DESPAIR TURNS TO SUCCESSIVE JOY AS COOK PARTY NEARED POLE

How the Last Hundred Miles of the Journey Were Traversed By Weary Trio--Became Overheated at 44 Below Zero--Eskimos Looked in Vain For a Visible "Big Nail."

Dr. Cook's own story of his adventurous expedition to the North Pole was commenced in The World of Sept. 15, and instalments have since been published on alternate days. The narrative has been widely read and commented upon, for it has given a most graphic description of the perils and almost unendurable hardships encountered and surmounted. To-day is told how the last one hundred miles in the long journey were traversed.

"THE CONQUEST OF THE POLE."

(By Dr. Fred A. Cook)

ELEVENTH INSTALLMENT.

The observations of April 14 gave latitude 88 deg. 21 min., longitude 95 deg. 52 min. We were but one hundred miles from the pole, but there was nothing to relieve the mental strain of icy despair. The wind came with the same staccato cut from the west. There had been little drift, but the ice before us displayed signs of recent activity. It was more irregular, with an open crack here and there, but the sleds glided with less friction, and the dreary dogs maintained a better speed under rising tides.

With teeth set and newly sharpened resolutions, we set out for that last one hundred miles. Other dogs had gone into the stomachs of their hungry companions, but there still remained pulls of well-tried brute force for each sled, and the noisy vigor had been lost in the long drag they still broke the frigid silence with an occasional outburst. A little fresh enthusiasm from the drivers was quickly followed by canine activity.

We were in good trim to cover distance economically. The sledges were light, our bodies were thin. All the muscles had shriveled, but the dogs retained a nominal strength. Thus stripped for the last lap, one horizon after another was lifted. In the forced effort which followed we were frequently overheated. The temperature was steady at 44 degrees below zero Fahrenheit, but perspiration came with ease, and a certain amount of pleasure. Later, however, there followed a train of suffering for many days. The delight of the birdskin shirt was changed for the chill of the wet blanket. The coat and trousers hardened to sheets of ice, and it became quite impossible to dress after a sleep, without soiling the stiffened furs with the heat of the bare skin. The mittens, the boots and the fur stockings became quite useless until dried out.

FURS SOON DRIED.

Fortunately at this time the sun was warm enough to dry the furs in about three days if lashed to the sunny side of the sled. In these last days we felt more keenly the pangs of perspiration than in all our earlier adventures.

The amber colored goggles were persistently used and they afforded a protection to the eyes which was quite a revelation, but in spite of every precaution our distorted frozen, burned and withered faces lined a map of the hardships en route. We were curious looking savages. The perpetual glitter inclined a squint which distorted the face in a remarkable manner. The strong light reflected from the crystal surface threw the muscles about the eye into a state of chronic contraction. The iris was reduced to a mere pinhole. At all times the ice on the brows and lashes interfered with the decorative effect.

The strong winds and drifting snows encouraged the habit of peeping out of the corner of one eye. Nature in attempting to keep the ball from hardening flushed it at all times with blood. There was no end of trouble at hand in endeavoring to keep the windows of the soul open, and all of the effect was run together in a set expression of hardship and wrinkles, which should be called the boreal squint.

NEARING THE POLE.

This boreal squint is a part of the russet bronze physiognomy which falls to the lot of every Arctic explorer. The early winds, with a piercing temperature, start a flush of scarlet, while frequent frostities leave figures in black; later the burning sun browns the skin; subsequently strong winds sop the moisture, harden the skin and leave open fissures.

The hard work and reduced nourishment contract the muscles, dispel the fat and leave the skin to shrivel up in folds. The imprint of the goggles, the set expression of hard times and the mental blank of the environment have removed all spiritual animation. We have the color and the lines of old russet apples and would easily pass for prehistoric progenitors of man.

In the enforced effort to spread out the stiffened legs over the last reaches there was no longer sufficient energy at camping times to erect a snow shelter. The silk tent was then pressed into use. The temperature was still very low, when the sun was high its congenial rays pierced the silk fabric and rested softly on our closed brows in heavy slumber. In stormy winds was still necessary to erect a sheltering wall to shield the tent, but altogether the change proved quite agreeable. It encouraged a more careful scrutiny of the strange world into which fortune had pressed us—first of all men.

OPTICAL ILLUSIONS.

Signs of land were still seen every day, but they were deceptive optical illusions, and a mere verdict of fancy. It seemed that something must happen, some line must cross our horizon to mark the important area into which we were pressing. When the sun was low the eye ran over moving plains in brilliant waves of color to dancing horizons. The mirages turned things topsy turvy. Inverted lands and queer objects ever rose and fell in shrouds of mystery, but all of this was due to the atmospheric magic of the midnight sun.

With a lucky series of daily astronomical observations our position was now accurately fixed for each stage of progress. As we neared the pole the imagination quickened, and a restless, almost hysterical excitement came over us. The boys fancied they saw beaver and seals, and I had a new land under observation frequently, but with a change in the direction of light or an altered trend in our temperament, the horizon cleared and we became eager only to push further into the mystery.

THE NORTH POLE--From a photograph taken by Dr. Cook.

WYATT COMPANY FAILS; LOSS IS \$150,000

Crash Follows Death of Principal Member of Firm, Whose Personal Transactions Were Responsible.

The suspension of Wyatt and Company, brokers, 46 West King-street, which was announced yesterday morning, did not come as a surprise to those interested in financial circles. With the death of Capt. Wyatt on Thursday last, rumors in regard to the firm were prolific and his fellow brokers knew that the firm was in difficulties.

The assignment was made to E. R. C. Clarkson and the assignees immediately put their men to work on the books to straighten out the tangle which had ensued thru the speculation of one of the members.

The shortage will probably run up to \$150,000 when the outstanding accounts have been closed up and everything balanced. Mr. Maule, partner of the late Mr. Wyatt, has refused to make any statement in regard to the firm's affairs, preferring to wait until the assignees have gone fully into the books.

Ugly rumors are afloat in regard to the transactions of the late Capt. Wyatt intimating that in the stress of speculation, clients' securities left with the firm had been used to tide over the crisis.

The first intimation of the assignment was received on the Toronto Stock Exchange yesterday morning by the secretary, and prior to the opening of business for the day, Secretary Ogden read the notice of the assignment to the assembled brokers. Under the rules of the exchange, liabilities due to stock exchange members by another member must be straightened out on the day of notice. This can only be done by creditors of the defaulting firm either buying or selling securities which the members had with the defaulting firm. The immediate demand for Dominion Steel yesterday morning on the announcement with each purchase that this security was bought under the terms of the assignment.

News on Exchange. The first intimation of the assignment was received on the Toronto Stock Exchange yesterday morning by the secretary, and prior to the opening of business for the day, Secretary Ogden read the notice of the assignment to the assembled brokers. Under the rules of the exchange, liabilities due to stock exchange members by another member must be straightened out on the day of notice. This can only be done by creditors of the defaulting firm either buying or selling securities which the members had with the defaulting firm. The immediate demand for Dominion Steel yesterday morning on the announcement with each purchase that this security was bought under the terms of the assignment.

It has been known for some time that Mr. Wyatt was what is termed a "bear" on the market. He preferred to sell rather than buy, and the consensus of opinion is that his personal transactions were responsible for the failure of his firm.

It is understood that none of Mr. Wyatt's fellow brokers will be at all embarrassed thru their dealings with his firm, as they have a first claim on the seat on the exchange, which is worth between \$18,000 and \$20,000, and which has been distributed from this before any balance is handed to the assignee.

A rumor, which lacks any verification, but which is fairly reliable, is to the effect that Capt. Wyatt was personally short of \$500,000 American securities and that all these short commitments were closed out on the New York Exchange yesterday.

The firm's business was done practically with the Dominion Bank, but as in the case of most other brokers, collateral accounts were held with most of the other chartered financial institutions. It is conceded, however, that these interests are fully protected, having had wide margins on any collateral deposited. It is also affirmed that the firm's New York accounts were well margined. Drawing conclusions from these two facts, the only shortage that could be left to clients who had money in the office or securities which have been utilized in the firm's dealings. The office of the firm was closed yesterday, while it will be several days before the assignees will be able to make any report in regard to the actual position of the many clients which the firm had.

THE CURE OF THE SITUATION

Comparisons of the Toronto Street Railway situation with that in other cities, while interesting in themselves, afford very little material in the way of suggestion or example of what should be done to relieve the city of the disabilities under which it now labors on account of the terms of the street railway franchise and its lack of expropriatory powers. Cities that have no franchise or which have granted a perpetual franchise to street car companies, which receive no payments and exercise no control over fares; and which lie wholly at the mercy of the corporations that operate car systems within their limits offer no parallel to Toronto. In some respects they indicate perils which Toronto has escaped; in others the dangers that may befall.

