THE friends and neighbors of Mr. and Mrs. Richard Brock, to the number of about 300, met at their home in Adelaide Wednesday evening and filled the house to overflowing, and then filled the barn. The neighbors couldn't let them depart without some slight token of the appreciation in which they were held in Adelaide. They were presented with six quarter-cut diners and two large oak easy chairs. A fine program was rendered and a sumptuous repast served.

I have seen several instances of this. Take it all around old Ontario will average up with them all in the comforts of life and average prosperity." A dainty lunch was served by the hostess and the meeting closed by singing the national anthem.

The Secretary was asked to thank all who in any way helped with the concert program. Mrs. Brown read a chapter from Dickens "Tale of Two Cities," and gave a talk upon the book. Miss Liddy read a sketch from the life of Chas. Dickens.

## NOTE AND COMMENT.

The enlargement of the borrowing powers of municipalities has been asked the Ontario Legislature in order that small loans could be raised in emergencies without submitting a by-law. In fact, an equalization of the powers of municipalities was asked. It was suggested that in small communities this special borrowing power should be limited to an amount equal to one mill on the dollar of the aggregate assessment.

Among all the frills with which the modern system of education is so cumbrously embroidered, there is one item of domestic economy studiously avoided that might well be instilled in the mind of youthful scholars, and that is the virtue of tidiness. The plaint of weary mothers in many households, is most familiar—that it would keep one person busy following their progeny around and putting articles in their places that are thrown at random. Untidiness is a universal failing in both young and old, but a

successful effort in the schools to combat its ill-effects in the home would be worth half of the extraneous subjects now taught combined.—Hamilton Spectator.

The present high prices for food stuffs will very likely have the good effect of tending to retard the depopulation of the farms and drive capital and labor back into the development of Agriculture, causing some of the money which has been flowing toward the cities for years, to turn back toward the land and its betterment. In this way it may be a blessing in disguise. This will have a tendency to reconstruct the country and such a movement would be significant. There is a vast difference between the development of the country and the cities, the former being almost neglected. It is the inability of the country to meet the demands made upon it that is causing the trouble.

## CHINAMEN ARE TOUGH.

They Can Live Under Conditions That Would Kill a White Man.

Peculiar power to resist disease is a characteristic of the Chinese, according to Professor E. A. Ross. For instance, out of ten children born in western homes three, normally the weakest three, will fall to grow up. Out of ten children born in China about eight are doomed to die in infancy. The difference is due to the hardships that infant life meets with among the Chinese, and with such rigorous selection there results a stock displaying a peculiar hardiness. Living in the super-saturated, man stified land, profoundly ignorant of the principles of hygiene, the masses have developed an immunity to noxious microbes which excites the wonder and envy of the foreigner.

"They are not affected by a mosquito bite that will raise a large lump on the lately come foreigner," says Professor Ross. "They can use contaminated water from canals without incurring dysentery. There is very little typhoid, and what there is so attenuated it was long doubted to be typhoid. All physicians agree that among the Chinese smallpox is a mild disease. The chief of the army medical staff points out that during the autumn maneuvers the soldiers sleep on damp ground with a little straw under them without any ill effects.

"Coolies, after two hours of burden bearing at a dog trot, will shovel themselves full of hot rice with scarcely any mastication and hurry on for another two hours. A white man would writhe with indigestion. The Chinese seem able to sleep in any position. I have seen them sleeping on piles of bricks or stones or poles, with a block or a brick for a pillow and with the hot sun shining full into the face. They stand a cramped position longer than we can and can keep on longer at monotonous toil unrelieved by change or break."—Chicago News.

## MATHEMATICAL SIGNS.

Process by Which These Familiar Characters Were Evolved.

The sign of addition is derived from the initial letter of the word "plus." In making the capital letter it was made more and more carelessly until the top part of the "p" was placed near the center; hence the plus sign was finally reached.

The sign of subtraction was derived from the word "minus." The word was first contracted into mus, with a horizontal line above to indicate the contraction, which was a printer's freak that may be found in almost any book bearing a date earlier than the beginning of the eighteenth century. After the lapse of a long period of time the letters were omitted altogether, leaving only the short line so well known to all.

