Which Was The Hair?

CHAPTER XXX.  
(Continued.)  
"HALLO, old chap!" he held out his hand and gripped the thin and hot one of the sick man. "Glad to see you out of the Land of Nod again! Had a jolly bad time, I'm afraid! Thought you were going to kick the bucket one time; but it takes a lot to knock one of your sort out of time! I don't suppose you want me to thank you for standing by me against those gipsy chaps; but I've got to do it. Finest thing I ever saw, the way you floored 'em. By George! I reckon some of 'em are licking their wounds now, the dogs! Hope you're pretty comfortable, and that you'll soon pull round and get down-stairs. Must get Eva—that's my sister; been looking after you, you know—to lay in a supply of chops and steaks. Nothing like chops and steaks when you're pulling round from an illness. Then you and I will have a high old time together, for you're one of my sort—and they aren't too plentiful," he wound up in his cheery voice,

and with another subdued pressure of the white, wasted hand.  
"You have all been very good to me, Sir Edward," said Geoffrey, gravely and gratefully. "I am a perfect stranger—perfect stranger—be hanged!" he said in Sir Edward, emphatically. "Here's a chap saves one from a bashing at the cost of his own head, and he calls himself 'a perfect stranger!' Reminds me of the story of the good Samaritan parson talks about in church. 'Perfect stranger!'"  
"My name is Geoffrey Bell," persisted Geoffrey. "And I am—"  
"A right-down good sort," broke in Edward. "My dear sir, I don't ask you for your history and pedigree as if I and you were a pair of commercial travellers. I know a gentleman when I see him, and I'm not so thick-headed—though my sister could tell

TUMOR OF YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound  
Winnipeg, Man.—"Eleven years ago I went to the Victoria Hospital, Montreal, suffering with a growth in the uterus. The doctors said it was a tumor, and could not be removed, as it would cause instant death. They found that other organs were affected and said I could not live more than six months in the condition I was in. After I came home I saw your advertisement in the paper and commenced taking Lydia E. Pinkham's Vegetable Compound. I took it constantly for two years, and still take it at times, and both my husband and myself claim that it was the means of saving my life. I highly recommend it to suffering women."—Mrs. ORELLA BRADLEY, 284 Johnson Ave., Winnipeg, Manitoba.  
One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.  
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills.

blushing a little—for nursing him, now that he was conscious and could look at her with intelligence in his eyes, was a very different thing to nursing him when he was ignorant of her presence. But she could not leave him until Martha came back.  
Geoffrey gazed at her lovely profile with dreamy satisfaction in its beauty, and with a heart full of gratitude. She offered him a cooling drink, and he took it with a murmured word or two of humble thanks, and raised himself with the vague idea of making her slight task easier, of meeting her halfway, but had to fall back, with a sigh.  
"I don't think you ought to try and sit up," she said, in a low voice. "I am sure you must be very weak still. I think if you would try and go to sleep it would be better."  
"I've been asleep for years it seems to me," said Geoffrey. "But I'll try, if you wish it. It's the least I can do for all your goodness to me, and self-sacrifice."  
"The goodness—and the bravery and self-sacrifice—are on your side," she murmured. "Let me put your pillows straight. That is better."  
"Oh, yes, yes," he said, with fervent gratitude. "That's splendid! Will you tell me your name again?"  
"Rashleigh—oh, you mean my Christian name—Eva," she said, with the simple frankness that characterized her.  
"Eva," he repeated, almost inaudibly, as if he were trying to impress it upon his still shaky mind. "Eva."  
To Eva's intense satisfaction, he fell asleep almost as soon as he spoke the word, and as she sat beside him until Martha came, warning her of his recovery by a gesture, and a blush of pleasure.  
From that day she resigned her place as nurse entirely to Martha; only coming into the room when he

was asleep. He missed her, missed her very much; and he ventured to ask her if she were well, and to express a hope that her kind attention to him had not knocked her up.  
Martha assured him that Miss Eva was quite well, and, once launched on the subject, sang her praises, and Sir Edward's; just as old Betty had sung them to Cattie; and Geoffrey listened with the keenest interest of the convalescent.  
Notwithstanding Eva's desertion, he made rapid progress; and one day the doctor gave him permission to go down-stairs. Sir Edward made quite an event of it. The easiest chair, with the softest cushions, was ready for the invalid, and Geoffrey installed in it, and looking half-ashamed of himself for causing so much trouble, and yet with a glow of joy in the effort of moving about again. Sir Edward sat by his side and talked sport, until Eva, who came into the room now and again—generally with a basin of what Sir Edward contemptuously called "Slip-slops"—"why don't you stand him a beefsteak, Eva?"—gently insisted upon his leaving the invalid for a quiet sleep.

As a patient of Father Morrissey's I would thank you for an opportunity of giving expression to the benefits I have received from his prescriptions and medicines, not on one occasion but at different times.  
Some eight years ago I had occasion to apply to the Rev. gentleman for treatment for lung trouble which proved to be of a serious nature; so serious was my case that my friends looked upon my recovery as almost hopeless, but after his treatment I am thankful to say that to-day I am in perfect health.  
On Feb. 26, 1900, I had occasion to ask his advice and treatment for a lame back. I received a prescription which gave me immediate relief.  
Thanking you, I am

In a day or two he was able to remain up for dinner—a plain dinner, in which the steak at last figured—and a very delightful meal, the most delightful he had eaten for many years, Geoffrey found it. After the dinner, Eva permitted him a cigarette, bringing him the matches with her own hand; and a little later, he went, on Sir Edward's arm, into the drawing room, and Eva played for him—for them, that is.  
Geoffrey leant back on his cushions and listened with half-closed eyes. The luxury of the old-fashioned and well-worn room, with its old furniture and faded damasks, soothed him, and Eva's soft, sweet voice at the piano completed the charm.

