Some godless wretch perpetrates the following, which we find in our exchanges: Rev. James Montgomery Bailey, the editor of the Danbury News, is one of the most popular humorists of the day. Recently, during one of his sermons, some of the boys got up a chicken fight just outside the church, and naturally enough the congregation silently dropped out, the congregation silently dropped out, one by one, until finally "the man of Danbury" became aware of the fact that, like the last rose of Summer, he was "left preaching alone." He determined, however, not to be outdone by them; and, stepping to one of the windows, and looking out upon his sporting congregation, he exclaimed, in the most feeling manner, "Brethren, we are all miserable sinners! Which one whipped?"

IAVE REMOVED TO THE PREMISES R PURIFYING THE BLOOD, nothing bas ever been offered which can compare with this Expract of Sarsaparilla. It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complains have their origin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system strives to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find its obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Prepared by DR. J. C. AYER & CO.,

We mention this simply because there are many people who are very particular to say just what is proper and right, and who would regret exceedingly having said: "Is smoke objectionable to you?" when they should have said: "Is ammonia, pyridine, picoline, lutidine, collidine, fermic, acetic, propionic, butyric, valerianic, carbolic acid and creosote objectionable to you?" This form of query will, we imagine, become quite popular. TOBACCO. lo Boxes Baby NAVY TOBACCO. For sale low to close. W. I. WHITING. Rope, Spunyarn, &c.