The multiplication sign was obtained by changing the plus sign into a character resembling the letter x. This was done simply because multiplication is but a shorter form of addition. Division was formerly indicated by placing the dividend above a horizontal line and the divisor below. In order to save space in printing the dividend was placed to the left and the divisor to the right, with a simple dot in place of each.

The radical sign was derived from the initial letter of the word "radix." The sign of equality is said to have first been used in the year 1557 by a sharp mathematician, who adopted it as a substitute for the words "equal to."

**Enlightening a Post.**  
The English poet Mr. Powys told this anecdote, in which he claimed to have been the party of the second part. He said that he was talking to an old country woman on the occasion of the queen's jubilee in 1897. "What do you understand by the word 'jubilee'?" he asked her.  
"Well," answered the old dame, "if you've been married fifty years and the man's alive it's a golden wedding. If he's dead it's a jubilee."

**Ancient Cancer Cure.**  
An ancient cancer cure for cancer was to apply a live toad to the affected part. A well authenticated case of this form of treatment was that of the wife of a merchant of Smyrna. A live toad was strapped tightly over the diseased part, and, it was said, the woman was completely cured within a short time. It was a sacrifice upon the part of the toad, however, as it died after it had been on duty twenty-four hours.

**The Best He Could Do.**  
"Mr. Addem," said a tightwad merchant to his sad faced bookkeeper, "I wish you would try to look a little more cheerful."  
"I think," replied the bookkeeper, swallowing a big lump, "that for 30 shillings a week I'm awfully jolly."—London Mall.

**Exciting.**  
"Anything going on this evening?"  
"Yes; there's to be a performance at the Athletic gardens. A fellow will undertake to subdue an automobile that has a record of having killed six men. He's to do it in one hour or forfeit \$1,000."—Chicago Tribune.

**With an Incombrance.**  
"No," said Mr. Cumrox, "I don't in the least disapprove of my daughter's marrying a title."  
"But you seem dissatisfied."  
"I am. What I object to is the fellow that goes with it."—Washington Star.

Mr. Charles Simons, Parkhill, has received word from relatives in his native home, Syria, that dreadful massacring has been committed in that country by the Turks. The letter states that his uncle and aunt and three sons were killed and cut to pieces and the house afterward burned down consuming the bodies.

**GOOD DIGESTION SHOULD WAIT ON APPETITE.**—To have the stomach well is to have the nervous system well. Very delicate are the digestive organs. In some so sensitive are they that atmospheric changes affect them. When they become disarranged no better regulator is procurable than Parmentier's Vegetable Pills. They will assist the digestion so that the hearty eater will suffer no inconvenience and will derive all the benefits of his food.

Mrs. John Thompson, of Glencoe, had a close call one night last week when she got up from bed and in the darkness took some carbolic acid in mistake for cough medicine. Her mouth was badly burned, but fortunately owing to prompt medical assistance and the fact that she did not swallow much of the acid the results were not serious.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. # Lost His Hair, Beard and Mustache

## Terrible Plight of a Pennsylvania Man Reported by a Prominent Citizen:

"About two years ago my hair, beard and mustache started to come out in spots. These spots were entirely bare of hair. Seeing PARISIAN SAGE advertised, I purchased four bottles and after using two of the bottles, the hair came in until now I have as good a head of hair as I had before the trouble started. I can truthfully recommend this preparation to any one for what it is recommended for. Sam Galder, Jamison City, Col. Co., Pa. Oct. 11, 1911." Please bear in mind that PARISIAN SAGE is not guaranteed to grow hair on bald heads. In Mr. Galder's case the hair root was not dead and there is no good reason why PARISIAN SAGE should not do

just what he writes it did. "The next time Mr. Galder came into my store after purchasing the PARISIAN SAGE," writes the druggist who sold him, "his appearance was so changed I did know him." PARISIAN SAGE is without doubt the most efficient hair grower beautifier and dandruff cure in the world, and people who are wasting time with ordinary commercial tonics should wake up. PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp; will put life, luster and beauty into faded hair, or money back. It is a most delightful and refreshing tonic for men, women and children. Large bottle 50 cents at T. B. Taylor & Sons, and druggists the country over.

