"BOBS" TELLS CANADIANS TO TRAIN FROM BOYHOOD FOR COUNTRY'S DEFENCE

Only Way to Ensure National Security—Dwells on Advantages of Good Rifle Shooting and Playing All Games on Square.

OTTAWA, Aug. 5.—(Special).—Lord Roberts received a large address and shook hands with one hundred South African veterans at Rideau Hall this afternoon.

Incidentally, he made the only speech delivered by him since his arrival in Canada, during the course of which he took occasion to thank the Canadian people for the kindly welcome he had extended to him.

His speech in part was as follows: "It is with deep regret and disappointment that I have given up my proposed visit to Toronto, that great centre of thinking and active interest in imperial affairs."

"I believe me, it is not unnecessary to say this. Nations have often forgotten this need in times of great material prosperity. If we look back on history, and history is our surest guide, we shall find that the downfall of all great nations, from Phoenicia to the Netherlands, has been about the same—falling in this essential duty. Flourishing and prosperous as these nations were, they fell an easy prey to those who coveted their riches, because they neglected to take ordinary precautions and refused to undergo personal sacrifices that were needed to ensure the security of their valuable possessions."

"The training should, I think, commence with boys and be systematically carried out between the ages of ten and eighteen. I am desirous to learn from Sir Frederick Borden, minister of militia, that a beginning of such a system has already been made in all other provinces, for I am convinced that the results of such training, habits of order, obedience and punctuality will be of great use to them in all occupations of civil life."

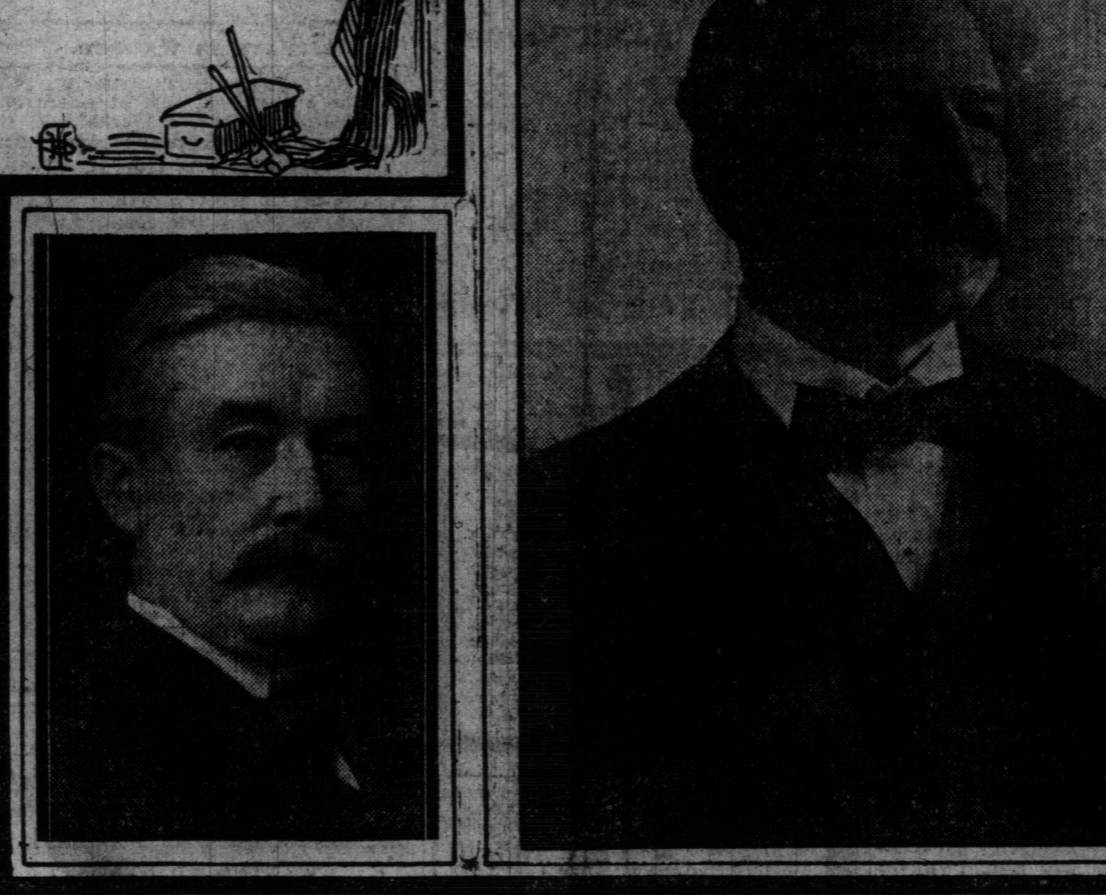

"I believe myself that the advantages of such a training would be so manifest that public opinion would soon reach the point where it would demand that all able-bodied men attaining the age of eighteen should complete their training and so fit themselves to take a part in the defence of their country should their services ever be needed."

"I am greatly pleased to learn that rifle shooting is making rapid strides here, and that large numbers of rifle clubs have been formed within last few years. They cannot be too strongly encouraged. It has been a great satisfaction to me to find that your rifle range here in Ottawa is second only in my judgment to that at Bisley."

