VOL. XLII.—No. 21

BRANTFORD, CANADA, SATURDAY, MARCH 29, 1913

FOURTEEN PAGES

A SQUARE DEAL CAMPAIGN LAUNCHED BY COURIER

First Campaign of its Kind Ever Conducted in Ontario. Pay for what You Get is Courier Motto.

On page six of this issue there will be found the opening announcement of a competition conducted by the Courier Printing Company, Limited.

It can very well be termed "A Square Deal Campaign." In contests of a like nature conducted by other papers, there have been a FEW winners and MANY disappointed ones.

The last-named have worked their heads off, only to find that the outcome has been of benefit to the paper and worth not one cent to themselves.

The Courier does not believe in that kind of thing, and so, for the first time in Canada, it has planned a scheme whereby everybody who enters will get paid for what they accomplish. The man, woman or child who brings in even one new subscription will be paid a liberal cash percentage for it.

It is not a money-grabbing project, but a plan to increase circulation and give fair—yes, generous—pay to all who enter. In addition to \$2,000 in cash, there will be \$350 worth of special prizes to those who rank highest with regard to the number of coupons.

No such fair proposal has ever before been offered by any other paper in the Dominion.

It may be mentioned that some thousands of dollars have recently been expended on the enlargement of the office plant, including the addition of the latest model of the celebrated Linotype machine, of which a battery of four is now possessed. The editorial and reportorial staffs have been strengthened; there is a Woman's Department, presided over by a society editor; the number of general hands has been largely increased; the paper has been enlarged, and will be made still bigger; a special sporting page has been instituted, and in general there has been all-round improvement.

With the opening of the contest a new story will also be started.

Subscribers will not only obtain splendid value in the paper itself, but those who take part in the boosting will, as before, receive liberal pay in cash.

There cannot, in other words, be a loser. Get in on "THE SQUARE DEAL CAMPAIGN."

Will Cataract Drop Electric Lighting Rates In Brantford this Year?

Brantfordites will be interested in the following despatch from Hamilton:—The Cataract Power Company has announced a reduction of 25 per cent. in its commercial lighting rates in announcing the cut the company has made in the following statement: "The justice to customers who have been with us for years we have decided to reduce the rate for commercial purposes aggregating 25 per cent. under our former rates, as an inducement for them to stay with us. Our commercial rates were as low as we could stand. There was certainly not a 25 per cent. margin of profit. The fact that we have now reduced our former rates by 25 per cent. means that we will supply commercial lighting power at less than cost.—We will lose money, but we prefer to stick to our old customers."

Manager Duncan of the Western Counties Company, when asked if the cut in rates would go into effect in Brantford, replied that it would not. "It is learned from other sources, however, that it is only a matter of time before similar action by the Cataract interests is taken in this city, in view of the fact that the same competition, Hydro-Electric, will exist here as in the Ambitious City."

GRAND OPERA HOUSE BRANTFORD

Saturday, March 29—First time at popular prices. Frank O. Miller offers the mirth-provoking German farce, "THE GIRL FROM TOKIO." One year at the Court Theatre, Berlin, Germany. English version by Frank Tannehill, Jr., and Geo. W. Barnum. A rollicking, roystering fun-maker, screamingly funny, absolutely clean, presented by a capable company of metropolitan players. Prices: 14 rows, \$1; 8 rows, 75c; balcony, 50c; balcony, 75c and 50c. Seats Thursday.

Five Nights, Commencing Monday—Monday, Tuesday, Wednesday, Friday and Saturday, with special matinees Wednesday and Saturday—Ernie Marks and his big company of vaudeville and dramatic stars, in new and high-class repertoire. Monday—"Tempest and Sunshine." Tuesday—"A Hero of the Hills." Wednesday (Matinee)—"Pop Love and Honor"; Night, to be announced later. Friday—"Ishmael." Saturday, Matinee—"Happy Hooligan's Troubles." Saturday Night—"The Elopement." This is the first visit of Mr. Ernie Marks and Miss Kitty Marks to Brantford in years, so don't think you have seen this attraction before, for you haven't. Prices: 10, 20, 30c; Matinee, 10, 20c. Seats Saturday. See the high-class specialties between the acts.

Thursday, April 3—Verba and Luescher present a gala musical event, "THE ROSE MAID," the opera which enjoyed two seasons at the Globe Theatre, New York, through its captivating music, delicious comedy, tasteful settings and gorgeous gowns, and was proclaimed by all who witnessed this operetta of fun and fashion as prettier than its sister opera, "The Spring Maid." Company of 75, with special orchestra. Two cardinals scenery. The Kute Kudies and the Rosebud Garden of Girls. Each girl a fashion plate. Prices: 14 rows, \$1.50; 8 rows, \$1; balcony, 75c; balcony, \$1 and 75c; gallery, 50c and 25c. Seats Tuesday.

Gladys Meredith, Principal In Case Against Police

The picture reproduced herewith is that of Gladys Meredith, the Holmedale girl who is the principal figure of interest in the action which is at present slated for hearing at the spring assizes in this city before Chancellor Boyd. An application, however, is being made for a change of venue of the trial. Miss Meredith, who, it is claimed, was wrongfully arrested by the Brantford police, is a 19-year-old girl, who came from her home in Lancashire, England, to Canada a short time ago. She is at present employed in the Slingsby mill in the Holmedale. Her widowed mother, with four children, sailed on Good Friday for St. John's, and is expected in the city any day to rejoin her daughter. The defendants in the trial are the two officers alleged to have made the arrest (Detective Chapman and Constable Boylan), also Chief Slemm and the Coroner, E. C. Ashton. The plaintiff's claim is for \$10,000 damages, and unusual interest in Brantford in view of the fact that indignation has been expressed in the form of unlawful disturbances against the police department.

GRAND RIVER FLOODS WERE DISCUSSED AT GALT

Speakers of Meeting Say That Draining of Swamps is Responsible for Them—Prevention is Debated—No Brantford Representatives Present.

GALT, March 29.—The following thought that the swamp height of water had been reached by the Grand River, declared that the flood this year was from eighteen inches to two feet higher than in 1912.

Mayor Scott, of Galt, said that if immediate action were not taken conditions may be repeated in towns and cities on the Grand such as have occurred in Ohio. He believed the Government was afraid of tackling the question of flood prevention because of setting a precedent but stated that this matter should be taken up by a commission, just as the Hydro-Electric system was inaugurated. Opinion was unanimous on the need of an investigation by a commission. A committee was appointed to get data preparatory to a strong delegation being sent to Toronto to interview the Government.

Safe and Sound. Word was received in the city last night from Mr. John R. Mann, son of Mr. John Mann, city, that all the members of his family were safe and sound at Wolfe Creek Towers, Ohio. Apparently Mr. Mann and family were forced to Dayton City on account of the terrible nature of the floods.