**Concrete-mixing is Easily Learned**

It is no more difficult than mixing bran mash, once the simple instructions have been read. The materials—sand, crushed rock or gravel and cement—each play a separate part. The rock provides the bulk of volume at very low cost. The sand fills in all crevices between the pieces of rock or gravel. The cement, mixed with water, forms a "bond," in other words a rocky "glue," that binds the other materials firmly together.

"Modern politics," said an English clergyman, who is visiting this country, "is worse than modern business. You here in the States are so used to political corruption that you joke about it. 'What?' the well dressed individual enquired. 'Mind your machine?' 'Why, I'm a United States senator?' 'Well, what of it?' said the aviator. 'I'll trust you.'—Washington Star.

## RAPID AMERICANS.

**An English Critic on Our Barber Shops and Rocking Chairs.**  
I cannot find that quickness is an American characteristic. What is mistaken for quickness is a kind of nervous fidgets, for the American is infinitely restless and nervous. It is shown in his passion for doing many things at once. The barber shop, a thing characteristically American, affords a wonderful example of this substitution of restlessness and circumstance for real rapidity and economy of time. The business man, still in his dramatic character of a locomotive pressed for time, hurries into the barber shop and extends himself in a chair, feet and hands outspread, a bootblack engaged on each boot, a manicurist on each hand and the barber himself operating on his head. But such are the seductions of the barber shop that he probably spends twenty minutes or half an hour there, as against the Englishman's four or five minutes. It is time simply wasted, from a business point of view; that is to say, it is spent in sheer luxury. For the Americans, being among the cleanest people in the world, have a Roman sense of luxury in everything that appertains to washing and care of the body; and their lavatories and barber shops are like temples raised to some goddess of health and cleanliness. And, finally, it was America that invented that triumph in the achievement of two opposite things at once—the rocking chair. So restless is the American that even when he is resting he wants to be moving, and consequently he has achieved this infernal engine, the rocking chair, in which (when he is obliged to remain in one place for a time) he can indulge in a continuous movement which yet does not advance him an inch. He can thus be busy even while he is at rest.—Filson Young in English Review.

**ANIMALS WITH HANDS.**  
Kangaroos Are Fond of Using Their Fore Feet in Feeding.  
Kangaroos use their hands very readily to hold food in and to put it into their mouths. As their fore legs are so short that they have to browse in a stooping position, they seem pleased when able to secure a large bunch of cabbage or other vegetable provender and to hold it in their hands to eat. Sometimes the young kangaroo, looking out of its mother's pouch, catches one or two of the leaves which the old one drops, and the pair may be seen each nibbling at the salad held in their hands, one, so to speak, "one floor" above the other. The slow, deliberate clasping and unclasping of a chameleon's feet look like the movements which the hands of a sleep walker might make were he trying to creep downstairs. The chameleon's are almost deformed hands, yet they have a superficial resemblance to the feet of parrots, which more than other birds use their feet for many of the purposes of a hand when feeding. To see many of the smaller rodents—ground squirrels, prairie dogs and marmots—hold food, usually in both paws, is to learn a lesson in the dextrous use of hands without thumbs. Nothing more readily suggests the momentary impression that a pretty little monkey is "a man and a brother" than when he stretches out his neat little palm, fingers and thumb and, with all the movements proper to the civilized mode of greeting, insists on shaking hands.—London Graphic.

## FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson states that in his opinion no preparation for general family use is so efficient so healing, so certain to cure as Catarrhazone.

Analysis reasons for making this claim for Catarrhazone, Dr. Jackson says: "Catarrhazone is free from opium. The patient can breathe its rich, balsamic fumes direct to the diseased spot. It is a remedy that treats and cures causes—prevents disease spreading. Reaches the innermost recesses of the throat, nose, bronchial tubes, and lungs. Alleviates chest soreness. Stops coughing instantly. Prevents bronchial irritations. Relieves clogged nostrils. Cures sniffles and nasal catarrh. Prevents La Grippe. Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and winter ills." Catarrhazone is unquestionably the world's greatest breathable cold, cough and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession, and sold by all reliable dealers. Beware of imitations, get "Catarrhazone" only; large size lasts two months, and is guaranteed, price \$1; smaller sizes 25c and 50c. By mail from The Catarrhazone Company, Kingston, Ont.

