"WE HAVE REACHED THE PROMISED LAND"

That is the Message Which is Being Sent by Some of the Recent Immigrants.

HOW PLUCKY YOUNG ENGLISHMAN WON BRIDE

And Now His Father and all of the Family Have Arrived.

"We have reached the promised land," said the message that Allen Gant, a well-to-do English farmer, sent home the other day after his arrival in Canada. It is the message that 185 agriculturalists that went on the C.P.R.'s "ready-made" farms. Mr. Gant, however, came to Canada with the intention of buying land rather than moving on to a farm made to order, and back of his country was not interested in how a son led a father to the great Canadian West and won a wife in face of adversity.

It is now five years since young Gant, then 17 years old, feeling that there were no opportunities in the old country, decided to try his luck in the new. The elder man was dubious about the wisdom of the change, but the son gathered all the money he had saved in years, amounting to thirty pounds, and came here. By working for awhile for wages, he saved enough money to enable him to take up a homestead at Lloydminster.

He got along well. A year ago last March Mr. Gant became so interested that he came out here to visit his son. It was not amid luxurious surroundings that the boy was living on his homestead, with a mere hovel for shelter. When the young fellow told his father that he intended to go back home and marry his sweetheart and bring her out to his Canadian home, the father said he would never succeed.

"No girl would consent to come out and live in a place like this," he said. "Well, if she does not care enough about me to put up with a little hardship for awhile, I don't want her for my wife," replied the youth.

Father and son went home. Young Gant stated his sweetheart to become his bride and begin their married life in Canada. Did the plucky English girl consent? Well, hardly. There was a wedding then and there. To save expense all the usual frills of such affairs were eliminated. Instead of presents the friends of the couple gave them good, hard cash. They would need it on the homestead. And they are living there happily today.

And now comes the second chapter. Father Gant, seeing that his son had done so well, consented to this spring. And he brings with him his old and trusted farm hand, who had been with him thirteen years. He is going to start a new life in the new world. He has a good horse and a good cow. He has a good dog and a good cat. He has a good pig and a good chicken. He has a good sheep and a good goat. He has a good pig and a good chicken. He has a good sheep and a good goat.

PERU AND ECUADOR LIKELY TO GO TO WAR

Something About the Two Countries Engaged—What the Trouble is All About

Washington, April 7.—The state department and the Latin-American diplomatic body here are on tiptoe waiting developments of the extremely critical situation in South America between Peru and Ecuador.

War between the two republics is regarded as almost a certainty unless the United States intervenes and brings pressure to bear upon the two governments.

It is believed here among the officials that unless Peru or Ecuador requests America's good offices in settling the dispute Secretary of State Knox will diplomatically suggest interference on the part of the United States without waiting for an invitation.

The Pan-American peace conference, which is planned to hold at Buenos Ayres, in July, may be abandoned as a result of the present strained situation.

Should Peru take such action, it would place her in bad relations with Ecuador, Colombia, Chile, Bolivia and Argentina.

Such a situation would be certain to create a stormy peace conference, at the least.

With poor equipment war between the two countries would result in a long drawn out guerilla contest, according to military experts here. For the reason that the opposing armies would be unable to protect all strategic points owing to the small numerical strength of each.

But war between them probably would involve the entire western part of South America, and to prevent this interference on the part of the United States government is deemed necessary by many South American republics.

Should Ecuador declare war against her southern neighbor, Colombia would undoubtedly join her against Peru, as both governments have had a long standing dispute with Peru in connection with their southern boundary.

The upper Putumayo river region generally recognized as a part of Colombia, Peru claims by right of discovery.

The lower valley has been secured by Peru and is now held against Ecuador, which claims the triangular strip of country.

Extending to the east and north of the disputed territory is another strip of country, now held by Brazil, which Colombia claims.

It is declared because of this Brazil might ally herself with Peru against Colombia and Ecuador, with whom she is none too peacefully inclined, owing to Ecuador's alliance with Brazil's old enemy, Colombia.

ENQUIRY INTO DREAD DISEASE OF CANCER
President Taft Suggests That United States Set Aside \$50,000

Washington, D.C., April 6.—President Taft sent to congress today a message which may result in important developments in the study of the causes of cancer. The president has a appropriation of \$50,000 for a laboratory in which to conduct investigations, and transmit the results of their progress to the secretary of commerce and labor, the commissioner of fisheries and of Dr. M. E. Gaylord, director of the New York state cancer laboratory, for inquiry into the cause of cancer in fishes.

Two Proposals Placed Before the City Commissioners on Saturday Last—What City Will Do

W. L. Waines and O. G. Devenish appeared before the commissioners Saturday afternoon, and made a further proposition in reference to their proposition to construct a mile and a half of street car line from Crescent Heights to a new subdivision known as Capitol Hill, which they propose to throw on the market shortly. The subdivision lies north of the city.

ACME'S RAPID RISE AND BRIGHT FUTURE

Is Only a Few Months Old But is Quite a Town

What Happened in March
Gretna, Man., April 10.—During the month of March 2180 settlers and their families passed through this part from the United States and took up land in the Canadian west. They brought in 250 cars of their produce, valued at \$100,000.

Other nations rank in the following order: United Kingdom, Italy and Germany.

No less than fifty countries received automobiles during the year from the United States factories. The largest number go to Canada, which country last year took 1230 American machines while England was the next largest buyer, followed by France, Mexico and Australia, in the order named.

KITCHENER DID NOT RESENT CRITICISM
He is Returning to Britain at Once Because He Had to go on Important Business

San Francisco, April 9.—With his usual inclusiveness, Lord Kitchener today denied the story that criticism of his work had caused him to cut Canada out of his itinerary.

"I suppose business at home," he said, "is the only reason of my not going to Canada. Any statement credited to General Kitchener, or the chief of the Canadian contingent, did not influence me to change my route of travel. I intended to visit Canada until important business here required my presence. I will leave New York no later than April 16."

A Bad Year for Goats
San Antonio, Tex., April 9.—It is estimated that 90,000 goats perished in the Rio Grande valley as a result of the recent heavy rains which were accompanied by cold winds.

Many Injured But None Killed
Spokane, Wash., April 9.—Two Northern Pacific passenger trains have just collided near the city limits. It is reported that many were injured but nobody killed.

Violent Scenes in French Elections
Anarchists and Revolutionary Groups Interrupt Premier And Make Much Trouble

Paris, April 9.—The business section of Mido town, nine miles from here, an important manufacturing town of about 10,000 people, was swept by fire today, about 15 buildings being burned, with a loss of about \$300,000. The town was in danger for two hours, but by the combined efforts of firemen, from this city, Lancaster, Columbia and Steeton, and the use of explosives, the fire was stopped. With the exception of about a dozen buildings, such as the auditorium, Y.M.C.A., market house, Odd Fellows building and a few large stores and residences, the majority of the buildings destroyed were small one-story frame structures, containing stores, restaurants, pool rooms and offices. Many of the occupants lost everything.

Violent Scenes in French Elections
Anarchists and Revolutionary Groups Interrupt Premier And Make Much Trouble

Paris, April 9.—The opening of the electoral campaign here by Premier Briand was marked by violent counter demonstrations by anarchist and revolutionary groups, who interrupted the premier's speech by his constituents by smashing the windows and shooting off revolvers. Premier Briand's address needed moderation and peace, gaining the attainment of social reforms by pacific and gradual methods. "The republic," he said, "owes to all equal justice and liberty."

WRIGHTS CONTROL THE AMERICAN AIR

Agreement Reached Between The United States Aviators And The Aero Club

New York, April 8.—The Wright brothers reaching an agreement today with the Aero club of America, which assures the future of aviation contests in this country. The Wrights agree to issue licenses to those aviators who do not use Wright machines, and the Aero Club agrees to countenance the contests unless the aviators competing shall obtain licenses from the Wrights. In short, the Aero Club of America, will dictate the conditions of all aviation contests in this country during the life of the agreement and the validity of the Wright patents.

The terms of the agreement assure that the international contests for the Gordon Bennett trophy, will be held in this country next fall. Although the place of meeting has not been chosen, New York is now favored.

Since the Wright brothers won in the United States course, the preliminary contest for the Gordon Bennett trophy, the outlook for the international meet has been dubious. Cortland Field Bishop, president of the Aero Club, has expressed a very strong feeling for foreign aviators who wished to know what guarantee would be offered that they would not be prevented from flying if they brought their machines to this country. Without any assurance they were unwilling to come.

To settle the question, Mr. Bishop and a committee of the Aero Club met with the Wright and Andrew Freeman representing the Wright company, in this city. The conference began yesterday, and at its conclusion today, Mr. Wright and Bishop a letter setting forth the position of his company.

PRITCHARD SAID TO HAVE TRIED TO BRIBE UNION MAN
Carey Says He Was First Offered Job, Then the Cash

Watertown, N.Y., April 9.—William Pritchard, claiming to be a member of the brokerage firm of Hamlin & Pritchard of St. Louis, Mo., President J. T. Carey of the International Brotherhood of Paper Mill Workers, claims to be the name of the man who in the alleged interest of the International Paper company has been following him about for the past week offering him a \$25,000 bribe if he would call off the paper makers' strike, and use his influence to get the men back to work as individuals and accept a 5 per cent. increase in wages. The man, according to President Carey, has for several months been in the employ of the International Paper company as a spotter, and has been going around in some places and as a perfume agent.

President Carey claims that he was offered something from \$1,000 to \$25,000 to a life job with the international, the superintendent of any of the international mills, he had no reason to be regarded as either a hero or a traitor. He declines to say whether he has accepted the bribe, in which he also claims the representatives of the company have been following.

GERMAN SATIRIST AFTER T. ROOSEVELT
Maximilian Harden Seversely Satirizes Theodore the Great

Berlin, April 9.—Under the heading of "Theodore the Great," Maximilian Harden makes a bitter attack on President Roosevelt in yesterday's Skunkin. He declares that Germany have no cause to throw themselves at the Rough Riders' feet, because, notwithstanding minor count, he had no reason to be regarded as either a hero or a traitor. He declines to say whether he has accepted the bribe, in which he also claims the representatives of the company have been following.

CHILDREN WANTED AND MANY OF THEM

One Hundred and Ten Applications for Babe to Adopt

MR. CHADWICK TELLS OF WORK AMONG CHILDREN
Some Very Bad Boys All Becoming Very Good Citizens.

One hundred and ten children homes in Alberta are yearning to adopt a babe, but R. B. Chadwick, provincial superintendent of the dependent and delinquent children, finds it impossible to supply the demand. He said yesterday he had placed 356 children in homes during the past year.

"No, there is no difficulty in getting good homes for children," he explained. "The little girls almost find homes for themselves. They have a more attractive and winning way about them than the small boys, and have no difficulty in making a hit with prospective foster parents. Under seven years of age, however, there does not appear to be much preference between the boys and girls."

All adopted children are kept under close surveillance to see that they are treated properly. About 70 per cent of the children don't fit into their new environment and have to be changed. Sometimes this is the fault of the persons who get them. It is surprising the number of persons who attempt to adopt children merely for the purpose of getting the benefit of their labor.

Mr. Chadwick discovered a case of this kind near Westlock, where the foster parent was horsethieving the boy who was working in the field. Mr. Chadwick could not save any money himself, agreed to have all his earnings above living expenses turned over to Mr. Chadwick in trust. The result is that the lad, now 19 years old, has saved \$600, and has gone on to a homestead. Another 13-year-old, incorrigible, who had served time in the mounted police barracks, has been adopted into a good home in Raymond, and is giving no trouble.

"I believe this system of taking care of delinquents much better than the institutional system," says Mr. Chadwick, "and this is the experience everywhere. In Ontario a children's home costing more than a million dollars, has been abandoned on this account. The plan is to keep the children on probation and get them into homes where they will be encouraged to be good men and women. The rules of a reform school are similar institution repress their individuality too much."

"As far as I can judge from reports I have seen from other places, the homeless delinquent child problem is dealt with more cheaply in this province than in any other part of the continent. Out of six of our children are in reformatories."

GOVERNMENT GIVES BAIL TO THE IRISH
Concessions to Nationalists by Lloyd George in Return For Their Aid of The Asquith Government

Cork, April 9.—Wm. O'Brien speaking tonight, said that Chancellor Lloyd George promised the Nationalists as concessions for their support of the government, relief from the spirit, stamp, and succession duties, licenses and land taxes, and from a general re-valuation. He offered also to amend the provisions for the land purchase bill, conditional on Messrs. Redmond and Dillon meeting O'Brien and Leally. The refusal of Redmond and Dillon to meet their Irish colleagues said Mr. O'Brien meant ruin to home rule. They would not ruin survive the anger of their countrymen. He denounced as an insult the forthcoming visit of Messrs. Dillon and Redmond to Cork to inaugurate a campaign in south Ireland.

