A British Transport Sinks With Loss of a Thousand Lives

Serbia Announces That Way is Open To Settlement

Lack of Ammunition in Bulgaria May be Key to Situation—Would Explain Germany's Determination to Force Passage For Supplies—The Grecian Situation

London, Aug. 17.—Telegraphing from Nish, Serbia, the Times Balkan correspondent promises a speedy agreement between the Balkan disputants if a conciliatory attitude on the part of Serbia will effect this.

"The prospects of an adjustment of the difficulties between the Balkan states," the correspondent says, "have grown brighter the past few days. So far from the attitude of the Serbian government being irreconcilable, assurances have been given today, which make it evident that the way is open for a quick settlement."

"This, however, will be more of a general character, than a mere ratification of frontiers, in one particular locality."

THE KEY TO THE SITUATION? London, Aug. 17.—The key to the Balkan situation may lie in a shortage of ammunition in Bulgaria, suggests the Daily Mail today in an article which deals with "Germany's anxiety to ship ammunition to that country."

In support of this view, the Daily Mail cites the alleged statement of the German military attaché at Bucharest who, in pleading with Rumania to allow ammunition to pass through that country, declares these were not intended for Turkey, but destined for Bulgaria, which was neutral.

Rumania, the article continues, replied that she had no guarantee that the munitions would not reach Turkey in whole or in part and that while Germany apparently was able to spare munitions to Bulgaria, she was unable to send to Rumania the war stores Rumania had bought and paid for.

The conclusion of the Daily Mail is that Bulgaria has depleted her arsenals in favor of some power, and now finds it necessary to replenish them.

"The Austrian concentration at Osowa, less than forty miles distant from the Bulgarian frontier, indicates a determination to force a route in the event of Rumania's refusal to permit munitions to pass through," the article says in conclusion.

Paris, Aug. 17.—French opinion considers it premature to set in the defeat of the German military acceptance by Greece of the line of policy outlined by the quadruple entente, in its last note. The Matin doubts that Venizelos will take the same stand he had at the beginning of the year, now that Greek opinion has been aroused against any idea of the most concession in Macedonia.

"But at least," says the Matin, "the allies will find in Venizelos a statesman capable of applying broad judgment and intelligence to the consideration of his country's interests."

STEAMER ROYAL EDWARD OF CANADIAN NORTHERN LINE TORPEDOED IN AEGEAN SEA

No Canadians on Board as Far as Is Known In Ottawa

Carried Details of Royal Army Medical Corps and Reinforcements For 29th Division—Of Sixteen Hundred Men Only Six Hundred Were Saved

London, Aug. 17.—The British transport Royal Edward has been torpedoed and sunk by a German submarine. Announcement to this effect was made officially today. Six hundred men were saved out of 1,350 troops, and 220 others, on board.

So far as has been reported, officially, this is the first instance in which a British transport has been attacked successfully by a submarine.

It had been a matter of pride with the British government that it had transported hundreds of thousands of troops across many seas without the loss of a life. It is probable that the number of troops sent to France and Belgium since the beginning of the war is considerably in excess of 700,000. In addition, large numbers of men have been transported to the Dardanelles, Egypt, South Africa and Serbia.

Troops have been brought in from Canada, New Zealand, Australia and India for the defence of the mother country. To guard these vast movements elaborate precautions have been taken. Transports are accompanied by an escort of warships, chief reliance being placed on destroyers for warding off submarine attacks.

"The British announcement shows that the Royal Edward was engaged in conveying troops to the Dardanelles' front, having been sunk in the Aegean Sea. German submarines sent to these waters to assist the Turks have been very active. One of them, the U-51, under command of Captain Otto Herzing, made the voyage from Wilhelmshaven to the Dardanelles and sank the British battleships Triumph and Majestic."

However, she apparently had been engaged in the transport service since early in the war, and for a time at least was detailed to take Canadian troops to England. On August 11, 1914, she sailed from Montreal with 500 French reservists on board. A detachment from Montreal at that time said the steamer probably would be taken over by the British admiralty after completing her eastward voyage.

The last report of the Royal Edward in maritime records is her arrival on October 18, at Avonmouth, England, from Montreal.

The British troops at the Dardanelles consist in great part of Australian and New Zealand contingents.

THE OFFICIAL ANNOUNCEMENT The text of the announcement is as follows: "The British transport Royal Edward was sunk by an enemy submarine in the Aegean Sea, last Saturday morning. According to the information at present available, the transport had on board 32 military officers and 1,350 troops in addition to the ships crew of 220 officers and men."

"The troops consisted mainly of reinforcements for the 29th Division and details of the Royal army medical corps."

"Full information has not yet been received, but it is known that about 600 have been saved."

An official despatch from Berlin on February 21, reported the sinking of a British transport with troops, and of a steamer which was accompanying the transport. Later it was said that a prize offered in Germany for the sinking of a transport had been distributed. No official statement was made on this subject however in Berlin or in London.

PRECAUTIONS AGAINST SUBMARINES Details regarding the movements of transports have been withheld as a matter of precaution by the British government, and the precise nature of the methods employed to guard them has not been disclosed. It was reported some time ago, without official confirmation, that two heavy wire nets had been strung across the British Channel, forming a lane in which transports might travel in safety.

The Royal Edward was 11,117 tons gross, and 526 feet long. She was owned by the Canadian Northern Steamships of Toronto. She was built in Glasgow in 1908.

No Canadians? Ottawa, Aug. 17.—No notification has so far been received by the militia department from the imperial authorities of the presence of any Canadians on the Royal Edward. While it is generally believed detachments of Canadians are being sent to the Dardanelles, it is known that several other transports are being used.

Well Known Here The steamer Royal Edward and her sister ship the Royal George, owned by the Canadian Northern Line, provided service between St. John and Avonmouth during the winter season of 1913-14. Both steamers established records for the trans-Atlantic passage to this port.

A record of 1903 bags per hour was established in the mail from the Royal Edward on her last trip to St. John. The steamer left this port for the last time on April 22, 1914.

While in service here, the Royal Edward was commanded by Captain P. M. Wotton.

26th Still in England The members of the 26th Battalion are safe in England and were not on the ill-fated steamer Royal Edward as reported about the city today. This morning John Keefe, Leinster street, received a private cablegram from his son, Capt. George Keefe. As the message came from England it is evident that the 26th are still in training there.

Report of Another Loss Philadelphia, Pa., Aug. 17.—Reports brought over on the American liner Dominion, which arrived yesterday from Liverpool, were to the effect that the American liner Merion, requisitioned by the British admiralty as a troop ship, had been sunk by the fire of the Turkish batteries at the Dardanelles.

The Merion took out from Liverpool food supplies and many soldiers, being practically a troopship. She was in charge of Captain Hickson, an officer of the British naval reserve force, who succeeded Captain Hill, her former commander.

The Merion, like her sister ship, the Haverford, had been running in the

Russians Not Beaten But Are Not Out of Danger

Have Performed Difficult Tasks With Greatest Competence—Real Crisis Yet to Come—Germans Admit Fabulous Exertions Necessary to Follow Russians

London, Aug. 17.—The Times' military correspondent, dealing with the warfare in Russia, says: "In conformity with the general plan of retirement, Grand Duke Nicholas has now withdrawn his forces from Poland to points west of the line of Osovetz, Bialystok and Brest-Litovsk, and we shall learn within a few days whether he intends to make a long stand on this front."

"The staffs of the Russian armies have performed difficult tasks with the greatest competence. Attacked in an untenable position by six or seven Austro-German armies, the Russians fought steadily back and are now in line. The staff work connected with the operations was exceedingly onerous, and success was only secured by a perfect system of inter-communication, by clear and precise orders, and by an exact performance of them, on the part of subordinate commanders and troops."

"The Russian armies are neither beaten nor demoralized, nor dispirited; but they are not yet out of danger, nor can they be until the menace of Von Hindenburg in the north is disposed of."

