A few evenings ago as the seven o'clock train on the Intercolonial was leaving St. John, an accident of a most horrible and shocking nature occurred. Samuel Pine foreman of the railway boiler shop at Moncton, was standing on the platform of a car as the conductor shouted "all on board," and had just shaken hands and said throwing him from the platform between the two cars. The unfortunate man fell across the outside rail and the wheels pass ed over his body, first striking him a few inches above the left knee, and passing over the thigh and across the abdomen, and going off at the top of the right thigh bone, crushing the left thigh bone and the abdomen and organs near, and mangling the unfortunate man horribly and nearly cutting him in two. Messrs. Smith's display is somewhat marred by half a dozen dirty, miserable leoking strawberries, laid on a scrap of paper in the very centre of it. Strawberries at this time of the year are certainly a novelty, but it looks ridiculous to place an abortion of that delicious fruit amidst such a grand collection as here shown just because they happen to be out of season. are some in the Horticultural Hall, some in the Dairy, and some in the Agricultural Hall. In the first mentioned building some very pretty floral designs for the supper table are to be found, notably one exhibited by Mr. J. M. Hirchsfelder of cut flowers and natural fruit, for which he is awarded first prize. Mr. Colin Skinner, Davisville, has also some very tasteful designs, but his best are not to grace a Davisville, has also some very tasteful designs, but his best are not to grace a feast but to deck a coffin or a grave. He secures an extra prize for designs for funerals, comprising a delicate and very pretty cross, anchor, star, and wreath.

Messrs. George Leslie & Sons, of the Toronto nurseries, and Mr. James Vick, of Rochester, N. Y., make a splendid display of dahlias, without which the show of flowers would be a mockery and a disgrace to the Province. Mr. Vick shows no less than a hundred and fifty varieties, which look very pretty laid out in long rows, backed by a collection of seventy-five varieties of gladiolus, with here and there a beautiful tritona. But the Messrs. Leslie sweep all before them in prizes for dahlias, securing first and second for the largest and best collection, first and second for standards, and second and third for bouquets. They also get first prizes for perennial phlox, for hardy shrubs, spikes in flower, and for perpetual roses. Mr. Vick shows, besides dahlias and gladioli—for which, by thebye, he gets first prize—an excellent collection of annuals, ten week stocks, coxcombs in vases, geraniums, and phlox Drummondii.

RESIGNATION There is evident hesitation on the part of Mr. MACKENZIE in promptly and manfully meeting the demands of his position in conformity with the overwhelming condemnation of his Administration which has been pronounced by the electors of the Dominion. They have demanded his immediate retirement from office. Except for its own sinister purposes the Globe would not have suggested delay. Modern Engish precedent, it well knows, would have required Mr. MACKENZIE'S immediate resignation. Were Parliament in session, a vote of want of confidence, by a majority of at least seventy votes, thirtysix of which would represent the con-dition of public sentiment in Ontario, would compel the surrender of the seals twenty-four hours. Mr. DISRAELI and Mr. GLADSTONE when they were defeated in their elections by a less pro-

Doubtless, as the Globe insinuates, time is required by Mr. MACKENZIE to put his house in order. His house ought not to have been in disorder. He knew that a general election was at hand and prudence should have taught him to prepare for any contingency that might come out of it. He should be the last man to forget that every day that he administers a power that is no longer rightfully his, he is frustrating the unmistakable will of the people of

Canada.

He knows that a new Government must be formed prior to the meeting of Parliament; that elections of Ministers must be held and that measures of the prior to its meeting, and that the data upon which the details of such measures argely depend are not now accessible to the Opposition up to a later date than the close of the fiscal year ending the that grows daily more anomalous and objectionable. It is the constitutional way, the safe way, and the honest way. Ne one knows it better and no one more strongly bound to adopt it than the defeated Premier.

CANADA'S JOSEPH SURFACE.

