TWELVE PAGES—ONE CENT

## N. B. Power Company Makes City Preposterous Offer

### SHOULD PROTECT THE INVESTORS

This is Mayor McLellan's View—Must Have That Expert—Very Cautious About Contract.

At a special meeting of the common council called this morning by Mayor McLellan the reports dealing with the hydro question were read, but not commented on. His worship explained that he called the meeting because of the fact that the public were becoming impatient through what was considered an undue delay in giving them information. He explained that he was not as yet ready to enter his report, because he wanted something more than statements; he desired documents signed and sealed. He said he had worked hard with one purpose in view to deal fairly and squarely in the interest of the citizens.

With reference to not calling in the commissioners to conferences he said he had hardly thought it proper to ask others than those expert in the subjects under discussion. He explained that there had been no conferences held with Messrs. Bodell and Sanderson at which Mr. Phillips was present. He said he was giving out every word that transpired. With reference to the contract he said he did not sign it until some questions had been asked and answered.

After reading the reports he said in conclusion that he did not blame some for criticizing. He said he could assure all present that there was not so much time lost as in the impression some were inclined to create. He paid a tribute to the services rendered by Mr. Phillips.

His worship said no one could expect him to be other than courteous to those consulting him on the matter, but he emphasized that he had never been disloyal to his campaign pledges. He said if it was a matter of trading with local men in the New Brunswick Power Company there would be nothing doing. He added, however, that they could not destroy innocent investors and then expect foreign capitalists to become interested in local enterprises. He said he was just on the eve of being able to eliminate conditions existing for years.

He explained that the engineer he had referred to at a previous meeting was John R. Freeman. He had communicated with him and received an answer that he did not consider himself competent to deal with the matter. He advised the mayor to confer with Sir Herbert Holt of Montreal, but he had not carried out this suggestion as yet. He said he was now corresponding with three Canadian engineers. This expense, he said, had been advised by the city solicitor. He considered that this action was justifiable and was a perfect right due to the citizens of St. John. He said that all laymen did not understand electricity.

With regard to securing an engineer he said he communicated with Mr. Midge of Toronto and he sent word that he could come with forty-eight hours notice any time during August.

Speaking of the Moncton contract he said it would be an important matter to take up when dealing with ours. He maintained that they were not similar.

## WOULD NOT SHAVE NON-UNION MEN; BARBERS TO COURT

Waycross, Ga., Aug. 4.—Mayor Cowart of Waycross, has revoked the license of two barber shops when barbers had refused to shave non-union men employed at the Atlantic Coast Line shops. The shops continued to operate and the proprietors and barbers were served with subpoenas to answer charges of doing business without a license.

## RACING FISHERMEN

New York, Aug. 4.—(Canadian Press)—For the U. S. elimination series for this year's international fishermen's races, the entries accepted include Mayflower, the Elizabeth Howard, and the Henry Ford, the Yankee of Boston, and the L. A. Dunton of Gloucester.

## COL. WALTER MCKEOWN

A Toronto man, who is a member of the royal commission recently appointed to investigate the complaints made by the 2, W. V. A. regarding the soldiers' pension system.

## ASKS ST. JOHN TO RECOGNIZE INFLATED VALUATION AND PAY ACCORDINGLY

Takes No Account of Altered Conditions—Would Reduce Dividends a Little—Mr. Phillips Discusses the Offer and Suggests Careful Consideration—City Solicitor Says City Has No Legal Authority for the Deal.

The following is the offer of J. J. Bodell to the city council relative to the city taking over the New Brunswick Power Company's whole plant. It would make the city responsible for payment of interest and dividends on the company's bonds and first and second preferred stock, and calls for \$690,000 in addition. The only concession would be a reduction of one per cent in the interest on the bonds, one per cent in the dividend on the first preferred and two per cent on the second preferred stock, and the common stock would be eliminated. It would be a most profitable deal for the company. The city would have in addition to put the whole run-down plant in running order.

Accompanying the documents submitted by the mayor, however, are opinions by the city solicitor and M. G. Teed, to the effect that the city has no power to enter into the proposed agreement with the company. This presents an entirely new phase of the situation.

## Special Legislation?

With reference to the city solicitor's report and that of Mr. Teed the Mayor said that in his report which he hopes to present on next Monday or Tuesday, he could give an assurance that if it is the disposition of the council to hold a plebiscite and if the citizens favored the proposition special legislation could be enacted to deal with the situation. If necessary he said a special meeting of the legislature would be called.

St. John, N. B., 20th July, 1922. To His Worship, H. R. McLellan, St. John, N. B.:

Dear Sir,—I have acquired in the interests of myself and associates an extension of my opinion on substantially all of the common capital stock of the New Brunswick Power Company. We would much prefer to continue the operation of that property under private ownership and managing direction of Sanderson and Porter, but it has been made so clear to us by your attitude that no proposition leading to the acquisition and distribution by us of the hydro power will be entertained by you on behalf of the city, that we have, after prolonged and painstaking negotiations, reached the position where we are willing to undertake the following engagements:

1st.—To deliver to the City of Saint John all of the common capital stock covered by the option, which represents substantially all of the stock.

2nd.—To pay the principal amount of outstanding bank loans as of this date.

3rd.—To obtain the amount of the holders of the first preferred stock to a reduction of the present annual dividend rate of seven per cent. to six per cent.

4th.—To obtain the consent of the holders of the second preferred stock to a reduction of the present annual dividend rate of seven per cent. to five per cent.

5th.—To obtain from the trustee of the mortgage a release of the water power rights and lands owned by the company and located on the Lepreau and the Magaguadavic rivers.

The City, on its part, to undertake the following:

1st.—To guarantee by endorsement the payment of the principal of the bonds and interest at the rate of five per cent. per annum thereon, and the sinking fund.

2nd.—To guarantee by endorsement the payment of the principal of the bonds of 11-2 per cent. on the first preferred stock, said dividends to be paid on the first days of March, June, September, and December.

3rd.—To guarantee by endorsement the payment of quarterly dividends at the rate of 11-4 per cent. on the second preferred stock, said dividends to be paid on the first days of March, June, September, and December.

In consideration of the foregoing and the payment by the city of the amount of capital expenditures made subsequent to March 1, 1917, and up to May 31, 1922, against which no securities have been issued, and of reimbursement for the amount of the bank loans paid by me and for the acquisition of the water power rights and lands located on the Lepreau and Magaguadavic rivers, estimated by reliable engineers as having a capacity of 19,000 H.P., and for the Eastern Electric Company, as a going concern, I will accept from the city in full payment \$890,000—year 5-1-2 bonds of the City of St. John, running for a period not exceeding thirty years.

Under this plan the city will acquire control of all (operating) properties of the company, consisting of the electric light and power, gas and street railway and electric supply departments at total annual interest and dividend charge of \$208,900.

The annual interest and dividends on the bonds and preferred stocks of the New Brunswick Power Company guaranteed by the city amounts to only \$170,950. All surplus operating revenue in excess of \$170,950 will be available to meet the interest requirements on the bonds issued by the City of Saint John to acquire control of the New Brunswick Power Company. The surplus operating revenue of the company for the five months ending May 31, 1922, after deduction for depreciation, was \$187,027.94, or at an average monthly rate of \$37,405.59.

The desire of Messrs. Bodell and Sanderson to obtain and continue in control of our public utilities was very great and their efforts to lead the negotiations to that end persistent and determined. That they were compelled to disclose actual conditions and finally to put forward a proposal that promises not only the means of distributing electricity at the same schedule of rates worked out by Mr. Kribs for the proposed new civic system but also to place the street railway and gas works in public hands so that these services, rehabilitated, may be rendered to the citizens at actual cost, is mainly due to the patience and firmness with which Your Worship has guided the conversations.

The schedule of rates for domestic light which may be obtained in St. John, and which has been the standard measurement for all propositions put forward by the banker, Mr. Bodell, is the same as that in effect in Windsor,

## Their Time Wasted

The legal opinion given by the city solicitor and M. G. Teed to the effect that the city has no legal right to enter into the proposed deal with the power company on any terms is the sensation of the day. It now appears that valuable time has been wasted and the city is back again where it started. Nothing could more strongly emphasize the correctness of the attitude of those who have been urging for action without regard to the power company, in order that we may have a civic distribution system before next winter.

## FATHER GIVES LIFE FOR SON

University of Montreal Professor is Drowned—Boy is Rescued.

Montreal, Aug. 4.—Emile Miller, thirty-eight, chief of the staff of the St. Jean Baptiste Society of Montreal and professor of geography at the University of Montreal, was accidentally drowned at Montserrat, a few miles above St. Joseph de Sorel, yesterday, in attempting to save his fourteen-year-old son. The boy was rescued by others.

## PELLAGRA CASE IN CHATHAM, ONT.

Chatham, Ont., Aug. 4.—A case of pellagra, a disease of an unusual type, has been found here. The patient has been placed under quarantine until some decision can be made for the regulations to be enforced. This disease, which is sometimes attributed to eating bad corn, resembles a false leprosy, or tuberculosis of the skin and is very common in southern Europe.

## GASOLINE PRICE IN CANADA LOWER

Toronto, Aug. 4.—Gasoline throughout the Dominion was reduced in price today. The price of a gallon of standard grade gasoline at retail prices is now 33 cents. The price of refined oil was lowered one cent, the new wholesale price being twenty cents a gallon. These cuts were made simultaneously with a reduction of one cent in the price of gasoline. The line announced by the Standard Oil Co. of New Jersey.

## CHEMICAL WOOD PULP DUTY FREE

Washington, Aug. 4.—Chemical wood pulp was restored to the tariff free list yesterday by the senate, which rejected a proposal to amend an amendment proposed by the finance committee majority to make it dutiable at five per cent. ad valorem.

## Ontario, a town on the Niagara system of the Ontario Hydro, as follows: Proposed Rates for Domestic Light and Power.

Per month	
For each 100 sq. ft. floor area	8c.
Per k. w. h.	
For each k. w. h. up to a number	equal to rates in service charge. 4c.
For extra current, 85c. per k. w. h.	
These rates have been shown by actual experience to work out equivalent to an average rate for all current sold of 4 1/2c. per k. w. h.	
Attached hereto is a table showing just how these rates work out for dwellings of different size and the saving effected when different quantities of electricity are used.	
The above proposed rate is twenty-eight per cent. less than the rate proposed the consumer in our pre-election and fifty-five per cent. less than the rates now in force.	
To maintain the company's services, including the street railway, requires about \$1,000,000 k. w. h. per year, the cost of which if taken from Hydro Commission would be \$132,000.	
As to the cost of distributing this power, a number of estimates have been prepared, ranging from Mr. Kenist's statement of the company's actual cost in 1920, \$68,000, to Mr. Kribs' estimate of \$92,500. The amount set out for this item in the Kirby-Phillips report for 1921 was \$121,000.	
The revenue from the present market at Mr. Kribs' 4 1/2c. rate to consumers other than the street railway and a rate of 1.5c. to the railway would be \$368,245, leaving available for interest, sinking fund and depreciation a surplus of \$151,242.	
If Mr. Bodell's offer is accepted, the light and power division would be forty-six per cent. of \$208,900, which amounts to \$96,400, to which must be added interest at six per cent. on \$100,000, the estimated amount required to be spent for the new plant.	
(Continued on page 6, first column.)	

## As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "Manager" Porter has been telling me about the poultry show at the fall exhibition. They are going to have coops for fowl on three sides of a long building, but the center they will have something still more interesting. They will have incubators in a row showing the eggs in various stages of hatching, and then the fluffy chicks, the older ones, and finally the hen ready to enter an egg-laying contest. In other words the display begins with the egg and ends with it, and you have the whole story right there before you."

"That's fine," said Hiram. "I mind one time in Boston I seen babies in incubators an' I thought it was the greatest thing I ever seen. There they was, some of 'em not much bigger'n your fist, an' they told me they fed 'em an' brought 'em along fine."

"I expect to stand around," said the reporter, "and hear much learned argument about which came first, the egg or the hen."

