Privy Council Judgment Validates Mixed Marriages in Canada

CABINET CHANGES ARE IN PROSPECT DESPITE DENIALS

Five or Six By-Elections on One Day to Test Public Sentiment.

MACKENZIE KING'S FIX

Ottawa, Feb. 11.—(Special).—An official denial has been given of reports of cabinet reorganization. Such denials from time immemorial have been considered essential during mighty changes in affairs of state. Prominent citizens have been in consultation with the government this week on re-organization and names of qualified and available men for cabinet rank have been submitted. Members of parliament from three provinces are here awaiting the call to the order block, sworn in as his majesty's privy councillors. In fact, the intention was and is to test public sentiment by four or five by-elections of cabinet ministers in different provinces.

HEALTHY SIGNS

There may be some delay in creating vacancies. There always is. It speaks well for the government that there are more anxious to enter it than there are to leave it. Politicians are not in the habit of resigning. Some years ago many new members were alarmed at the possibility of the resignation of a prominent leader and expressed their fears to a veteran parliamentarian. "He likes the position, he likes the honor, and he likes the salary. He won't resign and don't you forget it," was the opinion of the old minister. The same might be said of some in the present cabinet, but all signs point to their retirement with or without their ministerial offices. Under consideration there are some surprises, and if adopted, it may indicate surprising changes in political sentiment. It is all a question of resigning vacancies. The new ministers selected are awaiting portfolios.

HEALTHY SIGNS

Hon. W. L. Mackenzie King cannot escape moving a want of confidence amendment to the reply to the address. He has for an hour been discussing it. He fails to implement his threats, then his attack on the government has been a sham. He has been discussing an amendment western agrarian members will be placed in a difficult position. The election this year would mean depriving the four western provinces of twenty members in the next parliament. The westerners are not likely to vote against an election before a re-distribution. Hon. Mr. King must move such a resolution, and Hon. Mr. Cramer and his western supporters must oppose it or prove recalcitrant to their western supporters.

LIBERALS AND FARMERS

It will be embarrassing both for the Liberals and Farmers. Such a resolution would furnish an even greater embarrassment for the government than the one which is now being discussed. Under the new rules of the house of commons, unless a member is in attendance for at least forty days, he cannot draw his seasonal indemnity, but only pay for his absence for eight weeks, and a member in attendance for each day of absence for the remainder of the year would be the case. Disruption before the middle of April would see the members in receipt of little more than actual expenses. Western members will hesitate to support a resolution for an immediate election, and members from all parts of the Dominion will not be circumspect in increasing their salaries, even if the federal treasury benefits therefrom.

NOTED SINN FEINER NOW IN THE TOILS

Desmond Fitzgerald, "Minister of Propaganda," Has Been Arrested.

Dublin, Feb. 11.—Desmond Fitzgerald, Sinn Fein "minister of propaganda," was arrested here tonight. His arrest is considered by the police as the most important since Arthur Griffith, founder of the Sinn Fein, was taken into custody.

Fitzgerald was mainly responsible for the Irish Bulletin, which made statements almost daily of the Sinn Fein case against the government and was widely circulated among the newspaper men. The Bulletin constantly has been obliged to change offices in consequence of military raids, but continued to be secretly produced.

Fitzgerald, who has been main point of contact between the newspapers and republican chiefs, is declared to have been on the run for weeks. He is under thirty and married and well known as a writer.

It was officially reported today that an airplane which was forced to land in Kilmac, Co. Wick, on Thursday last night, was destroyed by armed civilians.

PRIVY COUNCIL RULING DETERMINES VALIDITY OF "MIXED MARRIAGES"

British Roads Claims Against Government

Judgment Pronounces That Protestant Minister Can Legally Solemnize Marriage Between Protestant and a Catholic—Despatie-Tremblay Case Will Prove a Precedent—Religion Does Not Count in Civil Status of the Principals.

London, Feb. 11.—The British government may have to pay £150,000,000 in claims as a result of its control of the railroads during the war, according to estimates submitted today by a government committee which investigated the situation. The claims are divided as follows: £90,000,000 for arrears, in maintenance, £40,000,000 for abnormal wear and tear, and £20,000,000 for the replacement of stores.

EXCESS PROFITS TAX DETERRENT TO TRADE

P. C. Larkin Points Out Difference Between British and Canadian Governing of These Taxes—Three-Year Period Has Many Advantages.

Toronto business men seem generally to favor the repeal of the Dominion government's tax on excess profits. Many of them are, of course, personally interested in having the tax removed, but others who have no such interest are equally outspoken. P. C. Larkin discussed the question freely when asked for his opinion by a World reporter at the Salada Tea Company's office on West King street yesterday afternoon.

SNOW AIDS STRIKE TO TIE UP TRAFFIC

Albany, N.Y., Feb. 11.—Strike-breakers made futile efforts today to pilot street cars along tracks buried beneath the heaviest snow of the year in both Albany and Troy. Tonight, with the snowstorm increasing as it approached twenty-four hours of incessant falling, both cities feared an entire absence of any kind of transportation tomorrow. Jitney buses in large numbers were abandoning the streets where they have flourished since 1,200 employees of the United Traction Co. went on strike two weeks ago.

Desmond Fitzgerald, "Minister of Propaganda," Has Been Arrested.

Dublin, Feb. 11.—Desmond Fitzgerald, Sinn Fein "minister of propaganda," was arrested here tonight. His arrest is considered by the police as the most important since Arthur Griffith, founder of the Sinn Fein, was taken into custody.

BRITISH RAILWAY MEN TO BRING SHOOTING UP IN PARLIAMENT

National Secretary Instructed to Demand Government Enquiry into Mallow Tragedy—Military Enquiry Returns Murder Verdict.

London, Feb. 11.—At a largely attended meeting today of the executive of the National Union of Railwaymen it was decided to instruct J. P. Thomas, the national secretary, who is a member of the house of commons, to raise the issue in parliament of the shooting of railwaymen in Ireland. The case in point is the affair at Mallow, last month, where several railway employees were shot, one fatally, the incident leading to action by the Locomotive Engineers and Firemen's Union in demanding a government inquiry, with the implied threat of a general strike if the government failed to act.

O.T.A. AGAIN SCORED AS TOO COERCIVE; CHANGE DENIED

Hon. Dr. Ross Thinks Sale of Beer Should Be Considered

PRAISE FOR MR. RANEY

The debate on the address in reply to the speech from the throne was continued in the legislature yesterday and was again featured by vigorous attacks on the O.T.A. Hon. Dr. Ross, Toronto, were the only two participants. The former described Ontario liquor legislation as decidedly not satisfactory, while Mr. Raney, after making complimentary references to the work of Attorney-General Raney, defended the present methods of securing convictions against bootleggers.

