NO. 25

SCHEME FOR GREATER HALIFAX.

Plans Outlined by Hon. Frank Cochrane on Behalf of the Dominion Government for Constructing Extensive Harbor Improvements and Railway Terminals, by an Expenditure of \$80,000,000 Best Residential Section Affected.

Hon. Frank Cochrane, Minister of Railways, was given a luncheon by the citizens of Halifax at the Halifax Hotel, Halifax, Wednesday afternoon, at which he made a statement of vast importance to Halifax. After being introduced, Mr. Cochrane went at once into the heart of the question, outlining his plans. These are to extend for one and a half miles along the harbor front from the lumber yard to Point Pleasant Park, and will consist of six piers, 1,250 feet long and 300 feet in width, with a capacity sufficient to dock at least thirty ships. There will be one bulkhead leading pier, 2,000 feet in length, at which ocean greyhounds will land. This pier will be equipped with immigration buildings, sheds and a grain elevator.

A new union passenger station will be erected at the end of Hollis street which will be of ample size and suitable architecture. These terminals will be approached by a double-tracked railroad, which will branch off the main line at the Three-Mile House and extend southerly through the low divide between Bedford Basin and the head of the North West Arm. It will then skirt the fill in such locations as will do the least damage to property in that vicinity, avoiding all level crossings, and for the most part passing through deep cuttings, so as not to mar the beauty of the district, and finally reaching the terminals passing under the lower end of Young avenue. The streets in the residential district, where the railway is submerged, will be carried over the cutting on artistic

bridges in keeping with the present surroundings. At the terminal ample tracks will be provided for the economical handling of the business for the wharves and Union station, also proper facilities for the housing of engines and the care of passenger cars. Continuing, the minister said:—"You may ask, what about your present harbour. After studying the various locations, including Dartmouth and the Dockyards property, we found that to secure sufficient room for a proper harbor development, one location only was suitable, and that the one I have already designated. By its selection we obviate even a temporary dislocation of business. The future will disclose what we propose doing at the Dry Dock.

"Attention has been given to the possibility of damage by storm to prevent which the arrangement involves the extension of the breakwater at the lighthouse to a sufficient distance to give quiet water from that point in. I may say that my purpose to-day is only to announce the general scheme. My engineers are at the present time working out the details.

"I am persuaded that every citizen of Halifax, after giving careful consideration to the proposed plans and recognizing the engineering difficulties at the north-end of the city, will conclude that we have dealt with the problem in a wise and courageous way. Halifax must share in the marvellous growth of Canada. The government has shown faith in its future and has undertaken its share of the burden

(Continued on Page Four.)

Obituary.

MRS. HAYNES R. MAHONEY.

At Seney Hospital, New York, on Friday morning, October 11th, there passed to the better land, Kate, beloved wife of Mr. Haynes R. Mahoney, and only child of Captain and Mrs. W. D. Bogart, of Fernandina, Florida.

The circumstances surrounding the death of Mrs. Mahoney, who was a grandchild of Mrs. B. Miller, Clarence, and niece of Mrs. B. D. Neily, Bridgetown, are peculiarly sad. An only child, all the love and devotion of the fond parents were lavished upon her. No expense had been spared in her training and education, and as she grew in years her gentle manner, sweet disposition, strong and self-sacrificing love richly repaid their loving care.

About a year ago Captain Bogart completed a handsome new residence, the plan, finishing, and furnishing being entirely in accordance with the cultured taste of the loved daughter. From this home she went forth on April 26th, a happy bride. Owing to business relations requiring Mr. Mahoney's attention the happy couple did not go on an extended tour but returned after a few days spent in St. Augustine to occupy the new house for the summer, in order that her mother might spend a few months with her aged mother in Nova Scotia. On Mrs. Bogart's return to Fernandina in September, Mr. and Mrs. Mahoney started on what they called their wedding trip, coming to New York where they visited Mr. Mahoney's mother, Mrs. Black, and the two uncles of the bride, Mrs. John and Arthur Bogart. While visiting the latter, on the eve of their departure for home, Mrs. Mahoney was taken ill with typhoid fever. The parents were summoned by telegram, and for days science and love battled to save this precious young life; but all in vain, and at the early age of twenty-four she was called to her heavenly home.

The sad journey home was taken, and on Sunday afternoon, Oct. 13th, from that home where only a few short months before she had stood a happy bride, revelling in youth, health and happiness, she was borne by gentle hands to her last "resting place" one of our most beautiful spots in the "Sunny South."

"Oh, think! to step ashore, and that shore Heaven;
To clasp a hand outstretched, and that God's hand;
To breathe the new air, and that celestial air;
To feel invigorated and know it immortality;
Oh, think! to pass from stress and storm to one unbroken calm.
To wake and find it glory."

Both Captain and Mrs. Bogart are natives of this county and spent some time here this last summer. They may be assured that many hearts in this fair Annapolis Valley go out in heartfelt sympathy to them in their sad bereavement and to the young husband in his great sorrow.

Cost of Living in United States.

MILK WAS ONE OF THE ARTICLES ON WHICH THE PRICE WAS LOWERED.

WASHINGTON, Nov. 1.—The high cost of living continued to soar during the past year, so far as meat eaters were concerned, according to a report issued by the Department of Agriculture. Vegetarians, however, were gainers, for according to the official showing, virtually all vegetables enumerated in the Government list fell in price, with the single exception of beans, which cost on the farm \$2.34 on October 15 last, as against \$2.27 on the same date last year.

Beef, veal, pork, mutton and lamb all soared in price, the cost to the consumer in every case being much higher than in October, 1911. Milk dropped slightly in price, and both apples and peaches were lower.

The increase in the value of the farmers' live stock, also kept pace with the increase in the products of the farms, for horses, which could be bought for \$137 last October now average \$140, while milk cows that then were valued at \$42.09, now are sold at \$47.30.

Wilson Elected President.

Before going to press it is impossible to get the full presidential election returns. Wilson, however, heads the poll with Roosevelt second.

Methodist Church Recital

The choir of the Methodist Church, assisted by Madam Lily Hambley-Hobbs, Miss Lillian Hicks and a town orchestra gave another of the recitals which have become popular musical events with the music lovers of Bridgetown, last Monday evening.

The spacious audience room of the church could, it must be admitted, have accommodated a much larger number on Monday night. Those who were present, however, enjoyed a rare musical treat in listening to the cultured tones of the accomplished English cantatrice, and also an agreeable surprise in the music rendered by the orchestra, which was composed of Mr. W. Brittain and his son, Mr. H. G. Bishop, Ross Bishop and Rev. B. J. Porter, Mr. Brittain, who has recently become a resident of Bridgetown, coming here with his family from St. John, has proved himself a valuable acquisition to the local musical talent of the town. He is the leader of the Methodist choir, and wields the baton with the unimpeachable precision born of experience, and besides his vocal ability he is a cornetist of no inferior degree. His young son, hardly entering his teens, lends able assistance with the violin in the orchestra, which furnishes a part of the music of the regular services of the church.

The opening number on the program was an anthem by the choir, rendered with marked precision and harmony, evidencing the careful training of the choir master, in which the solo part was pleasingly rendered by Miss Florence Bishop. Rev. N. A. and Mrs. McNeill lent the choir able assistance in this number. The program was agreeably varied by the readings of Miss Lillian Hicks, whose well-chosen selections and graceful and unassuming demeanor evidently won the approbation of the audience.

Madam Hambley-Hobbs was in fine voice, and gave a number of choice selections. Many thought that she surpassed any previous effort in her charming rendition of "April Morn." Mrs. Bishop presided at the organ in her usual efficient manner. Rev. B. J. Porter, who managed the recital, is to be congratulated upon the success of the affair.

Mere Wreckage Coming Ashore

LIVERPOOL, Oct. 30.—That a dark painted schooner with a yellow head around it, and laden with laths went down in the terrific gale that raged here on Thursday, Friday and Saturday, of last week, is now certain. White Point reports its timbers from this vessel ashore there with a fore-castle house containing six windows. Summerville Beach has skylights and other wreckage. Port Mouton Island reports 20,000 laths, Port Mouton Head 14,000, and Port John Head 3,000. At the latter place part of a ship's bottom with the paint off, and part of a cabin painted white are on the shore. The fore-castle house at White Point measured 17 by 21.

A resident of Port Mouton Island says that two hours before daybreak last Saturday he saw a vessel's port light close inshore and very low in the water. It kept gradually sinking until it disappeared. No bodies have been picked up.

ST. JOHN EXHIBITION HAS BIG DEFICIT.

St. John, Nov. 4.—The financial statement of the St. John exhibition as submitted to the city commissioners to-night showed a deficit after the grants have been paid, of \$4,140.35.

Bridgetown Town Council

The regular monthly meeting of the Town Council was held on Monday evening, Nov. 4th at 7.30 p.m. with Mayor Harlow in the chair. All councillors were present.

It was ordered that the following bills be paid:—A. L. Anderson, streets account, \$26.50; Bridgetown Electric Heat and Light Power Company quarters' light and lamps \$191.40; Charles Berry, labor on sewer account, \$2.29; Joseph I. Foster, poor account, \$6.00; Charles Berry, water account, \$1.65; labor on streets, per pay roll, by A. L. Anderson, superintendent, W. A. Connell, \$8.67; Milne Buckler, \$6.15; Avar Anderson, with the team \$9.00; Greaterex Anderson, \$5.25; A. L. Anderson, time superintending, \$10.25; D. Forest Milberry, \$5.40; Caleb Venot, \$6.87; Norman Dargie, with team, \$8.36; Jas. R. DeWitt with team, \$7.75; Percy Clarke, \$5.02; Harry Hines, \$1.50; stone and labor on permanent bridges Granville Street, \$59.89; labor on streets, timed by George Gill, superintendent; William Hudson, \$8.62; Harry Lewis, \$5.25; on water account; W. A. Connell, water account, \$1.00; stone for crusher, Abner Williams, \$17.66; Maxwell Ltd., Halifax, uniforms for policeman, \$25.00.

Councillor Freeman reported verbally that Mr. Myers, superintendent of the County Home, had applied to him to have the town's water extended into the new portion, and wanted a rate therefor fixed by the Council. After some discussion it was resolved that the rate be \$7.50 per year, and that they (the Council) make the connection.

The Superintendent of Streets reported verbally and recommended that the water trough in Middle Street be removed to the W. H. Burns' corner. Resolved that the report be received and adopted, and that the water trough be moved as recommended.

The Police Committee reported verbally that Mr. Gill, who was appointed chief of police, etc., on a resolution of August for one month on trial, which expired on the 1st instant, had given satisfaction, and they recommended that Mr. Gill be appointed for one year by the Council to perform the different duties appertaining to the office.

