#### DOORS AND MOULDINGS WANTED.

There promises to be an increasing trade with Great Britain in Canadian doors and mouldings. In the "Wanted and For Sale Department" of this issue will be found the announcement of a firm that is desirous of purchasing large quantities of these goods. The advertisers are, we believe, among the most reliable firms of timber importers in Great Britain, and persons desirous of increasing their trade in this direction should place themselves in communication with them.

#### ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

24. An English firm wishes to know the names of Canadian shippers of spruceboxes of which 250,000 are wanted; also of sprucebars, of which about 50 standards per week are required. Prompt reply asked for.

26. An English continental firm of good standing wishes to represent manufacturers of Canadian wood pulp, as their agents in the United Kingdom and on the continent, especially France.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

#### CURRENT TRADE CONDITIONS.

##### ONTARIO.

Lumber manufacturers appear to possess a firm belief in the maintenance of present prices for some months to come. A large manufacturer in the Georgian Bay district, writing to the CANADA LUMBERMAN, states that he has no dry for sale, and that he has received enquiries for more stock than he can manufacture this season. Another manufacturer advises us that over 50 per cent. of his season's production has been sold, and that he anticipates no difficulty in disposing of the balance of his stock at prices quite as high as those ruling at the present time. Confidence seems to be firmly established, and this alone will tend to keep the market strong. The trade actually moving is not of large volume, as the spring demand has been rather slow in opening up. Retail dealers are not absolutely in need of stock, and consequently they are disposed to wait until later in the season in the hope of being able to purchase at better terms. For dry stock prices are stiffening. One or two changes have been made in our Toronto quotations, 1 x 10 and 12 common having been advanced by one dollar per thousand, and a slight advance made on most of the lower grades. Hardwood quotations have not changed, the demand being only normal. It is expected, however, that prices will weaken slightly as soon as the dry stock of this season's cut is offered to buyers.

##### QUEBEC AND NEW BRUNSWICK.

Harbor improvements and bridge work in the eastern provinces will this season consume a considerable quantity of timber, and with a moderate demand for building purposes, there should be a fair volume of trade. Numerous enquiries for stock have been received by manufacturers from United States dealers, and the prospect is that prices will be firmly sustained. The movement to form an association of shingle manufacturers is looked upon as a step in the right direction, and should a successful organization be established, benefit to the trade will no doubt result.

In New Brunswick there is still a considerable quantity of snow in the woods. This will be favorable to stream driving and lessen the danger of having logs hung up.

##### MANITOBA AND BRITISH COLUMBIA.

A heavy movement of lumber is reported from Manitoba and British Columbia. Manufacturers are sold for months ahead, and some of them have refused

large orders for stock. There is an unusually brisk demand for British Columbia cedar lath. In Vancouver and Victoria building operations are very active, notwithstanding the high price of building materials. The export trade is good, but freight rates are unusually high.

UNITED STATES.

The lumber market of the United States has developed no features of particular interest during the past week. The movement of stock is rather slow, and few sales from the cargo mills are reported. Retail dealers are showing an indisposition to stock up in the face of slow consumption. Piece stuff has weakened slightly. In Chicago the list was maintained during the winter on a \$16 basis for short lengths, but wholesale dealers are now quoting this stock on a \$15.50 basis. Common inch lumber is a trifle higher than it was one month ago. Buffalo dealers report that the white pine trade is in a peculiar condition. The east is not reconciled to the present asking prices, while there is no hope of wholesalers being in a position to offer them any concessions, as their stock could not be replaced at the prices at which it was purchased. Spruce lumber is maintaining its strength and is held firmly at \$22.50 in the New York market.

The feature of the hardwood trade is an increased demand for maple, which is reported very scarce. The probability is that before dry stock is available maple prices will be further advanced. Elm, basswood, and black ash sell well.

It is probable that there will be a shortage in the supply of shingles this season and that prices will be marked up, as lumber has advanced in price more than shingles. At Buffalo the stock is estimated at 20,000,000. Some dealers are holding red cedar shingles higher than white pine. The demand is almost entirely for 16 inch, which appear to be considered cheaper than 18 inch.

FOREIGN.

An uncertain feeling pervades the British wood market. The consumption of lumber has been diminished by the enhanced prices, and difficulty is being experienced in maintaining the present prices on account of the lessened consumption. On the other hand, the high prices asked by shippers strengthens the hands of holders of stock, who feel that they are not justified in lowering their asking prices. The spruce trade continues to flourish, and large quantities of this lumber are being purchased by the box-makers. In the London market third quality is selling at £10, and it is reported that nearly all the Riga whitewood for early shipment has been sold to France. This further brightens the outlook for spruce, inasmuch as the Riga whitewood is a strong competitor with Canadian lumber. At Glasgow there is a steady demand for first quality pine deals and planks. Spruce in that market is not moving with as much freedom as two weeks ago, but no depreciation in prices is reported. Very little stock is being sold to Ireland.

