### RECONSTRUCTION, HEALTH AND EDUCATION MORE IMPORTANT TO IRELAND THAN HOME RULE

Sir Edward Carson Urges Postponement of Irish Question Until Peace Treaty Is Signed—Joseph Devlin Characterizes Carson's Speech as Indictment of British Rule.

New York, April 4.—Two New York morning newspapers, the Tribune and the American, publish the following today: "Atlantic City, N. J., April 3.—Canada will be annexed to the United States within the next ten years," is the prediction made here today by Senator William C. Edwards, for more than thirty years a member of the Canadian Parliament and one of the foremost businessmen in the Dominion.

Senator Edwards, who is stopping at the Hotel Traymore, continued: "Economically and industrially, there is every reason why the two great American countries should be united under one government. Old ideas on the subject have been swept aside by the close association of the governments, businessmen and men in service during the war. There is the strongest sentiment taking deep root throughout the Dominion in favor of amalgamation, and from observations that I have made everywhere in Canada there is every reason to believe that annexation will have been accomplished within the next ten years."

## ARREST ST. RAILWAY COMPANY, MEN, CARS, SAYS MAYOR'S CHAIR

Is More Communicative When Owner Is Away.

### THINKS UP FINE SCHEME

Would Show Owners of Line How to Make Profits.

"What is the next step in the street railway situation?" was the first question asked at the mayor's chair yesterday morning by the scribe in a moment of absent-mindedness (he knew that the mayor was in Toronto at the time).

"We are going to place the company under arrest," came back the reply.

The mayor started the scribe, for he had never been able to get a good story from the mayor's chair for many months, and he decided to pursue the quest further, since the chair appeared to be in a communicative mood.

"What is the big idea?" continued the one in search of news.

"Well, it is like this," continued the voice, "the citizens demand that they be given a better service, and it appears that the only method we can use to get this is to take over the road. The first step in this is to place the whole company, including the cars, tracks and the rolling stock, under arrest."

"Do you intend moving the whole aggregation down to Carter Castle after the arrest, or would you be willing to have them bailed out?"

"Some of the cars need bailing out after they have been out in a rain," replied the voice, in a rather sarcastic tone. "But seriously, it is our intention to have Chief W. T. Williams take his whole force some morning and go out to No. 10 Man's Land at the zero hour, and arrest each car and its crew as it proceeds from the barn on its daily round. One of the chief's stewards will be placed on each car and it will be his duty to see that the car is run according to the schedule prepared by the city engineer and approved by the council."

"Then, when all the cars on the present schedule are out on their trips the remaining officers of the law will proceed to round-up sufficient men from among the spare men to bring out the cars which, according to the schedule, are not to be out on their trips for a rainy day. By this means it is hoped that the company will be persuaded that it cannot afford to increase the schedule as approved by the council."

"Will you extend this policy for an extended period?" the chair was asked.

"It will not be necessary," was the reply, "after the complete schedule has been in operation, the extra revenue which the cash boxes will contain, will easily convince the company that it has been losing money operating under its present schedule."

"Will the city be willing to grant increased fares if it is shown that the statements of the cash boxes will reflect that it cannot afford to increase the schedule as approved by the council?"

"Surely," came the reply. "But we are confident that the company will not be able to make this statement after the plan which we have decided upon has been put into effect for some time."

At this stage of the interview the chair, quite in keeping with the policy of its regular occupant, politely intimated that the scribe was occupying space in the office that was needed for others, and he took the hint and vacated the office.

It would be too bad to give the owner of the voice away, but suffice it to say that it did not belong to Acting Mayor F. E. Harley.

**Six Years or Twenty?**

Careful estimates indicate that if the use of natural gas continues at the present rate the supply in the Tilbury field will be exhausted in six years.

If the supply is kept for domestic users it will last between fifteen and twenty years.

Carefulness and economy are absolutely necessary if we are to continue to enjoy the proven advantages of natural gas.

Although Natural Gas Is Cheap, Do Not Waste It—the Supply Is Not Everlasting.

## Hotels All Filled. But Chivalry of Men Helped Nurse

Returning From Overseas, Sister Unable To Get Room—Kindness an Aid.

Chivalry was apparently not more prevalent "when knighthood was in flower," than it is at present. This was evidenced late last night when a nursing sister returning from overseas to her home in Chatham stopped off in London for the night, intending to proceed to her home today.

She was brought from the station in a Blue Bonnet taxi-cab, but no rooms were available at several hotels visited. Finally, reaching the Grigg House, the same story was heard: "Not a room left."

William Plowman of this city, a traveler, seeing the nursing sister turning to go away, came to the rescue. "This lady can have my room," he said to the Blue Bonnet man, "and I'll find another, or I'll sit up all night."

The nursing sister accepted his offer and gratefully thanked him. As he turned to go in search of a room another traveler, who had heard the conversation, said: "I'll share my room with you," and in turn his offer was accepted.

Apparently the men of today are still respectful of womanhood, especially when the lady has "done her bit" overseas.

# GRAFTON'S

The Largest Canadian Manufacturers of

## High-Grade Clothing for Men, Youths, Boys

WE ARE DOWN ON HIGH PRICES

We never favored the unnecessary advance in clothing, men's working shirts or overalls that has been made during the past three years; and if every manufacturer had bought their cloths, linings, denims and shirtings three years ago, as Grafton & Co. did, there would have been no occasion to advance their prices. But they could not make clothing like Grafton's. The fit, the finish and the tailoring of Grafton's clothing put it in a class by itself, and it is not, cannot be, equalled for general appearance and satisfaction-giving qualities. For Saturday and Monday we are going to prove to you that we ARE down on high prices. We can do it, too, if you will visit our store on either of these days—Saturday and Monday.

### CAN COUNCIL AMEND BOARD REQUISITION?

City Clerk Says It Has No Power

LEGAL POWERS RAISED

Doubt Exists As To Dating of Debentures a Year Ahead.

In connection with the building program of the year, A. A. Langford of the board of education and chairman of the commercial advisory committee, states that he has not by any means lost hope. He is confident that some means will be found of raising the necessary money to carry on the work this year.

Some of the legal points which the city solicitor will be asked to decide

are in reference to the question as to whether the city council can amend a requisition which has been placed before it by the board of education. City Clerk S. Baker is of the opinion that there are only two courses open to the council, namely, the granting of the request as a whole or refusing it as such. In the latter case it would be submitted to the ratepayers. The board asked for \$195,000, and No. 1 committee has recommended \$145,000.

**A Question.** Another question is whether this year's council can issue debentures and make no provision for the interest and sinking fund for the current year, by dating them January 1, 1920. City Clerk Baker says that it is permissible to date debentures ahead, but he doubts whether they can be dated in the following year.

City Solicitor T. G. Meredith also will be asked to give his opinion as to whether the money can be raised on the debentures if they are dated in 1920.

**Another Suggestion.** The suggestion has been made by Ald. O. G. Keene that the board of education could utilize the Princess avenue school for a commercial school without much change having to be made in the building. That this would do for several years is the opinion of the alderman. A. A. Langford points out that in the event of this being done, which he considers impracticable,

the board would be unable to secure accommodation while erecting a new school if it were to be built on the Princess avenue site. However, Mr. Langford thinks that this site is not central enough for a commercial school. It is the intention of the board to erect only one which will be large enough to accommodate the whole city.

**Too Many Mistake.** Dealing with the question of remodeling the Princess avenue building, Mr. Langford says that there has been too much money wasted in London already by such work. "It would only be a mistake to treat these buildings as many of these in our city buildings," he said. "We do not want any more. It is more economical to start at once and erect a building that will serve the city for many years."

**A. W. L. BUT NOT GUILTY OF BEING A DESERTER**

Pte. Frank B. Tallon, attached to the staff of the London Military Convalescent Hospital, appeared before a district court-martial at Wolsey Barracks Wednesday to answer a charge of desertion. He pleaded not guilty and declared that he had merely overstayed leave, the reason being that he was seized with illness while away.

The accused was given a pass, which expired on January 6, and permission to proceed to the United States. While visiting a sister across the border, he was taken ill with influenza, and on recovering did not make any particular haste to report back for duty. He returned to London on February 26. The court adjudge him guilty of being absent without leave, but not of desertion.

Pte. George W. Baker of the C. A. S. C. on Monday will face a charge of stealing a bandolier, shoes and other articles from comrades.

**INGERSOLL HOSPITAL AUXILIARY ELECTS 1919 OFFICERS; REPORTS GOOD**

INGERSOLL April 3.—At the annual meeting of the Women's Auxiliary to the Alexandra Hospital the following officers were elected: President, Mrs. J. E. Rogers; vice-president, Mrs. J. E. Gayler; secretary, Mrs. F. N. Horton; treasurer, Mrs. E. F. Waterhouse; vice-presidents from churches—Methodist, Mrs. Russell; Anglican, Mrs. W. J. Elliott; Baptist, Mrs. F. W. Bowman; Presbyterian, Mrs. J. A. Buchanan; Sacred Heart, Mrs. James Enright; Salvation Army, Mrs. Henderson; Advisory board, Mrs. R. B. Huft; Mrs. George Herdman, Mrs. George Naylor and Mrs. W. J. Sutherland. The reports covering the year's work were satisfactory.

### ACTS OF HIGHEST MERIT MAKE UP GRAND'S NEW BILL

Better Than Average Artists and Great Picture.

Five stellar vaudeville acts and a feature screen offering, "Satan Junior," starring Viola Dana, of Metro fame, compose the program at the Grand Theatre today and Saturday. The Hudson sisters, former musical comedy stars, present a harmonizing act of song and dance with distinct originalities in vaudeville.

Middleton and Spillmeyer appear in an amusing skit entitled "An Ocean Woe," and some excellent comedy is here introduced, which goes over with a punch. Special scenery accompanies this act, which is one of merit, both members being capable artists. Their singing was appreciated by the Grand patrons last night, and this presentation is in keeping with the program.

Deeley, La Marr and Company present a laughable hit, "The New Bell Boy," with novel features, and Ben Deely made up with the aid of burnt cork, providing inimitable humor, being entered many times in the singing parts. He is excellently supported, and the hotel lobby scene keeps the audience in uproars of merriment.