"Well," said Hiram, "you can't get the hen without the egg, an' you can't get the egg without the hen. This here argu'ment in circles don't get you nowhere. It pays better to start a henry an' let the roosters fight it out."

## LEONARD HAS ENGLISH OFFER

Plans to Take Mother and Sister on European Trip Next Month.

Michigan City, Ind., Aug. 4.—After engaging in possibly one more contest, Leonard, world's lightweight champion, plans to sail for England in quest of new opponents and give his mother and sister a European trip that he has planned on since he took the title from Freddie Welsh. He plans to sail about September 15.

## 500 AEROPLANES FOR HOME DEFENCE

London, Aug. 4.—Premier Lloyd George announced in the House of Commons that the government had decided to adopt a recommendation of the air ministry to provide 500 aeroplanes for home defence at a cost of two million pounds. He said this would not prejudice a further extension of the air force if found necessary.

## IN A BAD WAY FINANCIALLY

Berlin, Aug. 4.—The newspaper De Tag says it learns that, owing to the collapse of the mark, the government has been obliged to cease the purchase of foreign currency for the payment of reparations.

Vienna, Aug. 4.—The exchange rate on the crown reached 51,000 to the dollar on Wednesday, and the government is in conference with representatives of industry, finance and labor in an endeavor to devise means for averting complete breakdown. The exportation of automobiles has been prohibited at the request of the trader in order to prevent their purchase at cheap rates for foreign sale.

London, Aug. 4.—Owing to the persistent decline of the Hungarian crown and the enormous speculation in exchange, the government has forbidden free trade in foreign currency, it was announced last evening. Within a few days a special department of the Hungarian bank of issue will be organized, with the exclusive right to buy and sell foreign monies.

## DEAN AND MARKHAM FOR FREDERICTON

Not Sure Yet Whether Wade of the Quoney Team Will Join Capital Club.

Fredricton, N. B., Aug. 4.—Bill Dean, captain and third baseman, and Jud Markham, shortstop of the Quoney, Mass., All-Stars, now in St. John, have accepted terms with the Fredericton Baseball Club and will report here for morning practice on next Monday.

Nothing has been definitely settled as yet as to whether Bobby Ware, center-fielder of the Quoney team, will also come here. He is to give a definite reply some time today. If he does not come another hard hitting outfielder will be secured, with a lefthanded pitcher.

## NORTHCLIFFE NOW IS GRAVELLY ILL

London, Aug. 4.—Great anxiety was felt this morning over the condition of Northcliffe. There was some increase in the heart weakness previously noted, and he was in a state of

## LESS ANXIOUS OVER THE NOTE

New Direction to Comment on the War Debts.

Somewhat More Hopeful, Also, in France—Matter Revises Report of General Election in England—A Unionist Caucus.

(Canadian Press Cable.)

London, Aug. 4.—The attitude of the U. S. treasury department towards the allied debt question indicated by Washington despatches saying the Balfour note would not affect American policy toward the independence of the Unionist has attracted universal attention here.

This, together with an emphatic statement by the chancellor of the exchequer that Great Britain has no intention of suggesting any alteration of her financial obligations to the U. S. gave a somewhat new direction to this morning's newspaper comment on the question of inter-allied debts.

There was, on the whole, a less anxious note to the editorials. News despatches from Paris indicate also some increase in hopefulness through France, and the conference to open here on Monday is consequently looked to with growing expectations.

The supposed division of opinion in the cabinet regarding the British policy toward the debt problem seems responsible for another review of the report that Premier Lloyd George contemplates an early election.

An incident which is taken as a straw indicating the change in the political wind was an important private meeting of Unionists under the growing day of the reparations problem until he more pronounced conservative policy.

## IMPORTANT MOVE BY FREE STAIERS

Get Force in Rear of Scattered Irregulars.

New Hold Post 65 Miles from Cork—Insurgents Evidently Abandon Plan for Stand at River Suir—Clonmel is Menaced.

Dublin, Aug. 4.—Fruit there a force of Nationalists yesterday made a surprise landing from the sea, is situated on Tralee Bay, in County Kerry, and has a station on the Waterford and Limerick railroad. The Free Staters' coup in suddenly placing their force in the rear of the scattered irregulars is expected to have an important bearing on the final outcome of the campaign. Fenit is about 65 miles northwest of Cork, the most important city held by the irregulars.

The insurgents have apparently abandoned whatever they had in mind of making a stand on the banks of the River Suir. National troops entered Carrick-on-Suir yesterday, the town being the evacuation they destroyed all the bridges.

As the government troops had previously taken Caher, west of Clonmel, they now dominate the way east through the Suir Valley toward Waterford and Clonmel, which is menaced from two sides. The Nationalists have already captured Butlerstown Castle, near Waterford.

Millinacree, County Tipperary, Windy, in Kilkenny, and other small towns also have been taken by the government forces.

## WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. R. F. Stupart, director of meteorological service.

Synopsis—The general pressure distribution shows little change. Thunderstorms have occurred in some localities of Ontario and Quebec, and the weather is now showery in the maritime provinces. Elsewhere in Canada the weather has been fine and warm.

Scattered Showers. Forecasts maritime—Moderate winds, overcast with scattered showers or local rain today and tonight. Saturday, partly cloudy with scattered showers. Gulf and North Shore—Light to moderate winds, partly cloudy and warm with showers or thundershowers in some localities today and on Saturday.

New England—Fair tonight and Saturday. Moderate temperature, light west and northwest winds.

## BEER SCOW IS RUN DOWN AND MAN DROWNED

Windsor, Ont., Aug. 4.—One man was drowned and several others had narrow escapes yesterday when a "beer scow" loaded with beer, routed across the river to Detroit, was run into by a motorboat. John Oputscho was knocked from the scow into the river and was not seen again.

## FRENCH SWIMMER IS AWAY ON ATTEMPT TO CROSS THE CHANNEL

Cape Breton, France, Aug. 4.—Poulie, a French swimmer, began his attempt to swim the English Channel today. He entered the water at eight o'clock.

BELYEA WINS THE FIRST HEAT

Spurts Near Finish and is a Length and Half Ahead

Gilmore Takes Second Heat and Bostonian Next in—John Durman of Toronto Out of Competition—Finishes in Fifth Place.

Philadelphia, Aug. 4.—Hilton Belyea, of St. John, N. B., won the first heat for association senior single shells on the Schuylkill River today in the regatta of the National Association of Amateur Oarsmen being held here.

Setting a fast pace from the start, W. E. Garrett Gilmore of the Bachelors Barge Club, Philadelphia, won the second heat by half a length in 7 minutes 38.3 seconds.

John Durman, of Toronto, was second in the first two heats, but was out of competition in the third heat.

THE U. S. STRIKE HELPS RAILROADS IN DOMINION

Toronto, Aug. 4.—The railway strike in the U. S. is helping business on the Canadian railways.

AGADIA SUGAR COMPANY CASE IN HALIFAX COURT

FUNERALS To all Cemeteries Given Our Personal Attention

CLAYTON CO. Director and Graduate Embalmers

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 cents.

BIRTHS EVANS—Born on 3rd inst., to Mr. and Mrs. R. H. Evans.

MARRIAGES ROBERTS-ARNOLD—At St. John, N. B., on July 26, by the Rev. F. H. Bone.

DEATHS ELLIS—At the Evangeline Hospital, on Aug. 4, Alice Gertrude, infant daughter of John R. and Bessie Ellis.

STERRITT—Entered into rest on June 30, 1922, James Abalom, eldest son of the late Thomas and Eliza J. Sterritt.

POLLOCK—On Aug. 3, at his late residence, Champlain street, Arthur Edward Pollock, in his 22nd year, leaving his mother, two sisters and two brothers to mourn.

DAY—At 171 Duke Street, West St. John, on August 3, 1922, Fioche Palmer, wife of Dr. R. G. Day, leaving her husband and son to mourn.

SHORT'S "Dyspepticure" ACTS LIKE MAGIC IN ALL STOMACH TROUBLES

Thousands of bottles have been sold without any advertisement whatever, because it relieves the most stubborn cases of INDIGESTION and CHRONIC DYSPEPSIA.

ANNIVERSARY OF WAR DECLARATION

Eight years ago today, August 4, 1914, falling to get a satisfactory assurance from Germany that she would respect the neutrality of Belgium, a neutralized state, Great Britain sounded the war cry that rang for more than four years throughout the length and breadth of the civilized world.

LOCAL NEWS The Dolphin II, a \$2,000,000 yacht, owned by Mrs. Horace E. Dodge, widow of the founder of the Dodge motor car company, is expected to arrive at 2.30 this afternoon.

WANT IT CLEANED There is an urgent request from Charlotte street for cleaning of that portion below Quebec street.

STILL UNCONSCIOUS "No change in his condition," was the report from the hospital this afternoon concerning Charles Earle, Pokok road, who was injured at the Stetson Cattle quarries yesterday afternoon.

FLORAL TRIBUTES The funeral of Master Robert McAleer was held from the residence of his parents, 77 Victoria street, at 2.30 p.m. on August 3rd.

RED CROSS DRIVE A meeting of the executive of the Provincial Red Cross Society took place this morning with R. L. Hayes, president, in the chair.

REAL ESTATE NEWS The following property transfers have been recorded recently in St. John county.

Right Glasses Increases your capacity for work

Thousands of men and women depend upon their ability to use their eyes at close work to make a living.

**MONEY NEEDED FOR THE BLIND**

**Campaign for Funds Will Be Conducted Throughout the Provinces.**  
(Halifax Chronicle)  
Extension of the campaign for the Blind which was carried out in Halifax last summer will now be made throughout the three maritime provinces. The campaign begins this week. It was inaugurated for a two fold purpose—First, to augment the funds of the Halifax School for the Blind, and second, to provide money for the work of the Maritime Division of the Canadian National Institute for the Blind. It is confidently expected that the citizens of Halifax will contribute fifty thousand dollars. Of this amount twenty-two thousand was subscribed and paid during the past year.  
Mr. James Down, official organizer for the Blind, will visit every town in the maritime provinces, in the interest of this campaign.  
There is a strong campaign committee consisting of the following executive members: Sir Frederick Fraser, chairman; Dr. J. A. MacDonald, vice-chairman; G. MacGregor Mitchell, treasurer; E. Chesley Allen, secretary. The campaign has received the endorsement of Governor Grant, Archbishop Worrell, of Nova Scotia; Archbishop Kenzie, of Dalhousie University, and practically every church and organization has indicated through its chief officer its sympathy with the movement.  
Under ordinary circumstances the income of the school would be sufficient to meet the current expenditure. The abnormal increase in the cost of maintenance in the past eight years, however, and the necessity for an unusually large outlay on buildings and equipment, have been responsible for a floating debt of over \$40,000. To pay off this debt, to maintain its high standard of efficiency and to provide for further development and expansion, the School for the Blind relies at this time on the generous assistance of the public.  
There is also the serious question of employment of adult blind. The problem of training and employing the adult blind has always been a serious one. While the Halifax School has a most creditable record for the manner in

**MARRIAGE CLUB QUITS; CHURCH WOULD'NT AID**  
Few Catholics Responded to Matrimonial Appeals to Them—Sanction Lacking.  
New York, Aug. 4.—The refusal of the Catholic Church to sanction the establishment of a sectarian matrimonial agency and the unwillingness of Catholic men and women in the east to seek their mates through a correspondence course have put an end to a club in Brooklyn, which sought to bring about the meeting

of Catholic men and women with a view of marriage.  
Charles X. Statelman, eastern agent of the Catholic Letter Club, at 454 Fifty-second street, Brooklyn, announced that the club was to cease functioning. He said it was a branch of a country-wide organization with headquarters in Seattle. The organization appointed him eastern manager last January, he said, and sent circulars stating that for an initiation fee of \$5 any good Catholic gen-

tleman, able to maintain a home, would be given the addresses of three Catholic women who would be also members of the club. The same was promised in the case of a woman applicant.  
Statelman says he took up the matter of the propriety of the club with the Rev. Father John O'Leary, pastor of the Church of Our Lady of Perpetual Help, but failing to obtain the sanction of Bishop Thomas E. Molloy of Brooklyn, he had decided to close the club.