VON HINDENBURG'S PLANS "If Von Hindenburg is free to move, he will not cross the Svesha river, until the main mass of the German armies is at close grips with the Grand Duke and is able to prevent the latter from throwing himself upon Hindenburg with all his force."

"Chief interest still lies in the struggle north of the Niemen, in the defence of Kovno and in the decision of Grand Duke Nicholas to stand upon the Brest-Litovsk line, or to continue his retirement. The real crisis of the grandiose operation is still to come."

Rotterdam, via London, Aug. 17.—No point is yielded by the Russians to the advancing Germans, until railway bridges and everything else of military value has been destroyed, according to German reports received here. The Cologne Gazette admits the difficulties confronting the invaders and says:

FABULOUS EXERTIONS NEEDED "The great area west of Vistula is covered by endless processions of wagons bringing up supplies. In this devastated country, where the railway bridges have been destroyed, an incredible amount of work has to be done. Only by fabulous exertions, have we been able to carry supplies to our armies over the Vistula. Barges from Novo Alexandria have arrived at various points on this river."

EVENTS IN THE WAR JUST ONE YEAR AGO TODAY

A year ago today the Times-Star announced that Great Britain, France, Germany and Austria had each declined the United States' offer of mediation. Heavy fighting had been in progress near Dinant, and emphasis was placed on a despatch which told of its lasting 'a whole day,' the correspondents little thinking that later battles would last for weeks. The Belgians added to their laurels by capturing the standard of the Death's Head Hussars, a French German regiment, while the French captured a first fusilier's eagle, and hung it over the door of their war office. The Japanese gave Germany a week to withdraw her warships from the Orient and to have her garrison evacuate Kiau Chau.

Locally there was been activity in militia circles in preparations for aid to the Motherland. Drilling was general with all corps, and there was an expectation that besides other units, New Brunswick's cavalry would be included in the first contingent. These were days of deeds, with many men flocking to the colors, but owing to the scattered condition of the recruiting lists, and the fact that many whose names were published as volunteers were later unable to go for different reasons, it is impossible to re-publish in this brief review, the names of those who were among the first to answer the clarion call—"To Arms!"

New England Forecasts Partly cloudy and cooler tonight and Wednesday; moderate northwest to west winds.

WARM WELCOME FOR MAJ. EDGAR Invalided Home After Being Recommended For D. S. O. For Gallant Conduct—A Demonstration at Chatham

(Special to Times) Chatham, Aug. 17.—Major Norman Edgar of the 8th Battalion returned home from England yesterday. He was wounded in the battle of the Orchard early in May and has since been in one of the hospitals in England. Although walking with a slight limp, Major Edgar looks hale and hearty and is anxious to get back to the front.

About 2,500 people gathered in Elm Park last night to give Major Edgar a royal welcome home. The speakers for the evening were His Worship Mayor Hickey, Major Edgar, Colonel U. McCully, Ald. Snowball, Ald. Stewart and Ald. Moran.

Major Edgar spoke briefly of his experience at the front. Last November, while the first contingent was in training at Salisbury Plains, he went over to France and fought a week with the Belgian army and also one week with the French army. He had the good fortune to become acquainted with Lord Roberts while the latter was in France reviewing his famous Indian troops and was probably the last Canadian to converse with the famous general.

Major Edgar spoke of the first few weeks the Canadian division was in the trenches. They were opposed first to the Bavarians, then the Hanoverians and the Saxons. The latter, he said, were a fine body of men and were quite friendly to the Canadians. He referred to the battle of Langemarck where the Canadians made their glorious stand after being deluged with gas by the Germans. He said the gas came on like a dark yellow cloud about ten feet high and settled in the trenches and carried with it a terrible toll of death.

He also referred to the battle of the Orchard early in May when, he said, his interest in the war ended for a while, being wounded in the leg and arms. He quoted many amusing incidents which happened to him, one as follows: He was lying in a cot in the hospital one day when a lady rushed up to him and said: "My poor man are you wounded?" The major replied: "No, madam, I was sent home from the front with a toothache."

In closing, Major Edgar said that he had the authority of both an English and French General in saying that the Canadian soldier was the finest in Europe today. He thanked the citizens of Chatham most heartily for the splendid reception given him.

He has three months leave of absence and both he and his wife are spending a few weeks with his mother here. He has been recommended for the D. S. O. for gallant conduct at Festubert.

SUSSEX TRAIN DELAYED The coupling on the express car attached to the Sussex train broke this morning and as a result the train was delayed for half an hour at Apohaqui.

FAREWELL TO HEAVY BATTERY Leave Tonight For Halifax For Final Training—Dental Officer With Each Battalion Now

A hearty farewell is planned by their friends for the members of the heavy artillery battery on their departure from the city this evening on the late train for Halifax, where they will be established and trained as a unit. Other detachments of the new battery are already encamped there, including the Montreal and Coburg. They had four officers and one hundred and eight non-commissioned officers and men. The local detachment consists of two officers and sixty non-commissioned officers and men.

The volunteers, who are to serve abroad, really acting as reinforcements for Major Magee's heavy battery in France, are to be brought to the city this evening on the ten o'clock trip of the boat from Partridge Island. They will land at Reed's Point wharf about 10.30, and thence march to the depot.

The probable route of the march will be via Prince William, Queen, Germain, Princess, Charlotte, King, Dock and Mill streets.

Teeth Won't Matter Instructions received this morning by Lieut. Col. Armstrong contained official information as to the lowering of the regulations with regard to the condition of the teeth of volunteers. The news was similar to what was mentioned in the Times-Star on this matter last week, with the addition that a dental surgeon is in future to be attached to each battalion going abroad at the training camps.

FIELD KITCHEN FOR 26TH BATT. Miss Murray Gives \$1,200 To Provide For Comfort of New Brunswick Soldiers

A check for \$1,200 to provide a field kitchen for the 26th Battalion was acknowledged from Miss I. Louisa Murray, Douglas avenue, by Mayor Frink this morning.

Miss Murray requested His Worship to use every effort to have the field kitchen sent to the battalion as soon as possible.

SHORTAGE OF VACCINE Vaccine is scarce in the city. This information was given out this morning at the board of health offices where it was announced that owing to the lack of vaccine, the medical officer of the board of health was unable to continue vaccinating the school children.

Thirty-eight children were treated yesterday and the supply of vaccine was exhausted; calls on the local drug companies resulted in the advice that there was no vaccine available at present. Considerable inconvenience will arise on account of the shortage as the work of vaccinating the children will be held up and a rush will follow later when the serum is secured.

CYCLONE SWEEPS OVER HAYTI

Entire Southern Side Devastated—Numerous Victims in the Coast Towns—Communication Interrupted—Now Confirmed

Port au Prince, Hayti, Sunday, Aug. 15 (Delayed in transmission)—A violent cyclone has devastated the entire southern side of the Haitian republic. There have been numerous victims in the towns along the coast.

The town of Aux Cayes, ninety two miles southwest of Port au Prince and with a population of 25,000 suffered particularly. The towns of Grande Ville and Petite Ville were destroyed. In the interior heavy floods are reported.

All communication by telegraph and cable with the devastated districts has been interrupted.

LOST HIS LIFE TRYING TO SAVE HIS BROTHER

Both Men Drowned—Tragedy in Red Deer River—Old Time Calgary Contractors—Their Mother Dead in P. E. I.

Calgary, Alta., Aug. 17.—Archibald McKennie lost his life in a vain attempt to rescue his brother Jack, who was thrown into Red Deer River, north of Bassano, when their boat capsized in the strong current. Both were drowned.

