ASTOR MILLIONS TO OLD COUNTRY

Speculation on Statement by Mayor in Election Speech

Says He is Transferring His Wealth from the United States—Large Portion of Vast Fortune Left by Wm. Waldorf Astor to Sons.

(Canadian Press Cable) London, Nov. 3.—A remark made yesterday by Mayor John Jacob Astor, who said: "I am transferring my wealth from the U. S. to this country," was treated as a big item of news in the morning papers. One headline reads: "Astor Millions Coming Here." By some it was assumed that the mayor, who is a brother of Viscount Astor, merely referred to his recent investment in Lord Northcliffe's share of the London Times stock which he and J. A. Walter purchased for more than six million dollars, but others gave the remark a more sensational turn.

Major Astor, who is contesting for a seat from Dover in the coming elections, made the statement in replying to a heckler who inquired whether he was going to expose his own wealth to British taxation.

New York, Nov. 3.—The realty and personal holdings of the late Baron (Wm. Waldorf) Astor in the U. S. totalled more than eighty million dollars, according to a referee's report filed last March.

Of this vast fortune, in which Major Astor participates with Viscount Astor, his elder brother, fifty million dollars is reported in reality. The property was conveyed to the two sons in trust in 1919 and the income from that source placed at \$8,500,000. In addition Major Astor was given outright by his father Manhattan realty valued at more than \$7,000,000.

Several pieces of New York property have been sold by Major Astor in the last few years, but it is considered unlikely he will dispose of all real estate in this country, but rather will transfer his income or personal property to England.

Major Astor, in conjunction with John A. Walter, recently purchased the late Lord Northcliffe's London Times at a price stated as \$6,075,000.

Boston, Nov. 3.—The Bethlehem Shipbuilding Corporation, Ltd., of New York, owner of the Fore River shipyards at Quincy, has purchased the \$1,500,000 plant of the Simpson Drydock Corporation at Jeffries Point, East Boston. The deal gives the combined-plant-of-Boston movement a decided impetus.

S. Willey Wakham, general manager at the Fore River plant, has taken charge of the Simpson plant, which hereafter will be known as the Bethlehem Shipbuilding Corporation, Ltd., Simpson Drydock Plant.

The Simpson drydocks were built in 1886. At present 150 men are employed and when the plant is running at capacity 325 are employed.

Willing to Be Candidate. Montreal, Nov. 3.—To a deputation of French and English speaking residents of Jacques Cartier, Alphonse Decarie said he would accept a Liberal nomination for the county in the federal parliament if it were formally made at the county convention.

London, Nov. 3.—The last general election was the first in this country when all the constituencies in which there were contests polled in one day, while the results were also all declared on one day. So far the parallel holds good, but as the delay for the receipt of absent voters' papers has been allowed, results at the present occasion will not all be declared on the same day. Fort William, Ont., Nov. 3.—With his bare hands, J. W. Tripp, a farmer, killed a big wolf at Cloud Bay, and his pet today was presented to Geo. Coe, clerk of the court here, for government bounty. When Mr. Tripp visited his trap he found a wolf nipped by one leg, but in a lightning mood, dazed by companions to engage the forest marauder in close combat, Mr. Tripp accepted. On the Cloud Bay farm there then commenced an hour's engagement which might have delighted hunters of the Roman amphitheatre. Circling around, seeking an opportunity to get in the first kick, the man lunched himself through the air, landing with his knees on the animal's back and his hands on his throat. When the gripping fingers finally held the wolf's throat until all breath was gone, Mr. Tripp fell across the brute's body entirely exhausted.

BODIES FOUND IN ROCHESTER ATTIC

The Mummified Remains of Three People Dead Probably Twenty Years.

Rochester, Nov. 3.—Two men exploring an attic in an old building in Main street west discovered an undertaker's rough box. When opened the box was found to contain three bodies, one of which was that of a young woman. Tonight Coroner Thomas A. Killip said he believed that the three had been dead more than 20 years and that in all probability they died from natural causes. In the case of the woman, it appeared that an operation of some character had been performed on the remains. But whether it was done before death or was part of an autopsy the coroner could not determine. The identity of the remains is unknown. The box was found by Charles L. Cary and Ben Barthe, new tenants in the building. Curiosity induced them to force the cover from the box. A mass of gray hair and whiskers and the staring eyes of a corpse were revealed, and both men fled from the attic. Believing foul play had been done, the police were notified. An examination showed three corpses in the box. In the bottom of the box lay a young man, face downward. The woman's body had been placed next to that of the younger man, and the aged

CHINESE SEND HOME REMAINS OF MANY DEAD

Boston, Nov. 3.—The steamship Esther Dollar, to sail from here for the Orient on Nov. 15, will carry with her the bones of 330 Chinese who have died in New England, some of them as long ago as 1888.

