"PROSPECTS OF SUCCESS SEEM GOOD" SCOTT'S WORD, FIFTEEN MILES FROM POLE FIVE MEN IN ADVENTUROUS PARTY

Dash for Goal Delayed by Weather of Unusual Severity, and Loss of Ponies Proved Handicap—Motor Sledges Proved Merits But Had to Be Abandoned—Valuable Observations Taken.

Copyrighted in the United Kingdom by the Central News Limited, London; registered in the Department of Agriculture, Copyright Branch, Dominion of Canada, by the Central News Limited, copyright in the United States by The New York Times Company.
(From the Special Correspondent of The Central News Limited.)
The second section of the story, descriptive of the work of the geological expedition, will appear in The World tomorrow.

"On New Year's Eve we are within 150 miles of the pole. In the advance party are Capt. Scott, R.N.; Dr. Wilson, chief of the scientific staff; Capt. Oates, Inniskilling Dragoons, in charge of ponies and mules; Lieut. Bowers, Royal Indian Marine, commissariat officer; Petty Officer Evans, R.N., in charge of sledges and equipment.

"The advance party goes forward with a month's provisions and the prospects of success seem good, provided the weather holds and no unforeseen obstacles arise. It has been very difficult to choose the advance party, as everyone was fit and able to go forward. Those who return are naturally much disappointed. Everyone has worked his hardest.

"The weather on the plateau has been good on the whole. The sun has never deserted us, but temperatures are now about minus 20 degrees and wind pretty constant. However, we are excellently equipped for such conditions and the wind undoubtedly improves the surface. So far all arrangements have worked out most satisfactorily. It is more than probable that no further news will be received from this year, as our return must necessarily be late.

"(Signed) Robert F. Scott."

What the City Council Did Yesterday.

Accepted R. Home Smith's Humber Valley Park and Boulevard proposition.
Adopted agreement with the Township of Etobicoke and Village of Mimico respecting the city's acquisition of the Toronto and Mimico Electric Railway in their territory.
Decided to engage a fair wage officer.
Referred the proposal to expropriate Knox College site to the parks committee.
Defeated a motion to sue "Jack Canuck."
Passed a bylaw to issue debentures for \$171,800 for the purchase of park sites.
Decided to annex the Hellwell property.
Decided to discontinue the city's membership in the union of Canadian municipalities.
Decided to issue separate tax bills for the board of education's expenditure.
Donated \$100,000 to the Alexander Muir Monument.
Handed over the construction work of Ashbridge's Bay Dock and the sea wall to be supervised by the harbor commission.
Granted \$10,000 to the Industrial Refuge.
Decided to acquire the property necessary to construct the Coxwell-avenue subway.
Amended agreement with HomeSmith to limit city's expenditure in that connection to \$135,000.
Decided not to appoint a firm of traffic experts.
Referred back the proposal to spend \$100,000 on water meters.
Talked nine hours.

LAURIER SEEKS TO FORCE EARLY FEDERAL ELECTION BORDEN'S PATH PERILOUS

Senate's Tactics in Blocking Measures Mean That Gigantic Struggle for Supremacy Has Begun at Ottawa—Laurier Shows Hand as Arch Enemy of Ontario.

OTTAWA, April 1.—(Special.)—The first session of the Borden government closed in a surprising situation: The Liberal opposition, led by Sir Wilfrid Laurier, working thru the Liberal majority in the senate, defeated three important government measures within the drying hours of prorogation day. These were the tariff commission bill, the bill granting aid to improving highways in all the provinces, and the proposal of a subsidy to the Ontario Government's railway in Northern Ontario.

The issue thus created is much greater than that involved in the three bills. It shows that the Liberals are bent on a policy looking to the early defeat of the Borden administration, if that be possible, and evidently they hope to make it possible. It means a great struggle from now on, and the government have certainly their work cut out for them.

The attack on Mr. Morine is also a part of a scheme that will take on more determination as the plan develops. The Conservatives will need all their resources and the best brand of a policy to meet so determined an effort.

Gigantic Struggle.
Sir Wilfrid has given it out to-day that he still controls one side of parliament and that he intends using that control to the limit. The Conservatives have not yet gauged the situation, but they must see he has struggle will be a gigantic one. The Conservatives have five vacancies in the senate to fill from the maritime provinces, and they will get some additional new ones from Manitoba under the act enlarging the bounds of that province, but will, for some time, be in a hopeless majority in that chamber.

A general election may be nearer than the public think and the wisest Conservatives are saying to-night that the government should have put a redistribution bill thru this session, so as to be ready for a fight and that they should have done something in the way of tariff legislation this session. They will have to do both next session, and it is likely that parliament will be called together in the fall for this purpose, but it was the idea in the inner circles until to-day that the next session would not assemble until after the New Year.

Geographical in Sight.
The government will in all likelihood be on or less reorganized at an early date, looking to the end of strengthening it on the most progressive lines and in getting men in the fighting line of the party who are ready to voice what the people think on the right of the provinces to control their schools, who are ready to uphold the supremacy of parliament on the marriage question, and who are devoted to public rights in the great battle between the people and the interests.

Sir Wilfrid Laurier is developing into the parliamentary head of a reactionary party and a reactionary senate. Also, as the master opponent of the Province of Ontario and its forward views. In Ontario he can lose little of the little he has, but he is after Quebec, and he hopes to win the west back by encouraging the idea that any discontent in that rowing part of the country is due to the defeat of his reciprocal program. It can be made a fight between progressives and hold-

PROMPT ACTION NEEDED

MR. BORDEN: Was that a cry for help?

PUPIL ALLEGES ILL USAGE BY PROFESSOR

Woodstock, Stirred by Complaint of Jamaican Youth, That Members of Faculty Dragged Him From Bed and Beat Him Severely—Prosecutions May Follow.

WOODSTOCK, April 1.—(Special.)—Public opinion in this city has been aroused to a high pitch of indignation during the last few days as a result of stories of alleged harsh treatment, recorded Hoppwood, a student at Woodstock College, and it is probable that, as a result of an investigation by the citizens' committee, three professors of the college will be called upon to defend a charge of assault in the local police court.

Hoppwood is from Jamaica, and has been attending school here since last September. According to stories which have reached the ears of the citizens' committee, the boy was taken from his bed recently at midnight by three professors and, after being carried to the gymnasium, was put over the gymnastic horse and was beaten several times over the back with a heavy leather strap.

Hoppwood says that two of the teachers held him while a third administered the punishment. The boy was then allowed to go, several bruises having been inflicted.

Complain to Mayor.
Next day the student called on the mayor of the city, Dr. Welford, and to him he told his story and showed the results of the beating. It is understood that Mayor Welford is prepared to swear that, in his opinion, the thrashing was cruel and excessive. Several citizens in the city, having heard of the affair, insisted that the proper authorities make some move and a signed petition is out asking that something be done.

Hoppwood is 18 years of age. It is stated that the chief offense that led to the beating was the fact that he broke campus to go down to get something to eat. The college authorities will say nothing regarding the matter.

THE SPRING POET ON HATS.
That near-poet, J.M.S., on the Chicago Tribune staff, has started the annual output with the advent of the "Windy City Robin." Here's a real spring effusion:

"I cannot wear the old hat
I bought one year ago.
For it has served its purpose
And looks like—well, you know.
The hygienic pride comes over my heart
With each familiar bow,
I cannot wear the old hat,
So please dig up some dough."
J.M.S. has actually more truth than poetry in the stanza, which same is unusual for a real writer of spring verse. And speaking of Easter hats for men the Dinsien Company's display this season is designed to fit every pocket book and satisfy the most exacting demand of style.

Whom the Gods Destroy.

W. K. McNaught, M.L.A., North Toronto, has his own opinions about the action of the senate yesterday in throwing out the T. and N. O. subsidy as endorsed by the federal government. In the not far distant future he sees reforms coming that almost look like "the handwriting on the wall."

TWO PARTNERS ARE ARRESTED

Morris Speigel Accuses Morris Goldberg of Theft, and His Wife is Charged With Fraud.

