AT THE THEATRES

At the Royal Alexandra

Miss Marie Dressler is undoubtedly that somewhat rare combination, a humorist who is also a woman. There are plenty of witty women, plenty of women who can impart a flavor of humor into their interpretations, but how few there are who have the vein of humor which is the real thing.

At the Star

"Cherry Blossoms." The show at the Star this week, "The Cherry Blossoms," opens with a burlesque called "Any Little Girl," which was really good.

At the Gayety

"Troadero Burlesques." They were highly pleased audiences that saw the show at the Gayety Theatre yesterday afternoon and evening.

AT THE GRAND

"In Old Kentucky." The real southern play, returned to the Grand this evening last night at the opening performance. There is a wonderful vitality in this classic melodrama.

At Shea's

Music and Drama. Slightly reminiscent of the work of Dave Warfield in the Music Master is that of Mr. Harry First in the Street Link.

PIESTS REPUDIATE ALL MODERNIST VIEWS

Faith of Church Not Repugnant to History—Inspiration of Scripture.

Every priest in the Roman Catholic Diocese of Toronto (Montreal and Ottawa) has repudiated modernism as proclaimed by Pope Pius X., and his recent encyclical on the subject. The most important declarations are: In part, the old faith is an early acceptation of the faith in its entirety as it has been transmitted to our times by orthodox preachers, and, moreover, I entirely reject the heretical dictum of the evolution of dogmas now taught by those who transfer the meaning of these dogmas from one sense to another, dating entirely from that which has previously been the church.

AN AWAKENING OF THE BRITISH DEMOCRACY

Mr. J. R. Bone at the Canadian Club on the Significance of the British Elections. "Was it futile?" asked J. R. Bone, in summing up his impressions of the significance of the recent British elections at the Canadian Club luncheon yesterday afternoon. It might have been said, in the sense that Asquith had not been able to substantially increase his majority and rid himself of the dominance of the Irish party, which Mr. Bone thought was the real reason why Mr. Asquith forced on the campaign at the time he did.

PORCUPINE RESOUNDS WITH REAL ACTIVITY

Healthy Undercurrent of Business Permeates Gold Camp—New Discoveries Being Made. PORCUPINE CITY, Jan. 12.—(From the Man on the Spot.)—The Quill City of the north and the most talked-of gold mining camp in the world today resounds with the ring of the hammer, the buzz of the saw, and the swing of the ax, as men in the dead of winter with the temperature ranging from 10 below zero on a mild day to 40 below on cold nights, hew out of primitive conditions buildings to three-story structures. It is a sign of confidence in the future of a new country to lead men into expeditions of this character during times of deep frost, but these are the hardy pioneers who have built before in mining camps, to later see prices flop overnight to enormous heights, and they are merely getting in before the spring rush.

WORKING IN THE WOODS

The great bulk of those who are employed at prospecting work in the woods, the entire country is a dense forest of tamarack, cedar and birch. To pass down the numerous roads that have been hewn out in a short space of time, one would hardly believe that gold lay under the feet, and yet some of the very best and best mines lie right in the heart of the dense timber tracts.

FEELING OF CONFIDENCE

All round there is a general air of confidence in the camp, and there is every reason to believe that the preparations being made by the big companies, and joined in to a lesser degree by the smaller operators, for the next year in Porcupine is to be a banner year for the district. The only drawback here now is that many are waiting for the coming of the railway before they slip in their goods. They believe that should the railway be in operation sometime early next summer they would be able to accomplish a good fall's work at much less expense.

MORE CAPITAL REQUIRED

More capital is the cry, the much-needed magic that every new district lacks in its early life, but with constant development that turns out real riches, the business man figures, the capital will come.

JUDGE JOHNSTON DEAD

SALT STE. MARIE, Ont., Jan. 16.—Judge John Johnston, senior judge of the district of Algoma, died here today, aged 62. He was born in Goderich, studied in the law office of the late Judge Snider of Hamilton and practised in Goderich for 20 years with John Davidson, Q.C. In 1880 he was made junior judge for Algoma. Previously he served in Goderich as alderman, reeve, and warden of Huron, and unsuccessfully contested the riding of Huron for the provincial house in 1882.

PORCUPINE EAST DOME

New Gold Mining Flotation—Forty Veins on the Property. PORCUPINE CITY, Jan. 14.—(From the Man on the Spot.)—For the second time since Dec. 17, the claim known as the Preston, lying south of the Dome, has been sold, and now a company known as the Preston East Dome Mining Company hold the lot. The price named is a quarter of a million. Engineer A. F. Stewart, interested in the local telephone company, and the man who purchased the Walker-Hennessey-Carson properties, near the Scottish-Ontario, sampled the vein yesterday. His report, of course, will go to the parties interested, but it is known that he made some startling finds and took out some very handsome average samples.

DYSPEPSIA Can Be Cured.

This disease is the all prevailing malady of civilized life, and one which it gives rise to a great variety of distressing symptoms, such as distress after eating, rising and souring of food, wind in the stomach, heartburn, etc.

NEW DISCOVERIES

Not a day passes but one hears of new finds. Of the big mines working in the Scottish-Ontario, a closed operation, can into a vein this year to the 100-foot level which is 1 1/2 to 2 feet thick.

TORONTO HORSEMEN BUY COUPLE OF FAST PACERS

John Mead Scores Harry Hill While R. Scott Gets Billy Simms.

There have been a number of sales reported the last two weeks. John Mead bought Harry Hill, the chestnut pacer (2:52), by Candidate (2:28), sire of a number of fast pacers, including Darkey (2:19), Harry Hill's dam was out of a mare by Diplomat, and he looks as if he will make a good horse this summer. He got his mark at Niagara Falls last fall, winning the third heat in 2:16. Mr. Mead will no doubt get him in shape at the matinee, and possibly campaign him this coming summer.

Richard Scott, the popular west end butcher, also bought a good pacer in Billy Simms. This fellow showed a world of speed at the recent lee meeting in Toronto, but did not seem to be up to a hard, bruising race. Mr. Scott has owned a number of good matinee horses—Nettle Star, Master Roy, Easter Sunday and several others.

OAKHURST AT 100-1 WINS FIFTH AT JACKSONVILLE

Grover Hughes, Also Long Shot, Takes Third—Descomnets Lands Feature—Entries.

JACKSONVILLE, Fla., Jan. 16.—Oakhurst, at 100 to 1, furnished the sensation of the afternoon at Monfort by winning the fifth race. Another surprise was sprung when Grover Hughes at 15 to 1 captured the third race. Descomnets won the feature, a selling handicap at one mile, defeating Glucose, the odds-on favorite, in a drive at the finish by a length.

FIRST RACE, maiden 2-year-olds, 6 furlongs:
1. Billy Vandever, 112 (McCahery), 7 to 5, 1 to 2 and 1 to 5.
2. Emma Stewart, 107 (Goose), 12 to 1, 6 to 1 and 1 to 2.
3. Vansee, 109 (Burns), 7 to 2, 6 to 5 and 4 to 1.

SECOND RACE, selling, 400, 4-year-olds and up, 5 1/2 furlongs:
1. Plauticus, 130 (Sweeney), 5 to 1, 1 to 2 and 1 to 4.
2. Dandy Five, 111 (Connelly), 12 to 1, 5 to 1 and 2 to 1.
3. Ima, 108 (Burns), 7 to 2, 6 to 5 and 3 to 5.

