HOW THE DOMINION LOST \$18,000,000 LAST YEAR BY EXPORTING ITS PULPWOOD

The Depletion of Canada's Pulpwood Forests the Subject of Senate Debate ---Senator Baird Makes Strong Plea for Prohibition of Pulpwood Export ---Senator Domville Asks Aid for Steel Shipbuilding.

Ottawa, May 8. (Special)—The depletion of Canada's pulpwood forests was the subject of a debate in the senate yesterday afternoon. Senator Baird proposed a resolution declaring it advisable to appoint a commission of representatives of the provincial legislatures and of other persons concerned with the crown lands of Canada to report on the best means for the preservation of forests in view of the large amount of logs and pulpwood annually exported from Canada. He declared that Canada had great, but not inexhaustible, areas of lumber. He had brought great destruction but organized efforts to end this were now being made. The lumber men beyond reason and the lumbering operations had wrought havoc with young trees. He called attention to the fact that Americans were acquiring large spruce areas in New Brunswick and had last year exported more than half their cut to the United States for manufacture. When the Grand Trunk Pacific was built through New Brunswick and another railroad under construction from Campbellton to the State of Maine the export of spruce logs from New Brunswick will be large. Canada, according to figures, had sent 650,000 cords of pulpwood to the United States in 1907. At four dollars a cord this was worth \$2,600,000. If it had been made into pulp in Canada it would have been worth seven dollars a cord or a total of \$4,550,000. If made into paper in

being educated in the best agricultural methods. Senator Domville called the attention of the government to the desirability of giving financial assistance to shipbuilders. Canada had spent money on immigration, railroad and other transportation aids which were good things and for the benefit of the country. However, there was another great opportunity for progress which had not been seized that was the establishment of shipbuilding industry in the maritime provinces which was the source of a great industry of this sort in the days of wood ships. Sir Richard Cartwright said the question would receive the attention of the government. However, it was not one that would be readily undertaken but that the government would have to be persuaded that the benefit hoped for would follow and that a bonus to trade would establish a successful industry. The disadvantage of Canadian shipbuilders in having to pay duties on the parts they now brought into Canada for the construction of ships constituted something which might well be dealt with through a new law allowing a drawback on parts brought in for the manufacture of ships. Sir Richard said there was, but owing to customs regulations the shipbuilders did not always feel that they got the full benefit of it.

WILL COLLECT SECURITY NOTE

Note For \$330 Signed by Messrs. White and King, Held for Agricultural Department

There was a Dispute as to Who Should Pay It and the Payment Was Never Enforced --- Present Government Will Probably Collect It.

Fredericton, N. B., May 8. (Special)—The public accounts committee of the legislature held a meeting this morning and went over the items making up the liabilities and assets on page 4 of the Auditor General's report. Deputy Receiver General Babbitt and Auditor General Loudon were in attendance and explained several items to the committee. There was some discussion over a balance of \$330 shown to be due to the province in connection with a horse importation some years ago. The Auditor General explained that the agricultural department held a security note signed by Messrs. White and King for the amount. There was a dispute between the parties as to who should pay the note and for that reason the department had not enforced payment. The committee will probably recommend that steps be taken at once to collect the amount. The suspense account of \$20,000 came in for a good deal of discussion and criticism. Babbitt explained that the largest item was one of \$4,301.04 which had been drawn by Hon. Wm. Pugsley on account of services rendered to the province as attorney general. The amount had been outstanding for several years but had recently been refunded to the province on the account being adjusted. Mr. Babbitt had lately rendered a bill to the province for had been outstanding for several years Mr. Pugsley should have been charged interest. It was finally decided to allow the item to stand. The committee some information in regard to lands in Victoria County lately purchased from the New Brunswick Railway Company. An adjournment was then made until Monday morning. Mr. Donnet who has been employed as a driver at the Central Hotel station, expired very suddenly at his home this morning. He had been in the city for some time and was attending to the horses and upon returning to his quarters in the upper flat of the building he fell down property. Nothing was as yet been done to prove his sanity, and this may be delayed until he appears before the court of Kings bridge. At present Dillon is occupying a ward in the prison hospital, and seems to be enjoying life without the slightest sign of insanity.

ASTOUNDING REVELATIONS REGARDING MRS. GUINNESS, HIGH PRESTESS OF MURDER

The Female Bluebeard Not Burned to Death as at First Supposed---Almost Positive Evidence That She is Alive---Bodies of Two More Victims Were Unearthed Today From Her Private Graveyard.

Chicago, May 8.—A despatch to the Inter-Ocean from Laporte, Ind., says: Mrs. Bella Guinness, high priestess of murder, who at the back door of her farm kept a private graveyard from which eleven bodies have been unearthed, is alive. This was established beyond a reasonable doubt yesterday. An ordinary tape measure proved the agent which would solve the perplexing mystery of the long series of startling crimes. Careful measurements were taken of the headless trunk of the woman found in the ruins of the burned home, which was thought to be the body of Mrs. Guinness. This resulted in the astounding revelation that the dead woman was not more than half the size or weight of the stern who is supposed to have lived a score of men to her death. In addition to the coming testimony of the friends of Mrs. Guinness assert with the positiveness of absolute conviction that the dead body was not that of the mistress of the house.

Laporte, Ind., May 8.—Calling to their aid skilled detectives, the authorities of Laporte county rebuffed their efforts in the task of unravelling the tangled skein of murder and arson of the Guinness case. With the world wide publicity given to Laporte during the last few days, queries as to the whereabouts of men who are ex-convicts had been made from different points of the country have begun to pour in, but Sheriff Smitzer declines to disclose their names. Two run-ners are current, one that a man from Providence, R. I., was among the dead, another man living in Ohio is said to have visited Mrs. Guinness and that a few days later she explained the possession of his horse and carriage after he had disappeared by the statement that he had traded with him. At the same time suspicion has been aroused as to the fate of several hired men formerly employed by Mrs. Guinness. These have been given expression by the several neighbors who assert their belief that more of them met death at her hands. About seven years ago it is said Olaf Limbo was in her service, and upon her looking for another to take his place, she was asked where he was, she reported that he had gone to Norway to witness the coronation of the King. Amel Green, who is said to have told his friends that he frequently was aroused by Mrs. Guinness at night with an exclamation that Guinness had arrived and that he would have to sleep in the barn, is supposed to be somewhere in the west, but his former acquaintances have begun to doubt his story. The only suitor whose name has not been mentioned hitherto, is Bert Albert, T. Albert, of Huron, O. D., to whom she is said to have promised marriage a plan that never was carried out because of his lack of wealth. Two more bodies were turned up by the diggers at the Guinness farm shortly before 9 o'clock this morning. The first is apparently the skeleton of a man. The second body was just underneath the spot where the first body was found. It is a skeleton only and is supposed to be that of a woman.

