VOL. XXXIII—No. 12,169

TORONTO HAS ALREADY WAGERED ONE HUNDRED MILLION DOLLARS THAT CITY WILL KEEP GROWING

Mayor Hocken Told Members of Board of Trade His Reasons for Standing Behind Purchase — More Building Permits This Year Than Last — Some Illuminating Facts.

"Never will the city have another chance like this for a complete clean-up of the electric and transportation facilities. The citizens may be able to secure the Toronto Street Railway in 1921, but the opportunity to make a clean-up of everything will never occur again. It is a case of now or never."

In a clear and concise summing up of the Arnold, Moyes, Ross, Mackay and Couzens reports on the street railway and Toronto Electric purchase proposals, Mayor Hocken, in an address before the conference committee of one hundred of the Toronto Board of Trade yesterday afternoon, strongly brought out the above point. W. P. Gundy presided, and the board of trade chamber was crowded to the doors with members, who were not only eager to hear the real facts of the project from the lips of the man behind the idea, but were willing to give the time necessary in order to do so.

On rising to speak, the mayor was greeted with hearty applause. His clear outline of the situation and convincing arguments were well applauded, and at the conclusion of his address a vote of thanks was tendered him.

A striking feature of the meeting was a number of statements hung on the walls of the chamber emphasizing the main points of the project, as follows:

TORONTO POPULATION. Increase—1905-1912. 1905 4.5, 1906 6.3, 1907 7.4, 1908 5.3, 1909 3.2, 1910 5.1, 1911 9.5, 1912 11.3. Average past 5 years, 8.88 per cent. Average previous 10 years, 7.55 per cent. Estimated increase, 1914-1921: Average, 1914-1918, 5 per cent. Average, 1918-1921, 4 per cent.

T. S. R. GROSS REVENUE. Actual, 1901, \$1,661,417. Actual, 1911, \$4,851,541. Increase, 192 per cent. Estimated, 1921, \$13,999,958—Increase over 1911, 183 per cent. City is not asked to pay greater increase by reason of expanding system than has been achieved by system which has been confined to 1891 area.

WHAT RAILWAY REVENUE WILL DO UP TO 1921. 1. Pay city \$13,000,000 cash in lieu of percentage. 2. Retire \$11,500,000 of purchase bonds with interest paid. 3. Pay operating costs and taxes. 4. Pay all renewals and replacement. 5. Pay interest on capital required to extend system 283 miles equipped. 6. Pay interest on existing civic car line debt.

IF RAILWAY IS NOT BOUGHT. 1. Two or three fares within city limits. 2. Increasing bad service until 1921. 3. Deficit of \$1,000,000 on existing civic lines. 4. Deficit of \$2,750,000 if they are extended. 5. Years of litigation after 1921, possibly renewal of franchise. 6. Metropolitan franchise on city's main street, never to be acquired, as it is perpetual.

REBELS DEFEATED BOAST MADE BY HUERTA

President Looks to U. S. to "Do Complete Justice to National Cause" — Whole Situation Has Notably Improved and Funds Will Meet Government's Needs.

PARIS, Nov. 25.—(Can. Press.)—President Huerta has sent the following cablegram from Mexico City to the Matin:

"The situation of the country from an economic and military point of view has improved, because the government of the republic possesses the funds necessary to supply its needs, and, moreover, because the national army came out victorious in the recent serious engagements fought against the rebels of the north.

"So far as our international relations are concerned we are in complete harmony with all the powers except the Government of the United States. But the republic looks to the latter to do complete justice to the national cause.

"To sum up, the situation is notably improved. The two chambers and the two other departments of the union are carrying out their functions in all regularity."

STRIKERS WERE BADLY TREATED

Tom Richardson, British Labor Leader, Attacks Canadian Government's Attitude to Nanaimo Miners.

LONDON, Nov. 25.—(C. A. P.)—Tom Richardson, M.P. for White Haven, who has just returned from Canada, describes the conduct of the Canadian Government in connection with the recent strike at Nanaimo as deplorable, "even worse than we have witnessed here, and if it is possible, he will raise the matter in the commons."

Richardson's criticism is particularly directed against the "sinister use made of the military against the trade unionists," a charge which he bases on the following incident quoted on Aug. 18:

He says that a meeting of miners was held in the Athletic Hall for the purpose of considering the terms of the agreement submitted to the members of the union by the Vancouver-Nanaimo Coal Mining Co. During the meeting the chairman was called out by Col. Hall, officer commanding the militia. Hall showed him the troops guarding the different streets and avenues leading from the hall and told him that the troops all had rifles and fixed bayonets, that the audience must be instructed to leave within two minutes, and that they must come out of the building in single file or be shot or bayoneted. The men fled out in orderly manner, but every one was searched, 40 being arrested.

AUSTRALIA LOSES YOUNG STATESMAN

Charles Fraser, Ex-Postmaster-General, Passes Away at Thirty-Three.

LONDON, Nov. 25.—(C. A. P.)—By the unexpected death from acute pneumonia of Charles Fraser, ex-postmaster-general, Australia has lost one of her most valued and useful statesmen.

Premier Cook, who has adjourned the house until after the funeral, yesterday moved a vote of condolence, deploring the "loss of a young and valuable life." His death, he said, was a real deprivation to himself, the house and the country.

Mr. Fraser was born in 1880 and entered into federal politics ten years ago as leader of the younger section of the labor party.

MACKENZIE AND MANN TO GET LARGE SUBSIDY

British Columbia Legislature to Discuss Twenty-Five Million Grant.

VICTORIA, Nov. 25.—(Can. Press.)—It is announced from authentic sources that the legislative assembly will meet early in January, for the purpose of dealing with three important proposals: Providing \$25,000,000 in support of their railway construction work in this province, passing a vote of \$15,000,000 for Foley, Welch and Stewart, the railway contractors, and \$15,000,000 for general purposes.

INSPECTOR TIPTON.

TIPTON TO BE NEW INSPECTOR

The police commissioners, at their bi-monthly meeting yesterday, sprung a big surprise by appointing Detective "Dick" Tipton to the inspectorship of the new Markham Street Police Station to be opened on Dec. 1. The detective has seen ten years' service with the staff at the city hall.

Other promotions were: Patrol Sergeants Brown and Martin, to full sergeants; Constables Currie, Payne, Reilly, Johnston, McMenomy, Little and Majury, to be patrol sergeants.

HOSPITAL BOARD HAD LIVELY MEETING

Long and Heated Discussion at Western Last Night Over Proposed Changes in the Constitution, and Allegations Made That One Man Wants to Run the Place.

The proposed changes in the constitution of the Western Hospital, as was expected, provoked much heated discussion at last night's meeting of the board of governors of the institution. When eventually put to a vote the proposal to ask the legislature for power to institute changes was carried by an overwhelming majority.

That the proposed changes are for the means of depriving the hospital staff of their rights and vesting them with the board of governors was freely stated in the discussion last evening. "The carrying of that motion was simply a matter of one man with \$260,000 invested in the hospital running the institution, and by means of his 250 votes overwhelming the vote of the majority opposed," declared Dr. Spence to The World last night.

(The following were elected to the board of governors for the ensuing year: Medical—Dr. A. McDonald, Dr. Gulien, Dr. S. M. Hay, Dr. Pritchard, Dr. A. H. Perfect, Dr. W. J. Page, Lay—Wellington Francis, Aid. George Weston, John Yokes, Campbell, Dr. John Medland and Thomas West.

