ALLIES LESSEN GERMAN FORCES IN WESTERN THEATRE OF WAR BY TWO FULL BATTALIONS

Whole Brigade of Enemy In Attack on Trenches on Jan. 25

Not Very Cheery News For Kaiser on His Birthday — German Aeroplane Brought Down Within Lines of the Belgian Army

Paris, Jan. 27.—The French War Office this afternoon reported as follows: In the region of Ypres and Ypres there were artillery engagements yesterday. A German aeroplane was brought down within the lines of the Belgian army. Statements made by prisoners establish the fact that it was not a battalion, but a brigade which, on January 25, attacked our trenches to the east of Ypres. The enemy lost in this affair what amounted to a battalion and a half of men.

"It has been confirmed today that near LaBassee, Givenchy and Gudinchy the Germans yesterday suffered a great check. On the road from LaBassee to Bethune, the bodies of six officers and 400 men were found. "The losses of the Germans consequently must represent at least two full battalions. "From Lens to Soissons yesterday saw artillery fighting. In the region of Craonne we maintained ourselves in the trenches captured by us during our counter attacks of January 25. "In the region of Perthes, at Hill No. 200, four violent attacks on the part of the enemy have been repulsed."

RUSSIANS DRIVE BACK THE ENEMY

Petrograd, Jan. 27.—The general staff of the Russian army today gave out a report on the progress of the fighting which reads as follows: "In the Pskov region our troops took the offensive January 25, and drove all the detachments of the enemy who opposed them, back toward the line from Malvishchen to Lasden. During this operation we dislodged them from many of their positions after fighting at the point of the bayonet. "On the right bank of the river Vistula, there have been advance guard engagements of minor importance. A fusillade was reported January 25 on this locality, and in the vicinity of Vyschprov the line of our artillery has demolished a lookout post. On the left bank of the Vistula the Germans made several fresh efforts to assume the offensive, particularly near the villages of Borjimow and Goumine, and in the evening of January 24 and the afternoon of January 25, but each time they were driven back with serious losses. In the vicinity of the villages of Grabskieboudy and Rouda, to the northeast of Skierniowice, our fire reduced two German batteries to silence.

St. Luke's church now has no fewer than forty-seven men of the congregation serving in the colors. Two are on the fighting line. Those who are still in St. John were the guests at a reception given in their honor in the school room last evening. A knapsack prayer book was given to each man. Captain Frank Elliott, on behalf of the men, thanked the church for the gifts.

One releases the active military from the disciplinary punishment inflicted upon them by court martial within a period of six months' imprisonment; the other annuls the prosecution of soldiers for offenses committed previous to the receipt of their call to arms.

Spain To Help At Finish

Ex-Ambassador Advises Line-up With Allies

BEST WAY TO END WAR

Madrid, Jan. 27.—A cable from Madrid to the Tribune says: "The ex-ambassador of Spain in Paris, declared in an interview today that the best interests of Spain required a firm policy of armed neutrality for the present time, but with the intention of joining the allies at the most convenient moment. Judging from the present situation, he said, it was impossible for Germany to win eventually, and that, as Germany would not listen to peace proposals until she was defeated, the only way to end the war in a reasonable time was to support the allies and keep them in the moment for decisive action arrived."

KINGS COUNTY COUNCIL

Sussex Objects to Proportion of Assessment But Requests Are Refused

Hampton, N. B., Jan. 27.—At this morning's session of the Kings county council the newly revised and consolidated by-laws were approved and the lists of parish officers approved. It was resolved to memorialize the government to amend the act providing for the appointment of commissioners of the municipal home so as to admit of commissioners being appointed by the municipality. A strong delegation from Sussex complained of the rate of assessment on the town property as compared with the rate levied on the surrounding areas. The council decided not to comply with either request. It was ordered that 4000 copies of the revised by-laws be published in a pamphlet. The following assessments were ordered: For municipal home \$68, for pauper lunatics, \$22; for each lunatic \$11.11 for contingent fund, \$7,500; for school fund \$6,250. No action was taken on the proposal of the government to increase the grant to institutions for the blind in Nova Scotia.

BRITISH COMMISSION SEEK MODEL AMBULANCE

London, Jan. 27.—This is the first great war in which field motor ambulances have been used extensively. It was inevitable that many defects should be found in existing types, and experts began to ask whether something could be done to standardize the patterns and to improve the type. A commission has been formed and the names of members show that the matter is regarded as of first importance by those most concerned about the welfare of the wounded soldier. Sir Frederick Treves is the chairman. The Admiralty is represented by the director-general of the medical department, while the quartermaster-general, the forces and the acting director-general, Army Medical Service, represent the War Office. The British Red Cross Society is represented by Sir Frederick Treves and the St. John Ambulance Association also is represented.