THIRD RACE, 800, 2-year-olds, 6 furlongs:
1. Grover Hughes, 100 (Goose), 10 to 1, 4 to 1 and 2 to 1.
2. Labore, 116 (Lorns), 5 to 5, 7 to 10 and 1 to 3.
3. Antenor, 107 (Hothe), 5 to 1, 6 to 5 and 7 to 10.

FOURTH RACE, selling, handicap, 400, 3-year-olds and up, 1 mile:
1. Descomnets, 108 (McTaggart), 8 to 1, 5 to 1 and 1 to 2.
2. Glucose, 109 (Loftus), 3 to 1, 5 to 1 and 4 to 1.

FIFTH RACE, selling, 400, 4-year-olds and up, 5 furlongs:
1. Oakhurst, 99 (Byrne), 100 to 1, 40 to 1 and 15 to 1.
2. Pulford, 101 (Loftus), even, 1 to 2 and 1 to 1.

SIXTH RACE, selling, 400, 4-year-olds and up, 1 1/8 miles:
1. J. T. Hutton's good trotting mare, Margot Leonard (2:30), by Oro Wilkes, dam Mary Leonard, is at Montreal. She races there on Thursday, 19th inst. in the 2:19 trot. This mare won the 2:23 and 2:29 trots at the recent lee meeting in Toronto, winning both of them in straight heats. Charlie Dennis has her in hand, and the many friends of both the owner and driver will be pleased to hear of her winning. Aid. Sam McBride and R. J. McBride have shipped to Montreal, the former sending Lady Grant, a grand trotter, and the latter Nettie Ethon, a very fast pacer. They will likely ship from there to Ottawa, where the big meeting opens on Feb. 2.

Dufferin D.C. Officers Re-elected By Acclamation

The annual meeting of the Dufferin Driving Club was held at Burns & Shepherd's Repository last night. There was a fair attendance, and everything passed off very quietly. The secretary presented the financial statement, showing the club to be in a good, flourishing condition. The election of officers was proceeded with, when C. Woods was again elected president by acclamation; first vice-president, Geo. Bedingfield, acclamation; secretary, W. A. McCullough, acclamation; executive, J. T. Hutton, R. J. Patterson, John Marshall, John Kenyon, John Mead, B. R. Lee, Roy Robinson.

Many Good Horses Sold at Maher's Big Sales Stables

A large crowd attended the horse sales at Maher's yesterday and a good number of horses were sold. A. R. Speers of Sault Ste. Marie bought 22 horses and completed his shipment for Winnipeg. He paid \$400 for a pair of roans and \$200 for a handsome roan mare; the balance of his horses averaged well up in price, but he certainly had his eye out for good ones. George Chase of Waterdown bought three nice ones and George Tarr of Harrison, Ont., bought seven nice working geldings at a fair price. W. J. Harkness is getting a load ready for the west and picked up several good ones around \$50. The Dominion Stevedores and Packers Company bought three good workers for \$67, and showed good judgment in their selection. City Dairy bought one nice heavy high going mare at \$155. Dr. Henry of Dutton bought several good workers and the sale in general was right pleasing to Proprietor Maher and his auctioneers, as a good percentage of the horses put up were disposed of. The next sale at Maher's will be on Thursday, Jan. 19.

RAILLESS STREET CAR SYSTEM.

In considering the method to be preferred for providing a transportation service outside the area within which the Street Railway Company operates, the city council should keep before them the matter of trackless cars. No less than 15 bills authorizing the use of these cars have been deposited for promotion in the approaching session of the new British Parliament. Eight of them have been lodged by private companies or proposed private companies, while for the remainder either municipal or district councils are responsible. In noticing the applications the official circular of the Urban District Councils Association for last month makes some interesting comments on the British movement in this direction. It notes that in both Bradford and Leeds it is expected that the vehicles will be running early in March, although the Leeds Act only received the royal assent on Nov. 28 last, nearly three months later than in the case of Bradford. Contracts for the construction of the cars have already been let by each corporation for delivery in part on March 1, and of the remainder by the end of the month.

The prospectus of a private company understood to be interested in the promotion of several of the bills coming before parliament, estimates that the cost of installation is from one-fourth to one-third of the average cost of the regular street, railway per mile of route. It is also claimed that the railless car, not being confined to a fixed and undeviating path, is able to accommodate itself to the exigencies of the traffic and to pass obstructions with the same facility as any other type of mechanically propelled road vehicle. As regards rapidity of construction, it is also claimed that the delay and inconvenience caused by the laying and renewing of rails is entirely avoided and that the capital embarked in the enterprise becomes remunerative at a much earlier date. Further, the cost of operation it is estimated will not exceed those of the ordinary street car. Comparing railless cars, drawing overhead power, with other mechanically-operated vehicles, where motive power is derived from internal combustion engines, steam engines or accumulators, it is claimed that the railless cars afford a more economical method of dealing with light traffic than any type of vehicle with self-contained motive power except in cases where the service is too infrequent to warrant the expense of overhead wires. The city council should advise themselves concerning all the various alternatives to the regular street car system and their adaptability to the position in Toronto.

NEW ZEALAND'S EDUCATIONAL SYSTEM.

To the current number of The Chicago Public, Mr. George Foulds, M.P., who has been for many years minister of education in the government of New Zealand, contributes a special article on the educational system of that dominion. He broadly states that the policy of the government as regards education is to provide that no child shall grow up without some education, and that every facility shall be given to every person to receive free education according to his or her ability. Regular attendance is enforced and homes and education are provided for neglected, defective or uncontrollable children. Unless regularly receiving instruction in a private school or in some other satisfactory way, all normal children are compelled to attend a public school from the age of seven until the fifth standard has been passed or attainment of the age of fourteen. Institutions have also been provided for the blind, deaf-mutes and the mentally defective. Children under care of the state are carefully classified and if over school age, are trained in some occupation or trade, or sent to the Boys' Training Farm, where they are taught farming and kept under supervision and control.

Free education beyond the compulsory course in the primary course is also available to every boy or girl who obtains a certificate in Standard VI. The choice is offered of a free place in a high school, district high school, technical school, or evening technical school, where by constant effort and good conduct the scholar may in general receive instruction for four or five years. From the high school entrance can be gained to the learned professions or a university college or to further manual or technical instruction, while girls may be trained in domestic science. Secondary instruction is also given in district high schools, but the main object is to keep them closely associated with local occupations. In addition to these free places there are two chief classes of scholarships, each entitling the holders to free places to a money allowance and if they have to live away from home

to a larger boarding allowance. Other scholarships directly or indirectly provided by the state enable students to graduate in art, science, medicine, mining, engineering, etc., and there are other traveling scholarships. Four free training colleges have also been established with money allowances. The state railways carry pupils free and altogether New Zealand seems to have organized an educational system well adapted to the needs of that progressive community.

BRITISH PARLIAMENTARY OUTLOOK.

