COL. BORDEN'S REPORT

DETAILED BY A CLERK.

It Contained the Story of the Death of One Canadian and the Wounding of Others on Monday Last.

Pte. Cotton, a Well-Known Ottawa Young Man, Was Killed in Action—There Is Much Sorrow—What the House Did Yesterday.

Ottawa, May 3.—(Special.)—Some desultory cross-firing concerning military matters and a continuation of the budget debate occupied the House this afternoon.

Dr. Borden informed the House that he had received a cablegram from Lieut. Col. Buchanan, acting for Lieut. Col. Otter, while the latter was laid up by his wounds.

The cable gave a list of the Canadian casualties in the action on Monday, near Thabanchu, South Africa. The list is:

OTTA. HARRY COTTON of the 43rd Batt., Ottawa, son of Col. Cotton, D.O.C., of the Militia Department.

Slightly Wounded. LIEUT. J. M. ROSS, 22nd Oxford Rifles, Pte. JOHN LEITZ, 74th Batt., No. 1.

KILLED. PTE. J. LETSON, 82nd St. John Fusiliers, No. 7509.

PTE. P. R. FOSTER, G.G.P.G., Ottawa, No. 7846.

PTE. R. IRVINE, 10th St. Catharines Batt., No. 7394.

PTE. C. K. ROBERTSON, 21st Essex Battalion, No. 7234.

The death by enteric fever of J. McMillan, one of the farriers sent out with the second contingent, is also noted.

Pte. Henry Cotton was the son of Lieut. Col. Cotton, assistant adjutant for artillery at headquarters, and officer commanding the Ottawa Brigade. His mother, Mrs. Cotton, is the head of the Ottawa branch of the Soldiers' Wives' League, and has been one of the hardest workers in the interest of the boys at the front.

Henry Cotton was well known to the young men of Ottawa, having been connected with the higher branches of sport. He was an enthusiastic footballer, and was undoubtedly one of the best wing men of the Ottawa Football Club, for years past.

He was of splendid physique, and this, combined with his former military training, made him most acceptable on the first contingent. Pte. Cotton was so anxious to get away with the contingent that he refused to play in several of the last matches of the Ottawa Football Club, for fear of an accident that would deprive him from active service. He was employed as a clerk in the Bank of Montreal here, and received leave of absence for eight months. Pte. Cotton was formerly connected with the 3rd Victoria Battalion, Montreal.

Mr. Wallace, when the bill is received at the department? Was it not yesterday? Dr. Borden: I am not sure to tell the hon. gentleman.

A. Dilatory Clerk. Just here I may be permitted to point out that the cablegram was received yesterday afternoon and carried around in the pocket of one of the clerks till this morning. Rumors of its receipt were prevalent about the city last night, but Col. Finslan, Col. Aymer and Dr. Borden could not verify the report. The truth is, by no means clear, and the clerks and gong men sleep, utterly oblivious of the fact that he had an important despatch in his pocket.

Dr. Borden Defends Himself. Dr. Borden had further information to the House regarding the structures of Charles Tupper had put upon the workings of the Militia Department re the getting of an official census yet for the insurance of the contingent. Dr. Borden read numerous letters and telegrams, showing that the Imperial War Office had been made acquainted with the desires of the insurance companies for an official and accurate enumeration of deaths from the contingent. The House was asked by the Government whether or not it was possible to have a general census of the contingent.

THE POSITION OF THE NORTHWEST TERRITORIES

Address Will Be Presented to the Governor-General, Asking to Have Financial and Other Conditions Looked Into.

Winnipeg, May 3.—(Special.)—There are 26 cases of diphtheria at Letellier.

The Northwest Assembly passed the following resolution unanimously last night: That a humble address to His Excellency the Governor-General be adopted by this House, praying him that he will be pleased to cause the fullest inquiry to be made into the position of the Territories generally and otherwise, and to cause such action to be taken as will provide for their present and immediate welfare and good government, as well as due fulfillment of the duties and obligations of government and legislation assumed with respect to these Territories by the Parliament of Canada.