This part of the shipment, 380 tin boxes each inscribed with the name of a Chinese and the date of his death, will be landed at Hong Kong, where relatives of the dead will claim the remains for interment in ancestral soil.

The work of exhuming the bodies from cemeteries throughout New England is still proceeding.

TRAGEDY AT SEA. Upon the arrival of the steamer Inca from San Domingo yesterday afternoon the story of a tragedy at sea was unfolded. The ship left San Domingo on October 29 and on the second day out the captain, Thomas M. Barnette, committed suicide by shooting himself.

He was found in his cabin shot in the right temple with a revolver lying close by. He was said to have been worrying over personal matters. First mate Christensen took command and headed the ship for Turk's Island when the body of the captain was interred. The Inca brought 1,400 bags of raw sugar to the refinery. She is expected to leave tonight.

MILK ADVANCES. Milk advanced in price to thirteen cents a quart this morning. At a meeting of the milk dealers last evening another offer was authorized to be made to the Kings county producers but it was said to be very unlikely that it would be accepted. J. N. Riley, president of the Milk Dealers' Association, said last evening that he had been notified by Heber Wilcox of Norton that the farmers would accept fifty-three cents a can if the dealers would pay the freight and accept the offer as once. It was decided last evening to offer the farmers fifty-five cents a can f. o. b. St. John equal to fifty-two cents net. A producer in Kings county said unofficially last evening that he feared a tie-up would result.

FORMER CROWN PRINCE AT DOOR FOR WEDDING. Doorn, Nov. 3.—Former Crown Prince Frederick William arrived here yesterday for the wedding of ex-Emperor William and Princess Hermine of Reuss on Sunday. He brought with him a truck full of baggage, most of which was presumed to be uniforms for the various functions. The measures for maintaining secrecy as to the newspapers in their entirety is increasing as the wedding day approaches.

Are Your Corsets Comfortable? They should be, for that is really why you wear them. True corset comfort comes only from accurate designing. Fullness should be given where fullness is essential. Strong, but flexible, boning must come where it is needed to give easy comfortable support. Hose supporters must have the strength and elasticity to keep the corset always in its proper place. Warner's Rust-Proof Corsets MADE IN CANADA are designed by Specialists who know the needs of the figure. Each pattern is fitted, revised, graded, and refitted on living models over and over before it is finally approved. And then, in order that the finished corset will keep its shape and give the service that it should, we hold to long established standards of material and construction. Consequently Warner's are not the cheapest corsets, but we believe them to be the most economical corsets you can buy. There are models as low as \$1.50, but it pays to buy better corsets, and we recommend \$2.00 as a minimum price to pay on the market costs of to-day. At \$3.00, \$4.00, \$5.00 and up, there are other Warner Styles, and at each successive price you will find value for the money paid—in Style, Comfort, Wear, and general satisfaction. WARNER BROS. "Drego had made a new man of me. I have gained four pounds. That's the highest praise and recommendation Drego for anyone suffering as I did should give Drego a trial."

"Drego, the great herbal remedy, acts on the stomach and aids in digesting the food; stops the formation of gas; relieves constipation, strengthens the kidneys, purifies the blood, thereby banishing rheumatism."

HAS LITTLE HOPE FOR HUMAN KIND

Rt. Hon. Arthur Meighen Despairs Over Lower Class Increase.

Ottawa, Nov. 3.—That mankind was multiplying from beneath, and that the lower classes were increasing, was the subject of an address on "What counts and what destroys" before the University Club of Ottawa at its luncheon on Tuesday evening.

Mr. Meighen declared that the superstructure of civilization was now being heaved and water, while the pillars that supported it were becoming narrower. To offset the forces that would destroy civilization, it was necessary to propagate more of a strong, virile race who would accept responsibilities incumbent on them.