**TO BROADCAST CHORUS OF A MILLION MARMOTS**  
U. S. Interior Department Plans Radio Station in Glacier National Park to Transmit Music.  
Washington, Aug. 3.—(Associated Press)—"The next number on tonight's programme will be a piccolo imitation entitled 'The Whistling Chorus,' by the Rocky Mountain Marmot Singing Society of one million voices."  
Such may be the announcement to catch the ears of any number of listening radio fans in the near future, if a proposal before the National Park Service of the Interior Department is carried through. It will be possibly the most novel treat that the numberless radio amateurs could ask, whose apparatus would tune in with a broadcasting station in Glacier National Park, in the heart of the Rockies, which would catch and transmit the shrill whistling of these small dog-like animals.  
Within fifty miles of the park, in the northern part of Montana, near the Canadian border, resides the largest colony of the animals on the North American continent. It is estimated there are close to a million of them, living in dense population. On still nights the wonderful shrilling chorus of the piccolo-like voices is carried miles on the rare mountain air, and tourists in the camps enjoy the evening programmes immensely.  
It has been proposed that a receiving set and broadcasting station of 200-watt capacity, sending at a 360-metre wavelength, be installed close enough to catch the voices clearly. Such power would be capable of sending throughout a radius of 1,600 miles and could be picked up almost from coast to coast.  
The perfection of the radio now sug-

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, AUGUST 4, 1922

The Evening Times and Star

ST. JOHN, N. B., AUGUST 4, 1922.

The St. John Evening Times is printed at 27 and 29 Gasterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

NOW FOR ACTION

There is not a manufacturer or business man in St. John who is not personally interested in cheap light and power and the industrial expansion these will bring. It follows that every manufacturer and business man is interested in getting power from Musquash as quickly as possible, and certainly before winter makes impossible the speedy construction of a distribution system.

SURELY THIS IS NOT FINAL

The council of the Board of Trade surely cannot have studied the Rutherford report and understood the terms on which a vocational school can be provided in this city. Consider these facts:

- (1) The present school buildings are overcrowded and more room must be provided. A new school building must be erected within the next year or two. (2) There are many hundreds of children of school age out of school, and most will continue until a vocational school is provided.

Nobody knows better than the members of the council of the Board of Trade, especially those who are manufacturers, that if St. John is to expand industrially it must have trained workers. Nobody knows better that the children of school age out of school and the great number in the cultural schools who are retarded because of a curriculum which does not meet their ability and needs, represent an economic waste which no live organization of business men can afford to ignore.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis

Formerly Technical Electrical Expert For U. S. Government

Lesson No. 69

THE TELEPHONE TRANSMITTER.

(All Rights Reserved by United Feature Syndicate. Reproduction Prohibited.) The transmitter described above is usually connected in the primary circuit of a transformer in series with a source of low voltage direct current.

The present standard carbon transmitter consists of a diaphragm, two solid carbon electrodes, and a quantity of carbon in granular form.

Elements of Transmitter

Connection of Transmitter.

The transmitter is connected, varies with the vibrations of the diaphragm. The transmitter described above is usually connected in the primary circuit of a transformer in series with a source of low voltage direct current.

Such a device if connected to the grid of an oscillating vacuum tube circuit may be made to modulate the plate current radio frequency output of the tube in accordance with sound waves which cause the diaphragm to vibrate.

Specialty constructed telephone transmitters or microphones are employed when operating radiotelephones from airplanes. They are designed so that the noises from the engine, usually very annoying, are reduced to a minimum in the radio apparatus.

Another type of transmitter makes use of two condenser plates with the oscillating arc were limited in power by the difficulty in handling large currents with the carbon transmitter. Modern radiophone transmitters employing vacuum tubes, as the source of radio frequency currents, sometimes make use of speech amplifiers in which the voice current is impressed on the grid of a small tube whose plate is coupled to the grid of a larger tube thus obtaining a voltage sufficient to modulate the output of the oscillator tubes.

Some types of radiophone transmitters have the microphone connected in the series circuit either directly in the circuit or coupled to it by means of a special transformer where the system is called the magnetic modulator.

WHEN OUTDOOR ANTENNAE CANNOT BE USED.

The installation of radio receiving sets in apartment houses has met with considerable opposition on the part of the landlords, who object to the placing of the outdoor antenna wires on the roof. The main objection is the fear that these wires, used for the interception of the radio waves will attract lightning and that in the event of fire, the insurance companies will refuse to reimburse the landlord for the resultant damage.

This condition has resulted in the installation of thousands of indoor aerials in various forms and sizes varying from a specially constructed plug which fits into the wooden framework about four feet square with approximately twenty turns of wire, to the long single wire concealed behind the moulding of the room.

Another antenna system is easily secured by connecting the receiving set to the indoor lightning system by means of a specially constructed plug which fits into the socket of the lightning current and effectually insulates the radio set from the effects of the lightning current and at the same time permits the radio waves to be received by proper adjustment of the receiving apparatus.

SHINING TOWERS.

I watch them at their toll, the laborers— Like swaying ants, they seem to come and go. In restlessness unceasing, in and out; But what they build they do not seem to know.

Obedient to some directing mind, They place a stone upon another stone— But why, they do not seem to know or care. Or if their eyes shall see their work when done.

The master mind has made a perfect plan That must be wrought and finished by Of those who toll but do not comprehend— Yet who, unknowing, carry out his wish.

There is the labor—his, creation's joy, And he alone has caught the vision Of shining towers! The toilers labor on— They see no shining towers in the air!

Day in, day out, they plod, the laborers, Blind builders that see not beyond the hour. I bend my back, too, to the tasks of life— Do I, unknowing, build—a shining tower— Roselle Mercer Montgomery in New York Times.

IN LIGHTER VEIN.

Helpless. "Dad, one of the chaps said I looked like you." "An' what did you say?" "Nothin'. He's a good bit bigger than me."

Justifiable Homicide. "Ah, you have no idea what sea-sickness is, Katherine. If you had it, and any one came and wanted to kill you, you would offer to make him your sole heir!"

Same as Before. "And your friend really married his typist. How do they get on?" "Oh, same as ever. When he dictates to her, she takes him down."

A Modernized Community. "No more horse thieves in Crimson Gulch!" "No more," answered Cactus Joe. "We have progressed with the times. We have all kinds of automobile thieves." Washington Star.

NORTH SHORE FISHERIES.

Chatham World.—The American market has shown some improvement in the price for salmon and mackerel during the past week. The Carqueet fishermen are reported to have made very large catches of codfish this season, and persons familiar with the fish business say codfish ought to be much cheaper this fall than last.

RETURNED FROM ENGLAND.

KEEP YOUR LAWN ATTRACTIVE

People admire a well kept lawn and it's all in the trimming—it is not a difficult job to keep your lawn well trimmed if you have the proper tools. One of our Federal or Forest Glen Mowers will prove a wonderful help because they run so easily and the well tempered blades cut the grass so evenly. A good lawn rake, turf edger and garden barrow completes the outfit.

We have only a few of the mowers left which we can apply at moderate prices.

Only Two More Days in Which to Turn in that Old Watch Laban C. Sharpe Jeweler and Optometrist 189 UNION ST. Use the Want Ad. Way

Of British Columbia's forest products in 1921 to a total value of \$64,970,000, lumber made up \$38,638,000, pulp and paper \$13,500,000, and shingles \$7,032,000. The balance was made up of boxes, ties, logs, poles, mine props and miscellaneous items. The figures show the importance of the lumber industry to that province. In 1920 the production was valued at \$52,628,907, but more was exported last year than in 1920.

The Bank of Commerce letter says: "During 1921 exports to Japan increased from 5,990,268 to 22,447,150 feet b. m., and those to China showed an increase of 180 per cent. Of still greater interest is the increase in exports to the United States from 4,162,848 feet in 1920 to 25,538,548 feet in 1921. During the first six months of the current year the exports of ocean-borne lumber from that province showed an increase of 21,707,748 feet. There were also exports last year to Australia and the United Kingdom."

Senator Laird, in an interview in Regina, on his return from the east, predicted a fusion of Liberal and Conservative members of parliament, who hold "moderate protection views," and Sir Thomas White is suggested as a likely leader of the new party. We have heard something of the sort ever since the Conservative government at Ottawa was defeated. It is in a hopeless minority in the country, because of Liberal strength and the rise of the Progressives, and would be glad to get some comfort from the Liberal side of the House.

It has been amply demonstrated in Canada that hydro-electric power can be utilized to produce heat in competition with coal. It is not of course being done under favorable conditions, but is actually being done. In an article on the subject Louis Simpson, a member of the Canadian Institute of Mining and Metallurgy, says: "Already the coal so dispensed with amounts to several hundreds of thousands of tons per year, and the end is not yet."

The majority of the coal dealers of Ottawa have decided upon co-operative buying of coal. It is said it will require several hundred thousand dollars to finance the scheme. They have already cabled English and Welsh firms relative to a supply of coal. The Ottawa Journal remarks, however, that unless the dealers are prepared to guarantee a supply the circle officials should also give some attention to the situation.

Citizens who are asked to sign up a three-year term for light and power will no doubt pause to ask themselves, in the light of the present situation, who will be supplying light and power in this city three years hence—or two years hence.

The Toronto street car service was tied up the other day as a result of an electrical storm, but they switched over to hydro power and carried on.

RECENT DEATHS

Arthur Edward Pollock. Arthur Edward Pollock died yesterday after an illness of a year. He was twenty-one years of age and is survived by his mother, two sisters and two brothers.

Ian Stafford Leonard. The death of Ian (Jack) Stafford Leonard occurred a few days ago in Denver (Col.), at the age of twenty-two years.

Mrs. William Lounsbury. Aged 83 years, Mrs. Jane, wife of William Lounsbury, Prince William, York county, died on Tuesday.

Captain H. D. Chapman. Aged 81 years, Captain H. D. Chapman died at the home of his son, R. G. Chapman, Antiochia, on Saturday.

To be had of: W. H. Thorne & Co. Ltd.; T. McAvity & Sons, Ltd.; Emerson & Fisher, Ltd.; D. J. Barrett, 155 Union Street; J. E. Wilson, Ltd., 17 Sydney St.; Duval's, Waterloo St.; J. A. Lipsett, Variety Store, 283 Prince Edward St.; H. G. Enslow, 1 Prince Edward St.; Geo. W. Morrell, Haymarket Sq.; East End Stone Hospital, City Rd.; Irving D. Appleby, 89 St. James St.; Philip Grattan, 563 Main St.; Quinn & Co., 415 Main St.; C. H. Ritchie, 320 Main St.; F. Nase & Son, Ltd., Indian town; J. Stout, Fairville; W. E. Emerson, 21 Union St., West Side.

He is survived by one sister, Mrs. E. H. O'Neal, wife of Captain O'Neal, Dorchester. The late L. A. Chapman, Moncton, was a brother. Former Mayor A. C. Chapman and Fred B. Chapman, Moncton, are nephews.

Rev. A. Guy, C. S. C. Rev. A. Guy, C. S. C., former president of St. Joseph's University, Moncton, died suddenly as a result of an injury caused by a horse last week. He succeeded Very Rev. A. Roy, C. S. C., as president of St. Joseph's University in 1904, and was succeeded in 1906 by Rev. Dr. L. Guertin, C. S. C., Ph. D. D. D. A few years ago Father Guy retired at Holy Cross Hospital. He was buried at St. Laurent, near Moncton.

James A. Sterritt. The death of James Absalom Sterritt took place at his home, Hamilton Mountain, June 20. Although Mr. Sterritt had been suffering from heart trouble for some months, yet his death came as a shock to his friends. He bore his illness with Christian fortitude. The bereaved ones have the sympathy of the entire community.