And it is further resolved, that whereas a meeting with North America Act, 1887, it was, amongst other things, provided that the Parliament of Canada may, from time to time, establish new provinces in any territories, forming for the time being part of the Dominion of Canada, and may, at any time, amend or alter the boundaries of any province, His Excellency be also pleased to order inquiries to be made into the position of the Territories, and to cause such action to be taken as will provide for their present and immediate welfare and good government, as well as due fulfillment of the duties and obligations of government and legislation assumed with respect to these Territories by the Parliament of Canada.

BRITISH HAVE ADVANTAGES BUT ONLY A FEW

Fifty Thousand Men Are Operating Along a Front of Fifty Miles North of Bloemfontein, Clear of the Railway.

Boers Are Contesting Every Step and Have Artillery Superior to That of the British—Kimberley News Shut Off—Gallant Charge of Gordon Highlanders—Latest News.

London, May 4.—(4.15 a.m.)—General Broadwood's cavalry brigade has reached Bloemfontein, 28 miles north of Thabanchu. Gen. Ian Hamilton is bivouacking at Jacobsburg, 15 miles north of Thabanchu. Gen. Tucker's division is moving eastward from Kamee Siding. The divisions of Generals French and Knicker are in and near Thabanchu. Thus Lord Roberts has 50,000 men operating clear of the railway along a front of fifty miles. He is advancing slowly with some success, but nothing decisive. Yet at one point of concentration, the Boers appear in force to contest the British to proceed with caution. Their wide front, in a rugged country, makes turning movements on-hand difficult.

Kimberley News Shut Off. The correspondents of the Kimberley have been forbidden to communicate for several days, the deduction being that a forward movement is under way there. The Boers in Natal are restless. Two hundred crossed Sunday's River Wednesday and tried to engage British outposts.

EVERY POINT IS CONTESTED. The British Are Making Slow Headway, But Apparently Are Getting On.

London, May 4.—The Bloemfontein correspondent of The Standard, telegraphing May 2, says: "I have just ridden thirty miles from Bloemfontein, along the line of our advance east of Bloemfontein. The distance is thirty miles, and yet almost every point of concentration is contested by the enemy.

Gen. Buller, with the eighth division, is posted on our right flank, with orders to guard against a sudden attack from the position in a country of decidedly rugged nature. There the Boers have posted a number of guns, and are making an attempt to range to our own. However, they show no disposition to do more than to keep in touch with us, and to harass our advance.

A Fighting Advance. "Further to the west Gen. Ian Hamilton, with his division of mounted infantry, is also spoken of in terms of praise.

THE ENEMY'S CASUALTIES. "The enemy army having 12 killed and 40 wounded, and the British 10 killed and 40 wounded, the former was Lieut. Gunther, a German officer, belonging to the 1st Battalion, Russian command, and the latter was Lieut. Richard, a member of the Foreign Legion. Twenty-one of the Boers were killed, and 100 were wounded among the members of that Legion. Two Frenchmen were among the killed.

Gen. Hamilton speaks in high terms of the good service performed by the 8th Hussars, under Col. Clowes, who were in the front of the line, and who, when they were ordered to advance, they did so with a gallantry and determination that was most commendable. The final stroke to the enemy's rout was given by the Gordons and two companies of the Buffs, who were ordered to advance and cheer loudly when they got within 200 yards of the position. Kitchener's Horse is also spoken of in terms of praise.

PROPOSED NURSES' TRUST. The machine was on top. Was Thrown Down by the Private Bills Committee of the Commons Yesterday.

MR. ROBERTSON SHOWED IT UP. In Such a Way That Dr. Roddick Withdrew the Bill—What the Outcome Is.