ALLEGES BRITAIN WORKING TO DETER U.S. NAVAL PROGRAM

Senator Borah Declares She Is Circulating Propaganda in United States. SAYS THERE IS PROOF

Washington, Feb. 11.—The statement that he had received suggestions that Great Britain was "circulating propaganda" in the United States to deter naval building was made in the senate today by Senator Borah, Republican, Idaho, during a general debate on disarmament. He understood, he said, that the facts were in possession of the navy department.

TRADE IN CANADA GROWING BETTER

Toronto and Ontario Reports Show Iron, Leather and Clothing Recoveries.

Montreal, Feb. 11.—(By Canadian Press).—The gradual improvement in business, noticed at the commencement of this month, is being maintained, states the weekly trade report of the Canadian Credit Men's Trust Association.

INTENTION TO BUILD UP GERMAN MERCHANT MARINE

Copenhagen, Feb. 11.—The Berlin-Stockholm "Tidnings" asserts that the bulk of the capital shares of the 12,000-ton ironer shipbuilding yards at Landskrona, on the sound, are held by a few Danish firms. In spite of the fact that Hugo Stinnes, the German financier, recently has made purchases of these shares, the chief Danish shipping exporters that the chief Danish shipping holders have purchased on behalf of Herr Stinnes, who thus will have full control of the shipyards. It is expected that Stinnes intends to use the yards solely for the building of a German merchant marine.

CAMPAIN AGAINST CROWN FORCES IS CONTINUED WITH INTENSITY

Thirty-five Casualties in Ireland in One Week—Eleven Policemen Killed in One Ambush—Frequency of Bomb Attacks.

Dublin, Feb. 11.—The official survey of conditions in Ireland during the week ending February 5, issued today, states that the campaign of outrage against the crown forces was continued with intensity, entailing 35 casualties among the civilians during the week, twenty-one cases involving mortal injury. The most extensive operation, it is recounted, was the big ambush at Branslee, County Limerick, when 11 of the police were killed. The survey says the appearance of some of the bodies of the victims of the ambush suggested the men were killed in cold blood after having been reduced to helplessness by wounds.

Planes Carried Goods Worth Million Pounds

Public Accounts Tabled Show Expenditures Have Exceeded Receipts—Assets of the Province Reach Staggering Figure, Indicating Wonderful Resources.

Ontario's public accounts for the fiscal year ending October 31 last were tabled in the legislature yesterday and would seem to show that the province has been spending with a rather lavish hand during the past year, with the result that ordinary receipts have been exceeded by the expenditures. This is also true in the case of capital receipts and expenditures. In other words, Ontario has a deficit this year of some two million dollars.

OTTAWA DRAWS UP RULES TO GOVERN WESTERN OIL AREA

On Discovery, Three-Fourths of Tract Goes to Crown—Use Mounted Police.

APPOINT A SECRETARY

Ottawa, Feb. 11.—(By Canadian Press).—The department of the interior made public today the regulations governing the disposal of land and natural gas in the Northwest Territories. These supersede all previous regulations, and are retroactive in effect. The regulations provide that an applicant may be granted a prospecting permit for four square miles instead of three square miles as formerly. The prospecting permit will be allowed to take out a 21-year lease for an area of one square mile, or an area not greater than one-quarter of the prospecting permit. The remaining three-quarters will remain government reservation. A prospecting permit cannot take out more than five acres of the area of the area not exceeding 2,560 acres.

HELD ON CHARGE LAID BY MAN SINCE SLAIN

Last night Edward Davis, a Pullman car porter residing at 112 McCaul street, was arrested by Acting Detective Sullivan on a charge of fraud preferred against him by Joseph Chatelet, on January 5. Chatelet alleged that Davis had defrauded him of \$250.

MEN'S HAT BARGAINS.

Stock-taking at Joseph Chatelet's, Dineen's, and we find ourselves overstocked in some of the best and most popular styles in men's hats. We're going to clear out these lines today at prices so reasonable that no man who appreciates values can pass over. For example: Soft and stiff hats, in white popping colors, that sold for \$7 and \$8, reduced for today at \$4.95. Another line of the famous John B. Stetson hats, popular shapes and colors, that sell at \$18.50, reduced to \$11.50. Famous Borsalino hats from best makers, are colors that sell regular at \$12, today at \$7. Christy & Co. London hats, solid regular at \$11 and \$13, in soft and stiff materials, selling today at \$7. Another line of English hats that sell at \$9, going today at \$5.95. Still another line that sell regularly at \$7 will go today at \$4.95. These are wonderful bargains. Many of these hats can be worn well into the summer months. Dineen's, 140 Yonge St. See display "ad." on another page for big bargains in overcoats.

LARGE SUM DUE ON TWO VESSELS

Dominion Shipbuilding Co. Presents Claim Against Insolvent Firm.

New York, Feb. 11.—An involuntary petition in bankruptcy was filed in the federal court today by creditors of Christopher Hannevig individually and as president of the Hannevig and Co., a banking firm which also dealt in foreign exchange and shipbuilding.

The petition stated that the liabilities of Mr. Hannevig and his company were more than \$8,000,000, with "free" assets of \$500,000.

RED HEADQUARTERS IN BREMEN SUBURB

Personnel of Secret Propaganda Committee Not Identified.

Paris, Feb. 11.—The United States state department, according to The Petit Parisien today, is believed to have obtained a stenographic copy of the proceedings of the international Bolshevik propaganda committee, which met secretly in the suburbs of Bremen at the end of December.

This committee is said to maintain headquarters near Bremen, from which efforts to foster uprisings in all countries have been directed and information centralized for directing a secret committee known as the "Reds" in charge of the work in each country.

The Bremen headquarters, and not Moscow, is said to handle all foreign propaganda, and to be in contact with the Moscow organization and distributing funds. It is reported there are six hundred agents listed.

Several documents are understood to be in the hands of various governments besides the United States state department's complete report, but no action has been taken thus far because of delay in identifying the personnel, who are listed under aliases.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

MURDER OF MRS. COONEY, HARD STRUGGLE

Toronto Woman Says Life Seems Altogether Different Since Taking Tanlac, for She's Well and Happy Now.

"Life just seems altogether different since I've taken Tanlac, for I'm well and happy once more," said Mrs. Mary A. Cooney, of 1115 College street, Toronto, Ont. Mrs. Cooney is the mother of fourteen children. She had six sons in the late war, four of them were actively engaged on the battlefields in France nearly four years.

PRIVY COUNCIL ON MARRIAGE CASE

(Continued From Page 1).

Had the priest refused to officiate, he would have required the parties to have obtained a dispensation, seeing that at least one of the Catholic Church considered an extremely distant relationship a sufficient reason to make a dispensation necessary, although their lordships understand that such is no longer the case.