WALKERVILLE, ONTARIO, INTRODUCED HYDRO IN 1914.

Mr. M. J. McHenry, manager of the system, writes: "The operation of the Hydro-Electric system has been very satisfactory, a surplus having been shown for every year."

The total accumulated reserves at the end of 1921 is \$110,834.74. The total value of plant owned and operated by the Commission at the end of 1921 was \$313,755.36.

Of this amount \$194,254 has been provided by debenture issues, the balance being obtained from reserves on operating account. All interest and principal payments on debentures have been provided out of operating revenue so that nothing has ever been paid in taxes by the residents of Walkerville for the hydro system."

The chief subject of speculation in British politics today is the possible effect of Labor's defeat in the municipal elections upon the parliamentary contest. It is said that the vote in municipal campaigns is smaller than in national elections, and that a better showing may be made in the latter; but the blow received in the former justifies a belief that there is a general swing of popular feeling away from the Labor party's programme.

There is now a rumor that the Lloyd George and Asquith Liberals may coalesce, but no leader appears to have indicated such a course. The Conservatives are very confident of victory, and are conducting a most vigorous campaign. Mr. Lloyd George is still silent.

There are cheap grafters, hired assassins and other such persons in St. John. Therefore the city should go on paying tribute to the New Brunswick Power Company. Good logic—what?

The decline in immigration into Canada emphasizes the need of a Dominion wide policy to secure desirable settlers.

There is a gunman abroad in St. John, as well as in Halifax.

In reply to all criticisms of hydro in Ontario are the cheap rates for light and power which the people enjoy. These cannot be hidden. We want similar cheap rates in St. John.

Miss Agnes Adamson.
The death of Miss Agnes Adamson occurred on Wednesday at the residence of her niece, Mrs. W. H. Maxwell, Granville street, Bridgetown (N. S.). She had lived in St. John and Boston until

LUMBER STILL BURNING

The fire, which devastated Stetson, Cutler & Company's mill at Pleasant Point Wednesday, was still burning in some of the lumber piles early this morning. It broke out afresh last night after the water supply from the pond nearby was exhausted. A call was sent for the Neptune and as soon as the tug could get through the falls she pumped two streams into the flames thus averting for the time being danger which threatened other lumber piles and property nearby. It is estimated that over \$60,000 worth of lumber was destroyed, including one pile of eight inch stock containing 800,000 feet. Most of the insurance was placed by Boston agencies a comparatively small amount being carried by local firms.

**BASIL KING HEARD
BY CANADIAN CLUB**

Basil King, author of the Inner Shrine and other books, gave a deeply interesting address before fifty members of the Canadian Club at Bond's restaurant last evening, urging upon those present the value of native literature. He is traveling in the interests of the Canadian Authors' Association. After the uncheon the club president, Sheriff Amos A. Wilson, introduced the speaker.

In opening his address, Mr. King said he was not asking Canadians to read only Canadian books, but the idea was to have Canadians take a deeper interest in all branches of creative art.

He referred to the history of several old-time nations, and pointed to Tyre and Sidon, which were populated by a merely trading people. The present generations knew nothing of them, excepting from references in the writings of other nations. From this he pointed out that the arts were enduring and linked up the past with the present. He said that people had asked if Canada was a nation. Canada would not be a nation until she had developed an art. In Europe the smaller countries were nations. Each had originated something definite and expressed itself. Canada had not done this so far. He likened a writer to a volcano which threw out the flames and lava, not from one little spot in the hills but from a very large area beneath. So the authors were expressing the ideas of the people of the country.

In Canada there had been great progress, but he felt that she needed more stimulation of the imaginative faculties of the people. Canada was credited in imagination. It was the imagination which caused the people of the old lands to come to this country. They had seen a vision and had set out to realize it. People here should carry on with the vision, expanding as they go.

He referred to progress made in Canada, and particularly mentioned the advances made in St. John during the last forty years since his last visit here. He saw St. John now as a small big city.

He urged the people to read, for in this way their imaginations were made more active and they became better acquainted with the appealing words that in heavy applause it endeavored to give what it was once said no speaker ever did get a rousing success. Mrs. Raymond presided.