Close Remount Depot Soon

That is Report in Military Circles Today—Governor To Inspect Overseas Troops Here

The remount depots at St. John and Halifax will probably be closed within a few days. Horses are now about 400 horses at the local station, while there are a few hundred more at Halifax, many of which it is expected, will be the best condition for ocean shipment. Captain Grepe, who has been in charge of the remount activities in these parts since the outbreak of war, will leave in a day or two for Halifax to close the depot there, and he may possibly have the horses from that place brought to St. John. The animals now in the remount depot in this city may be shipped from Portland, Me., Newport News or other Atlantic ports, as it is said to be difficult to arrange sailings from here since so many remounts are being taken from the states. The cross-country haul in Canada has proven hard on the horses. Orders have been placed in the states for some few thousand remounts, and the likelihood is that what animals have been sent via the American ports, the embargo, because of the foot and mouth disease, has considerably effected shipments through the maritime province ports. Army Horses

Commitments are now engaged through out Canada in the purchase of horses for use with the second expeditionary force from this country, and many orders have been given. In the country districts of New Brunswick there has been considerable buying. If possible the horses needed for the mounted marine regiment will be procured in the three Atlantic provinces. In Upper Canada there has been an active sale of animals for army purposes, but no word has yet been received in St. John concerning the supply of horses for the use of the Army Service Corps, No. 5 Co. here.

Waiting Orders

Until the return of Major-General Hughes after his recent tour of inspection, it is not expected that the mobilization orders for the infantry regiment to be raised in the maritime provinces as part of the 3rd Canadian contingent, or for the 6th Mounted Rifles will be issued. In the meantime there is a general signing on of recruits. There have been no further appointments to the mounted regiment announced.

Inspection and Church Parades

Lieut.-Governor Wood is a visitor to the city today, and while here will make an inspection of the 26th Battalion. The unit left the city early this morning on a route march taking noon-day rations, and will return early this afternoon.

TROUBLE IN LONDON, ONT. OVER GERMAN HEAD OF PUBLIC UTILITIES

Sensation in Court—May Be Charge of High Treason

London, Ont., Jan. 27.—Sensation followed sensation in court here today when Judge McBeth, who had been asked to investigate charges of treason against General Manager H. J. Glaubitsz of the public utilities commission for an alleged allowing of a German reservist in his employ to escape after he had been declared, refused on the ground that he had no authority. A mandamus may be asked by the council but a citizens' committee plans to lay a police court charge of high treason against Mr. Glaubitsz. H. J. Glaubitsz, who is German, Friends of Sir Adam Beck are urging that Glaubitsz leave the city as his presence is said to be becoming embarrassing from a political standpoint.

A Veteran Skater On The Ice Last Night

Just to show the gay young blades what an old-timer could do, Josiah Fowler, aged seventy-eight years, went down to Victoria Park last evening, spent the evening on his skates on the ice, and won a match race. The speed was not terrific, but the way the veteran glided around the rink was good to see. It was Mr. Fowler who protested against an age limit by the Home Guard, on the ground that he did not propose to be shut out. There should be a lot of inspiration for young men in the example of Mr. Fowler.

Some reports say that fights have occurred between the German fleet and Russian submarines. They also assert that Germany is showing great naval activity in the Baltic. A Swedish newspaper describes the attack on the Gazelle as a submarine effort against the German fleet. It was skillfully carried out and that the Gazelle's stern post was seriously damaged and her screw disabled.

SAY GERMAN ARMEN WORE ALLIES' UNIFORM

Aviators Captured in Dunkirk Raid Reported to Have Been Shot as Spies

London, Jan. 27.—That German aviators engaged in the air battle over Dunkirk on last Friday, wore the tricolor of France painted on the under-side of their wings, is reported in despatches from the British front in Flanders. As a further disguise, the twelve German aviators wore the uniforms of allies' soldiers. It was because of this that the Germans passed the allies' lines near Neuport without detection, and had begun shelling Dunkirk before they were fired upon. Nine persons were killed and twelve wounded by the Germans before British aviators engaged them and drove them to the north. Twenty-four hours after the raid by the German aerial fleet, first a Zeppelin and then another German Taube appeared over Dunkirk. The Taube dropped two shells but neither exploded. The Zeppelin is believed to have been damaged by anti-aircraft guns.

Russian Submarines Said to Have Attacked Enemy

ONE CRUISER IS HIT

Confirmation of Report That German Ship Gazelle Was Torpedoed—Part of Kaiser's Fleet Said to Be Showing Activity in Baltic

Copenhagen, Jan. 27.—Special despatches received here confirm the reports that the German cruiser Gazelle was torpedoed by a Russian submarine in the Baltic and add that she was taken to Sassnitz sinking. Several Russian submarines are said to have proceeded in the direction of the place in the Baltic where a small part of the German fleet is stationed. Some reports say that fights have occurred between the German fleet and Russian submarines. They also assert that Germany is showing great naval activity in the Baltic. A Swedish newspaper describes the attack on the Gazelle as a submarine effort against the German fleet. It was skillfully carried out and that the Gazelle's stern post was seriously damaged and her screw disabled.