HYDRO-ELECTRIC PROVIDES HEAT

Already Hundreds of Thousands of Tons of Coal are Thus Saved in Canada Every Year.

The question whether hydro-electric power can be made cheap enough to compete with coal in modern heat is answered by Louis Simpson of Ottawa, member of the Canadian Institute of Mining and Metallurgy, in a paper on "The Fuel Problem in Canada he writes—"

"The use of hydro-electric power, in place of power and light produced from the combustion and retorting of coal, in the future, will be greatly increased. It has for some years been admitted that under favorable conditions hydro-electric power was less costly than power generated by the combustion of coal. This, however, is no longer always the case. Today, in Canada, over 100,000 E.H.P. are being used for the production of heat, as steam, during the major portion of each day and indications forecast that this total will shortly be greatly increased. The new invention makes possible the use of "off peak" electrical currents for the generation of steam displacing the coal hitherto used for this purpose. Already the coal so dispensed with exceeds several hundreds of thousands tons per year and the end is not yet. The economies of the new utilization of hydro-electric power are well illustrated by the case of a large manufacturing concern operated by 10,000 H.P. all hydro-produced, of which 6,000 is Electric Horse Power. Of this 6,000 E.H.P., less than 1,000 E.H.P. was used during the major portion of each day. Over 6,000 E.H.P. was used only 56 hours per week out of a possible 168 hours. Considerable steam was used for heating, boiling and drying, entailing the consumption of some 20,000 tons of coal per year. By the use of this "off peak" power, the management are able to provide the steam required without having to purchase coal. By the use of this new invention the following advantages are secured:

- 1. The purchase, weighing, handling to boiler house and the labor of firing 20,000 tons of coal per year, and the removal of the resultant cinders, are saved a saving of over \$150,000 per year is effected.
2. The elimination of all risks of stoppage or having to pay high famine prices for coal, the result of strikes of miners or of transportation workers.
3. The elimination of all smoke.
4. Reduction in the cost of repairs.
5. Reduction in annual charges for depreciation.
6. Saving interest charges, caused by having to carry large stocks of coal.
7. Savings consequent to not having to provide storage room for large supplies of coal.
8. The steam supplied is much drier and the moisture content is constant.
9. Removal of inconveniences, during the summer months, caused by the heat given off, in some rooms occupied by workers, by the main steam pipes conducting the steam from the boiler plant.
10. It is certain that this new method of steam raising will be widely adopted. High prices, demanded for coal, will accelerate substitution.
11. Another possible use of hydro-electric power, when such power can be secured at reasonable rates and when coal is high in price, is the electrification of certain sections of Canada's railway. Space will not permit a discussion of this problem, sufficient to say that local conditions do exist in Canada that favor such substitution and that such substitution may be expected, especially should the price demanded for coal keep high.
12. The present developed Hydro-electric power is estimated as being equal to the consumption of 27,228,860 tons of coal; it is evident, therefore, that the production of what has been called white coal (in its equivalent of black coal) is quickly overtaking the production, in Canada, of black coal. Whether the development that creates the white coal will continue, depends somewhat upon the price that will, in the future, be demanded for black coal. It must not be forgotten that whilst every ton of black coal burned reduces the amount of the future supply, the use of white coal or hydro-electric power does no injury to those who come after us."

ROYAL YEAST CAKES RICH IN VITAMINES

MADE IN CANADA The importance of Vitamins in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. VAST QUANTITY OF WOOD FOR FAIRVILLE

Total of 21,800,000 Feet Moved Down Rivers For Nashwaak Pulp and Paper Co.—Record Established.

A total of 21,800,000 feet of wood for the Nashwaak Pulp and Paper Company for manufacture into pulp at the big plant in Fairville has been rafted down the Nashwaak valley this season and into the St. John river. The rafting season on the Nashwaak was completed on Wednesday and the crew was discharged, with the exception of a few men who will clean around the piers at Penniac and the dam at Marysville and build a new bunk-house in connection with the rafting ground at the mouth of the Nashwaak in Devon. Upwards of 20,000,000 feet of lumber was driven and rafted on the Nashwaak this season, the river being cleaned of logs. Four million feet were for the Fraser Companies, Ltd., and 600,000 for Stanley Douglas, Ltd. The rafting season has established a record for the Nashwaak, a weekly average of 500,000 pieces being maintained on the rafting grounds.

NEW MANNER OF GETTING MINISTERS IS SUGGESTED

(Canadian Press Despatch.) Toronto, Aug. 3.—Reform in the matter of the system of appointing ministers to Presbyterian churches in Canada is a subject which has recently in a new movement in Presbyterian circles. Those behind the movement condemn the present system which makes it necessary for the average minister and also the young student just from college "to go canvassing" for a ministry. It is suggested that there be a time limit followed by a re-election under the supervision of something like a church stationing committee. Four year terms are suggested. One-fourth of the congregation in each presbytery would vote on a fixed date each year, in order to preserve continuity. The usage as to call would be preserved as long as the call was completed in order and accepted provisionally, three months previous to the terminal date. A second term for the incumbent would be in order under a call, but the committee would have to assure itself that the call was practically unanimous. The stationing committee in the final three months would fill all vacant and unoccupied vacancies and place all available ministers.

BOMB THE AGAMEMNON STEERED BY WIRELESS

Aircraft Roke British Warship With Dummy Missiles in Target Practice. London, Aug. 4.—The obsolete battleship Agamemnon was used in the English Channel as a target for bomb practice from the air. Without a living soul aboard she was controlled and steered by wireless from a destroyer which at the time was miles away. Steaming at a speed of ten miles an hour and changing her course from time to time in answer to the wireless direction, the Agamemnon was first attacked by four De Havilland bombing machines, each of which dropped twenty-four dummy bombs from a height of 8,000 feet. The missiles began to fall all round the vessel, and presently two direct hits were registered. Most of the hits here were such that expert observers expressed the opinion that in actual warfare the battleship must have been destroyed. Afterward heavier machines with heavier dummy bombs attacked the Agamemnon, with a higher percentage of direct hits. Finally smaller airplanes assailed the vessel from close quarters, and only three bombs out of forty missed their target. The battleship was soon blotted out by smoke. As soon as the smoke cleared off, six other machines swooped down and raked the decks with machine guns. It is pointed out that the tests were not intended as a contribution to the aeroplane versus battleship controversy, but as target practice, pure and simple.

FREDERICTON PERSONALS.

(Gleaner, Wednesday.) Mrs. W. P. Edwards and two children returned yesterday from St. John, where they spent the last week. They were accompanied by Mrs. Harold Sully and her children. Mrs. Harry Wheeler left this morning for Bangor to visit relatives. Mrs. Mary Mavor left yesterday afternoon for Calgary, Alta., where she will be the guest of her son, Stewart Mavor, K. C., for some weeks. Miss Annie Harvey left yesterday for New Westminster, B. C., where she will spend a few weeks before going to Penitentiary to reside. Mr. and Mrs. VanBuskirk J. P. are to leave today for Battle Creek, Michigan, where Mr. VanBuskirk will remain for some time and Mrs. VanBuskirk spend a few days. Dr. B. C. Foster and wife and R. B. Hanson, M. P., and wife, are spending a few days at St. Martins. Mr. and Mrs. W. G. Irving and daughter, Gladys, of New York, are the guests of Johnston McKenzie. J. S. Scott, county secretary-treasurer, and his family left this morning for St. John by motor. It is his intention to go from St. John to St. Stephen and to return to Fredericton via Houlton and Woodstock. Col. T. G. Loggie, deputy minister of lands and mines, returned this morning from Halifax, where he accompanied Mrs. Loggie on Thursday of last week. Mrs. Loggie is remaining in Halifax for the benefit of her health, which has improved since her arrival.

MONCTON PERSONALS.

(Moncton Transcript.) Mrs. B. C. Robertson, accompanied by her niece, Miss Gertrude Lewis of Campbellton, left this morning for St. John and will spend a few weeks at Brown's Flat. Rev. S. A. Baker is much improved in health. He expects to resume his pastoral duties with the Moncton Reformed church on Sept. 3. Mrs. Percy Maxon and son of Cambridge, Mass., are visiting Mrs. Maxon's parents, Mr. and Mrs. H. Constable. Miss Marjorie Hutchinson and Miss Lillian Harlow of Boston are spending some weeks in the city with Miss Hutchinson's parents, Chief L. S. Hutchinson and Mrs. Hutchinson. Miss Belle Armstrong is chaperon for

a party at Gray's Point, Lake Utopia, at Arthur Johnson's club house. The party included: Misses Armstrong, Cawley and Miss Smith of Moncton and Messrs. Ellery and Arthur Johnson.

COURT VIEWS HER COSTUME. Accepts Offer of Dancer Accused of Wearing Immodest Apparel. New York, Aug. 4.—Miss Clara Young, a dancer, appeared before Magistrate Elperin in the Flatbush Police Court, Brooklyn, charged with having worn an immodest costume at a revue at the Parkway Palace, 61 Ocean Parkway, July 20 and 21. Policeman Frank C. Lemmon of Inspector's Sackett's staff was the complainant. Miss Young denied that her dancing clothes were immodest. She told the court that she had on her stage costume under her street clothes and offered to let Magistrate Elperin judge for himself. He consented and the exhibition was held in his chambers with only the court attendants and reporters present. When Policeman Lemmon saw the dancer in her gypsy costume he said that was not the costume she wore on the night he served the summons on her. The dancer, however, insisted that it was and she was corroborated by several witnesses. Magistrate Elperin reserved decision.

AUTO GOES DEAD IN A RACE WITH STORK, BUT PAPA WINS. New York, Aug. 4.—When Joseph A. Burns' automobile balked while he was racing from Middletown, N. Y., to his home at 1,046 South Orange avenue, Newark, in an effort to get there ahead of a parcel of stork, he simply abandoned the automobile at the curb, hopped aboard a trolley car and arrived home about five minutes before the stork brought a fine baby boy. Meanwhile the police had notified surrounding towns that a crazy motorist had abandoned a good machine. They took it in charge and Burns got it back.

AUSTRALIA'S CACTUS PEST. Prickly Pear is Invading 20,000 Acres Every Month. Sydney, N. S. W., June 21.—(Correspondence of The Associated Press, Mail)—The prickly pear pest is spreading at the rate of 20,000 acres a month in New South Wales, agricultural authorities say. About 5,000,000 acres are infested, the property loss being at least \$250,000. Under the last government a bill was drafted to deal with the pest, but it never reached the House. It made it a penal offence to let prickly pear grow on clean lands and dealt with clearance lands on their merits.

AT THE AGAMEMNON. The battleship Agamemnon was used in the English Channel as a target for bomb practice from the air. Without a living soul aboard she was controlled and steered by wireless from a destroyer which at the time was miles away.

SEEKING FOR THE COAST. Steaming at a speed of ten miles an hour and changing her course from time to time in answer to the wireless direction, the Agamemnon was first attacked by four De Havilland bombing machines, each of which dropped twenty-four dummy bombs from a height of 8,000 feet. The missiles began to fall all round the vessel, and presently two direct hits were registered. Most of the hits here were such that expert observers expressed the opinion that in actual warfare the battleship must have been destroyed.

HEAVIER MACHINES. Afterward heavier machines with heavier dummy bombs attacked the Agamemnon, with a higher percentage of direct hits. Finally smaller airplanes assailed the vessel from close quarters, and only three bombs out of forty missed their target.

SMOKE. The battleship was soon blotted out by smoke. As soon as the smoke cleared off, six other machines swooped down and raked the decks with machine guns. It is pointed out that the tests were not intended as a contribution to the aeroplane versus battleship controversy, but as target practice, pure and simple.

