VOL. XXXIII—No. 11,924

7,000 ARE DROWNED, 250,000 HOMELESS

SCORES OF CITIES AND TOWNS ARE UNDER FIFTEEN FEET OF WATER, INCLUDING CLEVELAND, COLUMBUS AND DAYTON

PROPERTY LOSS RUNS INTO HUNDREDS OF MILLIONS

MAYOR OF DAYTON WIRES THE WORLD LOSS OF LIFE AT LEAST SEVEN THOUSAND

Thousands of Miles of Ohio, Indiana, Illinois and Missouri Under Water—Death and Destruction Everywhere—Cities and Towns Swept by Floods—Terror-Stricken People Take Refuge on Hills and Trees.

A midnight despatch to The World from The Cleveland Leader says the loss of life in Ohio by the flood is at least 7000. This estimate is based on the belief that 5000 are dead in Dayton, 1000 in Hamilton, and 540 in Piqua.

LOGANSPOUT, Ind., March 25.—The mayor of Peru over the long distance telephone at 11.50 tonight says: "Tell Gov. Ralston that from 200 to 400 are killed on south side. We want provisions, clothing and coffins."

REPORTS ARE APPALLING CHICAGO, March 25.—(Can. Press.)—Reports concerning the appalling nature of the floods in Ohio and Indiana, which in most instances it was impossible to verify, were received tonight from widely scattered sources.

A message received at Foneton, Ohio, that the reservoir at Hamilton had broken and that 1000 persons had been drowned. Western Union office in Chicago representatives say that its Cincinnati office had worked with the Western Union office at Lindenwald, one mile south of Hamilton.

An unconfirmed but persistent rumor from Marion, Ind., that the Grand reservoir at Galina, Ohio, had gone out, causing an unprecedented flood in the Wabash Valley.

CINCINNATI, O., March 25.—(Can. Press.)—Dayton, except for its most remote suburbs, tonight was covered with a seething flood of water from 8 to 20 feet deep.

The property loss will total millions of dollars. The flooded district comprises a practical circle with a radius of a mile and a half, and in no place is the water less than six feet deep.

The horror of the flooded districts is heightened by more than a dozen fires which can be seen, but out of reach of fire fighters.

Most of the business houses and nearly all the residences have occupants. Downtown the offices are filled with men, fathers unable to get home, and on the upper floors and on some of the roofs of the residences are helpless women and children.

The number of drowned cannot be estimated until the flood subsides.

The St. Elizabeth Hospital with 600 patients, was reported to have been washed away. The building was known to be in many feet of water, and indications are that the report may prove true.

The electric light plants were put out of business early in the day and total darkness, coupled with a torrential downpour, added to the horrors of the night.

Death and Devastation by Floods

This estimate of yesterday's terrible disasters is believed to be conservative:

Ohio. Dayton—City inundated, 5000 reported dead, 30,000 homeless.

Delaware—19 dead, many missing, 400 homeless.

Springfield—Mad River and Buck Creek both out of their banks, hundreds of houses flooded, factories closed.

West Liberty—Mad River overflowing its banks.

Piqua—Five hundred and forty lives reported lost.

Indiana. Indianapolis—White River, Pleasant Run and Eagle Creek are out of their banks; street car traffic suspended; water and gas plants suspended; thousands homeless.

Fort Wayne—St. Joseph, Maumee and St. Mary Rivers on rampage. Town without lights, and water famine threatened.

Marion—Five hundred persons forced to flee for lives.

Peru—Damage is already \$500,000; business houses six feet under water; Chesapeake and Ohio bridge gone; thousands are homeless; 500 reported dead.

Tipton—One hundred out of banks, flooding resident section; railroad traffic suspended; 500 miles under water; water highest in fifty years. Total dead in state, 1000 estimated; total homeless, 100,000; property damage, \$20,000,000.

Richmond—Whitewater River out of its banks; city in darkness; two Pennsylvania Railroad bridges east of city washed away; more than twenty highway bridges torn down; 100 homeless.

Rushville—Flat Rock Creek waters rise with a roar, and changing fire bells warn people to flee; business section submerged.

Kokomo—Wildcat Creek is one-quarter of a mile wide in heart of city, which is in darkness; people taking refuge in second storeys; 1500 homeless.

Muncie—Dike and water plant breaks; city without fire protection; White River's water force hundreds to abandon homes; Big Four, Chesapeake and Ohio bridges gone.

Anderson—Green's Branch, a narrow creek, is a raging torrent; municipal light plant wall breaks and city is in darkness.

Noblesville—White River highest in 33 years; two are reported drowned; big hydraulic dam threatened.

Selbyville—Little and Big Blue Rivers break levees; city in darkness; Big Four tracks washed out.

Logansport—Wabash River out of banks; city isolated; two reported drowned; ten houses washed down stream.

Peru—Damage is already \$500,000; business houses six feet under water; Chesapeake and Ohio bridge gone; thousands are homeless; 500 reported dead.

Tipton—One hundred out of banks, flooding resident section; railroad traffic suspended; 500 miles under water; water highest in fifty years. Total dead in state, 1000 estimated; total homeless, 100,000; property damage, \$20,000,000.

Appeal for Food. John H. Patterson, president of the National Cash Register Co., who headed the relief work in the south end of the city, sent out an appeal for food supplies and for doctors and medicine.

A fire, which started from an explosion in the Meyers Ice Cream Co., near Wyoming street, spread and burned the block on South Park, a block from Wyoming. Another big fire is reported to have burned a downtown block.

The breaking of the Tarleton reservoir which supplies the drinking water, left the city without water and physicians declared there was great danger of typhoid in the use of the flood water.

There are no boats in Dayton which can breast the current, and those on the outside early gave up any attempt to reach the business section.

How many houses have been swept away and how many occupants were carried to their death cannot be learned until the waters recede.

Crept Along Cable. At Wyoming street, on the south side, where the National Cash Register Co. centered its efforts at rescue, many saved their lives by creeping on a telephone cable, a hundred feet above the flood.

Half of Population Homeless. Half of Dayton's population, it is reported, are homeless.

Three women became mothers in the halls of buildings tonight.

In the woodworking department of the National Cash Register Co., boats were being turned out at the rate of ten an hour, and these were rushed to where the water crossed Main street in a sort of gully.

But the waters crept up and the strength of the current was far too strong for the crude punts, tho they were the best that could be made in a hurry.

Trip after trip was made and hundreds of refugees were taken from this stretch.

FLOOD BULLETINS

COLUMBUS BRIDGE GONE

COLUMBUS, Ohio, March 25.—(Special.)—Broad street bridge over Scioto River, was swept away at 1 o'clock this (Wednesday) morning. This was last link connecting east and west parts of city.

FIVE THOUSAND DROWNED.

SPRINGFIELD, O., March 25.—The mayor of Dayton, in an appeal made to the mayor of this city, reported at 8 o'clock tonight that the water is thirteen feet deep in the Union Station in Dayton, and that according to unconfirmed reports 5000 lives have been lost and fully 30,000 are homeless.

The hydraulic dam at Piqua has gone out, and reports say that 540 lives have been lost.

COMMUNICATION CUT OFF.

INDIANAPOLIS, March 25.—A Western Union Telegraph operator at Brookville, O., tonight established communication with the Associated Press office here. He said: "Practically half of Dayton is under water."

The rain coming and the waters are still rising. The city is without electric lights. It is impossible to estimate the damage. There is no communication with the outside world. Many persons were caught in their homes, with all avenues of escape cut off. The water still is rising and a heavy rain falling.

CINCINNATI SUBURBS.

CINCINNATI, March 25.—It is reported that the railroad embankment at Cleves, seven miles below Cincinnati, broke tonight and that part of the town is under fifteen feet of water. The operator at Cleves said he distinctly heard cries for help, but he could not learn if there was any loss of life or the extent of the property damage.

HUGE RESERVOIR BURST.

MARION, Ind., March 25.—Unconfirmed rumors are being spread that the Grand reservoir at Galina, O., the largest of its kind, has gone out. This, it is said, is causing the unprecedented flood. The report was brought here by a deputy sheriff, who insists it is true. It is impossible to reach Galina.

INDIANAPOLIS HOSPITAL IN DANGER.

INDIANAPOLIS, March 25.—The waters of Fall Creek are threatening the city hospital, where a large number of patients are confined. Governor Ralston has ordered out the hospital corps of the Indiana National Guard to aid in removing the sick to a large hall. It appears that the removal must be made hurriedly.

NEW YORK STATE INVADED.

OLEAN, N. Y., March 25.—Olean Creek is over its banks and hundreds of families in the flood zone are deserting their homes. Tonight a huge iron oil tank 90 feet in diameter was floated over a quarter of a mile and lodged against a row of houses. Portions of North Olean are under ten feet of water.

A Boardmanville people are leaving their homes in boats.

UNABLE TO CHECK LOOTING.

DAYTON, Mar. 25.—House looting began early in the night, and while the local militia are on duty they are wholly incapable of handling the situation.

Incidents without number are narrated of persons in the flooded district waving handkerchiefs and otherwise signaling for aid, being swept away before the eyes of the watchers on the margin of the waters. Many of the rescue boats were swept away by the current against what had been fire plugs and houses. They were crushed. How many die in this way no one knows tonight.

DAYTON BURNING STATE REPORTS

Special to The Toronto World.

CLEVELAND, March 25.—Unconfirmed reports at Cleveland and Cincinnati says Dayton, Ohio, is burning, the flames having started in the huge works of the National Cash Register Co. Eastern agents and officials of this company are at their offices in New York at 11.10 tonight making desperate efforts to get details. They express amazement at their factory and stock have very little wood about them.

Four Hundred Children Are Drowned at Dayton School Is Swept Away

Raging Torrent Three Miles Wide Sweeps Thru City, and Terrible Scenes Are Witnessed—Surviving Inhabitants Are Plunged in Misery.

