ALBERT UNIVERSITY.

VISITOR:

HIS EXCELLENCY,

THE HONORABLE JOHN BEVERLY ROBINSON,
LIEUTENANT GOVERNOR OF ONTARIO.

The advantages of Belleville as a location for a seat of learning had long been noticed before any steps were taken to found one in its vicinity. Accordingly when the prosperity of Canada began to make the multiplication of facilities for a higher education a necessity, the pleasant situation of Belleville, and its prominence in the local history of the Bay of Quinte pointed it out as a proper site for a College. When, in 1854, the General Conference of the M. E. Church adopted a scheme, initiated at the Bay of Quinte Annual Conference in the preceding year, for the erection and maintenance of an Educational Institution, it was resolved to establish it at Belleville, and open it to persons of all grades and opinions, without test or restriction. Having been incorporated in May 1857, (20 Vic. Cap. 184) it was opened in July of the same year under very favorable auspices and with a respectable staff of instructors. For seven years it continued to work without any change in its constitution, receiving meanwhile many gratifying tokens of public appreciation. It was then felt necessary to affiliate it to a University, in order that its progress might keep pace

with the growing interests of the Province. After a brief existence as an affiliated College, an act of Parliament was obtained (29 & 30 Vic. Cap. CXXXVI) by which the name of the Institution was changed to ALBERT COLLEGE, and limited University powers thereto attached. By this act a Senate was created with power to make statutes for properly conferring Degrees and Arts. The first session of the Senate began on the first day of April, 1867, the Rev. Philander Smith, D. D., presiding, and was continued by adjournments until the fourth of July, when the first Curriculum was established. Under this statute (Cap. I in the Statute Book, now repealed) the Senate continued to grant Degrees and Honors until 1871, when it was made a body corporate, with the full powers and privileges of a University. Subsequently the present course in Arts was established (Stat. XLIX. De Acad. Curric. in Fac. Art.) and provision has also been made, so far as was deemed expedient, for the other Faculties. The Senate meets twice a year, viz: on the second Wednesday in May and September, and the duration of the session is limited by a statute of the University to thirteen weeks. The statutes of the Senate regulate the Examinations for Degrees, Scholarships, Prizes and Honors, the fees for Degrees and Examinations, the applications of such fees, the regular and special meetings of the Senate, the appointment and removal of Examiners, the Subjects of Examination, and all matters for the interest and welfare of the University, not under the jurisdiction of the Board of Management.

Government.

The first section of the Act 20 Vic. Cap. CLXXXIV provides that "the undermentioned persons, viz.: "Samuel Gilbert, Caleb Gilbert, Robert Bird, and "Elias Vandewaters, of Sidney, in the County of "Hastings; John Cummer, Waterdown, and John "Rymal, of Ancaster, in the County of Wentworth; "Nathan Jacobs, of London, in the County of Mid- "dlesex; Philip Carman, of Matilda, County of Dun- "das; John Campbell, of Brooklyn, County of On- "tario; Samuel Osborne, of Sophiasburg, County of "Prince Edward; and Peter Fisher, of Nelson, County "of Halton, being the present Board of Trustees, and "their associates and successors to be appointed as "hereinbefore provided, shall be and they are hereby "constituted and declared to be a body politic and "corporate, by the name of 'Belleville Seminarv,' and "by that name shall have perpetual succession and "a common seal." The same section enumerates the customary provisions for pleading and being implead- ed in any court, for the tenure and transfer of real estate, for the investment of money and for the other corporate transactions. By the second section of the Act, power is given to the General Conference of the M. E. Church to set aside any individual mem- ber of the Board of Trustees and to fill any vacancy

that may occur in the said Board, but by the same section clergymen are declared incapable of holding the office of Trustee. By the third section of the Act the Annual Conference of the Church are empowered "to nominate and appoint suitable persons, o the "number of six, each Annual Conference to appoint "an equal number, so as to make in the whole the "number of six, who, in conjunction with a Bishop or "General Superintendent of the said Church, shall be "associated with the aforesaid Trustees or their suc- "cessors, and with them form a Joint Board to be "called the Board of Management." The functions of the Board of Management are in the same section enumerated. They relate to the appointment, salaries and removal of professors, teachers and officers of the Institution, to the lecture fees, to the finances of the College generally, to the duration of terms, and to the manner in which the Institution shall be governed. The Act 29 and 30 Vic. Cap. CXXXVI makes no further modification of these provisions than to change the words "Belleville Seminary" to "ALBERT COLLEGE." The Board of Management meets annually in June, but special meetings may be held at any time by order of the Chairman of the Board on the requisition of two of the members.

Belleville.

The City of Belleville is situated at the head of the Bay of Quinte at the confluence of the rivers Moira and Trent. During the summer there is regular steamboat communication with Oswego, N. Y., Kingston, Ont., and Montreal, Que., and the city is, at all seasons, acceptable to students, being one of the most important stations on the Grand Trunk Railway, and the terminus of the Grand Junction Railway, and of the Belleville and North Hastings Railway. Belleville is one of the most important and enterprising frontier cities between Toronto and Montreal, both as regards its commercial and manufacturing interests, as well as in the matter of local and county improvements. It also offers social, religious and intellectual advantages unsurpassed by any University city. It has fifteen churches of various denominations, employing the best ministerial talent. The church music is equal to the best to be found in the Province, several of the churches being furnished with large organs, and all having choirs of superior excellence. There is also an active Young Men's Christian Association in the city, and public lectures and concerts are frequent and of the very best kind. In a sanitary point of view, the city is one of the most desirable places of residence in Canada. The situation is pleasant and salubrious, and the city authorities are attentive to all the modern appliances for the cleanliness of the streets and for general health.

Residence.

Every Student, whether matriculated or not, must reside in Albert College, unless the desire of his parent or guardian to the contrary be communicated in writing to the President and approved by the Council. Students out of Residence are not permitted to have rooms in places not approved of by the Council.

Undergraduates are required to appear at lectures, prayers and meals in full academic costume.

The charge for board, including room rent and fuel is \$2.25 per week, payable by the half-term in advance. Rooms are not rented for less than a half term. Every room is furnished with stove, table, stand, bureau, mirror, chairs, bedstead and mattresses. The bed-room set is furnished on a deposit of \$2.00 with the Junior Bursar, which is restored on return of articles at the close of the term. All other necessary articles students provide for themselves.

Students are not permitted to change rooms without the permission of the President. Tenants of rooms are responsible for damages and defacing done therein during their occupancy of them. For damages done upon public rooms and furniture, students are liable to assessment.

All students, including those not in Residence, are required to attend College Prayers, unless released from attendance at the desire of their parents or guardians, or exempted by the permission of the

President, or relieved from strict attention for proper causes, by an Order in Council. Every Student must attend twice on Sunday, such church as his parents or guardians may prefer, subject to like exemption as College prayers.

Students are not allowed to be absent from the College without the permission of the President, except on Saturdays, from 10 a. m. to 7 p. m., and on other days from 7 to 8:30 a. m., and from 4 to 7 p. m., or in consequence of exercises or proceedings required or permitted by the Council.

The Bell rings for Reveille at 6 a. m.; for Prayers at 8:40 a. m.; for Lectures as specified by the Council; for resuming reading at 7. p. m.; and for Taps at 10 p. m.

Lectures.

Lectures are delivered in Albert College on all the subjects appointed for B. A., B. D., C. E., Mus. B., and Diplomas in Agriculture. Any student having entered his name for a Course of Lectures is not allowed to absent himself from any Lecture of the Course, except by permission of the Lecturer. For unexcused absences demerit marks are entered against the student. Any student incurring ten demerit marks is fined twenty-five cents, and the fine is doubled for every additional five demerit marks, but no student is allowed to incur a higher fine than four dollars without subjecting himself to suspension or expulsion.

All fees are payable in advance, but when a student attends more than a half term, a charge for the time of attendance only may be made, in case of withdrawal on account of illness.

Sons of Ministers and certified Probationers for the Ministry in any denomination in Canada, are allowed a reduction of one-half the lecture fees in Arts and Theology, if in Residence or living at home.

Every student on entering College is assigned to one of the Professors for instruction in Elocution and Composition. He is required to attend such Professor one hour each week, during the Term, such attendance being subject to the same regulations as attendance upon other Lectures.

Examinations.

All Candidates for Examination are examined by means of written or printed questions, the answers to which must be prepared in presence of one of the Examiners. Any student who brings into the Examination Hall any notes or other assistance, or who, during the hour of Examination, gives or receives any hint or information touching anything upon the question paper, or who exposes his answers so as to be seen and read by any other Candidate, thereby annuls all Examinations that he may have passed during the then current Term, and excludes himself from any other Examinations of the Term. In ancient and modern languages the Candidates must pass an oral Examination in addition to the written one.

Examinations are of three different kinds, viz:—
Annual, Terminal and Supplemental.

The Annual Examinations are held in the month of June during the two weeks preceding the week in which Convocation takes place. At these Examinations, Candidates for Matriculation, Senior Freshmen and Candidates for Degrees or Testimonium, may present themselves on giving three weeks' notice, in writing, to the Registrar of the Senate, of the subjects in which they desire to be examined. Senior Freshmen and Senior Sophisters must, before taking their places in the Examination Hall, deliver to the Regis-

No Candidate will be admitted to any Annual Examination who has been rejected by any legally constituted Examining body of this Dominion, within the three months next preceding the date of the commencement of such Examination: and any candidate not personally known to the Registrar will be required to sign a declaration to that effect.

The Terminal examinations are held during the last two weeks of the Term. At these Examinations Junior Freshmen and Junior Sophisters may present themselves by giving two weeks' notice to the Registrar of the subjects in which they wish to be examined, but no Candidate is permitted to present himself for examination in any subject without having obtained credit for attendance at seven-eighths of the Lectures delivered during the Term, on that subject.

All applications for Examination must be made according to a printed form, which may be had on application to the Registrar.

The preceding restrictions as to attendance at Lectures do not apply to cases in which the Senate has seen fit, for good and sufficient reasons, to grant a Dispensation to be absent from Lectures.

The Supplemental Examinations begin on the first Friday of every term. At these Examinations, any student who has failed to attend or pass the Terminal or Annual Examinations, or any of them, held

in the Term next preceeding such Supplemental Examinations, is required to present himself for Examination in the subjects in which he may have failed.

At least one week's notice must be given of the subjects in which the Supplemental Examination is sought, accompanied by a fine specified hereafter in the Table of Fees payable to the Senate.

The Board of Examiners is constituted by a statute of the University (Cap. LIII.), and holds the Terminal and Supplemental Terminal Examinations and the Annual and Supplemental Annual Examinations under the direction of the Senate, but the Board has no power in either case to set aside the provisions of any statute of the University relating to Examinations.

Faculty of Arts.

Students in the first and second years of their Undergraduate Course are denominated Junior and Senior Freshmen; in the third and fourth years Junior and Senior Sophisters.

In order to obtain credit for any Term or Year, it is necessary for each student to attend seven-eighths of the Total number of Lectures delivered in each Department of the following Course during the Term or Year, and to pass the Terminal or Annual Examinations of his class, as specified in the section of the Calendar relating to Examinations. But in case any student should, by illness, or any other unavoidable cause, be prevented from presenting himself, or should fail to obtain credit for the requisite percentage of marks in any Department at the regular examination of his class, he is allowed to present himself at a Supplemental Examination in the same subjects, at the commencement of the ensuing term. A failure, however, to keep any Examination in the regular order is regarded as a Collegiate offence and punished by a fine. In order to rise from any class to the next above it, it is necessary for each student to have kept the Terms and passed all the Examinations of the lower class; and no student is allowed to present himself at the Annual Examination of the Senior Freshmen Class "who shall not previously have re-

ceived credit for attendance at the Lectures of the first and second years, and have passed all the Terminal or Supplemental Examinations of the First Year." (Stat. Univ., Cap. XVI. § 9.)

The Undergraduate Course at each Examination is divided into two parts; the one to be read by all students, the other by those who aspire to the higher Honors of their class.

The following Table exhibits the ordinary Course as prescribed by the forty-ninth chapter of the statutes of the University.

Lectures are delivered to the students of each class in all the subjects of the different Departments contained in the Course; and every student is required to attend all the lectures delivered to his class, on pain of Collegiate censure. The Lecturer may, however, excuse the attendance of any student from any Lecture for good and sufficient reasons; but in no case can permission be granted to a student for absence from more than one-eighth of the total number of lectures delivered, except by an express dispensation from the Senate, or in consequence of severe illness.

No student is required to take both FRENCH and ORIENTAL LANGUAGES in his Freshman Years, or both GERMAN and ORIENTAL LANGUAGES in his Sophister years, but either at his option.

Any undergraduate who elects to take Oriental Languages and Biblical Literature in his Sophister years, will not be required to take any of the pass subjects in Classics prescribed for those years, except translation from English into Latin Prose, and

any Candidate for the Degree of B. A., who is not a Candidate for Honors in any department, may take at his option either the Greek Texts prescribed for the Department of Classics or the Greek Texts of the New Testament as prescribed for the Department of Oriental Languages and Biblical Literature.

A part of every paper set for Prose Composition in the Department of CLASSICS consists of a free translation of one or more passages selected from the authors read during the Term or Year, to be re-translated into the language of the original.

Honor Course.

(Separate Honors are awarded in each Department at the Annual Examination of the Senior Freshmen and Senior Sophisters.

Candidates for Honors in any Department will be examined in the following additional subjects in the Department:—

Lectures are delivered on all the subjects specified in the several Departments of the Honor Course. These Lectures are open to all students without extra charge, and attendance on them is not compulsory on any student who may be proceeding to his Degree by attending the Lectures and passing the Examinations in all the Departments prescribed in the Ordinary Course. But in case any student should select any Department of the Honor Course, his attendance at the Honor Lectures is regulated by the same rules and restrictions as those prescribed for attendance at the Ordinary Lectures.

Candidates for Honors in any other Department in the Senior Freshmen Class may omit the Departments of Modern and Oriental Languages prescribed in the Ordinary Course for the Class.

Candidates for Honors in any Department in the Senior Sophister Year are required to take only two other Departments, and a Candidate for Honors in a Department, who has obtained Honors in the same

The rules regulating the manner of conducting Honor Examinations are the same as those for the Annual Examinations. There are no supplemental Honor Examinations.

Students and Graduates in the other Faculties may enter the Faculty of Arts at such stage as may be proportionate to their acquirements, but no advanced entrance into the Faculty of Arts is permitted by which anything may be abated from the prescribed requirements except in the single case hereafter specified. The terms upon which a change of Faculty may be had can be obtained from the Registrar.

Students who have completed the twenty-fifth year of their age may enter at the Senior Freshman Examination by taking, in addition to the subjects prescribed for that Examination, the Mathematics of the Senior Freshman Year. Students admitted under this provision must keep six full terms before

presenting themselves for the Final Examination for the degree of B. A.