Sergeant Bert Cowley, for 20 years a member of the Chicago detective staff, gives an excellent demonstration with the aid of a special film of methods used in tracking criminals by the police with the aid of finger prints and the Bertillon system. This is an unusual act in vaudeville today, and proves interesting, educative and highly entertaining. Local newsmen attended the theatre last night as the guests of Sergeant Cowley and the management, the boys proving their appreciation of the honor by repeated encores of the various numbers.

The star headline attraction, Lola Palma and Company, in an "Oriental Fantasy," present artistic dances with suitable stage settings, and no detail is left unattended. This act, featuring by P. Hirschoff, the musical director, in charge, Clarence La Roche, a French prima donna of international fame, furnishes the vocal end with an excellent singing voice, while Lola Palma and the "Algerian Apache Dance," and other numbers, presents some very dainty and distinctive terpsichorean stunts. This act, featuring six people, is above the average in vaudeville today, and demonstrates that the management of the Grand Theatre are doing their utmost to please their patrons.

ing their utmost to please their patrons.

"Satan Junior," with Viola Dana in the title role, as a spoiled child of fortune, is a delightful romance, fairly scintillating with wit. Miss Dana is seen in her happiest style, as the girl who persecuted a playwright, determined to resist her attentions, but to no avail. He is led through an endless trail of female perverseness, and the manner in which the pair are exonerated from the many humorous situations in the play provides many unexpected surprises. Milton Sills supports Miss Dana as the dramatist, and this pleasing offering results in many unexpected surprises. Special music by the Grand augmented orchestra completes the above well-balanced program.

### YARMOUTH WOMAN PASSES AWAY HERE

Mrs. Mary Black of Yarmouth and a native of Scotland died at her home 309 Queen's avenue, at noon on Thursday, in her 90th year. She was the widow of Daniel Black and a daughter of the late Mr. and Mrs. Malcolm Black.

Mrs. Black is survived by three sisters, Mrs. Sarah Black of St. Thomas, Mrs. Margaret Leitch of this city, and Mrs. Flora Nichol of Western Springs, Ill. Interment will take place in St. Thomas on Saturday. Elder Slosser of St. Thomas will conduct the services.

### LONDON'S INTEREST IN CITIZENSHIP BROUGHT BUT TWO TO MEETING

One lone reporter and W. F. Graham, seventh citizenship meeting, to have been held in the Technical School last evening.

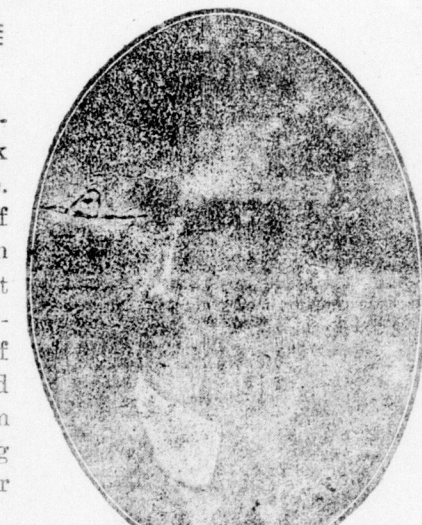

The hands of the clock crept around to 9 o'clock, and no one else put in an appearance. The corridors and rooms of the Technical School were crowded with visitors interested in the fine new building, and City Clerk Baker thought that the majority of those who would have attended the meeting were too interested in the school, so the meeting was called off indefinitely.

Writes About "Strange New Ideas."

Copyright, 1918, by Newspaper Feature Service, Inc.

Winifred Black

and in every city and town in Europe many of the women you know do smoke. Grandmother lights a match and holds up her cigarette to little granddaughter to give her a light, and nobody is in the least amazed or shocked.

In Paris and in London smoking is quite an understood thing for women—English and French women of the upper classes have smoked for years—but it took the American girls to go over there and begin smoking in the streets, and somehow I could never get used to the idea.

Contrasts of Continents.  
I met little Kate Somebody from Ohio and tall Mary Somebody from Indiana, walking down Piccadilly, both smoking away like cowboys. I must confess I was a trifle startled.

My, how the world turns round! Just as we were reading that some big corporation had stopped employing men who smoked cigarettes, the war broke out and we all began to raise money for cigarettes to the boys in the army, and now since the girls have come abroad some of them have got the habit and are quite as common to see girls smoking as boys.

I wonder what the effect is going to be. Somehow I can't believe it will be good. Too many cigarettes are bad for men—there's no doubt in the world about that. And women are supposed to have a more delicate organic nervous system than men.

Then how about the new children—are they going to come into the world saturated with tobacco, and if they are, is it going to be good for them? Of course, you can't expect the average

girl to think of this, because what she thinks of is whether it is going to be "the thing" or not. And if it is, she's going to smoke no matter what it does to the coming generation.  
Is it going to be "the thing" in America? Are we going to bring home from Europe the European vices and none of the European common sense?  
You don't find girls of 18 and 20 smoking in public in Europe—not girls of good families. You don't find them drinking, either, or listening to questionable stories or talking with strange men. But we on this side never do things by halves.

It is the same with our theatres. In Europe there are certain theatres to which perfectly respectable married people go, but no young girl is ever seen there.

I saw those theatres packed to the doors with American girls, all of them laughing at things they either didn't understand or should not have understood. I wonder what they are going to do about it when the girls come home from Europe with all these strange new ideas, and most of all, I wonder what our men think about it?

Are the men changing as fast as the women these days? Sometimes I wonder if they aren't—the men seem to be changing just the other way.

I know dozens of men who used to drink who won't even hear of a cocktail these days, and half of the men I know are more serious than married men. They were a year ago. But the girls—

Are they more serious? It seems to me some of them are more frivolous than ever before. Change partners for the new quadrille.

How much life is like one of the old-fashioned country dances, after all. No one figure can be danced all the way through, no, not for anything. When the men grow gay, the women become demure. When the men turn their backs to serious things seriously, presto, change—all the girls begin to curt their hair and cast engaging looks upon the stragglers of the crowd.

Red Cross Circle was held in the town hall, St. Johns. The secretary-treasurer read a very satisfactory report of the year's work, as follows: Pairs sent to Hyman Hall—49 day-shirts, 23 pairs of pajamas, 14 pillowcases, 201 hospital towels, 203 trench towels, 15 stretchers, 3 pairs bed socks. Articles made for Belgian and French relief—9 petticoats, 12 chemises, 37 pairs children's stockings and 1 child's sweater.

The following donations were made: Prisoners of war fund, \$70; Navy League, \$10; Nursing Division No. 23, \$5; 22 dozen eggs were also collected for the soldiers at the hospitals last Easter. Two quilts were made from the cuttings of flannel and sold for \$14.

In June an ice cream booth was conducted by the circle on Mrs. Thomas Hudson's lawn, netting the sum of \$15.75, and in August the members entertained the soldiers of Byron Summers on the lawn of Mrs. J. H. Marshall, at which a very pleasant time was spent.

It is the intention of this circle to present a flag in honor of the men of London Township who have joined the colors of the Empire, this flag to be placed in St. Johns town hall.

At this meeting it was resolved that the officers retain their present offices, and that the circle meet quarterly in future to help with war work while needed.

## W. C. A. APPOINTS MISS MCBRIDE AS TREASURER

At a meeting of the Women's Christian Association, held yesterday afternoon in the Y. W. C. A. residence, Miss McBride of 25 Peter street was appointed the new treasurer in place of Mrs. Jordan, who has returned to England. All accounts will in future be addressed to Miss McBride or to the honorary president, Mrs. D. S. Perrin.

Mention was made at this meeting of the faithful work and excellent advice of Mrs. Perrin, a pioneer member of the association.

The Old Log Cabin.  
Dear Cynthia Grey—Could you or any of the pagettes send me the old song, "The Little Log Cabin on the Lane?"  
TWILIGHT.

Page of Interest to Women  
Because We Are All Sheep

What is the Ontario Legislature thinking of, that it wastes the nation's valuable time in a lengthy discussion on wearing apparel? There was a time in less enlightened years when the governing power in England did try to dictate in regard to the clothes worn by the people. But those days have long since been considered barbaric. The true that the stringent circumstances of war might necessitate a compulsory conservation of woolen material. But why any intelligent body of men, as the members of the Ontario Legislature are supposed to be, should persist in arguing whether a white shirt front should be exposed to a depth of four or eight inches, at the opening of Parliament, is beyond comprehension.

Mr. Hartley Dewar's excuse for introducing such a bill to the House hangs on the fact that some people might not be able to afford full dress, and that W. McCarry attacked the bill on the ground that the ladies have been so restricted in their dress during war time that they now require a little relaxation. Both men were perfectly serious in their arguments.

The fact that such a question should come up in the Parliamentary hall is enough to condemn the intelligence of the people. There are certain unwritten rules prevailing which say a certain type of dress shall be worn on a certain occasion, and it really is an insult to the intelligence of human beings that these rules are so generally followed as they are. But that any body of men should deliberately and seriously consider writing down in the law of the land, "ye shall wear or ye shall not wear" a certain type of dress on a certain occasion is a still further disgrace.

Why aren't people intelligent enough to wear what their judgment says they should wear, and not follow each other like a great flock of sheep. Because one pretty lady has been gifted with a plump neck and arms, which a low-cut gown displays to advantage, is no reason why her scrawny sister should likewise expose her bones to the public gaze, when that same sister superbly tailored from chin to toes is a magnet for admiring eyes. Yet she does it.

Because many lady of wealth sparkle with adornment of rare jewels, why does the maiden, less favored at the hands of Adonis, spoil her beautiful simplicity with tawdry trinkets?

Why are not men and women willing to dress as they think best, and as they can afford, instead of striving to follow each other in a mad rush, which is daily threatening to kill individuality?

Why should it be necessary for a minister of the House to suggest a bill to save the pockets of people of small means who wear their money in the matter of dress, just because they dare not appear in simpler raiment?

To what a low degree of intelligence we have brought ourselves! Are we to continue forever like sheep, who have a judgment only for the purpose of refusing to act upon it?