SIR EDWARD DECLARES THAT STATEMENT GIVEN TO THE ASSOCIATED PRESS IS FALSE

London, Jan. 26, 6:30 p.m.—Sir Edward Grey, the British secretary of state for foreign affairs, today authorized the following statement in reply to an interview obtained with Dr. Von Bethmann-Hollweg, the German chancellor, by representative of the Associated Press, and published in London Jan. 26, and in the United States Jan. 25.

"The secretary of state for foreign affairs, authorizes the publication of the following observations upon the report of an interview recently given by the German chancellor to an American correspondent. It is not surprising that the German chancellor should show anxiety to explain away his now historic phrase about a treaty being a mere scrap of paper."

"The phrase has made a deep impression, because the progress of the world largely depends upon the sanctity of agreements between individuals and between nations, and the policy disclosed in Herr Von Bethmann-Hollweg's phrase tends to debase the legal and moral currency of civilization."

"What the German chancellor said was that Great Britain, in requiring Germany to respect the neutrality of Belgium, was going to make war just for a word, just for a scrap of paper—that is, that Great Britain was making a mountain out of a molehill. He now asks the American public to believe that he meant the exact opposite of what he said; that it was Great Britain who really regarded the neutrality of Belgium as a mere trifle, and that it was Germany who took her responsibilities toward the neutral states so seriously."

FRIDAY NIGHT'S GAME TO BE A WINNER. Big Myrkie and Shattford, who played a great game in the Sussex Rink last night, were heard to say: "You know it is almost impossible to trim that bunch in Sussex on account of the referee and the shape of the rink, but wait until we get them in the Queen's Rink Friday night. We are determined to win and will give them the biggest thrashing they ever had. It will be a game worth seeing."

IMPERIAL GOLD KEY CONTEST. The one-hundred-word gold key opinion contest being conducted in connection with the Imperial Gold Key Contest of the new serial story, will close on February 1. "Opinions" are already pouring in. There are five key prizes to be given to winners in north, south, east and west ends, also city center. Keys will be added free to Imperial Theatre during the life of serial story. 1-29.

SUGGESTIONS TO IMPERIAL PATRONS. Because of the unusual length of time necessary to show the splendid Diogenes story "David Copperfield," patrons of the Imperial Theatre are earnestly requested to carefully observe the following suggestions:—The programme will be opened at ten minutes to seven (7:55), with Mrs. A. singing her waltz; then then will follow the story of "David Copperfield" in six reels of motion pictures without any interruption whatever. The programme will conclude with Little Marion Weeks, the miniature prima donna, who is creating such a furore. The entertainment will therefore last from ten minutes to seven until 8:45. The second and final programme will commence at 8:45. To be very explicit, the doors will be opened at 8:45; the first show commences at 8:50 and the second show at 8:55. Theatre parties or individual reservations in the boxes may be arranged by telephone and the ticket sale will be conducted in the confectionery and tobacco stores adjoining the lobby, in addition to the usual ticket.

Kidney Disease In Every Symptom

WHY MRS. MARK FOUND QUICK RELIEF IN DODD'S KIDNEY PILLS. New Brunswick Lady Who Suffered for Six Years Tells How She Found a Speedy Cure.

Miscou Harbor, Gloucester Co., N. B., Jan. 26.—(Special)—"For some five or six years I was troubled with backache. I tried many tonics, but kept growing steadily worse, until I decided to try Dodd's Kidney Pills. They gave me almost immediate relief."

"This is the statement of Mrs. A. Mark, well known and highly respected here. Asked to give more particulars in regard to her case, Mrs. Mark said: "My trouble started with a cold, and gradually grew worse. I had stiffness in my joints and cramps in my muscles and suffered from neuralgia. I had heart palpitations and headaches, my sleep was broken and unrefreshing and I was always tired and nervous. I had dark circles under my eyes, I was irritable and often dizzy and had a bitter taste in my mouth in the mornings. I also had attacks of rheumatism."

"I just took three boxes of Dodd's Kidney Pills to fix me up."

"Every symptom Mrs. Mark mentions spells kidney disease. That's why she found such quick relief in Dodd's Kidney Pills."

FLOUR UP AGAIN

Price Not Equalled in Many Years, Says Dealer—Oatmeal and Beans Higher

Another advance in flour today brought the price up to the highest it has been in St. John, according to an old-time dealer, in nearly forty years. The increase of twenty cents yesterday in Manitoba was followed by a jump of twenty-five cents in Ontario patents, bringing the wholesale price of the latter up to \$8.10 and of Manitoba up to \$8.45. Not since 1876, it was said today, have such prices been quoted on flour here.

An advance of twenty cents is quoted in oatmeal also, while beans are higher in the local market, due to heavy shipments from upper Canada. These figures are the wholesale quotations—the consumer in Manitoba would cost about \$9.

CANADIANS TO FRONT AT ONCE IS BELIEF IN OTTAWA TODAY

Ottawa, Jan. 27.—It is believed here that the Canadian troops at Salisbury Plain will move to France within the next few days. There is every indication that the department expects the Canadian army to leave for the front almost immediately.

