With the Killing of King Humbert--The Italian Monarch's Slayer is Weakening--Has Become so Violent He Has to be Restrained. The Horse was a Blooded Animal--Ran Away--Chased by an Engine for a Quarter of a Mile and Thrown into a River Where It Was Found. Of Drowning but Only Two Boys Known to Have Been Victims--There May be Others, However--A Bad Squall--Storm Lasted for Fifteen Minutes. The Roumanian Jews, Who Have Been on the Steamer Lake Champlain Off Quebec, Will Be Allowed to Land on Guarantee They Will Not Become a Charge. Leader Condemned the Assassination, Claiming Everyone Has a Right to Live--The New Ruler Received With "Long Live the King." French Press Put a Mischievous Construction Upon His Speech--There Will Be No Partition of China in the Opinion of American Minister White at Berlin.

Washington, Aug. 6.--United States Minister Powell has transmitted to the department from Port Au Prince, Hayti, the text of a law now before the chambers, which proposes to pay the bonds and interest of the sinking fund as they fall due, in gold instead of in paper, and to make the bonds exchangeable for new bonds at the rate of 66.23 per cent. of their value. By this law, says the minister, while the value of the bond is reduced, its intrinsic value increases.

Geneva, Switzerland, Aug. 6.--When the news of the assassination of King Humbert of Italy was announced to Lucheni, the Italian anarchist who stabbed and killed the Empress of Austria here September 10, 1898, he manifested great joy, saying there was no doubt that before long all the sovereigns would undergo the same fate, commencing with the king of Italy, Ludovico, who is undergoing sentence of imprisonment for life, refused to answer any questions on the subject of the assassination of the king of Italy.

Truro, Aug. 6.--(Special)--A horse with which Thomas Cox, of Shubenacadie, had driven a passenger to Maitland, Saturday, was found swimming the Shubenacadie river, near the railway bridge about 10 o'clock Sunday morning. It appeared, after much mysterious and perplexing search, that Mr. Cox had been thrown from the wagon. The horse came home to be stable, strayed on to the railway track, ran a quarter of a mile ahead of a train at 2 o'clock to the Central railway bridge, where it was thrown over and, it is supposed, swam in the river for nearly four hours. When found it had three legs broken and had to be killed.

Ottawa, Aug. 6.--(Special)--One of the most violent rain and thunder storms that visited this vicinity took place at 5.30 this afternoon. It only lasted about fifteen minutes but for severity it could not be surpassed. On Lake Deschene, near Aylmer, it blew a hurricane. At the time all kinds of craft were out owing to it being a holiday in Ottawa. There are many stories afloat as to drowning accidents. So far all that can be verified is that two young lads from Ottawa found watery graves. Connell J. Sters, a draughtsman in the survey branch of the interior department, with his four sons, were out in a row boat. The boat was upset in the squall. Sters managed to get out of the boat with the wife to the boat and along with them he was picked up by a yacht. The other two were drowned. The boys could swim. There are other boats which have not yet reported at the boat house.

Montreal, Aug. 6.--(Special)--D. McNicol, general manager of the Canadian Pacific Railway, expressed himself today as being somewhat mystified over the strike of the company's employes in the west. The company had no objection to its men belonging to unions and the strike was apparently a reasonable one. A number of employes had been laid off, but it was said by Mr. McNicol that it was because there was nothing for them to do. The company has made preparations for a greater grain crop this year than the year before and it was said to face with a partial failure. The crop would yield hardly eleven bushels to the acre and consequently the road was compelled to reduce the number of employes. Mr. McNicol does not think the strike will be practical.

Rome, Aug. 6.--In the Italian chamber of deputies today the address of Signor Villetti on the death of King Humbert was received amid signs of deep mourning, although the more effective passages were frequently interrupted with cries of "Long live the King."

New York, Aug. 6.--Andrew D. White, United States ambassador to Germany, who arrived from Europe today, said that Emperor William's speech to the soldiers who were going to China was generally misinterpreted. "He never meant to tell them to give the Chinese no quarters. Nobody so understood his speech until some French papers put that construction upon it. The first time I ever heard of such an interpretation was when I received a certain Paris paper. The emperor is a fine speaker, and being an emotional man he may be inclined to yield to the impulse of the moment, perhaps, but he knows how to control himself, and he certainly never meant to command his soldiers to be merciless. What he did say was that there was that they should bear in mind that they were going to take a desperate foe."

CANADA'S TOBACCO INDUSTRY.

Rapid Increase in the Quantity Manufactured--2,250,000 Pounds Last Year. Montreal, Aug. 4.--Government statistics recently compiled show an immense increase in the growth of native tobacco in the last few years. Course, home-grown tobacco has for generations been the only brand known to the habitant of Quebec, and to supply this demand it has always been cultivated to some extent. But a few years ago a legitimate business in the manufacture of the native weed for general sale; and added by changes in the excise and customs tariffs by which home-grown tobacco has a substantial advantage over the imported article in the matter of taxation, the industry has rapidly grown to large dimensions. In 1894, 300,000 pounds of native tobacco were manufactured in Canada; last year the amount so used was nearly 2,250,000 pounds. There are now 19 factories in Canada which manufacture the home-grown weed, as against 17 which depended on imported raw material. The native tobacco is chiefly grown in counties along the north shore of the St. Lawrence, contiguous to Montreal, and in western Ontario, in Essex county, which lies along the Detroit River. A great improvement in quality has been shown by greater care in cultivation.

More Evidence Bearing on the Shooting of Governor Goebel. Georgetown, Ky., Aug. 6.--At the beginning of the fifth week in the Powers' trial today, E. R. London, Aug. 7, 3.40 a. m.--"The advance of the allied forces commenced today," called the British consul at Tien Tsin under date of August 4. This is the first official information received here that the attempt to relieve Peking has begun. It is accepted as correct.

The British consul does not mention any fighting, but the Shanghai correspondent of the Daily Mail telegraphing Sunday says: "The Peking relief column is reported to have suffered a check. The Chinese are said to have adopted Tugue tactics and after several hours of fighting to have retreated."

This is the only message received in London this morning bearing on the reports of Admiral Remy and Commander Tausig regarding an engagement at Pei Tsang. Many Topics Now Interesting to Great Britain.

London, Aug. 4.—While deep in discussions of anarchism, the obscurity of Chinese affairs and the issue of their own general election, Englishmen are attentive to the course of the American campaign. Rather curiously, the journals here are talking about the American politics according to their views, not on currency questions, but on the South African war. Thus Mr. Labouchere laments that the English radicals have not a positive rally election of both the democratic and imperialist platform. The speaker touches upon American politics from the standpoint that the dominant issues in the rally election are about the same. Inquiry in London editorial rooms indicates that unusual arrangements have been made to report the developments in the campaign in the United States.

The note is as follows: "The reports as to amalgamation of the Manufacturers and Temperance and General Life are absolutely groundless. The rumor is no doubt due to the fact that both companies have been active in the insurance market. Neither Sir Henry Strong, Sir William Van Horne nor Hon. W. S. Field have been active in the insurance market. The Manufacturers and Temperance and General Life are absolutely groundless.
