COAL! Acadia Lump, Abion Nut, Springhill, Inverness. A. M. WHEATON

## Gained 30 Lbs. in Few Weeks

### Never Felt So Well

#### Was Pale, Weak and Thin, and Had Nervous Headaches Before Using Dr. Chase's Nerve Food.

It is truly wonderful what Dr. Chase's Nerve Food does for women who are weak, weary and run down in health. New, rich blood is what is needed in nearly all such cases, and because Dr. Chase's Nerve Food forms new blood it brings new vitality to the system.

With an abundance of rich, red blood, the nerves are strengthened and vigor and vitality are carried to every organ of the human body.

With the nerves properly nourished, nervousness and neuritic pains disappear, appetite improves, digestion is good, you sleep and rest well, and gain in strength and weight.

Mrs. H. Latch, Cannington Manor, Bank, writes: "You will remember me writing you last spring. Well, I gave up my doctor and began using Dr. Chase's Nerve Food. This treatment cured me rapidly and I was well again. I was pale, thin and weak, suffered from stomach troubles and liver complaint, and frequently had sick, nervous headaches. It was surprised to find that in a few weeks time I had gained 25 pounds in weight. I have never felt so strong and well in all my life. Headaches never bother me any more, and I am grateful for the cure. If people would only give this medicine a fair trial they would certainly be cured."

Everywhere people are talking about this food cure, which cures in Nature's way, by supplying the ingredients to form new blood, and so overcome weakness and disease by an abundance of vitality. Dr. Chase's Nerve Food, 116 a box, for \$2.50, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

Job printing is executed at this office in the latest styles and at moderate prices. All postmasters and news agents are authorized agents of the Acadian for the purpose of receiving subscriptions, but receipts for same are only given from the office of publication.

## The Loom of Time

Time is the loom of time. To a pattern he does not see. While the weaver works and the shuttle flies till the dawn of eternity. Moments are like silver threads. And some with threads of gold. While others the darker hue. It all that they may hold. But the weaver watches with skillful eye. Each shuttle fly to and fro. And sees the pattern as it drifts wrought. As the loom moves sure and slow. God surely planned the pattern. Each thread, the dark and fair. Is chosen by his master skill. And placed in the web with care. He only knows its beauty. And guides the shuttle which holds the threads in unstruck. As well as the threads of gold. He will not let a single thread be lost. He will not let a single thread be lost. He will not let a single thread be lost. He will not let a single thread be lost.

With the ingathering of the children to the schools after the summer vacation, special safety precautions are necessary. The children are either new to the school or unaccustomed to the surroundings of a different class room. Naturally they will be more or less nervous. Protection of the lives of the pupils is the first duty of the teacher, and early preparation should be made to accommodate that purpose.

CHILDREN IN SCHOOLS. One of the greatest dangers where children are assembled is fire, and particularly in the schools. To meet such an emergency, teachers should, at the first opportunity initiate fire drills among pupils. Fire drills cannot prevent fire, but aim to avoid the panic which usually accompanies it. The principal object is to prevent the panic, and the chief point is to secure orderly and rapid exit of pupils. The pupils should be thoroughly familiarized with the fire alarm signals, so that no delay may be caused through confusion. The aisles and exits should be kept free and unobstructed. It is usually advisable to have pupils leave the school two by two, and teachers should always remain to ensure that no child is left behind. Some of the older children should be selected as monitors, to act as leaders, or to care for such special activities as the school roll, etc. It is important to teach the pupils in the course of fire drill to overcome objections and to be prepared to meet emergencies in the event of an actual fire. The fire drill should be conducted in a business like manner, for the purpose of getting the pupils out and away from the building as soon as possible. It should be practiced frequently but it regularly, as repetition will familiarize pupils with their duties, and in the event of fire they will not be taken unawares.

FOR FIRE PREVENTION. All school buildings should be provided with metal receptacles for waste paper and refuse, which should not be allowed to accumulate in basements or in wooden boxes or barrels. The heating system, whether stoves or furnaces, should be carefully protected to guard against fire. All doors should open outward and should never be locked during school sessions. Chemical fire extinguishers and fire buckets filled with water should be provided.

Husband and Wife. No man ever relied more completely on his wife's guidance and counsel than John Koble, the post of the Christian Year. She was, as he often declared, his conscience, wifery and common sense.