Toronto has the advantage of democratic legislation in Ontario, which, apart from strictly local agreements, separates the province from the commonwealths to the south in the distinctions made between common people and corporation wealth.

Sir James Whitney has crystallized into legislation one principle, and established as a set-aside policy another, and these only require a third to protect the municipalities completely in relation to public utilities.

Recent legislation laid down the principle that in future no public municipal franchise can be parted with, without a reference to the people of the municipality.

It has been accepted as a principle of government party policy, frequently enunciated in the private bills committee, and supported by the leading opposition members that no more perpetual municipal franchises shall be confirmed by the Ontario Legislature.

Sir James Whitney can complete this policy for the security of municipalities in their relations with public utility corporations by passing an act of the legislature conferring power on any municipality that so resolves to resume any public franchise held by a private company.

There are good precedents for such a course. In the English Lighting Act provision is made for the compulsory resumption of franchises at the end of 42 years, or in case of agreement, at an earlier date. All expropriations in Prussia are also conducted under the provisions of a general act.

Toronto is especially in need of such an act in view of the street railway situation, but Toronto is not asking for anything that is not fair and necessary for every other municipality in the province.

Another power which the municipalities require is the ability to vest in a municipality to buy the stock of any corporation holding a public utility franchise within its bounds. This power granted to any particular municipality with regard to a special franchise might perhaps have the effect of a bull argument upon the stock. But a general measure, applicable to any public utility franchise in any municipality would enable the ratepayers to acquire control of their franchise on ordinary trading terms as the market offered opportunity. Had a right of purchase existed in the case of Toronto the city would have been enabled to control the situation on several occasions in years past when light and street car stocks were under heavy influences. The city, it should be remembered, has a right to buy stock in Consumers' Gas Co. now, at the market price. Why should not Toronto or any municipality be free to buy the stock of any local franchise and also have the right to expropriate on fair terms?

RACING ASS'NS ARE INDICTED

Along With Police and Bookies --Gov. Hughes on War-path Against Betting.

NEW YORK, Oct. 4.—After two years' war against race-track gambling in this state, it remained for the King of Kings (Brooklyn) to grand jury to write a new chapter in the crusade to-day, with indictments against two big King's County race tracks, three police officers, five private detectives and 25 bookmakers.

The Brighton Beach Race-track Association was similarly involved yesterday, but the case failed to go to trial. It has heretofore been mainly against bookmakers or bettors, the defendants being generally exonerated by the lower courts, which held that oral betting was no crime. The first test of these cases will be made by the court of appeals this week.

It was the increase of oral betting, conducted by the so-called "memory brokers," that resulted in this latest evidence of Gov. Hughes' activity and the indictment as incorporations of the Brooklyn Jockey Club and the Coney Island Jockey Club.

This involves a number of most prominent supporters of racing in the U. S. W. K. Vanderbilt owns a controlling interest in the Coney Island Club. The police are indicted for "conspiracy" on the ground that they knowingly permitted the Shespeard Bay track to be used on Aug. 29 last for betting purposes. Inspector J. J. O'Brien is accused also of neglecting his duty in failing properly to supervise the work of his two subordinates.

The private detectives arrested are Seymour Beutler, who was in charge of the race-track force, and for years has been a well-known figure in following the sport on metropolitan tracks, and four of his subordinates.

John G. Cavanaugh, for years the dominating figure in the betting rings of the metropolitan tracks, leads the list of bookmakers indicted, including the best-known bookies in the country.

The new system of betting, which was evolved for the purpose of evading the Hart-Agnew law, has put new life in the racing game and the tracks have recovered a measure of their prosperity, and have been well patronized. The betting system used has involved the use of three bookmakers in the case of each wager, one takes the bettor's money, while another registers the transaction and a third pays the winner on the following day.

It was supposed the three-cornered transaction was so involved as to evade the law.

ADMITS THEFT OF PEARLS

Fred Parrish, 57 Sullivan-street, arrested yesterday afternoon, confessed to the robbery of J. Dawson's jewelry store at Carlton and Ontario-streets.

At that time he declares Malcolm McCollum and Harry Dewsbury of Buffalo waited outside the store while he made a run inside and secured a tray containing \$600 worth of pearl ornaments.

Dewsbury, who was arrested in Toronto for stealing webs of cloth from tailors, and Malcolm McCollum were both remanded for assisting Dewsbury in his early Sunday morning. They were remanded a week in the police court yesterday morning.

FAMILY OF FOUR AND A LITTLE GIRL PERISH

HALIFAX, N.S., Oct. 4.—(Special.)—A boating accident on the Minas Basin resulted in the drowning of five persons. Robert Martin of Melanston, had fitted up a sailboat with an auxiliary motor, and with his wife and two children, Hattie, aged 16, and Percy, aged 14, Mr. and Mrs. Robt. Stiers and their little daughter, Gertrude, aged 3, went out sailing. While Martin was hauling the sail, a squall caused the boat to upset.

Mr. and Mrs. Stiers managed to grasp the upturned boat and were rescued.

WANKLES AFTER MODE ELASTIC CURRENCY

Sub-Committee of U. S. Congressional Commission Visiting Toronto to Study Canadian Banking System.

With the purpose of studying the Canadian system of banking and currency as part of a plan to reform the financial conditions in the United States, a sub-committee of national monetary commission, appointed by congress arrived in Toronto last night.

The confident opinion that the adoption of a more elastic system will prevent for all time the recurrence of monetary panics such as those of 1893 and 1897, was given by Congressman Edward B. Vreeland, New York, who is chairman of the committee and vice-chairman of the commission, which was appointed on the initiative of Senator Nelson Aldrich, Rhode Island, who is chairman.

The commission, which consists of eighteen members of congress, hopes to report to congress next year, but owing to the immense amount of work the time is uncertain. The sub-committee visited England, Scotland, France, Germany and Switzerland during the summer and made careful study of the monetary conditions in those countries.

The members here are Congressman Vreeland, Congressman John W. Weeks, Massachusetts; Senator Julius C. Burrows, Michigan; Congressman Robert W. Boyers, Ohio. They are accompanied by Clifford Hubbard, cashier of the Marine National Bank, Buffalo, and F. C. Buckmaster, Toronto.

They will meet a representative gathering of local bankers in the directors' room of the Bank of Commerce at 10 a.m. to-day, and will leave for Ottawa, Montreal and probably Quebec, where they will confer with local bankers.

System inadequate. Mr. Vreeland, the belief was general thruout the United States that the present banking and currency system was inadequate to the great and growing business and that a more elastic system would have prevented the money panic of 1907. Lack of elasticity was the chief defect of the national bank notes vicesse only upon United States Government bonds, the volume of bank notes issued did not conform to business requirements, as to the price of government bonds.

The chief banking defect related to bank reserves. All national banks had to carry from 15 to 25 per cent reserves against deposits, the reserves ultimately found their way to the New York banks. When business confidence was lost these reserves were called for simultaneously by many banks which couldn't supply so much cash, resulting, as in 1893 and 1897, in general suspension of cash payments.

If the United States were without a national currency system and were building an entirely new one, they would adopt one of the general systems employed by other commercial countries. One was the bank branch system of Canada and Scotland, and the other the central banking system used by European nations. But the United States had a national system 10 years old and had 22,000 banks and branches, so that the commission must simply adapt one or other system to existing conditions.

RESTRICTED CIRCULATION

Congressman Weeks announced candidly that the United States system was out of date and not at all suited to modern conditions. His viewpoint was the impossibility of adding to circulation when business required it. In this respect the Canadian system was largely superior.

The difficulty is that we have no system of branch banks upon which Canada's system is based," he said. Speaking in likewise in touch so rapidly revolving, he said he knew of some manufacturers who had orders booked for a year ahead. The completion of tariff revision had given a great impetus to trade, altho the changes made didn't seem to please the west as they did the east.

AN EASY DOLLAR.

A subscriber suggests that the name Jarvis-street be changed to Rhumely-street. The World will give one dollar for the best reason first given for the change. Address Guessing Editor World.

OUR NATIONAL FUR.

The Labrador Mink Holds the World's Market for Superior Quality.

The beaver figures very prominently in Canada's coat of arms, but, as far as foreigners are concerned, it is the mink, as a fur, that occupies the premier position. For instance, the mink is in the big fur catalogues of Paris are devoted to garments made of Canadian mink. And the price asked exceeds that catalogued for even select Alaska seal.

The manufacturing furriers of London and Paris have their own steamboats running direct between Hudson Bay and Cherbourg and Liverpool. The cargo mostly consists of Canadian mink pelts. Dineen is likewise in touch with the Hudson Bay district and the coast of Labrador. The only difference is that Dineen can sell you a mink garment at half the price that furriers in London and Paris will ask you for one. See the big display in the Dineen show-rooms, corner of Yonge and Temperance-streets. Anyone can tell good Canadian mink by its rich brown coloring and the silky texture of the fur.

Have You a Piano?

Are you going to buy one next year?
 How many "next years" have passed?
 Could you have paid \$6 a month if you had bought one two "next years" ago?
 Are your children growing older—losing time?
 Have you saved up all that money you thought you would "next year."
 Did you know that by joining our Mendelssohn Piano Club (now open) you could purchase a \$340 Mendelssohn Piano for \$258? It costs you only \$10 to join, and the piano is delivered at once. Then you pay \$6 a month (or \$1.50 a week if you prefer) until you have paid \$258—then the handsome piano is yours.

There is no interest added. There are no extras of any kind.
 Think it over, talk it over with your family, act now—you'll never regret it. See the piano or write to-day.

AT THE THEATRES

Royal Alexandra

The Witching Hour.
 Of exceptional intensity and duration was the ovation tendered at the fall of the curtain on the third act of Augustus Thomas' "The Witching Hour," offered at the Royal Alexandra last night. The appreciation was well deserved and testified to the extent of the interest aroused by the strongly unusual situations with which the play abounds, and that hinge on those mysterious forces which exert so peculiar an attraction on the human mind. Possibly the dramatist may have taken a measure of poetic license in attributing to telepathic powers the far reaching scope which plot requires, but he has succeeded in creating their natural character and in heightening the impression they produce by his use of the principle of heredity. These elements, united with a thrilling story of love, of rivalry, of conflict between good and evil influences combine to sustain the fascination of the play and give it a grip which is evidently exerted over the spellbound audience.

Much was due to the well selected company and the artistic completeness of the production. As Jack Brookfield, the gambler, around whom the play revolves, Howard Gould acted with a strength and repression which carried conviction. Miss Helen Robertson showed great emotional capacity in the role of Mrs. Helen Whipple. Her pathos was moving and tragic without exaggeration. Miss Anna Chester, as Mrs. Alice Campbell, and Miss Marion Buck, as Viola Campbell, were both excellent. Harry Leighton gave an able interpretation of the role of Justice Prentice; Harry West as Frank Whipple; Frederick Roberts, as Justice Henderson, and Louis Thomas, as Clay Whipple, were good, and the other parts were competently filled. The play was attractively staged and the large audience gave frequent proof of their appreciation. "The Witching Hour" will be offered during the week, with the usual Thursday and Saturday matinees.

At the Princess.

Mantell in "Macbeth."
 Shakespeare does not appeal to the present generation to the same degree as farcical opera or the latest dramatic apology for immorality, but the audience has not been so far from the average, and large enough to redeem Toronto from the general stigma of unappreciation of the world's literary glory. Of course the presentation of the play is a large factor in drawing an audience, and Robert Mantell has his own share of the compliment in the general crowd that applauded the great scenes and climaxes of "Macbeth." Mr. Mantell has been a conscientious worker for a generation past, and his great gifts of voice and presence and natural talent have matured to a point where in "a temper of guilt and blood" like the part of the Thane of Glamis he is in his most splendid prime. To introduce artistic subtlety into a character study like that of Macbeth whose subtlety is in the change of broad lights to dark shadows; or of Lady Macbeth, whose subtlety is the exhaustion of womanhood by the satisfaction of murderous passion would be to gild refined gold. Shakespeare's "fate and misadventure" is the Prince objective form as in the tragedy of "Macbeth" itself, and in this respect is fully abreast of the latest psychology. It may well be that the effort to add subtlety into Shakespeare is what led to the tradition that his name spelled ruin for the managers. Mr. Mantell and

Liquor & Tobacco Habits

Majestic Music Hall

Svengali Trio.
 Undoubtedly no better exhibition of mental telepathy has ever been seen in Toronto than is being given this week at the Majestic Music Hall, by

three people who call themselves the Svengali Trio. The lady of the party—handsome and with a capable voice—presides at the piano with her back to the audience and plays or sings any well-known song that is suggested to her by one of the men, evidently her husband, who first receives the suggestions from any member of the audience. As he passed thru the audience yesterday afternoon at the matinee selections from well known operas and other classic songs, including Miserere from the Trovatore, Ben Bolt, Holy City, Toreador and half a dozen others, the desired selections were whispered to the medium who closed his eyes for an instant and at once the lady commenced playing and singing, never making a mistake. The audience was also given the privilege of suggesting in a whisper the names of international characters, and at once the other man on the stage, who all the time stood with his back to the audience, impersonated the character, using wigs, false whiskers, moustaches, military clothing, etc., to suit the character. Among the characters impersonated were good Edward, "President" Taft, Napoleon Kitchener, Paul Kruger and others.

Gayety.

Queens of the Jardin de Paris.
 Many features at the Gayety this week are excellent. Yesterday's audience went away satisfied with the "Queens of the Jardin de Paris" is the title of the show. It is a French vaudeville comedy. The company is very strong in regard to the Russian equivalent; Clemens Brothers, musical comedians; MacCarthy and Major. Two little athletic girls direct from the Impresario's some new steps in dancing, give an insight into Russian vaudeville.

Star.

Sam Severe's Company.
 Sam Severe's company, at the Star Theatre, came fully up to the expectations of the crowd who were yesterday afternoon and last night. The company came well recommended and sustained all that had been said for them. The curtain raiser is a real funny farce, "The Hoodlum's Holiday and Pipe Dream." In this a score of chorus girls, regaled in snowy white costumes, make an immediate and a most effective entrance in a manner in his efforts as a comedian, and laughs were regular every night. Kennedy is well supported by Ed. J. Morris, Al. Bruce, J. G. Gibson, Stevens, Mabel Calvert and Del Netra. The house caught on to the caty music and to-day it is whistled all over the city. Ritchie was numerous and J. G. Gibson has everything to be proud of in what he terms a musical romp in "one pomp." The second act of fun, kept the house in a continuous outburst of laughter.

Suing Street Railway.

The fatal accident at the corner of King-street and Strachan-avenue during exhibition last year, was recorded in the jury assizes yesterday, when the action of Wm. R. Reid against the Toronto Railway Company for \$150,000 damages, being paid to the widow of the deceased, was heard. Reid was driving a trolley car belonging to the Vernal livery, and was run into by a street car. Mrs. Margaret Mitchell was killed, and sustained two broken ribs and a dislocated shoulder. He claims that the street car was coming east at 10 miles an hour, and that he was going at a moderate clip, he could have gotten his rig out of the way.

Q. O. R. Tactical Exercises.

One hundred and twenty-five young men have been recruited into the Queen's Own Rifles, and the strength up to about 80. Recruiting closed last night. The regiment will hold tactical exercises at High Park in the 15th.

A Magnificent Instrument that Anyone Can Play

Autonola

"Made in Canada."
 The growing tributes that are paid to the Bell Autonola every day best indicate to us the remarkable hold that this instrument has secured upon the attention of people who appreciate the value of having piano music at command without being able to play a note for themselves.
 During the past few weeks we have been taking in part payment practically new grand pianos and uprights. Does this not indicate something to you? Can not we arrange to take yours also, and receive the difference in small sums month by month?
 We mail illustrated catalogue to any address on request.

Bell Piano Warerooms

146 Yonge Street

Queen Quality Shoes for women

"Queen Quality" shoes are much larger than those of any other shoes for women.
 No words can tell you why women like "Queen Quality" better than any other shoes.
 But the shoe can tell you and you will never wholly forget its story.
 The new models just received

THE SIMPSON COMPANY, LIMITED

University of Toronto

Supplemental Examinations in Faculty of Applied Science.

The following are the results of the September written supplemental examinations in the faculty of applied science and engineering of the University of Toronto. The names are arranged in alphabetical order. Where the name is followed by a number, the candidate must pass a supplemental examination:
 First year—G. L. Berkeley (dynamics), F. M. Brinkenden, N. S. Buchanan, A. O. Boswell, T. W. Brachford, L. R. Brewster (trigonometry), W. B. Goodham (chemistry), D. G. Calvert (elec. and mag.), C. D. Campbell, M. E. Conway (mineralogy), E. S. Davison (trigonometry, dynamics), C. F. Elliott, G. Eckert, E. K. Finckel, D. Fyfe (algebra), W. Farquharson, E. L. Frankel, S. G. Gratton, H. P. Gosdon (mineralogy), T. G. Gravelly, R. E. Green, J. H. Goodham (trigonometry, elec. and mag.), H. E. Harcourt, E. K. Heunberger (chemistry, electric circuits), L. R. Junkin, J. Lawless, A. W. P. Lowry, W. H. Lawrence (chemistry), L. B. Lytle, F. R. Mortimer (chemistry), M. H. Murphy, J. A. Morphy, H. S. Murray (algebra, trigonometry), C. A. Meadows (mineralogy), F. C. Russell, P. Rutley, T. F. Rowe (trigonometry), J. Sheard, J. W. Scott, J. E. Temple, G. C. Flint, R. C. Follett, E. K. Finckel, Wardell, A. G. Wheeler, G. A. Wood (chemistry), W. H. Wylie, G. L. Wallace, G. H. Wilkes, C. S. Wood, W. E. Zinkin.

Second year—W. C. Amodeo, E. Archer, J. A. Baird, H. A. Barnett (organic chemistry), M. J. Barry, H. Blackwell, F. W. Clark, W. H. Barry, N. S. Caldwell, W. H. Lawrence (chemistry), L. B. Lytle, F. R. Mortimer (chemistry), M. H. Murphy, J. A. Morphy, H. S. Murray (algebra, trigonometry), C. A. Meadows (mineralogy), F. C. Russell, P. Rutley, T. F. Rowe (trigonometry), J. Sheard, J. W. Scott, J. E. Temple, G. C. Flint, R. C. Follett, E. K. Finckel, Wardell, A. G. Wheeler, G. A. Wood (chemistry), W. H. Wylie, G. L. Wallace, G. H. Wilkes, C. S. Wood, W. E. Zinkin.

City Engineer Rust announces that he has serious objections to peregrinating about the city in an auto labeled "City of Toronto."
 Seventy appeals against assessments in the fourth ward were heard by the court of revision yesterday, and as many more will be dealt with to-day. Alterations as the result of yesterday's appeals were trifling.

WOMAN THROWN OVER CLIFF

HUSBAND AND SON ARRESTED.

BIRCHCOVE COVE, Nfld., Oct. 4.—Charged with having murdered Mrs. Collier and thrown her body from the top of a cliff, the woman's husband, Solomon Collier, and her son John Collier, were arrested to-day at their home at Port-au-Pas, Nfld.

Forestry Class on Furlough.

The senior forestry class in the University of Toronto have been given a two months' furlough to do forest geology and measurement on the C.P.R. short line, in Maine. Beginning with next session, the practical work of the senior year will be in the autumn, which will give them an extra couple of months in the bush.

Mrs. Turner Again Remanded.

Mrs. Mabel Turner, wife of the miler of the street, was remanded a week by Magistrate Denison, pending the completion of the inquest into the child's death. Dr. Dunlop, held on a vagrancy charge, was also remanded a week.

LEAP OF \$10,000,000 IN WARD 3 ASSESSMENT

Taxes to be Levied on Nearly \$10,000,000—Population Decreases Almost 3000.

An increase of \$18,117,782 in the third ward assessment is shown by Assessor Commissioner Forman's official statement. The taxes assessing \$20,117,782, as against \$2,785,126 for 1908, at 1-1/2 mills this means \$35,582 more taxes.

It is to be noted that the population, estimated at 14,611, shows a falling off of 2885, as 47,489 were last year's figures. The gross assessment of the whole ward is as follows: Land, 1910, \$57,222,515; 1909, \$42,072,282; increase, \$15,150,233; Buildings, 1910, \$33,013,902; 1909, \$30,443,637; increase, \$2,570,265; Business, 1910, \$20,307,808; 1909, \$18,882,209; increase, \$1,425,599; Income, 1910, \$8,278,275; 1909, \$7,967,408; increase, \$310,867; Total assessment, 1910, \$118,282,507; 1909, \$105,965,333; increase, \$12,317,174.

The exemptions from taxation are as follows: 1910, land, \$5,016,164; buildings, \$2,925,225; total, \$7,941,389; 1909, land, \$3,336,889; buildings, \$7,741,783; business, \$248; total, \$11,081,127; increase, \$1,858,262.

Net Assessment.

The net assessment on which the taxes will be collected is: Land, 1910, \$52,206,351; 1909, \$39,460,383; increase, \$12,745,968; Buildings, 1910, \$30,110,675; 1909, \$28,572,573; increase, \$1,538,102; Business, 1910, \$20,307,808; 1909, \$18,882,209; increase, \$1,425,599; Income, 1910, \$8,278,275; 1909, \$7,967,408; increase, \$310,867; Total net assessment, 1910, \$110,902,038; 1909, \$97,788,129; increase, \$13,113,909.

Stynged Tender Problem.

On giving due consideration to the park commissioner's statement that he had purchased supplies exceeding \$200,000 had been authorized to do so, the parks committee exonerated Mr. Wilson. He had been authorized to do so as give him the privilege, altho the city council had recommended that he be allowed the right. A tacit agreement was made that the \$200,000 limit not be exceeded in future unless the bylaw is properly fixed up.

Influenced by the strong recommendation of the mayor and assessment commissioner, the committee veered round in favor of buying for \$63,500 the Laratt Smith estate property of 6.77 acres, adjoining Reservoir Park. Mr. Foster, however, voted contrary.

The parks commissioner reported the receipt of accounts from S. Tidy and Son, Toronto, and a company in England, for plants called for by the city council several years ago, altho no record appears on the books of the department. As there were no funds to meet the claim, they were turned over to the board of control.

Hanlan's Point Plans.

The island committee thought it would be better to have a report by the assessment commissioner as to the rental to be charged the ferry company under the new Hanlan's Point lease, before approving the plans to acquire in extent, and turn it over to the company in return for the acquisition by the city of half the Durnan lease property of six acres.

Manager Solman announced that concrete would be used as much as possible in constructing the half dozen assessment buildings at the point, and that an independent fire protection system, costing \$25,000, would be installed. The grand stand will be built of concrete and steel and will cost \$15,000. J. B. Atkinson, lessee of the western sandbar baths, was given a return of \$500 on his year's rental of \$28,400, because of loss of business thru the dangerous state of the bridge across the lagoon.

Yonge Street Traffic.

In support of his contention that vehicular and pedestrian traffic on Yonge-street needs relief, the city engineer has prepared statistics covering several days.

It is shown that on Sept. 28-29 the average number of pedestrians going south on the west walk of Yonge-street between King and Adelaide-streets, during 8.30 a.m. and 6.30 p.m., was 21,322, while for the same period the number going north was 13,484.

On Sept. 28, during the same hours, the number of vehicles proceeding north on Yonge-street, above to Queen-street, was 648, and going south 512, while south of King-street 860 were going north and 735 going south.

New Factory

Ex-Aid. Henry Sherris admits that he has majority ambitions. His candidature is stated to have been endorsed at an informal meeting of the Conservative managers of the second ward.

City Engineer Rust announces that he has serious objections to peregrinating about the city in an auto labeled "City of Toronto."
 Seventy appeals against assessments in the fourth ward were heard by the court of revision yesterday, and as many more will be dealt with to-day. Alterations as the result of yesterday's appeals were trifling.

TO THE WORLD'S OUT-OF-TOWN PATRONS

We have opened our new business office ON THE GROUND FLOOR of our handsome new building on West Richmond-street, just opposite The Christian Guardian, and will be pleased to be of service to all patrons and friends of Toronto's brightest morning newspaper.

Day's Doings

YORK TOWNSHIP COUNCIL.

Reeve Henry, Deputy Reeve Watson, Barker and Nelson and Councillor Jackson were present at yesterday's meeting of York Township Council, when a good deal of important legislation was put thru. A money bylaw for the sum of \$4585.17 was passed. Among some of the items were accounts totaling \$219 in connection with the new cement and steel bridge over the Black Creek, near Mount Dennis, and \$3700 in general purposes.

The railway commission will meet in the city hall on Tuesday, Oct. 12, to hear the complaint of the municipality of Wilmersden and Ellis-avenue railway crossings. York Township will be asked to show cause why they should not make the payments demanded by the Grand Trunk Railway for watchmen, Earmey & Hassard, acting for W. T. Pember, want the township to reimburse the latter for the loss of a horse said to have been permanently injured thru some defect in the roadway. They threaten action, but the time limit when any action can be entered against the township of York is said to be past. The matter was referred to the solicitor.

George Syme appeared before council and made a strong plea for the putting down of a five-foot sidewalk about 250 feet north from St. Clair on Alexander-street to the new school house. The ex-revee was successful and the sidewalk will go down.

FOR BOLTON FAIR

A special train will leave the Union Station at 12.30 this afternoon for the Bolton Fair, which opened yesterday.

WYCHWOOD.

WYCHWOOD, Oct. 4.—(Special.)—One of the finest local organizations ever founded in the village is the Salvation Army Brass Band, which was established about a year ago and numbered 100 members. While the band have been unsparring of themselves in furnishing good music for the district they are also present in the community at all public functions. The band have been assisting in the work of the organization desiring to assist in the work can give any contribution to the bandmaster, S. White, or the officer in charge, Capt. Auld. The Wychwood Salvation Brass Band merits some substantial recognition.

WEST TORONTO.

WEST TORONTO, Oct. 4.—Police Constables Croome and Ferguson of No. 7 division and P. C. Hazelwood from No. 3 division went on duty to-day in West Toronto to take the place of ex-Serpt. Peters and P. C. Lavery and Goodham, who have been transferred to city stations. "Burt" Peters, as he was familiarly known in West Toronto, has distinguished himself on several occasions in capturing criminals and his removal from ward seven will be looked on with regret. P. C. Lavery and Goodham, who have gone to Ossington-avenue station, were also quite popular with the general public during their stay in West Toronto.

Altho just opened to the public the new public library has already become a favorite attraction in the evening for scores of West Toronto people. The handsome and commodious building, brilliantly lighted, presents an attractive appearance.

Remainder of Joseph Paul, 95 Mu-

Woman Brutally Treated.

LANING, Mich., Oct. 4.—Mrs. W. B. Scott, wife of a baker, was found in the wooded area of her home gagged and suspended by the wrists from the rafters, so that her feet just touched the floor. Two masked men, who had ransacked the house, had tied her up for more than two hours.

S. A. Colonies in the West.

WINNIPEG, Oct. 4.—(Special.)—Commissioner Coombs of the Salvation Army announces that arrangements have been completed by which extensive settlements will be established under the direction of the Salvation Army, on the irrigated lands of the C. P. R. east of Calgary, and also on Vancouver Island.

Turkish Loan Taken.

CONSTANTINOPLE, Oct. 4.—A group of British financiers, represented by Sir Ernest Cassel, and the Ottoman Bank syndicate, have accepted the government's conditions for the projected Turkish loan of \$35,000,000. The price has not yet been fixed.

McMaster Commencement.

The annual commencement exercises of McMaster University will be held in Castle Memorial Hall, Friday evening, Oct. 8, at 8 o'clock. Prof. G. H. Campbell will deliver a lecture on "The Women of Rome." The new lecturers on the staff will be introduced to the students and the prizes and scholarships won at the May examinations will be presented.

Advertisement for 'INFLEXIBLE' TO RACE AGAINST MAURITANIA RECORD. NEW YORK, Oct. 4.—Admiral Seymour, in command of the English sloop, on here for the Hudson-Fulton celebration, plans to end his little "outing" with a record-breaking trip home with his flagship, the inflexible. He is going to try to beat the record of the Mauritania to the other side—four days 11 hours and 25 minutes. Mauritania, which leaves here on Wednesday, has an average speed of 25.37 knots. Inflexible, it is claimed, can keep up a pace of more than 26 knots. The warship will leave here next Friday morning.

BRAKEMAN PAUL KILLED West Toronto Resident Fatally Crushed Near Orangeville.

ORANGEVILLE, Oct. 4.—(Special.)—Joseph Paul, brakeman on the Orangeville division of the C.P.R., living at 56 Mulock-avenue, West Toronto, was instantly killed at Orangeville, Ont., three miles northwest of this city, this afternoon.

He was braking on the north bound freight which was trying to make a grade, but the three engines were utilized, the attempt proved unsuccessful and it was found necessary to divide the train. The wheels slipped and the brakeman, crushing his stomach into pulp and breaking his right arm, death being instant. The body was brought here and examined by jury under Coroner James Henry.

John Paul, father of deceased, was a C.P.R. engineer and was killed in his cab while passing East-street, Toronto. He leaned out of the cab window and his head hit a semaphore.

An inquest was opened to-night, and the body will be sent to the West Toronto Burial Co. in the morning.

MARION GIVEN Ovation ON OPENING CONVENTION

No Boundary Lines to Unionism, Says International Street Railwaymen's President.

One hundred and eighty-one delegates and thirteen international officers, registered at the Labor Temple yesterday morning for the biennial convention of the Amalgamated Association of Street and Electric Railway Employees, were given a public welcome on gathering for the opening at 10 o'clock.

Mr. Controller Hocken, representing the mayor; Ald. J. G. Graham, chairman of the civic reception committee, and Wm. Glocking, president of the Amalgamated Association of Street and Electric Railwaymen, were all present.

Mr. Glocking, who presided at the opening, said that the convention was a landmark in the history of the labor movement.

CITY OF PORT ARTHUR

PORT ARTHUR, Oct. 3.—The Atikokan Iron Company have solved the treatment of hard, sulphurous ores, so that they can be converted into a high quality of commercial iron at as low a cost as iron can be manufactured at any place in Canada.

This statement is made on the authority of Hugh Sutherland, the executive agent of the Canadian Northern Railway.

The solution of the problem is the greatest thing that ever happened for the industrial future of Port Arthur. It means that this city will become a great iron manufacturing centre. The supply of ore is inexhaustible, and can now be manufactured here as cheaply as in Nova Scotia. This means factories to make agricultural implements, structural steel, bar iron, nails, wire, etc. With electric power at \$17 to \$14 per horsepower, the industrial future of Port Arthur is now assured.

PRINCE ARTHUR HEIGHTS

The sale of lots in Prince Arthur Heights has been successful beyond our expectations, not only in the number of sales, but in the high character of the purchasers.

The "Heights" consist of a plateau overlooking the City of Port Arthur and the beautiful panorama of Thunder Bay. It will have the street car service within a year. The telephone wires are already there. Some excellent lots are still available at

\$100 PER LOT

One-third cash, one-third in one year, one-third in two years.

The real estate values of Port Arthur are supported by the national significance of the location. The Twin Cities are the converging point of three transcontinental lines of railway. The greatest grain elevators of the world are there. It is the "Silver Gateway to the Golden West."

Already the combined population exceeds 32,000. At the same rate of growth the population will exceed 100,000 in ten years. Here are some of the points to be noted: Rapid growth. National location. Busiest ports on great lakes. World's greatest elevators. Three transcontinental railways. Head of inland navigation. Half million dollar hotel. Fine street car system, sewerage, fine water, telephones and all modern conveniences. Iron smelters. Shipbuilding yards. Logical centre of great woodworking industries. Cheap electrical energy. Daily newspapers. Unshipped bodies of iron ore available. Fine agricultural lands coming under cultivation.

The Twin Cities have a great future as sure as Canada has a great future. To doubt the city is to doubt the nation. As real estate dealers of standing, we have stated that we believe within two years these lots will be worth \$300 to \$1000 each. All the conditions that give rapid increase in values to urban real estate exist here. The lots are within 10 minutes' car ride of the business section of the city.

Send for applications and booklet on Port Arthur today.

CANON CODY APPOINTED ARCHDEACON OF YORK

Many Other Vacancies in Diocese Filled by New Bishop of Toronto.

To mark the appointment of the Bishop of Toronto to his office and fill official vacancies in connection with the diocese, and St. Alban's Cathedral Chapter, the Bishop of Toronto has made the following appointments: Rev. Canon Cody, D.D., LL.D., rector of St. Paul's, to be archdeacon of York. Rev. Canon Inglis, M.A., rector of St. Mark's, Parkdale, to be archdeacon of St. James. Rev. H. P. Plumtree, M.A., rector of St. Alban's, to be sub-dean and canon of St. Alban's cathedral. Rev. John Pearson, D.C.L., to be the prebendal stall of Holy Trinity. Rev. Alexander Williams, M.A., to be the prebendal stall of St. George, Eglinton. Rev. Bernard Bryan, to be the prebendal stall of St. Peter's, in the stead of the late Canon Baldwin, M.A. Rev. G. E. Morley, R.D., to be the prebendal stall of Trinity. Rev. Wm. Walsh, R.D., to be the prebendal stall of Brampton. Rev. C. A. Allen, M.A., to be the prebendal stall of Cavan. Rev. E. Daniel, B.A., to be the prebendal stall of Port Hope.

For services rendered to the church, and the cause of higher education, the following to be honorary canons: Rev. Septimus Jones, M.A., Toronto; Rev. Oswald Rigby, D.D., Port Hope; Rev. Thomas Wesley Fowler, M.A., Eglinton; to be rural dean of Toronto, Rev. Edward Cartwright Cayley, M.A., rector of St. Simon's; to be rural dean of South Simcoe, Rev. W. G. G. Dreyer, incumbent of Beeton.

ACCEPTS CALL TO LAKEFIELD. Rev. F. A. Sawyers of Montreal to Be Canon at Rector.

MONTREAL, Oct. 4.—Rev. F. A. Sawyers, who has occupied the position of curate of Christ Church Cathedral for the past five years, has received a call to the Lakefield, Ont. church. He will leave for Ontario about Oct. 26. Rev. Mr. Sawyers is a native of Peterboro- and took his degree at Toronto, graduating from Trinity College, Toronto, with honors in 1902. He came to Montreal as president of the Montreal Diocesan College in 1904, and the following year was appointed to the rectory of Christ Church Cathedral.

Lotbiniere Bye-Election. OTTAWA, Oct. 4.—The writ for the by-election in Lotbiniere County, Que., vacated by the untimely death of E. Fortier, has been issued. Nomination is fixed for Oct. 19, and polling Oct. 23. It is understood that Fortier will again be a candidate, and that Hon. L. P. Fortier may again be the Conservative candidate.

COBALT ISSUES IRREGULAR INVESTMENT STOCKS STRONG

Lack of Support Early in Session Causes Stump in Some Issues, But Market Rallies Later.

World Office, Monday Evening, Oct. 4.

An easier tone was apparent in several of the listed Cobalts to-day. Public interest at certain times during the session was practically dormant and when any large offerings came into the market, a decline of greater or less proportions was generally brought about.

The issue which suffered the greatest decline was Little Nipissing. This stock had been one of the speculative favorites of late, but a complete change of tendency took place to-day. The opening prices were about steady with Saturday, but buying orders were scarce, while large blocks of the stock came into the market, resulting in a loss of some three points in a short time. However, when these offerings were disposed of, the shares rallied and closed at 20 1/4.

In the other issues, Beaver was fairly strong, closing at 37. Nova Scotia also experienced a move toward higher levels, advancing as high as 59 1/4. Silver Leaf was fractionally lower.

The market on the whole was irregular. Declines in one section of the market were offset by the strength shown by other issues, while the firmness of the investment stocks following the continued good buying is taken as a favorable indication of the disposition of the public toward mining issues in general.

SILVER MARKET

market Less Active, But Speculators Have Been Covering Commitments.

Pikley & Abel, 27 Old Broad-street, London, write: There has been less activity in the silver market, the price being fixed day after day at a level at which buyers and sellers have been disinclined to meet. The market has offered somewhat freely of slightly over current rates, altho at times they have met the market to a moderate extent. In fact, speculators have been willing to buy on any sign of weakness, in spite of their quotations being under parity, and there have also been purchases on the cash account. The short party has come from the continent, altho the volume of buying has probably not been very large.

Mocatta & Goldsmid, dealers in silver bullion, write: There has been a certain amount of covering by Indian speculators, but China has been very quiet and for the most part has only carried forward its previous purchases now falling due.

The enormous amount of silver now held by speculators both in London and Bombay, it is impossible to take a very strong view of the market, but on the other hand, bears seem anxious to take advantage of any fall to cover their sales and the present level seems likely to continue.

LEASE DECIDED ON

Silver Leaf Shareholders Turn Property Over to Crown Reserve.

A special meeting of the Silver Leaf Mining Company was held yesterday at McConkey's restaurant and the by-law authorizing the leasing of the property to the Crown Reserve was carried without any opposition.

The terms of the leasing as carried at the meeting were that the Crown Reserve Mining Company was to get a lease on the property for a term of five years, subject to a renewal for an additional period of five years. During the first period of five years the Crown Reserve are to pay to the Silver Leaf a royalty of 25 per cent, and should the option for the following five years be taken up, the royalty is to be increased to 35 per cent.

The only other important point in connection with the lease is that the Crown Reserve is to spend \$20,000 during the first year, and \$10,000 during each of the succeeding four years.

MONTREAL TRUST COMPANY, - Place d'Armes, Montreal

THE OBJECT OF THE COMPANY is to take advantage of the great field of profit offering at present by the development of the rich Peace River country. It is established that this district is one of the most valuable of the "Great West." Its development under Government auspices has just started. The Country possesses immense agricultural, commercial and lumbering possibilities. Settlers are already going into the district. Several lines of railway are projected, under Government guarantee, and some are already under construction.

The privileges of the Company's charter are of the widest character.
 LAND AND COLONIZATION—The Company will invest one half its funds in carefully selected lands, and conduct an active colonization campaign. The Company is arranging to secure blocks of choice farm lands to provide for the great demand throughout the United States and Great Britain for Western Canada lands. The Company's General Manager is an expert in soils and their possibilities, and has long resided in the West, and selections will be made under his direct supervision.
 GENERAL STORES will be placed at selected points north of Edmonton, and the outlying stores will participate in the profits of the fur trade.

SAW MILLS, PORTABLE, will be located to meet local requirements.
 GRAIN ELEVATORS at moderate cost will be built as required by local demand.
 TRANSPORTATION—The great inland waterway of the district offers splendid opportunities for the use of small steamers for transportation, and these will be utilized where good returns are assured.
 MANAGEMENT of the Company is placed in the hands of F. S. Lawrence, with headquarters at Edmonton, from which he will work under directions from Montreal. Mr. Lawrence is widely known for his integrity and ability, and investors are assured, in the personnel of the Company, a careful and judicious investment of their funds.
 The contract between Mr. Lawrence and the Company bears date September 10th, 1909.
 Mr. Lawrence will be in Montreal till the middle of October, and will be glad to meet parties contemplating investment, to furnish fuller information.

THE LAST GREAT WEST has made, and is still making, fortunes for those occupied in its development. To those who cannot personally participate in the profit of its colonization and development the Peace River Trade and Navigation Company affords this opportunity of securing some of the pecuniary advantages belonging to Canadians in the development of this splendid country.

Prospectus, Maps, and Subscription, Blanks and other information may be had on application to

DOMINION SECURITIES CORPORATION, LIMITED 26 KING STREET EAST, TORONTO

PRINCE MINE SOLD

Col. Bunker Heads Syndicate of Americans as Purchasers.

COBALT, Oct. 4.—(Special.)—The twenty acre lot known as the Prince, adjoining the Timiskaming and the Pan-Silver, has been sold to an American syndicate, headed by Col. Bunker Head, president of the Badger Mine. It is said that an amount approximating \$250,000 was paid to Messrs. Prince and Davis, the former owners of the property. The Prince property, by reason of its proximity to the Beaver, the Pan-Silver and the Timiskaming, has an ideal location and should on development prove a great mine.

PARTY OF AMERICANS

Will Visit the Agauco and Other Cobalt Mines.

H. O. Thomas, of the firm of Martin & Thomas, Traders' Bank Building, is arranging to take a special train of American capitalists to inspect the Cobalt camp in a few days. His guests will number prominent business men of the eastern states and the middle west. The objective point will be the Agauco Mines, but the Prince and other valuable properties will be seen.

PAINKILLER GOLD MINE.

The growth of gold mining in Ontario is being increased by the reports of other company known as the Painkiller Lake Gold Mining Co., with an authorized capital of \$500,000. The property of the company is situated near Painkiller Lake, in the Nipissing district. George Taylor, the president of the Timiskaming and Hudson Bay Mining Co., is also president of the new gold mining company.

Development work has been carried out on the company's claims and from an eight inch vein on the surface the vein matter has increased to seven feet six inches, at a depth of 40 feet. Four assays taken from the vein show the ton to contain 77.31, 37.9 and 35.234.2 respectively.

Messrs. Ford, Wilson, 43 Victoria-street, are brokers for the sale of a portion of the treasury stock.

Government Cotton Report

WASHINGTON, Oct. 4.—The crop reporting board of the bureau of statistics of the United States Department of Agriculture estimates that the cotton crop in the United States for the year ending Sept. 30, 1909, is 10,850,000 bales, or 10.85 per cent. of a normal, as compared with 10,700,000 bales in 1908, and 10,700,000 bales in 1907. The average of the past ten years, on Sept. 30, is 10,700,000 bales.

After the announcement of the figures recording the average for the year, S. A. Knapp, chief of the co-operative demonstration work for the department of agriculture in the south, said that the serious falling off in the figures, especially for Louisiana and Mississippi, was due to excessive rainfall in the early part of the cotton crop season, followed by the cotton drought, and the failure of the cotton planters to obtain advances on their crops from bankers. The latter reason forced the planters to dismiss a considerable part of their labor at a time when the boll weevil was almost a serious pest.

Revolver Went Off Unexpectedly

FREASINGTON, Oct. 4.—Bert French, English, aged 17, accidentally shot himself with a revolver. He had purchased some cartridges which were being sent to him by mail. He had put the ends off trying to make some small shot cartridges out of them. He was playing, when he saw some prairie chickens and tried to shoot them. He snapped the revolver twice, and it would not discharge. When he turned the gun to look and see what was wrong, it went off, the bullet striking thru his right eye, completely shutting the optic.

Confirmatory Act.

OTTAWA, Oct. 3.—A proclamation is published in The Canada Gazette confirming the act to amend the Ontario Railway Act, 1906. This action is taken under subsection 3 of section 9 of the Railway Act, chapter 37, revised statutes, 1906, which, amongst other things, in effect enacted that the governor-in-council, may by proclamation confirm for the purposes of the said section, any act of the legislature of any province passed after Aug. 10, 1904, in so far as such act purports to prohibit or restrict within the legislative authority of the province, work, business or labor upon the first day of the week, commonly called Sunday.

INVESTMENT OF FUNDS

If your surplus moneys are lying idle or drawing only bank interest for lack of proper loaning facilities, advise with

Speculation Continues Strong But Weak Spots Develop

Wall Street Shows Decided Strength Until Near the Close—Local Market Strong on Peculiar Conditions.

World Office, Monday Evening, Oct. 4. Covering of outstanding short contracts by the late firm of Wyatt & Co. gave animation to the Toronto stock market this morning, and assisted in sending Dominion Steel common up five points during the day. Most of the other business was un-influenced by the above episode, and sufficient support was accorded the market to keep prices intact and in most instances to add fractionally to the closing prices of last week. The Steel and Coal issues were all firm, but outside of the incident mentioned, most of the orders for these stocks came from Montreal. Duluth-Superior was strong and active at higher prices. The Duluth-Superior market there was no particular enthusiasm, but the support to prices was firm and offerings were too scarce to have any harmful effect upon prices.

Stock Brokers Arrested. BOSTON, Oct. 4.—The affairs of the failed Boston brokerage firm of Sedgwick, Barry & Co. were transferred to the criminal courts to-day when Arthur B. Sedgwick and John E. Barry were arrested charged with the larceny of \$120,000. The indictment contains 120 counts.

Railroad Earnings. Increase. Illinois Cent., August..... 102,287.10 Y. Central, August..... 108,750.00 Michigan Cent., August..... 212,275.00 Big Ten, August..... 149,200.00 Michigan Southern, August..... 215,644.00 Twin City, August..... 67,388.00 Del. & Hudson, August..... 25,400.00 Norfolk & Western, August..... 21,000.00 Canada North, week ending Sept. 20, 1909..... 8,219.00 Toronto Ry. week end, Sept. 30, 1909..... 9,540.00 Duluth-Superior, Sept..... 9,540.00

Chicago heard rumors of \$300,000,000 combination to unite Chicago public utility corporations. Further improvement in anthracite business reported. Twin City declared regular quarterly dividend of 1-1/4 per cent. on common stock, payable Nov. 15.

According to The Journal of Commerce there has been a further increase of nearly 50,000,000 pounds in the surplus supplies of refined copper during the month just ended.

Joseph says: By Interboros, Hold Coppers. Both Anaconda and Amalgamated will redeem themselves with glory. Chesapeake and Ohio is on its way to par. Rock Islands are cheap. Buy St. Louis and Southwestern. Bull People's Gas.

The report of Crucible Steel Co shows that the company earned \$1,465,105 after payment of dividends in the fiscal year ended Aug. 31, 1909. This compares with a deficit in the previous year.

The trend of U. S. Steel is still up. The Sun financial editorial this morning, evidently Morgan's inspiration, gives reasons to justify the advance. Some houses expect Atchison to go higher, with a six per cent. dividend declaration this week.—Financial Bulletin.

We expect much higher prices generally during the week and would not be surprised if many stocks on soft spots this morning.

Steel is moving up more easily now and will probably reach the par mark by the middle of the month, if not this week. Steel preferred, Bethlehem issues Sloss and Steel Foundries should also do much better.—Town Topics.

The selection of securities for investment is becoming more difficult and speculative operations more dangerous. It seems apparent, however, that the market has not yet reached the high point of the swing given it by the impetus of rapid recovery from panic conditions. J. S. Bachle & Co.

As to the future of the market, its prospects are not discouraging, though somewhat confused. So long as present favorable conditions exist there is little danger of serious reaction, unless from speculative excesses. Of course, liquidation on a big scale must come sooner or later, but no movements of that kind are imminent at this time. The probabilities are for considerable fluctuations in either direction, the higher point reached the greater the necessity for caution.

On Wall Street. Erickson Perkins & Co. (Beaty & Glasco) wire: During the afternoon stocks showed an irregular tendency, with increased selling pressure as call money got up to 4-1/2 per cent. The mid-day spurs were used to get a better level to sell on. But the outside public was securely a factor to-day, except to take profits. It was evident that a one stock market was viewed with a good deal of suspicion. There was a great deal of conjecture as to what would happen when Steel reaches top and some fresh bull card is needed in order to facilitate distribution. The answer to this query is that insiders are presumably selling all the way up and when they are out they will give no further support, except such as is necessary for appearance sake. Finley, Barrett & Co. wired J. P. Bickell:

After Steel had sold at 94 7/8 traders made an attempt to depress market. They sold the general list, but were unable to do anything and when the list began rising under leadership of U. P. and Steel in the early afternoon there was free covering. We believe that after Steel crosses par its further advance will cease to excite the market, as it has done the last few days. This will make possible more activity in other shares and we

THE DOMINION BANK

DEER PARK BRANCH A branch of this Bank will shortly be erected at the corner of Yonge Street and St. Clair Avenue TORONTO

A temporary office is now open at 1483 YONGE STREET, two doors south of St. Clair Avenue. A GENERAL BANKING BUSINESS TRANSACTED SPECIAL FACILITIES FOR SAVINGS DEPOSITORS

FAKE RUMORS ON DOMINION STEEL. World Office Monday Evening, Oct. 4.

Covering of short contracts under the rule of the exchange to-day by a firm which has made an assignment, gave a lively impulse to Dominion Steel common. Floor speculation in the issue assisted the movement, and a five-point advance was reeled off during the morning session. The market as a whole showed general strength, with an inclination to further buoyancy, and an increase in outside speculation. One stock after another is being taken up, and there is not the slightest evidence that the upward swing has yet exhausted itself. Fake rumors regarding Dominion Steel are as frequent as they were when the stock was put up over 70 in 1902.

Oil is King

Many people at the present day can remember the time when the first strike of crude oil was made on the American continent. To-day OIL ranks as the source of the greatest wealth of the United States. Twenty years ago oil was a practically unknown quantity in California; last year she sold her output of crude oil for \$20,000,000. Iowa, Virginia, Pennsylvania, Kansas, Texas, California, Mexico, all have had their oil boom, and many of their citizens have made millions from investing in them. Now is Canada's turn, and the chance for YOU to share in the golden stream that will flow into this country from her oil fields.

The Company's Property

The property of the Company is located in Northern Alberta, Canada, about 20 miles from Edmonton, and consists of 1280 acres, and the fact that vast underlying beds of crude petroleum exist in this territory has been amply proved by the survey made by Director D. M. Dawson of the Geological Survey of Canada for the Canadian Government in this district in 1897 and 1898.

The Canadian Government Helps the Canadian Oil Producer

The Government of Canada helps and encourages the Canadian Oil Producer in a way which no other government in the world does. By the "PETROLEUM BOUNTY ACT" the Canadian Government agrees to pay a bounty of 1-1/2 cents per gallon upon all crude oil produced in Canada. Think what this would mean to California producers, if they could get 1-1/2 cents per gallon for their oil in addition to 60 cents per barrel, at which they are now selling it at the wells. We in Canada could sell our crude oil at the wells in Alberta for 25 cents per barrel, and with the 1-2

cents per gallon bounty still be getting a far better price than any California producer.

Both Canadian Transcontinental Railways Drilling for Oil

The Canadian Pacific Railway and the Canadian Northern Railway are commencing operations in the district. A clipping from The Edmonton Journal of last February 14th reads as follows:

C. N. R. BORING FOR OIL.

"W. R. Martin, Oil Expert of the Canadian Northern Railway, arrived in this city yesterday to look into the question of commencing oil boring operations for the C.N.R. near Morinville. He has gone out to Morinville to-day to look over the land. The Canadian Northern has for some time been considering the question of commencing oil boring operations near Morinville, and have gone so far as to purchase a \$40,000 plant and bring it to the city ready for work at Morinville. It is understood, however, that they have experienced some difficulty in getting sufficient land. They tried to buy some land from the American-Canadian Oil Company, who are conducting oil boring operations there, but failing this they entered upon negotiations with the C.P.R. for the purchase of some of their land in this district."

Cutting from Vancouver Province, dated May 13, 1909:

C. P. R. WILL DRILL FOR PETROLEUM IN ALBERTA.

Operations Will Be Started Near Rocky Mountains This Summer—Expert Has Been Retained—District Expected to Become Large Producer of Oil in a Few Years.

The executive of the Canadian Pacific Railway has made a large appropriation for the purpose of drilling for petroleum. Operations will be

started shortly. The company has secured the services of Mr. Eugene Coste, a well-known Toronto mining engineer, who is regarded as a world-wide authority in regard to natural gas and petroleum formations.

Mr. Coste, who is a brother of Mr. Louis Coste, a civil engineer who, in a consulting capacity, is now making a report on the feasibility of deepening the Fraser River between New Westminster and the sea, feels convinced that Alberta a few years hence will be famed as one of the greatest oil-producing sections of the globe. He has already selected two locations where the drills will be utilized. Mr. Coste made his locations a few weeks ago after a thorough examination of the geological formation throughout the district.

The influence exerted by the Rocky Mountains in a past geologic upheaval, it is premised, will be more favorable to drilling operations than at the centre of the basin, where gas has already been found.

Mr. Coste, who is absolutely confident of the outcome of the work he has just undertaken, is a past-president of the Canadian Mining Association, and located valuable oil-producing fields in Kent County, Ontario, opposite Detroit.

Demand for Crude Oil Enormous

Never before was the oil outlook better than at the present time, and notwithstanding the enormous increase in the output each year, consumption is keeping ahead. During 1907, a total of 18,850,000 barrels of oil were consumed as fuel by the railroads of the United States alone. On sea the Japanese are taking readily to oil. Their great trans-Pacific steamers burn it regularly, and it is giving entire satisfaction. The Japanese are also large buyers of crude petroleum for their refineries in Japan, also for fuel purposes.

An oil field in Canada will give the British Admiralty what they have

hoped for for years, viz., an oil fuel supply for the British Navy from oil fields within the British Empire.

Great Fortunes Made Quickly in Oil

Joe Chanslor, now several times a millionaire, was not so long ago a clerk in Los Angeles. He borrowed some money for the purpose of operating in California oil. The result was that it made him one of the wealthiest men in the State. John A. Bunting, formerly a brakeman on the Southern Pacific Railway, through the investment of \$170 in California oil, became a millionaire. And so it was with many others. Why were Bunting and Chanslor, investing in oil, successful? Because they were shrewd, level-headed, observing men, possessing unbounded confidence in the great future of the oil business.

Can Real Estate Offer You Such an Opportunity?

There is NO INVESTMENT in the world that brings the huge returns that an oil-drilling company does to its shareholders, as the following will show:

	Offered at Per Share	Advanced to	\$100 Invested Produced
The Home	\$10.00	\$5,000.00	\$ 50,000.00
The Union	1.00	1,500.00	150,000.00
The New York	.50	200.00	40,000.00
The Aloase	.50	150.00	30,000.00
The Pacific	10.00	150.00	15,000.00
San Joaquin	.50	13.00	2,600.00

Land in the vicinity of oil fields brings fabulous prices. Land in the Spindle Top district of Texas was sold for over \$100,000 per acre. In many districts in California land sells for from \$5000 to \$10,000 per acre, and, with its large holdings, this company's land alone will bring in huge returns to its shareholders as soon as oil is struck in the district, as it undoubtedly will be this year.

It's Now Up to You

I cannot guarantee that they will strike oil, but I say this to you: Their expert, Mr. R. Bradley, personally inspected this territory and selected the land, and he reports that the conditions are identical with those in California, and both he and all the officers of the company believe there is oil underlying the district in which they are operating, and that its holdings are in a favorable locality for drilling. Reports show that the following indications are present in the district: Large quantities of tar sand, thick beds of asphaltum, heavy flow of oil gas (found by the Canadian Government expert). Therefore, I feel reasonably sure of success, and I strongly believe that the opportunity of investing in this company is one that you should not lose.

I sincerely believe that this company is destined to pay dividends as surely as the great American companies have done. Do not delay, but buy now while I am offering a limited number of shares at 15 cents per share (par value \$1.00), payable one-quarter cash and one-quarter monthly.
 200 shares for \$30; pay \$7.50 down, \$7.50 per month.
 500 shares for \$75; pay \$18.75 down, \$18.75 per month.
 1000 shares for \$150; pay \$37.50 down, \$37.50 per month.

The stock of the California-Alberta Oil Company is the best buy on the Canadian market to-day, as it is operated by OIL MEN WHO KNOW THE BUSINESS, and who have made it their business; not by men who know nothing about oil.

All the directors of the company are men of good standing, several being at the head of other companies of the highest commercial rating.

For further information or particulars, etc., of the company, or as to the situation in the oil fields near Edmonton, apply to me either personally or by letter, and I shall be only too glad to answer you.

If You Have Ever Speculated, Do Not Miss This Chance. It May Bring You Big Returns, But Remember it is a Speculation.

When You Buy Dress Goods at Simpson's

THIS is the store which has been termed The Dress Goods Store of Toronto, for a generation.

At the time when bustles were the fashion Simpson's Dress Goods were famous. Toronto people have grown from childhood to maturity with the knowledge that Simpson's was the place for Dress Goods.

Our display of Dress Goods and Silks is one of the sights of Toronto, from the feminine view-point. Every visitor to the city exclaims in surprise.

Cloths of Fashionable Emphasis This Season

Ombre and Chevron Stripe Worsted, two tone stripe broadcloths, wide wale diagonal chevrons, self and ombre stripe broadcloths, French novelty suitings.

Corded Silks and Velvets

NEW YORK seems to have taken a sudden notion that it is time corded effects came in again. Although the silk manufacturers turn out corded silks to a certain extent every year to fill a staple demand, and we ordered a supply in the usual way, this season we have been obliged to cable for more.

As a matter of course, this store has the fullest assortment of corded silks and velvets in Canada.

New "Renaissance" Mole Silks, all pure silk, very richly watered, in amethyst, violet, mauve, Copenhagen, rose, coral, old rose, ivory and black, at \$1.50 yard.

Wall Paper Oddments

Clearing up oddments in good selling lines and broken lots. 3650 rolls Gilt, Florals and Stripes, assorted colorings, for bedrooms, halls, dining rooms and parlors.

Wednesday's Provision List

2000 stone Fresh Rolled Oats, per stone 4c. Choice Side Bacon, peameal, half or whole, per lb. 25c.

The Orchestra Will Play

At Noon in the Restaurant March—"Tannhauser" Wagner Waltz—"Amorette" Gungl Scotch Selection—"The Middleton Characteristic—"The Skeleton"

A Clearing Sale of Princess Dresses

Marked Till Now at Prices Ranging from \$12.50 to \$16.50. Reduced to clear on Wednesday to \$9.95

THE size range is broken—that's the trouble. We won't be in trouble long, though, after to-morrow morning. In the lot we have sizes from 32 to 40, but we cannot promise any one material or style in each measurement.

Materials are French Venetians, poplinettes, imported Panamas, cashmeres and wool nappys. Colors are navy, brown, grey, green and black, also a few stripe or check effects.

1—\$4.00 Black Beau de Soie Tailored Waist, with wide stitched pleat on shoulders, trimmed silk braid on box pleat, skirt sleeves and small silk buttons. Regular \$1.00 waist, for \$3.25.

New Books

Just to hand another shipment of Service's new book, "Ballads of a Sourdough," author of "Songs of a Sourdough." Prices as follows: "Ballads of a Sourdough," illustrated, \$1.18; "Ballads of a Sourdough," plain, 85c.

Men's Fall Hats 98c

Men's Soft Hats, in telescope, crush, Alpine, trooper and fedora styles; all new and up-to-date fall shapes, in good range of colors, and in black. Wednesday 98c.

A Clearing Sale of "Kano" Suit Cases

THE factory is finished with this line for the season. Now's your chance. "Kano" is claimed to be superior to matting and equal to cane for wear and appearance.

Another Picture Clearance

REGULAR VALUES UP TO \$4.00, WEDNESDAY 98c. 60 (about) more Gallery Pictures of a value up to \$4.00 go on Wednesday morning at 98c each.

Towels, Table Cloths and Quilts

100 pairs only fine all linen, full bleached, fringed Damask Towels, fine quality, good weight for drying and wearing, 20 x 41 inches, mostly, with knotted fringe. Regular 75c per pair. Wednesday 50c.

Sample \$13.50 to \$17.00 Overcoats for \$9.95

ONE of the best makers on our list has just sold us his samples very cheap.

Will You Want a New Overcoat This Winter? You ought to see these Samples before they are all gone.

They'll be gone about 8.30 if they meet with their deserts.

150 only Men's Sample Overcoats, black and dark grey meltons and chevrons, Chesterfield style, with black velvet collars also college blazers and auto coats, made of English and Scotch tweed coatings, newest colorings. These coats represent the latest fashions. Sizes 36 to 44. Regular \$13.50 to \$17.00. On sale Wednesday 9.95