Ottawa, May 3.—(Special.)—A bill was introduced in the House some time ago on behalf of half a dozen private nurses, doing work in Montreal, who desired to be united in an effort to form a "Canadian Nurses' Association." Some of the clauses of the bill were discussed and passed by the Private Bills Committee, but before the bill passed the committee opposition developed.

No Particular Object. The bill did not seem to have any particular object in view, other than the collection of rents and revenues from sources not mentioned. It also provided for an advisory board of physicians, who were to be selected by the members of the association, with power to pass judgment on the eligibility of those who might desire to become members. This was one of the objections to the bill.

A Good Ground for Objection. The proposed trust for the purpose of this association was another objection. Those opposed to the bill thought that any such association should be strictly self-governing, and that the Government should not be in connection with the advisory board. The principal objection, however, was that the bill did not represent the trained nurses of the Dominion, or the training schools of the Dominion.

Mr. Robertson at Work. The lady superintendents of the hospitals of the leading cities of Canada and many trained nurses were consulted by Mr. John Ross Robertson, M.P., chairman of the committee for Sick Children, Toronto, who has taken an active interest for the past 20 years in the care of the sick in Canada and the United States.

Several of the delegates to the convention of the Dominion of Canada, held at Montreal, in the month of October, 1899, were sent out, and about 30 of the superintendents of the leading hospitals of the Dominion examined the bill and expressed freely in writing their opinion of it. These opinions, which were unanimously against the bill, were presented by Mr. Robertson to the House, who had the bill in charge, and he was so impressed with the objections that he withdrew the bill.

What the Result Is. The result of the withdrawal will be the formation of a trained nurses' association for the Dominion. The membership will include the lady superintendents of all the hospitals of Canada, and the alumnae of each training school. Dr. Roddick of Montreal, Dr. Cameron, the surgeon of Toronto, and the hospital authorities of Vancouver, Winnipeg, London, Hamilton, Toronto, Kingston, Montreal, Ottawa, St. John and Halifax will give support to the organization of such an association.

SENATE PASSES THE BILL. Whereby the Dominion Gives to the Fire Insurance Companies of Ottawa and Hull \$100,000.

Ottawa, May 3.—(Special.)—The Senate held a short session this afternoon, sitting for 30 minutes. The supplementary supply bill sent up by the Commons, providing for a relief grant of \$100,000, \$20,000 for Hull Postoffice and \$20,000 for bridges, passed all its stages.

The Nova Scotia Steel Company's bill was read a second time, and the Senate Divorce Committee set and approved of the notice in the Perthshire case, from Peltz and Tanguehne.

WINNIPEG SPEAKS OUT. Province Should Control the Railways as to Rates in the Light of Patten's Petition.

Ottawa, May 3.—(Special.)—Mr. Patten presented a petition from the City Council of Winnipeg to-day, asking that in future railway legislation affecting Manitoba passed by the Dominion Parliament provision be made to secure to the province control of the railways in respect of rates, the rights to acquire such lines and the right to own and operate.

Are the Other Candidates—Great Reception to Smith Curtis at Grand Forks.

Victoria, B.C., May 3.—(Special.)—Joseph Martin, Robert MacPherson, H. B. Gilmour and James MacQueen were chosen as the Liberal candidates for Vancouver in the coming elections. A huge crowd was present, and the choice was unanimous.

Mr. MacPherson is an ex-M.P. His course in the last session caused some curiosity as to how he stood towards Martin, but he cleared all away when he declared he would support the Premier to the utmost of his power, and would oppose Cotton all he knew how.

Labor Men Pleased. Labor men are highly delighted at the outcome of the Liberal meeting. The two parties are working together now in the interests of the Government, and there can be no doubt that the Conservatives have no chance in this city.

Meeting at Grand Forks. Martin and Curtis had a great reception at Grand Forks yesterday. They were cheered as they were driven through the town in a hack. At the big meeting in the evening, Curtis was warmly endorsed as the candidate. A resolution was adopted approving the Government's policy. At the banquet later, in the Hotel Yale, prominent Conservatives said they would not vote for Martin, as they could do but vote for Martin, as the other side showed nothing but chaos and disorder.