Dr. John Ferguson, Noel Marshall, Dr. Hudson, Mr. Samuels and Hon. Thomas Crawford were elected life members.

Hon. Thomas Crawford, president of the hospital, occupied the chair.

LONDON UNITED TO HONOR BECK

"Harnasser of Niagara" Eulogized at Banquet in Which Party Lines Were Ignored.

LONDON, Ont., Nov. 25.—(Can. Press.)—London's most prominent citizens, over 600 strong, and irrespective of party affiliations, arose tonight and tendered Hon. Adam Beck, chairman of the Hydro-Electric Power Commission of Ontario, and the city's most distinguished citizen, one of the most memorable complimentary banquets in the history of the city.

Among the speakers were Bishop Fallon, head of the Catholic diocese of London, Right. Rev. David Williams, bishop of the Anglican Diocese of Huron, Lieut.-Col. Gortchore, general manager of the McLary Manufacturing Co., Dr. Flanders of the First Methodist Church, and his Worship Mayor Graham.

Flattering words of appreciation of the public services of the "harnasser of Niagara" were on the lips of every speaker. Conservative, Liberal and socialist, in the course of the evening he was presented with a solid silver salver containing 200 ounces of silver and a set of candelabra of four pieces.

DEFAULTING CASHIER ARRESTED ON RETURN

Fred J. Foster Has Admitted Shortage of Twelve Hundred Dollars.

Arrested by Detective Miller on a charge of stealing \$600 from his employers, the R. J. Darling Clothing Co. of 92 West Adelaide street, Fred J. Foster, a cashier clerk, admitted a shortage of over \$1200 in his accounts. Foster's shortages are said to cover a long period, and according to the police are made up of small sums taken from time to time.

A warrant for his arrest was issued a month ago, but Foster got word and left for Chicago. He returned yesterday evening and was arrested by Detective Miller.

JAMES MOORE ENDED LIFE.

VANCOUVER, B.C., Nov. 25.—(Can. Press.)—James Moore, aged 31, whose parents live in Toronto, committed suicide today in a rooming house at 56 Bender street. He had just come from Prince Rupert, and was suffering from an hallucination that an enemy was pursuing him. He swallowed the contents of a bottle of carbolic acid.

Toronto Property Owners Now Have Proof That the Clean-up of the Franchises Is a Sound Business Proposition.

Every property owner in Toronto is given authority by the law to be a judge of the business proposition arranged and submitted by Mayor Hocken for the clean-up of the franchises. It is the property owners who must sit in judgment upon that business proposition. They certainly have not delegated Controller Church, Controller Foster, The Telegram or The Globe to be the judges. That quartet has assumed the responsibility of being the judges for the property owners. In doing so that quartet certainly places themselves in a position to be judged as extraordinarily "interested" in an opposition to the right of the people to own and control public conveniences. An "interested" opposition is a suspicious activity.

Mayor Hocken had proved himself above suspicion in his public service long before he became mayor of the city. Since he became mayor he has proved himself a hard and capable worker for the best interests of the city. He has made good. In a little over a year in the office of mayor he has given the property owners an opportunity to throw off the shackles on expansion, clean up all franchises, and give the city the freest possible power to develop commercial and industrial greatness. He has arranged terms of purchase of this freedom which have been proposed and altogether in the best interests of the city. No mortal could do more. No other mayor of Toronto has ever attempted to accomplish anything like so great an undertaking. Not even his opponents have attempted to impugn his motives.

The property owners of Toronto have now the proof that the clean-up of the franchises is a sound business proposition. This proof has been given by experts in electrical engineering and chartered accountancy. No one who is expert in electrical engineering and chartered accountancy has challenged that proof. The challenge of that proof has come from men who have no knowledge of electrical engineering and chartered accountancy. That those men should presume to sit in judgment upon the proof submitted by the experts is pretty owners must view with much suspicion the gratuitous services of that quartet in their behalf.

The experts having pronounced the clean-up of the franchises a sound business proposition, it must now be conceded in all fairness that the issue is no longer the value in dollars and cents of the properties to be purchased. Of a fact the issue now becomes one of transportation. The issue now is, what will be the public control of all the streets of the city and public control of all the electric railways in the city do for the benefit of the people of the city? This is what the property owners of the city have now to sit in judgment upon. They will note that the quartet that is gratuitously acting as judges for them, in order to belound the issue and oppose the proposition in the most possible way, has not a word to say about the benefits to the people and the city from acquiring public ownership and control of electric transportation service within the city's limits.

It does not require experts to prove the benefits to the people of Toronto of public control of the electric railway service for the city. Every man, woman and child now using the present service knows that it means double fares, incalculable crowding and an obstinate refusal to extend lines beyond half the area of the city.

It does not require experts to prove that the radial lines have halted at the boundaries of the city and will not come into the business centre until public control of the city's electric transportation service makes the entrance of the other terms do the people of Toronto care to have the radials come into the heart of the city. The clean-up of the franchises will bring in the radials at once.

Until there is public ownership of the electric transportation service for the city there will continue the discomfort of the people who use the street railway system, and the shackles upon the expansion of the city will remain firmly riveted.

Until there is public ownership of the electric transportation service of the city the radials will not run into the business centre, and the territory around Toronto will not be developed into a most profitable contribution to the increase of the retail trade of the city.

Until the radials are brought into the city the working men and women will not have the opportunity to own homes where the price of land is within their means, and where there is plenty of sunlight and pure air.

Most certainly the issue is now that of transportation. The property owners are the judges of that. Their votes will decide if Toronto is to be rescued from congestion and discomfort. The quartet that is gratuitously advising the property owners to oppose rescue from congestion and discomfort is only increasing the suspicion of the property owners that the gratuitous advice is very much "interested."

ANTI-ULSTERITES POWERLESS TO DEPORT HINDUS

Dublin Strikers Opposed Nationalist Volunteer Movement and Sticks and Fists Used Vigorously.

DUBLIN, Nov. 25.—(Can. Press.)—An Irish National volunteer force to uphold the authority of the crown and government of Ireland, on the same lines as the Ulster force, of which Sir Edward Carson is the sponsor, was organized tonight, but the enrollment of volunteers was attended by scenes of violence. More than 8000 persons assembled in the rotunda at a public meeting held for the purpose of inaugurating the movement, and several thousands were unable to gain admission. Their attempts to enter resulted in great disorder and glass doors and windows were broken.

From the first it was evident that the transport strikers, who were present in large force, opposed the movement. They maintained constant interruptions of the speakers, which culminated in free fights. Sticks were used as weapons and a number of blank cartridges were exploded. The meeting was so disorderly that it was impossible to judge of the success of the movement, but the promoters asserted that several thousand men enrolled.

"EAT NO EGGS" IS SLOGAN OF WOMEN OF CHICAGO

Twelve Thousand in League to Break Price or Practice Self-Denial.

CHICAGO, Nov. 25.—(Can. Press.)—The campaign of self-denial in the matter of eating eggs began today in an effort to reduce the price. It is estimated that 12,000 club women as their families are engaged in the movement, which has for its object the reduction of the price to 32 cents a dozen. Until that point is reached the women have pledged themselves to go without the eggs. Fresh eggs are selling retail here at from 45 to 48 cents. Speculators are said to control the market. A year ago the women broke the price by selling eggs themselves.

WHISKEY FINES TOTAL NINE HUNDRED DOLLARS

Five Collingwood Defendants Mulcted for Infraction of Liquor License Act.