Mr. Gill was present and consented to act.

Resolved that Mr. Gill be and he is hereby appointed policeman, collector of the town's taxes, superintendent of streets and water-works, and generally to perform all the duties heretofore performed by the town policeman, and also janitor to the public schools, subject to the approval of the school board. Salary to be \$650 per year; \$530 for the town office, and \$120 as janitor of the schools; salary to be payable monthly. Further resolved, that the clerk prepare a contract between Mr. Gill and the town, in accordance with this resolution, to take effect from November 1st, for one year. Further resolved, that Mr. Gill furnish a bond satisfactory to the clerk for \$1000 for the faithful performance of his duties.

This concluded the business.

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by druggists and dealers.

BRIDGETOWN ENTOMOLOGICAL STATION.

Bud Moths' Ravages Meant Loss of Ten per Cent of the Fruit. Another Ten per Cent was due to the Work of the Green Fruit Worm.

The Codling Moth, Tent Caterpillar and the Railroad Worm other Pests to be Dealt with.

Presuming that many of the MONITOR's readers would like to have some more information re the San Jose Scale, Brown Tail Moth, Bud Moth etc., so much in evidence in the Valley at the present time, the MONITOR's representative visited the local Entomological Station last week and there found Mr. G. E. Sanders, one of the Dominion's representatives, busily engaged in drawing up a road map on a most comprehensive scale for use in the forthcoming season's operations. The map covered the western end of the Province and was most elaborately worked out.

A blue print map was exhibited and carefully examined, as to the work accomplished during 1912 by Messrs. G. E. Saunders, Gilliatt and S. H. Payne (Dominion Entomologists) and Messrs. Payne (brother of the above.) Brown and Kelsall (provincial entomologists.)

The map showed the Counties of Kings, Annapolis, Digby and Yarmouth, from Lakeville and Cambridge, on the west to Yarmouth on the east and was no more than 10 miles wide at any point. In this area no less than 7,710 nests of the brown tail moth were found. This large area was covered by the entomologists from November 28th, 1911, to May 1912 and is convincing proof of how thoroughly these men did the work attached to them.

Locally, no less than 1,300 nests were found in Bridgetown last season, and a visit, made during the past week to see whether the necessary precautions had been used in the effort to eliminate this scourge, conclusively proved that the work has been well and thoroughly carried out. Very few now remain on their work in the same manner the ravages of this pest will soon be stopped. The spraying must be persistently carried on until all danger is past.

(Continued on Page 4.)

The bud moths' ravages in the Valley meant a serious loss to the farmer, the loss being 10 per cent less than 10 per cent of the blossoms in the spring. This moth will have to be very carefully watched and every step taken to exterminate it.

Experiments with regard to the extermination of the bud moth and the green fruit worm have been carried out at Kentville this year and the results thereof are likely to be of very great benefit to the farmers. The codling moth may be killed by spraying immediately after blossom falling.

Another troublesome creature is the green fruit worm, which should carefully be looked for and put out of business, as its ravages also indicate a loss of 10 per cent.

A most serious discovery made at Aylesford on May 28th, this year, revealed the presence of the dreaded San Jose Scale and continued search resulted in living scale being discovered in no less than 201 properties. The only possible cure at present for the grave evil is the total destruction of the trees attacked and this course as carried out by the entomologists resolved itself into the destruction of something between 700 and 800 trees. The entomologists speak in the highest terms of the manner in which their advice was accepted by those whose orchards were infected, there being only one case where a farmer objected to this destruction.

Farmers are particularly warned to look after the San Jose scale, and if doubtful to at once communicate with one of the above officials, who will fully advise as to the necessary measures of precaution to be taken.

Another new pest to Nova Scotia was discovered in an orchard at Smith's Cove, the Apple Maggot or Railroad Worm. This maggot has been found in various parts of New Brunswick, but never before in Nova Scotia. It lays its eggs within the skin of the fruit, and

(Continued on Page 4.)

Wives!

HONESTLY we believe we can help you in the kitchen. Perhaps trim your expenses a trifle. This is not an empty claim. It has at its back a sincere guarantee.

Promise:

From Regal Flour you can bake the best quality and the utmost quantity of bread possible from a barrel of flour. It is not cheap in price, but it yields more. Makes fine, white, light loaves and flaky pastry.

Forfeit:

If Regal Flour doesn't live up to this signed promise your dealer will return your money. Isn't that a fair understanding? We pay your dealer back; in fact we lose entirely unless we have promised faithfully. Remember—Regal.

Steamship Lines
 —TO—
 St. John via Digby
 —AND—
 Boston via Yarmouth
 "Land of Evangeline" Route.

On and after October 28th, 1912 train service of this railway is as follows:

Express for Yarmouth	12.04 p.m.
Express for Halifax	2.00 p.m.
Accom. for Halifax	7.50 a.m.
Accom. for Yarmouth	5.50 p.m.

Midland Division

Trains of the Midland Division leave Windsor daily, (except Sunday) for Truro at 7.30 a.m., 5.35 p.m. and 7.45 a.m. and from Truro at 6.50 a., 8.20 p.m. and 12.45 noon connecting at Truro with trains of the Intercolonial Railway, and at Windsor with express trains to and from Halifax and Yarmouth.

St. JOHN and DIGBY

S.S. "YARMOUTH"

leaves St. John, daily except Sunday at 7.00 a. m.; returning, leaves Digby at 1.55 p. m. making connection at Digby with express trains east and west and at St. John with Canadian Pacific trains for Western points.

Boston S. S. Service

Steamers of the E. S. S. Corp'n., "Yarmouth Line" sail from Yarmouth for Boston after arrival Express train from Halifax and Truro on Wednesday and Saturday afternoons.

P. MCONEY

THE SWINEHERD.

Hogs should have clean pastures, beds and water, and a variety of food.

If sows are expected to produce a fall litter, the spring litter should be weaned when about ten weeks old.

Pigs that show signs of thumps should be forced to take exercise.

Young pigs are peculiarly subjected to various kinds of intestinal worms.

Keep the feed troughs clean. It is a wasteful practice to mix manure with grain.

You cannot fatten a brood sow and fatten a hog alike, and make the best success of both.

As long as the breeding of a sow is profitable she should be bred. It is not advisable to sell off a good brood animal.

HOGGING OFF CORN.

Satisfactory Method of Finishing Swine For Market.

One of the most satisfactory methods of finishing hogs is that of "hogging off." In fact, as a method of fitting for market after the pigs have secured the necessary size and frame it is cheaper than the best methods of dry lot feeding.

The hog is his own harvester and feeder. He saves labor, time and fertility. And certainly in these days when labor is scarce, land high and feeds expensive we may well welcome a method with which to reduce the cost of production.

At one time it was the common opinion that much of the corn was wasted. But actual tests disprove this. Indeed, hogs will waste less corn than the farmer, were he to shuck it himself.

Of course allowance must be made for extremely wet seasons, but in this case hurdles may be used and only about as much corn allowed as can be cleaned up well in about ten days.

Some idea of the economy of "hogging off" may be gained by noting the results of an experiment at the Iowa station. The pigs were turned into the standing corn at a weight of eighty-two pounds during the middle of September, or about the time the corn was beginning to dent. One acre supported ten pigs about two months. At the end of that time the lot in soy beans and corn made a gain of one and a half pounds per day, producing over 900 pounds of pork per acre at a cost of \$2.28 per hundred. The second lot in corn and cowpeas gained one and a quarter pounds per day at a cost of \$2.46 per hundred. Corn and vetch stood third in daily gain and cost of production and corn alone fourth.

At the Missouri station hogs weighing 140 pounds were turned into a field of corn in which rye had been sowed at the last cultivation. The pigs weighed 200 pounds when removed, or, at 6 cents per pound, returned \$36 per acre. In a second lot corn and cowpeas were fed. The Whippoorwill variety was used, and they were sown broadcast at the time of the last cultivation of July 17. The feed lasted thirty days, and in that time the pigs had gained fifty-seven pounds each. The important result is that 568 pounds of pork were produced per acre, which at 6 cents returned \$34.08. Corn and rape were also fed with success. Rape may be sown in the same manner as the peas, at the rate of about four pounds per acre. On either soy beans or vetch may be sown at the rate of about one-half bushel per acre. When forage crops cannot be sown in the corn they may be provided as a separate pasture, or alfalfa or clover pasture may be used as a supplement when it is accessible.

Under ordinary conditions the pigs will take care of the corn without much attention. However, if small pigs are used it may be necessary to assist them for awhile by "turning in" a few older hogs. For this reason 100 pound pigs generally give the best results. Pigs of this size have secured sufficient growth, so that they will not become too chunky and stop growth. Very large pigs, on the other hand, are inclined to break more corn than is absolutely necessary from day to day; in other words their gain is not so economical.

The Pure Bred Sire.

A Montana correspondent of Hoard's Dairyman writes: I would like to add my testimony as to the value of the pure bred sire. I bought, among other common cows, five that cost me \$240 and mated them to my choice young Holstein-Friesian bull that cost me \$290. These cows had five heifer calves, which I sold as yearlings to a Canadian buyer at \$90 per head, or \$12 per head above the average cost of their mothers. A good price for common yearling heifers hereabouts is \$20 per head. These five brought enough in excess of that figure to pay for the bull.

The Profitable Cow.

It is impossible to get away from the fact that the dairy cow is the most economical producer of human food of all our live stock. This is the reason the dairy cow finds her permanent habitat and exists in her highest degree of perfection on high priced land. The dairy cow—just as sure as the world moves—forces herself to the rescue of the man who owns expensive land and who is compelled to get out of it a living and something besides.

A Dairy Pointer.

The great trouble in the average dairy is that animals are underfed, especially during the summer, when excessive reliance is placed in grass pasturage as a balanced ration.

WHITE ESKIMOS.

Explorer Stefansson Is Sure White Men Mixed With Arctic Peoples.

Very interesting details respecting Eskimo life in general, and what is claimed to be a lost tribe in particular, have been received by Prof. Jas. Mavor, of the University of Toronto, from Mr. Vilhjalmur Stefansson, one of the leaders of the Anglo-American Expedition to the Arctic Seas. The expedition set out in 1905, and Prof. Mavor has since received a number of letters.

In a letter dated from Langton Bay Stefansson writes: "We have in four years travelled by snow more miles than any other travelers in the Arctic who have tried to live in the country. We have discovered a dense population, as Eskimos go, in districts labeled 'uninhabited' in the 'Aborigines of Canada' map issued by the Government. We have found 1,000 people, and through them we know of another thousand—in Victoria Land—who never saw a white man, a rifle, or a sulphur match."