As soon as the first contingent leaves Salisbury the second contingent, now fully recruited, will leave for the front. The mounted brigade which is to go to Egypt will leave with this contingent.

The recruiting for the third contingent which has been going rather slowly in eastern Canada will be pressed by the government.

**What Thin Folks Should Do To Gain Weight**  
**PHYSICIAN'S ADVICE FOR THIN, UNDEVELOPED MEN AND WOMEN**  
Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strengthening, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is used prominently people everywhere. It is absolutely harmless, inexpensive and efficient.  
A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. Leading druggists supply Sargol and say there is a large demand for it. While this new preparation has given splendid results as a nerve-tonic and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.

**ALCOHOL AND MEDICINE**  
Use of Stimulant Almost Entirely Abandoned  
(Chatham Gazette)  
Striking was the contrast drawn between 1886 and 1913 as regards the use of alcohol in medical practice by Dr. Fred J. Tees at the Fairmount W. C. T. U. meeting yesterday in the lecture room of St. Giles' Presbyterian church. The change was so great as to amount to a revolution. Thirty years ago, the lecturer said, the standard medical text books spoke of alcohol as an indispensable drug and a necessary adjunct in the dieting of patients. Today the standard text books class it with opium and strychnine, and prescribe its use on very rare occasions. As a beverage or article of food, alcohol beverages are never prescribed at the present time, unless, perchance, by old-time doctors who are not up to date. Thirty years ago, whiskey was considered an effective stimulant and a long drink of brandy the most potent factor in warding off infection. But the medical profession of the present day know that these pretensions are utterly false.  
Dr. Tees gave some figures from the reports of the Montreal General Hospital, showing the difference in the amount of milk and alcohol used in the last four decades:  
No. of cases  
Year. treated. Milk Used. Alcohol.  
1872.....1,479 \$1,484 \$813  
1882.....2,040 2,875 955  
1892.....2,329 3,988 543  
1902.....2,878 4,484 584  
1913.....4,575 10,291 79  
Dr. Tees pointed out how the insurance companies regarded the matter, offering, as they do, better terms to total abstainers, who, it is now known that sixty years ago a Quaker who applied for insurance was refused on the ground that he was a total abstainer. Quoting from the Technical World, the speaker said that the slogan of the industrial world was: "The worker who drinks must go, and in this connection the statement was made, upon the highest authority, that even a single glass

THE WAR NEWS

If expectations are fulfilled the Germans will today make a desperate effort to honor the Kaiser's birthday by gaining a victory over the Allies along the French and Belgian battle-line.

Four soldiers at Fredericton, convicted of drunkenness and other offences, have been sentenced to a term in the military prison at Halifax, after which they will be dismissed from the service.

One Dr. Brown-Landone has been delivering addresses in Montreal and Toronto and other places and raising funds for hospitals in Northern France.

The Rt. Hon. Lewis Harcourt, speaking in London yesterday, said that some Canadian troops were already in the front and the rest were eager to join them.

THE NAVAL BATTLE

The German report that some British vessels had been lost in the naval battle on Sunday is of the same character as many others emanating from the same source.

The Tourist Association has lost its city great at a time when it really ought to be in a position to do more than ordinarily in the line of publicity work.

Germany doth protest too much. A every opportunity her public men give out statements to the press which are calculated to cloud the issue, and to create sympathy for Germany.

Out of Harm's Way "If you had to go to war, what position would you choose?"

How Could She Mrs. Esc—If I'd been in your place I think I'd have pocketed my pride.

SALISBURY PLAIN WORK

Re-assuring Statement as to Health of First Contingent Soldiers--Other Matters Affecting Noble Work of the Nurses

There are two matters of great importance in connection with the work now being carried on by the Red Cross Society that should be brought before the notice of the public. During the last few weeks there have been statements in the press that some of the comforts and ambulance supplies sent out by the society have fallen into the hands of the enemy and found their way into the Red Cross department of the German army. Needless to say these reports, that no doubt emanated from German sources, are entirely false and the central council of the Canadian Red Cross Society desires to make it known that all parcels and articles which have been forwarded by them to England, or by the National Committee of Women for Patriotic Service through the society have been sent by British vessels from Quebec and Halifax, and that no shipments have been made through American ports. Therefore, none of the articles shipped have in any way fallen into the hands of the enemy.