## London Juniors Defeated Brantford Intermediates

London "Y" juniors defeated Brantford intermediates by the score of 23 to 17 in an exhibition contest held at the local Y. M. C. A. gym last evening.

The London kids sprang a big surprise on the local fans by getting away with a win. The Brantford intermediates are one of the strongest teams that has played in this city for some time, but the London youngsters managed to put one over them with fast combination work.

The Brantford boys are much older than the London "Y" juniors, and put up a great game. The juniors were not at their best last evening, and missed several good opportunities to run up a high score.

In the first period Brantford started off strong. The visitors were first to score, getting a foul shot and making it count. About one minute later Henderson received the ball on a pass from Dunc McLean, and scored. This was the starter, and when the period ended the score was 11 to 8 in favor of the Forest City boys.

The second period was faster than the first. The Brantford team was rearranged for this 20 minutes. The Londoners showed much better form in this period and scored twelve points.

Gordon Henderson, "Doc" Cline and Dunc McLean showed up well for London. Cline had nine points to his credit, and Henderson scored six. Glasgow made some nice shots, while Arsoot put up a plucky game.

Whittaker, captain of the Brantford intermediates, was the star for the losers, scoring nine points. Buckborough was also good.

Last night's contest put the locals in good condition for the semi-finals of the junior O. A. B. A., the first game of the series to be played here Tuesday with Woodstock.

Hamilton's protest is thrown out by the O. A. B. A. Western University five will likely meet the Brantford team which played here last night.

New St. James girls won from the Stronghows in the preliminary contest, the score being 16 to 3. The two teams are from the Western University Girls' Basketball League.

The teams and scores:

## OLYMPIC GAMES AT ANTWERP

ROME, April 3.—The national olympic committee decided today to accept the offer of the City of Antwerp, Belgium, for the holding of the olympic games there in 1920.

## LACROSSE TEAM FOR SARNIA THIS YEAR

Sarnia, April 3.—Those most interested in the revival of lacrosse in the city are on the warpath for players, and several have been searched out to date. Every indication points to an intermediate team for this city this summer.

On Good Friday the Sarnia soccer football team will meet the Perfectionists. This will open the season.

## INTERMEDIATE O.B.A. SERIES PROTESTED BY HAMILTON TEAM

The intermediate O. A. B. A. semi-final series between the Western University and the Hamilton Central Y. M. C. A., protested by the latter team on the grounds that Art Smith, the local star, is not eligible to play in the semi-finals, having not participated in the group games.

At the time the group games were played Smith was recovering from an attack of pneumonia and was not able to take part.

The Londoners won the round from the Hamilton Central Y. M. C. A. by one point, overcoming a six-point lead on the Hamilton floor.

The protest will be considered by the executive committee of the Ontario Amateur Basketball Association this week, but it is expected that the decision will be announced until the end of next week.

## ORGANIZED BASEBALL BLUFFED BY FEDERALS

WASHINGTON, D. C., April 3.—Organized baseball was "bluffed" into making peace with the Federal League, according to testimony given today by James A. Gilmore, former president of the latter organization, in the Baltimore Federal club's \$100,000 damages suit against the National and American Leagues, and of officers of the Federal League.

Mr. Gilmore, who is one of the individual defendants in the suit, was the first witness called for the defence. He told the jury that he originated the plan for what he called "a realistic bluff" to force peace in baseball by inducing the American and National Leagues to compromise with the Federal League when it no longer was able to continue. His plan, he said, was to secure organized baseball into suing for peace by threatening to "invade" New York.

The major league officials, Mr. Gilmore testified, "fell" for the bluff and made overtures which resulted finally in peace and the dissolution of the Federal League.

## FOOTBALL LEAGUE TO BE FORMED TONIGHT

Teams Will Also Be Selected For W. F. A.

A meeting will be held in the chamber of commerce rooms, Tecumseh House tonight at 8 o'clock to organize a city football league. At this meeting two teams will also be selected to represent this city in the Western Football Association.

The officers who will be elected tonight and the question of securing suitable grounds to play the games will be discussed.

Representatives from the various factories, clubs, G. W. Y. A. and the units in training in this city are expected to attend. All football players and those interested in the Western Football Association are invited to be present and start the new organization off right.

## ANGLERS WON GAME FROM SCOUTS; SCORE 26 TO 18

The Anglers won from the Scouts in the Harriers' Basketball League at the Y. M. C. A. gym last evening by the score of 26 to 18.

Smith and Talbot showed up well for the winners, while Simpson and Hidden were the stars for the losers. The teams lined up as follows:

Anglers: Forward. Bennett. Smith. Forward. Squawpidge. Scott. Guard. Hedden. Eastern. Sub. Patterson.

## NEW SWIMMING RECORD MADE BY NORMAN ROSS

Chicago, April 4.—A new half-mile indoor swimming record was established by Norman Ross in an open meet at the Illinois Athletic Club last night. Ross, formerly of the Olympic Club in San Francisco, made the distance with a turgid crawl stroke in 10:55 2-5.

## GEO. KENNEDY REPORTED TO BE MUCH WORSE

Montreal, April 3.—George Kennedy, manager of the Canadian hockey club, ill with influenza in Seattle, is reported much worse in a message to his wife today. Mrs. Kennedy is leaving for Seattle this evening. Mr. Kennedy wants to get back to Montreal with the other members of the Canadian team, now sick in Seattle, and a special train may be chartered to convey them home.

## "KNOTTY" LEE SIGNED UP EIGHT PLAYERS FOR BRANTFORD

Brantford Leader Received Over Hundred Applications For Positions.

BRANTFORD, April 3.—An announcement was made by "Knotty" Lee this morning that he had the signed contracts of eight players for the Brantford club. While he had applications from 100 or more players, he was actually offering contracts to only those whom he knew. Manager Lee stated this morning that if he picked a ball team from the letter writers he could give no guarantee as to where the club would finish in the race, financially or otherwise. The following players have been secured:

Al Tyson, of New York. Buster Burill, outfielder, of Weymouth. Goksy, pitcher, of Syracuse. Richard Myers, of Lansing, Mich., pitcher.

John Sullivan, of Syracuse, first baseman. Frank Kennedy, of Lawrence, Mass., recliner, by "Pat" Donovan. Johnny Murphy, infielder, formerly of Hamilton.

Other contracts will be sent out in the course of the week, and some of the more promising of the applicants will be brought here on their own hook for a trial.

## MICHIGAN-ONTARIO LEAGUE DIRECTORS MEET NEXT SUNDAY

DETROIT, April 3.—Copies of the amended schedule for the Michigan-Ontario Baseball League, and notice for the meeting to consider the same, have been sent to the various clubs of the circuit. The session will be held at the Wagon Hotel, Bay City, on Sunday next, April 7.

No hour has been set, because it is not certain just when the complete array of delegations will arrive. It is expected, however, that all will be there in the morning, with several clubs' representatives reaching the city Saturday night, if all the clubs are represented a forenoon session will be held.

At this meeting it is hoped to clean up the territorial dividing situation, and President Jackson will be prepared to present his report of the work on this matter. The place of the session, Bay City, is the town principally interested and has reported itself in possession of the evidence that has been asked for.

## FOOTBALL REVIVAL STARTED BY W. F. A.

GALT, April 3.—An organization meeting of the W. F. A. executive held here this afternoon at the Y. M. C. A. was attended by President D. Forsythe of Kitchener, Hon. Secretary T. G. Elliott of Galt, Vice-Presidents H. W. Brown of Kitchener and J. J. Gunn of Woodstock, Secretary Charles Hollins of London, S. Law of Galt, D. Campbell of Preston and N. R. Fiebig of Stratford, members of the executive.

The most important business transacted was the decision to hold the annual meeting of the association at Stratford on Good Friday to open at 10:30 o'clock. N. R. Fiebig tendered an invitation to have the meeting in the Classic Club, and it was adopted.

While activities of the association were practically suspended during the war, prospects for the revival of soccer are most encouraging. A number of teams have already entered, but today's meeting decided to circulate all athletic associations, high schools, Y. M. C. A.'s and colleges requesting them to reorganize and enter teams.

## ONTARIO GOLFERS LOSE AT PINEHURST TOURNEY

PINEHURST, S. C., April 3.—Irving S. Roberson, the north and south champion, was put out of the running by Ned Dool of Galt, in the first round of the second match round of the title tournament. It was a bad day for the Ontario contingent. Ralph King, of Toronto, was the only one to come through to the semi-finals and he won his match by default of his opponent, J. W. Mitchell, of Lambton. Edward Seagram, of Waterloo, R. S. Dilworth, of Lambton, and C. E. Oids, of Scarborough, lost in the first round.

Arthur W. White, of the London Hunt, withdrew. H. E. Miles, of Keweenaw, the only Montreal contestant, won his match by default in the third consolation division.

## FRANK SHAUGHNESSY IS OUT AFTER CHERRY

KINGSTON, Ont., April 3.—"Del" Cherry, the star pitcher of the R. C. H. A. baseball team at Port Huron last summer, has been offered a contract with the Kingston team of the Ontario League at Hamilton.

## "Lest We Forget"

THE great war has forced upon us some valuable lessons.

Let us not forget these lessons.

Economy and moderation are good for us.

Moderation is the key-note of creation—it spells health, happiness, and long life.

We have been going too fast—we have been speed crazy—the tendency of the past decade has been faster—faster—faster.

As we hurry through life, is it not well to pause by the way now and then, and enjoy calmly and soberly some of those things we are passing hurriedly?

Do you honestly get the real pleasure from tearing through an afternoon in a speeding automobile that you used to get from the good old Bicycle?

There is something to ask yourself and answer it honestly.

Don't you owe it to yourselves to calm down a bit and take up some wholesome form of recreation and exercise?

Try a BICYCLE again.

There is no more sensible form of simple, easy, moderate exercise.

There is no more economical and convenient way of getting over short distances.

There is no more thoroughly honest and genuinely democratic form of transportation than the BICYCLE.

The truth of these statements is evident from the thousands of sensible happy people who have taken up the wheel again.