The explorers lived with a group of these people in some of the Victoria Land who are strikingly non-Eskimo in type—in fact, more like North Europeans than Eskimos. Mr. Stefansson remarks that he realizes that this find is likely to lay them open to the charge of sensationalism. "I am aware," he writes, "that some authorities consider the admixture of white blood not the only explanation of the existence of small isolated fair groups among dark people. I am inclined at present to favor, though without insistence, the view that there is evidence of an admixture of a large amount of white blood."

"I have heard stories which lead me to believe that one or more survivors of Franklin's expedition lived for some years among the Eskimos in Victoria Land; but be that so, it will explain nothing, so far as the South-west Victoria Land physical type is concerned. If you date the origin of the fair type less than a century back and assume that the type springs from the marriage of white men with Eskimo women, then a thousand whites married among the Eskimos would be an insufficient number to produce the condition found. It seems to me that if admixture of white blood is the explanation of the origin of the fair type in Western and South-western Victoria Land, then the only historical event that can explain it is the disappearance from Greenland between 1412 and the 17th (?) century, (Hans Egede's Voyages to the Arctic (Scandinavian) colony of 3,000 people."

Writing from Single Point, Arctic Ocean, Stefansson says: "There seems to be nothing in the nature of a ceremony connected with entering into consanguineous relations. There may be, and often is, an understanding between principals, but the essential is that the consent of the parents be obtained and then that of the prospective bride. A negative from any of these settles it for the time being—otherwise the marital relations are entered into on the day of the agreement, and as simply as if they were being resumed after a short separation among us. The great majority of the marriages are of the temporary kind. If they last beyond the chances are they will become permanent. . . . The line of division of labor is not always clear. Both sexes row boats and some women hunt deer with the rifle. Boys tend fish nets. When there is plenty of time the women both cook and make clothes, but men often cook when the women are otherwise engaged, and often mend their own clothes for a similar reason. I have never seen anything approaching a quarrel between a man and his wife."

Edmonton Independent.

If reports are to be believed, Mr. Andrew Carnegie will not perpetuate his name in a library at Edmonton.

The Ironmaster, as is his wont, recently offered the Alberta city \$60,000 for a library. The Library Board of Edmonton threatens to turn down this money.

Mr. Carnegie makes his offers for libraries on the basis of population. The Dominion census gives Edmonton 23,000 population. Evidently Mr. Carnegie thought \$60,000 a sufficient sum to supply a city of this size with books.

But the Edmonton Library Board claims that the Dominion census figures are unjust to Edmonton; that there are 55,385 people in the city according to the civic census.

They have recommended that Mr. Carnegie's offer be refused, and the city undertake to erect a library in keeping with the importance of the city.

A Real Farmer.

Civil service clerks, and a stray minister or two, are all that are left of the Parliamentary cast at Ottawa in summer. Many of the "big game" of both parties are at home nursing their constituencies; others are abroad, or summering. Dr. Michael Clark of Red Deer puts in the time between sessions on his Alberta farm.

He does not do his farming from a veranda chair. He gets out in the fields and into the mow and works as if he enjoyed it. Said the doctor with regard to crop prospects in a recent letter to a friend:

"If we only get three weeks' sunshine now, all is well. Damage from hail is over, with a minimum of damage. And the right weather for three weeks now will put crops beyond the reach of frost."

More Fatal Accidents.

During the month of July there were 103 fatal, and 273 non-fatal accidents recorded by the Department of Labor at Ottawa. This is an increase of 48 fatal and 23 non-fatal accidents compared with the record for June, and an increase of 10 fatal and 73 non-fatal accidents compared with July, 1911.

Towels.

Towels should be thoroughly dried before being put away. In damp conditions mold sometimes forms on them, which not only spoils the towels, but has even been known to cause skin troubles.

Sir k is a Blow at Land Monopoly

If the proposed new law for Oregon is endorsed by the people, however, which seems to be assured, that state will not only tax unimproved land values but it will at the same time strike a heavy blow at land monopoly as practised by the big corporations and land owners who control a considerable portion of the land of the state.

This tax will not fall upon anyone who owns less than \$10,000 worth of land or franchise value, but imposes a tax of \$2.50 on each \$1,000 over \$10,000 and under \$20,000, \$5.00 on each \$1,000 between \$20,000 and \$30,000 and so on by an increasing scale until estates of an unimproved value of over \$100,000 will have to pay \$30 a year on every \$1,000 over that amount.

A piece of land of the unimproved value of \$71,000 will thus contribute \$2.50 a year, a tract worth \$10,000 will pay \$25, and an estate valued at \$300,000 will pay \$7.150.

From this graduated tax it has been calculated that in Multnomah County, which includes the city of Portland less than 2,000 large land holders and corporations will pay one-third of the total taxes collected by the county for state, educational and country purposes. Most of these 2,000 people we have no doubt are bitterly opposed to the bill, but they all own land of an unimproved value of more than \$100,000 or franchises to the same value, all of which has been created by the people as a whole. If the law passes, the people will tax for their own benefit what they themselves have created and it is difficult to see any valid reason why they should not do so. The thought of taxing the C. P. R., the Hudson Bay company and the other big land owning companies of Western Canada on a graduated scale of this kind is enough to make one's mouth water, not only because of the large revenue that would be produced, but also because of the immense amount of land now held by speculators which would be made available for purchase by actual settlers at reasonable prices.—Grain Growers' Guide.

DON'T BE BALD.

Nearly Anyone May Secure a Splendid Growth of Hair.

We have a remedy that has a record of retarding baldness and promoting hair growth in 98 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Rexall "93" Hair Tonic will eradicate dandruff, act to prevent baldness, stimulate the scalp and hair roots, arrest premature loss of hair and promote hair growth that we personally give our positive guarantee to refund every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store, Royal Pharmacy W. A. Warren.

Live and Learn.

Dr. Sophia Jex-Blake, whose persistent efforts finally brought about the admission of women to the practice of medicine in England, remained wittily unimpressed by the bestowal of this privilege.

"It is absurd," she said, "to keep the door longer shut against young women, seeing how many old women were already inside."

Of a tireless eloquence, Dr. Jex-Blake once drew the incisive wit of Benjamin Jowett. The master of Balliol had sat next to her at dinner, and after the ladies retired he remarked, in his mild, high pitched voice:

"I always knew that lex meant law, but never till this night that Jex meant law."

Canadian Is Best Penman.

For the second time in two years the prize in penmanship offered by the New York Business Journal has been captured by a Toronto student.

Miss Maud M. Hallett, 712 Gladstone avenue, a third year student at the High School of Commerce and Finance, and a pupil of Mr. J. J. Bailey, instructor in penmanship there, succeeded in carrying off the prize in a competition which had over ten thousand competitors from all parts of Canada and the United States.

Last year, the first occasion on which the prize was awarded, it went to James Rennie, another Toronto pupil.

Old folks who need something of the kind, find

most effective without any discomfort. Increased doses not needed. 25c. a box at your druggist's.

National Drug and Chemical Co. of Canada, Limited.

Teachers' Camps.

Cadet Instructors Receive Practical Open-Air Training.

The Canadian Government, acting in conjunction with the educational authorities, has established, at several points of the Dominion, camps for the assistance and qualification of cadet-instructors. At these camps a course is outlined which if followed faithfully will enable and qualify, the men—especially school teachers—to carry on cadet work and train the youth of our land along the line of outdoor activity. Skill with arms and movement in formed bodies, protection—outposts, advance flank and rear guards—attack, defence, physical training, games, and athletics, and a hearty co-operation with one's fellows for the securing of desired privileges, are constantly held in view in these training camps during the course of instruction.

One of these camps which will serve as an example was established at Sturgeon Creek, in the old Rifle Range. Here thirty-four men, nearly all teachers, has completed a six weeks' course, which entitles each to a Cadet Instructor's Certificate. Cadet corps to be officially recognized and to participate in the rights and privileges of such, must be in charge of some one who has had this or equivalent training. It is to furnish such instructors and strengthen and guide the movement that the authorities have established these camps.

Half of the thirty-four men who took the course at Sturgeon Creek were from Manitoba and half from Saskatchewan. They are allowed their transportation and \$1.50 per day; their expenses are \$1 per day for messing in addition to their uniforms and books, which cost about \$2.50 or \$3.

Apart from the valuable training these teachers got and the securing of an Instructor's Certificate, the period was a delightful and helpful outing. It might be interesting to know what a typical day's duties are, and the following will serve as a sample:

Reveille, 6 a.m.; breakfast, 7.30 a.m.; physical drill, 8.30 a.m. till 9.30 a.m.; company drill, 9.45 a.m. till 10.30 a.m.; lectures on the "Attack," 10.45 a.m. till 11.30 a.m.; infantry in battle, 11.45 a.m. till 12.30 p.m.; luncheon, 1 p.m.; musketry, 2 p.m. till 3 p.m.; signalling, 3.15 p.m. till 3.45 p.m.; lecture on "Map Reading," 7 p.m. till 8 p.m.

I am sure if it were more widely known among teachers many more would take the course if for nothing more than the personal benefit and enjoyment to be derived. It, however, is much more than an outing.

HIS BLADDER WAS TERRIBLY INFLAMED

GIN PILLS Brought Relief

Larder Lake, Ont., March 26th.

"I had been suffering for some time with my Kidneys and Urine. I was constantly passing water, which was very scanty, sometimes as many as thirty times a day. Each time the pain was something awful, and no rest at night."

I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum 60 miles to get them and I am pleased to inform you that in less than six hours, I felt relief.

In two days the pain had left me entirely. I took about half a box and today I feel as well as ever and my kidneys are acting quite natural again.

S'D CASTLEMAN.
 GIN PILLS soothe the irritated bladder—beal the sick, weak, painful kidneys—and strengthen both these vital organs. Money back if they fail. 30c. a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co., of Canada, Limited, Toronto. 139

Temperance Week

Safeguard The Boys And Girls.

Sunday, November the tenth, is World's Temperance Sunday. On that day all Sunday School teachers might get boys and girls to sign such a pledge as this—

"I promise, with God's help, to abstain from the use of intoxicating liquors as a beverage."

Then on the eleventh of November and the following days of the week, public school teachers could obtain signatures to the pledge in the public schools. In cases where boys and girls have already taken the pledge, it might be renewed.

Boys are the material out of which intemperate men will be made unless we safeguard them. The pledge is a safeguard.

The appeal can be made on reasonable ground, for abstinence from the use of liquor assures greater efficiency, longer life, stronger character.

We have about 100,000 boys and as many girls in Nova Scotia under 16 years of age. A large proportion of these attend the public school and Sunday school. No person can estimate how much it will tend to the moral and material welfare of our province in the years to come, if at this time, boys and girls are persuaded to take a stand on the side of sobriety.