FREDERICTON PERSONALS. (Gleaner, Wednesday.) Mrs. W. P. Edwards and two children returned yesterday from St. John, where they spent the last week. They were accompanied by Mrs. Harold Sully and her children. Mrs. Harry Wheeler left this morning for Bangor to visit relatives. Mrs. Mary Mavor left yesterday afternoon for Calgary, Alta., where she will be the guest of her son, Stewart Mavor, K. C., for some weeks. Miss Annie Harvey left yesterday for New Westminster, B. C., where she will spend a few weeks before going to Penitentiary to reside. Mr. and Mrs. VanBuskirk J. P. are to leave today for Battle Creek, Michigan, where Mr. VanBuskirk will remain for some time and Mrs. VanBuskirk spend a few days. Dr. B. C. Foster and wife and R. B. Hanson, M. P., and wife, are spending a few days at St. Martins. Mr. and Mrs. W. G. Irving and daughter, Gladys, of New York, are the guests of Johnston McKenzie. J. S. Scott, county secretary-treasurer, and his family left this morning for St. John by motor. It is his intention to go from St. John to St. Stephen and to return to Fredericton via Houlton and Woodstock. Col. T. G. Loggie, deputy minister of lands and mines, returned this morning from Halifax, where he accompanied Mrs. Loggie on Thursday of last week. Mrs. Loggie is remaining in Halifax for the benefit of her health, which has improved since her arrival.

MONCTON PERSONALS. (Moncton Transcript.) Mrs. B. C. Robertson, accompanied by her niece, Miss Gertrude Lewis of Campbellton, left this morning for St. John and will spend a few weeks at Brown's Flat. Rev. S. A. Baker is much improved in health. He expects to resume his pastoral duties with the Moncton Reformed church on Sept. 3. Mrs. Percy Maxon and son of Cambridge, Mass., are visiting Mrs. Maxon's parents, Mr. and Mrs. H. Constable. Miss Marjorie Hutchinson and Miss Lillian Harlow of Boston are spending some weeks in the city with Miss Hutchinson's parents, Chief L. S. Hutchinson and Mrs. Hutchinson. Miss Belle Armstrong is chaperon for

So extra delicious With fresh fruits No other food has such an appeal on a hot day as Kellogg's "WAXTITE" Corn Flakes! They win fickle appetites, they satisfy hungry folks! As an extra-summer taste thrill, eat Kellogg's "WAXTITE" with the luscious fresh fruit now in season. Such a diet is not only ideal from a health standpoint, but it is refreshing!

You can eat Kellogg's "WAXTITE" Corn Flakes liberally at any meal because they digest easily. Let the children have all they want.

WAXTITE CORN FLAKES

Also makers of KELLOGG'S KRUMBLEES and KELLOGG'S BRAN, cooked and branbled.

Baden-Powell on Temperance. (From Sir Robert Baden-Powell's New Book) "When I was in Mafeking we all had to live on a very restricted ration of food, and it was interesting to see how we very soon found that only a small proportion of them could stand even this mild test. But it was quite evident that the men who were most capable of doing the required work were those who had been all their lives temperate in eating, drinking and smoking."

ENGLISH AND SCOTCH WOOLLEN CO. Men! Don't Let This Money Saving Chance Pass--Have Your Clothes Tailored-To-Measure-Get Better Fabrics, Style, Fit And Extra Pants Free

St. John Store, 28 Charlotte Street

Prophy-lactic Tooth Brush

THIS brush cleans more thoroughly because the tufted bristles reach between the teeth.

It is easier to manage because of the curved handle. It is more sanitary because it always comes in the yellow box.

It wears longer because of the quality of the bristles. Four visits a year to your dentist and daily use of the Pro-phy-lactic Tooth Brush insure good teeth for a lifetime.

Adult's, youth's, and child's sizes.

EVANS & CO., Limited 247 St. Paul St. West, Montreal Sole Distributors

ATTORNEYS LEAVE FOR THE COAST

M. G. Teed, K. C., W. B. Wallace, K. C., and J. D. P. Lewin left last evening for Vancouver to attend the annual meeting of the Canadian Bar Association as official representatives of the New Brunswick Barristers' Society. Mrs. M. G. Teed was also a member of the party which left last night for the west coast city. Hon. Dr. J. B. M. Baxter, K. C., who left last week for San Francisco to attend the meeting of the Bar Association of the United States, will also attend the meetings in Vancouver which will take place on August 16, 17 and 18.

TWO N. B. PASTORS ACCEPT CALLS

Rev. Macintosh McLeod, Presbyterian pastor of New Mills, Restigouche county, has resigned to accept a call from the First Presbyterian church of Providence. Rev. H. H. Blanchard, formerly of Kirkland, has accepted a call to the Onslow (N. S.) Presbyterian church.

SEES SON'S BODY IN RIVER

Mother, Waiting for Logging Child, Takes Him From Water, Dead. White Plains, N. Y., Aug. 4.—While a mother and daughter sat idly at the bank of the Saw Mill River at Thronwood, a few miles from here, awaiting the return of the two-year-old son of the family, who had lagged behind during the family's walk along the river bank, they gazed into the stream and saw a body floating down with the tide. The mother, Mrs. Rose Vesel, of 109 East Seventh street, New York, screamed, waded into the river to her waist and brought the body of her son Patsy to the bank. The mother and daughter, worked feverishly over the boy, but to no avail. Passersby carried the child to a nearby house and Dr. Marikel of Pleasantville was called. He used a pulmotor, but failed to revive the boy. Mrs. Vesel is the wife of an owner of a string of taxis in New York.

**WANTED**—GENERAL MAID. Re- ferences required.—39 Paddock St. 6505-8-8

### DOCTOR ANALYZED OWN FEELINGS AS DEATH APPROACHED

Took a Fatal Dose of Mor- phine—Wrote Down Sensa- tions.

Milwaukee, Aug. 4.—Dr. Albert Herschman, former consul general for Austria here, ended his life by taking twelve one-half grain tablets of mor- phine, which he had obtained from a doctor, to take effect, set down at his desk in his downtown office and wrote the story of his approaching death. He set down on paper at intervals just how he felt as the fatal grip of the poison wrought him nearer and nearer to what he termed "the great adventure."

"Life is nothing but a street car ride when you come to your station you get off," he wrote, pausing twice while penning his death letter to telephone his wife to inform her that he was "almost finished."

Continuing he wrote: "The morphine has put me in a con- dition of absolute mental painlessness. I am not attempting to review my life and do not try to look into the future, and there is no hereafter. I deeply re- gret the grief by voluntary parting must bring for a time on my beloved ones, and I will hope, and late reverse make my step desirable.

"It is now 7:17 p. m., and if I did not know that I have taken sufficient poison to warrant results, I could not notice it from my condition. Aside from flut- tings and moderate drowsiness, I feel no results. Still, I cannot make up my mind to swallow the cyanide and have it a clear, awaiting further increase of drowsiness, and hope to be soon able to cost me into the inevitable.

"7:42 p. m.—I am here yet, hesitating to take this cyanide. My thoughts become blurred. From the morphine I have a sensation of supreme quietude reigns in me. If it was not for my be- loved wife, who just phoned, I would go down waiting, but I am afraid of too long a delay because a lapsing into uncon- sciousness might result in being saved by medical assistance. Ten more minutes and then the end by cyanide.

"I am in no manner kept in sus- pense, just pleasantly and curiously watching developments. Queer enough, my only wish is I had an additional handkerchief so that I could dispose of the surplus perspiration. It being clear and my skin clammy from the morphine effects."

The record was signed "Dr. A. J. H." The former Austrian consul was found unconscious by the janitor, and was rushed to the Emergency Hospital dying in the ambulance on the way. Dr. Herschman arrived in America from Austria in 1899 and came to Mil- waukee twenty years ago. Shortly be- fore the war he was made Austrian con- sular agent with offices here. It was said that he gave freely of his time and money to aid fellow-countrymen in difficulties. He studied medicine in Vienna and was graduated there.

Dr. Herschman was a classmate at the University of Vienna of Dr. Ad- olph Lorenz, the famous blood-test sur- geon, and entertained him on the oc- casion of the latter's visit in 1902, after he had operated on Lolita Armour in Chicago.

penae, just pleasantly and curiously watching developments. Queer enough, my only wish is I had an additional handkerchief so that I could dispose of the surplus perspiration. It being clear and my skin clammy from the morphine effects."

The record was signed "Dr. A. J. H." The former Austrian consul was found unconscious by the janitor, and was rushed to the Emergency Hospital dying in the ambulance on the way.

Dr. Herschman arrived in America from Austria in 1899 and came to Mil- waukee twenty years ago. Shortly be- fore the war he was made Austrian con- sular agent with offices here. It was said that he gave freely of his time and money to aid fellow-countrymen in difficulties. He studied medicine in Vienna and was graduated there.

Dr. Herschman was a classmate at the University of Vienna of Dr. Ad- olph Lorenz, the famous blood-test sur- geon, and entertained him on the oc- casion of the latter's visit in 1902, after he had operated on Lolita Armour in Chicago.

Continuing he wrote: "The morphine has put me in a con- dition of absolute mental painlessness. I am not attempting to review my life and do not try to look into the future, and there is no hereafter. I deeply re- gret the grief by voluntary parting must bring for a time on my beloved ones, and I will hope, and late reverse make my step desirable.

"It is now 7:17 p. m., and if I did not know that I have taken sufficient poison to warrant results, I could not notice it from my condition. Aside from flut- tings and moderate drowsiness, I feel no results. Still, I cannot make up my mind to swallow the cyanide and have it a clear, awaiting further increase of drowsiness, and hope to be soon able to cost me into the inevitable.

"7:42 p. m.—I am here yet, hesitating to take this cyanide. My thoughts become blurred. From the morphine I have a sensation of supreme quietude reigns in me. If it was not for my be- loved wife, who just phoned, I would go down waiting, but I am afraid of too long a delay because a lapsing into uncon- sciousness might result in being saved by medical assistance. Ten more minutes and then the end by cyanide.

"I am in no manner kept in sus- pense, just pleasantly and curiously watching developments. Queer enough, my only wish is I had an additional handkerchief so that I could dispose of the surplus perspiration. It being clear and my skin clammy from the morphine effects."

The record was signed "Dr. A. J. H." The former Austrian consul was found unconscious by the janitor, and was rushed to the Emergency Hospital dying in the ambulance on the way.

### WANTED

**WANTED**—UNFURNISHED FLAT or Apartment, two or three bedrooms.—Apply H. L. Mercer, Phone Main 8246. 6648-8-7

**FURNISHED FLAT WANTED**—UN- til May 1 or longer, fairly central loca- tion for young couple. State price, 450 to Box Q 62, Times. 6688-8-7

## SHOPS YOU OUGHT TO KNOW

Designed to place before Our Readers the Merchandise, Craftsmanship and Service Offered by Shops and Specialty Stores.

### AUTO STORAGE

AUTO STORAGE, WIRE STALLS to let cars repaired, cars washed. At Thompson's, 95 Sydney St., Phone 668.

### BARGAINS

GO TO WETMORE'S, GARDEN ST. for cheap dry goods. Bargains in remnants.

### DYERS

NOTICE TO MOURNERS—FAST black returned in 24 hours. Phone 4700, New System Dye Works.

### ENGRAVERS

WEDDING ANNOUNCEMENTS and Cards, Jewelry Engraving, etc.—A. G. Plummer, 235 Union St.

### FLAVORINGS

USE CLARK'S PERFECTION FLAVORS for all Pies and Cakes. Once used always used. Sold at all stores.

### LADIES' TAILORING

EVERYTHING IN LADIES' AND Gents' Tailoring and Fur. Made to order. A. Moran, Artist Tailor, 52 Germain.

### MATTRESS REPAIRING

WE MANUFACTURE THE FAMOUS Hotel Springs, also Coy Corner, Cots, Mattresses and Cushions to fit. Upholstering and Repairing—Cassidy & Kain, 28 1/2 Waterloo St., M. 3564.

ALL KINDS OF MATTRESSES AND Cushions made and repaired; Wire Mattresses re-stretched. Feather beds made into mattresses. Upholstering neatly done, twenty-five years' experience. Walter J. Lamb, 62 Britain Street, Main 687.