The marriage without such dispensation he would have been void in his rights and the law would have supported him in his refusal, but nothing of the sort took place and the marriage was performed with all legal formalities. It did not come within any provisions of the code which deal with questions of nullity.

The relationship of the parties was not within the provisions of the articles in respect of which actions contesting marriages on the ground of relationship can alone be brought. The marriage, therefore, falls under the absolute rule laid down in article 185 that "marriage can only be dissolved by the natural death of one of the contracting parties and while both are alive, it is indissoluble."

The foregoing is the final conclusion of the judgment by the privy council in the famous Despatie-Tremblay Quebec marriage appeal, delivered today by Lord Moulton. Judgment is one of the longest delivered in recent years, taking exactly one hour in delivery. No order was made by the council in regard to the case.

LEFT LAW UNTOUCHED

After detailing the history of the case, the judgment declares that article 127 of the code simply expressed the intention to effect no change in the law then existing. The reason for this was not difficult to ascertain. It would have been a thorny subject to deal with the tenets of the numerous religious communities of every variety in the province of Quebec, and the only safe way was to leave the law as it stood, quite untouched. The immediate result is to remove the dominant question in the case from the domain of speculation to the domain of positive law.

WHO WILL PAY BILL FOR MASSEY HALL?

City Auditor May Object to Accounts Until Legality Cleared Up.

"Who is going to pay the expenses of the meeting held in Massey Hall on Thursday night?" That is the question raised at the city hall yesterday. The meeting was called by the board of control, acting on a petition from 39 citizens, and some of the bills have already been sent to the city for payment.

The total expense is placed at \$375, made up as follows: \$125 for hall, \$200 for advertising and \$50 for decorations and ushers.

The city solicitor advised the board of control before the meeting was called that there was no law compelling them to call the meeting. The solicitor added that in his opinion it would be an illegal use of public money for the city to bear the expense.

GORGEOUS SCENE STAGED IN INDIA

Hundred Ruling Princes Present at Audience in Delhi by Connaught.

Delhi, India, Feb. 11.—One of the largest audiences ever gathered in the India crowded the famous Mogul Hall in Delhi early in the week for the inaugural ceremonies of the chamber of princes. The huge hall was magnificently decorated by nearly one hundred ruling princes in their gorgeous robes and jewels, and military officials in full state dress.

Baron Chelmsford, the viceroy, and Lady Chelmsford and the Duke of Connaught drove to the hall in full state, and upon their arrival, the viceroy and the duke, accompanied by a large number of officials, including the reading of the emperor's message and a special message from the emperor.

SPOILING LANDSCAPE

Suggest That Botanical Gar-

That the government be asked to
introduce legislation protecting pur-
chasers of trees, shrubs, plants, etc.,
against deception and misrepresenta-
tion, and also eliminating billboards
on public highways, which are re-
garded as defacements to the land-
scape, were two of the resolutions
passed at yesterday's session of the
Ontario Horticultural Society, in
convention at Hart House.

The convention approved of the
botanical garden being situated in
or near Toronto, which would be of
advantage to the university, and re-
commended that an annual memorial
service in honor of fallen soldiers be
held by each society on the last
Sunday in June or the Sunday im-
mediately preceding the national
holiday. It further recommended the
appointment of a C.N.E. committee
of three and that future conventions
be held in the last week of October
or in the first week of September.

Successful Efforts.
The success in getting council to
look after the small parks in Toronto
and the appointment of a park super-
intendent was pointed out, and the
fact that The Canadian Horticultur-
ist had degenerated into a mere
scrap of paper, instead of an educa-
tional journal, was deplored.

In his paper on "Our Cause in
Town and Country," J. P. Jaffray,
Galt, touched upon the importance of
co-operation between town and coun-

of an intensive educational cam-

A GOOD DIGESTION
A GREAT BLESSING

A Sufferer Tells How New
Health Was Found.

Very few people appreciate what
good digestion means until they lose
it. To be able to eat your food
and to properly digest it is a bless-
ing. But if your digestion is impair-
ed you cannot afford to risk experi-
ments by trying uncertain remedies.
Strong medicines are hard on the
stomach; pre-digested foods only ag-
gravate the trouble. What is need-
ed is a tonic that will so strengthen
the stomach as to enable it to do its
own work. There is no tonic for the
stomach that is not at the same time
a tonic for every other part of the
body. As the blood circulates thru
all the body an improvement in its
condition quickly results in strength-
ening any weak organ. Rich, red
blood is absolutely necessary to good
digestion. If your stomach is weak,
if you are troubled with sour risings
in your throat, feelings of nausea
after eating, pains or fluttering about
the heart, try the tonic treatment of
Dr. Williams' Pink Pills. So many
people have been helped by this
treatment that every sufferer from
indigestion should promptly try Dr.
Williams' Pink Pills. Among the many
who rejoice in a better digestion thru
the use of this medicine is Mr. D.
Gouthro, Balls Creek, N. S., who
says: "For nearly four years I was
an almost constant sufferer from in-
digestion. Any food I took disagreed
with me, and I always felt drowsy
and uncomfortable after eating. I
had frequent headaches, and the
trouble made me nervous, and I slept
poorly at night. I was constantly
doctoring, but did not find much
benefit until I began using Dr. Wil-
liams' Pink Pills. By the time I had
taken six boxes of these I could eat
anything with relish and felt better
than I had done for years. For this
reason I highly recommend these
pills."

You can get Dr. Williams' Pink
Pills thru any dealer in medicine, or
by mail at 50 cents a box, or six
boxes for \$2.50 from The Dr. Wil-
liams' Pink Pills Co., Brockville, Ont.

SHOWS PURITY OF
WATER IN TORONTO

Highly Favored Conditions,
Says Commissioner Harris
at Rotary Club.

Toronto occupies a very favored
position with regard to the cost, dis-
tribution and quality of its water,
according to E. C. Harris, civic
works commissioner, who addressed
the Rotary Club yesterday. The
waterworks, said he, represented an
investment of \$16,000,000, and, be-
sides being self-sustaining, furnished
cheaper water of better quality than
any other similar works on the con-
tinent.

In 1920, said Mr. Harris, the aver-
age daily pumpage had been 85,987
gallons, 35 per cent. of which had
been pumped to that section north
of Carlton street. Altho hardly cred-
ible, 125 gallons per capita had been
the daily consumption, which was to
a large extent waste. One man had
found that, by allowing the taps to
run while he was shaving, he had
used some thirty gallons.
Mr. Harris outlined the operation of
the filter plants and spoke of the
daily testing of the water for the
public against disease. The chlorine
used represented the very low per-
centage of 2 parts per million parts
of water.