(Special to The Toronto World.) COLLINGWOOD, Nov. 25.—Fines aggregating \$900 were imposed here tonight by Police Magistrate Hogg on various restaurateurs for infraction of the liquor laws. The cases lasted the greater part of two days. Those included in the penalty list were: Cadillac, \$200; Globe, \$100; Cook's, \$200; Dunbar's, \$200; Baltimore, \$100. Three other cases will be disposed of on Monday next.

Viola Dana Plays in Every Performance

Manager Frank Young of "The Poor Little Rich Girl" Company is authoritatively for the statement that Viola Dana, the wonderful child actress, will positively be seen in the part of Greedy during the matinee at the Princess this afternoon as well as in each performance during the week's engagement.

PRICE OF ENGLISH FLOTATION RAN INTO THOUSANDS OF POUNDS

Union Life Investigation Reveals Huge Commission for Publicity Agent, Who Got Seventeen Per Cent. of Money Realized on Sale of Shares—Insurance Agent Who Prepared Prospectus Got Over Ten Thousand Dollars—Evans Claims Ignorance of Many Deals.

The further the investigation of the Union Life Assurance Co. proceeds the clearer it grows that the enterprise, if not shapen-iniquity was at least conducted in the most daring of Wallingford styles. Under the pressure of H. Pollman Evans fairly cavorted along the highways of finance. It rushed boldly into investments from which the innocent policyholders would have shrunk in terror. It countenanced policies that smacked of deception. No less a loan than \$65,000 to the National Fruit and Packing Co., a concern that gobbed chickens with unsatisfactory appetites, the security for the loan being a mortgage of \$65,000 on land that cost exactly that figure. This was one of the brilliant strokes accomplished apparently without the knowledge of the directors in general.

Yesterday's sitting disclosed a conflict of evidence between the heads of the organization. Harry Symons, K.C., had sworn that friction existed between himself and Evans over his own desire for a conservative policy, and one in keeping with the promise of the prospectus. The president, on the other hand, claimed entire innocence. The board had stood behind him in all these questionable moves.

To float the British capitalization money was not spared by the directors. Commissions as high as 19 per cent. were advanced without a murmur to instrumental parties. Stock to the value of \$785,195 was placed on a commission of \$152,430. Hedges, the English publicity man, was the recipient of seven-eighths of this money. The English office held \$2750 in National Agency stock against a failure to receive the Union Life commission, and on this account their commission was awarded. The item was for £298 to defray office expenses.

Big Commissions. The aggregate commission of the Hedges' concern in the British flotation amounted to \$16,742. This was in addition to \$93 for various disbursements beyond this amounted to \$429, making the total \$110,000. Mr. Evans stated that he understood the publicity charges of Hedges were excessive, but that there was no alternative, the contract having been made. The National Agency contract was in existence and the Hedges company were taking action to recover damages for disbursements which they claimed.

"What would have been a fair rate?" was asked. Witness would not say because of the peculiarity of arrangement. "Part of Hedges' duty was to know the right newspapers to put notices in and favorable notices put in some intended as news paragraphs, I suppose," suggested the counsel. Witness replied in the affirmative.

Seventeen Per Cent. The total amount received from sale of shares was \$257,000 and Hedges' commission came to \$110,000. This was at 17 per cent. On the Hedges' prospectus only \$180,000 was gained. Mr. Evans himself received \$11,051, but he felt that his disbursements hardly totaled that much. This was all he received in connection with the flotation, irrespective of his own salary.

"There was no splitting of Hedges' commission?" "No, I know there was not." "Schooling, an English insurance expert, who assisted in preparing the prospectus, received \$2305 for his services. He is a regular contributor to London Truth and London Telegraph, and worked this connection for the flotation.

"Out here in the colonies that seems to be a large sum to pay such a man," said the counsel. "That's what I thought, but I wanted to make it a success. We had a public meeting, which he addressed," said Mr. Evans.

Mr. Masten now took the witness to task on the "misleading character of the prospectus." Mr. Schooling had approved of the entire prospectus, according to witness.

"It was the intention to publish to English investors a statement which had been checked by the government agent and found to be incorrect." "Mr. Schooling's particular use was to look over the prospectus and give it a 'God-speed'?" "Yes, he looked after the issue."

Liberal Management. A staff of 12 clerks established in Wainwright's legal office had consumed \$550 in expenses. The bulk of these had only been engaged for a week or ten days, with two or three remaining on along. In the same connection the expenses of Mr. Evans while spending four months in England equaled \$1151.

Mr. Masten pressed after the data in the hands of Risher, the Prudential actuary, who wrote such a glowing account of Union Life prospectus. Mr. Evans claimed little knowledge of his information by stating that Mr. Symons had largely provided it. Evans himself had only paid him 19 guineas for his work, but he might have received more.

Mr. Masten singled out the phrase "unexampled progress" in the British prospectus. This was misleading in not giving the yearly losses. The policyholders' surplus was \$320,000, the dividends were near enough the same. Mr. Masten asked the justification of Risher's letter when the income was being steadily turned into building up the business instead of dividends. Had Risher received all the facts? Witness replied that he had, as far as he knew, and that he was not on the "horn of a dilemma" as the counsel would suggest.

Not Net Assets. In the questioning Mr. Evans he stated that a sum marked assets he took as "net" assets. Later he discovered it was "gross" assets. "I was looking at it from a book-keeping point of view," he explained. "Then if you saw it that way perhaps it would not be wonderful for the ordinary observer to do the same," commented Mr. Masten.

Mr. Symons had stated that when he had arranged for legitimate invest-

ments in the Northwest. Mr. Evans had canceled them. "I don't remember," the witness said, "I was away at the time. Perhaps Dr. Mitchell had it." "Surely he would not, as an ordinary director, take this step?" "I think that money was running short and all debts were canceled for that reason."

"That would be because of the \$240,000 loan to the Canada Provident." **Claimed Ignorance.** The breach in policy which Mr. Symons spoke of Mr. Evans claimed to be in entire ignorance of.

He explained the Provident loan as following the scoring out of the first resolution and the interposition of his own, he at the same time initiating the measure. It was of this loan that Mr. Symons stated it would never have been passed if they had known it. He had said to the president that he would have to bear the responsibility for the change.

Mr. Evans' recollection did not agree with that of Mr. Symons, and he felt that the book would prove his statement valid. Mr. Masten thought with Mr. Symons that the interpretation of the board had to be that \$184,000 worth of shares had been fully paid, whereas it had not. Symons went on to say that the directors did not know the nature of the securities.

"What do you say to that?" "It is highly improbable that they did not," was the reply. "Have the shares of the Imperial Loan any value?" "I have no opinion on that." The liquidator is of the opinion that the shares have no value.

Of the English money \$50,000 went to the Colonial Loan and the \$340,000 as a loan to the Canada Provident. This latter was done without the knowledge of the London directors. **Justified Loan.** The loan of \$85,000 on National Land Company property, which cost \$65,000 Mr. Evans justified on the ground that the valuation of Horton Walker at \$110,000 was taken, and that at any rate he made the loan before the valuation was made. Moreover, land value was not necessarily based on what the property cost.

Further English money to the extent of \$44,000 was deposited in the Imperial Loan on a 5 per cent. basis. "Did this not strike you as a dangerous practice? Was it not unduly dear that it would at once be

passed on to some other of the allied companies?" asked the counsel. Witness did not agree. "How much of the money went to extension of the business?" "Three hundred and forty thousand dollars." "But how much went to the purchase of Home Life stock?" "The amount I named, but \$340,000 to the Union Life thru the National Agency."