British politics continue to afford a better field for rumor than for even an approximately accurate forecast of the developments that will follow the opening of King George's first parliament early next month. Pending its assembly, the outside observer is being supplied with plentifully varied and inconsistent cable and other items, none of which contain any internal evidence to their reliability. Inaction on the government side is not surprising since its course had been set before the electors and the result has necessitated no alteration. Whether the addition of two to its previous majority satisfied Liberal expectations or not, is only an academic question now, the Mr. Asquith would have been more than human had he not sighed in his secret soul for the independence an absolute majority of Liberal or even Liberal and Labor complexion would have ensured. But on the main line of ministerial policy his party and its allies are agreed, whatever difference of view with regard to the details of his measures may ultimately emerge. The veto bill must take precedence, it will pass the house of commons to invite the same old question—what will the peers do with it?

On the Unionist side the first aftermath of the election was open revolt by the extreme tariff reformers against the leadership of Mr. A. J. Balfour. The expediency of his supervision was openly canvassed and some even went the length of declaring publicly that a leader who thrice led his followers to defeat, thereby became impossible. Silent at first, probably in the belief that the unrest would resolve itself, Mr. Balfour had at last to assert his position, and the storm subsided with startling suddenness. But it is plain that a considerable amount of discontent exists in the Unionist ranks and a strong group are clamoring either for rejection of the veto bill or for its alteration into a reform measure reconstituting the house of lords on the lines laid down by Lord Lansdowne. If either alternative be adopted, the King will at once be brought into the melee and will be faced with the question of compelling acceptance by the creation of new peers. There is talk of another conference, of compromise, of the right of the house of lords to refuse admission, of another general election before a final or temporary settlement is reached. Probably not even those on whom the issue depends could say to-day what this year will bring to pass in British politics.

KEEP YOUR RECORD CLEAN.

In the stress of modern competition, in the striving for material success in the ruthless rush after selfish ambitions, the line between right and wrong is blurred.

Can some things pertaining to the immediate life of this city be viewed calmly without some moralizing forcing itself on the observer?

Without hypocrisy, without desiring to press the burden on the penitent, The World considers the present an opportune time for searchings of the soul of things on the part of all citizens. The rising generation must be schooled to-day.

One point is made by David Smith of Londonderry, who says in The British Weekly:

"Wringing always bears a harvest of incalculable sorrow. More and more, as life goes on, one realizes that its supreme felicity lies in keeping one's record clean, with no dark blot, no passages which haunt one's memory and bring the blush to one's cheek."

INVALIDITY INSURANCE.

NEW YORK, Jan. 16.—A special cable to The Tribune today says it is doubtful whether the British nation has yet recognized the vast importance of the government's scheme of invalidity insurance. Before many weeks are over it is likely, says The Daily News, to be the chief subject of criticism and discussion throughout the country.

Invalidity insurance is an extension of old age pensions. Five shillings a week will still be granted to a non-contributory basis to qualified persons over the age of 70, and there will be no overlapping contributions to invalidity insurance, which will begin at an age not lower than 16 and not higher than 18.

TO PROTECT BRITISH INTERESTS.

KINGSTON, Jamaica, Jan. 16.—The British protected cruiser Brilliant sailed this morning from this port on hurry orders for Honduras. The Brilliant only recently returned here from Honduran waters, but the latest reports regarding the seriousness of the revolt made the presence of a British warship necessary for the protection of British interests in that republic.

Prominent Labor Man Dead.

GALT, Jan. 16.—John Wilson dropped dead at two minutes to seven, this morning in the moulding shop of the Galt & McCullough Co.'s south works. He was prominent in the moulders' union here, holding the office of treasurer at the time of his death, and was president for several years.

SECURED \$2,500,000 FOR WINNIPEG EXPOSITION

Deputation Will Now Claim Promise of Sir Wilfrid for a Like Amount.

MONTREAL, Jan. 16.—(Special.)—Douglas Cameron, chairman of the provisional exhibition board at Winnipeg, stated at the Windsor-to-day that, having secured guarantees for the amount of money suggested by Sir Wilfrid Laurier when the deputation waited on the premier some time ago, they will return to Ottawa next month and report progress. It will be remembered that Sir Wilfrid had asked for \$2,500,000 from the federal government, told the promoters of the great Winnipeg Exposition that they should do more for the project themselves, and if this were done they might come back to Ottawa with a good deal of confidence.

Since that interview the City of Winnipeg has guaranteed \$1,000,000, the Province of Manitoba \$500,000, and the three transcontinental railways \$1,250,000, making in all \$2,500,000, or the amount required from the Dominion Government in the cause.

Mr. Cameron says that apart from the five millions the provinces are expected to do quite handsomely. Premier McCreich has promised to spend \$150,000 to \$200,000, and no doubt Ontario will do the same, while the Maritime Provinces, with their great mining resources, will not be far behind.

Speaking of Quebec, "the manufacturing province par excellence of the confederation," Mr. Cameron said he believed that this province would take full advantage of the opportunity of bringing industrial Canada into close touch with the agricultural west, and that the coming fair would provide a great object lesson for all concerned.

Mr. Cameron added that people must not suppose that every one in the west shares the opinions expressed by the grain growers, who recently visited Ottawa. "The best men of Western Canada," he said, do not share the views expressed in the house of commons chamber a few weeks since.

HENRY BEST DEAD

Ex-Mayor of Peterboro Succumbs to Attack of Paralysis.

PETERBORO, Jan. 16.—(Special.)—Henry Best, an ex-mayor of this city, died this afternoon, following an attack of paralysis some months ago. He was born here 75 years ago, and for many years conducted a general hardware business. He served on the council, and was chief magistrate of the city in 1905-6.

G. W. Fitzgerald, a prominent resident of this city, told us that he heard of Henry Best's death in the Peterboro council, of which he was warden for one term.

Chief Thompson has submitted the annual police court report to the police commissioners. The number of cases during the year 1910 was 460, against 319 for 1909. At present there are four officers, and the chief recommends that four more men be added, and that the pay be increased.

ESTATES OF THE DEAD.

Elizabeth Jane Walton of New York City, who died on June 11, 1902, left an estate valued at \$13,955.08, including \$1700 worth of property in Scarborough Township. This consists of a farm, and is bequeathed to Thomas Forfar, a brother-in-law; Elizabeth Forfar, a sister-in-law, and Edith Forfar, their adopted child.

The late Henry Keffer of Vaughan left an estate of \$11,338. Two farms in Vaughan Township valued at \$6900 go to his sons, Hiram and Thomas. His other son, Reuben, receives \$3000.

The will of the late Thomas Dudley of Toronto was probated in the surrogate court yesterday. His estate is valued at \$864, including property worth \$690. The entire estate goes to his widow, Catherine Dudley, and his only daughter, Harriet Dudley.

WORKED WONDERS IN THIS CASE

Rheumatism and Weak Heart Cured by Dodd's Kidney Pills.

The Doctor Helped Mrs. Stephen Roy, But There Was No Complete Cure Till She Tried Dodd's Kidney Pills.

ROCK MILLS, Grey Co., Ont. Jan. 16.—(Special.)—"I must say Dodd's Kidney Pills worked wonders in my case," says Mrs. Stephen Roy of this place. "I suffered with inflammatory rheumatism in my right arm, and though I tried several remedies the swelling increased and was very painful. My hands and limbs were also badly swollen.

"I got a doctor and he helped me, but the swelling never entirely left. He said it was because my heart was weak. Then I decided to try Dodd's Kidney Pills, and as I said before, they worked wonders."