## LIVER LAZINESS

Those Who Lack Energy and are Unsuccessful Should Read This Closely.

"I am only thirty years old, yet for almost two years I have felt more like seventy-five. I have found it difficult to sleep at night and in the morning feel so depressed and heavy that effort was difficult. My hands were always clammy and perspiration on slight effort would break out all over me. It was not unnatural that I should begin to brood over the chance that I should soon be unfit to do my work, and this dread made my sleepless nights perfect misery. After repeated trials of medicine and mixtures Dr. Hamilton's Pills gave me the first gleam of hope. From the very first I could see they were different in action from other pills. They didn't gripe and acted as naturally as if nature and not the pills were cleansing my clogged up system. My spirits rose, I felt much better, the sluggish action of the system gave way to normal activity. Dizziness and headaches ceased, appetite, good color, and ambition to work returned and have remained. I am like a new man and I thank Dr. Hamilton's Pills for it all."

This was the experience of J. E. Parkhurst, a well-known grocery dealer in Jefferson. Follow his advice, use Dr. Hamilton's Pills for your stomach, kidneys, and liver, and you'll enjoy long life and robust good health. All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c. per box, from The Cataract Co., Kingston, Ont.

## Opportunity

It Came Suddenly, but Produced Lasting Results --

By BENJAMIN L. HYDE

I was a discontented farmer's boy, with nothing ahead of me but a life of drudgery. Of late years farming has become a science. Then it was dependent on the elements. No one knew when the fruit of his labor would be swept away from him by a drought, a storm or a freeze.

One memorable day I cut my finger and concluded to go over to Farmer Gadsden's to get some court plaster I didn't need it. I simply made an excuse to see Julia Gadsden, for whom I had a soft spot in my heart. She put the court plaster on the cut for me, coddling me at the same time. I spent an hour with her instead of at my work, as I should have done. On my way back, nearing the railroad which passed between the Gadsdens

"I SAW THE ROBBERS."

and our farm, I heard a train coming. I was surprised to hear it slow down, because trains always passed us without stopping. Then I heard a shot, another and another.

The ground rose between me and the railroad, and the interval was covered by trees. Just beyond the trees the road passed through a cut. I ran forward to see what was the matter and, coming to the edge of the wood, saw that the train had been stopped by robbers. All was excitement, both on the train and among those who were doing the robbing. I supposed that men were going through the cars holding up the passengers, but they were not. They had another object, which soon appeared.

Standing above and beside the cut, I could look right down on the engine, the baggage and express car. A moustached man was in the tender, bending over the side to take in what was going on in the rear. Evidently being satisfied that there was a hitch in the proceedings, he called to one of the robbers to know what was the matter and received a reply that the express messenger had succeeded in locking the doors of the express car. Whereupon the man in the cab got down and hurried to the rear.

The opportunity of a lifetime presented itself to me. Not that I recognized it as such; it only occurred to me that seeing and not being seen, a locomotive before me and no one to operate it, there might be a remote possibility of my running away with it and giving an alarm. There was no one at the forward end of the express car, and if I could uncouple the locomotive I might get into the cab and put on steam.

As to uncoupling in that day the old fashioned link and pin were used, and if the car and engine were in position to leave the pin loose I would have no trouble in drawing it. I knew nothing about a locomotive except that I had seen engineers start their machines by throwing back a lever and pulling on a handle, the throttle.

All this flashed through my mind within a few seconds, and another contingency loomed up. If I should fail, if the robbers should catch me before I got sufficient headway to leave them behind, I would be murdered. The thought staggered me, but I was so infatuated by my scheme the chances seemed so many in my favor that I was unable to resist the temptation.