A ROAST FOR SOCIALIST LABOR COUNCIL CANDIDATES

The Toronto Labor Council Censures Ontario Government for Guaranteeing the Canadian Northern Bonds.

Toronto, Ont., May 8. (Special)—The district labor council last night denounced the Ontario government for its guaranteeing of \$2,500,000 of the bonds of the Canadian Northern Railway. The legislative committee in its report made the following reference to the matter: "The action of the Whitley government in guaranteeing a loan of \$2,500,000 to Mr. MacKenzie must have certainly set the people thinking and makes us feel helpless and ever at the mercy of financial manipulators." The report pointed out that if the millions given in bonuses and special grants were applied to willing homesteaders in Ontario there would have been developed the province would be solved. The municipal report commended the board of control and government for their prompt action in denouncing politicians that had become public charge.

THE AFFIDAVITS COST \$3.33 EACH

Liberals of Manitoba Made a Deal With Corrupt Winnipeg Character.

Winnipeg, Man., May 8. (Special)—A fac-simile of the cheque for \$35, given by George Walton M. P. to Theodore Rudinski for eight affidavits impugning corruption in the Manitoba government, four of which were read by Mr. Bole in the house of commons in his attempt to show why the charges should pass, was presented here yesterday and caused considerable consternation in liberal ranks. Evidently it was unknown to the liberals at Ottawa that Walton had left documentary evidence of his deal with Rudinski. Mr. Bole supposed, no doubt, that it was the affidavit referred to, but the man who received the cheque from the liberal organization, is a man without any reputation in Winnipeg. In fact, shortly after he made the affidavit referred to, he left Winnipeg very hurriedly as he was charged with several crimes of different natures. If his whereabouts could now be ascertained several warrants would at once be issued for his arrest.

MURDERER DILLON ENJOYS HIMSELF

The Man Who Killed Montreal Policeman is Taking Life Easily and Does Not Worry.

Montreal, May 8. (Special)—The preliminary enquiry into the murder of James Dillon, the dependant who shot one policeman and wounded Chief Detective Gamman and another detective some weeks ago on Maple street here, was opened yesterday. Dillon was, as usual, immaculately dressed, and seemed to be perfectly sane. There was little in the evidence beyond what was brought out at the time of the famous battle. Mrs. Pritchard, Dillon's landlady, stated that he had lived at her house for four years, and had been much paid-off over her move to either make him vacate his quarters or take less expensive ones, and that he had pulled a revolver upon her when she had notified him to that effect on the day when the row occurred. The evidence was mostly formal, being taken merely to prove the part Dillon played in the tragedy, which was common property. Nothing has as yet been done to prove his sanity, and this may be delayed until he appears before the court of Kings bridge. At present Dillon is occupying a ward in the prison hospital, and seems to be enjoying life without the slightest sign of insanity.

ANOTHER BANK CRASH IS PREDICTED IN QUEBEC

Montreal Star Predicts This in Connection With Liquidation of St. John's, P. Q. Bank—Hon. Philip Roy Ruined.

Montreal, Que., May 8. (Special)—The Montreal Star will announce to-day that the province of Quebec will have another bank crash, and this statement is made in connection with the announcement of the voluntary liquidation of the Bank of St. John's, P. Q. some few days ago. Hon. Philip Roy, speaker of the Quebec legislature and principal stockholder and president of the bank is a ruined man, says the paper. He says he is not able to meet his obligations. Mr. Roy says that he does not see that the bank will be able to collect more than sixty per cent of its outstanding accounts. This will mean that the double liability clause will go into effect and what money is lacking to pay the depositors will come out of the funds of the stockholders. It seems that the surplus of three hundred and fifty-three thousand dollars which was reported in the government returns had no existence in reality. In place of this there is an actual deficit. Experts who have gone over the books claim that this will amount to at least two hundred thousand dollars. The Roy family hold 175 shares of stock. The ultimate outcome of the affair is a question that cannot be settled for months.

MONCTON TAX RATES LOWER

Government Employees Will be Taxed on Their Salaries and This Makes General Burden Lighter.

Moncton, May 8. (Special)—The Moncton tax rate this year will be considerably lower than last year, and this largely due to the fact that the government employees in Moncton are being taxed on their incomes. Every intercolonial railway and other government employes in Moncton receiving a salary of fifty dollars a month or more, or over two dollars per day, will be levied on for income and the amount taxable has thus been increased nearly half a million dollars. The rate of taxation last year was \$2.46, this year will be \$1.90, a reduction of thirty-eight cents on every hundred dollars. The poll tax this year will be in the vicinity of \$0.23, a reduction of some forty cents from the poll tax last year. Intercolonial delegates to the annual convention of the Brotherhood of Railway Employees will leave to-morrow for Boston, New Brunswick, sending seven each from John, Campbellton, Newcastle and Moncton four. Prince Edward Island sends four, Nova Scotia six and Quebec six. The longest train which ever pulled into the L. C. R. yards here arrived yesterday, made up of fifty-one empty box cars from Rhoads & Curry, Amherst, for the Canadian Northern. Two locomotives hauled the quarter mile long train. A hundred cars of this railway from the Amherst shops have passed through yesterday and to-day.

BURIED UNDER COAL IN CHUTE

Young Miner Victim of Fatal Accident at Springhill Mines.

Amherst, N. S., May 8. (Special)—A sad accident occurred at the collieries at Springhill mines this morning about 9 o'clock, in which Edward Ripley, a young man, formerly of Joggins mines, lost his life. Ripley was engaged in one of the chutes when a large quantity of coal fell upon him, and before a rescuing party could remove the coal life was extinct. There was not a bruise on the body of any consequence, and death was due to suffocation. The deceased was a son of Mr. and Mrs. E. A. Ripley, of Fenwick, near Amherst, and only about 22 years of age, leaves a wife and has only been married about a year. His wife was formerly a Miss Coleman, daughter of Mr. and Mrs. J. Coleman, of Joggins mines. The funeral will take place in Fenwick probably Monday. As far as can be learned, no one else was near him at the time of the accident. Deceased was a member of the Oddfellows Lodge at Joggins.

RAILWAYMEN FORM A STRONG FEDERATION

Five Thousand Railway Employees Unite to Secure a Nine Hour Working Day.

Montreal, May 8. (Special)—The general committee representing the C.P.R. mechanics which has been in session here for the last eight or nine days has succeeded in uniting the organizations between the Atlantic and the Pacific into one federation which is known as the Federation of Railway employees, taking in some 5,000 men. The principal demand of the federation will be a nine hour day. This has been in operation for some time in the west, but men in the east have had to work three or four hours more than the men in the west. The federation will be in charge of the railway.

DIVORCE SUIT ENTERED AGAINST ST. JOHN RESIDENT

Wife of Harry M. L. Hamilton Charges Him With Desertion ---Defendant Alleged to be Living Here.