"Canada, as I have said, has many special advantages. One of the greatest of these I think is the vigor of the stern winter that follows your warm summer and the beautiful autumn about which so much has been written. The very vigor of winter ensures that Canadians shall have the strength of a northern race and attracts to this country the hardest and the best of the world."

British empire."

TEN PAGES—THURSDAY MORNING AUGUST 6 1908—TEN PAGES

Three Canadians who will figure prominently in the great strike of Canadian Pacific machinists, inaugurated yesterday, are Sir Thomas Shaughnessy, president of the C.P.R. (in the center); J. W. Leonard, C.P.R. general manager, who is said to have "generated" the preparations for the clash, and Hon. Rodolphe Lemieux, minister of labor, whose conciliation act staved off the trouble for a time and who will likely endeavor to again bring the conflicting parties together without delay.

C. P. R. MECHANICS ON STRIKE EXPECT STRUGGLE TO BE BRIEF

But Railway Management Give No Indication of Yielding and Prospects for Handling the Crop Seem Seriously Imperiled.

ON STRIKE. Montreal 4000, West Toronto 1500, Toronto 450, Port Williams 200, Ottawa 40, St. John N.B. 200, New Brunswick 200, Moose Jaw 200, Chatham 100, Smith's Falls 100, Havelock 20, Other Places 500, Vancouver 400, Kootenay 375.

WINNIPEG, Aug. 5.—(Special).—Over fifteen hundred C.P.R. mechanics quit work at local shops this morning on the stroke of ten.

It was a determined crowd which left the gate. A few of the younger men tried to force an appearance of joviality, but the majority looked as if they fully realized the gravity of the step taken.

Neither did they talk for their courses had been decided upon and the talking stage has been passed. At noon, Mr. McVety, secretary-treasurer of the mechanics' union, gave a brief statement of the point of view of the men, but said that he did not know what course of action would be taken by the company.

While on her way to Toronto to see her father, Denis H. Lehane, 320 West Wellington, Irene Lehane was struck and fatally injured by a breaking fender of the Muskoka Navigation Co's steamer Kenoyah at the Muskoka Wharf at 7.40 last night.

Centrally-located manufacturing flat, 5100 square feet, free from passenger elevators, splendid light.

ZEPPELIN'S SHIP DESTROYED BY FIRE

Disaster Caps Wonderful Voyage of Great Balloon—Benzine Upset By Storm Ignited.

STUTTGART, Aug. 5.—During a storm to-day the Zeppelin airship broke away from its moorings, took fire and disappeared in the air.

The Zeppelin airship had just completed the most remarkable voyage in the history of aerial navigation. It was the first time that a dirigible had crossed the Atlantic Ocean.

OTTAWA, Aug. 5.—(Special).—The officials of the finance department, when asked if there was any truth in the report that the department has under consideration new designs for Canadian coins, declined to say anything on the subject.

It is evident from their reticence that the matter is under consideration, but that they do not consider the time has yet arrived to make any amendment.

MONTREAL, Aug. 5.—(Special).—The campaign started by The World in favor of clean currency and for the banishment of all soiled and torn notes is being followed with interest in banking circles in Montreal.

EXHIBITION DEFICIT MAY REACH \$18,000
Auditors Will Report Some Further Discrepancies, but Col. Leslie Says Mistakes Will Be Cleared Up.

Beyond the fact that a report was to be submitted, neither Mr. Barber nor Mr. Vigoron had anything to say, answering all queries with a reference to the mayor.

HOW BANKS GET RID OF THE DIRTY MONEY

World's Campaign for Decent Currency Endorsed by Financial Men

The World's campaign for a cleaner currency is heartily endorsed by bank managers and the general public...

Yesterday The World had a talk with Joseph Gurofsky, manager of the Crown Bank at Agnes and Elizabeth-streets...

According to Mr. Gurofsky, the teller's cage was frequently to be rummaged with Florida water after a busy day...

Practically all the dirty money taken from the wickets are ones, twos and fives... The wicket men are generally clean, as they are checked after they have been in circulation long enough to lose their crispness...

Mr. Gurofsky told The World that an average of 75 to 100 bills are discarded in this branch every day... On Tuesday 500 were sent to the fire...

The bankers generally have a kick on the \$4 Dominion bill... The \$4 bill, The World was informed, often goes thru the water...

Take it to the theatre. "One of the first places where a person with a mutilated coin seeks to pass it is in the theatre..."

DEFACED CURRENCY. Editor World: Your campaign in favor of clean and paper currency for the Dominion is being timely...

WORTHY OF ALL SUPPORT. The agitation for cleaner currency is worthy of all support. It is certain to succeed when everyone has so much that he can afford to be particular and exacting...

DESTRUCTIVE LANDSLIDES. Cloudburst Sweeps Mud and Rocks into Blaine's Main Streets.

BISRESE, Ariz., Aug. 5.—The post-office and all the business houses and offices on one side of Main-street for a distance of 200 yards were wrecked by the cloudburst which swept down from the mountains a mass of mud and rocks...

A City of Light. A feature of the exhibition this year is to be the illumination of the grounds. Extensive arrangements have been made so that several buildings will be illuminated from the outside with incandescent lights...

HAMILTON Happenings

MILITARIAN WANTED ON A BIGAMY CHARGE

During Wm. McCullough's Trip to Quebec Two Wives in Hamilton Came Together.