## WASTED TIME AND MONEY

BEFORE THEY FOUND GIN PILLS

GALATTA, ONT.  
"My husband used Gin Pills for Backache and Kidney Disease. The pain in his back was dreadful and the kidneys failed to do their work properly. As he became worse, we found it necessary to begin treatment and unfortunately wasted time and money on remedies that were little or no good. After taking one dose of GIN PILLS, he found them to be exactly what he needed, and after taking two boxes of GIN PILLS, was completely cured. We heartily recommend GIN PILLS, at every opportunity to our friends and relatives." Mrs. JAMES B. MILFORD.  
Write us, mentioning this paper and we will send you a sample box free. Then, if you cannot get the regular size boxes at your dealer's we will supply you at the regular retail price—50c. a box, 6 for \$2.50—and money promptly refunded if GIN PILLS do not give satisfaction. National Drug & Chemical Co. of Canada, Limited, Dept. A Toronto, 87

It was doing the thing rather than the thought of any good that might come from it that spurred me on.

He who achieves success, though he looks ahead instead of behind, rarely has that foresight with which remarkable men have been credited. He makes his start and pushes on in the dark. I made my start, but my calculations were immediately upset. I had scarcely left the wood before I saw the robbers—there were several of them—leave the rear end of the express car and rush in a body to the forward end, the end which I was to have uncoupled. I darted back into hiding. One robber mounted the platform and tried the door. It was locked. Another ran forward and seized a tie which had been wedged in between the rails a short distance from where the locomotive stood and carried it to the express car.

I had not noticed this tie and my heart stopped beating as I realized that it would have spoiled my plan and resulted in my death. The robbers took the tie up onto the front platform of the express car and began an attempt to use it to break in the door. But the tie was six feet long or thereabouts, while the distance between the tenders and the car was not as much. The consequence was that the robbers had not sufficient space in which to work with it. Nevertheless they persevered.

Another plan, far more desperate than the first, must needs pop into my head. If I could run down to it, uncouple the car, then dash forward into the cut I could move on, carrying with me the express car. But I must take the robbers with me. They would climb up over the tender and shoot me down.

Yet there would be chances for me. Firstly, on finding the train moving they might be disconcerted and get off. But even if they did I could hardly hope to acquire speed in time to leave them behind. Again, having put on steam I could fight. I had no arms, but I could use lumps of coal. All this was folly, but I had been seized by a mania for carrying out my scheme, and a hundred devils could not have stopped me. Besides I was pushing forward. Happenings in my favor might arise.

Anyway, I resolved to go to the rear of the express car. What I would do when I got there I didn't know. I found the conductor and several men passengers who, freed from the presence of the robbers, had got together what arms were on the train and were debating a possible use for them. But it was evident they had not got their courage up to a point where they could use them, and they had no plan or leader. Without stopping to inquire as to their armament, I said:

"Here, you men! I'm going forward to get on the locomotive, which is deserted. One of you go up there where you can see me, and when I give a

## DON'T SAY YOU'RE OLD

You Only Feel Old

Digestive organs are weak—don't assimilate food as they used to. Other organs act more slowly and less effectually.

Blood is thin and sluggish. Renewal of strength does not equal the wear and tear of your system.

That's what makes you feel old. Nothing in the world will tone up and invigorate those weak, back-sliding organs, make rich blood and create strength so quickly as Vinol.

Vinol is not a secret nostrum, simply the medicinal elements of the cod's livers, with the useless nauseating oil eliminated, and tonic iron added. Try a bottle of Vinol with the understanding that your money will be returned if it does not make you stronger, feel younger and give you an added interest in life.

T. B. Taylor & Sons, Druggists, Watford

signal uncouple right here." Then all who have firearms go forward, and when I put on steam send all the bullets you can in among the robbers on the front platform."

"Good!" cried the conductor, who would have done something before this if he had had a plan.

I scurried forward, keeping close under the car, passing the front platform in the same way, and in a quarter of a minute was in the cab. A man stood where he could see me. I nodded to him and waited. It seemed to me an eternity before the car was uncoupled. I knew when it had been by seeing my supports advance on both sides of the train. They had been added to by the messenger, with whom they had succeeded in communicating, and had got more arms from the express car. I gave a jerk on the whistle, threw back the lever and let on steam.