GENERAL MERCHANDISE,  
CORNER WATER and SPRINGDALE STREETS.

Oh, I just felt like it, so I kept going until I got what I planned to do done, and then I went to bed with a raging headache, and to-day I'm a perfect wreck, exclaimed my neighbor when I dropped in upon her in the middle of the morning yesterday and found her limp and wretched on the couch with her morning work untouched.

"I felt like it," is never a sufficient excuse for deliberately overdrawn your fund of vitality.

Any more than it is an excuse for the man who deliberately overdraws his account at the bank.

It takes strength of mind to accomplish things in spite of difficulties, to carry them through to the end in the face of obstacles, but it often takes still more strength and of a much higher variety to lay aside an unfinished task even though at the moment you may feel like finishing it.

To know how to spend one's self to the best advantage—that is, so as to get the most usefulness and enjoyment out of a given amount of vitality, is a much greater lesson than the wise use of money, and one far fewer people learn.

The woman who says, "Oh, I just want to finish this seam or get this petal done before dark," and then

bends almost double over the work, straining her eyes in the twilight to reach the desired goal, is paying a wretchedly high price for an absurdly small accomplishment.

Just because the payment is not demanded of her for years she thinks she has escaped without making it, but some day when she is envying the fine, clear eyes of the woman who had the self-control to lay aside the almost finished work, she may realize that nature, although she often forgets for years to ask payment on the checks you draw upon your account with her, sooner or later, surely exacts it.

We have a great deal to talk of these days upon the conversation of natural resources.

Wise people point to us, how, by using our great timber lands wisely and farsightedly, instead of ruthlessly and unscientifically, we can get just as much out of them without exhausting them.

Are the resources of nature any different from the resources of the body of man in this respect?

Are they any less susceptible of conservation?

Most of us applaud the people who are trying to save the resources of nature from short-sighted misuse, and to bring about wise treatment of them which will utilize without exhausting. If we approve this principle why not carry it into our own lives and apply it to our civilization of our own vitality?

Honored by Women

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonder-working, curing-power of Dr. Pierce's Favorite Prescription—which saves the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn-ills.

IT MAKES WEAK WOMEN STRONG  
IT MAKES SICK WOMEN WELL.

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

### Fads and Fashions.

French and English chiffon voiles are very attractive and make fascinating frocks. They are shown in solid colors, in pastel shades, in plain effects, as well as small checks formed by raised silk linen.

The suit without the vest is the unusual thing these days. A perfectly plain pongee or linen suit can be combined with a contrasting vest that gives a bright spot of color to the neutral shade of the costume.

Made on rather straight lines, the best blouse sleeves of sheer linen show from five to seven tiny tucks, crossing the front seam of the sleeve, just where the sleeve naturally wrinkles with the turn of the arm.

An attractive sleeve in a new house gown extends just below the elbow. It is made of a series of four puffs, shirred quite flat and finished with an inch band of self tone velvet, embroidered in silver thread.

For cool days at the sea side and the mountains, for tennis and outing frocks, challis is a most fashionable and generally satisfactory material. The new challis show charming designs similar to those of the new foulards.

Unusual combinations of colors are seen on some of the smart spring gowns. One attractive gown is a natural pongee, trimmed with the shade known as Chanticleer, combined with Copenhagen blue. The effect is daring but pleasing.

There are quaint and curious ideas in millinery. Brown gauze over-spreads pink roses, roses are dropped upon a huge square crown at intervals; so that they form neither a wreath nor a group; the half veil fall-

ing to the bridge of the nose has appeared.

With the new continued favor shown to low necks for the spring and summer, the bar pin used to fasten lace and embroidered collars and jabots is considered quite an important accessory. These are decidedly Oriental in design and treatment, and are set with scarabs and cabochons of semi-precious stones.

Gloves, ornamental and useful, for all hours of the day, are slightly different this season. Chamols and elephant gray are the accepted shades for morning wear. Pale gray and champagne for afternoon, while a departure has been made from the accepted white for evening in the very pale rose gloves that are in vogue.

Popular as shirtings are, the woman whose arm is large will look askance at them. The sleeve with the shirtings has a tendency to give the appearance of size to the arm, and it is a favorite style only with the woman whose arm is quite slender.

#### IN AGONY WITH PILES.

Mr. G. W. Cornell, with the Shaw Milling Co., St. Catherine's, Ont., writes: "For six years I was a victim of itching, protruding piles and was in dreadful agony night and day. Doctors were unable to help me and I was about as miserable as any creature could be. My druggist advised me to try Dr. Chase's Ointment, which I did and obtained relief from the first box and complete cure with the second. This ointment would be cheap at fifty dollars a box, in view of what it did for me."

Sir Evelyn Wood, perhaps the most brilliant soldier of his day, hardly looks the part in muffs. "One day he was at Aldershot railway Station in plain clothes, unattended by an A.D.C. A smart young private came along tapping his leg with his swagger cane."

"Why don't you salute me, young man?" said the general, in his suave, off-duty, deprecatory tones.

"Because I don't know who you are," said Tommy.

"I'm Sir Evelyn Wood," was the response.