Rheumatism of any kind is caused by disordered kidneys failing to strain the uric acid out of the blood. Dodd's Kidney Pills only cure the kidneys. They also cure the weak heart by making pure blood and lessening that organ's work of propelling the blood through the body.

Dodd's Kidney Pills only cure the kidneys, but they always do that. And with healthy kidneys you can't have rheumatism, lumbago, heart disease, dropsy or Bright's disease.

Before Riddell, J.
McGilligan v. National Husker Co.—J. E. Day, for plaintiff. W. E. Raney, K. C., for company and Gray, W. A. Froudford, for Adams and Kelly, L. C. Smith, for J. A. Adams. An action to set aside allotment of stock to plaintiff in defendant company, on the ground of false and fraudulent misrepresentation. Judgment: The defendant, J. A. Adams, was discharged as the plaintiff, and the action dismissed without costs as against him. As against the other defendants, I think, upon the evidence there was fraud, the misrepresentations were not innocent, and the claim for rescission must be given effect to. That there were misrepresentations as claimed by the plaintiff is clear beyond any doubt, and I so find, as also that the misrepresentations induced the contract. There is nothing in the allegations of fact or any of the other grounds of defence of the company. The subscription for and allotment of the shares will be set aside with costs, and the money paid therefor returned to the plaintiff. I retain the action in respect of the individual defendants until the cancellation of stock and payment of the costs of the action, or until further application. It is probable that the plaintiff, upon the stock being cancelled, will see money returned and his costs paid, will not seek further relief. Thirty days' stay.

A SIGNIFICANT STEP
Government Activities Along Line of Georgian Bay Canal.

OTTAWA, Jan. 16.—The fact that \$2,000,000 is being included in supplementary government estimates for deepening the back river at Montreal, Riviere des Prairies and the French River, far as the cost has been increased by the government has at length decided to go ahead with the Georgian Bay Canal. The works mentioned would all be of utility in any event, but there are also the important route of the canal, and in that the significant part of it lies.

The minister of public works to-day admitted that the cost was under advisement, but said there was nothing definite about it.

Could Not Rest at Night. Back Was So Weak.

Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

Head the warning; cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney Trouble.

On the first sign of anything wrong with the kidneys, stop work at once. They go to the east of the trouble, and strengthen the kidneys, thereby strengthening the back.

Mrs. John Puigh, Parkdale, Man., writes:—"I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before. I am very thankful to have found a speedy cure."

Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. M. Millburn Co., Limited, Toronto, Ont. If ordering direct specify "Doan's."

Employes Made Admissions

Company employes were even put on the stand by Corporation Counsel Drayton, who acting with Assistant Crown Attorney McManahan in the prosecution, and they admitted that there was a lack of safeguards for the prevention of people falling under truck wheels. Specific accidents with fatal results were enquired into in the latter connection, and motemen and conductors had to admit that there was nothing on the sides of double-track cars to prevent accidents of this nature, and it would be almost impossible for a man to slip in trying to grab a motor car hauling a trailer without being injured by the wheels of the trailer.

Enquiry Wide Open

The enquiry is to be held open all this week, and Justice Riddell expects to announce that he would extend it for two or more weeks in order to get the fullest possible light if people cared to come forward and cite specific or even general objections to the service it now maintains. A very significant bit of evidence was given by Motorman George Robertson and Conductor Matthew Gallagher in reference to the subject of Postman Cummings at the entrance to High Park on Howard Park-avenue, Sunday, Sept. 11, last year, when the despondent man plunged under the trucks of a Carlton car and was decapitated.

Easy to End Life

The motorman, in reply to questions of Mr. Drayton, said there was a side gate between the fender and front wheels, but only on the "devil-strip" device. There was no other protective device further back on the car and the man had plunged between the front and rear trucks.

learn that the doctor had been met at the club by a fast team and had driven across the ice to Balsalation, where he boarded a train and started for Sudbury.

Travers Relieved

The bolt has fallen upon W. R. Travers, yesterday morning before a recorded in the dirty police court. Police Magistrate Denison sentenced him to serve six years in Kingston Penitentiary in three terms of six, six and six months each, the sentences to run concurrently. Travers took his medicine gamely, but showed in lessened flesh and color the strain that has been upon him.

Passenger Complained

Mr. E. B. Bowles complained of overcrowded King cars on East Queen-street. Sometimes she could get a seat if someone would be kind enough to get up. People's bodies were pressed against each other. The only recent occasion when the cars gave comfort and reasonable accommodation were Monday morning and last Saturday.

The Deadly Trailer

To a question put plainly by Justice Riddell, Charles W. Webster, conductor on the motor car, said a man could hardly help falling under the trailer if he slipped in the manner that Smith did, and further stated to the court that there was a fender on the other side of the front of trailers, protection on the front of the car that killed King. Motorman on the car was brought to a stop the man's body was passed underneath the fender and was lying against the west front wheel. This was a No. 4 type car, and while there was a screen on the devil-strip side, there was nothing on the right-hand side.

City Inspector's Report

Guyl V. Mitchell of the city engineer's department told Mr. Drayton that his attention had been particularly called to the various styles of guards and protectors.

John Dennison, a motorman who operated the killed young David Goldenberg in November last, said that when the car had been stopped, the lad was found underneath the forward wheels of the rear truck. He had apparently not touched him.

Justice Riddell: "If there had been a

guard on the front side of the car, would the boy have got to the position in which he was found?"

Dennison: "He might have. There is a space below such guards, and he might have slipped underneath." Assistant Crown Attorney McManahan in the prosecution, and they admitted that there was a lack of safeguards for the prevention of people falling under truck wheels. Specific accidents with fatal results were enquired into in the latter connection, and motemen and conductors had to admit that there was nothing on the sides of double-track cars to prevent accidents of this nature, and it would be almost impossible for a man to slip in trying to grab a motor car hauling a trailer without being injured by the wheels of the trailer.

No Side Guards

Constable John W. May (217), who had helped to remove the boy's body, said he had not witnessed the accident.

"Were there any side guards on the car?"

"Not on the off side. There was a guard between the front and rear trucks on the devil-strip side."

Thompson was an eye-witness and saw the boy struck by the fender, and fell from the front wheel of the rear trucks. Following this the car ran about 10 or 12 feet.

Mr. Drayton: "What do you say as to the overcrowding conditions in the cars?"

"People are forced to stand just as close as they possibly can during rush hours. I have seen just such conditions as I have described; crowded up in bodily contact against the men in the cars," his lordship said he really had to let people pack the rear platforms during busy hours despite the company's order.

"Did you have any orders to keep passengers off crowded cars?"

"We had no orders to keep anybody off. Further, he didn't know if he could keep them off if he had orders. He might if he had another man to help him."

James W. James, conductor on the car which killed David Goldenberg, said he could not always succeed in keeping additional passengers off a car that was full.

young Goldenberg might have saved if the "smokers" had not been on the back platform, whereas a smile swept the court room.

Mr. Middlebro pointed out that the bill had been set down from general government work to work on public buildings only. The men who worked only eight hours per day would have their pay cut down. The bill only applied to day labor, and so contractors could employ men for two or three days, and place them outside the jurisdiction of the act.