HAMILTON, Aug. 5.—(Special.)—William H. McCullough, a well-known member of the 51st Highlanders, is accused of having two wives and two homes, one at 63 Chatham-street in the west end of the city and another on Sherman-avenue, at the extreme east end of the city...

Practically all the dirty money taken from the wickets are ones, twos and fives... The wicket men are generally clean, as they are checked after they have been in circulation long enough to lose their crispness...

Dr. A. E. Malloch has forwarded a cheque for \$20 to Mayor Stewart to assist the victims of the British Columbia fire... The cheques of the city have telegraphed \$1000.

Constable Robert Duncan, one of the night officers, is in hot water... He is charged with the arrest of a man who had been charged with the arrest of a man who had been charged with the arrest of a man...

Speaking this morning of The World's campaign against filthy bills in the defaced currency, City Treasurer Leckie remarked that the defacement was timely... He said a great many bills too filthy to be handled were this way into the treasurer's box during a season...

John Anderson, 468 York-street, was locked up, charged with assaulting Constable Emmerson, who says that when he was making the arrest of Anderson he seized the calf of his leg with his teeth and hanging on with bull dog grip until the officer choked him into unconsciousness...

John D. Nelson, father of John W. Nelson, who is a defunct dealer, died tonight at the family residence, 375 Mary-street. He was 76 years of age...

Hit a Policeman. John Anderson, 468 York-street, was locked up, charged with assaulting Constable Emmerson, who says that when he was making the arrest of Anderson he seized the calf of his leg with his teeth and hanging on with bull dog grip until the officer choked him into unconsciousness...

DESTRUCTIVE LANDSLIDES. Cloudburst Sweeps Mud and Rocks into Blaine's Main Streets.

BISRESE, Ariz., Aug. 5.—The post-office and all the business houses and offices on one side of Main-street for a distance of 200 yards were wrecked by the cloudburst which swept down from the mountains a mass of mud and rocks...

A City of Light. A feature of the exhibition this year is to be the illumination of the grounds. Extensive arrangements have been made so that several buildings will be illuminated from the outside with incandescent lights...

SOME TALES OF HORROR FROM FIRE AT FERNIE

Family Who Sought Refuge in Well Perished—Woman Left to Burn.

FERNIE, B.C., Aug. 5.—One of the most tragic fatalities of the fire, and one which shows the extremes to which people were driven to escape the heat, was the finding of the bodies of a family of four in a well, a miner, his wife and children...

The head of the man, whose name was William Ford, was badly burned, while his wife and children, a boy of 2 years and a girl of 3 years, all died of suffocation. There was little water in the well, which was curbed with wood, and after climbing into it he and his family were evidently unable to get out...

The work of reconstruction is already being planned, and it is believed that the fire in the Waldorf Hotel in the old town... The last persons to leave the hotel after it was in flames say that there were four drunken men who were left there.

Beginning to Rebuild. The work of reconstruction is already being planned, and it is believed that the fire in the Waldorf Hotel in the old town... The last persons to leave the hotel after it was in flames say that there were four drunken men who were left there.

President J. J. Hill of the Great Northern Railway wires to the directors authorizing the committee to draw on him for five thousand dollars for the relief fund... Different hospital boards and fraternal societies offer the services of doctors, nurses, hospital supplies in as great quantities as desired.

Masses Sent Home. HAMILTON, Aug. 5.—It is understood the Masonic fraternity has sent a cheque for \$1000 to Mayor Stewart for the relief of the victims of the fire...

John Kay of the Royal and Mr. Laidlaw of the Norwich Union Company, will carry five, representing their companies. Following is the list of names so far received, of which it is expected that not more than 5 per cent will be salvaged...

Heavy Losses. The total individual losses are as follows: C.P.R. and Great Northern, \$500,000; Elk River Lumber Company, \$185,000; N. Trading Company, \$100,000; Port Steele Brewing Company, \$75,000; Fernie Lumber Company, \$50,000; McDougall Lumber Company, \$50,000...

Travelers' Losses in Fire. CALGARY, Alta., Aug. 5.—Charles McKay of Montreal and W. Arthur Crane of Toronto, commercial travelers, who were endeavoring to save their valuable samples, but without success...

UNION LABEL NOT A TRADE MARK. (Canadian Associated Press Cable.) LONDON, Aug. 5.—The federal high court of New South Wales has declared that the registration of the trade union label as a trade mark is unconstitutional.

Melchior's Generous Offer. MONTREAL, Aug. 5.—Robert Melchior, president of the Lake of the Woods Milling Company, has opened the local fund for the British Columbia fire sufferers with an offer of 400 bags of flour for \$1000 in cash, which ever is most needed.

"The Factory Behind the Store."

THE CANADIAN PACIFIC STRIKE

The issue between the great Canadian Pacific Railway and the men in its service is a vital one: one that cannot well be arbitrated on the plan of give and take. The men have gone out because of something which they say the company has done with a view to weakening, if not destroying, their unions; and they say further that what is now designed to weaken the unions in the shops of the company will later on—if successful in their case—be extended to the unions or brotherhoods that operate the line. In other words, that the company is directly or indirectly trying to introduce the open shop.