"Yah," said Tommy Atkins. "If Sir Evelyn heard you say that, 'e'd punch your head for you!"

### ON THE VERGE OF BREAKDOWN.

When You Think Yourself Out of Sorts You Are Often Seriously Ill.

Thousands are just on the edge of the crater—just ready to topple in the crater of ill-health and nervous breakdown. Such was the case with Mr. E. E. Follett, a well-known figure in all business and social circles of Grand Rapids.

"I had not been well for a year or more. I had lost in weight and could not pick up. I tried on my work—it seemed like drudgery—no pleasure in it like there used to be. When I got thin, I seemed to have little blood and my hands and feet were clammy and cold. To make matters worse I grew nervous and irritable over mere trifles. I tried dieting and various medicines, but profited by none of them. I was on the verge of a breakdown when my druggist recommended 'Ferrozone.' I wasn't very young before I felt it was a true blood and nerve builder. I was encouraged so much after the third box that I got six boxes more. In seven weeks I gained six pounds and was looking the picture of health. 'Ferrozone' had made a new man of me."

There is no tonic so quick and sure to build you up as Ferrozone—just one or two tablets to take at meal time, try it. Fifty cents a box, six for \$2.50, all dealers or The Catarthozone Coy., Kingston, Canada.

### Gipsy Shot Two in a Rage After Being Annoyed.

Tragedy at Shawville, Pontiac Co., Where Two Young Men Lie Dead To-Day.

Hull, Que., April 21.—As the result of trouble between gypsies and young men of Shawville, Pontiac County, two men are dead and a gypsy named Mike Murphy and his wife are under arrest, held to account for the killing. The two young men who were killed are Harry Howes, aged 22, and William Dale, aged 30, both members of respectable families of the village.

Shawville is a village on the line of the Canadian Pacific Railway, some forty miles out of Hull. At this place there had been an encampment of gypsies for some time, living on the outskirts of the place.

Early last evening seven or eight young men visited the gypsy encampment and are said to have been annoying them, which made Murphy angry, with the result that he ordered them out of the locality. At the same time he caught up his rifle and ran after them. At a distance of about 100 yards from the camp he discharged his firearm, instantly killing Howes and Dale.

The other members of the pursued party sought safety in an unoccupied house in the vicinity when the firing began. Murphy followed them there. Whether he would have killed others in his frenzy is difficult to say, but further loss of life was prevented by one of the party, who made a dash at Murphy and succeeded in disarming him. Then others helped and Murphy was taken prisoner.

### How to See the Pope.

Nothing is more easy than to secure an audience with the Pope, if one is properly accredited, and is willing to abide by the rules and regulations governing such ceremonies. Otherwise, nothing is more difficult—a fact which ex-President Roosevelt found out for himself the other day.

Rank does not count. The humblest peasant is, in theory at all events, and largely also in practice, as eligible as the most powerful monarch. Nor is the possession of great wealth a passport to His Holiness.

Rich Americans, making a brief stay in Rome, and unable to afford the time necessary for obtaining an audience in the regular way, sometimes try to apply to the portals of the Vatican that "golden key" which is popularly supposed to "open all doors."

Needless to say, they never succeed. It is not necessary, of course, for a man to be a Roman Catholic in order to be received in audience; nor even, for that matter, a Christian. Indeed, on the days when a Consistory—the highest Council of State in the Papal Government—is held, there may be seen within the Vatican, in the Sala Ducale or the Sala Regia, followers of Mohammed and Buddha, and Jews, as well as representatives of many other creeds.

Certain etiquette as regards dress, however, is strictly insisted upon, and those entitled to don uniforms must wear them, so that the scene is invariably a brilliant one.

The Pope himself, upon these occasions is clothed entirely in white, save for a small red cape thrown lightly over the shoulders.—Pearsons' Weekly.

**The Conquest of the Air**

A Frenchman has again triumphed with the aeroplane in a great cross-country flight. M. Paulhan, who held the record of 1909 for a cross-country flight, is the aeronautist who has made the latest and greatest record. Most of the other records have been made on level grounds, unobstructed by hills, trees or towns. M. Paulhan had, however, won distinction before in cross-country flying. He made a record flight of this kind at Tournai in September last of 1 hr., 36 min. duration. The nearest approach to this was made by Col. Cody a few days previously at Aldershot. Cody's record was a flight of 1 hr., 6 min. The Daily Mail, Lord Northcliffe's chief newspaper, has done much to encourage those engaged in the conquest of the air. It has built near London a large garage at a cost of \$25,000 and presented it to the War Office for the accommodation of the Clement-Bayard airship, which is being prepared at Paris for a flight from Paris to London and which will be bought by the War Office if it proves satisfactory. Lord Northcliffe has also encouraged aeronautists by offering large prizes.

It will be remembered that Bleriot won a Daily Mail prize of \$5,000 last year by a flight across the Straits of Dover in a monoplane. The greatest prize of all was offered two years ago, and although Cody and others have tried for it, no one succeeded till Paulhan won it yesterday. The prize was \$50,000, and the conditions were a flight from London to Manchester with not more than two stops on the way, to be accomplished in twenty-four hours or under. The distance is 184 miles and the nature of the country to be crossed is indicated somewhat by the description which appears in our cable despatch. The great strides which have been made in a few years is evident from the fact that it is only a few years ago since man first succeeded in flying in the air a few seconds in an aeroplane.