Boston, May 8. (Special)—Catherine A. Hamilton, a well known and well connected resident of this city, has entered a tender regard for that gentleman's residence in the Suffolk County Court for divorce from her husband, Harry M. L. Hamilton. In the libel filed at the Pemberton Square Boston Court House, it is stated that Hamilton is at the present time living in St. John, N. B. The libel says that Mr. and Mrs. Hamilton were married in this city in November, 1894, and lived together until February 1, 1901, when they separated. The libel charges cruelty and desertion. Mrs. Hamilton asks for the custody of her two minor children, Lillian, a child of thirteen, and Henry, aged ten. The firm of C. I. Quirk & Co., of Boston, are looking after Mrs. Hamilton's interests.

STATE'S CASE IS FINISHED

Prosecution Rested in the Higgins' Murder Trial at Calais This Morning.

Calais, Me., May 8. (Special)—The state rested in the Higgins murder case at 10.50. Deputy sheriff Stillman E. Woodman of Calais, Constable John E. Black, of Bathville, and First Selectman Otis H. Taylor, of Topsheld, who took Wallace into custody, testified to the damaging admissions made by the accused while in their care. Woodman and Black told about Wallace admitting taking a fur coat from Higgins' camp on Sunday evening, January 10, and saying "if I hadn't taken the coat they wouldn't have any evidence against me." Wallace submitted to the officers after the preliminary hearing that the evidence was pretty strong and he did not care whether he was convicted or not. If sent to a state prison he would know where he was going to sleep at night which was more than he did now. The prisoner made a similar remark to Selectman Taylor at Topsheld.

THE HAIRS OF YOUR HEAD.

(Chicago News.) Two feats of consideration have already been considered impossible; one is to count the stars in the heavens, and the other, to count the hairs on your head. But it seems they are no longer impossible. The astronomers, by mapping out the sky and assigning different parts to different observers, have counted the visible stars almost with accuracy, and now some one has invented a pair of scales that will weigh a single hair, and by using that weight as a unit it is possible to tell how many hairs any one has. The way of it is this: When a person's head has been shaved, one hair is weighed; then the whole "crop" is weighed; the total weight being divided by the weight of one to tell how many there are in all. Perhaps the best thing of this kind will be the counting of the grains of sand on a given strip of seacoast.

UNINTENDED.

(Chicago Record-Herald.) "You assure me that I am the only woman you ever loved," said the beautiful grass widow, "but I suppose you told your former wife the same thing." "I will not deny," replied the absent-minded grass widow, "that I did, but I didn't mean a bit more than I do now, I assure you."

ESCAPED PRISONERS SENT UP FOR TRIAL

Four prisoners who at various times escaped from the local labor equid and have since been captured were brought before Judge Ritchie this morning when they were sent up for trial at the next session of the county court to be held on Tuesday the 26th instant. They are William Smith, a colored man, hailing from Danvers, who was serving a term for theft and who made a break for liberty while the gang was at work on Victoria street yesterday when, after a lively chase lasting about half an hour he was captured by Guard Beckett. Smith who pleaded not guilty said that two other prisoners—Earl Martin and William Baker (who was sent to jail recently for carrying a loaded club) had promised to follow him if he made the break. The others are John Cook, who made a dash for liberty on the 20th of last July, when he was shot in the leg by Guard Beckett; also William Morris and John O'Brien who escaped March 28th last.

THE SHAH'S DIAMOND COAT.

(Province, Vancouver.) An English jeweler once expressed his willingness to pay four million pounds for the Shah of Persia. This was not because he considered him particularly precious personally, but because he was wearing a black frock coat studied with diamonds with diamond spindles, and a scarf with a diamond-encrusted sash. The diamond costume is used only on the occasions he has a grand costume, and for evenings wear a costume that presumably permits him to be more comfortable.

REE HOME FOR INCURABLES A CIVIC NEED---S. M. WETMORE

secretary of the Municipal Home Speaks of the Necessity of Such an Institution. of the city's needs is a properly equipped building for the care of persons afflicted with incurable disease, who are unable to pay for their keeping. This is an opinion expressed by S. M. Wetmore, secretary of the Municipal Home, at a meeting of the Municipal Home and the authorities that it is time some provision was made for the care of cases of this kind, so that they could be kept apart from the two hundred other inmates of the institution. It is suggested that the municipal council should ask the provincial government to put up a building near the present home at Crouville, in order that persons afflicted with an incurable disease could be attended apart from the regular pauper charges. If this scheme were adopted it would minimize the dangers of sickness in the big institution, and as there is an increasing demand for the care of cases of this kind, some such scheme is necessary. It is possible that the matter may be discussed at the meeting of the municipal council on Tuesday next.

NARROW ESCAPE FROM DROWNING

Fredericton, N. B., May 8. (Special)—Three Maryville young men named Alfred and John Marshall and Roy Ward while canoeing on the Nashwaqois last evening were upset and narrowly escaped being drowned. They managed to cling to some older bushes until rescued by Frank Wheeler and John Hanson who were nearby in a boat. There was another heavy downpour of rain here last night, but it has made no change in the condition of the river.

ABSENT-MINDED.

(Puck.) Wife—"Why, George, dear, what is the trouble?" Husband—"Oh, there was something I was going to worry about and for the life of me I can't think what it is."

THE TIMES NEW REPORTER

A CITY OF REFUGE. The Times new reporter had his nose in the air this morning and greeted his associates with a very curt nod. The other young men are not easily abashed by the haughty mien of those with whom they come in contact, and on short acquaintance would probably call the new reporter by his first name, reduced to plain Ned. Therefore they began to say that the new reporter. He was often at first, but after a time the cause of his lordly bearing was discovered. The young man owns his tailor and has not paid his taxes. Certain constables had got in the habit of haunting his favorite walks, somewhat to his embarrassment. On several occasions he had been compelled to resort to strategy to distract their attention while he got what he wanted and got away. And now there are no constables. The town is a debtors' paradise. The new reporter can greet his creditors with a cold eye and a calm assurance that long has been a stranger to his experience. He actually walked down town with an ex-constable this morning, and manifested a tender regard for that gentleman's reputation, which on a former occasion had been devoutly hoped would prove fatal. It is stated that the ex-constables are receiving many expressions of sympathy from persons, some of whom they had not been able to set eyes on for a very long time. How true it is that adversity reveals one's friends. The new reporter says he was told by the ex-constable that the latter was met and grasped by the hand yesterday by scores of people he had been trying in vain for weeks to locate.

ANOTHER OUTRAGE. Ottawa, May 8. (Special)—Word was received from Manitoba today that two inmates of the penitentiary were robbed of their votes by the iniquitous Robin Hood at the last provincial elections. Their names were not on the list. All these men had done was to knock a citizen down and take his money. The citizen died, and their names were struck off the voters' lists.