NERVOUS CHILDREN

The Trouble is Often Really St. Vitus Dance--Do Not Neglect It

Many a child has been called awkward, has been punished in school for not keeping still or for drooping things, when the trouble was really St. Vitus dance. This disease may appear at any age, but is most common between the ages of six and fourteen years. It is caused by thin blood which fails to carry sufficient nourishment to the nerves and muscles, and is characterized by twitching of the muscles and jerking of the limbs and body follow. In severe cases the child becomes restless and cannot get to sleep. St. Vitus dance is cured by building up the blood. The most successful treatment is to remove the child from all mental excitement, stop school work and give Dr. Williams' Pink Pills. These Pills renew the blood supply, soothe the nerves, give rest to the child to perfect health. Here is proof of their power to cure. Mrs. Geo. A. Macmillan, Harrington, N. S., writes: "My son was attacked by St. Vitus dance at the outset his muscles would twitch and his step was unsteady. We called in a doctor who treated him, but notwithstanding he continued to grow worse and at last grew so bad he could not hold a cup in his hand, while his head constantly twitched, and his speech became rather indistinct. At this juncture I procured the cure of a boy from similar trouble through the use of Dr. Williams' Pink Pills. We at once sent for a supply. Digby she was a native of Sackville, and there was considerable improvement and it was not long after this before he was completely cured. I am convinced that there is no medicine like Dr. Williams' Pink Pills for the cure of St. Vitus dance."

Do not suffer in silence. Try Stuart's Dyspepsia Tablets and do so quickly so that you may become your old self as soon as possible.

The reason why Stuart's Dyspepsia Tablets are such a widely used remedy are very easy to understand. These tablets contain almost the same elements as the gastric juices of the stomach. STYLES THE WORD IF YOU'RE SPEAKING OF HATS

Ah! Here's the new spring hat! Put your fingers to Madame and have a good look at it, you'll see it often between now and Easter time. There's not much to the new spring hat, not much--except style, or as American milliners say--class. And featherless and flowerless as is this military hat, it has plenty of that elusive thing called style.

The new hat also has a well--a cape veil and gives the final touch of style to the raddish little hat. Dame Fashion has designed for between-season wear.

Your Manly Strength "Nature" Book Free. My Free Offer to My Men and Young Men Readers. My free offer is as follows: There are in existence today numerous creditable books relating to the much discussed sex science, and they range in price from \$2 to \$5, while my offer as given below is a free one. I publish a little private compendium of 72 pages, pocket size, containing 8,000 words and 80 half-tone photo reproductions, which thoroughly covers the subject of sex, but only in its relation to manhood or vital manly strength, its legitimate uses, its wanton abuses, its loss and the causes thereof, its possible self-restoration and its permanent preservation. These are the vital phases of the sex subject which I find to be of most interest to all men, young or elderly, single or married, and I have therefore put into this little self help book the very best that I can offer relating to that particular personal and private advice and information, which my 80 years' practical experience in this field has taught me, most seek, and through which they can get the most real benefit in respect to their own vigor and vital health. This, reader, is the book, and my offer to send it by mail, absolutely free of charge, in a perfectly plain, sealed envelope, to any man or young man anywhere who writes for it (see coupon below), and there is not a particle of obligation of any kind whatsoever involved in making this gift offer to you. Over a million of these books have been sent to men all over the world who wrote for them. The reason why I am offering this illustrated sex book free is that in one part I include a description of a little mechanical vibrator of my own invention, which is for use by those of my readers who need outside aid in the restoration of their manly vigor. However, that is a matter for each person to decide for himself. The book is complete and entirely independent of anything it says with respect to the vibrator. Therefore please use free coupon and get the book by return mail. You will find it a valuable addition to tell and show you. SANDEN, Author. Vital manhood and an abundant manly vigor is the greatest human asset of our day. Every man is entitled to be perfectly strong, vigorous and capable, just as nature intended he should, and if through the medium of my book I can show you how you yourself may become a vital, manly and forceful as the best man of your acquaintance, then I have merely given you a clear understanding of what nature is herself constantly endeavoring to tell and show you. As to my vibrator, it may or may not be necessary in your own case, but if you want to use it after reading the description, I will gladly make some liberal proposition so you may get one to try. This vibrator, weighing only several ounces, is worn all night. It generates a soft, easy flowing FORCE which I call vitality. This FORCE enters your system at the small of the back, flowing thence through the kidneys, liver, stomach, bladder and organs, and diffusing itself to every part of the body. Over 200,000 Sanden vibrators are now in use or have recently been used. It keeps up its gentle action while you sleep. Men everywhere have said it makes them feel better and stronger almost at once, that it often takes pain out of the back in a few hours, and 60 to 80 days' time is sufficient to restore normal vigor. With special attachments my vibrator is used by women as well as men for rheumatism, kidney, liver, stomach, bladder disorders, etc. If you live in or near this city, would be pleased to have you call. Hours, 9 to 6. However, whether or not you ever use the vibrator, at least you want the free book, so kindly fill in the coupon and the book will go to you, sealed, by return mail. FREE COUPON Dr. E. F. Sanden Co., 140 Yonge Street, Toronto, Ont. Please send me your free book, sealed. Name Address

Lowell's Reserve List
Lowell, Jan. 26.—While discussion of the prospects for a New England League baseball team in Lowell and other cities in the coming season continues, President Andrew F. Rosch and Secretary John H. Cull, of the Lowell team, forwarded this week contracts to several reserved players, and some letters in acknowledgment of them have been received.