Baseball Pres. Savage Will Resign - Lacrosse New Rules for N.L.U. - Racing Big Year in Horse Circles

SAM SAVAGE WILL QUIT PRESIDENCY

He Has Too Much Business on Hand to Hold the Job—Meeting to Decide Tonight

A meeting of the executive of the Calgary professional baseball club will be held this evening. This will be an important meeting, in which several matters pertaining to the club will come up for discussion.

It was announced on Saturday that Mr. Savage will resign his office as president of the club and will be read at the meeting on Monday. His reason for resigning is that he has too much business on hand to hold the office.

The decision of President Savage will be regretted by the lovers of baseball. He has done splendid work in connection with the club and his services will be missed in putting it on its feet.

While not wishing to hold any office Mr. Savage will continue to give the club all the support in his power. Who will fill Mr. Savage's position is not known. There are several possibilities before the club in Mr. H. Middleton and Secretary T. A. Hornbrook.

Whether these gentlemen will accept the position remains to be seen. On Saturday President Savage received several letters pertaining to baseball affairs. Among the important ones was one from Bill Carney and Manager Brown of the Vancouver Beavers. The Calgary manager gives a good account of his progress. It is announced that today is the day of all days, when the Calgary baseball players old and new, will report to him at Seattle. Carney expects to bring with him a number of players for a few days, until the weeding-out process begins.

Manager Brown states that he will in a day or two divide the names of the men proposed to Calgary. These players have been doing real stunts in the test games at Vancouver between the regulars and Colts. Two of Carney's men had two hits each at four times to bat.

Another who has been promised to Calgary played in the outfield for the regulars. He accepted three chances and made two hits for four times up.

Harry Rush and Wally Smith of last year's Calgary team played on the Col's line-up. Rush pitched and Smith played at third. Harry lost his game by five to four. Smith was up four times with a hit, one put-out and three assists.

CALGARY'S SEMI-PROS WILL BE STRONG

The First Workout on Saturday—The Team Will be a Pretty Strong Aggregation of Players

Saturday afternoon the first practice of the Calgary semi-professional team was held at the stadium. A few candidates turned out. It looks as if this team will be plenty strong enough to give Bill Carney's band of hot hitters a good run, and a pretty strong aggregation of players.

Of the new men, Dick Tibbitts shows up strong. For Dick has already played in faster company than the Western Canada League, and although he has been out of the game for the past year he is in good shape. He is a left handed pitcher and will play in the outfield.

Red Hoar will also be played in the outfield. Red played a short season last year with the professionals and made a good showing.

Turner of the 1907 professionals will probably be the other outfielder which should be a pretty strong outfield. Turner is also a catcher and a good left handed batter.

Although Jimmy Hester expects to go south to Clearwater shortly, he will be on hand for the exhibition games and will probably do the catching. Jimmy has his eye on the ball this spring and is hitting them hard. Young Mills brother of the Edmonton player will be used as change catcher and utility man.

Charley Crist and Weir who will do the pitching were both on hand and made a strong pair of pitchers. Weir has been working out for some time and is in good shape. But as Crist has had more experience and we are out to win a few of these games, Charley will do the most of the pitching.

Lepper will do most of the work on hand and play an infield position and with Lepper on short and Chan at 3rd with the exception of a few positions the team is complete.

Practice will be held from now on in the evening, as some of the players cannot get away during the day, and the nights chosen for practice will be announced through the Albertan sporting columns.

All ball players who are strangers in the city are welcome to try out for the team, and as there is to be no favoritism shown, the positions will be given to the most competent men.

Charlie Crist states that he will give up the management of the semi-pro team after the Western Canada League season opens. The team will then be turned over to Chandler of the Home Plate. Under Chan's management he will see that the team gets plenty of practice and games.

With the fast teams in the southern and Central Alberta leagues the semi-pros will get lots of practice. Then again there will be the Brewery cup and Alberta championship to look after and there promises to be many challenges this summer. These competitions. Chandler is a good man, having played, as all fans know, on the Calgary 1907-9 professional teams, and from the players he will have they should easily be able to defend the Brewery trophy against any other team in Alberta.

Pitcher Has Diphtheria Dayton, Ohio, April 9.—According to a message received by Manager Chance of the Cubs, from Mrs. Reebach, pitcher Reebach is down with diphtheria and will be unable to report to the team for some time. He is now at his home in St. Louis, where he went when his child was attacked by the same disease.

Men's Hats In the NEW STYLES

The soft felt hat in new and attractive styles is finding favor with many men just now. We have a fine range and can suit most any man's fancy and his pocket-book as well. Price \$1.50 to \$5.00.

Also Stiff Felt or Derby Hats in all the leading styles. Price \$2.50 to \$5.00.

John H. Hanna The Hatter 130 8th Ave. West

GOOD JUNIOR GAME WON BY IROQUOIS OF CALGARY

Defeated the West Enders by a Score of Four to Nil.

The South Side Iroquois defeated the West Enders by a score of 4 to 0 on Saturday at Mewata park. Both teams are in the Junior City league, and the battle was a real earnest one.

The game was hard fought and snappy fielding that backed up brilliant pitching were the features.

McInnis, the Western Canada college star, started to pitch, but failed to finish. McDonald having to complete the task for the West Enders.

Kenny pitched the nine innings for the Iroquois and only allowed four men to reach first, one having a pass and two others through errors, while McInnis connected safely in the ninth.

This hit was the only one the West Enders made. Stranahan, the west star of the South Side, played fast ball and had seven assists to his credit, while he only missed one. McInnis fanned seven. McDonald three while Kenny fanned six. We've caught well for the victors.

Strong C.N.R. Baseball League Lloydminster, April 9.—Arrangements are being made for the organization of a strong Northern Alberta league composed of teams along the C.N.R. This league proposes to take in Lloydminster, Vermilion, Vegreville, Lamont, Manville and Fort Saskatchewan.

Several of these clubs have already organized for the season, and expect to have good teams. A meeting of league delegates has been called for Vegreville some time this week to get things in shape and make final arrangements for the league.

Referee and Judge of Play. Mr. McPhee's amendment then came up. They were as follows: Amendment of Rule 8.1 Constitution and By-Laws National Lacrosse Union. Section 1.—Each club in this union will at the annual meeting submit a list of names of persons from their respective clubs capable of acting as referee or judge of play from which a board of referees consisting of not more than four persons from each club will be selected. It is understood that clubs should submit a list of names of persons from which a board of referees consisting of not more than four persons from each club will be selected. It is understood that clubs should submit a list of names of persons from which a board of referees consisting of not more than four persons from each club will be selected.

Section 2.—The referee and judge of play shall be thoroughly disinterested parties and shall not be interested in any bet upon the results of the match.

The first section was lost without much discussion. In regard to the second section, it was considered that some clubs could not guarantee that four men would act when called upon. Mr. Quarris said they could not. Mr. Murphy of Toronto approved of the idea.

The section was adopted with this change: That the clubs should not be obliged to guarantee that their men should be ready to act at all times, but that each club should send in six instead of four by the first of May.

The election of officers, which was preceded by a little speech by Mr. St. Perre, thanking the clubs for their sympathy. He proposed as his successor, Mr. St. Perre, and Mr. P. L. L. seconded this. He was elected amidst loud applause. Mr. Solman expressed his thanks in a few well chosen words and promised to do everything in his power to make lacrosse a success. Messrs. Foran and Quarris proposed Mr. Peter Murphy of the Shamrock as vice president and he also made a neat little speech of thanks.

The first important business during the afternoon was something that probably will jar New Westminster, and consisted of the dates upon which Montreal would be permitted to play for the Minto cup. These dates are: July 3, 16, 23, and 30.

Next came the document that President Solman was to present a N.L.U. championship trophy on the condition that it be made open to the world, and that the winners agree to defend it against any club in the world that will challenge it.

SOME CHANGES IN THE LACROSSE RULES

The Annual Meeting of The National Lacrosse Union Was an Unusually Harmonious One

Montreal, Que., April 9.—The morning session of the National Lacrosse union convention today was one of the most harmonious meetings of the sort ever held.

The business of the meeting was started by the reading of the exhaustive report of the president. He thought that lacrosse was a good deal more quiet and devoid of regulations than football. He paid a compliment to the way in which a member of the union, Mr. Foran, had been elected as president. He was convinced that as long as men like he and Mr. Solman were at the helm, there was no need of a paid president.

The amendment by President Finlay of Montreal to prevent the migration of players, and which read as follows, passed by a large majority.

"Any man having played for any club in this union during the season of 1909, or any subsequent season, who shall play in any match for any senior club who is a member of the union, shall not be eligible to take part in any matches in this union for a period of two years from the date of the last match played in by him outside of the union in violation of this rule. Amend section 3, rule XI, laws of lacrosse to include section 3, rule X, as a deliberate foul."

Mr. McPhee of Cornwall, moved to have the measure retracted as far as 1908 to protect Cornwall which was always being raided, but Mr. Foran and Mr. Quarris said that other clubs were as badly off in that respect. Mr. McPhee decided not to move his amendment.

To Prevent Tripping. President Finlay's second amendment was to try to stop deliberate tripping. President Peter Murphy of Toronto, the warden, to leave the rule against pushing players with the hand taken out. The amendment was finally passed in such a way that it made tripping a deliberate foul.

The Resurgence Rule. Mr. Quarris's residence rule came up next. He said the rule as it stood now was only a joke. He has been accused of trying to limit the number of players. Mr. Quarris said that without the change, but he thought it would do the National game good. The rules about the ownership of players never were passed by Mr. Foran, almost unopposed. Mr. J. A. Murphy thought the Mason and Dixie line should remain.

Mr. Foran's amendment was to have a \$5,000 deficit to keep the Toronto club alive. After some further discussion, Mr. Quarris withdrew all his amendments and it came to holding the annual convention in the city, which the president accepted. This was unanimously adopted.

Referee and Judge of Play. Mr. McPhee's amendment then came up. They were as follows: Amendment of Rule 8.1 Constitution and By-Laws National Lacrosse Union. Section 1.—Each club in this union will at the annual meeting submit a list of names of persons from their respective clubs capable of acting as referee or judge of play from which a board of referees consisting of not more than four persons from each club will be selected. It is understood that clubs should submit a list of names of persons from which a board of referees consisting of not more than four persons from each club will be selected.

Section 2.—The referee and judge of play shall be thoroughly disinterested parties and shall not be interested in any bet upon the results of the match.

The first section was lost without much discussion. In regard to the second section, it was considered that some clubs could not guarantee that four men would act when called upon. Mr. Quarris said they could not. Mr. Murphy of Toronto approved of the idea.

The section was adopted with this change: That the clubs should not be obliged to guarantee that their men should be ready to act at all times, but that each club should send in six instead of four by the first of May.

The election of officers, which was preceded by a little speech by Mr. St. Perre, thanking the clubs for their sympathy. He proposed as his successor, Mr. St. Perre, and Mr. P. L. L. seconded this. He was elected amidst loud applause. Mr. Solman expressed his thanks in a few well chosen words and promised to do everything in his power to make lacrosse a success. Messrs. Foran and Quarris proposed Mr. Peter Murphy of the Shamrock as vice president and he also made a neat little speech of thanks.

The first important business during the afternoon was something that probably will jar New Westminster, and consisted of the dates upon which Montreal would be permitted to play for the Minto cup. These dates are: July 3, 16, 23, and 30.

Next came the document that President Solman was to present a N.L.U. championship trophy on the condition that it be made open to the world, and that the winners agree to defend it against any club in the world that will challenge it.

JOE KELLEY—The Manager of Toronto Baseball Team.

They Are Getting Ready For the Season Which Will Open Here on Victoria Day

At the present time there are more race horses in the city than at any previous year, which speaks well for Victoria Day races.

Now that the Millar bill has been beaten, all the race track associations in Canada are very busy. The Calgary Turf club and Matinee club are the number. Freddie Johnston, secretary of the Matinee club, stated that in all probability these clubs, or perhaps only the Matinee club, would hold the opening meeting on Wednesday evening next.

Besides the training of the horses, the secretary is very enthusiastic about the prospects of the coming season. There is a possibility that the Victoria Day races this year will be turned into a regular two days' event.

The duties of each club are to trotters and pacers, all of which will be entered in the different race meets.

Alex. Story has seven fast horses, with a large prize list. Entries would come from many big outside circuits. Already there is a large number of horses from outside circuits in the city, training for the coming season.