SITUATION BRIGHTENS UP IN FLOOD STRICKEN DISTRICTS SAY TO-DAYS DISPATCHES

Word From Dayton To-Day Says That Relief is Being Distributed But That Effects of Flood are Still Very Severely Felt—Number of Dead Will not aggregate as Large as at First Believed.

(Canadian Press Despatch) DAYTON, Ohio, March 29.—Dayton awoke this morning wondering of the latest estimate of the number of its dead as the result of the flood was accurate. With 28 bodies recovered and with nearly every section explored by life saving crews and newspapermen, early estimates of tremendous loss of life had been cut to 150 to 200.

After a meeting of seven-eighths of the undertakers of Dayton last evening it was announced that a consensus of opinion at the meeting was that 800 were dead. These men said they based their estimates merely upon general conditions and Dayton citizens to-day renewed efforts to ascertain if their reckoning was correct. As most of the hemmed in sufferers had been provided with food yesterday no effort was made to work in the flooded area last night, but with the coming of dawn large rescue parties were out to succor the sufferers and recover the dead.

Not knowing yet how great is her loss in number of lives, Dayton already faces a serious situation. The sewerage, water, gas and wire communication systems have been destroyed. Thousands of dead animals are lying about the streets. Two fertilizer firms began to-day to gather these animals. Water is being served from private plants of the Soldiers' Home and being served from sprinkling wagons. The relief committee has sent out an urgent appeal to people not to dump refuse in the streets, but to dig cesspools where possible. The sewerage system cannot be used for weeks, and it will be necessary to do without gas for some time. Considering the number of persons affected by the flood, there has been comparatively little sickness, the cold weather being responsible for this to a great extent. The cold weather has caused great suffering among those heat, but in the end it has proved a blessing. Efforts were made to-day to clear away the debris in sections where the flood water had run off and it was feared bodies might be found in these masses of wreckage. With well organized crews doing this work, others took food to persons still marooned in Riverdale and North Dayton. It was believed, however, that by nightfall most of these people could get out, so rapidly was the water receding. Train loads of food came from several directions to-day. Train communication being established with the north several relief trains came in bearing a varied assortment of needed materials. Cincinnati in Danger. CINCINNATI, O., March 29.—With the Ohio River covering the entire lower section of this city and with refugees coming in by hundreds, Cincinnati this morning faces a situation that will require the combined efforts of all of its relief and civic organizations to cope with. Every hotel in this city is crowded to its capacity, and freight street car has been pressed into service, removing families from the flood area. The river reached the stage of 65.9 feet at daybreak and was rising at a rate of 1-1/2 tenths of a foot an hour. More than sixty city blocks are under water, average depth being from one foot to ten feet. Suffering, however, has been at a minimum owing to warning sent out early that a stage of 70 feet probably would be reached before the waters began to recede. The city was practically cut off from traffic communication with Covington, Ky., early last evening when the approach to the suspension bridge (Continued on Page 3)

Police Matters Are Still Great Source of Discussion in Council

An interesting report will be presented at the City Council meeting on Monday by City Clerk Leonard. The report deals with emoluments received by the police for work outside of their regular routine. As one alderman expressed it, this morning, "One member of the force is paid nearly \$500 by the city. He is the king pin of them all." City Clerk Leonard carefully guarded his report to-day from the scrutiny of the press. He stated that he was unable to find out all the payments the police received outside of their pay. The report it is understood deals with the collection of poll tax, which it was thought, some time ago could be more effectively accomplished with police assistance.

At any rate it was the feeling of the committee yesterday that poll tax collection last year came decidedly too high. Some of the aldermen just couldn't make the account jibe with what would be considered in their view good business. Accordingly, an interesting discussion is promised on Monday night and police matters are apparently not dead yet at the council hall forum as a prolific source of argument.

A Change Assessment Department will Be Re-organized, That's All.

The assessment department will be reorganized as to secure greater efficiency, but there will be no new men taken on. This announcement came from an authoritative source this morning, as a result of the meeting of the finance committee yesterday. At present Mr. Harry Oldham is in charge of the department, and the re-organization, as announced, probably means a change in the head of the department.

HEATHERS IN GREAT SHAPE

Meeting of the Bowlers Held in Coreuil Chamber Last Night.

A most enthusiastic meeting of Bowlers was held last evening at the City Council Chambers when the shareholders and playing members of the Heather Bowling Club, Limited, met for the annual meeting of the club. Satisfactory reports of progress in all departments were made. The Directors reported that the new green would be ready for play on schedule time and that the old club house, which was removed from the Dalhousie St. grounds would be entirely remodelled. When this is done the Heather Club will have one of the most handsome club buildings in Ontario.

In view of the painstaking efforts of the Directors and Officers throughout the past year, a vote of thanks was tendered them for their services, and as a further mark of appreciation the whole of last year's Board were re-elected by acclamation. The Directors elected were: Messrs. E. C. Tench, W. Lahey, B. J. Wade, Dr. James, Dr. Gamble and D. G. Husban.

The members of the various committees were elected as follows: Ground Committee, J. S. Howie, H. B. Crouch, I. Simpson and F. Read. Match Committee—L. Newsome, H. B. Beckett, A. N. Pennehat and B. Caspell. Reception Committee—J. S. Pilling, D. G. Husban, I. F. Van Lane and Dr. Gamble. Membership Committee—Dr. James, J. W. Shep-erson, J. I. Miller and J. A. Ogilvie.

A communication was read from the Pastime Bowling Club with reference to the Brantford Clubs uniting in holding a joint tournament on Labor Day. Messrs. Whiteack, Coates and Read were elected a Committee to meet with the Pastime Bowling Club and see if arrangements could be made for holding a tournament as suggested.

Optimistic

A Winnipeg despatch says: If the expectations of J. Bruce Walker, Dominion Immigration Commissioner, are realized, nearly 200,000 United States people will make their homes in Western Canada this year, an increase of nearly 50,000 over last year's high record. Mr. Walker, as his annual custom about this time, this morning gave out his anticipations for the prospects of immigration from the south. He thinks, after most careful inquiry at all Canadian agencies operating there, that the increase will be 20 or 25 per cent. over that of 1912. Last year there were practically 150,000 American immigrants, and this year with the increase should see the 200,000 mark approximated. From not a single state is decrease in immigration expected, and from many states, such as North Dakota, Minnesota, Wisconsin, Nebraska and the sunny south records are expected.

Absolute quiet predominated in the sanctum sanctorum of the police court this morning. This is the first day in weeks that such a thing has occurred, but to-day there was not even a drunk.

ectors Mr. E. C. Tench was re-elected President, Mr. W. Lahey Vice-President and Treasurer, and Mr. A. M. Harley, Secretary.

THE PROBS

(Canadian Press Despatch) TORONTO, March 29.—Fair weather prevails throughout Canada, and milder conditions are setting in over Ontario. In the West the weather has been fair and quite mild. FORECASTS Southwesterly winds; fair and milder to-day and on Sunday.