WE had almost written Canada's URIAH HEEP, for the utterances from a certain quarter of late have forcibly reminded us of the speeches of "Ury" in the fifty-second chapter of "David "Copperfield;" especially have we been reminded of the insolent manner in which when detected and cornered and tottering to his fall he turns on everybody. But, as a settled and systematic hypocrisy—the solemn stage play of mountebanks of morality—was what again into court actions which have been we were anxious to express, we think Mr. JOSEPH SURFACE was properly preferred to Mr. URIAH HEEP. No sooner the public. against the Grit Ministry than we had FRANCIS I. after the battle of Pavia quoted for us-" All is lost but honour," and we were assured that " the 6 fact that honeur had been preserved " was of vast importance at this junc-"ture." The "new Opposition," we were further assured, would be above all things strong "in its consciousness " of rectitude and of honourable ad-"hesion to principle." The same note is made to some Reform journal which it appears was led by the downfall of Grit Humpty Dumpty to doubt whether the foundation of all things must not be out of course. But the leading organ of the "new Opposition" comes to the rescue of Providence, and assures the desponding and faithless journal that though Mr. MACKENZIE has fallen the pillars of heaven are very badly shaken. The world has felt a shock something like that which Olympus suffers at Jove's nod, but there is no sufficient ground for fearing universal collapse. We are treated to a versal collapse. We are treated to a nice analysis of honesty in the true spirit of the celebrated Joseph, and it is hinted that Mr. MACKENZIE has had his name cast out as evil because he belongs to the same class as the mighty worthies of the past. "At the present moment "it is a great source of comfort and "strength to the outgoing Ministers, "and to the Liberal party who follow them that there has been no paltering with The article, we need not say, begins and ends with abuse of Sir John Macdonald. In reading it, we irresistibly think of an Italian beggar scratching himself at a church door, shouting that cleanliness is next to godliness, and varying the iteration by abuse of the passer-by, who refuses to

They have been punished, and there the thing shall rest, so far as we are concerned. But if a prisoner's friends prove loud in pro-claiming his innocence, nothing could be more natural than that the causes of his incarceration should be made known, and if those friends are such that they cannot be contemplated as virtue's trumpeters without inextinguishable laughter, this will naturally give a certain tone to the provoked comment. Francis I., at Pavia, had performed prodigies of valour and had had two horses shot under him when he wrote to his mother, Louisa of Savoy, Regent of France in his ab-sence, "Tout est perdu, madame, hormis "Phonneur." The Grit Government had in five years piled up mere sins than any series of Administrations ever did in four lustres when it was swept professed in Opposition; it had gone back on its promises; and then it ad-vances through its organ claims to consistency and virtue, and boasts of achievement, and quotes a hero, "All is achievement, and quotes a hero, "All is lost but honour." Such a cry of oism, how he fought with fifty

Is it scorn of meanness to haveduring one's whole existence shrunk from no dirty art to gratify dirty passions? Honour in both its great significations is a reality. Subjectively and objectively it is well worth dying for. The "self approving hour" is worth a world and only second in value to all that is best in the heart is the esteem of our fellow creatures when we know we deserve it. But that inward peace, the beautiful reward of honest purpose, is not for unscrupulous men, nor must they look to have "honour, love, obedience, troops of friends," glorifying their later years. As we sow we reap, and the world learns in time to rate us for what we

The Liberal journals defended the out-going Premier and their arguments are now being produced by the Ottawa organ. But the "Liberal" journals in this country took a stronger ground against him than the most rabid of the Tory papers in England. The Globe on the 13th March, 1874, had an article on the subject in which, after reviewing the colonization system, the inspectors in that of rendering every department and branch of the public service a political machine for their own aggrandizement. THE LOCAL GOVERNMENT. THE APPOINTING POWER OF A MORIBUND ADMINISTRATION.

The question of whether an Administration in articulo can or ought to make appointments, is being widely discussed just now in the Ministerial press. A day or two after the elections it was announced that Mr. Mackenzie would make no appointments, when forthwith Ottawa was invaded by an army of office-seekers demanding shelter and refuge in the public service from the ordinary for the Mowar Government and asks what they have done that they signed to make him a vassal of the Indian Government by requiring him to accept a permanent British resident at Cabul, and by placing his troops under British officers. It is said that the abject of the Russian embassy to Afghan is to promote the establishment of Russian agencies in the north-west of this country, and the opening out of a regular trade between Afghanistan and Russia. As, however, in the opinion of the Indian Government British interests in Afghanistan exceed Russian inests, active efforts will be made to counter, active efforts will be made to counter the proposed treaty was that it was designed to make him a vassal of the Indian Government British resident at Cabul, and by placing his troops under British officers. It is said that the object of the Russian agencies in the north-west of this country, and the opening out of a regular trade between Afghanistan and Russia. Sir Edward Selby Smyth, com the militia of the Dominion, and who is now in England on leave, met with an ac-cident the middle of last week. While riding over Salisbury Plain his horse fell in some rabbit holes and rolled over him. Sir Edward was severely shaken but, though much bruised, no bones were broken. He was able to ride eight miles afterwards and is in hopes that a few days' rest will set him right again.

A man named Ellis was arrested at Chatham for drunkenness a day or two ago.
On his person was found eleven dollars,
which according to practice was deposited
in the desk of the chief of police. At the trial the prisoner was fined \$3, and the chief went to the desk to get the man's money, intending to return him the bal-ance after deducting the fine. The money, it was found, had been stolen and the loss had to be made good by the town. Ellis was paid the \$8 and a detective set on his track, the result being that he was found to have stolen the money himself. On being taken before the magistrate again he was sentenced to twelve months in the Central Prison.

An Electro-Galvanic Battery, Combined with a Highly Medicated Plaster, composed of the Choicest Medicinal Gums and Balsams Known to Modern Pharmacy.

Medern Pharmacy.

It is instantly soothing, healing and strengthening. It begins its wonderful curative action the moment it is applied. In the Annihilation of Pain and Inflammation, in the Vitalization of Weak, Paralyzed and Painful Nervous Parts and Organs, in the Guring of Chronic Weaknesses and Inflammatory Ailments and Diseases, in the Absorption of Poisons from the Blood through the Pores and the Prevention of Fever and Ague, Laver Complaints, Malarial and Contagious Diseases it is wonderful. Compared with it in instantaneous and positive curative action, the ordinary porous or perforated plasters, the voltaic bands and appliances, liver belts and other costly contrivances sink into 4tter insignificance. In the most positive terms we maintain that it supersedes in every respect all previous electrical appliances at from one-tenth to one-fiftieth the cost, and challenge contradiction.

PRICE 25 CENTS. Be careful to obtain Collins' Voltaic Plastes, with highly Medicated plaster, as seen in the above cut Sold by all Wholesale and Retail Druggists through out the United States and Canada, and by WEEK's & POTTER, Proprietors, Boston, Mass.

To-day was occupied first with notices of motion by Dr. Ryerson, relating to the President being at liberty to travel at large during the next four years, and the means

speak on a question of privilege, and resigned the position assigned him in the last session as Book Steward at Halifax, as he greatly preferred to be solely devoted to the work of the ministry.

Dr. Aylsworth gave notice of a motion

of the Conference from which any preacher may be transferred is to be informed of the fact in proper time. Regulations ere made as to the time when the transfers are to take place.

With respect to the extension to the term of a minister's stay on a circuit, a lengthy discussion took place. Several spoke in favour of an extension but an overwhelming majority decided that there should be no extension, Three years must be the utmost time a minister can stay on a circuit.