At Johnnie Hamilton's barn there are eleven coast horses. These include trotters and pacers, all of which will be entered in the different race meets.

Moode Bros., besides Monie Must and Don M., will this year have Grey Ghost and several colts.

The shooting of the Calgary Miniature Rifle club was exceptionally good last week. Class B scoring on the average with Class A. Very keen competition existed for the medals in both classes. E. Kaye and A. Chamberlain being tied in Class A and J. G. Innes winning this week in Class B. Declared target—possible 100.

The third of the four rifle league matches fired by the Calgary Miniature Rifle club, was fired on Tuesday, April 5. Remarkable scores were made when you consider the number of members who took part, there being only thirteen men fired. The highest score to count. Some of the eastern clubs competing, have as many as two hundred men fire in this competition, but with all this handicap it is going to be a stiff team to beat the following scores. The other matches have been only one and four points below these scores. N. R. A. scores, possible 50:

E. S. Sales 49 53 102
J. S. Freeze 97 93 190
H. A. Crofton 85 94 179
F. W. Herring 85 91 176
A. Storran 92 95 187
W. McKenzie 94 91 185
H. A. Crofton 88
W. Pearce 92 91 183
A. R. Carmichael 88
H. A. Ford 98
R. W. Chamberlain 95
A. Martin 96

Class B:
J. G. Innes 96 94 190
W. Mann 92 94 186
The third Rifle League match will be fired today. All members must attend.

How New York Beat Yale New York, April 9.—The New York Nationals shut out the Yale University team in a one sided game this afternoon, score: New York 14, 14, 3; Yale, 0, 4, 7.

CALEDONIAS REPLY TO THE CELTIC TEAM

Explains Just What Happened at the People's Shield Competition in Calgary, Last year

Those who follow the football game in Calgary, and read the article in Saturday's Albertan, taken from the Winnipeg Free Press, regarding the calling of the Celtic Football Club of Vancouver to the People's Shield, are surprised and somewhat amused.

The chief item of interest in the article was that the shield was not properly managed and second that the Celts are claiming it because they played a draw game with the Celtic in Calgary, taken from the Winnipeg Free Press, regarding the calling of the Celtic Football Club of Vancouver to the People's Shield, are surprised and somewhat amused.

The chief item of interest in the article was that the shield was not properly managed and second that the Celts are claiming it because they played a draw game with the Celtic in Calgary, taken from the Winnipeg Free Press, regarding the calling of the Celtic Football Club of Vancouver to the People's Shield, are surprised and somewhat amused.

When the Caledonias and Celts got into the final, it was decided to play extra time, that evening. The Calgary club suggested and the Celts accepted, neither having any thought of a drawn game, that for the sake of a good game the game be played in the evening.

This was accepted by the Celts team without protest and the Celtic representative at the time told Dr. Innes they were at a heavy expense coming to Calgary, and if a better game could be got by playing in the evening that could be got in the afternoon the Celts were willing to accept it.

"At the close of the game the result was a tie. This necessitated a play off and it was too dark to entertain any idea of playing extra time, that evening. Vancouver stated they could stay over until Monday and play as suggested by the Caledonias, as they were to get back home. Thus the Celtic team decided to forfeit the play off, and left for home, without making any claim to the shield.

"After arriving home they started a campaign of sympathy, to get possession of a championship which no organization would think of accepting without their first winning game. In the year before the Caledonias had to remain in Vancouver for weeks to protect the shield.

"That the People's shield is no without any business method is apparent to everyone, but that it is to the powers that be. The Calgary Caledonias have done their share towards making the success this year's championship should be. They have travelled away from home on two occasions and are again willing to do the same to defend their title."

Football Notes The football match between the U.S.A. and Normal "knock-out" game for Saturday did not materialize, several players of both teams failing to put in an appearance. A practice game by a number of players at the park took place and a good workout was had.

A general meeting of the Maple Leaf football club will be held this evening at 8 o'clock at the home of 10th Ave. The members of the club are requested to turn out at 8 o'clock, as much business will come up for discussion.

A practice of the Maple Leaf football club will be held tomorrow evening at Mewata park at 6:15 sharp. All players of the club are asked to be on time in uniform.

That the league will make arrangements for the R. O. S. charity football game to be held during the schedule season, is very popular amongst the football players. The present holders of the Caledonias, but owing to the schedule being delayed last year, was not played.

The St. Mary's juniors and the Western Canada College meet in a friendly game of football this afternoon on the College grounds. The game does not promise to be extra fast, because the Saints have had little practice this year.

Diarrhoea should be cured without loss of time and by a medicine which kills Chamberlain's Colic, Cholera and Diarrhoea Remedy, not only cures promptly, but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by all Druggists.

Choynoski Will Train Jeff Chicago, April 9.—Joe Choynoski, the veteran prize fighter whose record includes a twenty round draw with Jeffries, and a three round knockout administered years ago to Jack Johnson, telegraphed Jeffries today, that he would act as his sparring partner. Choynoski will leave for the west next week.

George Cotton the colored fighter, signed up as a sparring partner with Johnson today.

MANY RACE HORSES IN THE CITY TODAY

They Are Getting Ready For the Season Which Will Open Here on Victoria Day

THE A. & G. W. RAILWAY DEAL.

A month ago the Albertan, in summarizing up the facts in connection with this iniquitous railway deal, put it somewhat like this: A bunch of promoters not one a railway man, upon a discounted note for \$50,000, secured from Alberta government a guarantee of \$20,000 a mile for 350 miles of railway to run from Edmonton to Fort McMurray, though the distance is less than 300 miles.

President Taft proved himself a ready diplomat, one worthy of that markable clause in the tariff bill which he so frequently leads. That clause was to be inserted as a menace to the world as a whole, but the tariff was not to be enforced against any nation, the minimum having been granted in all cases.

The Boston Herald points out that "it must be recognized that the concessions made by Canada are comparatively unimportant," and continues as follows: "What is important is that a basis of direct negotiation of tariff differences has been reached. It is a reason. That reason is because it is unanswerable. And we are asked to support a deal like that."

MR. CUSHING AND THE A. & G. W. If the province ever succeeds in unifying the chain which Mr. Clark and his associates, favored by the provincial government, placed about its neck, it gets free of the clutches of these promoters, Mr. Cushing will be the man to whom the people of Alberta will be most indebted. There is no question about that. There can be no argument about it.

Yes, but wasn't Mr. Cushing a member of the government when the bill was put through and became an act? asks the government supporters. Mr. Cushing was a member of the government when the company received its charter, but it is a long cry from granting a charter, to showing all the favors which it now possesses and handing over a half-million dollars or more of money, which the province should have had its hand upon at the present time.

The company received its charter and subsidy agreement while Mr. Cushing was a member of the government. It has been explained a number of times that previous to this deal, the company had been removed from his department. He wanted the right kind of a man to have in control while this thing was going on.

It is also known to all that the bill was not put through until the very end of the session of 1907. It is so known to Calgary people that Mr. Cushing was in the Edmonton hospital towards the end of the session and came to the house for the first time on the day that this bill received its final reading. He was there to hear the premier make the announcement that the full guarantee of \$20,000 a mile was the maximum, and that it would be given only when earned. That statement was not correct, but how was a member of the government who had not been in the house for some days and not at a cabinet meeting during that time, to know? You have to believe a premier some times.

But that is only the beginning of the thing. That act is objectionable because it gave a "hoop hole" for what was to follow, but it would have been possible to use that same act to nullify a contract with a company which would have been a credit to the province. The objection to the act is not so much that it was very bad, as that it was a vehicle that could be used to make this terrible agreement. Hon. W. H. Cushing would have taken that act and made a railway agreement that would have been an advantage to the province.

Following the act came the specifications and the agreement, and the bond issue, and the organization of the company and all that sort of thing. It is a good thing that a good agreement and no bond scandal and a strong company of railway builders, the act might be defended. Was Mr. Cushing a party to any of these atrocious administrative enactments? He was not.

As soon as he saw that the interests of the province were jeopardized he revolted against the government, which was insisting upon the bad deal. That is the way he took. He allowed the act to pass, but though trusting too far in the honesty of his colleagues, even then, he permitted no other step to be made without raising the alarm. The worst thing that can be said of Mr. Cushing is that he allowed the act to pass through. But that act could have been thoroughly protected had Hon. W. H. Cushing been in command of the railway department of the province.

THE TARIFF PACT

There are newspapers on both sides of the boundary line—a few of them—whose hostility to the administrations now in power in the countries, respectively concerned, ensured an expression of dissatisfaction with whatever tariff settlement might be brought about between Canada and the United States. Thus in Canada the public has seen some Conservative journals lately attacking the arrangement

which others have had the courage to approve, while in the States the terms of the agreement are also criticized severely in some quarters, as being disadvantageous to the republic. Readers who see both Canadian and American newspapers are thus able to behold Mr. Fielding arraigned for making what part of the Canadian press alleges is a bad bargain, and at the same time to see Mr. Taft cartooned as "gold-bricked" by some of his own countrymen.

There is no tendency on the part of the U. S. press to claim a victory. "The concessions made by Canada are of a most indifferent nature," remarks the Detroit News, "which tells very plainly what it thinks of the American tariff, which precipitated the trouble. 'So well devised was that act for making unnecessary trouble, that it required a more than masterful diplomacy to prevent its holding friends, enemies and operators alike. Manifestly the only way out of such a ridiculous situation was to beg Canada to furnish us with an excuse for not applying the maximum tariff, which excuse, a petty one to be sure, was duly furnished by the humane Canadians. Thus we were prevented from biting off our nose to spite our face."

"President Taft proved himself a ready diplomat, one worthy of that markable clause in the tariff bill which he so frequently leads. That clause was to be inserted as a menace to the world as a whole, but the tariff was not to be enforced against any nation, the minimum having been granted in all cases."

The Boston Herald points out that "it must be recognized that the concessions made by Canada are comparatively unimportant," and continues as follows: "What is important is that a basis of direct negotiation of tariff differences has been reached. It is a reason. That reason is because it is unanswerable. And we are asked to support a deal like that."

The government has agreed to the railway promoters' conditions, that it brought \$10,000,000, and said to the Waterways people: "Here, go sell these give us \$7,000,000 and keep the change. You may need it in your business. That a million comes in handy these hard times." And then we are asked to believe that Taft is a man of business at all, and that we have no right to question it.

The Edmonton Capital has a very ancient cartoon idea, adapted to its own purposes, representing R. B. Bennett looking to the side of the C. P. R. It does not include the picture of either M. C. P. R. Minty or Mr. C. E. R. Robson, who are as closely associated with the C. P. R. as Mr. Bennett, but who are now trying to save the life of the Waterways. And while the Capital is on the voice ownership business it might be of interest to the public to know the inspiration of the voice of the Capital.

LETTERS TO THE EDITOR. The School Program. Calgary, Alberta, April 6, 1910. Editor Albertan.— Apropos to your remarks on the program of studies in schools as announced at the teachers' convention, allow me as one who was a seceder of the motion picture teaching of history and natural study, to say a word.

You admit in your editorial that the program as taught in the schools is overcrowded. Recent letters have appeared in your columns emphasizing the same fact. The great majority of the teachers attending the association held last week, admitted the same thing yet when a remedy is proposed, all those dearly loved subjects that have overcrowded the curriculum are too precious to part with even in part as subjects for examination, simply because they have clung to our system of education.

The great majority of the teachers attending the association held last week, admitted the same thing yet when a remedy is proposed, all those dearly loved subjects that have overcrowded the curriculum are too precious to part with even in part as subjects for examination, simply because they have clung to our system of education.

He cannot concentrate his mind on any one subject of thought for any time. His interest is no sooner aroused in a lesson than he is offered off to another subject, and an entirely different nature, very often distasteful to him (for all have not the same inherent tastes). His further research in the subject of his choice is checked. He must follow out the cast-iron system of the programme, whatever details, whether suit very often is discouraged. To return to the subject discussed and proposed at the convention, namely to eliminate in part the large course of study at present prescribed in English history and natural study. This motion was passed at the meeting of the elementary section of the association which consisted of the large majority of the teachers, although they were many not present at the meeting. The resolution when brought up at the full convention was voted down by a small majority. The High school section largely opposed the motion. The subject of the resolution however did not bear on High school work, but dealt with the work of Standard V. of the Public school, which standard is above all others the most valuable in its work as outlined. English history as prescribed by the present programme is a course of rote learning. The teachers realized that if the program of studies was to be shortened this is where the shortening process should begin. The course was altogether too long. Stripping as it does from a period of about 55 B. C. to the present time, about 2000 years covering all imaginable topics, some of them not at all calculated to teach civility and good citizenship as a noted educationalist present stated that history's mission largely was.