The McKennie brothers were well known in Calgary, where they were old timers, owning considerable property. The brothers were contractors and left a few days ago to assist in erecting an elevator on the Bassano Engineers' branch of the C. P. R., just after they had left the city a wire came apprising their two sisters in Calgary that their mother was dead in Prince Edward Island. They started for the east at once but urgent wires were despatched when news of the double drowning came to bring them back to Calgary.

From the Island. Charlottetown, P. E. I., Aug. 17.—Archibald McKennie, aged thirty, and his brother, John, a few years younger, natives of Long Creek, Prince Edward Island, were drowned near Calgary on Sunday. Their mother, Mrs. John C. McKennie, a widow, died at her home on the island Wednesday last.

TOO WET FOR PICNICS. St. Peter's and Holy Trinity churches annual Sunday school picnic in aid of the orphan, which was to have been held at Torryburn today, was postponed until tomorrow on account of the inclement weather.

Would Be Emperor

President of Chinese Republic Has Higher Aspirations—Encouraged by Advisor From Republic of U. S.

Peking, Aug. 17.—The project of proclaiming himself Emperor is being discussed by Yuan Shi Kai, president of the Chinese republic, with his immediate supporters and Prof. Frank Johnson Goodnow, of Johns Hopkins University, legal adviser to the Chinese government.

Prof. Goodnow, who secured the confidence of Yuan Shi Kai by advice given during former critical times, has been consulted on this question since his arrival here, a month ago, and it is learned that he approves the project.

It was learned from one of Yuan Shi Kai's immediate supporters that the project proved feasible, the plan is to establish the monarchy within two years.

RUMOR THAT FRANK HAS BEEN LYNCHED

Marietta, Ga., Aug. 17.—Leo M. Frank, serving a life term for the murder of Mary Phagan, the Atlanta factory girl, and who was taken from the prison farm at Milledgeville last night, was lynched two miles east of here today by the armed party which took him. He was hanged to a tree.

OF PATRIOTIC CONCERN. A united effort by representative societies of both sexes is the plan in mind of some members of the Daughters of the Empire with regard to the necessity of swelling the patriotic funds. A meeting is to be held tomorrow morning at which representatives of the Rotary Club, the Knights of Columbus, and the Daughters of the Empire will confer with respect to the matter. A decision may be reached in the two suggestions as to which is the more advisable, the holding of a patriotic auction or a patriotic fair.

ONE MORE BREAK. The barber shop of Andrew T. Dempster, Main street, was broken into some time between Saturday night and Monday morning, and over \$25 worth of tools stolen. The thief forced an entrance through a window in the rear of the shop and made off with a pair of clippers and several valuable razors. Mr. Dempster said he valued one of the razors very highly as it was magneto steel and will be hard to replace. He considered it a small trick for any thief to steal a man's tools. The person must have been daring for the shop is situated within a stone's throw from the north end police station.

CHARGES AGAINST MR. STEWART, M.P.P.

(Special Times) Fredericton, N. B., Aug. 17.—Royal Commissioner Chandler opened his court of inquiry this morning with organizers Veniot and Carter in attendance and took up the charges against A. J. H. Stewart, M. P. P., of Gloucester, that he had cut lumber from crown lands in the winter of 1913-14 and had paid no stampage to the province. So far as the evidence went this morning the charge was entirely proven. There are more witnesses to be heard.

COMING TO SUSSEX

Yesterday's Halifax Echo says: The first big batch of men for the 64th, probably one hundred strong, will leave at 7.30 a. m. tomorrow for Sussex, the meeting point of the regiment. The 64th is to be a Highland regiment though the men will not likely be Highlanders. Twenty-five men enlisted on Saturday at the Amherst and Parade Stations, Halifax. Sergt. R. A. Blakney, the fourth son of Amos Blakney to enlist for overseas service, and has been on duty with the 64th P. I. since the beginning of the war. A fifth son wished to join Saturday night but, on account of daylight, was unable to pass the medical examination.

BETTER TODAY. The condition of Wm. W. Johnstone and James E. Duren, injured yesterday in a runaway accident in Garden street, was reported at the hospital as being improved today. Doubts were expressed yesterday as to whether or not Johnstone would recover but it was said today that his injuries were not likely to prove fatal.

BEFORE THE COUNCIL. The matter of the erection of the garage on the site formerly occupied by the old Nickel, Carleton street, will be discussed at a meeting of the council this afternoon.

NOVA SCOTIAN MINERS THREATEN TO STRIKE

Want German and Austrian Workers Intermed—Miners Now Idle and Men Will Not Return Until Request is Granted. Amherst, N. S., Aug. 17.—A delegation of miners from the Dominion Company's mine at Springhill, headed by E. R. Rhodes, M.P., last night, requesting the Austrian and German miners be intermed. The miners were idle yesterday and the men state they will remain so until more favorable conditions are offered to foreign workers, especially as regards Austria-German miners, is brought about.

CANADA IN THE WAR

William Caldwell, formerly inspector for shell boxes at the Shell Commission, has enlisted with the 40th Battalion. During the past two weeks, sixty-one recruits have signed on in Cumberland county, all of whom except five have gone forward to Aldershot and from that place will be sent to Valcartier. The remaining five will go forward in a few days.

The employees of the Mincule Coal Company sent a certified cheque to the minister of militia for the purchase of a machine gun for the 40th Battalion. Frank MacKasey, of Moncton, has received a post card from his brother, Dr. F. MacKasey, who with the 40th Battalion from Springfield a few months ago with the second contingent. The card stated that he was nearing Gibraltar, but that he did not know where he was going. Mr. MacKasey believes that his brother is going to the Dardanelles.

Private Chester Farley, who enlisted at Campbellton and went to England with the 12th Battalion, was also taken by Pte. Fred Mayes, of the 26th Battalion, in his hospital in England, by mistake, with a leg injured in a motor accident. Henry G. Ruffel, of Bridgetown, N. S., has been officially reported a prisoner of war at Mesheche.

Fired on U. S. Soldiers. Brownsville, Texas, Aug. 17.—A detachment of United States cavalry patrol was fired on last night from the Mexican side of the Rio Grande near Mercedes, about 80 miles up the Rio Grande from there. The firing occurred at Progress. The cavalrymen returned the fire and the shooting from the Mexican side stopped. There were no casualties among the United States troops.

PRESENTATION. Charles Shanks was pleasantly surprised last evening when a number of friends called at his home in Douglas avenue and presented to him a travelling bag. The presentation was made by Fred Hamilton, Saul Gallet, who was a member of the party, was also taken by surprise as he was given an umbrella. Both the young men leave this evening for the west. The latter, who has made quite a name for himself in the pugilistic world, will seek after new laurels in the west.

Arrived at Cairo. Kingston, Ont., Aug. 17.—A cablegram received here today announces that Queen's Stationary Hospital has arrived at Cairo, Egypt.

ADDRESSED ROTARY CLUB. Following the luncheon of the Rotary Club in Bond's yesterday, Dr. William F. Roberts delivered a highly instructive and interesting lecture on "medical inspection." HUNDREDS OF RECRUITS OFFER IN TORONTO

Many Waiting For Doors to Open and Rush Continued Until Late at Night. Toronto, Aug. 17.—The Toronto recruiting depot dealt with between 500 and 600 recruits yesterday, and passed 148 of them on to the various regiments. The officers and staff will not forget their first day on duty. Seventy-five men were lined up in waiting for the door to open at nine o'clock in the morning, and it was George at night before the stream ceased to flow. The doctors were in attendance in the morning including Lieut. Col. Marlow, A. D. M. S. and three or four in the afternoon. Applicants were sent by the regiments, but numbers could direct to the office. Many were rejected on account of eye trouble.

