St. John Garrison, 869 Strong, in Command of Col. White, D.O.C., Makes Fine Appearance in Annual Church Parade.—Crowds Line Route of March

The St. John garrison, 869 strong, turned out yesterday afternoon for its annual church parade to Trinity church. Fine weather, not too warm, and a light rain in the morning lay the dust aided in making the parade one of the most successful ever held in the city. Thousands of citizens lined the streets along which the troops marched on their way to and from the church, and thousands congregated on King square to watch them march past Col. G. Rolt White, D.O.C., military district No. 8, after the conclusion of the service in Trinity.

In the absence of the senior chaplain of the church, Rev. Dr. W. O. Raymond, chaplain of the 3rd Regt. C.A., Rev. E. B. Hooper, chaplain of the 2nd Regiment St. John Fusiliers, preached the sermon.

The various units which took part in the church parade assembled at their headquarters at about two o'clock and marched to the Barrack square. St. Stephen's church cadets were headed by a pipe band of eight pipes and three drummers. At 2:45 the markers from the different corps were placed by Lt. Col. Sturdee, brigade major of the 18th brigade, who acted as brigade major yesterday. The instructor of the 62nd Fusiliers, Col. Sgt. Instructor Warren, R.C.R., acted as brigade sergeant major. Lt. Col. H. McLean, brigade major of the 12th brigade, took command of the troops, who were drawn up facing north.

HOSPITAL SCENE OF IMPRESSIVE CEREMONIES SATURDAY EVENING

Owen Jones Operating Room Formally Opened and Memorial of Late Dr. Bayard Unveiled—Premier Pays Tribute to Deceased Physician—Dr. John Stewart Delivers Fine Address

On Saturday evening the Owen Jones operating room in the St. John General Public Hospital was formally opened. The memorial tablet to the late Dr. William Bayard, which is placed just inside the main entrance of the same institution, was also unveiled. Dr. Thomas Walker performed both ceremonies and afterwards went to Edinburgh, where he pursued scientific research. On his researches were based the principles of pathology.

Before that time surgery was a science of great uncertainty. The great majority of patients who underwent surgical treatment died and in spite of the services were scourged with epidemics which, owing to Lister's discoveries, became unknown. Later in his work, continued that of his predecessors, Pasteur and Lister, the Frenchman Lister had studied fermentation and decided that it was caused by a fungus which existed in the air. Lister decided that the changes in wounds were caused in the same way and in spite of the opposition of Liebig and almost all the English and Scottish surgeons, persevered in his opinion, with the result that the antiseptic surgery became the only surgery.

Dr. Stewart then discussed Lister's character, giving several instances of his philanthropy. He was a man of great energy and courage. He was a man of great energy and courage. He was a man of great energy and courage.

OTTAWA, June 14.—Application has been made to the Minister of Justice for a new trial or commutation of the death sentence passed upon Owen Rochette on the charge of murdering his wife at Quebec. Rochette was represented at the application by J. N. Grenshields, K. C., and the crown was represented by Mr. Davidson, K. C. The evidence upon which sentence was passed was all circumstantial and in the opinion of the Minister of Justice, a new trial is warranted. A separate tender is asked for Rochette's commutation to be hung on the 27th inst.

BENGORE HEAD TRIED TO WIPE OUT NAVY

PORTSMOUTH, June 13.—The British steamer Bengore Head ran amuck in Portsmouth harbor this afternoon and narrowly escaped splitting herself upon the ram of the battleship Revenge. She then collided with the battleship, carrying away the torpedo booms and damaging some of the gun ports of the warship. Finally she grounded in the mud, but was later floated. There is a big hole in her bows above the water line. The Bengore Head is from Montreal and Quebec, May 13 and 24 respectively.

A GREAT ASSEMBLY.

What is perhaps the greatest gathering in the history of the English Church opens today in London. Delegates from Africa, India, China, Austria, Central America, and every part of the United Kingdom including bishops and clergy men and lay delegates of both sexes are now assembled for the Pan Anglican Congress, one of the most important meetings in the history of Protestantism.

