The first game started at 8 o'clock and was won by the home team in 8% minutes, A. Chaplin making the lucky shot. The second game lasted forty-three minutes and went to 8t kitts, Notman scoring. The third was won by St. Catharines in 14 minutes, Jack Downey scoring. In the fourth game, after five minutes play, the Niagaras claimed game, declaring that the ball went through the flags, but the claim was disallowed. The Niagaras refused to play further, and the match was awarded to 8t. Catharines by 4 straights to nothing. Mr. McKay of Woodstock acted as referee.

EXTENSION OF GRAFTON-AVENUE

To Whom It May Concern:

Notice is hereby given that at the expira-tion of one month from the date hereof, the Council of the Corporation of the City of Toronto will pass the following Bylaw to extend, open up and establish Grafton-ave-nue from its present easterly limit easterly to Montague-Avenue, in the Ward of St. Alban.

PROPOSED BYLAW To extend, open up and establish Grafton-avenue from its present easterly limit easter-ly to Montague-avenue, in the Ward of St. Alban.

Alban.

Whereas in the opinion of the Council of the Corporation of the City of Toronto, it having become desirable and necessary to extend Grafton-avenue from its present easterly limit easterly to Montague-avenue, in the Ward of St. Alban, as a local improvement, the Council thereupon gave due hotice of their intention to pass a Bylaw for that purpose, and to assess and levy the cost of such improvement and work upon the real property benefited thereby, pursuant to the provisions of the Statute in that behalf:

And whereas, although duly notified as aforesaid of such proposed improvement, work and assessment, the majority of the owners of such real property, representing at least one-half in value thereof, have not petitioned the Council against the said work and assessment;

Therefore the Municipal Council of the Council of the Statuse in the Ward of St.

To Mesars, Coates, Son & Co., 99 Greaham-st., London. In addition to the works above mentioned the vendors are interested in works now in course of instruction in Russia and also in a small factory at Montreal. All the interests of the vendors in America, Canada and Russia will pass to the new compar Messrs. Turquand, Youngs & Co., chartered accountants of London, have given the following tificate with reference to the profits of the business:

Gentlemen.—We have examined the statement of profits submitted to us by Messrs, J. & P. Coats, and conipared it with their books at Paisley, and after making certain readjustments, find that without charging interest on capital or borrowed money, rent in respect of fresholds or subscriptions and donations, but after deducing the few duties and providing for depreciation, the profits of their business carried on at home and abroad during the seven years ended sist December, 1889, including dividends, except as mentioned below, received during that period on shares held by or on behalf of Messrs, Coats in the Conant Thread Co., and their share of profits from the Canada Thread Co., were \$2,92,340 16s. &d., averaging as follows:

Approximate average of the last seven years.

Approximate average of the last five years.

Approximate average of the last three years.

Amount for the year 1889.

subject to the following remarks:

(3) That as regards the question of depreciation in respect of the buildings, plant and machinery elonging to Messrs. J. & P. Coats, at Paisley, so far as we are competent to judge from the materials placed before us, we are of opinion that sufficient provision has been made in the accounts.

The annual interest on £2,000,000 debenture stock at 4½ per cent. will require £90,000.

The annual dividend on £2,000,000 preference shares at 6 per cent. will require £90,000.

A dividend of say 8 per cent. on £1,700,000 ordinary shares will absorb about £140,000.

Together £350,000.

The above averages show that the business is a progressive one and it will be seen that even a radiable for Reserve Fund or further dividends, and should the profits do not exceed the average of the last seven years there will be a surplus of £76,000, artificial for Reserve Fund or further dividends, and should the profits equal or exceed those of 1889 this surplus will be increased to upwards of £124,000. Before arriving at the above averages of profits there have been deducted certain percentages and allowances in connection with the American business which have amounted during the last seven years on an average to £19,099 per annum. Under the contract the vendor's undertake to relieve the company of all these payments in future, which should more than cover any additional cost of direction, etc. The company takes over the business and profits as from its July, 1890, with the benefit of and subject to all current contracts, and pays interest at the rate of 5 per cent. per annum from that date on that portion of the purchase money which is payable in cash. The stock in trade of the vendors, consisting of wholly and parity manufactured stock and raw material, is estimated by them to have amounted, on the 3th June, 1830, to upwards of £960,000. The vendors believe that this amount of stock is fully sufficient for the working capital. They guarantee that the stock taking on 30th June company shall amount to at least £960,000, and undertake that if when the stocktaking on 30th June is the stock of the vendors for the business, oundertake to hand over to the company in cash. They also undertake to hand over to the company in cash. They also undertake to hand over to the company in cash. They also undertake to hand over to the compan