Westminster Columbian Sold. The new Westminster Columbian has been sold, and it is believed Conservatives have bought it to prevent it falling into the hands of the Liberal party. The consideration is not named, and the new owners are not yet announced.

SPION KOP DESPATCHES ISSUED TO PARLIAMENT.

Lord Lansdowne Wired Lord Roberts as to the advisability of Publishing the Messages of the Commander-in-Chief.

London, May 4.—The telegraphic correspondence relating to the Spion Kop despatches was issued to Parliament just before midnight Thursday. Lord Lansdowne, Secretary of State for War, wired March 28, asking the advice of Lord Roberts about publishing the despatches, saying: "We cannot publish all the documents enclosed with your despatch of Feb. 13, but we must publish certain despatches which in Lord Lansdowne's opinion, might be published. Lord Lansdowne added: "But I would not feel justified in thus editing the papers, unless you concur, and you may perhaps think it well to refer to Buller, I suggest, as an alternative, that we should treat your despatch of Feb. 13 and all its enclosures as confidential, and that Buller should send you a full narrative of the operations. This you could forward to me, with any other suggestions you desire to make."

Lord Roberts to Reply. Lord Roberts replied to Lord Lansdowne in a despatch dated Bloemfontein, March 31, that he had suggested to Sir Redvers Buller to prepare a full narrative, but that Sir Redvers had answered as follows: "I do not at all like the idea of re-writing a despatch for publication. I much prefer to leave it in the hands of the commander-in-chief. Let him select for publication whatever he thinks proper."

To Lord Roberts appended that he would not himself object to the publication of a paper edited as Lord Lansdowne had suggested, but that it might, perhaps, be better to override Gen. Buller's objection and to adopt the alternative course suggested by Lord Lansdowne. He asked Lord Lansdowne to wire a reply.

Abandoned the Proposal. This reply from Lord Lansdowne, dated April 2, said: "In view of Buller's objection, I abandoned the proposal that the despatch should be re-written and I propose to publish the selection described in my despatch of March 28."

Lord Roberts answered, under date of April 6: "I agree to my despatch of Feb. 13 being published."

Lansdowne to Buller. The correspondence also contains two despatches referred to in Lord Lansdowne's despatch of March 28. The first is from Lord Lansdowne to Gen. Buller, dated Jan. 5, representing the impossibility of publishing his despatches, which "contain views of the situation and forecasts of his intentions," and emphasizing the advisability of sending a despatch descriptive of the operations from time to time.

Regarding Maserfontein. The second is from Lord Lansdowne to Lord Roberts, dated Feb. 6, and saying: "You will, I feel sure, agree with me that the despatch regarding Maserfontein could not be published as sent. There are passages in it inappropriate to such documents, and it also gives information of importance to the enemy. If he likes I will revise the despatch, but I prefer not to undertake this responsibility. I suggest that you should ask him to cancel this despatch and to write another."

The correspondence does not indicate whether Lord Methuen re-wrote the despatch as suggested.

The Spion Kop despatches, as published, were exactly the despatches sent to Lord Lansdowne's despatch of March 28.

BRANDFORD CAPTURED BY BRITISH. London, May 4.—It is announced that the British have captured Brandfort.

TORONTO RAILWAY MEN WILL HOLD TWO MEETINGS TO-DAY

International President Mahon, of the Street Railway Employees, Will Be Present—What the Toronto Men Are After.

Nearly all the employees of the Toronto Street Railway received a hand bill yesterday, which reads as follows: "Two open meetings of the Toronto Railway employees will be held in Richmond Hall, on Friday, May 4, when Mr. W. D. Mahon, international president of the Amalgamated Association of Street Railway Employees of America, will be present. Every employee is respectfully requested to attend. First meeting will open at 2:30 sharp. The second meeting will open at 8 o'clock evening."