Bell Memorial Ready In 1914--Plans Discussed

Committee Held Meeting Friday Afternoon Relative to Monument to Alexander Graham Bell.

A joint meeting of the Directors of the Bell Memorial committee and of the Park Commissioners took place yesterday in the office of the Secretary, Mr. George Hatley.

There were present: Directors, A. J. Wilkes, in the chair; C. H. Waterous, J. Muir, Lloyd Harris, F. D. Reville, T. H. Preston, Geo. Hatley, Parks Board—E. L. Gould, J. J. Hawkins, Wm. Glover.

Letters Read.
Extracts from letter from Doctor Pat Hardy, Toronto, to A. J. Wilkes, K. C.
"You will be pleased to hear that Allward has finished his Bell Memorial statue and is now free to go on with the Bell one. He has made great progress and the figure I saw is a 'me piece' of work. It will be about the best he has done so far and will be a great source of pride to Brantford and to the Committee. The work will be none in Canada to compare with it and very few in America. He is surely the coming man in this Empire. Suppose you know that he took about 42 amongst whom were 21 of the best in England. As everything was judged under numbers and as this is a great departure from his other stuff and so could not be recognized as his work, it is a great victory for him."

From Mr. Geo. H. Muirhead
Much obliged for notice of meeting, and sorry not to be there, I have been intending to go up to see Mr. Allward but never managed to do so till this afternoon. Found him at work in his studio, and whatever other works he has had on hand and that retarded him in his operations, on our commission, it is certainly now all Bell Memorial, for the studio is getting too small for all the different parts he has under way. He certainly impresses one in a quiet way with his ability and if we do have to wait what seems an unwarrantably long time I feel quite sure he is going to give us the best that is capable of and I think it will be for me to be a great work. He told me Mr. Wilkes had spoken to him to-day over the telephone so I did not try to ask him anything about his plans for the completion of the work.

Regarding the laying out of the New Park, the one thing, or rather one of the things, I think we should keep in mind is to try to arrange with the Grace Church management, to include the little triangle of the Church and a portion of the street curving driveway and walk over to the Holmedale Tigers and the Dufferins will play football at 4.45 at Agricultural Park to-day, providing the game will be played in the afternoon. The following is one of the line-ups: Goal, Rowcliffe; backs, Martindale, Hoyal; half backs, Hart, Williams, G. Matthews, E. Grobb and W. Glover, the last named gentleman was a member of the Parks Board. The removal of telegraph and telephone poles is also included.

It is likewise desired in connection with the scheme to include a portion of the Grace Church point.

A Concert

The Dragons Supplied Excellent Tellen in Victoria Hall Last Night.

The concert given by the Athletic society of the 25th Brant Dragons last night in Victoria Hall, was a decided success. The hall was very comfortably filled; and a very entertaining programme was given by the Dragon talent.
A number of the Dragons in uniform acted as ushers, while the Dragon band occupied seats upon the platform, giving the concert a very military appearance.
The 25th band gave a number of selections, and judging from the number they supplied, they have been working hard, under the able leadership of Lieut. Pearce, as a very marked improvement was shown in the band.
Miss E. E. Gilmour rendered three solos in a very pleasing manner; Mr. J. C. Morland also sang a couple of solos which were greatly appreciated. The sword drills and lance drills put on by Regt. Sergt-Major Roberts, was not only novel but very entertaining. Lance Sergt. J. Miskelly rendered two concert solos which were very capably. Miss Mae Forestelle McGraw upheld the electionist end of the programme with two or three amusing readings. Taken as a whole, the concert was a success in every way. Lieut. Pearce officiated as accompanist.

Runaway This Morning

As Dr. Hanna was getting into his buggy this morning at his office, the horse became frightened at something and started off throwing the doctor on his back. He was not hurt, however. The horse continued down the street at a fast clip. The rig struck a tree in Victoria Park, stopping the horse long enough for a couple of men to get hold of it. The only damage done was to the rig, which was quite badly broken up.

BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD--END CATARRH

Instant Relief When Nose and Head are Clogged from a cold. Stops Nasal Catarrhal Discharges. Dull Headache Vanishes.

Try "Ely's Cream Balm."
Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of Ely's Cream Balm at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed, nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in Ely's Cream Balm and your cold or catarrh will surely disappear.

In all probability a visit will be made to similar institutions at Pergus and Simcoe within the next six weeks.

Will Protest
The owners of moving picture houses in this city will protest against the proposed amendments to the act governing moving picture houses, which is being considered by the provincial legislature. It is proposed to impose a license of \$500 with no license to be granted to any picture theatre not on a corner, with a 15-foot driveway at the side. The contention of the owners here is that it would put them all out of business if they complied with the proposals.

Laymen's Missionary Meeting
A meeting of the Laymen's Missionary society was held in the Grace church vestry last night at which the

Venerable Archdeacon G. C. Macenzie presided and was attended by representatives of the clergy of all the Anglican churches in the city, also representative laymen from each parish. Rev. Lodge Notes
The Owls held a very successful evening at the A.O.F. Hall when a good company enjoyed it to the full extent. A good programme met with the approval of all present. Splendid addresses were given by Sister Daniels and Sister Presley, both of Niagara Falls N. Y., also Bros. Pearcey, Page and others. There was also first class songs by Bros. Thus, Garrathy E. Hodson and Mr. Farnsworth, also violin solos by Bros. Stayley and Haddock which were highly appreciated, afterwards light refreshments were handed round which all enjoyed. After a few dances all departed, feeling much better for a real night's pleasure. Much credit was due to the committee for the able manner things were carried out. The program was as follows: Chorus, Address, piano solo by pianist; song, Garrety; violin solo, Messrs Stayley and Haddock; recitation, Miss Leon Page; song, Mr. J. Mosley, address, Mrs. Presery; song, Miss Jessie Charlton; song, Mrs. Morley; violin solo, Mr. Wm. Charlton; song, Mrs. Farnworth; address, Mrs. Daniels; song, Mr. Hodson; mandolin solo, Mr. Geo. Johnson; song, T. Garrathy.

SOME WATCHES

You must test by use to know what sort of work they will do. Some watches may make good and they may not.

Now, the way we look at it, such a purchase can never prove satisfactory.

That element of uncertainty is a constant bother to a watch owner.

Why not come here for your new watch?

Why not let us take all the risk?

We are ready to do it—ready to guarantee that our watches will perform what we say they will.

W. S. CAMPBELL

Here is a splendid opportunity to acquire a fine farm property in the heart of Ontario's best dairying and mixed farming country. It is comprised of 170 acres, excellent soil, practically all under cultivation, with large orchard, large bank barns, twelve-roomed brick dwelling; also smaller frame dwelling and brick carriage house.

The location is exceptional, being situated on St. George's stone road, only four miles from Brantford City, in Brant County. Easy terms.