Does not the greater part of ancient history deal with the details of devastating wars begun from the time of the Trojan war and are not such wars taught by a religious text, and rightly might it be said that history would ask for loyalty and patriotism be inculcated by these details of slaughter and destruction? And the study of these is made compulsory by examination? Other matters dealt largely with the intricacies of unscrupulous monarchs with the plotting of royal claimants for the throne, and civil wars produced thereby, with the study of kings and other bits of history of this sort, literature, teach patriotism and good citizenship? If so then the average mind of the teacher, and the same kind of patriotism especially when the latter is not made compulsory examinations.

History which traces the changes and growth of the constitution, which gives in concise form our methods of governing, and the functions of the different parts of the machinery of government, and which treats of the relations between the people and the governing powers and the respect due to all authority, thus it is the need of the schools of today, and not the study of mass of disconnected facts or fables, that at present is labeled "history" and which the already overburdened faculties of the child must assimilate before he can pass his examination.

J. A. CONNELLY. How Gleichen's Name was Obtained (Gleichen Call). Gleichen is so frequently confounded with Galician that it may be interesting to many of The Call readers to learn some facts concerning the man who is accountable for this town having such a name. About the time the C. P. R. was completing this far west Col. Count Gleichen made a tour of this country, and in honor of the gentleman this place was given his name, and made a divisional point at the time. In spite of the German name and title Col. Count Gleichen is an English soldier and in every sense of the word a Briton, and his engagement to Hon. Sylvia Edwards, one of the maids of honor to the Queen, has recently been announced. He spent a number of years in Canada and the name of Count Gleichen, has been a military attaché of the British embassy at Washington.

Besides being the godson of King Edward, and one of his favorites, Count Gleichen is also his cousin. For his father, the late Prince Victor Hohenlohe, who as Count Gleichen rose to the rank of admiral in the English navy and distinguished himself in the Crimea, was a favorite nephew of Queen Victoria, being a son of her half-sister, Princess Feodora Leiningen. Prince Victor, on marrying Lady Victoria, assumed the title of Count Gleichen, which belonged to his family, and abdicated his rights and prerogatives as a son of one of the mediators or formerly reigning

houses of Europe, descending to the rank of a mere noble. Otherwise he would have been a handsome suite of statues of his house to marry Lady Laura Morganatically. Prince Victor's sister was the mother of the present German emperor, and Count Gleichen is therefore a first cousin of her German majesty. Thanks to this he enjoyed an exceptionally privileged position at the Kaiser's court and in Berlin society while acting as military attaché of the British Embassy there before being transferred to Washington.

Count Gleichen's mother now bears the title of Princess Victor Hohenlohe by virtue of an order of Queen Victoria, although it is not recognized on the continent, and has a country place at Ascot and a handsome suite of apartments in St. James' Palace. Count Gleichen is her only son, and she has three daughters, the eldest of whom, Princess Feodora, has achieved no little fame as a painter and as a sculptress having won prizes, both at the Royal Academy and at the Paris Salon.

Cousin Victoria, who has transformed the latter name into Valda, is married to Capt. Percy Macchell, who was under secretary of state in the department of finance of the Egyptian government until quite recently, and is the son of the famous Capt. Macchell. By permission of the King she has dropped her German title of countess and styles herself Lady Valda Macchell.

Col. Count Gleichen, who is known to his many friends in the army and in society by the nickname of "Gleichen," has seen a good deal of active service, having taken part in most of the Egyptian campaigns; is a graduate of the staff college, has been attached to special missions in Morocco and Abyssinia, countries about which he has written, and was so badly wounded in the last war in South Africa that he was reported dead. In fact, his recovery was little short of miraculous.

The Hon. Sylvia Edwards, his future wife, is the favorite maid of honor of Queen Alexandra, as she was also of the late Queen Victoria, is 30 years of age, a most accomplished musician, and spent some six years of her early girlhood in Washington, where her father, the Hon. Henry Edwards, brother of the fourth Lord Kensington, was secretary of the British Legation from 1857 until 1859. Her family is a Welsh one, founded by Tnyr ap Cadforch, one of the great nobles of ancient Wales, and counting among his ancestors many of the former kings and sovereign princes of Wales.

The name of Edwards came into the family in the reign of Queen Elizabeth, probably because it was less jaw breaking than the original patronymic, and ever since it has been used as such by the house of which Lord Kensington is the chief. One of its members is on the operative stage at Cliveden Gardens under the name of "Mrs. Edvine." She is the wife of the Hon. Cecil Edwards, younger brother and heir of Lord Kensington, and a Canadian by birth. Her maiden name was Marie Martin. She is the daughter of F. X. Martin of Vancouver, the widow of F. Burton, and married the Hon. Cecil Edwards about ten years ago.

Railway Men Accept the Terms. Cincinnati, April 9.—After a conference today between the switchmen and officials of the Baltimore and Ohio Southern railroad, it was announced tonight that the switchmen had accepted an advance of three cents an hour.

He cannot concentrate his mind on any one subject of thought for any time. His interest is no sooner aroused in a lesson than he is offered off to another subject, and an entirely different nature, very often distasteful to him (for all have not the same inherent tastes). His further research in the subject of his choice is checked. He must follow out the cast-iron system of the programme, whatever details, whether suit very often is discouraged. Herein Lies a Big Economy Tale Sixty-Nine New Spring Suits on Sale

Every Model Reflecting the Season's Most Authoritative Style Tendencies

HEREIN lies the most important news in today's big paper, and probably the most important announcement from this store this season. It involves a sale of sixty-nine of this season's newest and most handsome tailored suits, reproductions of New York's most favored styles for the coming season, produced by the most noted fashion creators in the country. The vast importance of this sale is emphasized by the fact that at this moment the thought uppermost in the minds of most women is of the new spring suit. What glad tidings this will bring them when we tell those women who have not yet selected their new garments that this sale means considerable saving and on garments of the newest type.

Commencing tomorrow, therefore, we offer at special reductions, for a two-days' sale, sixty-nine only of our newest suits for spring and summer. This remarkable sale will naturally give many occasion to ask the "why" of such a sale at the very season when these garments are in greatest demand. And "Reason-why" advertising has ever been this store's policy. Listen!

Certain factories in the east had a little difficulty with striking employees, and consequently couldn't make deliveries when they should. These sixty-nine suits were late in shipment, hence the whole and sole reason of this sale for Tuesday and Wednesday. Every new shade is included in the lot, as well as black, and the ever-popular shades of greys, navys and browns. Sizes 32 to 42.

Regular \$25.00 to \$27.50 Suits, Tuesday and Wednesday \$21.50 Regular \$35.00 Suits, Tuesday and Wednesday \$29.50 Regular \$37.50 to \$40.00 Suits, Tuesday and Wednesday \$32.75

ACME'S RAPID RISE AND BRIGHT FUTURE

(Continued from page 1.)

Less Than a Year Old

It was not until July, 1909, that any buildings were erected on the future townsite. Towards the end of that month, R. B. Ester acquired on the land which he understood was shortly to be laid out for a town and erected the first building and opened a general store, and about the same time the Merchants Bank of Canada opened a branch business in the future town. While a building was being erected for the bank, Mr. Philip Todd who was the first manager, who did business with his pocket for a safe. He cashed cheques, made loans and transacted a general banking business in a small tent, which provided sleeping and dining accommodation for all the inhabitants of the town.

Places of Business

At the present time, the business places of Acme consist of four general stores, drug and book stores, bank, hardware store, god hotel, harness shop, two blacksmith shops, bicycle and feed stable, tailor shop, tinsmith, butcher shop, billiard and pool room, clothing mill, two luncheon parlors, three implement firms, two real estate agencies, three building contractors, a resident physician.

School District to be Formed

A petition has been sent to the department of education for the organization of a school district, and it is expected that a school will be ready for opening after the middle of the month. The school will be for twenty-five children of school age in the area proposed to be included in the Acme school district. As soon as the school district is organized, the petition will be issued and money raised for the erection of a two roomed school building.

Three Religious Denominations

The Methodist, Presbyterian and Anglican, hold services in the Crescent hall, there being two services every Sunday. These three denominations, and also the Roman Catholics, have selected sites and are planning to build churches during the coming summer.

Petition for Incorporation

An application has also been made to the provincial government asking for the incorporation of Acme as a village municipality which it is expected will be granted at once, as all the requirements have been fulfilled. As soon as the incorporation papers are received and the municipality is organized, an assessment will be made and a systematic plan of public improvements in the way of street grading and sidewalk construction will be commenced. This will give Acme the appearance of a real town than it has at present. The business houses in the town present a very creditable appearance, most of them

being substantial two storey frame buildings set on concrete foundations and look as though they were built to stay.

Splendid Hotel Accommodation

The Alberta hotel is a very fine building and the proprietor evidently had in view the future growth of the town, when he erected the building. It is a three storey building with full concrete basement, 30 ft. long by 30 ft. wide, with offices, sample rooms, bar, dining room and kitchen on the ground floor and parlors and bedrooms on the other floors. There are 38 large, airy bedrooms, well furnished and about forty guests can be accommodated. The furnishings are all of British Columbia first quality fir with hardwood stain. A liquor license has been granted and the formal opening will take place on Saturday or Monday.

The Acme Concert Hall or Opera House

has a seating capacity of about 200, and already a couple of traveling companies are billed for shows during the winter season.

Four Elevators to be Built This Year

Acme has not yet reached the elevator stage in its history, but four elevators are now being secured and are planning to commence building operations early this summer or as soon as building material can be secured. This is, however, a flat grain warehouse with a capacity of 12,000 bushels. It was informed that there are fully 200,000 bushels of oats still in the hands of the farmers, in the country tributary to Acme, which will be marketed just as soon as the shipping facilities are adequate. It is expected that the Acme post office will be made a distributing office in June for the surrounding post offices, including Carbon, Sunnyslope, Neapolis, Rowdonville, Coxa, Stierma, Ramsworth and other points which are now being supplied from Didsbury.

Acme will also be the distributing point for points east of the Red Deer river, as it is in close touch with the best two fords in the river.

The Acme District

The country tributary to Acme at the present time extends about 15 miles west to the Rosebud Coulee, east for 30 miles to the Red Deer river, north to Trochu Valley, about 20 miles and south about six miles, an area of over 1,000 square miles, of splendid farming lands. In this area there are a number of prosperous little communities with their own stores and post offices but Acme is their nearest point to the railway, and as long as the terminus of the line remains there, the volume of business that the Acme post office will handle, the railway is extended northward, Acme will have an immense rich country east and west from which to draw its trade.

Farms Are Not Too Large

A feature of the Acme district is that as a rule it is settled by small holders, 320 acre farms being the rule. The homesteaded lands were taken up four or five years ago and when the Oliver land act came into force on September 1, 1908, the original homesteaders, pre-emptions adjoining or in close proximity to their homesteads. Very few farms consist of more than a section of land. A considerable amount of the school lands has also been sold and most of the C.P.R. lands close to the town have been sold.

Resources of District

Acme is about twelve miles north of the irrigated lands but the farmers of the district have never felt the neces-

WHY should any woman look dowdy and frumpy, why should she court ill health in the old fashioned corset when she can so easily secure the fashionable, easy flowing lines by the newest and latest corset and enjoy the best of good health as well?

How can you show the latest figure, the long graceful lines, exacted by the recent Paris styles when you are wearing old fashioned corsets with their unnatural and unhealthy abrupt break at the waist line? The fault is not in your figure. Try our "La Diva" Renaissance designed after a close study of Parisian styles at Longchamps, in the tea rooms Rue de Rivoli, and at the famous dress-makers of Rue de la Paix. The La Diva Renaissance will give you a physique no other corset can give.

La Diva Corset

"D&C" Corset

We've anxious to see how Canadian women will appreciate our endeavour to obtain for them a really wonderful corset. For that reason we have made the price of "La Diva" only \$2.50 - 2 1/2 to \$3.50.

All we ask is that you see it, and judge its merits for yourself. Kindly show this advertisement to the sales person and ask to see "La Diva Renaissance" and decide for yourself.

Write today for our Corset Booklet. We send it FREE. This booklet will tell you just what style of corset is adapted to YOUR physique in order to retain health and give shapeliness.

THE DOMINION CORSET COMPANY, QUEBEC.

essary for irrigation, the generous June rains that come every year being ample for the growth and maturity of the crops. The soil in the district is a deep, rich black loam on a clay sub-soil, which the results of former years have proved to be very fertile, especially adapted to the growth of spring crops. Fall wheat has not been experimented with to any very great extent, but wherever attempted has given highly successful results. There appears, however, to be something in the soil which makes it especially adapted to the growth of spring wheat, oats, barley, flax and vegetables. The land does not cake and spring opens earlier than it does further west, thus ensuring the maturity of the crops before the early autumn frosts.