**The Second Recital.**

"Great critics have taught us one essential rule. . . . It is this, that if ever we should find ourselves disposed not to admire those writers or artists, Livy and Virgil, for instance, Raphael or Michael Angelo, whom all the learned had admired, not to follow our own fancies, but to study them until we know how and what we ought to admire; and if we cannot arrive at this combination of admiration with knowledge, rather to believe that we are dull than that the rest of the world has been imposed on."

So wrote Burke some 120 years ago, and with this admonition in our mind we wended our way to hear Mark Hambourg who has gained a world wide fame for inspiring interpretation on the pianoforte of the musical classics of masters in music. These masterpieces are pre-eminent because they are lofty in theme, pregnant in power, exquisite in melody, God-like in harmony, and their soul appeals to the divinity in man. Their range is universal. They are not limited by the babel of languages or disturbed by the cacophony of tongues. "Music is the true universal speech of mankind," as Wagner puts it.

Such indeed was the impression made on us during Mark Hambourg's recital last night. Musicians might appreciate the technique and the wonderful skill of the master, but the musical savage could enjoy the melody which flowed from the master and the instrument, both keyed up to concert pitch, and the souls of both in harmony, as the spirit of music made captive the listeners and held them spell-bound. The tense attention and silence which spoke during the recital were indeed as eloquent of the appreciation of the audience as the burst of applause which more formally expressed the feelings of those present. The programme of the recital as follows:

"The Harmonious Blacksmith," Handel; Sonata, Op. 35, B. Flat Minor;

Chopin; Grava—Dopplo Movimento—Scherzo—Marcha — Funebre—Presto; Pastorale, Capriccio, Scarlatti; Melody, Gluck—Sganabati; Capriccio, Paderewski; Nocturne, B Major. Two Studies—G Flat (Octave)—E Major; Polonaise, A Flat, Op. 53, Chopin; Lotus Land, Cyril Scott; Gavotte Moderne, Mark Hambourg. And by special request—"A Midsummer Night's Dream" (Wedding March), Mendelssohn-Liszt.

**Foreign Carrier Lost.**

The following message was received by the Assistant Collector, this morning, from the Sub Collector at Grand Bank:

Grand Bank, April 28, 10.

Schr. Coronation arrived from Cadiz; brought in crew of Schr. George R. Allston, of St. John's, abandoned at sea.

The Allston was a well known vessel in this port, and was owned by Geo. M. Barr, merchant of the West End.

**Geo. M. Barr's Message.**

Mr. Geo. M. Barr had a telegram from Grand Bank also, saying that the Allston was lost on April 19th and that the crew were taken off by a French banker and transferred afterwards to the schr. Coronation. The Geo. R. Allston lost her rudder in a storm and became unmanageable, so that Captain Darius Smith decided to abandon her the first chance. This occurred on April 19th when a Frenchman bound for St. Pierre hove in sight. The Allston was 21 days out from Cadiz with a cargo of salt when the mishap occurred. The schooner is covered by insurance.

**CARD TOURNAMENT.**—The card tournament at the People's Club was won last night by Mr. Samuel Best, who got 15 games out of 20. The prize was a valuable merchanm pipe. Another tournament will be held next Tuesday night when Mr. T. J. Allan will give a prize.

**CALLADORA HITS WHARF.**—When the Calladora was being removed from the stream to Marshall Bros. wharf at noon to-day, owing to a schooner at Harvey's wharf impeding her, she fell down with the force of the wind on the head of Davey Bros. pier and partially wrecked a derrick erected there for hoisting sand.

**A FEMALE INEBRIATE.**—At 11 o'clock last night officers Byrne and Tobin found a young woman at the rear of the Post Office. She was so badly intoxicated that the officers had to lift her bodily down Water Street to the lockup while she made the welkin ring with her cries and violently resisted arrest. She was given three months in the Penitentiary to-day.

**The excavation of the Roman city of Verulamium, about a mile from the centre of St. Albans, which it is hoped to begin in a few months' time, will form the third important work of this character that has been undertaken by the Society of Antiquaries.**

About sixty years ago, and again in 1869, the theatre of Verulamium was partly uncovered, and some fine frescoes, pavements, and marbles were found. It is the only Roman theatre to exist in Britain, and its dimensions are almost exactly the same as those of the theatre at Pompeii, which it closely resembles. The area that it covers consists of about 590 acres. Verulamium was one of the most important cities in England at the time of Roman occupation.

Old Sarum, about a mile and three-quarters from Salisbury, is also to be excavated.

**Very Fine Photographs**

In the Board of Trade Rooms to-day Mr. J. C. Parsons has on exhibition 24 enlarged photographs of inland scenery and fishing. They measure 30 x 36 inches, are copies of original negatives secured in various parts of the interior by Mr. Parsons personally and will be sent over to the Festival of Empire. One especially fine picture is that of a salmon leaping the falls in the "Studies" on the Humber River. As there are some doubting Thomases, who imagine this is faked, Mr. Parsons will be glad to show them the original negative from which the picture was taken.

**Big Timber Deal.**

Cablegrams received from New York news agencies to-day ask for information about an eight million acre deal of timber land in Newfoundland consummated there lately by a syndicate. This evidently refers to the Strong-Tessier-Morison combination of 13,000 square miles on the Northern Labrador, particulars of which appeared in the Telegram last week. The message cannot possibly refer to timber areas in Newfoundland as there are not eight million acres of timber land available in the whole Island. The particulars of the Strong-Tessier-Morison deal are evidently what the News Agencies are on to.