Dr. Ryerson gave notice of motion for a correspondence to be entered into with the Missionary Committee of the Methodist Episcopal Church for the purpose of securing harmony of action in the respective missions of that Church and those of the Methodist Church.

The report of the Committee on the Superannuation Fund was considered. There are ninety-six ministers and fifty-one widows who receive small annuities from the fund, to which all the ministers subscribe \$10, and collections and subscriptions are furnished by the laity. The ministers are to pay their subscriptions in advance in two instalments.

A telegram was received from Jas. Patterson, on behalf of several members of the Methodist Church, Toronto, protesting against the appointment of Rev. W. Briggs, to the office of book steward. The memorial was referred to the Committee on Memorials.

The Committee reported at a subsequent session that in their judgment no notice should be taken of the memorial. The Conference agreed to the views of the Committee, The remainder of the report of the Committee on the Superannuation Fund was finally settled. The Board is to consist of twelve ministers and twelve laymen. It shall determine the length of time to which ministers shall claim superannuation allowance. Should any vacancies occur in the Board by reason of death or other cause they shall be made up by the members of the Board.

The report of the Hymn-book Committee was taken up and occupied the greater part of two sessions. A committee was appointed at the last General Conference for the purpo Dr. Burwash read the report of the Com on Education relating to the election and dut the professors of theology in the respective of which was adopted.

The Committee of the Theological College, real, was appointed, consisting of seventeenters and laymen.

The Committee of Stanstead Wesleyan Copresented their report, and after Rev. W. Somade a statement respecting the affairs of the stitution, Drs. Nellis and Rice, L. Beaudry at G. Bishop spoke on behalf of the College which commended to the favourable consideration patronage of the people of the Methodist Chanda. The Conference also ordered that stead College shall be utilized on behalf french educational work as soon as arrange can be made for that purpose.

Dr. Rick reported on behalf of the Committee of the pointed to settle the matter of dispute relations.

Dr. Allison read the report of the Committee the delegates.

Dr. Allison read the report for the Committee on Discipline. The report recommended in foreign missionary districts where there may probationars who cannot attend the annual conference for ordination, the conference shall make rangements for such ordination.

Rev. J. Allen, who acted as postmaster to the Conference, received a testimonial consisting smith's Imperial Dictionary in five volumes, as Rev. W. J. Shaw, who had performed a great amount of labour as Secretary of the Conference arrangements for such ordination.

Rev. J. Allen, who had become local preaches ministers and the such as postmaster to the volume, and hadmiss ton shall be referred and their decisions shall be provided, that i Dr. Fowler eulogized the hymn book now in use.

Rev. J. Hunt also eulogized the hymn book, but thought that many improvements might be made.

Rev. E. H. Drwart, as one of the Committee, defended the course pursued by them. He thought they would do most honour te the memory of the founder of Methodism by doing the best they could for the glory of God and the welfare of the Church. He thought they were capable of making a book for themselves, and had no need te wait until the Coumenical Council of Methodism, as some had advised them to do.

Revs. J. H. Robinson, E. B. Ryckman and Dr. Allison, spoke on the subject. Several said that they would refer the matter again to the Committee to complete and publish the book in two years.

The evening session was opened at 7.30.

Rev. W. S. Blacksfock presented the report of the Committee on Public Worship, which recommended that no change shall be sanctioned in the mode of conducting public worship.

The discussion on the hymn book was resumed.

Rev. LEROY HOOKER took the floor and argued in favour of the publication of a new hymn-book for econ-mical respons.

Dr. Rick argued in favour of retaining the hymn-book as much as possible as Mr. Wesley left it.

Dr. WILLIAMS gave a historical review of the hymn-book, and detailed at great length what the members of the Committee had done in purchasing hymn-books, both from England and America. They had also read extensively all the books which they could secure, for the purpose of making as good a book as possible.