Till December Tenth. At this point the referee decided to postpone the investigation until Wednesday, Dec. 11, at 11 a.m. In the interim the liquidator will have opportunity of working over several important documents not yet received from Mr. Evans.

Reserved seats now selling at Mason Hall and the Stanley Piano Co. 14 Temperance street, for the big Bow-Wow Minstrel Show, Dec. 1, 2 and 3. Prices 25c and 50c.

BELGIANS ASK RAILWAY CONCESSIONS IN MEXICO

First Business to Come Before New Congress—Naval Reforms.

MEXICO CITY, Nov. 25.—(Can. Press).—The first bill to be introduced in the new Mexican Congress was one to ratify a concession to European. The department of communications sent today to the chamber for ratification a concession to a Belgian syndicate, to build 5000 miles of narrow gauge railway in Mexico. This was referred to a committee.

The only other matter before congress today was a measure presented by the war department providing for reforms in the naval organization.

A SUFFRAGETTE INVASION. Reserved seats are now on sale at the Parish Hall, Dundas and Dufferin streets, for the St. Anne's choir's annual concert, to be given Tuesday to Saturday evenings, Dec. 2 to 6. The offering this year, a musical play in two acts, entitled A Suffragette Invasion, bids fair to surpass the other big successes of past years, as over 1200 reserved seats were sold within two hours of the opening of the plan. As the hall seats 1200 people comfortably there are plenty of excellent seats left for each of the five nights. This is the only assurance protection that is forced to run a week to meet the demand for seats.

NEW SEATS IN ONTARIO. OTTAWA, Nov. 25.—Before the next election for the Ontario Legislature, the Citizens League is preparing a bill to be created, including four new seats in West. Nothing definite has yet been officially announced, but this is the general opinion of those who are in contact with Sir James Whitney and other members of his cabinet.

RUN DOWN BY WAGON. Thomas Amo, 61 Balmoral avenue, was run down by a Dominion Express wagon at the corner of Queen and Church streets last evening, sustaining a severe scalp wound. He was conveyed to St. Michael's Hospital in the police patrol.

MANY CHANGES IN THE WINTER FAIR

Great Improvements in Seed Department — Hydro to Have Complete Exhibit.

INDUCTION OF PASTOR

Rev. George A. Little Formally Installed as Minister at Chalmers.

(Special to The Toronto World.) GUELPH, Nov. 25.—Rev. Geo. A. Little, B.A., formerly assistant minister of Augustine Church, Winnipeg, who recently accepted the call to Chalmers Church, was inducted into his pastorate this afternoon in the presence of a large congregation. Rev. Mr. Lawrence of Morrison, moderator of Guelph Presbytery, presided; Rev. J. McDonald, of Belwood, preached the sermon; Rev. Dr. Blair of Nottawasaga addressed the newly inducted minister, and Rev. E. Abraham of St. Andrew's, Guelph, addressed the congregation. Following the induction the women of the congregation served tea, after which an informal reception was held. The new pastor is a young man and is a native of Princeton, Ont. The annual meeting of the Humane and Childless Society of Guelph was held in the Y.M.C.A. building tonight and was very largely attended. The chair was occupied by Sheriff Allan, president of the society, and the reports of the officers were very gratifying. The statement of T. G. McKeister, treasurer, showed receipts from all sources for the year amounting to \$3689, with a substantial balance on the right side of the ledger. The report of Inspector Lovell was a most exhaustive one, dealing with all phases of the work. It disclosed that a great many cases of neglected children had been dealt with during the year, a number of whom had been placed in foster homes and others accepted as wards of the society. Excellent addresses were delivered by J. J. Kelso, provincial inspector of the Mercer Reformatory at Toronto.

With the opening of the Winter Fair only two weeks away, preparations around the buildings are steadily progressing and those who are present on opening day will notice many changes. The principal change is in the seed department, which will be located this year in the city hall, now connected with the winter fair building by a new entrance. The seeds have been very badly cramped for room in the past, and the change has had the effect of increasing the entries fully 50 per cent. Another change will be the placing in the city hall of the hydro-electric, a representative from the commission was here today, looking over the situation, and the exhibit promises to be a most complete one. The O.A.C. dairy department also will have an interesting exhibit in the city hall, including all the products of the department.

Will Pay Claim. A letter of communication was received from Robert Watkins, a grocer on Borden street, who some time ago instituted a claim for \$2,700 damages to the board, claiming that the building of the new technical school, which necessitated the closing of Herriek street, caused him to lose considerable business. The letter stated that if paid by Dec. 5 he would accept \$1,500, but that if not paid by that date he would make an effort to get compensation by means of arbitration. The board decided to pay the claim.

WANT EIGHT HOUR DAY

For Minors—All School Laboratories to Be Supplied With Sanitary Towels.

Dr. Noble is leading a campaign among the members of the board of education for the purpose of having the government reduce the number of working hours per day for young boys and girls, and at a meeting of the advisory industrial committee yesterday afternoon made a motion that a communication be sent to the Ontario Government asking that this be done.

He stated that at present young girls fourteen years of age are being worked ten hours a day and often have to work overtime. A great many of these girls also attend night school, and when they work so long each day and then rush to school they are quickly being run down.

"If this continues, it will ultimately result in white slavery," said the doctor. The board want the working hours reduced from ten to eight hours per day for all minors.

A letter of communication was received from Robert Watkins, a grocer on Borden street, who some time ago instituted a claim for \$2,700 damages to the board, claiming that the building of the new technical school, which necessitated the closing of Herriek street, caused him to lose considerable business. The letter stated that if paid by Dec. 5 he would accept \$1,500, but that if not paid by that date he would make an effort to get compensation by means of arbitration. The board decided to pay the claim.

HAMILTON GETS A NEW COMBINE

Three Coal and Ice Firms Have Consolidated Their Businesses.

EGG BOYCOTT COMING
Women Threaten to Take Steps Toward Reducing High Prices.

(Special to The Toronto World.)
HAMILTON, Nov. 25.—It was authoritatively announced today that three of the local coal and ice concerns had combined, and that they now form the largest combine in the city. The new firm will be known as the Citizens' Fuel and Ice Company, and is capitalized at \$500,000. It was incorporated for the purpose of acquiring the fuel business of Charles A. Low & Co., and the fuel business of Inkster and Meyers. The Inkster-Meyers concern was appraised by the Canadian Appraisal Company of Toronto.

The good-will of the business of Chas. A. Low & Co. is valued at \$65,000, of the Inkster-Meyers at \$45,000, and of the Inkster-Meyers Company at \$85,000.

Assault and Robbery.
About 4 o'clock yesterday afternoon two unknown men entered the home of Mrs. S. Controller Well Prepared With Facts and Won Frequent Applause.

The largest attendance ever witnessed at a Ward Seven Ratepayers' Association meeting filled the large assembly hall of the Annetty street school last night. It had been extensively advertised that Mayor Hocken would address the citizens of the west end on the details in connection with the proposed purchase by the city of the Toronto Street Railway and Toronto Electric Light Companies, but at the last moment the commissioner was unable to attend. Controller McCarthy, armed with the necessary statistics, was present to present the facts to the people.

ADDRESS BY CONSUL

J. Joyce-Broderick Spoke Before Members of Women's Canadian Club.

At the meeting of the Women's Canadian Club yesterday afternoon, the speaker of the day was Hon. J. Joyce Broderick, British consul, stationed for the past five years at New York. A large number of the membership of Toronto, which now has reached nine hundred, and Mrs. George Dickson, who has reached the thousand mark before Christmas, were out to hear the address.

