Mirafal Finished Second, Mont d'Or Third and the Western Crack, Traverser, Also Ran—Sloans Lands a Couple—Hamilton Race Begins To-Day.

New York, May 30.—The Gravesend course held more people today than on Saturday, when the great Brooklyn Handicap was run, and those present had another taste of the quality of the game 3-year-old Sir Fox, for, in spite of his brilliant race in the Brooklyn Handicap, he held up 111 pounds in the Broadway Stakes and won easily from Mirafal, Mont d'Or and the fast westerner, Traverser, and then the crowd shouted, "The start was good and Traverser went out at once to make the running. Sir Fox was a length behind and Mirafal another behind him. They ran this way around the lower turn and up the back stretch, when Sir Fox, who was carrying the former leader, too, for he had done an excellent race, and Sir Fox was a couple of lengths behind, and Sir Fox took him up a bit for a final rush if necessary. The race never came, however, and Sir Fox won very handily. Summary: First race, 3 furlongs, 1:10.10 (Sims), 11 to 1; Extreme, 10 (Lewis), 7 to 1; Dr. Parker, 10 (Jackson), 11 to 1; Time 1:04. ## THE TORONTO WORLD ONE CENT MORNING PAPER.

NEW BRITISH COPYRIGHT ACT. Lord Herschell's copyright bill appears to be designed especially in the interest of American publishers. At the present time, in order to secure both Imperial and United States copyright, the publishers of the United States have to publish simultaneously in both the United Kingdom and the United States. They are obliged to print in the United States, but that it is only necessary to send books over to England from New York and have them there in time to place them on sale in the two countries at the same time. This of course delays publication in the United States, and Lord Herschell's bill accordingly provides that "the author of an original literary or artistic work first published in any part of Her Majesty's dominions or first published simultaneously therein and elsewhere, shall have copyright in his work throughout Her Majesty's dominions, whether he is or is not a British subject."

Mr. R. Lane, in a pamphlet just issued by him, points out that under this arrangement the American publisher will simply have to ship a supply of books into Canada to publish simultaneously in both the United States and Canada. He also points out that the bill is not a British subject. Mr. R. ## THE TORONTO WORLD

mining the character and the destiny of the nation, but it is not improbable that the influence of the South may very greatly increase in the future. For some years a remarkable industrial development has been going on in the South. It began with the establishment of blast furnaces for the manufacture of pig iron and has extended to many varied industries. Nowhere else in the world, so far as known, except perhaps in Nova Scotia, are the raw materials for iron manufacture—coal, iron ore and limestone—found in such close proximity as in the Southern States. Then for mining the coal, iron and limestone and for some of the work in connection with the blast furnaces very cheap labor is always available, although the skilled workmen employed in the manufacture of iron must be well paid. With such advantages it is no wonder that southern iron manufacturers have been able to lay down iron in Pittsburgh cheaper than it can be manufactured to reach the Atlantic Ocean and have even been able to sell iron in England in competition with British manufacturers. In the old days the people of the Southern States were content to grow the raw cotton and let the capitalists of England and the New England States manufacture it. But a few years ago cotton factories began to be started in the South, and they have made such progress that many of the New England factories have been obliged to close down. As yet the southern mills principally manufacture cheap grades of cotton, but they may later on turn their attention to the finer grades. The Southern States have labored under one great disadvantage—their distance from the markets of the world. This is especially true of those States having their outlet by way of the Gulf of Mexico. There is a long voyage to reach the Atlantic Ocean and even when it is reached their ships are far to the south of Europe. For trade with South America their situation is almost equally bad. South America lies far to the east of North America, and it is a remarkable fact that St. John, N.B., which is over 2000 miles nearer to Liverpool than New Orleans, is also over 200 miles nearer to Rio Janeiro or Buenos Ayres. A great deal of southern trade is done through Baltimore, which is in a much better geographical position for trade with Europe and South America than any of the Gulf ports, but even Baltimore is 750 miles farther from Europe than St. John, N.B., while it is only fifty miles nearer to the South American ports. As regards trade with Europe and the eastern coast of South America, the geographical position of the Gulf States can never be improved, but the fifth form is compulsory in Public Schools, a resolution was passed in which the matter was laid over until next meeting. In the meantime definite specifications will be prepared and new tenders asked for. The Minister of Education again wrote the board, stating that the fifth form is compulsory in Public Schools, and must be taught when requested. It is estimated that outside of salaries in arrears, about \$125,000 will be required for salaries, caretakers, etc., for the coming year. There will also be contingencies such as repairs, etc.

