Paris Defence Completed; Now Hear Rebuttal

C. N. R. Conductor Denies that He Received \$3 as Fare From Truro to St. John—Case Continues This Afternoon—Truro Policeman on Stand This Morning.

The defence this morning completed its case in the trial of John Paris, charged with the murder of Sadie McAuley in St. John on August 2. The prosecution started rebuttal but only one witness, Conductor William Capson, was heard before adjournment was made for lunch.

Mr. Capson said that on the night of August 3 he accepted no fare of \$3 from a passenger from Truro to St. John. Further rebuttal evidence will be taken this afternoon.

STILL HOPE THAT JAPS MAY ACCEPT

Intention at Washington Becomes Delicate.

Look for Progress Now Only in Discussion by U. S. and Jap Delegates—Shantung Question Another Stickler.

(Canadian Press) Washington, Dec. 1.—The situation resulting from Japan's formal proposal at the six per cent naval ratio allotted her under the Hughes limitation plan is being discussed by U. S. officials today as a delicate one but not without hope that a settlement will be reached.

Regarding the argument of national security, the U. S. delegates and experts, backed by the opinion of the British experts, hold that the logical application of the Hughes limitation plan is to increase in the naval ratio proposed to Japan, to which, it is known, they are as strongly opposed as that basis as on the shore of a fleet comparison.

Dividing attention with the naval situation today was the first meeting of the representatives of China with Secretary Hughes and Arthur J. Balfour, British foreign secretary, to lay a basis for negotiations leading to a settlement of the celebrated Shantung controversy.

IMMIGRATION MEN NOT IMPRESSED

Rock Dance of Protesting Dookhobors Fails to Sway U. S. Officials.

ANCON, Dec. 1.—Three men from Dookhobor settlement near Nelson, C. B., discarded all their garments in a protest dance when they were refused admission to the United States. They were arrested by Vancouver police on a charge of disorderly conduct.

WICH HAND OVER CITY OF ADANA TO TURKS

Constantinople, Dec. 1.—The French officials yesterday formally handed over the city of Adana, Asia Minor, to Turkish civil authorities in accordance with the terms of the recent agreement between the French government and the Turkish Nationalists.

government will not have authority in the next house.

It is not claimed that it will be better. To elect Conservative candidates is to go into opposition to the new government. St. Albert does not want to be a position. It wants a voice in the government of the new government.

MONTREAL SHOOTING AFFRAY

Montreal, Dec. 1.—Bill Horychant, 32 years of age, of 238 Bourgeois street, is in the Western Hospital in a serious condition as a result of a shooting affray at Point St. Charles last night. Alex. Dean, 31 years old, is under arrest. Dean says he shot in self defense as he had been attacked by Horychant and four other men.

Declared Biased in Hearing Liquor Cases.

Secretary of Social Service Council of Canada Will Present Resolution at Convention Asking for Investigation in One Case.

(Canadian Press) Edmonton, Dec. 1.—The Judiciary of Canada was attacked by Secretary H. H. Hull for what he called their apparently biased decisions on liquor cases and suggested impeachment proceedings and removal from their high offices, at the annual convention of the Social Service Council of Canada, here yesterday.

GRANDPA MOOSE TAKEN IN ONTARIO

Hunter Brings in One Eighty Years Old—Not So Many Licenses This Year.

Soo, Ont., Dec. 1.—The oldest moose on record, brought down in this district, was brought in yesterday by O. Strijer. It was an eighteen year old specimen, with antlers of 68 inches, and it weighed 600 pounds. With the close of the season here today it was recorded that there were 820 licenses issued as compared with 850 last year. Hunters from across the border numbered 163 this year, 100 more than a year ago.

YOUTH CONFESSES CRIME TO CIVILIANS, MISTAKING THEM FOR DETECTIVES—HE HANDS OVER HIS SPOILS.

Detroit, Dec. 1.—Goaded so much by a guilty conscience that he thought two men watching him on a train were detectives, a seventeen-year-old boy, John Pietkewicz, confessed to them that he had taken part in a big robbery, and handed the loot over.

LONG TERM LOAN BACKED BY THE NATIONS LEAGUE

Reported London Experts Now Think This the Best Way of Helping in German Financing.

London, Dec. 1.—While most of the London newspapers are looking to a moratorium as the most likely source of aiding Germany, the Westminster Gazette says the experts now think a moratorium is not the best way out of the difficulty and favor a long term loan issued from bonds guaranteed by the League of Nations.

REV. DR. LLOYD NEW BISHOP OF SASKATCHEWAN

Prince Albert, Sask., Dec. 1.—Rev. Dr. George Eton Lloyd, formerly archdeacon of the province and subsequently principal of Emmanuel Divinity College of Prince Albert and Saskatoon, was elected Bishop of Saskatchewan to succeed the Right Rev. J. A. Newham, D. D., on the second ballot by the diocesan synod last evening.

DUTY IN LIQUOR AT QUEBEC NEAR \$300,000

Quebec, Dec. 1.—Nearly \$300,000 has been paid into the port of Quebec by the provincial liquor commission since July. The actual figures are: Customs duties, \$175,598.94; Excise, \$117,000.36.

FRENCH ALTERNATIVE IS RECEIVERSHIP FOR GERMANY AS BANKRUPT

Paris, Dec. 1.—It was said in official circles today that a receivership for Germany as a bankrupt, with an autonomous Rhineland to be exploited by the Allies for reparations purposes, is likely to be proposed by France as an alternative to any moratorium on reparations that may be suggested by Great Britain.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "what records have you in the Settlement regarding the Fenoboots of Maine, four hundred years ago, on the question whether St. John harbor was the winter port of Canada? I am told there were several Indian wars over the question, and that many scalps were taken."

"We haint got nothin' at all about it," said Hiram, "but I haint hearin' an old Injun that was about a hundred years old when he was a little boy say that his grand-father was in a big fight agin the Maine Injuns over somethin' or other— I guess that may be it. The Injuns passed it on to the white folks an' the light has been goin' on ever since."

THIRTEEN DEER HUNTERS KILLED IN MAINE WOODS

Augusta, Maine, Dec. 1.—Thirteen deer hunters lost their lives in the woods during the season that closed yesterday. Four were killed when mistaken for deer, three accidentally shot themselves and one was scalded by a hot boiler.

MICHIGAN DEATH LIST WAS TEN IN THE SEASON WHICH CLOSED YESTERDAY.

Ann Arbor, Mich., Dec. 1.—Ten hunters lost their lives in Michigan during the twenty first season which closed yesterday. Two others are reported missing and a score were wounded.

Preserve Truce Though the Irish Problem Remains

British Newspapers Urge that Conference be Adjourned for Month or Six Weeks, Rather than Break Up—Sinn Fein Expects Further Meetings With Government.

London, Dec. 1.—Preservation of the truce in Ireland, whatever may happen to the peace negotiations, is being urged today by a considerable section of the British press.

It is suggested that this be achieved through adjournment of the conference to a fixed date a month or six weeks hence.

The Sinn Fein publicly department here reiterated this forenoon that it expected further meetings between the government and the Sinn Fein delegates, and it is believed arrangements regarding the truce will be considered at the next meeting.

The original truce terms provided no plan for its cessation, and it is felt, it is said, that even if it develops that hostilities must be renewed, provision should be made fixing a definite date for abandonment of the pact instead of letting the truce break down without notice, which has been considered in many quarters the probable outcome.

LANDRU REFUSES TO ASK FOR LIFE

Dramatic Close of Trial of Bluebeard of Gambais.

(Canadian Press Cable) Versailles, Dec. 1.—Henri Desire Landru, "the Bluebeard of Gambais," smiled last night for the first time since his trial opened. A fishering expression of amusement crossed his face as he listened to the fateful words from Judge Gilbert sending him to the guillotine for a series of the most heinous crimes in the history of French jurisprudence.

"Thank you, gentlemen," said Landru, flourishing his weather beaten hat in a mocking bow to the jury, and he disappeared through the little door leading to the Versailles jail.

"Strange it is that a man standing in the shadow of death should console his defender," Landru remarked at one time to those sitting nearby. He refused to be a party to a petition asking President Millerand to commute the sentence of life imprisonment which was signed, among others, by the jurors.

"I refuse to ask for mercy," he told the latter. "A man like me wants justice, not mercy. You think I am guilty; then let me be hanged."

"I hope the public is satisfied. I give you a rendezvous for the end of February or the beginning of March to show you how an innocent man dies."

Landru seduced his women victims through promises of marriage. After luring them to his villa at Gambais, the prosecution charged that he killed them and disposed of the bodies by burning them in a small stove, after first cutting them into small pieces and crushing the skulls. The stove was one of the principal exhibits at the trial.

To all the forty-eight questions which his court submitted to the jury, on the guilt, innocence or mental capacity of the prisoner, there was a verdict of guilty of premeditated murder. No extenuating circumstances were included in the verdict.

"I am innocent," Landru shouted to the jury. This was the first time in the thirty-two months since he was arrested that the prisoner had used the word "innocent" in public. Heretofore he had contended himself with saying, "show me my guilt; make out your case." Yesterday, however, he was showing more emotion than at any time during the trial.

During the short address he made to the jury, lasting barely a minute, and a half, Landru declared, "I never have killed anyone; I am innocent. Jurors, do you try?"

What information did Hon. Dr. Baxter give last night in regard to government plans for the development of this port? Promises are cheap—but what did he say about the tripartite agreement, the breakwater, the railway station, and better accommodation for steamers on the east side of the harbor? Scatter the chaff and what do you find? Every elector should ask himself or herself this question. The interests of the port of St. John are at stake. Vote the Liberal ticket.