Dean Stanley said, 'If I were to epitomize my wife's qualities, I couldn't do it better than in the words of a cabin man who drove us on our honeymoon: "Your wife," he said to me, "is the best woman in England," and I quite agree with him.'

Why should you pity me? Mr. Fawcett, the blind Postmaster General remarked to a friend, who had expressed sympathy with him in his affliction. "My wife is all the eyes I want, and no man ever looked out on the world through eyes more sweet and true."

This place is perfect. Charles Kingley once wrote to his wife from the seaside, "but it seems a dream and imperfect without you. I never before felt the loneliness of being without the beloved being whose every look and word and motion are the keynotes of my life. People talk of love ending at the altar—fools!"

Regarding the ideal relations existing between husband and wife, Soc. Ker well said: "The wife is the husband's treasury, and the husband should be the wife's armory. In the darkness he should be her sun for direction, in danger he should be her shield for protection and safety."

A good wife is heaven's last gift to man, his angel and minister of grace. Incomparable, his gem of many virtues, his casket of jewels.

"There may be nothing in a name," says the Toronto Globe, but the man who sold an eleven-year old horse to the Government for \$150 came from Grafton? Would you call it a one-horse town?"

"Do you own any real estate?" "Oh, no; we never expect to own any real estate." "Why not?" "We own an auto."

She—I saw the doctor to day about my loss of memory. He—What did he do? She—Made me pay in advance.

REWARD. Town of Wolfville. A reward of \$10.00 is offered by the Town of Wolfville for information that will lead to the conviction of any person or persons committing any of the following offenses: Theft, breaking into houses or buildings, trespassing, destroying public or private property, the use of profane or abusive language on the street or in public buildings, the illegal selling of intoxicants, incendiarism or any criminal offenses.

Children Cry FOR FLETCHER'S CASTORIA. An interested visitor who was making a call in the tenement district said on departing: "Well, my good woman, I must go now. Is there anything I can do for you?" "No, thank ye, ma'am," replied the unsmiling one. "Ye mustn't mind if I don't return the call, will ye? I haven't time to go glummin' meself."

URIC ACID SUFFERING. Uric acid is an accumulation of poison which finds lodgment in the system when the kidneys fail to remove it from the blood. In the kidneys and bladder it forms stones, and in the joints and muscles it causes rheumatism. In any case the pain and suffering are almost beyond human endurance. Uric acid is promptly removed from the system when the kidneys are kept healthy and active by using Dr. Chase's Kidney-Liver Pills.

Death in Silos. Every year several deaths occur where carbonic acid gas is newly filled silos poison those who enter. The greatest danger seems to be immediately after the silo is filled. When a silo is partly filled and permitted to stand two or three days, care should be exercised in going into it. If a lighted lantern goes out when lowered into the silo it is not safe for a man to enter.

When a silo is filled and allowed to settle, extreme care should be taken to "drain off" the gas, which is heavy, by running air, and with, therefore, slowly run out like water. If the doors above the silage line are opened and a free circulation is permitted. After two or three weeks' time the danger of gas is much reduced, and there is no danger if care is exercised.

THE ACADIAN.

WOLFVILLE, N. S., SEPT. 10, 1915

Editorial Brevities.

When you want any article of merchandise, buy it from a reputable home dealer, that the profit may remain to enrich the community.

The Volunteers from Wolfville.

At the meeting last week in the Opera House in the interest of the volunteer movement it was stated that only eight young men had offered their services thus far.

If all would volunteer as privates the number would be more rapidly increased. Two men are volunteering to train for officers' positions.

There are robust young men in Wolfville who would willingly serve under anyone who was selected for his efficient service to the ranks with themselves.

More than a hundred young men are reported as now training in Halifax for officers' commissions.

These men will enter the ranks now as privates their example will do more to stimulate voluntary enlistment than public addresses.

Let the volunteers from Wolfville who are training for commissions enter the ranks as privates forthwith and the Wolfville boys will not be slow to offer their services.

New Seminary Teachers.

Miss Madeline Bryant, who takes Miss Langley's place as teacher of Violin comes to Acadia with an enviable reputation as a student, a teacher and an artist.

Miss Minnie C. Newey, of New York, has accepted an appointment as teacher of Voice in Acadia Seminary.

Our mercantile marine officers, sea men and non-combatants, men, women and children are being deliberately murdered, or as the Germans have considered it, 'gloriously murdered' by the 'heroic bravery' of their submarine crews.