**A Houseful of Reasons.**

Bishop Malfeulle of the Methodist Episcopal Church always stood as a strong opponent to the inconsiderable and often inconsistent salaries that are paid the pastor by some congregations amply able to pay more liberally. He held the following personal reminiscence at a recent conference:

"I once knew an excellent young man who married shortly after he had entered the ministry. He was on a small salary, but he seemed contented and happy.

"Some twelve or fifteen years went

rather lost sight of him—forgot him, as we will do sometimes—when unexpectedly, met him in Boston well dressed, but not at all clerically.

"We shook hands. He said he was doing excellently.

"What church?" I asked.

"Oh, said he 'no church'—wholesale hat business."

"But why did you leave a church?" I inquired, solicitously.

"For seven reasons," he replied.

"And what are they?" said I.

"A wife," he answered, "and children."—From Success Magazine.

## Aeroplane Flight From London to Manchester.

Paulhan, the Frenchman, Wins the Daily Mail Prize of \$50,000.

Special to Evening Telegram. LONDON, April 27. Louis Paulhan, the Frenchman, has won the \$50,000 prize donated by Lord Northcliffe for the first aeroplane flight from London to Manchester, a distance of 186 miles. The winning of the prize involved one of the most sensational contests that has ever occurred in Great Britain. It was a race between G. White, the English aviator, and Paulhan, who a few days ago attempted the trip, was compelled to descend at Letchfield, after covering 115 miles. Paulhan then appeared on the scene and the two aviators made hasty preparations for the flight, each striving to be first at the start. Paulhan stole a march on the Englishman, ascending from Hendon at 5.20 p.m. yesterday. White, who was sleeping at the time, was apprised of this fact and made a quick start from Park Royal at 6.30 p.m. Paulhan, flying high and fast, covered 117 miles before he landed, making that distance in 2 hours and

15 minutes. He descended at Letchfield at 8.10 p.m., and reascended at 4 a.m. to complete the journey, at 5.20 a.m. White succeeded in reaching a distance of 60 miles descending on account of darkness. He managed to overcome the handicap by starting again on the long journey to Manchester. Paulhan, in describing the first part of his flight, said:—The puffing railroad trains enabled me to keep the route. It was very cold and after going an hour the rain hit me. It came faster and faster and blinded me, but I determined to keep up the flight, and it soon stopped raining. The tooting of railroad engines sounded beneath me, and looking down I saw my special train and my wife waving a handkerchief. I waved mine back and shouted greetings. After passing Rugby I lost sight of the train but could see many people watching me. It grew darker and darker and seeing another big town I decided to alight, though I had plenty of fuel and could have gone on."

## FINANCE BILL BEFORE THE LORDS.

Special to Evening Telegram. LONDON, April 27. Chancellor Lloyd George's Finance Bill, the rejection of which by the House of Lords cost the nation, as Premier Asquith announced in his final speech tonight, £6,500,000 in money, passed the third reading in the House of Commons by a majority of 93 amid enthusiastic cheers from the Ministerialists. It was immediately carried to the House of Lords, which was waiting in session to receive it, and in a quite uneventful mood the Lords passed the first reading of the bill.

Special to Evening Telegram. LONDON, April 27. A special from Salonika says that 500 Albanians, chiefly women and children, are reported as having been killed in the artillery bombardment of Godautz by the Turkish forces.

## Complains of Roads.

Editor Evening Telegram. Dear Sir,—I would like to ask the Government if the farmers must wait till the potatoes are sown before the suburban roads receive repairs. I will take the Heavytree Road, St. John's West, as a specimen of the neglect of the powers that be. This thoroughfare which is much used, is in a disgraceful condition, filled as it is with ruts, and farmers and others have cause to regret the necessity of passing over it. Axles of carts, wheels, and springs of wagons are daily broken as vehicles pass along that way, and immediate repairs are required.

Yours truly,  
TRAVELLER.  
St. John's, April 27, 1910.

## Nocturnal Prowlers.

At 1.30 yesterday morning as Mr. M. Crotty was at work building an out-house near his residence at Walsworth town off Signal Hill Road, he heard a noise in the distance, and going out to ascertain the cause saw a man walking away in the distance with a log of lumber on his back. He gave chase, and when the fellow heard him coming he dropped the material and the climbing over Score's fence escaped. Mr. W. Brophy recently had some lumber stolen on him at night in that section, and it is thought that the man who tried to get away with Crotty's property is the thief in this case also, and is accountable for the larceny of goods from Mr. Geo. Cook's place.

## Keep Chimneys Clean.

We have it on the authority of the Chiefs of the Fire Department that many of the fires in the city are caused by the chimneys of the houses in which the fires occurred not being kept clean. Such a condition of affairs is always a menace to the safety of the city especially under existing conditions. A very dry period of weather is with us, the shingles of most houses are as dry as tinder and the slightest spark lodging on them, especially when a high wind prevails is quickly fanned into flame. There is now a chimney sweep in the city, a man named England, but if there were ten they would find plenty of work to perform in the cleaning of flues. While chimneys are left filled with soot the danger of calamitous outbreak of fire is always present, and citizens to avoid the trouble incident to a fire in their domiciles, and to conserve their property should keep the chimneys clean. It has been suggested that if a fine were imposed on the owners of houses in which outbreaks occurred due to unclean chimneys the danger would be minimized, and this is a matter which should be attended to by our city fathers. Inspector General Sullivan is doing his best to impress on citizens the danger of having unclean chimneys, and Head Dawe has done good work up to date. However, many people are unconcerned of the danger, and in the past the difficulty of getting a chimney sweep has been great. If the city is to be saved from another scourge of fire some stringent measures must soon be taken.