The Acme district is a continuation eastward of the Crossfield-Carstairs and Didsbury districts, and the soil and farming conditions are much similar to that of the eastern portions of those districts. There is an entire absence of brush and there is nothing to impede the progress of steam or gasoline power plows for miles at a stretch and a large amount of breaking is planned for this season.

Water and Fuel

Excellent water, absolutely free from alkali, can be procured at any place in the district at depths varying from 40 to 120 feet, and in the town of Acme, the average depths of the wells are about 110 feet.

Seams of good coal have been found at a large number of places in the district, but the supply for the town and for the farmers is procured from the mines at Kneehills and Carbon, 17 miles from Acme. The supply is hauled by the farmers during the winter season when work is slack.

Superior Class of Settlers

The Acme district is settled by a superior class of settlers, mostly Americans and Canadians, with a few English, Germans and Scandinavians. There are no foreign settlements, such as Galicians or Ruthenians. They are nearly all practical farmers, who, when they homesteaded, had sufficient means to build comfortable homes and purchase the necessary stock and implements for their farms.

As yet very little land has passed out of the hands of the original owners, the homesteaders who secured pre-emptions being deterred from disposing of their original holdings until they have secured their second patents.

The price of raw land within five miles of the town of Acme is about \$25 per acre, and there is none in the district that can be bought for less than \$30. Improved and semi-improved land varies from \$50 to \$35 per acre, according to location, quality, amount of improvement, etc. In a year or two there will be an increased number of transfers of lands.

Well Adapted for Stock Raising

The country now known as the Acme district and especially along the Rosebud, has for many years been noted as a splendid stock country. There was abundance of the most nutritious grass and plenty of water for stock in the creeks and sloughs. Even after the advent of the homesteaders, the distance from market precluded the raising of large quantities of grain except for feeding purposes, and as a consequence almost every farmer has a considerable number of good stock. They are now looking forward to having stock yards built at Acme for the shipment of their stock without being put to the trouble and expense

of driving their beef animals from 30 to 40 miles to the C. & N.W. railway or from 40 to 60 miles to the main line points.

Acme Has Bright Future

Of the future prosperity and progress of the Acme district there can be no doubt. The town is located right in the center of a very large and fertile district, settled by intelligent and prosperous farmers. Its business men are fully alive to the opportunities that lie before them.

The approaches of the town are easy and it has good roads leading to it, making hauling facilities especially favorable.

With the establishment of a regular train service, the town cannot fail to make rapid progress and the whole country surrounding it feels the benefit in better shipping facilities and lower freight charges. It will not be many years until the town and district of Acme will be recognized as among the very best parts of the province of Alberta. The resources here and the country is settled with the right kind of people to develop them.

NO DEFINITE POLICY OF THE UNIONISTS

In One Place They Talk Tariff Reform And in Another it is Not Even Mentioned

London, April 9.—Major Coates, Unionist M.P. for Lewisham speaking at the City Carlton Club, said that at the general election he went north, south, east and west helping other Unionist candidates, and he found that the party needed a definite policy regarding food taxes and Colonial preference. At one place he was told to say nothing about such taxes, at another to declare that no duties would be put on Colonial goods, as a third, that a shilling duty would be placed on that corn. He complained that there was no definite policy, and said in consequence speakers did not know what to say. That confusion must not be allowed to continue. The party must have one clear policy on the question of Colonial preference.

WITTE WAS CHALLENGED BY GENERAL KUROPATKIN

And Seconds Were Appointed For a Russian Duel

St. Petersburg, April 9.—A duel between former Premier Count Witte, who represented Russia in the peace negotiations with Japan at Portsmouth and General Kuropatkin, former Commander in Chief of the Russian forces in the field, has been avoided through an explanation by the former. General Kuropatkin took offence at a speech in which Count Witte asserted that the modern Russian military commanders were lacking in moral courage and were prone to blame others for their own failures. The general accepted the reference as a personal insult and challenged Count Witte. They were appointed by both men. Subsequently the Count expressed regret that his spoken words were such that the general could consider them as referring to himself and said that the remarks were intended merely for general application. In sending the communications, exchanged to the newspapers the seconds state that the incident has been satisfactorily disposed of.

TONIGHT SHERMAN'S RINK

SEATING FOR 5,000

FREDERIC VILLIERS

The World's Most Noted War Correspondent

Delivers His Illustrative War Lecture

Calgary Rifles Band

Will play by special permission of

Col. Armstrong.

Prices 75c, 50c, 25c.

Don't Miss This.

Fort Frances, with site of international Electric Power Co. towers, with coal mine under the sea, panorama of Port Hastings.

Well Known War Correspondent Coming to Calgary.

Those interested in present day war problems and Canada's place in imperial defence, ought not to miss hearing Frederic Villiers at Sherman's rink Monday evening, April 11.

Mr. Villiers has represented the British press in almost every war since 1876, when he was sent out by the Illustrated London News as its best man to send accurate but chain-lightning reports of the Serbian war. Later Mr. Villiers was on HMS. Condor, with Lord Beresford, and was instrumental, through information he was able to obtain, in causing the world-famed bombardment of Alexandria.

The part of Mr. Villiers' address, however, that touches most nearly the heart of a Canadian audience, is his feeling reference to our boys in South Africa. In addition to a running account of the Spanish-Moroccan war of last year, Mr. Villiers shows over one hundred magic lantern views taken in actual warfare. Sherman's rink, with a seating capacity of 5,000, has been engaged to accommodate the large audience which is anticipated Monday evening, as Calgarians are expected to turn out in full force in order to give the best of impressions possible to the lecturer, who is gathering impressions and data for a series of lectures to be delivered all through the old country, with a view to bringing desirable settlers to our province.

Keep Monday night clear, and boost Alberta. Seats 75c, 50c and 25c. Reserved seats may be obtained at Young's book store.

MR. FREDERIC VILLIERS, the celebrated war correspondent, now in Calgary, who will lecture here on Monday night.

Weak and Nervous

But Health Was Soon Restored. The number of cases of general debility in which Hood's Sarsaparilla has proved just the medicine that was needed is very great. May H. Davidson, Orangeville, Ont., describes her case and tells what this medicine did for her, in the following testimonial: "My system was run down, my blood was impure, and I was weak and nervous. I grew thinner and paler every day. A friend advised me to take Hood's Sarsaparilla, which I did. I gained rapidly and my health was soon restored. Get Hood's Sarsaparilla today. Sold by all druggists everywhere. 10 Doses 25c."

PAINTERS AGREE ON NEW WAGE SCALE

And This Was Endorsed at the Meeting of the Trades and Labor Council Saturday.

The Painters' union of this city has agreed upon a new scale of wages which will be endorsed at a meeting of the Trades and Labor Council last night and will be submitted to the Master Painters' association today, providing greater wages and less hours of work each day. That a strike will result is not considered likely, because with the great amount of work now on hand, it is thought the employers will prefer to grant the demand or compromise rather than tie up operations. The journeymen say that in asking for more wages they are simply making an effort to keep pace with the increased cost of living. They assert that it costs 35 cents to get a meal at the restaurants now where it cost only 25 cents a few months ago. They also ask for a minimum wage of 50 cents to go into effect for a year beginning May 7. They also ask for a reduction in the work day from nine to eight hours and for a half holiday on Saturday. The proposed agreement in full follows:

1. A day's work to consist of eight hours, commencing at 8 a.m. and ending 5 p.m. and 12 noon Saturday.
 2. The minimum rate of wages to be 50 cents per hour.
 3. A maximum rate per hour to be made between the master painters and general contractors and their workmen.
 4. That every contractor be allowed one apprentice to every four journeymen painters, such apprentice shall be apprenticed for not less than three further notices has been given.
 5. That the employer can employ any painter whom he wishes, but if non-union painter, said painter to make application to local union within three days.
- Signed by committee of Local Union

Fort Worth, Texas, April 10.—Thirteen men were killed by an explosion by the Coleman extension of the Santa Fe railroad near Coleman, Texas.

WATER RATES SHOULD BE MUCH CHANGED

Some People Paying Too Much for Water and Some Are Not Paying Nearly Enough.

Owing to a readjustment of water rates that has just been made at the suggestion of Commissioner Graves, the water department will hereafter be in receipt of from \$900 to \$200 more revenue every month. Incidentally a few of those persons who have been hit by the new schedule are making themselves felt at the water office. It is three years since such a readjustment has been made, the consequence being that many consumers have been paying less than they should. A few have been paying more. Most of the changes have been made in the residence sections. A number of instances meters have been installed. The readjusting has been done in an effort to augment the revenue of the water department, which last year was not large enough to pay expenses. It is probable that a further readjustment will be necessary, as many consumers are getting off with a light bill because they have no meter and do not pay their proportion of the water they get. It's better to be judged by your appearance than by your disappearance. Unless a girl is able to generate an occasional case of jealousy, life for her soon becomes monotonous.

Mrs. H. W. Cushing 312 Fourth avenue west, will receive on Wednesday April 13th and not again this season. You are invited to inspect those ladies' semi-ready embroidered suits, collars and jabots. Just arrived, Irish Linen Store, 602 Centre street. 325-92X

AUTO MADE TEN MILES IN RECORD TIME OF 6:55
Record Oldfield Almost Set Up New Figures Saturday
Playa Del Rey, Cal., April 9.—One world's record and one American speedway stock car mark were the extent of the record breaking on the motor drome today. George Robertson in the Simplex and Caleb Bragg in the Fiat 9, in the ten miles Free-for-all, reeled off many miles under the forty second mark, and completed the ten in 6:55, a new world's record. The Simplex won by a hundred feet. For seven miles the cars were lapped, it being difficult to tell which led at the wire for the first five miles. In record trials not a record was broken. Oldfield came within 9-10 of a second of beating De Palma's record of yesterday.
A national speedway record was established by Endicott in the fifty mile race for stock chassis measuring 181-284 cubic inches piston displacement. The fifty miles were made at Atlanta, Ga. 50.82.

THE ATTRACTIONS OF CANADIAN MOUNTAINS

Very Interesting Annual Address by President of the Alpine Club.

SUCCESSFUL GROWTH OF ALPINE CLUB

Branches of the Alpine Club to be Formed in London and New York

The following interesting paper was read at the fourth camp fire anniversary of the Canadian Alpine Club, held some time ago by Mr. A. O. Wheeler, the popular president of the club.

First let me offer my warmest congratulations upon the fourth anniversary of the club's birth. The years of boyhood are over and the child is doing well. Everything points to a vigorous and useful manhood and old age, to be spent in the service of our Canadian Alpine regions.

You must pardon my breaking in upon so festive an occasion with matters that are common-place and everyday. The world is made up of the bitter and the sweet, of sadness and gaiety, of tears and laughter. You must therefore accept the serious with the mirthful and for a few moments listen to my tale.

Since last summer's camp fully one hundred applications for membership have been submitted for vote. A long ballot list has gone out this month and it will be necessary soon to send another for applications are coming daily, the latest received being from Mr. Donald Phillips, who climbed Mt. Robson with the Rev. George Kinney. This is the kind of stuff we want.

The new membership list which has lately been sent to all is a lesson in itself. When we remember that only four years ago the club started with sixty-seven members, all told, the long list now before us, sprinkled with illustrious names, followed by distinguished letters, is a speaking tribute to

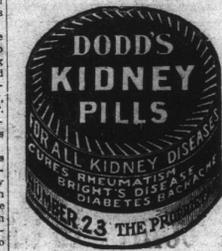

the worth of the cause, and the motive power behind that is found in the silent, immovable snow-clad Rockies of Canada. This may sound an Irishism but do not forget that not only glaciers, but even mountains do move and move, and as they move, carry all before them with that slow, imperceptible, but none the less certain movement that is beyond the power of man.

Increase of Membership

Our membership today is 509 as follows—Honorary, 9; associate, 18; life active, 25; ordinary active, 276; graduating, 18; subscribing, 25. Since the beginning, more than six hundred members' names have been inscribed upon our books, but there has been a steady out for financial reasons, in some cases a removal to other parts of the world, and on account of matrimonial contracts. Our lady mountaineers are among the best we have, but we cannot keep track of their names and it gets our executive secretary into no end of scrapes when new membership lists come out. If they would only notify us of their intentions beforehand, all this trouble could be avoided. To counterbalance the deficit from this cause, the executive is seriously thinking of advertising the club as a matrimonial bureau, with permanent results guaranteed at a second annual camp. They say that "Marriages are made in Heaven." I think an appropriate rider to the saying would be "And in the Alpine Club of Canada."