He spoke in glowing terms of the
hardship endured by the men who
worked in the sewers, sometimes
under the most trying conditions,
and he paid a high tribute to Mar-
gerison, the diver, who made inspec-
tions of the intake, etc., even in
winter, when the hazards that always
attended this work were doubled on
account of the ice cakes.
"A large portion of our employees,"
said Mr. Harris, "are always on the
rugged edge of danger, while giving
their best in the interests of the pub-
lic, and as far as their dismissal or
engagement is concerned, it is en-
tirely free from aldermanic control."

Toronto had last year, he said, an
assessment of \$703,351,000, the budget
was \$29,850,000, and the tax rate 30.5
mills, 1.07 per cent. of the assessed
value. The city service was having
a marked influence on the public and
the city conscience was more alive
than any other. The board of control
and council aimed to secure the in-
terest of the public in the work that
was being carried on, he continued,
because complaints were welcomed.
Toronto contained an area of forty
square miles, 22 1-2 of which was
land. There were 1707 streets, re-
presenting 130 miles, 140 miles of
lanes and 407 miles of pavements,
representing \$14,500,000.

Regarding asphalt, Mr. Harris said
that the chemists and engineers
dealt with a big problem in securing
such a variation of temperature as
that of the city. There were also
669 miles of sewers, in the construc-
tion of which, the workmen often
took their lives in their hands.
Ernest R. Ball, composer, playing
at Shea's this week, was a guest of
the club, and was heartily applauded
after two selections. Under Dr.
Fricker, the Glee Club gave an ex-
cellent rendition of an Irish melody,
"My Love is Like an Arbutus," with
Ernie Colville as soloist.

BRAINS ON THE FARM MAY
YET REPLACE BRAWN

Speaking on the benefits to be
derived from co-operation to the
farmers attending the short winter
course at the university yesterday,
Prof. W. T. Jackman said the farm-
ers should become so organized that
they would be able to control the
system so that they could hold their
products in times of flush markets
till they become scarce.
"Any member," he added, "of a
co-operative society was a traitor if
he bought for his temporary ad-
vantage from private sources and
fell back on the association when it
offered a cheaper price. You don't
want to have a friend of that kind
in any human relation."
"Farming," the professor em-
phatically, "is going to be more and
more a business and not a means
of individual subsistence. In other
words, brains on the farm is going to
be more important than brawn."

Sleeping sickness is given as the
cause of the death of Mrs. Marnia
Tobin, aged 31 years, of 68 Edward
street. This is the third fatal case
of this disease registered at the med-
ical health department this year.
Two fatal cases of "flu" were regis-
tered yesterday, the victims being
Mrs. Rebecca Johnson, 74 years of
age, 117 Emerson avenue, and Rose
Mary Verey, four years 11 months, of
561 Markham street.

REQUEST MONEY FOR
OBSERVATION HOME

Controller Hiltz was appointed
chairman of the juvenile court com-
mittee at the first meeting of the 1924
committee yesterday.
It was decided to ask the board of
control to place in the estimates this
year the money required for the con-
struction of an observation home and
court.

STORMY WEATHER
HARD ON BABY

The stormy, blustery weather
which we have during February and
March is extremely hard on children.
Conditions make it necessary for the
mother to keep them in the house.
They are often confined to overheat-
ed, badly ventilated rooms and catch
colds which rack their whole system.
To guard against this a box of Baby's
Own Tablets should be kept in the
house and an occasional dose given
the baby to keep his stomach and
bowels working regularly. This will
not fail to break up colds and keep
the health of the baby in good con-
dition till the brighter days come
along. The Tablets are sold by
medicine dealers or by mail at 25
cents a box from The Dr. Williams
Medicine Co., Brockville, Ont.

Personal Banking Service

Every business is fraught with problems peculiar to itself. Problems which are materially simplified by an intimate knowledge of the basic principles of finance. Personal Banking Service places such a fund of knowledge at the disposal of every Sterling Bank client. Our executives are ready to discuss financial matters with any client—in his own office if necessary; to offer him friendly counsel and sound, constructive advice, based on years of close co-operation with many varied industries. This is one of the practical sides of our "Personal Banking Service" policy. Others less visible, but none the less tangible in the results they produce—are a faster and better Collection Service, and a general speeding up of every Banking activity. If there are some particularly "knotty" problems troubling you at the present time, we'll be glad of the opportunity of discussing them—in your office or ours.

TWENTY THOUSAND GET CITY RELIEF

Employers Preparing for Re-umption of Business Inspires Hopefulness.

A silver lining is now beginning to glimmer among the dark clouds of the unemployment problem. The temporarily lost word "work" is said to be due once more to appear in our language of the near future. It is said that a number of factory proprietors have been putting their heads together to devise a means of once more being able to start the wheels humming at a profit and at the same time not reduce the weekly stipend of their old hands when they re-engage them. The proposition is to have the men work nine hours per day instead of seven, and return to work at the old rate of pay. Whether organized labor will take kindly to this suggestion is, of course, another matter.

Mr. Miller let it be inferred that some of the big Toronto machine shops were making preparations for a resumption of operations. The names he would not divulge. Married civilians outnumbered to the employment bureau yesterday and took more than a score of "hired men" away with them to Ontario farms.

Figures show that it is the married men of Toronto who are being hardest hit by the present wave of unemployment. Married civilians outnumber three to one the single civilians, and more than double the number of married soldiers are applying for work compared with single soldiers. One reason assigned for this is that a single man can much more easily take a job out of town than a married man who has his wife and children here to look after.

The present situation as regards work in the city still remains serious with no work offering. More than a thousand men have applied for work at the employment bureau every day this month, and the registration figures are mounting by leaps and bounds.

It is reported that the city is now providing relief for upwards of 20,000 persons at a daily cost of \$10,000, with the problem getting worse instead of improving.

The employment bureau moves its men's department from 45 West King street to the former branch postoffice building at the corner of Front and Bay streets, where it will be open for business on Monday morning. The new address will be 45 West Front street, the same number as on King street, and the new telephone will be Adelaide 4044.

There were 11 rejection cases yesterday, mostly men from outside points who had come in to live at the city's expense. Among them were some Russians and Austrians who had drifted into the city and who were quickly

QUALITY OF SOUL AWAKE IN INDIA

Dr. Hardiker Says the World Could Afford to Follow India's New Creed.

"It was Lord Hardinge who estimated that a hundred and fifty millions of the 150,000,000 men, women and children comprising the population of India passed from day to day and from year to year without a square meal a day. This is one-half of the people of that country which gave a million men and easily a hundred million pounds sterling to the cause of the war for democracy. This is the country of whose population 93 per cent. can neither read nor write their own nor the English language, but practically all of whom have acquired a new sense of political value which indicates that illiterate who they may be, the villagers and industrialists of India are neither asleep nor ignorant of the great awakening which is stirring hundreds of millions throughout the world from a materialistic life of plenty and indifference to a new quality of soul and democratic ideal."