MORE EVIDENCE. Fredericton, May 8. (Special)—Hon. Robert Maxwell walked down Regent street today for a whole block. This is regarded as clear evidence that he has abandoned prohibition.

INVESTIGATION OPENED TODAY INTO MAJOR HODGINS' CHARGES

He Alleges Fraud in Connection With Transcontinental Railway Construction. Ottawa, Ont., May 8. (Special)—An investigation into the charges made by Major Hodgins relative to fraud in connection with the Transcontinental Railway construction was begun this morning before a special committee of Messrs. McDonald, Carvell, Geofrion, Barker and Lennox. There was a preliminary discussion as to the scope and Major Hodgins was asked if he had any statement to make. Frank Hodgins, K. C., on behalf of Major Hodgins said the latter had arrived only yesterday from Victoria, and there had been brief opportunity for consultation. He maintained that before witnesses are examined, an order should be made for the production of accounts. Without these the charge would only be general. The principal allegation was that there had been over-classification of estimates on the contract. "Do you connect the errors of engineers with the commission?" asked Mr. Carvell, and upon her looking for another to take his place, she was asked where he was, she reported that he had gone to Norway to witness the coronation of the King. Amel Green, who is said to have told his friends that he frequently was aroused by Mrs. Guinness at night with an exclamation that Guinness had arrived and that he would have to sleep in the barn, is supposed to be somewhere in the west, but his former acquaintances have begun to doubt his story. The only suitor whose name has not been mentioned hitherto, is Bert Albert, T. Albert, of Huron, O. D., to whom she is said to have promised marriage a plan that never was carried out because of his lack of wealth. Two more bodies were turned up by the diggers at the Guinness farm shortly before 9 o'clock this morning. The first is apparently the skeleton of a man. The second body was just underneath the spot where the first body was found. It is a skeleton only and is supposed to be that of a woman.

"SPRING FEVER"

The need of a spring medicine seems to be universal. This is due to the fact that during the winter the blood becomes impure on account of the hearty food eaten. This causes that tired, weary, all-gone, don't-care-to-work feeling which is so prevalent at this time of year.

BURDOCK BLOOD BITTERS

THAT TIRED FEELING. Mr. F. H. Leard, Saskatoon, Sask., writes: "I have used Burdock Blood Bitters as a blood purifier and think it an excellent remedy. Everyone should take it in the spring to cure that tired feeling that comes to so many at this time of year."

USES IT EVERY SPRING. Mr. H. Langley, Hamilton, Ont., writes: "I have used Burdock Blood Bitters as a spring tonic, and I find it the best thing I can take. It builds me right up and I use it every spring. It is so essential for the blood."

"SPRING MEDICINE"

THE LOVELY WARD,

NORMAN INNES.

Author of "The Ship of War" (London Magazine, English Nov. 1900); "Parson Croft" (English Nov. 1901).

(Continued.) I glanced at the servant. "I have searched for their Excellencies," replied the man, "and can find them nowhere."

As a thief I tiptoed to that richly-chimneled hearth, ready at the slightest sound to extinguish the lantern I carried, and hot and cold at the thought that my last hope was to be put to the proof, I pressed upon the head of the club that stood upright in the hand of the graven giant.

Not to be found! 'Twas impossible! Then the blood rushed to my cheeks as I remembered their cousin; and the Field Marshal looked up sharply as I stammered: "Answer to a question I had not heard."

The classical note so strongly emphasized in recently imported models is evidenced in many of the summer piques and heavy linens, especially those having long, clinging skirts, practically guileless of trimming, and draped bodies showing Grecian key embroidery done in soutache or cable cord about the neck, fronts and sleeves, which are cut in one with the waist.

"Farewell, Captain Leary," said our commander as he mounted. "For the present my companies of infantry will encamp at the head of the valley to await my return, when I shall relieve thee of the care of thy prisoner—and then, as if suddenly calling some matter to his memory, he added—'on the morrow or the day following, one will reach thee from Vienna bearing despatches from Her Majesty, from then you will learn of further duties in this castle.'"

Walter Adams, brakeman, 34 Dufferin Row, said he was in the car at the time of the accident. He did not notice how fast the car was going or hear the gong sound. The car stopped about three car lengths after it had struck the girl. The car shook as if the brake was running hard.

INQUEST INTO CHILD'S DEATH

The Inquiry Opened Last Night Into Street Car Accident in Which Liz-zie Howe Was Killed.

The little girl run over and killed by a street car in Carleton yesterday was Liz-zie May Howe. The inquest was held in City Hall, Carleton, last night before Coroner F. L. Kenney.

Thomas Kerrigan, of Harding street, Fairville, and motorman of the car, said he was running at the rate of four miles an hour at the time of the accident and never ran faster than eight. The book of rules gave no specific speed rate, but called upon the driver to be careful and to avoid reckless driving.

The following jury were empaneled:—Harvey Ring, foreman, Isaac Duffy, Burpee Belyea, Samuel McNeill, R. W. Ingraham, J. Alfred Ring, and George S. Williams. The evidence of seven witnesses including the motorman, was taken and the hearing was postponed until Monday morning.

Here's the Cure for Sick Kidneys

TEST THEM FREE

Perhaps you are skeptical about GIN PILLS. So was Mr. Brown. He had tried so many things for his kidneys, without getting any better, that he had just about made up his mind that he couldn't get well.

At last night's meeting, Prof. Bilby introduced an impressive cartoon on the subject of "Christ's Knocking at the Door." Mr. Mitchell preached eloquently on the subject, "The Christ of Today." This evening Mr. Mitchell will discuss what becomes of spirits, and promises to take a full out of spiritualism and its doctrines.

TWENTY-FIVE DOLLARS WAS THE PRICE OF AFFIDAVITS

The Rudneski Bubble Pricked by Conservative Speakers--Affidavits Affirming Conservative Padding of Manitoba Lists Were Made by Criminals.

Ottawa, May 7.—Duncan Bole's affidavit sensation was today taken in a ruthless manner by Dr. Roche, Conservative member for Marquette (Man.), who, in continuing the debate on the affidavit election bill, gave an accurate description of the nefarious Rudneski.

On Wednesday Mr. Bole gave practically all his time to reading an affidavit of Rudneski alleging that the Conservatives had put a large number of names improperly on the voters' lists. Rudneski said Dr. Roche had been in jail and today was a criminal who had been obliged to flee the country.

Dr. Roche took up the arguments of the affidavit on the behalf of the bill. The plea that the constituencies in Manitoba were just as good in 1898 when there were but seven federal and forty provincial constituencies. He gave instances of the stuffing of the voters lists by officials of the Greenway government and for other reasons.

Dr. Roche read an extract from the Liberal platform of 1893 declaring for the adoption of the provincial voters lists and commented on the fact that this was the only principle that had been carried into effect by that government.