MRS. H. G. KITCHEN DEAD

Fredericton Man May Have Been on Ill-Fated Royal Edward. (Special Times) Fredericton, Aug. 17.—After an illness extending over a period of several months, Mrs. Fannie Meyers, wife of Hamilton G. Kitchen, the well known railway contractor, passed away at her home at Lower Kingsclere this morning. She was a daughter of the late George Parker and was forty-eight years of age. Besides her husband she leaves two daughters, Lillian and Helen, and four sons, Albert, Willard, Douglas and Ralph. She is also survived by her mother, three brothers, Charles of New Brunswick, Lillian of Moncton, and four sisters, Mrs. Harry Walker, Mrs. Chas. Steen, Misses Minnie and Nellie all of this city. Rev. A. F. Newcomb will officiate at the funeral services on Wednesday afternoon.

There was a very heavy downpour of rain here this morning. Consequently three Sunday school picnics had to be postponed. Lieut. Col. S. H. McKee of Canadian Army Medical Corps, a son of Samuel H. McKee of this city, left England with several weeks ago for the Dardanelles.

MANY HARVESTERS. A large number of stalwart young men and quite a gathering of middle-aged men came to the city from some of the country districts today to leave tonight for the west on the first of the C. P. R. harvesters' excursions. Railway men said today that they expected fully a thousand would go through here tonight for the great harvest lands.

DRANK POISON BY MISTAKE

Frances of Gorton by the staff in the general public hospital is probably responsible for the saving of the life of Miss Alice Williams, aged twenty-one years, formerly of Moncton, who last night in her room, 220 Beaulieu street, drank some creolin in mistake for ginger ale. The poison burned her severely but the quickness of the hospital authorities resulted in the removal of the creolin, though she is in a very weak condition for a time. She is still in hospital but her condition today is much improved.

SHORT VISIT

A visitor to the city today was Rev. J. F. Fraser, principal of the Presbyterian College, Montreal, who is on his way back to P. E. Island, after having attended the annual conference of the Synod in Montreal. While in the city Dr. Fraser is the guest of Col. M. G. Edwards.

HUNDREDS OF RECRUITS OFFER IN TORONTO

Many Waiting For Doors to Open and Rush Continued Until Late at Night. Toronto, Aug. 17.—The Toronto recruiting depot dealt with between 500 and 600 recruits yesterday, and passed 148 of them on to the various regiments. The officers and staff will not forget their first day on duty. Seventy-five men were lined up in waiting for the door to open at nine o'clock in the morning, and it was George at night before the stream ceased to flow. The doctors were in attendance in the morning including Lieut. Col. Marlow, A. D. M. S. and three or four in the afternoon. Applicants were sent by the regiments, but numbers could direct to the office. Many were rejected on account of eye trouble.

FATHER AND THREE SONS DON THE KHAKI

Campbellford, Ont., Aug. 17.—James Blue and his three sons, of Campbellford, have set a worthy example. The sons had previously enlisted and Mr. Blue himself joined the colors yesterday.

At the outbreak of the war the eldest son Fred, came all the way from Texas to enlist. He had served in the United States army, and is now a sergeant in the Overseas forces in France. James and his sons, who are all in the colors, were asked many interesting questions by the boys and others, while their baggage was subjected to a search.

ANOTHER SENSATION AT PUBLIC LANDING

German and other suspects, including aeroplanes and signallers using Bald Mountain, may well stay away from the public landing at the St. John river, some fourteen miles from this city. What the natives or summer visitors do not know is certain to be found out by detectives from St. John.

There is the case of the two gentlemen from Japan, for instance. They are said to be attached to the Japanese Embassy at Washington, and last week they paid a visit to Glen Lyon, the summer home of Col. Livingston, just across the river from Public Landing. They went up on Thursday and left the steamer by mistake at Public Landing, and while waiting to be taken across in a motor boat has heard many interesting questions by the boys and others, while their baggage was subjected to a search.

"Why do you ask so many questions?" queried one of them. "Do you think we are German spies?" They were not familiar with the natural curiosity of the St. John river boys. But they crossed to Glen Lyon, and on Saturday they left for Bar Harbor. The steamer D. J. Purdy, which brought them here, had been to the city and hired a motor boat to speed him cityward.

Here the narrative stops. Nobody at Public Landing has heard any more about it and there are no japs in the jail in St. John. It is one of the dark mysteries of the great war and the detective bureau.

THE WAR AND MIGRATION TO CANADA

Letter 3—War Memorials

To the Editor of the Times-Star:—Many of the inhabitants of Canada will have to mourn the deaths of their relatives in the war, but their tears will be sweetened with pride and thankfulness that their deaths with honor saved Canada from the clutches of the German Kultur. They will naturally wish to commemorate their patriotism and keep it fresh for the encouragement of those yet unborn. Many more will rejoice at the return of their fathers, sons and brothers, being their greater of victory with them, and they, too, will be anxious to record their thankfulness to the army and the greatest of them, in either case no better form could be imagined than the institution of a training farm and distributing centre, especially for those who have fought in the same way as those in whose honor they are erected.

Farm training in England would only teach a lot that would have to be inculcated in other Dominions, and the institution of such farms and centres in the Dominion would be of the greatest benefit to the people at home and to the prosperity of Canada.

Success in Antipodes.

The only government having a training farm for immigrants is that of New South Wales who, at their Pitt Town Farm give men and lads the benefit of a three months' farm training in the rudiments of agriculture, fruit, poultry, sheep, pigs, dairy and other forms of farming. The cost is about five shillings a head per week, after allowing for the value of their labor, but the benefit to the immigrants is a hundred fold. This affords the lads an opportunity of recovering their muscles and hardiness which unavoidably become reduced on the voyage, and of getting over their homesickness and the loneliness of the sea before they are separated. The distribution of the lads can be done more carefully than if a large party had been dispersed in a few hours, and the training shows the personal inclinations of the boys themselves, so that they are sent to the job they prefer and are most suited for.

The example of Mr. Sargood at Waukegan, New Zealand, in training parties of British lads to become New Zealand farmers with a three years' course and with graduated wages throughout, is worthy of being imitated by thousands of settlers in other Dominions, and I find that boys are more interesting than rascals to keep and train, and less expensive.

Plans for Women.

Those who cannot arrange for boys can find domestic training centres for immigrant women and girls, especially those who are bereaved by the war. Here the inmates would learn sewing, knitting, cooking, baking, preserving, the care of poultry, flowers and bees, laundry work and general domesticity. The college or centre would be used also as a distribution base and a centre for immigrants in case of holidays, change or sickness.

Deeds are those whose forms of memorial to the war are being carried out by the Dominion, and the Dominion, which should also collectively and individually be a duty to the forces, to their own honor, and to the glorious country they dwell in. This would have the added advantage of decentralizing the migration machinery and so make for its perfection.

The mighty masters of Canada cannot be improved by the erection of statues and groups, however allegorical, which merely serve to emphasize the comparative littleness of man. Her grandeur is her own, and her future greatness, for which her sons have staked and often given their lives, depends upon such worthy memorials being created to develop her resources, to defend her population, and to replenish her depopulated and increase her inhabitants.

Double the Population.

Although Canada has been largely increased by low wages at home and in Europe, she could have had a double population now, had the federal and provincial parliaments, either individually or co-operatively, instituted a system of release fares payable out of wages after arrival for desirable immigrants, and similarly low rates for the nomination of friends and relatives of immigrants already in the country. The low rates of pay at home prevent four-fifths of the workers desiring to migrate, especially the younger and most desirable ones, from coming over, because they have no money to pay their fares. The introduction of a party of immigrants is an endorsement of the place they go to.

Local immigration funds could be established to be advanced to boys for farm work, ex-soldiers, widows and other desirable classes of immigrants (to specification). The selection could be left to the Canadian government officials in London, and the money, when collected, could be used again, which is not the case in any other form of benevolence. Then the applicants could be selected for fitness along with the entrance of a financial qualification as at present. To secure equal distribution of immigrants, the applicants could be selected for fitness along with the entrance of a financial qualification as at present. To secure equal distribution of immigrants, the applicants could be selected for fitness along with the entrance of a financial qualification as at present.

THE WAR AND MIGRATION TO CANADA

Letter 3—War Memorials

To the Editor of the Times-Star:—Many of the inhabitants of Canada will have to mourn the deaths of their relatives in the war, but their tears will be sweetened with pride and thankfulness that their deaths with honor saved Canada from the clutches of the German Kultur. They will naturally wish to commemorate their patriotism and keep it fresh for the encouragement of those yet unborn. Many more will rejoice at the return of their fathers, sons and brothers, being their greater of victory with them, and they, too, will be anxious to record their thankfulness to the army and the greatest of them, in either case no better form could be imagined than the institution of a training farm and distributing centre, especially for those who have fought in the same way as those in whose honor they are erected.

Farm training in England would only teach a lot that would have to be inculcated in other Dominions, and the institution of such farms and centres in the Dominion would be of the greatest benefit to the people at home and to the prosperity of Canada.

Success in Antipodes.

The only government having a training farm for immigrants is that of New South Wales who, at their Pitt Town Farm give men and lads the benefit of a three months' farm training in the rudiments of agriculture, fruit, poultry, sheep, pigs, dairy and other forms of farming. The cost is about five shillings a head per week, after allowing for the value of their labor, but the benefit to the immigrants is a hundred fold. This affords the lads an opportunity of recovering their muscles and hardiness which unavoidably become reduced on the voyage, and of getting over their homesickness and the loneliness of the sea before they are separated. The distribution of the lads can be done more carefully than if a large party had been dispersed in a few hours, and the training shows the personal inclinations of the boys themselves, so that they are sent to the job they prefer and are most suited for.

The example of Mr. Sargood at Waukegan, New Zealand, in training parties of British lads to become New Zealand farmers with a three years' course and with graduated wages throughout, is worthy of being imitated by thousands of settlers in other Dominions, and I find that boys are more interesting than rascals to keep and train, and less expensive.

Plans for Women.

Those who cannot arrange for boys can find domestic training centres for immigrant women and girls, especially those who are bereaved by the war. Here the inmates would learn sewing, knitting, cooking, baking, preserving, the care of poultry, flowers and bees, laundry work and general domesticity. The college or centre would be used also as a distribution base and a centre for immigrants in case of holidays, change or sickness.

Deeds are those whose forms of memorial to the war are being carried out by the Dominion, and the Dominion, which should also collectively and individually be a duty to the forces, to their own honor, and to the glorious country they dwell in. This would have the added advantage of decentralizing the migration machinery and so make for its perfection.

The mighty masters of Canada cannot be improved by the erection of statues and groups, however allegorical, which merely serve to emphasize the comparative littleness of man. Her grandeur is her own, and her future greatness, for which her sons have staked and often given their lives, depends upon such worthy memorials being created to develop her resources, to defend her population, and to replenish her depopulated and increase her inhabitants.

Double the Population.

Although Canada has been largely increased by low wages at home and in Europe, she could have had a double population now, had the federal and provincial parliaments, either individually or co-operatively, instituted a system of release fares payable out of wages after arrival for desirable immigrants, and similarly low rates for the nomination of friends and relatives of immigrants already in the country. The low rates of pay at home prevent four-fifths of the workers desiring to migrate, especially the younger and most desirable ones, from coming over, because they have no money to pay their fares. The introduction of a party of immigrants is an endorsement of the place they go to.

Local immigration funds could be established to be advanced to boys for farm work, ex-soldiers, widows and other desirable classes of immigrants (to specification). The selection could be left to the Canadian government officials in London, and the money, when collected, could be used again, which is not the case in any other form of benevolence. Then the applicants could be selected for fitness along with the entrance of a financial qualification as at present. To secure equal distribution of immigrants, the applicants could be selected for fitness along with the entrance of a financial qualification as at present.

LEAVING FOR DARDANELLES

Fred. C. O'Brien, formerly of St. John, writing to James Ramsay, of the Royal Hotel here, says that he was ordered to the Mediterranean the day after he was writing (July 31), but he did not then know whether the destination was the Dardanelles or Malta, but he thought it would be the former. He adds that he saw some of the men of the second contingent a few days before.

Word has been received from Clarence B. Smith, of the 26th battalion, that he has been given promotion from lance corporal and has now a corporal's stripes.

Donald Campbell, a son of O. R. Campbell, at one time teller of the Bank of Montreal here, and nephew of Kenneth J. MacIver, has been wounded in France, but he had returned to the front again.

NOT VERY CLEAR BUT IT SOUNDS LIKE ANOTHER JOB FOR THE UNDERTAKER

Brownsville, Tex., Aug. 14—At Fort Brown, here, the following report, made by peace officers to an army patrol officer on duty at a small station north of Brownsville, was turned in: "We met two Mexicans. They tried to escape. We could not identify them, so we left them there."
The hiatus in the narrative needs little elucidation.

HAD DYSENTERY.

WAS VERY BAD WITH IT.

Mrs. G. A. McKnight, Mulvihill, Man., writes: "I have used Dr. Fowler's Extract of Wild Strawberry for nine years, and I would not be without it in the house. I was very bad with dysentery; a friend gave me a dose of 'Dr. Fowler's,' and told me to get a bottle right away, which I did, and it did me lots of good. My brother was had too, and I told him to take it, and he was cured. I hope there are others who will get 'Dr. Fowler's' and keep it in the house, for it will surely save doctor's bills."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 70 years, and has been used in thousands of Canadian homes during that time.

You do not experiment when you buy it. See that you get what you ask for, and if your dealer tries to palm off a substitute on you, insist on getting "Dr. Fowler's," or go where you can get it.

THE ROYAL EDWARD

A thrill of sorrow and deep anxiety went through the city today when it was learned that a British transport was sunk by a German torpedo in the Aegean Sea, and nearly a thousand lives lost.

The German submarine is much less terrible than it seemed. The more the British learn of it the more easily they frustrate its designs. It has failed utterly to destroy British trade.

The National Liberals of Germany have adopted resolutions calling for the expansion of German frontiers east and west and overseas at the end of the war.

The death of Mayor Douglas, who was still in the very prime of life, a serious loss to the town of Amherst.

The Russian armies are neither beaten, nor demoralized, nor dispirited. This is the news that comes today, although it is admitted that the danger to some of these armies is not yet over.

The Balkan situation grows hourly more interesting. Premier Venizelos is at the head of affairs in Greece, and has the support of a large majority in parliament.

The Allies have finally decided to place cotton in the list of contraband. This will not be well received in the United States, but Germany has been getting cotton through neutral ports, doubtless with the aid of German money and influence in the United States.

Mr. Nathan Matthews, ex-mayor of Boston, returning from a business trip to England, where he had opportunity to get the views of leading men, says in an interview that when they are asked how long the war will last they express no opinion, but quietly though with grim determination, reply, "We are going to see this thing through."

Mr. Matthews says that England "has struck her gait" and that everybody is calm, cheerful, steady and determined. He expects the war to last another two years, because of the lack of munitions for the Allies. The supply is steadily increasing now, but in England the maximum will not be reached for months to come.

WHAT FLOSSIE MISSED. We find in that excellent newspaper and recorder of turf events, the Bangor Commercial, the following item of news: "Flossie, one of the oldest Maine horses, the property of W. C. Chick, was chloroformed this week, at the age of 80 years, after giving her owners good service through her life. She was known as one of the steady roadsters in this section and could easily do ten miles an hour steadily. Lately she dropped to nine miles an hour."

Chloroformed at thirty. What an extraordinary proceeding. There is no indication that Flossie had contracted any disease which called for her death at an age when a Nova Scotia horse is just beginning to realize life's possibilities and to attract the attention of the government.

FIELD COMFORTS OF GREAT VALUE TO SOLDIERS

The value of field comforts for soldiers—Military success demands three classes of material which may be styled respectively, munitions of war, munitions of health, and munitions of comfort. The first class, guns, ammunition and so forth, the endless apparatus of field operations, it is the primary business of the government to supply. Munitions of health come within the province of the Army Medical Corps and the Red Cross. "Munitions of comfort" for the men fighting at the front are being supplied by a great number of organizations, the Daughters of the Empire, the Women's Patriotic Institutes, the Western Homemakers Clubs, which act as collecting agencies for the Canadian National Field Comforts Organization, the National Service Committee. Certainly every citizen who feels it a duty to support his country in this time of peril should furnish some at least of these three classes of munitions. For the most of us, it is easiest to give what are called field comforts which consist of

socks, soap, towels, tobacco, playing cards, razors, and a host of other things which should be called necessities rather than comforts, for they are indispensable to civilized Canadians. Our men cannot give efficient service if they are forced to revert to barbaric conditions of life.

Some may think it ridiculous that they can give military assistance to their country by the present of towels or razors or magazines, but it is far from being so. Everything that keeps a soldier in cheerful spirits adds to his military value. The attention of the civilian population to the soldiers' comfort will be an important factor in the ultimate victory.

Every patriot, then, should give willingly and generously to the societies which are collecting field comforts for the National Service Committee. The Soldiers' Comfort Association of St. John is ready to receive and forward all contributions.

WHAT'S WRONG WITH JANE?
(Canadian Courier)

Jane Adams, of Chicago, formerly reported to be one of America's brainiest women, came back from The Hague peace conference to say that she could not find out who started the war, and she had found out that soldiers were doped with drink to give them the courage to charge. It seems to us that as a finder Jane is a distinct failure. We know without crossing the Atlantic what she failed to find, and we also know that what she says she found she must have dreamed. Who carries the keg before the charge is made, anyway?

AMUSEMENTS

OVATION FOR VIOLINIST

Imperial Patrons Welcome Return of Rae Eleanor Ball—Edna Mayo in Domestic Drama

The leading feature of this week's Imperial Theatre programme is the return of Rae Eleanor Ball, violinist. Miss Ball is not a stranger to St. John audiences by any means. She has been here before being the act to open the new Keith house in this city two years ago and appeared here twice since that time. Between these engagements, she has played all the leading theatres in America on both sides of the boundary and the charming little lady now occupies the most conspicuous position in her line on the vaudeville stage. Her opening programme at the Imperial yesterday was as follows:

(1)—"Gipsy Rag"—Sarasate.
(2)—"Popular Melody"—Moonlight On The River, and "If We Can't Be Sweethearts, We'll Be Friends and Neighbors."
(3)—"My Old Kentucky Home," and "Coming Thru' The Rye."
Miss Ball's charming personality and highly artistic playing again captivated everybody and the applause with which she was favored made her a favorite here to respond with additional numbers. This young lady is one of the few really great instrumentalists to be seen in the course of a year and last night audiences were largely representative of the discriminating music-lovers of this music-loving city.

Edna Mayo in Essau's three-act domestic drama, "A Little Deceitful," presented a splendid entertainment. The story is very like something that Dickens might write, sweet and pure, striking a deep human note. Lillian Walker, well supported by Vitagraph players, was seen in a fairly little scene, "The Love Whip," acted, staged and photographed in true Vitagraph quality. The Animated Weekly among a budget of splendid news-photos, showed Lord Kitchener and his wonderful English army and as the orchestra played "Britannia" when these views were being shown, rounds of applause greeted the secretary.

On Wednesday and Thursday Mr. William H. Crane makes his first motion picture appearance in his famous character of David Harum. It is doubtful if any American work of drama or fiction has ever achieved such a widespread and instantaneous success as did this book and play. Mr. Crane's wonderful portrayal of the gentle giant, who is the hero of this masterpiece is one of the best examples of character work ever given on the stage, so that the audience is not only entertained but inspired by a photo drama of musical merit.

SHOW ONE OF THEIR BEST

Jerre McAuliffe and Homan's Musical Company Fully Satisfy Opera House Patrons

A well pleased audience filed out of the Opera House last night after having thoroughly enjoyed an evening's entertainment by Jerre McAuliffe and the Homan's Musical Revue Company. The performance was one of the best yet presented by this popular company and the applause testified to the fact that their efforts had been appreciated. A feature was the introduction of a musical sketch for the second part of the programme. This made the show brighter and did away with any monotony occasioned by their previous method of opening with a one act comedy and closing the programme with a number of musical numbers. The skit which was entitled "Fun in the Hotel" was interspersed with songs and dances and was bright and catchy.

The performance opened with a one-act comedy entitled "The Claim Agent" by Jerre McAuliffe took the leading male role and as usual captivated his audience. His wit, his humor, and his fine applause. He was ably assisted by Lillian Leslie in the main part.

The various songs and dances were capably given. Heavy favor was won by a specialty by Mr. Bergeson and company. "Broadway" was particularly well arranged. Miss Shannon, Miss Leslie and Miss Elgin were popular in their numbers. The musical character song was well received. The show in its entirety was one of the most pleasing yet offered and its repetition tonight should be popular. It has an abundance of laughter, music, song and dance, nicely varied and cleverly executed.

PROBLEM PLAY AT LYRIC

The Absentee Scores a Big Hit—A Film Masterpiece in Four Parts—Clever Dancing Act

It is plainly visible that in the presenting of the motion picture productions that are justly heralded as features, the Lyric Theatre is proving a more popular mecca than ever. The large crowds that thronged the theatre at each performance yesterday attracted by the announcement that Mr. Robert Edson would be seen in the leading role of the film masterpiece, "The Absentee," came away simply delighted with the excellent programme.

"The Absentee" deals with a theme hitherto not dealt with in motion pictures. It is a most unique offering, but is sound in its moral tone and elevating in every respect. The critic might be justified in calling it an allegorical and symbolical drama, for it has the philosophical questioning and high reasoning of a story purely symbolical in its general effect, though events following the prologue deal with modern life in a very realistic manner.

The entire scheme was first presented in a poetical fashion, the characters representing traits, influences and results that dominate in the story proper. Power, might, ambition, contentment, happiness, innocence, vanity and justice are set forth in concrete images as in the stage plays of Ibsen, Rostand and Maeterlinck. But the main thread of the story hinges on a problem that is seldom considered and possibly may make a stronger appeal to the staid man of business than those merely acting under his guidance, yet its appeal cannot help but be universal.

The production shows the difficulties, trials and disappointments that beset a man in his search for happiness and contentment. The theme doubly worked out is that of the absentee who has built up a successful industry and required to enjoy the results of his work,

Daily Building

To be continually well, calls for food that contains elements that surely build up the whole system—body, nerves and brain.

Grape-Nuts

MADE IN CANADA

—from whole wheat and malted barley—contains the full nutriment of the grain, including the mineral salts, so essential to balanced rebuilding.

Grape-Nuts, partially pre-digested, agrees splendidly with child or adult. Requires little work from the digestive organs and is quickly absorbed by the system, generally in about one hour.

Thousands have found a helping hand in Grape-Nuts food.

Early Autumn Millinery

Hats for early fall are arriving daily, and the Salon is already a most interesting visiting place for a study of the new fashions. For inspection on Wednesday there will be a showing, featuring

Imported Trimmed Velvet and Silk Hats

Style creators have agreed that this season shall bring forth a great many hats severely trimmed, and these particular hats are such, being treated in subdued yet smart designments of ribbons, wings, etc. These are imported hats in velvet and silk, and

Men's Fall Suits

New Fall Suits are here in such fashionable models and of such enduring cloths that we may truly say that never have styles been neater, tailoring better or wear more promising than this season.

There is everything here that the man of "youngish" tastes could wish for. The majority of the suits are built semi-English, with almost snug fitting backs and a bit shorter, narrow shoulders, broad soft roll lapels; trim, straight trouser lines and cuffs at bottom if desired. Also suits with less marked extremes of style, suitable for the men of more conservative ideas of dress.

Tweeds and Worsteds are much in evidence and shown in all new shades of brown and grey; also a fine assortment of Tartans.

Prices range from \$10 to \$30

MANY ACTIVE IN PATRIOTIC WORK

At a meeting of the Red Cross Society yesterday afternoon Mrs. McAuliffe presided, a suggestion was made that instead of a house-to-house canvass pledges should be secured from citizens in the vicinity of King Square, with the result that many could not resist the temptation of investing in a ticket and enjoying a laugh with Charlie. The comedy is a bright one, abounds in comedy situations that are in every sense of the word funny. Faty appears as the side-partner of Chaplin, and the combination is one few can refuse to laugh at. This number, however, is only one of the good things at the Unique.

The special two-part Broncho feature, Justice, with Walter, Edwards and Elyse Williams being starred, is an excellent offering, calling a convincing many and exacted with skill. Mr. Edwards, as the escaped convict, does a finished piece of work, and in the court room scene his work stands out in a manner none can help but appreciate. The Gaumont Organ is particularly interesting, the war notes being of varied nature, while other subjects of timely importance are filmed and prove very enjoyable.

"At the Bottom of Things" a Relevance problem play, is the headline attraction for the mid-week.

Morning War News by Cable

London, Aug. 16—The left wing of the Bavarian army, under Prince Leopold, has fought its way across the Bug river, near Dohlyzyn, which lies to the east of Sokolow and is some fifty miles northwest of Best-Litovsk, according to the official Berlin report. This move forms a slight wedge in the Russian front, which had been virtually straight since the Warsaw salient was abandoned.

Field Marshal Von Mackensen also is reported to be pushing back the Russians along the Bug, where the Germans are advancing along the eastern bank of that river. Farther west, Field Marshal Von Hindenburg is credited with a successful attack on the advanced detachment of Kovno, as well as a successful attempt to break the Russian lines between the Narew and the Bug, after the Narew river had been crossed by the Germans.

These formed the most critical military movements of the day, but they attract less attention here than the diplomatic negotiations in the Balkans, where the crisis has not yet been reached. The most significant phase of the day's news concerning the near eastern situation was contained in a brief day's news concerning the news despatch from Athens, stating that former Premier Venizelos had won a decisive victory over the government in the organization of the Greek chamber of deputies.

The usual grenade and mine fighting is reported on the western line, and there has been some activity along minor fronts in the Caucasus, where the Russians claim that they have successfully repulsed Turkish attacks. At Livington, on the Rhodesian border in South Africa, a British force which had been besieged by a German detachment, is reported to have finally effected off the besiegers.

A German submarine boat has shelled three towns on the Cumberland coast of England. Several houses were started by shells from the under-water boat, and the railroad was damaged, but there were no casualties, it is said, as a result of the attack.

Give Machine Gun

An appeal is now being issued for Canadian people to send to H. Scrimshaw, Ritz Hotel, Montreal, small boxes of maple seeds carefully packed, for planting in France from Langmark to St. Julian, in the groves of the Canadian soldiers.

REGENT DEATHS

Mrs. Edward Grey died at her home in Penobscot, Kings county, on August 11, after a brief illness. She is survived by her husband and three small children. Mrs. William Y. Beatty, 98 Wright street, is a sister.

Mrs. Sarah T. Small died at her home in Highfield August 5, after a lengthy illness. She is survived by six sons, two daughters, twenty-six grandchildren and one great-grandchild. Mrs. W. M. Thorne, of this city, is a daughter.

Captain Frank Cook died at his home in Yarmouth yesterday. He was 88 years of age. He is survived by his wife, two sons, one grandchild and nine great-grandchildren.

MAY BE FATALLY HURT IN RUNAWAY ACCIDENT

William W. Johnston Crushed and Two Children Hurt—Girl's Gallant Attempt at Rescue—Another Accident at Rothesay

William W. Johnston may lose his life as the result of an accident in Garden street hill yesterday afternoon, when he was crushed beneath a horse which had been frightened and had run away. James R. Duran was with him. Both were on Johnston's ice team, when the horse to which it was attached took fright at a dog's barking, and bolted. Two little boys—"Ted" Reicker and Fred McLellan were playing in the roadway in City Road as the big ice team crashed by, and both were injured when the wagon smashed into No. 4 Engine House. Young Reicker was

Fine Racing at Moosepath

In a five-heat event that was decided in spectacular finishes, James K. Newbro won the free-for-all at Moosepath Park yesterday afternoon after a series of battles royal with Corwin Hall. Victoria won the 2:27 trot, in straight heats. Corwin Hall showed remarkable speed and gave the favorite a stiff go before the Fredrickson horse won the deciding heat. Corwin Hall had the honor of setting up the fastest time of the meet in winning the first and third heats of the free-for-all in 2:19 1/2.

The local horse broke badly on the turns several times and lost ground to a decisive degree. Victoria's best time in the 2:27 trot was 2:24.

Victoria, a handsome bay mare, showed her heels to the field in the 2:27, and worked like a machine in every heat. Happy Lad was in fine form in this event, and took second honors in a good exhibition of consistently fast work.

New Records at Cleveland

Cleveland, Aug. 16—Lee Axworthy and William were crowned, respectively, trotting and pacing kings today following two of the most sensational matches witnessed by the horse world in years, today at the North Randall track.

In the first heat of the Axworthy-Volo contest the latter trotted the mile in 2:02, tying the world's stallion mark held by the Harvester, and creating a new record for a four-year-old stallion.

In the next two heats, Axworthy won in 2:04 1/2, and 2:04 1/2, making an average time for a three-year-old, 2:08 1/4, a new world's record.

William, in the first heat of the pace, went around in 1:28 1/2, a new world's record for a five-year-old racing stallion. His second heat, in 1:30, was another world's stallion record, and his combined average time of 1:29 1/2, is a world mark for a five-year-old pacer. William also smashed the local track record of 1:30 1/2, and paced the fastest heat of 1915.

Today's defeat preyed upon his mind so completely as to cause him to alter a previous decision to spend tomorrow at a summer resort in this state and not far from this city.

He would make no other statement than the foregoing, and it may be considered that his future as a ball player and a star will rest on the decision that he makes after he has returned home.

the meeting of prize fight promoters called for Cleveland August 21 and 22.

Burns is already in the north, Toronto will leave here in time to be present. They will introduce some resolution that will be stringent, as well as fair to the fighters and promoters alike.

Tortorich has over ten years' experience in the promoting game, and Burns knows everything about it.

One of their moves will be to stop a champion from stalling in prohibitive terms for his services against ordinary boys. Still another will be for an even break between fighters and promoters on returns and probably the most effective will be that to keep fighters and their managers from dictating all of the terms.

The last suggestion is the promoters

Philadelphia, Aug. 16—Declaring that if he failed to rejoin the Braves by next Wednesday, when the club returns to Boston from its western trip, it may be taken that his health will not allow it. Captain Johnny Evers departed for his home in Troy, N. Y., in company with his wife.

This statement coming from Evers at just this time further complicates the matter of his retirement or non-retirement, as the case may be. Apparently, the disabled leader of the Boston club had recovered from the physical and mental breakdown that led to a statement in Chicago a week ago tonight by those acquainted with his condition as only the utterances of a man wearied and disheartened by vicious attacks on his character and added to an undoubted nervous breakdown. Combined with all this was the fact that his club, even under his leadership, was falling to go forward in the race.