The moment my supports heard the whistle they opened fire, the locomotive and express car moving at the same time. The robbers were taken by surprise. One man fell dead, two were shot while jumping off the platform, while a fourth got away. I did not know of this at the time. I only knew that no one interfered with me. I had the express treasure behind me and did not stop till I had reached the next station. There armed men got aboard the locomotive, it was switched away from the express car and rushed back. But the francs had all been over before I had made a hundred yards.

So it was that the maddest scheme that ever entered the brain of a farmer's boy was made practicable by circumstances. Indeed, when the robbers left the rear door of the express car to concentrate their efforts on the forward platform—possibly because there they could be near the engine—victory was in the hands of the frightened group who afterward supported me. But they had no one with sufficient pluck or plan to fuse them and put them in action.

My exploit was not long in reaching the general manager of the road, and I received an invitation from the president to visit him there. I found myself on my arrival an object of curiosity, the employees craning their necks to get a look at me. When I reached the president's office he grasped my hand and asked me to be seated. When we were alone he said:

"What can I do for you?"

"I don't know."

"Leave it to me. We have need of such men as you on this road and we want you. If you like, I will educate you to fill any position we have."

"That's exactly what I would ask," I replied.

"But to do that you must begin at the bottom and work up. You will commence as a brakeman on a gravel train, to be promoted as you learn the duties of each successive position."

I was delighted with this plan and acceded to it at once. When I left the president he handed me a check. I didn't look at the amount, telling him to invest it for me, which he promised to do, and I left him, having agreed to report the next week for work.

As soon as I returned to the farm I went to see Julia Gadsden, who had bound up the cut on my finger. I told her that since she had kept me daily the exact time required for me to meet the held up train, she was entitled to a part of my reward. We settled it by enjoying it together.

That was long ago. I occupied every position on the railroad, from the lowest to the highest, then became a retired capitalist. I am now rich and attribute my success to opportunity and an ability to take advantage of that opportunity.

## Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. ## "Our Personal Advice to all Skin Sufferers"

Taylor & Son, Druggists.

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right. So when we tell you that we have found the effective eczema remedy, you can depend upon it that we give our advice, not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons. We keep in stock and sell all the well-known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription.

Again and again we have seen how a few drops of this simple wash, applied to the skin, takes away the itch instantly. And the cures all seem to be permanent. D. D. D. Prescription made by the D. D. D. Laboratories, of Toronto, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you try this D. D. D. We have made fast friends of more than one family by recommending this remedy to a skin sufferer here and there and we want you to try it now.

### HIS MEMORY CLEAR.

The Witness Proved to the Lawyer That He Could Remember. A story is told of an eminent lawyer receiving a severe reprimand from a witness whom he was trying to brow-beat. It was an important issue, and in order to save his cause from defeat it was necessary that the lawyer should impeach the witness. He endeavored to do it on the ground of age in the following manner: "How old are you?" asked the lawyer. "Seventy-two years," replied the witness. "Your memory, of course, is not so brilliant and vivid as it was twenty years ago, is it?" asked the lawyer. "I do not know but it is," answered the witness. "State some circumstance which occurred, say, twelve years ago," said the lawyer, "and we shall be able to see how well you can remember." "I appeal to your honor," said the witness, "if I am to be interrogated in this manner. It is insolent!" "You had better answer the question," replied the judge. "Yes, sir; state it," said the lawyer. "Well, sir, if you compel me to do it I will. About twelve years ago you studied in Judge —'s office, did you not?" "Yes," answered the lawyer. "Well, sir, I remember your father coming into my office and saying to me, 'Mr. D., my son is to be examined tomorrow, and I wish you would lend me \$15 to buy him a suit of clothes.' I remember also, sir, that from that day to this he has never paid me that sum. That, sir, I remember as though it were yesterday."