Morris Speigel, convicted in the sessions of setting fire to the National Day's Clothing Company's premises on Sheppard-street, last night, had two of his partners in that concern arrested. Claiming that Morris Goldberg had taken the machinery from the premises and moved it to the cellar of his home at 45 Kensington-avenue, where it was found by the police, Speigel swore out a warrant charging Goldberg with theft. Goldberg declared that he had moved it away from the place to escape paying rent any longer.

Speigel is also out on bail awaiting hearing of his appeal against the arson conviction.

REV. DR. GORDON FOR CONVENOR

Rev. Dr. Gordon, Queen's University, will, it is understood, be elected convenor of the Presbyterian committee on church union at the meeting here to-morrow. The position is vacant owing to the death of Rev. Principal Patrick of Winnipeg. Rev. E. D. McClellan, D.D., is secretary of the committee.

No official figures it was semi-officially stated to The World yesterday were likely to be reported by the committee until the meeting of the general assembly at Winnipeg.

ISLAND SMELTER TESTS MAKE GOOD

Sir Donald Mann Was Present When Refining Process Was Given a Trial, Which Was Highly Successful—Montreal Engineer Will Be Present at Final Demonstration.

Dr. J. S. Island and the directors and shareholders of the Island Smelting and Refining Company with local headquarters at Brock and Florence-avenues, in this city, and who have in a general way been before the public for the past two or three years, are said to be jubilant over tests made at the works of the Toronto Electric Light Company on Monday forenoon.

Dr. Island, it is well-known, has devoted years of intense active work and research to the solution of a system for the recovery of precious metals from low grade and British Columbia ores, and the test of yesterday, conducted as it was in the presence of one or two personal friends and an expert electrical engineer, was, in the kind of all, attended with marvelous success. In the presence of Sir Donald and Mann the test was again repeated with even more gratifying results. Sir Donald was later for some time closeted with Dr. Island at the head offices of the Canadian Northern Railway, but nothing of what transpired was made public. Later in the evening Sir Donald left for Montreal. Mr. Stanfield of Montreal, the well-known authority, and acting for Sir Donald, will later visit the city and report to his chief.

Happy and Delighted.

When seen by The World at the offices of the Island Company on Brock-avenue last night the doctor with characteristic modesty declined to make any lengthy statement about the big discovery. His face was wreathed in smiles, and he was manifestly delighted and happy, not alone at the financial prospect which is opening out before him, but at the vindication of a principle for which he has worked for years. "We have achieved success after a long struggle," said Dr. Island, "and I am happy, but with respect to my process I have only brief-

USE 300 ACRES FOR YARDAGE AND SHOPS

Canadian Northern Will Devote Half-Mile-Wide Strip at Lease for Railway Purposes—Balance for Country Home Suburb—North Toronto Station Plans Up To-day.

It was learned yesterday that 300 acres of the C. N. R.'s Leasehold purchase would be used for yards, shops and roundhouses. This area will be located in a mile long strip and therefore less than half a mile wide, immediately to the northwest and adjoining the C.P.R. tracks.

The land next adjoining will be converted to the use of the railway workmen.

The balance—over a thousand acres—of the big purchase is to be laid out in high-class residential sites. These will be far enough away to be unaffected by the railway activity and yet are to be in close touch with the city by a system of quick transportation. Although not an official announcement, these details come from a high source and are right in line with The World's exclusive news of the development of this sections of the suburbs.

Plans for a joint station of the C. P. R. and C. N. R. at the North Yonge-street crossing will be taken up to-day at Ottawa by the railway commission. The station will be on the south side of the tracks, about the same distance east as the C. P. R. North Toronto station is west of Yonge-street. Two stairs will lead from the waiting-rooms under the tracks, one up between tracks one and two and the other between tracks three and four.

C. P. Brown, who built the Brooklyn and Pennsylvania tunnels, has been engaged by the Canadian Northern Railway as managing engineer of their big tunnel project at Montreal. After looking over the ground there he declared his belief that the 16,000 foot tunnel could be driven in much less than 500 days, the first time estimated made.

CALL TO REV. J. C. SPEER
The congregation of North Park Methodist Church last evening extended a unanimous call to the Rev. J. C. Speer of High Park Church to become their pastor next year. Mr. Speer accepted the call, subject to the endorsement of the stationing committee.

Written for Edna Wallace Hopper. The song hit in "Jumping Jupiter" now running at the Princess. "I Like to Have a Flock of Men Around Me" was written especially for Edna Wallace Hopper, the dainty comedienne, by Richard Carle, the elongated comedian, who is the male star in the musical play. This song will doubtless win additional fame for Miss Hopper.

MAY USE DEER INSTEAD OF STEAK

Dr. Grenfell Told Canadian Club About the Chance of Reduction of High Cost of Living if More Attention Was Paid to the Breeding of Reindeer.

There is still a chance that the high cost of living will be reduced.

Dr. Grenfell told the members of the Canadian Club at a luncheon in McCone's yesterday, in speaking of the latest resources of Labrador, about how the reduction can be brought about by merely changing the dinner course from beef to reindeer.

Good Friday Concert.

Yesterday the plan of the big popular concert in Massey Hall, on Good Friday night, was opened.

APRIL SNOWFALL WAS BIGGEST JOKE

Two Inches of Rain, Sleet and Snow Fell Yesterday and Soon Froze, Causing Late Trains, Poor Car Service and a Few Blockades—Better Weather To-day.

While the Toronto resident was gleefully dreaming yesterday morning of the April fool prank he would play on his neighbor the elements were preparing a huge surprise for him.

The fall in Toronto was about two inches, but the evening snow changed to a sleet and rain. Men who had allowed their horses to go unshod pined in full for this negligence...

NO IMMEDIATE PROHIBITION CAMPAIGN

To-day's Temperance Convention Will Not Adopt a Definite Policy on Account of Mr. Rowell's Abolish-the-Bar Platform—Lively Time is Expected at Meeting.

"Every independent temperance man who is not afraid to open his mouth should be at the Broadway Hall convention," said one of the independents to the World yesterday.

The convention will nominally be the second reading of his two bills—on the prohibition of the sale of liquor in the public territory, and the other to amend the Liquor Commission Act to provide a remuneration of \$6000 per annum for Hon. Adam Beck.

PHILADELPHIA, March 30.—Mrs. Hagan, wife of George B. Lippincott, a button manufacturer, broke all records getting to the marriage bureau after the young woman had obtained a divorce from her first husband, John G. Johnson, on the grounds of desertion.

The bride, with her hair and face, was waiting in the courtroom for the divorce decree to be handed down. As soon as they heard the critically arranged question as to any person objecting to the granting of the divorce they made one dash for the license bureau, and after the severance of the first knot, the bride-elect is but twenty years old. The wedding will take place to-day.

Lost Control of His Temper

Once there was a man whose liver was not working right. When dressing in the morning he had trouble with his bowels. Then he lost the collar button. Then he said something. By the time he got to breakfast he was so irritated that he had no appetite and quarreled with his wife. He went to the office with a headache and when he had some important business transactions bungled it.

Dr. Martel's Female Pills

Nineteen Years the Standard. Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result to cure is quick and permanent.

GOVERNMENT PLANS TO SPEND OVER \$2,000,000 ON EDUCATION

Main Estimates for 1912-1913 Were Submitted to the Legislature Yesterday Afternoon—New Mining Act Forbids Persons Under Influence of Liquor to Go Near a Mine—Insurance Bill Under Consideration—Better Clinical Facilities for Medical Students and Provincial Registration for Nurses.

Expenditures for education during the coming year will exceed \$2,000,000, it is shown by the main estimates for 1912-1913, which were submitted to the legislature yesterday afternoon.

The main estimates for the fiscal year ending Oct. 31, 1913, amount to \$5,544,484. Of this amount the current expenditure for 1912-1913 is \$2,935,486.56; on capital account, \$1,210,000; other purposes, \$1,398,997.44.

There is a strong possibility that the warden of the Western Hospital will be thrown out of the medical students of Toronto University for clinical instruction. Of late there have been complaints from time to time that some of the clinical facilities at one of the hospitals, where instruction is now given to students.