The Magic Letters "A. C."

I particularly wish to call attention to the life active membership list, twenty-two in number, and the frequency with which the magic letters

"A. C." appear in it. The "A. C." is the insignia of the oldest, best known and most respected of all the Alpine clubs of the world, the Alpine Club of London, England. Since 1857, the date of organization of that club, one hundred and sixty-six Alpine and Mountaineering clubs have been formed. In some of these membership is in the thousands, as for instance, the French Alpine Club with 5,600 members, the Swiss Alpine Club with 8,400 members, the Italian Alpine Club with 6,800 members, the Dutch and Australian Alpine Club with 73,200 members, and the Swedish Tourist club with 35,700 members.

Attractions of Canadian Mountains

Such a life membership, composed largely of people from other lands has given us a permanent stability for all time. It has, moreover, and I want to impress this strongly upon our members, placed upon us a great responsibility, that we will do well to realize: one that belongs, not only to the Alpine Club of Canada, but to Canada herself, in that these people have been attracted to us by our glorious alpine ranges, the heritage of Canadians.

Such responsibility can only be borne successfully and conscientiously by loyalty and co-operation on the part of our members, even though some sacrifice may be entailed. So far we have had the country behind us; the Dominion government, the governments of Alberta and British Columbia, and far and wide the thoughtful editors of newspapers and magazines throughout our great Dominion, headed from the beginning by the editor of the *Winnipeg Free Press*, Mr. Dufour, to whose generous and unflinching assistance the club owes its very existence.

In a certain measure, also, we have had assistance from the Canadian Pacific railway company, though not wholly disinterested. For it is we who have endeavored to return such assistance through advertising our mountain regions abroad, and bringing to them illustrious people from other lands, an endeavor in which we have not been wholly unsuccessful.

The widespread area over which our connection is extended has made necessary a better organization and a more perfect machinery. With this end in view local committees have been formed at Vancouver, Winnipeg and Toronto, and negotiations are now being carried on for similar committees at London, England and New York.

The committees comprise a chairman, vice-chairman, secretary and several lay-members who are elected annually by the members of each centre. The benefit is obvious. Instead of the executive corresponding with each individual on matters of interest, it is done through the local committees which are more closely in touch with the respective units. This is the first step towards the formation of sections which will be necessitated as soon as the coming railways open new districts of our alpine areas.

You will have noticed, in the recently

J. I. HILL
The great railway magnate.

issued handbook, that a number of changes have been made to the constitution. Chief among them is the provision for the appointment of a salaried director. The object of such an appointment is to do away with the one-man power and to establish a machinery for running the club that will not depend upon one person, or (Continued on page 5.)

Trouble with the Stomach

That can only be cured when liver and kidneys are set right by DR. A. W. CHASE'S KIDNEY and LIVER PILLS

It is customary to put all the responsibility on the stomach for indigestion and its accompanying discomforts. This is all wrong, for almost always the liver and kidneys are to blame, and you find among the symptoms constipation, backache, biliousness, and headache.

You will be surprised how quickly Dr. A. W. Chase's Kidney and Liver Pills will regulate the liver, kidneys and bowels and get the digestive system into good working order.

If you are in earnest about a cure, don't bother any more with mere aids to digestion, but rid the whole system of poisonous impurities by using Dr. A. W. Chase's Kidney and Liver Pills, and you will know once again the pleasure of living.

This medicine gets at the cause of trouble and makes the cure complete. One pill a dose, 25 cts. a box, all dealers, or Edmonton, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

Fact is pleasing a person with a compliment when you want to hit him with a club. What makes a girl so attractive to a man is probably she wouldn't be if he had any sense about such things. The nice thing about friends is how you don't have to visit them unless you want to, the way you do relatives.

A. E. SNELL

1203 FIRST ST. WEST - - - CALGARY

No doubt you are aware of how fast the season is advancing, and that we are into the nice long warm days of spring, when every lady likes to put on her new spring suit or coat and go out.

Have you bought that new costume yet? If not, we would like the pleasure of showing you our stock.

We are right to the front with quantity, quality, styles and shades in costumes, coats, jackets, one-piece cloth dresses, skirts and capes.

Also an elegant stock of wash suits made from flannel repp and linen, and one-piece wash dresses made in the latest styles and in all shades. Prices range from \$5.00 to \$15.00.

Children's Dresses

This is where we hold our own in children's and misses' dresses, made from the very best quality Scotch zephyrs and English prints, in plaids, check and strip patterns, absolutely fast colors, and made in attractive, up-to-date styles.

The prices are so reasonable and quality so good that it wouldn't pay you to worry over the making. Prices range from \$1.00 to \$6.00.

Hats

See our window display this week of children's and misses' straw and duck headwear. That will be enough to convince you that we have one of the best stocks of children's hats in the city, all prices from 25c to \$2.50.

P.S.—We pay special attention to mail orders from out-of-town and try in every way to please our customers and fill orders promptly. Give us a trial and see what we can do.

ALEXIS TRAINING TO BE CZAR

Russian Ruler's Son Learns to Ride Pony and Likes It

London, April 6.—Alexis, the 5 years old son of the czar of Russia, is learning to ride a pony. He has made a good start at horsemanship already, and from the interest he takes in his new pastime promises to develop into a fit leader of his Cossack horde.

The czarowitz has a small autocar, run by electricity, in which he has taken great delight for nearly a year. The motor is just large enough for him and has been his favorite plaything, until the time arrived for him to master horsemanship. For, as a military leader, the czar will need to know all about riding as well as infantry maneuvers—which will come in time.

The czarowitz is a monarch already in the imperial household. One of his father's wishes is that his son acquire the habits and mental attitude of an autocrat at an early age, that he learn to make up his mind for himself and act on his own judgment. Nicholas argues that as the boy grows up he will be surrounded by advisers who will lend every effort to sway his judgment, and that nothing but firmly established habits of mind and strength of character will enable him to maintain his individuality amid such surroundings.

PILES

DR. CHASE'S OINTMENT. See testimonials in the press and ask your neighbors about it. You can use it at all times and in all places. It is the only cure for hemorrhoids, itching, bleeding, and pain. Sold by all dealers of E. W. HARRIS & CO., Toronto.

SALE OPENS **CLOSING** **BE HERE WHEN**
Wednesday **OUTSALE!** **The Doors**
9 a.m. Our store has been rented by a furniture company. We were given notice to vacate by June 1st. Not **Open**
 being able to secure another location we must close out our entire stock.

By the 1st day of June we must either have our stock closed out or do business on the curbstone. We have been given notice to vacate our store and find it impossible to secure another location. Now, you never saw a firm do business on the curbstone, neither have we, and are not going to try the proposition. We are going to sell our stock at any old price. Costs and profits have been forgotten. This is a bona fide closing-out sale with no oil on the floor, but real bargains in each and every department. We are out with the little red hatchet, cutting and slashing prices in all departments of the store. Here is a chance for you to get \$2.00 worth of merchandise for \$1.00. Get wise to yourself. Waken up. Be in the swim and buy your clothing, shoes, hats, caps, furnishings, etc., at less than actual cost of the raw material. Never before in the history of the business of Calgary was such high grade merchandise offered at such ridiculously low prices. Why? Simply because no other firm was given such a short time to dispose of such a gigantic stock. We fully realize that we must lose many dollars in order to close out this stock in so short a time, but this loss we must suffer, it being impossible to find another room in which to do business.

Forced Out of Business---We Must Say Good-Bye to Calgary

We carry a fine line of men's suits, overcoats, cravannes, odd pants, underwear, shirts, collars, cuffs, ties, neckwear, suspenders, handkerchiefs, shoes, hats, overalls, jackets, trunks, suit cases, and everything that goes to make up a men's furnishing goods' stock. Each and every one of these lines is under the hammer and will be marked down so low that it will tempt all to buy. You cannot afford to miss this gigantic money-saving opportunity if you are in the market for any lines of merchandise we carry. The whole store will be ablaze with bargains. The red sign of distress will be seen throughout the place, and prices never before attempted by man will be made during this great bargain festival. Get up early, and hurry, hurry, hurry and join the happy throng of bargain seekers who will be waiting patiently to enter our doors.

Be here Wednesday morning when the doors open and get your share of the great bargains offered.

HARMON IS THE MAN FOR THE DEMOCRATS

The Governor of Ohio Seems to be Right in Line For Nomination

STRONGER THAN GAYNOR BECAUSE HE IS TRIED

And it is Understood That He is Right Upon all of the Democrat Issues.

Washington April 9.—Democratic presidential politics, which have been rumbling in the distance, and showing frequent signs of outbreak in congress, burst upon Washington today with a vigor which promises to make it a live subject from this time forth to the adjournment of the session. The Chicago Tribune's poll of Democratic editors and Judson Harmon's interview setting forth his attitude upon public questions were published simultaneously in the eastern newspapers today. The result has been to loosen Democratic tongues and bring forth some emphatic statements which indicate that Gov. Harmon at the present moment is the choice of a majority of influential Democrats for the presidential nomination.

The Tribune's poll of Democratic editors, showing 418 Bryan and 414 for Harmon, has aroused more interest today than Gov. Harmon's interview upon political subjects. Democratic leaders declare they have been satisfied in their own minds that Harmon is "right" on the big issues of Democracy; but they profess surprise at the results shown by the poll of Democratic newspapers.

Only Local Defeat Can Hurt Harmon It is the consensus of opinion in Democratic circles that nothing but disastrous defeat in the Ohio elections next fall can prevent Gov. Harmon from being the Democratic presidential candidate in 1912. The Democratic leaders who make this statement are equally emphatic in saying there is no genuine sentiment throughout the country for another nomination for Mr. Bryan.

HENRY S. WARD—President of the Ontario Educational Association.

presidential candidate has been strengthened materially in the opinion of prominent Democrats, by the wide support given him in the poll of Democratic newspapers.

Hitchcock Admits Surprise Congressman Gilbert M. Hitchcock of Omaha, who has been closely identified with recent national Democratic campaigns, said tonight:

"The Chicago Tribune's poll reveals a remarkable persistency of Bryan sentiment, in the face of his decision not to be a candidate again. Next in significance is the fact that Gov. Harmon has votes in thirty-four out of the thirty-seven states polled by the Tribune. He appears to be aside from Bryan, the only Democrat whose support is national.

This sentiment was shared by a number of other Democrats who were interviewed tonight. The continued effort to bring Mayor Gaynor and New York, upon the stage as a principal in the presidential drama has not met with success in party circles here, and the scattering votes Gaynor received in the Tribune poll confirm the belief of many Democratic leaders that he would not draw general support.

Harmon Stronger Than Gaynor "Harmon is strong throughout the east," said a leading Democratic congressman from an eastern state. "He is preferred to Gov. Harmon because Harmon is a tried man while Gaynor is an experiment."

Gov. Harmon's success in the coming elections in Ohio is admitted to be vital to his continued support for presidential nomination. His defeat for governorate, that is, if it were by a small majority, will make him much less available for party leadership than he will be if he again carries his state in the face of a strong Republican fight, with Wade Ellis and the influence of President Taft directed against him.

The Democrats thus far have refrained from making any attempt to outline their national issues or determine upon plans for the coming campaign. They are convinced that the tariff will be the main issue and expressed great satisfaction today over the fact that Gov. Harmon had emphasized that point in his first declaration of principles.

Trust Policies Held All Right The fact that Gov. Harmon says no emphasis upon trust regulation is not considered serious by Democratic leaders. He was attacked in the house last week by a Republican congressman from his own state because of his attitude on the anti-trust and railroad law, but the Democrats profess to believe he is right in making the tariff the leading issue, and declare he will not be found wanting on other matters.

The determination of the Democrats to take Mr. Bryan at his word this time and prevent his assuming the leadership of the party again is apparent. All the Democratic congressmen who would talk about the matter today declared there was no possibility of Bryan being a candidate in 1912.

"I think sentiment throughout the country, even among the former friends and earnest supporters of Bryan, has changed so far as his being a candidate again is concerned," said Congressman Kellier of Massachusetts who was identified with the anti-Bryan forces in the last campaign. "There is no desire to have Bryan run a fourth time. The Democrats of the country today favor Harmon and will give him almost unanimous support if he makes the run that is expected of him in Ohio this year. It is inevitable that he will be a dominating factor in the Democratic convention."