Women, said Mr. Broderick, in his opening remarks are now asking for a share in the activities at present confined to the masculine part of humanity, and there is at least one subject upon which both may agree—that of peace—national, international and domestic. The tendency of the time is to emphasize this more and more, still the international horizon is even now darkened by clouds which if they broke out would affect every one of us.

Wars in the past had their uses. They showed that patriotism burned as brightly in one country as in another. When man fought hand-to-hand there was something of a glamor about it. Now there was slaughter by machine.

Speaking of the department of the consulate, Mr. Broderick said that during his term in the United States it was his experience that there was little enquiry from the office on the part of Canadian women. He made clear that there were no barriers to information going from the department and that all connected with it would gladly be of service to Canadian and Canadians.

From a comparison of figures regarding the trade of Canada, Mr. Broderick was of the opinion that Canada in a brief space of time would become mainly a manufacturing country without, however, losing its agricultural eminence. When this time arrives the Dominion will find that other countries are equipped with every facility for the production of goods, and the British consuls the world over have been in the thick of the fight from the beginning. The knowledge of this body will always be at the service of Canadians.

After tracing the history of the consulate from its beginning in Egypt, Mr. Broderick outlined some of its duties, which were summarized as "endless and indefinable."

A consul cannot create trade, but he may suggest the manner in which it may be carried on. He is the ambassador of trade and he is to see that its path is made as smooth as possible. Consuls can save merchants from irritating delays due to custom laws.

Comparing Canada with the United States, the speaker said that the progress of the former would be more accelerated in the twentieth century than even the wonderful progress of the United States in the nineteenth.

A vote of thanks was moved by Miss Constance Houston and seconded unanimously for the interesting address.

Mrs. Meyers asked all present to do their Christmas shopping before Dec. 13 to relieve the saleswomen and men and also to lessen the nervous strain of the shoppers themselves.

Rev. Fred Atwood of Minneapolis, Minn., better known as the "Blind Optimist," will deliver his popular lecture, "The Prodigal Son," in St. George's Hall, King St. East, on Friday evening, Nov. 28, under the auspices of the Knights of Pythias of Toronto. The public are cordially invited to hear this very interesting lecture by one of the most talented and earnest public speakers of the day, and a very nice musical program has been provided. Doors open at 7:45, and admission free. Rev. R. A. Gay will occupy the chair.

YOUNG BANK EMPLOYEE TAKES HIS OWN LIFE

Herbert N. Howard of Deseronto Shoots Himself on the Public Street.

(Special to The Toronto World.) BELLEVILLE, Nov. 25.—Herbert N. Howard, a young man of Deseronto, last night took his own life. The tragedy was witnessed on the street in front of the Deseronto House, the victim placing a revolver to his head and virtually blowing out his brains. He was about 19 years of age, and was ledgerkeeper in the Bank of Montreal. His father, Herbert Howard, is accountant in the same bank.

No one can surmise why the victim should have taken his life. He was one of the most popular young men of the town, and of a jovial disposition. An inquest will be held.

SONS OF TEMPERANCE TO MEET THIS MORNING

Reports to Be Presented and Officers Elected—Banquet Tonight.

The Sons of Temperance of Ontario open their sixty-fifth annual meeting in the Sunday school room of the Metropolitan Methodist Church this morning. The order has increased with such bounds that it is considered advisable to establish a national division for North America, with its headquarters at Philadelphia.

It is found that the cadet movement has increased wonderfully under the leadership of W. A. Rice, patron of the order. The sick and funeral benefit department is expected to show a financial statement with larger membership than any other society of its kind in Ontario.

A notice of motion to increase the per capita tax from seven cents per quarter to ten cents is causing considerable comment. For the purpose of increasing membership during the coming year and advancing the cause of temperance, a fund of \$1000 will be set aside.

The meeting will be presided over by Grand W.P.A. Rankin, Middleville, Ottawa, St. Mary's, Orillia, Solina, Oshawa, St. Catharines, Exemption and other places will be represented.

A banquet this evening will be addressed by the mayor, Controller Murray, Rev. Dr. Hincks, Canon Walsh of Brampton and the Rev. Dr. McMillan. The election of officers takes place this evening, and the session continues tomorrow.

Reserved seats now selling at Massey Hall and the Stanley Piano Co., 100 Temperance street, for the big Bow-Wow Minstrel Show, Dec. 1, 2 and 3. Prices 25c and 50c.

NEW SCHEME FOR FARMING BY WOMEN

British Society Forming for Co-Operative Agriculture in Canada.

LONDON, Nov. 25.—(C. A. P.)—A scheme of co-operative farming in Canada for women, promoted by Chas. Howes of Bristol, Eng., has already received some attention in the Canadian newspapers. In an interview with the Canadian Associated Press, Mr. Howes said:

"I am afraid the Canadian friends are a wee bit previous in giving publicity to my proposal to formulate a scheme for women's co-operative farming in Canada. The simple facts are that, owing to an article of mine in The Daily Chronicle, in which I gave particulars of a case where half a dozen young women had gone out to the west and won by the force of co-operation, both in this country and in Canada, into forming a society, and at present, I find myself in the thick of what may become a huge work among women on both sides of the Atlantic.

"Now that it is started, and it does not much matter whether I am hung either for a sheep or for a lamb, I shall be glad of your kind co-operation in making the matter successful. My proposal is to send out a number of preliminary circulars, asking for names of interested supporters, and when sufficient is forthcoming, call a meeting in London for the appointment of officers and committee, registering the society, etc. My idea is that the chief office should be in London, with branches in the capital city of each province of Canada."

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL

DOMESTIC SCIENCE LECTURER

The Helpful Stock Jar.

FEW of us agree with the French chefs who insist that the stock pot shall be upon every range open to receive bits of meat and bones as they are trimmed from meats; its contents ready to be drawn upon for all sauces and soups. Indeed, so disgusting is the idea of a European stock pot to a dainty Canadian home cook that exception is even taken to recipes that call for "a cup of stock," by some inexperienced housekeepers.

It is not practicable for us to have a stock pot unless we have very large families and cut great quantities of meat in our kitchens, for our butchers trim every cut of meat closely and utilize every portion of the animals, but the squeals. We even have to pay for a bit of suet to rub our meat boiler with!

Besides this, the principles of nutrition and sanitation are becoming too well understood in this country to make the continuous boiling of fresh and of old meat together approved. Even our school children know that meat to be wholesome, must be fresh.

When we think of meat that has once been boiled being rebolled with fresh trimmings and other additions, we realize that the stock pot can only contain a greasy, acrid, unpleasant mass. Perhaps the wholesale use of strong flavors and high seasonings, favored by foreign cooks, is due to their method of securing a plentiful supply of stock.

To make a fine, rich broth place a soup bone, sawed and broken, or soup meat cut in pieces, in a generous sized kettle and cover with cold water. Allow a quart of water to each pound of meat, that is to say, twice as much water as meat. Let this stand a few minutes before heating that the juices may begin to draw out, then put it where it will warm gradually. Add salt now and cover closely to prevent evaporation.

Cook at a gentle, steady boil, and when the process is well under way add salt, pepper, celery salt and those herbs that you are sure your family will like. Mrs. A. D. T. Whitney said once: "The best soups are those that have a little of almost everything in, with nothing predominating."

When the meat is cooked to shreds you may be sure the flavor is all extracted and the soup finished. Now bring out a stoneware jar with a tight-fitting lid and cover it with an old napkin or piece of cheese cloth. Turn this strain the soup into the jar and keep in the refrigerator or in a very cool place. When the soup is cold a cake of fat will form over the top of the jar, excluding all air and moisture, and as long as it is not disturbed and is kept cold the soup will keep sweet and fresh.