Public opinion will be with the men very largely on this issue, first because they think that unionism has come to stay, and second because public prejudice is somewhat against corporations on account of their own combinations and treatment of the public.

As for the Canadian Pacific, it can be said that up to date no company has been more liberal to its employees than it has, or has been fairer to the public.

The Canadian Pacific may be able to show, we believe it can show, that it pays more than other roads pay for similar labor, and that this is due to the fact that it has been an out-and-out union road. But perhaps the answer to this is that the public have paid more to the Canadian Pacific, or, put it another way, that the Canadian Pacific earned more for its shareholders because it had such a fine lot of men in its service, and that it got these with the recognition of full unionism.

The Canadian Pacific is a good road; it has the finest body of men working for it that we know of; why destroy what seems to be a perfect balance by changing what has succeeded all round?

Sir Thomas Shaughnessy, if he looks at it in that light, and he is as big as the road is, will find a way to keep his men, to hold their loyalty, and to maintain the tradition of the service.

RESTITUTION AND RESIGNATIONS.

It seems these days that when anybody who is in charge of public funds is found to have misused them, or to have juggled with them, the only necessary thing to do is to put the money back, or to secure the deficit by bond or otherwise. In a recent case in Toronto, however, a restitution immediately followed on resignation.

The revelations made in New Brunswick in regard to provincial funders of a kind that also call for resignation, as well as the partial restitution made. The loosest kind of juggling with the provincial funds characterized the late administration and the administrations that preceded it, and ministers and others, in the most easy going manner, appear to have used the public funds for their own convenience. When they were turned out of office and their opponents came in and found out the defects—but not till then—several of them made restitution. Even the occupant of the highest office in the province has had to repay, and the story is current that the new government will sue for still further restitution in his case.

Inasmuch as the ministers were put out by the people and have made restitution, it equally follows that any other in office, no matter how high, should be asked to step down and out. Mere restitution does not make things clean. Surely the time has come in this country, even in the case of a New Brunswick statesman, that when a public servant or minister confesses by an act of restitution to grave misconduct in regard to public funds, his resignation is also in order, and it is not forthcoming, then those higher up must make dismissal. And this is equally good in the case of a governor, a minister, or an ordinary public servant holding an office of trust of any kind.

There are some old-fashioned people who would even go further and call in the police.

TO THE MAYOR AND CITY ENGINEER.

Some weeks ago The World described the wretched condition of the pavement on Queen-street between River-street and the Don bridge, where King and Queen-streets converge; where there are three railroad crossings and a great congestion of wagon, foot and train traffic. Fortunately the city authorities took the matter up and they are now improving the situation by putting down a brick pavement. It may be ready before the fall.

We now wish to direct the attention of the mayor and engineer to an equally bad spot in the west end, namely, at the point where King and Queen-streets converge at Sunnyside. The worst piece of pavement and jumble of high tracks existing in the city, as far as we know, is at this point. It is as dangerous to the public on foot as to those in vehicles and street cars. Some kind of a high-class pavement

ought to be put down here, that is easily repaired, and probably an asphalt or wooden block would be the best to this end. But certainly it is a public scandal that these two pieces of streets should have been allowed to continue in this condition so long. The improvements now under way at the Don should be made immediately at the street car terminal of King and Queen-streets in the west end.

Some day soon, too, the Don bridge will have to be lifted over the three railway tracks; and where King and Queen-streets converge in the west end and cross the Grand Trunk this will also have to be done.

FOREST FIRES.

If it be the case, as is reported, that the forest fire which has devastated the Fernie district of British Columbia originated in a camp fire lit among the debris of lumbering operations, it brings into particular prominence the necessity for properly regulating the cutting of the timber. This matter has been repeatedly brought under the notice of the Dominion and provincial departments charged with the care of the forests, but as yet the matter does not appear to have received the attention which it deserves. Nor does it seem to be any general agreement regarding the best method of disposing of the "slashings." It is said by some authorities that to compel lumbermen to dispose of them by burning would be to require performance of a very dangerous operation, with a strong chance of starting more fires and destroying more timber than they would otherwise have done. Instead of burning it has been urged that the limbs and branches should be cut off and laid flat, when they would soon rot.

Another alternative suggested is that the work of burning the debris should be done by government officials, whose duty it would be to see that the destruction was done without danger to the forests.

Fires are admittedly the worst of all forest menaces and the most difficult to provide against. They occur from causes both preventable and unpreventable, as lightning, sparks from railway engines and the carelessness of travelers, especially those ignorant or forgetful of the terrible results of inattention and neglect. Even with ordinary care a camp fire may start a conflagration, as was shown by the curious incident told by a fire ranger. While on his beat he observed smoke rising and on digging down found it came from the charred end of a log. Tracing the log back thirty or forty feet he came to the remains of a camp fire left by a surveying party, who had evidently carefully extinguished it before leaving. But the fire had reached the buried log and eaten its way along before again coming to the surface. Incidents of this kind and the general frequency of forest fires show the absolute necessity of conscientious patrolling and unceasing vigilance by men thoroughly trained and reliable.