Eight thousand members representing practically one hundred millions of people will take part in the various branches of the assembly and the work which they will do directly concerns every congregation and every home. Speaking of the Congress the New York Sun remarks: It is evident from the programme that the Church of England and the affiliated churches in the United States and the British Colonies are feeling awake to the tendencies of our day, aim to understand their meaning, to give direction where the way is dark, and to kindle a new and ardent sympathy with all promising attempts to ameliorate the light of human beings.

THE GREATNESS OF TAFT. It is characteristic of the people of the United States that "whatever is in Taft" Secretary Taft is generally regarded as the next President and all of articles dealing with his past career. The consensus of opinion as expressed in these articles is that there never was and never will be a man so suited for the Presidency and so thoroughly equipped for the proper performance of the duties which will fall upon him. Mr. Taft, who is, no doubt, an able politician and a straightforward statesman is held up to the public gaze as the most unselfish example on record. His self-sacrificing loyalty to the republic in giving up his great ambition to become a judge of the Supreme Court in order that he might continue to devote his life to the interests of the Philippines is regarded as an act worthy of the gratitude of the nation. It is not mentioned that Mr. Taft knew which side of his bread the butter was on and that he was making a better life by remaining in the East than if he had come home to be shelled as a judge.

MISTAKEN AUTHORITY. The annual established Standard of Empire has received many messages of congratulation and wishes for its future success from various parts of the Empire. It has also received occasional messages of another sort, one of the most discreditable of these comes from Canada. Worse than this it was sent by a Catholic parish priest who, unfortunately, permitted personal feeling to overrule his better judgment. The writer signs himself W. E. Cavanaugh, P. P., Parish Clerk, On-

ario, and the message which was written on a picture post card reads: "I beg to state that I do not want your paper nor any other imperial trash from across the sea. We all would be grateful if you would keep your imperial papers and jail birds at your side of the Atlantic as well as all other imperial rubbish. Canada for Canadians." Father Cavanaugh, if the writer is indeed a clergyman, in attempting to speak for this country, assumes an authority to which he has, of course, absolutely no right.

TO INSOMNIACS.

Oh, why do you think when you cannot sleep Of awful mysteries dark and deep; Of spooks, and ghosts, and wraiths, and woe; Of desert thirns and Arctic snow; Instead of some maid with teeth of pearls, And ruby lips and golden curls, And cherry cheeks and dimpled chin, And silvery voice and velvet skin, And brow of alabaster, white Enough to illumine the blackest night? Oh, why in that dark and murky hour Give up your mind to thoughts that lower; To thoughts of ocean dark and wet; To fears of bankruptcy and debt; Of taxes due and income spent, Of bills and chills and unpaid rent; To apprehensions of disease, And other thoughts that vex and tease, When it is just as easy to think Of love and health and stores of chink?

Oh, what is the use when you awake, The while the whole world lies opaque And you are floundering in your bed, Of thinking back and blue and red, Of choosing lemon, saffron thoughts Of life made up of rows of naughts, Of deep set frowns and grudge still unpaid, Of how all roses surely fade, Of weary, dreary, frowny folk, Instead of the latest rollicking joke? Oh, what is the use, and why again, Of thinking sorrow, and woe and pain, Of thinking trouble and mulligrubs; Of all your failures, flops and flubs; Of thinking grief and tears and red, Of thinking gloom, and doom and dark; When you can think how very cheap The sunshine is, and what a heap We have of it to gild life's cup? Insomniacs wake up! Wake up!

Orville Ardup—Ah, there comes that infernal bill collector! Caller (producing folded document with alacrity)—I am glad to hear you say so, Mr. Ardup. I have been here nine times without having been a collector, you know. "That woman next door is really dreadful, John," said a young married woman to her husband. "She does nothing but talk the whole day long. She cannot get any work done, I'm sure." "Oh," remarked the husband, "I thought she was a chatterbox. And to whom does she talk?" "Why, my dear, to me of course," was the reply. "She talks to me over the fence."