Persons who do not have ready access to meat markets tell me they "can" stick as they can any other article of food. This can be done, I am sure, if the soup is allowed to cook down until quite gelatinous and all bits of meat carefully strained from it. But I am of the opinion it should be poured into stone or glass jars, kept quite cold and not used after it is ten days old.

I believe most of my readers know that white stock is made from veal or light-colored fesh, and dark stock from beef.

THE GARDEN CONDUCTED BY RACHEL R. TODD, M.D.

Chives and Shallots.

On an average of one person in every thousand will recognize these herbs, so common to our grandmothers' old-fashioned herb-gardens, and so indispensable to many of the old-fashioned sauces and soups. It is well for many of our modern housekeepers to become acquainted with both herbs, for the pair will form a splendid addition to the list of everyday "savories."

Chives, belong to the Allium or onion tribe, and are perennials. If one can imagine tiny spring onions whose tender white bulb is no larger than a thickened straw, and whose stiff rich green stems are scarcely half the thickness of the same straw, the whole plant some six inches high and perhaps producing a pretty pale purple flower from the central stalk, one can readily see

that such an herb is not only a necessity to the cook, but also, an ornament to the herb border. The plant will multiply itself, and often a young bunch of chives will yield from twenty to thirty roots.

For soups, salads, stews and sauces, chives are splendid seasoning agents, giving a faint, very delicate onion taste.

Old-fashioned folk used to divide the roots year after year, and plant the roots to form stiff, little borders to the flower beds. The low, violet-perennial borders, both on account of the flowers which appear early in spring and from the fact that the hollow green stems retain a vivid and unchanging green thru the hottest spells of drought.

While the chive rarely seeds, in this country, yet it thrives in any good soil, multiplying with incredible rapidity. Any nurseryman will be able to supply roots at small cost.

Shallots also belong to the allium tribe. Like the former herb, chives, the shallot is a most useful member of the family, and no kitchen garden should be without a good patch of healthy shallots. The cook can use shallots in endless ways. In soups, sauces, stews and pickles, as well as in plain cooking—their use no end to the use they may be put, where a slight oniony flavoring is desired.

Buy bulbs from the nurseryman, as seedlings are not useful until the second and indeed often the third year.

These young shallot bulbs must be planted early in spring in rich earth, and should be planted some five or six inches deep, and in rows at least ten inches apart. By the end of the summer, the plants will have become quite bushy, forming thick clumps. About the beginning of September, these may be pulled up, and dried for winter use, in the sun. Be sure to leave enough healthy plants, under cover in the bed, for new stock next spring.

NURSERY

CONDUCTED BY Elinor Murray

Questions and Answers.

"Are chest protectors advisable for young children?"
No. They are heavy and awkward, and often overheat the child so that he takes cold easily. The best protection known against colds in the head or chest is a daily splashing with cold water over the chest and back after a child is two years old.

"My little girl, aged five years, has been troubled with cold feet and hands even in this mild weather. She wears warm underclothing and we keep the house very warm, but she still complains of cold feet and hands."
Your little girl's circulation is probably poor. Do not keep her in too warm rooms, but encourage her to exercise outdoors as much as she possibly can without getting over-tired. Give her a cool sponge each morning while she stands in warm water and then rub her briskly with a coarse towel. A tonic prescribed by your physician may be necessary if no improvement is shown soon.

"My baby is six months old and seems to need something besides her milk. I have given her potatoes and cream and she seems to like it. I do not think it wise to give so young a baby potatoes. In fact, the nursery rule is no potatoes until two years old. Potatoes are not easy to digest and yet it is the first solid food that many mothers give their little ones."

Six ounces of pure milk and barley gruel in equal proportions every three hours should be sufficiently nourishing for your baby. However, you may safely give her a tablespoonful of orange juice in the morning between meals and the same amount of beef juice in the afternoon.

"I wish to know if it is possible to obtain copies of your recent articles with reference to the rearing of babies?"
The contents of this column necessarily repeat themselves. Every six months or so I find that I must start all over again. As it were, deal with the care and feeding of the little new babies. I cannot say definitely when this series should start again, but it should come about February, perhaps earlier. I do not know how long the Hamilton office keeps old copies of the paper, but I think if you enquired at 15 East Main street they would let you look over the files and perhaps would have the back copies that you want for sale. This seems a lot of trouble, but really I only keep one copy for my own reference, so end to the matter.

There has been some talk of publishing "The Nursery" in pamphlet form for the use of World readers. This will probably be done about the first of the year, and will meet your desire, I hope.

A Victrola for \$1 a Week.
Many people make the mistake in imagining that it costs considerable money to purchase a phonograph or Victrola. This is not the case at the R. S. Williams & Sons Company, Limited, Edison-Victor "Service" Parlors, at 145 Yonge street, for under their system of deferred payments anyone may purchase a Victrola for a small sum down and as low as \$1 per week. In this way they enjoy the use of their instrument while paying for it in merely nominal amounts. 31f

PETITION FOR WOMAN SUFFRAGE IN GERMANY

BERLIN, Nov. 25.—(Can. Press.)—A petition for the introduction of woman suffrage in Germany was among those presented to the Imperial parliament when it met today after a recess of nearly five months.

The legislative programme of the session includes some interesting measures, especially that dealing with military secrets, against which newspapers representing all parties have protested; that for the regulation of petroleum monopolies, directed against the operation in Germany of the Standard Oil Company; and those for the protection of strike-breakers, and the relief of unemployed workmen.

WOMEN TO FARM BY CO-OPERATION METHODS

Bristol Men Are Proposing Scheme of Interest to Canadians.

LONDON, Nov. 25.—(C. A. P.)—A scheme of co-operative farming in Canada for women, promoted by Chas. Howes of Bristol, Eng., has already received some attention in the Canadian newspapers. In an interview with the Canadian Associated Press Mr. Howes said:

"I am afraid the Canadian friends are a wee bit previous in giving publicity to my proposal to formulate a scheme for ladies' co-operative farming in Canada. The simple facts are that, owing to an article of mine in The Daily Chronicle, in which I gave particulars of a case where half a dozen young ladies had gone out to the west and won by the force of co-operation, both in this country and in Canada, into forming a society, and at present, I find myself in the thick of what may become a huge work among women on both sides of the Atlantic.

"Now that it is started, and it does not much matter whether I am hung either for a sheep or for a lamb, I shall be glad of your kind co-operation in making the matter successful. My proposal is to send out a number of preliminary circulars, asking for names of interested supporters, and when sufficient is forthcoming, call a meeting in London for the appointment of officers and committee, registering the society, etc. My idea is that the chief office should be in London, with branches in the capital city of each province of Canada."

he was talking about when he asserted that the agreement would mean a clean up of the electric franchisees. He flatly contradicts the mayor on this point...

Mr. Williamson, described as an aldermanic candidate, stated that the experts declared that Toronto would have a population of 800,000 in 1921. Mr. Williamson failed to specify the various experts and their varying opinions...

Mr. R. D. McLeod, another aldermanic candidate, thinks the purchase would put a halter round the neck of public ownership. If this be so, why is it that all the anti-public ownership people are so anxious to save public ownership from injury at the hands of its friends?

MAKING THE BEST OF IT. The Telegram is probably not consciously crooked, but it gives much evidence to leave that impression. It quotes an article from The World written when it had been definitely decided by the citizens not to operate the railway under public ownership...