The players reserved by the Lowell management are: Catcher—Paul Wacoh, Passaden; James J. Greenhaigh, Lowell. Pitchers—James Ring, New York; Norman Weaver, Terre Hill, Penna.; Matt Zetter, Chicago; Samuel Sciencin, Anville, Penn.; Claude O. Lohman, El Dorado, Tex.; Roy Smith, Red Lion, Penn.

Infielders—Robert Kelley, New York, first baseman; Jefferson McClasky, America, Ga., second baseman; Maurice L. Dee, Lowell, shortstop; Howard L. Fahy, Medford, third baseman. Outfielders—Earl Stimpson, Northville, Mich., left field; Frank Swayne, Buffalo, centre field; J. Roggy, Brooklyn, right field. Norman Weaver also covers right field.

Red Sox Plans
Manager Carrigan has shortened the stay of the Red Sox players at Hot Springs this year, and will not take the regular men there until about two weeks later than last year, or about the middle of March. Secretary Edwin Riley gives out the following itinerary:

Manager Carrigan has decided that he wants the first squad of the club to report at Hot Springs, Ark., on Sunday, March 7. This squad will include pitchers Leonard, Collins, Wood, Shore, Ruth, Cooper, Foster, Greig, Mays and Scott; catchers Thomas Cady, Pratt and Carrigan, and shortstop "Heinie" Wagner.

The second squad will report at Hot Springs on March 14, and will include Hoblitzell, Janvrin, Gardner, Scott, Gairner, McNally, Gill, Speaker, Lewis, Reig, Henriksen, Shorten, Hooper and Tuller.

The club will remain at Hot Springs until April 2. The training trip games arranged are as follows:—Memphis, April 8, 4; Louisville, April 6, 7, 8; Cincinnati, April 9, 10, 11.

The announcement has been made that the Boston National League Club will open the season in Boston, which means that after the game in Cincinnati on April 11, the Red Sox will jump to either New York, Philadelphia or Washington to open the American League season.

After a layoff of five years, Little Rock, Ark., will be represented in the coming season in the Southern League, and the Red Sox may play one or two games in Little Rock, as it is only a short trip from Hot Springs.

Fitchburg After Team
Fitchburg, Mass., Jan. 26.—W. V. Sargent, president of the Fitchburg and Leominster Street Railways, who controls the baseball grounds used by the New England League club last season, conferred this week with Manager Patrick J. Morgan, of the Philadelphia Nationals about bringing a New England League franchise to this city.

Mr. Sargent said that the Federal League has a large fan base here. He won renown pitching for Colby College. There he won a degree as bachelor of science. Completing his college career in 1906, he immediately joined the Athletics, and after being in the big league only a few weeks he won the longest major league game on record, defeating the Red Sox 4 to 1 in a twenty-four inning game.

Coombs, however, did not jump into the star class until 1910, when he had a wonderful season, and broke enough records to shake several sticks at. He won thirty-one out of forty games, and created a new American League shutout record by pitching thirteen scoreless games. He also pitched fifty-three consecutive scoreless innings, a record which Johnson beat in 1913, when he pitched fifty-six innings without a run being tagged on him. To complete a fine season Jack won three games against the Cubs in the 1910 world's series going in twice in succeeding games.

Burdock Blood Bitters has, for the past forty years, been curing all kinds of headaches, and has also proved itself to be a remedy that cures where all others fail. It does this by removing the cause of the trouble.

Miss Mary A. Roberts, Hampton, N.B., writes: "For about two years I have suffered from bilious headache. At times I thought I would really go mad. Not long ago a friend advised me to try Burdock Blood Bitters which I have never been troubled with any kind of a headache. I think that B.B.B. is one of the wonders of the world. I can safely recommend it to all who suffer from bilious headache.

Exciting Races in Victoria—Lead-better Makes Good Showing—Gorman Unable To Defend Title Owing To Severe Cold

A large number of people were present at the championship races in the Victoria rink last night under the auspices of the St. John Lodge of Moose, and witnessed some excellent exhibitions of skating. Henry Garnett carried off the honors, winning the quarter half, and witnessed some excellent exhibitions of skating. Henry Garnett carried off the honors, winning the quarter half, and witnessed some excellent exhibitions of skating. Henry Garnett carried off the honors, winning the quarter half, and witnessed some excellent exhibitions of skating.

Lead-better deserves credit for his skating in a strange rink. He won the 200 yards and took second in the mile and half mile. He did not get an opportunity to try for the quarter mile event owing to poor start. Bell, Gibbons, Southland and Lead-better lined up for the first heat. Several false starts were given and finally when the pistol did go off Gibbons had beaten it by about ten feet. The other three leaped forward and then stopped and came back to the line contending that Gibbons, who kept skating the distance, had made a false start. After considerable discussion the judges awarded the heat to Gibbons saying that once the starter fired the pistol and the men got away from the starting line the race was on.