Any candidate who has completed the twenty-eighth year of his age may enter at the Senior Sophister Examination by taking in addition to the subjects prescribed for that examination (Mathematics and Oriental Languages and Biblical Literature excepted,) the Mathematics, English, Civil Polity, History and Ethnology, Minerology and Geology appointed for Junior Sophisters, the Logic and History appointed for Senior Freshmen, and the Mathematics and Natural Science appointed for Junior Freshmen. The Candidate may elect to take either the German of the Junior Sophister year, or the French or Hebrew of the Junior Freshman year in lieu of the German of the Senior Sophister year.

Faculty of Music.

The regular mode of proceeding to the Degree of Mus. Bac. is to pass the Examination for Matriculation in Arts and the two Examinations hereinafter prescribed, but Candidates for Matriculation in Music may substitute for the Greek required at Matriculation in Arts an Examination in French and Italian Grammar and the translation of French and Italian into English.

The first Examination in the Faculty, called the PREVIOUS EXAMINATION, comprises merely Harmony and Counterpoint in not more than four parts: The text books are Ouseley's "Treatise on Harmony" and Ouseley's "Treatise on Counterpoint, Canon, and Fugue." Before the Candidate can be admitted to this Examination, he must file with the Registrar of the University, satisfactory evidence that he has been, for at least three years, engaged in the study and practice of Music.

The second Examination, called the FINAL EXAMINATION, comprises:—

1. Harmony, (Ouseley).
2. Counterpoint in not more than five parts, (Ouseley).
3. Canon, Imitation, &c., (Ouseley).
4. Fugue, (Ouseley).
5. Form in Composition, (Ouseley).
6. Instrumentation, (Kastner).
7. History of Music, (Hullah's Lectures).
8. A Critical knowledge of the full score of Beethoven's SEPTUOR or Handel's SAUL.

Every Candidate, before presenting himself for the Final Examination, shall deposit with the Registrar of the University satisfactory evidence of his having been engaged for at least five years in the study and practice of Music.

At least three months before presenting himself for the Final Examination, the Candidate must deposit with the Registrar of the University an Exercise composed by himself which must be, (a) a vocal composition either secular or sacred, (b) containing pure five part harmony, (c) and good fugal counterpoint, (d) with an accompaniment for piano or organ, (e) and of such length as would occupy not less than twenty minutes in performance.

A candidate for the degree of Mus. Bac. who has completed the twenty-fifth year of his age may proceed to the Degree by taking both the PREVIOUS EXAMINATIONS and the FINAL EXAMINATION at one Examination, together with a Paper on the outlines of the work required for Matriculation. Candidates entering the Faculty under the provisions of this regulation must deposit the Exercise required before taking the Final Examination, and satisfactory proof of having been engaged for at least ten years in the study and practice of Music.

The Examinations for the Bachelor's Degree will be conducted partly *viva voce* and partly *per scripta*.

A Candidate for the Degree of Doctor in Music must be a Bachelor in Music, and at least three months before presenting himself for Examination for the Degree of Doctor in Music, must deposit with the Registrar an exercise of his own composition which

must be : (a) a vocal composition, either secular or sacred, (b) containing real six-part or eight-part harmony, (c) with good fugal counterpoint, (d) in good style as a work of art, (e) with accompaniments for a full orchestra, (f) and in length of performance at least forty minutes. The candidate must, at the same time, satisfy the Senate that he has been engaged for at least twelve years in the study and practice of Music.

The Subjects of Examination for the degree of Mus. Doc. shall be :—

1. Harmony, (the more abstruse part).
2. Eight-part counterpoint.
3. Canon, Imitation, &c., in eight parts.
4. Fugue.
5. Form in Composition.
6. Instrumentation.
7. History of Music.
8. Acoustics as far as relates to the Theory of Harmony.
9. A Critical knowledge of the standard works of one of the great composers. (The name of the composer must be submitted by the candidate and approved by the Senate before the candidate presents himself for the Examination).