Mr. King disabused the minds of his hearers of the impression that the Canadian authors' book week was an attempt of authors to boom their own wares. The financial backing of the week was unimportant in his view of sales elsewhere, he said. The object of the association was to arouse a consciousness of the importance to any country of its own creative art.

Those countries were nations which had contributed their own self-expression that was a source of personal enthusiasm for every individual in that country.

He explained that it was necessary for Canadian authors who wrote in English to live near New York or London as these were the two big publishing centres for books in English and if they did not, they were not expected, he declared, because he lived in the United States, and, to tell the truth, he was very homesick.

Mr. King spoke of the writer, painter, musician and all creative workers as expressing the soul of the people, and said that, according as the soul of the people was great or could be the product of the creative worker, he then went on to show the value of stimulating a consciousness of the importance of creative art. It would develop imagination, the greatest gift with which God endowed man. No great work had ever been under-

taken except it had been backed by imagination. As infants had a faculty of knowing what food was good for them so adults registered their needs of imaginative life, and depression was due to inhibitions. Depression was a sign that the fire of imagination was burning low. A rut was the thing to be most afraid of and it should be never be said of any place that there were no opportunities there. Opportunities were obvious everywhere, as obvious as God who was seen in all the beauties of nature. Much was said about the Jews in New York but the reason the Jews succeeded was because they had imagination and saw the opportunity before the Anglo-Saxon whose imagination moved slowly.

Speaking as a native of the Maritime provinces, he asked in all good fellowship whether the retarded development of the Maritime province might not be due to the fact that the most imaginative native-born sons and daughters had got up and gone away. If that should be true then the remedy would be found in stirring up the imaginations of those who remained. He wondered who had invented the term "Christian resignation," for that frame of mind was the most corroding. The content was good which was a content with the present work only as a means of expansion. He said Canadian authors were of good use to Canada in that they expressed the Canadian viewpoint even if they did not live in Canada. He referred to Bonar Law and Lord Beaverbrook as springing from a dynamic country which produced more than it could assimilate and also as being stimulated by mutual sympathy because they came from the same land, New Brunswick, and had drunk from the same national spring. In conclusion, Mr. King declared all that the authors' association was asking of the people was that they should really care.

In eloquently moving a vote of thanks, Mrs. John A. McAvity referred most appreciatively to Basil King's book, "The Conquest of Fear," as having given a vision that the renaissance of creative art was essential to national reconstruction. Mrs. R. O'Brien seconded the vote of thanks which was given with hearty unanimity. In replying to a request, Mr. King explained his latest novel had been founded on the story of George Gleason's marriage to the first woman he met in the street who was willing to accept him after his engagement to the woman of his choice had been broken. Mrs. Blake Ferris sang charmingly, and the National Anthem brought the meeting to a close.

**MANY ENJOY THE
SPICER CONCERT**

A capacity audience in Centenary Hall last evening were delighted by the rich baritone voice of Earl Spicer, the young Nova Scotia singer, whose execution of a varied programme seemed to be even better than during his last appearance here. Encores were demanded on every piece sung, and Mr. Spicer met the wishes of the audience. Among the encores he sang "Dinah," "Young Tichard," "Floral Dance" and "The Soldier."

Mrs. Francis Bell, who was formerly a member of the staff of the St. John Conservatory of Music, and has played for some of the largest radio broadcasting stations in the United States, assisted Mr. Spicer. Her playing was well received and greeted with great applause.

PRESENT CASE FOR MAGISTRATE

Barristers Ask Full Pay Superannuation Allowance

Speak in Support of Hon. R. J. Ritchie Being Allowed to Retire on Present Salary—Playgrounds and Other Matters.

A delegation from the St. John Law Society, appeared before the city council this morning and urged that the city agree to the retirement of Hon. R. J. Ritchie, city magistrate and judge of the city court, on an allowance equal to his present salary, \$8,000 for the rest of his life. It was pointed out that Magistrate Ritchie was in his eightieth year, that he had given thirty-three years service as city magistrate and had expressed a willingness to retire. The delegation included Hon. H. O. McInerney, judge of probate, J. H. A. L. Fairweather, president of the law society, H. Porter, K. J. MacRae, L. P. D. Tilley, K. C. and J. B. Dever.