What matter whether there were 2 or 200 Americans on board the 'Arabia' or any other vessel? Were not the other hundreds of passengers and the officers and crews human beings and entitled to as much consideration as two Americans?

Our mercantile marine officers, sea men and non-combatants, men, women and children are being deliberately murdered, or as the Germans have considered it, 'gloriously murdered' by the 'heroic bravery' of their submarine crews.

Where is the British Navy?

TO THE EDITOR OF THE ACADIAN:

DEAR SIR:—In view of my early departure from here for England I would like to answer those carping critics who are so constantly asking 'Where is the British Navy?'

'What is the British Navy doing?' by stating a few facts on those questions for the information of your numerous readers.

If you will kindly grant me the space to do so; and I hope I shall be able to convince them that the British Navy is where it should be, and is doing what it should be doing.

On August 1st, 1914, the Royal Yacht with the King on board, steamed out from Portsmouth and anchored in the Fairway between the Isle of Wight and the mainland.

On the signal being made to the fleet to 'weigh anchor,' that grand Fleet, consisting of 450 vessels, viz: 60 battleships, 60 battle cruisers and 60 torpedo boat destroyers, 60 submarines, and 100 patrol boats, mine layers and sweepers, repair ships, etc., (you will notice that they are all multiples of 5; so that the fleet could be divided into 5 complete squadrons or multiples thereof), steamed past the King, and disappeared below the eastern horizon.

Its whereabouts from that date even up to the present time, has been unknown to the world at large.

But it has made its influence felt. Unfortunately war was not declared by us against Germany until three days afterwards. This procrastination on the part of the British government, caused by the disgraceful action of a section of the Peace at any price party, some of whom were holding office at the time, caused that most disastrous delay of three days in the declaration of war.

The result of this was that the German battle fleet was enabled to reach the shelter of its home port. Whereas, had it not been for that disgraceful political squabble so much reckoned upon by the Germans, possibly one of the greatest naval battles of the world would have been fought between the 1st and 4th of August of last year.

We would have caught the German fleet before it could have reached the shelter of its home port, where it has since been ignominiously bottled up by the sudden and unexpected appearance of the British fleet.

By this means it was not given time to make its well prepared 'pre-meditated' attack on England. Some German cruisers have raided a few unfortified and defenceless sea ports, murdering non-combatant men, women and babies. German submarines have sunk, without warning, merchant ships, drowning and shooting without mercy whilst in the water, innocent women and children.

What matter whether there were 2 or 200 Americans on board the 'Arabia' or any other vessel? Were not the other hundreds of passengers and the officers and crews human beings and entitled to as much consideration as two Americans?

The will was here and the intention was the same—send her to the bottom, never mind the passengers. That is not war, that is cold blooded murder and piracy.

Our mercantile marine officers, sea men and non-combatants, men, women and children are being deliberately murdered, or as the Germans have considered it, 'gloriously murdered' by the 'heroic bravery' of their submarine crews.

Notwithstanding all the enticing baits greatly encouraged me and I continue to use the treatment until in the course of three months the cure was complete. I had thrown away the crutches, could walk anywhere and do my own housework, and I never felt better in my life than I do at the present time, and all this is due to the use of Dr. Williams' Pink Pills. I have also given the Pills to my daughter who suffered from anaemia and she has gained in flesh and become a strong, healthy girl.

If you are suffering from rheumatism or any weakness of the blood give Dr. Williams' Pink Pills a fair trial and they will speedily restore you to health and strength. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

Boy Scouts. Lord Roberts once said, 'Let every school boy be taught to shoot and shoot straight.' If this advice of his, as well as much more along the same lines, had been followed, where would the English be today? Well on the road to Berlin, we would say.

Many of our boys are excellent shots and we wish to continue this training every Saturday. There is just one drawback, ammunition costs money and our funds are very low. If ten friends will come forward with 25 cents each it will be a great help. The competition for the Exhibition Trip has been completed. Arthur Engley and Bert Schurman being the winners with a record that we do not think could be equalled by any other Scouts in Nova Scotia.

Drill will be commenced at the Club Room this evening.

Autumn Excursions to Boston. VERY LOW FARES. In order that the people of Nova Scotia may enjoy a beautiful autumn trip at little expense, the Boston & Vermont S. S. Co., Ltd. has made special low rates effective from September 8 to October 6th; tickets good for 30 days from date of purchase.

Boston is wonderfully rich and historic in traditions. This is the time of year to see its beautiful suburbs and its many points of interest, and an opportunity to enjoy a delightful trip at unusually low fares.