The object of having two meetings is to give the men who are working in the afternoon a chance to be present in the evening. The meeting will be held in Richmond Hall, on Friday, May 4, when Mr. W. D. Mahon, international president of the Amalgamated Association of Street Railway Employees of America, will be present. Every employee is respectfully requested to attend. First meeting will open at 2:30 sharp. The second meeting will open at 8 o'clock evening.

Wages Are Low Here. Some of the men who know how much the men stand last night, and they need no immediate fear of a strike because Mr. Mahon is here, and the men have been at London, Ont., during the recent trouble, and was invited to come on to Toronto.

There are about 1200 employees of the Toronto Railway, and only about 100 of them do not belong to the union. The employees in the shops and other departments are nearly all union men, and in the event of a strike they would doubtless go out in sympathy unless there was a speedy settlement.

Talks with Mr. Mahon. Mr. Mahon is a general man of man, and he knows a lot about the men who work on street railways. He comes from the amount originally made by the Toronto Street Railway, and he is satisfied that he will offer the nomination to Mahon. Forget v. Baxter. The Privy Council has allowed the appeal of Mr. W. D. Baxter, a general man of man, and he knows a lot about the men who work on street railways. Fighting Joe's Campaign. The Premier Has Been Nominated as One of the Liberal Candidates for Vancouver.

Put the Carriage Companies on the Carpet. The Canadian Pacific and the Grand Trunk Railways are going out of their way in siding with the carriage companies. The carriage companies are immensely prostrate, and they are not to be trifled with. The attention has been directed to their refusal to even arbitrate with the striking teamsters. Carriage rates in connection with railway freights are altogether too high, and the Minister of Railways, if he wishes to put a stop to the strike and the inconvenience now afflicting the business public, can easily do so by putting the owners of these carriage companies on the carpet and asking them to show their profit and loss account. Toronto business men are losing thousands of dollars a day because the carriage rates are above any kind of a reasonable rate. Their men, other than a surrender, Hon. Mr. Blair and Mr. Shaughnessy and Mr. Hays can stop the strike in five minutes. Will they do it?

Madame Greville declined the honor of nominating another lady, and indeed, they even elected one, who, to the minds of the other ladies, was one so insignificant, so obscure, so inoffensive, so unprogressive, that her name, which had to be a sympathizer no less a personage than Paul Bourget.

"Gyp," the famous "Gyp," "Gyp" he originally, the club, the naughty, was the next lady offered the honor, but "Gyp" was equal to the occasion. Jumping upon a chair, she protested: "My faith, no! I could not be bored like that!"

OF RAMBLER-CARIBOU ALIVE

Two Diverse Reports of Rathmullen Company Meeting—Subsidiary Company Projected.

A DIVIDEND ON NORTH STAR.

Fire at Hammond Reef Mine Destroys Part of the Plant—Mining Stocks.

It is reported that some big capitalists are negotiating to take over a controlling interest in the Rambler-Caribou, says The Kootenai. Within the last few weeks several mining engineers have been up to investigate the property, and as indicating that a deal is on, the men have stopped sorting ore and have stopped taking any ore save in the way of development.

The principal owners of the mine are Mr. Cooley and certain banking interest of Colfax, Wash. J. E. McArthur of Rossland and the MacLean brothers of P'ouise, Wash.

Hammond Reef Boilers Burned. Sawmill, April 20. Last night at 12 p.m. the noise of escaping steam awoke the lumbering people of Hammond Reef and district, when it was found that the engine room and boiler house containing two hotling engines and one boiler was on fire. The fire had gained such headway that it was impossible to extinguish it. It is supposed the cause was caused from a spark from the engine. Loss about \$200,000. A. H. Hagen, the general manager, is very busy having everything put straight and in preparation for the opening of the mill, which will occur as soon as possible.