One of Mr. Roche's complaints against the method of preparing the lists in Manitoba was that sufficient evidence of identification was not given and the character of the voters was not ascertained on the forms.

He maintained that everybody was on an equality under the administration of the election law of the Roblin government. There was absolutely no complaint against the character of the voters as shown by the many of whom were strong Liberals.

The law was perfectly just, he testified. The Winnipeg Free Press, a strong commentary article being read from that journal.

The only fault that had been found was by representatives of the administration who were in danger of losing their seats if something was not done for them.

Another witness was the Hon. Charles Fisher, Liberal leader in Manitoba who declared in the legislature that the lists were perfectly fair and the only objection he had to the affidavit was that it was a registration was to expense.

The Marquette member feared the prime minister had allowed his western followers to stuff him with a lot of declarations that could not be substantiated.

Dr. Roche reported what had already been said that Walter Fremond, a similar one prepared in the session 1904 and which Sir Charles Fitzpatrick refused to accept. "That" he continued, "the present minister of justice will stoop to strike an opponent below the belt, which Mr. Fitzpatrick would not stoop to do. As a politician he is a huge failure, as a partisan he is a splendid success."

The speaker suggested in lieu of the bill that the judges who are appointed to this government be asked to distribute the names on the provincial lists and at the same time indicating where each should vote. This would dispose of the principal objection of the minister of justice to the present system.

By what process of adroit omission there was brought down in the commons, a report upon the Ross rifle, made by the British War Office experts, remains to be explained. But that a test of the rifle was made and a report upon it sent to the militia department here was shown.

PLAYS AND PLAYERS

"BY RIGHT OF SWORD" AT THE OPERA HOUSE Kirk Brown to Present One of His Most Successful Bills Tonight.

In offering "By Right of Sword" at the Opera House, Kirk Brown, who has been presenting one of the most interesting comedy-dramas of the season in the way of stock company productions.

The play abounds in bright comedy situations and yet has its dramatic themes that keep it on a par with the other great dramas in the repertoire.

Mr. Brown has succeeded in drawing out society to his performance and from the excellent inflection he has made thus far, it is safe to predict that his engagement will be both a financial and social success.

Saturday matinee has been set aside for a magnificent scenic production of "The Christian" "The Sign of the Cross" will draw the record audiences and in view of this fact the management suggests that prospective patrons for this play will procure tickets as far in advance as possible, to avoid delays at the box office window Monday and Tuesday evenings.

AT THE NICKEL Another fine travel picture is to be credited to the Nickel when China, Its People, Homes and Streets, is shown today and tomorrow. This is most engaging and will be of great educational value to the children.

Manufacturers' Dinner A VERY PLEASANT FUNCTION Vice-President Chas. McDonald of the Canadian Manufacturers' Association Entertains in Honor of Hon. J. D. Rolland and G. M. Murray--Labor Union Legislation Strongly Scored.

There was a very enjoyable function at the United Club, Tuesday, when about forty of the leading business men and manufacturers of the city gathered around the dinner table on invitation of Charles McDonald, vice-president of the Canadian Manufacturers' Association.

The dining tables were very prettily decorated, the menu tempting and the speeches that followed very interesting and instructive.

Mr. McDonald presided and had seated in South Africa I. Chas. McDonald, W. S. Frank Hatheway, M. P. P., and on his left Mayor Bullock and W. E. Foster, president of the Maritime Provinces.

The other guests were: H. B. Schofield, R. K. Jones, J. Fraser Gregory, John Russell, Jr., P. W. Thomson, H. N. Stoen, J. H. Estabrook, T. P. White, P. L. Peters, Alex. Fleming, R. W. M. Robertson, Geo. H. Fleming, A. P. Barnhill, J. A. Laidlaw, T. S. Simms, William J. McAvity, R. B. Emerson, Geo. Kimball and C. W. Brown.

After the toast had been done to the menu of the King was proposed and drank with musical honors.

Mr. Rolland, who presided at the toast of the City of St. John. He said he was glad to meet such a representative gathering of manufacturers as were present. His only regret was that the exhibition building would have had to be used to hold them.

He referred to the fact that Mr. Rolland, his guest, was of French descent and reminded him that St. John was founded by that intrepid Frenchman, Champlain, who landed here on St. John the Baptist's Day in 1604, when there were still some Frenchmen in the city.

W. E. Foster, president of the board of trade, was next called on, and he referred to the optimism he felt in regard to St. John's future. The board of trade members were now taking their part in booming this city. It was encouraging to note that the export trade through this port was increasing and during the past winter over \$20,000,000 worth was shipped away.

CENTRAL ROAD COMMISSION Commission Appointed by Local Government Will Have Greater Powers Than a Court.

Fredericton, May 7.—The act authorizing the inquiry into the Central Railway and New Brunswick Coal & Railway Company matters, introduced by the premier to the legislature yesterday, empowers the lieutenant-governor-in-council to issue a commission under the great seal to three persons with large power, to hold an investigation into all matters connected with the road since January, 1901.

One of the commissioners must be a judge of the supreme court or the county court, or a barrister of not less than ten years' standing.

They are to enquire into the sale or hypothecation of bonds and times the expenditure of money received from such sources.

They are to look into all facts connected with the purchase of the Central Railway by the New Brunswick Coal & Railway Co., including everything connected with the purchase of bonds or shares outstanding of the old company, all matters connected with the receipts, revenues and expenditures of the railway and branches over by the province from the New Brunswick Coal & Railway Co., a comparison of such expenditures with reasonable expenditure for such construction, as any expenditure of the old company, all matters relating to the foregoing subjects of enquiry.

The commissioners shall have for the purpose of this investigation all such powers, rights and privileges as are vested in the supreme court of the province, particularly regarding the production of witnesses, production of books, papers and documents and adjournment of court from time to time, and punishing of persons guilty of contempt may be imprisoned for a term not exceeding thirty days, and if at the expiration of such time they are still unwilling they may be imprisoned from time to time until such time as they are prepared to obey the mandates of the commission.

All examinations of witnesses are to be conducted in public. The lieutenant-governor-in-council is empowered to pay the expenses of the commissioners out of the public moneys of the province.

No person or newspaper shall be liable on account of publishing a true report of any of the proceedings of the commission. Any person summoned to appear before the commission who neglects, refuses or offers no reasonable excuse for non-attendance shall be liable to a penalty not exceeding four hundred dollars.

Any person desirous of appearing either personally or by counsel before the commission and cross-examining witnesses thereat may do so to an extent and on terms the lieutenant-governor-in-council is empowered to retain counsel to assist the commissioners in their investigation and pay for the services of such counsel out of the public moneys of the province.

It is now thought the session of the legislature will not last longer than one month. Premier Hazen remarked yesterday that he would not be surprised if the session did not run into the month of June at all.