Opera House Change of Time. Commencing Monday next and until further notice. Doors open 7:30; Curtain 7:45 P. M.

REWARD. A reward of \$50.00 will be paid for the recovery of the body of Mrs. L. R. Burbridge, supposed to have been drowned in the Cornwallis River on Monday, Sept. 6th. Any information may be given to W. B. BURBRIDGE, Canning.

WOLFVILLE.

### Boys Read This.

The 3rd Universities Company of reinforcements for the 'Princess Patricia' has been enlisted considerably over strength, and recruiting for the 4th Universities Company started in Montreal on Sept. 1st, and applications have already been received from all parts of Canada. Any young man who wishes to enlist in a crack company with prospect of getting quickly to the front should make immediate application to Capt. A. S. Egan, 392 St. Jacques street West, Montreal.

The 1st (Universities) Company left Montreal May 28th and left England for France, July 15th. The second company began enlisting about May 1st, sailed from Montreal June 29th and left England for the front on August 24th. The 3rd Company has probably left Montreal for England before this.

Each company is represented by at least one from this locality. Ralph Donaldson is in the 1st Company; J. E. Burns in the 2nd Company; and Wm. Elderton in the 3rd Company. Mr. Cyril March, of Berwick, is also a member of the 3rd Company. These boys all enlisted as privates and felt proud to do so. Who will go from here in the 4th Company?

### Appreciation from London.

In a letter to Miss G. Wolland Merritt, Honorary Secretary of Queen Mary's Needlework Guild in Canada, Lady Dawson, acting-Honorary Secretary at the Guild Headquarters in London, England, writes:

"Your cases have arrived safely, and I am commanded by the Queen to convey to you Her Majesty's high appreciation of the splendid gift and to ask you to tell your workers how grateful she is for their kindly help. The Queen will see your things the next time Her Majesty visits the Guild.

We mostly are in need of flannel (forannelote) shirts, pyjamas, nightshirts, bedjackets, underwear, socks, sheets, towels, pillow cases, handkerchiefs, hand bags, etc.

We think it is splendid the way you are all working so hard for us and thinking for us.

Yours sincerely,  
(Signed) ALICE DAWSON.  
(Lady Dawson, acting-Hon. Secy.)

It is hoped that there will be ready to send off from G. M. B. G. Headquarters, 110 Windsor street, Montreal, early in September, a good shipment of hospital supplies and necessities for the men on active service.

AUTO PARTS desiring driving in new cars by experienced and careful drivers at reasonable prices should call up the WOLFVILLE GARAGE, Phone 20—11 for prices, etc.

### Newtonville.

Messrs Lewis and Walter Caldwell had a bicycle trip to Minasville last week, where they remained a few days with friends.

Mrs. McCarthy and little daughter, Evelyn, of Worcester, Mass., have returned home after a few weeks spent with the former's mother, Mrs. Owen Caldwell, and other relatives in this vicinity.

Misses Rita and Mary Caldwell, with the latter's guests, Miss Emma and Mary Moffat, of New Ross, had a pleasant outing at Kvanquish Beach on Wednesday.

Mr. and Mrs. Herman Schindler and Mr. Henry Jordan, of Boston, spent Labor Day in Paresboro, accompanying the excursion from Wolfville.

Mrs. S. R. Cleveland of Wolfville Ridge, was a visitor at the home of her sister, Mrs. Daniel O'Driscoll the first of this week.

An evening party was given by Mrs. John Caldwell last Wednesday, when friends had good-bye to Mr. Archibald Caldwell, who has returned to his position as principal of a school in Cambridge, Mass.

A very sad affair occurred at Port Williams on Monday morning, which has cast a gloom over the entire community.

Mrs. Leander R. Burbridge, of Lower Canada, who had been in poor health for a number of weeks, had been staying at the home of the Misses Wood, trained nurses, her doctor having advised that she have perfect rest and care for a time. On Sunday she appeared to be improving in health and in good spirits and expressed the wish that she might soon be able to return home.

Some time after 4 o'clock on Monday morning she left the house partly clad and on her absence being observed shortly after diligent search was made for her. She was tracked to the river bank where footprints were found leading into the water.

Since then the river has been dragged and search parties have explored the country generally without success.

The unfortunate lady was about 43 years of age and a daughter of the late Leonard Clark, and a sister of Mr. Fred Clark, of Hillaton.