Collided with Trolley Car
Shortly after eight o'clock this morning, at the corner of Colborne and Market streets, the new motor truck of P. H. Secord & Sons, Ltd. crashed into one of J. Parke Verners' trolley cars, with the result that the public conveyance is minus a step which citizens used on entering the popular transportation coach.

Dramatic Club.
The Players' Brantford's amateur dramatic club, which so thoroughly

delighted a large audience in the Opera House last May in "The Count of No Account," purpose presenting a farce comedy early in May. Excellent progress is being made at the rehearsals, and the play promises to be a huge success from every standpoint. The entire production will be under the direction of Miss M. E. Squire, M.O.

Hon. W. S. Fielding Evidently is Tied of England.

LONDON, March 29.—Hon. W. S. Fielding sailed for home to-day on the Victorian. It has been alleged that he has endeavored to work with British Radicals to defeat the Borden naval scheme. When the allegation was made Hon. Mr. Fielding said: "If I thought I could do anything to secure the adoption of the Lathier policy I would gladly do so, but as I am not aware that there is anything I could do in that direction I am content to leave the matter in other hands."

Improving on Reality

By RUTH CAMERON

HOW much more attractive than the reality one can make anything sound by telling about it in a clever way!

And how often people do that!

A former neighbor of ours is now living in a distant city. Since her departure from our midst she has regaled us with letters so full of the beautiful home in which she lives, and the wonderful friends she has made that we have all been quite green with envy. I say "have been" because that is all past. Recently another neighbor was visiting in the same city, and since her return we have felt more satisfied with our humble lot.

Our former neighbor wrote us she was living in a beautiful, old-fashioned house with twelve rooms; three baths and a small conservatory. That was all true, but she quite forgot to mention that she only has part of the house, and that she pays for that only by caring for the old gentleman to whom the property belongs.

She conjured up visions of elegance by telling us that she lived on a certain street, which is almost world-famous as a centre of wealth and aristocracy. Of course she didn't explain that the street is very long and the part in which she lives is no more fashionable than our own neighborhood.

She wrote nonchalantly of attending a "tea" given by a famous authoress, and chatted about the lady in question in a manner that made us think they were old friends. The truth of the matter was that the tea was a public affair given for charity, and she has never met the authoress before or since.

And so with one light touch after another, without a single untruth, but with innumerable clever half-truths, she drew us a pretty halftone picture as which we gazed fascinated—just as she meant we should.

Now that the traveler has turned the harsh light of full truth on the pretty picture, and sketched in some of the less attractive lines, we are inclined to laugh at our old neighbor, and yet, are you and I never guilty? Don't we ever draw halftone pictures for our friends?

"Half the pleasure of my trip abroad came from thinking how I would describe my good times to my friends," said one of those rare people who try to be frank with themselves. "Even when I wasn't having such a very good time I'd think how delightful I could make it sound."

Few of us make such frank admissions even to ourselves, but if we did I fancy we should often have similar confessions to make.

of Music on Wednesday evening the 26th. Mrs. Philip G. Buck looking very handsome in a pompadour silk gown; pretty Mrs. George D. Heyd in blue satin with black lace over dress; and Mrs. Blake Duncan looking very dainty in black satin gown with soft white chiffon bodice, acted as chaperones. About eighty guests were entertained. The three young hostesses gowned alike, greeting them on their arrival. The platform and hall had been prettily decorated with palms, lilies and marguerites. Miss Conboy presided at the piano. A prettier scene could not be imagined than this "not out" dance which was voted by all a huge success.

Mrs. Green who has been spending the winter months with her son, Mr. B. Forsayeth and Mrs. Forsayeth, Sheridan street, leaves for her home in Moncton, N. B., early in April.

Mr. Lyman Gould is expected in the city on Saturday from Bobcaygeon, for a short vacation at the parental home, Darling street.

Lord Dufferin who is honorary colonel of the 38th battalion Dufferin Rifles of Canada, as his father was before him, recently sent photographs of himself and Lady Dufferin to the regiment, where they have been fittingly framed and much treasured.

The Marchioness of Dufferin, formerly Flora Davis, of New York, has opened North House, Putney, for the spring season. This is one of the treasure houses owned by Americans in London, in which Lady Dufferin's taste rather than her wealth is felt. She was one of the first to adopt Chinese art, having purchased Chinese porcelains and carving for fifteen years. Her collection is now worth fifteen times the price originally paid for it, and Lady Dufferin is now recognized as an expert on Oriental art. This artistic American has no such monstrosities as "Chinese rooms," but blends her oriental subjects with eighteenth century English furnishings.

Miss J. Haas who has been visiting Mrs. R. G. Ballantyne, Brant St., has returned to her home in St. George.

Mrs. Douglas Bowie, formerly Miss Marie Ruthertford, who is engaged for the first time since her marriage on Tuesday, April 1st, at the residence of her mother-in-law, Mrs. Duncan

SEVEN MINUTE SERMON ON THE GOLDEN TEXT

March 30, 1913.
Our fathers trusted in thee; they trusted, and thou didst deliver them. Psalm 32: 4.

DELIVERED BY TRUSTING.

I. The Great Heart Needs of Men are Always the Same. We speak about the marvelous change in modern conditions as compared with the ancient days, but this is true only so far as physical or material things are concerned, as human nature and its needs are the same to-day as they ever were. Pain is the same, birth and death are the same, our yearning for companionship, our desire for God, our belief in immortality, our hopes and our fears and all the other heart experiences which we now either suffer or enjoy are precisely the same as men passed through in any other period of history. Our fathers had the same problems to solve as we have, they had similar mental perplexities, the same forces to fight and overcome and when we learn that they found a way to be delivered from their fears and helped out of their troubles, we may safely follow their example. Our fathers had the same struggle to make a living, the same anxiety concerning their families; they mended their sick as we do, and their hearts were rent as ours are, when they laid away their loved ones in the grave.

II. There is No Intellectual Certainty of God Except Through Trusting Him. Our fathers learned of God by exercising inactive trust in him; they arrived at "clear conceptions of the 'eternal Father strong to save,' through the trust of their hearts rather than by any intellectual process. The most vital things in life we have to take on trust, or learn by actual experience. Those whose belief in God is the most profound and satisfying are they who yield themselves up implicitly to trusting Him, and they have learned by experience that what they trust for is always realized. Wise men have endeavored to demonstrate the existence of God by a process of reasoning, the logic of which tends to convince us of the existence of a Supreme Being. The Bible states: "The heavens declare the glory of God and the firmament showeth his handiwork," and modern reasoners say that inasmuch as nature shows design, plan and purpose, that there must have been a designer and a planner. They reason from cause to effect, and from effect to cause, and endeavor to prove God's existence. I have no disposition, but on the contrary, to speak against the wisdom of this process of reasoning, yet I am constrained to say that even these reasoners themselves who rest with certainty in the belief of

AUTOS MAKE HIGH SPEED

But They Travel in a Procession Like a Funeral, Says Hanna.