DAYTON, Ohio, March 25.—(By Phone via Xenia).—Dayton is tonight nothing less than a seething river three miles wide, a mile and a half on each side of Main street, its principal thoroughfare, while it is estimated that from 2000 to 5000 people have perished.

Gloom reigns supreme. The Algonquin Hotel is submerged in water up to its third storey, and above this level in the downtown district, office buildings and hotels and business houses are places of refuge.

FOUR HUNDRED CHILDREN DROWNED. A school building that was known to have housed no less than 400 school children shortly before the waters rushed in that direction is entirely submerged, and, as far as can be ascertained, all of the little ones met a watery grave.

Thousands of those who were fortunate enough to have escaped the first rush of the waters are being fed tonight on short rations, and appeals for help are being sent out by many of the leading men of the city.

SUFFERING FROM HUNGER. Three trainloads of foodstuffs have arrived from Xenia, but as yet there has been no chance to deliver them, and suffering from hunger, as well as exposure, is bound to occur within the next few hours.

The Union Railroad bridge that admits all except one of the railroads into the city, was dynamited this afternoon, but the effect was not felt to any marked degree.

Quarter Million Homeless Says Governor Cox of Ohio Several Cities are in Throes of Most Disastrous Flood in History of the State—Nine Feet of Water Floods Dayton, Where Lone Phone Operator, Helpless, Stays on Duty—Financial Loss Cannot Be Approximated.

Special to The Toronto World. To Editor Toronto World. COLUMBUS, Ohio, March 25.—Replying to your enquiry, there are probably two hundred and fifty thousand people homeless in the State of Ohio this evening, with property losses which cannot even be approximated, as the result of floods in the valleys of the Scioto and Great Miami Rivers.

The first call for help came early this morning from Larus in Marion Co. the statement being that a hundred women and children were penned up in the second floor of a house, and that the waters surrounding the buildings were too swift to admit of escape by rafts. It was impossible to reach the place by rail, but boats were despatched from Russels Point, about 15 miles overland by wagon.

They should have reached the place by 9 o'clock. As telephone communication was later severed, we have no means of knowing whether this assistance was of any avail.

Destruction in Columbus. By 9 o'clock Columbus, the capital city, was in the throes of a great flood and the whole western part of the city was inundated within the lapse of a couple of hours. The state and town bridges were swept away about noon. Railroad tracks were washed out, roadbeds destroyed, and railroad bridges appear from distant observation to be damaged. State institutions lie on the hills west of this city and they are thrown open tonight to take care of the comparative few that the capacity of the places will admit.

Appeals soon followed from Delaware and Prospect, along the route of the Scioto.

By ten o'clock the news started coming from the Miami Valley. Singularly, the first word from Dayton came thru the Red Cross Association at Washington. I have been able to communicate all day with an operator in the Bell Telephone Company at Dayton, but it has not been possible for him to reach anyone in or about the Dayton telephone exchange.

Water Nine Feet Deep. According to the report which he submits, the levee broke at Dayton at the Main street at least 10 o'clock, and within three-quarters of an hour the business district was flooded to a depth of seven feet. The waters continued to rise until some time after noon. This evening the whole business section of Dayton is under water to the depth of between seven and nine feet. During the last three hours the waters show no appreciable rise.

Horses were drowned in the streets. The operator, John Bell, by name, knows of one building having collapsed. A man went by in a boat and told him of this. North Dayton, Riverdale, West Dayton, and Edgemont, in addition to the business section of Dayton, are under water.

It is estimated that 30,000 people are homeless in this morning, that twenty-five made as far as the loss of life, because the only communication with the city by this one telephone operator, who can go to the top of his building and make observations with reference to the work of devastation all over the city, but can gain no information by word of mouth or telephone communication with anyone else.

Phoneton, which is the connecting link in long distance telephone operations between the east and west, lying about twelve miles north of Dayton, advised us this morning that twenty-three bodies had been seen floating down the river at Troy. This confirmed previous reports that Sidney was probably wrecked. The belief is that the reservoir close to the city burst its banks.

There has been no communication with Sidney for the last two hours, while connection with Piqua ceased about noon. If the reservoir left its banks north of Sidney, then there is no telling the extent of destruction and loss of life at Piqua.

We hope to have full information by morning.

The Worst Calamity. The troops were ordered out at Columbus for duty at the capital city. The naval reserves are on duty in that city, presumably. The Cincinnati companies were despatched to Hamilton and Middletown, which lie in the Miami Valley, and which sent out distress signals soon after noon.

If our worse fears are confirmed, it will be necessary for us to call on the outside world for tents and supplies in order to make provision for the worst calamity that has ever befallen this state.

(Signed) James M. Cox, Governor.

The Real Tango. The Tango has been adopted by society as the correct dance of this season. It had its origin in Buenos Ayros and it comes to us by way of Paris. There are many variations of the tango, but the only genuine way to dance it is the manner in which it is performed at the Princess Theatre by the graceful dancers of "The Girl From Montmartre" company.

# BOMB OUTRAGES ARE TRACED TO AUTHOR

### Mystery of Explosives - Sent Thru New York Mails Apparently Solved by Disclosure Regarding Henry Klotz, Civic Employee, Victim of His Own Bomb.

Special to The Toronto World.

NEW YORK, March 25.—(Copyright.)—Henry J. Klotz, a civil engineer in the city's employ, was today charged with murder, and the police say tonight the really big mystery of who has been sending bombs thru the mails is about to be solved.

Fourteen months ago Helen Taylor, known in the underworld as Grace Walker, received a package thru the mail. It looked like a box of candy. She was opening it when it exploded, killing her and wrecking her apartment. That package was addressed on a typewriter of peculiar lettering. A few months later a package, also looking to be a box of candy, was delivered at the home of Supreme Court Justice Otto Rosalesky. He had been made wary, and instead of opening it telephoned for an expert from the bureau of combustibles. He came, opened the box and lost his hand. The Rosalesky library was wrecked. This box, like the Walker box, was addressed with a typewriter.

A few nights ago Henry J. Klotz was blown up while in his bedroom, and is now in a hospital being nursed back to life. He first said he found a candy box in a city park and was opening it at his home when it exploded. He stuck to this even when told he was lying. Later he admitted he had lied, and said he was experimenting for the Randolman Powder Company, looking to improve its smokeless powder, when a gas pipe, into which he was ramming explosives, blew up.

The powder company denied all knowledge of him. In his bedroom several dozen cans and bottles of high explosives were found.

Tonight the police assert they found in the city office in which Klotz worked a typewriter whose type duplicates the address on the Walker and Rosalesky bombs. They also quote manufacturers of typewriters as saying this machine is of a type only made by one company, and that only a comparative few were ever made.

Friends of the dead Walker woman say a man known to them as "Crazy Henry" Klotz was infatuated with a woman living in the disorderly house she operated. This woman tired of him and had the Walker woman shut the door to him. Dozens of letters written by "Crazy Henry" have come to light. They are being examined by experts to see if they are in the handwriting of Henry Klotz, under arrest in the hospital.

# ISAACS PROVED AN OVER-EAGER WITNESS

### In Effort to Show That His Deal in American Marconis Was in Good Faith, Attorney-General Made Unfavorable Impression—Lloyd George's Resignation Rumored.

Special Cable to The World.

LONDON, March 25.—(Copyright.)—Attorney-General Isaacs, before the Marconi investigating committee today, once more proved the old saying that a lawyer is a bad witness.

His replies, instead of being clear-cut and conclusive, were a series of diffuse speeches, consisting mainly of irrelevances. His desire and intention was to give the committee every scrap of information in his power respecting the circumstances under which he had dealings in American Marconi stock. He overwheeled the committee with details in his extreme anxiety to show that he had nothing to conceal.

Lloyd George was among the audience, listening intently, with his chin supported on his hands, and for the first time wearing spectacles. He was as keenly cheerful as usual, laughing heartily when Sir Rufus, who was cross-examined by a Unionist member, told him he had lost money in a Welsh gold mine, in which his brother Godfrey Isaacs, was interested.

No Wrongful Intent.

The attorney-general, himself a leading cross-examiner at the English bar, showed as much nervous eagerness as the average lay witness when being questioned.

He made a strong point, which impressed the committee, when he declared emphatically he saw nothing wrong in his speculating in American Marconi stock, but had foreseen it would have been diverted into a charge of gross corruption, he would never have touched the stock.

His explanation of his omission to mention his American Marconi investment on October 11 in the House of Commons, when he denied any speculation in Marconi securities, was hardly conclusive.

Gave Enemies Ammunition.

The charges and insinuations he was answering were based altogether on the allegation that he had used his position as a minister in the cabinet to assist his brother in getting a contract with the government, and at the same time acting on confidential information and speculating in English Marconi stock, which stood to benefit by that contract, with which the American company was in no way concerned. But if he had then mentioned his American Marconi deal his detractors would have been deprived of all excuse for continuing their attacks.

Sir Rufus showed himself to be an

# The Worry Habit

To worry is a bad habit. It is a waste of valuable time, and nothing so quickly breaks down nerve cells and lowers the vitality of the body.

The business man has a thousand things to worry him, and if he gives way to worry it is not long before the business becomes his master, and makes of him a slave. It is only a question of time until business worries put him under the ground or in the insane asylum.

There is not much use in telling a person not to worry. The source of trouble is with the nerves, and until the nerves are set right the tendency is to continue the nerve-exhausting worry.

When you begin the use of Dr. Chase's Nerve Food to restore vitality to the starved and wasted nerve cells you can make up your mind that you are going to get well and cease worrying. Think how few things you worry over ever happen, and make up your mind to do your best, and let it go at that.

With the nervous system run down it is

# AUSTRIAN THREAT HAS ITS EFFECT

Montenegro Discreetly Decides to Allow Civilian Population to Depart From Scutari.

LONDON, March 25.—(Can. Press.)—Montenegro has conceded all the demands of Austria-Hungary. "Montenegro delegates went this morning to Essad Pasha, commander of Scutari, to notify him of the decision to allow the civilian population three days in which to leave the city.

As it is believed that Essad Pasha will offer no objection, both Austria and Italy are sending steamers with provisions and medical stores, doctors and nurses, to assist the people when they march out of the besieged town.

The Montenegrin Government has also promised to make a shroo enquiry into the alleged interference by Montenegrins with the Austrian steamer Skodra, and has agreed to allow Austrian representatives to take part in the investigation into the death of the priest, Palic, who was killed, according to the charges, because he refused to abandon his faith, and into the forcible conversion of Catholics.

It is reported from Vienna and Belgrade that representation will be made at an early date by the powers, both at Belgrade and Cetinje, with a view to securing the speedy evacuation of territory recognized by the ambassadors as part of Albania.

# PEOPLE OF OMAHA PLAN REBUILDING

Movement to Organize is Already Under Way in Stricken City.

OMAHA, Neb., March 25.—(Can. Press.)—For the first time since the disastrous tornado of Easter Sunday, the people of Omaha today began to count the cost in lives and dollars. When a resume was made it was apparently more appalling than those who had studied the result were willing to admit.

Not less than 200 lives were snuffed out within the vicinity of the city proper, and not less than 50 persons in surrounding towns lost their lives. Nearly 500 were injured, and eight of these died in local hospitals during the day.

The destitution was augmented today when nearly three inches of snow fell making uninhabitable the houses of many who had prepared to retain temporary homes in partially destroyed structures. So far as money might relieve conditions were perfect. Tenders of sums aggregating a million dollars were in the hands of the city commissioners when the day ended. These offers came from nearly every section of the country and were made unconditionally.

The Brantford uniforms this season are identically the same as those worn by the Brooklyn Nationals, and the caps are the same as the New York Giants. Despatches fail to state what quality of ball will be played by the Red Sox.

CITY COUNCIL WANTS CLOSURE

Board of Control Asked Again To Pass on Reform Question.

HOUSING COMPANY WON

Council Against Enterprise Having To Pay Last Year's Taxes.

Need for the closure in committee of the whole was insisted upon at the meeting of the city council yesterday, notwithstanding that the board of control recommended against it.

Ald. Anderson urged the need for closure in and out of committee. Ald. Risk declared his willingness to devote a part of his time to civic business, but a decided unwillingness to have all that time devoted to listening to one member of the council.

Ald. May moved that the recommendation of the board of control be referred back, and this was carried by a vote of 13 to 7. This means that a considerable majority of the council insists upon the closure in and out of the committee of the whole, and that the closure will be so applied, if legal machinery providing for it may be found.

Ald. McBride scolded the board of control for not introducing a reform in the method of collecting overdue taxes, and its recommendation was referred back for more vigorous policy.

A report of the taxes uncollected was as follows: For 1909, \$12,465.94, of which \$5865.94 is collectable; for 1910, \$108,185.52, of which \$78,152.84 is collectable.

Housing Company Won.

Ald. Spence moved to strike out the recommendation of the board of control that the adjustments in regard to the purchase of tax sale land by the Toronto Housing Co. should be as of Feb. 24, 1913.

Controller McCarthy contended that the housing company has really perfected organization only since last month, and is made up of men who

# THE STRONG ALWAYS WIN.

Every day we have evidence that the weakling has no place in the busy, humdrum life of to-day. It takes nerve and strength to go up against the obstacles we are now encountering, and this the weakling lacks. Look about you and see the successful man of to-day; it matters not whether he be a Merchant, Lawyer or Laborer—his head erect, eye clear, strength in his every movement, he is ready to tackle any problem with that enthusiasm which assures success.

I can make just such people strong. I care not what has failed to cure them. Let them wear my

## Dr. McLaughlin's Electric Belt

every night as I direct, and, in place of a weak-nerved, debilitated being, I will show you a strong man—full of vigorous life, with nerves like steel, and ready to look any man in the face and feel that he is equal to the best of them and can do what they can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for thousands of weak men, and every one of them has spent from \$50 to \$500 on drugs before he came to me as a last resort. Are you weak or in pain? Have you Rheumatism? Are you nervous or sleepless? Have you lack of vigor and manly strength? I can give you the blessing of health. Are you lacking in vitality? I can give you the blessing of health. It is worn while you sleep. It gives a soothing, genial warmth into the body. This is life—vigor.

AMPLE PROOF WILL BE GIVEN YOU ON REQUEST

FREE BOOK

# Vast Areas Are Under Water Property Loss Is Enormous Floods Sweep Large Cities

### Immense Territory From Missouri River to Alleghany Mountains is One Huge Lake—Ohio and Indiana Are States Which Suffer Chiefly, While Parts of Illinois and Missouri Are Also Submerged.

CHICAGO, March 25.—(Can. Press).—Swept by wind and rainstorms of terrific violence for three days, vast areas of the middle west, from the Missouri River to the Alleghany Mountains tonight are inundated, many persons have been drowned and enormous property losses have been caused. Ohio, Indiana and parts of Illinois and Missouri suffered most severely. Dayton, Indianapolis and Lafayette, Ind., and Delaware, Dayton, Columbus and Youngstown, Ohio, present particularly pitiable spectacles. In all of these cities there was some loss of life, according to reports available, and in each city the property loss was heavy.

In Delaware, Ohio, 19 persons are known to have lost their lives and 50 to 80 others are missing. Terre Haute, swept by a disastrous tornado last Sunday, was partly inundated, interfering with the removing of stricken families. The death list still remains at 20, while the list of injured aggregates, 250.

#### MEETING OF RIVERS.

At Dayton, Ohio, where three rivers, the Miami, Stillwater and Mad, and another stream, known as Wolf Creek, conjoin, there was great loss of life, according to some reports, and destruction of property. For the most part the city lies on a level flat, with the four streams meeting almost in the heart of the place. The streams are protected by levees 25 feet high. The levee protecting the Miami River broke about 6 o'clock this morning and the flood was augmented by the rapidly rising waters of other streams. The situation was made worse by the breaking of the Laramie Reservoir, 50 miles above Dayton.

The waters swept thru the city. One report, which lacked confirmation, said the water in the main streets was 15 feet deep. All wire communication, except one slender telephone line, was broken. A station six miles away, was broken and information regarding the status of affairs in Dayton was difficult to obtain. The telephone company said no lives had been lost, but opposite reports were persistent.

Further Disaster Feared. Railroad and wagon bridges across the Miami River were swept away and others were in imminent danger of being carried away. The river still was rising at a late hour, and fears were entertained that several other towns between Dayton and the Ohio River would suffer.

No definite information as to what actually happened at Dayton could be obtained until tonight, when information from Cincinnati came that sixty lives had been lost. Practically the entire city was under water, and the residents had been forced to flee for their lives. Many of the more intrepid sought refuge on the housetops.

At 2 p.m. a young woman telephone operator at Dayton could be obtained until tonight, when information from Cincinnati came that sixty lives had been lost. Practically the entire city was under water, and the residents had been forced to flee for their lives. Many of the more intrepid sought refuge on the housetops.

Columbus Suffers Heavily. Columbus also suffered enormous damage from the flood. Railroad traffic was paralyzed early in the day. Three large factories raised for many days for a time, threatened a considerable portion of the district. Because of the flood, firemen were unable to reach the apparatus for assistance.

Conditions at Indianapolis, Fort Wayne, Kokomo and other places in Central Indiana were the worst in many years. In this part of the state there are no levees to protect disastrous inundations. At Lafayette two spans of a bridge went out. Two are reported down West Lafayette, where Purdue University is located, was cut off late in the afternoon, when the levee was broken by the force of the waters of the Wabash River. The river is two miles wide and rising rapidly.

Driven From Homes. In Indianapolis, 500 families had been driven from their homes and four deaths were said to have resulted from drownings during the day. The pumping plant was forced to suspend operations, and the city is without fire protection.

Peru property damage of half a million was done by the flood. It was reported. Logansport also was under water. Gov. Ralston this afternoon received a frantic appeal from Connersville, Ind., for aid for many sufferers there from the flood. It was said that the White River had broken over its banks and that there had caused great loss of life.

The entire business district of Rushville and part of the residence section is under water. One person is reported drowned. No trains entered or departed from that city today. The court-house practically is the only dry place in the city, and it was crowded with refugees who had been driven from their homes.

Cloudburst at Cincinnati. Cincinnati experienced a cloudburst early today which started the Ohio River rising rapidly, and flooded many of the streets. Families in the lowlands below Milford were warned in time and fled to higher ground before the sweep of waters reached that place.

A big dam a short distance north of Akron, Ohio, burst this afternoon, and horses were hurried through the valley in different directions to warn the populace of the impending danger. Hundreds of farmers with their families fled to higher ground.

The great bridge over the Miami River at Middletown, Ohio, went out this afternoon. Fifteen persons are reported drowned. The bridge was seen to be floating down the river, which was a raging torrent.

Sweeping up the Ohio Valley. The great storm in ten days does west of the Ohio Valley, between Louisville and Cincinnati, in Kentucky, and in extensive districts in Illinois, Indiana and Ohio and Indiana. At Louisville the wind maintained a velocity of 40 miles an hour.

A number of persons were reported killed at Makanda, Ill., also the report could not be confirmed. A freight train of the Rock Island and two of the Illinois Central Railroad and two of the crew were injured.

Then it must be a good thing for the city. Controller Posters's query, which would be the cost of laying a water main to Leaside? Controller McCarthy promptly answered that already \$200,000 had been expended on the Toronto touch the edge of Leaside. He added that public utilities would only be extended as required, and therefore, with no business expense.

Ald. McBride figured out that the annexation of Leaside would cause an expenditure of a million dollars for roadways. He persisted in the assertion that Leaside is not owned by the C. N. R., but by a real estate syndicate. He argued that money is needed for betterment of the bad roads in the suburbs within the present limits, instead of spending it on roads in Leaside.

Discussion was stopped at midnight and council adjourned till tomorrow afternoon.

Here is a reasonable suggestion for green committees: Possibly you have places in your fairways which are bare because the spot is humus and consequently scaped by the blades of the cutter. Just as the frost leaves the ground, so the men around and rake them over, filling the rakes with soil, and sowing the hollows. A seeding of these spots will improve your fairways to a marked degree.

There is little fear of Fred Meikle, the hard-hitting first sacker of the New York Yankees, giving up his regular berth at first base to the wonderful Indian athlete whom Manager McGraw tried out at training at Martin, Texas. There is a good fielder and not a very reliable batter. He has been showing up in first form, hitting the ball hard and soft and striking in mid-season form.

## Noted Soldier Passed

Viscount Wolsey, whose death occurred in France in his 89th year.

LONDON, March 25.—(Can. Press).—Field Marshal Viscount Wolsey, one of the most famous of modern British soldiers, died today at Mentone, France, in his 89th year.

The career of Viscount Wolsey has been watched with peculiar interest by Canadians, because of the fact that as a colonel he commanded the Red River expedition of 1870 against Louis Riel, which expedition the Duke of Connaught, then a youth of 20, participated.

Being a military expedition, the force of British regulars and Canadian volunteers could not pass by train thru U. S. territory, even though intended to quell a revolt against the government, and the troops had to take the tortuous route of the fur traders up around Lake Superior and thru 500 miles of difficult wilderness.

When the expedition reached Fort Garry (now Winnipeg) there was nothing for it to do, for Riel had fled. Fighting Career. Garnet Joseph Wolsey, who was a native of County Dublin, Ireland, entered the army in 1852, and in that year and the next saw service in Burma, being severely wounded in the Crimean war, which began the following year, he served in the trenches before Sebastopol, was again wounded and lost the use of one eye, but he won the French Cross of the Legion of Honor. Then came the Indian mutiny (1857-9), and he shared in the siege and capture of Lucknow, and took part in all the engagements fought by the force under General Sir Hope Grant. In 1860 he was fighting in China.

Ten years later he led the Red River expedition, and in 1874 he was now K.C.M.G. he commanded the force in the Indian campaign against the Boers. On his return he received the thanks of parliament and was given a grant of £25,000.

High Civil Offices. In 1875, as a major-general, he was despatched to Natal to subjugate the Zulus. In 1876 he was nominated to the Indian Council, and in 1878 was made high commissioner for Cyprus. In 1879 he held supreme civil and military command in Natal and the Transvaal.

In 1882 he was commander-in-chief of the expedition to Egypt, where he crushed the Arab revolt at the battle of Tel el Kebir. Canadian officers took part in this expedition.

For this Egyptian triumph Wolsey was raised to the peerage as Baron Wolsey, and thanked by parliament and given another money grant.

He was made general in the same year, and viscount, and in the campaign of 1884-5, when he made his last active undertaking in the gallant but ineffective attempt to relieve Gen. Gordon at Khartoum in 1884 he became field marshal, and on the retirement of the Duke of Cambridge became commander-in-chief of the army (1885-1900).

Didn't Acquire Wealth. As well as a soldier he was an author, and published the "Narrative of the War with China," "The Soldier's Pocketbook for Field Service," a novel, "Marley Castle," "A Life of Marlborough," and his own "Story of a Soldier's Life."

In later years, however, he was in rather straitened circumstances for his rank and royalty. Placed at his disposal apartments in Hampton Court.

HOLLOW TILE AND CEMENT MEN DIFFER  
Title Would Cost Considerably More Than Cement for New Technical School.

"Either the architect is a way off, or the union men do not know what they are talking about," was the view of Trustee Hiltz at the industrial education committee yesterday. The bricklayers' and stonemasons' local branches were asking that hollow tile be used, instead of concrete, for certain portions of the new technical education building. They argued that it was the best and most economical. The architect said the hollow tile cost \$100,000, while concrete, according to the contracts, only \$30,000. Deputations from the labor bodies will be heard by the committee.

Trustee McKay stated that the attendance at the day classes at the technical school now equal the combined technical, industrial and commercial classes when he took office on September 1, 1911.

Superintendent Bishop stated that there was one more piece of property to acquire to complete the site for the new building.

Ted Anderson continues to show class, both at bat and in the field at the Rochester training camp, but there is little likelihood that he will be able to beat out Schmidt for the first base job. If Anderson had been as clever last year he would have had plain sailing, as Lelievre was used most of the time at the initial sack in the spring practice.

# INDIANA NEARLY ALL SUBMERGED

### Entire State is Described as One Huge Sea—Vague Idea of Loss of Life.

INDIANAPOLIS, Ind., March 25.—(Can. Press).—With tens of thousands of people homeless, seven dead and a property loss of several million dollars, Indiana tonight is experiencing the worst flood in its history. The entire state practically is one huge sea and every brook, creek and river is taking its toll of damage.

Public service corporations of the entire state are helpless, railroads and traction lines have canceled nearly all trains. Many cities are without fire protection and without light.

Dwellers along streams today devoted their labors to rescuing those trapped in houses, and to removing furniture and merchandise to higher ground.

During the day many reports of loss of life were received but none of these have been verified because wire service is paralyzed. Seven are known to have been drowned, two at Lafayette, three at Newcastle, one at Frankfort and one at Rushville.

The dam at Spartansburg is the same which let go and caused the disastrous flood and fire in 1882.

Conservative estimates place the number driven from their homes at near 100,000 and the property loss, it is said, will reach twenty million dollar mark. These figures are made up from reports received from towns thru 500 miles of difficult wilderness.

No hope for relief to the stricken state is held out by the government weather bureau. "Rain and colder," is the forecast for tonight and tomorrow. Besides high water, untold suffering to the homeless will come within the drop in temperature.

The business section of the city, the volunteers, police, firemen and the state militia, and every place where there is a dry home it has been thrown open to the flood refugees.

George Mullin, the veteran pitcher of the Detroit Tigers, has recommended to Walter, also a pitcher, now with the Fort Wayne city team, that he should play for the Tigers. Mullin has a record of having pitched six no-hit games in the semi-professional ranks for the Tigers.

# Bloor Viaduct Will Be Steel; Council Votes Down Concrete

### Alderman Rowland's Motion Requiring Alternative Plans is Lost—Settling of Wilton Avenue Bridge Argument for Steel.

Ald. Rowland showed much concern last night over the recommendation of the board of control that the Bloor street viaduct be a steel superstructure. He declared that the cost of the viaduct would be reduced \$400,000 if plan for a concrete structure be dispensed with. He urged the committee to refer back the matter to the board of control, and to refer back, which would require that alternative plans be prepared, the vote was 14 yeas to 12 nays, and was in favor of a steel structure, which would not be as expensive as concrete.

Work on the million dollar Canadian Methodist headquarters is to be commenced on May 1. The block will be six stories high. It will be the largest and most complete religious publishing house in the world.

An effort will be made to have the structure completed by Sept. 1, 1914. The property is owned by the Rev. Robinson whose property affords a double frontage on 231 feet on Queen and Richmond streets, with a frontage of 221 feet on John street.

In addition to the publishing house, printing plant and a mammoth retail book room, the new Methodist headquarters will contain a library for the general conference officials.

The plans are being prepared in accordance with specifications based on the report of Rev. J. J. Redditt, associate book steward. Rev. Mr. Redditt ascertained on visiting the church publishing houses in New York and Philadelphia that their output was less than that of the present Wesley building on Richmond street. With the reports from the west of the phenomenal growth of

# WORK ON MILLION DOLLAR BOOKROOM STARTS IN MAY

### Six-Storey Block on Queen, John and Richmond Streets to be Completed in September Next Year—Methodists Have Floated Sufficient Bonds to Construct Largest Denominational Publishing House in World.

the mission settlements, it is doubtful if the present scale of plans will be fully adequate.

Wart \$250,000 for Old Property. The committee now regard \$250,000 as a reasonable figure to place on the Richmond street property. This is an advance of \$30,000 on the quotation of last fall.

Floating Own Bonds. The committee will be independent of money market conditions in their flotation of their own bonds is being well taken up by the Methodist ministers and laity thruout the Dominion. The committee are confident, as regards the security of the property, that the Methodist publishing house has been unbroken.

George A. Cox is one of the active spirits in connection with the establishment of the new Methodist buildings.

Mr. George S. Lyon, Canadian amateur golf champion, will undergo an operation tomorrow, but the doctors do not consider his ailment very serious, and expect that in six weeks or so he will have recovered.

# Immense Torrents of Water Swept Hundreds of Cities Doing Incalculable Damage

### Death Toll in Ohio Catastrophe May Be the Worst in History of America—Financial Loss Reaches Many Millions—Dayton, Cleveland, Columbus and Other Centres, Flooded and Paralyzed, Sent Out Call for Help—Number of Bodies Washed Down City Streets.

CLEVELAND, Ohio, March 25.—More than 200 are dead and more than 25,000 are homeless and property damage estimated at many millions has resulted from the floods which swept Ohio today. The heavy rainfall, the most copious known in years, sent every stream over its banks, and hundreds of cities tonight are in darkness as the result of electric lighting plants being inundated.

Dayton, Delaware, Findlay, Hamilton and Middletown have appealed to the state for aid, and companies of National Guardsmen are being rushed to these cities to aid in preserving order and in rescuing the inhabitants.

The worst flood conditions are at Dayton. Early today the great Miami Reservoir, 15 miles north of the city, broke and let down an immense torrent of water into the Miami River. The levees in the city were swept away, and the whole city, of 125,000 people, was inundated. According to late reports more than 60 are known to have been drowned, and it is probable that the loss of life will be far above the hundred mark.

The wall of water rushing down the Miami poured into Middletown and, in the latter city, it is estimated that from 25 to 75 were drowned. In Middletown, while no deaths were reported, 15 persons are known to be missing.

CLEVELAND PARALYZED. Cleveland was paralyzed by a flood that inundated miles of her territory, made hundreds homeless, flooded a hundred factories, cut off the town from outside communication and caused millions of dollars of property damage. Scores had narrow escapes from death in the swelling waters.

Life-savers rescued 75 people from homes near Denison and Harvard avenues. Seventeen were babies. Lumber valued at \$600,000 was swept down the river in Cleveland and eight miles of docks were inundated at a damage of \$300,000.

Nearly every factory and plant in the Cuyahoga Valley was flooded. Twenty thousand men will be out of work at least a week. Down town electric power of the Cleveland Electric Illumination Co. was shut off at 5.10 p.m. The canal power house was flooded, office building, elevators and factories shutoff. Electric lights went out.

TERRIBLE DESTRUCTION. A milk famine threatens. In Youngstown 25,000 workmen were forced to quit work when most of the big industries were shut down by the floods. All bridges in the city are guarded.

Hamilton is in darkness, as the light plant is inundated. In Piqua several hundred families have been made homeless and naval reserves have been called from Toledo to give them aid.

The big bridge over the Miami River at Middletown was swept away, 15 persons are missing and scores of houses are floating down stream. Troy is isolated, telephone and telegraph wires being down.

Twelve persons are dead and 15 missing in Delaware. In Tippecanoe City hundreds have taken refuge on the roofs of houses. Three railroad men were killed when a W. and L. E. train crashed thru a bridge at Brighton, in Lorain County.

Fire in Columbus. Three fires have broken out in the west side of Columbus, and the flames are spreading as the firemen have no water supply. Two bridges there were swept away by the floods.

Three companies of the Ohio National Guards have been sent to Hamilton to help preserve order. Canton is shut off from railroad communication.

Larue, Marion County, sent an appeal for help to Gov. Cox. The town is inundated and people in some instances have sought refuge on the roofs of their houses.

The number of known dead in the City of Delaware is 19, and 30 to 40 are missing. It is reported that Mayor B. V. Leas, is among the drowned.

In West Liberty an engine and one car rolled down an embankment washed out by the flooded Mad River. Conductor Philip Hem is reported drowned. Engineer James Wood and Fireman C. E. Clifton fatally injured. Several bodies were seen floating away, and it is feared a number of passengers in the two cars were drowned.

Fifteen hundred homes in Columbus are flooded. Firemen and National Guardsmen have formed a rescue corps.

Forced to Leave City. In Cincinnati a cloudburst has raised the Ohio River to flood stage and hundreds of people have been forced to flee from their homes.

The city of Delaware is 19 and 30 to 40 are missing. It is reported that Mayor B. V. Leas, is among the drowned.

In Akron more than five hundred families are homeless. The rubber factories, the chief industries of the city, were forced to close down, railroad and trolley traffic is paralyzed, and it is feared that the big state reservoir south of the city will break. Only one death, that of an electric light man, who was electrocuted, was reported.

A tornado struck Martin's Ferry. Several carriages in a funeral procession were blown over an embankment. No one was killed.

The Ohio River is rising rapidly at Steubenville. It is reported that the levee holding the waters of the Buckeye Lake reservoir have been cut and that a great volume of water is rushing down on that city.

The electric light plant at Norwalk was inundated, schools and public buildings closed and traffic on the lake shore railway was halted by the flood.

In Total Darkness. At Marion the day's power supply is cut off, schools were dismissed and the city is in darkness as the lighting plant is inundated. The railway bridges have been wiped away and the mayor has asked Governor Cox for assistance.

In Mansfield the streets are flooded and the property damage is heavy but there has been no loss of life. At Zanesville the districts above the edge of the city are under water, and Wesley Klinger, five years old, was drowned.

Napoleon is flooded, and at Findlay hundreds of residents have fled to the highlands.

In Barborton all of the factories have closed on account of the flood. John Neuman, while trying to cross Wolf Creek, was drowned.

HAMILTON, OHIO, INUNDED. CINCINNATI, March 25.—(Can. Press).—Sixteen persons are dead at Hamilton, Ohio, according to a local correspondent. The light plant of the town is out of commission, and the town is in total darkness. Cries for help can be plainly heard for blocks in every direction, but the lack of rescue work.

The same correspondent reports that Coke Otto, a hamlet with a population of 100, has been wiped off the map, and the fate of its inhabitants is unknown.

TRUE DEMOCRACY AND PERSONALITY  
Archdeacon Cody addressed the Canadian Club yesterday on "The Test of Democracy."  
It was in socialized individualism that the hope of the nation was to be found. The secret of this vital fact was that the ordinary man choose the rulers of the country and have authority over the children. They therefore control the present, and principally influence the future of the nation.  
The final test of the quality of an individual or a nation was the reverence for personality. That included self-respect, equally with respect for others. No men or nations could enhance their self-respect while seeking to degrade others.  
The proposition, therefore, involved the education of the whole people, so that their social responsibilities would become individually recognized.

PUBLIC CONVENIENCE AND PRIVATE PROFIT.

Hon. Frank Cochrane has again given evidence of his abounding good sense in the decision that the Lake Shore road electrical lines are to be strung on single poles. How long the people have suffered, before such a decision has become possible, marks the period it has taken to waken them to the fact that corporations do not exist for public convenience, but for private profit. Where private profit required it, public convenience, has been consulted. But in the immense area where private profit was indifferent, or perhaps fearful, of expenditure without apparent return, public convenience had to put up with what it got, and that was generally nothing.

As a matter of cash the policy laid down by the minister of railways is perfectly reasonable one, and in the end will prove to be profitable to the corporations. Stronger poles can be erected in combination, and in view of the ice and windstorms which occasionally visit this district, that would be a decided advantage. Indeed, after the tornado of this week in the west, there should be less objection to a policy of burying all wires. That is bound to come, and Mr. Cochrane has not been without regard for its necessity.

EDUCATION.

Annually at the Ontario Education Association there come up questions of expediency in teaching which seem to be as old as education itself. The multiplicity of subjects and the too technical character of instruction are favorite topics, but no one ever seems inclined to go to the root of the matter and get things radically changed for the better. Grammar has been under discussion this year, and a good deal of foolishness and perhaps some wisdom has been uttered. But the children do not seem to get any better chance to speak pure English and unadorned, and there does not seem to be any direct or even indirect relation between the committeé of grammatical rules and the speaking or writing of grammatical English. Those of us who wrestled with Lindley Murray in the last century and had to acknowledge defeat are not surprised when the children of today come home in tears over rules and principles and new names for old worries that render all parental assistance silly and unprofitable. "What's the use of them grammars anyway?" is a frequent plea, which carries on the face of it a sufficient indictment of the system in vogue.

Another complaint is over the multiplicity of subjects with which the youthful scholar has to contend. Education, as it appears, is becoming faddy, only another way of saying that educationists are becoming faddists. Here, after all, is the main point of attack. Are the educationists justified by results? Are the impracticable men surviving in scholastic circles and so their impracticable ideas survive with them, while the practical men go into the professions and carry their common sense into more satisfactory markets? These are questions the O. E. A. is not likely to discuss in open session, but they go to the root of the matter. Meanwhile Toronto children are not remarkable as a class for their attainments in reading, writing and arithmetic, and for spelling, the eonorary proposals of the simplified spelling board are adopted the better for our school reputation.

PROMOTING BUSINESS DISCUSSION.

When the new house of representatives assemblies in Washington on April 7, for the special congressional session, it will find the internal arrangements of the chamber have undergone a remarkable transformation. All the semi-circular rows of desks will have disappeared and in their place will be rows of mahogany and leather chairs. Instead of desks, each member will have a small receptacle underneath the chair in front wherein to deposit his papers and memoranda, but he will no longer be able to write letters or occupy himself with anything except the legislative business on hand.

This change is one detail of a plan proposed sixteen years ago by Thomas B. Reed when Speaker of the house. In an article contributed to Munsey's Magazine, as the result of study of various legislative chambers of other countries. Among these he found that of the British House of Commons to be the only one framed on business principles, but the difference in the business scheme would

not permit of a reduction of the hall of representatives to the size found possible by the commons. He proposed, however, to reduce greatly the dimensions and cubical content of the hall, and particularly the galleries.

This latter part of Mr. Reed's plan has not been adopted, although it is already authorized, but it is understood, should the present experiment prove successful, that the reduction in size will come next. From an article in the current number of Munsey's, it appears that the removal of the desks is a reversion to the practice of many years ago. When the present chamber was first occupied, it was equipped with benches, but no desks. Mr. Reed regarded these as very objectionable, because they took up much room and invited members to do other work than that which was before the body to which they belonged. Without them and with a hall reduced in size, business discussion would, in his opinion, be the outcome.

SILENCE THAT SPEAKS.

The fact that Mr. Herbert Lennox, M.L.A., and his partner, Mr. H. E. Choppin, are respectively drawing up the agreements which the Toronto and York Radial Company hopes to sign with the towns of Aurora and Newmarket, may perhaps, account for the silence of the member for North York on the merits of the case, and his very weak expression of opinion on its merits. At all events, the agreements are being negotiated in that peaceful silence which is so pleasant to corporation agents, while the people are expected to await their production with open-mouthed anticipation. The mayor of Newmarket admits that it is not the wish to the committee "to show its hand until the agreement is satisfactory to it." After that the people ought to have something to say, and they ought to get Hon. Adam Beck to say a few things, too.

HUMBER VALLEY PERSPECTIVES.

A prospectus of extraordinary beauty, as an example of typographical taste and skill (from the local press of Rous & Mason), has been issued by "The Toronto Land Corporation, Limited," and "The Valley Land Company, Limited," thru Messrs. Home Smith & Company, managers of the Humber Valley Survey. The motto of the enterprise is "Anglicize pars Angli procul," "a bit of England far away from England." For over a century the Humber Valley has been regarded as one of the scenic features of Ontario, and some of the views given in this richly illustrated prospectus fully warrant that reputation. Those who know the district are aware that photography can only suggest its beauty. The Thames at Richmond, from the Terrace, has not a more charming prospect to reveal than some of the enchanting vistas north of the "Old Mill." Mrs. Simcoe, wife of the first governor of Ontario, compared the Humber with the Wye and was reminded of Simond's Yat, one of the glories of England, by this Toronto view.

It is the greatest good fortune to the city that the control of this great picturesque area should have come into the hands of one so public-spirited and so alive to the aesthetic, as well as the economic, value of exquisite scenery, as Mr. Home Smith. Since the city could not have the district as a park, every patriotic Torontonian will rejoice that the beauty of the vista is to be preserved, and access to it secured by ample boulevard construction for all time to come. Measures will be taken to ensure the harmony of the architecture with the surroundings, and as in other cases in England and elsewhere, it is not too much to expect that the natural beauty will be greatly enhanced by careful designing and by sympathetic landscape gardening. A place of homes will be found in years to come in this "bit of England far away from England."

Undoubtedly the plans for the development of the Humber Valley become more public spirit, and are on a wider scale of public enterprise than anything yet attempted in Ontario.

CALL SAMUEL!

The World has said many times that the most influential monopoly in England is the cable monopoly, now controlled in the United States by the Mackay Company. It has been able to block cable toll reduction even when the British postmaster-generals in the last six administrations were supposed to be friendly. The concessions made have been of the ordinary users of cable messages. The press and night lettergrams have not got anything conceded. The present postmaster-general, Mr. Samuel, seems to be on good terms with the Marconi wireless monopoly. One would think that inasmuch as England owns her land lines she would be ready to join with Canada in putting public cables under the Atlantic. But the postmaster-general kept telling our postmaster-general that a little longer until he'd see what reduction in tolls he could get.

It is up to our government to call on the British government to explain why the monopoly seems to be all-powerful when Canada is willing any day to pay her share in a bill of imperial cables with lower rates under the Atlantic. This is a good time to call the Right Hon. Mr. Samuel.

Good Health will be yours if you drink

The Philosopher of Folly

By Sherwood Hart

HONEST ABE.

Abe of uses language inclined to be coarse; he's knocked at his dog and he's lapped his horse; he poisoned a cat without shame or remorse, and some suchlike deeds without number; he's shot a man's arm from his shoulder and salt, he's mocked at the blind and he's jeered at the halt, but when he is finally stored in a vault he'll calmly and peacefully slumber; he'll retire to his room; he'll turn up his toes in spite of his follies abnormal. When honest old Abe sleeps his ultimate sleep, around him the tradesmen will gather and weep, and fresh in their minds will be his memory keep—their grief will be true and not formal. The grocer and butcher will mourn his decease; the baker will pray that his tribe may increase; the candlestick-maker will weep, but in peace, when cold in his tomb, he'll be remembered to St. Peter can walk undismayed; his deeds may look bad, but he'll not be afraid, for back in his circle of barter and trade his record will brightly be shining. The not yet an angel in any extent of the firm of each month sees him there with the rent; he always has striven to pay as he went, and so all the town will be mourning whenever he's called on to sign his cheques. No claimants will come all his goods to annex; no bills will pile in by his heels, and he'll not be troubled by his door and bay is taking a course that leads up and away—he's surely and steadily mounting.

WM. ROCKEFELLER STILL ILL.

NEW YORK, March 25.—(Can. Press.)—William Rockefeller appeared in the financial district today and attended meetings of the executive committee of the United Pacific Railroad Co., and the directors of the Canadiana Copper Co. His voice was weak and he showed signs of the illness which recently prevented his appearance as a witness before the Pujó committee in Washington.

How to Ascertain if You Have Catarrh

Look For Symptoms of This Treacherous Disease in the Following List.

- "Is your breath bad?"
"Is your throat sore?"
"Is your cough at night?"
"Is your voice raspy?"
"Does your nose stop up?"
"Have you nasal discharge?"
"Do you spit up phlegm?"
"Has your nose an itchy feeling?"
"Have you pain around the eyes?"
"Is your throat irritable, weak?"
"Do you sleep with mouth open?"
"Are you subject to sneezing fits?"
"Do your ears roar and buzz?"
"Are you hard of hearing?"

If you have any of these indications of Catarrh, cure the trouble now—stop it before it gets into the lungs or bronchial tubes—then it may be too late. The remedy is "Catarrhazone," a direct breath-cure that places antiseptic balsam and healing medication on every spot that's tainted by catarrhal germs.

"No one can know better than I the enormous benefit one gets from my very first day's use of Catarrhazone," writes T. T. Hopkins of Westvale, N.Y. "I had a direct breath-cure of bronchial catarrh, ear noises and headache, sore eyes, stopped-up nose and throat. It affected my appetite and made my breath rank. Catarrhazone cured me quickly."
"The dollar unit lasts two months, and is guaranteed; smaller size, 50c; sample size, 25c, at all druggists and dealers; or the Catarrhazone Co., Buffalo, N.Y., and Kingston, Canada.

CONDITION OF POPE GREATLY IMPROVED

ROME, March 25.—(Can. Press.)—Pope Plus X is in so much better health that it is hoped he will be able to celebrate mass tomorrow and also give holy communion to his sisters and to the members of the papal household.

In consequence of the improvement in the pontiff's condition the first collective audience to satisfy the large number of applicants now waiting in Rome for that honor is expected to be held on Sunday next.

HOMESEEKERS' SETTLERS' AND COLONIST EXCURSIONS TO THE WEST.

Those taking advantage of above excursions should bear in mind the many exclusive features offered by the Canadian Pacific Railway in connection with a trip to the west. It is the only all-Canadian route. Only line operating through standard and tourist sleepers to Winnipeg and Vancouver.

Each Tuesday during March and April the Canadian Pacific will run Settlers' Excursion trains to Winnipeg and west for the accommodation of settlers traveling with live stock and attended meetings of the executive committee of the United Pacific Railroad Co., and the directors of the Canadiana Copper Co. His voice was weak and he showed signs of the illness which recently prevented his appearance as a witness before the Pujó committee in Washington.

For those not traveling with stock and effects, special colonist cars will be attached to regular trains at Toronto at 10:20 p.m. and run through to Winnipeg without change. No charge is made for accommodation in colonist cars.

Tourist sleeping cars are also operated on regular train leaving Toronto 10:20 p.m.

One-way colonist rates to Vancouver, Victoria, Seattle, Wash., Spokane, Wash., Portland, Ore., Nelson, B.C., Los Angeles, Cal., San Diego, Cal., San Francisco, Cal., etc., will be in effect daily until April 15, inclusive. Full particulars from any C.P.R. agent, or write M. G. Murphy, district passenger agent, Toronto.

You Should Enjoy Your Meals

One of the Most Important Questions to Consider in the Search for Happiness and Health.

If your stomach can not digest your food, what will? Where's the relief? The answer is in Stuart's Dyspepsia Tablets.

Stuart's Dyspepsia Tablets, because, as all stomach troubles arise from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is a powerful stomachic.

You Can Eat With the Appetite of a Lusty Youngster, if You Help Your Stomach.

Science nowadays can digest food without having it enter the stomach at all. And Stuart's Dyspepsia Tablets are the result of this scientific discovery.

No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered, you are not going to be yourself.

Get a 30-cent box of Stuart's Dyspepsia Tablets at any drug store.

No "Blue Bird" Stars Denial Given Report

Uniform Excellence of Cast is Ideal of Maeterlinck Play Producers.

By long distance telephone from Buffalo, N. Y., last night, Nat Roth, acting manager of "The Blue Bird" company, denied a report current in Toronto that Master Burford Hampden was to be starred in that play.

Mr. Roth said: "There will be no 'stars' in 'The Blue Bird.' The popularity of the piece is founded on an ensemble excellent in every detail, with no one overshadowing the others."

I am often asked, "Who is the leading lady?" The question is impossible to answer, for Editha Kelly, Alice Butler, Ethel Brandon and Alida Cortelyou all have equal claim to that dignity.

Maeterlinck's play will return to the Royal Alexandra next week, with its cast of 100 players, and its gorgeous New Theatre production unimpeded. The seat sale for the coming week opens at the box office this morning.

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

It all depends upon individual taste or the special duty to be performed by the box of question. For window facing and close to the street, where a bright appearance is desired, choose a few brilliant flowering specimens.

Many plants that are altogether too tender to be put in the window-box, or to sit a moment before leaving the room for a hard day's work and enjoy a fleeting dream across a healthy box of luscious heliotrope.

Never block a window with such a free sweep of air into the room; or fill the window with a too-close screen of growing vine that will tend to darken the room too much.

The life of a window-box is greatly lengthened by keeping above and west sides of the house—open as often and as long as possible.

EFFICIENT HOUSEKEEPING

BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

VARIETY

VARIETY, the spice of life, may be had on the home table without extra cost if the housekeeper will use a little ingenuity.

The constantly recurring question, "What shall we have for supper?" need not always be answered by a list of the same old dishes that familiarity has bred a fine contempt for.

For instance, when you have a roast, thin, across the grain of the meat, or served English fashion; that is, in the piece, with a sharp carving knife, with which to cut it at the table.

Do you serve it as attractively as you might? How do you garnish it, or do you think that to garnish or trim a dish involves too much "fuss"?

The palate is often pleased thru the eye, as well as thru the sense of taste, so study the appearance of your cooked sprouts, or other green stuff, your family do have a roast of beef, with horseradish or tomato sauce.

Do not always have a roast of beef, and in the place of tiresome apple sauce, or apple butter, bake an apple for each of the family and serve it on an individual plate.

When you have cold mutton again, omit the mint sauce and in its stead serve a mild mustard dressing.

If only a little cold meat remains from a roast it may be utilized by baking it in one large, or in several small molds.

One never grows too old to be pleased by the subtle influence of a dish that seems to insinuate that it has been prepared especially for one's taste.

WOMEN'S CANADIAN CLUB

Proposes To Tackle Vital Legislative Questions.

The annual business meeting of the Women's Canadian Club will be held in the Guild Hall, McGill street, Monday, March 31, at 4:15 p.m.

Instead of the usual lecture, there will be a discussion on the bills now before the legislature relating to women and children—more especially the Factories Act.

As there is no more vital question for the nation to decide than the conditions, hours, etc., under which women and children shall labor, it is hoped that many of the women of Toronto, and the men also, will avail themselves of this opportunity.

of hearing the exact meaning of the bills which are soon to become the law of the land. The matter will be presented by Mrs. Leathes, who will be followed by one or two other speakers who have had practical experience and knowledge of industrial conditions.

All non-members interested will be admitted upon presentation of visitors' tickets.

Mr. NEWLYWED said—"Hello! Is this a new kind of salt we are using? It takes all right, doesn't it?"

Mr. NEWLYWED said—"Yes, it's WINDSOR SALT. The grocer told me about it—it was the only kind his customers would have."

Mr. NEWLYWED said—"Well, if he keeps such good salt, I guess everything else in his store must be good, so I would do all my trading there, if I were you."

Mr. NEWLYWED said—"I intend to."

**SENTIMENT TURNS  
MORE CHEERFUL**

Markets Benefited by Their  
Easter Holiday—Recovery  
in Toronto Exchange.

**BRAZILIAN LEADS RISE**

Evidences of Weakness Still  
Apparent—Dominion Bank  
at New Low Record.

The stock markets were much benefited by their Easter holidays, if the action of securities was any criterion. In London a much more cheerful undertone was apparent, and, as usual, this was reflected in Wall Street and the Canadian exchanges. Week-end developments were not of an inspiring nature, but sentiment was cheered by the thought that all the unfavorable factors were known, and the deduction that probably they had exerted their worst influence for the time being at least.

The improvement in London inspired a smart recovery in the Canadian market, which opened in Toronto at 94 1/2, up over a point from last week's close, and later rose to 95, where the closing bids were put in, and net gain of 1 1/2 points over last Thursday's final figures. C.P.R. was up to 228 in New York, a two-point advance for the session, and a full 9 1/2 above the recent low level. Other strong spots here were Canners, which moved up 1 1/4 to 73 3/4; Toronto Railway, which sold at 123 1/4, and closed bid there, a gain of over a point; and Twin City, which was half a point higher at 103 1/4. The spurt in these leading issues plainly evidenced the turn for the better in sentiment.

**Weak Spots in Evidence.**

The market did not lack its weak spots, however, and at times the list seemed inclined to drift into irregularity. Consumers' Gas made the lowest record in years at 178, City Dairy common was off 1/2 a point to 53 for an ex-dividend stock, and the preferred dropped a point at 97 1/2. Canadian Locomotive common and preferred were both quoted lower for the day, and Mackay, at 65 1/2, was also below the previous figures.

In the investment stocks a generally easier trend was observable. C.P.R. Dominion Bank lost another fraction at 219 1/2, a new low for the movement. It opened the month at 225, and the year at 227 1/2. Bank of Toronto lost a point at 206. Toronto General Trusts opened at 194, and later sold down to 192 1/2, which compares with a previous sale at 200. Sagging prices in this section were due, of course, to the continued money tightness.

**FIVE PER CENTS OF  
ALGOMA CENTRAL**

New Offering in London—No Word of  
Mackenzie Loan.

LONDON, March 25.—An offer is shortly to be made of \$32,500 sterling, embracing a number of specialties, as well as recognized leaders in the market, and there were few laggards in the list. The recovery here continued steadily through the day, and stocks closed at their best prices, with closing bids in some cases fractionally higher than the best of the day. No change in the market was apparent one point to as much as eight points wiped out in a majority of cases losses sustained in the sagging market of the week of the 19th, as reassured itself as a main factor in the general movement, rose to its highest price in more than two weeks.

C.P.R.'s rise of three points in New York on Monday was well maintained in London today, and the opening bid reopened after the four days' holiday, and for the first time in nearly a month displayed a tone verging on buoyancy. The movement was aided by cables from London reporting a sharp rise in the price of the stock, and stocks closed at their best prices, with closing bids in some cases fractionally higher than the best of the day. No change in the market was apparent one point to as much as eight points wiped out in a majority of cases losses sustained in the sagging market of the week of the 19th, as reassured itself as a main factor in the general movement, rose to its highest price in more than two weeks.

**CITY OF COBALT  
CASE UP TODAY**

Broker Asks Injunction to Prevent  
Sale of Company's Assets.

Another hearing in the City of Cobalt Mining case will take place today. The claim of Plaintiff Sproule, who is thought to be acting for more important interests, is that the mine can be readily sold for \$300,000, or 60¢ a share, whereas under the deal accepted at a special meeting the shareholders will get only 50¢ a share, or \$750,000.

Sproule is asking for an injunction to prevent the consummation of this sale. The injunction is granted, and the sale put thru at the \$300,000, the shareholders will receive 60¢ a share and also about 2 1/4¢ a share extra, as there is about \$35,000 in the company's treasury.

**THE HARRIMAN TANGLE.**

SAN FRANCISCO, March 25.—William Harriman, president of the Southern Pacific, said today that Southern Pacific would retain control of the Central Pacific.

**DROPS THE DIVIDEND.**

NEW YORK, March 25.—The British Columbia Copper Co. has passed its quarterly dividend payment of 3 per cent.

**B. C. PACKERS' ANNUAL.**

The annual meeting of the British Columbia Packers' Association was held yesterday in Vancouver, B. C. Only routine business was transacted. The question of rearranging the finances of the company was, it is understood, held over until the return of Mr. Aemilius Jarvis, the president, from Europe.

**UPS AND DOWNS IN  
COST OF LIVING**

Some Relief From the Almost  
Continuous Advance in  
Commodity Prices.

That at least a measure of relief is being experienced from the almost continuous advance in commodity prices which marked last year is evident from the monthly report regarding the index number, or indicator of values, for Canada, the United States and Great Britain. This exhibit shows that there was a slight down turn during February, and this, taken in conjunction with the decline during January, must be accepted as a highly favorable occurrence.

The index number for Canada opened last year at 134.3, and reached its top level in June. It closed the year at 135.4, a one-tenth of one per cent. under the high record. The drop in January and February, 1915, across the border the highest point was attained in December, while, in England, the record was made in March, according to The Economist, and in September, according to The Statist, which uses another basis of figuring.

The following table gives the monthly record for each country:

	Brad-street's.	Can. Econo-mist.	Sta-tist.
1912.	134.3	134.3	134.3
February	134.3	134.3	134.3
March	134.3	134.3	134.3
April	134.3	134.3	134.3
May	134.3	134.3	134.3
June	134.3	134.3	134.3
July	134.3	134.3	134.3
August	134.3	134.3	134.3
September	134.3	134.3	134.3
October	134.3	134.3	134.3
November	134.3	134.3	134.3
December	134.3	134.3	134.3
1913.	134.3	134.3	134.3
January	134.3	134.3	134.3
February	134.3	134.3	134.3

**MONTREAL STOCKS  
RALLY STRONGLY**

Sharp Rise in C.P.R. Stiffened  
Prices Thruout Entire  
List.

MONTREAL, March 25.—Local stocks made ready response to continued strength in C.P.R. when the market reopened after the four days' holiday, and for the first time in nearly a month displayed a tone verging on buoyancy. The movement was aided by cables from London reporting a sharp rise in the price of the stock, and stocks closed at their best prices, with closing bids in some cases fractionally higher than the best of the day. No change in the market was apparent one point to as much as eight points wiped out in a majority of cases losses sustained in the sagging market of the week of the 19th, as reassured itself as a main factor in the general movement, rose to its highest price in more than two weeks.

**BUY GOOD BONDS NOW  
SAYS BIG BANKER**

Forgan Believes This is the Time for  
Investor to Act.

David R. Forgan, president National City Bank, Chicago, is quoted as saying he believes the present to be an advantageous time to buy high grade bonds, that final adjustment of the Balkan war complications will be of great importance to the stock markets; that amount of money hoarded abroad, and later in the foreground probably holds today smallest amount of American securities it has held at this season of marketing so great an amount of stock during a period when money is not plentiful.

**HERE'S NEW PLAN TO  
UNRAVEL TANGLE**

Southern Pacific May Amend Charter  
and Buy Back Its Own Stock.

NEW YORK, March 25.—The latest possibility in the Union Pacific discharge of an employee on Saturday, the Saturday night shift refused to go to work unless he was reinstated, and his management refused to do that about 100 of the men walked out.

**VALUATION OF STOCK EXCHANGE SEATS**

With memberships on the New York Stock Exchange changing hands at prices not far from \$40,000, or less than half the ruling price a few years ago, brokers are more than ordinarily interested in the value of the property behind their seats and some of them think that the authorities should make a statement of the financial resources of the association. They know that the five trustees of the gratuity fund have in their custody a great deal of money or property, but they do not know how much there is in the fund, for the trustees have never yet been called upon to report. With this knowledge before them, they might be able to figure out the liquidating value of a seat, that is, the amount that would be distributed among the members in the unlikely event of a dissolution of the association.

Some of the receipts are the \$2000 membership fee, the earnings of the Stock Exchange Luncheon Club, the profits from the rent of stock exchange tickers and the sale of quotations and the excess of the exchange. The trustees pay out \$10,000 to the estates of every deceased member, but even on that basis the fund makes money, for every one of the remaining 1099 members has paid \$10, in addition to the \$2000 membership fee, when he joined the exchange. Thus on every such disbursement from the gratuity fund the fund becomes \$1000 greater. The fund has undoubtedly been growing steadily for years, and no member estimates it at less than \$1,000,000. Most of the members think it much more valuable.