She leaves a family of small children, the youngest being only about six weeks old, who, with the sorrowing husband have the sympathy of all.

Public School Opening.

Public School opened on Tuesday, Sept. 7th, with large attendance in all departments. There are two new teachers on the staff, viz. Miss Titus in grade 8 and Miss Bowley in grade 5. Parents are urged to send their children to school at once, so as to get the beginnings of the new work.

A number of children have not yet presented themselves at the school. It is hoped that all who are intending to come will do so immediately. Parents are especially requested to see that the children fulfil the following conditions:—

(a) Be on time at each morning and noon session.

(b) Attend every day, unless necessity prevents.

(c) See that children regularly devote time to study of work assigned for home preparation.

Home preparation is more and more necessary as the pupil advances into the higher grades, especially in grade 6 and upwards. Success in anything requires regular and patient work at the business in hand. It is emphatically so in school work. If other interests absorb the mind, failure is the usual result. The road to an education is a Royal road but not an easy one.—R. W. FORD, Principal.

FOR SALE at a sacrifice, new condition. Write for description to Box 264, Wolfville, N. S. 35 30

FOR SALE.—At Kenville, Sept. 6th, to Mr. and Mrs. A. deW. Foster, a son.

### Personal Mention.

(Contributions to this department will be gladly received.)  
Mr. James Thomson, of Halifax, spent Sunday in Wolfville.

Mr. and Mrs. Ernest L. Porter are spending the week with friends in Chester.

Mrs. H. O. Harris spent the holidays in Kenville, guest at the residence of Judge Chipman.

Miss Chesley, the new milliner at Miss B. K. Saxton's establishment, arrived on Monday.

Pte. Paul W. Davidson, of the 40th Bata., arrived from Valcartier yesterday for a few days furlough at his home here.

Miss Saxton has returned from attending the millinery openings at the different centres and is getting ready for her fall opening.

Mrs. A. E. MacLeod, who has been spending the summer in Wolfville, at the home of her sister, Mrs. Whidden, left on Monday for Regina.

Mr. and Mrs. Thomas Craig, of Cambridge, were in town over Sunday, visiting at the home of their daughter, Mrs. C. A. Patquin.

Miss Jessie Morton, of Halifax, has been in Wolfville for a few days, the guest of her friend, Miss Florence McClelland.

Misses Amanda Johns and Della Connor, of Hillsboro, N. B., are spending a holiday in Wolfville, guests of the latter's sister, Mrs. H. A. Peck.

Miss Mildred Welton, of Kingston, a graduate of Acadia, spent the holidays with Mrs. McClelland and other friends in Wolfville, while on the way to New York, to resume her work on the teaching staff of a private school in that city.

Mrs. (Dr.) O. F. Best, of Providence, R. I., was in town this week, having come to accompany her daughter who has entered Acadia Seminary. Mrs. Best, who is a sister, of Mr. F. P. Rookwell, has a summer home near Digby, but had not been in Wolfville for over twenty years.

Mr. and Mrs. J. H. Eaton, Edmonton, announce the engagement of their youngest daughter, Alice Gertrude, to Rev. Frederick Irving Woodworth, B. Sc., son of Mr. F. W. Woodworth, Wolfville, N. S., the marriage to take place the 15th of September.

The above item, taken from a recent Edmonton newspaper, will be read with much interest by Wolfville residents. Mr. Woodworth took his B. Sc. degree at Acadia in 1910, following which he was employed for several years as secretary of the Y. M. C. A. in Oitawa and Toronto. He then became engaged in mission work in the Lesser Slave District of the North West, and after four years of work in a study took his degree in Theology from Alberta College, class of '15. His many friends in this, his home town, will tender congratulations and best wishes.

# SHE RECOMMENDS

## "FRUIT-A-TIVES"

Mrs. Corbett Read the Advertisement and Tried It

Avon, May 14th, 1914. "I have used 'Fruit-a-tives' for indigestion and constipation with most excellent results, and they continue to be my only medicine. I saw 'Fruit-a-tives' advertised with a letter in which some one recommended them very highly, so I tried them. The results were more than satisfactory, and I have no hesitation in recommending 'Fruit-a-tives'."

### White Ribbon News.

Woman's Christian Temperance Union first organized in 1874. Aim—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law. Kingston. Willard Home—Mrs. M. Freeman. U. B. Bulletin—Mrs. Langille. Peace Work—Miss Margaret Barsa. Parlor Meetings—Mrs. J. Kaye. L. T. L.—Mrs. Howe.