### MEDICAL

DR. CALNEK, SPECIALIST IN KIDNEY, Bladder and Venereal Diseases. Office 52 Charlotte Street, Phone, office, M. 388; residence, M. 2008. 6746-9-3

### MEN'S CLOTHING

READY TO WEAR MEN'S SUITS at a reasonable price. H. Higgins & Co., Custom and Ready-to-Wear Clothing, 182 Union St. T.F.

### NERVES, ETC.

R. WILBY, MEDICAL ELECTRICAL Specialist and Masseur, treats nervous diseases, weakness and wasting, sciatica, paralysis, locomotor ataxia, rheumatism, insomnia, etc. To ladies—Facial hair, moles, wrinkles, etc. removed. Special treatment for hair growth—262 Union St., Phone Main 8106. T.F.

### PAINTS

H. B. BRAND PAINTS, \$3.50 TO \$4.00 per Gallon. Send for Color Card—Haley Bros., Ltd. 6-9-1522

### PIANO TUNING

PIANO AND ORGAN TUNING AND repairing. All work guaranteed, reasonable rates.—John Haskill, West 529.

### PIANO MOVING

HAVE YOUR PIANO MOVED BY Auto and modern gear. Furniture moved to the city, and general cartage.—Phone M. 1167, Arthur S. Stackhouse.

### PLUMBING

R. D. HARRINGTON, PLUMBING, hot water heating, Gurney pipeless furnaces installed. Repairs promptly attended to—5 Dorchester St.

C. R. MURRAY, PRACTICAL Plumber, Steam and Hot Water Heating a specialty. Repair work promptly attended to. Satisfaction guaranteed. Address 22 Clarence St., Phone 497.

CHAS. H. MCGOWAN, SANITARY Plumbing and Heating Engineer. Satisfaction guaranteed. Repair work promptly attended to—8 Castle Street.

G. W. NOBLE, PLUMBER AND Gas Fitter, Jobbing promptly attended to—46 St. Paul Street, M. 3082.

### SIGNS

THORNE-BROWN, 101 PRINCESS St., Main 4766. Everything in Signs. 6472-9-14

### SECOND-HAND GOODS

SECOND HAND CLOTHING, JEWELRY, diamonds, old gold, silver, guns, etc. purchased.—H. Gilbert, 24 Mill Street, Phone 4012.

WANTED TO PURCHASE—LADIES' and Gentlemen's cast off clothing, boots, highest cash prices paid. Call or write Lampert Bros., 655 Main Street. Phone Main 4463.

### SHOE REPAIRING

SHOE REPAIR SHOP, 7 DOCK Street, near corner Union. New Victor machines, only best stock; skilled workmanship. prompt service, moderate prices.

## AUSTRIA IS SEEKING A LOAN OF \$15,000,000

Will Ask Allies to Guarantee it in Hope of Improving Crown Exchange.

Paris, Aug. 4.—Austria will soon formally request the allied powers to guarantee an international loan exceeding \$15,000,000, according to Dr. Schuler, Under Secretary for Foreign Affairs in the Austrian government, who has come to Paris to lay before the Reparation Commission details of a plan for Austria's financial reconstruction and to obtain the commission's approval of a law creating an Austrian bank of issue. The bank is to be used as a means of improving the value of the crown, which is now at a low level. The sum of 60,000,000 gold Swiss francs has been guaranteed by Austrian banks as capital for the bank of issue, and subscription through these banks will begin if the plan is approved by the commission. According to the plan, circulation of the crown will pass into the hands of the bank of issue from now on, and no paper money can be issued without its approval.

Austria has been negotiating for some time with American and British bankers for a large loan, but the financiers have not yet decided that she can offer sufficient security for such a loan. Dr. Schuler said to The Associated Press today: "If the powers that created Austria under the Treaty of St. Germain are not prepared to prove in some practical way their belief that Austria can exist as a political and economic unit, then it scarcely can be expected that international bankers will believe in such a possibility and accept a risk which is known to be a heavy one. Austria, as a political and economic unit, then it scarcely can be expected that international bankers will believe in such a possibility and accept a risk which is known to be a heavy one. Austria, as a political and economic unit, then it scarcely can be expected that international bankers will believe in such a possibility and accept a risk which is known to be a heavy one."

## THE TREND OF PRICES.

(Bank of Commerce Circular.)  
Our index numbers of the wholesale prices both of exports and of imports have risen; that of exports from 152.25 to 154.23, that of imports from 154.02 to 161.68. Wheat prices have fluctuated during the month but the general trend has been towards a firmer figure. Cattle and beef have declined in price, but hogs and bacon have risen. The prices of wool, hides and pine have also risen. Among the imports which have increased in price are corn, sugar, raw cotton, rubber, linseed oil, coal oil, pig iron, tin, coke and coal.

## THE TREND OF PRICES.

There is a feeling in both Canada and the United States that a major upward swing of prices has set in, although it is quite possible that, as has happened after nearly all great wars, the general trend of prices over the next quarter of a century will be towards a lower rather than a higher level. The ideal condition is that prices shall be constant; in other words, that there shall be a nice balance between supply and demand. Falling this, it is eminently desirable that any reactions that may follow extravagant consumption or over-production should be gradual and progressive, respectively as periods of gradually falling rising prices. Until the recent labour trouble in the United States, the difficulty lay in interesting the consumer; it now appears to be in interesting the producer. Consumption is certainly on the mend, but the moment it feels, in rising prices, the effect of under-production of basic materials, such as iron and coal, it will be sure to decrease.

## CANNING BLUEBERRIES.

Chatham World—Canning operations will be in full swing about the last of this week. The blueberry crop is expected to be above the average.

## TRADE IN DAIRY PRODUCTS.

(Bank of Commerce Circular.)  
The amount of butter produced in Canada during 1921 was considerably larger than the year before, but there was a sharp decline in the amount exported. During the present season, however, there has been a decided improvement. Shipments from Montreal up to 15th July totalling 105,206 packages, as compared with 105,822 during the corresponding period last year. This improvement must have come as the result of a sudden change, for the Canadian trade commission in the United Kingdom reports that the receipts of Canadian butter in the United Kingdom during the first five months of the current year amounted to only 179 cwt. out of total imports of 2,076,195 cwt.

## COTTON ESTIMATE COMPLETE SURPRISE

U. S. Crop Forecast by Government at 70.8 per cent of Normal.

New York, Aug. 4.—The government estimate of the condition of the crop up to July 25 as 70.8 per cent of normal was a complete surprise, as the consensus of opinion was centred around 73. It compared with 71.2 on June 25, 69.6 on May 25, and 64.7 on July 25, last year. This condition indicates a production of 11,448,000 bales and the indicated yield per acre. It is estimated, will be 157.2 pounds. The abandonment of acreage was placed at 7.1 per cent.

## ALBERTA OIL FIELDS.

Bank of Commerce Circular—A certain activity is reported from the oil-fields of southern Alberta, but the actual amount of development, and the results obtained from drilling operations to date hardly warrant a definite conclusion as to the commercial value of these oil deposits. Prospectors are reported to be handicapped by the stringency of the regulations governing oil leases and by the high tariff on oil-drilling machinery, but the work continues, largely as an outcome of recent finds in the Montana section of the field, and the next few months may establish definitely the commercial value or otherwise of the Alberta oilfield.

## Telephone Co. Bonds.

Montreal, Aug. 4.—An issue of \$115,000 6 1/2 per cent first mortgage twenty-year bonds has been made by the Avalon Telephone Company, Limited, of St. John's, Nfld., and is being offered privately by Royal Securities Corporation at 98 and interest, to yield about 6.70 per cent.

VALUE MAN'S BODY AT ONLY 98 CENTS

Rough Estimate of Its Components Puts Humiliating Estimate on it—Close-up Obscures Vision.

Commenting upon the composition of the human body, The Journal of the American Medical Association draws attention to the fact that physicians often get so close to the details that they do not see the whole, as men get so close to the forest that they cannot see the woods for the trees. This, the writer says, is especially true in respect to things that are examined with the microscope or determined by microchemical means. He says that Georgine Luden has called attention to this tendency, and points out a number of qualitative facts that are somewhat startling. In the gross, we are made of soap (fat), iron, sugar, lime, phosphorus, magnesium, potassium and sulphur. The total value of this is about 98 cents per individual.

"For example," says the writer, "the entire volume of circulating blood, which fills about half an ordinary bucket, contains only a small teaspoonful (from 4 to 7 gm.) of sugar and a tablespoonful (22 gm.) of salt. When we consider the minute variations in the sugar content

Famed for Fragrance Just as a famous rose is named for its subtle fragrance so is "SALADA" TEA

known for its exquisite aroma and delicious flavour. Each leaf is the essence of fragrant purity and yields the choicest of flavours.

that the modern chemist can measure in a few drops of blood, we gain added respect for the science of quantitative analysis. The iodine in the entire blood amounts to but 0.01 gm., or an average dose of atropin.

"When the physiologist tells us that epinephrin can be detected by biologic methods in a dilution of 1,230,000,000, it means far less than to say that it is equivalent to diluting a small glass of whiskey (10 c. c.)—a very small glass, that—into the contents of 1,230 city street sprinkling carts, which would form a procession about six miles long.

aspect? And do we realize that in all that mass of blood is distributed the insignificant quantity of from 1 to 3 grains (65 to 300 mg.) of uric acid, which we assay accurately and speculate about vaguely?

"Luden quotes an amusing, if not very precise, estimate of the total chemical composition of the average man," which has recently been published by a big industrial company and which may be thus summarized: Fat enough for seven bars of soap; iron enough for a medium-sized nail; sugar enough to fill a chicken coop; phosphorus enough to make 2,200 match-tips; magnesium enough for a dose of magnesia; potassium enough to explode a toy cannon; and sulphur enough to rid a dog of fleas.

"Many items in this estimate are left largely to the imagination, such as the size of the dog and the number of his tormentors, but the total cost of the ingredients is given as 98 cents, which is neither expensive nor calculated to foster megalomania. The practical value of visualized scientific data lies not only in the stimulation of memory through the imagination, but also in the food for thought which they offer and in their bearing on great medical problems.

"If mental pictures of the billions and trillions of blood cells crowding, jostling and possibly struggling for a share of the mere teaspoonful of sugar in the total blood volume of a full-sized man, or the endless procession of sprinkling carts representing the epinephrin concentration to which animal tissues respond, appeal to one's sense of humor, they also do much more than this.

"They bring home the delicacy of the adjustment by which the human body mechanism is regulated; the extent to which this fine adjustment may be disturbed by seemingly trivial factors; the obligation of both laymen and physicians do not ignore the "light tokens of distress of the body engine, and the value of comparing the quantities used in the body chemistry with the dosage in therapeutics."

IMPERIAL Premier GASOLINE More Miles per Gallon

Imperial Premier Gasoline makes your engine "hum" with power; adds to motoring pleasure and gives you the most miles per gallon at the lowest cost per mile.

Use the Want Ad. Way

A SEARCH FOR CAMPHOR. Americans Seek to Be Independent of Japan for Natural Product.

The Paris correspondent of The Journal of the American Medical Association, writing about the cultivation of the camphor tree and Japan's present monopoly of the natural camphor industry, says:— "Japan is the land of choice for the cultivation of the camphor tree, and it holds, at present, the monopoly for the production of natural camphor. To enable its citizens to control the celluloid industry, the Japanese government has, during the last few years, placed several restrictions on the export of raw camphor. American and European buyers have, therefore, been looking elsewhere for the product.

"Professor A. Rolet of the Agricultural School of Antilles, published in the Revue Generale des Sciences lures et Appliquees a study of the principal regions where the cultivation of camphor might perhaps be successful. The camphor tree of Formosa (Cinnamomum camphora) grows very well on the coast of Algeria, and Dr. Traub of Algiers has seen some very fine specimens in various nearby localities; for instance, in Algiers, Blida, Bougie, El-Milia and El-Hanser. This botanist has encouraged its culture for the camphor to be obtained from its leaves.

"In 1919 the Bureau of Forestry planted several acres of the trees in the forest of Douma, the saplings having been supplied by the experimental garden in Algiers.