Magistrate Ritchie had been in receipt of a salary of \$8,000 for the last twenty-seven or twenty-eight years before that it was decided to pay him that for the last ten years at least, he was of the opinion that the amount had been inadequate. The judges of the supreme and county courts had received increases and he felt that if the magistrate had received advances in the same proportion, he would now be receiving about \$5,000. He felt that \$8,000 was a fair salary for the work he had given over the years and he understood that this was the reason for the fact that there had been no applications for the position to succeed him. In the superior courts a judge was retired at 80, and he thought this should be applied to the city court.

Speaking for the younger members of the bar, Mr. Dever said that Magistrate Ritchie had given him every assistance and he trusted that his successor would carry out his duties as well as those of Magistrate Ritchie. He thought that the magistrate should be retired on his full allowance. Mr. Porter stressed the point that the magistrate had been overpaid for some years and he understood that this was the reason for the fact that there had been no applications for the position to succeed him. A KISS AND HIS FINE MONEY FOR AN ERRING SON

The usually drab proceedings in the police court this morning were tinged with pathos that could not fail to make its appeal to any heart, however hardened, to scenes of sorrow and suffering brought about by failure to recognize the laws of God and man. Two men were in the dock charged with drunkenness. One of them was about twenty-five years of age. When his name was called a sweet-faced woman, his mother, well advanced in years, met him at the door of the dock and, with a pathetic little smile, put her arms around his neck and kissed him, then passed him \$8, the amount of his fine.

When his fine had been paid the prohibition inspectors wanted to interview him, so the kindly faced old lady went down the main stairs and waited at the front door until her son could be restored to her. The way of the transgressor may be hard, but how much easier to bear is the face of the mother, who, blind to sins of omission and commission, sees in a son only the qualities which she would have him endowed and forgive—and tries to forget.

TOM LEE OUT OF HOSPITAL

Chinese More Worried Over Laundry Than About Bullet Fired by Robber.

The detective department is busy working on the hold-up which occurred last night at 48 Dorchester street, in the course of which Tom Lee, a Chinese laundryman, was shot in the back. Tom protested vigorously last evening against going to the hospital, and about 10:30 o'clock requested a meal, which was duly brought. He got up and walked around and seemed to regret the inconvenience and delay caused by the anxiety of the authorities to locate the missing bullet.

So far it has not been located. The X-ray failed to disclose it, as did also a search of Tom's premises. He is not to be in danger unless complications set in. He is far more concerned about his unwashed shirts and collars than about the missing bullet. LATER. Tom left the hospital this afternoon and returned to his laundry.

THREE FROM HERE TO CONVENTION

Rev. Dr. Heine, Rev. F. H. Bone and Hum Wing to Meeting of Chinese Mission Workers.

On the C. P. R. Montreal express yesterday afternoon three delegates to the convention of Chinese mission workers in Canada at Ottawa took their departure in the persons of Rev. Dr. Heine, Rev. F. H. Bone and Hum Wing, laundryman of Charlottetown. The funds for sending the Oriental delegate were raised by mission workers in this city, the contributions coming from various church bodies interested and some from the general public who responded to an appeal published in the Times a few evenings ago. Rather a statement of the financial requirements of the case.

The convention, which is all-Canadian in scope, will open in the federal capital city tomorrow and continue three days. The notable Chinese mission workers of the country will be present and a considerable number of Chinese themselves who have been converted to the Christian faith and are both lay and fellow-countrymen of this quota is Hum Wing, the St. John Chinese church, when the largest Chinese Sunday school is situated.

The other delegates, Dr. Heine and Rev. Mr. Bone, go to the convention as workers and supporters of the Chinese mission effort in this section of Canada. During his late pastorate in the Central church, Mr. Bone was active in the local Chinese field, enjoying the co-operation of that portion of the Oriental citizenship embracing the Christian faith. In having St. John so well represented at the Ottawa convention this city will be in line with Toronto, Montreal, Vancouver, Victoria, Winnipeg, Ottawa and other centres where Chinese social-religious work is well established.

FIRE AT JORDAN MILL NOW THOUGHT TO BE ALL OUT

Provincial Fire Marshall Hugh H. McLellan, announced this afternoon that from all indications the fire in Stetson, Cutler & Company's mill yard was held this morning by Mr. Donald had instituted suit, but was restraining the case from coming to trial in the hope that the city would make an amicable settlement. The case had to do with damage caused by an explosion while work was being carried out at Newmarket brook last year.