[Canadian Press Despatch]

TORONTO, Mar 28.—"In my section of the country you frequently see a string of automobiles like a funeral procession going at the rate of thirty miles an hour."
This was Hon. W. J. Hanna's comment on one of the clauses in the Ontario pay \$4 in Michigan and \$3 in New York when they go to Michigan or New York. The clause authorizes the exchange of automobile licenses with people in the states bordering on Ontario. The people of Ontario pay \$4 in Michigan and \$3 in New York when they go to Michigan or New York. The clause authorizes the exchange of automobile licenses with people in the states bordering on Ontario. The people of Ontario pay \$4 in Michigan and \$3 in New York when they go to Michigan or New York. The clause authorizes the exchange of automobile licenses with people in the states bordering on Ontario.

The opinion of the committee was against reciprocity in this respect. Hon. W. J. Hanna stated that a big case from Detroit and Michigan to Toronto is being made to Ontario roads were being constantly torn up and re-laid.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local ailment, and prescribed local remedies, and by constantly failing to cure with local medicine, pronounced it incurable. Science has discovered Catarrh is a constitutional disease, and therefore requires constitutional cure. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful, it acts directly on the blood and mucous surfaces of the system. They fail to cure, send for circulars and testimonials. J. CHENEY & CO., Toledo, O., Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Humors come to the surface in the spring as in no other season: They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

LIQUOR BILL IS PLANNED

Whitney Government Will Increase License Fee of Shops.

[Canadian Press Despatch]

TORONTO, March 28.—A caucus of the Conservatives of the Ontario Legislature was called for 2 o'clock to-day, at which it was anticipated something definite would be presented in the matter of amendments to the Liquor License Act.

Whitney Government Will Increase License Fee of Shops.

Beyond the shortening of the hours in the morning by making the opening hour 8 instead of 6, it is likely that

fee for shops will be raised to the level of that of the hotel, which will practically double the revenue from this source.

The sale of bottled goods may be prohibited over bars, and the receipt of the shops may be taxed over 20c per day, the same as the hotels. These amendments are all to receive consideration in caucus, and a bill may be expected at any time embodying all or none of them and simply dealing with the anti-liquor proposition first session by Sir James Whitney.

CASCARET'S SURELY STRAIGHTEN YOU OUT

NO HEADACHE, BILIOUSNESS, UPSET STOMACH, OR CONSTIPATED BOWELS BY MORNING.

Are you keeping your bowels, liver and stomach clean, pure and

fresh with Cascarets, or merely forcing a passageway through these alimentary or drainage organs every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters.

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the undigested, sour and fermenting food, and foul gases, take the excess bill from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never grip, sicken or cause any inconvenience, and cost only 25c a box from your druggist. Millions of men and women take a Cascaret now and then and never have a Headache, Biliousness, coated tongue, indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

Metz "Twenty Two" Roadster

In presenting the merits of the Metz "Twenty Two" to the prospective purchaser of a Roadster Car we are happily in a position to avoid generalities, and to offer for your consideration, instead, specific facts that are of the liveliest interest.

The Metz "Twenty Two" is driven by a four-cylinder, water-cooled motor, and is one of the easiest-riding, smoothest-running cars on the market. It will climb hills faster than any other stock car built, regardless of its horse-power or price. It has a torpedo semi-enclosed body with centre control, thus leaving both sides of the car clear of encumbrances and open to convenient entrance or exit.

It is fitted with extension folding top and specially designed wind shield, with side curtains, clincher tires of best quality, Bosch magneto, dash lamps, gas lamps and gas generator, horn, pump, tire and tool outfit, complete for \$600.00. "Metz Special" \$560.00.

Owners of large cars would find one of these small ones a great convenience in saving the large car many a trip in slush and muddy weather, and for quick work at all times.

Some Mysteries of the Nervous System Explained

There are two sets of nerves in the human body—those which have to do with external objects, and control seeing, hearing, feeling, moving, etc., and the involuntary nerves, which control the action of the vital organs, as the heart, lungs, stomach and bowels.

NO. 1—VOLUNTARY NERVES.

Illustration No. 1 shows how at sight of an apple the message is carried by the optical nerve to the brain, which receives, thinks and decides on some form of action, and sends out its command through the nerves which lead to the hand.
Simple as it may seem to see and pick up an apple, this act cannot be carried out if there is anything wrong with any of the nerves involved.
Injury to or weakness of the optical nerve means defective sight; disease of the brain or nerves may mean paralysis of the nerves which control the movement of the arms or fingers.

The brain is the source of all nervous energy, for here it is that blood is converted into nerve force, and for this purpose fully one-fifth of all the blood in the human body is consumed. This explains the necessity of looking to the condition of the blood at the first sign of nervous trouble, and shows how it is that Dr. Chase's Nerve Food, the great blood-builder, is so remarkably successful in curing diseases of the nerves.

Now, when we turn to the great sympathetic nervous system, Illustration No. 2, by which are operated the vital organs of the body, we find conditions somewhat different. For who, by taking thought, can cause his heart to beat or his stomach to digest food?

To be more definite, consider the stomach, which is a regular network of nerves. Some of these report to the brain sensations of hunger, others keep up the peculiar churning motion, and again others control the flow of the all-essential gastric juices by which digestion is brought about.

From this you can readily understand that when nerve force is consumed by excessive mental strain, worry, intense emotion or disease, the supply to the stomach becomes limited, and nervous indigestion is the result, and similarly other organs are deranged and weakened when the nervous system becomes exhausted.

Dr. Chase's Nerve Food

cures nervous exhaustion and resulting derangements by supplying to the brain an abundance of pure, rich blood, the material from which alone nerve force can be manufactured. Because exhaustion of the nerves leads slowly and surely to locomotor ataxia, paralysis, and even insanity, it is most important that effective treatment, such as Dr. Chase's Nerve Food, be employed just as soon as warning symptoms appear. Dr. Chase's Nerve Food, 50 cents a box, 8 boxes for \$2.50, at all dealers, or Edmanston, Bates & Co., Limited, Toronto. Every box of the genuine bears portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

INTERESTING ARTICLE ON THE OLD GRAND RIVER

The Noble Grand Has Always Been Addicted to the Habit of Getting Fresh in The Spring.

(Toronto Star)
The distressing stories of the floods in the middle west across the border have a practical moral for the Province of Ontario, and one that may result in concrete action in the near future.

The inland waters, particularly the rivers of this province, have claimed their toll, both in property and human life in the past, and the situation does not improve as the years pass.

The history of one river, the Grand, is such as to justify a very real fear, and as a matter of fact the ravages of the Grand River have been submitted to the Ontario Government by the municipalities whose tax levies have been very considerably augmented by periodical freshets. Sordid reasons are not the only ones, as Grand River outbreaks have exacted human sacrifice, both in actual drowning and from the death from exposure.