Quebec, Dec. 1.—(Canadian Press.)—It is reported in political circles here that Hon. J. L. Perro, minister of roads in the Tachereau government, will resign his seat in the legislative assembly and will run in Vercheres county for the legislative assembly.

The same report stated that W. F. O'Connor, formerly on the Board of Commerce and now assisting the government on its election campaign, was said to have received \$5,000 for services in revising the dominion statutes.

"I don't know as to the truth of that statement," said the premier, "but anything Mr. O'Connor is paid he has certainly earned."

THIS LITTLE PIG WENT TO MARKET

Man's Inhumanity to Porkers Illustrated in Victoria Sq., Montreal.

(Montreal Herald.) This is the story of a pig that went to market but very much against his will. While citizens were dashing across Victoria Square this morning in a mad effort to get on the job before the boss arrived they were suddenly started by a wild barrage of squeals that rent the frosty air.

They stopped, looked and couldn't help listening, for floundering around in the snow on the west side of the square was a dainty morsel of porcine avoirdupois that tipped the beam at all of 400 pounds on the hoof. Friend pig was headed due south, while on the end of a long rope that stretched from one of his pig's feet sprouted a chap who was trying to disentangle himself from the intricacies of the lasso.

Immediately a crowd gathered around and started handing the gent at the end of the rope a fine line of free advice on how to carve pork chops with a rope. All this time piggie was hitting on all twelve cylinders in the pig language and it resembled a busy night in a Chinese restaurant. Finally, a couple of kind-hearted citizens answered the S. O. S. sent out

by the bird at the end of the leash, who was rapidly beginning to resemble a snowball, and they went to the mat with the pig's ears, while another tried to grab his tail. It was a case of man's inhumanity to pigs for a while, but after His Porkship was thrown to the snow by the aid of the rope he was securely trusted, only after the owner of the pork had got a hefty sample of pig's feet in the eye.

The pig, it appears, was on its way to a local butcher and was reposing in a crate on the back of a sleigh when piggie happened to sneeze and the crate and His Pighship took the air. The skipper of the sleigh finally lashed the pork to the mast and drove off amid a round of cheers from some of the audience and several more brilliant lines of advice.

An alarm from box No. 2 called the fire department to a house occupied by Mrs. Campbell, 28 Sydney street, about 2:45 yesterday afternoon. The fire was in the floor in a corner of one of the rooms and was extinguished before much damage was done.

The big game season in New Brunswick and Maine closed yesterday after a very successful year. The fatalities for the season were heavy. In New Brunswick thirteen hunters lost their lives, two due to exposure in boats; in Nova Scotia, nine; in Quebec, nine; and in Maine, six.

A slight fire broke out early this morning in the house of John Quinn, 305 Chesley street, but was soon extinguished when the fire department apparatus from Main and Portland streets responded. There was little damage done. The alarm was rung in from box 182 at about 1 o'clock and the all out was sounded about a half hour later.

DR. BAXTER'S SPEECH

President Hanna's telegram to Hon. Dr. Baxter says that the National Railways have shipped no freight to Portland that was not so routed by the shipper. Dr. Baxter says the government is powerless in the matter at present as it has not yet secured absolute control of the Grand Trunk. That it to say, the government, which without consent of the people could make a deal to take over the Canadian Northern and the Grand Trunk, could not protect its own ports. Is it not time we had a government that could ensure such protection? There is an idle government grain elevator at St. John. The government, with its great railway mileage to the west, cannot bring grain to St. John, but a foreign port has no difficulty in getting the business. We are not called upon now to consider what the Laurier government did more than ten years ago, but what the Borden and Meighen governments have done or failed to do in ten years. Not only have they failed to protect the national ports and remove any alleged injustice, but they have saddled the country at enormous cost with a large mileage of railways, including some terminals, in the United States. And it was done without consulting the people. The Laurier government is not responsible for that, nor for the far western extension of the Canadian Northern. Neither Dr. Baxter nor the short-lived government of which he is a member can lay upon the Laurier government the sins of its successors. They have had ten years in which to "right wrongs and carry out policies—and what is the result? A crushing burden of railway debt and deficits and a winter port to the state of Maine. The country has had enough of this kind of national development and wants a change. The maritime provinces and their interests have been shamefully neglected. The people of St. John have especially suffered through the abandonment of the policy adopted by the Laurier government and carried out under the direction of Hon. William Pugsley. Hon. Dr. Baxter's harsher last night must have been impressed by the fact that he devoted his time in discussing railway and port matters to an artificial argument to conceal the utter absence of policy on the part of his government in relation to the port of St. John. We read the Standard's report of his speech in vain for any assurance that the tripartite agreement regarding west side terminals is to be carried out, or the breakwater extended, or the railway station built, or better accommodation provided at the east side of the harbor for the government railways and steamships. These are the things the people want to hear about, but Dr. Baxter is silent. He can only confess that the government is powerless to prevent freight going to Portland while the government's grain elevator at St. John is idle and the government railways bringing little or no export freight to this city. If he talked for ten hours he could only confess that after ten years of Borden and Meighen rule St. John is facing a dull winter and Portland, Me., an extremely busy one—thanks to Borden-Meighen rule in Canada. This is the essential fact that will be in the minds of the electors of St. John-Albert on Dec. 6. As to anything the government candidates may promise for the future, the government record in the past is a sufficient answer.

THE TARIFF

A Conservative appeal to the electors begins: "Do you want to stay in Canada? If so—protect your job." It goes on to ask: "Do you appreciate that by your vote on December 6th you will help to decide whether you are to remain in steady employment at good wages in Canada or whether you will be driven to some other country in search of work?" Some manufacturers in Ontario are telling their employes that their jobs are at stake in this election. This is coercion practiced for a purely selfish purpose. No man's job is threatened unless it is the job of the man who has fattened on profits unfairly taken out of the people. "The tariff," says this tory appeal, "protects your job." What job? What industries in New Brunswick are threatened? The leaders of both the Liberal and Progressive parties have declared that free trade is not their goal, or the destruction of any legitimate industry. To say that they do not mean what they say is to question their honesty. They are not dishonest. A downward revision of the tariff will benefit the country as it did after 1896. The Liberal leader is charged with indifference in regard to the tariff, but what about the Conservative leader? Does anybody know what he favors unless it is a higher tariff? He pledged the people a tariff "in black and white" to vote on. Where is it? A tariff commission toured the country at large expense, but no tariff was produced. The interests which seek to coerce their employes into voting for the government would cheerfully profit to the fullest extent by any tariff they might be able to induce the government to adopt. The maritime provinces suffer under the present tariff. They would suffer more under a higher one.

Story Bits About Canadian Authors

JAMES L. HUGHES, Author of "The Poems of Robert Burns," "Stories and Musings," "Songs of Gladness."

A very considerable distinction has come within the last week or two to this exceedingly well-known author, educationalist and poet, that of having a book on Burns accepted by a publisher in Edinburgh. Dr. Hughes' compilation of Burns' verse, distinctive in itself, was published in England and the United States as well as in Canada. The new one has already been arranged for in Canada, and with negotiations pending in the United States. It is biographical and of character-description in type under the title "The Real Robert Burns." Dr. Hughes, 47 years has lectured on educational and literary themes all over the United States and somewhat widely in Great Britain as well as Canada. Besides admiring the poems of Burns, he has produced considerable verse himself and has written half a dozen books on educational themes which have made his name known wherever educational matters are discussed.

THE DEAD MAN'S CHEST

(The Raconteur in Montreal Gazette.) At the request of several correspondents, I reprint the version of "The Dead Man's Chest," referred to last week. It is a story of the "Book Monthly" of November, 1914: Fifteen men on the Dead Man's Chest, Yo-ho-ho and a bottle of rum! Drink and the devil had done for the rest, Yo-ho-ho and a bottle of rum! The mate was fixed by the bosun's pike An' the bosun brained with a marlin spike, Yo-ho-ho and a bottle of rum! And the cookie's throat was marked with hell, Yo-ho-ho and a bottle of rum! It had been clutched by fingers ten, And there they lay, all good dead men, Like brack of day, on the Dead Man's Chest, Yo-ho-ho and a bottle of rum! Fifteen men of a whole ship's list, Yo-ho-ho and a bottle of rum! Dead and belamned and their souls gone white, Yo-ho-ho and a bottle of rum! Yo-ho-ho and a bottle of rum! The skipper lay with his nob in gore Where the scullion's axe his cheek had scored, Yo-ho-ho and a bottle of rum! And there they lay, and the soggy skies Dripped ceaselessly in upstaring eyes, By murek sun and by foul sunsets, Yo-ho-ho and a bottle of rum! Fifteen men of 'em stiff and stark, Yo-ho-ho and a bottle of rum! Ten of the crew bore the murder mark, Yo-ho-ho and a bottle of rum! 'Twas a cutlass swipe or an ounce of lead, Or a gaping hole in a battered head, And there they lay, ay, damn my eyes, Their lookouts clipped and by foul sunsets, Yo-ho-ho and a bottle of rum! Fifteen men of 'em good and true, Yo-ho-ho and a bottle of rum! Every man jack could have sailed with Old Pew, Yo-ho-ho and a bottle of rum! There was chest on chest of Spanish gold, And a ton of plate in the middle hold, And the cabin's full of loot untold, Yo-ho-ho and a bottle of rum! With sightless eyes and with lips stark dumb, And we shared all by rule o' thumb, Yo-ho-ho and a bottle of rum! More was seen through the stern light's screen, Yo-ho-ho and a bottle of rum! Yo-ho-ho and a bottle of rum! Charting sure where a woman had been, Yo-ho-ho and a bottle of rum! A filthy shift on a bunker cot, With a dark slit sheer through the bosom spot, And the stiff lace dry in a purplish rot— Or was she wench of shuddering mad? She dared the knife and she took the blade— Yo-ho-ho and a bottle of rum! Faith, there was stuff for a plucky jaded! Yo-ho-ho and a bottle of rum! Fifteen men on the Dead Man's Chest, Yo-ho-ho and a bottle of rum! Drink and the devil had done for the rest, Yo-ho-ho and a bottle of rum! We wrapped 'em all in a mainsail tight With twice ten turns of hawser's bight, And we heaved 'em over and out of sight, With a yo-heave-ho and a fare-ye-well, And a sullen plunge in a sullen swell, Ten fathoms along on the road to hell— Yo-ho-ho and a bottle of rum!