With temperance sermons by all clergymen, temperance addresses in the Sunday school, temperance talks in the public schools, and a general pledge-signing campaign for one week, beginning Sunday tenth of November, the result would be incalculable benefit.

This is a great opportunity. Let us take advantage of it. All the gold, coal, iron, forests, farms and fisheries in the world will not save the nation that neglects the boys and girls.

H. K. Grant,
 General Secretary
 N. S. Temperance Alliance

A Film Star.

To be a motion picture star is coming to be a recognized means of attaining great popular distinction, and one of the first actresses in the country to reach this pedestal of fame is Florence Lawrence, a Canadian girl.

She needs little introduction to the public—certainly none to the millions who go to picture entertainments. Her association with two or three of the older motion picture companies where she first began to gain popularity some three or four years ago, on through her experience with other film organizations have given her a most unquestioned and unique position in this branch of drama. Now, that she is heading her own company with the name of Victor, it seems inevitable that she should go on to greater triumphs.

Miss Lawrence was born in Hamilton, Ont., to all appearances not very long ago, and began her stage career when three years old. Little Lord Fauntleroy was one of her parts. Before going into pictures she toured the West with the Lawrence Dramatic Players.

Mex

THE LIGHT-HOUSE KEEPER'S STORY

FROM the lighthouse at Lobster Cove Head, Bonns Bay, Newfoundland, Mrs. W. Young sends her experience of Zam-Buk. She says: "I suffered with eczema for seven years, and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible, and yet when the eruption was scratched or rubbed, it turned to bad sores and caused great pain. I went to a doctor and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth.

"Seven years is a long time to suffer, and I had got used to the thought that I never would be cured, when I saw a report in the Family Herald, telling how beneficial Zam-Buk was in cases of skin disease. "I bought some Zam-Buk, and from the use of the very first box I saw it was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful.

"It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it and within a very short time it worked a complete cure in my case.

"Since that time I have recommended it for several other cases, and in each it has proved its wonderful merit.

What Zam-Buk Cures
Zam-Buk cures Eczema, Sores, Blood Poison, Piles, Cold Sores, Chapped Hands, Scalp Sores, Bad Leg, Festering, Children's Eruptions, Cuts, Bruises, Scalds and Burns. All druggists and stores sell at 50c box or post free for price from Zam-Buk Co., Toronto. Refuse worthless substitutes.

UNIFORMITY IN CANADIAN DAIRY PRODUCTS.

A few months ago there was held at Ottawa a Conference of dairy experts and officials from all parts of the Dominion. The meeting was called by the Honourable, the Minister of Agriculture for the purpose of endeavoring to perpetuate the uniformity in quality and character of Canadian cheese and butter that has been responsible for the success of Canadian dairying. As pointed out by the Dairy and Cold Storage Commissioner, who presided over the Conference, many things come up in the practice of dairying over which slight difference of opinion may arise so that it seems desirable to bring together from time to time those in charge of dairy schools, and the chief instructors, in the various provinces, to discuss methods and practices, in order to arrive at some agreement as a body of dairy advisors. The Conference lasted two days during which time many matters of importance were taken up and freely discussed. Some of these were the pasteurization of whey, factory refuse in relation to tuberculosis in hogs, testing and grading cream at cream gathering creameries, whey butter, methods of paying patrons of cheese factories, and other subjects relating to the production of butter and cheese. For the information of buttermakers and cheesemakers, and others interested in dairying, there has been printed a verbatim report of the proceedings of this Conference. Copies may be procured by applying to the Publications Branch of the Department of Agriculture, at Ottawa.

GOING IN FOR OYSTERS

CANADA MAKING AN EFFORT TO REVIVE INDUSTRY.

The Scarcity of the Luscious Bivalve Has Aroused the Maritime Fisheries Experts to Devise a Means of Building Up What Was Once an Extensive and a Profitable Commerce.

After twenty years of depletion the oyster fishery of the Maritime Provinces of Canada just now bids fair to take on a new lease of life. But it will no longer remain the oyster fishery. It will be known as oyster farming. Nature long attended to the trouble of sowing the oysters; and now he has to learn the lesson that sowing comes before reaping.

Meanwhile the Canadian oyster is a rather scarce article, and its scarcity is measured in the price. A barrel of oysters could be obtained at wholesale for \$1.90. Recently they have gone as high as \$10 per barrel. So great has been the rise in value that in spite of a great falling off in the yield, the value of the catch has risen by more than half. In 1892 there were 64,646 barrels of oysters taken, but they were valued at a little less than \$128,000. In 1910 the catch was only 29,727 barrels; but the value was \$198,869.

So today we pay fifty per cent. more for our oysters, but get less than half we used to get. Still we cannot blame nature. She treated us very generously until we treated her barbarously, and then she gave up the struggle on her behalf with a broken heart.

The labors of the other oyster on behalf of humanity are quite staggering. There are various estimates of the number of eggs she lays in a year; but the smallest is 16,000,000. It is assumed she cannot be accused of encouraging race suicide.

All her labors, however, have been in vain. So long as she had to meet only the vicissitudes of the sea, she managed to keep her family about the same proportions. This was the day when our oyster fishery was profitable. From 1882 to 1893 the yearly production never fell below 50,000 barrels. Man's inroads seemed to be enormous; but so long as he confined himself to normal fishing operations, the oyster fishery did not fail. Mother oyster was able to meet the vicissitudes of the sea and minister to man's legitimate wants as well.

But man would not give Mother Oyster a fair chance. "One feels a sense of shame," says Mr. M. J. Patton, assistant secretary of the Commission of Conservation, "at the wanton waste that is revealed in the history of the Canadian oyster industry. In early years oyster were actually burned in order to secure the lime in their shells for fishing, which was not prohibited by law until the past decade, was another prolific cause of waste. The oysters were raked up from the bottom through a hole in the ice, the large ones sorted out for market, and the small ones left on the ice to perish with the cold. . . . But it is the mud diggers that take the palm as agents of destruction."

"When winter comes and the ice comes, great power-digging machines can be seen dotting the ice over the oyster beds. The farmers—that is, the land farmers, not the oyster farmers—consider that the mud and oyster shells, with their large percentage of lime, are valuable as a fertilizer for the land, and every winter these machines cut the oyster beds to pieces, and suffocate all the oysters roundabout by the deposits of mud that settle down."

So Mother Oyster had to give up the fight, and man had his way. From 1884 to 1901 the yield ranged from 40,000 to 50,000 barrels a year; and never since 1901 has it risen above 40,000 barrels, and in 1907 it reached the lowest in thirty years with a production of only 27,299 barrels.

Prince Edward Island has suffered most from these wanton methods of treating the oyster. In the palmy days of the oyster industry the Island gave us more than seven-eighths of our total yield, while for the last few years it has sunk below New Brunswick. In 1882 Prince Edward had 57,000 barrels of oysters; in 1907 the yield was only 3,672 barrels. New Brunswick touched its highest record in the last annual yield of about 21,000 barrels; its yield sank to 12,470 in 1903, but has since been rising, the yield in 1909 being 19,340. Nova Scotia's highest point was 4,318 barrels in 1891; in 1909 the yield was 1,716. British Columbia has a yield which varies from one to four thousand barrels. The Pacific oysters are not as large as those on the Atlantic coast, but some of the latter have been transplanted to the Pacific with success.

As Prince Edward Island has been the chief sufferer from destructive methods, so it is now taking the lead in the adoption of measures of conservation. The subject was fully discussed at the last meeting of the fisheries section of the Commission of Conservation, and Premier Mathieson and Dr. Joseph Stafford of McGill University gave the committee the latest information on the progress of the plans.

The plan proposed by the Prince Edward Island Government is the leasing of oyster beds to individuals. These beds will then be "farmed" by the individuals, who will sow seed and tend and reap the crop. The process will hardly show as quick returns as does ordinary agriculture. It takes about four years for the maturing of the oyster from seed, and so the oyster farmer must have patience as one of his qualifications.

Incidentally, Premier Mathieson hopes to get quite a revenue for his Government from the beds. He estimates the area of the oyster beds at from 100,000 to 300,000 acres.

BECKER SENTENCED TO DEATH.

New York, Oct. 30.—Charles Becker, the former police lieutenant, convicted of procuring the murder of the gambler, Herman Rosenthal, was sentenced to die in the electric chair, at Sing Sing, during the week of December 9.

Becker's execution will be stayed, however, by a notice of appeal from the verdict of the jury, soon to be filed by his counsel, which may take a year to determine. He was at once delivered into the hands of Sheriff Harbinger, who immediately left with him to take a train to Sing Sing prison, where the convicted man will be placed in solitary confinement until his fate is determined.

The boy's appetite is often the source of amazement. It would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by druggists and dealers.

A delegation of men from Guysboro, Geo. T. McNutt, J. S. Wells and R. Sinclair, waited before the minister of Railways in Halifax on the 29th and urged the construction of the Guysboro Railway. They put the matter with no uncertain good before the Minister.

Five Sisters of Charity Die Trying to Save Orphans

(Canadian Press)

San Antonio, Texas, Oct. 30.—Five Sisters of Charity sacrificed their lives in an attempt to save 100 children in a fire that destroyed St. John's Orphanage to-day. They succeeded in rescuing all but two children before they were trapped by flames.

Another sister was burned so seriously that she cannot survive. Two sisters escaped.

Guilty of Murder

Halifax, Nov. 1.—"Guilty of murder" was the verdict of the jury in the case of Herbert Grant, charged with murder, which was concluded in the supreme criminal court yesterday afternoon. The jury were out for one hour and a half. Grant was sentenced to be hanged Wednesday, January 8th.

PROPRIETOR AND PUBLISHER

WEDNESDAY, NOVEMBER 6, 1912.

Some important developments in
the war outlook have taken place dur-
ing the week, and yet the ultimate
issue is by no means in sight. The
Turkish ambassador has expressed the
willingness of that nation to receive
assistance from the powers in bringing
cessation of the hostilities.

The Balkan nations and Greece are
persistent in their determination, how-
ever, that Turkey must arrange directly
with them the terms of peace without
the intervention of the European powers.
This attitude is emphasized in a state-
ment from official sources, which says:

"The Turkish proposal of peace is
satisfactory in so far as it shows a desire
to prevent further bloodshed. As re-
gards foreign intervention, however,
there seems to be no chance of the Bal-
kan states listening to any foreign coun-
sels while treating for the arrangement
of conditions of peace. These must be
settled between the Balkan states and
Turkey direct."

Much speculation is rife concerning
the action of Great Britain in sending
a fleet of battleships to the Dardanelles.
Their ostensible mission is to protect
British subjects in Constantinople but
it is surmised by some of the British
press that this precaution is taken to
protect British interests should the
concert of European powers be broken.