The lesson of the Fernie catastrophe will not be lost if it results in the whole province of fire protection being taken up vigorously by the Dominion and provincial governments and that "not as an isolated question, but as part of a proper and thorough policy." Money so expended in removing all preventable causes of fire, in reducing the risk of extension to a minimum and in providing the means for their early extinction is well spent. Few people who have not looked into the subject realize the frequency of forest fires on the vast extent of the areas that have been burned over. In a speech made by Dr. Robert Bell at the annual meeting of the Canadian Forestry Association he referred to the striking fact that some trees, particularly the jack pine, show that they have acquired certain habits during their long history from encountering perpetual fires. "We know," he said, "for example, that the cones of the jack pine remain closed so long as the tree is alive and do not seem to be capable of scattering like the seeds of coniferous trees. But the moment the cones are scorched by fire, they open and the seeds are blown in every direction by the wind." This is a significant and interesting result of the effort after survival, even against the most destructive of possible enemies. But the causes of fire, if they cannot be absolutely prevented, can certainly be restricted to those beyond human control, and their ravages can be limited by removing the waste and debris, which enables them to spread with such alarming rapidity. Better protection against fire should be provided by the authorities charged with the care of our forests and the melancholy loss of life and property in British Columbia ought to stimulate renewed and full consideration of the problem and effective the promulgation of really effective regulations.

UP GOES THE PRICE OF HOGS.

Editor World: His old friends down here in Ontario County are glad to learn that John S. Willison has gone up into the millionaire class and has bought out Millionaire Flavelle's paper without any assistance from Cochrane or lumbermen, or Kemp or Oaler, or Gooderham. It was predicted of John even when he played in the local band down here that he would be a rich man some day. A man was over here from Lindsay way on Sunday, who told us that it cost Mr. Flavelle over \$600,000 to make his apart in journalism. But we are glad to hear that John Willison can keep and feed the elephant just as long as the great pork pecker. Most of all do we rejoice down here because there is a chance now for a rise in the price of hogs. Mike Greenwood, Aug. 5.

AIR TORPEDOES NEXT.

ESSSEN, Aug. 5.—Notwithstanding frequent denials the Krupp Works have apparently acquired a great quantity of air torpedoes invented by Col. Ungs of the Swedish Army, under conditions that the Krupp day a man has been giving the Swedish government use of the device.

Atlantic Coast Excursions.

Return tickets from Toronto to all seaside resorts on the lower St. Lawrence, Newfoundland, P.E.I., Nova Scotia and in Maine are now on sale at special reduced rates, a little over single fare, at Canadian Pacific ticket offices. Tickets are good going August 10, 11, 12 and 13 only, return limit Aug. 31. Canadian Pacific gives splendid service to the Atlantic.

A collar built for coolness

The Argo was designed to give the greatest comfort on the hottest day. See the spacing of each of the shapes that bears the brand of perfection.

Civic Improvement

A WASTE OF MONEY.

Editor World: It seems the board of control have decided to pay for Tussock moth cocoons delivered at various places in the city. As well might they throw the money into the Don. A large number of cocoons are now feeding thousands of parasites of the larvae of which feed on the Tussock moth and which in a year or two will entirely destroy the pest. By the most casual examination at least four different kinds of parasites may be observed. Now by destroying the cocoons indiscriminately we are destroying our friends—the parasites of the Tussock moth. They should be let severely alone. Three-fourths of the moths are already destroyed by the parasites. Spraying this time of year is of no use whatsoever. The only time spraying does any good is early in the season, when the first leaves have attained their full size. These unsightly bands of fly-paper and cotton batting are also useless. Now, can anything be done to abate the plague? Certainly, and that is to get rid of the cause of the trouble and do it now. The female moths which are wingless are now depositing their eggs in white clusters of an elliptical shape about the size of a finger nail, and attached to a cocoon. Each cluster contains from 200 to 350 eggs, which remain on the trees till next year, when they hatch into caterpillars come forth to feed on the young leaves. Now destroy the eggs as soon as good will be done. It would be a good idea to know the names of the fly-paper and cotton batting are also useless. Now, can anything be done to abate the plague? Certainly, and that is to get rid of the cause of the trouble and do it now. The female moths which are wingless are now depositing their eggs in white clusters of an elliptical shape about the size of a finger nail, and attached to a cocoon. Each cluster contains from 200 to 350 eggs, which remain on the trees till next year, when they hatch into caterpillars come forth to feed on the young leaves. Now destroy the eggs as soon as good will be done. It would be a good idea to know the names of the fly-paper and cotton batting are also useless. Now, can anything be done to abate the plague? Certainly, and that is to get rid of the cause of the trouble and do it now. TRUST FUND INVESTMENTS The prompt payment beyond question of interest and principal at maturity must be the paramount consideration when investing Trust Funds.

NEW YORK SECURITIES ARE BECOMING ERATIC Wild Cats Advance While Standards Are Weak—Locals Weak Under Realizing.

World Office, Wednesday Evening, Aug. 5. To-day's market at the Toronto exchange would indicate that outside holders of the various speculative stocks had come to the conclusion that quotations were high enough to realize upon.

Lake of Woods, Stock. The movement towards higher prices for Canadian securities has drawn attention to Lake of the Woods common stock, which sold yesterday at 89.

On Wall Street. Charles Head & Co. to R. R. Bongard. The stock market opened firm under influence of London quotations and the market was reactionary, with a much bigger desire for outside buyers than sellers.