ITALIAN MISSION TO U. S.

Guido Podrecca Will Ask Help for War Consumptives.

Guido Podrecca, Italian Member of Parliament, writer and lecturer, soon will visit the U. S. as a member of a mission organized by the Italian National Association for War Consumptives. The association expects that Italians in the United States will respond to the appeal for help.

THE STETHOSCOPE

The stethoscope is the invention of Vladimir Poulchek, a Danish scientist. The mechanism consists mainly of a spool of wires of high carbon content, more than 15,000 feet long, which, as it moves and winds up on another spool, will record with the aid of an electromagnetic device, delicate sounds.

THE RECEIVERSHIP

After a stethoscope has been adjusted the instrument will record heart beats for one-half hour at normal speed. The hearing physician need not be close to the machine, as the sounds can be carried over another fine wire to wherever he may be. If he cares to, the physician may take back to his office a complete chart of the condition of the patient's heart and study it at his leisure, with the aid of a similar instrument.

THE STETHOSCOPE

If the stethoscope is placed on a patient's chest the physician is able to study respiration more thoroughly than ever, as the instrument will record the sound made by air passing through the windpipe and lungs. The stethoscope

U. S. APPROPRIATES CANADIAN WRITERS

Douglas Durkin Suggests Campaign of Enlightenment is Advisable.

(Toronto Mail and Empire.) The institution of a Canadian Book week in the United States to convince people across the line that many of the authors whom they claim as their own were really native Canadians, was a suggestion made by Douglas Durkin in the course of his address before the Canadian Literature Club last night at Sherbourne House. In lists of American poets he had noticed the names of Robert Service, Bliss Carman and even that of the late John McCrae, who wrote "In Flanders Fields." Others contributing to Canadian Authors' Night were Miss Holland, a well known Canadian poet; Mrs. Florence Livesay, who has translated the legends and lore of the Ukrainians into a delightful Canadian verse, and A. P. McKishnie, who dealt chiefly with magazine and short story writing. Mr. French, president of the club, presided, and a record audience gave evidence of the interest which is being taken in Book Week. W. Atkinson sang two solos very acceptably.

YOUTH IN WRONG PLACE

Boys and Girls Should Not Be in "Front-Line Trenches of Industry," Says Sayer.

The front-line trenches of industry are no place for the boys and girls, State Industrial Commissioner Henry D. Sayer said recently in addressing the New York City Vocational Guidance Conference. "With the present unemployment situation," Mr. Sayer said, "we must be chary of sending a boy or girl to a position when the father is out of a job. It is a bad situation when the children work to support their parents. Many an employer would rather pay 16 or 17 year old youths a boy's wage than pay a living wage to a man. That is not a good economic condition. The boys and girls should be in the second line reserves of industry, not front trench fighters. Vocational guidance has much to do, indeed, with getting boys and girls back to school instead of supporting a father in idleness. Co-ordination of effort is needed to handle the adult employment as well as get jobs for the children.

GOOD ROADS HELP FARMS.

As Important as Schools and Telephones, Says Kansas Official.

Kansas must build good roads or the younger generation will leave the farms in ever greater numbers than in the past, Fred Perkins of the Kansas Highway Commission told the delegates at the recent annual convention of the Kansas Official Council in Topeka. Calling attention to the great change in the intelligent standard of living of the motor car and truck, Commissioner Perkins said: "The form of government it is of vital importance to the nation, the State and counties that we have a good, intelligent, ambitious class of young men and women living on the farms, and to keep them there we must have four things: good roads, rural routes and telephones. Whether we like it or not our children will not be satisfied with the conditions under which many of us were reared."

RECENT WEDDINGS

Bouton-Hatfield.
Mr. and Mrs. Alphonse Bouton, of Jamaica Plains, Boston, are the guests of Mr. and Mrs. Benjamin Hatfield, parents of the bride, at 25 Coburg street. They will return to Boston on Friday. The young pair were married at East Boston on November 24 by Rev. Charles Ulrich and were attended by Mr. Gerard and Rose Bouton, brother and sister respectively of the bridegroom.

McCarten-Murray.
Rev. J. W. Holland united in marriage on Tuesday morning in St. Andrew's church at St. George, Miss Margaret Isabel Murray and James Leo McCarten. Mr. and Mrs. James Southard were witnesses. Mr. and Mrs. McCarten will reside in St. George.

RECENT DEATHS

Mrs. Patrick Lannen.
Thursday, Dec. 3.
The death of Mrs. Ann Lannen, widow of Patrick Lannen, occurred yesterday at her residence, 898 Douglas avenue. Mrs. Lannen was highly regarded by a wide circle of friends and had lived all her life in the north end of the city. She was a member of St. Peter's congregation. Seven daughters and one sister survive. The daughters are—Mrs. J. S. Sullivan, Mrs. W. F. Hoopes, Mrs. A. Foley, Mrs. J. F. Cook and Mrs. C. F. Graham, all of Boston; Mrs. Joseph F. Walsh, of this city, and Miss Esther at home. The sister is Mrs. Catherine O'Neill. The funeral will take place on Friday at St. Peter's church.

Captain Thomas Kyffin.
Thursday, Dec. 3.
The death of Captain Thomas Kyffin occurred in this city yesterday. Captain Kyffin was the son of Captain John Kyffin and followed the sea as his calling. Seven children and two brothers survive.

Son of Mr. and Mrs. McHarg.
The friends of Mr. and Mrs. Edgar McHarg will sympathize with them in the loss of their little son, whose death occurred on November 30 at their residence, 176 Rodney street, at the age of three months.

Dr. Charles B. Little.
On the afternoon of Nov. 29 at The Narrows, Queens county, there passed away one of the oldest and best known residents of The Narrows in the person of Dr. Charles B. Little, aged eighty years. His wife and one son, William N. Little, of Boston, survive. Mr. Little practised dentistry for many years and later was a physician in Nova Scotia, but since returning to this province has followed dentistry only. His father was Dr. W. B. Smith, who was practising physician at The Narrows for forty years, having come from England when a lad. The funeral will take place at 8 o'clock Thursday afternoon from his late residence. Interment will be in the Anglican cemetery at Cambridge (N.B.).

Mrs. Frances A. Fenwick.
Mrs. Frances Anne Fenwick passed away at the home of her daughter, Mrs. Ira J. Prouty, at Keene, N. H., on November 28. She was eighty-two years of age. Mrs. Fenwick spent most of her life in Millstream. The daughters are Maude, wife of Frank A. Wright of Keene, N. H.; Blanche, wife of Dr. Ira Prouty of Keene, and Nettie, wife of Rev. H. F. Ball of Camanche, Ont. The sons are Douglas Fenwick, a prominent financier of Wall street, New York; Addison R. Fenwick, manager of the Everett Tribune of Everett, Washington; Herbert Fenwick of St. Paul, Minnesota; John N. Fenwick of Providence, and Fred T. Fenwick of Millstream, N. B. J. Frank Roush and Oscar Roush of Sussex are nephews, and Mrs. Thomas Robinson of St. John is a niece. Interment was in the receiving vault at Keene. In the spring the body will be brought to Millstream.

Miss Mary E. Spiller.
Miss Mary E. Spiller, an aged resident of Waterville, died on Monday at the age of sixty-four years. She was born in this city. The funeral was conducted on Wednesday by Rev. John H. Yates. The surviving relatives are one sister, Mrs. Helen Baker of Wintertown.

DEFENDS MARY PICKFORD.
Attorney Denounces Attempt in Nevada to Set Aside Her Divorce.

Carson City, Nev., Dec. 1.—Declarations that the attempt of Attorney General Leonard B. Fowler of Nevada to set aside Mary Pickford's divorce from Owen Moore "violates every principle of institutional government" and "is the first of its kind and should be the last" were made by Miss Pickford's attorney, Gavin McNab, San Francisco, in an answer filed in the State Supreme Court to Fowler's appeal from District Judge Frank P. Langan's ruling upholding the decree.

Miss Pickford was granted a divorce at Minden, Nev., March 20, 1920, by Judge Langan, and in a short time married Douglas Fairbanks. On April 16, 1920, Attorney General Fowler filed an action at Minden asking that the decree be set aside "in the interests of the State of Nevada." Judge Langan upheld the decision last June and Fowler appealed to the State Supreme Court.

SEEK TORONTO CHINESE AND WHITE GIRL WITH HIM

BLAMES KITTEN OR MOUSE FOR \$14,000 FIRE

Montreal, Dec. 1.—Testifying before the local fire commissioner yesterday J. O. Provost, a grocer of 485 City Hall Ave., said that either a kitten or a mouse, by knocking down a box of matches resulting in their ignition, caused a \$14,000 fire in his establishment.

AN OLD LONDON CHURCH.

The demolition of St. Olave's church, Tooley street, London, has begun. It stands on or near the spot where a church was built over 1,000 years ago in honor of Olaf, the Norseman and Christian martyr who helped free London from the Danes, and its name is a corruption of his. The churchyard is to be converted into a recreation ground, while the site of the building will be used for the erection of business premises.