The organization meeting of the public accounts committee was held this morning with all the members present. On motion of Mr. Smith, seconded by Mr. Woods, Mr. Pinder was elected chairman. He thanked the committee for the honor and remarked that he had been a member of the committee on former occasions and had an idea of what was to be done. Instructions were given to have the Deputy Receiver General and Auditor General in attendance tomorrow morning when the committee will get down to business. The first accounts to be examined will be those shown on the balance sheet on page four of the Auditor General's report. The sessions of the committee this year promise to be as interesting as ever.

F. P. Shewin, resident engineer of the public works department, has complied with the request of the mayor to attend the meetings of the harbor facilities committee, and has intimated that he will give all the assistance possible in planning for future development. After the meeting this evening, the committee will probably meet in the afternoon, so that Mr. Shewin will be able to send to his office for any plans they might wish to examine. The two members of the board of trade council to complete the committee, will be named today.

and create much amusement by their mode of campaigning. A disagreement is reported among the Irish on the education question as was the case in the Manchester contest. Voting takes place May 9.

COTTON OPERATIVES REFUSE TO STRIKE Union Agitators Bumped by Hard Working Employees of Magog Mills.

Montreal, May 7.—There is lively evidence of discontent amongst the textile union with regard to their differences with the cotton companies which may lead to a future of their strike against the reduction of ten per cent. in wages which was put into effect on May 1.

The operatives of the Magog Mills today refused to go on strike at a general meeting at which President Gignac of the union and Wilfrid Paquette, secretary of the federation, were both present. While Mr. Paquette is strongly in favor of the strike Mr. Gignac is not enthusiastic and does not seem to be any strongly concerted movement amongst the officials.

The latter, however, at the mass meeting endeavored to persuade the operatives to strike, but after a lively discussion the employees decided to accept the reduction so far as the Magog Mills were concerned and have continued to work.

Harry H. Betts has been appointed inspector of vehicles by Mayor Bullock. Mr. Betts is a South African veteran and the owner of several teams.

Weak Women

To weak and ailing women, there is at least one remedy to be had. But with that, two treatments must be combined. One is local, the other is general. Both are important, both essential. Dr. Shoop's Night Cure is the local treatment. The former—Dr. Shoop's Night Cure—is a topical remedy which acts directly on the system. The latter—Dr. Shoop's Night Cure—is a general remedy which acts on the entire system, seeking the repair of all nerve, muscle, and blood elements.

SHOULD BE WITHDRAWN

The Laurier government should withdraw the election bill lately introduced by Hon. Mr. Aylesworth. After the speech made by Mr. Roche in Parliament yesterday the attempt to substitute a new list for the provincial voters' lists in Manitoba stands thoroughly discredited.

LIQUOR FRAUD

The manner in which the liquor laws are violated is illustrated by a discovery lately made in this city. The evidence is not yet in such form that the law can be set in motion to punish the wrong-doers, but it is known that from quantities of ale in bottles the labels have been removed and other labels put on, which represent the contents as a non-alcoholic Pilsener beer.

might also be exposed. It is that of having a home-made decoction in bottles from which imported liquors have been consumed. So long as liquor is permitted to be sold there should be a rigid inspection.

TARIFF REFORM GAMES

It was observed by this paper not long since that there seemed less difficulty in healing the differences between the free trade and protectionist wings of the Unionist party than in reconciling the various factions in the Liberal party in the United Kingdom.

Commenting on the fact that this proposition was accepted with favor by Sir Robert Cecil's supporters, the Toronto News remarks that other free-trade Unionist associations may favor the same plan of action, and adds:

TRADE WITH WEST INDIES

Of the growth of Canadian trade with the West Indies the Maritime Merchant in its last issue made this gratifying and encouraging statement:

The addresses at the Union Club last evening were of a nature which should give encouragement to the new city council and enlarged board of trade to put forth vigorous efforts for the promotion of the industrial and commercial interests of St. John.

The discussion in the Canadian senate on the pulp-wood question was of an illuminating character. It showed that Canada is suffering loss by permitting its pulp-wood forests to be depleted to build up industries in the United States.

The federal government, before submitting the proposed amendments to the shipping act, sent for representative shipping men from various parts of the country. They were unanimous in recommending one course. The government has pursued another. Why the expense of these delegations whose advice was rejected?

The operatives of the Magog Cotton Mills have declined to respond to the call to go out on strike. The industrial outlook is not so bright that they care to risk the loss of work and wages.

The Exhibition Association has made a good beginning in its effort to secure larger and better exhibits of farm produce and livestock. This should be a great feature of the fair.

At last there seems a prospect of getting a patrol wagon for police service. It has long been needed.

SOME OBJECTION TO NEW HYMNAL

There is undoubtedly considerable feeling in the Church of England circles that the new Book of Common Prayer should not go out to the public in its present shape. It has to be presented to the general Synod for ratification next September, and it is felt that if it did not pass that body with entire unanimity the object aimed at in issuing the new hymnal would be frustrated.

THE SCHOOLBOY BRAIN. One of the most substantial and genuine of delights for those of humorous appreciation consists in a study of the answers made by schoolgirls and schoolboys in examination papers. A writer in the current "Harper's Weekly" has collected a new batch of these, which the following specimens are among the most choice:

"Blood consists of two colorless-red colorless and white colorless." "Asked to explain what a buttress is, one boy replied, 'A woman who makes butter'."

"One pupil defined primrose as 'the wife of a Prime Minister.'" "Gravely was discovered by Isaac Walton. It is chiefly noticeable in the autumn, when the apples are falling from the trees."

"To the question, 'What is a limited monarchy?' this answer was returned: 'A limited monarchy is government by a king who, in case of bankruptcy, would not be responsible for the entire national debt. You have the same thing in private life in limited liability companies.'"

STOCK GAMBLING LOSSES
TOTAL UP ENORMOUS SUM
Fully \$100,000 Wasted During the Last Seven Months by Playing the Stock Market.

(New York World.)
The big Stock Exchange failures and the slide of a prominent Stock Exchange broker, happening within the last six months, have caused a shuddering among Wall street speculators, who dread their own names upon the special session of the Legislature which is to deal with the rising movement for a legislative committee on the race track.
It is a terrible significance of the ruin of the Melnyre Co. and of Coster & Co., resulting as the crumblings of a hand house did, in the death by his own hand of Charles Coster, the operator who is not lost upon Wall street, but now fully realizes the growing publicity against the evils of stock gambling and the rising movement for a legislative committee on the race track.
It is a terrible significance of the ruin of the Melnyre Co. and of Coster & Co., resulting as the crumblings of a hand house did, in the death by his own hand of Charles Coster, the operator who is not lost upon Wall street, but now fully realizes the growing publicity against the evils of stock gambling and the rising movement for a legislative committee on the race track.