A new clause in the bill relating to the hospitals and charitable institutions, which passed the committee stage in the legislature yesterday afternoon, would cover the proposed arrangements between the Toronto Medical School and the Western Hospital. The clause is as follows: "Every hospital receiving aid under this act shall be held to be a charitable institution and shall be held to be a hospital for the purposes of this act."

THOUSANDS OF C.N.R. WORKMEN REVOLT AND DEFY LAW IN B.C.

Construction of Big Section of Line Between Hope and Kamloops Abruptly Ends and Army of Foreigners Terrorize Country—Police Ordered Out.

VANCOUVER, B.C., April 1.—(Can. Press)—To-day construction of the line of the Canadian Northern Railway between Hope and Kamloops is dead in the water, and Saturday night this latest demonstration of the industrial workers of the world organization broke out in violence in the vicinity of Spence's Bridge.

Construction of Big Section of Line Between Hope and Kamloops Abruptly Ends and Army of Foreigners Terrorize Country—Police Ordered Out.

Fully 5000 men have now got out work on the Canadian Northern grade, and contractors operating to the north of Kamloops declare that they expect to be to-night every bit of work will be stopped as far eastward as the Thirty-men camp, north of Kamloops, the most easterly point at which the work is being carried on.

On Saturday night seventy men, nearly all of them Austrians, descended on the camp of Martin Wilson, a sub-contractor near Spence's Bridge. They were armed with clubs and stones, and they set to work to demolish the camp. They were ordered to leave the camp by the police, but they refused to do so.

Other similar outbreaks have been reported. Contractors declare the men made no demand for increase in wages, and gave no reason for quitting their jobs.

The plot, such as it is, turns on an Egyptian princess, whose flirtatious propensity has attained abnormal dimensions. It incites her to run away from her native country and visit America, where she understands it will have full freedom. But her father has his emissaries in pursuit and in order to escape their watchful eyes, she enters into a mock marriage with a chauffeur in order to claim the privilege of a United States citizenship. As he is already married to an eccentric wife, the resultant complications are sufficiently amusing.

Harry Bulger, who takes the part of the mock husband, long ago won his spurs in broad comedy. He has none of his powers of entertainment. He was well supported by an excellent company, Miss Helen Sheridan, Dale Fuller and Helen Daring were all clever exponents of their roles and Irwin Hardy as Jack Stuart, Harry Dickerson as William Dudley and Herbert Hayward as Ferdinando Dudley filled their parts with acceptance. The comedy depends largely on its general brightness and incidentally on its plot and, judging from the enthusiastic applause, it provided a thoroughly good evening's entertainment. The comedy was finely staged, many novel and effective effects were achieved and it went with a go that should ensure big houses. It will be given during the week with the usual Thursday and Saturday matinees.

SEATS FOR "BUNTY"

The sale of seats for the return engagement of "Bunty Pulls the Strings," which commences at the Grand Theatre on Easter Monday, will begin at 9 o'clock sharp to-morrow (Wednesday). The company is composed of the same old Scotch players who were here two weeks ago. As a large number of mail orders have been received, those who purpose seeing this charming comedy should not delay in securing seats.

At the Grand.

"Hanon's Fantasia." Fairly new in the Grand Theatre. "Hanon's Fantasia" is enchanting. It lifts one from this dull, work-a-day world to the regions of gorgeous scenery, to the heights of the glitter and glory of fairyland bowers. The story is different than that which has been unraveled here on many occasions. True, the title is the same, but the tale relates a score of different adventures, and the travels of the beautiful fairy "Fantasia" and her friends, beset by an evil spirit leads them all, not only to the depths of the sea, but into the enchanted castles where none but fairies, wonderful and romantic, live. There is new music, a pretty, clever cho us, and the notables in the cast manage to make a combination of fun, music and drama. The scenery, too, is attractive. There are also many new characteristic Hanon tricks and illusions. Not only grown-ups, but little children, live in hours of ecstasy. "The Flying Butterflies," a thrilling aerial ballet, is somewhat of a dazzler.

At the Gayety.

Ginger Girls. To borrow an expression from the remarkable show given by the "Ginger Girls" at the Gayety this week is a "Ringtailed Snorter" from start to finish. A cast of 60 and three thoroughbred horses, the show is the entertainment that comes-and-goes, give-and-take swing, which draws rounds of applause from even an audience of critics. The old time show in the company, a new atmosphere is lent to the play, which leaves the audience thinking of the performance days afterwards.

The show is divided into two plays—"Janitor Higgins" Ed. Lee wrote. Frank Wakefield and others stars the honors. The last half of the show is called "The Futurity Winner," and depicts a great racing scene with real racing race horses on a treadmill summed up in two words. It is "Some Show."

Amateur Baseball. Frank Clifton, of D'Arcy street, College street, would like to hear from a church league having an opening for a baseball team.

Ohio Central Committee Endorses Taft. COLUMBUS, O., March 30.—The Taft administration was endorsed and President Taft was elected by the Ohio Central Committee here today.

CRACKED UMPIRE ALMOST BEAT US

Toronto Forced to Go-Ten Innings to Conquer Atlanta—Play the Same Team Again To-day.

By D. L. Snedden.—ATLANTA, Ga., April 1.—It is hard enough to beat eleven men, but Joe Kelley and his band of fighting warriors not only beat eleven men of Atlanta today, but also beat one gentleman named Woodward, who undertook to rub Kelley's beauties several times.

Mr. Ump's was very bad, and we had the game won time after time, only to have it given over to the enemy by the umpire. It went ten innings, and Jack Dalton's trusty hickory brought back victory for the last time, and it stood 9 to 8.

LACROSSE CHANGES TO BE DISCUSSED AND VOTED UPON AT ANNUAL MEETING ON GOOD FRIDAY.

Notice has been given to Secretary W. H. Hall of the following proposed amendments to be voted on at the annual convention to be held on Good Friday.

By Frank Doyle of Toronto: To change the residence date for senior and intermediate players from the first of January to the first of May...

By J. W. Le. Gogart, Toronto: To allow juveniles and junior players to take part in any series, without restriction, provided that members of the executive must be members of active playing clubs during their term of office.

By F. C. Waghorne, Toronto: To provide that the question of sudden-death or home-and-home games in semi-finals and finals shall be decided by the clubs interested and the president.

By J. H. Brown, Fergus: To reduce the number of players on junior and intermediate teams from twelve to ten, and to make the length of the field from 100 to 110 yards, as the minimum and maximum distances.

By W. H. Hall, Toronto: To reduce the number of players on senior teams from 12 to 10.

By C. R. McKinnon, Orangeville: That the executive be authorized to take the necessary steps to procure the formation of a national body for lacrosse.

SI GIUFFITTE'S Former "Columbian" player now with Vancouver of the British Columbia League. He is expected in the city to-day to buy up men for Con Jones.

LACROSSE GOSSIP. The Toronto Lacrosse League will hold their annual meeting on Good Friday at the Toronto Y.M.C.A. convention.

Geo. Kennedy of the Big Four is reported as having expected that any of the lacrosse stars should be willing to sign up for \$500 for the season, and seemed surprised when he was told that the Capitals demanded \$100 for their services.

While none of the last year's team have been signed by the executive of the Montreal Club, all have been sent to a man who has promised to give the M. A. A. a first chance for their services.

NEW RACING SHELLS WILL BE HERE WITHIN WEEK—JULY REGATTA ON THE DON'S FINE COURSE.

The Don Rowing Club held their annual meeting in O'Neil's Hall last night, electing committees to represent the club in different aquatic events for the coming season.

The secretary read a letter from England, which said that the new racing shells would arrive here within a week.

The club's financial reports showed up credit cannot be given to Carl William Crawford, president, and other members of the executive.

The following officers were elected for the ensuing year: Hon. patron, Sir William Mulock; Robert Christie, William Robertson, Charles Edwards, W. G. Gooderson, G. H. Gooderson, M.L.A., J. W. Waghorne, president.

By W. H. Hall, Toronto: To reduce the number of players on senior teams from 12 to 10.

HENLEY COURSE ENGLISH OARSMEN SAY IT IS UNFAIR

The unfairness of the courses at Henley has been brought out forcibly by Harry Gold, one of the greatest strokes who ever managed a crew, and coach of the Magdalen College crew that won the "Scull" last year.

"During the last five years 175 races have been won from Bucks and 110 from Berks," said Gold.

"As it is impossible to have a perfectly straight course, owing to the position of the shore, it is inevitable that the course is not a straight line."

"Now, it must be borne in mind that, as at present arranged, the Berks boat is not as long as the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

"The Berks boat is shorter than the Bucks boat, and the distance along the shore is not the same for both boats."

OXFORD WINS BY SIX LENGTHS

LONDON, April 1.—Oxford won the annual race with Cambridge on the Thames here to-day, scoring an easy victory. The race was rowed over as the result of Saturday's fiasco.

The official time for the 4 1/2 miles was 23 minutes 3 seconds.

The result was a foregone conclusion from the start, and there was much less interest than usual in the outcome.

Oxford went into the lead at the first half mile, and from then on it was a procession, almost nearing the finish Cambridge made a desperate effort to cut down their rival's lead, but they had shot their bolt, and could not do much as there was little slapping up on the part of the Oxford crew.

Instead of the fast stroke of Saturday Cambridge began with an average of 30 strokes to the minute, Oxford rowed a steady 22 to the minute, which was maintained as the crew was simply on the water quietly and swiftly.

The scenes before the race were a picture of Saturday, with the crowd on the bridges and along the banks was much smaller, but it made up in enthusiasm what it lacked in numbers.

Oxford's stroke was with it from the outset, and it won the toss, to-day it took the middle side of the river, because of wind, which was penetrating, was from the north.

Printers' League. In the Printers' League, at the Toronto Bowling Club last night, Toronto Typewriter Club defeated the Toronto Typewriter Club in defeating MacLean Pub. Co. in all three games.

Ernie Parkes, for the White Elephant, was high, with Duke Nelson second, with 82, while George Martin won the bonus for MacLeans, with a 45 collection.

St. Mary's House League. In the St. Mary's House League, at the Toronto Bowling Club last night, St. Mary's House defeated the Toronto Typewriter Club in all three games.

Ernie Parkes, for the White Elephant, was high, with Duke Nelson second, with 82, while George Martin won the bonus for MacLeans, with a 45 collection.

Subscription information for The Toronto World, including rates for Toronto, Canada, and foreign countries.

WHAT ARE THEY WORTH?

It is quite probable that congress will empower and direct the interstate commerce commission to make a physical valuation of the railways of the United States. The valuation thus arrived at will be of great assistance in determining what are reasonable freight rates.

There is no reason why railway rates, express rates, telegraph rates and generally speaking, all rates charged by common carriers, should be so intricate, variable and uncertain as they now are.

UNREPRESENTED.

Sir Alan Aylesworth once lamented the dropping of the term "Attorney-General" and the substitution therefor of the continental title of "Minister of Justice."

Public Ownership of Law. The lawyer who conducts a case is no less an officer of the court than the clerk or sheriff, but unlike them he is keenly interested in having the litigation decided in favor of his client.

These Debentures are a Legal Investment for Trust Funds. They are a favorite investment of Benevolent and Fraternal Institutions, and of British and Canadian Fire and Life Assurance Companies, largely for deposit with the Canadian Government.

COUNCIL ACCEPTS HUMBER SCHEME AND TURNS DOWN TRAFFIC EXPERTS

Home Smith's Offer Was Accepted By a Vote of 14 to 9 After a Prolonged Debate, But Cost of Engaging a Firm of New York Experts to Report on Traffic Conditions Caused Council to Turn Down the Proposal—Ettobicoke Railway Question is Settled and Many Proposals Were Referred Back For Further Consideration.

In a nine hours' session which was punctuated with stormy scenes and acrimonious debates, the city council yesterday agreed to accept Home Smith's Humber Valley proposition. The traffic experts, however, were not engaged in spite of the efforts of Mayor Geary. The council also accepted the agreement with the Township of Etobicoke and the Village of Mimico regarding the acquisition of the Toronto and Mimico Radial line. The question of expropriation of Knox College grounds was referred to the parks committee, while the question of spending \$100,000 on water meters was also referred back. A large number of important questions were dealt with and others were not discussed, being left over till the next meeting. The latter part of the evening was featured by the determined obstruction methods of Ald. McBride, who endeavored to have the council meet again to-day.

Humber Valley Scheme.

Ald. McBride's motion on the order paper that the council abandon the Humber Valley park and boulevard scheme was taken up by that alderman, who claimed that Mr. Smith had been misled by the council and that the radial franchise by stating that he had no agreement with the city. "Mr. Smith simply intends to give us some low-lying land," he said, "which will do us no good whatever unless one or two million dollars are spent upon the project."

He claimed that the level must be raised eight or ten feet on the roadway on account of the spring floods. He referred to the trouble which the G.T.R. had in securing solid bottom for the bridges. "Mr. Smith," he said, "is one of the shrewdest financiers in Toronto, and he ought to be congratulated on the way he has pulled the wool over the eyes of the board of control."

The city, he said, "would receive little or no benefit from the scheme. Mr. Smith's proposition. On the contrary, it would mean that if the proposition were accepted, the other city parks would be starved. If we accept the scheme, it will mean that we are taking the money from the workingman to build a millionaire's paradise."

Ald. May said Home Smith could not give the titles he had claimed he could. This scheme would cost the city one million and two million dollars. The five bridges would cost \$100,000 apiece, the fill would cost \$150,000 at least. To acquire the Kennedy and Watson property would cost \$1,000,000. A new bridge will have to be built at Bloor-st., at a cost of \$750,000, and macadam roads would cost \$250,000. The bridge, he said, had arrived at after a person's investigation. He would advocate that the council should go slow. If the scheme was accepted, it would be necessary to annex a piece of territory one area half by two and one-half miles in area.

Controller Hocken said there was no question that the Humber Valley would be one of the most beautiful parts of Toronto in time to come. There had been practically no opposition to the city acquiring the property. The proposition had been all against Mr. Home Smith's proposition, and most of the objections were not in possession of the facts. The only question was whether the city should pay \$200,000 for the park property or get it for nothing. That the city should acquire the Humber Valley for park purposes was undisputed, but a lot of extraneous matters were thrown in, in an attempt to alter the real situation.

According to Ald. Dunn, a conservative estimate of the cost to the city would be \$1,000,000. If the city were to expropriate the land, it could be obtained for \$100,000, he said. Controller Hocken's is the most absurd and impractical proposition, worthy of a lot of school boys. Let the city expropriate that property, he said.

Controller McCarthy recalled the Howard Park proposition, which it was claimed would bankrupt the city if it were accepted. "Every alderman would like to get the Humber Valley, but they don't want to take it when it is given them for nothing," he said. "The agreement, he said, had been misunderstood. Home Smith would be given jurisdiction only over the properties. If the city were to expropriate the property, you would spend just as much, if not more, as you would pay under this proposition."

Mayor. "I took the trouble to see the premier about this last week, and he assured me that it was quite out of the question."

Ald. Anderson said Home Smith had offered to procure the title for the lands in question. This was what could be reasonably expected. "Everybody in this council wants us to acquire this land, but there were different opinions as to how this should be done," he said.

The Vote.

The vote was taken on Ald. McBride's motion following the discussion. "That in view of the statement made by Mr. Home Smith before the private bills committee of the legislature that he had an agreement with the city with reference to the Humber park and boulevard scheme, and that the matter was 'off,' this council deems it expedient to abandon the scheme and hereby declares the matter at an end."

The vote was in favor of the motion (or virtually against accepting Home Smith's proposition) by Mr. Maguire, McMurich, Dunn, May, Spence, Rawlinson, Hilton, McBride and Chisholm—9.

Against (or in favor of the proposal): Mayor Geary, Controllers Church, Hocken, Foster, McCarthy, Ald. McBride, Graham, Rawlinson, Weston, Austin, Yeomans, Wanless, Ryding and Anderson—14.

Refuted the Allegations.

Previous to the discussion, A. Kennedy, owner of the Kennedy property in the Humber Valley, addressed the council and assured them that Home Smith was not able to give a title to all the property he claimed in the Humber Valley. He refused the allegations that he held his own property only so long as he held the title to the land in fee simple, and this fact was recognized by the York Township Council, and had been upheld by the courts. The Humber Valley, he said, was running over the Kennedy property since it had changed its course to the westward during the last 20 years. Mr. Smith was willing to allow the city to use the stream and share on his property. He thought this was a matter the city should take up.