GLAD TO SEE THE DONKEY.

At a political meeting in Toronto a heckler shouted, "Do you remember the time when your father drove a donkey cart?" The parliamentary candidate gazed thoughtfully at the interrupter and replied: "I had quite forgotten the cart, but I am very thankful to see that the donkey is still alive."

Five miles of shelving will be erected in a new building being constructed by the French government, for the filing of more than 100,000 volumes and almost as many pamphlets, etc., which they have collected. The collection of manuscripts, photographs and war records is appalling as to numbers, and there seems to be no limit to the gifts of collectors.

HITS THE POOR MAJ'S POCKET

Conservative Merchant Makes Vigorous Protest.

Ottawa Man Gives Striking Illustration of Protection Gone Mad—A Chinese Wall—Numerous Protests Made.

(Special Times.)
Ottawa, Dec. 1.—Evidence accumulated in Ottawa that not only the business world, with the exception of a few large favored interests, but the consuming public have been treated to the point of exasperation by the Chinese wall protective measures added to the tariff at the last session of parliament by the Meighen administration. Protests without number have poured into the customs department against the onerous provisions of the marking act which will go into effect on January 1st and which has already caused endless confusion in business, against the arbitrary legislation which in effect says the German mark is worth ten times as much as it really is for duty purposes and which treats the Italian lire little better, and against the unceremonious marking of the dumping clause in a way which makes importers uncertain as to what goods will cost them when they arrive at the wharves.

The wholesale stationer, a Tory all his life, in Ottawa recently, said to his correspondent: "I have always been a protectionist, but this is protection gone mad. I believe in protection which protects industries, but which considers the needs and business of every citizen. It should not make prices prohibitive on a large series of articles which Canadians want to have and many of which are not made in Canada, or not enough to supply the demand. These protective provisions added last session are making it twice as expensive for the poor man to give his families a happy Christmas, and often he does not get as good goods as otherwise he would. It hits the poor man's pocket in a hundred ways."

"Take lead pencils for example. We import 300 gross of a cheap line not made in Canada, hoping to give the retailer a line he could sell at one cent each. We paid forty cents a gross and if the duty had only doubled that cost we could have done it, but the sapient customs department brought in the marking act, and said that the fair market value as sold for home consumption was \$1.05 a gross. That is, I paid \$120, but they said I should have paid \$240, and took the 27 1/2 per cent duty on that, or \$66.42. Then they added a special duty of fifteen per cent to prevent dumping, or another \$20.25, and then \$21.04 in sales taxes, making a total tax of \$108.71 on goods for which we paid \$120. Add to that \$12 for exchange and six dollars for freight, and the cost in our warehouse becomes \$238.71, which is impossible for us to sell to the retailer at a profit so that he could have a small profit at one cent each.

"The result is that we sell without a profit, and the retailer at a price that hardly pays for handling because the cost of the goods is so high. We lose, but there are numerous other instances where the Canadian consumer pays for a good article at a reasonable price and we have to add to this the line the Germans beat the world. As we sold them last year five times as much as we bought from them I don't consider it is unparitistic. Trade is world wide and we cannot possibly isolate them if they are to pay reparations and get prosperous enough to buy our products."

URGES HOSPITAL FOR BIRTHS

Better to Have Babies Born There Than at Home, Says Dr. Vincent.

New Rochelle, N. Y., Dec. 1.—Dr. George E. Vincent, president of the Rockefeller Foundation, addressed a large gathering in Loew's Theatre, launching a campaign to raise \$250,000 for the New Rochelle Hospital. It was Dr. Vincent's first public appearance since his return from Peking, China, where he attended the declaration of the Peking Union Medical College.

Dr. Vincent said the old conception of a hospital as a sort of home centre and a place for the prevention of illness as well as cures.

Dr. Vincent also said that it was no longer advisable to have a baby born at home and that a hospital was the only place to give a child its proper start in life.

DEFENCE CONTINUES IN PARIS CASE

Further Evidence for the Defence in the Trial of John Paris Was Heard Yesterday Afternoon.

When Proceedings were resumed in the afternoon Green was recalled. He said Mr. and Mrs. John Bayard stayed in St. John from Tuesday to Friday of last week. He said he did not know that they could not identify Paris as the man they saw coming out of the house that night. He said that he and Sadie Bayard when about twenty-five feet from the William Bayard house the night of Aug. 1 saw the door open and a man come out.

She said: "That looks like John Paris," and he said, "Yes, it is." Neither of them spoke to Paris. He and Sadie Bayard went to the William Bayard house but he did not see Stewart Fraser or Gordon Johnson. He saw Leonard Bayard and her sister, Helen, there. Asked to explain how Stewart Fraser, who took Paris' place playing cards, was not to be seen, witness said he might have left before.

William Bayard came in the house about a half hour later. He had been to the Oddfellows' tea. Witness saw Paris on Aug. 2 coming down Prince street on a bicycle between 10 and 11 o'clock. Paris was coming down from the island. He saw Paris about ten feet from the Y. M. C. A. hall. Witness knew Oscar Clyde and where he lived. He himself lived about fifty yards from Oscar Clyde's. He had known Dr. McCurdy for about eight years. He had seen Dr. McCurdy on Prince street on Aug. 2 before he had seen Paris. The doctor was coming out of the post office and was walking in the direction of his office in Prince street. Witness was at "the island" at noon. He did not see Paris, the accused, at that time.

Witness saw Paris on Aug. 3 about 6 o'clock in the evening standing in front of William Bayard's house. On Aug. 4 he got back to "the island" about 5:30 o'clock and saw Policeman Boss there. Chief Fraser was with Boss. Witness testified.

First he said he noticed John Paris standing in the yard when Boss and Fraser were there. Then he said Paris was not there. Pressed, he said he saw Boss, Fraser and Paris there on Aug. 4. He did not know whether Paris had a nail in his hand on that occasion. He did not remember seeing Paris on Aug. 5 or Aug. 6.

To Mr. Vernon, he said he did not see John Paris on August 4. Questioned by the judge as to whether he had or had not seen Paris on August 4, witness said he had not seen Paris "on the island" on August 4.

To his knowledge he had not seen Paris and Boss at "the island" the day of the Chateaugay parade. Paris might have gone back into the Bayard house after witnesses left. He did not see him return, however.

St. John Man Testifies

Chesley Ford, Water street, West St. John, said he had lived in a double house which Paris lived last July. He used the same front door. At one time he was friendly with Paris. He had a dispute with Paris in April. He had not made up. He knew Paris went away on July 23 and returned on August 4. He fixed the latter date by the harvesters' excursions. Between 12 and 1 o'clock he saw Paris leave the house with Humphrey. From July 23 to August 4 he had not seen Paris. During that time he was around his own house but not in Paris' house. Witness rang the alarm for the British fish-house fire. He heard Alfred Byers say he talked with witness on August 2. It might have been on August 1 or 3 but it was not on August 2. Paris was not there. He had an opportunity of knowing when Paris was home. He could hear him talking.

Cross Examined

To Mr. Byers, he said that he and Paris had fallen out because he had heard that Paris had told Mr. Wilcox that he, witness, had stolen some rope. He said first that he had never spoken to Paris since that day. Then he said he was asked Paris if he had told Wilcox he had stolen rope and Paris had told him "No." Witness was not satisfied with that answer. This was some time in April.

On August 5 he was working at Fairville. He saw Paris on the evening of that day on the wharf. He saw Paris twice on August 5 in the evening. He did not see him on August 6. He knew where Riverview Park was. He believed Paris' statement that he did not know where Riverview Park was. He did not see Paris on August 6. He saw him on the street on August 7. He saw him on August 8.

On August 7 he thought he saw Paris turning the corner by Sweet's store. He remembered the Cushing fire. The British fire was on a Wednesday morning. The Cushing fire was on a Tuesday. He rang in the alarm about 1:55 a. m. for the British fire.

STRANDED ON SANDBAR, AIRMAN BURNS CLOTHES

Young Canadian then Swims Two Miles Against Tide to Bring Aid to Companions in Peril—Has Distinguished War Record.

Belleville, Dec. 1.—Brockville is ringing with praise for the heroism and daring of Lieut. S. N. Giroux, a French Canadian air pilot, whose parents live here.

The story has just arrived from England. It tells of how young Giroux, who served with distinction in the R. A. F. during the war, took his life in his hands and saved from drowning two passengers who were carrying in his commercial aeroplane from Southampton to Liverpool. Owing to engine trouble, Giroux was forced to make a landing on a sandbar two miles from shore off Blackpool. Here he and his passengers were threatened by the rising tide. In an effort to attract attention Giroux stripped off his clothing, saturated it in petrol and lit it.

The flames, however, were unnoted. Undaunted by the danger of being swept out to sea by the strength of the tide, Giroux thereupon plunged into the water and swam the two miles to shore. He reached land in an exhausted condition, but in time to send a rescue party for his two passengers, by that time in imminent peril from the rising water.

The rescue party was sent by the Young Giroux owes his prowess as a swimmer to his constant practice in the currents of the St. Lawrence River.

GIRL "RAILROADED" TO PRISON FREED FOR MISCREANT

Scour Country Near Falls for Assailant of Little Girl.

Niagara Falls, N. Y., Dec. 1.—Sheriff's posse, state troopers, posse of city police from Niagara Falls, N. Y., and of citizens residing between this city and Youngstown are scouring the countryside for a man who attacked nine-year-old Belle Spence near her home on the Ridge road near Lewiston, N. Y., and released her only after her screams had nearby villages notified the farmers throughout the vicinity of the crime.