Come in and let us show you our dandy up-to-the-minute 1919 Model Brantford Red Bird—the Bicycle that makes walking or riding street cars an extravagance.

## HAMILTON BALL CLUB WILL HAVE A NUMBER OF OTTAWA PLAYERS

HAMILTON, April 3.—It is likely that three or more members of the Ottawa team, which won the pennant for Ottawa in the Canadian League, will figure on the Hamilton team this year.

While in Hamilton Shaughnessy announced that he was in touch with the best of his players of that year, and thought that he would be glad to come to Hamilton. He also has a line on two players recommended by Hugh Jennings of Detroit, and claims that Hamilton will have an infield that will compare with any in the circuit. He will not be here until the middle of the month, but he is keeping the wires busy mustering a team, and thinks that he will have plenty of good talent when the training season opens. Two or three good amateurs have been recommended to him, among others being Freddy Sullivan, the crack second baseman of the Twentieth Century Club team, but Patrick prefers to remain in the amateur ranks and would not consider an offer to turn professional.

## JOSEPH SCOTT PRESIDENT OF OWEN SOUND BOWLERS

OWEN SOUND, April 3.—Jos. Scott is the president of the local bowling club for 1919, and E. C. Speerman, secretary. The annual meeting was held last night with a good attendance, and the new officers were elected.

The outlook for local bowling this year is very promising, and plans for this season's games are already under consideration. The grounds committee expect that they will be able to get on the greens by May 24.

The following are the officers for 1919: Honorary president, R. E. Muller, re-elected; honorary vice-president, Judge Sutherland, president, J. Scott; vice-president, John Thompson; treasurer, J. J. Kelly; secretary, E. C. Speerman; chaplain, Rev. P. T. McKee; executive committee, M. Leslie, R. Peterson, Y. M. Wood, W. J. McLaughlin, E. D. Bonnell, George Holmes, J. C. Stange, J. E. depends on proper lubrication—another way to say Polarine. Polarine can't congeal at zero—nor break and gum under high heat. Its body is temperature-proof—of great fluidity and lubricating quality. Polarine interposes a non-breakable film between all rubbing parts that prevents friction, minimizes wear, stops overheating, keeps cylinders smooth, compression tight, power at full strength. Polarine doesn't foul spark plugs, carbonize piston heads and valves. Carbon goes out with the exhaust. Polarine is perfect lubrication for every type of motor. There's no acid in it—no foreign matter. Supplied in two grades—Polarine and Polarine Heavy. In one-half, one and four-gallon sealed cans. We also market special Polarine Oils and Greases for lubricating the transmission and differentials. Buy Polarine at the sign of the Red Ball—where Premier Gasoline is obtained.

for the farmers, and that in a constituency like North Oxford, where the majority of the electors are from the rural municipalities, there should be a farmer candidate. No definite action was taken, but a resolution was passed calling for meetings in each of the different municipalities, where the matter will be thoroughly discussed by a majority of the voters of the riding. Following these meetings a general meeting of delegates will be held, at which the question of whether or not a candidate will be brought out will be decided upon. D. M. Ross, county director of the U. F. O., presided.

### COAL DUE FOR JUMP, SAYS TORONTO OFFICIAL

TORONTO, April 2.—The annual meeting of the Canadian Fuel Dealers' Association was held here today. Assistant Deputy Fuel Administrator Yeomans expressed the opinion the coal prices would go up again. The United States miners were asking higher wages and the United States railway bill showed a billion-dollar deficit, so he thought freight rates would go up.

### Monument Unveiled To Soldiers Before Crowd at Hurondale

HURONDALE, April 2.—Entries for the spring show to be held here on Tuesday, April 8, promises to be numerous, and with good weather there is likely to be a record-breaking attendance. The Hensall brass band has been engaged to give selections, and the president and directors are sparing no pains to make the show well worth attending. A large number from Hensall motor-ed or drove to Hurondale on Monday afternoon to witness the unveiling of the fine soldier's monument just erected. A number of ministers gave addresses, while the Hensall brass band gave appropriations. The schoolhouse had been nicely prepared, and was crowded. The Rev. Dr. Strang, superintendent of western missions, presided. Fred Manns has purchased Mrs.

Drake's brick dwelling, nearly opposite the postoffice.  
Ross Dignan has sold his fine fifty acres on the Zurich road to his nephew, B. Dignan, and relative William Forrester.  
J. and C. McDonnell have sold their jewelry business to Mr. Montgomery of Norf., who is well known here.

### Not Enough Men To Work Alberta Farms

LETHBRIDGE, Alta., April 2.—Fear is expressed here that there will be a falling off in crop acreage unless farm labor can be found. On Wednesday there were calls at the provincial labor bureau here for 100 men for farm work, less than ten of which were filled.

## Airplane Causes Stir at Dorchester; Man Hurt in Rush

DORCHESTER, April 3.—Great excitement prevailed in Dorchester at noon yesterday, when it became known that an airplane had descended on the air grounds. The kiddies and teachers from the school all went over in a hurry, as well as a great crowd of spectators. Two young men brought the machine from Toronto in just one hour and thirty-five minutes. They ran short of oil, which caused their descent and are on their way to Oshawa.

The crowds were so great on the wagon going over to see the sight that one man, Frank Wallace, fell off a wagon on the bridge and was badly injured, his shoulder being dislocated.

## 13 Municipalities Pledged To Use of Housing Provisions

TORONTO, April 3.—Thirteen municipalities have passed bylaws to take advantage of the provisions of the Ontario housing act. They are, Windsor, Sudbury, Galt, St. Catharines, Port Huron, Sault Ste. Marie, Ingersoll, Sandwich, Hespeler, Port Dalhousie, Madoc, Oshawa and Port Credit.

It is estimated that the loans they will require will aggregate \$5,000,000. Fifteen others are expected to come in a month, and that by June 6 they will have taken advantage of the act.

## ACQUISITION OF G. T. LINES IS PROBABLE

Sir Thomas White Makes  
Assertion in Commons.

NEGOTIATIONS PROCEEDING

As Alternative to Purchase,  
Government May Resort  
to Foreclosure.

OTTAWA, April 3.—That acquisition by the Government of the Grand Trunk Railway will be the probable outcome of the present railway situation was a statement made by Sir Thomas White when the bill confirming the appointment of a receiver for the Grand Trunk Pacific was being considered in committee of the House of Commons today. Sir Thomas said he could not make this statement definitely, and suggested as possible alternatives that the Government might resort to suit foreclosure.

When pressed by Frank Cahill at the evening sitting for a more definite statement, Sir Thomas said that it was impossible for him to say more, in view of the fact that negotiations are proceeding.

Hon. Charles Murphy thereupon asserted that under such circumstances it was not reasonable to expect the House to proceed with the bill.

G. T. R. Relieved of Load.  
There was some criticism of the action of the Government by Major Venn, who regretted that an order-in-council appointing a receiver had been passed before the Government had declared its railway policy. He maintained that the Government had relieved the Grand Trunk of its liability in respect of the Grand Trunk Pacific, and that it had done just what it wished to avoid.

Sir Thomas White, in the course of further remarks, explained that under the receivership the Government will not pay interest, guaranteed by any of the provinces. The Government would buy only enough to operate the system. Sir Thomas denied that the action of the Government in regard to the Grand Trunk would hurt the credit of Canada in London, and read a cablegram from Sir George Pailey to the effect that the credit of the Dominion is good in the mother country.

Bodies to Remain in France.  
During question time, in reply to Mr. Harold, Major-General Mewburn said that bodies of officers and soldiers would not be brought back from France or Belgium. Bodies of officers and soldiers might be brought back from the United Kingdom, but not at public expense.

Hon. Charles Murphy drew the attention of the acting prime minister to a cablegram dispatch, which said that the British consular ship would end on April 30. He inquired if the Canadian consular ship would end on the same date.

Sir Thomas White said that the matter was under consideration, but he would not be able to make any official announcement.

W. D. Euler of North Waterloo asked

## ENO'S FRUIT SALT

YES, and that spoonful of Eno's taken in a glass of water before breakfast is responsible for many a man's clear-thinking and business efficiency.

For you can't have clear-thinking with a bad stomach and sluggish liver.

If men of active minds were as active with their bodies, the chances are that they would not suffer from biliousness, sour stomach, constipation and kindred disorders. It is to such men that Eno's Fruit Salt proves its value as a gentle, safe and untiring regulator of the digestive and eliminative system.

Being a natural aperient—that is, composed of all cleansing and tonic elements of ripe fruit juices—it performs its work in a normal way without irritation or harmful reaction. It cleans the intestines, removes the torpid liver to activity and produces a delightful feeling of liveliness and vigor that can only arise from a sound, active physical condition.

the Canadian trade credit to Rumania, and what policy the Canadian Government would adopt with reference to the force in that country. Mr. MacLean replied that there would be no formal undertaking by Canada until political conditions in Rumania were such as would justify granting the credits.

Deposits Demanded by U. S.  
Sir Sam Hughes said that when he was in Detroit the other day he saw that a number of young Canadians had to pay a tax on going into the United States. He believed that the money was placed in deposit with the American authorities as a guarantee of the return of these persons to Canada, and he asked if Canada adopted a similar course. Hon. J. A. Calder said that Canada had no such policy.

Hon. Arthur Meighen introduced a resolution providing for an amendment to the Dominion Lands Act to increase the rate of interest charged by the Dominion on deferred payments of money due to the crown for the sale or lease of natural resources, such as land, mining or timber rights. Mr. Meighen explained that the rate now charged by the Government on deferred payments was five per cent. It was proposed to increase it to six per cent, and to seven per cent for arrears. The resolution was carried.

## THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May  
Be Passed in Safety and  
Comfort.

Present. O.—"I was passing through the critical period of life, being forty-six years of age, and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. J. Godden, 925 Napoleon street, Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues" may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

If any complications present themselves write the Pinkham Medicine Company, Lynn, Mass., for suggestions how to overcome them. The result of forty years' experience is at your service and your letter held in strict confidence.

## FARMERS, LABORERS AND LIBERALS ARE ON SAME PLATFORM

Dewart Sees Strong Front  
For Next Election.