St. Bon's L.A.

The sale of work held yesterday in the Aula Maxima of St. Bon's College was successful beyond the most sanguine expectations of the promoters. At 4 o'clock the Archbishop, attended by Rev. Pres. Culhane, Rev. Pro. Kennedy, and Messrs. J. J. McGrath and W. J. Carroll, representing the St. Bonaventure's Association, in a most interesting speech, reminiscent of the past and prophetic for the future, declared the sale open. His Grace paid a well merited tribute to the ladies, who have done, and are doing, so much for this educational institution. After His Grace finished the business of the evening began. A brisk sale of pretty and dainty articles of needlework took place, and when the accounts were reckoned ladies were surprised and pleased to find that they had secured another \$20 to the College fund. During the evening teas were served by a bevy of fair maidens, who attended to the wants of their patrons. A concert in which the Collegians under the baton of Prof. Flynn rendered the "Soldier's Chorus" from Faust, and in which Misses Strang, Hepler, Ross, Power, Meehan, Messrs. O'Reilly, C. Fox, Halley and others took part, was not the least pleasant part of the entertainment. In fact a pleasant and profitable evening was spent by all who participated. The promoters deserve praise, and the success of yesterday's little sale will prove an incentive to them to make a more ambitious effort later in the season, when other circles will be organized and a larger number of dainty articles will be offered for sale.

## The Kite Here. Has 4100 Seals.

The last of the Gulf fleet, the S. S. Kite, Capt. Wm. Carroll, arrived here at 10 o'clock last night to Messrs. Bowring Bros. with 1,800 young harps, 1,800 old harps and bedlamers, and 500 old hoods, and has in weight equal to about 7,000 seals. The ship struck the fat on the 18th March, and the crew killed about 2,000 on that day. The work was kept up on Saturday, the 19th, seals being plentiful about the ship. But before all could be picked up very stormy weather set in. A heavy sea ran through the foe smashing it up and it was impossible to secure any more young seals. When this weather came on a number of pans of seals were lost, but for which mishap the Kite would have a full cargo. The ship after this went down through the straits and down on the Canadian side of Labrador and was for quite a while in the neighbourhood of the S. S. Labrador, and there secured 500 bedlamers. Last week a number of old harps and bedlamers were taken, and but that the coal ran short, and the vessel had to reserve it, and could not steam about so well, otherwise she would have filled up on old seals. Captain and crew are well, but Capt. Carroll was greatly affected on learning of the death of his wife.

The Kite struck the extreme eastern end of the patch of young harps from which the Viking, Southern Cross and Harlaw took their loads, and was into the seals as quickly as these ships. The ship lost fully 3,000 seals, which included 2,000 young and over 2,000 old harps, and had not this occurred she would have had a full load. Though it was asserted by the Labrador crew that the Kite had not been seen by that ship, Capt. Carroll says he was four days nearer her and could plainly see the men on the Labrador's deck. The vessel captured 100 families of hoods west of Anticosti Island. Had the ship been more powerful when the fat was struck she would be one of the first in port with a load of fat.

## Drinking Water Scarce

In several of the suburban settlements owing to the protracted period of dry weather most of the wells have gone dry and people in many instances are put to great inconvenience to get a supply of water for household purposes. They are compelled to go long distances to brooks and streams, and a good rain storm would now be heartily welcomed.

## Mark Twain's Photo.

An article in the Strand tells this story of Mark Twain apropos of his photograph being taken by Sir Benjamin Stone: "Amongst other honours heaped upon me by Englishmen was that of being photographed in Parliament. But neither am I a member of Congress. Has any fellow-American suggested that I should be photographed in Congress? No. I blush to say that they have not. And yet here is an honour that might without risk be bestowed on any great man. And yet it was not bestowed on Washington, Jefferson, or Lincoln. When I saw that photograph with the Mother of Parliaments, in the background, and realized my advancing years, I said to myself, 'Here are two noble monuments of antiquity—two shining examples of the survival of the fittest!'"

All treatments failed for three long years—Cure complete with DR. CHASE'S OINTMENT.

Mrs. Link, 12 Walker St., Halifax, N. After the third or fourth application of this grand ointment I obtained relief, and a few boxes were sufficient to make a thorough cure. It is six months since I was freed of this wretched skin disease, and as there has been no return of the trouble I consider the cure a permanent one."

Such cures are not brought about by imitations and substitutes for Dr. Chase's Ointment. It is therefore necessary for you to be certain that the portrait and signature of A. W. Chase, M. ## That Old Winter Cough.

**The Cough Syrup You've Taken Have Sickened But Not Cured You.**

You'll Never Be Well Till You Heal the Lungs With "Catarrhazone." Nothing pulls down strength, makes you wretched, miserable and despondent like a chronic cough. The old-fashioned liquid mixtures slip down the throat, enter the stomach and do little else but ruin digestion. Catarrhazone is the only breathable cold, catarrh and cough medicine. Instead of taking drowsy drugs, chloral, morphine and opium mixtures, you simply inhale the richest pine balsams, breathe into your lungs the healing, soothing vapor of a scientific remedy that commands the admiration of all good physicians.