in the last twenty-five years. The Coster tragedy was the outcome of a speculative career intensely typical of Wall street and its methods. Charles Coster was what is known as a "popular" broker, with a keen facility for trading that made him envied by many members of the exchange. Years ago he and his brother, William B. Coster, dealt on the Produce Exchange. Then they branched out as Coster & Martin. In 1922 they failed for \$4,000,000 as the result of a disastrous bull pool in the Chicago wheat pit. Their downfall was accomplished by the Armour clique. In 1923 the Costers reorganized as a New York Stock Exchange firm. Several years ago they distributed under James R. Keene's direction huge blocks of United States Steel stock.
Stock gambling ruined Coster and through him, his firm. Like all the other members in Wall street, he took every precaution to cloak his speculations in secrecy. In the bull movement before the panic last year he cleaned up nearly \$2,000,000. His success encouraged him to plunge deeper and deeper in speculation, and he was so blinded by the game that he could not realize that the market had rallied, but kept on selling Steel short at 23, with the result that everything he possessed or that he could get his ditches in was swept away.
He lost \$1,000,000 of his own estate, and gambled away \$200,000 entrusted to him for investment by his mother-in-law, Mrs. Anthony, besides many thousands owned by various relatives. The firm's indebtedness is estimated at \$1,000,000.
His surviving partner, J. M. Knapp, according to Assignee Werner, lost his own personal fortune through Charles Coster's speculations. W. B. Coster had withdrawn from the firm a year before the crash. Not even Knapp, the latter says, knew that Coster was speculating.
The Wagner bill was drawn to prevent the evils exemplified by Coster's later career. The bill requires every stock transaction to be a matter of public record, thus preventing that secrecy which alone enables the gamblers, whether they use their own or other people's money, to hide their hazardous transactions.
"The Melnyre crash," says Thomas A. Melnyre, the head of the concern, in a sanitarium, an alleged wreck from the tremendous nervous strain of speculative operations. It has been charged that securities entrusted to the firm's employees have so far been unobtainable. There are other charges which the courts, it is said, are to be called upon to hear. The firm long on credit, and so got caught both ways. The disastrous speculations are attributed to one member of the house, who operated without the knowledge or consent of his partners. Millions of dollars were lost in the crash.
The "race" on the race track bet in the open. Practically all of the tremendous volume of Wall street stock gambling is done in secret. Publicly would kill the game and render stock trading to legitimate transactions.
The losses to banks and trust companies in the late panic, through suspensions and impairments of capital due to speculation are estimated to have exceeded \$200,000,000; the individual losses sustained by C. T. Barney, C. W. Morse, the Heinzes, Thomas Melnyre and Coster approximate \$20,000,000; the general loss to investors of the brokers and individual financiers is figured at \$25,000,000—making a vast aggregate of \$100,000,000 swept away in the vortex of stock gambling in one brief period of seven months.

THE TRAVELLER'S LIFE ASSURANCE CO. OF CANADA
The syndicate headed by J. W. Pyle, iron and steel merchant of Montreal, which secured an act of incorporation for the Traveller's Life Insurance Company of Canada at the present session of parliament, is perfecting its plans to launch the company.
The company is chartered to do a life insurance business, subject to the latest restrictions of the insurance department and the new federal legislation based on the report of the insurance commission.
A license will be issued by the insurance department shortly, and the company will in all probability open offices simultaneously in the larger cities of Canada. A large part of the stock has already been underwritten.
The head office of this new company—The Traveller's Life Insurance Company of Canada—will be in Montreal.
It is the intention of the Elder Dempster Steamship Company to offer an especially favorable opportunity to persons desiring to visit Quebec during the territorial celebration to be held there from July 20th to 25th. The company's modern and elegantly equipped steamer "Borna," now plying between Halifax and Mexico, will leave Halifax at dates to be announced later, for Montreal via Sydney, affording passengers a stay of four or five days at Quebec and a similar period at Montreal and return to Halifax after a delightful trip of from 18 to 20 days.
As practically all the hotel and boarding accommodation at Quebec has been spoken for, and hotel proprietors are, it is said, endeavoring to provide accommodation in the form of tents on the Plains of Abraham, passengers by the "Borna" will be privileged to live aboard the steamer, which offers splendid cabin accommodation and excellent cuisine.
Particulars can be had of J. H. Scammell & Co., the company's agents here.
Dr. W. H. Simon returned to the city last evening.

Pimples and Blotches

Are not the only signs that a blood-cleansing, tonic medicine is needed. Tired, languid feelings, loss of appetite and general debility are other signs, and they may be worse signs.
The best blood-cleansing, tonic medicine is Hood's Sarsaparilla, which acts directly and peculiarly on the blood, ridding it of all foreign matters and building up the whole system. This statement is verified by the experience of thousands radically cured.

BIBLE MISSIONARY HERO.
George Buskin, agent and missionary of the evangelical college mission of Algoma and the north-west, is making his annual visit to St. John in behalf of his work of disseminating through those districts Biblical literature, which has been supplied by the mission's agency in 23 languages, and many thousands of books and tracts have been published in 5 languages for the work. The second part of the bilingual dictionary in the Indian and English languages is in progress of completion, the two editions costing over \$1,200. There have been 30 editions of books and tracts published by the mission for its work in various forms, incurring much labor and cost in addition to the cost of travelling.
The missionary gratefully acknowledges \$15 contributed last year in St. John. The list is still at 209 King street, east, Toronto.

THE SPRING STYLES
Surely one of the prerogatives of doing things well should be the right to tell of it. Our aim is to furnish strictly High Grade Clothing at reasonable cost.
It is our wish therefore to focus the attention of SATURDAY BUYERS upon our Ready-for-Service Spring Suits and Overcoats.

THE CHESTERFIELD OVERCOAT—regular Knee length, fly-front overcoat. Made of Cheviots, Vicunas and Worsted in Black and Greys. Ours is a garment of grace free from the faulty lines of the ordinary ready-made garment of this type.
\$12 to \$25—the latter Silk lined.
THE TOPPER or short overcoat has its following just as sure and certain as any other type of garment. And for those who admire the comfort and convenience, the snap and style of the Topper we have prepared a handsome collection. \$10 to \$20 in colors; \$13.50 in black.

THINKING ABOUT THAT SPRING SUIT?
Our Suits are exceptional values because in quality of materials, workmanship and finish they compare with the high class custom Tailor's productions. Each Suit of snappy style, full of refined Character and Individuality. Priced, \$10 to \$25.

BLUE and BLACK SERGE SUITS—Never such Serge Suits for \$18. We are putting them on Critical Men who have only the greatest praise for them. You never saw better suits for quality, fit, tailoring and style. A New Stock just received.
SUMMER VESTS, THE NEWEST.

The most Dressy part of a Man's Apparel. This Spring the showing here is greater than ever, comprising a large range of sizes, 35 to 46. These are the best makes, Canadian and English, good fitting and most attractive patterns. Prices \$1, \$1.25, \$1.50 to \$4.