The Grand rises in the north. Away up in the region of the Lutherer Swamp, the Grand, which rushes down an intricate and devouring thing, after heavy rains or when the snow or ice melt, was held in check years ago. Then came a change. The woodman's axe felled the trees, marshy lands were drained, and the fetters of winter were severed almost in a moment at spring's approach.

Of late years the pent-up waters have made their headlong plunge south in a few days. Previously it had taken months for the snow and ice to melt, and the tributaries of the Grand to empty their swollen currents into the parent torrent.

This is not simply figurative language as Fergus, Elora, Paris, Brantford, Caledonia, Cayuga and Dunnville can testify.

Government Aid Invoked
It is not long since these municipalities deputed an influential delegation to wait on the Ontario Government. Expert engineering opinion supported the view that the province should co-operate with the municipalities in curbing the Grand. Re-forestation was advocated, and storage dams or emergency reservoirs were urged, stress being laid on the importance of preventive work at the source.

Former residents of Brantford, now citizens of Toronto, recall without difficulty the lessons of the past. It is significant, indeed, that quite recently Brantford paid off the last of its debenture debt for the construction of the existing Lorne bridge, which connects West Brantford with Greater Brantford in the main.

"The rain poured down for three days at a stretch in September, 1878," said a former Brantford man to a Star reporter to-day. "The down-pour occurred just before the general election of that year. The Grand overflowed its banks, and many bridges were swept away along its winding course."

"The Colborne street bridge went down, and with it a man named Tyrell, who was drowned. West Brantford and Cockshutt's flats were inundated to a depth of from two to six feet. The lower parts of the houses were invaded and some of the dwellings were wrecked. Residents were taken away in boats, and others lived in the upper stories until the waters subsided. Elm trees, two and three feet thick, were lodged in the streets and a substantial section of the city's area was a veritable island with dykes broken away. Brantford was equal to the occasion, and at a large expenditure huge dykes were built. These have been strengthened, and although Brantford has suffered somewhat from time to time with danger imminent within the last few years, the city has persevered in its policy of flood prevention and self-preservation."

"I am not familiar with Galt's position, but I incline to the opinion that the Manchester of Canada is more vulnerable at the present time than the lower-lying City of Brantford. The river bed at Galt has not the expanse provided at Brantford by lengthened bridges and widened channels, and as a result Galt in the down-town business and factory district has had to take to boats as in the early days of Brantford's struggles against the Grand when on a rampage.

The Grand of Long Ago
"I offer no scientific opinion of my town, but I remember the time when the Grand was higher in the summer and lower in the spring than it is today. The freshets were modified by swamp and bush, and the stored-up water supply of the winter found its way to Lake Erie in months, while now it goes down in days. That Brantford has guarded its netherlands, and girdled its factory sites with dykes, is a tribute to its foresight. That necessity prompted the monetary outlay does not alter the fact.

"I am told that the Grand has possibilities as a water power, and that scientific experience may combine to concentrate this resource for use in dry months of the year."

It is intimated that Galt, Brantford and other municipalities interested will take this matter up with Sir James Whitney, with the deplorable calamity in the States to act as a spur. The situation is not confined to the Grand country. The people of the Thames and other rivers are concerned, as well.

In the States, reservoirs for municipal water supplies have been a source of danger. Ontario may not be jeopardized in this respect to-day but as the towns are doing grow, the reservoir may become an actual factor, and a decided menace, private and public safety, alike.

RETIREMENT OF SIR PERCY SCOTT

Man Who Brought Naval Gunnery to Present High Standard.

APPEAL TO ADMIRALTY

More Practice Ammunition Wanted for Use in Peace Time.

(Lloyd's News)
Vice-Admiral Sir Percy Scott announced his retirement from the navy at a dinner at the Hotel Metropole on Wednesday night. He said that at the end of the week he would be out of the navy. He could remain on the active list for another year if he wanted to, but there was no reason for him to remain when he only blocked the path to promotion of those who were junior to himself.

Sir Percy added that he had been in the navy forty-seven years, and he asserted positively that it had never been more efficient than it is to-day, and he had no axe to grind.

The navy estimates now before parliament, he went on, "are largely, but concerning a factor of efficiency that I am interested in, I do not consider that they are large enough. It is only hitting the enemy that will decide a fight, but you will not hit your enemy in war time if you do not have sufficient practice in peace time, because we do not spend sufficient money on ammunition."

"If we have not got enough money to increase the allowance of our practice ammunition, and if we are absolutely certain that the number of ships it is proposed to build is not sufficient I would reduce that number until we spend the money saved in perfecting our target practice in appliances, and in increasing the allowance of ammunition fixed by our Fleet in peace time."

"The present Board of Admiralty have during the last two months done more towards improving the gunnery of our Fleet than has been done in the last five years, and this is, in my opinion, the most important of the many improvements that they have introduced."

Revolutionized Shooting
Sir Percy Scott, who is in his sixtieth year, won a big reputation for improving naval gunnery by scientific methods, and he received a signal honor at the beginning of the year in the shape of a baronetcy.

During the early period of his naval career he took part in the Ashanti War of 1874. Promoted to captain in 1893, he was, in 1896, in command of the cruiser Seylla, on the Mediterranean Station.

This cruiser was soon the most famous ship in the Fleet. At that time gunnery was at a low ebb in the service, for little provision was made for training. Therefore the report that the Seylla had made 80 per cent of its hits was received with incredulity, for the average figure of

merit for the navy was then only about 31 per cent.

Captain Scott was then appointed to the cruiser Terrible, and she was on her way to the China station when the Boer war broke out in 1899. The Terrible reached Simon's Bay on Oct. 14, to find that the war had just opened. At once the Captain of the Terrible began to devise a mounting for naval guns so as to help the army, and by the 21st a mounting for a long naval 12 pounder gun had been planned, made, tested and found satisfactory.

Four days later Sir George White, in Ladysmith, finding that he had no guns with which to check the heavy fire from the siege guns of the Boers, telegraphed to Scott. If the navy could send him some long range 4.7 inch guns. By five o'clock the same afternoon Capt Scott had two ready, besides four 12 pounders, and with these the present Admiral Sir Hedderley Meade—then Capt. Lambton—got into Ladysmith just in time.

China Station Triumphs
Subsequently naval guns were used to command all the approaches to Durban, and Capt. Scott rendered a further service by rigging up a searchlight with a flashing arrangement by which communication over a distance of twenty-three miles. Finally a 6 in. gun was mounted by the Terrible's captain and placed at the disposal of General Buller.

For these services Capt. Scott was not only mentioned in despatches, but received the C.B. Then followed a series of gunnery triumphs on the China station, referred to afterwards in glowing terms by Capt. Wm. F. Sims, formerly Inspector of Target Practice in the American Navy, who was serving in China waters at the time.