The posse worked all night without finding a trace of the man, who description is said to file with that of the miscreant who assaulted two little girls at St. David's, Ont., November 17, and who is also charged with shooting Raymond Lawson, brother of one of the "spies" who helped officials that the man who committed the St. David's crime escaped across the Niagara River in a stolen rowboat.

The Spence girl was on her way home from Lewiston when the man attacked her and threw her to the ground. She was rescued by her father, who is now at a house nearby. He released her and ran. Her parents heard her cries for help and quickly came to her assistance. The man had disappeared from view. Deputy Sheriff Vincent was notified by the parents, and he in turn notified

the attorney, the girl who is the daughter of Madison Ballard, had a disagreement with her parents because she refused to give up her position as pianist in a Saugerties theatre. As a result she and Miss Beattie were arrested on a complaint of her parents.

Continuing, the attorney said the girls were moral and well liked by the residents of Saugerties. Miss Beattie was not brought before him for trial, and in reply Justice Morschauer intimated that "absent treatment" might have been applied. The papers were made out and the two girls sent to the reformatory.

After ordering the discharge of Miss Beattie, Justice Morschauer made an appointment with Major Amos T. Baker for some day this week. It is understood that at this time the question of the Beattie girl's commitment will be taken up.

Both prisoners were known about Saugerties as girls of good character, although Miss Ballard once was in the reformatory. Justice Morschauer, who is in Bedford, according to attendants, has been exemplary. Both were unlawfully committed, Justice Morschauer said last night, and added:

"I criticised the methods by which the girls were committed when the case was before me, and said such practices could not go on in this country."

The justice said the evidence showed the girls were not brought before him for trial on blank papers with which to commit the girls before they were arrested. Chief Richter, the justice stated, testified that the papers were signed by Justice of Peace Childier in his home while the girls were in the police station, a quarter of a mile away.

Police Justice Childier admitted the girls were not brought before him for trial. He explained that he had never had a similar case.

MEIGHEN IS A STAND-PAT MAN

But This is Not a Time for Stand-pat Policies—Canada Liberal and Progressive.

(Manitoba Free Press.)
The great majority of the Canadian electors do not intend to vote for the Meighen government; that is the one absolute certainty in a world of uncertainties. Now are the reasons for this decision adverse to the government, obscure. Most electors have a very clear understanding of the considerations which have led them to the decision not to vote for Mr. Meighen. They might be summed up in the general statement that they have no confidence in the ability of the government to administer the affairs of Canada successfully in the trying days that are ahead.

The people realize that Mr. Meighen's temperament is that of the stand-patter. He has a constitutional aversion to experiment and change; he looks backward for instruction and enlightenment. His very considerable talents as advocate and apologist have been devoted to the defence of policies intended to conserve conditions as they are and to discourage change. After Mr. Meighen made his first programme speech as prime minister at Stirling in August of last year, the Free Press made this comment:

"It was in his attitude towards the conditions of unrest, now so universal,

that Mr. Meighen revealed the innate conservatism of his mind. He planted himself immovably upon the rock of things as they were and viewed movements for change and all symptoms of unrest comprehensively as part and parcel of a revolutionary tide which, as threatening to sweep away the landmarks of civilization, must be resisted with unflinching resolution. The typically Tory attitude towards change is that it must not be conceded in times of unrest, since to do so would be to open the gates of revolution; while in the absence of unrest it is held that there is no need for change. Thus by a neat mental formula things as they are become sacrosanct and hoary with age, safe from the sacrilegious hand of the reformer. By what he said and even more by what he did not say Mr. Meighen appeared to reveal himself as largely sympathetic to this conception of government. If this does him injustice the injustice has been dealt by himself.

"This is not a time for stand-pat policies any more than it is for the application of revolutionary theories. It would be difficult to say which policy, if applied, would be most detrimental to the Canadian nation. Rather is it a time for statesmen
"Who know the seasons, when to take Occasion by the hand, and make The bounds of freedom wider yet."
Change, considered change, not breaking violently with the past, but fronting movement, is a national necessity; and it must come mainly through the parliament and government of Canada. Opportunity has offered the leadership in the liberal movement to Mr. Meighen. He appears to have rejected it upon the honest and understandable ground that he is alien to liberal sentiments and deems them dangerous to the state. If this be the case, opportunity

FISHERMEN DON'T WANT HIGH TARIFFS

(Moncton Transcript.)
Conservative speakers have been trying to tell the fishermen of the maritime provinces that the Fordney Permanent Tariff bill would, if adopted, practically shut Canadian fish out of the United States markets, and that consequently it is necessary for the fishermen to vote for protection of their home markets. The logic of this is no doubt what might be expected from the tortuous minds of Tory campaigners, but it will hardly convince the fishermen or the general public who buy the fishermen's products. Canada is an exporter of fish, and no conceivable tariff will enable our fishermen to sell all their products in the home market. Our fishermen have little competition in Canadian markets; mostly it is confined to shipments of lobsters and a few other sea products from New England. And in most instances Nova Scotia lobsters have been on the free list of both countries ever since the Treaty of 1819 was enacted between Great Britain and the United States. And Mr. Baxter or anybody else who suggests that Canada should put a tariff on lobsters will not receive the votes of fishermen. The last thing the maritime fishermen want is to invite retaliation on the part of the United States with respect to lobsters, for the free market of the United States takes a great proportion of their lobster catches at good prices. Canada already has a small tariff on various varieties of fish and the provisions against dumping could be evoked if Japan or some other cheap labor country tried to dump a surplus here, which is unlikely. Any further increase in the

Canadian tariff on fish would not help the Canadian fishermen; it would raise prices to consumers and instead of imposing would tend to restrict the demand for fish. Canada has been sending about one fourth of its fish catch to the United States, a not inconsiderable portion of which is re-exported by American firms to South American and West Indian markets. If the Fordney Permanent Tariff bill is adopted, it will impose a handicap on our fish trade, but it should not be forgotten that we sold fish to the United States under high tariffs with critics assert that the American consumers will have to pay higher for their fish when the tariff goes into effect. In its September issue, the Canadian Fishermen's Association, organ of the Canadian Fishermen, has to say about the Fordney Tariff in its August issue: "Reliable opinion in the United States the Fordney tariff measure strikes a blow to the fish trade, but it is not altogether the bogey which some Canadian fish producers imagine. The bill is quiescent for a time, province will be hit hard in the export and is not likely to come up again until after the New Year. From credible sources we have it that there is little likelihood of the Bill going on the statutes in its present form and the tariff on fish is liable to considerable moderation. In fact it is pro-

hibited by prominent United States authorities that any tariff enacted by the United States on Canadian fish would practically revert to the schedule in force prior to the war-time 'free fish' arrangement."

phased by prominent United States authorities that any tariff enacted by the United States on Canadian fish would practically revert to the schedule in force prior to the war-time 'free fish' arrangement."

PARIS DEFENCE COMPLETED; NOW HEAR REBUTTAL

(Continued from page 1)

The witness said he did not see Paris again until he was brought back from St. John. He said it was not on August 4 that he and Chief Fraser saw Paris on the island. He said the date on which he went to the island and saw Paris was fixed in his mind by the Chataqua before he found the search warrant.

The witness would not swear that Paris could not leave Truro on the night of Sunday, July 31, and reach St. John on August 1, nor that he could not leave Truro on August 3 and be on the island on August 4.

Boss said that before he left the office to inspect the dirty yard the chief told him he was going to the island, but he did not say what for. It was after his return from the dirty yard—between three and six—the witness said, that he and Fraser went to the island in Currie's taxi.

Q.—"Did you swear on his first trial that he saw officers twice at the island. If Fraser and McLellan went down on August 2 you and Fraser went down on August 4, that would make two occasions?"

A.—"Yes, it would; I was down there only once."

The witness said he knew Stewart Fraser slightly; he was no relation to the chief of police.

The witness said he did not see Paris sitting on a log, as sworn to by Paris, when the witness was at the island on August 2.

Q.—"Were the circumstances not like this? After the information was laid on August 2, Fraser and McLellan went to the island and did not see Paris; but after the cream was rejected, you and Fraser went to the island on August 4 and saw Paris there when he contended he was?"

A.—"No, it is not possible."

The witness said he was present at Paris' trial on a charge of stealing gas, but he could not remember on what date Stanley Nichols said he bought the gas.

Asked why he was not present to give evidence at the first trial, the witness said he was not subpoenaed.

To Mr. Vernon the witness said Detective Scott was in Truro since the last trial.

Mr. Byrne objected to this evidence. The judge said that he did not see where this evidence had anything to do with the case.

Mr. Vernon said he asked the question as Mr. Byrne had raised the matter of who was here and who was not here. He did not intend to pursue the question further if it was irregular.

The witness said he could not see any freedom on the photograph shown him. He could not see them with his naked eye but on being handed a magnifying glass said that he thought he could see some.

The search warrant mentioned through evidence was submitted in evidence by Mr. Vernon and accepted.

Defence Ended.

The defence here rested its case.

Mr. Byrne said that one of the witnesses, Norman Green, said that it was a moon-light night when he saw Paris coming from William Bayard's house on the night of August 1. Mr. Byrne submitted a calendar showing that the moon did not rise that night until 2:30 a. m.

Mr. Vernon did not object, so the almanac was admitted in evidence.

Rebuttal Evidence.

The attorney-general said he was going to rebut the statement that the "no" on the date when he was arrested. He said his first point, however, was that Conductor Capson passed no man for \$3 from Truro to St. John on August 2.

Dr. Wallace conducted the rebuttal examination.

William Capson, of Moncton, conductor on the C. N. R., said he ran No. 9 and 10 train from St. John to Halifax. The train from Halifax to St. John was due at Truro at 10:10 p. m., he said.

On August 2, he said, he was on the No. 9 train from Halifax to St. John. There was quite a crowd on the train. He said his book showed the amounts collected on his run. He opened the book and showed entries made on August 3, all of which he swore were in his hand-writing.

This book was received in evidence. He said there was no item of \$3. There was one second class fare from Truro to St. John, \$4.65; one second class, Truro to Moncton, \$2.95; one second class Truro to Sackville, \$2.10; one second class, Londonderry to Moncton, \$2.95; one second class, Truro to Moncton, \$2.95; one second class Truro to St. John, \$4.65.

The witness said he did not know the accused or any of his relatives.

Dr. Wallace referred to a statement made by the accused that he (Paris) had only \$2 which he needed badly but had \$3-\$2 and some change—which he offered to the conductor.

The witness said he did not have any such conversation.

He said Paris' statement that "he had no money but he knew my people" was not correct.

Cross-examined by Mr. Vernon, Mr. Capson said the second class fare, Truro to Moncton was \$2.95. The accused, he said might have bought a ticket from Truro to Moncton. He would not say that the accused was not on that train.

After leaving Amherst, the train stopped at Sackville, Dorchester, College Bridge and Moncton. They crossed No. 10 at Calhoun's Mills, 14 miles from Moncton. He could not say if Paris got on any of the stations between Truro and Moncton. He said they waited at Calhoun's about fifteen minutes.

The attorney-general said he had more witnesses to call in rebuttal so adjournment was made to 2:30 o'clock.

Good Old Barney of the Imperial Died This Morning

"Barney," the large St. Bernard known so familiarly to patrons of Imperial Theatre, died this morning of complications arising out of pneumonia. A consensus of animal doctoring opinion failed to save the poor old fellow, whose great size was a hindrance to his recovery. "Barney" was about eight years old, and was born in the purple. His father, "Alpine Chief," was a well known Guide, were both imported stock registered at Ottawa. This pure breed was imparted to their St. John son, the American judge himself, an animal delineator—referred to the type-beauty of "Barney," and the St. Bernard captured the prime awards in spite of falling health, bad teeth and indifferent coat condition. He had been top dog in his class heretofore for years, winning considerable silverware. With a perfectly clean record in his romping with children, never having bitten one, and the playfellow of the juvenile population generally, the gentle old dog passed quietly out amid his admirers at his home, 302 Sydney street, who got him as a Christmas gift about six years ago.

President Hanna admits that freight originating on the National Railways is going to Portland, Maine. That is the essential fact. The government that could take over the Canadian Northern and Grand Trunk without the people's consent could not protect the national ports. Let us have a government that is not quite as helpless—or so indifferent.

GUNMEN TAKE \$564 FROM COMMERCIAL TRAVELER

Windsor, Ont., Dec. 1.—Charles R. Simpson, commercial traveler of Sarnia, was held up last night by three gunmen and robbed of \$564. An automobile drew up near him, three men jumped out and surrounded him, and while two demanded with guns that he hold up his hands, the third went through his pockets, taking \$96 in cash and \$468 in checks, made payable to the H. Kenning Co., by whom he was employed.

LIQUOR RETURNS.
The customs returns for the port of St. John for November, 1921, are as follows: Customs import, \$340,931.86; sundry dues, \$229,871; excise tax, \$4,820.89; excise duty, \$3,379.19; St. John pilotage, \$1,862.25; fuel, \$1,862.25; inspection dues, \$180.00; marine dues, \$290.72; total \$894,928.48. The returns for November, 1920, were: Customs import, \$316,225.42; sundry dues, \$1,737.65; excise tax, \$4,820.89; excise duty, \$1,780.09; sundries, \$887.87; steamship inspection, \$466.22; pilotage dues, \$1,737.65; marine dues, \$167.24; total, \$144,948.65. The increase for the month over November of last year is \$249,179.83. The reason for the increase is largely on account of increased importations of sugar, as practically no sugar was imported in November, 1920.

THE NEW LOCH LOMOND MAIN

Report by City Engineer at Council Meeting.

Some Discussion on Hydro Distribution—Upkeep of West Side Trestles—New Road in Simonds.

At a committee meeting of the common council this morning the proposed extension of the water main from the One-Mile House to Little River was discussed, and it was practically agreed that a new main to Loch Lomond was needed. Some discussion also took place regarding the report of the New Brunswick Electric Power Commission. Commissioner Jones presented a report from Engineer Hare as to an approximate cost of installing a thirty-six inch main from the One-Mile House to Little River by diverting it around Fernhill. He said that to install an iron pipe would cost approximately \$70,000, providing the work was done in favorable weather. The same line made of reinforced concrete capable of withstanding a heavy head would cost approximately \$474,000, a difference of \$102,600. From Little River to Phinney's Hill and using 2,200 feet of cast iron pipe now on hand, the cost in round figures, he said would be \$191,600. To parallel the water main with reinforced concrete, the pipe would cost in summer weather \$157,200, plus the cost of laying the 2,200 feet. If in winter it would cost \$2 more a linear foot.

Mayor Schofield and Commissioner Fink and Bullock agreed that a new main was needed right through to Loch Lomond, and favored the commissioner's plan of water and sewerage bringing in a report in the form of a final plan. It was suggested that the members of the council visit the members of the committee. Commissioner Jones felt that the proposed extension of water and sewerage of water and sewerage was important, and suggested that the members of the council visit there tomorrow.

Commissioner Thornton felt that this would be a better method, and spoke of the handicap the people residing there were under.

Hydro Distribution.
The matter of the hydro report was then discussed. Mayor Schofield regretted that he was not in a position to present a report. He explained that he had been attending to other matters, but desired something definite before presenting it to the meeting.

Commissioner Thornton said he should not be tied when a selection was made in the report. He said that the council should not be tied when a selection was made in the report. He said that the council should not be tied when a selection was made in the report.

GERMAN MARK CLIMBING NOW ON THE LONDON MARKET

London, Dec. 1.—German marks underwent further marked recovery on the London exchange market today. Heavy buying sent the rate to 750 to the pound sterling against yesterday's close of 980. Profit-taking sales by speculators who bought at the highest figure caused occasional reactions, but purchases predominated.

The recovery was assisted by optimism regarding the negotiations in regard to Germany's forthcoming reparation payments and the possibility of a moratorium.

GREAT MERGER OF STEEL CONCERNS

Seven or More Independents to Unite.

Combined Capital About Half a Billion Dollars—Second Only to U. S. Steel Corporation.

(Canadian Press)
New York, Dec. 1.—Reports that a merger of seven or more of the independent steel companies are contemplated were confirmed in the financial district today.

The proposed consolidation will take in all the prominent producers and manufacturers with the exception of the Bethlehem Steel Corporation, the Jones and Laughlin Co., of Pittsburgh.

The capitalization of the various companies concerned in the proposed consolidation approximately five hundred million dollars and the products of the various companies cover almost every branch of the steel and iron industry.

The companies named comprise the Midvale Steel and Ordnance Co., the Republic Iron and Steel Co., Lackawanna Steel Co., Youngstown Steel and Tube Co., International Steel Company, the British Steel Co., and the Steel and Tube Co. of America.

It is expected that the merger will be completed in the next few months. The consolidation, if effected, will be second in importance to the U. S. Steel Corporation, now the dominant organization in the industry.

TRIBUTE TO ST. JOHN GIRL IN OSAKI

Miss Trent, Missionary in Japan, Gives Talk at St. Luke's.

At a meeting of the Women's Auxiliary of St. Luke's church yesterday afternoon, Mrs. R. P. McKim presided, and a great many members of the girls' branch and senior branch were present. The principal speaker was Miss Trent, W. A. missionary in the Canadian Diocese in Japan. She said since the meeting was quite informal she would tell of some of her personal experiences in that portion of the city of Magaya which was under her charge. In this district there were 30,000 people and she had only one native woman to help her and a young girl who came to her when she was fourteen. This girl was a trained kindergarten teacher. Miss Trent paid a high tribute to Miss Etta Shaw, a St. John girl, who is in the city of Osaiki in connection with the Bishop Poole school. A vote of thanks was moved by Mrs. W. Smith and seconded by Mrs. G. C. McIntyre to Miss Trent for her very interesting talk. At the close of the meeting refreshments were served. Miss Trent spent today in the city and will leave tomorrow night for Fredericton. From there she will go to Quebec.

SEES END OF SOVIET RULE THIS WINTER

Report from Russian Information Bureau Declares That Stricken Country Crumbles to Ruin.

Soviet Russia is crumbling like an old and rotten house and the end of Bolshevik rule is due this winter, according to a report on economic and social conditions made public by A. J. Sack, director of the Russian Information Bureau in the United States.

"The ruin of the country is spreading more and more," says the report. "The new economic policy has brought no results. The resumption of cash payments for everything the people have to buy, without restoration of the sources of income, threatens the masses with starvation even within the cities. All talk about electrification, foreign capital, concessions and state capitalism is merely propaganda."

The report predicts that "if the Bolshevik regime is not overthrown by a popular government it will fall to pieces because of the general ruin. The coming winter will be most terrible for Russia, it is declared."

"The ruin of industry has reached the limit," the report continues. "No concessions have yet been granted. According to the Bolshevik themselves, only about 500 small establishments, chiefly sausage factories and flour mills, have been leased up to the present time in all Russia. There is no capital material or machinery. The arbitrary actions of the authorities and the unparalleled bribery flourishing among them are ruining even small trades. The higher Soviet officials are engaged in profligating and selling government property."