### "They Also Serve"

Oh! Father, hear us, when we plead For those who fight and those who bleed; For those who give their lives, that we May rest in glorious liberty, Remember, Lord, compassionate, Thy servants, who must stand and wait. They serve Thee, too, we know full well, How hard it is, we cannot tell, To fold the hands that fain would bear A portion of the awful care. Have mercy, Lord, compassionate, On those whom Thou has hidden 'wait.'

And as the fleeting hours fly, And one by one hope's mornings die And they are left there, waiting still The workings of Thy hidden will. Oh! Saviour, all compassionate, Keep vigil, Thou, with those who wait.

### Dock Workers "Knock Off" for Drink.

PARIS, April 5.—Joseph Retnach, a member of the chamber of deputies, today contributed to the Temps another of his occasional articles on the result of intemperance. In this article Mr. Retnach gives what he declares is the usual course of the dock laborer's day, as follows: 7 to 9 a. m.—Work. 8 to 8 15 a. m.—Lunch, with spirits. 8 15 to 10 a. m.—Work. 10 to 10 30 a. m.—Appetizer. 10 30 to 11 a. m.—Work. 11 to 12 30 p. m.—Lunch. 12 30 to 3 p. m.—Work. 3 30 to 5 p. m.—Lunch, with spirits. 5 50 to 6 p. m.—Appetizer. 5 15 to 6 p. m.—Work.

## TWO NERVOUS WOMEN

Made Well By Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I had a severe case of nervous prostration, with palpitation of the heart, constipation, headaches, dizziness, noise in my ears, blood, nervous, restless feelings and sleeplessness. I read in the paper where a young woman had been cured of the same troubles by taking Lydia E. Pinkham's Vegetable Compound, so I threw away the medicine the doctor left me and began taking the Compound. Before I had taken half a bottle I was able to sit up and in a short time I was able to do all my work. My medicine has proved itself able to do all you say it will and I have recommended it in every household I have visited."—Mrs. MARY GOMBERG, 210 Siegel Street, Philadelphia, Pa.

Another Bad Case. Ephrata, Pa.—"About a year ago I was down with nervous prostration. I was pale and weak and would have hysterical spells, sick headaches and a bad pain under my shoulder-blade. I was under the care of different doctors but did not improve. I was so weak I could hardly stand long enough to do my duties."—Lydia E. Pinkham's Vegetable Compound has made me well and happy and I have begun to gain in weight and my face looks healthy now."—Mrs. J. W. HENNINGSON, R. R. 2, Ephrata, Pa.

If you want special advice write to Lydia E. Pinkham Medicine Co. (Incorporated) Lynn, Mass. Your letter will be answered. You are guaranteed by a woman and held in strict confidence.

Minard's Liment Cure Diphtheria.

## BRENT INHERITANCE

Case Made Lawyer Famous and Happy.

By HAROLD CARTER.

"Yes, the Brent case made me famous, I suppose," said the old lawyer thoughtfully. "At any rate, I am sure that it was the foundation of my fortunes. Also, it gave me more real happiness than any case I have undertaken. You see, young Mrs. Brent deserved the inheritance she ever and woman deserved one. She had actually redeemed her husband, had made a man of him—but let me tell the story in my own way."

"Theodore Brent was one of those pompous, self-sufficient, heartless, and withal scrupulously honest men whom Massachusetts used to turn out in the middle of the last century—a sort of transplanted survival of the John Bull type. I believe it is still flourishing in the old country. He had two sons, Ralph and Jack. Ralph inherited his father's business instincts and was slated for succession to the company after the father's death. Jack was a spendthrift, a wild young fellow who was dismissed from Harvard, drank, gambled, and broke his father's heart what there was of it. Withal, he had done nothing worthy of being disinherited. However, his father sent him west for five years to make a man of himself, falling success in right to left as men have done since. It signifies that the standard time is one hour later on one side of the border than on the other. So the father, died some fifty minutes after the son."

### FOOD WE ALL USED TO HAVE

Remembrance of Childhood Feasts Spoiled Wealthy Man's Expensive and Well-Ordered Dinner.