In these words Dr. N. S. Hardiker, a notable native of Bombay, and disciple of Gandhi, the apostle of passive resistance on behalf of industrial emancipation, touched upon the needs of conditions of India at a largely-attended meeting of the Political Equality League, Foresters' Hall. In the course of his address the speaker quoted figures showing that since the outbreak of the plague in India in 1918 that country had lost ten million people from this one plague alone. The death rate in India, he said, averaged 32 in every thousand, as against an average in both America and Great Britain of 14 in every thousand.

The Spanish influenza in three months in 1918 had taken a toll of more than 6,000,000, and famines were chronic. There was a reason for this, said the speaker, and the reason was to be found in the vicious economic circle which had bound all countries, but which had touched India more than any other country. The average yearly income of a farm laborer in the Bombay presidency was \$9.00. Out of this income each ryot was forced to pay a tax of \$1.60, leaving him an income total of \$7.40.

"The new creed in India is one which all the world could well afford to follow," said Dr. Hardiker. "It is the creed of soul as against material values, of soul as against brute force, of passive yet wonderfully potent protest against all manners of injustice."

(Continued From Page 1). done in this connection, but much also remained to be done. The granting of water power privileges was opposed by Dr. Ross and the party to which he belonged, he said, also held this view. As for the O.T.A. it was not a common-sense law and therefore it could never have the respect of the public and never be properly enforced. Personally he did not use either beer, wine or spirits, but there were people who had always been used to a glass of beer, and they should not be deprived of it. The government might be well advised to consider this question. People should not be coerced. It was a bad thing for the country. The high cost of living was dealt with by Dr. Ross, who said the government had been remiss in not combating high prices. For instance, it had allowed all the sugar to be exported from the province, with the result that the people were compelled to pay exorbitant prices.

WIN GOLD MEDALS FOR BONNE ENTENTE ESSAYS

For the best essay on the "Bonne Entente" between the provinces, prizes for which were offered by the Archdiocesan Holy Name Society, Earl Champagne of St. Joseph's School received first honors, being awarded a gold medal, which was presented at the school by W. J. Baker, vice-president of the Holy Name organization. Brother Rogation, local inspector, was also present when the winner was complimented on his success and given his reward, in return for which he made a neat little speech of appreciation. A short program and the singing of the National Anthem followed.

DRURY IS HONORED

Dr. Ross was pleased at the premier's headlining out policy. He hoped the education department would derive some advantage from such a forward step. He hoped the party would be a real party in the broad sense, but he said the premier would be very much hampered in his efforts. J. Ware Curry (Liberal-Independent, S.-E. Toronto), paid his respects to the Dominion and provincial authorities. As things now stood, young men convicted of their first offence were sent to prisons and became the consorts of older, hardened criminals. Declaring he had always stood strongly for Hydro development, Mr. Curry said the project at Chippewa and Hydro railroads had been the result of the government's attitude in appointing a commission of inquiry, which was perfectly sound and was proved to be correct to await its report, before expressing any further opinion, other than that the "best" thing of Toronto was strong for Hydro radiators.

Author of Report

The O.T.A. received a great deal of consideration from Mr. Curry. He was the author of the report presented to the house a few days ago by the O.T.A. legislative committee, he said, and which recommended among other things, the right of a dependent to appeal to the county judge. Next followed a little lecture on the evils of strong drink. Some of his friends, he regretted to say, broke the O. T. A. times without number and there were no prosecutions. This tended to bring the act into disrepute. As things now stood it was a matter of common knowledge that government inspectors had been in the employ of the bootleggers. Mr. Curry defended the idea that it was necessary to enforce the O.T.A. by adopting any substitute to secure convictions against bootleggers. If he were crown attorney today he would adopt this method of combating the liquor traffic.

What Ontario Needed Today

What Ontario needed today was an officer of the crown of outstanding ability, who would be absolutely in charge of the criminal justice system of the province and with the right to engage and dismiss. Major Tomlin was told by Mr. Curry that the employment of men of the Hallam type in enforcing the act was approved by him, and he had found out that they had had records. If he had his way he would spend every dollar the province had to stop the evils of the liquor traffic and he would see that it would stop once and for all.

Attorney-General Raney

Attorney-General Raney was warmly complimented for the effort he was putting forth to enforce the O.T.A. Mr. Curry declaring the province was fortunate in having such an officer in charge. The address of the lieutenant-governor was then passed. Representing the live stock interests of eastern Canada, a denunciation, headed by W. P. Nickle, K.C., Kingston, waited upon the Drury cabinet yesterday to draw the attention of the government to the high freight rates, which, in view of falling prices and increasing costs, are seriously handicapping the live stock business. The prime minister gave the deputations a sympathetic hearing, and the cabinet will likely give support if the live stock men make an application for a reduction of freight rates as applied to live stock.

Manufacturers See Rollo

To consider the general labor situation, a deputation from the Canadian Manufacturers' Association interviewed Hon. Mr. Rollo, minister of labor. Mr. Rollo told them that no drastic amendments to present laws are contemplated. They again appealed to be relieved from responsibility in cases where a large staff of clerks are employed at a distance from a plant, but received no encouragement. They referred to the 10,000 increase in the number of accidents last year under the workmen's compensation act. Mr. Rollo thought the increased number of industrial concerns was reasonable. The deputation consisted of J. T. Walsh, S. F. McKinnon, R. H. Parsons, H. McDougall and Mr. Carley. H. H. Dewart has given notice of the following inquiry: Was any special representative sent by the premier to Ontario to Winnipeg to report on the recent provincial election there? If so, who was so appointed and what was his address and previous occupation? What sum was paid or charged for any such report and for expenses? Is the report to be printed for the information of the house?

WIN GOLD MEDALS FOR BONNE ENTENTE ESSAYS

For the best essay on the "Bonne Entente" between the provinces, prizes for which were offered by the Archdiocesan Holy Name Society, Earl Champagne of St. Joseph's School received first honors, being awarded a gold medal, which was presented at the school by W. J. Baker, vice-president of the Holy Name organization. Brother Rogation, local inspector, was also present when the winner was complimented on his success and given his reward, in return for which he made a neat little speech of appreciation. A short program and the singing of the National Anthem followed.

Three Hundred Memberships For Downtown Association

A total of 303 memberships for the three days of the intensive drive for members in the Downtown Association was reported at yesterday afternoon's luncheon of workers. Although the formal part of the drive came to an end with yesterday's meeting, it was the unanimous opinion that, as individuals, the members of the teams would continue their efforts to get new members as they find time to volunteer their services during the next few weeks. The response of citizens throughout the downtown district to this movement makes sure the perfecting of an organization in the very near future that will be able to work out the solution of the big problems that beset this section of the city.