It is assumed that the British gov-
ernment can do nothing for Turkey,
owing to the all but unanimous sym-
pathy existing among its supporters for
the Balkan States in their fight for lib-
eration. "It is doubtful if the Asquith
government could stand," states a Brit-
ish journalist, "if it even consented to
look on while Austria attempted to
coerce the Balkan States into reinstat-
ing, in any degree, Turkish power over
Macedonian Christians."

with Costs for Plaintiff**

The case of Starratt vs. Dominion At-
lantic R.-ilway, argued by jury before
Justice Drysdale in Halifax last week,
was dismissed, with costs for plaintiff.

The action was one for damages for
defendants' failure to provide refrigera-
tor cars for apple shipments to Winni-
peg under an alleged contract to do so.

W. A. Henry, for the defendant com-
pany made application to the court for
the withdrawal of the case from the jury,
claiming nothing in the nature of a con-
tract had been shown and that the plain-
tiff had not shown any contract with the
D. A. R. under which the latter would
be expected to furnish refrigerator cars
for shipment of apples to Winnipeg. Mr.
Henry claimed the railway was not bound
to send their cars off their line if it was
not shown they by contract agreed to do
so. The D. A. R. Co., had no refrigera-
tor cars of its own.

Mr. Ralston for plaintiff claimed there
was a contract. The D. A. R. Co., had
no refrigerator cars of its own and would
not use G. T. cars unless rented over the
C. P. R. He said reasonable diligence
in getting the cars was not shown and
that G. T. refrigerator cars came here
every week with shipments of meat etc.
Mr. Ralston urged there was a question
for the jury as to contract. Plaintiff had
not shown they by contract agreed to ship
them to England at a profit, in conse-
quence of an agreement on the part of
the D. A. R. to supply the line with re-
frigerator cars for the West.

The circumstance is likely to have an
adverse effect on the shipment of apples
to the West from the Valley.

Notice.

The Monitor Press has had
no connection whatever with
the defunct Bear River News,
which was published by G.
I. Brooks, Bear River, and
printed at the office of the
Yarmouth Light. Any money
paid by Mr. Brooks on sub-
scription to that paper did
not in any way apply to the
Bear River Telephone which
was amalgamated with The
Weekly Monitor, and con-
tinued to former subscribers
of the Telephone under the
name of The Weekly Monitor
and Annapolis Sentinel
since December 1907.

Bridgetown Entomological Station

(Continued From Page One.)
the young larva burrow in every
direction through the fruit. The
young cannot be injured by spray-
ing.

Mr. Sanders drew particular at-
tention to the Tent caterpillar,
which, he said, was quite an epi-
demic in this district. Although
belonging to the Tent caterpillar
species and called as such, it never
made a tent, and was very de-
structive. It generally made its
nest near the end of new growth,
and covered it with a coating like
wax. It has the appearance of a
wide ring. To cope with it the
trees affected should be sprayed
before the blossoms come out and
also after they fall. The time for
the first spraying should be from
May 14th to 20th, and the second
spraying from June 4th to the 8th.
If these sprayings are effectively
carried out a tremendous amount
of fruit will be saved; if not, on
account of their large numbers, a
serious position is opened up to
those who do not take these pre-
ventive measures. The most ef-
fective spray for this purpose was
two pounds of lead arsenate to
forty gallons.

Mr. Sanders very kindly showed
the MONITOR'S representative
many specimens of all the above,
and the visit was in every way
an educational and interesting
one.

The inspectors have received
the most stringent instructions to
see that the regulation governing
the Brown-tail Moth is carried
out, and it therefore behooves far-
mers to carefully watch their trees
and carry out the instructions.

Scheme for Greater Halifax

(Continued From Page One.)
necessary to expansion. The en-
terprising business men of the city
will now be encouraged and will
not shrink from doing their share."

The luncheon was attended by
prominent politicians, among them
being Hon. O. T. Daniels, attorney
general, and Hon. E. A. Armstrong

Eloquent addresses were deliv-
ered by F. B. McCurdy, M. P., A.
DeWitt Foster, M. P., Charles E.
Tanner, M. L. A. and Michael
Dwyer, president of the board of
trade.

County Court

The November term of the County
Court was held in Bridgetown on
Tuesday and to-day (Wednesday) be-
fore Judge Pelton. The following
composing the Docket:—

1912 A. No. 2198	Jury Causes
Harry Hardwick	Daniel Owen.
vs	
Arthur Kinney	John Irvine, K. C.
1812 A. No. 288	Nova Jury Causes
Samuel Williams	H. Ruggles.
vs	
Elias Messenger	O. S. Miller.
	Appeals
The King	
vs	
Herbert Hicks	O. S. Miller.
Thomas Harper	Daniel Owen.
vs	
A. Russell Palmer	W. G. Pearsons.

HARDWICK vs KINNEY

This was a case in which the de-
fendant had an action brought a-
gainst him by Hardwick, through
his attorney, D. Owen, to recover
damages for an alleged libel re-
the shooting case at Parker's Cove. Mr.
Kinney, who was the reporter for
the Halifax Herald and Chronicle,
immediately upon discovering that
he had made an error in the name of
the man who was supposed to have
fired the shot, according to his
affidavit produced in court, caused a
correction to appear the next day in
the above named paper.

About a week afterwards a full
and ample apology was published in
the two papers mentioned above. Mr.
Kinney also had a marked copy of
each of these papers sent to
Hardwick the following day, and by
the same mail, also sent him a letter
drawing his attention to the apology
and asking Hardwick to come and
see him. A copy of the newspaper
was also sent to Joseph Withers of
Granville Ferry, whose name errone-
ously appeared in the account of
the shooting affray. Up to the time
of sending newspapers, Mr. Kinney
had received no intimation from Har-
dwick or his solicitor that any action
for damages was to be brought a-
gainst him. Subsequently he received
a letter from D. Owen, stating that
an action was to be brought against
him by Hardwick. Mr. Kinney had
an interview with Mr. Owen and asked
him what damages Hardwick had
sustained. The reply of Mr. Owen
was, "He did not know that Har-
dwick had sustained any damages
whatever, but, he (Hardwick) saw
millions in it, and expects to get
\$100 out of each of the newspapers
that published the item and all he
can get out of you. But I can make
it easier for you, how much will you
give to settle it?" Mr. Kinney told
him he thought he had not hurt
Hardwick and offered \$5.00 to keep it

out of court. The reply of Mr. Owen
was, "Hardwick would not take
\$5.00, but if you give me \$20.00 I
will settle it. Will you give that?"

Mr. Kinney said he would think it
over. The impression left upon Mr.
Kinney's mind "was that Mr. Owen
was running the whole thing, and
that Hardwick would do what ever
he was told." At various times sub-
sequently, Mr. Kinney had interview-
ed Hardwick and laid a statement be-
fore the court, relative to the same.
Mr. Irvine, K. C. appeared for
Mr. Kinney and Mr. Daniel Owen for
Mr. Hardwick. Mr. Irvine asked his
Honor for an order under the "In-
herent jurisdiction of this honorable
court, that all further proceedings in
this action be stayed, and this action
be dismissed, on the grounds that
the same is frivolous and vexatious,
and an abuse of the process of the
court, and that the plaintiff do pay
the defendant his costs of this action
including the costs of the applica-
tion."

In support of his case, Mr. Irvine
quoted quite a number of decisions
governing parallel cases, and asked
his Honor to dismiss the action with
costs.

Mr. Owen, K. C. replied, and also
asked that the present proceedings
be dismissed in favor of his client.

Mr. Irvine asked that Mr. Har-
dwick be produced for cross-examina-
tion. Eventually Judge Pelton stated
that he would reserve his decision
until the following morning and ad-
vised Mr. Owen to have Hardwick
present, for the purpose of cross-ex-
amination, if necessary.

A large number of persons were
present in court and great interest
appeared to be taken in the case.
Mr. Irvine in his opening having
stated that it was a case that not
only effected his client, but the whole
force of journalism in this province.

HARDWICK vs. KINNEY.

This morning the case of Hardwick
vs. Kinney was resumed. Messrs Owen
and Owen produced their client Mr.
Hardwick for examination. Mr. Owen
read the affidavit of Mr. Hardwick in
which his statements were at total variance
with the affidavit of Mr. Kinney. Where-
upon, Judge Pelton stated that there being
direct and lamentable perjury on one side
or the other he would dismiss the motion
and leave the case to be tried by a jury.
Costs reserved.

J. WESLEY FREDERICKS.

The death of J. Wesley Fredericks
occurred at the home of his uncle, Mr.
Henry Fredericks, on October 24th,
after an illness of two years' duration
from tuberculosis, at the age of thirty-
three years. Upon the death of his
Mr. and Mrs. Fredericks had three
children to reside with them. Since
that time Mrs. Fredericks has died, the
care of the sick man and his children
devolving upon the care of his uncle.
The funeral took place on the 26th ult.,
Rev. B. J. Porter officiating.

JOHN LOCKETT & SON

IMPROVING THE D. A. R.

Speaking of the D. A. R. in Halifax
recently, Sir Thomas Shaughnessy,
the President of the C. P. R. stated
that they have found the bridges al-
ong the Dominion Atlantic in very
bad shape as these were being al-
lowed to decay as rapidly as possible. Even
as good a bridge as the one over the
Avon at Windsor had to be replaced
by a heavier structure and so it is
all along the system. The entire line
would be laid with heavy steel
rails and he hoped that within two
years all this work would be com-
pleted and the Nova Scotia section
of the C. P. R. would be up to the
Company's standard. He could make
no statement as to the Company's
entrance into Halifax, all this, how-
ever, would be taken up in time.

W. Anthony has sold his fine residential property to James Marshall.

The Parana arrived on Friday with 200 tons of coal for Longmire & Sons.

Mr. McDonald is inspecting the local branch of the Bank of Nova Scotia.

There is no substitute for newspaper advertising except loss of business.

Mr. William Eaton has resumed his position with the Bridgetown Marble Works.

Large quantities of stone are being hauled to Riverside Cemetery for drainage purposes.

The rumor that the Grand Central is to pass into other hands is denied by the proprietor, Mr. Silver.

Lessons in drawing and painting. Call and see Miss Underwood at Miss Crosskill's photograph studio.

Notice is served of an appeal in the case of the three Graves brothers, convicted the murderer of Kenneth Lea.

The first social of the season in connection with St. James' Bible Class will be held this (Wednesday) evening.

The horse trough at the north-east corner of Middle Street and Albert Street is being removed to the south-east corner.

Attorney-General Daniels is in town for a few days attending county court. On his return to Halifax he will be accompanied by Mrs. Daniels and Miss Ethel.