Wall Street Potlatch. Conference of George Gould with his railroad allies revived the story that President Delano of the Wabash is soon to resign.

Underwriting group in London Lloyds said to have losses of \$2,000,000, with securities of only \$400,000. Lackawanna's trouble with switchmen is to be settled.

Decrease in the commerce of the port of New York continues. Committee formed by merchants to seek remedy. Great Western reorganization plan being pushed.

Imports at New York for the month of July over \$85,000,000, a decrease of \$2,000,000 from previous month. At the Metal Exchange to-day all grades of copper were advanced 1-32 in the bid and asking figures.

In banking circles in Wall-street it is reported that Morgan & Co. had practically completed the formation of a syndicate for the underwriting of \$17,000,000 of four per cent. Atchison bonds, and that the bonds would be offered for public subscription at 104-1/2.

NEW YORK, Aug. 5.—Atchison acted better this morning than it has for some time past, but there is a big margin of advance still in the stock, and we rather look for it to go up before it has much of a reaction.

POOLS STRUGGLE TO MAINTAIN PRICES. World Office, Wednesday Evening, Aug. 5. Pretty well expanded, the local financiers endeavored to contract their operations to-day, but unfortunately for themselves they were helped in the operation by a few ordinary holders of securities who thought it was not a bad time to take profits.

HERBERT H. BALL. last loan 1/4 per cent. Call money at Toronto, 5 to 7 per cent. Toronto Stocks, Aug. 5.

# New Panama Shipment

Something under thirty-six dozen of superb Panama Hats arrive to-day. Will be on sale at half-past eight this morning.

They constitute the balance of our order placed some months ago in South America. Our purchasing agent there has cabled that the supply is now completely exhausted.

It is a positive fact that you will not be able to duplicate these hats at any price from \$12 to \$20. One will wear for years, is always stylish.

One price for hats worth anywhere from \$12 to \$20.

**\$5.00**

All sizes. Best texture. Several shapes.

## The W. & D. Dineen Co., Limited

Corner Yonge and Temperance Streets, Toronto.

### REAR ADMIRAL KINGSMILL GIVEN FREEDOM OF CITY

Guelph Honors Distinguished Son as Feature of the Old Home Celebration.

GUELPH, Aug. 5.—(Special).—To-day was military day of the Guelph old home week, and from the point of attendance and the number of attractions it was the biggest of the week.

The day started with a grand civic reception to Rear Admiral Kingsmill, one of the old Guelph boys of whom the Royal City is justly proud. The reception was attended by a large and fashionable gathering. As the admiral alighted from the carriage three bands struck up "Rule Britannia." He was escorted by a guard composed of officers of the local corps. The great crowd of people received him with loud and prolonged cheers.

His Worship Mayor Newsstead, when the council chamber had been reached, presented the rear admiral with the freedom of the city, while the chief-marshal of the reception committee, Ald. Kennedy, presented him with an illuminated address.

The reply of the admiral was short but to the point. He said the profession of his choice was not one that bred orators, but expressed very well his heartfelt thanks for the cordial reception.

He had only done, in serving the empire as a naval officer, what any son of the Royal City would do. He had gone wherever he was sent.

A big luncheon at the Victoria Bowling Club's beautiful green was tendered the admiral, at which many of the most prominent citizens were present.

In the afternoon he enjoyed seeing the races at Exhibition Park with a party of old friends and to-night he witnessed the military tattoo.

There was an exceptionally fine matinee provided for the old home week to-day by the Guelph Riding and Driving Association.

To-morrow is the last day of the old home week festivities and another big crowd is expected to wind up a celebration which has surpassed all expectations.

### SHOCK MAY KILL WIFE.

See Husband Fatally Injured and is Now Critically Ill. KINGSTON, Aug. 5.—(Special).—While gathering eggs in the barn Charles Darling, aged 64, in a fit of anger, struck his wife with a pitchfork. His wife, who was gathering eggs, saw him fall. As a result of fright she is in very dangerous condition and may not recover.

Mrs. Alexander McDonald, Mountain Grove, sent her daughter to gather eggs and when the girl returned she found her mother dead.

David Abernethy, aged 72, of Sunbury, died suddenly from heart-failure.

### EXHIBITION ENTRIES EXTENDED.

Yesterday was the biggest day ever known at the exhibition offices for the reception. However, as a number of exhibitors had written in complaining that the date is usually early for the closing of the list, it has been decided to accept entries until Wednesday, the 12th inst. Every mail brought in from twenty to thirty registered letters. One was from Geo. Drummond, Humber West Farm, Essex, Que., making a large entry of some royally bred cattle, some from the majesty's farm at Sandringham, and a large number of Cotswold and Shropshire sheep.

All Principal Tourist Resorts including Muskoka, Lake of Bays, Temagami, Georgian Bay, Magnetawan River, Kawartha Lakes, etc., are reached by the Grand Trunk Railway System. Tourist tickets now on sale at very low rates. Good all season. Full information from any agent of the Grand Trunk.

### York County and Suburbs

World subscribers in the City of West Toronto are requested to register complaints of carelessness or late delivery at West Toronto Office, 22 Dundas-street East, West Toronto, Ont. The World Office, 28 Yonge-street, Toronto. Advertising advertisements may also transit business at the West Toronto Office.