The Toronto World

FOUNDED 1890. A morning newspaper published every day in the year by The World Newspaper Company, of Toronto, Limited.

Avoid the Appearance of Evil.

Alderman Singer and Alderman Phinmore may have gotten in wrong as members of the city council. Even Alderman Phinmore cannot plead ignorance of the law, but there is no excuse for Alderman Singer, who is supposed to be learned in the law.

The municipal act supposes that a member of a council should not presume to use his position to secure favors for himself or his paying clients and also makes it illegal to have contracts directly or indirectly with the municipality.

Disqualification. The following shall not be eligible to be elected a member of a council or be entitled to sit or vote therein: "A person having himself, or by or with or thru another, an interest in any contract with the corporation or in any contract for the supply of goods or materials to a contractor for work for which the corporation pays or is liable directly or indirectly to pay, or which is subject to the control or supervision of the corporation, or who has an unexpired claim for such goods or materials."

An Endless Chain. Sympathy should be extended to the three learned gentlemen who are charged with the duty of agreeing upon the value of the preferred and common stock of the Grand Trunk Railway system.

Remarkable in Passing. The Dutch government is showing signs of being tired of paying the rent for the ex-crown prince of Germany. One would think it pretty near time, with so many allied soldiers hard pressed to find their own rent.

Other People's Opinions. The World will gladly print under this head letters written by its readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

The Coal Supply. Editor World: Your suggestion that the Drury government appoint a commission to take up the question of Ontario's fuel is one of the most important made in the public press in a long while.

SANE LABOR: "Before you undo my work of the past year, I'll..."

Premier Meighen will find the people very much looking at it from this angle and his parliamentary opponents trying to get him in that position.

Buy Home Products. And now it is Switzerland which has put an embargo on the imports of certain commodities which interfere with the home market. The war has made a queer mix-up in the matter of commercial exchange between nations, and it looks as though the nations will have to live within themselves until the gradual readjustment allows the return to former trading.

Requested Close Seasons. Brockville, Feb. 11.—Application is being made to the department of game and fisheries, Toronto, by the Township of Frontenac, and Lansdowne for an order prohibiting the further netting of fish in the St. Lawrence as soon authorized by the Fisheries Act.

Ask Administrator to Jailed Labor Men. Winnipeg, Man., Feb. 11.—Labor members of the provincial legislature have requested Hon. J. E. Baird, Speaker of the house, to administer the oath of allegiance to their three colleagues, George Armstrong, William Hains and John Quisen, now serving a term in the provincial jail for seditious conspiracy, while they are still in prison.

Ontario Deficit of Two Millions. (Continued From Page 1). The Ontario government has a deficit of two millions for the year 1920-21. The deficit is the result of a combination of factors, including a decrease in revenue and an increase in expenditure.

THE TORONTO WORLD'S WEEKLY NOVEL

THE WAITING OF THE BLADES

By AHMED ABDULLAH. (Copyright, 1920, by the James A. McCann Co.)

(Continued From Yesterday's World.) And he was reading, naturally typical of Aziza Nurmahal, the woman who at first had been intent upon the Hindu's death from Hector Wade, was also first to forget her hatred the moment she understood that he would be more than able to help her alive and dead.

CHAPTER XVII. Thus the Babu's tale—substantially the same which he had told Mr. Warburton—told with a better understanding of a cautious stressing and straining of dramatic high spots. Momentarily, Hector Wade came near to fainting. His senses reeled as he pictured it all—the girl he loved—the rough Afghan drover who had kidnapped her.

EXCESS PROFITS TAX DETERRED

(Continued From Page 1). Naturally he keeps out of anything speculative and more and more puts his money into government securities. A Three-Year Period. The British law was more sensible than that proposed into his mind. He proposed a tax over a three-year period. A man one year might have enormous profits because of a spectacular rise in the price of a commodity.

Ontario Deficit of Two Millions. (Continued From Page 1). The Ontario government has a deficit of two millions for the year 1920-21. The deficit is the result of a combination of factors, including a decrease in revenue and an increase in expenditure.

Luxuriant Hair For You. Worry no more about your hair, Miss, Mrs. or Sir! There's a hair ointment that is different from the scented lotions, emulsions and washes. It is Kotalko, evolved in principle by the Indians, compounded from the Three Kingdoms of Nature.

And they sighed and looked at each other. They returned thru the streets of the town, acclaimed by peasant and noble, by merchant and priest, back to the palace, whose turrets and domes burned under the rays of the late afternoon sun like the plumage of a gigantic peacock.

CHAPTER XVII. Thus the Babu's tale—substantially the same which he had told Mr. Warburton—told with a better understanding of a cautious stressing and straining of dramatic high spots. Momentarily, Hector Wade came near to fainting.

"Have you any more?" asked Jane. "I have a certain belief in the everlasting awareness and decency of—oh, you know—things!"

"Things!" mimicked Jane. "You are an inarticulate old dear, and I'm afraid you'll be a most unsatisfactory lover!"

"No, I won't," he said, boyishly, just a little hurt.

"What?" murmured Jane. "It's bound to come out all right."

Three days later, amidst great excitement that spread from the streets and into town.

"He is my brother, Aziza Nurmahal." "Then he, too, is of the blood of the Genghis-khan!"

"And," continued the princess, dreamily, "he, too, is the 'Expected One' of the Durbar is over."

Montreal, Feb. 11.—In the superior court this afternoon Justice McLennan rendered judgment, ordering the Home Bank to pay the sum of \$205,569.27 to the Corporation Securities Limited.

Young Caham drew up cheques on the Home Bank to his own personal and private account. The cheques were countersigned by B. Bowler, secretary-treasurer of the corporation, who also disappeared.

The Corporation Securities pleaded that the authority of C. H. Caham, jun., was limited, that his title was defective and that he did not act in the usual course of business.

The bank stated to The Toronto World that night that the judgment has already been appealed by the bank to the court of King's bench, and, if necessary, the matter would be taken to the privy council.

BIG FEDERAL BLOCK FOR OTTAWA IN SPRING

Ottawa, Feb. 11.—That the government is likely to undertake the erection of a large departmental block early in the spring, or as soon as the necessary supply can be secured from parliament, was the information given by Hon. J. D. Reid, minister of railways and canals, to a delegation which visited him this morning.

The delegation was representative of building trades.

BOARD OF TRADE

Manitoba Wheat (In Store Fort William), No. 1 northern, \$1.93 1/2.

Chicago, Feb. 11.—Pre-holiday profit-taking on long had a good deal to do today with bringing about declines in the wheat market.

Among the factors that led to realizing on the part of holders in the wheat market was knowledge of injunction proceedings to restrain the secretary of the treasury from issuing any more credits to foreign governments.