SHE OUTWITTED MOUNTED POLICE

Woman and Her Two Children After Many Vain Attempts to Escape Manage to Elude Police

Skagway, April 9.—Many cunning criminals have exhausted their cleverness and tried in vain to escape from the Yukon under the watchful eyes of the Royal Northwest Mounted Police, but actuated by motives of mother love and fearful that she would lose possession of her children, Mrs. F. D. Cameron, well known throughout the Yukon, her husband running the roadhouse at Indian river on the White Pass stage trail, escaped from Whitehorse last Monday, with her two little girls, eluding and fairly outwitting the mounted police who had orders to detain her two children.

Twice had Mrs. Cameron boarded the White Pass & Yukon train at Whitehorse bound for Skagway, and both times the mounted police, who searched the train each morning, discovered her and forcibly removed her children under orders from the Dawson sheriff. Mrs. Cameron was determined to escape from the Yukon with her children for once she was on United States soil, the Dawson court have no jurisdiction. "So last morning she slipped her shoes, took, dressed herself and her two little children, and cautiously made her way to the outskirts of the town, luckily without encountering any of the police-patrols.

Carrying her youngest child, Lottie, a little tot of three years, and leading Doris, who is four years old by the hand, Mrs. Cameron started out through the darkness along the White Pass & Yukon railroad track. Alone, save for her children, and with no protection from real and imaginary perils, the long walk through the darkness along the railroad track that is hemmed in on either side by thick timber, the experience would have daunted any woman not driven on by the all-impelling love for her children.

When morning dawned Mrs. Cameron had traversed about five miles and although she was completely exhausted by her long tramp over the slushy roadbed, carrying her little child all the way, she placed another two in her arms, flagged it with her before she sat down to rest.

Shortly after 8 o'clock the morning train for Skagway came along and Mrs. Cameron flagged it. With her children she was taken without question and reached Skagway without any further molestation. The police of Whitehorse, not discovering her escape until the train had passed the boundary line and was on Alaskan soil, had they known earlier in the day of her escape she would have undoubtedly been removed from the train at Summit by the Canadian customs authorities.

Mrs. Cameron recently left her husband, who runs the roadhouse at Indian River, because of alleged cruelty on his part. With her two children she went to Dawson and then came out to Whitehorse over the trail. There has been no legal separation and the train she boarded at Dawson for the custody of the children, pending a hearing of the case the court instructed the sheriff of the county to detain her children in the Yukon. Mrs. Cameron is now out of the jurisdiction of the court and the children cannot be taken from her by any process of law unless she re-enters Canadian soil, and she is pretty sure not to do this, for she is leaving for the States on an American boat.

Prairie Flowers in March

(Carstairs Journal)

Last Friday, after the Journal was issued (of course) Fred Downie criticized the fact that no mention was made of crocuses being in bloom on the prairie. As the Journal was not aware of the fact, of course, it was not mentioned for the Journal is very particular to state facts and not to tell things that sound well, but are not true, just to boost the country. So it was up to Fred to show us. As Fred is a very truthful young business man, his word was not doubted, but as the Journal "show us" sentiment is pretty strong, it was necessary for him to produce the proof, which he did by bringing in a fine fresh bunch of crocuses. It was in March that they first appeared. Here is a pointer for the eastern growers. The picking of prairie flowers in Alberta is in March.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Linctiment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, colds and bruises. Sold by all Druggists.

FAIRHAVEN RANCH

One mile west of the city limits. 10 acres, all broken, black loam clay subsoil, one acre sown with alfalfa, 1-4 acre in rhubarb, over \$4,000 worth of stock, composed of about 150 hogs, 6 milk cows, 3 2-year-old heifers in calf, 4 yearlings, 3 brood mares, 1 team work horses, 2 2-year-old colts, 2 yearling colts and about 100 fowls; two wells and windmill; buildings worth over \$2,000, machinery about \$1,000; \$2,500 clear profit was made off this ranch last year. As a dairy, hog and vegetable farm \$5,000 clear profit can be made this year.

This is a splendid opportunity for the right man. \$5,000 cash handles this.

WITHOUT A DOUBT THE BEST FARMING AND STOCK PROPOSITION IN HIGH RIVER DISTRICT.

960 acres, twelve miles west of High River, close to Post Office and School, two miles from new railway. Soil, a rich chocolate loam clay subsoil; splendid water from living spring, never subject to frost before November; 300 acres broken, 100 of which has just been seeded with the best of wheat, oats and barley; 60 acres of fall wheat in fine condition, balance of this land all arable. The buildings on this place are of the best, and consist of a large, two storey frame house, with extension kitchen, 2 large horse stables, and one large horse breaking stable enclosed by corral, also 2 box stables, 4 large corrals, brander and sealer, 2 large granaries, two houses, pigeries, drive shed blacksmith shop, including all the tools. All the implements used on the place are included, which, put at a very conservative estimate, are easily worth \$2,500. The owner is not asking a long price for this property, but is satisfied with a fair profit. Having made his pile on this land he now wishes to retire. We have been authorized to accept \$22,000 per acre, 1-2 cash, balance arranged.

THE ATTRACTIONS OF CANADIAN MOUNTAINS

(Continued from page 6.)

one set of persons. As soon as we can afford to pay for such machinery it will move along in its own volition, no matter who comes.

Good Financial Basis
A word about finances. The club is now a body corporate with assets to the amount of ten thousand dollars.

Though not a commercial institution it is on a basis with them and is subject to the laws of the land as far as its finances are concerned. These finances are in a healthy condition. Owing to the assistance rendered, it is referred to above, for four years the club has held its annual camps and published the Canadian Alpine Journal. It has also built a handsome headquarters at Banff. Although the expenses of last year were great, owing to the building and furnishing, these headquarters and making their grounds attractive, the entertaining of a large party of British alpine people in a suitable manner, the inauguration of permanent camps for the summer months, and the publication of the annual issue of the Journal, there are no outstanding debts which the club does not see its way to meet. There is still a note for \$1,000 due upon the club house, which falls due in April and must be provided for, as it is endorsed by ten members, who have become responsible for it. This is a small debt upon the security provided by the building, which has a present value of about nine thousand dollars. It will be remembered that the building fund was raised by ten-year debentures issued by the club and purchased by its members. There are still 320 members who have had no share in this purchase and it is their duty of all to take at least one share. If this were done the outside indebtedness would be wiped out at once, and money provided for additions and improvements that are absolutely necessary for the comfort of the members; such as eve-trenches, screen doors to keep out flies, heating apparatus for use in the inauguration of winter sports, etc. The building committee is now approaching these non-subscribers and I trust the result will be loyal and adequate.

The executive had paid the first year's interest due upon the debentures issued. It will be asked: "What has it done to establish a sinking fund to meet debentures at maturity?" In reply I may say that during the past year \$780.00 worth of debentures have been returned to the executive for cancellation. This provides a very adequate sinking fund for that year, and during the current year and each succeeding year a sufficient amount will be placed in the bank as a reserve fund to meet them at maturity. So much for finances; and now let us turn to a more pleasant subject.

You all know that last summer, the club entertained its guests, members of British Alpine Club, and other friends, some twenty in number. You have all read of the enjoyment for us and for them, of those happy days at the Banff Club House and at Lake O'Hara Camp; and of the still more delightful and strenuous six-day trip around the rim of the Yoho Valley in which we took them to the east end of the Canadian Rockies.

You have heard how, in pursuance of that trip, the club's stalwarts carried great loads on their backs, over snow peaks, across wide ice-fields and up and down rocky steep. You have heard of the climbing that was done; of the glorious camp fires at night; of the tree-sheltered glades, beside glimmering lakes, with snow-tipped peaks all around, amid the dull roar of the nearby cascade or rushing stream; of the lull to sleep in beds of soft aromatic pine boughs, with the starlit firmament as a canopy overhead. You have heard of all these things, but you have not heard how deep and heartfelt was the appreciation of the club's efforts on behalf of its guests; of the genuine friendship that has emanated therefrom; and of the tendency to closer imperial ties that has been the outcome and is manifest in the number of "A.C.'s" now appearing on our membership list. If for no other reason than closer imperial ties which, in my humble opinion, are the strength and future of the British empire, our labours have not been in vain.

Distinguished Visitors
Among the most apparent results will be a visit to us this year by the celebrated Himalayan climber and explorer, Dr. T. G. Longstaff and his sister, and a possible visit by one of our last year's guests, A. L. Mumm, for the purpose of making the second ascent of Mt. Robson, in which object he was defeated last year.

While on this subject, I must not omit to mention the special visit that was paid to our camp by the veteran, world-renowned mountaineer, Mr. Edward Whymper, who came from England to Canada, 12,000 miles by land and sea, specially to address the Canadian club at its annual camp and to bestow upon it his blessing. Nor must we forget our old friends from the United States, Mr. George and Miss Vaux, Mr. P. W. Froehner and Prof. H. C. Parker, who, good sports as they have always shown themselves in the Canadian Rockies, turned to with a will to help the club entertain its British guests.

Record of Last Year
For mountaineering among the club members it has been a record year: The monarch of the main range, Mt. Robson, was scaled to the summit for the first time by Kinney and Phillips, whose success was largely due to the knowledge gained by Mr. Kinney in previous attempts made under the leadership of one of our first vice-presidents, Dr. A. F. Coleman of Toronto university. Mt. Pinnacle was crowned by Dr. J. W. A. Hickson of McGill university, who also made the second ascent of Mt. Deltaform; the second ascent of Sungeeb was also achieved by Fynn and Wheeler; the second ascent of Biddle, by an Alpine club party; the first ascent of Victoria by the Huber route was accomplished by a party in charge of Forde; of Mrs. Ringrose and Glacier Peak under the leadership of Val A. Fynn; while last, but by no means least, was the first ascent of the North Tower of Goodair by a party of which Dr. Eggers, Forde and McTavish were the amateurs. There were many other striking and well earned achievements of which a record will appear in the coming issue of the Canadian Alpine Journal. The unconquered peak of Mt. Sir Sandford and the North Tower of Mt. Douglas are still waiting with the offer of laurel wreaths.

This round of activities and list of achievements promises for the fourth issue of the Canadian Alpine Journal a number that will surpass all others in mountaineering history and graphic illustrations. Already, manuscript has been received sufficient to make a fair-sized volume and more is yet to come.

In which science will be by no means forgotten. We are able to promise our members an article on the zoology of the Rockies and Selkirk by a well known authority that will be of great educational value. In this number also will be given a full list of the many books and sets of books, collections and photographs and individual panoramas of mountain scenery that have been contributed during the past year to our Club House Library, donated by our conferees in England and the United States.

This Year's Programme
Of this year's programme it is a little early to speak with certainty. You are aware that a deputation waited upon the minister of the Interior and made several representations and recommendations; the results have not yet been made apparent. A grant has been made by the government of British Columbia subject to conditions which we cannot yet say we shall be able to fulfil; and a grant is expected from the Alberta government. Nothing seems probable and that is that the fifth annual camp will be held at the end of July. It is now proposed to hold it in Conistota Valley near Moraine Lake, with Laggan station on the C.P.R. as a railway terminal. If we had there it will afford a field of great interest for the mountain grandeur, and will as a location be equal to any yet held. Circumstances, however, may compel us to change the location; but should this be found necessary, I can promise all anticipations a camp site that will not only equal but surpass any yet held as a beauty spot and one suited to requirements such as ours.

Mr. Hayter Reid, manager in chief of the Canadian Pacific railway company's hotels, with a courtesy that has always been displayed to us, has again promised us the loan of our old and trusted friends, the two Swiss guides, Edouard and Gottfried Feuz; also the \$3.00 rate at the company's hotels that he has always given the Alpine Club's members during their season. Our own guide, Konrad Kain, will be with us and, in addition, we are bringing out his brother from Austria, to be with us this year for the use of our members.

The club house at Banff will open on the 15th of June and be open until near the end of September. The support of the club house depends upon our members themselves. If members coming to the mountains for their holidays will only arrange to bring with them at times other than immediately before and after the big camp, it would make things much easier and more comfortable.

Had Weak Back. Would Often Lie in Bed for Days Scarcely Able to Turn Herself.

Weak back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged. Those who have never been troubled with kidney trouble do not know of the suffering and misery which those afflicted undergo. Doan's Kidney Pills are a specific for all kidney troubles. They begin by helping the kidneys to flush out all the acid and poisonous impurities which have collected, thus cleaning out the kidneys, bladder and all the urinary passages and carrying away the uric acid, the chief cause of rheumatism, from the blood. Mrs. Ann Schanz, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial." Price, 50 cents per box, or \$1.25 at all dealers of The T. Milburn Co., Limited, Toronto, Ont. In ordering specify "Doan's."