Railway traffic has almost ceased on many lines because of the shortage of fuel, the report declares, leaving only about 100 small establishments, chiefly sausage factories and flour mills, have been leased up to the present time in all Russia. There is no capital material or machinery. The arbitrary actions of the authorities and the unparalleled bribery flourishing among them are ruining even small trades. The higher Soviet officials are engaged in profligating and selling government property."

"The horrors of starvation are growing worse and worse," says the report, "and the results of the collection of the food tax are not to be seen yet. Everyone feels convinced that it is impossible to continue in this way any longer, expecting a change from within. Workers and clerks have not received their wages since July. Talk is rife about a proposed convention of a new Constituent Assembly, where the inter-collegiate league should be elected to the Communists. In their opinion this step ought to obtain foreign credit for the Bolsheviks in case all other means should fail to bring results."

LARGE INCREASE IN DUTY AT FREDERICTON

Fredericton, N. B., Dec. 1.—The Clark trophy, won by the Rugby football team of the U. N. B. in the western section of the inter-collegiate league held here from Wolfville. It had been held by Acadia.

The customs returns furnished by Collector L. C. MacNutt show a substantial increase in the value of imports for November compared with November 1920 and also in duty collected. The duty was \$44,119.41, an increase of \$39,319.94.

Imports of liquor by the New Brunswick liquor commission and a general improvement in business are the chief factors in producing the increase.

ONLY A FEW LEFT.

How many more will the Meighen party promise to attend? The time is getting perilously short, and any person who has been promised a "plum" should hope right in and get it.

Look at the list of faithful who have received some of the real things. True, they were all in the last house, but they see something more permanent in their new posts.

Page the following and see if the list is not correct:

Sir George E. Foster, North Toronto, a senatorship.

Hon. James A. Calder, Moose Jaw, a senatorship.

Hon. J. D. Reid, Grenville, a senatorship.

Hon. Edward Kemp, East Toronto, a senatorship.

Hon. Thomas W. Crothers, West Elgin, a senatorship.

Hon. Thomas M. Tweed, Calgary, a judgeship.

Hon. Herbert M. Mowat, Parkdale, a judgeship.

Brig.-General W. A. Griesbach, Edmonton, a senatorship.

Hon. Robert F. Green, West Kootenay, a senatorship.

Not a bad list, is it?

Now, listen, Mr. Meighen, if you have been anling for government appointment for some time, you better force the matter and get it settled right away.

It's a strict business proposition, so why not face it?

You know, just as well as we know, that the offer of Meighen's chance for that little soft job is all over.

The people who promised to look after you are mighty busy looking after their friends in their last dying days. There's no time to lose.

So if you want a little kindly advice, Mr. Meighen, here it is in now and grab your reward. There are only a few days left.

AMPERE.

(New York Times).

It is not often that the name of an individual is added to the world's vocabulary of common nouns. When this is done, he who bears his name finds immortality in the dictionary. Such has been the fate of the French physicist and mathematician Ampere. Wherever electricity is measured his name is used to make the record; and his personality has come to identify a unit of force which bears the name of a scientist.

The personality of Ampere, as of Volta, Ohm, and even Watt, will doubtless be dimmed by years. But the cables from France last week carried the news that, despite the fact that a hundred years have passed since Ampere made his great discoveries, he is himself remembered by a republic that is not ungrateful. Even in the midst of the war France did not forget her great intellectual leaders. It was in the blackest days, when the guns of the enemy were reaching Paris, that the President of the republic, the Minister of War and thousands of citizens passed to pay homage to an eminent teacher and scientist, Berthelot. And now, with all her taxation and privation at home and anxieties abroad, France

NO FREE TRADE MEN IN CANADA

(By Canadian Press Staff Correspondent.)
 Gananoque, Ont., Nov. 30—Addressing a capacity audience at the opera house this afternoon in the interests of A. W. Mallory, Liberal candidate in Leeds constituency, Hon. W. L. Mackenzie King attacked the statement that the issue in the present fight was between free trade and taxation. "There is nobody in this country today standing for free trade," Mr. King declared. "It is nonsense for the prime minister to try and frighten the people by putting forward a camouflaged issue. What Mr. Meighen sought was to have the people entirely overlook the record of his government during the past sixteen months."

TELLS OF DAYLIGHT MOVIE
 Iowa Inventor Says Light is Projected From Behind Screen.

Davenport, Iowa, Dec. 1.—A. F. Victor, Secretary of the National Society of Motion Picture Engineers has announced

the invention of a machine which he said will permit the showing of motion pictures and stereoscopic views in daylight. The invention, according to Mr. Victor, reverses the present plan of picture projection, the light being reflected behind the screen instead of from the rear of the theatre. Mr. Victor is the inventor of many motion picture devices.

THIRD DAY WITH IMPERIAL CROWDED

"Way Down East" Certainly Taking St. John by Storm With Weather Conditions Still Unfavorable.

Imperial Theatre was completely sold out again last evening for the "Way Down East" engagement in spite of the improved weather for outdoor pastimes. St. Andrew's night celebration and other counter attractions. As on Monday and Tuesday evenings the vast assemblage set in rapt attention throughout the thirteen reels, broken only by an intermission of five minutes after the seventh reel. Comment was the same as everywhere—"wonderful." Not only was the night attendance on the reserved seats plan complete capacity but the matinee was close to the full seating area of the theatre. "Way Down East" therefore enters upon the second half of its week's run with thousands of people willing and eager to recommend it as the finest pictorial attraction screened in this city. Exhibitions at 2.30 p. m. and 8 p. m. The picture is preceded by overture and allegorical prologue giving spirit and atmosphere to the situation.

SEES NO WORLD WAR IN THIS GENERATION

Sir Thomas White Tells Canadian Society Disarmament Alone is Not Enough.

(New York Times)
 Declaring that reducing armament would not remove the possibility of war, Sir Thomas White, K. C. M. G., former Minister of Finance of Canada, in an address at the annual dinner of the Canadian Society at the Hotel Biltmore last night, said that for the near future the danger of war would be likely to come from "aggressive politics and by the economic necessities of nations whose populations are expanding."

Sir Thomas said he was not such an optimist as to believe that the world seen its last war, although this generation "is not likely to see another World War."

"If the majority opinion among civilized people could be kept fully informed and had to be consulted before war could come about, there would be few wars," he continued. "In the past those who were called upon to bear the sacrifice have had little to say before the event."

"If the Constitution of the Central Empires had provided that in each case of war each of the Emperors and their sons should take their place in the foremost line of battle, there would have been no war. The only way to avoid war is to keep public opinion accurately informed upon international affairs and enable the people to correctly judge the purposes of nations."

"The United States was to be congratulated on calling the Washington Conference, he said, for the mere bringing of the nations together upon such a theme was an epochal event in the history of humanity. He points out that great burdens from the backs of the people. War could only be avoided, he added, if the people of the world could be induced to adopt toward each other a different standard of conduct than has prevailed in the past."

"Canada believes in conferences which may result in better international understandings," said the speaker. "For over 100 years there has been peace between America and Britain. Having common language and literature there has been no great difficulty in mutual understanding of problems and purposes."

John Hamilton Fulton, Senior Vice President of the National City Bank, who presided, hailed the Washington conference as an epoch-making one. He said the Canadian Society played a part in the amity existing between the United States and Canada similar to that of the Pilgrims Society in London.

MANY HAVE SUPPER.
 The attendance at the Cathedral high tea resulted a new record last night, when 700 people were served at the turkey supper; all the booths had exceptionally large patronage and everything went with a swing. The City Cornet Band provided a fine programme of music. The mysterious lady was not identified but was declared to be Miss Lillian McNamee. The prizes were won as follows: Door prize, loaf of coal, ticket A 243; peanut booth, pair of chickens, ticket 83; apron and handkerchief booth, box of handkerchiefs, William McMillan; fancy booth, embroidered centrepiece, Miss J. Quinlan; valentine booth, pair of chickens, Miss Rita Dwyer; country store, basket of eggs, J. H. Coholan; ice cream booth, first prize, bag of flour, ticket 381; second prize, tin, ticket 38; third prize, broom, ticket 62.

FARM RECOVERY TO BE SLOW
 Wallace Says it Will Take Five Years to Get Over Depression

Chicago, Dec. 1.—The present depression is the most severe in the history of American farming, and it will take fully five years to recover from it, Henry C. Wallace, Secretary of Agriculture, said in an address at the annual meeting of the

United States Live Stock Sanitary Association. He added:
 "The method of distribution of farm products must be placed on a sound economic basis, eliminating the middleman where necessary, if his services have no economic value."