Mr. Lancaster declared the minister of labor and Mr. Verville were playing a game upon the house. After the bill was unanimously committed to a committee, the minister said he was not in favor of the bill, for he had voted on the second reading, which he had voted on the amended bill, and he hoped the whole thing down to public buildings and not public works.

Mr. Verville then offered to withdraw his amendments and press the bill as originally drafted, but there was no prospect of that.

Mr. Verville said he could not withdraw it.

Unions Shall Be Consulted

Mr. Gooden remarked that the original bill had been approved by the labor unions, and they had no right to amend it without sending it back to the unions. Take as an example the insurance bill. In this case the companies had been asked for their opinion. He declared himself in favor of the original bill, as did Mr. Rhodes of Cumberland.

Sir Wilfrid Laurier said that no doubt the labor unions would prefer the original bill, but the free Canadian people were not composed of labor unions only.

Mr. Macdonell argued that a contractor, by the bill, might refuse to employ men who would not work more than eight hours a day.

Hon. H. R. Emerson favored the original bill, and was opposed to the amendments because they discriminated.

A Delusion and a Snare

T. W. Crothers said there were workmen in his constituency who had sufficient intelligence to recognize that the amendment was a delusion and a snare. It was desired to make the eight-hour day compulsory, but there was no provision in the bill restricting the working hours of the day to eight. It left the employer and employe in the same position as at present; they could make any agreement as to terms which they might wish.

Hon. Mackenzie King said that in the fair wage schedule the contracts stipulated that wages must be paid by the hour.

Mr. Crothers proposed to discuss the bill before the house and not some other measure. For himself he was opposed to the application of an eight-hour day as a general principle. For some time he had been in no doubt the principle was all right.

Over Time

An amendment by Mr. Macdonell to pay overtime, time and a half, and on Saturdays and holidays double time, was voted down. Later, however, the principle of time and a half for overtime was substituted for time and a quarter, as in the bill.

Mr. Middlebro moved in amendment that the bill apply to all works undertaken by the government. Verville and Frederic Martin voted for the amendment.

Eight Hour Bill GETS SECOND READING

Amendments were promulgated at the time of the second reading, and the subsequent discussion indicated the government was well aware of the nature of the amendment and went to withdrawal of the amendments, and test the opinion of the house on the first question.

TRANSPORTATION COSTS CONTINUE VERY HIGH

Freight Rates Into Porcupine Camp Are Heavy—An Idea of Retail Prices.

Porcupine City, Jan. 15.—(From the Man on the Spot.)—Cost of transporting foodstuffs into the camp from the railway at Kato Mines is the one great factor in the high prices charged here for everything from a tooth-pick to a wagonload of hay.

The Dume and Timmins Syndicate let big contracts amounting to over \$500,000 each. They got what is termed an extremely low rate of \$15 a ton. The ordinary fellow who has a few pounds is charged \$10 to \$12 a ton weight. Should there be two or three tons, he could get it in at the \$1 a hundred rate.

Freight teams this week were on the road three days out of way getting to their loads. In this case the owners did not make more than expenses.

Men who had been engaged in the business of peddling down the country brought their teams here for freight work this year and started in at cut rates to \$8 a ton. The word soon spread, for men of experience who had spent the summer and fall at the work knew to what disastrous end they were headed.

In talks with more than a dozen men engaged in the freight work there is no indication it is found that freight rates will be cheaper. Some say the rates must go up. Horses cannot stand the long strain and night work.

Retail Prices High. At first glance some of the prices received by the retailers here would make the heart of a Yankee dealer jump with delight.

For instance, kerosene for lighting purposes retails at 50c a gallon; flour \$5.50 a hundred weight; pork bacon, 25 cents a pound; potatoes, 17c a bushel; sugar \$7 a bag of 100 pounds; tea 50 cents a pound; fresh meat (when you can get it), 40 cents a pound; hay \$30 to \$35 a ton, and so on down to the very smallest article till whiskey comes at \$2 a bottle. If you get it at all, even for medicinal purposes, for the district search and seize every grip, pack and trunk.

But, when the dealer pays \$20 a ton for the freighting in, after paying the grand trunk and the T. & N. does not own the lot, clerk hire and a hundred other expenses, the fabulous prices charged are not so big and the consumer, knowing the entire conditions, does not kick.

To offset these prices here are some of the amounts paid for labor: Carpenters, 40 cents an hour, three were hired this week for six an hour; teamsters, \$2.50 a day and board; mill-choppers, \$3.50 a day and board; miners, \$3 a day; trenchers, prices ranging from \$1.75 and board to \$2.00, cooks, \$7 to \$8 a month.

Men going into the woods to do assessment work, demand their food, tools, tents to live in, etc., and to \$250 a day. And this is what has been sleeping in tents this winter testify to the very small sum realized for the hardships endured.

TUESDAY MORNING

WHEAT MARKETS LACK SUPPORT AND PRICES TAKE A SUDDEN DROP

Chicago Exchange Appears To Be Over-Bought and Profit-Taking Results—Decrease in Visible Supply.

Wheat futures closed today 1/4 to 1/2 lower; corn 1/4 to 1/2 lower; soybeans 1/4 to 1/2 lower; oats 1/4 to 1/2 lower.

Winnipeg receipts of wheat today graded as follows: No. 2 northern, 3 cars; No. 3 northern, 2 cars; No. 4 northern, 2 cars; No. 5 northern, 1 car; No. 6 northern, 1 car.

Visible Supply. A comparison of the visible grain supplies in the United States to-day and on the corresponding dates of the past two years is as follows: Jan. 15, 1910, 1,000,000 bushels; Jan. 15, 1911, 1,000,000 bushels.

World's Shipments. Broomhall gives the world's shipments as follows: Wheat, 3,076,000 bushels, against 3,066,000 last week and 3,226,000 last year.

Shipments in Detail. World's shipments in detail for the week ending Jan. 14, 1911: America, 2,192,000 bushels; Europe, 1,240,000 bushels; Asia, 1,240,000 bushels.

Poor Demand for Wheat. CHICAGO, Jan. 16.—The government estimate of the wheat crop of Minnesota and the Dakotas was 55,000,000 bushels, less than the crop of 1908.

Chicago Markets. J. P. Bickell & Co., Manufacturers' Life Building, report the following fluctuations on the Chicago Board of Trade:

Winnipeg Wheat Market. Jan. 14. Open. High. Low. Close. Wheat—101 1/2, 102 1/4, 101 1/4, 101 1/2.

Chicago Cattle Market. Live stock market today was active and prices were generally higher than last week.

Winnipeg Cattle Market. Receipts of live stock at the Union Stock Yards were 23 carloads—1579 cattle.

Winnipeg Hogs Market. Receipts of hogs today were 1200 head, against 1100 head last week.

Winnipeg Sheep Market. Receipts of sheep today were 1000 head, against 900 head last week.

Winnipeg Poultry Market. Receipts of poultry today were 5000 head, against 4500 head last week.

Winnipeg Butter Market. Receipts of butter today were 1000 cwt., against 900 cwt. last week.

There were signs of liquidation from that quarter. Foreign advances indicated an over-bought condition, with receipts abroad at prices below the cost of fresh shipments.

FAVORING FURTHER ADVANCES.

Nothing conclusive was available from the Toronto stock market today. The majority of issues, speculative and investment, were firm, but the movements were restricted by the operations of floor traders, who were willing to accept the smallest kind of a fraction on current deals. The prospect of a deal in Northern Navigation advanced this issue over two points, and this, as far as a movement was concerned, was the feature of the market. In a general way the support to prices was better than it has been, and the inference is that the large interests are favoring some further advances.

New York Stocks

NEW YORK, Jan. 16.—There was evidence of considerable professional selling today, presumably based upon the expectation of unfavorable news from Washington, as well as upon the general outlook for trade, as reflected in the large increase in the number of idle shares since last November with a decrease early in the day the market grew dull and spiritless. Quotations at the end of the day were fractionally lower than on Saturday.

The various southern lines, especially Norfolk and Western and Louisville and Nashville, were in good demand, rumors of a prospective dividend increase being connected with the advance of the former. There was steady buying of the Rock Island issues, which were strong and active and attention was directed to the restriction of operating expenses of the system. The Hill issues were quietly strong, but the Harbors were inclined to be heavy, in spite of some recovery in the metal abroad.

Money continues to accumulate here and lower rates for all accommodations are being sought. Commercial paper was in better demand. The brightest feature of the bond market is found in renewed assurances from foreign sources of large participation in the coming issue of New York City bonds.

The condition of local national banks is shown in the latest report of the controller at Washington, shows that loans have decreased approximately \$8,000,000 since last November with a decrease of \$11,000,000 in total deposits of clearing house banks.

London reported heavy purchases of English commercial bills by the continent, and \$200,000 gold was withdrawn from the Bank of England for shipment to the Bank of France.

The Bank of England took \$2,000,000 of the gold which arrived from South Africa, the remaining \$50,000 being engaged for India.

Ponds were irregular. Total sales par value, \$2,800,000.

Montreal Stocks

MONTREAL, Jan. 16.—Activity and strength in Montreal stock market, as a result of the placing of the stock on an eight per cent. basis, was the distinctive feature of the local market today. That the market was active, and that the 80% shares to the day's aggregate turnover. Opening at 147, the price advanced to 148 1/2 at the close. Ottawa Light & Power sold at 145, a net gain in the day's movement of 3 1/2 points.

Stawignon was active and strong in sympathy with Power, selling up to 111, or 2 1/2 points above Saturday's close, and acting to 110 1/2 with 109 1/2 bid and 109 1/4 asked at the close. Richeleu displayed decided strength, there being active buying of the stock and the price advanced to 95 or 1/4 points above Saturday's close, or 2 1/2 points above Saturday's close.

Pools Begin To Shake Out Stocks

Market Settles Back Easily

Reactionary Tone in New York, But Decline is Not Carried Far—Toronto Market Generally Unchanged.

World Office.
Monday Evening, Jan. 16.

Speculative trading showed no great response to market improvement today. Business during the morning session was fairly large and well diversified, but prices in general indicated that realising was necessary in instances.

The flurry in Toronto Electric has not yet caught hold and these shares were in free offer, three points below Friday's high price.

An announcement that an offer of \$125 a share would be made at the annual meeting held in Northern Navigation firm, but there is too much vagueness about the offer to cause conviction, and present buyers are taking the stock more for its intrinsic merits than for any selling prospect.

Second thought in connection with the debenture issue of the Sao Paulo Co. has changed the idea of speculation and investors. It is now argued that if the company needs more money for improvements it is better to issue 5 per cent. debenture stock than common stock, paying a dividend of 10 per cent.

C.P.R. was moderately active here, but showed a wavering tendency, due to pure speculative operations against a strong support.

An advance in the dividend on Montreal Light, Heat and Power was accorded the necessary reception on the Montreal Exchange without finding any reflection of a similar character in the market.

Novo Scotia Steel was also a feature of the eastern exchange. Prices were raised here over a point, without including any new enquiries for the shares.

In a broad way the market closed somewhat firmer and any buoyancy appeared to suffer from a species of unexpanded restraint.

Increased Dividend.

The Montreal Heat, Light and Power Co. has increased their dividend rate from 7 to 8 per cent. per annum. The rate was raised from 6 to 7 per cent. in 1910.

Change Fiscal Year.

The Dominion Steel Corporation, Dominion Iron and Steel Co. and Dominion Coal Co. will in future end their financial year on March 31. The year with these companies ended formerly on May 31.

European Copper Statistics.

LONDON, Jan. 16.—The fortnightly statistics indicate that the European stocks of copper on Jan. 15 decreased 400 tons while copper supplies afloat increased to tons, making a total net reduction in the visible supply of 550 tons to 32,279 tons, against \$3,838 tons on Dec. 31, and 109,549 tons on Jan. 15, 1910.

Steel Plant Resumes Operations.

BIRMINGHAM, Jan. 16.—The steel plant of the Tennessee Coal, Iron and Railroad Co. resumed operations today, after having been shut down since Dec. 23. The company has received an order for 72,000 tons of rails from the Louisville and Nashville. The rails will be used in double-tracking between Decatur and Nashville.

Improvement in Consols in London.

LONDON, Jan. 16.—The securities markets continued irregular in the late session. Gift-edged investments finished at the top under favorable influence of continental buying of British commercial bills. Sentiment regarding foreignness was cheerful and mines appeared to be in good equities. Home rails were mixed and Americans reflected a disposition to await New York indications. On the curb Rhodesians monopolized the trade and mines advanced in anticipation of heavy sinking fund purchases and a good showing of investment buying probably largely for savings banks.

On Wall Street.

Erickson Perkins & Co. had the following: Stocks were quiet all day, but showed a fairly steady undertone. The setback was normal, considering the held as well as anything. The action of the market had the appearance of a shaking out by the pool of speculative "longs" before bidding prices up again. We look for another spurt before the end of the week, and if one believes in the power of the clique he may buy again any further drive for two or three points. We give this opinion on the theory that the pool will continue its hold on the market, not because we think circumstances warrant higher prices. We do not think they do. Abundance of money may be used as a factor for the time being in advancing stocks. Advice from abroad state that Paris and London are inclined to view our securities more favorably, and that they think well of the recent clearing up of weak banks here.

Chas. Head & Co. to R. R. Bondage.

There was a slight reactionary tone to the market this morning and prices declined from 1-4 to 3-4 in the early deal.

There was no news of importance and the selling seemed to be nothing more than a healthy and natural reaction, due to profit-taking. The bank statement last Saturday was even better than our fond hopes had looked for and would seem to dispose permanently of all fears on the score of money. Traders and professionals were the sellers in the early dealings on rumors that large interests were endeavoring to dispose of stocks on the strength of the bank statement. The short interest has undoubtedly been considerably increased as a result of the day's operations and technically the market is in so much the stronger position.

Wetlauffer Leads the Market With Advance of Seven Points

Cobalt Mining Stocks Show General Firm Undertone—McKinley-Darragh Constitutes Another Strong Point.

World Office, Monday Evening, Jan. 16. There was more vivacity to the local mining markets to-day than has been the case for some time, activity in some of the issues being accompanied by a rising tendency, which resulted in advances which ranged from small fractions to 5 and 7 points.

Despite the higher prices which prevailed in certain sections of the mining list, there was no great increase in the volume of transactions, and the only items which could be gleaned from the day's operations was that stocks were in rather scant supply, and the rising market arose from that fact, rather than from any additional call for securities.

Wetlauffer was the outstanding feature of the day, and this stock was the only one to be traded in on a large scale. Rumors of an early dividend declaration, which report had it would be at the rate of 3 per cent, carried the price up 7 points to \$1.16, the portion of this was lost toward the close, with a reaction to \$1.14 took place.

An advance of 5 points in McKinley-Darragh constituted about the only other item of interest. These shares sold early in the day at \$1.45, a gain of four cents over Saturday's figures, and sold up an additional point on small dealings. There was nothing new in market gossip to account for the rise, which was entirely in line with recent movements of the stock in the exchanges.

A. E. WAY IN TOWN

Porcupine Townsite Owner on Conditions—Traffic Much Congested.

A. E. Way, who is heavily interested in the Porcupine townsite, was in Toronto yesterday, and left last night to return to the gold camp. He is an enthusiastic as any of the others who have visited the Porcupine district recently, and believes that the New Ontario gold camp will make a record in gold mining history.

Mr. Way says that building is extremely active at Pottsville, which is the present name of the townsite, on which the postoffice is situated. He thinks that it is the natural site because of its many natural advantages, which make it a business centre of the district. It is possible that at a later date there may be amalgamation with the provincial townsite in the formation of a municipality to be known as Porcupine Town.

In coming out of the camp Mr. Way said that the traffic was much congested, and that the teams had to make several waits before getting thru, but that with reasonable temperature the influx into the district would likely be very large from now on.

SILVER MARKET

London Brokers on Outlook—Old Country Stocks Diminishing.

Samuel Montagu & Co. write under date Jan. 6: The falling tendency was caused by frequent sales in Bombay by the speculative group to the China banks; the dearth of money in India, and the rather disappointing up country influences, have taken the impetus for this addition to the normal supplies, an addition well over £1,000,000 sterling, the strength of the China demand would undoubtedly have prevented the price from rising, had it not been for the large holding being financed for them.

The tone since the turn of the year has somewhat improved and this notwithstanding that China took advantage of the better price to re-sell in Bombay. The Indian bazaars have shown considerable activity and sent to this market large buying orders, which were met to a large extent by short orders, but there is also from that quarter, and a substantial amount is being shipped by this week's steamer to Bombay.

The net result will be that the visible stock in London will be diminished without that in Bombay showing any immediate increase, and incidentally, by this luxurious method some portion of the Bombay syndicate's large holding will be financed for them.

PREVENTIVE MEASURES

Residents of Porcupine District Are Alive to Need of Sanitation.

PORCUPINE CITY, Jan. 14.—(From the Man on the Spot.)—In order to protect themselves and those who may come to the district next year, in other words to get above disease in any form before it comes, the Township of Whitney, and have a township organization at once.

At first town incorporation was sought by different ones, and at the last moment this plan may be carried out, but in general it is not thought that local residents, as they are favored by should officers who live in a certain townsite get into office, other townsites would be neglected.

But one thing sure is there is to be a township organization, and that is to be a township which includes all the townsites, or of the townsites separately.

side of the lake. Before spring some kind of drainage will have been worked out.

So far the water is good here, but after another spring, residents do not care to take a chance. The principal source is Porcupine Lake, and each spring and summer its waters must necessarily become contaminated from the drainage off the three sides of the lake.

The plan laid down here is to stop the disease by preventing it.

A PORCUPINE PIONEER AND HIS RECORD TO DATE

Alex. Miller of Haileybury, and His Part in Building up New Gold Camp.

PORCUPINE CITY, Jan. 14.—(From the Man on the Spot.)—One of those who are known as early Porcupine pioneers and who shouldered the burdens of getting capital into the camp when it was yet in an exceedingly primitive state, and to whom the general public is very kind to present tribute, is Alex. Miller of Haileybury, the proprietor of the Miller Transportation Company and also the Miller House at Keelo Mines.

Away back in July of the year 1909, Mr. Miller shouldered his pack and traveled into the district near where the Scottish-Ontario Company are now operating. Here he staked several claims for himself, and developed others, which he sold in November of that year to the McArthur Syndicate of Glasgow, and later the lots became the property of the present holding company.

It was this company that started the mining world by announcing a month before the Timmins bought in the district, that they were prepared to spend \$75,000 in seeing just what the Pandora's box of rock contained. Two shafts were to be put down 100 feet each, and Peter MacLaren, an old gold engineer, who had been employed by this syndicate in the west, was placed in charge.

The work of the Scottish-Ontario Company, brought here by Alex. Miller, who has since made three very big deals in the district with outside companies that are now sending money into the camp, started Porcupine as a gold mining camp, and those who know the history are jubilant that this same company should only this week run up an enormous body of ore only a mile and a half north of the Porcupine City townsite.

Mr. Miller has associated with him James Stewart, a former newspaper man, who is secretary of the Miller Porcupine Gold Mining Company, located adjacent to the Scottish-Ontario Company. Mr. Miller has been very successful the past year.

PORCUPINE CAMP WANTS BETTER MAIL SERVICE

Postoffice Facilities Entirely Inadequate—Xmas Mail Accumulation at Matheson.

PORCUPINE CITY, Ont., Jan. 13.—(From the Man on the Spot.)—Ninety-nine per cent of the population here are dissatisfied with the conditions under which mail is received and 6-day petitions are in circulation asking that the Dominion Government send an inspector into the district at once to look over and figure out some way in which the public can be better served.

The document is addressed to the postmaster-general, and recites at length the troubles at the postoffice. The fact that complaints have frequently been lodged with the department concerning the course way in which the mail comes in and goes out, is the main and prominent feature of the document. It also states that 10,000 per cent of the district do business at the postoffice, while 50,000 are indirectly interested by sending mail into the camp.

Postmaster Lloyd struggles along as well as possible under the circumstances, which from every superficial observation, are decidedly against him, but with no one who can competently help, he is up against it hard.

The quarters in which the mail for the entire district is handled measures fully six by eight feet in dimensions. Yesterday there were three full boxes of letters dropped in at 4 o'clock p.m., the time generally the mailman arrives from Matheson, one of the longest routes into the district. Some days five bags come, there get only two bags of second-class matter. And it is not uncommon for the office to receive five bags all at once.

Naturally the public want their mail before darkness sets in, for many of the camps have messengers who after noon waiting for the mail. These men in some instances travel six miles after receiving the mail parcels. And they are lucky to get near the wicket for hours at a time.

Could you wonder that there is a howl from the postoffice public, hot words spoken, and lengthy petitions in circulation reciting the inaction of the Dominion Government in the fast-growing business spot, where perhaps there is more important mail, affecting business deals, than in any other part of Canada?

But there is another condition not mentioned in the petition which is indeed humorous, if not serious, to those touched by the matter.

During the impassable roads into this district during November and December, the extent of a full carload was stored up at Matheson. When Mr. Miller's men started his sleighs under a contract for the winter, he was instructed to bring in just two bags a day of the day's mail. Not many days ago a telephone man from this place, while at Matheson, was shown the stacks of mail bags at Matheson, and was told that there were still the bags of mail waiting there. And there are some folks in the town who expect Santa Claus will call on them any time between now and next June, for it will take all that time to get the last bag of mail out of two a day.