The time in all of the events, barring the final of the quarter mile, was slow owing to the leading tactics of the skaters at the beginning of the race when they kept working for positions.

Joshua Fowler, aged 79 years, brought forth bursts of applause when he won his race against J. Patchell. The latter gave an exhibition and proved himself to be a great skater for a man of his years.

The many friends of the former champion, Charles Gorman, were disappointed when they learned that he would be unable to take part in the races and send his title as he had contracted a severe cold during his training.

A musical programme furnished by the Carleton Cornet Band was thoroughly appreciated.

The results of the meet follow: Senior 200 yards—First heat, Lead-better, 1st; M. Bell, second; time, 22 sec. Second heat, E. Travis, 1st; W. Bell, 2nd; time, 22-5. Third heat, H. Garnett, 1st; H. Thorne, 2nd; time, 22 sec. Final, Lead-better, 1st; Thorne, 2nd; time, 21-5.

THE MORNING'S WAR CABLES

London, Jan. 26, 8.15 p. m.—The German cruiser Gazelle, according to a Copenhagen despatch to the Exchange Telegraph Company, was struck by two torpedoes discharged by submarines, and was discovered adrift off Rugen, in the Baltic Sea, by the Swedish ferry steamer King Gustave, which towed her to Sassnitz. The Gazelle was badly damaged.

A Reuter despatch from Amsterdam quotes a Berlin telegram received there as saying that the Gazelle was attacked near Rugen by a hostile submarine, and sustained slight damages. There were no losses among her crew. The despatch added that the cruiser had entered a German harbor in the Baltic.

The Gazelle is a third class cruiser of 2,603 tons displacement. She was built in 1898 at Kiel and was placed in commission the same year. She has a speed of 18 knots, is manned by 636 of a crew, while her armament consists of ten 4.1-inch guns and fourteen maxims. She is equipped with three submerged torpedo tubes.

Zeppelin Destroyed After Raid

London, Jan. 26, 9.30 p. m.—It was officially announced in London this evening that the Zeppelin dirigible balloon which on Monday dropped bombs on the Russian port of Libau, in the Baltic Sea, was destroyed and five members of its crew were taken prisoners.

The admiralty tonight made public the following official statement from the naval general staff at Petrograd concerning the incident:

"Monday morning a Zeppelin appeared above Libau, and had time to drop nine bombs on the undefended part of the town. After being fired at by the forts, the Zeppelin fell into the water. Small craft were sent out and destroyed the Zeppelin, and took her crew prisoners."

The Lion and Meteor Damaged.

London, Jan. 26, 10.12 p. m.—The battle cruiser Lion, which led the British squadron into battle with the Germans in the North Sea last Sunday, and the torpedo boat destroyer Meteor were both disabled, and had to be towed into port, and in addition, one officer and thirteen men were killed, and three officers and twenty-six men wounded on three of the ships—the Lion, Tiger and Meteor.

The official statement was made by the secretary of the admiralty, whose statement said:

"All the British ships and torpedo boat destroyers engaged in Sunday's action have returned in safety to port. The Lion, which had some of her forward compartments flooded by shells below the water line, was taken in tow by the cruiser Indomitable. The destroyer Meteor, which also was disabled, was taken in tow by the destroyer Liberty. Both vessels were guarded by strong escorts of destroyers. Repairs to both vessels can be speedily effected."

"The total number of casualties among the officers and men reported to the admiralty is: On the Lion, 17 men wounded; on the Tiger, one officer and nine men killed and three officers and eight men wounded; on the Meteor, four men killed and one man wounded. "It is not believed that any other casualties occurred, but if so, they will be immediately published."

"As soon as Vice-Admiral Beatty's report is received, a fuller account will be given."

The Lion, with her sister ship, the Princess Royal, was the largest ship in the British squadron, and in leading the line came in closer contact with the Germans and did most of the fighting, she being largely responsible for the sinking of the German armored cruiser Bluecher.

The Meteor is one of the largest and fastest torpedo boat destroyers afloat. She is one of thirteen of her class built under the naval estimates of 1914. An additional dozen of similar boats were authorized in the estimates of 1914.

Dutch Ready to Fight  
The Hague, via London, Jan. 26, 7.40 p. m.—"We must maintain under the colors our entire army, for at any moment incidents are possible which may render it necessary for us to make an appeal to arms," said P. W. A. Van Der Linden, premier of The Netherlands, today.

The statement was made in the Second Chamber of the Dutch parliament when a bill for the extension of the military service was being discussed. The premier added that the government could not disclose the information it possessed concerning the foreign situation, because much of it was based on confidential documents.

They did not wish to hit this place, however, only wishing to announce their presence in the vicinity."

The North German Gazette asserts that air warfare stands entirely outside the international code, the earlier prohibitions against dropping explosives having expired and a new proviso not having been raised by Germany, France or Russia. The general principles of warfare, and the agreements made at The Hague, says the newspaper, justify a bombardment of military appliances in undefended places, and a counter attack to every attack.