A meeting of the Works and Waterworks Committee of the Town Council was held this evening, when the following estimates were struck for the current year: Works Department, \$870,000, made up as follows: Salaries \$300,000, salaries \$800,000, \$700,000, street \$200,000, sewer maintenance \$150,000, sewer \$175,000, sidewalk repairs \$125,000, sewer \$200,000, waterworks \$600,000, consisting of salaries, \$150,000, supplies \$150,000, repairs \$400,000, sundries \$250,000, sewer \$300,000, water, extension \$100,000, cleaning boilers \$50,000. The sum of \$1,800,000 was estimated for sanitary purposes, including fuel and gas amounting to about \$700,000.

The Lambton Mills team visited Malton on Saturday, where they were royally entertained by the club there. The team returned home victorious, having won by a score of 16 to 8. William Clayton obtained his majority on Saturday, and celebrated the event by a birthday party, at which about forty friends extended their congratulations and spent an enjoyable evening. The local football club played with the New Toronto team on Saturday, and were winners by 3 goals to 0.

East Toronto. Messrs. Ambrose Kent & Sons have put a fine rug in the recreation room of the M. C. A. building at York, for the accommodation of the men of the Grand Trunk Railway who lately purchased new watches. Zion Presbyterian Church of Wexford propose holding a lawn social on Thursday afternoon at the residence of Mr. E. M. Armstrong. It is under the auspices of the Auxiliary of the W. F. M. S.

North Toronto. Rev. James Allen of Sherbourne-street Methodist Church addressed the congregation of the Davistville Methodist Church on Sunday evening on "Lessons from the Life of the Late William Ewart Gladstone." The text taken as appropriate for the occasion was from Ecclesiastes, ix, 10: "Whatsoever thy hand findeth to do, do with all thy might; for thou shalt not bring it back with thee, neither shalt thou carry it away with thee, neither shalt thou be able to bring it back with thee, neither shalt thou be able to carry it away with thee." The speaker said that he had no doubt accounted for his long lease of life. "Necessary exertion was characteristic of many of the present day, and had become one of our errors. God expected the best use of the talents with which He had endowed His creation. Gladstone's noble effort in life was set forward as an example; material success being only secondary to benefiting our fellow-men and serving God. Speaking of the universal sympathy expressed for the dead, the reverend gentleman asked: "Why wait till death for bitterness of alienation to be changed to friendship?" and then dwelt at some length on the necessity for a nobler tone in our political life, whereby caricaturing, misrepresentation and slandering of political opponents would be done away with.

A meeting of the Water, Fire and Light Committee was held last night at the Town Hall. Deputy Reeve Sibbald presided, and the Mayor and Councilors Paul and Armstrong were also present. A number of accounts in arrears were passed in review, and an informal talk took place on the windmill installed at the waterworks some months ago, and which had failed to do any adequate service up to the present time. A charge of wrongful possession was tried before Judge McDonnell yesterday against Mr. Nat Everett. Everett is a farm at Forest Hill, belonging to Mr. Hugh Patton, and claimed to be engaged by one Lawrence, who had leased the farm. The plaintiff sought to show, through Mr. McNeil, that Lawrence had sub-rented the property to Everett in contravention of the lease. The Judge held that under the evidence Everett was only an employe of Lawrence.

Special anniversary services were held at St. Clement's Church, Eglington, on Sunday, and the offering of about \$100 will be made the nucleus of a fund to erect a building to accommodate the Sunday school. The closing exercises of the Epworth League of the Davistville Methodist Church were held last evening at the school house. Mr. C. Bonnick made an amiable presentation, and assisted by Miss Forest, Miss Blake and Miss Hill, the local talent provided an excellent evening. During the proceedings the ladies entertained those present with choice refreshments. This season has been one of the most successful in the League's career, and reflects credit on the president, Mr. J. C. Butler.