URGE LENIENCY TO THE FARMERS

Finances of Manitobans Discussed—This Year's Crop Not a Debt Paying One.

Winnipeg, Nov. 3.—Utmost leniency to farmers of Manitoba who are in difficult financial straits was urged last night at a meeting of business interests, called by Hon. D. L. McLeod, provincial secretary.

The creditors' interests were of the opinion that the government should mediate between the debtor and creditor where cases of unnecessary hardship arose from undue pressure, and suggested the establishment by the government of committees at central local points for investigating cases submitted. Where these committees were unable to make satisfactory adjustment, the matter should be referred to the arbitrator, Mr. McLeod, for final action.

It was conceded that, although the crop this year was probably the largest in the history of the province, the cost of production and the low price obtained meant that all that could be looked for was the payment of liabilities incurred during the present crop year. This year's crop was not a "debt paying" one, and very little of the past debts could be liquidated as a result of its harvest.

WHITE DEER SO STARTLES HUNTERS CANNOT SHOOT

Saranac Lake, Nov. 2.—The first Alamo deer to be seen in Adirondacks this season has been sighted near Ampersand Mountain. Several hunters and others have seen the buck's ghostly outline and have been so startled by the strange creature they have been unable to raise their rifles to shoot.

Dick Disco was one of the hunters suddenly confronted by the white deer, and admits that it so unnerved him that he was unable to raise his rifle to his shoulder. Disco's story of sighting the white deer is corroborated by William Harrington, an observer on the mountain peak.

Another Nimrod saw the deer at dusk of an evening. The animal, as it stood in the mark of the woods, appeared as though carved of marble.

CHINESE IS SHOT BY HOLD-UP MEN

Tom Lee, a Chinese, who runs a laundry at Dorchester and Carleton streets was shot in the back last evening by two men who entered his place of business and ordered him to throw up his hands. Tom refused to do this and started for the back of his shop whereupon one of them fired at him wounding him in the left side just above the groin. Becoming frightened apparently at the sound of the shot the hold-up men made their escape.

The Chinese was unable to give a good account of them which will make the work of the detective department much more difficult. The affair occurred at about seven o'clock. The wounded man who wished to keep on ironing, was taken to the hospital where his condition is not regarded as being critical unless complications set in.

The two kinds of cream your skin needs — what each is for

To give your skin a special freshness and really hold the powder—
a certain kind of cream

Something to make the skin look its best at a moment's notice. Every woman wants to know about it.

Something that will actually make your skin feel and look softer and smoother the moment you apply it.

A cream to do this must be one that your skin will absorb instantly. It must be delicate and made of soothing ingredients yet not contain a drop of oil.

This is Pond's *Vanishing Cream*—the cream to use whenever you want to look your best at a moment's notice.

How to make the powder stay on
If you want face powder to go on evenly and stay on don't put it directly on your face. Powder put directly on the skin seldom goes on evenly and it cannot stay on long. Bits of it catch on little rough places and soon flake off.

Always smooth Pond's *Vanishing Cream* on your face *before* you powder. It gives your skin a clear transparent tone. The powder goes on evenly and clings for hours to the smooth velvety surface the cream gives your skin.

And how to protect your skin
The skin is in constant need of protection. Wind whips the natural moisture out of an unprotected skin, sun burns it, cold chaps it. Any of these three will make it dry and rough. To protect your skin, smooth on Pond's *Vanishing Cream* before you go out. This cream, which is absorbed instantly and completely, holds the natural moisture in the skin and acts as an invisible shield against the drying effect of wind, cold and sun.

Use Pond's *Vanishing Cream* every day before you go out. Use it whenever your skin needs instant freshening and always before you powder. It is indispensable for daytime and evening use.

For cleansing—a cream with just enough oil to remove every bit of dirt from the pores and not overload them

Only a cream that your skin can absorb will give it that clear fresh look in an instant

A totally different cream for a thorough cleansing

Your skin must be kept really clean or it becomes dull looking.

Ordinary washing cannot reach the dust and fine particles of dirt that every day bore deep into the pores of your skin.