North Star Dividend. The North Star Mining Company has declared a dividend of 3 per cent. This is the first dividend, but it is believed that it will be paid quarterly. The dividend is payable May 31, on record of May 20.

Rathmullen Report. The third annual meeting of the Rathmullen Consolidated Mining and Development Company has just been held in Rossland, B.C.

The report of receipts and expenditures for the past year is presented by the secretary-treasurer, showing that \$10,722.37 had been spent in development upon the Maple Leaf claim, six claims had been granted, and sufficient work done to crown grant the remainder of the property. The company has acquired a very complete mining plant, consisting of a hoisting engine, boiler, engine, compressor, and other machinery, and a complete system of shafting, hoisting, and pumping.

An equally largely attended meeting was held in the evening at the company's offices to discuss the formation of a subsidiary company to take over the Maple Leaf claim. After a lengthy discussion it was decided to employ the directors to sell the Maple Leaf claim, under certain conditions, to a subsidiary company, of which the Rathmullen receive 600,000 fully paid up shares, upon the issue of a prospectus from the Hon. George E. Foster, one of the directors of the company. The meeting adjourned, after a very harmonious session.

Another Version. Frank Walker, who was a leader among the critics of the management, was shown this statement and asked for his version of the proceedings. He replied: "Mr. Moffatt's report is only partially correct and gives a false impression of the condition of the property and of the report of Mr. Guernsey, which was read at the meeting. The development of the 200-foot level does not show any stopping ore and the development on the 400-foot level shows two feet of ore running in a vein which is being sunk in a drift and is now nine feet deep. Mr. Guernsey was asked if there was any shipping ore in the dump and answered that there was not and that no ore could be taken out of the mine at present, except what was taken out of the developing the vein. Mr. Moffatt was asked what the simple cartload of ore shipped to Trail ran and said he did not know.

A trial balance sheet was produced showing the company to be about \$16,000 in debt, against which there are assets of 300,000 shares in the company.

Subscribers to this stock to the extent of five shares are entitled to a rebate of 20% on all premiums of insurance on their property placed in this company.

The success of the two principal Canadian Companies, the "Western" and the "British America" of Toronto, is well known, and their record for regularly paying substantial dividends, while at the same time increasing their assets, has kept the market values of their stocks far above par.

The "Victoria-Montreal" will, so far as it is possible to do, abide by the rules and rates of the Canadian Fire Underwriters' Association, charging the same rates of premium as the companies belonging to the Board. But, as it wishes to have the remaining fifth of its capital held in the same way as the portion already subscribed for, not between a few capitalists, but among the solid property owners of the Dominion; and, as it desires to obtain as much as possible of the business of this class, which it has found to be of great value, it will give to each investor subscribing for five or more fully paid shares the same privilege that has been given to its present shareholders, by delivering to him an agreement to allow a rebate of 20% off the regular tariff rates, on all premiums of policies covering on his property to the extent of the full gross line, including reinsurance, which this Company can write thereon.

TERMS: 10% payable upon application; 15% upon allotment; 25% on July 1st; 25% on September 1st; and 25% on November 1st.

Subscription lists will be opened at 10 o'clock a.m., on Tuesday, May 8th, 1900, and will be closed at 3 o'clock a.m., on Friday, May 11th, 1900, or earlier, the right being reserved to reject any application.

THE GRIM CLUTCH OF DISEASE. How It Grasped at the Very Life of a Prominent Old Man of Pittsburgh. Hutch Cured Him and Permanently Destroyed the Greivous Menace of Disease.