Business men are asking why teams are not engaged now, and all the bags brought in at once. The mail men get the contract at such ridiculously low figures that they are obliged to carry passengers to make his expenses.

As a few samples of slow delivery on the hold-up mail, Henry I. Pitts of the Sunshin Hotel received a copy of the London Times newspaper, which was mailed in the first week of July last. Another man got papers which were printed in September, while another, home paper for the same day, which was printed in October. Many copies of August Toronto papers are just being delivered.

This bad condition not only hits Porcupine hard, but sees every big trading centre in Canada, for when men cannot get their stuff regularly they do not wait it. There are many things which come by second-class delivery, but the business man, who is ordered by his customers to get it promptly and efficient, they simply will not order.

And as a last argument, business men say that it is as much to the interest of those who bill goods here as it is to those who live here, to see that the present bad mail conditions are changed at once.

CAR OF ORE READY

Bailey Shaft Down 230 Feet—New Engineer to Take Charge.

It is announced from Cobalt that negotiations have been entered into by the Cobalt Central, a new Ontario New York mining engineer of experience and a reputation to take full charge of the property. The engineer has already been on the ground and reconnoitered the shaft, and is expected up on another visit soon. The Bailey is a milling proposition and contracts with a customs mill to take a fixed tonnage of their ore.

The shaft is now down 230 feet and a drift has been pushed forward for about 70 feet at that depth. Several veins in the reef have also been stopped up for some distance, the aim being to discover if they carried their value to the diabase.

There is ore to be seen also at the two upper levels. It is very strong and solid small vein with occasional rich patches of native silver in it. Altogether to make 1133 tons of ore treated at the Cobalt Central have yielded 28 tons of concentrate, in addition to seven bars of bullion and a quantity of native silver.

The ore has thus far melted down. The Bailey has quantity of ore ready to ship.

BEST VEIN YET

New Discovery in East Drift on Kerr Lake Property.

The manager of the Kerr Lake Mining Co. reports the finding of a new vein in the east drift at the bottom of the shaft, containing six inches in thickness and containing values of 3000 ounces of silver to the ton.

The home office is informed that the new vein is very rich, and has been struck at this section of the property.

EXPERT IN PORCUPINE

Frank C. Loring Inspects Property for South African Concern.

PORCUPINE CITY, Jan. 14.—Frank C. Loring, one of the most prominent engineers in the district, and well-known in the Cobalt camp, arrived this morning, and after spending a strenuous day at the Res Mines, known as the McConnell Vet., returned to Toronto Saturday night.

THE BOARD OF DIRECTORS OF THE WETLAUFER-LORRAIN SILVER MINES, Limited

have this 16th day of January, 1911, declared a regular quarterly dividend of 2 1/2 per cent, payable March 11, 1911, to stockholders of record February 25, 1911.

The books of the company will close February 25, 1911, to remain closed until March 11, 1911.

INSTALLING MACHINERY

Gowganda Company Will Do Aggressive Development—Good Ore in Sight.

The Bishop Silver Mines, Limited, operating in Gowganda, have just completed the installation of a 110 h.p. plant and a five-drive compressor, on their claim 635 1-2, Calcutta Lake, on which there have been uncovered 15 veins, 1 of which have contained native silver on the surface. This claim is situated on the shores of Calcutta Lake, and the showings on the claim show an elevation of 300 feet at one point above the level of the lake.

ADDITION TO PLANT

Timmins Mine at Porcupine Orders Supplementary Machinery.

It is evident that developments at the Timmins mine, Porcupine, are still continuing very satisfactory, for in addition to the 14 x 36 Jenckes Corliss engine, which was ordered from their engine, Machine Co. some little time ago, and which will be ready for delivery shortly, the same firm has just received an order from the mine for two 125 h.p. Jenckes return tubular boilers. These are to be shipped in three weeks and their delivery, together with that of the engine above mentioned, will be rushed forward with all possible speed. As the Timmins mine is one of the first in Porcupine to properly and systematically develop the property, so it is the first also to install heavy machinery necessary for the further opening up of the mine.

Clothes Worth Reading About FOR MEN

J. P. Morgan was once asked, "What would you do if you found yourself on Broadway with just one solitary \$5 bill in the world?" His answer was, "Buy a new hat." Some of us under similar circumstances would, figuratively speaking, buy that new hat; there are others who would be too careful to get a shoe shine. J. P. knew that a man is judged by his appearance. What else can the stranger draw his conclusions from?

A millionaire with a reputation as good as his banking account can afford to wear an old suit of clothes, and look slack, but the man who is "getting there" can't.

Present times are so strenuous that men would do well to take a leaf from the domestic note-book, do as their better half has done for years, and buy bargains.

Here are real bargains in suits, \$14.95 will buy a \$22 suit. There are bargains in underwear, too. Read the column carefully; it will pay you.

The materials are imported West of England fancy worsted and Scotch tweeds, made from fine selected wools. All this season's most fashionable goods and colorings: medium to dark, brown, green, and grey tones, with self and faint fancy colored thread stripes, cut from the latest American models, in three-button, single-breasted sack style, elegantly tailored, with broad shoulders, close fitting collar and long shapely lapels, finished with extra quality will mohair linings and halcloth and thoroughly shrunken canvas interlinings. Perfect fitting suits. Sizes 36 to 42. Regular up to \$23.00. Wednesday, \$14.95.

BOYS' COLLEGE ULSTERS. Regular Prices \$7.00, \$8.00, \$9.50 and \$9.00. To Clear Wednesday at \$5.95.

Boys' heavy-weight English and Scotch fancy tweed ulsters, in rich dark brown and grey mixed grounds, with self and faint fancy colored stripes, cut in the popular simple and double breasted college style, with one way military or convertible collar, which can be worn with lapels turned down open, in stormy weather, buttoned close up to the throat, lined throughout with strong durable linings, sizes 27 to 35. Wednesday at \$5.95.

SIMPSON'S "BODY GUARD" UNDERWEAR.

The name is good enough, and the fact that Wednesday will place some of this celebrated underwear at your disposal at a reduction ought to be sufficient, but in case you have not been lucky enough to wear any yet, we say that "perfection" is the only word that describes every garment bearing our "Body Guard" red label.

"Body Guard" is made from fine selected yarns, guaranteed perfect in sanitary and made by experts. These garments fit and wear well, and in our estimation are best possible value for money. Regular \$1.50 per garment. Wednesday, \$1.23.

Why Do People Rave on Oriental Rugs?

"On account of the price," says a cynic. We would like to see all the people in Toronto who are cynical about Oriental rugs on our Fourth Floor to-morrow. If those who come to scoff, don't get down on these beautiful little prayer rugs and ask to be allowed to take them home at the prices quoted, we'll be greatly surprised.

It may be possible to find larger collections of rugs, but we're quite certain you won't find as beautiful a collection anywhere else in Canada. Our fine stock has just now been augmented by the choicest rugs from a recent Oriental shipment.

Through price will be a matter of secondary interest to you, when you see the rugs to-morrow you'll realize that our prices are below what is everywhere recognized as the market price for Kermanshahs, Bokharas, Seraghan, Kazaks, Shirazes and other famous varieties.