THIS EVENING

The Every Day Club, Kirk Brown Company in "By Night of Sword" at the Opera House. Far-off China and other attractions at the Nickel. Members of No. 1 Company 3d Regiment of Artillery who have not received uniforms will meet at their drill shed at 8 o'clock when clothing will also be issued to recruits. St. Luke's Cadet Corps will meet at the armory at 7.30 for drill.

LATE LOCALS

The freshest continues to recede; the falling of today being quite marked. C. P. R. S. S. Empress of Ireland bound for Liverpool passed 150 miles west of Fastnet at 11 p. m. yesterday. The river boats arriving at Indiantown this morning brought very little freight; the inclement weather being largely responsible for smallness of the quantity. Ald. J. W. Vanwart, Donaldson Hunt, John Lipsett and Geo. W. Slocum returned last evening from a fishing trip at Clarendon. They brought home over 100 trout. All members of No. 1 Company 3rd Regiment Artillery who have not yet received clothing are requested to meet at the drill shed tonight. Drill will begin on Tuesday next.

The majority of the constables appointed at Monday's meeting of the common council have been sworn in by His Worship the Mayor, and are now authorized to serve executions, etc. A "Dutch Market" will be held in Trinity Church Sunday school, on Tuesday evening next from 5 to 8 o'clock. No admission will be charged, but tea will be conducted on the European plan. C. P. R. tug Cruiser, Captain Stevens, will sail for Montreal this afternoon if the weather clears up. The tug during the winter port season did excellent work. She will return here in the fall. Steamship Dalhousie arrived off Partridge Island at noon today from Bermuda Windward Islands and Demerara with a general cargo and some passengers. She will come up to her berth this afternoon. James A. MacKinnon, teller at the Bank of New Brunswick, has resigned from that institution and will leave tomorrow for a visit to his home in Summerside, P. E. I. before taking up further duties. At the Board of Trade meeting this afternoon, the "booster" committee will submit the names of 22 new applicants for membership. Addresses will be delivered by Hon. J. D. Rolland and G. M. Murray, of the Canadian Manufacturers' Association. At the quarterly meeting of St. Andrew's Society last night a committee was appointed to arrange for securing suitable rooms for holding meetings. The thanks of the society were extended to R. B. Kessen for a subscription to Scotia published in Edinburgh, Scotland. Sale of high class ladies' costumes and spring covers and black coats at F. W. Daniel & Co.'s, Charlotte street. All are this season's latest designs and from the very best manufacturers. Remember also the sale of artificial flowers now on in the Military department. See Advertisement on page 5. C. A. French and J. W. Menzies, of the astronomical department, Ottawa, are at the Royal and will be in town for several days engaged in taking observations from Fort Dufferin, for the purpose of computing accurately the latitude and longitude at a certain point on the West Side of the harbor. The discharge of a large quantity of cartridges at the provincial hospital, has caused dissatisfaction among many supporters of the government. Lancaster is claimed that a friend of the government getting very small pay has been discharged without cause while higher salaried officials who openly opposed the present government are retained in office. Vigorous protests have been made.

POLICE COURT

Frank Gallagher, who was arrested last night for drunkenness and refusing to move away from the door of North End Public Library, charged with breaking a window in Benjamin Lavigne's house, Main street, was before Judge Ritchie this morning, when he was fined \$4 or ten days for drunkenness, and \$20 or two months in jail, for breaking the window. James Logan was fined \$4 for drunkenness, and Patrick Birmingham was taxed \$8, or two months in jail, on a similar charge.

PROBATE COURT

Julia A. Clinch estate, widow of Chas. F. Clinch of Moncton, N. B., will approve. After making some devices and bequests she leaves the residue to her son, Frederick S. Clinch, and her daughter-in-law, Nellie C. Clinch, and appoints her sons, C. Calvin and Frederick S. Clinch, executors. No real estate; personal property \$1,800. Barnhill, Ewing & Sanford, probators.

PERSONALS

Rev. Dr. McIntyre left this morning for Newcastle. Miss Gerow, hospital mission nurse of India, is visiting her sister, Mrs. Triton, Duke street. Frank J. McCafferty, city editor of the Telegraph, and bride, returned to the city on today's Boston train. Geo. A. Reicker came in on today's Boston train. Rev. J. J. McCaskill, of Fort Kent, Maine, will supply the St. Matthew's Presbyterian church for a short period. Rev. Mr. McCaskill will be in the city to take the services Sunday. Ald. J. W. Vanwart will leave tomorrow on a trip to Boston and New York. He will be away about a week.

FUNERALS

The funeral of James McManus was held from his late home, Silver Falls church, where service was said by Rev. Father O'Neil. Interment was in the new Catholic cemetery.

ANYTHING AT A PINCH.

The goat peered into the yard. It was Monday and he was hungry. "I'm starving," quoth he, "but I must do it." "Do what?" inquired a stray horse. "Take in washing," responded the goat as he broke through the fence.—Judge.

DIGBY MEN MAY HAVE BEEN LOST

Fears Entertained for Safety of William Melanson and His Son--His Boat Found Bottom Up.

Digby, N. S., May 8 (Special).—A telephone message has been received here saying that William Melanson and his 15-year-old son Rodney, who left French Beach, East Ferry, at 12.30 yesterday in a small flat bottomed boat to get a suitable mooring stone for their large fishing boat, did not return during the afternoon as expected. Neighbors, many of whom are boatmen, commenced searching for them, with the result that Mr. Melanson's boat was found bottom up near the shore on the east side of Petite Passage. Search was at once commenced for the bodies, but it is feared they have drifted into the bay of Fundy on the flood tide and will never be found. Mr. Melanson had for many years been one of the mail drivers on Digby Neck and was well known throughout this part of the country. He leaves a widow and two children, an aged father and one sister.

MONEY WAITING FOR HER

A New Brunswick Woman Has Nearly \$500 Waiting For Her in Boston Bank.

Boston, May 8.—(Special).—The latest report of the Bank commissioners of the state of Massachusetts states that there is over \$367,000 in the savings banks of the state for which claimants are waited. In Boston alone there is almost a quarter of a million dollars lying idle and depositors are being hunted high and low. At the five cents bank on School street, the most popular institution for working people's savings in the city, the treasurer Joseph Holmes, has asked that there be located a woman named Mary Ann Hurley, whose address is given on the books there as New Brunswick. Interest has been accumulating against the woman's account for over twenty years and she has now waiting for her \$469.24.

OBITUARY

Edward Robertson Moncton, May 8.—The death occurred suddenly at 10.30 last night of Edward Robertson, one of the oldest residents of Moncton. He was 78 years of age and had lived here nearly all his life. He lived in St. John for a time where he was engaged in the lively stable business with his brother, the late C. A. Robertson. The only surviving member of the family is Mrs. Hiram Humphrey of Newcastle, a sister. He was unmarried.