ASHES TO ASHES. A Pennsylvania court recently decided that a woman who keeps the ashes of her second husband in the same room occupied by her third husband is not necessarily insane. Still, it might be well to fix the mental status of the third husband who will stand for such a thing. SHORT WAYS TO MULTIPLY. Rapid multiplication is always a source of pleasure and profit to the operator and never fails to cause astonishment in those who do not know how it is done. Suppose you wish to multiply two numbers of two places each, such as 65 and 87. The product can be written in one line by inspection as follows: Eight times 5 are 40. Put down 0 for the right hand figure and carry 4. Add 5 and 8 and multiply the sum, 13, by 5, obtaining 78 and add 4. Put down 2 for the next figure and carry 8. Add 8 and 8 and multiply the sum, 16, by 8, obtaining 128 and add 8. The product is therefore 5655. In this case the tens are alike. The same method can be used if the units are alike, thus: What is the product of 75 times 35? Five times 5 are 25. Put down 5 and carry 2. Seven times 5 are 35. Add 2. Put down 7 and carry 3. Seven times 7 are 49. Add 3. Put down 5 and carry 4. Seven times 3 are 21. Add 4. Put down 1 and carry 2. Seven times 2 are 14. Add 2. Put down 4 and carry 1. Seven times 1 are 7. Add 1. Put down 8. The product is 2625.

HOW TRICK DOGS ARE TRAINED.

Few people other than those who are thinking of making a living out of the world would be prepared to give the necessary time to the training of a trick dog, but some of the secrets of the professional trainer may be of use to the man who wants his dog to be always under his control and to know a few tricks. Different trainers have different methods of beginning the education of their charges. One man, known to the writer, always begins his first lesson with a new dog in this way. He waits suddenly into the room where the dog is, and without any word of warning pretends to be about to hit it with a whip. If the dog crouches away in fright the trainer knows that the dog lacks spirit and will never be of any use to him. If the dog "turns" the man puts down the whip and goes on to the rest of the lesson.

GOAL FOR TWO HUNDRED YEARS. Six Hundred Million Tons of Coal in Gloucester Bay District. SYDNEY, June 15.—Work at the new collieries serving the great coal company, numbers Twelve and Fourteen, is proceeding satisfactorily. At the former the slope has reached a distance of eleven hundred feet, and the latter about forty feet, with air slopes well in progress. Both these collieries are on what is known as the Victoria Seam, which is nearly seven feet deep and of excellent quality. The slopes are about a mile apart, and about seventeen hundred feet to the rear. It is proposed shortly to open collieries on what is called the Lingam Seam, which underlies the Victoria. Underlying the latter and further to the rear is the famous Mullins Seam, which was worked in former years, last time being about a mile apart, and about seventeen hundred feet to the rear. TO SIT ON A CHAIR. The first thing that the professional trainer usually teaches his dog is to sit on a chair and remain there until he is told to get down. Two lessons of a quarter of an hour a day are better than one lesson of half an hour, for "little and often" is the trainer's motto. The first lesson is to sit on a chair, and the second is to sit on a chair and remain there until he is told to get down. The dog is to sit on a chair and remain there until he is told to get down. The dog is to sit on a chair and remain there until he is told to get down.

FACING THE FOOTLIGHTS. A trainer with a group of performing dogs usually teaches his dog to sit on a chair and remain there until he is told to get down. The dog is to sit on a chair and remain there until he is told to get down. The dog is to sit on a chair and remain there until he is told to get down.