Dr. Ryrrsson spoke at great length in defence of the hymn-book as now used in England, and differed altogether from the Committee as to the course they had pursued in recommending the omission of so many hymns. He would greatly prefer that a new Committee should be appointed, but would have at least 500 of the hymns which Mr. Wesley had composed retained and make up a supplement of as many other hymns as may be deemed necessary. Such a course would be most likely to secure the concurrence of the people.

Rev. A. SUTHR Rev. J. Hunt also eulogized the hymn book, but

tees were called. MONTREAL, Sept. 20.—There were three sessions of Conference to-day.

At the first Dr. Ryerson was requested to prepare for publication the address which he delivered on the first day of the Conference.

It was ordered that the regulations in different parts of the book of discipline which relate to the membership of the Church, be inserted in one

place.

The Educational Board was instructed to make grants to the institutions in Manitoba and the French in Montreal if they deemed it prudent to do so.

Rev. R. A. Temple read the report of the Committee on Class-meeting, which recommended that Rev. R. A. Temple read the report of the Committee on Class-meeting, which recommended that no change should be made in the regulations in that institution. Several amendments were submitted and more than twenty members of the Conference delivered themselves on the question. All were agreed that the class-meeting, as a means of grace, has been of great value to the spirituality of the Church. Many felt themselves in great difficulty in carrying out the rule relating to the class-meeting question. On the other hand it was urged that to carry out the rule rigidly would exclude hundreds of members from church, and while the rule remained as it is, thus certain that many were kept from church. Those who wanted the class-meeting to be maintained, believed that if any change were made the doors of admission would be so wide that many would come in who are not wanted.

HONOURED SIR,—On behalf of the Liberal-Conservatives of Port Colborne, we, the undersigned, have great pleasure in extending to you a hearty welcome at this your first visit to our village since your election as a member of Parliament. From the day on shich you received the nomination at the Conservative Convention at Port Robinson, we had full confidence in your being able to redeem the county, besures we were convinced that we had secured a candidate of no ordinary ability and one well able to maintain the principles advocated by the liberal Conservative party. Since you have been amongst us in this contest we are had many opportunities of seeing you mider both favourable and unfavourable circumnets, and the more we have seen of you the more we have become convinced that we have seemed the very man we wanted to represent us in this manual control of the control

Mr. Davin, who, on rising, was loudly deered, said he was overwhelmed with the indness and enthusiasm which they had eaped on a defeated candidate. He had so words to express his feelings. If his last were wounded there was balm in their apression of confidence and delicate sympathy to heal a thousand wounds. (Cheers.) Then he saw them treat him as if he was victorious candidate he was tempted to lar they regarded the late race as a race of excasses, the rule of such a race being that as last jackass wins. (Laughter and deers.) But there was perhaps a better ason why they thus greeted him. They saw that he had, so far as the intelligence and the uncorrupt opinion of the county d this 25th day of September, 1878. w that he had, so far as the intelligence the uncorrupt opinion of the county ec concerned, won the county. RECOUNT IN ST. JOHN'S CITY QUASHED.

St. John, N. B., Sept. 26.—Judge Walters opened his court this morning for the recount of the votes in the city election.

Mr. Palmer objected to the affidavit on which the order was granted, and produced the affidavit of the Clerk of the County Court that the necessary hundred dollars had not been deposited by Mr. DeVeber.

The Judge ruled the latter objection fatal to his jurisdiction, and annulled his order.

There was no commotion over the event, as it was well known that the recount would not change the result. DeVeber is laughed at heartily for his blundering in the matter, and he and his lawyers are chaffed unmercifully. DeVeber put the money up in the name of Dennis Costigan, who agreed to make the application and allow DeVeber to remain in the back ground. Costigan, make the application and allow DeVeber to remain in the back ground. Costigan, made up his mind that a change would not be in the public interest, and declined to go before the Judge and make the affidavit, forcing DeVeber to do it himself at the last moment, when DeVeber swore that he too caused the hundred dollars to be deposited, but as the County Court Clerk had received for it in Costigary's name and made

order, the proceedings were quashed. A CONSERVATIVE MAJORITY IN NEW BRUNS WICK. St. John, N.B., Sept. 26.—Mr. Girouard, member-elect for Kent, declares himself a supporter of Sir John, and Mr. Snowball waited on Mr. Tilley and anxiously in quired on what terms he can retain the atronage of the county. Even Gill says he is not going to injure his county by factious opposition. It looks as though Sir John will have ten New Brunswick sup-

WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS

PRODUCE. FLOUR, f.o.c have been holding off on everything. The result has been very weak prices on all sorts of grain and heavy fall on flour and when the second still make the second s the market, and so long as this continues we must the market, and so long as this continues we must expect dull trade. Receipts have been on the in-crease, both on the street and by rail, and this has the street and by rail, and this has light augmentation of the stocks in store, No. 2, No. 3, Flour, 1,200 bbls; fail wheat, 22,091 bushels; spring wheat, 20,751 bushels; oats, 16,740 bushels; barley, 76,378 bushels; peas, 1,680 bushels.

English markets were dull during last week, but seem to close with an improved feeling; still it is

Further cable advices to the 24th ult. state that harvest was then practically ended; wheat had yielded fairly well, but dry well her was wanted for threshing. Markets were beginning to be well supplied with new wheat, but the damp and sprouted state of the offerings had a depressing effect on trade, but all farmers who could afford it were expected to hold their wheat until it

afford it were expected to hold their wheat until it had aried. There was very little demand for wheat, owing chiefly to the continued large shipments from America, coupled with the liberal supplies of homegrawn at all English markets. Continental advices

50s to 56s.

CHESSE—Remains very quiet, the only movement being in small lots, at 8½ to 9½c. There were no sales at Ingersoll yesterday, but buyers and seller apart. English quotations have advanced on the week.

EGSS—Have continued abundant, and selling fairly grown at all English markets. Continental advices by mail state that the weather in France was all that could be desired. Markets were better supplied all over, but the damp condition on French wheat and large imports of foreign, made the sale of the former very difficult and was causing a fall in prices on both offs: imports are large and stocks.

DOR SALE-THE HIGHLY IM-PROVED and Very Productive Estate of "MAIZELAND."

Cemprising about 550 acres of land, including 60 acres of woods, mostly oak and hickory of large growth. Maizeland, situated in the town of Red Hook, N. Y., about 90 miles from the City of New York, was for many years the residence of the late William Chamberlain, and is well known among leading agriculturists as one of the very finest farming properties in Duchess county. Handsome brick ing properties in Duchess county. Handsome brick mansion, 50 by 40 feet, with large, irregular brick extension under same root; furnace, hot and cold water, and all city conveniences excepting gas, having been the winter as well as the summer residence of the late owner; extensive piazzas; grounds handsomely laid out in lawns, plantations and shrubberies. Positively PREF PROF WALARIA.

Besides buildings appertaining to the mansion, such as coachman's house, gardener's house, conservatory, graperies, &c., &c., there are at convenient distances three very complete sets of farm buildings, each with good and comfortable farmer's dwelling, house; also three additional tenant houses and large summer sheep house. Has been a sheep farm for the past 30 years, and many of the buildings were erected especially for sheep raising, and are unusually well adapted for that purpose. The farm is perfectly drained, and well watered by two never-failing brooks and numerous springs, wells and cisterns. Would sell the western portion, including wood land, two sets of buildings and two tenant houses, about 400 acres in all, at a very moderate price per scre. No exchange, but a large portion of the purchase money may remain on the property at 6 per cent. interest. The nearest station is Barrytown, on the Hudson River R. A., two miles datant. Will be glad to give any further information asked foll and will send for persons wishing to examine the property, if notified by mail or telegraph. WM. L. OHAMBERLAIN, Excet, 339-5 Busmess College.