A few victories following the statement, Evers picked up in spirits remarkably while his health appeared to be improving every day. Just as soon as this city and its blistering heat was

WANTED THE SKIPPER TO DOFF HIS CAP
Row Over Relative Honors of Quarter Deck and Forecastle Ends in the Police Court
William Johnston, a sailor on the Swedish bark Maoriland, which is lying at Long Wharf, was arrested last night on a charge of assaulting the master of the ship, Captain Munk. The complainant said that he returned yesterday afternoon to his ship and found two men missing. He asked the defendant if he knew anything about them and then went into the forecastle. He said that Johnston ordered him out claiming that he had no right there, and at the same time knocking his hat off his head. Later, the sailor followed him about the deck using abusive language to him, as a result, he said, he had him arrested.
Three witnesses corroborated the captain's statements. One of them, an old man, kept the court convulsed with laughter while he gave his version of the affair.
The defendant said he had been sent up town by the captain to procure some plates from a chandler. He was away all afternoon and, he said, this made the captain mad and he went for him. One time when he entered the captain's cabin he was told that he should take off his hat. When the captain entered the living apartments of the sailors he consid-

The funeral will be held tomorrow afternoon at 2.30 o'clock.
NOVELTY SHOWER
A delightful surprise was given Miss Christina Taylor of North End last evening, when girl friends assembled at the residence of Miss A. Vallie Sandall, 225 Pitt street, in honor of an approaching nuptial event in which Miss Taylor will be a principal. She was the recipient of a fine array of varied novelties, contained in a large wicker clothes basket prettily decorated with golden red and white satin ribbon. A pleasant time was enjoyed by the gathering.

NARROW ESCAPE FROM DROWNING
James Mountain and Jack Thompson Rescued From Overturned Canoe — Rescuers Had Only Boards For Paddles
James Mountain and Jack Thompson of Ketepec were rescued from drowning on the St. John river about a mile from Ketepec on Sunday morning, at day-break by H. C. James, Harold L. Lindsay and V. M. McDonald of this city.
Mountain and Thompson, both unable to swim, were thrown into the water when their canoe upset while the young men were paddling from Ketepec toward Millidgeville shortly after six o'clock. Both managed to take hold of the overturned craft and their shouts for assistance were heard by a party of young men from the city who were camping on the Ketepec shore.
The campers, Messrs James, Lindsay and McDonald, pushed off in a small boat and by means of flat sticks, propelled the boat to the canoe.
The journey was made in short time, despite the handicap of lack of proper means of propulsion, and Mountain and Thompson were soon safe in the row boat, little the worse for their narrow escape.
It was fortunate for the canoeists that the wind was blowing from them toward shore, otherwise their cries might not have been heard and there was a strong possibility that they would have been carried down river without being noticed in the early morning mist. Their chances of being rescued would have been most uncertain.
The men lost most of their clothing in stripping themselves of movement while clinging to the canoe.

\$350 FOR RED CROSS SOCIETY
Proceeds of Retail Merchants' Picnic — Committee Explains Why Sum is Not Larger
The Merchants' committee met last night in the board room of the Retail Merchants' Association, at which the active workers of the picnic committee were present. A report of the picnic shows a balance of approximately \$350, which is to be handed over to the local Red Cross Society.
It is said by the committee that this is a very good showing, when it is taken into consideration that there were no lotteries or games of chance, or any other similar devices permitted on the grounds. It is also suggested that a greater sum could have been secured had the local members of the Red Cross Society attended and assisted in the work, as it was expected they would do, but, unfortunately, the Red Cross Society held their postponed garden fete on the same date. This left the Merchants' picnic short handed on the grounds and, as a consequence, a quantity of the refreshments, etc., were not sold and were not returned, but the association had to pay for them. However, on the whole, the committee were well satisfied with their first venture. Everybody seemed well pleased and no accidents occurred.
A vote of thanks was passed to be extended to the press; to all those giving prizes, etc.; to E. W. Rowley for the use of his grounds, and also to each one of the workers who gave their services. The final returns will be made in a few days when all the bills are in. It is expected that the association will put on a more elaborate event next year, when it is hoped there will be no war.

WON SUCCESS IN CALIFORNIA
William Stirling Porter, Former New Brunswick Man, Dead in the West—Had Built up Large Estate
(Special Correspondence)
San Francisco, Aug. 9.—William Stirling Porter, vice-president and general manager of the Associated Oil Company, died at Mount Zion hospital in this city shortly after six o'clock this evening. His wife and son, Hugh, were at the bedside when he died.
While in the office of his friend, Judge Robert S. Lovett, in New York six years ago, he was stricken with apoplexy. While the attack was thought to be slight and he apparently recovered, it re-occurred. For the past three years he has been in ill-health.
Porter was fifty-two years old, and during his comparatively brief business career, had traveled far in the financial and industrial world. He had already built up a large estate and was reputed to be one of the wealthiest and most successful of the younger business men in California. Besides his executive position with the Associated Oil Company, he was vice-president of the Amalgamated Oil Company, and associated in the directorate of half a dozen minor oil companies. He was a close friend of the late E. H. Harriman.
Few men, according to his intimates, combined the essentials necessary to success in the business world with those of good fellowship as he did. He found time to maintain membership in practically every club in San Francisco, Los Angeles and Oakland. He was also a member of a Los Angeles Masonic lodge.
His Early History.
In the death of William Stirling Porter, a native son of this city who was remarkably successful in the affairs of a great community.
William S. Porter was a son of the late Charles Porter of Long Beach, Kings county and, after leaving his home, about thirty-two years ago, achieved a commanding position in the business world of California by his marked ability and personal endeavor.
A comparatively young man when he died, he had earned a reputation as a captain of industry and had amassed a large fortune.
William Porter, when a youth, was engaged as clerk with a Mr. Myles who operated a grocery store in Bridge street and left his position to seek his fortune in Chicago.
His career in the business world began after he moved to California and secured control of an oil property which he developed.
A widow and one son, Hugh Beverly, aged twenty-four, survive.
A Brother Here.
Five brothers and three sisters also survive. Charles W., Colin C. and George W. in the West; James S., of Millidge avenue, St. John; Fred R., of the First Canadian contingent in France; Mrs. Minnie Gorham of Long Beach, Kings county; Mrs. Alvin Mann of Bangor, Maine; and Mrs. James Henderson of Milford.
Dr. Gorham of this city is a cousin and Melley Belyea of the West End is an uncle.

IN THE COURTS
The regular monthly sitting of the supreme court, chancery division, was held this morning. Chief Justice Grimmer presiding. No common motions were heard. In the case of Sarah McDermott, et al. vs. Archie Oliver, et al. M. G. THE BATTERY'S FAREWELL SONG
Artillerymen Leaving Saint John Tonight Invite Their Friends to Follow Them to the Fields of Flanders
The men of the heavy battery who have been training on Partridge Island for some weeks and who are leaving for Halifax tonight have been invited to a song composed by one of their number, Gunner L. D. Logan. It is in the nature of a farewell message coupled with suggestions for leaving you tonight. John men should join the colors. Gunner Logan is a former St. John man who returned from Manchester, N. H. to enlist. His song is as follows:
We are going to leave the old place, boys, the City of St. John,
And many friends we'll leave behind — we cannot tell how long.
And if ever we meet again, your dear faces we will see,
But we are going friends, with courage, to maintain our liberty.
Chorus.
So three cheers for the Battery, boys! Shout with all your might!
We are going off for Halifax, and And as we go, we're thinking friends, thinking of you all,
And wonder why, not more of you don't heed old England's call.
For St. John has lots of men who can pass the army test— But some lack moral courage, some with lassness are blest,
While some they have sweethearts who're coaxing them to stay,
And disgrace their name forever, when they do not go away.
Chorus.
If this is your belief, boys, your motto, Safety First,
We hope they start the drafting, then Look out for the worst,
You surely will be branded, as the cowards of St. John!
Wake up and join the army. You then can sing this song!
Chorus.
So we are going to say goodbye to all, to each and every one,
And hope the mothers here tonight, will sacrifice their son,
To fight for king and country, and strive with all their might
To build a bigger army, for our cause is just and right!
