success; everything is calculated for conveying information by the directest road.

From Charles Dickens, England.—It is a MOST REMARKABLE WORK, of which America will be justly proud, and for which all who study the English language will long have reason to respect your name, and to be grateful to you.

From E. Ryerson, D. D., Superintendent of Public Instruction for Upper Canada.—I have for several years used Webster, as the best Dictionary of its kind—always excepting its orthography—but I regard and recommend for our schools and public institutions, Worcester's Dictionary, as a VERY GREAT IMPROVEMENT upon that of Webster's pictorial edition.

From Alpheus Todd, Librarian of Parliament, Quebec.—Worcester's Dictionary is an established favorite with us. For exact definitions, full and complete lists of technical and scientific terms, and words of modern introduction, I do not know its equal.

The London Athenaeum records its opinion thus—"The volumes before us show a vast amount of diligence; but with Webster it is diligence in combination with fancifulness,—with Worcester in combination with good sense and judgment, Worcester's is the soberer and safer book, and may be pronounced THE BEST EXISTING ENGLISH LEXICON."

The London Examiner—"The great recommendation of the volume is its fulness and cheapness. We have tested it from time to time by looking for the meanings of provincial words that one would not expect to find in such a dictionary, and have never failed to get a right answer from it. Appended to the volume, which makes frequent use of woodcut in aid of its definitions, is an appendix, showing the pronunciation of proper and geographical names, modern as well as ancient, giving abbreviations and signs, and explanation of everyday phrases and quotations from Greek, Latin, French, Italian, or Spanish. For the general use of the public this seems, indeed, to be an English dictionary SINGULARLY CHEAP, FULL, and TRUSTWORTHY."

The London Critic—"We will now take leave of this magnificent monument of patient toil, careful research, judicious selection, and magnanimous self-denial (for it requires great self-denial to abstain from underest originality), with a hearty wish for its success. It is sad to think that the result of so much labour, from which Hercules had been intellectually incited, would have shrunk appalled, should be barren fame; yet we can easily believe that Dr. Worcester (as he says) expects no adequate pecuniary compensation for his gigantic undertaking: for it is difficult to imagine a sum which could adequately compensate the man who has produced THE COMPLETEST AND THE CHEAPEST ENGLISH DICTIONARY which the world has yet seen."

The London Literary Gazette—"We have devoted a very considerable amount of time and labour to the examination of Worcester's Quarto Dictionary of the English Language, and we have risen from the task with feelings of no ordinary satisfaction at the result, and admiration of the care, scholarship, philosophical method, and honest fidelity of which this noble work bears the impress upon every page.... As a COMPLETE and FAITHFUL DICTIONARY OF OUR LANGUAGE in its present state, satisfying to the full those requirements, the fulfilment of which we have laid down as essential to such a work, we know no work that can bear comparison with it."