"In Italy Laurus camphora is ecclimated in Naples, and near Foggia, Pisa, Florence, the Riviera, and Isola Bella. In the Malayian islands, the first seeds of Cinnamomum camphora were planted in 1904, and the trees seem to be as fine today as those of the same age growing in Japan. Camphor trees are found also in Egypt, East Africa, and the islands of Madagascar, Reunion, Mauritius, Canary and Hawaii, and in Australia, California and South Carolina.

"Dewey says that the northern limits for the culture of the camphor tree in the United States are Charleston and Summerville, S. C., Augusta, Ga., and Oakland, Cal. For fifty years the camphor tree was cultivated in Florida as a garden plant or for hedges, but in 1905 gardeners began to ship a great number of the plants to other parts of the Southern States for the extraction of camphor with the result that in 1912 the importation from Japan dropped considerably.

where a strike is unsuccessful the striker is hit by both loss of wages during the strike and the increased cost of living promoted by the strike.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, AUGUST 4, 1922

### SPORT NEWS OF A DAY; HOME AND ABROAD

#### BASEBALL

Local baseball fans were treated to one of the best games of the season last evening when St. Peter's and Quincey All-Stars met on St. Peter's Park and played nine full innings to a 1-1 tie. The game leaves these two crack baseball aggregations still tied for honors, each having one win and two ties.

The game last evening was a thriller, as both sides succeeded in getting men on, but steady pitching and sensational hitting repeatedly stopped all run-getting. In the seventh St. Peter's secured a run on a batting rally and an error. It looked like the break, but an injury to the catcher relieved the tension, and Greenhalgh was able to end the inning by striking all the next men up. The All-Stars evened the count in the first of the eighth and no more runs resulted. Hansen was on the mound for St. Peter's, and Greenhalgh for the All-Stars, and both pitched superb ball. The local pitcher's feeling of his position was also a feature, with one put-out and nine assists. The score:

St. Peter's	A. B. R. H. P. O. A. E.	Quincey	A. B. R. H. P. O. A. E.
Ware, cf	4 1 2 1 0 0	Marshall, ss	4 0 1 0 0 0

Score by innings: Quincey 0 0 0 0 0 1 0-1; St. Peter's 0 0 0 0 0 1 0-1. Summary—Two-base hits, Gibbons, Ware, Sacrifice hits, Greenhalgh, Knight, Rouillard. Struck out, by Hansen, 4; Greenhalgh, 6. Bases on balls, 2; Hansen, 1; off Greenhalgh, 1. Stolen bases, Ware and Bonnell. Double plays, Rouillard, Marshall and McGovern. Left on base, Quincey, 6; St. Peter's, 5. Umpires, Howard and Smith. Time of game, 1 hour 22 minutes. Scorer, Carey.

**C. and C. League Closes Tonight**  
The Civics and Post Office teams will meet tonight in the closing game in the Civic and Baseball League and a good game is expected in spite of the fact that the Civics have already clinched the championship in the series. Manager Harry Needham, of the Civics, announced last night that he hoped to win tonight's game giving his team an unbroken record of wins in the league. The Post Office boys, on the other hand, are confident that they will stop their rivals with Torrie in the box and Evans on the receiving end. The game will use Hatfield in the mound with Blair behind him. The game will be played on the Rockwood Park diamond.

**Royals Defeat Civics**  
The East End grounds were the scene of a very interesting game last evening when the Royals defeated the Civics for the second time this season, the score being 10 to 3. Nelson, for the Royals, pitched an exceptionally good game, which was well supported by his teammates. He first four innings. He allowed only four hits as compared with ten in his first four opponents. The Civics did a lot of shifting positions but were unable to score a run until the last inning when they managed to get three men across the plate. The Royals seemed to be in the best of trim and it looks as though they will put up a good fight against the Boston Twilights when that aggregation meets them next Tuesday evening on the East End diamond.

Score by innings: Royals 0 0 0 0 0 1 0-1; Civics 0 0 0 0 0 1 0-1. Summary—Home runs, Royals, 2; Two-base hits, Diggs, Home runs, Nelson. Struck out, by Nelson, 9; Civics, 3. Passed balls, Austin, Barlow (4). Balk, Brookins. Hits, off Brookins, 4 in 2 innings; off Hughes, 6 in 2 innings. Struck out, by Nelson, 9; by Brookins, 8; by Hughes, 8. Bases on balls, off Brookins, 1; off Hughes, 1. Time of game, 1 hour 30 minutes. Umpires, Hayes and Paris. Scorer, Allen.

**Sugar Refinery, 11; Indians, 4**  
The Sugar Refinery team defeated the Indians last evening on the South End diamond by a score of 11 to 4. Quite a large crowd witnessed the game which was a good exhibition of ball. Score:

Refinery	A. B. R. H. P. O. A. E.	Indians	A. B. R. H. P. O. A. E.

Score by innings: Refinery 1 1 1 0 0 4 10-11; Indians 0 0 0 0 1 1 10-4. Summary—Two-base hits, G. Lawson, Jones, Mountain (2), McLean (2). Stolen bases, Cummings (2), Jones, Mountain (2), Wilson, Rowley, Driscoll, Weisford. Double play, Cummings to G. Lawson. Struck out, by Cummings, 8; by McBeath, 4. Bases on balls, off McBeath, 1. Hit by pitcher, McBeath (4). Left on bases, Indians, 4; Refinery, 4. Time of game, 1 hour 25 minutes. Umpires, Brittain and McDermott. Scorer, Murphy.

**Queen Square Tonight**  
The Telegraph and Times Ballplayers will meet the W. E. L. team on the Queen square diamond this evening at 7 o'clock sharp. The game should be a good one as both teams are moving fast.

**Kings County League**  
Cardwell on Tuesday evening defeated Sussex on the S. A. C. grounds by a score of 11-5. By Cardwell winning the game it makes Sussex and Hampton tie in the league, each having won seven games and lost four and made a tie. It has not been definitely decided as yet whether this tie game will be played off to decide the championship, or play a series of games. Playing a series of games appears to be the most popular idea with the fans.

**La Texas League Star**  
Hack Eibel, who rivals Manager Wilbert Robinson of the Brooklyn Robins in the matter of rotundity, is proving to be the Babe Ruth of the Texas League. Before migrating to the Rio Grande baseball circuit, where he is now first baseman and manager of the Galveston team, Eibel was with the Richmond club of the International League, besides spending some time as a general utility player with the Boston Red Sox. Previous to going to Richmond he was with Atlanta of the Southern Association.

Eibel so far this season has a batting average of .285. Fourteen of his hits, which are nearing the century mark, were home runs, five were triples and fifteen were doubles. Although he has been handicapped with a sore hand for a month, Eibel expects this season to equal the sensational work which he did at the bat last year.

**American League, Thursday**  
St. Louis, 9; Philadelphia, 5. Washington, 2; Chicago, 0. Detroit, 7; Boston, 0. Detroit, 7; Boston, 4. New York, 10; Cleveland, 9.

**National League, Thursday**  
St. Louis, 7; Philadelphia, 1. New York, 5; Chicago, 0. Pittsburgh, 4; Boston, 1. Brooklyn, 4; Cincinnati, 0.

**International League**  
Toronto, 8; Rochester, 3. Baltimore, 8; Reading, 0. Jersey City, 4; Newark, 2. Buffalo, 9; Syracuse, 7.

**Fredrickton Defeats Marysville**  
Fredrickton won from Marysville last night, 8-1. A home run by Clancy, of Fredrickton, was a feature of an otherwise poor game.

**Milltown Defeats St. Stephen**  
Milltown defeated St. Stephen last night by a score of 4-2. Milltown played a brilliant ball game and bunched their hits off Paul. St. Stephen still leads the St. Croix league.

**Fair Vale Defeats Rothesay**  
Fair Vale defeated Rothesay last night by the score of 7 to 6. Darrah hit a homer with two men on.

**Janvrin in Trade**  
New York, Aug. 3—Pal Janvrin, Brooklyn infielder, today was traded to

the Columbus Club of the American Association for shortstop Maurice Shannon.

**AQUATIC**  
Hoover Refuses \$15,000.  
Duluth, Minn., Aug. 4.—Walter Hoover, who recently won the diamond sculls at Henley, admitted that he had rejected an offer of \$15,000 to turn professional and race in several events in England and on the Continent and another offer of \$7,000 to go to Australia immediately and race.

"I will not turn professional, although the offers are mighty attractive," Hoover said. "I will remain an amateur as long as I am in the game."

**Annual Sports**  
The annual aquatic sports of the Fredrickton Automobile and Boating club were held yesterday afternoon and were well contested.

**RING**  
Sudizka vs. McIntyre.  
Mike "Twin" Sullivan, of Cambridge, has written to the local press saying that he would like to box Johnny McIntyre, the local welterweight.

**GOLF**  
Golf at Riverside.  
A contest took place at Riverside Golf club yesterday, in which sixteen couples played mixed foursomes for a prize donated by Percy W. Thomson. The winning partners were Mrs. G. W. Noble and Simeon A. Jones, with a score of seventy-nine for eighteen holes. Mrs. G. K. McLeod and Mrs. Busby presided at the tea tables.

**TURF**  
Races at Fredrickton.  
Fredrickton's mid-summer harness meet got away to a great start yesterday, when three fast races took place. The feature of the day was the showing of Lambert Todd. Summary of the races:

2:25 pace, purse \$400, won by Lee Harrington, 3 in 4 heats, best time, 2:14.3-4.

2:16 trot, Merchants' purse \$400, won by Red Russell, straight heats, best time, 2:14.1-4.

2:15 trot and pace, Manufacturers' purse \$400, won by Lambert Todd, straight heats, best time, 2:04.1-4.

**Grand Circuit**  
Rain curtailed the Grand Circuit racing at Toledo yesterday, the Free-for-all being the only race completed. Summary:

The Elks Club Stake, value \$3100, 2:08 trot, unfinished, heat won by Eric Loree, time 2:04.1-4.

Free-for-all pace, purse \$1,200, won by Johnny Quirk, straight heats, best time, 2:01.1-4.

**Sells Whiskaway for \$150,000**  
New York, Aug. 4.—Whiskaway, a colt that took away the crown from the "unbeaten" Morvich recently, was sold yesterday for the record price of \$150,000. Harry Payne Whitney accepted a check for that amount from C. M. Clark, a racing enthusiast of California.

**AMATEUR OFFICIALS SUSPEND ST. PETERS Y. M. ASSOCIATION**  
Another bomb was thrown into the ranks of the independents by the announcement given out yesterday by the amateur authorities that the St. Peter's Young Men's Association had been suspended from membership of the Maritime Province Branch of the Amateur Athletic Union of Canada. A. W. Covey, president of the M. P. B. A. U. of C., said when interviewed last evening, that this drastic step was taken at a meeting held in Halifax on Monday and that the move was not made without great deliberation. He further announced that the warning to athletes, regarding players now participating in the St. Peter's House League, was again issued in consequence of the challenge of the St. Peter's, winners of that league, to meet any amateur team in this city. He declared emphatically that not an amateur team in the Maritime provinces will be permitted to meet any team from that league under any consideration. "Trouble has been brewing, it is said,

for some time between the amateur authorities and the St. Peter's Y. M. A. Last spring when the first trouble arose between the M. P. B. A. U. of C. and the St. Peter's baseball team over the signing of the famous affidavit, although the league was transferred to the St. Peter's Y. M. A., supported the Covey affidavit at the annual meeting of the M. P. B. A. U. of C. but it is said that their stand was not kindly received by some members of the club and this caused several of the officers to resign.

Later the Y. M. C. I. House Baseball League was formed and the players competed without securing amateur cards, which meant of course signing the affidavit, until Covey took a firm stand on the matter and then it is said that the Y. M. C. I. authorities backed the amateur officials, with the result that the league was transferred to the St. Peter's Y. M. A. The St. Peter's backed the players it is alleged in their refusal to take the affidavit with the result that every player in that league was suspended some time ago. When the league still continues to play under the auspices of the St. Peter's Y. M. A. further drastic steps were decided on with the result as mentioned above.