IRISH OPPOSED ONLY TO PRICE

Not Averse to the Purchase of All Existing Franchises.

WANTS CARS RUN FREE

Remedy, He Thinks, is Legislation Rather Than Purchase.

Mark Irish addressed a large meeting of the Municipal Association yesterday at luncheon on the subject of the street railway. He said he was not adverse to purchase but merely to the price asked.

Mr. Irish did not wish his remarks to be taken as a reply to Mayor Hocken's address of the previous week. He wished merely to present some facts and figures which he hoped would be weighty and considered apart from the personal equation.

His Alternative. Mr. Irish's alternative to purchasing the railway was to run the civic lines free for eight years at his estimated cost of three or four million dollars. He thought it unfair to have asked the ratepayers to have made a report on the hydro-electric and the street railway, but not to have asked them to have a report on the hydro-electric and the street railway.

LONDON, Nov. 24.—(C. A. P.)—Postmaster-General Samuel last night delivered an address to the National Liberal Club on "Liberalism and Imperialism." He declared that the idea that Liberalism had no business to have a policy in relation to the empire had been given the go-by.

Great Political Entity. The idea of membership in the greatest political entity the world has known, more than any material consideration, he believed, for loyalty to the empire, which undoubtedly prevailed through the dominions was to be maintained.

Mrs. Geoffrey Leith (nee Miss Olga Schwartz) received yesterday for the first time since her marriage in her flat in the Bradgate, Avenue road, which is beautifully furnished; the diamond mahogany table was centred with real lace and a silver basket of Kilianer roses and lilies, the silver handkerchiefs were laid with pink and white, the fair-haired bride looked very pretty in her wedding gown of white satin, draped with lace and diamond ornaments. Mrs. Patton, who received with her, wore gold brocade with girle of midnight blue and white, and carried a corsage of Miss Arden's roses and lilies. The bridesmaid, Miss Leith, wore a dress of blue and white, and carried a bouquet of white and pink flowers.

The marriage takes place quietly today at 10 o'clock, officiated by Mr. Frank Halshaw.

Mrs. R. S. Cassels, Bedford road, regrets that she is obliged to cancel her dance on Dec. 9 on account of a death in the family.

Mrs. Charles Beatty is giving a not-out dance on Monday, Dec. 22.

Mr. and Mrs. John Carriek gave a large at home at McConkey's last night, when the spacious suite of rooms were decorated with palms, ferns and yellow chrysanthemums and the orchestra played through the evening behind a screen of palms. Mr. and Mrs. Carriek received their guests at the entrance to the drawing room, the latter wearing a cream satin with silver lace tulle edged with mink, and diamond and yellow chrysanthemums and Mrs. Carriek in a dress of blue and white, and carried a bouquet of white and pink flowers.

Mr. and Mrs. Victor Goad, Montreal, have left for the south. Miss Doolittle and Miss Edith Cochran, who have been visiting Mrs. Goad, have gone on to Ottawa.

Mrs. Alban Sturdee is in town from St. John, N.B.

The principal of Queen's College, Kingston, is in Winnipeg.

DEAD CHILDREN RETURN AGAIN AND PLAY WITH THE LIVING

Mrs. Marie Russak Preaches a Theory of Immortality Which Grips Attention—Mind of Dead Man Does Not Realize at First That the Change Has Taken Place, She Says.

Mrs. Marie Russak made a great impression on an audience that packed St. George's Hall last night, filling the platform, standing round the doors, both downstairs and in the gallery, while the lecturer gave a prolonged account of life in post-mortem conditions, as viewed by those who have developed such latent faculties as give sight in etheric conditions of matter.

RICHARDSON NOT LIKELY TO CONTEST MACDONALD

Liberals and Grain Growers May Possibly Compromise on Candidate.

WINNIPEG, Nov. 25.—(Can. Press.)—The it is taken for granted here that R. L. Richardson will be tendered the Liberal nomination for the Macdonald by-election, rendered necessary by the unseating of Alexander Morrison, his former opponent, it is not thought probable that he will accept. Richardson is a busy man, engaged in settling his papers, and would find difficulty in taking the time necessary to fight a strenuous by-election. The suggestion is made that the Liberals and grain growers may compromise on a candidate.

HIGHER FREIGHT RATES "ABSOLUTELY NECESSARY"

WASHINGTON, Nov. 25.—Expert economists were called by the forty-nine eastern railways today in their fight before the Interstate Commerce Commission for a five per cent. freight rate increase. These men declared that in their opinion the requested increases are "absolutely necessary for the maintenance of proper railway service."

BUCHANAN'S RED SEAL SCOTCH

"I love the warm milch frae ma little red coo, An' I love the twa horns on her heid. Wi' the milch an' ma Red Seal, I mak' a braw brew, An' we'll use her twa horns when she's deid."

SMOOTH and velvety, flavored with the faintest memory of peat and heather, kissed with the bouquet of the sherry cask in which it matured for 10 years—that's Red Seal Scotch.

Red Seal is a "Government Standard" whisky, and is exceptional in quality and character.

Bottled at the distillery always. Red Seal is presently a safe whisky to order for those who want a true quality Scotch.

LET A COMMISSION CONTROL UTILITIES

Kingston Ratepayers Vote Next Month on This Proposition.

"GOOD-BY. AM IN LAKE"

Missing Man From Howe Island Leaves Note Behind—May Be Hoax.

(Special to The Toronto World). KINGSTON, Nov. 25.—The city council has decided to have the ratepayers vote on Dec. 17 on the question of placing public utilities under the control of a commission of five members, one being the mayor. The vote is favorable on Jan. 1 the commissioners will be elected. It is proposed that the members should serve without salary.

John McKay, aged 35, employed as helper at the farm of John Foley, Howe Island, is missing. From a note left pinned to his coat found near the shore it is believed that he drowned himself. It said: "Good-bye all. I am in the lake. Life is not worth living." The water has been dragged but the body not located. The majority of the islanders think that McKay skipped out and left the note as a hoax.

William Kenny, steward of the penitentiary for twenty years, has resigned to take up residence in Hamilton. He was presented with a purse of gold by the staff.

ANOTHER BODY FOUND FROM WRECKED HYDRUS

SOUTHAMPTON, Nov. 25.—(Can. Press.)—The second body from the Hydrus was found on the beach here this morning. A Hydrus lifebelt was attached to the body, which was well clothed and in a good state of preservation.

Captain Brown has no positive identification of the body, but it looks to be that of Roy Somerville of Detroit, who is said to have been on the Hydrus. The lake was calm today after the big blow of the past two days and anything which would likely come from the wrecked boats should be found along the shore now. A diligent search is being made.

MARKETS STIRRED INTO ACTIVITY

Wall Street Wakes Up, But Toronto Still Remains Dormant.

C. P. R. MOVES AGAIN

Fractional Advances About All That Toronto Exchange Accomplished.

Somebody stirred things up in London and New York yesterday and C.P.R. called up two points with apparent ease. Stock market movements are difficult to account for at all times, but for Wall Street to run from extreme dullness into the other extreme overnight is somewhat of a poser.

No one seemed to have sufficient energy or ability to imitate the movement on the Toronto Exchange and business dragged along with little change.

As for former occasions when C.P.R. showed strength on Wall Street, a little trading occurs here, and the street surmise is that local shorts get nervous when the stock develops firmness and get out until the slowdown occurs.

C.P.R. was the only issue with any defined firmness. Brazilians made a small fraction, Barcelons was practically unchanged and Steel Corporation shares were up about half a point.