### C.P.R. STRIKE DECLARED 450 OUT IN W. TORONTO

Causes Considerable Excitement in the Town—Dr. Hackett Being Asked to Run for Mayor.

WEST TORONTO, Aug. 5.—Promptly at 10 o'clock to-day upwards of 450 men in the local C. P. R. shops went on strike in sympathy with the strikers in other Canadian cities. Many men who went to work this morning for the first time quit the shops at their fellow-employees. There was no hurry or excitement of any kind. The men just put on their coats and left the shops, without a word. The foremen could only stand and look on, and say nothing. George Garrett of Clinton-street, Toronto, was the only man who remained in the paint shop after 10 o'clock to-day.

Samuel Maguire, varnish boss, did not quit work either, but he found himself working alone. Out of the 400 men employed in the yards, only four remained at work after the strike was called.

A crowded mass meeting was held this afternoon in St. James Hall. Nothing of the proceedings went through. It was disclosed, but it was learned that the men are determined to stand together with their comrades all over Canada. "I imagine the whole trouble will be over in a day or so," said the carpenter to-night, "but of course it all depends on the attitude taken by the company. If they are determined to beat us, we will also be determined to fight them to a finish. Much dissatisfaction is being expressed by the strikers on account of the boiler-makers remaining at work. They were just as enthusiastic at the meeting as any of us," said a young car-builder, "but we never thought of going on strike except in sympathy with the western employees," said one of the union men to-night. "If the company have to come to terms with the company if we only had our own troubles to attend to, we never thought of going on strike except in sympathy with the western employees," said one of the union men to-night.

The annual encampment, drill and review of the Old Guard will be held at Niagara-on-the-Lake Aug. 15-17. The following notice of the annual encampment of the Old Guard of Americans has been issued by Grand Commander Fred P. Fox of Cleveland:

"The annual encampment, drill and review of the Old Guard will be held at Niagara-on-the-Lake Aug. 15, 16 and 17. Please give due and ample notice to all true and faithful members of the order wherever dispersed throughout the early and early a special dispensation and decoration will be given all those present on this occasion in commemoration of the birthday of the great commander.

"We mourn the death of our lieutenant-grand commander, Harry Ardagh Collins of Toronto, a Christian gentleman of knightly fealty, whose like we shall not see again until we meet in that supreme encampment above."

The Toronto brethren are arranging a very attractive program for the occasion of this reunion, and members are asked to please advise John A. Cowan, custom house Toronto, if they will attend, in order that he may be able to make ample arrangements for their entertainment.

The Old Guard of America is an international organization with membership confined to men who are identified with Masonry. The Old Guard was first organized as a social feature of Transportation Lodge of Buffalo, but has since grown to such proportions that it now has members in nearly every state in the union as well as a large membership in Canada.

The following are the officers for 1908: Grand commander, Fred P. Fox; deputy commanders for New York, George G. Street, Buffalo; for Canada, John A. Cowan, Toronto; Indiana, A. Robbins, Indianapolis; Michigan, Dr. William L. Bailey, Detroit; Ohio, Charles L. Gibson, Cleveland; New Jersey, B. E. Chapin, Newark; Pennsylvania, Charles E. Beck, Philadelphia; Massachusetts, A. O. Holmstrom, Boston; Illinois, Reg. Hamilton, Chicago; Minnesota, S. S. Kingston, St. Paul; Montana, E. J. Fox, Deer Lodge; Washington, H. L. Kempen, Spokane; Mexico, Rufe P. Marsh, Guadalajara; grand adj.-gen., W. S. Nevine, Buffalo; grand paymaster, general, William Brown, Pittsburgh; grand prior, George A. Preston, Buffalo; grand commissary general, Henry Beene, Buffalo; grand orator, Alex. Anderson, Toronto; grand marshal, William Price, Buffalo; grand sword bearer, Harry W. Clegg, Cleveland; grand standard bearer, John Hamilton, Buffalo; grand trustees, Arthur Pierson, Gus P. Sharkey, Toronto.

### 19 JEWEL VANGUARD RAILROAD WATCHES \$25 COMPLETE

Wanless & Co. Established 1840 168 YONGE STREET TORONTO

Damage by Storm. An electrical and wind storm on Tuesday afternoon and evening was especially severe around Elora, where the oat crop was literally threshed out; at Onemee, where Owen Johnston, wife and children had to run from their home, which was struck by lightning and burned; at Reaboro, where Silas Calvert's barn was burned; at Belleville, where Mrs. Sayles and George Vosborough were stunned by lightning; in East Garafraxa, where David Hunter's barn was ruined, and at Orangeville, where the cement company's shed roof was blown off.

Graft Charges at the Falls. NIAGARA FALLS, Ont., Aug. 5.—The city council will investigate charges of "graft" made by letter by J. J. DeLoe. He claims that "one of the aldermen has and is receiving graft from sidewalk, sewers and all contracts," and has also demanded heavy graft from manufacturers wishing to locate in the city, and that he has driven said manufacturers away."

Penalty of Speed. John R. Forrester was arraigned in police court yesterday afternoon in charge of driving his auto at an immoderate rate of speed on King-street, and was fined \$10 without costs.