GOVERNMENT IS FEARFUL  
Powers That Be Trying to  
Entrench With Patronage  
and Commissions.

TORONTO, April 3.—A strong exhortation to all Liberals to sink their differences and get together again, was made by H. H. Dewart, K.C., M.P.P., at the annual meeting of the Southwest Toronto Liberal Association, last night, held in Oddfellows' Hall, Bathurst street. "I believe, knowing Liberalism's policies, and after looking at the platform of the farmers and labor, that you will find us all fighting shoulder to shoulder at the next election, because the principle of giving every section of the community a hand in guiding the destinies of the community is the principle of labor, agriculture and Liberalism," Mr. Dewart said.

Mr. Dewart assailed the Provincial Government, stating that "the Government is so busy trying to entrench itself with patronage and commissions that it has not the time to administer the affairs of the province."

Major J. C. Tolmie, member from Windsor, and Major M. L. Lang, member for Cochrane, two recently returned officers, both delivered short addresses in which they eulogized Mr. Dewart as a fighting Liberal.

## Liberal Convention Plans Are Acme of Advanced Democracy

Every Shade of Opinion Throughout the Dominion Will Be Secured—Program as Adopted Means Breaking New Ground in Canada.

(Special to The Advertiser.) OTTAWA, April 3.—With the preliminary arrangements for the big national Liberal convention in August complete, the Liberals emerged from the caucus today in a jubilant mood.

The consensus of opinion that there was a true democratic ring about the plans, guarantees that the party will take advanced ground and will furnish a broad platform for the thinking men and women of Canada.

A striking feature was the pleasure that Liberals experienced at the announcement of Hon. G. D. Hogg, minister of labor, whose program is a direct "lift" from the labor legislation proposed by Hon. McKenzie King, and an elaboration of the Laurier labor plank adopted at the Eastern Ontario Liberal Convention held in Ottawa in January. This, coupled with the success of the convention program, put the Liberals in high fettle, and they are happy tonight.

**Topic of the Corridors.** The national convention is the big thing being discussed in the corridors of the House tonight. Not a criticism has been offered, and that is saying a great deal in these hypocritical days.

This is the first time in recent Canadian history—those who know say it is the first time in all its history—that so imposing and so important a convention has been called. The Liberal convention of 1913 was the nearest approximation. Then the delegates outlined a platform. On this occasion, not only a platform will be constructed, but the Liberals themselves will name the man who shall represent these principles.

It will be epoch-making and already floods of letters are coming here, asking for further information as to the details of the gathering. Further announcements will be made in the course of a few days.

**1,100 Official Delegates.** There will be something over 1,100 official delegates. They will include members of Parliament, defeated candidates at the general election in 1917, senators, members of all the provincial legislatures, delegates from every constituency and leaders in the provinces. In this wide range of opinion throughout the whole Dominion will be secured.

The invitation is broad, as broad as the Dominion. It merely asks that those who come will desire to cooperate with the Liberal party.

James A. Robb, chief Liberal whip, made the announcement of the results of the caucus. For some weeks he and his committee have been working steadily on the plan, and their pleasure is great tonight in that it was accepted with enthusiasm, no changes being necessary.

**McKenzie to Issue Call.** D. D. McKenzie, the Liberal leader, will issue the call for the convention in a few days.

Special arrangements have been made for hearing representatives of all labor organizations, soldier organizations, the Dominion council of agriculture and other bodies anxious or desirous of presenting their views. These invitations will be broad, as broad as it is possible to make them, in order that every shade of sentiment may be presented, so that the platform may be equal to the needs of the Dominion.

A contract is being drawn between the coming convention and the national conventions in the United States. It will be an experiment, a breaking of new ground in Canada, and if it is as successful as those behind it anticipate, it may be the precursor of many such.

It is a somewhat reminiscent of the Chicago Democratic convention which nominated William Jennings Bryan some years ago. There is no one candidate, or possibility for the leadership, but many, and it is possible that an unknown—"dark horse"—may be the man. The material is plentiful, and good.

## ENTENTE CONDITIONS ARE SUBMITTED TO GERMAN OFFICIALS

German Commission Goes Into Conference Following the Interview With Foch.

SPA, April 3.—(Havas Agency.)—Marshal Foch arrived in Spa at 8:29 o'clock this morning and immediately informed Matthias Erzberger, head of the German armistice commission, that he would confer with him in his private car at 9:30 o'clock.

The conference took place at the appointed hour in the presence of Major-General Weygand, assistant to Marshal Foch, and a French interpreter, and lasted 40 minutes.

Marshal Foch laid before Herr Erzberger the decisions of the Entente. Erzberger, after the conference, hurriedly returned to his train. He appeared deeply moved. After a conference of one hour with Gen. Baron Hammerstein, a member of the German armistice commission, and his advisers, Erzberger returned to his hotel, where the German members of the armistice commission are lodged.

The populace acclaimed Marshal Foch on his arrival in Spa. During the day the marshal visited Gen. Nudant, his representative in Spa.

**DRAFT NEARLY FINISHED.** PARIS, April 3.—(By The Associated Press.)—The league of nations drafting committee has completed fifteen articles of the league of nations covenant, which now contains 27 articles. It is not known what the additional articles are. The committee probably will finish its draft tomorrow.

There is a possibility that the league of nations will have two seats, at Geneva and at Brussels. This plan is being considered.

Although a majority of the delegates apparently favor Geneva, King Albert's strong appeal in behalf of Brussels is influencing sentiment, and the palace officers by both the Swiss and the Belgians may both be accepted and alternate meetings arranged.

**Having Their Troubles.** President Wilson and Premier Lloyd George, Clemenceau and Orlando continued their discussion at President Wilson's residence today. Other peace conference organizations also met. All the conference is intended to understand issues still standing in the way of peace.

The meetings proceeded amid another wave of apprehension spreading through the conference over lack of any tangible results after the council of war had labored continuously for ten days. This was accompanied by well-founded reports from those close in touch with the council of four, showing that at least serious, because of radical differences on some fundamental issues in the settlement of Germany's western, the Franco-German and the eastern Polish frontiers.

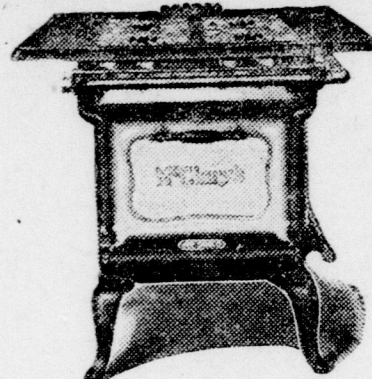

**PARIS NEWSPAPERS CONDEMN SENDING SMUTS TO HUNGARY**

PARIS, April 3.—One of the happenings in peace conference circles yesterday, the Matin and the Journal unite today in alluding to as a "great event." The council of four "actually issued a communiqué," the newspapers point out, but it is added, "it was only to tell us that Gen. Smuts is going to investigate Hungary."

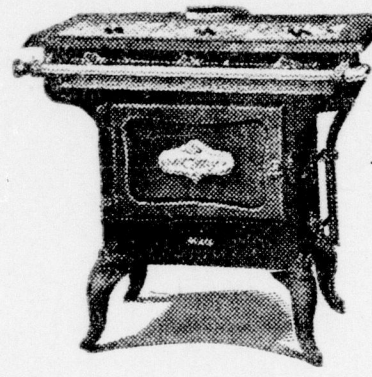

The Smuts appointment is one which these two and most of the other newspapers condemn, instancing as a bad omen the manner in which Gen. Smuts conducted the negotiations in Switzerland and early in 1918 with Count Mensdorff-Pouilly-Dietrichstein, the Austro-Hungarian ambassador at London at the outbreak of the war, in which it has been charged by Paris newspapers that the bluntness of Gen. Smuts choked off possible negotiations by Austria-Hungary for a separate peace.

The commentators see in the announcement of the Smuts mission yet another procrastination by the peace conference. Its step is pointed out as all the more disappointing because of the hope raised by the recent summiting into conference of Gen. Mangin, a man of action, who, it is reported, is now going back to his headquarters on the Rhine.

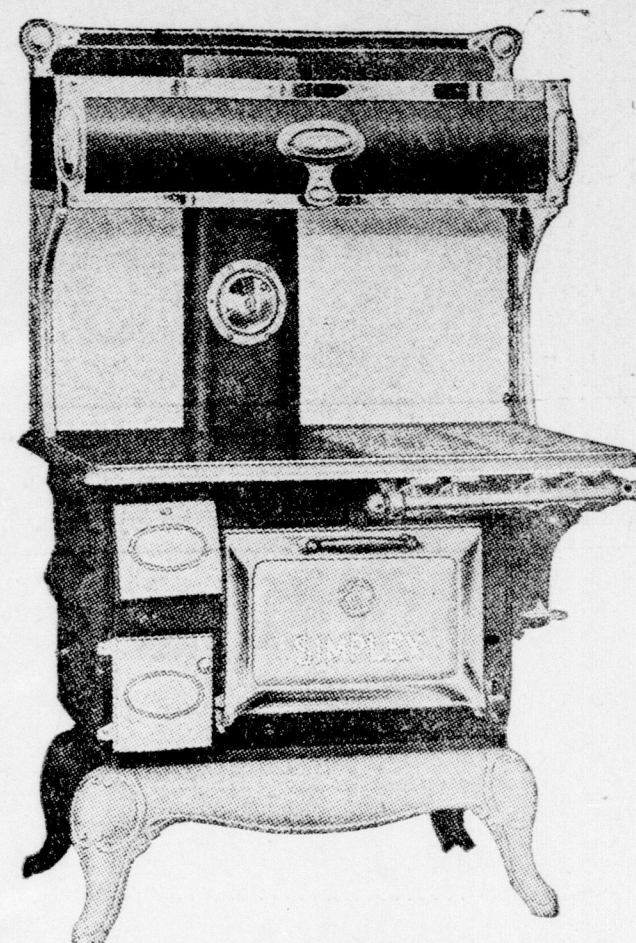

**MRS. HOOD PASSES.** ST. THOMAS, April 3.—Mrs. Mary Hood, relict of the late Charles Hood, passed away yesterday suddenly of heart failure. She was in her 74th year and had resided for some years on Barnes street. She was a native of West Lorne, however, and the funeral will be held at the Gillies Cemetery at that place on Saturday.