NEW BRUNSWICK CEDAR SHINGLES.

The shingle situation in New Brunswick is decidedly mixed. So far as we can learn, the members of the new association are rigidly adhering to their price list. On the other hand, outsiders are selling on a basis of \$3.00 to 3.20 for extras on Boston freights. The majority of shingle manufacturers do not seem to realize that there is such a thing as an association, and are willing to accept such figures, with \$3.00 as a minimum limit, as their commission representatives may see fit to name. In some few isolated cases \$3.25 has been readily obtained from the country trade, but the bulk of the orders have been accepted at about the following figures, delivered at Boston rates: Extras, \$3.10 to \$3.15; clears, \$2.70 to \$2.75; 2nd clears, \$2.15 to \$2.20; clear whites, \$2.10 to \$2.20.

STOCKS AND PRICES.

A scarcity of hemlock boards at Boston is reported. No. 1 stock, 10 and 12 inches wide, is sold at \$20.

The property belonging to the estate of the late Thomas Keilor was sold at Dorchester, N.B., last week. Some 340 acres of timber lands was purchased by C. S. &

J. Hickman, lumbermen, of Dorchester, for \$8,190.

Charles T. Monroe has purchased a mill at Douglstown, N.B., and will manufacture cedar shingles.

J. H. Livingstone and J. W. Swan, of Wentworth, Cumberland county, N.S., have purchased a tract of timber land on the Midland railway near Windsor.

The cedar market on the Saginaw river has not materially changed; 25 ft. poles, 6 inches at the top, sell at \$1.25. Oak ties are quoted at 45 cents, cedar ties at 38 cents, and fence posts at 10 cts.

Canadian shippers in a position to handle an order for log run black ash, 1", 1 1/2", 1 3/4", and 2" thick, and of an average of 9 inches in width, with culls and centres out, for export to England, are requested to communicate with the publishers of this journal.

Three timber berths on the Quisbis river in New Brunswick, aggregating 14 square miles, and a 2 1/2 mile berth on Siegar river, were sold at the Crown Lands office, Fredericton, N.B., last week to Randolph & Baker, at the upset price of \$8 per mile.

The cut of logs to come down Salmon Creek to Melbourne, Que., is much smaller than usual, owing to an unfavorable winter. The Tourville Company, of Pierreville, have 40,000 logs, and Williamson & Crombie, of Kingsbury, 55,000 logs. Timber is in good demand. American buyers are offering \$12 per thousand feet for good spruce butt logs, f.o.b. Kingsbury.

THE AUSTRALIAN MARKET.

The last monthly report of Fraser & Co. reviews the timber market of Australia as follows:

The market generally has been in good condition during the past few weeks, almost every class of timber being in demand, and rates obtained in a great proportion of business fixed show some slight increase in values upon those ruling at the time our last circular was issued. Although some sales in business "to arrive" have been done in Baltic flooring, lining, and weather boards upon the last basis of prices, local stocks of the same have been sold at increased figures, while Oregon is now firm at £7 per 1000 feet super, and it is probable that shortly higher rates will be required and paid for the latter lumber. For mostly other kinds of timber importations prices have been more fully maintained, and as the markets from which we receive our supplies indicate rather an upward than a downward tendency, both in respect to f.o.b. and freight quotations, and as the actual consumption appears to be on the increase in this colony, we feel justified in saying that the improvement now manifested will be continued during the course of the present year.

TIMBER LIMIT SALE.

The timber limits of R. H. Klock & Co., situated on the Ottawa river and its tributaries in the provinces of Quebec and Ontario, were offered for sale at the Board of Trade, Toronto, on Tuesday last. There was an average attendance of lumbermen from the Ottawa Valley and Georgian Bay district. Notwithstanding the persuasive powers of the auctioneer, Mr. Peter Ryan, the bidding was slow, and only one parcel was disposed of. This was a limit of 100 square miles on the Ontario side of the river and including the Rocky farm, the purchasers being McLachlin Bros., of Arnprior, at the price of \$105,000. The other limits were withdrawn.

After this sale Mr. Ryan put up a timber berth of 80 square miles in the township of Mackenzie, Georgian Bay district, the property of the Delta Lumber Company of Detroit. This limit was also withdrawn.

BRITISH TIMBER PRICES.

At a recent auction sale held by Foy, Morgan & Co., London, England, the following prices were realized for Canadian goods:
