SPEAKS AT BANQUET

British Ambassador Bryce There—Reciprocity Measure up Today in Senate Committee in Washington—Likely in For Lengthy Consideration

(Canadian Press) Washington, D. C., Feb. 18.—President Taft talked territorial expansion last night at a dinner at which Ambassador Bryce of Great Britain and other members of the diplomatic corps were present. In what he termed, "the annexation business," he suggested as an initial movement the immediate acquisition of the Aurora Borealis.

The president dropped in during the evening at the dinner given in honor of the secretary of state, Mr. Knox, by Rep. David J. Foster of Vermont, chairman of the house committee on foreign relations. He said, when asked to speak, that he wished to emphasize the importance of the state department, and that he hoped the subject would not cause surprise.

"Our attention has recently been called to the subject of annexation," said the president, turning laughingly to the British Ambassador, "and that's a little confidential chat about it."

"Look out," broke in Secretary Knox, "they'll think next we're after Australia," and his caution evoked laughter in which both the president and Ambassador Bryce joined heartily.

"But I want it distinctly understood," continued the president, "that if we are to embark in the annexation business, we must at the earliest opportunity annex the Aurora Borealis."

Reserved laughter greeted the suggestion. The president's remarks were wholly informal and no other speeches were made.

The reciprocity measure.

Washington, Feb. 18.—The action of the house committee on foreign affairs yesterday in killing Mr. Bennett's "annexation" resolution was hailed with satisfaction by the friends of reciprocity in Washington, and it was hoped it would dispose of the opposition on the good faith of the United States in the reciprocity matter.

It is now settled that the senate committee on finance will meet today to deal with the reciprocity bill. No one can say with certainty when it will come out, but it is not expected to be kept there long. The committee heard reports against it in the face of the obvious sentiment in the country for the bill, and in the face of the desire of the present majority of the senators to have it voted upon this session. Owing to the ruling permitting practically unlimited debate in the senate, the bill may take a considerable time for discussion.

ROB BANK IN ROME; GET A MILLION

Gang of Burglars Kill Two Watchmen Who Defend Vault Against Them

(Canadian Press) Rome, Feb. 18.—The Great Exchange Bank near the stock exchange was looted by burglars early today. The burglars killed the two night watchmen who were attempting to defend the vault and escaped with a vast sum of money. The crime was the most daring in the history of Rome.

It is reported that the burglars secured more than \$1,000,000, though a complete count of the cash in the vaults will not be made before the next day is determined. There were at least five men in the gang.

GIRL ENDS LIFE
Sick and Helpless, and only a Burden to Hard Working Mother, She Wrote

(Canadian Press) Toronto, Feb. 18.—(Canadian Press)—"I have been sick and helpless and have had to watch mother going out to wash every day. It is only a bill of expense to her and no good to anyone. So I think I'd better put myself out of the way."

So read a note left by Millie Tomlinson, aged 22 years, who yesterday committed suicide by drinking carbolic acid.

CHARGES SPEAKER OF BRITISH HOUSE WITH PARTIALITY
London, Feb. 18.—Whatever action the house of commons may decide to take on Monday in regard to a letter from Wedgwood, accusing Speaker Lowther with partiality, its ability to locate its own dignity is ample and far reaching. In fact the powers of the house have apparently no limit beyond the restraint which clings to one month for making an amendment.

BURGLAR ALARM TO PROTECT TOMB
Exie, Pa., Feb. 18.—(Canadian Press)—The mansion of the late Wm. L. Scott, millionaire and congressman, desecrated recently by vandals has been equipped with an electric burglar alarm. The alarm connects with the home of Mrs. Charles H. Strong, a daughter.

FARMERS' BANK CASE
Toronto, Feb. 18.—(Canadian Press)—The provincial directors of the Farmers' Bank, and others, charged with fraud or accepting hypothecation of the bank's note issue, conspiracy, fraud, etc., will probably not be convicted today, certainly not if, as intimated yesterday, the presence of Hon. W. S. Fielding, as a witness, is to be demanded.

The United States recognizes with satisfaction that the Dominion of Canada is a permanent North American political unit, and that her autonomy is secure.

INTEREST IN FREDERICTON CIVIC ELECTION KEEN
Fredericton, N. B., Feb. 18.—Keen interest is being taken in the approaching civic election and the rate payers are hastening to get their taxes paid so that they will be qualified to vote. There will be two tickets, one to be known as the citizens' ticket, and the other as the good government ticket. J. D. Palmer, J. M. Scott and J. H. Fleming are among those who have declined nominations. The sum of \$6,000 has been collected in taxes this week.

POLICE COURT
It was only after considerable physical influence had been brought to bear on Joseph Robinson last night that he could be induced to go from Main street to the North End lock-up in company of Police-constable Totten, and while proceeding thither, the quiet of the neighborhood was only disturbed by his language. This morning in the police court the charges against him were drunkenness, profane language and police resistance, and a fine of \$10 or four months' jail was imposed. Two of the charges stood against him.

TO DEFEND THE CHARTER
Mr. Peter Binks says he has reliable information to the effect that the 230 loads of stone which the city received, which cannot be found anywhere, have been secretly stored in the basement and on the roof of city hall, and that if a commission should attempt to invade the precincts these stones would be hurled down upon them from the battlements by the gallant defenders of the city's charter.

TIE WORST YET.
Ottawa, Feb. 18.—(Special)—The largest delegation that has yet been heard from since the reciprocity negotiations were begun will arrive here next week. Ten thousand emigrants from all along the international boundary line will come here to protest against the ruin of their business by this scandalous agreement. There can be no doubt that Fielding and Peterson will now take to the woods.

Demand for Flats and Houses Declared Greater—Lack of \$300 a Year Declared Most Noticeable

That there are more people moving this than usual, that there is a good demand for houses and flats, with little likelihood of many vacant houses this year, and that there is no justification for raising rents, is the general consensus of opinion among the real estate dealers and property owners, when interviewed by a Times reporter.

As regards the selling of properties, one man informed the Times that he did not think there were any more dwellings and residences changing hands than in the last two or three years. It might be, he thought, that owners felt that they did not want to sell at this time when there was talk of values decreasing, but usually the residences were selling at the same price as in the past.

LABOR TROUBLES GROWING SERIOUS IN AUSTRALIA
Melbourne, Feb. 18.—Industrial unrest is everywhere making its presence felt throughout the commonwealth. Every day it seems a new section of employees throws down their tools, with a fresh demand upon the masters. Because 40 non-union men were employed by the leading harvester companies in the north, the workers are striking this morning. The manufacturers decide to dismiss the non-union men, and the strikers of the men and neither will they compel them to join the union.

IF CALLED IT WILL BE AS WIDE AS CANADA

MATTER OF WAGES

(Canadian Press) Toronto, Feb. 18.—For the third time in seven years is the Great Northwestern Telegraph Company threatened with a strike of its operators. From the present temper of the men and the uncompromising attitude assumed by the company there seems little doubt that the trouble will at least reach an appeal for the appointment of a board of conciliation, under the provisions of the Laidlaw Act.

International President S. J. Koenemann of the Commercial Telegraphers Union of America arrived in the city yesterday to take charge of the situation. While there was an question of union recognition in the dispute, the union would rather have the committee appointed by the men supporting its claim for a reasonable salary schedule.

While the trouble has come to a head in Toronto, three demands following the presentation of a new schedule, he said that the entire staff of operators from Winnipeg to the Atlantic Coast would be affected by any action that might be taken.

25 DISCHARGED.
Twenty-five men have been discharged by the Great Northwestern Telegraph Co. since January 1, as a result of a campaign among the telegraphers of that company, which had for its object higher wages, and which had for its object higher wages, and which had for its object higher wages.

FAMOUS GEMS OF PROSE PASSING OF THE INDIAN AS AN INDIAN By Henry L. Dawes

UPON any theory it is absolutely certain that the Indian as an Indian is to disappear from this country for ever. The Indian as an Indian cannot live here any more. The climatic change has wrought more effectively upon the character of animal and vegetable life the necessity of an absolute change than the conditions of life in this country since we came here. The Indian of our fathers, with this vast continent to roam over, dominant, powerful, the ruler of the continent, cannot live here because there is no condition in which he can longer exist.

The Indian who lived by the chase, who lived by what he could find of live game in the country, and in no other way, cannot live here because the game has disappeared. The Indian of the reservation cannot live here, he cannot be around him on all sides and pressing upon him. The Indian of the reservation can live here no longer. The Indian as an Indian can find no place in this continent. The race will continue here.

Statistics show that the race instead of diminishing in the last 25 or 30 years is increasing and multiplying in numbers on our hands; and when all the conditions of the past have disappeared a new condition comes, and he must live here under one of two conditions—in his old character or in a new character. In his old character, it is that of a savage tramp with no knowledge of work, with no disposition to work, with no means of self-support, with no heritage upon which to live, no habitation in which to dwell, and he becomes of necessity, and the conditions of the life he lives of those of a thriftless wanderer, gathering his food and sustenance as best he may, with the same character he had when he had the whole country to roam over. Or he must live under a changed character, he must be made a self-supporting citizen of the United States, or he will certainly be a vagabond with the instincts of a savage.

RAGING HEADACHE STOPPED AT ONCE

When He Took "Fruit-a-tives"

"Shanty, Ont., Sept. 23rd, 1910. You certainly have the Greatest discovered Headache Cure in the world. Before 'Fruit-a-tives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders.

"One of your travellers called on me when I had one of my raging headaches, and had my head almost raw from external applications.

"I asked to see any person coming into the store (much less a commercial traveler) and I told him very curtly that I had a headache, and he was invited on my trying 'Fruit-a-tives'."

"I did so, and in 10 minutes my raging headache was stopped at once."

"I do so, and in 10 minutes my raging headache was stopped at once."

A GOOD PLACE TO BUY GOOD CLOTHES

THE CLOSING OF GILMOUR'S SUIT SALE

is in sight. Brisk buying has rapidly depleted our stock. Yet if you call soon you will still find here a pleasing array of magnificent values—suits of real worth, with prices cut fully

20 to 50 p.c. Below Original Low Figures.

Our prices are never excessive. All our customers realize that. So these reductions really mean much more to you than they would if our policy permitted the overpricing of offerings at the season's beginning.

Smart suits for young men; correct suits for all men; broken loafs; coats and vests without trousers; trousers alone—all sorts of desirable clothing now discounted 20 per cent to 50 per cent.

Fancy Vests, Half-Price, \$1.00 to \$2.00. But come soon.

GLORIOUS HAIR

Any Woman Can Have It

Many thousands of women refined and educated, have learned that it is not hard to have and to keep an abundance of lustrous hair. The Parisian Sage hair grower is used daily.

Since its introduction in Canada, Parisian Sage has become a favorite with the women who desire brilliant and radiant hair. It will not fall out or turn gray. Use the Parisian Sage; it will keep the scalp immune from dandruff; will stop itching and falling hair and remove every particle of dandruff.

E. J. Mahoney and A. Chipman Smith think so much of Parisian Sage that they guarantee to do as advertised. Large bottles 50 cents; also sold an unassisted in Fairville by Allen's Fairville Drug Co.

ENTRIES CLOSE TONIGHT

Entries will close tonight for the mammoth Maritime championships which will take place in the popular Victoria rink, Monday night. "Oats are the most Nutritious of all Cereals"

Robert Hutchinson, M. D. Author, Food and Dietetics

If you've been eating fad breakfast foods in the belief that they were more nutritious than oatmeal, it's time you changed the truth.

In his great book "Food and Dietetics" Robert Hutchinson, M.D., M.B., M.R.C.P., says "Oats may be regarded as the most nutritious of all cereals. They are rich in nitrogenous matter and mineral substances. Of the total nitrogenous matter 94 per cent. is in the form of protein, and therefore available for tissue-building."

Now that you know the facts you will take an added enjoyment from your bowl of oatmeal each morning. You will serve it to your children regularly.

Of all brands of oats you'll like

A PRISON FARM

With a jail full of prisoners the people of St. John should give serious consideration to the question of establishing a prison farm for the city, or preferably for the whole province.

This method of dealing with drunkards and petty criminals has passed the experimental stage. It has the advantage, first, of surrounding the offenders with influences which tend toward the restoration of manhood; and, second, of relieving the public of at least a portion of the expense of keeping the prisoners. For on a well-conducted farm every man would become a producer.

How much better it would be if the long list of persons who gradually acquire a police court record and are known to be idle and dissolute were removed from a city environment and set to work under healthy conditions to earn an honest living. A small wage could be paid, and the fund used to aid in supporting the families of men who under ordinary conditions are a burden rather than a blessing to those who should be supported by the fruits of their industry.

This is a question which should appeal to business men. A progressive city should be without the depressing influence of drunken loafers about the streets, and men quite able to work frequenting saloons and depending upon the labor of women and children for their support. There is no prospect that the city will be rid of saloons in the near future, and therefore attention should be taken to protect the community from the evils of self-indulgence; and to give those who are weak an opportunity to develop strength. There should be an institution to which any man who prefers illness and drunkenness to sober industry could be sent without the possibility of suspended sentence, and where he would be compelled to earn his keep.

All that is needed to secure such a reform is a public sentiment strong enough to impress itself upon the legislators of the province. The time has surely come to make an effort to arouse that sentiment.

If it is, the people cannot vote on it until September, 1912, and even if they were to endorse the proposal—a result in no wise certain—the prohibitory statute would still be in existence and in force and the legislature of 1913 would have to repeal them in order to give prohibition its death blow in Maine. But nobody today can foretell what the political complexion of that legislature will be, or what its attitude toward prohibition would be. So, even with prohibition rooted out of its fundamental law, Maine might continue to be an allegedly 'dry' state for many years to come. Maine cannot repeal her prohibitory laws at will—as Alabama can—but must first amend her constitution."

HOMES FOR WORKING MEN

The Times publishes today an article from the Ottawa Citizen telling of a plan by which it is hoped to solve the problem of housing the working people in the cities of Canada. The plan is that of Dr. Gould, a city planning expert from New York, who is an ardent advocate of the clean and wholesome city. He pleads for individual ownership, and suggests the formation of philanthropic housing trusts which would make capital available to this end. There is an opportunity in St. John for the city itself to encourage town planning and individual ownership. The city is itself a large landowner. Why should it not adopt a town-planning policy in connection with those lands and after a plan has been made encourage people of small

QUEBEC'S EXAMPLE

The province of Quebec will have a public utilities commission with power to act. The government has introduced a measure to define more clearly the powers of the commission. A Quebec despatch says of the act: "It will give the authority to regulate the rates charged by public utilities companies. The bill also will enable the commission to decide the quality of a commodity furnished the public. It had been expected that the amendment to the act of 1909 would strengthen the hands of the newly formed commission, and the outlines of the bill make that clear beyond doubt. Another important feature of the act is that it places water companies under the jurisdiction of the commission, which was not the case under the original act. The act defines the powers of the commission regarding rates to be levied, as well as the nature and quality of the commodity supplied. The commission may issue an order if deemed advisable for the improvement of a public service. For example, if the gas or electricity is not up to the standard, the commission may order a better grade of commodity, as well as determine what are annual rates or charges that discriminate between persons in municipalities. As an example, if a public utilities company should give cheaper rates to a few persons, the commission may make the rates more uniform."

Maine cannot repeal her prohibitory laws at will—as Alabama can—but must first amend her constitution."

HOMES FOR WORKING MEN

The Times publishes today an article from the Ottawa Citizen telling of a plan by which it is hoped to solve the problem of housing the working people in the cities of Canada. The plan is that of Dr. Gould, a city planning expert from New York, who is an ardent advocate of the clean and wholesome city. He pleads for individual ownership, and suggests the formation of philanthropic housing trusts which would make capital available to this end.

PROHIBITION LAWS

The state of Alabama has decided after two years trial of prohibition to repeal the law and substitute local option. Alabama was a particularly hard state in which to enforce prohibition. As the prohibitory principle was not embodied in the constitution it was necessary to repeal the law. In the state of Maine it is different. The Democrats are in power and are pledged to the repeal of prohibition, but since the principle has been embodied in the constitution for twenty-five years they must go to the people. An exchange thus states the position in Maine: "The first step is to merely adopt a joint resolution proposing to repeal the prohibitory provision of the constitution and then let the people vote on it; resolution is now under discussion in the legislature and, although naturally meeting with opposition, it will probably be adopted by both branches. If it is, the people cannot vote on it until September, 1912, and even if they were to endorse the proposal—a result in no wise certain—the prohibitory statute would still be in existence and in force and the legislature of 1913 would have to repeal them in order to give prohibition its death blow in Maine. But nobody today can foretell what the political complexion of that legislature will be, or what its attitude toward prohibition would be. So, even with prohibition rooted out of its fundamental law, Maine might continue to be an allegedly 'dry' state for many years to come. Maine cannot repeal her prohibitory laws at will—as Alabama can—but must first amend her constitution."

WRITTEN LAW HER DEFENCE

Woman Shoots one She Suspected as Rival

WAS DELIBERATE

Mrs. Brooks, Leaving Neighbors at Prayer Meeting in Her House, Went to Store and Killed Seamstress - Returning to Husband When Arrested

Fort Worth, Texas, Feb. 10.—For the first time in the history of Texas courts a woman will plead the unwritten law as a defence for murder. She is Mrs. Lizzie Brooks, wife of Judge T. M. Brooks, and prominent in Fort Worth church circles. Her victim was Mrs. Mary Blinford, a seamstress, employed in the Fair department store, who she believed was a rival for her husband's love.

Mrs. Brooks followed the masculine precedent when she let her home heavily veiled, with a pistol concealed in her muff, entered the department store where her rival worked and shot her to death. Mrs. Brooks can present every argument of good character ever offered by a defendant arraigned for a capital offence. She has been a communicant at the First Methodist church, the wealthiest in the city, and a leader in women's societies. She has been a communicant at the First Methodist church, the wealthiest in the city, and a leader in women's societies.

Leaves Neighbors in Prayer. In the midst of the devotions Mrs. Brooks rose from her knees, excused herself for the trip down. "I'll be back in a few minutes," she said to her guests as she left the room. A half hour later the telephone rang. The women were thrown into excitement upon learning that their absent hostess had killed a woman.

Whatever the law books may say, public sentiment is undoubtedly with Mrs. Brooks. The women who have met with her weekly in the neighborhood prayer meetings are actively sympathetic and declare that if the unwritten law applies to men, it must apply to women also.

Mrs. Brooks has steadily refused to make a statement, but she is confident of acquittal. Her husband declares that his wife's jealousy was unfounded.

"Mrs. Blinford was a noble, good woman," he said. "My wife is of a high nervous, jealous temperament, and acted upon an uncontrollable impulse to kill. I knew that she was jealous, but no one was more surprised at her act than I."

Mrs. Brooks has two children, the eldest a boy of seventeen, the other a girl of fifteen. Both side with the mother in the strained family relations that have existed since the tragedy.

Mrs. Blinford was a member of the First Baptist church, and her pastor says he had always thought her a modest, earnest woman. She attended Sunday school and church regularly.

The acquaintance between Judge Brooks and Mrs. Blinford, whose husband had deserted her, began her years ago, while the woman was the Judge's tenant. The two were seen together often, sometimes in the Judge's office, sometimes in the street, sometimes in cafes.

The neighbors say that Mrs. Brooks reprimanded with her husband and upbraided him for his attentions to Mrs. Blinford, which the wife thought were more than friendly.

But rumors of matrimonial discord did not reach far. Mrs. Brooks came of a proud family, and she did not disclose the domestic wounds to the public gaze. Her act of ending the life of her rival came to her friends with the suddenness of a thunderbolt.

Coily Fanned. The tragically laced zone of the elements of the dramatic execution. She went directly to the store where Mrs. Blinford was employed, ascended to the second floor and proceeded to the alteration department.

"I want to see about the skirt, I am having altered," she told a sales girl. "Who fitted the skirt for you?" the young woman asked.

"Mrs. Blinford, I think," the veiled woman answered. She sat in a chair while the elegant friend of Mrs. Blinford.

"There's a lady waiting out there for you," the girl told Mrs. Blinford. Mrs. Blinford went out without frowning of danger. She approached the veiled woman, who rose from her chair, her hands hidden in a heavy muff. The veiled woman peered forward, as if to make sure of her victim's identity. She allowed the seamstress to come within two feet, then a gloved hand came out of the muff, clapping a pistol.

TROUBLOUS CAREER OF A BEAUTY ENDS

The Death of Mrs. Bull, Widow of Famous Surgeon

GOSSIP OF 63THAM

Ida M. Tarbell and the Suffragettes—A Judge Speaks a Word for the Magdalenes—Here's Something New Even for New York

(Times' Special Correspondence) New York, Feb. 17.—The death, a few days ago, of Mrs. Mary Nevins Bull, widow of Dr. William T. Bull, a famous surgeon, has attracted attention many years ago by marrying James C. Bull, Jr., the favorite son of the "Plumed Knight" of the Republican party who was beaten for the presidency by Grover Cleveland in 1884.

When the latter died four years ago, his widow became the prey of a horde of sharpers who induced her to invest a large part of the fortune he left her in stocks of spurious or debatable character, which netted her big losses. Worry over the manner in which she had been victimized is supposed to have undermined her health and contributed to her death, which occurred at Newport, Rhode Island, last week.

The Suffragettes. Ida M. Tarbell, Nemesis of Standard Oil, this week put something of a crimp in the activities of the suffragettes, when she was laying stress upon the dignity of the woman who has the right to vote. As though one of the most active as well as most gifted women in the country, Miss Tarbell really has been victimized, as she is supposed to have undermined her health and contributed to her death, which occurred at Newport, Rhode Island, last week.

IN SWITZERLAND THEY COAST AT A SPEED OF A MILE IN A MINUTE

Boobsling is a recognized winter sport in Canada, but just the same it is in Switzerland that it has developed into its highest possibilities. The sled is steered like an automobile, with the wheel in the hands of the first "boobler," while the tail-end rider manipulates the brake at the rear.

By varying the body in accordance with the wind, an enormous speed can be kept up, and corners rounded off at hair-raising speed without fear of a spill. Bobbing at sixty miles an hour is not rare. Bobbing competitions are held, with the express purpose of setting speed records.

A feature of the sport is that women are just as ardent devotees as men, but as a rule, a team consists of four, with one woman, although in the case of this picture it will be noted that there are three women to one man.

A FAIR MAID, THE FERRY AND THE LOOP-LINE CAR

Recess had full sway in the fair Loyalist City. The soft and gentle fog that is wont to caress the cheeks of the brave men and fair women, who walk the busy streets, had shrinkingly withdrawn before the bold and roistering wind. Ere long Winter was King.

So it befell that in the erstwhile busy marts of trade a great stillness prevailed, and accordingly a philanthropic merchant prince had leisure to look over his store, and to notice the underlings who served therein. And it came to pass that his eye, as he scanned the shelves of goods, fell upon one of the heads of those, and a cur fell upon his head, while the angry word "boobler" was hurled at him.

When the latter died four years ago, his widow became the prey of a horde of sharpers who induced her to invest a large part of the fortune he left her in stocks of spurious or debatable character, which netted her big losses. House of Commons Speaker an Ideal Man for the Position

AN INCIDENT

Some Matters of Legislation of National Interest—Ulster Home Rule—The Corporation Exhibition

(Times' Special Correspondence) London, Feb. 17.—The resounding parliament on January 31 was only for the formal voting of the speaker into office.

On Feb. 6 the House of Commons began a historic session with the speaker in the chair. For the fourth time Mr. Lowther has been elected as the first commoner, and by what is practically a unanimous vote of all parties. He is an ideal speaker to control the most difficult of assemblies. His tact and humor and ability as a parliamentarian have long since marked him as the best occupant of the chair that Westminster has known in our time.

He has, as was said this week, "the party of an English judge, and the manner and spirit of an English gentleman." But every gentleman needs with impudence, his tact and humor and ability as a parliamentarian have long since marked him as the best occupant of the chair that Westminster has known in our time.

WORK IN THE SLUMS OF NEW YORK BY A ST. JOHN NURSE; MISS JACK SPEAKS OF CONDITIONS COMBATTED

In the Natural History Society rooms on Thursday afternoon, Miss Louisa Jack, of this city, read a valuable and interesting paper on work in the New York slums in which she has been engaged as a settlement worker. The following are extracts from her address:—

From the beginning of my training at the Johns Hopkins Hospital in the spring of 1891, I felt strongly that after my course was finished I should like best of all to work among the poor in their own homes. Of settlements I had never heard.

As time went on, the desire grew stronger, inspired perhaps by meeting from time to time nurses who had been doing what I wished so much to do and full of enthusiasm for the work.

The last year of my training we seniors had the pleasure of hearing Miss Wald of the Nurses' Settlement in New York, who told us something of her first efforts among the poor. She said: After finishing her training at the New York Hospital, she went down town to talk to the people to a group of poor women at a Jewish Industrial school for personal and household hygiene. One day she noticed that a familiar face was missing from her class. She made inquiries, found out where the woman lived, and the next day went to see her. She found her lying in a dark bedroom, with no outside windows. The only light and air came from the next room.

I have seen these dark bedrooms prevail. Some have three or two of them, one behind the other. Fortunately, through the efforts of some good people who have lived at a settlement and knew whereof they spoke, a law was passed compelling all landlords to have outside windows in each room in the tenement buildings.

The woman living under such conditions could hardly live but for the Miss Wald York.

House of Commons Speaker an Ideal Man for the Position

AN INCIDENT

Some Matters of Legislation of National Interest—Ulster Home Rule—The Corporation Exhibition

(Times' Special Correspondence) London, Feb. 17.—The resounding parliament on January 31 was only for the formal voting of the speaker into office.

On Feb. 6 the House of Commons began a historic session with the speaker in the chair. For the fourth time Mr. Lowther has been elected as the first commoner, and by what is practically a unanimous vote of all parties. He is an ideal speaker to control the most difficult of assemblies. His tact and humor and ability as a parliamentarian have long since marked him as the best occupant of the chair that Westminster has known in our time.

COMING from CALIFORNIA!

The "SUNKIST" Special, Moving at Express Train Speed, is Bringing TWENTY THOUSAND Boxes of Famous "SUNKIST" Oranges

Special Sale of "SUNKIST" Oranges All Next Week

Another big sale of "Sunkist" oranges will begin Monday next, continuing till the close of the week.

These special sales, which are held from time to time, are proving immensely popular. Nearly everybody now knows the excellence of "Sunkist" oranges and they look forward with great interest to these announcements. If you and your people have never eaten "Sunkist" oranges, please try them. Until you do so, you can not imagine the delicious taste of fresh picked, tree-ripened oranges.

Special "Sunkist" Train

Two giant locomotives, pulling 48 refrigerator cars laden with fresh-picked, tree-ripened oranges—the select crop of 100 groves—will soon arrive from California.

So carefully have these oranges

been picked; so rigidly were they inspected and graded; so rapidly are they being transported, that the people of this vicinity will be able to secure oranges as fresh, sweet and wholesome as can be bought in Los Angeles or San Francisco.

Your dealer and all other local dealers will be supplied with "Sunkist" oranges from the "Sunkist" Special Train.

"Sunkist" is the Perfect Orange

"Sunkist" is not a species or variety of oranges—it is a certain grade or quality, the choicest of each of five thousand California Orange Farmers, who produce 60% of the state's entire crop. They pack all their perfect oranges under the one name, "Sunkist," and ship them East by special fast freight.

Every "Sunkist" orange is firm, so and sound. It is picked by a gloved hand. No orange that falls to the ground ever comes bruised or damaged in any way, way, ever bears the "Sunkist" name.

Cheapest You Can Buy

"Sunkist" oranges are not only the finest flavored, freshest and most healthful of all oranges, but they are actually the least costly you can buy. Being seedless, seedless and thin-skinned, the percentage of waste is extremely small. The tender, juicy pulp comprises 95% of the orange.

So it means economy to buy "Sunkist" oranges.

Buy "Sunkist" by the box. You can obtain a worth-while reduction on a

box from your dealer. Because of their excellent condition "Sunkist" oranges keep better than others.

Many Ways to Serve Them

Oranges are the most appetizing and nourishing foods one can serve—at breakfast—in the sick-room—between meals—in salads, ices, sherbets and puddings.

There is no limit to the number of excellent dishes of which "Sunkist" oranges form the basis.

Doctors Recommend Them

It is very unusual to find a food that people like and can safely eat as much of as the orange. Leading physicians say that it counteracts the mucus and other heavy foods we eat, and should be eaten liberally. It is a universally known fact that orange juice is an excellent food for the main cells and a tonic for run-down nerves. No better laxative than sound, ripe oranges can be found.

Save Your "Sunkist" Wrappers

By saving your "Sunkist" orange wrappers you can easily secure a full set of genuine Rogers orange spoons, dessert spoons and fruit knives. The patterns shown are new 1911 styles, designed exclusively for us. They are as attractive and stylish as money can buy. All are Rogers quality, standard A-No. 1 plate and are fully guaranteed by the maker. No advertising appears on any of our premiums.

CANADIAN "CALAMITY HOWLERS"

Hysterical Outbursts on Part of Some Papers Over Tariff Agreement Sharply Rebuked By the Independent Shareholder

(The Shareholder.)
If we are to believe the hysterical outbursts which are appearing in many of our papers at the present time, Canada is on the verge of a great calamity. We have no interest in the political aspect of the present tariff negotiations and are indifferent whether Liberals or Conservatives are in power at Ottawa. We do feel, however, that a great deal of nonsense has been written in regard to the reciprocity negotiations, and that those writings will do more harm to Canada than any reciprocity treaty we might negotiate. It is little less than absurd for writers to say that the pending treaty between Canada and the United States means the breaking up of the empire and the absorption of Canada into the United States. This is so preposterous that it is unworthy of refutation. The absurdity of such a contention is self-evident.

Almost on a par with these contentions are the statements that the completion of the treaty will mean the break-up of our transportation systems. In other words, these "calamity howlers" state that the Canadian Pacific Railway, Grand Trunk Railway, and the Canadian Northern Railway will become mere branch lines and act as feeders to the United States railroad.

In the history of Canadian railway enterprise disapproval of any such theory. It is acknowledged today that the Canadian Pacific Railway is one of the greatest—if not the greatest—railways in the world. At the present time its stock is selling higher than that of any railroad on the continent. It pays a dividend of 10 per cent, and its earnings and general development have been little short of phenomenal. It is unbelievable to think that our Canadian railroads will quietly submit to the traffic being taken south instead of east. Even those who oppose the treaty acknowledge that one result of it will be the opening up of large areas of our western lands and a greater influx of emigrants. This will undoubtedly mean that more grain is to be shipped east and more manufactured articles carried in to supply the needs of the new settlers. This will mean more traffic instead of loss for the Canadian railroads.

At the same instant that our Canadian "calamity howlers" are predicting the break-up of the empire and the absorption of Canada into the United States, the business men of New York are proclaiming to their government and to the world that Montreal has captured the export grain business from New York. They point out that 74 per cent of the shipments of the west are now going through Montreal. In 1908 New York exported

HOW TO GET FAT FREE

Some Treatment Which Works Wonders in Making Scrawny, Undeveloped Men and Women Plump and Attractive

50c Box Free to Any Reader

This person, particularly those who are to thirty pounds under weight, will be interested to learn of a marvelous discovery which puts on flesh at the rate of a pound a day in many instances, rounds out the figure and makes thin folks fat up even if they have been scrawny for years.

Don't shut your eyes and say "Impossible!" Put this new treatment to the test. The test is free (see coupon below), and surely the test will tell. It is no guess that you must remain skinny and under weight the rest of your life even if you have vainly tried every "diet" you ever heard of.

This new discovery calls for no diet "stunts," no detention from business. You go about as usual, eat what you like, it is harmless to the most delicate stomach and contains no oils, emulsions, or alcohol. Just a concentrated fat-free tonic.

Excessive thinness is very misleading. Thin men never look like "real money." They are pushed aside in the crowd for success. Boy women are seldom very popular. Dress will not hide skin and bones. All men admire fine figures. Get Sargol and get out of the featherweight class.

Mail the Coupon today. Send your name and full address to The Sargol Co., 442-B, Herald Bldg., Binghamton, N. Y. They will send at once the 50-cent package. Sargol and will write and show you why you have remained thin, and how Sargol puts on firm flesh in a natural way. There is no longer any necessity for you to remain skinny and ill developed.

FREE COUPON. This certificate entitles the holder to one 50-cent package of Sargol, the home treatment which makes thin folks plump and attractive.

THE PROBLEM OF RENTS

(Continued from page 1.) and \$250, but he claimed it did not pay to build houses of that class, as the cost of building was so high.

"Why do not people here build more brick houses, instead of wooden frame houses?" he asked. "In the Upper Canadian cities, they build more houses of brick, and it is claimed that they can be erected almost as cheaply as the wooden structures, and they are much more substantial and better looking. The working men in the Upper Canadian cities own their own houses, and in most cases they are constructed of brick.

"The question is often asked, Why cannot the working men in St. John own their own homes? They own if they would live in the suburbs, but they all want to live alongside of their work. Just think what a chance there is for houses to be built out around Red Head, the Manawagonish road, or on the heights of Carlton, overlooking the harbor. The working men could own their own homes if they would consent to live in these sections like the workers in other cities do."

Speaking of houses and flats to let at the present time, he said there were very few vacancies at present. It was evident that the population of the city was increasing because the demand for houses was greater than the supply, and this in spite of the fact that quite a number of new houses were erected each year and many people were living in the country all the year round now instead of only in the summer months.

There was no justification for raising the rents, he thought, as the working men were paying about all they could stand with the higher cost of living. Some landlords, if their taxes were increased 25 per cent, charged an advance of about 80 on their tenants. This had been done to a considerable extent last year, and some were increasing the rents again this year. If a landlord had an increase in taxes or water rates, that increase should be divided among the tenants pro rata, and the increase not used of an excuse to extort an extra amount from the tenant.

TROUBLOUS CAREER ENDS

(Continued from page 7.)

Long-haired husband, with sun-like nose, ruffled breast, and disposition that bled with sympathy when the man in the back flat shies an empty beer bottle at the obstreperous tom cat on the rear fence, have a militant champion in Rev. Dr. Oscar Harwood, a local divine, who, in a public statement issued the other day, advocates the equal distribution of all household work between husband and wife.

The Magdalenes

Judge Lacombe, of the United States circuit court, has put himself on record in the case of the Magdalenes. In a biting opinion which he filed the other day in suits brought by Uncle Sam against the steamship companies for bringing into the country the Magdalenes, the judge stated that the statute which stigmatizes them as undesirable and declared our laws to be harsher on the soiled doves than the Bible, quoting from Romans vi, 23, to prove the strength of his assertion.

In commenting on the drastic character of the immigration laws, the jurist cited a possible case, where his operation would be unjust. He said: "An alien girl—of estimable, virtuous girl—while yet an infant, comes to this country with her parents. As she reaches womanhood, both parents die, and the young woman is left, it may be, with no other relatives, to make her struggle for existence as best she can. She may for some years maintain herself, and then at last—at some time—may take the easiest way to keep body and soul together. All hope for her may be lost."

Institutions—state and local, and county agencies maintained by the willing gifts of individuals stand ready to help the fallen woman and secure to her some opportunity for a new life. Can the alien fallen woman avail of this help? No; because the sovereign power stretches out its powerful arm, seizes her and casts her out of the country in which her young life was wrecked, to fling her into the country where she came so many years before that to it she is practically an alien, possibly unable to articulate the simplest phrase in its language, penniless, and, it may be, alone. If such be the wages of sin for the alien fallen woman, the might might be thought higher than that announced in Romans vi, 23. It is certainly startling to find such a piece of legislation upon the statute books of a Christian country. But it is there nevertheless.

New Even for New York

Blase New York, where nothing under the sun is supposed to be new, is being treated this week to an exhibit of rubber raising that threatens to eclipse in popular interest anything seen here in many years.

Since the days of the old Crystal Palace, half a century ago, Gotham has had its fancy varieties with exhibitions of every kind from the stuffed skin of the horse on sixteen miles to Winchester, to the replica of a drawing room in the French chateau of William Ellis Corey, retired captain of the Steel Trust, and the hatching of turtle eggs while you wait. Largest individual consumer of rubber in the world, New York has never seen rubber depicted in the growing.

The picture of the tropical forest has a native framework, and an atmosphere of realism that carries the observer into the jungle and in fancy brings him into intimate touch with the manners and customs of the aborigine in the pursuit of the industry, he and his ancestral habits portrayed in his scant costume is seen tapping the trees, with his odd shaped knives, gathering gum from the incisions made by them and cutting it over the forest fire before he takes it into camp.

In imagination you can smell the sweet scent of the orchid and other tropical flora and see the playful little (14) monkey cavorting among the interlacing branches. Smart society men and women are daily visitors to the exhibit, which is held under the auspices of one of the largest manufacturers in the east. The great popularity of the automobile in New York, where it is computed \$100,000,000 is invested in machines, has made the show the vogue for inland countries. The exhibit will be continued for several weeks yet.

Professor Frank Perret, who has spent the last five years making scientific experiments in connection with the volcanic disturbances of Vesuvius and Mt. Etna and was sent by the state department, to help find the bodies of United States Consul Cheney and his wife in the ruins of the consulate at Messina, will return to the scene of his labors next week. He will take back with him, a powerfully constructed diorgram, especially designed for his use in making audible the disturbances in the bowels of the earth. By means of this instrument, which magnifies sound waves many octaves, he expects to be able to determine with scientific exactness the evolution of these disturbances and be in a position to predict with greater certainty the period when the head of the crater may be expected to blow up.