The extraordinary efficacy of Catarrhazone is without a parallel. A sneezing cold is cured in ten minutes, a harsh cough is eased in an hour, the most offensive catarrh is thoroughly drawn from the system. In case of asthma and bronchitis the relief and certain cure that comes from the healing balsamic extracts in Catarrhazone is simply wonderful. "For more than twenty years I suffered with a cough, bronchitis, asthma and nasal catarrh," writes J. E. Fenwick, of Staunton, P.O. "Every attack I had seemed to grow worse and I could hardly breathe on account of an accumulation of phlegm in the nose and throat. One day I tried Catarrhazone and in ten minutes was wonderfully relieved. I could breathe freely and naturally through the nose, and blood spitting was stopped—the phlegm was cleared away and my regular breathing restored. No remedy can do more than Catarrhazone."

There is no remedy so certain and safe as Catarrhazone, but being a good remedy it is imitated. Beware of the substitute. Large Catarrhazone last two months, price \$1.00. Smaller sizes 25c. and 50c. All reliable dealers of the Catarrhazone Co., Kingston, Ont.

In Third Round Caused Death of Victim at Hospital.

Rodgers was held without bail by the police, to wait action of the coroner. The referee and several witnesses were also held. Cole was injured in the third round. He received a solar plexus blow which sent him to the mat, his head striking with terrific force. The crowd began cheering at the apparent knock-out, but when a physician failed to bring Cole back to consciousness the spectators were dismissed and Cole was removed to the hospital, where it was found he had sustained a fracture of the skull. He never regained consciousness.

## MEMORY FOOD

A Case Where Memory was Strengthened by Grape-Nuts.

Food that will actually help the memory as well as agree perfectly with a delicate stomach is worth knowing of. A good wife out in Iowa who did not know which way to turn to get food that would agree with her husband, who was left in a weakened condition after a serious illness and could scarcely retain any food in his stomach, was one day induced to try him on Grape-Nuts, the famous ready-cooked breakfast food, and from the first he began to improve rapidly. In three months he had gained 30 pounds. She says that his stomach has recovered so completely that he can now eat any kind of food. She mentions the boy of an intimate acquaintance, who was so delicate and thin that his appearance was pitiable and he had no appetite for any ordinary food. He was put on Grape-Nuts liked the crispness and sweetish taste of the new food and took to it. His improvement began at once and he is now a healthy, plump boy.

"I know that Grape-Nuts will do more for weak stomachs than any medicine. The claim that it will build up and strengthen the brain has been proven to my certain knowledge. Sister, who writes for the press, and is compelled to memorize a great deal, has been using Grape-Nuts and says she is surprised at the result. There is a marked improvement in her memory and the brain works more perfectly and with better results."

Read "The Road to Wellville," found in pkgs. "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## How He Died.

The barqn. Caladora, Capt. Soper, arrived from Barbadoes at 2 p.m. yesterday after a run of 31 days. Her flag being at half-mast and the yellow Jack flying at the foremost, Dr. Brehm, the Medical Health Officer, boarded the ship and found that seaman Wm. Murphy was dead on board. Up to the 14th of April Murphy seemed to be in fairly good health, but that day complained of being unwell, and the captain saw from his condition that he suffered from Bright's Disease. Everything possible was done for the unfortunate man by the captain and his shipmates but he died on Sunday last. The deceased was well liked by his comrades on the ship being a good hearted, jovial chap. He is a single man aged 24 years. Undertaker Carnell confined the remains yesterday. They were sent to Carbonear by this morning's train.

## Have They a Lease of Life?

If men's whole time is absorbed in their occupation that they cannot give a moment to better things in life,—to charity, to education, to civic duty,—it's not because they cannot find time for it, or they don't approve of it; it's simply because they are in the habit of saying: "there is plenty of time or we'll do it to-morrow. We say live right to-day, there may be no to-morrow; we have no lease of life. So do not delay, but go to-day to B. FRIEDMAN and get your Clothing, Dry Goods and Furniture for Cash or Credit. B. After the concert a lantern exhibition was given by Mr. W. H. Goodland and Mr. W. N. Gray. Some very interesting pictures of Old St. John's were shown. Miss Murphy sang the Green Half Door, and was warmly applauded. Refreshments were afterwards served by the ladies in a bountiful manner.

## HE GOT RELIEF RIGHT WAY

Dodd's Kidney Pills Cure Kidney Disease of Eight Years Standing.

That's What they did for William O. Cain, and now he says: "Dodd's Kidney Pills are a great medicine."

Mapleton, Albert Co., N.B., April 27. (Special).—"When I began taking Dodd's Kidney Pills a great medicine." So says William O. Cain, well known and highly respected in this neighbourhood. And Mr. Cain has a very good reason for making so emphatic a statement. For eight years he was a sufferer from Kidney Disease, and did not seem to be able to get relief.

"Why, I was so bad," Mr. Cain goes on to state, "and my kidneys bothered me so that if I would go to pick anything off the ground I would fall." But Dodd's Kidney Pills cured him just as they have cured thousands of other sufferers all over Canada. They never fail to cure Kidney Disease of any kind. Not once, but scores of times, they have banished Bright's Disease, the most deadly of all kidney troubles, while every day brings stories of cures of Rheumatism, Lumbago, Dropsy and Heart Disease from various parts of the Dominion. Other kidney medicines may cure. Dodd's Kidney Pills always cure.

There was a very large attendance at the funeral of Mrs. Giles Reeves, who died with startling suddenness on Saturday last. The deceased lady's charities were widespread. She leaves a husband and nine children, to whom there is extended the general sympathy of all classes.

## Stray Shots From St. Lawrence.

The spring is opening up favorably and everyone seems to be pretty busy engaged preparing for the fishery, building and farming, etc.