In Cleveland. KINGSTON, Aug. 5.—(Special).—Rev. Mr. Nimble, Anglican clergyman, who eloped with a fair parishioner a few days ago, is reported to be in Cleveland with bride.

among his colleagues, in municipal affairs, but very anxious to enter the contest for the mayoralty, as he prefers to evade all glamour of office beyond the City of Toronto, is the representative in ward one. Ald. Whetter was returned to council last year with the largest number of any of his brethren in office. He also is being urged to try for the chief magistracy. Ex-Councillor Sam Ryding is planning too, and may be a candidate for municipal honors.

The work of excavating for the basement of the new school at the corner of Louisa and Elizabeth-streets, is now in progress. The council's opposition to the chosen site has decreased considerably, since it has been ascertained that sewer connections could not be obtained further south on Elizabeth-street.

The Interurban Electric Company is the proposed new name for the reorganized Ontario and Western Electric. The ladies of St. Mark's church are holding a garden party on Saturday with the assistance of Thomas Forster, St. Clair-avenue, near the Northern railway.

### NORTH TORONTO. Magistrate Imposes a Fine on Local Man.

NORTH TORONTO, Aug. 5.—Magistrate Ellis to-day fined Charles Strader of the Davisville Hotel, \$25 and costs for keeping liquor for sale. Strader pleaded guilty. The men found on the premises also were fined before the magistrate, but the case was adjourned a week.

George Alwood was fined \$1 without costs for allowing his horse to stray.

The dam at the pumping station is about finished. Commissioner Walmsley has the filling-in bank and construct another round well in front of the pumping station.

Miss Mrs. Hilda, the ten-year-old daughter of Mr. and Mrs. John Mull of Yonge-street, was playing with her dolls, and slipped and fell, breaking her right arm between the wrist and elbow. Dr. Bond reduced the fracture.

### ELLESMERE. Afternoon there will be a barn raising on the premises of the Rev. P. C. McFarlane, 1 lot 23, Scarborough Township.

MAPLE. Bright Little Village Makes Sixteen-cent Advance. MAPLE, Aug. 5.—Great credit is due our school teacher, J. G. McDermid, for the results of the late exams, four having passed the entrance and five into the second form high school, two into the third form high school.

Miss Nora McMahon of Richmond Hill spent last week-end with her father, Mr. S. J. McMahon, at his home on July 28, to Dr. and Mrs. Logan, a daughter.

Services were held in the Methodist Church on Sunday, Aug. 2. J. T. Pollock has filled a long-felt want in building a grain elevator, capacity 20,000 bushels. This is the best-built elevator in this district.

Samuel Maguire, our up-to-date treasurer, has purchased a self-binding machine. On Sunday, Aug. 2, the Rev. P. C. McFarlane of Toronto preached the anniversary services in the Presbyterian Church, Maple, to a large congregation.

### YORK TOWNSHIP COUNCIL. Much of Yesterday's Expenditure Was Along School Lines.

COUNCIL CHAMBER, Aug. 5.—Requests for grants until the debentures are issued for school building purposes were one of the features at today's township council meeting.

The trustees of S.S. No. 28, Mount Dennis, asked for \$2000, and Trustee Bayless went home with the cheque. It is a school in the township which has made such headway in building at Mount Dennis. After the school was built, the township was to be taken down, and a new structure of six acres and will be ready when the holidays are over.

The plan of subdivision of part of the accrued interest of school fund principal and dividend as follows: S. No. 28, \$1000; S. No. 29, \$1000; S. No. 30, \$1000; S. No. 31, \$1000; S. No. 32, \$1000; S. No. 33, \$1000; S. No. 34, \$1000; S. No. 35, \$1000; S. No. 36, \$1000; S. No. 37, \$1000; S. No. 38, \$1000; S. No. 39, \$1000; S. No. 40, \$1000; S. No. 41, \$1000; S. No. 42, \$1000; S. No. 43, \$1000; S. No. 44, \$1000; S. No. 45, \$1000; S. No. 46, \$1000; S. No. 47, \$1000; S. No. 48, \$1000; S. No. 49, \$1000; S. No. 50, \$1000; S. No. 51, \$1000; S. No. 52, \$1000; S. No. 53, \$1000; S. No. 54, \$1000; S. No. 55, \$1000; S. No. 56, \$1000; S. No. 57, \$1000; S. No. 58, \$1000; S. No. 59, \$1000; S. No. 60, \$1000; S. No. 61, \$1000; S. No. 62, \$1000; S. No. 63, \$1000; S. No. 64, \$1000; S. No. 65, \$1000; S. No. 66, \$1000; S. No. 67, \$1000; S. No. 68, \$1000; S. No. 69, \$1000; S. No. 70, \$1000; S. No. 71, \$1000; S. No. 72, \$1000; S. No. 73, \$1000; S. No. 74, \$1000; S. No. 75, \$1000; S. No. 76, \$1000; S. No. 77, \$1000; S. No. 78, \$1000; S. No. 79, \$1000; S. No. 80, \$1000; S. No. 81, \$1000; S. No. 82, \$1000; S. No. 83, \$1000; S. No. 84, \$1000; S. No. 85, \$1000; S. No. 86, \$1000; S. No. 87, \$1000; S. No. 88, \$1000; S. No. 89, \$1000; S. No. 90, \$1000; S. No. 91, \$1000; S.