ACTING DOGS. Nowadays there is a great craze for "acting dogs"—dogs which come on the stage and do to things by themselves. In every case the trainer begins by leading the dog through the movements he has to make, and in an absolute lesson the trainer does exactly the same thing in the same way and uses the same words in giving a command. The dog is taught to beg by being first backed up to a corner, where he has two walls to rest against. He is taught to walk on his hind legs by being led about in this position while the trainer supports his front legs. Jumping is a very easy trick to teach. The trainer begins by holding a stick so low down that the dog cannot walk under it, and then coaxes the dog to get over it. By degrees the stick is raised until the dog is compelled to jump in order to get over it, and directly he does so he is well rewarded. Performing dogs receive most of their food in the shape of rewards for good conduct.

OUTCRY AGAINST CRUELTY. Every now and again one hears of an outcry against the cruelty of teaching dogs to perform tricks. The outcry may be justified in the case of dogs that are taught to jump over very high obstacles, because that is about the only kind of trick which can be taught with a whip. It is possible to "whip a dog over" a high jump, but the audience does not see the whip, because the dog starts his "run up" at one side of the stage. A whip is worse than useless to the dog, and it is teaching a dog to do a trick in

AN ANCIENT BIBLE. In the Cottonian library in England is an old manuscript copy of a part of the Bible in Latin. This was used at the coronation of English sovereigns 300 years before the "atoms of destiny" was brought from Scio to Westminster by Edward I. In other words, the use of this Bible for the purpose in question dated back to the year 1200. The Bible is a quarto of 217 leaves, containing the four gospels, and seems from the style of the writing and illuminations, which are very beautiful, to have been made about the end of the ninth century. The manuscript escaped destruction in the fire at Ashburnham House in 1731, of which it bears evidence on its crumpled leaves and stained margins. There is some evidence that the son of Edward the Elder, Athelstan the Glorious, who was king of the west Saxons from 925 to 939, owned this Bible and presented it to the church of Dover.

"New York should be the natural shipping point for the grain of the country," said President Ring of the Exchange, "and there seems to be no other reason for the grain being sent to Montreal, than that the railroads are giving that port lower rates than they are giving New York. They are handling the grain and all the terminals are in good shape to admit of its handling. The railroads have plenty of cars and engines." Mr. Ring said that everything that could be done would be done by his associates to bring back the business to this city.

JOE LEITER IN FIGHT JUST AFTER WEDDING

PHILADELPHIA, June 15—An encounter between the bridegroom and a photographer took place just after the wedding, at the home of the bride's parents, today, Miss Juliette Williams, daughter of Colonel and Mrs. John P. Williams, to Joseph Leiter, son of the late Levi Z. Leiter, of Chicago and Washington.

The pair and the bride's mother were proceeding to a restaurant, where the wedding breakfast had been prepared, when an employe of a local studio attempted to take a picture of the party. Leiter jumped from his machine, roughly handled the photographer, grasped the camera and smashed it on the pavement. At the time the photographer was about twelve feet from the machine, but Leiter was upon him before he could snap the shutter of the camera.

The boy knived and blubbered at the punishment, which he felt more than the 45 fine or five days in jail inflicted by the magistrate.

The mother paid the fine before inflicting the punishment and amid the jeers and taunts of the magistrate and his officers the boy skulked out of the room. Young Sobert had been arrested for breaking windows.

NEW YORK SORE OVER
WHITE STAR WITHDRAWAL

Produce Exchange Will Try to Get Them
Back Again to That Port.

NEW YORK, June 15—The withdrawal from service of the freight ships of the White Star Line, and the complaint of the company that the railroads have so discriminated against New York that the grain of the country is being sent abroad by way of Montreal, will be thoroughly gone into by the New York Produce Exchange next Thursday when its trade and transportation committee will submit a report on the subject which is expected to recommend the appointment of a committee to confer with the railroads.

"New York should be the natural shipping point for the grain of the country," said President Ring of the Exchange, "and there seems to be no other reason for the grain being sent to Montreal, than that the railroads are giving that port lower rates than they are giving New York. They are handling the grain and all the terminals are in good shape to admit of its handling. The railroads have plenty of cars and engines." Mr. Ring said that everything that could be done would be done by his associates to bring back the business to this city.

THE BENGORE HEAD
NOT SERIOUSLY INJURED

SMALLPOX PATIENTS -IN BAD STATE

Twenty-Six at the Halifax Hospital and
No Medical Attendant

(Halifax Echo)
A deplorable state of affairs is said to exist at the Halifax Hospital. The Echo is informed that there are 25 cases there, with no resident doctor. There is a policeman in charge, but he does not pretend to be possessed of any degree of medical skill.

Many of the patients are children. This morning an old lady from the North End was taken there. Her case is said to be a pitiable one. The C. M. O., the Echo is informed, visits the patients there, but does not go beyond the gate. Some of the patients stated that they are advised by an alderman to consult their own doctors. If this is the case, it is a poor way to stamp out the disease.

Imagine 25 people sick in that small building of four or five rooms, including the kitchen and six or more in a room.

The new regime at the City Hall is certainly cutting things down fine.

CONVENTION DELEGATES MAKE CHICAGO LIVELY

Arriving in Large Numbers—Hawaiians
Come With Dusk Variations—Sacred
Concert With Ragtime Variations

CHICAGO, June 14—The Californians came at noon, headed by M. H. De Young, chairman of the delegation. With them were the delegates from Oregon, The Pennsylvanians were reinforced by two more detachments, one with bands and banners and 200 marchers and the other, a Vermont contingent with bands and banners, and 200 marchers. The Hawaiian delegates, six in all, brought with them a Hawaiian delegation. When the Massachusetts delegation arrived there was widespread regret that no veteran figure of Massachusetts' public life, ex-Governor John D. Long, was not among the number, he having turned over his place as delegate at large, to an alternate.

The delegations of Iowa, Montana, Virginia, Maine, Vermont, New Hampshire and New Mexico, were among those to arrive during the day.

The headquarters of the presidential candidates were full of activity throughout the day. From the veranda of the Cannon headquarters at the International League, with occasional sallies into the enlivening strains of "Hail Columbia," and much ragtime.

NEW YORK CANNOT COMPETE WITH MONTREAL

White Star Line Withdraws Freight Service
—Claim Railroads Discriminate in
Favor of Montreal.

NEW YORK, June 15—The freight service of the White Star Line steamers from the port of New York will be discontinued on Tuesday and the five freight steamers will be laid off. According to the officials of the line the decision is a favor accorded over New York in fixing freight rates. This announcement was made by Mr. Jeffrey said the steamers will be kept in dock until the railroads make the same favorable rates for this city as for Montreal.

THE INDIAN AND CLOTHES

Here is a piece of trenchant wit, expressing the Red Man's antipathy to modern dress:

An Indian once donned a suit of "store clothes" for the first time, was asked how he liked them. He replied: "Heep big strong; heep hot; was his laconic reply."

"How do your shoes feel?" he was questioned.

"Ugh! Heep small big."

"Your trousers? Too tight; too long. Heep hold much around the waist."

"No, you like a vest?"

"No, not. Very heep pinch. Make many buttons big."

"The coat?"

"Just same; much pockets him. Buttons big some. Too loose tight."

"Do you feel comfortable?"

"Not some. Pants tickle heep. Coat too push neck."

"Do you want a collar and tie?"

"No. Can't help. Collar hard tight. String make choke."

"Why don't you wear socks?"

"Want foot breathe."

"Will you turn up a hat?"

"Hat what for? Hair what for? Some hair, no hat; no hair, some hat."

"Gloves?"

"No. Heep bad medicine. No for help with gun. Him stop take off, no shoot."

"You prefer your blanket?"

"Yes, sure. Him blanket much good. Many change."—Winnipeg Commercial.

CARACAS STRICKEN BY EUBONIC PLAGUE

No Measures Taken to Fight the Disease
and Great Alarm is Felt.

CARACAS, June 14, via Willemstad, June 15—Several cases of eubonic plague have occurred here within the last few days indicating that the city has been widely contaminated with the disease. Great alarm is felt because no measures have been taken as yet to fight the plague in this city.

No action has been taken as yet by the diplomatic representatives of the foreign powers, although a meeting was held yesterday by these officials to consider the situation. Foreign interests here and in other places are growing because of lack of sanitary measures and because of a decree issued by President Castro recently declaring that the epidemic was headed. The president and his wife remain in the city.

VOLCANO OUTBURST ON SAMOAN ISLANDS

AUCKLAND, New Zealand, June 15—Advices received here state that for three nights beginning May 19 there was a remarkable volcanic outburst on Savaii, the largest of the Samoan Islands. KISSING THE FEET.

The custom of kissing the feet of persons who it was desired to honor originated with the ancients. The people of oriental nations used to kiss the hands and feet or hem of the clothes of the persons they wished to show respect for. The ancient Egyptians got this custom from the Assyrians, and later the Greeks adopted the habit from the Egyptians. The Romans followed the Greeks, and then Pontifex Maximus had his great toe kissed by his subjects of high rank. Those of more lowly position were merely allowed to touch the fringe of his garment to their lips, and the poorest classes must be content to make a low obeisance in his presence.

THACKERAY AND THE CTBMAN.

Thackeray loved to relate jokes on himself and one he specially enjoyed was about a Reading hackman. The author was unacquainted with the town and the moment he emerged from the railway station he told a hackney coachman to drive him to the nearest hotel. The driver closed the door ceremoniously, mounted his box and they started. In half a minute the cab was at a standstill, and Thackeray saw the cabman at the door, bowing to him to come out. He did so without a word and found that he was at the station hotel, which he had had to see was not a dozen yards off.

SOME NEW YORK "FIRSTS."

The first street used for building purposes was Pearl.

The first manor house was erected by Killian Van Rensselaer in 1620.

The first man sentenced to be hanged for murder was a negro known as "the Giant" (1611).

The first record of marine signaling was a small redoubt erected in 1641 upon the eastern headland of the island, where a flag was raised whenever a vessel arrived.

The first building on the site of New York city was erected by the Dutch in the spring of 1615. It was a tiny structure of logs, answering the double purpose of storehouse and fort.

The first ferry to Long Island was established in 1637. It was in the vicinity of Peck Slip. Cornelius Dirck, who had a farm nearby, came to ferry passengers at the sound of a horn which he hung against a tree near his shaft.

INTOXICATING SCENTS.

LONDON, June 13—Georgina Ashton, a singer, who was fined at the Marylebone police court yesterday for being intoxicated and incapable, declared that she had been singing at a house in the west end, and that she was overpowered by the scent of the flowers with which the room was filled.

Messrs. Hill and Cook arrived in the city a few days ago from Fredericton and have placed it in a vacant lot near the corner of Duke street and Market Square, Carleton Place. The men were granted a license to operate the merry-go-round for a week, and that no complaints had been made to him regarding it. Joseph Gain wishes the Star to say that the girl who shot Sergeant Robert H. Clarence Ward, the Mayor's clerk, has issued no less than 1,124 dog licenses. There are hundreds of dogs in the city, however, that are not licensed, and Magistrate Ritchie and police clerk Henderson have been very busy getting out summons for persons who have failed to call at city hall and pay a dollar for a license. The police are serving the summons on the delinquent dog owners, and when the dog day session is opened in the court the last of the week some lively times may be expected. The fine is four dollars.

PROBATE COURT

TIME TABLE CHANGES

The connections at St. John of the various trains are rather mixed up at present. The C. P. R. summer time table went into effect today, and according to it the Boston train is due at 10:40, and the Montreal train at 11:30. The time table of the Maine Central will not change until the first of next week, however, so the Boston train will, during the coming week, arrive in St. John fifty-five minutes late, according to her time table.

After next Monday she will get in on time at 10:40, but the passengers who wish to connect with I. C. R. points will have to wait two hours, as the I. C. R. time table does not go in to effect until June 23rd, and until then the noon express will continue to leave at 12:40.