General Electric, despite rumors of a slowdown in business, was steadily bid for at 104. The regular dividend was announced on Mackay and the common sold unchanged at 78.

About the usual amount of investment buying of the shares of financial institutions occurred without effecting any change in prices.

WALL STREET BUYING ENCOURAGES LONDON

British and Mexican Rails Led Advance—Americans Steady.

LONDON, Nov. 25.—Money and discount rates were steady. The Bank of England secured \$4,500,000 of the \$5,750,000 South African gold offered in the open market.

The general settlement progressed smoothly on the London exchange. Business for the new account was good, and the markets were cheerful, strong and advancing, with home and Mexican rails and copper stocks prominent leaders, chiefly on bear covering.

Consolidated five-sixteenths on investment and government buying caused the Paris favorites and home rails to close below the best.

American securities opened steady and advanced during the forenoon under the lead of the Pacific shares. Later the advance was continued, with Amalgamated Copper and United States Steel prominent, owing to Wall Street buying. The closing was steady.

RAILWAYS IN FINANCIAL STRAITS

Heavy Interest on Obligations Must Be Met by Year's End.

NEW YORK, Nov. 25.—(Can. Press)—Wall Street today took a steady state of mind dealing with the more pressing obligations of the National Railways of Mexico to be issued before the end of the week. The company will have to meet semi-annual interest on \$2,730,000 of six per cent. two-year notes, on Dec. 1, and on \$8,000,000 of 4 1/2 per cent. prior lien bonds on Jan. 1.

It is understood that the company's bankers have arranged to take care of the note interest, but the management some union in town, having recently made a hurried trip from Mexico City. He declined to discuss the financial status of the road, except to say that negotiations with the bankers are progressing favorably.

New York Market in Sold-Out Condition—London a Buyer.

CHEAP MONEY RATES

Effect of Gold Withdrawals, However, Shown Late in Day.

NEW YORK, Nov. 25.—The long-awaited turn in the stock market came today. Temporarily at least the speculative deadlock was broken. Instead of the trifling and indecisive fluctuations of recent days, quotations advanced definitely and top prices of the day showed gains of as much as two points in some cases.

While trading was considerably more active than yesterday, the session yesterday, the total of transactions was not large. Activity was confined to the forenoon, after which the market relapsed into the stagnant condition which has been characteristic of late.

In spite of the readiness with which prices responded to market increase in buying, no aggressive efforts were made to force up the list.

The rise in prices apparently was due to the sold out condition of the market.

Berlin Bought C. P. R. The improvement was preceded by a brisk advance in the London market, which determined the tone here at the opening. London contributed further to the advance by buying stocks here, and some Canadian Pacific was taken on direct order from Berlin.

Speculation was facilitated by the availability of cheap money for stock market purposes, but before the end of the day the call money market reflected heavy withdrawals recently by rising to four per cent. For Canada \$2,500,000 more gold was engaged today, bringing up the total on the movement to \$6,350,000.

ATLANTIC EARNINGS. Atlantic earnings for October showed a gross decrease of \$36,252, and a net decrease of \$36,262. For the four months ending with October there was a gross decrease in earnings of \$94,000, and a net decrease of \$97,580.

C. P. R. EARNINGS. Canadian Pacific, third week of November increase in earnings amounted to \$45,000. From July to that period there was a total increase of \$1,987,564.

SHORTS COVERING IN PEARL LAKE

Northern Exploration Had Spectacular Advance of Seventy Points Yesterday.

The shorts in Pearl Lake tried to cover yesterday, with the result that the shares went up two points to 121-4. Brokers are of the opinion that if fresh lenders had not appeared on the scene it would have resulted in even higher prices to be paid.

Northern Ontario Exploration stock had a direct advance of 70 points, going to 160. Several small sales were put thru on the Toronto curb, while on the Standard, although 160 was bid most of the afternoon, the sellers held out for \$2. There are several rumors afoot, but the most probable one is that the Californian Exploration Co., in which the Northern Exploration Co. are heavily interested, has been successful in the working of the old Pigeon mine, and the present large English holders are trying to buy in at the present comparatively low prices.

At one time \$8.75 was the selling price of Northern Exploration.

Despite the fact that the meeting of shareholders in Montreal Monday raised the \$50,000 Jupiter bond issue, no change in price was registered yesterday. It is stated that this amount would be enough to enable the directors to pay off all the liabilities.

C. P. R. LEADER IN MONTREAL RISE

Power, Stimulated by Movement, Advanced Sharply on Fairly Active Trading.

MONTREAL, Nov. 25.—Higher prices for C.P.R. and Montreal Power provided features today to relieve the dreariness of recent dealings in the stock market, but business was still in the grip of a tight money situation and the improvement in two leaders reflected but slightly in the general list.

More cheerful markets in London and a drive at the short interest in New York were responsible for an advance of about two points in C.P.R. which rose to 226 3/8 in New York and to 226 here. On the C.P.R. rise a few buying orders came into the market for power, which sent that issue up 1-2 to 211 in the morning session, and in the afternoon Power became fairly active and advanced strongly, rising to 212 3/4, reacting to 212 and finally closing 212 3/8 bid, as compared with 209 bid on Monday. C.P.R. finished locally very firm at 227-7/8, or 1-8-4 up from the previous day.

Apart from the 700 shares of Power to change hands in the general list, in very small volume, iron, which had led 1-2 to 40 1/4, and closed at the best, was the principal stock apart from C.P.R. and Power to score a gain. Less than 200 shares of Iron were traded in, and in Cement, in which dealings amounted to just 200 shares, the price of 1-4, was the only other stock of prominence to show a turnover in excess of 100 shares.

INTERNATIONAL

FOR OCEAN LINES

N. Nov. 25.—(Can. Press.)—Whether the governments of the United States and the European countries will not prescribe the lanes of ocean liners and pass vessels under the flag of the United States is a question which is being discussed in the annual report of the shipping office, made public last week.

EXPECT EUROPE TO CALL FOR WHEAT

Prices Rose Briskly at Chicago on Receipt of Argentine News.

CHICAGO, Nov. 25.—Belief that the Argentine crop will be short and that in consequence there will be a brisk demand from Europe, sent the wheat market soaring today. Prices closed firm, 2-4 to 11-8c net higher. Other grain, too, finished at an advance.

European acceptances of export offers from Chicago for wheat, wheat bulls assurance. So also did Kansas City and Duluth telegrams telling of activity on the part of foreigners.

Corn showed much firmness in account of a forecast of unsettled weather and because of rumors that the United States government would stop Argentine imports, the idea being to shut out more effectually the dreaded hoof and mouth disease.

Receipts of farm produce were 300 tons of grain, 25 loads of hay and 1 load of straw.

Important Mid-Season Sale of 500 English and Scotch Tapestry Rugs

Such an assortment as we have been able to secure and offer at these very attractive prices is quite unusual. In some cases we have secured manufacturers' heavy stocks at reduced rates; some included are taken from regular stock to clear out the last few rugs, and putting them all together they make a wonderful range of the biggest values we have ever offered in this popular make. There are several different qualities, giving a variety of price in every different size. Many of the designs are made for this season's trade, and are the best and smartest of their respective kinds. Extra special bargains are to be found among the larger sizes, which include a splendid lot of rugs for parlors, dining-rooms and bedrooms. Each rug included in this lot is marked at a substantial price reduction, and as in some cases there are only single rugs in certain sizes, those who come early will have the biggest selection. Note the different prices in most of the sizes:
