MRS. PANKHURST IS ALLOWED TO LECTURE IN UNITED STATES TOUR FINISHED, SHE MUST GO

President Wilson and Officials Give Militant Leader Benefit of Doubt as to Whether Her Acts Constituted "Moral Turpitude"—British Government Showed Example of Leniency.

WASHINGTON, Oct. 20.—(Can. Press.)—America's doors were opened today to Mrs. Emmeline Pankhurst, and during the few weeks covered by her lecture engagements the British militant suffragist leader is free to go where she will in the United States. An order releasing the much-discussed visitor from detention at Ellis Island, N.Y., and revoking the deportation order of the special enquiry board was issued today after President Wilson had conferred with Secretary Wilson of the department of labor, and a formal hearing before Immigration Commissioner Caminetti on Mrs. Pankhurst's appeal had been concluded.

Secretary Wilson announced that he and the president had agreed that Mrs. Pankhurst should be admitted on her own recognizance, with the understanding that she should depart when she had fulfilled her lecture engagements. Both the president and the secretary agreed with Commissioner Caminetti in the opinion that there was an element of doubt as to whether the acts for which Mrs. Pankhurst had been convicted in England constituted moral turpitude, or were political in character.

British Government Lenient. Commissioner Caminetti tonight issued a formal statement outlining the reasons for his decision in the case. "There is nothing in the record or before me," said the statement, "to indicate that the British Government desires that Mrs. Pankhurst shall be returned to England; and the evidence of record indicates that while she was placed under a sentence of three years' penal servitude, she has served only a small part of her sentence, and apparently no effort has been made to compel her to serve the balance, but as a matter of fact market leniency has been shown towards the applicant by the English authorities. Shall this government deny even temporary asylum when by so doing less consideration would be shown Mrs. Pankhurst than England has displayed?"

Limited Liberty. "Mrs. Pankhurst states, and counsel throughout the case has asserted that she is coming here only for a short visit for the specific purpose of fulfilling engagements to deliver lectures, and that all that is desired is that she be allowed to carry out these engagements."

Servia Backs Down

BELGRADE, Oct. 20.—(Can. Press.)—The Servian Government today notified the powers that it had ordered its troops to withdraw immediately behind the Albanian frontier fixed by the peace conference held in London at the conclusion of the first Balkan war. The step complies with Austria's ultimatum.

CAN COME BACK SULZER'S BELIEF

Will Make "Fur Fly" When He Gets Seat in Assembly—Republicans to Support.

ALBANY, Oct. 20.—(Can. Press.)—A few minutes after the Progressive convention met tonight in New York, Wm. Sulzer issued a statement telling why he had consented to come back to Albany as a member of the assembly.

There never was any doubt but that he could have the nomination if he wanted it, he declared. Nor does he doubt that the first of January will see him back where he began his political career twenty years ago. He and his friends also are convinced that he will go from there to the speaker's chair and thence back to the "People's House."

Tomorrow Sulzer will go to New York to begin a campaign for the assembly immediately, and speak by radio and night up to a certain time. After that he will accept some lecture engagements up to the first of January. He promised to make "fur fly" if he is made an assemblyman. According to Chester C. Platt, Sulzer's secretary, Harry Kopp, the Republican nominee for assemblyman from the sixth district, agreed today to campaign for Sulzer. It was too late for him to withdraw his name, else he would have done that, Platt declared.

Rebbs Urged Step. The rabbi of every synagogue in the sixth district called at the executive mansion today to urge Sulzer to make the race. With them they brought petitions signed by 3500 voters in the district asking Mr. Sulzer to run. There are said to be only 5700 voters in the entire district.

GERMAN GOVERNMENT AROUSED BY HOLDING OF SUBJECTS AS HOSTAGES

MEXICO CITY, Oct. 20.—(Can. Press.)—The holding of 43 Germans at Torreon by Gen. Francisco Villa as hostages against an attack by the federal forces has aroused the German Government to make strong demands upon the Mexican Foreign Office to insure their safety.

Gen. Villa permitted the Americans to depart from Torreon, but held the Germans, about the same number of French residents, ten or twelve Britishers and several Spaniards, declaring that his purpose was to use them as a tool to deter the federals from attacking the city. He also let it be known, according to advices here, that they would be sacrificed unless the effort to retake Torreon was abandoned.

What action the foreign office proposes to take has not yet been determined.

NEGRO AMUCK WITH A RAZOR SLASHED FOUR AND ESCAPED

Got Into Dispute Over Change in Hotel Bar, Drew a Razor and Got Away After Cutting Four Men.

Enraged by a dispute over the amount of money he had laid on the bar in Smith's Hotel, an unknown negro ran amuck at 11 o'clock last night, slashing four people with a razor, one of whom, John Consworth, a porter at the hotel, lies at the General Hospital in a critical condition. The negro, up to an early hour this morning had not been caught by the police.

Walking up to the bar in Smith's Hotel, the man laid a five dollar bill on the counter and called for a drink. After he had received the drink and his change, he declared that there were two bills stuck together, and wanted more change. He was refused and commenced to show fight, upon which Consworth, who has been a

PEOPLE INSISTED THAT DOOR BE UNBARRED

So Says Mrs. Pankhurst on Landing in New York, Where She Was Entertained by Mrs. Belmont—Will Not Preach Militancy in America.

NEW YORK, Oct. 20.—(Can. Press.)—Mrs. Emmeline Pankhurst, the English militant suffragette leader, landed on Manhattan Island at one o'clock today from Ellis Island, where she had been detained since last Saturday by the immigration authorities. She had been ordered deported as an undesirable alien, but President Wilson and Secretary of Labor Wilson intervened on her appeal from this decision, and today instructed Anthony Caminetti, commissioner general of immigration, to release her on her own recognizance and without bond. Mrs. Pankhurst now will be able to carry out her contemplated lecture tour in this country. She expects to sail for Europe November 28.

It was hard to imagine that the slightly built, gray haired little woman who stepped ashore from the ferryboat at the Battery was the same person that for several years had caused the British Government so much trouble by reason of her militant tactics in behalf of woman suffrage of her incitations to militancy for "the cause." Also her tranquil countenance and brightness of eye gave no indication that she had gone thru the ordeals of six prolonged hunger strikes to obtain her release from prison sentence imposed for illegal acts committed in England in her endeavors to gain votes for women.

Mrs. Belmont Hostess. Shortly after she landed Mrs. Pankhurst was taken in an automobile to the residence of Mrs. O. H. P. Belmont, where she had luncheon and was tonight received by the members of a woman suffrage association at the Aldine Club.

Mrs. Pankhurst was highly elated over her release. "The American people did it—it is their will," she said, her face beaming with smiles. "What will the English say?" Then she paid her respects early to Regina McKenna, the British home secretary, characterizing him as the "chief torturer for England." She said it was not her purpose to preach militancy in this country, but that she would continue her fight to the exposition of the treatment accorded the suffragettes in England.

Mrs. Pankhurst was the recipient of a demonstration unique in the annals of Ellis Island as she was leaving the immigration station. Men and women employees ran hither and thither to gain points of vantage from which to view the militant leader and the board of special inquiry adjourned its cases that the members of the board and the immigrants might see her as she trudged with steady step and head erect toward the ferry boat and the freedom of the country.

Not Formal Choice. However, Mr. Bird pointed out that as 3200 voters in all parties, as he was informed, out of a total of 6000 voters had signed a petition favoring Mr. Sulzer's nomination, such a nomination "if brought about in this way would be more of a neighborhood than a party nomination. It would not be a strictly Progressive nomination, but a nomination by the voters of all the parties in the district, using the vacancy that happens to be on the Progressive ticket for their purpose."

After Mr. Sulzer had been nominated tonight there was a demonstration in the East Side meeting hall. Bands in the street outside played national airs. The nomination was made unanimous, and Mr. Sulzer accepted.

STRUCK BY STREET CAR. Crossing the railway at the corner of Front and John street at 10:30 last night, Lawrence Flinnigan, 40 years of age, of 464 Euclid avenue, was struck by an eastbound passenger car (1538), sustaining a fractured hip and injuries to his left arm. He was conveyed to the General Hospital in the police ambulance.

A New York Success. "Oh! Oh! Delphinus" had a run of an entire season in New York, and from the enthusiasm displayed at the Princess Theatre at the two performances yesterday, it looks as though it would crowd that theatre for a month at least, which goes to show that Toronto is getting to be a Metropolitan City.

DIED AS RESULT OF INHALING COAL GAS

Grace Snelling Failed to Recover, and Her Sister is in the General Hospital Suffering From Effects of Inhaling Fumes From Furnace in Boarding House.

Grace Snelling, aged 22, is dead, and her sister, Dorothy, aged 19, is at the General Hospital in a serious condition, as a result, it is believed, of inhaling coal gas from the furnace in their boarding house at 8 Wilton crescent. Mrs. Williams, with whom the girls were boarding, stated last evening that there was no smell of gas in the girls' room when she opened the door yesterday morning. The police, on the other hand, state that when they arrived at the house there was a perceptible odor of gas all thru the house. At the General Hospital, Dorothy Snelling, who regained consciousness last night, expressed the opinion that it was escaping coal gas which caused her sister's death.

The girls, who came to Canada from England six years ago, moved to 8 Wilton crescent about four days ago from a boarding house across the street. They intended to take positions this morning with a department store.

Sister Unconscious. They retired early on Sunday night. Early yesterday morning Dorothy awoke, but could not understand why she seemed to be in a stupor. She attempted to wake her sister Grace, but found that she was unconscious. Dorothy then groaned, and attracted the attention of Mrs. Williams, who forced the door of the girls' room. The landlady at once summoned several physicians, and the girls were removed to the General Hospital. Dorothy recovered, but Grace died during the afternoon. An inquest has been ordered.

The girls attended Bond street Congregational Church.

HE CONFESSES HUGE SWINDLE

Aged Clairvoyant Got Half a Million Dollars From His Clients in Fifteen Years.

CHICAGO, Oct. 20.—(Can. Press.)—The confession of William R. Russell, an aged clairvoyant, who admits he has swindled clients out of half a million dollars, was made public last night by States Attorney Hoyne. In it Russell reveals the regulation rates for operating with police protection, and names many detectives and a "go-between" to whom he said he paid thousands of dollars.

Russell asserted that he understood this money was to go to the states attorney's office and to high police officers.

Russell, who was arrested Friday at Columbus, Ohio, where he was known as Professor Barry, said he had been a clairvoyant for 15 of his 65 years, and in that time extracted \$500,000 from his victims in many cities. Advising them to invest in fraudulent stocks was his favorite method, he said.

He has been indicted here on charges of operating a confidence game.

THREE AVIATORS KILLED IN A DAY

Two Fell When Machine Capsized and Another Was Drowned as Bi-Plane Fell Into River.

VIENNA, Oct. 21.—(Can. Press.)—Official announcement is made that the great increase in immigration is evidence of the widespread secret organization for encouraging the emigration of persons liable for military service. The emperor has shown much interest in the situation, and has ordered an investigation of all emigration bureaus in Galicia.

Economic conditions in Galicia are so bad owing to heavy taxation and mobilization during the Balkan war that the people have been driven to leave the country, and when permits were refused, resorted to forged papers. By a recent enactment the strength of the army is to be increased, but recruiting is difficult.

CAPTAIN AND CREW OF BARGE SAVED FROM DEATH IN LAKE AFTER THREE DAYS OF STORM

PURE-BRED STOCK TO BE REGISTERED

Western Canada Live Stock Men Take Steps to Protect Interests.

SASKATOON, Oct. 20.—(Can. Press.)—Demanding representation on the National Record Board for the registration of pure-bred stock, was the most important action of the recently organized Western Canada Livestock Union, while the fair and racing circuit, composed of representatives from Manitoba, Saskatchewan and Alberta at the conventions held today, made some changes in the rules governing races and appointed a committee of fifteen to recommend dates for holding the various exhibitions the coming year.

The Saskatchewan idea prevailed of fixing the basis of representation on the National Record Board on membership and registration fees, instead of the former alone, as recommended by the committee that drafted the letter.

CURRENCY BILL TO BE ALTERED

Number of Reserve Banks to Be Reduced—Wilson Eager to Expedite Measure.

WASHINGTON, Oct. 20.—(Can. Press.)—With President Wilson willing to accept substantial amendments to the administration's currency bill, in the hope of securing speedy action on the measure on the senate committee, supporters of the administration today grew optimistic over the chance for the passage of the measure before the end of the extra session of congress. The president himself, in a letter to Majority Leader Underwood, announced his willingness to consider a proposal for a recess of the house, because he said conferences with members of the senate committee led him to believe the bill would be reported to the senate the first week in November and passed during the present session.

Republican members of the committee and Senator Hitchcock of Nebraska, were inclined to look upon this plan as too optimistic.

A reduction in the number of reserve banks, fixed by the administration bill at 12, and the removal of the secretary of agriculture and controller of the currency from the federal reserve board, which would control the new currency system, were the amendments which the president let it be known he would not oppose.

Composition of Board. The proposed amendments would retain the federal reserve board as a strictly governmental institution, but would provide that it shall be composed of seven members, six to be appointed by the president, and to devote their entire time to the work of the board, and the seventh to be the secretary of the treasury. The committee has not yet taken up the question of reducing the number of reserve banks, but suggestions have been made putting the number all the way from 3 to 10.

The proposal for a recess of the house was taken up at the White House, and at the capitol today, and negotiations continued without any definite conclusion.

Secret Organizations Have Been Found Which Encourage Immigration to Escape Service.

Beached the Barge. The owners of the barge were notified and the Lake Michigan again sent out from Bowmanville. The life saving crew had, in the meantime, manned the boat and placed pumps on board. By means of these she was kept afloat until the Lake Michigan arrived, and the steamer succeeded in getting the barge ashore.

The new department at this progressive house for overcoats is being freshly patronized and appreciated by particular men and young men. It's worthy of a visit now.

ALMOST A RIOT ON YONGE STREET

Crowd Objected to Arrest of Two Men Not Entirely Sober.

CATCALLS AND JEERS

Followed the Constables as They Put Their Prisoners in the Patrol.

A riot in which the persons of two constables were in jeopardy, occurred on Yonge street opposite William street at 4 o'clock yesterday afternoon.

Two apparently well-dressed men were being held by the constables on a charge of being drunk and disorderly. The opinion of the huge crowd of four or five hundred persons who quickly gathered, was that the men

were able to take care of themselves and should not be arrested. The men themselves argued with the policemen, protesting that they were capable of going home, and with the crowd pressing in close about them attempted to resist the arrest.

Used Their Batons. With part of the crowd beginning to take part in the scuffle, the constables had no alternative but to use their batons on their prisoners, which brought down on them the hoots and jeers of a throng of people which stretched clear across Yonge street.

Grasping their prisoners tightly, the officers forced a way through the throng, and with difficulty made their way to Alice street, where they awaited the arrival of the patrol wagon. The wagon eventually arrived and drove off with the men and constables amidst catcalls and anything but complimentary remarks from the crowd.

SCHOONER IN DISTRESS

BOSTON, Oct. 20.—(Can. Press.)—The steamship Departa which arrived from Port Limon today reported the lumber laden schooner Thelma, Wisconsin, S.C. for this port, lying signals of distress last Saturday off Winter Quarter Shoal. The schooner had passed thru a hurricane and was short of provisions. A supply of food was sent aboard. The Thelma came thru the storm with minor damage.

TORN FOOT MAY BE AMPUTATED

Shotgun in Hands of Charles Gibbs Discharged Into His Ankle.

When his shotgun accidentally discharged while he was shooting partridge in the marshes of Bobinsky, near North Bay, yesterday, Charles Gibbs, aged 23 years, 184 Grace street, had his right foot so terribly lacerated that it may be necessary to amputate it, Gibbs reached Toronto last night and was immediately taken to the General Hospital in Harry Ellis' private motor ambulance.

Gibbs went out from Toronto on Sunday night with a party of other men to shoot over the holiday. He was walking thru the weeds when the hammer of the gun caught and discharged the cartridge. The shot entered his right foot just below the ankle.

AIRSHIP TO VISIT ISLE OF MYSTERY

German Explorer Plans to Make Flight Over New Guinea.

IS "TERRA INCOGNITA" Land Known to Be Inhabited by Savage Tribe of Cannibals.

BERLIN, Oct. 18.—Lieut. Paul Grawitz of the German army plans to explore the island of New Guinea by means of an airship. The cost of equipping his expedition is estimated at \$750,000, and capitalizes in Germany, England and Belgium. The expedition is to be led by Grawitz, who is an expert pilot, and will be constructed at Matu, on the coast of New Guinea. From that place, as a gas and supply station, flights will be made over the island, and it will be mapped and opportunities for commercial exploitation will be studied from points of vantage in midair.

The island of New Guinea, situated north of Australia, and separated therefrom by the Straits of Torres, contains the largest unexplored area of the globe. Great Britain claims one portion of the island and Holland claims the other portion, but neither nation has done more than settle and develop the rich plains near the coasts.

White Men Their Enemies. In the interior are wild tribes of savage head-hunting Papuans, who have the reputation of eating one another and devouring every white man they can capture. In the interior are mountains, some of which rise to 10,000 feet, and snow-capped. The climate on the New Guinea plains is hot, but in the mountains there are a few cold spots.

A British and Dutch expedition attempted to explore the interior of New Guinea last year. They lost one of their number to the cannibals, and another of the party was killed by poison arrows. They scaled one lofty mountain.

In the high forests they found several specimens of a singular butterfly, hitherto unknown to science. One of the butterflies, about 6 inches long, and partly covered with iridescent scales, was valued for \$5000 on the return of the party.

Race of Pygmies There. A race of pygmies is known to exist in New Guinea, and science is waiting anxiously for the first visit of an expedition to that strange, mysterious land. The sight of a monster balloon in the air is expected to excite the natives, who will leave its impress on their traditions for a century to come.

HELPING PEOPLE TO CHEAP LIVING

U. S. Department of Agriculture Succeeds in Some Novel Ventures.

WASHINGTON, Oct. 19.—The department of agriculture is telling the farmer how to make better crops and get a living price for what he produces, and telling the housewife how to get the most out of the foodstuffs at her disposal. At the same time the department of the interior is trying to put cattle on a thousand hills so that meat will not be so dear. It is trying to educate the average citizen in the purchase of goods and to save unnecessary expenditures.

Dr. P. C. Claxton of the bureau of education, said to The World correspondent: "We are trying to educate the people to live well on the smallest amount possible. I do not believe we have ever had a time in this country when we could get more for a day's work than we do now. Living has never before been so cheap as now, when we measure the cost by the cost of living."

"We are trying to convince the people that education shows a person how to make the most of what he has. We are co-operating with state and city authorities to improve the conditions of town people. We have put into effect a plan to make the back yard productive of food for the household. The idle acres that lie in back yards in industrial centres should be converted into vegetable gardens."

Training Children. "At Richmond, Va. we are trying out a scheme of backyard gardening for white children, and at Alexandria we are operating with state and city reports show that we have made some progress. Several negro children at Alexandria have sold from \$40 to \$50 each from their gardens last year."

The Richmond garden work is supervised by a woman who graduated from Cornell and is an expert gardener. Between thirty and forty children have gardens, and the results promise well for the first year."

Dr. Claxton believes that every cotton mill settlement in the country should turn the backyards into gardens. He is having an investigation conducted with a view to enlarging his experiments next year.

Cato Sells, commissioner of Indian affairs, has an idea to help the Indian and make the Indian help the white man by breeding better horses and better and more cattle and sheep. The grass on the western plains and mountain slopes will be converted into hay and mutton for the east. More than 12,000 head of beef cows have been distributed among the Indians within the past few months.

Indian Lands. Indians control 40,599,145 acres of grazing lands, allotted and used about 20,000,000 for general grazing purposes. The stock grazed on these lands was valued at \$22,285,241. Out of a total of 227,425 Indians, 51,139 are engaged in stock raising. The tribal lands leased for grazing amounted to 3,891,385 acres. Under permits for grazing purposes, 4,246,079 acres are let. Several hundred acres are covered under "grazing permits and leases."

At the close of the last fiscal year the Indians owned 531,122 horses and mules, valued at \$11,971,612; 265,114 head of cattle, valued at \$8,615,019; 1,783,227 sheep and goats, valued at \$2,325,440.

Commissioner Sells would multiply the number of cattle and sheep owned by the Indians and make deposits in banks and saving funds. The amount is \$681.6. Rhode Island is second.

Crushed by Yard Engine

Crushed between the back of an engine and the round-house yesterday morning, John H. Sperry, a locomotive fireman resting on Church street, in Mimico, sustained three fractured ribs and a fractured arm. He was conveyed to the foot of Spadina avenue on a light engine and from there to Grace Hospital in the police ambulance.

Whether there are internal injuries is not yet known at the hospital. With internal injuries, his recovery is doubtful.

CANADIAN HOSPITAL OFFICIALS DISCUSS THEIR MANY PROBLEMS

Prominent Speakers in Toronto for Annual Meeting of Association—Patent Medicines, Hospital Supplies, Health Officers in Rural Districts Among the Subjects to Be Discussed.

Addressing the seventh annual conference of the Canadian Hospital Association at the Toronto General Hospital last night the president, H. A. Boyce, M.D., of Kingston General Hospital said that the association was negotiating its early years with considerable success, and if every member did his part it would continue to grow and flourish. He pointed out that the association was beginning to realize that some change from the regular grind of hospital life was necessary and that much good might result from meetings where hospital superintendents got together to discuss the problems which cropped up in their daily practice. He emphasized the necessity for a keen business attitude regarding financial affairs in hospitals. "If one patient cannot pay \$5 a week," he said, "charge those who can pay, so that there may be a reasonable surplus available to carry on the work of the institution."

Possibly the most important question to be dealt with was the necessity for educating the public in health matters. It seemed to him that medical health officers even in rural districts should be sufficiently paid to be independent of private practice. If their charge was not a large one, he thought they might occupy their time to much good purpose by delivering illustrated lectures on hygiene and acting as medical inspectors in rural districts. The necessity for this was evidenced by the fact that there had been many cases of typhoid fever in Ontario last year as in the whole of Germany.

Curtailed of the sale of patent medicines containing morphine and other dangerous drugs, proper planning of hospitals, and the necessity for publicity concerning hospital affairs, were some of the other important questions dealt with in President Boyce's address.

In conclusion he suggested that hospitals should publish a monthly bulletin or report which would incorporate a guide to health, and that hospitals doing this should be awarded an additional grant by the government.

Dr. Howell's Paper. Dr. Thos. Howell, president of the New York Hospital Association, was invited to deliver an address on "Costs for Inexperienced Superintendents in Purchasing Supplies," but as he could not attend Dr. E. H. Young read the address.

Dr. Howell laid great stress on the importance of economy in the use of supplies as compared with low price purchasing and represented an assumption by the purchaser of greater knowledge than he possessed of the commodity being dealt with, pointing out that the knowledge of the merchant would often be of great service to the buyer. Above all he advocated the purchase of the same grade of supplies for use throughout the hospital, so that every patient might fare equally with the staff or any other patient.

Dr. Howell also referred to the success of the Hospital Supplies Bureau in New York, which had purchased and distributed supplies to hospitals throughout the state.

Patent Medicines. John Ross Robertson, founder of the Hospital for Sick Children, in the discussion which followed, congratulated President Boyce on his opening address, and pointed out that patent medicines had been a problem for the newspapers of Canada, as well as the medical profession. Many of the advertisements submitted for publication were objectionable, and publishers generally were endeavoring to produce clean newspapers, that any child might read with safety. He did not want to throw any bouquets at himself, but it was only fair to state that in the past fifteen months the Evening Telegram had rejected about \$12,000 worth of advertisements of this kind, and he was pleased to say that other newspapers in Toronto were doing the same thing.

Mr. Robertson also visited medical correspondence schools, which undertook to train nurses by mail, and wondered why the members of the medical council were "as dumb as doughnuts" with regard to these institutions.

People go up to my friend Dr. Bruce Smith's office and get a charter for a correspondence school quite easily, but I could tell him of one young woman who came to me the other day who had spent \$75 with one of these schools. She had six weeks' training and didn't know as much about nursing as I did."

In reply to Mr. Robertson's criticism of the medical council, Dr. W. A. Young said that the question had been dealt with by that body, but that action had been deterred in anticipation of a bill which Premier Whitney had in preparation to deal with the matter completely.

Sanitary Conditions. In the unavoidable absence of Dr. Amrot, bacteriologist to the provincial board of health, Mr. MacArthur delivered an address from some notes made by Dr. Amrot, on "Sanitary conditions in hospitals dealing with cases of contact, garbage, etc."

Dr. Portel read an allegory concerning tuberculosis, which kept the uninitiated guessing until a certain turtle made its appearance.

In the discussion which followed, Judge Fisher of Pembroke asked what rural hospitals were doing to deal with tuberculosis, which kept the uninitiated guessing until a certain turtle made its appearance.

Dr. W. J. Dobble of Toronto Free Hospital, in reply, said that the intention of the government was evidently to put the responsibility on local communities to look after their own consumptives.

President Boyce thought that a hospital shack might serve the purpose in cases such as that referred to by Judge Fisher. Among other presenters, Dr. Clark of Toronto General Hospital, Dr. J. N. E. Brown, General Hospital, Detroit; Dr. J. P. Park, superintendent, General Hospital, Montreal, and Dr. E. H. Young, of Rockwood Asylum, Kingston.

Today's Program. The conference will open at 10 o'clock with a paper on "Preliminary Training of the Medical Council," by Miss Davidson, Technical School, Toronto, which will be followed by "Some Problems in Hospital Teaching," Miss Charlotte M. Alken, "Symposium in Hospital Service," conducted by Dr. Helen Macleod, in which Dr. Haywood, Miss Grant, Dr. G. W. Ross, Professor Lloyd, Mr. Burnett and others will take part.

TIME REDUCTION IN HOLIDAY FARES

Brought Union Station Figures Above All Previous Records.

MANY TRAINS DELAYED

And a Goodly Percentage of Passengers Stood All the Way.

The new rule of the railway companies, whereby the half rate applied to the one day only, brought about an overwhelming rush of traffic yesterday that the next holiday will probably see the one-day rate changed back to a half-rate, extending at least from the day before to the day after the holiday.

"When will the train arrive?" was a question which those expecting friends would ask at the station, and the answer in many cases would be that it was from one to two hours late. "What is the matter?" "Has there been a wreck?" and "Do you think there has been an accident?" was asked over and over again. The answer forthcoming was that the delay was due to heavy traffic.

In the outgoing trains the same difficulty was experienced. The unusually large number of travelers, even for a holiday, made it necessary to run trains out in a number of cases in two sections. It was then that the shortage of cars was felt, many passengers being forced to stand thru lack of enough seats.

The fact that last Thanksgiving Day was the occasion of the wreck of the military train in which several men lost their lives and others were injured did not have any effect on the volume of traffic yesterday, which, although heavier than was the case last year, was carried without serious accidents occurring.

Officials at the station estimated that more than a hundred thousand persons passed thru the Toronto Union Station yesterday. This, of course, counts the incoming as well as the outgoing passengers. More than a third of the holiday traffic was that coming into the city. The traffic for Saturday, Sunday and the holiday would reach nearly three hundred thousand passengers carried to and from the city, say officials, and to do this between three and four hundred trains were used.

Probably as never before the heavy business of yesterday demonstrated the inadequacy of the present station building and the great need of a modern station with facilities equal to the task of properly handling a volume of traffic running into the 100,000 mark. At the station gateways both upstairs and downstairs, and especially at the downstairs entrance, the crush was very severe and the remarkable number of it was that no one was hurt in the crowding. The task of the gateman was perhaps the hardest of any to be found at the station yesterday.

BENEFACIONS TO MANY HOSPITALS

Remembered by Hugh Watson, Wallpaper Maker.

MONTREAL, Oct. 20.—(Can. Press.)—Benefactions totalling \$140,000 in which nearly all the Protestant and non-sectarian hospitals and charitable institutions in Montreal will benefit are provided in the will of the late Hugh Watson, founder of the Watson-Foster Wall Paper Mills, co-owner of Maisonneuve, who died on September 20 last.

The beneficiaries are: Presbyterian College of Montreal; home of the fund of the Presbyterian Church of Canada; Queen's College, Kingston; Protestant Mission Fund of the Presbyterian Church of Canada; and Knox Presbyterian College, Toronto, each \$10,000.

JAPANESE BECOME EXPERT SWIMMERS

The Japanese are fond of swimming, and it is the custom for students of the universities and schools to go to the sea during the summer months and there train systematically.

Among the coast population there are found many long distance swimmers. E. J. Harrison, in his book on "The Fighting Spirit of Japan," tells of some remarkable feats performed by these swimmers. For example, they can jump into deep water no higher than the joints while firing a musket, shooting with bow and arrow, writing on a slate, painting a picture on a fan with a brush or some other feat in every direction as the walking on solid ground.

The expert, while he rarely emulates the graceful high dive of the European or American, can leap from a great height and strike the surface of the water with his chest, without sinking or wetting his face and head. In some extraordinary cases he contrives to escape the painful consequences which the impact would inevitably cause to the foreigner who should try the feat. It is said that the old-time samurai frequently made use of this trick when crossing a river or stream. In such cases they carried their armor and weapons on their heads.

In illustration of the antiquity of swimming in Japan, it may interest foreign readers to be told that the famous "crawl" stroke, which Occidental swimmers first acquired not very long ago, has been known and practiced in Japan for hundreds of years. In addition to several other methods of progression in the water that would come as a revelation to Europeans and Americans.

TRIAL MAY END "NAVAL HOLIDAY"

Minister of Justice is Expected to Intervene and Order the Case Suspended.

Special Cable to The World. Copyrighted by The Toronto World and N.Y. World.

LONDON, Oct. 21.—(3.30 a.m.)—The Standard's St. Petersburg correspondent cables: "There is ground for stating that the minister of justice intends to intervene in the Kiev trial, and will order the case suspended. Further hearings will take place only after a strict inquiry has been made into all the circumstances connected with the affair."

The St. Petersburg Gazette publishes a sensational statement to the effect that one of the convicts in the Lodz prison, named Baginski, serving twelve years penal servitude to which he was sentenced at Kiev, declared to fellow-prisoners it was he who murdered the boy Yushinsky with the aid of accomplices, and that they were paid for doing so. The Gazette adds, "This confession should be taken with reserve. An inquiry, however, has been ordered."

GERMANY COLD TO CHURCHILL'S SUGGESTION, WHICH IS DEEMED UNWORTHY OF SERIOUS CONSIDERATION.

BERLIN, Oct. 20.—(Can. Press.)—The proposal by Winston Spencer Churchill, first lord of the British Admiralty, that Great Britain and Germany should declare a "naval holiday" in 1914, was received without sympathy by the German Government which regards it as not calling for a reply. It is generally considered doubtful whether any official notice will be taken of the suggestion, although it is thought Imperial Chancellor Von Bethmann-Hollweg may perhaps refer to the subject later on in the course of the debate in the Imperial Parliament.

The naval authorities here consider the proposition that Germany should not build any warships while England is constructing or acquiring at least three cannot be discussed.

Sale of Semi-ready Suits and Overcoats

Speedy Sale of Suits and Overcoats at Cost of Cloth in Them

We have recited the reason for this sale—an overstock caused by a whole season's delay in getting possession of our store—dilatory builders and broken promises. The Suits and Overcoats were bought, were put in work, and had to be finished. Wasn't advisable to open a new store with a sacrifice, and we waited until now—right in the middle of the season—when you most need them.

- Suits worth \$15 to \$30 for \$10 to \$20
Overcoats worth \$15 to \$35 for \$8 to \$25
Winter Chesterfields worth \$15 to \$30 for \$8 to \$20
Fall Overcoats worth \$15 to \$30 for \$10 to \$20

The Suits we are selling at \$8 and \$10 to \$20 comprise all winter weights in worsteds, serges, tweeds, Irish serges and Bannockburns—the very latest imported suitings—tailored as only Semi-ready can—and you may see the label in the suit. Only a few odd Lonelies at \$3. Look for the label in the pocket.

The Overcoats we are selling at from \$8 to \$20 are in tweeds, friezes, meltons, beavers, fly front and button-through, shaped and draped, in fancy patterns and in the more conservative English overcoatings. The Ulsters are the very finest chinchillas, friezes and tweeds; some with piped seams and some with warm linings.

We will clear out every Raincoat in the store—Motor Coats, Raglans—light and heavy—single and double texture—some gauzy weights that can be tucked into a grip—heavier ones for motoring or driving—the \$10 ones are \$7, the \$12 ones are \$9, and the \$18 ones you can have for \$13.50—that is, \$7 to \$13.50 takes the lot. The wardrobes are open—the price labels are plain—and if you don't like anything when you get it home, bring it back and get your money.

NEW YORK'S BOWERY

ONE TIME A FARM. Old Peter Stuyvesant Purchased it for His Country Seat.

It was Peter Stuyvesant who bought Bowery, once called the "Great Bowery," in New York, for a country seat, and the lane which connected his farm with the city and Harlem was called Bowery lane, or Bowrie road, and later Bowery, which The New York Sun remarks is a corruption of Bowrie, and is Dutch for farm.

Around his house a little hamlet called Bowery Village grew up. According to Frank Benign Kelly's "Historical Guide to the City of New York," the old Bowery village ground was in the tract bounded by Eleventh and Twelfth streets, and First and second avenues. The Bowery lane was a narrow lane one of the city's most important thoroughfares, running northward up what is now Fourth avenue to Madison square.

While "grawery" was not at one time a common expression, it is said to have originated in the park's name, which Kelly's book previously mentioned as having been derived from the Dutch, "krom mersche," or "krom mersche," which means "crooked swamp."

Cedar Creek flowed from Madison square and crossed the Bowery lane at Eighteenth street, making probably a "crooked swamp." The land now called Gramercy Park consists of forty acres of Gramercy seat, the twenty-acre farm of James Duane, who was mayor of New York from 1812 to 1815.

RAT LIKED CARNATIONS.

SACRAMENTO, Cal.—The vegetable rat of Gov. Johnson's office is dead. The rodent that for weeks crept into the office of Gov. Johnson to nibble a carnation bouquet on the governor's table, passing a trap baited with cheese, was found in a trap on the governor's table, which was baited with the rat's favorite flower.

"DRINK HABIT"

Dr. Richardson, Leading Alcohol Expert of the World Says, Can Be Cured in Three Days.

Dr. Richardson, in his Treatise on the Liqueur Habit, says: "While the older methods for the Liqueur Habit took one to three months or more, and were not satisfactory, this is a scientific treatment, which accomplishes this result in just Three Days. This is harmless, as even a child can take it, and there is not even one case on record where it has failed to cure. They have 67 institutes and have effected over 100,000 cures."

Not only is the poisonous alcohol taken from the system, and an abstinence given for all strong drink, but health and strength are soon restored, nerves steadied, sleep and appetite regained, and a man becomes master of himself. Write, call or telephone today for Booklet and full particulars. The Gatlin Institute Co., Ltd., 428 Jarvis St., Toronto, Ont. The Drug Habit also cured at the Gatlin Institute.

LIGHTING AT THE PANAMA EXPOSITION

System of Illumination Will Demonstrate Most Modern Indirect Methods. In Third Decade of Seventeenth Century Country Was So Governed.

It is promised that the system of illumination at the Panama-Pacific International Exposition in 1915 will demonstrate the most modern indirect methods. The exterior of the buildings will be illuminated by thousands of luminous standards, like huge lamp-posts, in front of the buildings. On top of each standard, fifty-five feet above the ground, are clusters of electric arcs which will send out light to illuminate the buildings. The conversion of the king made the Lama's even fiercer. He had been before, and the priests at once set out to subvert his power. As a result of the Lama's intrigue, the king was invited to Taparung and the king was captured there by the king's subjects and forced to capitulate after a few months' imprisonment. He was carried off as a prisoner, and was never heard of again.

The King of Ladakh was personally hostile to the Christian mission, which he had seen, but without the aid of the power of the mission was gone, and the converts fell away. By 1642 none of them was left.

TREASURER HOUSE OF ABDUL HAMID

Only Specially Favored People Obtain Permission to Inspect It. One of the Profitable Ways of Utilizing Wood Waste.

"Sachulose" is the name given to a product obtained by August Zinnermann by digesting sawdust with weak sulphuric acid under a pressure of 90 to 100 pounds. It contains five per cent. of sugar, eighteen per cent. of carbohydryl, and with it were yielded such volatile products as furfural, formaldehyde and acetic acid.

The results have been very satisfactory. The product is a suitable fermentable material for spirit making. Experiments begun in quest of a method of making industrial alcohol were turned in another direction by the discovery of the saccharose in the spirit industry. The product from the sawdust has been mixed with molasses, and the coffee-colored "sachulose" has been given extensive tests as an animal food for four years. The results have been very satisfactory.

O. F. A. ADOPTS A NEW CONSTITUTION

Annual Meeting Was Held Yesterday—Thos. Guthrie Elected President.

The annual meeting of the Ontario Football Association was held yesterday at the Walker House and a large representation of the different associations affiliated was on hand. President E. B. Little, of Brown's Corners, was in the chair, and the following officers were also present: Vice-President H. W. Brown, Berlin; Thomas Brownlie, Toronto, representative to the A. A. U. of G. T. Guthrie, H. S. Collins, P. Pinnemore and H. Scott, T. and D. Jas. Colquhoun, Hamilton; J. S. and C. J. W. Lockie, Toronto, and Secretary W. J. Cunningham.

It was decided to change the constitution of the association and the laws of the game. A very lengthy session was held on the latter subject, and the matter was brought to a close by the adoption of a new constitution which will be in force from the 1st of November, 1913. The Ontario football will be run on a new basis, and the winners of the division will meet in a tournament and the winner will be declared champion of the province.

OTTAWA COMBINES BEAT AMERICANS

Outclass University Team From Canton, Rolling Up Big Score.

OTTAWA, Oct. 20.—In an exhibition of football under Canadian and American rules this afternoon, the Ottawa football team defeated that of St. Lawrence University by the score of 26 to 12. Heavy rains and a soggy field left the conditions very bad, with the result that there was little brilliant football on either side. The Ottawa was completely outclassed the United States players in kicking and tackling, and the Canton boys showed little that appeared to the spectators as their passing and line plunging was good. They worked the forward pass for big gains and the locals were unable to break up their wedged interference play until the latter part of the contest. The Ottawa team scored 18 against 3 under the American rules, but in the last two quarters with Canadian football in force, the local boys scored 23 to 0. Kill-kill was the only point scored by the American players, only points under the Ottawa rules. The Ottawa team was composed mostly of substitutes. At the beginning of play the Ottawa interference left the Ottawa bewildered, and the St. Lawrence players marched twice from centre and across Ottawa's line for a try. Frank Shaugnessy, Tom Lancy and Jack Reid, the St. Lawrence coach, officiated, and play was very clean, no penalties being handed out. Line-up: Ottawa (26)—Full back, Johnson; right half, McGowan; left half, Boucher; quarter back, Killian; centre, Emerson; right guard, Kuhn; left guard, O'Leary; right tackle, Fleming; left tackle, Disney; right end, Church; left end, Ryan.

KEY CINCH THEIR O. R. F. U. DISTRICT

Kew Beach clinched the honors in their Junior O.R.F.U. district.

Kew Beach clinched the honors in their Junior O.R.F.U. district, having defeated Dons on Saturday 28 to 3 and trimmed Balmly Beach on Monday 6 to 1. The game Saturday was a corker, Kew Beach scoring a touch with less than a minute to go to full time, which tied up the game, 8-8. The teams played 10 minutes each to the regular program, the scoring periods the Dons weakened, Kew scoring three touches. The game was very clean. The Dons deserve great credit for the game battle they put up. Key cinch of Balmly in a hard-fought contest Monday morning 6 to 1. VARITY ATHLETES SHOULD CLEAN UP

Blue and White Look to Have It All Their Own Way at Intercollegiate Games.

The principal difficulty which Varsity men will experience will be in defeating each other at the intercollegiate athletic meet, which comes off at Kingston next Thursday. In almost every department the Blue and White are so closely matched that it would be difficult to pick a winner. The points should go to the men who get the best of luck, as less than six inches separated Burns and Brown in the intercollegiate 100-yard race. The 200 yard dash should be equally close, and Brown declares that in this event he will have no difficulty in picking a winner. The 400 yard race should be won in the quarter mile Seymour and Burns as he is so much better than the other two men who will take part in the race. Campbell and Bricker, of course, are the only two men who will be in the 800 yard race, but the American jump, Richard of St. Lawrence, is a high jumper, and he is sure to clear 5 feet 10 inches. The officials of the Varsity track team have no doubt that the Toronto boys will have no difficulty in landings on top.

TRESSIDER WINS ROYAL'S RACE

DUFFY FIRST AT HAMILTON

HAMILTON, Tuesday, Oct. 21.—The Hamilton Tigers very near met a defeat at the hands of the fast Toronto Rugby A. A. O.R.F.U. team here this afternoon in an exhibition game played before about fifteen hundred people at the H.A. A.A. grounds. The final score stood 14 to 9 in the "Tigers" favor, but about four minutes before the closing whistle blew it looked as if the Toronto team were going to go home victors, as they had the big end of a 4-10-8 score. McKelvey, who is always on the job, assisted by Bob Imlister, saved the day for the yellow and black and turned what looked like a certain victory in about 30 seconds. The Tigers were in possession of the ball at their own 30-yard line. McKelvey kicked an on-side kick, McKelvey securing on Tigers 30-yard line. He started running, evaded several tacklers and reached the T. R. & A. A. before he was brought to earth by Heffernan, who stole the ball. On the first scrimmage Hal DeGruchy was given the ball to kick an on-side, but Imlister was right on him and blocked the kick. The ball rolled just over the line, and Imlister fell on it for a try, which he converted, making the final points in the game. Both teams found the going very hard, owing to the muddy condition of the field after the rain. Neither team got in the work they are capable of doing, and many fumbles occurred because of the slippery condition of the field, which caused the players to lose their footing.

Paddlers Swamped Oarsmen—Enders Were Not Given a Smith a Star.

Parade broke into the rain at the stadium yesterday afternoon at Varsity Stadium. Hamilton Rowing Club by the score of 24 to 8. It was an easy victory for the paddlers after the first quarter, and the score gives some idea of the difference between the two teams. Parade lined up a couple of oarsmen at centre half and a couple of oarsmen on the line. Hamilton, however, had a man who could row credit for his position. Parade were far superior to Hamilton in their handling of the boat. Hamilton's oarsmen were swamped by the paddlers. Hamilton's oarsmen were swamped by the paddlers. MILWAUKEE, Wis., Oct. 20.—(Can. Press.)—An unknown woman was found in an alley in Milwaukee last night, strangled with a scarf she had worn and her head crushed. A man seen with her, however, escaped. Later he was rendered to the police, and said his name was George Schultz, and described his crime. He said he met the woman, who he did not know, a block from where her body was found, and when she refused to speak to him he accosted her, tore the scarf from her head, wrapped it around her neck, drew it tight, and she was quiet before he could call for help. To make certain he beat her head with a brick.

ST. LOUIS WORLD'S CENTRE FOR SEAL

Alaska Catch for First Time to Be Disposed of There.

MAKING OF AN EPOCH Means Transference of an Industry From England to United States.

A history-making epoch takes place in St. Louis on Dec. 16, when for the first time the Alaska seal catch will be disposed of thru an American house instead of thru London, England, as formerly.

Not only does the following of the trap line well repay the boy for the time and energy expended, but it leads him to enjoy the beautiful life in the open, and to become a lover of nature.

On the date mentioned, Dec. 16, buyers from the world's leading fur establishments will bid on the 1913 catch at the Funtun Fur Exchange, where the sale will be conducted by Philip B. Funtun and A. M. Ahern.

This year's catch consists of the thousands of raw skins taken under the present law which has been in effect since 1908.

Contrary to the popular impression, it is not necessary to go into the wilds in order to trap, as many think.

As a rule, the mink have a natural aversion to crossing traveled roads and prefer to pass under a bridge or culvert.

Good traps in good working condition are very essential for a successful mink trapping, as it is usually the best mink that escapes from a defective trap.

Don't take a crowd with you when looking over the ground, to make your sets; you need only a few traps and your trap line.

Many interesting books, free for the asking, are published by the United States Government on seal and sealers, but perhaps none of them outweighs in interest the value of this award for the first time in history to an American house.

EUROPE MAY TAKE HAND IN MEXICO

Mexican Statesmen Are Said to Be on Important Diplomatic Mission.

PARIS, Oct. 20. (Can. Press.)—The Figaro, according to an article published this morning, has received information that a group of Mexican statesmen, whose names are not disclosed, have approached the French and British Governments, calling attention to the resulting advantages to the United States if not the sole power directly interested in Mexican affairs.

RAW FURS VALUE TO FARMER'S BOY

Hundred Thousand Paid Yearly in Canada for This Product.

POINTS FOR TRAPPERS Preliminary Work for Successful Season Should Be Done Now.

Over one hundred thousand (\$100,000,000) dollars is paid to the farmer boys of Canada each year for raw furs.

Contrary to the popular impression, it is not necessary to go into the wilds in order to trap, as many think.

As a rule, the mink have a natural aversion to crossing traveled roads and prefer to pass under a bridge or culvert.

HUERTA'S ACTION WAS PRECIPITATED

Plot to Sell Presidential Election to the Highest Bidder.

VARIOUS INTERESTS Arrest of Deputies Caused to Prevent Their Blocking Game.

(Special to The Toronto World.) NEW YORK, Oct. 20.—It is stated that the precipitated disclosure of a plot to sell the presidential election to the highest bidder among the foreign financial interests precipitated Huerta's action and caused the arrest of the deputies to prevent them from blocking his game.

According to the story told the agents of the constitutionalists here, he led Huerta along with argument and covert suggestions until Huerta made him a direct proposition that he would consider a bid of \$2,500,000.

It is stated here that this move is being blocked by Francisco Villa, better known as Pancho Sangre, or Bloody Pencho, who now holds Torreon and refuses to recognize either Carranza or Huerta.

TRAIN DYNAMITED SOLDIERS KILLED

Forty Six Mexican Federals Lose Lives on Way to Torreon.

MEXICO CITY, Oct. 20.—(Can. Press.)—Forty-six Federals have been killed by the dynamiting of a troop train a short distance north of Saltillo, according to information from a reliable source.

One man last week a horse and rig belonging to John Mullin, of Cornwall Centre, clerk of the Township of Cornwall, was taken from the shed in rear of St. John's church.

HEAVIER TONE IN NEW YORK STOCKS

Bears Finding Market Vulnerable, Ceased to Cover and Sold Instead.

RAILS WERE WEAKEST

Rumor of Big Bond Issue by Pennsylvania Road a Disturbing Factor.

NEW YORK, Oct. 20.—Hope that the rise in stocks late last week was a prelude to a sustained upward movement was extinguished today in short order.

For a time after the opening, it is true, the price held slightly. This was largely because of buying by London, which took about 10,000 shares on balance.

The market turned and early advances were now followed by losses. The list was not under Saturday's record, most of the day, when it rallied, reduced losses, and in some cases cancelled them.

A Scurry for Warmer Wear

The balmy fall days take away the lesson of the chilly nights. You put off the buying of the final supplies for cold weather as long as you can. But now the campaign is really on and we answer the rush with such marvelous items as these. Come early. The morning is the best time, and 8.30 is the best hour to begin.

A Millinery Clear-up

Every section is interested in making a clean sweep tomorrow. If you need a shape or a trimmed hat, flowers, fancy, feather or ostrich mounts, buckles or ornaments, you will find this a great opportunity, for the prices on many of these lines will be less than half the regular marked prices.

The Annual Mid-Season Sale of Carpets and Rugs

Great preparations have been made to make this a record-breaking event, both from the point of values given to buyers and a tremendous output. We have been fortunate in securing some wonderful values from some of our biggest manufacturers, who have contributed a splendid lot of goods at attractive prices for big cash purchases. Do not fail to take advantage of these prices, which can only last for three days. There is a generous assortment of makes, designs and colors. Many rugs included in this big clearing sale are nearly half-price and many dollars can be saved purchasing now.

Note these very low prices for good Brussels Squares—Oriental, conventional and floral chintz designs, in greens, tans, reds and blues:
6.9 x 9.0. Special sale7.95
6.9 x 10.6. Special sale8.95
9.0 x 9.0. Special sale9.95
9.0 x 10.6. Special sale10.95
9.0 x 12.0. Special sale12.95

Imported and Domestic Axminster, Wilton and Saxony Rugs at less than cost price. Many of those included in this lot could not be manufactured at the price we are offering them for sale now. There are a number of different styles, some Oriental or two-tone effects, as well as floral chintz for parlors and bedrooms. Values are quite unique. In some cases there is only one of a kind and the early buyers will undoubtedly get the best selection.

These six Rugs quoted here will serve to illustrate the exceptional values that are being offered. There are dozens of others to select from, in some of the most useful sizes:

9.0 x 9.0 Seamless English Axminster. Special sale13.95
9.0 x 9.0 Hard-wearing Wilton Quality. Special sale19.50
9.0 x 10.6 English Wilton. Special sale23.75

9.0 x 12.0 Closely Woven Imported Wilton. Special sale28.75
9.0 x 12.0 Heavy, Hard-wearing Saxony. Special sale35.00

Buy your English Tapestry Rugs at these very low prices. In order to offer such values as these we had to take a large surplus stock from one of our manufacturers, who had no room to store a large stock and was tempted by a cash offer for immediate clearance:
9.0 x 9.0. Special sale4.95
9.0 x 10.6. Special sale5.95
9.0 x 12.0. Special sale6.95

Here is another lot of extra fine quality and larger sizes in English Tapestry Squares, bought under the same favorable conditions, and turning over at a small margin of profit for this special sale:
10.6 x 12.6. Special sale10.95
10.6 x 13.6. Special sale12.95
12.0 x 12.0. Special sale12.95