**WALL STREET IS  
GAINING COURAGE**

Rising Market for Two Successive Days Something  
of Novelty.

**LONDON AGAIN BUYER**

Much Improved Outlook in  
Europe Acts as Decided  
Stimulus.

NEW YORK, March 25.—Operators on the long side of the stock market began to pluck up courage today, as another advance was achieved. After weeks of drooping prices and bearish sentiment, with only an occasional fitful rally, it was something of a novelty to have a rising market for two days in succession, with every appearance of an improvement in feeling. There was some real bullish enthusiasm in the first hour of trading, but the pace was not long maintained, and the market grew dull again. In spite of the falling off in business the list maintained its firm tone. Representative issues were marked up 1 to 2 points, and a strike had primarily to the better outlook abroad in politics and finance, which was reflected in the more cheerful tone of the market. European markets and in purchases here by London of about 15,000 shares on balance. Cable advices reported that prospects for the European market were brightening daily, and that the outlook was for easier money markets after the April 1 settlements. At the same time the money market was slightly easier.

**Demand for Standard Stocks.**

Another feature encouraging to the market was the evidence of absorption of the standard stocks. Commission house business, while still comparatively small, had shown some increase during the last two days. Bear traders who have been operating with a free hand, were less sure of their ground and there was some hurried covering, which ran up the prices of a few stocks at a rapid rate. Some of the specialties which have been weak recently made large gains. Best Sugar and Rumely rose six points, and Sears-Roebuck, Woolworth, Goodrich and American Can. were strong. Copper stocks were helped by cables from London reporting a better market for the metal. The volume of the domestic copper business continues comparatively small, and the tone of the market holds firm.

**STRIKE IS ON AT  
BEAVER PROPERTY**

COBALT, March 27.—Sixty men at the Beaver mine are out on strike. While the mill is still running this morning and the pumps are working, the men are on strike. In the afternoon the men were working, but the pumps are on strike. The men are on strike. The men are on strike.

**NIPISSING AT ITS  
HIGHEST IN YEARS**

Reports of Pending Larger  
Dividends—Mining Market  
Shows Irregular Tone.

**LONDON AGAIN BUYER**

Much Improved Outlook in  
Europe Acts as Decided  
Stimulus.

There was very little change apparent in the trend of the mining market as exemplified in the action of the leading stocks yesterday. On the whole the list moved along on pretty much the same plane as that in evidence at the close last week. Irregularity continued the leading characteristic, and at the windup of business there were about as many declines as advances in evidence. Trading was active, the not to any great extent. The remarkable strength of Nipissing, which sold up to the highest record since 1911 at \$9.50, a gain of 30 points for the session, was the feature of the day. The spirit in this issue had been predicted by market prophets, and was due to the anticipations of a very favorable annual report and a possible extra dividend disbursement. At the present time the company pays 5 per cent, and 2 1/2 per cent. bonus each quarter, or 20 per cent. a year. Rumor has it that an extra 2 1/2 per cent. will be added soon. Meanwhile much higher prices are talked of for the shares.

**Beaver on Toboggan.**

The general list of Cobalts was irregular, with Cobalt Lake up to a new high in months at 60, and Foster up over a point to 10 1/4 on the reported strike on the property. On the other hand Beaver lost 1/2 a point at 37 1/2 on the announcement that a strike had been declared by the employees; Chambers-Perland made a new low record for the month at 23, City of Cobalt was back a fraction to 43 3/4, and Wettlaufer dropped to 12, thus duplicating last month's low water-mark. Peterson Lake sold at 24 1/4 and 24 1/2, a fraction decline.

The Porcupines moved along much the same as the Cobalts, with a rather uncertain trend apparent. Pease Lake gained a full 3 points to 66 1/2 during the morning, but was back to 65 later on. Dome Lake dropped back 10 points to \$2.40, and McIntyre reacted to \$4 again, which compared with \$4.45 at the close of the previous Thursday last. Hollinger was \$17.25 at the close, thus maintaining its recent advance. Dome sold at \$18, and the best price of the day was \$18. The cheaper issues were steady and quiet.

**LONDON MARKET  
IN CHEERFUL MOOD**

Brighter Outlook in Europe  
Reflected in Capel Court—  
Improvement Made.

LONDON, March 25.—The stock market reopened cheerfully today. Leads in which, consols, home rails, Mexican rails and Paris favorites were prominent features. The approach of the settlement, however, checked any material expansion in business.

American securities opened quiet and steady. First prices were unchanged, but later in the forenoon the market advanced from 1-4 to a point above parity on fair buying. In the afternoon New York supported the market, and the early improvement was maintained. The closing was steady.

Money was in good demand, but discount rates were easier. In Germany, in the bank of England bought the \$4,500,000 new gold offered in the open market.

This Bank has unexcelled facilities for handling every description of banking business throughout the world.

**FOREIGN CROPS IN  
GOOD CONDITION**

Weather Favorable Thruout  
Europe—Crop Outlook is  
Excellent Generally.

Broomhall's weekly foreign crop summary issued yesterday in Liverpool, follows:—

United Kingdom—The winter wheat crop looks well in most districts. The weather is fine.

France—Outlook generally favorable. Spring prospects are excellent. Native supplies small. It is predicted that there will be continued large purchases of foreign wheat.

Germany—There are no complaints here regarding the crop outlook and sowing continues rapidly. Supplies of native wheat are smaller and the demand for foreign wheat has improved, and some authorities predict large imports in the near future.

Russia—Winter wheat outlook favorable at ports small, but will increase shortly. The weather is mild.

Rumania—Crop outlook favorable. Oats sowing is proceeding satisfactorily. Supplies of native wheat are small.

Hungary—Winter crops doing well. Spring sowing is being done under very favorable weather conditions. The weather is mild.

Italy—Crop outlook is mostly favorable. It is generally claimed that there will be continued large imports of foreign wheat needed. The weather is mild.

Spain—There are some complaints of drought.

North Africa—Crop outlook is mostly excellent.

**WINTER WHEAT IN FINE SHAPE**

Abundant Moisture Where Needed Makes Outlook Excellent—Prices Weaken.

CHICAGO, March 25.—Crop conditions gave the bears a portion of the market today and they drove prices downward almost from the start. The close was steady at a net loss of 1-16 to 7-8c; oats at a net decline of 3-8c to 5-8c, and provisions were 7/16 to 3/16c.

Crop advices were a character to help the wheat bears. From nearly all parts of the winter wheat belt came reports of abundant moisture, along with advices that the growing plant could not be in better condition. This, in the opinion of the trade, counteracted the decrease of 5,312,000 bushels in the world's available supply over the corresponding week of last year, and a decrease of 1,868,000 bushels in the domestic visible as compared with a decrease of 1,277,000 bushels a year ago.

Heavy Primary Receipts. Primary receipts also gave support to bear sentiment, as they were 549,000 bushels as compared with 351,000 bushels a year ago.

Corn showed weakness throughout the day, taking a downward turn immediately after a fairly strong opening. The few enquiries from the east asked for bids on re-sale, eastern buyers apparently being overladen. Oats seemed without the buying spirit. Provisions were weak.

**NORTHWEST RECEIPTS.**

Receipts of wheat at northwest points, with usual comparisons, follow:

Week		Year ago	
Chicago	Tuesday	Chicago	Year ago
.....	175	167	179
.....	144	165	89
.....	144	165	89
.....	144	165	89

**EUROPEAN MARKETS.**

The Liverpool market closed 3/4 to 1d higher on wheat and 1/4 to 1 1/2 higher on flour. Paris was closed 3/4 to 1/2 higher.

# The Robert Simpson Company, Limited

## Men's New Spring Suits

There is a marked beauty of design, a finished thoroughness in the tailoring and an attractiveness of style in Simpson's ready-to-wear clothing that at once satisfy the man of careful judgment. Our buyers have been able to get the very best of every line, and we have such compelling values to offer in all grades.

A suit made from a fine English tweed, in a splendid brown, in stripe design, is an excellent illustration. Cut single-breasted, three-button style, with a perfect fitting collar and shoulders. Linings and tailoring excellent. It sells for .....10.50

A suit of gray-brown English tweed, for wear and lasting good appearance cannot be equalled. It is cut in one of the smart single-breasted, three-button styles. Has mohair linings and beautifully tailored. Price .....13.50

A Splendid Worsted Suit in gray-brown is sure to give good wear and keep its smart lines. Cut single-breasted, three-button style. Fit, finish and style beyond criticism. Price .....18.00

## Young Men's Suits

Special attention has been given to the young man who wants the most "advanced" styles; natural width shoulders, close-fitting back, soft roll front, cuffs on sleeve, high-cut vest and narrow width trousers. We can supply this style in two excellent colors, a plain gray and a plain brown of English worsted. Price .....22.00

## Young Men's Blue Suits

One of our best suits for young men is made from a blue cheviot cloth, rather light in color. The single-breasted coat, soft roll front, natural width shoulders, short coat, high-cut vest, narrow trousers, give the requisite youthful lines to the figure. Price.....22.50

## Boys' Suits

Perhaps no clothing made has to stand greater stress than does the suit of the average growing lad. This has been kept in mind, while the materials were being picked and the general points of make and finish were under consideration for these special suits.

### SUITS OF SPLENDID WEARING SCOTCH TWEED.

in a medium shade of gray-brown, cut smart double-breasted style, with full bloomer pants, with serge linings and smartly tailored to give it permanent lines. Thursday, sizes 31 to 34 .....6.75

### BOYS' FANCY NORFOLK SUITS.

Fashionable spring styles, neat single-breast Norfolk cut, with patch pockets, fancy turn back cuffs, pleated Norfolk back and bloomer pants. Made from all-wool English brown tweed. One of the leading styles for this season. Sizes 24 to 34 7.50