The official bulletin reads as follows: Notice is hereby given that St. Peter's Y. M. A. is suspended from membership of the M. P. B. A. U. of C. All registered athletes are warned not to play with or against any athlete who has competed in the so-called St. Peter's House Baseball League, dating from August 8, 1922.

**AVERT STRIKE OF GREAT LAKES SEAMEN**  
Detroit, Aug. 4.—Federal intervention yesterday averted a strike of union vessel men on the Great Lakes, the district executive committee of the International Seamen's Union voting to withhold the strike order until the department of labor had made an effort to adjust the wage differences.

### Friday PALACE Saturday

Jack Holt in **The Call of the North** A Paramount Picture

He heard the call to a real man's adventure and dared to go where his feet forbade. Knowing well that the wolf pack awaited every beaten man who took the "Trail of Death," he met a drama of struggle and love as fierce as the primitive wilds.

LOCAL NEWS

POLICE COURT  
One man charged with drunkenness was fined the usual amount this morning.

PROBATE COURT.  
In the probate court in the matter of the estate of Robert A. Carroll, personally \$6,800, and realty \$300, his sister, Miss Elizabeth Carroll was sworn administrator. Dr. J. B. M. Baxter, K. C., was proctor.  
Letters testamentary were issued to Mrs. R. T. Davis and Adrian Gilbert in the matter of the estate of Miss Elizabeth R. Curry, of Gagetown, personally \$8,500. C. A. Mercereau was proctor.

LAMBERT TODD A GREAT RACER

Story of Horse Which Figured in Yesterday's Event on Fredericton Track.

Fredericton, N. B., Aug. 4.—Lambert Todd, 2:10 1/4, sensational green pacer, which won the 2:15 trot and pace yesterday in faster time than the free-for-allers have been making, is Canadian bred and Canadian owned. His owner is Wm. Wright of Sherbrooke, Que.  
Mr. Wright became the owner of Lambert Todd in the fall of 1920, getting him at Three Rivers, Que., by giving a horse which cost him \$300 and something like \$600 to boot. He started him once that fall, and in the spring of 1921 sent him to Mr. Dutton at Barton with instructions to give the pacer a real test. By June Lambert Todd showed a mile in 2:08 3/4, and was later sent to Reading, Mass., for some further tests. There Fred Edman drove Lambert Todd two miles, in 2:06 and in 2:05 1/4, with the last half in 59 1/2 seconds, and the final eighth in four seconds. Wright was swamped with offers to buy his pacer. He said yesterday: "I was offered \$8,000, but I refused it. I am a Canadian, and I am proud to be the owner of a Canadian-bred pacer like Lambert Todd."  
Lambert Todd's engagements are worth \$12,000, and if he keeps on showing as well as he looks somebody will want him for the Circuit next year. He is by Jim Todd, and his dam was Grace Lambert, by Ora Lambert. Roy Volo, 2:08 3/4, and Calgary, 2:02 1/4, were about even first choices in the auction polls for the free-for-all today. There were three other starters. The 2:21 trot and pace was won by the former with six and the latter with nine starters, completed the getaway card.  
A heavy shower soon after midnight was followed by another a little after daylight, and the weather was damp and soggy, but it was declared that a few hours of bright sunlight would make the track lightning fast.

HALIFAX ENTRY FOR RENFORTH RACE  
John Power to Try for the Ross Cup in Regatta on the Kennebecasis.  
Johny Power, of the St. Mary's Rowing Club, Halifax, has entered as a contestant for the Ross Memorial cup race at the Renforth regatta. Larry Connell and George Power, of Halifax, may also enter for this event. The cup will be defended by Harry Giggery, of Millidgeville who captured it last year.  
The Millidgeville club is expected to enter a boys four-oared crew and probably a junior four. Carl Walker, of Fredericton, has expressed his intention of entering the junior singles. George Burton, local swimmer, is entered for the men's swimming and diving races. The Renforth Athletic and Outing Association will have boys' junior and senior four-oared crews as well as some single entries. It is hoped that the St. John Rowing club will be able to get together a senior four-oared crew for the Fulton cup competition.

TRAFFIC CASES.  
Several reports for speeding in Douglas avenue made by Policeman McChieff, a plainclothesman, were dealt with in the police court this morning. Dr. Francis Almsworth was fined \$10 for speeding and failing to sound his horn at the corner of Bentley street. The doctor said he was always very careful about blowing his horn and that he did not think his speed was excessive although he admitted going more than twelve miles an hour.  
H. E. Hart was charged with speeding in the avenue and said that he might have been exceeding the limit but that he had had some trouble with the carburetor and was temporarily unable to control the speed. His explanation was accepted.  
John A. Doherty and Samuel Irons were each fined \$10 for speeding in the avenue.  
William R. Scott was reported by Sergeant Rankine for making the wrong turn at the corner of Main and Adelaide streets. Mr. Scott said he would enter a technical plea of guilty but that there were extenuating circumstances. He had been going only about five miles an hour. The magistrate imposed a fine of \$10.  
A case against James Gilchrist, charged with parking his car in a prohibited place in Market square, was not proceeded with as Mr. Gilchrist explained the circumstances, promising to respect the law in future.  
Otto Lingley was fined \$2 this morning for allowing two of his horses to run at large in Second street.

FORMERLY OF MONCTON.  
Widow of Prof. H. C. Dore Dead in Montreal in 81st Year.  
Montreal, Aug. 4.—Mrs. Sarah Jane Anderson, widow of Prof. H. C. Dore, mother of Prof. Victor Dore, and mother-in-law of Alderman H. A. Quintal, died here yesterday. She was in her eighty-first year, and died at the Hospice Ganellen, where she had occupied rooms for a number of years.  
Mrs. Dore was a native of Moncton. She was the daughter of Prof. Thomas Moore Anderson and his wife, Margaret Agnew, daughter of Sir Andrew Agnew, baronet, of Lochmaw. She is survived by two sons, two daughters, thirty-two grandchildren and one great grandchild.

SEND AWAY SOME 1800 TO FIELDS OF WEST

Harvesters Poured Into City Today—Four Trains Leaving Here.

Last evening's C. N. R. trains, and No. 9 this morning brought in about 725 harvesters, and the steamer Empress brought about 125 from across the sea. Among the latter coming was a party of twenty young Cape Bretoners making the trip to the harvest fields as well as seeing the country possible en route. They came to the city via Truro, Dominion Atlantic and the Empress. They are a party of sturdy young fellows, and made a great impression as they walked about the streets this morning. It is expected that the eastern trains will bring in a large number more from Nova Scotia and Prince Edward Island, so that the four trains leaving over the Canadian Pacific this evening will carry full cargoes. The trains will leave at 8:30, 6:30, 7 and 9 o'clock, eastern standard time, which will mean two hours later by city time.  
From the estimates available at C. P. R. headquarters at noon, it is expected that the total number leaving over the C. P. R. will easily exceed 1,800.  
At the district passengers agent's office this morning it was announced that the company are making the same arrangements for handling the excursions as were in effect for the last decade.  
From figures available this afternoon it was thought that the total number leaving from St. John city itself will be about 850, and the total number from the province from 800 to 1,000. Both systems expected to take a large number from the valley and the Canadian National had many booked along North Shore points.  
The excursionists taking the C. N. R. trip from St. John will be sent out in extra cars attached to the regular Valley train this afternoon at 8:40 o'clock (double time) and these cars will be attached at McGivney Junction to the special C. N. R. excursion train from Moncton. From McGivney Junction the train will go right through to Winnipeg. About 150 or 200 were expected to leave the city this afternoon on this excursion.  
The train arriving at 7:05 o'clock this morning from the east brought in about 200 harvesters and more than this number were expected in this afternoon. The Digby boat this afternoon is expected to carry a large number.  
L. Duncan, traveling passenger agent, from Moncton, was in the city today in connection with the excursion. Between 100 and 170 men bought tickets at the local C. P. R. office before noon today and a great many more were expected this afternoon although it was said that the St. John city would not be so large as last year when there were 675 ticketed from the city.  
The C. N. R. police force are handling the crowds at the depot in masterly fashion. An unpleasant feature was the reported presence of several bootleggers, and some of the men seemed to have imbibed their product with evil results.  
The checking office was rushed to capacity all day, and the line of trunks, bags and suitcases stretched far down the train shed. Restaurants near the station did a rushing business. A small number of women are making the trip. They will have special provisions made for their comfort while en route. Royal Canadian Mounted police will be on duty special to see that order is kept.

ALBERT COUNTY LEADS THE WAY

Albert county is the first of the objecting counties to come across with the money due on public health account. Word has been received that the secretary-treasurer of the municipality has paid to H. B. Cowan, secretary of the Board of Health, \$3,908.26, made up of \$1,872.46, for 1920, with interest amounting to \$88.80, and \$1,950 for 1921.  
Two Passengers for St. John  
Mrs. S. Alward and H. C. Alward Cross on S. S. Empress of France—English Teachers Arrive.  
Quebec, Que. Aug. 4.—The Canadian Pacific 18,500 ton steamer Empress of France, Captain E. Griffiths, R. N. R., from Hamburg, Cherbourg and Southampton, arrived here yesterday afternoon, 1:45 o'clock, with 598 passengers, 2,400 bags of mail, and 450 tons of cargo principally from Hamburg. Among the saloon passengers, including many Americans, were Mrs. S. Alward, and H. C. Alward, of St. John, His Grace the Bishop of Three Rivers, and Mr. H. Cloutier, Montreal.  
The passengers were charmed with two little French Canadian girls, Miss C. and Miss B. La Pezriere, of Tomfofolie, Que., who went over one year ago to study English in an English convent, and who were the delight of the ship on the trip across. They gave recitations from Shakespeare, which delighted all.  
Four young British school teachers connected with the league of British Empire came to Canada, under the auspices of the London county council, to pass six months teaching in Canada. They are Miss M. Bain, Miss I. Cane, Miss Holloway, and Miss J. B. McNaughton. One will stay in Montreal and the other three will go to Toronto. Miss Bain said they were the vanguard of fifty lady school teachers, who were coming to Canada to teach in Canadian schools, especially Ontario and the West, to gain knowledge of the Canadian educational system, as well as the country and Canadian people during their stay in Canada, would be in touch with the daughters of the Empire. The British teachers will be replaced in England, by a similar number of teachers from Canada, as last year.  
The Canadian Pacific 17,000 ton steamer Empress of India left Quebec at 4 o'clock yesterday on schedule time, for Cherbourg and Southampton with a fair list of passengers, mail and cargo.

**DON'T FORGET**  
Here are the things most frequently forgotten by the hustling week-end vacationer:  
LADIES' THREAD SILK HOSE—Lisle top, black only..... \$1.50 Pair  
LADIES' THREAD SILK HOSE—Lisle elastic rib top, black, white and colors..... \$1.75 to \$1.95 Pair  
LADIES' LONG SILK GLOVES—Patent double tips, black, white and colors..... \$1.25 Pair  
LADIES' SILK GLOVES—Patent double tips, black, white and colors..... \$2.25 Pair  
NEW NECKWEAR—Lace and organdie vestings, 42c. to 82c. a vest length; Organdie Vestees, \$2.00 each; Organdie Vestees with filet lace, \$2.50 each; Organdie Collar and Cuff Sets, boat shape, colors yellow, salmon and mauve, \$1.10 to \$1.35 a set; Pique Peter Pan Collar and Cuff Sets, \$1.15 to \$1.50 a set.  
ROUND COLLAR AND CUFF SETS of white organdie with fancy colored edges..... \$1.65 a Set  
WONDERFUL BLOUSE VALUES—To be fresh and dainty one needs lots of blouses so it's good news to know they are so reasonable. These are made of the best quality Habitual Washable Silk in the much worn Peter Pan style with pleating around collar and cuffs. Also shown with convertible collar in plain or tucked front, long or short sleeves.  
Choice for \$3.85 Each