For thorough cleansing you need a cream with an oil base. Made with just the right amount of oil, Pond's *Cold Cream* works into your pores, loosens every bit of dirt, and comes out again bringing the dirt with it.

Use it every night before retiring and whenever you come in from a dusty trip. Pat it on with your finger tips. You will delight in its use, as it is very soft and light. After you have let it stay a minute wipe it off with a soft cloth. The grime on the cloth will convince you how thorough a cleansing the cream gives.

Keeps the skin supple

This delicate oil cream keeps your skin supple and elastic. Little lines first appear

when the skin begins to lose its suppleness.

To avoid this, you must give your skin proper attention every night. Smooth Pond's *Cold Cream* into it. The nightly use of this delicate oil cream will help to keep your skin in the supple condition that resists the coming of lines.

Use both creams every day

Use both these creams every day, each for its own purposes, and you will keep your skin fresh and lovely.

Many women have really never known the correct use of creams. They use one cream for all purposes, or a good cream for the wrong purpose, and do not get all the benefit they should.

Go to any drug or department store anywhere and buy a tube or jar of each of these two creams that every normal skin needs for 50 cents each. Neither contains anything that can clog the pores or promote the growth of hair. The Pond's Extract Co., 120-A Brock Avenue, Toronto, Ont.

WHAT HYDRO HAS DONE FOR WALKERVILLE

Lower Rates, More Users, Increased Use in the Homes—System Now Has Accumulated Reserves of \$110,643 and Nothing Added to the Taxes.

From a letter by M. J. McHenry, manager of the Walkerville (Ont.) Hydro System:

"Hydro power was established in Walkerville on August 20, 1914. At that time there were approximately 1,000 domestic consumers, with a maximum load of 1,500 h.p. Since that time conditions have very materially changed, and at the present time the system is serving approximately 8,800 consumers, with a maximum load of 4,600 h.p. Some idea of this increase can be obtained from the following table showing the number of consumers during the last four years:

Table with 2 columns: Year, Domestic Light., Domestic Light. + Commercial.

Coincident with this increase in consumers there has been an increase in the amount of power used, which is indicated for the last four years as follows:

Table with 2 columns: Year, Domestic Light., Domestic Light. + Commercial.

"Hydro has not only effected a large saving for its consumers but it has also enabled the citizens of Walkerville and vicinity to make extensive use of electricity in the home for all purposes. At its inception, the 'Hydro' rates were very considerably lower than those existing at that time, and during the last year 'Hydro' rates were reduced approximately twenty per cent. Estimating on the basis of the domestic consumption during 1921 the saving to the people of Walkerville was approximately \$80,000, based on the current 'Hydro' rates as against those in effect in 1914. The low rates for power have resulted in a very extensive use of electric ranges for household cooking, and at the present time approximately twenty-five per cent of the system's consumers are using electric ranges.

"In 1917 the system established a shop to supply consumers with all types of electric appliances, and in the last four years this end of the business has more than quadrupled.

"Due to this extensive growth it was necessary for the system to obtain larger quarters, and this year a very creditable office and store building is being erected at the corner of Argyle road and Wyandotte street, which will house the offices and hydro shop.

"The operation of the Hydro-Electric system has been very satisfactory, a surplus having been shown for every year. The total accumulated reserves to the end of 1921 is \$110,643.74. The

total value of plant owned and operated by the Commission at the end of 1921 was \$313,765.86. Of this amount \$194,264 has been provided by debenture issues, the balance being obtained from reserves on operating account. All interest and principal payments on debentures have been provided out of operating revenue, so that nothing has ever been paid in taxes by the residents of Walkerville for the hydro system."

BRIDE'S RECEPTION DAY.

Mrs. John F. Belyea held her post-nuptial reception yesterday afternoon at the residence of her mother, Mrs. C. D. Dixon, 85 Wright street, and was assisted by her mother in receiving her many guests. The bride was charmingly gowned in navy blue georgette and carried a bouquet of violet orchids. Mrs. Dixon wore black satin. Presiding over the pouring of the tea was Mrs. C. D. Dixon. In the dining room were Mrs. Griffith Bishop and Mrs. Kenneth Gillies and those who assisted in serving were the Misses Marjorie

Just wipe away the ugly dead cuticle

NEVER use a manicure scissors on the cuticle. This is what causes hangnails and that ragged, frowsy condition of the nail rims that makes any hand look ugly and unkempt.