Smallness of country offerings, together with a little export business, tended to keep prices up to being trying to cancel orders for shipment, and with soap current that a mill was bidding for a wheat cargo.

CANADA'S BORROWING INCREASED IN JANUARY

Striking Decrease, However, in Amount of Loans Placed in United States.

Canada's borrowings in the first month of 1922 have shown a striking decrease in amount of loans placed in the United States.

A comparison of the figures with a year ago shows some interesting facts. For instance, in January, 1920, total provincial bonds, totalling some \$30,000,000, were placed in the United States.

266% DIVIDEND DECLARED

This huge dividend was declared during the past few days by the Rock Island Syndicate. Don't you wish that you were interested in that Syndicate?

The above is only one of hundreds of instances where Syndicates are making vast profits for small investors.

The proposition is a simple one, strictly legitimate, and the large possible profit is not exaggerated.

We Have No Stock For Sale

The CANADIAN-TEXAS OIL SYNDICATE, composed of and managed by well-known business men of Toronto, have just secured a most valuable 2,000-acre oil lease in the midst of the North Central Texas Oil Field, in Coryell County, surrounded by drilling wells. This lease has been divided into 400 Five-Acre Lease units.

A limited number of these 5-Acre Oil Leases are now being sold for \$125.00 each. But this price will quickly advance to \$150.00. Oil Leases in the proven fields of Texas have been known to increase in value almost overnight from \$25 per acre to \$1,000 per acre.

The Canadian-Texas Oil Syndicate are ready to begin Drilling a Well Now.

You will not have long to wait to have your lease proven up. The enhancement in acreage values following the completion of an oil well adjoining your lease means thousands of dollars in profits.

The BASS PETROLEUM COMPANY paid \$1,500,000 for forty acres in Stephens County recently.

The RYAN PETROLEUM COMPANY paid \$2,000,000 for sixty acres in the Burk Burnett field.

\$100,000 was paid for a single acre in the North-West Burk Burnett Field.

\$10,000 per acre has been repeatedly paid for proven acreage. Remember also that when you buy a 5-acre lease from the Canadian-Texas Oil Syndicate you ABSOLUTELY control the property YOURSELF.

This is one of the cleanest cut propositions ever offered the investing public.

Considering the small initial investment required to sit in and share in the large possible profits, the hazard is practically nil. Nothing like it has ever been offered the buying public.

REMEMBER, we have only a small number of the 5-acre leases left; first come, first served.—Write, wire or call in person.

OBJECT TO DRIVING CATTLE ON STREETS

Deputation From West Toronto to Waits on Civic Works Committee.

DANGER TO PUBLIC Suggestion to Construct Tunnels From Stock Yard Under St. Clair Ave.

At the meeting of the works committee yesterday, Aid. Ryding introduced a deputation from West Toronto who protested against permitting cattle to be driven along the streets from the Union Stock Yards to the abattoirs. They asked for a bylaw putting an end to this practice. It was a danger to the public, especially children, on the streets. The suggestion was made that the stock should be taken to the abattoirs by freight. Instances were given of cattle running wild, and of laws and fences being destroyed by them. Some months ago it was necessary to shoot a steer which had attacked a boy while running about.

Members of the committee gave a sympathetic hearing, and asked for an immediate report from the commissioners of works, and property, and Solicitor Johnston.

Aid. Ryding also asked for consideration of his motion to construct tunnels from the stock yards under St. Clair avenue to the abattoirs. The abattoir managers had already expressed willingness to contribute to the cost of these tunnels. This matter was referred to the same officials. The committee decided to take no action on the motion of Aid. MacGregor to remove the boulevard on St. Clair avenue from Oakwood to Lansdowne avenues and pave the whole street. It was stated that there was a division of opinion among the residents as to the wisdom of making the change.

Commissioner Harris reported that his figures on the cost of widening Yonge street from the C.P.R. northward were not yet ready. A new survey is being made. Aid. Burgess is moving that the work be carried out without delay.

The committee sent along the recommendation of the commissioner that water mains be laid in Harris property between Coxwell and Monarch Park avenues on the north side of Danforth avenue.

Movement of Explosives. City Solicitor Johnston reported that regulations covering the movement of explosives in the streets were provided in federal legislation, and he could not see the necessity of a city bylaw. The draft of a bylaw was before council at the last meeting, and was referred back to the committee on works for necessary amendments. The matter was laid over.

The solicitor was also instructed to endeavor to reach an agreement with the owner of land in the Township of Scarborough between Queen street and the lake from regarding the laying out of a street on the line between the city and the township. The owners have donated a 33-foot strip on the city side, and the other interests will be asked to make a similar contribution.

FOUR MEN GET JAIL FOR ROBBERY OF FURS

Robert Osprey, Donald Cornish, alias Chalmers, Thomas Ferris, alias Alex. Young, and John McCracken were sentenced by Judge Denton to an indeterminate sentence of not less than a year and not more than two years less one day at the Ontario Reformatory. The four men were charged with breaking and entering the store of the Bender Fur Company on January 4, and stealing about \$1,400 worth of furs. All pleaded guilty but McCracken, who maintained that his presence with the other three at various points on the night was accidental.

MANY TRIBUTES TO DETECTIVE YOUNG

Funeral Largely Attended by Police Force Members and Other Friends.

The funeral of Detective Sergeant Charles Young took place yesterday from his home, 216 Pape avenue, to Prospect Cemetery amid many manifestations of the respect in which he was held in life.

It was a Masonic funeral and the service was attended by the members of the police and detective departments, also by members of the craft of Orient Lodge, A. F. and M. M., of which the late officer was a member.

Rev. John Bushell, pastor of St. Clement's Anglican Church, and the chaplain of Orient Lodge, conducted the service at the house and graveside. There were many beautiful floral tributes from the police, the Masons and others. The detective department was represented by Inspector William Wallace, assistant chief of detectives; Sergeant of Detectives Alex. Murray, and Detective Sergeant John McCormick, Charles Taylor, James Thompson, Jack Stewart, Wm. Arnold, Wm. Elliott, Walter McConnell, Wm. Nurse, Frank Wickert, Harry Armstrong, Moses Mulholland, Wm. Newton, George Young and several other detectives.

EDISON TO RETIRE WHEN DOCTORS GIVE HIM UP

West Orange, N.J., Feb. 11.—Thomas A. Edison, 74 years old today, looks many years younger and acted as he looked in addition to attending the festivities arranged for his birthday, the "wizard" put in a strenuous day of work, which began when he punched the time clock at his factory at 8.30 o'clock.

The Edison Pioneers, an organization of the inventor's associates of fifty years ago, gathered at the Edison home early in the day to celebrate the anniversary. During the morning the inventor found time to talk to newspaper men and answered a number of questions on varied subjects.