Toronto Junction, May 30.—(Special).—Mr. B. Bauteberg gave his popular lecture on "The Jews from the Standpoint of the Jews," in the Annet-street Methodist Church to-night. He was assisted by his son, Bernie Bauteberg, the boy singer, who yesterday sang at the Sunday school. Mr. Holloway, in the C.E.P. shops on Saturday, kicked a gauge-glass he desired to break. The glass cut through his boot, and severed an artery in his ankle, which will prevent him working for a few days. Miss Abbie Walker, an octogenarian who resided on the Montgomery Farm, Weston road, died to-day, and will be interred at Ingersoll to-morrow.

A special meeting of the Public School Board was held in the Council chamber to-night. Mr. A. B. Rice presiding. Several tenders for fencing the St. Clair-avenue school grounds were opened, but being in default, a resolution was passed in which the matter was laid over until next meeting. In the meantime definite specifications will be prepared and new tenders asked for. ## The Drygoods Way of Selling Clothing.

"Let no customer escape," seems to be the motto of most Clothing Houses. Easy to get in, hard to get out. This is not the Drygoods way. Our theory is that lots of folks like to look before they get ready to buy, even in the Clothing Department, so we do all we can to encourage it. We know the quality of our garments and have little fear that anybody will find more satisfactory Clothing elsewhere. We greet everyone cordially, show what we have cheerfully, let people go away without buying pleasantly and await with confidence their return.

We tell you this because we want you to come in and see some suits, which you may not want to buy right away—special lines that we will let the manager of the Clothing Department tell you about in his own way. This is the description he sends to the Advertising Department:

#### SPECIALS IN MEN'S CLOTHING

A HOPELESS INVALID.

Such Was the Condition of Miss Rodd of Brooklyn.

An Editor Relates the Story of Her Illness and How a Remarkable Change in Her Condition Was Brought About.

From The Gazette, Whitby, Ont.

For some five weeks I have been visiting to Brooklyn in search of news. One of his earliest recollections of the village was in noting that Miss Levina Rodd was very ill. Miss Rodd was well known, and as week after week rolled on it was natural to ask how she was getting on, and the reply always came that she was no better. Time went on and it became a settled fact that Miss Rodd was a confirmed invalid and that such she would continue until a kind Providence took mercy on her by allowing her to die peacefully in her bed.

One of the villagers anticipated any other ending. Our astonishment on hearing that she was still alive, as described, therefore, when Mrs. Bert Wells called us one morning with "Well, editor, we have some news for you today."

"What is it?" "Why, Miss Rodd has gone on a visit to Columbus friends."

"Why, I thought she was a confirmed invalid?" "She is, but she has been improving so much lately that she is now able to help herself a good deal, and is thought to be a change of scene would do her good."

"That is certainly news," replied the quill-pusher, "and good news, too; but what caused her to improve?"

"Dr. Williams' Pink Pills," replied Mrs. Wells. "We then decided to ask Miss Rodd upon her return for an interview, but it was some time before it took place, owing to the limited time at our disposal between trains and partly owing to a desire to wait and see if the improvement was likely to prove permanent."

However, after many a visit, she finally called at the home of Mrs. Doolittle, sister of Miss Rodd's, who has carefully cared for her during the long illness. At the request of the editor Miss Rodd made the following statement: "I am fifty years of age and have lived in Brooklyn for twenty years. Five years ago I was taken ill with acute rheumatism, and have not done a day's work since. The trouble began with my feet and the swelling extended to my arms, wrists and shoulders, and finally settled in my neck. I had such pain that I was obliged to use walking sticks to ease me in moving about, and two and a half years ago the sticks had to be put up with crutches. I used to get up a little each day, but it was not long before I was denied even this privilege, and the next six months I was perfectly helpless and bed-ridden. I could not even turn my head or put a cup of tea to my mouth. I got completely discouraged, and was effectually being treated by two physicians and trying the different medicines recommended for my ailment. While I was in this helpless condition my niece came in one day and prevailed upon me to try Dr. Williams' Pink Pills. After taking two boxes I felt a slight change for the better, so I continued to take them, and in a few days I continued to improve slowly, and since I now sleep well, have a good appetite and have gained in flesh. I can stand now, walk about and get in and out of the buggy upon the occasion of my late visit to Columbus. Since that time, too, I feel stronger, and my reason for still using a crutch is on account of my knees being weak and a desire not to overtax my strength."

Miss Rodd was the first time in twenty months that I was able to put my foot outside the door, and my niece had I tried Dr. Williams' Pink Pills in the first place instead of the other medicine used, I am sure I owe my much suffering. I am sure I owe my improvement to these Pills alone."

Mrs. Doolittle, who, as we have previously stated, attended her niece, has since trying illness, was equally strong in her recommendations as to Dr. Williams' Pink Pills. She has brought to my notice, referring humanity in the hope that it might prove a blessing to more than Miss Rodd, who still continues to improve and who hopes again to be able to do her full day's work at no distant date.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every bottle purchased is enclosed in a wrapping bearing the full name of Dr. Williams' Pink Pills for Pale People.

Lakeview House, Jackson's Point. The attention of those who contemplate a summer residence on Lake Simcoe is drawn to the announcement of the Lakeview House, Jackson's Point. The Lakeview House is a beautiful, homelike and convenient summer resort on the southern shore of Lake Simcoe, and is the highest of the great lakes except Lake Superior, it being 704 feet above the sea level and 450 feet above the Ontario.

The Lakeview House was opened five years ago, and has been greatly patronized by the better class of people ever since. Its inauguration, so great is the patronage extended to the Lakeview House that the proprietor has been compelled to build an annex, which will double the capacity of this famous resort. The sand beach in front of the Lakeview House is unsurpassed for safety, and bathing is one of the attractions of the place. The scenery, boating, fishing, etc., are excellent. St. David's Church, which is in the vicinity of the hotel, is one of the most picturesque places in Ontario. The roads round the hotel are excellent, and intending visitors should all take their people. The steam boat Enterprise is owned by Jackson's Point and does a large excursion business on the lake during the summer season. Trains leave Union Station, Toronto, daily at 5 p.m., and arrive at Jackson's Point at 7 p.m., which is five minutes' walk from the hotel. Returning, leaves Jackson's Point at 7 a.m. and arrives in Toronto at 10 a.m. All further information may be obtained from Mr. W. B. Sanders, the proprietor, or Mr. Peter Grant, the manager.

Out of Compliment to the Public. Many of the visitors to the Rational Bicycles at the system situated just above Wellington, while so delighted with the "seat," so pleased to find that the comfort they derive was not to be gained, grumbled about the high price (\$4), in contrast to the "rock bottom" rates in other bicycles in the same class.

As a compliment to the public demand the makers have reduced, for thirty days only, the price to \$2.00, making the "best saddle" the "cheapest," as a matter of first cost. It is a large number of riders who are to be congratulated on their "bicycle" as it has been secured already, although the sale has been on for only four days. Buy now when the chance is here.

BALLOONS IN VALISES.

They Were Made in France for the United States Government.

The New York Sun of May 28 says: The Government may be about to put into operation a plan for locating the enemy's fleets by balloons. These can be operated by day or night, and it is said, they will be sent up from the decks of battleships or transports in front of Santiago. Some time ago Antonio Varile arrived in New York on a French line steamer. He came here with the reputation of being one of the three greatest aeronauts in Europe. The other two are Maurice Mallet and Ed. Chabre, who made Andrew's balloon. Varile came over with a balloon called the Fram, which is now in Seattle. He is stopping at the Hotel Murray.

A Talk About Balloons. Shortly after the war broke out he was talking with M. Chabre, the New York representative of the French publishers of Paris. M. Chabre suggested to him that he talk with Varile about the idea of using balloons with the authorities in Washington. Varile jumped at the idea and immediately went to Washington to see Brigadier-General Greeley, chief of the signal service. The general issued an order for two small balloons to be delivered in New York as soon as possible, as soon as the French steamer in the order he called it to his friend Mallet, who, besides being an aeronaut, is a manufacturer of balloons. The balance of the message was a commission to Mallet to make two war balloons, each having a capacity of 200 cubic feet, and to deliver them in person in New York as soon as possible.

Contraband of War. In ten days the balloons were ready for shipment, but, fearing that they would be seized by the French customs authorities as contraband of war, Mallet packed them in four large valises and took them to Liverpool. The first steamer for New York was the White Star liner Teutonic, and on it were Mallet and his balloons, which were stored away as personal baggage.

When the Teutonic reached her pier on Wednesday, Mallet was one of the first to step ashore, and Varile was there to meet him. The customs officers, however, were from the four big valises in Mallet's luggage as not worth bothering with. Yesterday the valises were taken to Governor Island. Mallet went with Varile to the island. Today he will go to the island to get the valises, and get them ready for shipment to Tampa on Monday or Tuesday. Mallet and Varile have written Gen. Greeley, volunteering to serve in the United States Army. Their services have not yet been accepted, but both men will go to Tampa with the balloons.

What Will Be Done With Them. None of the army officers here would say much about what is about to be done with the balloons, but from one of them the following facts were learned. According to a plan for general use, the balloons were to be used in the following manner: On arrival at Tampa, they were to be placed on two transports or two warships bound for Santiago. Mr. John Williams of Brant Township is the Loser.

Chester, Ont., May 30.—As this morning's express train was leaving Chesley Station a trip to Muskoka was made by the railway. Mr. John Williams of Brant Township, who was left to take a post in the railway car, was unfortunately killed by a horse running away along the railway track in front of the moving train till they came to a cattle guard, into which they became entangled. The horse, which was a powerful one, as the engine driver did his best to stop his train, but on account of a steep grade was unable to get up his train in time.

The Provincial Highwayman. Mr. A. W. Campbell, provincial instructor in road-making, has just returned from a tour of inspection in Muskoka and vicinity, where he addressed large audiences upon his particular topic. Speaking of "The World Yesterday," he said that the roads in Muskoka are very good, much better than the lake shore road in Toronto. At Brantford he addressed a meeting of 200 persons. There are about 300 wheels in the town, and the wheels are enthusiastic about the better question of better cycling has had a good influence upon making the agitation for good roads effective. Farmers used to be opposed to the agitation, because they said it was for the benefit of wheelmen, but Mr. Campbell has shown them that the roads are now being made by night. They will also carry a quantity of shells, which may be dropped overhead whenever a suitable target presents itself.

The danger to the balloons from perforation by the teeth of the animals is slight. Big guns on land or on ships could be elevated to bring the animals within range, and experiments made by the British army have shown that rifle bullets, even if they hit the balloon, glance off without doing any damage.

REV. W. MCKIBBIN DEAD.

A Presbyterian Clergyman Who Had Labored in Different Parts.

Stratford, Ont., May 30.—The death occurred at an early hour this morning of the Rev. W. McKibbin, B.A., in his 67th year. He has been suffering for some time with a disease of the throat. Mr. McKibbin, when quite young, removed to McGill College, Montreal, where he was the theological charge of the Cardinal Presbyterian Church in the Brockville Presbytery. On resigning this charge he went to Milbank, where, for 13 years, he preached, until compelled to retire, through ill-health last spring. He was removed to Stratford, where he has been the clerk of the Stratford Presbytery. He leaves a wife and family of six children, four boys and two girls.

A Modern Line to London. The three large steamship companies, viz.: Messrs. Wilson, Furness and the Leylands, combined and built in 1897 five ships, Alexandria, Boadicea, Cleopatra, Victoria and Winifred, to ply between London and the New York-London route. The steamers are 10,000 tons, making the passage in 10 days, and arrangements are now made for landing passengers at Southampton, if they desire. In view of the immense cargo, which the ships are enabled to carry, and traveling at a slower speed, the rate of passage is \$50, \$60 and \$75, and is made, and reductions for round trip, full particulars of which, together with berth on the Saturday sailing, may be obtained by applying to the company's representative, Balfour Cambel, land, 72 Yonge street, Toronto.

Belleville Items. Belleville, May 30.—Mrs. Catherine Swever, widow of Louis Swever, Rossmore, died this morning, aged 74 years. The 15th battalion team made 74 in the Military Rifle League match on Saturday. It is expected that the 16th Prince Edward Battalion will go into camp here in front of the Lakeview House is unsurpassed for safety, and bathing is one of the attractions of the place. Fat is absolutely necessary as an article of diet. If it is not of the right kind it may not be digested. Then the body will not get enough of it. In this event there is fat-starvation.

Scott's Emulsion supplies this needed fat, of the right kind, in the right quantity, and in the form already partly digested.

As a result all the organs and tissues take on activity.