Zona Gale, writing a story called "The Bridges" in the American magazine, presents a broker named Cassody dining at his club in New York. While he dines, Cassody is visited by a mental reincarnation of himself called Littlefield. The story then goes on:

"What's that said Littlefield over the soup? 'Green turtle. But I remember the chicken soup we used to have at home when I was a child. What's that? I don't know 'em.' The fish we used to have was baked brownier out side and white sauce. I don't like that. What's that? 'Mother wouldn't have done any flat tricks. But I can smell the roast beef when I always wandering tells that his mind is also wandering. Do not forget your coat-of-arms, family standing and ancestors. Dumplings to your ancestors is important. A boy should act like a boy. Avoid becoming effeminate. Never indulge in luxury. There is nothing that makes a fool of a man like luxury. How many of you wash your face with cold water in the winter? You should not use warm water. It is a shame to wear torn clothes without mending them. But so wear the torn patch if nothing to be ashamed of. Know what is shame; he who does not know what is shame is inferior to dumb animals. Become a man useful to your country. Whoever cannot be so is better dead."

### SELECTING COCKERELS

Consider Size, Shape, Habits—Keep Only the Best for Breeding. The selection of male birds should be more rigid than in the case of pullets, for not only is there no demand for mismatched cockerels for breeding purposes, but even first-rate birds are not required in anything like such numbers. One male bird only is needed for every six, eight or ten pullets, and thus, however good the birds may be, their sale is naturally very restricted. It should be remembered in selecting breeding stock that the male bird exerts a greater influence upon the external characteristics of the progeny, and thus determines in a large measure the size, shape, color of plumage, and the general appearance. While this is true, however, at the same time he is responsible to a certain degree for the internal qualities, and this point must never be lost sight of when selecting the breeding stock. In choosing a male bird, therefore, size and shape should be especially considered, and he should possess a large frame, be clean and tall on the legs, and active in habits.

### WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, dizziness, nervousness, irritability and sleeplessness, leading straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and the whole system responds to its restorative tonic force. Free from harmful drugs. Scott & Bowne, Toronto, Ont.

## WHY REMAIN POOR?

Goose Farm Prospectus Shows Millions of Purely Imaginary Dollars

Get-rich-quick men of every class should get a few pointers from the following prospectus of a goose farm, which is taken from the New York World:

Incorporate for two years only with capital \$100,000. Each goose lays an average of three eggs per week, or 156 per year. Do not sell any eggs, but incubate them, thus raising in the first year 156,000 geese.

Statistics show that of this number 77,900 will be ganders, which will be sold, leaving with the original capital a total of 80,900 geese. These will lay 156 eggs each, which will be incubated, giving at the end of the second year 21,481,000 geese plus ganders sold first year, 77,000; total 12,558,000. 12,558,000 geese at \$1.50 each dressed \$18,837,000. Each goose will produce 3 lb. feathers, 25,116,000 lb. feathers, at \$15 per lb. \$376,740,000. By-products: 12,558,000 prs. goose livers at 60c per pair, 7,534,800. 12,558,000 upper bills for buttons at 1/4c, 12,558,000. 12,558,000 lower bills for buttons at 1/2c (upper bills bring the higher price because they already have two holes punched), 25,116,000 bills at an average of 1/4c each, 10,946,400 doz. goose quills for toothpicks, at 10c per doz., 1,094,640.

Less original capital \$1,000. Less expense 74,000. Leaving profit for two years \$404,324,995.

### NOGI'S ADVICE TO BOYS

Some Gems of Wisdom From 'amous Japanese General. General Nogi, idol of Japanese soldiery, wrote some time before he died the following note of instructions to the pupils of the Peers' School: Keep your mouth closed. He who has always his mouth open shows that his mind is blank. Mind what you are looking at. One whose eye is always wandering tells that his mind is also wandering. Do not forget your coat-of-arms, family standing and ancestors. Dumplings to your ancestors is important. A boy should act like a boy. Avoid becoming effeminate. Never indulge in luxury. There is nothing that makes a fool of a man like luxury. How many of you wash your face with cold water in the winter? You should not use warm water. It is a shame to wear torn clothes without mending them. But so wear the torn patch if nothing to be ashamed of. Know what is shame; he who does not know what is shame is inferior to dumb animals. Become a man useful to your country. Whoever cannot be so is better dead.

### Profits in Forestry.

The "Yankee Experiment" in forestry near Asheville, N. C. has been turning out very well. By a sale made of large timber on 80,000 acres of mountain forest land at \$12 an acre, or \$960,000 to L. O. G. and W. P. Decker, George Vanderbilt will receive a profit of \$800,000 on an investment of \$150,000 made twenty years ago when he bought the land at \$2 an acre. In addition to this he retains a share in the tract. Mr. Vanderbilt retains about 15,000 acres immediately surrounding Biltmore house.