# McClary's Gas Ranges

Most Complete and Varied Line on the Market

The people of London and the surrounding districts are requested to take advantage of every opportunity of seeing, investigating and appreciating what is accomplished in Gas Ranges RIGHT HERE IN LONDON.

Canadian industries are expected to find employment for returned soldiers. Their success in this regard is measured according to the assistance rendered them by Canadians buying Canadian-made products. So long as Canadians purchase made-in-Canada goods, so long will they be helping to keep the wheels of industry moving and provide work for the soldiers homeward bound.

For strength, durability, degree of perfection and improvement, Canadian-made goods rank, indeed very often excel, imported goods. McClary's are Canadian-made in every detail. In make and appointment they are as finished as any make on the market—indeed, they possess many very modern improvements that are not to be found on other makes.

Wherever a demonstration of McClary's Gas Ranges is held, you people of London and nearby districts should not miss seeing the class of Ranges your own fathers, brothers and neighbors are making. They are just as

skilled, if not more so, as workmen in other countries. Why not patronize their work?

McClary's Ranges have an international reputation for every kind of efficiency. Therefore, you make no mistake in purchasing a Gas Range with the name McClary attached thereto.

You owe it to yourself to support Canadian industry, and help provide work for the men now coming home.

Remember, McClary's Are Behind Everything They Sell—You Buy a Gas Range and McClary's Will See That You Get a Perfect Range.

## METHODISTS AIMING DEATH BLOW AT THE ROMAN CATHOLICS

Prohibition as Weapon, Declares Napoleon Zeguin.

Montreal, April 3.—Prohibition is intended as a death blow to the Roman Catholic Church in North America by the Methodists, Hon. Napoleon Zeguin, minister without portfolio in the Provincial Government, told an audience at the Garneau-Tachereau Club last night. He said: "The prohibition cry is simply camouflage, and in its passage in the United States, including the exclusion of wines, the Methodists believe that the coup de grace will be given to the exercise of our religion."

"We learn from good sources that during the jubilee celebration of Cardinal Gibbons at Baltimore, in the course of last autumn, that at a

meeting of the bishops of North America, which was held, an important bishop of the United States submitted to his conferees the original of a letter which was intercepted, and which was written by a high dignitary of the Methodist Church, and which letter declared, among other things, that if prohibition could be realized in all America the coup de grace would be given to the Catholic religion.

"It is upon this revelation that the clergy of the United States changed their stand. We can see the result in the election at Baltimore yesterday, where only one prohibitionist candidate was elected, and in other places, the result was the same."

Mr. Zeguin talked of conditions in Toronto and the Canadian west. There was hidden drunkenness, and men bought thousands of dollars worth of liquor and then preached prohibition to the workmen, he said.

**NO DOMINION LOAN TILL FALL.** OTTAWA, April 3.—It has been ascertained by inquiry at the finance department that there is no likelihood of a new Dominion loan until autumn. The report which has been in circulation that a Dominion loan would be made in June has no foundation whatever.

Hon. Gideon Robertson Declares Unemployment Situation is Improved.

OTTAWA, April 3.—In connection with his announcement of the decision of the Government to appoint a commission to study the question of joint control of industries by capital and labor yesterday, Hon. Gideon Robertson said that in all the provinces, with the exception of British Columbia, the unemployment situation was improving, and he felt confident that within six months Canada would be faced with an actual shortage of labor.

## THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

GEORGIA HAMILTON

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing hollows and angles by the soft curved lines of health and beauty, there are every day thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphorus than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magical transformation with me. I gained 15 pounds and never before felt so well."

**CAUTION:**—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

## BRYANT WASHBURN AT THE MAJESTIC TODAY AND SAT.

Also Charlie Chaplin in "Ticking His Ivories" and Other Features on Same Bill.

Bryant Washburn, the popular Paramount star, will be seen at the Majestic today and Saturday in "Poor Boob." From advance indications this will be one of Washburn's best pictures of a stage comedy by Margaret Mayo. The story deals with the fortunes of a youth who leaves his home town as a failure, and later decides to bluff the citizens into believing he is a millionaire. Luck is with him, and he not only succeeds in his bluff, but also puts himself well on the road to fortune.

Charlie Chaplin in one of his funniest comedies, "Ticking His Ivories," a News Weekly and a high-class musical act complete an excellent program for today and Saturday.

## GLADYS BROCKWELL AT THE PATRICIA TODAY AND SAT.

Popular Star Is Appearing in Magnificent Production "The Strange Woman."

Gladys Brockwell, in "The Strange Woman," was presented at the Patricia Theatre yesterday to patrons who

the apostle of the newest philosophy and views of modern life, particularly where the great question of marriage is concerned. She is not a suffragist nor is she a "new woman" in the generally accepted sense of the term, but she is opposed to taking a binding, life-long marriage vow.

To Delphi as the play opens, John Hemingway brings Inez and introduces her as his intended bride. The play results from this woman and her ideas being landed in the somewhat narrow and hum-drum community, and the outcome is entirely unexpected.

"Hearts in Hook," a two-reel comedy, and a Mutt and Jeff animated cartoon, "Pot Luck in the Army," are replete with funny situations and scenes.

In vaudeville the Cosmopolitan trio present a classy repertoire of up-to-date songs. They were forced to respond to several encores at yesterday's performance.

The above program will be repeated today and Saturday.

## Nursing Sister and Returned Men Welcomed at Junction

A happy evening was spent at St. Mark's Church, London Junction, on Wednesday, when one nursing sister, Miss Etta Garrett, and several returned men were welcomed back to their city and parish after service overseas.

A most cordial welcome was extended by the rector, Rev. A. L. Beverley, and short addresses were given by a number of visiting clergymen, Rev. J. Hosie and Rev. B. Snell of London Junction; Rev. G. M. Cox and Capt. (Rev.) McKenney, M.C., late chaplain of the 58th Battalion, who is himself just back from England.

Margaret Devin, a talented young girl, daughter of a soldier still in France, delighted the audience with a number of songs and dances. She has been with her mother in Scotland and England during the years her father has been in the army with the 23rd Battalion and has taken part in many entertainments for soldiers in overseas camps. She has just recently returned to Canada. The male quartet of the choir also contributed enjoyable numbers.

Delicious refreshments were served by the ladies of the church. The following were the guests of honor: Nursing Sister Etta Garrett, Sergt. Knox Garrett, Sergt. George Richardson, Pte. William Bennett, Pte. Thomas Lashbrook, Sergt. Fred Scarborough, C.M., Sergt. Fred White, Fred Henry White.

# Royal Cord

## The Master Creation of Canada's Leading Tire Builders

WERE ease and comfort their only superior qualities, they would still be the choice of every car-owner who could afford them. But they are more than a luxury, they are a delightful economy.

Their marvellous construction of tens of thousands of cords, each imbedded in pure rubber, makes a tire that is practically proof against blow-outs. Yet so yielding and resilient is the tire-structure and tire-wall that the shock of most road obstructions is absorbed. It also relieves the non-skid tread of a portion of its strain, and reduces side-slipping without impairing the ease in steering.

Careful tests show that a car equipped with "ROYAL CORD" TIRES makes more miles per gallon of gasoline than the same car can make on fabric tires. This saving alone pays the difference in cost.

With blow-outs reduced to a minimum; and a practical saving in gasoline; there is ample proof of the sound economy of "ROYAL CORD" Tires.

Then, too, there is the luxury of easy riding, and the assurance of having the finest tires that can be made.

## "DOMINION" INNER TUBES

are made expressly to fit "Royal Cord" Tires, as well as the other five treads of "Dominion" Tires. Be sure to have your tires fitted right—with "Dominion" Inner Tubes.

DOMINION TIRES and ACCESSORIES are distributed through DOMINION RUBBER SYSTEM BRANCHES and sold by the Best Dealers throughout Canada.

proffered paper he laid it on the table, exposed to the unobstructed view of the two other members of the little shack (neither of whom it is expected will contribute toward a memorial for the late "Opposition" leader), and promptly put his cross beside a certain name, thus denoting that from his humble diagnosis of the political situation, Messrs. Borden, Perley, Kemp, and their associates were unfitted for the task in hand; had been sitting in the game so long that their feet had become cramped, and would occasion benefit for the country, if not themselves, by quiet retirement to their respective spheres of life. In the military vernacular they should be allotted a quieter part of the line.

Now it transpired that Smith (this is not his army name, naturally), before the antagonistic situation which arose between the great powers, had never aspired for the ministry taught in the Sunday school, or pushed sedate pedestrians about on the sidewalk as he strove to gain entrance to the corner mission on a Saturday evening. Likewise he had never pilfered a poor box, scolded verandahs at 2 a.m. with thieving intent, or run away with somebody's wife. He did not do these things is immaterial. Actual occurrences and not theories or rumors suffice. It is pointed out that his "mug" did not occupy picture space in any of the regius galleries. His quiet, unassuming civilian life had not been interrupted by unexpected and hurried flights by midnight traps to evade persistent and too inquisitive police. He was never, of course, a social lion, a regular attendant at charity balls or went to enjoy a half hour's tete a tete with the mayor's wife or the senator's daughter. He was in reality one of the boys—just plain John J. Private in the rear rank.

Had Experiences.  
During his military career he had, however, in company with others, even less criminally inclined, attended more than one gathering in the orderly ranks. Defaulters' call, pack drill, escorts with long bayonets suggesting the close custody of Guy the Blood, Harry Tracy, or equally desperate celebrities, had been part of his early training. But in this he could not have been above the average as "oldtimers" who easily recalled the low-end-curve era and Kitchener's march to Khartoum; stoutly claimed that to attain one's majority as full-blown private, the recruit must play the principal part in this drama on at least seven occasions.