The Examination for the Degree of Mus. Doc. shall be exclusively *per scripta*. The fee for Matriculation is five dollars, for the Previous or for the Final Examination five dollars, for the Degree of Mus. Bac. fifteen dollars, for the Degree of Mus. Doc. forty dollars. Expenses incurred in procuring a competent professional opinion on the merit of an Exercise must be paid by the Candidate. All exercises for Mus. Doc. must be publicly performed at the expense of the Candidate unless the Senate, by resolution, shall determine to dispense, in exceptional cases, with the public performance.

Department of Agriculture.

The County Council of the County of Hastings, in 1869, set apart a sum for the payment of a Professor of Mining and Agriculture, and in Trinity Term, 1869, the present Hastings Professor of Mining and Agriculture entered upon his duties.

During the Twelfth Session of the Senate, provision was made for the systematic instruction of students in the several branches of education relating to Agricultural Economy, and the Lectures of the several Professors in Albert College were made available for this purpose and thrown open to students in the Department. The Course of Lectures embraces the Examination and analysis of soils and fertilizing agents, and the general principles of the nature and improvement of soils, in addition to the other subjects auxiliary to a suitable course in theoretical and practical Agriculture.

Diplomas in Agriculture will be awarded to all duly qualified Candidates who shall have passed satisfactory Examinations in the subjects prescribed in the following Course.

Anniversaries.

No lectures are delivered on the 15th of February, the Anniversary of the passing of the Act by which the University obtained its full powers and privileges. On that day the Undergraduates assemble in the College Chapel at 2 p. m., and after a prescribed religious service, the Acts of Incorporation are read by the senior Undergraduate present, a sermon is preached by one of the University Preachers, and a short oration upon the state of the University is then delivered by some one appointed for that purpose. In the evening the Annual Exhibition of the Historical Society is held, comprising essays, music, orations, colloquies and discussions.

On the Sunday next before Convocation, a sermon is delivered before the University by one of the University Preachers, and addressed chiefly to the Bachelors proceeding at the ensuing Commencement. The annual public meeting of Convocation is held on the last Wednesday of Trinity Term, in which public acknowledgement is made of all Prizes, Honors, Distinctions and Degrees obtained during the year. No degree can be conferred at any other time except by a special Grace of the Senate in cases where a candidate has been prevented by events beyond his control from appearing in Convocation.

Library and Museum.

The College Library owes its maintenance and increase to the exertions of friends of the College. Since the charter of 1866, several valuable additions have been made to it, and during the year 1871, a number of gentlemen formed themselves into a society for the purpose of increasing the number of volumes, by making and soliciting contributions. This Society, known as the ALBERT COLLEGE LIBRARY ASSOCIATION, has already obtained some important and valuable donations both in scientific and general reading.

The Library, though small, contains much matter useful to the students, and its utility renders its enlargement a matter of personal interest to all in any way connected with the College.

The Museum has been gradually increasing in importance for the last ten years, and now comprises over 2000 Botanical specimens of North American Species contributed by Professor Macoun.

The Mineralogical Department has been augmented by contributions from the Geological Survey, and now contains 1000 specimens of economic and other minerals, arranged and mounted upon blocks of polished wood.

The Geological Department has been increased in interest and value by the purchase of a cabinet of Geological casts of the most noted fossils of the European Museums.

To these may be added the Canadian Archæological contributions by the Rev. Thos. Webster, D. D., and others, besides many articles of interest and instruction to students.

1. The Alumni Society.

The Alumni Society was organized at a mass meeting of ex-students, held at Albert College, on the third of July, 1867. As the University had then been but recently organized, many of the former students desired that the qualifications for membership should be extended so as to include as many of them as possible. Accordingly, all students who have left the College in good standing on the books, and who have since qualified as Ministers, Barristers, Physicians or Engineers, are eligible for membership. The Society meets annually on the Monday preceding Convocation at 3. p. m., and a member delivers a lecture before the Society at 8 p. m. of the same day.