### Children Cry FOR FLETCHER'S CASTORIA

The liquor men in Texas boasted that they would carry that state by at least a two-to-one majority. They succeeded in carrying it by 5,000, and the evidence seems pretty conclusive that a large part of that majority was obtained fraudulently.

### CASTORIA For Infants and Children. The Kind You Have Always Bought.

Has resumed business at the old stand in his new building. Orders Solicited and Carefully Executed.

These will lay 156 eggs each, which will be incubated, giving at the end of the second year 21,481,000 geese plus ganders sold first year, 77,000; total 12,558,000. 12,558,000 geese at \$1.50 each dressed \$18,837,000. Each goose will produce 3 lb. feathers, 25,116,000 lb. feathers, at \$15 per lb. \$376,740,000. By-products: 12,558,000 prs. goose livers at 60c per pair, 7,534,800. 12,558,000 upper bills for buttons at 1/4c, 12,558,000. 12,558,000 lower bills for buttons at 1/2c (upper bills bring the higher price because they already have two holes punched), 25,116,000 bills at an average of 1/4c each, 10,946,400 doz. goose quills for toothpicks, at 10c per doz., 1,094,640.

Less original capital \$1,000. Less expense 74,000. Leaving profit for two years \$404,324,995.

### NOGI'S ADVICE TO BOYS

Some Gems of Wisdom From 'amous Japanese General. General Nogi, idol of Japanese soldiery, wrote some time before he died the following note of instructions to the pupils of the Peers' School: Keep your mouth closed. He who has always his mouth open shows that his mind is blank. Mind what you are looking at. One whose eye is always wandering tells that his mind is also wandering. Do not forget your coat-of-arms, family standing and ancestors. Dumplings to your ancestors is important. A boy should act like a boy. Avoid becoming effeminate. Never indulge in luxury. There is nothing that makes a fool of a man like luxury. How many of you wash your face with cold water in the winter? You should not use warm water. It is a shame to wear torn clothes without mending them. But so wear the torn patch if nothing to be ashamed of. Know what is shame; he who does not know what is shame is inferior to dumb animals. Become a man useful to your country. Whoever cannot be so is better dead.

### Profits in Forestry.

The "Yankee Experiment" in forestry near Asheville, N. C. has been turning out very well. By a sale made of large timber on 80,000 acres of mountain forest land at \$12 an acre, or \$960,000 to L. O. G. and W. P. Decker, George Vanderbilt will receive a profit of \$800,000 on an investment of \$150,000 made twenty years ago when he bought the land at \$2 an acre. In addition to this he retains a share in the tract. Mr. Vanderbilt retains about 15,000 acres immediately surrounding Biltmore house.

### Children Cry FOR FLETCHER'S CASTORIA

The liquor men in Texas boasted that they would carry that state by at least a two-to-one majority. They succeeded in carrying it by 5,000, and the evidence seems pretty conclusive that a large part of that majority was obtained fraudulently.

### CASTORIA For Infants and Children. The Kind You Have Always Bought.

Has resumed business at the old stand in his new building. Orders Solicited and Carefully Executed.

# Five Roses Flour

Not Bleached Not Blended

### The Doctor Who Saved Him.

A story is told of an Englishman who had occasion for a doctor while staying in Peking. "Sing Loo greatest doctor," advised his native servant. "He saved my life once." "Really?" queried the Englishman. "Yes, me terrible awful," was the reply. "Me called in another doctor. He give me medicine. Me velly, velly bad. Me called in another doctor. He give me and give me more medicine. Make me velly, velly better. Me call in Sing Loo. He no come. He save my life."

### She Gained 36 Lbs.

Mrs. George Bradshaw, Harlowe, Ont., writes: "I was troubled for many years with weak, watery blood and dropsy. I had nervous head aches, dizziness and sinking spells and was, in fact a semi-invalid. Doctors told me my heart and kidneys were diseased and gave me up by using 10 boxes of Dr. Chase's Nerve Food. I have been cured of many of my ailments and gained 36 pounds in weight." Chughterton—How's your chauffeur? Care—Had to fire him; he used to be a motorman. Chughterton—Too reckless, eh? Care—Reckless, nothing! Why, I couldn't break him of the habit of sleeping up at crossings!—Puck.