In 1903 Captain Scott was given command of the Gunnery Training School at Portsmouth, where he put in two years original work, and then, in February, 1905, when he had become a rear-admiral, he was selected as the first occupant of the new appointment of Inspector of Target Practice. In this post he continued his work for efficiency in naval gunnery. Whereas in 1899 the average percentage of hits by the navy was 31.1, it had risen in 1907 to 87.9. In the latter year Sir Percy Scott was given the command of the First and Second Cruiser Squadrons successively.

He was promoted in 1908 to the rank of Vice-Admiral, and has since been engaged in the perfection of his new "fire-director," which has recently been adopted for the navy.

During Sir Percy Scott's service at sea as Rear-Admiral a difference arose between him and Lord Chas. Beresford, which attracted some attention at the time, but is now believed to be a closed chapter.

FROM THE WEST
That Dodd's Kidney Pills Are a Natural Remedy.

For Cases of Exhaustion and Nerve Weakness—How S. Jeremy Found Relief When He Cured His Kidneys.

Sniatyn, Alta., Mar 24—(Special)—That the natural remedy for exhaustion and nerve weakness is one that will give good circulation and pure blood carrying nutrition to all parts of the body, is again proved in the case of S. Jeremy, a well-known resident of this place.

"For over two years I suffered from attacks of exhaustion, and nerve weakness," Mr. Jeremy states. "I tried many nerve foods and tonics, but must admit that Dodd's Kidney Pills have benefited me more than anything else I ever used."

"I am more than grateful for what Dodd's Kidney Pills have done for me. Nerve weakness and exhaustion are caused by impure blood. Impure blood is caused by diseased kidneys failing to strain the waste matter of the body out of the blood. The natural remedy is to cure the kidneys. Dodd's Kidney Pills have yet to find a case of kidney disease they cannot cure."

BUSY SEASON IN LONDON VISIT. EXPECTED FROM THE KAISER

Anglo-German Exhibition to Aid Entente Cordiale

Kaiser Expected to Attend Show Which Will Be Opened in Crystal Palace and Will Send Finest Examples of Porcelain from Kadinen Factory.

BRITISH MANUFACTURERS WILL EXHIBIT WARES

[Special Despatch.]
LONDON, Saturday. POSSIBLY the German Emperor and members of the German royal family will make a short trip to England when the Anglo-German Exhibition is opened at the Crystal Palace. The administrators of the exhibition are confident that the result of their efforts will have more permanent value in establishing the entente cordiale between the two countries than any quantity of government despatches, and already some of the most influential citizens in Berlin and London are working on the details of the exhibition.

An invitation to the Kaiser to come to London at the opening on May 10 is about to be sent, and it is confidently expected that he will accept if his engagements permit. At any rate, some members of the Kaiser's family will be present, for the Emperor has taken a deep interest in arranging the forthcoming exhibition ever since it was first mooted. For more than a year an influential committee has been working on the details and an office has been established in Berlin in direct communication with that in London. The Earl of Londale, who is a personal friend of the Kaiser, is working on behalf of the administrators, and the International Exhibitions Committee of the London Chamber of Commerce is also doing its share.

London Outlook Is for a Busy Season After Easter

Greater Demand for Big Houses, Duchess of Manchester Reopens Grosvenor Square Mansion and Duchess of Roxburgh Coming Forward as a Political Hostess.

EAGER PURCHASERS CAUSE REAL ESTATE BOOM

[Special Despatch.]
LONDON, Saturday. LONDON town is really "empty" now from the social point of view, but preparations are advancing for what would appear to be a very busy season. There is a greater demand for big houses than has been known for very many past seasons. Everybody who is anybody in the matter of wealth appears to be flocking to Mayfair or Kensington, Regent's Park, Bayswater, or Hampstead, where huge houses built for men with long purses abound. Big houses are booming and house agents are wearing a smile which has been absent since the South African slump. In all the best residential districts eager purchasers are paying bigger prices for houses than has ever been known in London.

A huge house, like a country mansion in town, in Kensington Palace Gardens sold for \$135,000, with annual feu-duty of \$1,400; in Upper Grosvenor street, Mayfair, \$72,500 for under lease of ninety years with feu-duty of \$1,250 a year; and in Park street, Mayfair, \$112,500 and \$80,000 paid for under lease of ninety years with feu-duties of \$1,500 and \$1,200.

Brilliant Season at Covent Garden Under the Direction of Herr Nikisch

First Month To Be Devoted to German Operas, Including the "Ring" to Mark Wagner Centenary; Remaining Weeks to French and Italian.

[Special Despatch.]
LONDON, Saturday. THE first month of the fourteen weeks grand opera season, commencing at Covent Garden on April 21, will be devoted to German works, including two cycles of Wagner's "Ring" under the musical direction of Herr Arthur Nikisch, to mark the centenary of Wagner's birth, which will occur in May. The remainder of the season will be devoted to the French and Italian repertoire, and Mr. Charpentier's new work, "Julien," will be produced.

The German performances will include "Der Ring des Nibelungen," "Tristan und Isolde," "Der Fliegende Holländer," "Parsifal" and "Lohengrin." Beyond these works, Humperdinck's "Königskinder," one of the successes of the autumn season of 1911, will be revived; and a new opera by a young composer, Herr W. von Wolfershausen, "Oberst Chabert," which has been very favorably received in all the important German theatres, will be produced for the first time in England. To the Italian and French repertoire two all-stars will be made—"La Du Barry," by the young Italian musician, recently heard with much success at Milan, and an old-time favorite as yet to be performed by Mr. Gustav Charpentier, whose "Louise" quickly became one of the most admired works in the Royal Opera repertoire. This new opera, "Julien," which may be regarded as a sequel to

THE MAN WHO HAS DECIDED THAT HIS ARMY MUST BE SUPREME IN EUROPE

THE KAISER AMONG HIS SOLDIERS

[Special Despatch.]
LONDON, Saturday. WE need hardly say that the world is watching with curiosity and possibly some little anxiety, Germany's fresh efforts to make her army supreme in Europe, and there are those, even in his own country, who seem to think that the German Emperor is perhaps dangerously zealous in his desire to assure peace by preparing for war. The moment for proposing a great increase in the German army has been chosen. As the Berlin correspondent of the Daily Telegraph said the other day: "This year Germany celebrates the centenary of the liberation from the yoke of Napoleon. * * * It is probably calculated that the wave of patriotism which will be set in motion by the centenary festivities will afford a unique opportunity for inducing the Reichstag to agree with a hasty vote to the necessary extraordinary military credits. Meantime it is apparent that financial Germany is by no means pleased with the suggested method for raising the necessary £50,000,000 or so.

London to Have Special Trains for 500 Birds

Several Immense Structures Projected, with Every Convenience of Comfort and Elegance.

[Special Despatch.]
LONDON, Saturday. EVERY season one hears the complaint from Americans that London has not enough hotels—or of the right sort. But before long Americans will be able to sample more new hotels, which it is said will reach "the limit" in size, comfort and elegance.