SPORT NEWS OF A DAY; HOME AND ABROAD

HOCKEY. Moncton and Amherst. (Moncton Transcript). The Amherst News reports that Amherst athletes were greatly disappointed by the "unwanted" turn of events taken at the meeting of the reinstatement committee of the Amateur Athletic Union held a few evenings ago in Moncton. The sports editor of the News says: "As far as I know there is no reason under the sun why these younger players should not be reinstated. The Young players were misled to a certain extent and are now more than anxious to get back into the fold." Further the News says: "In Amherst the fans are anxious to give their support to one team—preferably amateur. This applies in other towns as well—but the feelings of the fans have to be considered and they naturally will support the aggregation that provides the fastest hockey. While several players have stated definitely that they will not enter into competition against Moncton—after the rough tactics that the Monctonians used last winter, circumstances may alter cases—although speaking frankly, the News is not in favor of an independent hockey league as formed last winter. If Springfield, the Pictou towns, the Cape Breton clubs, the North Shore teams and a few other clubs swing over in favor of independent action—well Amherst, Moncton and New Glasgow, cannot control the amateur situation in the province today—nor will their opposition be of any great weight even if they lead the way." To this the Transcript says:—"The News believes Moncton knows nothing about the hockey situation in Amherst. Amherst hockey situation was plainly made known in Saturday's edition of the Transcript. Amherst players in seeking re-instatement into amateur ranks should act fairly with players from other towns. Amherst, it is said, is willing to take affidavits that their independent league players, or a number of them, were not paid for services in the independent hockey league of 1920 and 1921. The question is Did John D. Rockefeller pay them? Did Adams leave the coin for them some twenty-six hundred years ago? Let Amherst deal fairly with other players, and at the same time avoid personalities." BASKETBALL. Games Last Evening. The Alerts defeated the Trojans by a score of 22 to 19 in the City Basketball League, played in the Y. M. C. A. gymnasium last evening. In the intermediate section the High School team defeated the Y. M. C. A. 27 to 8. ATHLETIC. Lieut. H. H. Phinney Dead. Winnipeg, Dec. 1.—News of the death of Lieut. H. H. Phinney, aged thirty, formerly a well known Winnipeg athlete, being especially prominent in rowing and Rugby, was received here yesterday. He died on Tuesday in England. Lieut. Phinney suffered from effects of gas poisoning received in France in Feb. 1918. MELTYRE WINS. Sydney, N. S., Nov. 30.—Johnny Alex. GEMS ARE SOUGHT IN ANCIENT WALLS

Hidden and Long Forgotten Jewel Caches in Old English Homes. London, Dec. 1.—There is no necessity for any secrecy now if the builders at present tearing down and rearranging the interior of a house in a well known aristocratic quarter in London come upon a wealth of jewels and jewelry. They who were intimately concerned in the present affair says long ago to dust. Their descendants, however, are keeping a close eye on developments. Some time ago this mansion was bought having been the town house of a landed family for many generations. Somewhere within the walls of a room which was the boudoir of one of its chateaines lie not only a small fortune in precious stones and goldsmith's work, but some heirlooms of a ducal family. The chateaine was very lovely, but by no means straightlaced. One afternoon, when visiting a friend, she died suddenly. Her husband had her boudoir shut up and refused to have any search made for the jewels, which it then became known she had been receiving from her dual lover, who was now much embarrassed by reason of certain of them being heirlooms in his family. Not for three generations, and on a distant branch of the aggrieved husband's family succeeding to the property was the boudoir reopened, and though search was then instituted nothing resulted. The fair lady's cache remained undiscovered. If and when the heirlooms come to light again it is certain the lawyers will profit by the wrangling for possession of them. Jewels Found in Bedpost. Jewels sometimes are found secreted in very odd places. Not long ago a

CHEMISTS STUDY LIGNITE USES.

The carbonization of western lignite for fuel, and the decomposition of clays and feldspars, which would replace water glass and aluminum sulphate if the process is adopted on a manufacturing scale, were the subjects of two papers given before the subjects of Chemical Industry at the monthly meeting held at the Queen's Hotel, Quebec. The first paper was given by Prof. R. de L. French, of McGill University, late chief of the Lignite Utilization Board of Canada. The address was illustrated with lantern slides, and the lecturer described in detail the efforts exerted to convert the valuable western lignite into economic form. He described the difficulties which had to be overcome owing to the friable nature of this special lignite. He showed how these had been surmounted, and how a carbonized product was secured for compression into high grade scientific briquettes. This new industry opens up considerable prospects for development, not only from the fuel standpoint, but the utilization of by-products of considerable value is a matter for future research which may lead to developments of the utmost importance to Canadian industry. Mr. E. Levitt in his paper described the decomposition of clays and feldspars which possessed the merit of newness. The lecturer claimed that a high yield of calcium sulphate, with almost negligible percentage of loss. The process promises well, and would obviate the importation of water glass and aluminum sulphate, both of which substances are used in very large amounts in Canada.

\$1,000,000 WHISKY SEIZED IN ALLEGED IMPORT FRAUD

Other Scotch Liquors Valued at \$5,000,000 Expected to be Confiscated — National Bank Involved.

New York, Nov. 29.—Finding that enormous quantities of choice imported liquors have been diverted to booting channels, E. C. Yellowley, acting federal prohibition director here, in co-operation with the customs authorities, has seized 18,300 cases of Scotch whiskeys, valued at \$1,000,000. The officials further contemplate the confiscation of this and nearby ports of an additional \$1,000,000 worth of liquors.

No arrests have been made, but the evidence obtained in the investigation, which has been going on for a month, will be presented to the grand jury.

Mr. Yellowley said the system of withdrawing imported liquors from customs warehouses had been changed, so that no withdrawal would be permitted by customs officials except on a permit signed by the director.

The first lot of liquors seized was consigned to the Alps Drug Company, a concern that early got into difficulty with Mrs. Yellowley and his investigations. Eight thousand and one hundred cases of Scotch whiskey, consigned to this concern, were seized. At \$75 a case, said to be a comparative estimate, this liquor is valued at \$600,000.

Bank Involved in Seizure.

The other consignments seized by the officials were made to Victor Cassazza & Brother, wine importers, and totaled \$200 cases. Of these, 1,000 cases were seized on Nov. 8, soon after they were unloaded from the steamer Algeria. Although each of the 1,000 cases bore the trade mark of Cassazza & Brother, the agents said the whiskey was actually consigned to a national bank here. They asserted this bank had furnished letters of credit on which both concerns obtained all the shipments.

Federal agents said they were certain the booting rings would never have been able to operate so extensively as they have without the aid of local banks. The particular bank involved in the Cassazza case is said to be under investigation by officials both here and in Washington. Prohibition authorities in Washington, it is said, have frowned upon the practice of banks giving letters of credit or any aid to the liquor dealers.

The methods which have been followed, it is asserted, really amounted to the sale of liquor warehouse receipts. The permits to purchase imported liquors issued at the director's office always name the collector of customs as the vendor. The name of the firm making the withdrawal is also inserted in the permit. But the practice has been, according to Mr. Yellowley, for bootleggers to go to another state and obtain withdrawal permits for the imported liquors. These would be sent direct to the collector of customs and honored.

Under this plan it was easy for a person not holding an importers' permit to receive shipments of liquor from abroad and get them through the Customs House.

SLASHES THROAT AND FIRES HOUSE

Determined and Successful Attempt to Commit Suicide.

Bridgeburg, Dec. 1.—William Long, aged forty-eight years, lacerated his throat with a razor and then set fire to his Fort Erie home in two places. Neighbors put out the blaze and tried to get the man out of the house. He refused to depart, but brandished a razor, declaring he intended to commit suicide, which he did.

Long had been drinking lately and was melancholy. His wife has been estranged from him for some time. He had previously attempted, unsuccessfully, to end his life.

CANADIAN TEACHERS MAKE COMPLAINTS

(Canadian Press Despatch) London, Ont., Nov. 30.—A formal complaint regarding the treatment accorded Canadian teachers in England has been made to the department of education in Toronto, according to a letter received here from one of the teachers now in London, England. Many of the seventy-seven delegates are receiving but the minimum allowance of approximately \$75 per month, while one former principal of a large Toronto school is declared to be teaching kindergarten classes. The communication confirms the cable despatch yesterday saying that teachers have been appointed to schools in the heart of the slums and that they are dissatisfied with prevailing conditions. While the teachers did not expect a continued holiday over there by any means, it was said they did not, on the other hand, anticipate being intentionally placed in the worst schools. After enduring the treatment for some time, the delegation has finally protested to the Canadian authorities.

LABOR STRONGER IN SOUTH AFRICA

(Canadian Press Cable) London, Nov. 30.—A Reuter cable from Pretoria, South Africa, says that Premier General Smuts when addressing a South African party congress fore-shadowed the appearance of a national-labor combination. A meeting, he said, had recently taken place at Bloemfontein which he believed would have a most far-reaching effect on the politics of South Africa. At this meeting, continued the premier, which had been called by the National Union of railway and harbor services, General Hertzog, Nationalist leader, and Leader Boyde, of the Labor group in the assembly, appeared on the same platform and a new compact was signed.

The Nationalist party position, said the premier, has become impossible. Premier Smuts urged the thousands of patriotic Nationalists to keep a watchful eye upon their leaders and see whether they were being led.

The Labor group has been gaining in force in recent months, fostered by unemployment and labor unrest. In the two by-elections held in September the two constituencies of Gardens and Liesbeek, formerly held by the government, were captured by the Labor group.

Pure Lamb's Wool Good Workmanship
Soft - Warm - Durable Perfect Fit

In every province the voice of the people declares for Stanfield's Unshrinkable Underwear. Its comfort, warmth and durability carry the men right with it, while its texture, beauty and obvious quality secure for it the more critical "vote" of the women.

The "electors" know that, measured by years of sturdy wear, they spend less money for underwear when they buy Stanfield's Unshrinkable.

Made in Combinations and Two-Piece Suits, in full length, knee and elbow length, and sleeveless, for men and women. Stanfield's Adjustable Combinations and Sleepers for Growing Children (Patented).

Sample Book, showing different weights and textures mailed free. Write for it.

THIS IS THE ISSUE

Are we going to support a Government which has spent the hard earned money of the electors to pay Deficits on Railways operating in the United States?

Are we going to see Portland, Maine, made the Winter Port of Canada at the expense of the people of the Maritime Provinces?

Are we going to stand for high living costs to allow the big interests of the Central Provinces wax fat under a tariff wall which excludes all competition?

Are we going to return a government which will chase the common people for the last cent in federal taxation and yet accept the note of the powerful Riordan company while that company spends its earnings in the United States?

These are the questions which the electors will answer on December 6. They are vital to the well being of every elector of the country.

Are we going to fail in our duty towards our country, our fellow men and ourselves?