II. The Historical Society.

This Society is composed of Graduates and Undergraduates of the University, and has for its object the improvement of its members in Rhetoric and Elocution. The Society endeavors to carry out this object by debates and essays on historical and literary questions, and by readings and recitations by the members. Its meetings are held weekly in the College Chapel. Regular meetings of the Society take place on Saturday evening at half-past six o'clock, and are open to the public.

IV. Reading Room.

There is a Reading Room in the College well supplied with newspapers and magazines. It is under the management of the Historical Society, but any student may have access to it on payment of a moderate fee. The Corresponding Secretary of the Historical Society transacts all business relating to the Reading Room, and to him all applications for admission and other communications relating thereto may be addressed.

V. Other Societies.

There are various voluntary associations for exercise or improvement. There are Clubs for Base Ball, Foot Ball and Cricket and other outdoor amusements. During Hilary Term a Choral Society is usually formed under the direction of the Professor of Music. No Secret Societies are permitted to meet in the College Buildings.

Objects and Advantages.

The College Grammar School is designed to prepare students for the Faculties of the University, as well as to meet the wants of those who desire a partial or elective course of study. For the latter purpose, students in the Grammar School are permitted to attend the lectures delivered to the Undergraduates of Albert College. The facilities thus placed within the reach of students, together with the moderate charges for board and tuition, render the Grammar School one of the cheapest and most efficient in the Dominion. An ample opportunity is thus afforded to those preparing for the Examination of the Board of Provincial Surveyors, the College of Physicians and Surgeons of Ontario, the Law Society of Ontario, and the literary and scientific portions of the various Theological Examinations, of which advantages many have availed themselves with marked success. Regulations and Government.

Students of the Grammar School are under the immediate supervision of the authorities of Albert College, and the regulations given in the Calendar in the section on RESIDENCE, apply also to them as far as relates to conduct, attendance at prayers and Church, and order and occupancy of Rooms. Each student is also entered in one of the classes in Elocution and Composition, and is required to deliver an Essay or a Declamation in public at the Exhibition held at close of Term.

Every lecturer keeps an account of attendance and a record of answers to questions asked in the lecture room. The record is kept on a scale of 10 for an adequate answer, and any student obtaining an average in all his lectures of 6 or 8 during Term, is placed in the first or second class, as the case may be, in the Terminal Merit Roll, if not disqualified by misconduct.

Memoranda of the student's conduct or progress will be furnished to parents on application to the Rector of the Grammar School. The names of students who have incurred demerit marks, fines, or rustication, for negligence or misconduct, are read at the Terminal Exhibition; while, at the same time and place the names of students whose progress and conduct have entitled them to a standing on the Merit Roll are also read.

Fees

The Grammar School Classes are arranged in two forms, the Primary and Advanced. The fees for these are as follows :

	MICHAELMAS.	HILARY.	TRINITY.
Primary	\$7 00	\$6 00	\$5 00
Advanced	9 00	8 00	7 00
Incidentals	2 50	2 50	2 00

The sons of ministers, and duly certified probationers for the Ministry of any denomination in Canada, are charged half the usual tuition fees if in Residence.

The expenses for Board are as already given in the section of the Calendar on RESIDENCE.

The Commercial Department was organized in 1877, and has since been in successful operation.

The advantages include not only the complete practical Curriculum of the celebrated "Eastman College" at Poughkeepsie, N. Y., precisely as taught at that College, but gives the further advantage of the Grammar School and Albert College without any additional charge. The fees are the same as those enumerated in the Section of the Calendar on Lectures.

The Philomathean Society.

There is attached to the Grammar School a debating society, similar in character and object to the Historical Society of Albert College and organized contemporaneously with it. All Grammar School students are admissible, and the Society is in a very prosperous condition. The Society meets in its rooms in the east wing of the College every Friday evening at half-past six o'clock when debates and miscellaneous literary exercises are held.

All information concerning its internal organization and character may be obtained from the President or Officers of the Society.