One of the largest of the new hotels is that projected by the proprietors of the Strand Palace Hotel. Tucked away behind the Strand, it occupies an island site of such extent that the Strand Palace Hotel might be comfortably housed on a corner. It will also be a "non-tip" hotel.

Another immense hotel, projected by the proprietors of the Hotel Carfax, will overlook the Green Park. It is to be several stories in height, with 300 bedrooms and sitting rooms, each bedroom having a southern aspect and a bathroom of its own. The ballroom will be one of the largest in London, and the restaurant is intended to accommodate more than three hundred persons.

The Pall Mall Hotel, for which a license has been granted to Sir Joseph Lyons and Mr. Alfred Salmon, is to be erected over the Baker Street Railway Station, and will have 500 bedrooms and a public restaurant.

MAN WITH FAMILY OF 33 CHILDREN

Mr. Frederick Bush Beckett Has Eleven by First Wife and Twenty-Two by Second.

[Special Despatch.]
LONDON, Saturday. Mr. Frederick Bush Beckett, who has just celebrated his silver wedding with his second wife, has had in all thirty-three children—eleven by his first wife and twenty-two by his second. Many are married or in business on their own account, but ten are still living at home. From his first family he has fourteen grandchildren and from his second "twelve." Their names he cannot remember; in fact, it requires a lot of thinking to remember the names of his own two families, and there is a regular roll call every night to make sure that all the family are in the house.

Value of Marines in the Naval Base Garrisons

Well Known Naval Correspondent Writes of Probable Effect of the Scheme Arranged to Protect New Depot at Cromarty—Some Interesting Tales of Marines of Old.

ORIGIN OF THEIR SELECTION FOR DISCIPLINE

[Special Despatch.]
LONDON, Saturday. AN interesting announcement has just been made that a garrison for the new depot at Cromarty, on the east coast of Scotland, will be provided by marines, who will be accommodated in the old battle ship Renown when that vessel is ready to be removed in Cromarty Frith for the purpose. The employment of marines in such a connection is a novel proceeding, and in some quarters is regarded as the first step to their withdrawal from the navy altogether. The fears expressed on this point recall the circumstances in which in November, 1866, an order for the removal of marines from the vessels of the United States Navy was issued by Mr. Roosevelt, but subsequently was rescinded. It is not likely, however, with the difficulties at present confronting the British naval authorities in regard to the manning of the fleet, that there is any real intention of "beaching the Marine Corps," though such a step would commend itself to a large number of naval officers and men, especially men.

The history of the marines is not without a bearing on the present day situation. Probably they owed their origin to a desire for some permanent disciplined force for use when sailors were picked up only for a commission or for shore periods. When war broke out there was a demand for seamen those obtained either by voluntary enlistment or by means of the press gang naturally contained a proportion of turbulent spirits which, once on the crew was not for good and was subversive of discipline. Then it was that the value of a marine detachment on board to restrain the disorderly members which only proved the rule, being noted for their loyalty to authority.

It frequently happened that soldiers were requisitioned to serve afloat as marines, and the Welsh regiment, the Queen's Royal West Surrey regiment and the Worcestershire regiment still bear upon their colors a naval crown to signify that they served with Rodney and Howe in 1782 and 1794. At the battle of St. Vincent in 1797 also, when Nelson boarded and captured the Spanish ship San Nicolas, it is on record that a soldier of the Sixty-ninth

Women Artists Are Winning Honor

Exhibitions of Paintings Show Freedom and Dash, with Ambition to Test Novelties.

[Special Despatch.]
LONDON, Saturday. WOMEN artists carry off nearly all the honors at the exhibitions which have opened during the last few days in London. First there is the exhibition of the Women's International Art Club at the Grafton Galleries. It is not a large foreign element here, and what there is does not greatly affect the general impression of the show. Miss Betty de Jong's "Paysanne Hollandaise," a "vicious" work of painting, and Miss Alice Renner's large refined still life, "La Plateau de Lac Rouge," are the canvases from the Continent which would be missed most.

Otherwise the credit of the club is upheld by native women painters, who show, as a rule, freedom and dash of workmanship, and in several cases an ambition to test the possibilities of the newest fashions in painting. Conspicuous among the latter is Miss Ethel Walker, always courageous in experiment, and the Misses E. A. Wynne, Gertrude Leece, Bethia Clarke, Mabel Loring and E. M. Henderson and Mrs. Borough Johnson all contribute good portraits or figure studies. The still-life and flower studies are generally good—as, for example, Miss Irene Reynolds' "Fuschia Blossom," Miss Janet Proctor's "The Barista's Bowl," and Mrs. Louisa's "Marie Claire." It is, however, in landscape that the exhibition is strongest, and Miss Ruth Hollingsworth shows capital work in a series of rich and impressive Alpine scenes.

Miss E. Thornhill, who is exhibiting drawings of Rome, Brittany and England at Walker's Galleries, has a natural aptitude for water color, and her "St. Dunstons of S. Maria in Araceli," for example, is an excellent piece of work, indicating sufficiently what she can do. At the same galleries two ladies, Mrs. H. M. Wade and Mrs. W. A. Willes, are exhibiting water colors of Swiss scenes and English and Italian gardens; and Miss Bridget Kelly's water colors at the Dudley Galleries, are the most part for the lagoons of Venice in picturesque and attractive aspects. "The Roads in the Lagoons," "Michaelmas Daisies," "Venice," and "Fishing on the Lagoons" are good examples of very pleasing drawings.

There is another exhibition of water color drawings of garden and other subjects by Mrs. Alastair Murray at the Dorset Charn, Harroway. Twenty-seven, original, and a fine sense of color—as, for instance, in "Delphiniums," against a sunlit background, "Penstemon and Phlox," and "A Garden of Roses." While her "Morning in the Road" is a rather pleasing landscape, the water color sketches in Brittany, and other places by Miss E. M. Wade, at the same galleries have a freshness and coolness of color and clearness of style which stand to win her popularity.

LYCEUM CLUB FAVORS WOMEN LAWYERS

[Special Despatch.]
LONDON, Saturday. ANOTHER attempt will shortly be made to reopen the question of the admission of women to the Bar. To connect the public opinion on the subject the Lyceum Club is arranging a dinner in honor of the women who are attempting to enter the legal profession. Miss Crystal Macmillan, who championed the cause of the women at the recent annual meeting of the Bar, will be pleased before the House of Lords for the right of women graduates to vote in Scottish University elections, will preside, and the guests will include the barristers, who championed the cause of the women at the recent annual meeting of the Bar. It cannot be said that the prospect at the moment is promising, but the steady growth of sympathy among members of the Bar, especially the younger men, is expected to have results in the long run. The United Law Society will be invited to appoint a motion declaring for the removal of the sex disqualification in a few days.