For many years I was troubled with a complaint of the stomach which from the first caused me great discomfort. It seemed to me that the membranous lining of my stomach was inflamed. If I moved from side to side it produced excruciating pain, as though my entrails were tearing. I ate, and I had to content myself with a diet of arrowroot, milk and all such bland foods. I had a chance to see a doctor, and I remember his last visit particularly well. He said, "I'm going to cure you old fellow. Now, I want you to take these four ounce bottles filled with brown tablets, regularly, and I gave me four bottles. That treatment called Hutch, I saw later, and I was very sick at the time, so sick that I could hardly raise my head. I was weak and subject to bloody mucous evacuations, so that you can tell my condition. Well, I took Hutch and it did me a world of good, seemed to loosen the hold which disease had on me, and I improved right away. Kindly send me four bottles of your 50 cent size bottles. I have been supplying the neighbors in my vicinity for some time, and my Hutch is all run out. Enclosed please find express order.

PROSPECTUS.

The Canada Foundry Company has been formed for the purpose of meeting the increasing demand for all classes of Iron products called for by the rapid development of the general business of the country, and, as a basis, they have acquired the plant, goodwill, stock in trade and business of the St. Lawrence Foundry Company, which has been established for many years, and is well known as one of the oldest iron industries in Canada.

THE IRON TRADE.

While the Iron Trade in all commercial countries is recognized as the great staple, and while in Great Britain, Germany, and the United States, in particular, large profits have been derived from it, it must be admitted that in Canada this industry has not kept pace with the demand.

PLANT.

In acquiring the business of the St. Lawrence Foundry Company, the Canada Foundry Company have the nucleus of a plant which they propose to enlarge and equip so as to enable them to turn out all classes of iron work of superior workmanship, and at a very much lower cost than with the present inadequate facilities.

CANADIAN MARKET.

In the department of Architectural Iron, Waterworks Supplies, Railway Supplies, Ornamental Iron and general jobbing, the demand in Canada has, to a large extent, been supplied by importations, notwithstanding the high tariff and freight charges on this class of material. In this connection it may be said that contingent arrangements have already been made with Canadian consumers that will ensure contracts for a large output as soon as the existing facilities have been increased sufficiently to enable the Company to handle to advantage such additional contracts for castings and supplies.

RAILWAY SUPPLIES.

In the Department of Railway Supplies alone there is practically an unlimited market for Foundry products, and it is the intention of the Canada Foundry Company to develop this large and constantly increasing trade. The Company have already made considerable progress in this direction, having acquired rights for the manufacture of certain patented railway appliances, which its plant, when fully equipped, will afford all necessary facilities for manufacturing to advantage.

PROFITS.

Even with its imperfect equipment, the St. Lawrence Foundry in 1899 showed a net profit of \$39,000, being largely in excess of the amount required for the payment of the dividend on the entire issue of Preference Stock, etc., of the St. Lawrence Foundry Company, there will remain in the hands of the Company the machinery, plant, etc., of the St. Lawrence Foundry, which will be readily seen that the new business which the Company will be able to undertake must be such as to place the payment of dividends on the Preference Stock beyond any reasonable doubt.

DIVIDEND ON PREFERENCE STOCK.

The Preference Stock ranks for seven per cent. Cumulative dividend, before any dividend is paid on the Common.

STOCK SUBSCRIPTIONS.

MESSRS. OSLER & HAMMOND are authorized to receive subscriptions ON AND AFTER THIS DATE at their offices, No. 18 King St. West, Toronto, for the issue of the \$250,000 of 7 per cent. Cumulative Preference Stock of the above Company at PAR, the Directors reserving the right to allot only such subscriptions, and for such amounts as they may approve, and to close the subscription books at any time NOT LATER THAN 12th MAY, 1900.

A deposit of 10 per cent is payable on application, 20 per cent on allotment, and the balance in three instalments—20 per cent on 1st July, 25 per cent on 1st September, and 25 per cent on 1st November, 1900. Subscribers may make payments in advance of due dates and will be entitled to dividend from the date of such payments.

If no allotment is made deposit will be returned without deduction, and if a partial allotment is made the surplus deposit will be applied towards the amount payable on allotment.

Application will be made in due course to have the Preference Stock listed on the Toronto Stock Exchange.