### A PROBLEM IN FIGURES.

It Scared the Mathematician, but the Women Solved It. One day a teacher of mathematics went shopping with his wife. He tagged along listlessly from counter to counter until they came to the dress trimmings department, and there he found something in his line. Said his wife to the saleswoman: "How wide is that gold spangled black crepe?" "Three-eighths of a yard," said the girl. "How much is it a yard?" "Three dollars." "Well," said the professor's wife, "how much of three-eighths wide material will it take to put four six-inch strips around a two and three-quarter yard skirt that is seven inches narrower at the knees than it is at the bottom, and how much will it cost?" At the first mention of those figures the professor's head began to reel, and it reeled still more when his wife and the girl got out pencils and paper and began to do their sum. Presently his wife said: "Here, dear; you know all about mathematics. Help us solve this problem, won't you?" But the professor said: "Excuse me; I feel faint; I must get a little fresh air," and ignominiously fled. His wife came home with exactly the amount of material required, and the professor took her word for it that she didn't pay a cent too much.—Philadelphia Ledger.

### PHYSICIANS Failed to Cure Rheumatism

Miss Flora Chapman Vividly Describes Her Sufferings and Ultimate Cure With "Nerviline."

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me. I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians, but derived only slight benefit. A friend insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago, and scalds. I call Nerviline my "Life Guard," and urge all to try its merit." Dec. 17th, 113 Palmerston Avenue, Toronto. Refuse anything else offered instead of Nerviline, 50c per bottle, trial size, 25c. ### An All Around Sermon.

A sermon had been preached in a cathedral, and some of the clergy who had been present were discussing it at the bishop's luncheon table. One said, "Was not that sermon a little 'high'?" "High!" exclaimed another. "It struck me as being decidedly 'low.'" "Well, now," put in an orthodox cleric of the old school, "I should have described it as rather 'broad.' What do you say, bishop?" "I," replied the prelate, "thought it was rather 'long.'"

### Most Furs Wear Long With Care.

Most furs are durable, experts say, and will last for a long time if guarded from moths, high temperatures and spring sunshine. A less durable fur is broadtail, as it is taken from young animals. Chinchilla and ermine are also delicate, both in color and texture, and should be carefully treated. Places that make a specialty of storing furs keep them at a uniform winter temperature.—New York Sun.

### A Wily Mocking Bird.

A naturalist tells of a droll exhibition of fun evinced by a mocking bird. It had only recently been captured and was placed near another cage in which were two canaries, both excellent singers. The mocking bird at first seemed to be struck dumb by his voluble neighbors; but, as it turned out afterward, he was only biding his time. For several days he remained silent, taking notes, until he had mastered their song, when one day, without even a preliminary rehearsal, he burst out into a canary song in a loud, ringing tone that struck his yellow throated neighbors mute with astonishment. After this it was a favorite amusement of his to drown the voices of the canaries with his own loud notes whenever they attempted to sing.—Detroit Free Press.

### German English.

While visiting a small manufacturing town in Germany last summer a New York woman bought a tortoise shell hair ornament which was badly injured through a servant's carelessness. The saleswoman to whom it was returned with a request to have it repaired, wishing probably to air her English, sent it back to the hotel with this note: "The hair comb sending to me is heavy to repair whilst the pieces only through wire fastening can be. I would the destroy of the hair comb resolve—then could the lovely ornament for other one hair comb be accomplish."—New York Tribune.

### SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at This Season.

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, eczema, and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood which reaches every nerve and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

### Death of Mr. Arch. McLachlan.

Another of Plympton's most highly respected pioneers passed away on Monday, March 19th, in the person of Arch. McLachlan, of Kerch. Although the late Arch. McLachlan has been ill for years the news of his death was a surprise to his many friends. He was in his 80th year having been born in Argyleshire, Scotland in 1833. He came to Canada in 1836 with his parents, the late Mr. and Mrs. John McLachlan, who settled in Lobo. After learning his trade of blacksmithing he removed to Kerch fifty-two years ago where he continued his trade until health failed him. He leaves behind him to mourn his death his wife and many relatives among which are five sisters, Mrs. Geo. Minnelly, of Plympton; Mrs. Neil McCavie and Mrs. John McCoubrey, of Brooke; Mrs. Alex. Sinclair, of Lobo, and Mrs. A. McMurphy, of London, and a brother Dan McLachlan, who still lives on the old homestead in Lobo. The remains were interred in Wyoming Cemetery on Wednesday, March 13th, the services being conducted by Rev. G. W. Ross, assisted by Rev. Mr. Reid.