To the question, "should a man retire at 70?" he replied: "He would die in three years." "When are you going to retire?" he was asked. "Well, I don't want to retire. When the doctor brings in the oxygen cylinder I'll know it's time for me to give up."

MOUNT DENNIS FAMILIES BUILD THEIR OWN HOMES

Mount Dennis Ratepayers' Association was represented among those appearing before the minister of education on behalf of changes in the public and high school administration, as suggested by the recent meeting of York County council. The members report that an investigation into the suggestions was promised, and that the deputations were sympathetically received. The association decided to hold a meeting next Friday, the council members, Dr. Forbes Godfrey and Alex. MacGregor of the Amalgamated Ratepayers' being included.

ASKS CITY'S HELP FOR PUBLIC LIBRARY

Year's Deficit to Reach \$14,000, Owing to Increased Expenses.

The public library of Toronto is facing a deficit this year of more than \$14,000, and the city council will be asked to vote more for maintenance. This was decided yesterday at the regular board of management meeting in the College street library. Under the civic agreement pertaining to the public library, the library board is allowed 60 cents per capita of the population of the city for maintenance purposes. As there are approximately 512,000 people in the city, the revenue thus produced for library purposes is in the neighborhood of \$308,000. Added to this, there is a revenue from receipts for the returning book on time, which reaches an average of \$10,000 a year. This brings in a total revenue of \$318,000.

However, it is estimated that more than \$235,000 will be required to carry on the library this year. It was decided to ask the city council to vote the amount enough money to cover the deficit. Last year the board spent \$262,000, but the fact that a new branch has been opened and that there are 250,000 more books in circulation have increased it for this year.

At yesterday's meeting the board of management organized for this year. Thomas Banton, chairman of the board for last year, formally retired as chairman, also he will continue as a member. W. T. J. Leitch, E.C.L., who last year acted as chairman of the committee on libraries and finance, will be chairman for this year, and presided yesterday. N. B. Cash, E.C.C., takes the position vacated by Mr. Lee. Others present were Mr. Justice Kelly, John Turnbull, Mr. Thomas W. Selk, J.P., and R. B. Orr, M.D.

MURAL TABLETS WILL MARK HISTORIC SITES

Sir John A. MacDonald's House and Other Buildings Will Be Included.

Kingston, Ont., Feb. 11.—(Special).—The work was taken in hand of marking by mural tablets some of the historic sites in Kingston, including the central building of the General Hospital, where the first parliament of United Canada met in 1841 in Governor Simcoe's executive council chamber on Queen St. and Sir John A. MacDonald's house on Brock street. The marking out of the old Port Frontenac was also considered. The 250th anniversary of the founding of Kingston will occur in 1923, Port Frontenac having been built in July, 1673. It was decided to invite the co-operation of the corporation and citizens of Kingston, the Ontario and Quebec historical societies and other bodies interested in celebrating this important anniversary by the holding of a historic pageant.

HARRY BARNES AGAIN FAILS TO APPEAR

Harry Barnes, who will appear at the Brampton assizes next Tuesday in connection with the death of Harry Rosstier, who died from injuries received last fall on the Hamilton highway, again failed to appear at the inquest last night, this making the eighth adjournment. Crown Attorney Eric Armour said that the warrant issued was still good and suggested that the inquest be adjourned until Feb. 14, which was done by Coroner W. A. Young. The matter of the warrant is now before the court of appeal.

FINANCIAL AID FOR AGRICULTURE

Rural Credits Committee Recommends Scheme to Legislature.

A sound and carefully integrated system, by which agriculture would receive financial assistance to which it has been too long denied, is recommended to the legislature by the special committee on rural credits. The report states that provision should be made for and encouragement given to the formation of rural credit societies as the basis upon which to develop a safe and adequate extension of short-term credits. Regular reports should be required from these societies and there should be careful supervision of the activities.

Land Mortgage Banks. As soon as the legislation has been enacted there should be the formation of the land mortgage bank on the basis of the financial provision for both the short-term credit and the long-term credit. This bank should be given adequate powers, including the right to receive deposits from any one and pay interest on the same, and the power to borrow money, if necessary, to effect its purposes. The most mature judgment should be exercised in the choice of suitable directors of this bank. Upon this depends the success or the failure of the entire system. Preferably before—but if that be not possible, after—the legislation was passed, there should be a thorough campaign of education carried on among the farmers, to show them the benefits of the system of rural credits and how to take advantage of it at the earliest opportunity.

BURWASH GOOD PLACE TO SOBER PEOPLE UP

Frank Towers and John Carr were each sentenced to one year in jail, and George McDonald four months, by Judge Denton, in the sessions yesterday, for theft of an automobile. They pleaded they had been drinking. "Burwash is a good place to sober up," remarked the judge. "It is in your own and in the public interests that you be put away." All have records.

To Keep Houses Intact For Terauly Extension

A large number of the 80 houses which will have to be removed to provide for the extension of Terauly street will be kept intact and will be merely moved back from the street. This can be done by raising them on long timbers and skidding them back about 30 feet. The properties will be sold and the receipts applied against the cost of the improvement.

BUILDING PERMITS ISSUED

The city architect's department issued the following building permits yesterday: Thos. W. Robinson, two brick dwellings on west side of Pine Crescent road, near Glenlake avenue, \$10,000; Jas. Smith, four detached dwellings, west side of Silverthorn avenue, near Turnberry avenue, \$8,000; H. A. Johnston, brick dwelling, 35 Duart Park road, near McLean avenue, \$5,000; A. Harris, detached dwelling, east side of Monarch Park avenue, near Mountjoy avenue, \$4,000, and B. A. Loud, pair dwellings south-east corner Stephenson avenue and Morton road, \$5,000.

THREE YEARS FOR THEFT OF FAMOUS FUR COAT

The closing scene in the theft of the \$10,000 fur coat, said once to have been worn by a Chinese emperor, and later stolen from a Toronto store and recovered in Montreal, was staged in police court yesterday, when William Cowan followed Thomas Sinclair to Kingston for three years.

COSTLY APPOINTMENT

WHAT AFFECTS AFFECTS

Winston Churchill of All Nations Empire

London, Feb. 11.—English-speaking units Lord Reading, the India, Winston Spence new secretary of state on Saturday as the dominions and pipe were concerned, pipe developing was the subject among members of the Empire regarding any one of them. No concerning the status of the empire could be taken without constant whole body of the empires would share with land in the responsibility of the great dominant decisions which affect fortunes of the whole.

This principle, Mr. might be found to have relation to pipe as far apart and as Ireland and E know how great the and the need for unit problems. I am hopeful that in a few years differences in Ireland be greatly diminished. nations which are now a stumbling block to cause the English-speaking heart, may be found their own affairs, and within the elastic circle of the Empire.