Passengers who are being confused and inconvenienced by these arrangements are wondering why the railways cannot arrange to make the changes at the same time.

INTERESTING HISTORY OF LONDONDERRY CUP

Defeated at Petawawa Last Year and Won for the Third Time by the Canadian Team.

The St. John members of the Canadian team which successfully defended the Londonderry Cup last year at Petawawa and who were presented with their badges yesterday after the church parade are—Lieut. J. T. McGowan, who was in charge of the gun section; Sgt. Major Horace Brown, who acted as sergeant major of the team; Sergeants Whitehouse, Penny, McCain, and Corporals Guild and Allen.

The badge is a silver maple leaf of very pretty design, bearing a crown and an inscription giving the date and name of the competition. The cup which the team won is held by the Dominion Artillery Association and the cash prize which accompanies it goes to the association's funds. The Londonderry Cup has a history interesting to Canadians. It was originally created by the Marquis of Londonderry for competition between teams representing Great Britain and Canada. The cup was won at Shrewsbury, England, by the Canadian team under command of Lieut. Col. J. R. Armstrong of St. John, in 1886. The next competition was at the same place in 1888, when the Canadians in command of Lt. Col. Cole, of Montreal, were again successful. Last year the English team were the visitors and the competition took place at Petawawa with the result that the cup still remains in Canada. The team this year was in command of a Maritime man, Major Leigh, of P. E. I.

LL McGowan, who was a member of last year's team, was also a member of the Shrewsbury team in 1886.

WILL HAVE TO STAY IN THIS TIME ALL RIGHT

Prisoner Whom Sheriff Let Go Back in Police Court Again—Other Cases.

There were three prisoners on the bench of repentance in the police court this morning. James Brookings could not remember how long it was since he had visited the police court on a previous occasion but knew it was not a year. He went to jail for ten days in default of paying a four dollar fine.

James Harrington, a frequent visitor for drunkenness, and who was recently turned out of jail by the sheriff, will not get free so easy this morning. He was sent into jail this morning for two months in default of paying an eight dollar fine.

Joseph McMorant pleaded not guilty to being drunk on the King Square between twelve and one o'clock yesterday morning. He was remanded to jail and will be called on as a witness against the Ottawa Hotel for illegal liquor selling.

Wm. Crowe pleaded not guilty to selling horses in the city without a license. Sgt. Campbell said that there were two reports against the man. Mr. Crowe said he was not doing any business in the city.

The magistrate said it was too bad that he was not doing any business and told him to go out and get a few jugs of rum, not then on Sunday and see if he would be brought before the court for doing business. The magistrate dealt more people reported for working without a license than there are those who illegally sell liquor on Sundays.

ST. MARY'S N. B. MAN HAD HELPED WOULD BE SUICIDE; LOOKING FOR HIS MONEY

James McCrae, of St. Mary's, York Co., had some business dealings with R. D. Davis, the man who last week attempted to commit suicide in this city by jumping over the Suspension Bridge. Davis, as already reported, started out in Fredericton as a talented painter, and when he left for St. John he borrowed from Mr. McCrae seventy-five dollars to enable him to buy a supply of paint here. The day before the attempted self-destruction, he wired Mr. McCrae that it would be necessary for him to have more money. This started the St. Mary's man thinking and he concluded to come to St. John and find out all about Davis' actions here.

He arrived in the city on the late train Saturday night and yesterday saw the chief of police. Chief Clarke said today that Mr. McCrae was a friend of Davis and was anxious to do anything he could to help the unfortunate man.

Mr. McCrae was allowed to see Davis in the jail this morning but as yet the prisoner has not been liberated.

DENTIST

WHEN TEETH BEGIN TO DECAY they should be seen to at once, so as to arrest the process of rotting. If taken in time decay can be prevented in the teeth of old or young. But there must be no delay. Once decay starts the whole set is liable to become contaminated. My specialty is to care for your teeth. I look after them in such a way as to prevent decay, or remove when apparent and stop the rotting process. Every branch of Dentistry practiced.