Applications at Barbers' etc. & \$1.00 at Druggists'

The house cannot accommodate more than fifty and beyond this number creates confusion and discomfort. This summer we are arranging to provide side bedding for the ten houses so as to remove one of the drawbacks that was apparent last summer, viz.—the necessity of members bringing their own bedding. At the next annual camp it will again be necessary to elect officers for another three-year term. When the nominations are made and ballots submitted, it will be the duty of those who vote, not to consider special favorites, but to consider the best interests of the club. High office can only be obtained through mountaineering achievement, through sacrifices of self and through interest and work on behalf of the club.

The Question of Guides
There is one other matter to which I should like to refer. A determined attempt was made last summer and the summer before, to drive the old-time guides and outfitters from the mountain regions along the line of the Canadian Pacific railway and to constitute a monopoly of this business in the hands of a few men. In fact an attempt was made by the same people to prevent the Alpine club's Lake O'Hara camp. It is needless to say that attempts of this kind are not likely to be popular to the country any more. The Alpine club will continue to outfit and outfitting business such a service may do for "the tripper" your true alpine man wants something better and does not enjoy being subjected to the incompetencies of a schoolboy, on whom has been clapped a suit of buckskin with the label "Guide" attached.

To contrast this attempt in some measure, the Alpine Club's executive appointed Otto Brothers of Field, B.C., official guides and outfitters to the Alpine Club. They will again act in that capacity for the coming year, and it is hoped all members of the club and their friends will give them any patronage at their disposal and help them out all they can. At our first Alpine Club camp at the summit of Yoho Pass, Otto Brothers gave their own services and the services of their men, outfits and horses free of charge, in order to make the first of our annual camps a possibility. Without such assistance it would not have been possible. This is a fact we should not forget.

The above sketch will suffice to show that we were never more alive than at the present moment, never so firmly established. The work of the past four years, is a creditable result. It only remains for us to continue to work together, to be loyal to ourselves, to love our great alpine heritage of the Canadian Rocky Mountains, and to receive into our fold all those of other lands who feel their charm and wish to know them better. Yours faithfully, THE PRESIDENT.

SCOTTISH EXPLORER FOR THE ANTARCTIC

Dr. Bruce Will Start on South Pole Voyage in May, 1911.

London, April 8.—Dr. W. S. Bruce, the Scottish Antarctic explorer, who plans for another expedition to the far south have been somewhat lost sight of in the greater attention given to the Scott and American expeditions, is still in the running, although his discontinue anything in the nature of what he calls a Marathon race to the south pole.

Dr. Bruce, in laying his plans before the Royal Scottish Geographical Society at Edinburgh, said that he had no idea of competing with other south polar expeditions, but his idea was to reach the south pole in a journey across the Antarctic continent. To carry out his plan he estimated that \$250,000 would be required.

The expedition would leave Scotland from Buenos Ayres about June 20. Cape Town should be reached on September 1. After a zig-zag course for scientific purposes from Cape Town, the course would be steered to the Sandwich group, and thence to Cook Land, or near it, where a party of 10 or 12 would land and erect a house while the ship would proceed to Melbourne, wintering there and conducting scientific investigations on the way.

In the next spring the ship would push forward to McMurdo strait and Victoria Land in order to send a sledging party southward with supplies for another party, which, under Dr. Bruce's leadership, would be crossing over the Antarctic continent by way of the south pole from Cook Land. The two parties would probably meet near the Beardmore glacier, would return to the ship, and sail for New Zealand.

From New Zealand the ship would go to Magellan strait, or the Falklands, and in the following spring, would go south in the Weddell sea to follow the wintering party, which would then have spent two years there studying the coast-line of the Antarctic.

Overloading The Stomach

Causes Incomplete Digestion, Weakens The System, and Brings Dyspepsia Trial Package Free

Gluttony is as vile a sin as drunkenness and its evil results are more terrible and far more rapid. The human system turns into the stomach and alimentary canal from 7 to 35 pounds of digestive fluid every twenty-four hours. Cramp your stomach with food and you exhaust these juices. If your stomach cannot digest the food because it lacks juices to do with, you should either eat less or make more gastric fluids.

Stuart's Dyspepsia Tablets contain ingredients one grain of which will digest 1,000 grains of food. With Stuart's Dyspepsia Tablets in your stomach the evil effects of overeating are removed, for these little tablets when dissolved stick to the food and digest all the good from it. They won't abandon the stomach and leave a mass of decaying undigested food to putrify and irritate the mucous membrane lining. They give greater quantities of gastric fluid, help the intestines enrich the blood, prevent constipation, and gruffness, while sinful may yet be made less harmful by the use of these tablets.

Every drugget carries them in stock. Place 50 cents per box, or send your name and address and we will send you a trial package free by mail. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

THE HARRIS MEDICAL LABORATORY

Under the supervision of Evan Tucker, graduate of the Chicago Illinois College of Ophthalmology & Otolaryngology, Chicago, Ill.

Our Specialties Annihilate Disease. The Harris Medical Specialties for the eye, ear, nose and throat, all constitutional ailments, are today without a parallel in the history of medicine.

Backed up by years of experience and the most famous specialists of the world, we have today the only absolute and positive plaster cure for External Cancer (removed) without the use of the knife. The formula was originally that of Dr. Marston of the London Hospital, England, where over 1500 cases have been successfully cured by its use. We have never failed to see a cancer not successfully removed by its use.

Many forms of internal cancer are likewise absorbed successfully. This specialty is from one of our famous specialists also.

No charge for service or advice, as we do not enter into the practice of medicine. The sad thing about medical practitioners today is that they continually practice and doctor. What people want today is a cure. We make no charge for service, neither do we put you under the obligation of any disagreeable examinations of the local practitioner. Our specialties cost from \$15 upward.

The Harris Medical Laboratory, Calgary, Alta. Office: Arlington Hotel.

P.S.—We have over 1,000 specialties, scientifically, chemically, skillfully compounded in the finest and best and largest laboratories in the world. We are oftentimes asked if these are patent medicines, to which we must answer "No," decidedly, as we claim no proprietary ownership of any of these formulas. \$15-7-9-11

FINDS NEW CURE FOR CANCER

Paris Physician's Discovery Interest Medical Congress

Paris, April 7.—Interest in the physiological congress has been centered in an address describing a new cure for cancer by Dr. Doyen. He calls the treatment electrothermic coagulation. In explaining, Dr. Doyen said: "There is one predominant fact in the surgical treatment of cancer. It is the constant reuse of re-impregnation of the disease after an operation."

"The phagocytes are disseminated after a surgical operation like seeds scattered by the wind and become the nucleus of a fresh cancerous growth. In my experiments I observed that the diseased cells are destroyed by heat. Healthy cells of the body can withstand heat up to 140 degrees, whereas cancerous cells are destroyed by heat at 121 and over 122."

Lower Degree of Vitality. "This lower degree of vitality, therefore, may play an important part in the treatment of cancer. It opened up a new way of treating it."

Through the living tissues, even at a considerable depth, a temperature above 102 would kill the diseased cells without injuring the healthy ones.

"I solved the problem by means of electrocoagulation. I obtained a thermal effect by the help of a particular device which I conceived."

"I was able to cause heat to sink through the tissue to a great depth. When I placed the electrode on the tissues there was coagulation of the diseased cells just as the white of an egg thickens by boiling. The coagulated cells eliminate themselves after a certain time and definite cicatrization occurs."

Diseased Cells Destroyed. "Whenever the whole extent of the cancer has been covered by allowing heat to about 185 degrees to penetrate the tissues under the tumor, a sort of elective process goes on, the diseased cells being destroyed while the healthy ones remain intact."

Dr. Doyen asserts that all accessible cancers of the skin, mouth, tongue, etc., may be cured by two or three applications of electricity provided the cancer is diagnosed in time.

Present to His Sweetheart. Manchester, N.H., April 9.—Two wringing sadders each nearly 24 inches long formed the contents of a paper box which Michael Hasselbar, 22 years old, confined to Miss Alice Stuart, of 183 Lake Avenue with a request to give it to her chum, Miss Rose Caban, 15 years old, who had spurned his ardent advances. Inquisitive members of Miss Stuart's family, lifted the cover of the box, which she had taken home after a vain attempt to find Miss Caban. One of the sadders crumpled partly out, but was jammed back and the box with its live specimens was rushed to the police station, where the sadders were killed. Hasselbar was arrested on a charge of disorderly conduct.

Mr. Burns Woodcock, Nashua, N.H., writes: "For over two years my wife was troubled with constipation. She tried several physicians, but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is today in good health. My wife and I cannot speak too highly of Burdock Blood Bitters."

For sale by all dealers. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

SBARETTI EXPLAINS THE ROME INCIDENT

Not Due to Intolerance But to Opposition to Violent and Fanatical Methodists in Rome

Ottawa, April 9.—The following statement is given to the press by His Excellency Monsignor Sbaretti, the apostolic delegate: "In view of the attitude assumed by a certain portion of the press in this country with regard to the recent incident connected with Colonel Roosevelt's visit to Rome, I feel it my duty to make a brief statement of facts that will help to enlighten public opinion as to the stand taken by the Holy See."

"The position assumed and maintained irrespective of persons by the Vatican authorities is simply the only one compatible with dignity and respect. There is involved no question of toleration or intolerance with regard to religious views as such, for these are continually being admitted to audience with the holy father, non-catholics of every denomination, and even pagans."

"The attitude of those Methodists in Rome towards the Vatican, their bitter aggressions and opposition to the Catholic faith and the holy see, and their misrepresentation and vilification of the Holy Father in order to prevent the news as such, for these have exceeded the line of action adopted toward them. The violent and fanatical tone of the declaration published broadcast by a press as received from a prominent member of this proselytizing mission and the grossly insulting language quoted from an American leader of the sect against one of the most respected and distinguished members of the American hierarchy tend sufficiently to confirm the wisdom and prudence of the action taken in this regard."

NO RISK OF A \$1,000 DOCTOR'S BILL

The Harris Medical Laboratory.

Under the supervision of Evan Tucker, graduate of the Chicago Illinois College of Ophthalmology & Otolaryngology, Chicago, Ill.

BUY HAPPINESS

When you buy a house, don't buy a hot air chamber for summer and a refrigerator for winter. We can recommend the following as well built houses and the terms should please.

\$500 cash and \$35 per month for fully modern 6 room bungalow, on 15th Avenue west. Price \$3,000.

\$500 cash and \$35 per month for fully modern 7 room house on 15th Avenue west. Price \$3,500.

\$500 cash and \$250 half yearly for a 6 roomed bungalow on 90-foot lot, 15th Avenue, close to car line. \$3,500.

\$1,000 cash and easy terms for bungalow for a large 7 roomed house, on 14th Avenue west, new, fully modern, fireplace. A splendid house. \$3,700.

\$500 cash and easy terms on balance for a 7 room house, new, on 13th Avenue west. Price \$2,300.

\$2,000 cash will buy a new 8 room bungalow in Mount Royal, fully modern, a very nice home. Price \$5,000. Easy terms.

\$1,600—A nice high pair of lots facing south on 14th Avenue west. Half cash, for a few days.

KENNEDY & CLARKE

Room 3, Crown Block, 1st St. E. Phone 2054.

LOTS 14-20 inclusive, block 32, section 15, on corner of 2nd street east and 5th Avenue. This is a very desirable business property, and there is erected thereon a large brick factory worth \$7,000. This property will increase in value very materially in the near future. Price \$27,000; \$10,000 cash, balance arranged.

LOTS 34-41 inclusive, block 69, section 16. This is an excellent trackage proposition, on the corner of 11th Avenue and 5th street west. Price \$27,000; \$9,000 cash, balance 1 and 2 years at 6 per cent, or we will sell the two corner lots for \$8,000 on the same terms. This is a bargain.

ON SIXTH AVENUE EAST, only two lots from the barracks grounds; we have lots 15 and 16, in block 37, section 15. Two houses on these lots renting for \$30.00 a month. Price \$4,400; \$1,400 cash, balance arranged to suit the purchaser.

LOT 27 in block 7, Plan A3, Calgary. This lot will double in value in a very short time. Adjoining properties held at a much higher figure than this. Price \$1,200; half cash, 3 and 6 months.

WE HAVE TO LEASE a very desirable corner on 9th Avenue and 9th street west; four lots, size 100x120 feet to a lane. This is an ideal spot for a warehouse, and we can give a lease for five years on very reasonable terms.

FRUIT LANDS
The most independent man today is the farmer, and the most contented farmer is the owner of an Okanagan Fruit Orchard, where he has the climate, scenery and income all combined, to make life worth living. 20 acres carefully selected and planted is all you require. Buy now and care for your orchard and after 5 years time your orchard will care for you.
If you are interested call at our office and see plans and photographs, and arrange to join our party leaving Calgary next Thursday, April 14th on a tour of inspection.