Assuming successfully, it appears, the role of leading man in these manoeuvres at various times, Smith had (and somebody must, or else) who have rules and regulations and military police? Unfortunately achieved for himself recognition at headquarters. He was, the orderly sergeant and other responsible parties averred, a continual worry and frequent jaunts to company "office" elicited the fact that his presence in the neighborhood was as deplorable as that of Hunsburg at a Hague convention. By reason of this he was finally recommended for a staff job on the brigade police (to be out of the way), which he never got. Not unlikely it developed that back in the

The best you can get

home town he had not been connected with the same exclusive checker club or bridge white league as his superior officer.

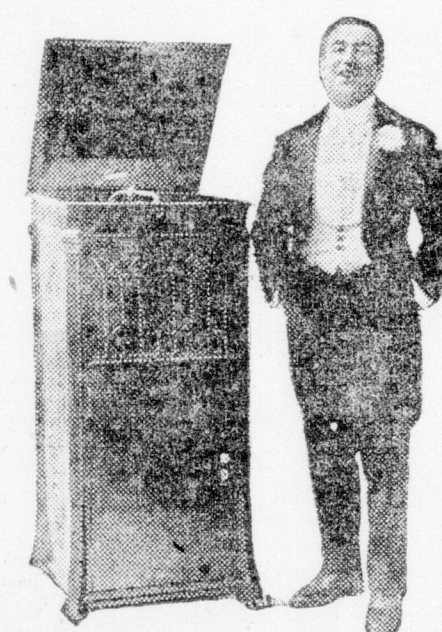

The "Follow Up."  
And so it came to pass that once upon a time when a few of the machine gunners were gathered together in an opportune "dig-out," that a certain provost-sergeant did appear amongst them speaking words of great discomfort. Why he should be that distance in the interior of the danger zone was inexplicable, but he impressed upon Smith the necessity of holding himself in readiness for another session with the leading luminaries of the military courts. Upon this occasion the charge was grave. "This period was subsequent to the arrival of wise men from the west bearing glowing tidings of a Government's re-election."

As events progressed Smith with the necessary accompaniment of heel-clicking, right-and-left wheeling and about-turning was duly tried, convicted and sentenced to three months' elimination from his then most pleasant surroundings to an environment even less desirable.

As the merits of the case were diplomatically discussed in the "funk-holes," and back at the wagon-lines, the evidence advanced and accepted was in the opinion of some really disinterested parties, not quite as conclusive as might be expected to force a charge of such serious phases. "Then, of course, if Smith were guilty."

musically outclasses all phonographs and talking machines, regardless of name or make. We proved it by making a direct comparison of the New Edison with the human voice and the music of human-played instruments.

We have given this proof. We have had Edison make one of his famous tone tests right here in London. Last Tuesday night at the Y. M. C. A. Auditorium the New Edison defied music-lovers to distinguish the faintest shade of difference between its RE-CREATION of Mr. Ellison's voice and Mr. Ellison himself as he stood beside the instrument and sang while it RE-CREATED his voice. Not an ear in the hall was keen enough to detect any difference. There was no difference to detect.

No other sound-reproducing device sustains this test. This is the music that you will some day want in your own home. Why wait? Easy terms.

they commented, "It would not do to voice sentiments too freely if not sure of facts—anyway he had a faculty for keeping in the military twilight constantly." It snatched too much thought the "old heads" of that familiar adage, "Give a dog a bad name."

No Ordinary Tale.  
Now the closing scenes of the usual narrative would find Smith, despite his guard-room notoriety, finishing first in the field by a spectacular single-handed stunt against extreme odds when chances of returning to Canada undamaged were to be exchanged for a "chunk of pork" or a light for a cigarette. But this is not a usual tale. Unhappily, it must have a twist, for his turn for guard duty or ration party when the decorations assigned to his unit by a thoughtful higher authority

arrived at rear headquarters for distribution. Ninety days in a barracks, with armed sentries, unthinkable rations, interspersed with manual of arms, and squad drill on the double in full battle array, was his particular mention in dispatches. Again in defiance of the ordinary yarn nobody pushed out a timely two-baggers in the last half of the ninth for Smith. There was no reprieve from a kind-hearted general (possessing a soft spot for Canadians), as he was about to commence his morning double about the square with the other incorrigibles, all guilty of unpardonable offences—overstaying leave, omission to salute majors, lack in choice of language to sergeants, and so forth.

He completed his term, rejoined his unit, and continued to gauge possible obliteration until the cessation of hostilities. Now he is back on his feet, ash-beard down in New Brunswick, where he awaits expectantly with a huge banner the probable tour by government representatives prior to the next election.

Now his friends and acquaintances fear that he exhibited too lively an interest on behalf of Opposition candidates. Smith himself is as yet rather reticent, but the members of HIS checker club wonder if the case would have been differently handled had his pencil strayed higher up on the ballot.

## Lemon Juice is Skin Beautifier, Also a Whitener

Many women use just the juice of lemons to bleach or whiten the skin, but pure lemon juice is acid, therefore irritating, and should be mixed with orchard white.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoother and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to bring back to any skin the whiteness, the sweet freshness and flexibility of which it has been robbed by carelessness or trying atmospheric conditions.

## Revenue Stamps Are Not Good When Used On Letters

But Postage Stamps Are Good Anywhere—Confusing Muddle.

A London firm yesterday received a letter from a nearby town on which a customer had placed a one-cent postage stamp and a two-cent special revenue stamp. The post office made the firm pay the postage again.

The post office report was that it could not discuss government regulations, but the fact is the mind-revener stamp is another method of confusing the public and heaping a lot of petty troubles upon the country's great troubles.

An ordinary postage stamp is accepted in place of the special revenue stamp for checks, etc., but the rule does not work both ways. The fact is that the government has been paid in any event, and if the objection is offered, one department must receive the revenue for the sale of its special stamps, the same logic should apply to the use of postage stamps for

inland revenue purposes. It is only a small matter, of course. No one is objecting to the payment of a few cents except on principle. But the small things, like cooties and fleas, often prove the most annoying.

## BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Look, Mother! Is tongue coated, breath feverish and stomach sour?

Cleanse the little liver and bowels and they get well quickly.

When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally, if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, sneezes and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs," to evacuate the bowels, no difference what other treatment is given. Sick children needn't be coaxed to take this harmless "Fruit Laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company."

## Toronto Is Only Two Years Behind London This Time

Constables in Queen City at Last on Eight-Hour Day.

Toronto may have beaten London in getting daylight saving, but it took the Toronto policemen almost two years to get an eight-hour day that the London constables have enjoyed for almost two years. At that, the Toronto sidewalk-brokers have only a three-month trial on the eight-hour plan.

At the meeting in Toronto recently between the royal commission appointed to investigate the grievances of the

Toronto Police Union, a communication was read from the London organization, in which the secretary stated that London was the first city to organize a union. This was done in April, 1917. A great deal of good had been accomplished, and everyone in the department, with the exception of the chief, was a member.

NO TRUTH IN REPORT.—Wide circulation has been given a report that the Bank of Montreal, at which Government checks are cashed, was refusing these checks, owing to the fact that the end of the Government's fiscal year had been reached, and that there was no Government money in the bank. The officials at the bank declared that such was not the case.

## If Kidneys Act Bad Take Salts

Says Backache is sign you have been eating too much meat

When you wake up with backache

and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Most forms of acid, which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds, and you are obliged to

seek relief two or three times during

the night. Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take about a tablespoonful in a glass of water before breakfast, for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine, so it no longer irritates, thus ending bladder weakness. Jad Salts is a life-saver for regular meat-eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia-water drink.

## SPARING ROD SPOILS CHILDREN, DECLARES POLICE FORCE HEAD

Chief Says Youthful Crime Is On Increase.

## PARENTS LOSE CONTROL

Are Allowing Youths To Run Streets During Night Hours.

"Crime is on the increase in London," said Chief of Police W. F. T. Wylie today. "There has been more stealing in the city during the past two or three years than ever before."

"What's the matter, chief?" asked the reporters.

"Well, I blame it on the parents," replied the head of the police force. "Parents for quite a few years back have not had the control of their children. They have allowed them to run the streets during the night hours. Youngsters are allowed out till all hours of the night now, and no questions asked."

"Quite a thing that there is so much crime, chief. We thought that the Ontario temperance act was going to banish all the wickedness from the land," commented one of the scribblers.

"Not by any means," replied the chief. "You know, lots of times criminals would say that they were drunk when they committed their crimes, hoping to get light sentences. Whiskey was blamed for a lot of wrongdoing that it had nothing to do with."

"On the other hand, don't think that liquor has not done any harm. The O. T. A. has brought happiness and prosperity to many homes in London. Ten years ago there was generally a battered countenance or two staring at you from the prisoners' box. We very seldom get them now. The act has been a blessing."

In many ways, although I don't approve of this bootlegging whiskey."

"A lot of the stealing during the last year has been done by mere youths. They step in where hardened criminals would fear to tread. Look at the recent epidemic of thieving here. When they were caught, they were all boys in their teens. Who steal automobiles and go joy-riding, endangering the lives of occupants of motor cars all along the route. Why, boys who have been let run wild. The youth of the country is quite a problem to handle at the present time. There have been more cases of disorderly conduct in the juvenile court in the last few months than ever before. It is the old story of spare the rod and spoil the child. One of the best ways to make them remember is through the seat of their trousers."

## A. KEENE GETS PELT OF CITY'S DEAD BEAR; HE DONATED ANIMAL

Owing to the fact that Commissioners T. W. McFarland and F. G. Mitchell and Mayor C. R. Somerville were out of the city there could be no business transacted at the meeting of the public utilities commission yesterday afternoon. The regular accounts were passed, subject to the approval of the other members of the commission. Assistant Manager A. O. Hunt brought up the question of the ownership of the deceased bear. Arthur Keene, who donated the bear to the zoo, asked that he be given the pelt. The members of the commission present thought he should be allowed to take it.

Mr. Hunt reported that he had leased the Foster property to W. E. Foster at \$300 a year. There was a little discussion in reference to this, as it was thought that if the house was in good shape the commission could give a year for it. Chairman Philip Pocock stated that this would be the case. In all probability the house will be repaired this summer and the commission also intends erecting a new fence around the property. Chairman Pocock signed the lease of Springbank pavilion to W. M. Lowry, as approved by the commission at a recent meeting.