"It is true that there are spring floods which cover the park lands when Mr. Smith wants to give to the city," Mr. Smith wants to give to the city," asked Ald. McBride.

"Yes, some of the worst floods I have ever seen have been on that land, and it is flooded at the present time," was the reply.

Fair Wage Officer.

Controller Church brought up the matter of appointing a fair wage officer. The board of education and the city should co-operate in this matter, which was the city's duty as employer of labor, and numerous contracts were let every year which should be supervised in the interest of labor. The fair wage officer, he pointed out, had been appointed since November last, and he urged that the council should pass a resolution to that effect.

Ald. McBride said that the labor men in the city had never complained about the city's contracts, and hence he thought a fair wage officer was unnecessary. Exception was taken to this statement by Ald. Maguire, who advocated that the city be at least consistent and when they make a contract with minimum wage specifications, there should be some method of seeing that it was carried out.

Ald. Rawlinson's motion to strike out this recommendation was carried.

The following motions were made, all of which were referred back to be dealt with by the committees:

Ald. Rawlinson's notice of motion to introduce a bill to open and extend Victoria-st., as therein mentioned, an appropriate all the affected property under the provisions of the statute, 1909.

Ald. Rawlinson moved that the assessment of the Humber Valley scheme be taken up by the board of control, and the recommendation was altered by a motion of Ald. McBride, which was to the effect that the city's expenditure regarding the project should not exceed \$135,000 during the whole of the next five years. The motion was carried without any discussion.

Limit Expenditure.

Home Smith's Humber Valley scheme came up again in the board of control's report, and the recommendation was altered by a motion of Ald. McBride, which was to the effect that the city's expenditure regarding the project should not exceed \$135,000 during the whole of the next five years. The motion was carried without any discussion.

The question of the annexation of the Humber Valley property raised in some discussion. It was claimed that the property was unimproved and annexation would be a waste of money. The same board was favorable to the annexation.

The board of control's recommendation that the city's property at the corner of Carlaw-avenue and Queen-st. be not sold to the G.T.R., in view of the fact that the G.T.R. was offering a long term of protest from Ald. McBride. A lengthy discussion, in which Ald. Hilton and Chisholm were the chief speakers, followed. After a debate which lasted for over an hour, Ald. McBride moved that the property in question be sold to the G.T.R. and this was lost.

The alderman moved that the matter be referred back, and this also was lost.

A letter was read from H. S. Logan, an official of the G.T.R., urging the council to give favorable consideration to the railway's offer to purchase the city's property at the corner of Queen-

street and Carlaw-avenue, which they propose to use for freight car purposes. The company had been desirous of beginning construction work as soon as possible. He disapproved of the opposition to the railway's application for this land, since the opponents were not in possession of the facts.

Outlining the necessity and scope of the railway's application, the letter said, "You are facing a problem," the letter said, "as to how congestion is to be relieved on the Toronto Railway system. The position of the company is absolutely that in doing what we suggest that can be done, having regard to the proper administration of the street railway system; that the placing of tracks and dangerous highway and traffic congestion."

Expert Advice.

The city's answer to this question was the letter stated, that the company should provide more tracks, and in the case of the street railway, the expert advice. Mr. Drayton pointed out that the new civic car lines, the street railway, are spending \$1,000,000 for traffic radial entrance into the city, the acquisition of the York radial line thru Etobicoke, all thrust upon the city which would require traffic radial entrance into the city.

LAUGHS WITH JOY! NO MORE INDIGESTION

Montreal Man So Ill, Thought He Would Die of Stomach Disorders.

Just read what Mr. Larose says of the curative powers of Dr. Hamilton's Pills:

"I suffered from dyspepsia and indigestion for five years. I suffered so much that I could hardly attend to my work. I was weak and lost all courage. I enjoyed no rest until I decided to follow your treatment. To my great surprise I immediately began to feel better. I am now using the second box of Dr. Hamilton's Pills and I feel so well that I want to tell you that I owe this great change to your famous pills. I recommend Dr. Hamilton's Pills to every person who is suffering from dyspepsia. Your grateful servant D. R. Larose, 238 Joliette-st., Montreal, P.Q."

All who have weak stomachs, and those who suffer with indigestion, headache, biliousness, can be perfectly cured by Dr. Hamilton's Pills. They are a safe, reliable, and powerful remedy for many years, mild and safe. 25c. per box, all dealers, or The Catarthosone Co., Kingston, Ont.

WILL SIR JAMES BE GOVERNOR?

Temperance People Do Not Think They Will Have to Meet Him at Next Election.

"We don't expect to have to meet Sir James again in a general election," was the view of a widely known temperance agitator, who yesterday, when he explained that the Liberal idea was that Sir James Whitney would be the Liberal candidate for the seat of the present government house.

The way the "Grit" figured it was that the banish the bar cry would cause a stampede of cold water Conservatives to Mr. Rowell, and that the temperance Grits who bolted from the Liberal Government, would all line up in the next general election for the new Liberal party.

"Five years ago—even a year ago—only one workman in ten hurt or killed on his duty ever collected or had collected for him any compensation," says Richard Barry in an article on legislation for labor. Before the beginning of 1911, only three states had passed laws providing for the compensation of workmen injured or killed in industrial accidents. These states were Montana, Maryland and New York. The laws of the first states are still in force, though neither can be called a distinctive industrial state.

"It has been estimated," says Mr. Barry, "that between 30,000 and 40,000 workmen are annually killed in industrial accidents in the United States, and that approximately 800,000 are annually injured." In New York State alone more men were killed in the year 1910, in factories, mines and quarries than the national government lost in the Spanish-American war. The Wainwright Commission of New York State in its investigations found that the "a mathematical ratio of industrial accidents of the hazardous trades, depending on the speed with which industry moves, and the number of workmen, and that this ratio is as remorseless and as certain as the death rate which the tables of life insurance are based." In the building trades, the ratio has increased from one to a building to one to a floor. By 1905, in the building trades, the ratio will have in effect competition in most of these already have laws in effect, except in Illinois, where they go into effect July 1, 1912. Pennsylvania's difficulties raised in an industrial period because the English common law is the basis of all action in the courts, had to be overcome.

"In ten other states—Colorado, Connecticut, Delaware, Iowa, Massachusetts, Michigan, New Jersey, Nevada, Texas and West Virginia—commissions have been appointed either by the legislature or by the governor to consider the matter, and existing problems which arise in every agitation concerning employers' liability or workmen's compensation."

How Sweden Promotes Its Fishing Industry.

The application of 550,000 crowns (\$147,000) of state funds for loan to fishermen in the territory around Gothenburg, Sweden, for the year 1912 has been announced. This represents 120 individual loans.

The policy, initiated in 1892, is considered very successful and its results valuable to Sweden and to the district in which it is applied. The object is to encourage the development of fishery and to enable those engaged in it, by the use of money at low interest and on easy terms, to buy boats and motors and improve their equipment and facilities.

"I have tended to keep the industry out of the hands of corporations and large firms; in the control of individuals and small groups."

The open-sea fishing, in the Coteau, and off the Shetland Islands, employs over 200 boats with crews that total 1,700. The mackerel fishery employs some 850 boats and about 6,000 fishermen. Five thousand more fishermen are engaged in the herring fishery. The total value of the annual catch will run from \$1,000,000 to over \$2,000,000. In addition to aiding the fishermen to hold their own in the deep-sea fishery and to extend their operations in domestic waters, the expenditure of this money locally has made possible the development at Lysekil and Goth-

enburgh of a flourishing industry in the manufacture of internal-combustion motors for fishing boats and other rough-service craft.

THE National Cash Register "Get a Receipt" plan protects your profits.

It safeguards your cash sales, charge sales, money received on account, money paid out and the making of change, and benefits you, your customers and your employes.

Giving Your Customers Printed Receipts Enforces Correct Records

This receipt is printed and a record made by the register at the same operation. The amount recorded on the total-adding wheels inside the register is the same as the amount printed on the receipt which is given to the customer.

The giving of this printed receipt to every customer enforces correct records on the register.

It is the most positive way of assuring yourself that no losses occur in handling your money, and that you get a correct record of every transaction.

Your Receipt for Correct Records

These are the adding wheels which show the total of the amounts printed on the receipts issued. They act as your receipt for a correct, unchangeable record. A secret record like this gives you a control on all your business.

Employees' Receipt

The sales-strip is the employees' receipt. The amount printed on it is the same as the amount printed on the customers' receipt and added on the adding wheels.

It enables the employe to prove his efficiency and value to his employer.

Proprietor's, Employees' and Customers' Receipt

These figures at the top of the register show everybody in the store the amount recorded. The amount is the same as that shown on the receipt, adding wheels and sales-strip.

This acts as a receipt for correct records to proprietors, employes and customers.

It will pay you to investigate

THE TOBACCO GROWING INDUSTRY IN NEW ENGLAND.

It is claimed for New England that it leads other States in the growing of a good quality of tobacco, in prices received for it and in possible profits. According to an advance census report, which the Connecticut Farmer prints, New England has 21,000 acres in tobacco, averaging 1,740 pounds of cured leaf an acre, which is valued at fifteen cents a pound on the farm.

No tobacco-growing State outside of New England, of which there are returns from the present census, approaches these figures. The range of values in New England is, however, very wide. Poorly-fertilized crops in a bad year may sell as low as five cents, while the best crops of broad-leaf in some years will bring thirty-three to fifty-five cents a pound at the farm.

For the shade-grown leaf much higher prices obtain. The growers usually handle and ferment their own crops, which in finished condition will bring from seventy-five cents to \$1.50 or more a pound. For the whole crop general costs the farmer from forty to fifty cents a pound to grow the tobacco. He can get from seventy to eighty cents if before it is fermented or sorted. New England probably has as much more land suitable for growing tobacco as is now devoted to it.

Attractive Fixtures —AT— Attractive Prices

We carry the largest stock of Gas Domes in the country, and we have made many attractive propositions to our patrons, but we have never been able to offer such attractive goods at such attractive prices as in this sale.

Gas appliances have reached a highly perfected state, and the simplicity of operation, the beauty of their design, their serviceability, and their reasonable price will surprise every householder who has ever had to purchase lighting fixtures.

ARCHBISHOP WILL REPLY

Rev. Father Burke Advises Toronto People to Withhold Judgment in Morine Controversy.

Rev. Father Burke said yesterday, in reference to the statements made by Hon. A. B. Morine's private secretary in relation to Archbishop Howley.

Our attention has just been called to the accusations urged by Mr. Morine's private secretary against the Ven. Archbishop Howley. Whilst we are not concerned with the political and personal issues entering into this controversy, we believe the Toronto public will be wise to withhold judgment until

Archbishop Howley has been heard from. The very fact that his grace has been chosen by Rome to fill that see, is in itself a sufficient evidence that he is a prelate of the highest standing, and we are unwilling to believe that he would stoop to the things of which he is accused by the gentleman in question, whose evidence carries its own condemnation. We have communicated with his grace by telegraph, and will take pains to place his side of the controversy before the Toronto public at the earliest possible opportunity. Until that has been done, it is only fair and right that judgment should be withheld.

\$25,000 FOR KNOX

Lord Strathcona Cables Gift of Big Sum for New Building.

Lord Strathcona, the Canadian high commissioner, has cabled Principal Gaudier to the effect that he will contribute \$25,000 to complete the \$400,000 which was to be raised by public subscription for the new Knox College buildings. This leaves \$75,000 now to be raised. The canvass in Toronto will be completed at once, and the work finished up as soon as possible.

EXIT LAWMAKERS WITH SOLEMN POMP

Music, Cannon and Ceremonials of a Highly Ornamental Description Made Parliament's Passing Sufficiently Impressive—'Twas a Striking Scene in Red Chamber.

OTTAWA, April 1.—(Special.)—To the accompaniment of the booming of cannon, the blare of martial music and with all the gorgeous trappings of stately ceremonial, the first session of the first parliament of Canada held under the administration of Right Hon. Robert Laird Borden, P.C., to-day passed into history.

Four o'clock had been the hour set and long before that time crowds of interested spectators began to gather along the terrace, braving the chilly wind, which, under lowering skies, swept over parliament hill. A few awaited the arrival of their royal highnesses on the lofty vantage ground of the roof of the new wing on the commonside, getting a bird's eye view which well repaid the climb.

It was just 4:20 p.m. when the guard furnished by the Governor-General's Foot Guards sprang to attention and presented arms. The royal standard was run up and the band played the national anthem as the royal carriages, attended by a mounted escort from the Princess Louise Dragoon Guards, drew up under the arches of the great tower.

His royal highness was accompanied by the Duchess of Connaught and the Princess Patricia and attended by Col. Lowther.

The house of commons had met at 8 o'clock and passed the interval after their business was concluded singing songs and generally enjoying themselves.

Hal the Plot Thickens. Then came a surprise. Three taps were heard on the door, and the sergeant-at-arms—Col. Smith is always inquisitive about these little things—discovered the gentleman usher of the Black Rod lurking in the lobby, awaiting a chance to butt in with a summons from the governor-general that the commons attend him immediately in the chamber of the honorable the senate.

But this was not the surprise. The house of commons has seen "Ernie" Chambers before. But "Ernie" Chambers' clothes had mortal eye of com-

You Are on the Bench

YOU—the Public—are the judge. On your good opinion and your good word depends the success of the advertised article. For no amount of advertising will induce you to buy a second time what you do not like. No advertising will offset the bad effect of a dissatisfied buyer.

That is why advertisers must and do maintain the quality of their goods.

Advertisers realize that to turn their outlay for advertising into profit they must give good value. They are not looking for one-time sales. First sales, in most cases, would not pay for the advertising. To be successful, they must make steady customers. So, quality is being put in to bold the trade that advertising produces. Thus, to be sure of quality, one naturally turns to goods that are advertised. And isn't it only reasonable?

TO MANUFACTURERS
You who make good goods and do not advertise—show your confidence in your product. Advertise it. Let the public know that you stand back of your goods to maintain their high quality. Make your trade name the recognized standard in your line.

Advice regarding your advertising problems is available through any good advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building. Enquiry involves no obligation on your part—so write, if interested.

BUMPED BY CAR

H. E. Harcourt, Has Big Bill Against Railway Company.

H. E. Harcourt, engineer on the Wilton-avenue overlow sewer, was bumped by a street car on Wilton-crescent yesterday and received a cut over the eye and an injured back. He was working with a transit in the middle of the track when a car came along and plucked him up on the fender and smashed the instrument. Mr. Harcourt said that he signalled to the motorman when he was 150 feet away, but no attention was paid. The car travelled just a few feet after the engineer was struck. The company will be asked to purchase a new transit, a suit of clothes and pay doctor bills.

LOTS OF COAL

Immediate Danger of Famine Averted by Sunday's Receipts.

The arrival of 610 cars of coal at Mimico yards Sunday night has alleviated the immediate danger of a serious coal famine in Toronto. Superintendent Gillen of the Grand Trunk states that the coal is there for the consignees if they can get it away, and he further says that the company has plenty of engines at Black Rock to handle all the coal brought there by the American roads. About 48 cars of hard coal were in the shipments, which came in on Sunday. Black Rock continues to be tied up despite the statements made by the Canadian railroads to open their lines. The price of soft coal has increased \$1 per ton, and if the situation does not get clearer there is likely to be an advance on that figure.

LIVED SIX YEARS WITH BROKEN NECK

NIAGARA FALLS, Ont., April 1.—(Special.)—After living six years with a broken neck, George Steele died here to-day. His neck was broken when he fell from the roof of the Toronto-Niagara power house when the building was being constructed in 1908. He has been confined to bed ever since the accident, practically his entire body being paralyzed.

NORTHWEST FIELD FORCE

The Northwest Field Force (1885) Association will meet to-night in the lecture room in the armories for the annual election of officers and the transaction of general business.

Boston and Return, \$15.25 From Toronto, Friday, April 5. The only through car service to Boston is via Grand Trunk Railway System. Moreover, this is the only double-track route to Montreal. These points should be considered if you are taking advantage of the low rate excursion to Boston, Friday, April 5. Only \$15.25 return via Montreal. Tickets good returning up to and including April 12. Tickets, berth reservations, etc., at Grand Trunk city ticket office, northwest corner King and Yonge streets. Phone Main 4306.

Sues for Damages Theodore Vanchok is suing the C.P.R. for unstated damages. He lost three fingers thru his hand being hit by a scuttling engine at West Toronto.

PROMINENT BROCKVILLE MAN DEAD.

BROCKVILLE, April 1.—(Special.)—Word has reached here of the death of Chilton Jones at Bermuda, where he had been staying for some time in search of health. His daughter, Mrs. Alban Jones, was with him. Chilton Jones was 77 years of age, and a prominent figure. In late years he was interested in manufacturing pursuits in Gananogue, but made his home in Brockville. He leaves three daughters and one son, Mrs. Alban Bedford Jones, Toronto; Mrs. R. E. Webster, Ottawa; Mrs. A. R. G. Heward, and F. P. Jones, Montreal.

Norman A. Hill at Ad Club. To-day's weekly luncheon meeting of the Toronto Ad Club will be memorable from an address on Business Efficiency by Norman A. Hill, efficiency engineer, of Baltimore. Mr. Hill has made a

JUDGESHIP FOR SAM SHARPE?

OTTAWA, April 1.—Major Sam Sharpe, M.P., has the refusal of the vacancy in the senior county judgeship of Ontario County. While he has not yet decided, it is rather expected that he will accept.

Silver Smuggler Remanded

NIAGARA FALLS, Ont., April 1.—(Special.)—Magistrate Fraser to-day remanded Kalle Mistila, deported from the States while smuggling in 20 pounds of silver ore, for eight days on the technical charge of violating the Mining Act. In the meantime the attorney-general's department will investigate the case.

Spring Skin Troubles

Mothers who have used Zam-Buk know how it cures Spring Skin Troubles in Children or Adults. Mothers who have not yet tried it should note these facts—Zam-Buk was unknown ten years ago, yet such is its merit that to-day it has become the standard salve in the homes of four continents! Zam-Buk is purely herbal; contains no poisonous coloring matter; is used by leading medical men; used in the British Army and Navy; used by all best fitted to know the needs of the skin. Make it your family balm!

Mr. J. C. Bates, of Burks Falls (Ont.), says:—"Zam-Buk cured my three children, who were all broken out in sores to such an extent that it was pitiable to see them. These sores had defied all remedies previously applied, but I am glad to say Zam-Buk healed them."

Miss S. G. Hamilton, of Alliston (Ont.), says:—"My face and hands were one mass of pimples and blotches. These would itch, and when rubbed, broke out into sores. Whenever I put water near the affected parts it caused a stinging sensation and much pain—just as if I had been scalded. Nothing that I applied seemed to do me any good until I tried Zam-Buk. That gave me relief, and a few weeks of the Zam-Buk treatment resulted in a perfect cure."

Zam-Buk cures pimples, skin eruptions, cuts, burns, bruises, piles, festering sores, ulcers, blood-poisoning, eczema, ringworm, bad leg, cracked ankles, and all skin diseases and eruptions. Rubbed well into the parts affected, it cures immediately, rheumatism, and sciatica. All Druggists and Stores sell in 5c. box; three for \$1.25, or post free from Zam-Buk Co., Toronto, for price.

Zam-Buk

Real Estate and Building--News and Opportunities

MACHINERY TO ERECT BUILDING Original Scheme Will Be Used in Construction of McGregor & McIntyre's New Works.

Departing entirely from the usual methods of mill construction, McGregor & McIntyre, in erecting their new structural steel plant on Shaw-street, north of the power line, will do something unique and original.

Some time ago they purchased ten acres on Shaw-street, just north of the cross-town tracks. On this property they will, in a few days, commence laying the foundations for a building about 140 by 400 feet.

VERY LOW RATES AND SPECIAL TRAINS FOR HOMESEKERS.

Those taking advantage of the Homeseekers' Excursions should bear in mind the many exclusive features offered by the Canadian Pacific Railway in connection with a trip to the West.

For the accommodation of Canadian Pacific Railway passengers a special train will leave Toronto on above dates, comprised of Tourist and Colonial Sleepers.

Both Tourist and Colonial cars are provided with the most comfortable and convenient sleeping quarters.

Contagious Diseases. The medical health officers report indicates that the number of contagious diseases in March was considerably in excess of those reported in February.

Table with columns for Disease, Month, and Cases. Includes Diphtheria, Scarlet fever, Typhoid, Measles, Smallpox, Tuberculosis.

Low Rates for Easter. Via Grand Trunk Railway System. Return tickets at single fare (minimum charge twenty-five cents).

In Dread of Croup. The inexperienced mother is always in dread of croup. There is seldom any warning until the child awakens at midnight with the hard, metallic cough and gasps frantically for breath.

My face and hands would itch, and when water near the affected part--just as if I had to do me any good until a few weeks of the cure.

MILK AND CREAM MEN MEET ON SATURDAY

Will Fix Prices for the Summer—Seed Fair in Markham—Big Customs Increase.

WEST TORONTO, April 1.—A year of remarkable expansion in manufacturing industries is evidenced by the receipt of the duties at the West Toronto customs house, where the importers are chiefly manufacturers. In the fiscal year which closed on Saturday, the duties amounted to the large sum of \$625,288.38 as compared with \$518,206.76 in the year immediately preceding, an increase of \$107,081.62.

SEED FAIR

The annual seed fair in connection with the West York Farmers' Institute will be held in the town hall, Markham, on Thursday, April 4, at 2 p.m. F. C. Hart, B.S.A., Galt, will speak on "Seed Time Thoughts."

MILK AND CREAM PRODUCERS

An important meeting of the association will be held in the Labor Temple, Room 1, Church-street, Toronto, on Saturday, April 6, commencing at 1:30 p.m.

CREDIT AUCTION SALE

The World wants to direct the attention of its readers to the auction sale of farm stock, implements, etc., belonging to J. A. McKee on lot 21, corner West York and Danforth, April 3. This sale offers an exceptional opportunity to buy good horses, cattle, sheep and all fine Holsteins, and cows in milk and young cattle rising one year.

CHICAGO GOSSIP

J. P. Bickell & Co. from Logan & Bryan. All the conditions are against the price for new crop months. The very small stocks of wheat at Liverpool which started covering in the English market seemed to be affected at once by the world's shipments greatly in excess of the Saturday estimate.

Chicago Markets

Table with columns for Wheat, Corn, Oats, and other commodities, listing prices and market movements.

MONTREAL PRODUCE

MONTREAL, April 1.—A fairly good business continues to be done in Manitoba wheat over the cable. The demand was good and the prices for all species were bid to bid higher.

Brokers Enthusiastic Over Prospects of Porcupine Camp

MINING STOCKS REFLECT REVIVAL OF CONFIDENCE

Crown Chartered Leads General Upturn in Porcupine Shares—Brokers Return From the Camp in Optimistic Mood—Flurry in Island Smelters.

World Office, Monday Evening, April 1. The mining market to-day evidently reflected the enthusiasm of the brokers who had been in the Porcupine camp for the week-end. Trading was on a more active plane than during the last few sessions, and the undertone brightened considerably, so that several issues were carried materially higher. It was significant, however, that operations were generally confined to specialties and on the whole the improvement was restricted in scope. The bullish enthusiasm was undoubtedly aroused by reason of the big celebration in Porcupine on Saturday. The Toronto reputation comprised some of the most influential brokers and all of these were highly impressed with the possibilities of the camp. On this ground it was only natural to expect that their visit should prove a favorable factor in the stock market to-day.

Crown Chartered in Lead.

Crown Chartered was the real feature of the session, this stock being in exceptionally strong demand and scoring a sharp advance under the improved call. The price got as high as 23, an advance of 5 points from Saturday's high level and a new record since the January slump. At the close traders were still bidding 23, with stock on offer at a fraction higher.

While an upward disposition was shown by the general list price changes by no means equalled that noted above. Standard rose to 15, Vipond up to 45; Preston advanced, a couple of points to 12, and Dome Extension rallied a point to 10; Hollinger was quiet but comparatively firm. Elsewhere values were about unchanged.

Almost Wrecked the Dome Celebration

PORCUPINE, March 30.—(From Our Man Up North.)—The Dome celebration, which was the main feature of the week-end, was almost wrecked by a fire which broke out during the night. The celebration, which was the main feature of the week-end, was almost wrecked by a fire which broke out during the night. The celebration, which was the main feature of the week-end, was almost wrecked by a fire which broke out during the night.

Improved Undertone

The market on the whole showed a distinctly improved undertone, and clearly reflected the incoming of an improved public speculation. Further activity would seem to be promised for the near future, and in view of existing bullish feeling extent on the street, the disposition to the list should continue favorable.

Plenaureum Taps Vein At 200 Foot Level

New Discovery in Cross-Cut Between Shafts—High Values Indicated.

PORCUPINE, March 30.—(From Our Man Up North.)—Cross-cutting at the 200-foot level between No. 1 and No. 2 shafts, on the Plenaureum, near the east and north end of Pearl Lake, reveals a new vein that is known to run under the lake bottom. No assay tests have yet been made, but the vein bears every indication of being a rich one.

Eastern Whitney In the Limelight

Aggressive Mining Planned at Keora Property in Three Nations Belt.

PORCUPINE, March 30.—(From Our Man Up North.)—Eastern Whitney again looms in the limelight. The Keora Mine has started work. A small boiler and a steam hoist have been installed for future deep sinking. The main shaft is down to the 50-foot level, and with the aid of the prospecting machinery it will be deepened to the 100-foot depth.

Hollinger Reserve Installs a Plant

Ogden Township Property Looms Up as Promising Holding—Shaft Down 45 Feet.

PORCUPINE, March 30.—(From Our Man Up North.)—Ogden Township should soon join the big triumvirate of gold producers to the north of it. The Hollinger Reserve Mines, Limited, H. Wilkie Evans, manager, will install a 60-horse power boiler, a six-drill compressor steam boiler, and pumps. The machinery is to be taken in this week before the spring thaw affects the present good condition of the shaft.

Announcement

Mr. J. Thomas Reinhardt begs to announce that he has opened a London office at 101 Broad Street, directly opposite the London Stock Exchange.

Electric Drill Tests.

PORCUPINE, March 30.—(From Our Man Up North.)—Demonstrations of electric drilling are being made at the Dome Extension this week by representatives of E. W. Germer, in the presence of the Dome Extension holders, several of whom are here for the Dome celebration. Should the tests prove satisfactory, undoubtedly the management will try out the shaft.

Porcupine Information

The recent inauguration of stamp mill operations at the Dome and McIntyre properties presages a revival of interest in the Porcupine camp such as promises to exceed the early history of the district. The stock markets have already awakened to the fact Porcupine is on the eve of coming into its own, and will commence gold shipments in the near future.

The Porcupine of To-Day

The big Hollinger Mill of 40 stamps capacity, which is fast nearing completion. The building on the right is the stamp mill; that on the left the crusher house. Operations are expected to commence about April 30.

H. O. THOMAS & COMPANY Mining Securities

Traders' Bank Building, Toronto, Ontario Telephone Main 5607 Cable Address—"HOT," TORONTO

NOTE The Location of the Martin Ground

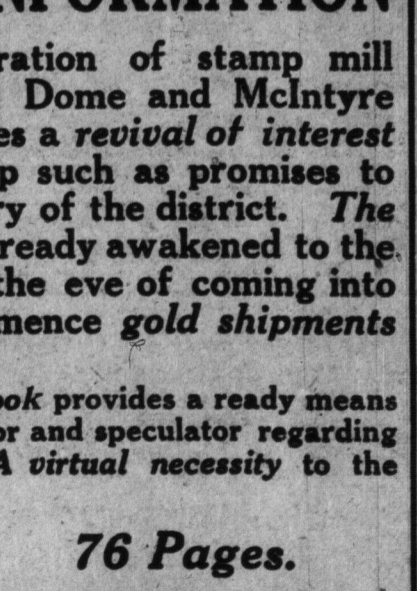

Work on the "MARTIN" property has been uninterrupted by adverse conditions in the stock market. Stripping of demonstrated lodes and diamond drilling have proven extensive mineralized zone. Shaft sinking to begin immediately.

As an evidence of good faith we submit the following letter:

To Whom It May Interest: I have just returned from the Porcupine gold mining district in Northern Ontario. I visited Porcupine with H. O. Thomas, Stockbroker, of Toronto and John W. Wilson, E.M., Engineer of Mines, in charge of the property of the MARTIN PORCUPINE MINES, LIMITED. I visited Porcupine for the purpose of satisfying myself that the district was as described and would become a great producer of gold. This was my object in general. In particular, my purpose was to examine with great care the property of the MARTIN PORCUPINE MINES, LIMITED. I was shown every courtesy by Messrs. Thomas and Wilson. I was shown the district and its wonderful properties already developed and producing. I examined the "MARTIN" ground with great care. I talked with practical miners and engineers whom I met while in Porcupine, and I am satisfied that Porcupine Camp will be a great producer of gold bullion for years to come. I am further satisfied that, under the able direction of Engineer John Wilson, the "MARTIN" property will make a mine. While in Toronto I met the Officers of the Martin Company, and I am further satisfied that the administration of this Company's affairs will always be upon the highest business principles. Finally, I state, without hesitation, that I propose to buy "MARTIN" Treasury Shares. I shall advise my friends to do so likewise, and I submit the above to those who know me in the State of Pennsylvania and say that I believe the purchase of "MARTIN" Treasury Shares at 40c per share, or 40% of their par value, presents an unusual opportunity—an opportunity almost without precedent. I recommend the purchase as a sound, safe investment, surrounded by wonderful profit possibilities. Signed this first day of April, 1912. J. B. HAAS.

Mr. J. B. Haas is a prominent citizen of Eastern Pennsylvania. The people of Eastern Pennsylvania are alive to the opportunities for investment in Northern Ontario. We join Mr. Haas in advising the immediate purchase of MARTIN PORCUPINE MINES, LIMITED, Treasury Shares at 40c per share.

Correspond with us on the subject at once. Buy before the advance.

Everything is Now Complete for Easter at The Simpson Store

Down one side of the broad first floor of the Store is spread the big Men's Store, crowded—perhaps overcrowded—with a wealth of Spring wear for men.

Have you been in this section and appraised its really wonderful values? If not, now is an excellent opportunity when crowds of others make a visit more a matter of sight-seeing, less of definite buying.

Notice particularly the very high-grade of the clothing shown—a grade that is strictly maintained in every garment.

Men's New Spring Overcoats

Pin your faith and your Easter rose to a Simpson Overcoat, for they will surpass, in quality, style, and value, your highest expectations. Here is a Ten-Dollar Overcoat, which cannot be excelled in value or style, made from an English tweed, in the new browns and in the new greys, in herringbone weave. They are made on the new, single-breasted, Chesterfield style, with good linings, best workmanship, and perfect-fitting lines. Sizes 34 to 44.

Light grey English tweed spring overcoat, in a fancy stripe, is made single-breasted, Chesterfield, to button through. Has good wearing mohair linings. Best workmanship, and a very sprightly young man's overcoat. Price 12.50

There is a constantly increasing big demand for a spring weight overcoat without any lining, and made in a single-breasted style with raglan shoulders. This English tweed coat in light grey color, herringbone weave, is a beauty. Satin lined sleeves, perfect fitting, and given the very best tailoring. Price 20.00

"DURWARD" MADE ENGLISH OVERCOAT
Here is one of those classy English-designed and man-tailored overcoats, made from an Irish homespun cloth, in a light grey and brown mixed pattern, single-breasted style, patch pockets, English raglan shoulders, cuffs, or sleeves, leather buttons, unlined. Price 26.00

N. B.—For English opera coats, street coats, golf coats, and English cravenette and barberette coats, this is "headquarters." If there is an English coat want in your family we will satisfy the most exacting taste.