The thin fold of scarf-skin about the base of the nail is like the selvage edge of a piece of cloth. When it is cut or torn, the whole nail rim gradually ravelled out—just as cloth ravel when the selvage is cut.

You can take off the hard, dry edges quickly, easily, harmlessly with Cutex Cuticle Remover. Work about the nail base with an orange stick dipped in the liquid, rinse, and when drying, push the cuticle gently downwards. The ugly, dead cuticle will simply wipe away.

Once you have begun to use Cutex you will have no more hangnails and the cuticle will always be firm and even.

Two new polishes—just perfected Cutex now offers you the very latest and finest development of two highly popular forms of nail polish—Powder Polish and Liquid Polish. Cutex Powder Polish will give you the highest, most lasting shine obtainable in the shortest possible time with the least buffing. Cutex Liquid Polish goes on with an absolute uniform smoothness, dries instantly, and leaves a lustre that keeps its even brilliance for at least a week.

COUPLE ASPHYXIATED

New York, Nov. 2.—Concluding the Daniel Cohen and his bride, whose des bodies were found on Oct. 29, in the bathroom of their home in Yonkers were neither murdered nor committed suicide, but were accidentally killed by carbon monoxide gas, the authorities have abandoned further investigation into the case. Coroner Frederick Snowden, of Peekskill, agrees with physicians and police that the couple met death by suffocation. The gas in the cooking oven and in the cold heater attached to the hot water tank was lighted and burning when the bodies were found. The investigators say that evidently at the gas was not consumed by the flames and that the leakage destroyed the oxygen in the air, with the result that

the couple were overcome by the impurities in the air and suffocated. The autopsy failed to show any marks of violence on either body.

BRAND NEW ART

STARTLES PARIS
Geometrism More Advanced
Even Than Cubism or Dadaism.

Paris, Nov. 3.—"Geometric art," a
new movement in painting which tries
to express life and soul in geometrical
lines instead of in the soft strokes of
the conventional school of painting,
struck a startling note in the fifteenth
Autumn Salon, which holds its "van-
ishing day" this week.
Artists of ten nationalities, including
Americans, have hung in the exhibition
more than fifty "line pictures," which
make the followers of Cubism seem
loppelically conventional. The contribu-
tors to the new idea are enthusias-
tic over its possibilities, believing their
movement will eventually contribute a
new school of art.
Geometrism treats of conventional
subjects, such as nudes, landscapes and
interiors, but employs carefully worked
out lines according to the rules of geo-
metry. The pictures are said to have
a keen appeal for mathematicians.
Francis Picabia, the Spanish artist
who invented Dadaism, is the leader of
the new method of expression. He con-
tributes two of the most amazing pic-
tures in the Salon, entitled "Leaf of
Vine" and "Spanish Nigra." Natural-
ly, the titles have nothing to do with
the appearance of the pictures, the
motif of which several hundred artists
cannot agree upon.
There are between fifty and sixty
Americans out of the 1300 artists ex-
hibiting. With few exceptions, the
Americans do much to contribute to
the snarer, more beautiful part of
the Salon, the dominant impression of
which is not beauty but frankness.
The nudes, which this year far out-
number all other kinds of pictures, are
in some cases startling and surprise is
expressed that the jury of the Salon,
even in the face of its traditional lib-
erality, approved some of them.

THE MAYOR TALKS FOR TWO HOURS

At Imperial Meeting Says He Did Not Tell All, as Great Pressure Had Been Brought to Bear on Him.

The issues of the recent election and various other matters were discussed by Mayor McLellan at a large public meeting in the imperial theatre last evening.

A portion of the address was devoted to a review of the speaker's connection with the hydro campaign last spring, the stand he had taken at that time and the course which he had pursued since his election to office.

The remainder of the address was devoted largely to abuse of his opponents in the present campaign and of the three newspapers which are opposing him.

Mr. McLellan hinted that he had certain revelations which he would like to make. He hinted to be saying all the time that there were things he could tell, and then not telling them.

In an article appearing in the local press Thursday last referring to the new all-time medical school, Dr. Logie referred to was Dr. W. S. Logie of Chatham, N. B.