One of the prettiest weddings for some time here was that of Miss Annie Grant and Mr. F. B. Farrell. The wedding took place at Lawn, the home of the bride, where everything was prettily decorated for the event. Rev. A. J. Maher celebrated nuptial High Mass, after which a wedding breakfast was served, during the course of which toasts and good wishes were exchanged. The bride's dress was white silk net over white satin with veil, and her flowers were lilies of the valley. She was attended by her sister, Miss Maggie Grant, while Mr. Ed. Grant was groomsmen. Mr. and Mrs. F. B. Farrell left by the Argyle for St. Lawrence, where they make their future home. They are still thanking their friends for valuable presents and congratulations.

The Herman Dramatic Co., who have been playing here, left by the Argyle for Placentia. The watch competition included among their plays was very interesting. Miss Olivia Vavasour was the successful winner.

There was a very large attendance at the funeral of Mrs. Giles Reeves, who died with startling suddenness on Saturday last. The deceased lady's charities were widespread. She leaves a husband and nine children, to whom there is extended the general sympathy of all classes.

Capl. Collins of the Campanula is at Hermitage with 300 gals. on her first two weeks' fishing. The Commander, Capt. Hollett, for Mr. Vigus, loaded dry fish here from Mesars. Beck, Pike and Bradley's premises. The whaler Cabot has also been around but has not found whales plentiful.

Many are not pleased with the change in the steamer route, and hope soon to see it back to the usual way again. St. Lawrence, April 25th, '10.

## Telegraph Extension in St. Barbe District.

Editor Evening Telegram.

Dear Sir,—The Evening Telegram of the 8th March contained a letter from the pen of Mr. W. M. Clapp, the worthy member of our district. This letter deals with telegraph extension and coastal facilities for the District of St. Barbe in a very plain and straightforward manner, showing that Mr. Clapp has a knowledge of the needs of his district and takes a keen interest in its welfare. With regard to telegraph extension, I should like to say that a few years ago a monster petition was presented to the House asking for telegraph extension to this coast. The Bond Government pledged itself to grant this petition, and during the last term of office telegraph stations were established at La Scie, Western Cove and Seal Cove, and we hoped that the line would be extended further north.

We agree with Mr. Clapp in saying that St. Barbe District has not received the same benefits nor the same considerations as other districts south of us, yet it is not less important when we consider that besides its resident population there are thousands of fishermen and traders from Cape John right round to the south coast of the Island who come here and either settle or remain in schooners to carry on the fishing operations. And all these interests have to be satisfied with a fortnightly mail, passenger and freight service. If our district were afforded the same facilities as southern districts many of the thousands who come among us to fish and make a living would be induced to settle permanently and make homes for themselves.

We wonder that a small boat has not yet been put on to ply between White Bay and Flower's Cove, or Griquet and Flower's Cove. This would be a great advantage to our travelling public and transportation of mails. Griquet and Flower's Cove are only 70 miles apart, and a letter posted in Griquet for Flower's Cove must first go south by Prospero, through Notre Dame Bay, across the

## Laid Up With Lame Back

Pain, helplessness and suffering overcome by DR. CHASE'S KIDNEY-LIVER PILLS.

Mrs. Frank Bloom, Hardwood Lake, Ont., writes: "I want to tell you of the great benefit I found in the use of Dr. Chase's Kidney-Liver Pills. I suffered so badly with kidney disease that when I lay down I could not get up without help. I was completely laid up with lame, aching back. I read about Dr. Chase's Kidney-Liver Pills in the almanac, got them and they cured me of kidney disease and backache."

"My husband had dreadful pains in his sides and obtained cure by using Dr. Chase's Kidney-Liver Pills. These pills are the best on the market and I am glad to recommend them." Dr. Chase's Kidney-Liver Pills are definite and certain in action, enliven the liver and bowels as well as the kidneys, are lastingly beneficial and economical. But to obtain these results you must get the genuine Dr. A. W. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

country to Bay of Islands, and north again by s.s. Home to Flower's Cove.

We have heard that the Morris Government is going to extend the railway to the district, or at least to Bonne Bay. This will be no advantage to the district as a whole, unless it were extended further than Bonne Bay. We cannot imagine that such an extravagant expenditure of money is contemplated. We were always told that the great objection to a telegraph line along the coast was that it would be too expensive, the district could not afford it; and yet we find that the Government can afford to spend hundreds of thousands of dollars to build nothing less than a railway for the benefit of Bonne Bay and burden the district with debt for future generations. The Government seems to be laying its golden egg in Bonne Bay and denying to the more important part of the district those small demands which we have been praying for so long, and which Bonne Bay has so long enjoyed, viz., a telegraph line. Give us a telegraph line first and then build your railway to your heart's content.

Our people appreciate very much the efforts of Mr. Clapp to make known to the powers that be our wants and petitions, and we hope he will continue to take the same interest in the future as he has in the past. Yours truly,  
 NORTHEASTER.

**HOW CAN WE COUNTER-ACT**

**THE INCREASED COST OF LIVING?**

A second's reasoning will supply the answer. Beef and pork are dear and getting dearer all the time, and the cost is out of proportion with their food-value.

**EAT MORE BREAD.**

There is more nourishment in a shilling's worth of bread than a shilling's worth of beef or pork. But the problem is not done with yet. The shilling's worth of bread is not always the same value. Breadmade from

**ROYAL HOUSEHOLD FLOUR**

contains more nourishment than any other, because it contains the greatest amount of gluten, the health-giving nutriment of wheat.

**Speaking of Men's Furnishings.**