For the last two years he has been using a small diorgram for this work and has achieved remarkable results with it, he says.

AFFAIRS OF WEEK IN LONDON

(Continued from page 7.)

The fiscal debate would have attracted little public interest—for the general election really settled the question of protection for this generation at least—but unexpected interest is roused by the reciprocal agreement between Canada and the United States.

The news that has reached us from Canada has thoroughly upset the organization for tariff reform. The basis of all this present day agitation for protection had its basis on a false imperialism and colonial preference.

Free traders, of course, expect that Austin Chamberlain will argue that Canada has been thrown into the arms of the United States by a wicked Liberal policy. Tariff reformers forget that Canada never sought a tax on British imports and is above all else devoted to the British empire and will not sacrifice either British or Canadian interests by giving up the idea of free exchange of commodities. The coming debate will be the swan song of

the tariff reformers and good Conservatives are hoping that Mr. Balfour will at last assert his leadership of a true Tory party who for the most part are sick of the revolutionary methods.

Harper Greenwood, M. P., is welcomed back to the new parliament, especially because he is a Canadian born M. P. who speaks with authority for his vintic old countrymen. In an interview last week he said Canada cannot be kept in the leading strings of a "preference" in the name of the empire.

Home Rule "Ulster" is perhaps the only anti-imperialist movement in the British Isles and Mr. Greenwood says truly that—despite the local self-government to Ireland in the west, link in the imperial chain, Ulster's unpopularity is sectarian and the latest sectarian issue turns out to be a hoax invented by a humorist in Belfast. It was a story illustrating that home rule would make the Protestants of Ireland antecedent to home rule; and he told of a Presbyterian wife of a Catholic husband having been abandoned with her children be-

cause the priest would not sanction the validity of such mixed marriages. The story was believed by Ulster and by some British Presbyterians till today when it is found to be a hoax. The discarded wife and children of the "mixed marriage" are the terror and puppets to which the Belfast writer referred. Of course all Ireland is laughing at the joke and the old way in which the "hoax" were hoaxed.

The Coronation Exhibition this year at the White City is to be a complete representation of the British Empire and the world held yesterday declared that it would give visitors complete representations of the chief centres of Great Britain. It will be a counter attraction to the festival at the Crystal Palace. It is expected that the coronation exhibition will serve as a great commercial and educational centre and be of incalculable advantage to those imperialists who only England know.

As an entertainment it makes all England long for the summer when the visitors will see realistic scenery and workers from all the outposts of greater Britain engaged in their handicrafts. These imperial exhibitions are expected to increase greatly the tide of British emigration to Canada. Already the offices of the Canadian immigration commissioner are crowded with applicants who are leaving this coming season, as I was informed today.

In trade as well as in emigration circles, the coronation year and the Canadian and U. S. proposed treaty will cause a big boom in Anglo-Canadian trade. City trade authorities say it is going to be a record year in trade with Canada. An American here has said that the agreement between Canada and the United States is going to give such a boom as will double Canada's export and import trade with England owing to the increase of its consum-

ing capacity. According to the same American opinion, Canada will increase her cultivated area as the Canadian farmers will now have a winter market when the St. Lawrence is closed. Canada, he says, will not buy less, but more than hitherto from England.

Henry Harrison, Mrs. George Fleming, Mrs. Clarence deForest, Miss McMillan, Miss Sauter, Miss Jessie Adams, Miss Mabel Thomson, Miss Warner, Miss Lou Girvan, Miss Tenny, Miss Barker.

Mr. J. Douglas Haven entertained upon three occasions this week, all of which functions were most enjoyable. Haven's Castle is an ideal home in which to entertain, and Mrs. Haven and her charming daughters make exceptionally delightful hostesses. The first of these parties was held on Friday of last week, when a tea was given for the older married set.

On Thursday evening Mrs. Thomson gave a smart bridge for ladies and gentlemen at which the prize winners were Mrs. Harold C. Schofield, Mrs. F. C. C. Harrison, Mrs. L. A. MacLaren, Mrs. Len Penner, Mrs. Frank White, Mr. Fred Schofield, Mrs. Thomson were an exquisite Irish lace gown over white satin, blue on bodice, ornaments, diamonds. In the supper room the decorations consisted of red geraniums, silver candelabra with silver and red.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound. The following letter from Mrs. Orville Book will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

"SLEEPLESSNESS."

Thousands of people all over this land toss their heads about on a sleepless pillow. The eyes do not close in the refreshing slumber that comes to those whose heart and nerves are right.

"THE BORNEN FED BABY IS THE HEALTHY BABY"

We are convinced that more infants are successfully raised each year on Borden's Eagle Brand Condensed Milk than on all so-called "infant foods" combined. This is fully substantiated, and it is only by our sales, but also by the unsolicited testimonial letters which we are constantly receiving from grateful parents and physicians.

GRIP

Be careful during this prevailing epidemic of Grip. It is a year's dry and a year's body warm and take "Seventy-seven" at the first sneeze or shiver. Don't wait until your bones begin to ache until the development of Influenza, Cough, Pains and Soreness in the Head and Chest, Cough, Sore Throat, General Prostration, Fever, or the other symptoms.

MODERN MARTYRS!

The age of martyrs is not passed. There are thousands of women all over the country enduring physical torture and mental anguish almost beyond description. They are not victims of persecution. Like the martyrs of old they are not called on to face the scaffold or the stake, but their sufferings—borne silence and hidden from the world at large—are scarcely less intense.

Dear friend, I feel my duty to write you a testimonial as to what Orange Lily has done for me. Last winter I was feeling very miserable indeed. I could scarcely do my household duties, and for two months or more I was unable to get out of bed. The pain would run down the back of my neck to my shoulders, and I was unable to get up. I was told that I had a brain tumor, and I was advised to have an operation. I refused to do so, and I was told that I would never get well again.

GRIP EPIDEMIC IN ROCHESTER

Rochester, N. Y., Feb. 7.—Rochester is suffering from an epidemic of grip and influenza, physicians estimating that there are 4,500 cases in the city. There are three types of the disease and the after effects are said to be more serious than the disease itself, frequently terminating in pneumonia.

CATARH CAN NOT BE CURED WITH LOCAL APPLICATIONS

As the catarrh of the bladder is a constitutional disease, it is not cured by local applications. It is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surface.