The work of pile driving for the new bridge at the abutment is going on. The bridge is being extended on the south side, the extension to connect with the sidewalk at either end.

Mr. J. H. Lawson, of the Yarmouth Herald, is in town in connection with the case of newspaper libel now before Judge Felton in the County Court. Mr. Lawson has paid \$100 damages to Mr. Hardwick's solicitor under the same action.

The members of the Shell Fish Commission appointed by the government, who have been holding meetings in the various parts of the provinces since the first of September, visited Digby last Friday. All the evidence obtained during the tour will be the subject of a report to the government, which will later be made public.

Courier:—Mr. O. C. Jones, D. A. R. station agent at Digby, has purchased from Mr. B. Havey the property on King Street between St. Mary's and St. George Streets, known as Lot Z, containing 13 town lots. This will no doubt prove a profitable investment for Mr. Jones, the way real estate prospects are looking in Digby at the present time.

A wedding of much interest to the people of Annapolis took place at St. Luke's Church on Wednesday last, when Miss Josephine Ritchie became the bride of Mr. Edward Flint, of Lincoln, Mass. Mr. and Mrs. Flint left immediately by automobile for Digby, en route for St. John and other Eastern cities before proceeding to their home in Lincoln.

PERSONAL

Mrs. H. B. Hicks visited Mrs. McDaniel at Annapolis last week.

Miss Muriel Lockett leaves today on a visit to friends in Boston.

Mrs. C. F. DeWitt has returned from a visit to Boston and New York.

Mrs. B. Farnsworth was in town Monday looking after her property here.

Ronald Ruggles has been transferred to the Bank of Nova Scotia at Kentville.

Mr. Alfred Legge, of Malden, Mass., visited his mother and sisters here recently.

Mr. Mark Curry and bride have taken up their residence at 5 Brenton Place, Halifax.

Mrs. J. S. Moses will be "at home" on Thursday and Friday afternoons, Nov. 14th and 15th.

Mrs. S. N. Weare has returned from Halifax, where she went for hospital treatment, much improved in health.

Mrs. F. M. Armstrong and daughter, of Round Hill, are occupying rooms for the winter with Mr. and Mrs. W. Arch. Kinney.

Mrs. Craig, of Bridgetown, and daughter, Miss Mary, were recent guests of relatives in Cambridge, and also visited Mrs. Pearson of Union Sq., and Mr. and Mrs. O. H. Parker of Brooklyn Street.—Western Chronicle.

Mrs. G. Elburn Nichols was accompanied to Halifax by Dr. and Mrs. Dechman on Thursday last, and the following day was operated upon by Drs. McDonald and Dechman. Report yesterday was that Mrs. Nichols was doing as well as could be expected.

Yarmouth Light:—J. M. Fulmer, late of Moncton, is to take charge of the undertaking department of Mr. A. K. VanHorne's business, and comes highly recommended. Mr. VanHorne is at present in Halifax attending the Undertakers' Association, of which he is Vice-President.

Middleton Outlook:—Miss Bessie Pickels, of Nictaux Falls, who recently completed her studies at the Boston Conservatory of Music, has been invited to go to Halifax and sing before the Ladies' Musical Club of that city and sing a couple of new songs composed by the president of the Club, Miss Kate Mackintosh.

Kentville Advertiser:—Newton H. Newcome, of Port Williams, left on the 16th for Vancouver, sailing from thence to Australia, to visit his brother, whom he has not seen for 29 years. As his ticket permits to visit points of interest in the Eastern Hemisphere, he will probably not return for a year or more.

Three Children Burned to Death

The Victims Were Members of Former New Brunswick Family.

Halbrite, Sask., Oct. 31—Three children, belonging to Mr. and Mrs. Frank Gerrish met death in a burning house on the outskirts of Halbrite. Mrs. Gerrish had been helping her nearest neighbor during the night, whose child was sick. This morning Mrs. Gerrish put on a fire in her own house and ran across to see how the sick child was. The fire started from some unknown cause, and had gained great headway before her attention was called to it. The Gerrish family came from New Brunswick.

CARD OF THANKS

Mr. and Mrs. Ernest Whitman of Lawrencetown, wish to thank their many kind friends for all the kindness extended to them during the illness and death of Mr. Whitman's father.

Ross A. Bishop LOCKETT BUILDING

MADE HIT IN LONDON

TWO CANADIAN ARTISTS HAVE SURPRISED METROPOLIS.

Archibald Browne and Homer Watson Went to England and Held Private Exhibition This Summer and Haldane Macfall, the Best of the London Critics, is Loud in Praise of the Two Pioneers.

It is a strange fact that, whilst nearly every Englishman "talks large" of Empire and of the Imperial race, and of "hands across the seas," and the like handsome sentiment, he ignores our colonial kin about as thoroughly as though he hated them. Says Haldane Macfall, the celebrated English art critic, in a recent issue of The Academy. Let us take our English attitude towards the poets at the outposts of this wondrous realm of ours. In London, this summer, may be seen the paintings of two fine Canadian landscapeists. The lyric poems of Archibald Browne and the virile hand in pastoral and woodland scenes of Homer Watson give more than a strong hint of the vigorous brood upon our frontiers. These are not the only ones—they are but two out of several. Yet we have a heavily endowed official Royal Academy that makes no slightest advance to give these men hospitality, far less honor. Why cannot this official body, in return for the manifold honors and benefits showered upon it by the King, do something to further the royal interest and give substance to the keen sympathy of the King for his vast inheritance? Surely it needs no prodigious self-sacrifice for the Royal Academy to give at least one room every summer to the display of the genius of the colonies in painting and sculpture! What is the value of all our professions of fellowship with the colonies if we treat them as our Cinderellas and fling them the rags of neglect in the back kitchen of our high estate? The Academicians can ill afford to patronize the colonial breed; nay, it were no bad thing for the Academy to learn from them. Were there a colonial room at every summer show, it might brace up the sluggish energies of that august body more than a little.

Both Archibald Browne and Homer Watson are tried and tested artists who have established reputations, though it is likely enough that the Royal Academy has never heard of them. At the Goupil Gallery is a display of the lyrical art of Archibald Browne which reveals an exquisite poetic sense that conjures up for us at home the mysterious that lie over the land of Canada. His sensitive touch and romantic vision weave from the scenes of his native land those twilight moods that are aroused in the senses out of the dusk between the day and night the world over, but added there is the haunting call of the Canadian that has bred him and is his love. It is a far different land from the silvery land of France, and Browne's art is not the art of Corot; but between the two men is a lyric brotherhood that tells of a like subtlety of vision, a like sweetness of disposition, a like content, and a romantic love of the land that has yielded its allure into their hearts from childhood. To say this is to say that Browne is a genuine poet, gifted with singer's skill to utter the music that is in him.

In Homer Watson, as three or four of his displayed canvases witness, we have a virile and forceful poet of the pastoral life, and, above all, of the woodland life of his native land. Here is a man whose sincere art descends to him, as by hereditary vision, from the great English landscape painters—an art through which the men of Barbizon, by their mastery, proved us to be kin to the Northern Frenchmen. Homer Watson's bold handling and loaded brush might have been trained by Constable and Crome and Rousseau and the men of Barbizon of whom he knew nothing until his art was confirmed and his name honored in Canada. But he has—as his sincerity of vision was bound to give him, even if his schooling gave him none—a touch, a vision, and handling apart and all his own, which are skillfully employed in the rendering of great trees and in the stern and dramatic landscapes so typical of the pastoral life of Canada. The russet hues of autumn amongst the woodlands seem to bring out all his strength; and he catches the moods of the forest with a certainty of grip and a vigor of handling that give a marked personal quality to all that he essays.

I wondered as I stood before the sincere art of these two poets, whether Canada herself realizes that she has poets in her midst, or whether her rich and well-to-do are "furnishing" their walls with pictures persuaded upon them by the dealers—wondered whether the "faked" Barbizon landscapes and the machine-made "masterpieces" of the picture factories of Holland are being flung upon the people at great price, whilst the native genius is being passed by. It is a matter for pride in Canada that a people who have torn the forest out of the waste and raised a mighty realm amidst a vast continent should already be bursting into song, and that there are arising amongst her virile breed such artists as these, of whom two may be seen in London to-day. It is not easily credible that Canada does not realize her own splendor, yet we have before us the historic tragedy of the Dutch, who, even whilst they brought forth their greatest genius, from Rembrandt and Hals and Vermeer onwards, let their greatest starve whilst they gave fortunes to the mediocrities and poured money into the purses of tenth-rate aliens.

But how can we blame Canada for seeking after false gods in art when the worship lies so heavily upon our own souls? The craftsmen are many, but like singers are few? There are giants like Brangwyn who hymn their age, who sing the might of our race to-day, the triumph of toil and its conquest over the earth and the elements.

THE MONITOR PRESS

JOB PRINTING DEPARTMENT

is fitted up to do every kind of **Commercial and Social Printing**

Some new and popular series of type faces have recently been added including the Cheltenham, much used in Commercial Stationery and English Text, a popular favorite in social printing.

Provided the patronage of our job printing department, which is showing an encouraging increase, warrants the management in such an advance step, the job printing department will be operated separately from the newspaper by a distinct staff devoting their time exclusively to the Job Printing business.

New Type, New Borders, New Ideas, First-class Presses, Stitcher, Perforator, Etc. in Complete Equipment.

Are You in Need Of?

- Statements, Billheads,
- Letterheads, Envelopes,
- Posters, Dodgers, Tickets,
- Business Cards, Tags,

 Johnson's Anodyne Liniment responds quickly in relieving coughs, colds, bowel troubles, burns, cuts, chaps, etc.
 25c and 50c everywhere
 I. S. JOHNSON & CO. Boston, Mass.

Middletown

Middletown, Nov. 4.—The Halloween Tea and Fancy Sale held in Victoria Methodist Church was a decided success, the sum of \$300 being realized. An interesting feature was the representation of the seven days, washing, ironing, etc. Separate booths artistically decorated and arranged to meet the various demands, called forth many words of praise and appreciation.

John Tate of Truro spent Thanksgiving with his mother, Mrs. Harriet Tate.

Mrs. Stuart Marshall spent a week recently with friends in Halifax.

Miss Muriel Schaffner spent Thanksgiving with Mr. and Mrs. T. A. Elliott of Halifax.

Mrs. J. H. Edwards of Annapolis, is a guest of her daughter, Mrs. Gordon Crowe.

Mrs. Chas. Wright is visiting her sister, Mrs. Herbert Stairs of Wolfville.

The ladies of Trinity Church intend holding their annual Tea and Sale.

Mrs. T. A. Croaker and Mrs. L. P. Shafner attended the Sunday School Convention held in New Glasgow.