RECIPE BEING HELD—Invitations are being issued to a recital of advanced students of the London Conservatory of Music. The recital will be held in the auditorium and an interesting program will be presented.

## PROBABLY NO VOTE ON CITY HALL THIS YEAR, IS NOW BELIEF

Legislature's Action Has Not Helped Matters.

## YEAR'S DELAY LIKELY

Council Will Discuss Question at Meeting On Monday Next.

There will be no vote taken on the question of a city hall site this year, according to several members of the council. Aid. F. E. Harley is confident that the council would not expend the necessary \$1,500 to have the people decide as to where the city hall should be built. According to a ruling of the Legislature, a vote will have to be taken before the deliberations may be issued.

In this connection it is pointed out that the council is no further ahead by submitting the question to the Legislature in the City of London bill than it would have been if it had decided to place the issue before the electors for decision.

Ald. E. S. Little expresses the opinion that if the debenture issue for the board of education is set to the people immediately, it would be wise to have the citizens vote on the city hall question at the same time. If, however, the school question is not put to the people (and the opinion is given by some who should know that it will not be put this year) the city hall could be left over until the next election.

"We have a large program of work on our hands without the city hall and, in any event, we could not well get started this year," Ald. Little said.

Mayor C. R. Somerville, when asked regarding the question, stated that the council would deal with the problem on Monday evening at the regular meeting. You know as much as I do what the council will do with the question," he said.

## CANADIANS WAITING IN RUSSIA WONDER WHAT COMES NEXT

Have No Idea What They Are To Do.

## VLADIVOSTOK BAD CITY

Every Nationality, Including Germans, Found There, Says London Boy.

A well-known young Londoner, writing home from near Vladivostok, where he is stationed with the Canadians, states that the Canadians have absolutely no idea of what is going to be done with them; whether they are going to be sent home or down into the country. Publications of every description, he adds, are an enormous price. The sum of \$5 is asked for a well-known American magazine, which sells here for 25 cents.

He has spent a couple of week-ends in Vladivostok, and thinks it must be the wildest city in the world. Every nationality is to be found there, French, Italian, Greek, "with last but not least, lots of Germans. You have to watch your step there."

The only hope for Russia, so far as he can see, lies in the education of the people. At present they are at the mercy of exploiters, a tremendous mass of people, scattered over an enormous vast country, one part ignorant of what another is doing.

Up to the present he has seen only one beautiful Russian woman.

NEW POLICE CONSTABLE.—Leo Chamberlain is the latest addition to the police force. He went on duty Wednesday for the first time. Chamberlain recently arrived home from overseas, where he was a cadet in the R. A. F. He is a son of the late Victor Chamberlain of this city.

## OUT AGAIN, IN AGAIN

Ex-Prisoners Celebrate Freedom Too Well and Go Back.

The police court session was short and sweet this morning. Two oldtimers, who practically make their home at the county jail, got out the other day and proceeded to get drunk again yesterday. The usual \$10 fine was tacked on, but they went to the castle instead for ten days.

Eight citizens who insisted on honking their automobiles through the streets faster than the law prescribes, all paid their fines before court was called. The roll consisted of Harry Peel, W. G. Young, W. F. Bouchon, Thomas Copp, George Blackwell, A. Buchanan, B. Wolfe and W. R. McKean.

## \$50,560 WORTH OF PERMITS IN 3 DAYS

Building This Month Promises To Be Extensive.

With only three days of April gone the local building permits amount to \$50,560, which is more than half the total amount of the building permits issued during April in last year, which was \$85,200. The total number of permits issued to date this month is 59, and the total number issued during April last year was 117. It is confident-

ly expected that April this year will have a big lead over the same period of last year.

Among those who took out permits yesterday are the following: William Porter, for a residence on Wharmcliffe road south, at a cost of \$1,000; A. Dickenson, repairs to house on Talbot street, \$1,500; W. J. Pilling, residence on Linwood avenue, to cost \$1,900; and C. H. Walton, a residence on Cathcart street, costing \$2,200.

SETTLEMENT REACHED.—After some weeks of deliberations, the painters and their employers have reached a settlement. The men have received an increase in wages of practically five cents an hour. The men have been receiving 35 to 40 cents an hour and they will now be paid 40 to 45 cents an hour on a sliding scale.

# CONCRETE HIGHWAYS

## Save Time Money Labor

WHATEVER speeds up traffic must be a real economy. Whatever delays traffic must always involve waste of time and effort.

Concrete, being the road material of minimum tractive resistance, makes a pavement on which all types of vehicle can travel quickly, and this speeding-up of traffic makes possible the speeding-up of production.

Wherever there is a concrete road, in that locality you will find farmers and their "help" able to devote more time to the vital work of sowing and gathering the crops.

### SAVING TIME OF BERRY PICKERS

THE girls who helped so splendidly in the gathering of our berry crop last summer, can testify to the value of a concrete highway along lines of time-saving. To those of them who were able to use the Toronto-Hamilton highway, it meant many hours saved in transit between their camps and their berry-patches—thus giving them more hours for berry-picking than they could possibly have had it their travelling to and fro had been on the old style road.

The manner in which the Toronto-Hamilton highway conserved time in last summer's berry picking is but one of the many sidelights on the value of concrete that have been revealed to those farmers whose properties adjoin this modern concrete road.

### SAVING THE FARMER'S TIME

THIS same concrete highway has resulted in the opening of many wayside markets, to which motorists come for their fruit and provisions, thus saving much of the farmer's time.

Then, too, those farmers who still take their "truck" to market are able, on this highway, to get to market and back in double quick time. A farmer situated on this highway, twenty miles from market, can load his motor truck, and leave in the morning—he back home for lunch—and make another trip to market in the afternoon. Instead of three uncomfortable team trips per week, which was his average before the concrete road was built, he now makes twelve trips in comfort—two trips each working day—by motor truck.

### HOW ONE FARMER PROFITS

THIS is the experience of R. H. Lush, of Clarkson, Ontario, whose farm adjoins the Toronto-Hamilton highway. He sold at his wayside booth last summer among other fruits, 700 baskets of cherries at an average price of \$4.00 per basket, a total of \$1,120, for cherries alone. Had he shipped those 700 baskets to Toronto (as he had to do before the highway was built), he would have had to reckon with the following items:

Commission to commission house (12 1/2 per cent on \$1,120)	\$140.00
Express (at 5c. per basket)	35.00
Cartage at city end (1c. per basket)	7.00
Hauling from farm to railroad	7.00
<b>Total</b>	<b>\$189.00</b>

The \$189 which he saved by selling his cherries at his wayside booth represents an extra profit of \$189 on cherries alone.

It is the duty of every Canadian citizen—a duty he owes both to himself and to his country—to get the facts about concrete highways which will enable him to intelligently use his influence for the building of the kind of roads which shall result in more complete conservation of all we produce.

### THE LOCAL MARKET

Hay was the main product offered for sale at today's local market. It is quoted at \$18.00 per ton, but is a little slow, owing to 21 loads being sold on the market yesterday, and 25 loads the day previous.

Straw is easier, and is selling at \$8.00 per ton.

Oats have taken a jump in price and are quoted at \$22.00 per cwt.

Live hogs are \$20.00 per cwt. Dressed hogs have jumped in price, and are now selling at \$27.00 per cwt. There is a good demand for dressed hogs, considering the time of year.

Apples are high and are not of very good quality.

Eggs and butter are firm.

Maple syrup is quoted at \$2.25 per gallon. There was a small amount sold on yesterday's market, some of it going for the bottom price.

Poultry is firm.

There are no other changes reported.

### GRAIN

Chicago, April 4.—Opening: Corn—May, \$1.54; July, \$1.47.

Oats—May, 65c; July, 64c.

Chicago, April 4.—Sellers predominated in the corn market today, and prices were lower. Competition from Argentina was largely responsible for the weakness. In addition, bulls lacked confidence owing to the recent action of the exchange directors ordering a cessation of all open trading in May corn exceeding 25,000 bushels. Initial prices, which ranged from 5c to 2 1/2c lower, were followed by a slight rally, and then by a material fresh decline. Oats sagged with corn. After dropping 1/2c to 5/8c down, the market rallied a little, but again dropped, this time lower than before.

Winnipeg, April 4.—Oats opened 1/2c to 5/8c lower for May at 72 1/2c, and 3/4c lower for July at 73 1/2c.

Barley opened 5c lower for May at \$1.02 1/2.

## FOUND! A WAY TO KEEP THE MAGISTRATE AMUSED

Just Pencil a Charlie Chaplin on Upper Lip.

A fresh, rosy-cheeked lad was Leslie Knaggs, and he stood up hat in hand in police court yesterday to answer the charge of driving a delivery truck without a chauffeur's license. Leslie apparently realized that only a blind man would take him for a sage of hoary years, and in order to impress the magistrate and others that he had arrived at years of discretion, he had used judiciously a lead pencil and proceeded to decorate that part of his face that lies directly beneath his nose with a Charlie Chaplin smile for a Simon Legree moultache. Magistrate A. H. M. Graydon did his best to hide a smile as he gazed on the youth, who stood nervously twisting his cap. Looking on Mr. Knaggs with a stern eye as possible, he asked him why he had not taken out a chauffeur's license before attempting to drive a motor truck owned by Seales and Roberts. Knaggs carried a rosier red if possible and said that he had been on his way to get a license when the policeman had stopped him. The magistrate apparently was fascinated by the beautiful twist to the son-of-a-bitch, and he ordered the young man to pay the costs of the court and get a license immediately. "You really should be fined" stated the court as he looked the other way. Leslie sat down with a relieved smile.

## CLOSER ATTENTION TO REGULATIONS NEEDED

Brig.-Gen. L. W. Shannon has issued orders reminding all officers concerned that closer attention must be paid to the regulation which requires that notification of the discharge of warrant officers, p. c. 2 and men of the C. E. F., who are also carried on the nominal rolls of permanent force units, must be sent direct to the officers administering such units. No explanation of this order is obtainable at headquarters.