UNWRITTEN LAW IN DEFENCE

The crowd was beginning to collect and the entrance to the building was blocked. "They say she killed a woman at the Fair," somebody volunteered. "Raise her veil," he said. But as if shrinking from the gaze of the public the dazed hands kept the veil in place.

THE WEEK IN SPORTING CIRCLES IN ST. JOHN HAS BEEN LIVELY

This week's review of local sport shows another bright six days in all branches in fact as the winter season draws to a close sport generally seems to become more lively. Curling probably holds the premier position in the number of games, both local and foreign being large. The hockey feature was the announcement of the probable entry of St. John into the profrank for next year. For the horsemen the week has been the best yet. Barline has been the talk among the turfmen. Skating has seen some good racing and basket ball and bowling have been well patronized.

PRESS FOR HOSPITAL OPEN DOOR

St. John Doctors Having Bill Prepared for the Legislature

CHANGE OF RULES

Claim Right to Attend and Treat Their Own Patients in Private Rooms in the Institution—Draft of Bill Ready Soon

The long desired and oft asked for change in the regulations governing the General Public Hospital in St. John, will be a matter for action by the legislature of New Brunswick at the session to open on March 2. The committee on the subject, who are on the staff of the hospital are so far in the process of preparing the bills in the halls in Fredericton where the laws are made.

All is now being prepared by a city lawyer, and, while its form or matter can not yet be learned, the Times can state with authority that it will ask the members of the house of assembly to do away with a system which the medical men claim is not only an injustice to all of their number outside the hospital staff, but to the public who contribute to the hospital support.

The contentions of the general practitioners in the matter have been set out before. Briefly they claim that they should have the right to visit and treat their own patients who go to the hospital as paying patients in the private or semi-private wards. They do not ask to have entry to the public wards. The case is best stated by an example.

A doctor has under his care a patient in his or her home. It is considered that better results would be attained were the patient in the hospital. A private room is engaged and paid for, and the patient removed there. But with entry into the institution the relations of patient and physician are severed, the doctor is not permitted to call and attend to the case. His place is taken by one of the hospital staff.

From two viewpoints, the doctors now petitioning for the change present their case. In their own behalf they contend that the hospital facilities should be open to such cases for the better service they can give their patients, and also because of the benefit in their work from the hospital experience. Looking at the question from the viewpoint of the patient, they contend that, as he is a taxpayer and therefore helps in the upkeep of the hospital; also as he pays the hospital fees for private room and pays the doctor's fee, that he should have the privilege of treatment by his own doctor. It is well known that many people in illness desire "the family doctor" and him only, and here the matter of confidence in the physician enters into the question. Again, the patient may have had a certain doctor coming to his house for 10, 20 or 30 years.

The physician has therefore knowledge of the patient's constitution and strong personal interest in his welfare in determining treatment. This, too, is presented as a reason why there should not be a change to a physician who has not the benefit of this personal knowledge.

On the other hand, it has been stated that the hospital commissioners should be permitted to permit the outside practitioners "could lead" in the institution, and that the work it is doing would become less effective.

A year or more ago the matter came up in the form of a request to the commissioners for a hearing. This did not materialize at the time, but was renewed a few months ago. A hearing was given and the case of the outside practitioners was presented. The commissioners announced that consideration would be given, but there has been no answer, and it is said a committee had been appointed to gather information.

The matter will now come to a head, and it is expected will be fully exploited when the bill is presented in Fredericton. It will be watched with close interest by the people of St. John.

It is understood the bill will be ready soon, and will then be advertised.

BURNS CAUSE DEATH
OF MRS. MARY A. HARVEY
OF WELLINGTON ROW

Clothing Caught Fire and She Died Four Hours Later—Wide Circle of Friends to Regret Her Tragic Death

The community was greatly shocked this morning to learn of the death of Mrs. Mary A. Harvey, widow of Captain John Harvey, at her home, 23 Wellington Row, as a result of severe burns received at an early hour this morning.

Mrs. Harvey, who was in her 77th year, had been troubled with various veins in one of her limbs, and was in the habit of getting up during the night to dress it. She retired last night as usual and about midnight, her daughter, Mrs. Tanley, visited the room and found everything all right. About 2 o'clock this morning the household was awakened by cries from the room and it was found that Mrs. Harvey had in some manner set fire to her clothing, evidently while lighting a match. The fire was quickly subdued and doctors G. A. B. Addy, James Christie and A. F. Emery summoned, as well as a nurse, but despite their efforts, she died about four hours later.

Mrs. Harvey was very well known, and had a wide circle of friends, who will greatly regret to learn of her tragic death. She was a life-long member of Trinity church. She was a daughter of the late William Carpenter, and leaves one daughter, Mrs. George Taylor, of this city; one sister, Mrs. Sarah, Second, of Lowell, Mass; and three half sisters, Mrs. Olinde, of Chateaux, and Misses Agnes and Julia, residing at home.

The funeral services will be held on Monday afternoon. A short service will be conducted at the house, followed by a service in Trinity church, at 2:30 o'clock. Interment will be in Fernhill.

With \$1.00 Gas for Cooking Purposes it Will Pay You to Use Gas in Summer

In our Glenwood line of ranges, we have added a gas combination that keeps our range up-to-date in every way. Our gas combination is in itself, a stove having a broiling department, besides an oven and three burners for cooking on. This Gas arrangement fits on our stoves the same as an end shelf and though part of the Glenwood Range it can be worked independent of the coal range or they can both be run together without the least fear. We are the only firm in the maritime provinces that are making a gas combination, and we always endeavor to keep pace with the rest of Canada in our line of business and in our modern foundry, we are able to add anything that we know to be of any advantage to a range. These gas combinations, like our Glenwood Ranges, have been tried, and proved satisfactory before offering them on the market.

Saint John Men and Young Men Have Never Known Such a

TROUSERS SALE

We begin this Sale with over 2,000 pairs! Of course there's not that number now, but assortments are wonderfully complete, and there's not a man or young man who can't find something to his liking in his size. We want to especially emphasize the excellence of the materials. Those used in the Lowest-priced trousers are of a very serviceable grade, while those in the higher-priced trousers are the kind used by high-class merchant tailors.

The workmanship is unexcelled. Oak Hall thoroughness is evident in the well-finished seams, in the way the linings are put in—a thoroughness that tells in the life of the garment.