Walter Ruggles of Sackville, spent Sunday with his parents, Mr. and Mrs. Lenfest Ruggles.

Dr. and Mrs. F. S. Messenger spent Sunday at Petite Riviere.

Torbroke

Torbroke, Nov. 4.—J. E. McAloney has just returned from Newcastle and Port Wade where the Canada Iron Co. has been loading ships with ore.

Elias Messenger of Bridgetown was here last week as municipal tax collector.

Mrs. W. V. Spurr is at the Victoria General Hospital for surgical treatment for appendicitis and is reported successfully operated upon. Mr. Spurr is in the city for over Sunday.

Miss Laura Aldred of Mount Rose is visiting her aunt, Mrs. Ansel Barkhouse.

Rev. Wm. Brown a former pastor (Meth.) has been visiting at C. R. Banks' last week.

Mr. and Mrs. Geo. Spinney of Greenwood were visiting here on Thursday and Friday.

Mrs. Robt. York of Bear River is with her parents, Mr. and Mrs. S. Pierce, for a few weeks.

Mr. and Mrs. Edgar Spurr were in the village on Sunday.

Miss Eva McAloney is having quite a serious time with a sore hand.

Thanksgiving services were held in the Baptist Church on Monday afternoon and the Methodist on Sunday.

St. Croix Cove

Nov. 1.—Messrs R. Chute and A. Bent are passing through our Cove, doing good work for the farmers in threshing out their grain.

Mrs. Susan Poole, is visiting her daughter, Mrs. Harold Kinwear, Halifax.

Capt. S. M. Broadley, Wolfville, called on friends here this week.

Mr. Avard Poole, Woburn, Mass. recently visited relatives in this place.

Bear River

Bear River, October 30th.—Jas. H. Purdy attended the meeting of the funeral directors in Halifax last week.

Joseph Warne is the new collector of Customs for this port.

Miss Hilda Graham went to Boston on Saturday last, to visit her sister.

Capt. G. W. Crossup spent Thanksgiving with friends in Lawrencetown.

Miss C. Walker spent Thanksgiving at her home in Granville. Mrs. J. F. Milbury accompanied her.

Miss Nan Clarke and friend from Sackville, spent the Thanksgiving holidays with her parents, Mr. and Mrs. W. G. Clarke.

Misses Bessie Rice and Ruth Read, and Mr. Richard Clarke returned home for the Thanksgiving season.

Bear River, Nov. 5th.—Mr. Edward Clarke died on Wednesday, 30th, ult., aged 81 years. The funeral service will be held on Friday, with interment in Mount Hope Cemetery. Rev. G. W. Schurman, assisted by Rev. J. Daniels, conducted the service. Surviving him are his wife, Mrs. Louis Morse of Digby, Mrs. Harvey Kinney, Bear River, and Stanley Clarke in British Columbia. Mr. Clarke was a deacon of the Baptist Church.

Mr. and Mrs. W. M. Romans and Mr. and Mrs. W. W. Clarke returned home from Montreal, on Friday last.

Miss Helen Jones spent the week-end with friends in St. John.

Mrs. Obediah Parker met with a severe accident last week, injuring her shoulder very badly by a fall.

Mr. and Mrs. Benj. J. Short, who have been guests of Mr. and Mrs. Chas. H. Harris, left for their home in Vancouver on Saturday.

Capt. Geo. E. Purdy, late of bark, Ethel Clarke, arrived home on Saturday. Hallett Benson went to Boston on Saturday.

Mrs. Reginald Benson arrived home from Boston on Saturday.

Geo. T. Tupper, Esq., spent a couple of days in the Valley last week.

Miss Mildred Lockett of Bridgetown, spent a few days recently, at the home of Dr. C. C. Archibald.

Mrs. J. W. Parker has returned to New York.

Albany

Albany, Oct. 30th.—Mrs. David Whitman was made a life member of Albany Aid Society on Oct. 18th. Mrs. (Rev.) Mellick and Mrs. Kenneth Bishop of Lawrencetown were present, the former presenting the Certificate to which Mrs. Whitman gave an appropriate reply. Mrs. N. P. Whitman, at whose home the meeting convened, served refreshments.

Mr. and Mrs. Quality and family, who have been visiting her parents, returned to their home in New Hampshire on Oct. 20th.

Almon H. Oakes, station agent at Springfield, has had a two week's vacation which he spent with his parents, Mr. and Mrs. H. L. Oakes.

Everett Sawler picked a cluster of ripe strawberries on Oct. 21st.

George Fair found a full-blown violet, Sept. 28th.

Inspector Morse visited our schools last week.

Fred Bishop of Lawrencetown and Miss Hettie Fair of Meadow Vale, were the guests of the latter's parents on Oct. 27.

Asaph Sheridan and Mrs. Sheridan, of Kentville, are spending a few days with his parents.

Mrs. A. B. Fair is visiting her daughter, Mrs. Edgar Mason.

Deacon Whitman and wife expect to go to Berwick on Wednesday next to visit his sister, Mrs. Andrews, and from thence to Billtown where they will visit their son, Rev. A. H. Whitman and family.

Mr. and Mrs. Clayton Zwicker are receiving congratulations on the birth of a son.

Upper Granville

Miss Annie Ruggles, teacher in Chesley Section, spent Thanksgiving at her home in Bear River East.

Miss Charlotte Walker, accompanied by Mrs. Fletcher Milbury, spent the holiday with her mother, Mrs. Albert Walker.

Mrs. Inglis Austin has returned from a trip to Boston.

Mr. Edmund Clarke has made his annual visit with his daughter, near Annapolis.

Mrs. James Gilliat is convalescing from a severe attack of bronchitis.

"It is a pleasure to tell you that Chamberlain's Cough Remedy is the best cough medicine I have ever used," writes Mrs. Hugh Campbell, of Lawton, Ga. "I have used it with all my children and the results have been highly satisfactory." For sale by druggists and dealers.

Lawrencetown

Miss Marie Durling has returned from a month's visit with relatives in the United States.

Mr. Thorne and bride, of Halifax, are visiting with Frank Longley.

Mr. and Mrs. T. Elliott of Halifax are the guests of Mr. and Mrs. Elliott's parents, Mr. and Mrs. H. Young.

The W. M. A. E. met on Monday afternoon at the home of Mrs. C. S. Baicom. Letters from Rev. Mr. and Mrs. Bagnall and Miss Ida Mrs. H. G. Mellick and Mrs. H. Boland. It was decided that a mission study on China be taken up during the winter. The next meeting will be held with Mrs. Richardson.

Mrs. Roy Whitman and children of Bridgetown, have been guests of Mrs. Clarence Longley.

Miss Gladys Daniels, left on Monday last to take charge of the school at Clementsfort. She was accompanied by her mother, who will remain a few days.

Alvin Durling and his bride, of Massachusetts, are visiting his parents, Mr. and Mrs. Geo. Durling.

The men's meeting in the Baptist Church on Sunday evening was very interesting, the choir consisting of male voices sang several familiar hymns. Deacon T. G. Bishop was leader. Elvin Shaffner read the scripture and deacon Wm. McKeown offered prayer. An excellent paper, subject, "The duty of the church to the community," was read by Dr. L. R. Morse, and an address on "The duty of the community to the church," was given by Mr. Wm. Whinnyard' which was much appreciated.

Mrs. L. S. Shaffner, of Middletown, is spending a week, the guest of Mrs. Elvin Shaffner.

The ladies of the Baptist Sewing circle will meet at the home of Mrs. S. E. Bascroft on Friday afternoon. Tea will be served in the vestry at 6 o'clock.

Mrs. Geo. Armstrong, of Round Hill, is the guest of Mrs. B. S. Banks.

Services for the week, Young People's meeting on Wednesday evening, leader, Mrs. C. Longley, social services on Friday evening, Methodist and Baptist, Sunday morning, S. S. at 10 o'clock, sermon Baptist 11 a. m. Episcopal 3 p. m., Methodist 7.30.

Two young ladies received the ordinance of baptism on Sunday morning by pastor H. G. Mellick. At the close of the service the right hand of fellowship was given. Another lady, formerly of Wolfville, now a resident here, was also received into the church.

The Provincial organizer for the Sons of Temperance, W. S. Saunders, visited Lawrencetown, Annapolis Co. and assisted in the re-organization of Nelson Division, No. 95 and installed the following staff of officers:

W. P.—Thomas Johnson.
 W. A.—Mrs. H. H. Whitman.
 R' S.—Mrs. F. B. Bishop.
 A. R. S.—Miss Winnie Pittus.
 F. S.—Miss Caroline Johnson.
 Treas.—Frank G. Foster.
 Chap.—Rev. H. G. Mellick.
 Comd.—Malcolm Balcom.
 I. S.—Ralph Howard.
 O. S.—Sam Gesner.

Addressed from Bros. Rev. G. Mellick, J. Shaffner, by the W. P., and by the organizer were hopeful and inspiring. The vigorous way in which the new officers have entered upon the work and the degree of enthusiasm shown by the officials and members give promise of a successful future.

Paradise

Paradise, Nov. 5.—Paradise Agricultural Society will meet in the Starr warehouse on Thursday evening, November 7th.

Mrs. Susan Starratt, entertained her friends on Monday, the occasion being her birthday anniversary.

The Literary Society met on Monday evening at the residence of Mr. and Mrs. G. L. Pearson the following officers were elected:

President.—E. S. Leonard.
 Vice Presidents.—J. E. Morse, G. L. Pearson.
 Secretary Treasurer.—H. J. Starratt.
 Assistant Secretary.—Mrs. J. C. Phinney.

Entertainment Committee.—Mrs. G. L. Pearson, Mrs. F. W. Bishop, Mrs. J. S. Longley.

Miss Thorne, of Granville, spent Thanksgiving day with Mrs. F. W. Bishop.

The Ladies of the Missionary Aid Society held their "Crucade Day" exercises on Tuesday 5th inst.

Milard's Liniment Cures Colds, etc.

Clementsfort

Clementsfort, Nov. 1.—Mrs. William Mills, of Graville Ferry, spent a week recently at the home of Mr. and Mrs. W. C. Jones.

The ladies of the Baptist church here gave a "Clam Chowder" a few days ago. Proceeds were for fixing up the piers.

Miss Blalney, elocutionist, who was the guest of the Rev. Mr. McFadden and wife recently, gave an entertainment in the Baptist Hall, assisted by some of the ladies of the Baptist church, which was very highly appreciated.

A Harvest Home service was held in the Methodist church here on the evening of Thanksgiving day. The church was tastefully decorated with the fruits and vegetables of mother earth. The service consisted of addresses, readings and songs with some special exercises by the children of the place. A good number was present.