EVIDENTLY SEES THE DEFEAT OF GERMANY

London, Jan. 27.—Maximilian Harden, reviewing the war in the latest number of his organ, Die Zukunft, says: "Beat us. Drive us into the sea, into the Rhine. Starve us into submission. We shall die honorably, die standing up with clean arms. We do not know whether we shall win, but we know we shall not end unworthily. We are conserving both our confidence and our nourishment for a very long struggle; yet in a year we may be using thorns and thistles for a time, instead of bread. We are quieter than in the first current of the war's enthusiasm, but not more cowardly; nor are we to be intimidated. In prayer we are ever joyful, and still hail to the German maxim, 'Relay upon thyself, then will thou never deceive thyself!'"

It is not everyone who can stand prosperity. Particularly if it's someone else's.

TO THE TEA TRADE OF CANADA

The year 1914 has passed, and during it we have sold, the largest quantity of "SALADA" that we have in any year since it was first introduced to the public in 1892.

We have prepared a chart (printed below), which shows at a glance the vast business that has been built up on "QUALITY FOREMOST." In drawing your attention to this, we respectfully ask you to specially note the record of 1914. Notwithstanding great obstacles, our output last year was above the previous year's record—and this in spite of the raise in price, and the fact that part of the time we were without stock, and therefore unable to fill orders. The difficulties of the tea trade in 1914 were so unique that a brief survey of the facts may prove interesting.

When the year was little more than half spent war broke out in Europe. Our first misfortune was the seizure at Gibraltar of the German steamship "Schneefels" which sailed from Colombo at the end of July with a large consignment of tea for us. Our next blow was the imposition of an embargo on tea in Great Britain, which prevented all tea from leaving that country. At that time we had in London 9,600 chests, bought at auction, paid for and ready to ship, and we could neither get our tea nor our money. A few days later word was received of the sinking of the steamships "Diplomat" and "City of Winchester" by the German cruiser "Emden." These two steamers had nine million pounds of tea on board. As a result, further sailings from Ceylon and India were prohibited by the Admiralty.

Under these circumstances Canada would have been without tea in less than two months. Fortunately, later on, the embargo was removed, and we

were able to get our stock in London, and after five weeks, the "Emden" having left the Bay of Bengal, the Admiralty permitted the resumption of sailings from India and Ceylon. Thus we were relieved of our most apparent difficulties.

However, in the trade it is a well-known fact that Canadians have been served for years with a quality of tea at prices unequaled in the world, and the wholesale tea business in Canada has proved disastrous to many and unprofitable to all. During the past five years the market has been working steadily upwards, until just before the war we had to pay the highest prices in twenty-five years. Having, in addition, extra freights, war risks, and still higher prices for our quality, we had only three options—lower our quality, go out of business or advance prices. We chose the latter. In spite of this, and our inability, at times, to fill orders through shortness of stock, you will note by the chart that our increase in sales in 1914 over 1913 was 296,239 pounds, an increase in consumption of more than 1,000 pounds for every working day of the year.

Last year there was imported into the Dominion 37 million pounds of all kinds of tea. We sold in "SALADA" packets nearly one-quarter of this total, viz., 8,192,063 pounds.

We look forward to a still larger trade this year, and solicit your valued co-operation in our mutual interests. We readily acknowledge that other teas show you a greater profit than SALADA, but you must admit that no other tea gives anything like the satisfaction to your customers. We are giving a character of tea the consumer cannot get elsewhere than in "SALADA" packets, and the twenty-three years it has been on sale proves that consumers appreciate "SALADA" quality.

ANOTHER RECORD  
The sales of "SALADA" for the first fortnight in 1915 amounted to 442,055 pounds. This eclipses all previous records and is greater than the sales for any previous fortnight in our 23 years' history.

SAYS UNEMPLOYED IN CANADA TOTAL 300,000

Estimate Supplied Sir Robert Borden by Ex-Controller Simpson of Toronto

(Montreal Gazette.)  
At a Trades and Labor Council meeting last night, President J. Foster's report on a delegation which waited on Premier Borden and the other members

of the cabinet in Ottawa a week ago yesterday gave prominence to an estimate made on that occasion by ex-Controller Simpson, of Toronto, to the effect that there are 300,000 unemployed in the Dominion at the present time. He based his estimate on the condition of affairs in Toronto, where he said that there were from 25,000 to 30,000 out of work. At the same rate for the rest of Canada, he said the number he mentioned would be surpassed. Sir Robert Borden thought the estimate somewhat exaggerated, but felt that the situation was nevertheless acute.

Other suggestions made were that national banks should be established, as it was felt this would be more in the interest of the masses of the people when they desired credit, and that the government promised to use its influence to ensure a reasonable wage in this connection, although not promising official action.

Sir Robert Borden promised careful consideration to these and other suggestions, at the same time taking the opportunity to thank the workers, and especially organized labor, for the way in which they had seconded the efforts of the government during the trying times since August 1.