The remains of Mr. Forbes McIntosh, who died in the hospital in New York, arrived here accompanied by Mrs. McIntosh, recently. Burial took place in the cemetery of the Methodist church here, Rev. Porter Shirley officiating. Mrs. McIntosh has the sympathy of her many friends in her sad bereavement.

The Rev. Mr. McFadden attended the Baptist Convention at Moncton for a few days recently.

Capt. John H. Berry is at home now for a time, the vessel B. B. Hardwick of which he had charge, having been sold to parties in Plympton, Digby county.

Mr. Fred Ruggles had the misfortune to lose a fine cow a few days ago. His children were taking her to pasture one morning when she attempted to eat an apple which lay by the roadside, and in swallowing it, it lodged in her throat. All attempts to dislodge it proved futile.

Mr. Herbert Vroom, accompanied by Mr. Hubley, went on a hunting trip last week and the result was the capturing of a fine moose.

Mr. Forbes Tupper, has taken over the Sunny Side Hotel here, formerly kept by Mr. Edmund Rawding. We hope that Mr. Tupper will get a good patronage as we predict he will keep, a good up-to-date house. Mrs. Rawding we learn, is going away to the States. During her career as a hotel matron she has been noted for kindness and hospitality.

Miss Emily Lockwood, of Montreal, is visiting her home for a short time. Miss Lockwood is a daughter of the Rev. and Mrs. J. Lockwood of this place.

Mr. Herbert Hicks was called away quite suddenly a few days ago to attend to his vessel the Mercedes, which is reported ashore near Lunenburg, Maine.

West Paradise

West Paradise, Nov. 4th.—Mr. Eugene A. Poole has gone to the United States to visit friends and relatives for a few weeks.

Mr. Frank Poole who has been in New Hampshire during the past season has returned to his home.

The Bean Social held in Evergreen Hall on Friday November 1st was well attended. The sum of \$13.41 was realized.

Mrs. W. L. Saunders of Windsor, Hants Co. who spent Thanksgiving with her sister, Mrs. F. J. Poole, has returned to her home.

Messrs. Newman Daniels and Frank Messenger have their new barns nearly finished. Their places are greatly improved by the buildings.

CORRESPONDENCE

Dear Mr. Tor:—

I have heard that the Outlook or an alleged correspondent is anxious to know if there had been an exhibit in Bridgetown this fall.

If the Outlook had done the work of the secretary from April to the present he would have fully realized that Bridgetown had held an exhibition, nor would he consider it the duty of the secretary to write out the prize list for publication. The books, which have been in almost daily use since the exhibition, are now at the disposal of either the Monitor or the Outlook, if they are anxious to work out and publish the prize list for their readers.

R. J. MESSENGER, Secy.

Is your husband cross? An irritable, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach trouble by taking Chamberlain's Tablets. For sale by druggists and dealers.

A Narrow Escape

One of the worst experiences in the history of American shipping occurred a few weeks ago on the Atlantic ocean, 20 miles N. E. of Cape Hatteras.

The American tern schooner Henry Weller, owned by the New York Lumber Co., and commanded by Capt. Wm. Burns, of Sandy Cove, Digby county, with a crew of nine men, was water logged and dismasted Oct. 5th during a severe gale of wind, on a voyage from Brunswick, Ga., for New York.

After the officers and men and a dog had been on the wreck five days without food and water, they were sighted by the British steamer Tiverton, bound from Mexico for Boston and were taken off with great difficulty on Oct. 10th, arriving at Boston two days later.

When the wreck was sighted the captain of the steamer asked for volunteers to man the life boat. To give an idea of the sea which was running at the time of this rescue, it took the life boat seven hours to return to the steamer from the wreck.

Then the boat was smashed to pieces when she struck the steamer, again throwing all hands in the water. The rescue was finally made with out loss of life, but not until the Tiverton had two boats completely destroyed.

Capt. Burns and his crew lost everything except the underclothes which they had on. The captain's set of nautical instruments and marine library were the best that money could obtain and its loss will be keenly felt. The dog was the property of one of the owners of the Weller and was forwarded to New York, evidently none the worse for its terrible marine experience.

Capt. Burns, who is at present in Marblehead, is suffering considerably from injuries received while on the wreck. His friends, however, wish him a speedy recovery.

Ladies of Culture and Refinement Use Salvia Hair Tonic, It Makes the Hair Beautiful.

At last a remedy has been discovered that will positively destroy the pest Dandruff!

That Dandruff is caused by germs is accepted by every sensible person. Dandruff will kill the dandruff germs and remove dandruff in ten days, or money back.

The manufacturer guarantees it. It will grow hair, stop itching scalp, falling hair, and make the hair thick and abundant. It prevents hair from turning gray, and adds life and lustre.

SALVIA is a hair-dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large generous bottle costs only 50 cents at leading druggists everywhere. The word "SALVIA" is on every bottle.

WHERE INDEED!

A public motor-car service had just been inaugurated between two quiet, old world country towns, and great interest was being shown by the townspeople in the working of the cars. One very dark night, as the motor engine was skirting out its weird noise, and the fearful odor of petrol suffused the air, the following conversation was heard between an old man and an old woman seated in one of the cars:—Old Woman—"They're awful things these motor-cars! They're no safe at all, Old Man—"No! They're always something goin' wrong wi' them." Old Woman—"Whither wud you rather be—in a collision or an explosion?" Old Man—"I would far rather be in a collision." Old Woman—"For why?" Old Man (thoughtfully): "Because in a collision there ye are; but in an explosion where are ye?"

ALL READ 'EM

Albert B. Kelley, an advertising expert of Philadelphia, sat in the Markham Club, turning the seventy or eighty pages—mostly advertising matter—of a weekly.

"Advertising is such an art," he said, "that many people actually buy periodicals as much for the advertisements as for the reading matter."

Mr. Kelley smiled.

"I sat in an editor's office the other day," he continued, "when a poet entered."

"Glad to see you've accepted that sonnet of mine," the poet said, feverishly pushing back his long hair. "I do hope it will be widely read."

"It's sure to be," said the editor. "It's sure to be. I've placed it next to one of our most striking ads."

MAKING A BASEBALL

The Winding Process is Done in Secret in a Locked Room.

In the center of the standard baseball, as used by the professional players, there is a globe of compressed cork covered with rubber. This globe is about an inch in diameter and around it are wound a few layers of coarse twine. It is then sent to the winding room, where machines first wind on thick four ply blue yarn. At frequent intervals the ball is soaked in a cement solution and put aside to dry.

Many different workers have to do with the winding of the ball. Each workman tests it for size and weight before he passes it along. The machines insure tight and even winding and there are different machines for different sizes of yarn. These machines are operated in secret in a locked room.

When the ball has been wound to the proper size with blue and white yarn and has been dipped in the solution, it is wound finally with smaller yarn. Thus the firm, rough center is overlaid with finer and finer material until at last it is smooth and perfect, ready for the cover.

The best horsehide obtainable is used for covers. The pieces are cut by hand and dampened and stretched. The ball is put into clamps and the cover sewed on with cotton thread, which has a greater frictional strength than linen or silk. Each ball is sewed by hand and then put into a machine that irons down the seams. The polishing is done by still another machine. Then, after being stamped and wrapped, the ball is ready for market.

The best horsehide obtainable is used for covers. The pieces are cut by hand and dampened and stretched. The ball is put into clamps and the cover sewed on with cotton thread, which has a greater frictional strength than linen or silk. Each ball is sewed by hand and then put into a machine that irons down the seams. The polishing is done by still another machine. Then, after being stamped and wrapped, the ball is ready for market.

A ball weighs five ounces and is nine inches in circumference. In the course of manufacture it is weighed and measured five times.—Harper's Weekly.

NEW YORK'S FIRST CHURCH

And the Earliest Religious Services on Manhattan Island.

The first religious services on Manhattan Island was held in 1623. This resulted in the organization of a church, the services of which were held in the upper story of a mill which ground the grain of the colonists. The first minister was Jonas Michellius and the first elder Peter Minuit, director general of New Netherland.

The first church building on Manhattan Island was situated on Pearl street, between Whitehall and Broad streets, facing the East river. This structure was a poor, plain building of wood and constructed in 1633 by the West India company. Its congregation was presided over by Dominie Bogardus, the second clergyman of New Amsterdam, and was regarded as a more fitting place than the loft of the mill for public worship.

William Kieft, director general of the West India company, caused to be erected a church outside of Fort Amsterdam, which contained three long, narrow windows on each side, fitted with small panes of glass set in lead, on which were burned the coats of arms of the chief parishioners. This building was erected in the meadow of Mrs. Dominie Dirksen and fronted on a lane, now called Exchange place. In those days, however, it was known as "Garden alley." A large bowl of silver for baptismal services was made by the silver workers in Holland, and the bellfry was the bell which had been removed from the old church in the fort.—Westchester County Magazine.

Mark Twain's Question. Mark Twain when visiting Melbourne was the guest of the mayor on a picnic trip down the river Yarra, a stream renowned for its crookedness and for the odor from its banks. On account of the many turns in the river numerous signs reading "Dead End" are placed at the turns to warn ship captains to slacken speed, and these attracted Twain's attention. Sniffing cautiously at the tainted breeze that came from the slimy banks he turned to his host.

"Mr. Mayor," he asked, "what are these dead ends that smell so strong?"

Radium's Wonderful Power. Suppose that the energy of a ton of radium could be utilized in thirty years, instead of being evolved at its invariable slow rate of 1,700 years for half disintegration, it would suffice to propel a ship of 15,000 tons, with engines of 15,000 horsepower, at the rate of fifteen knots an hour for thirty years—practically the lifetime of the ship. To do this actually requires 1,500,000 tons of coal.—Sir William Ramsay.

A Household Hint. Young Wife (sobbing)—George treated me awful mean. He—He promised to give me a machine for my birthday, and it—it—came none today. Her Mother—Then what are you crying about? Young Wife—It's a—it's a washing machine.—Baltimore American.

Getting Square. The Doctor—Hark! Whence those cries of agony? The Lawyer—They come from the office of the dentist. Last week the entrepreneur operated on the dentist, agreeing to take his bill out in trade, and now the dentist is taking it out.—Satire.

A Good Tonic. Have you noticed what a tonic a good laugh is? The next time you are angry instead of frowning make yourself smile, then laugh. You'll feel better.

On the Street. Mrs. Spruce—"That man you just noticed to make fun of me, do you see him often?" Mrs. Wainwright—"Not very; but my husband—" Philadelphia Record.

ROYAL BAKING POWDER
 Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, testified before the Pure Food Committee of Congress, that the acid of grapes held highest rank as an article of food and he regarded the results from baking with cream of tartar baking powder as favorable to health.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar.
