## POLAND'S FUTURE

#### German and Russian Rulers Agree on a Policy of Repression.

London, Sept. 12. - The imperial chancellor, Von Buelow, appears to be anable to escape in his recreation from those pressing domestic questions with | in the crowded court room, In opening which he has not as yet been able the case, counsel for the prosecution to deal successfully. One of these is the Polish problem. The novel exprince was charged was far too compedient of placarding in Posen comnunes the speech delivered by Emperor William at Posen does not seem to have allayed Polish excitement. Grave offense has been given in various quarters by the publication in Polish, and even in German, journals of the statement that a deputation of Russian officers which accompanied the Emperor on his visit to Posen actually manifested sympathy with the Polish propaganda.

The correspondent quotes what he says is manifestly an inspired article in the Cologne Gazette. declares that the Czar and Kaiser recently arrived at a complete agreement regarding the Polish question, and the Russian policy is now less likely than ever to sacrifice Russian interests for the sake of fantastic ideas of Pan-Slavism.

## Wreck on Michigan Central.

lision unique in the history of Michigan railroading occurred in West Bay City this afternoon at 3:30 o'clock Three locomotives were wrecked and a dozen freight cars so badly damaged they will have to be rebuilt. In addition the corner of the new Clifton House was stove in, a coal car being shoved half way through the building, and the strangest feature of the accident was that no person was killed or injured, notwithstanding that a pertion of the wreck occurred on the main taining a regular organisation for the railroad crossing of West Bay City. disposal of the stuff.

## INDIANA WOMEN HAVE AXE PARADE

Some Two Hundred Demonstrate Against Saloons in Sims.

Indianapolis, Sept. 12.-The women of Sims. Grant County, held an indignation meeting at the town hall last night and protested vigorously against the saloons which have recently been opened in the town. One of the speakers said that there could be no better emblem of temperance aggressiveness than "The axe that once was Carrie's," and this was followed by applause and the whole audience rose to their feet and began to sing, "Oh, the axe that once was Carrie's is in energetic hands.'

The women than adjourned to the street and in a few moments they had collected all the axes and hatchets in the town and 200 of them marched through the streets, visiting all the saloons and warning the liquor venders to desist from selling or have their places destroyed.

Clarence.

Braemer, Aberdeenshire, Scotland, Sept. 11.-Kind Edward, wearing a kilt and with a thistle stuck in his glengarry bonnet, attended the picturesque Braemer gathering today and watched the Highland games for which the place has long been famous. With his majesty were many members of the FOR SALE OR TO LET-STORE, 350 royal family, including Queen Alexanmond street. Apply 83 Dundas dra, the Prince and Princess of Wales and their children and the Duke and and their children, and the Duke and Duchess of Fife. Proops were present, and Highlanders flocked to Braemar from the surrounding country. The sports went off excellently and the King and Queen received a great ovation. Their majesties exhibited the keenest interest in the games, and sub-sequently returned to Balmoral Castle.

AFTER DUKE CLARENCE. London, Sept. 11.-Margery Kingdon, a stylishly dressed woman, charged in a police court at Cardiff, Wales, today, with disorderly conduct, created a great deal of excitement in court by claiming that she had purposely caused her-self to be locked up in order to draw self to be locked up in order to draw settlement of the anthracite coal attention to her claim against the late strike. It consists of calling an extra Duke of Clarence, brother of the Prince of Wales, and asserting that she had lost her husband and children to save the duke's name, and that she had come all the way from India to get

her rights. STORK HEADING FOR ITALY. London, Sept. 11 .- A dispatch from Rome says that in the event of a son being born to the Queen of Italy, it been officially decided that shall bear the title Prince of Rome. The important event is expected in

## Raid on Snuff Factories.

New York, Sept. 12.-A force of United States deputy marshals made raids upon four snuff manufacturers, yesterday, took seven prisoners and seized the plants, including about 100,-000 pounds of snuff in process of manufacture, the value of the plants being estimated at \$25,000. They are charged with evading the stamp tax and main-

## THE BIDWELL HOME

Saved From the Auctioneer's Hammer

by a Sister of the Boys.

Muskegon, Sept. 12. - A pathetic scene was enacted on Tuesday on the shores of Lake Mona, about five miles from here, when the old home of the famous Bidwell brothers, George and Austin, was to be sold at auction, to satisfy a \$500 mortgage. Just as the sale was about to commence an old gray-haired woman hurried to the front and handed up the money that was required to save her home. was Mrs. Harriet C. Mott, the devoted sister of the Bidwell "boys," who, when they were convicted of robbing the Bank of England of \$5,000,000, at once commenced to work to secure their release, and for over ten years Mott devoted her life to this Mrs. work, in which she was finally success-

The brothers were bright men, and on being released George wrote a book in which he described how the crime was committed. The book was called "Forging His Chains," and not having enough money to have the book published, a mortgage of \$500 was placed on the old homestead. Although they had been the possessors of \$5,000,-000, both died and left to the devoted sister the task of saving the home-

### JILTED TWO MILLIONAIRES

Married One, But Gave Him Up at Her Father's Request.

Cleveland, Ohio, Sept. 12. - Mary Ellen Hart, daughter of F. W. Hart, a millionaire wholesale milliner, who was engaged to marry James Gilchrist, the son of J. C. Gilchrist, the million-aire vessel owner, jilted young Gli-christ, Aug. 15, and after marrying Philip Warrington McAbee, another young millionaire, she rushed off to Quebec, leaving Glichrist almost pros-trated, for it was just on the eve of his announced marriage to Miss Hart. The girl's father telegraphed her

that her mother was dying, and she and her husband returned. station they met the angry father, who asked the girl to choose between her husband and her own family. hesitated only a moment and then flev to her father's arms. Telephone Linemen Start a Strike That May Be Far Reaching.

Harisburg, Pa., Sept. 11.-The conference committee of the People's Alliance, appointed at their convention at Hazelton last Thursday, appeared before Governor Stone this afternoon, and submitted a plan for effecting a session of the legislature to enact laws for compulsory arbitration; bet-ter control of foreign corporations doing business in Pennsylvania, and enforcing the sixteenth and seventeenth

articles of the constitution. Daniel J. McCarthy, of Hazelton, said the alliance represented the business people of the hard coal districts, and that its purpose was to secure a settlement of the strike. There was no sign of a settlement, and the only hope of bringing the strike to an end is an extra session of the Legislature for the enactment of legislation that will end the present strike and prevent suggested that if an extra session is held some action should be taken on to curb the great foreign corporations which are doing business in Pennsylvania. He attacked the beef trust, the steel trust and other large corporations "not because of the alleged high which they charged for their prod-

MAY IMPORT COAL SOON. New York, Sept. 11.-A number the coal dealers in this city seem to have made up their minds that the strike of the anthracite miners will end on or about Sept. 15. Some of date, at any rate, before trying to import coal. G. I. Herbert, of the firm of

H. L. Herbert & Co., said: 'We will wait until Monday, and if the ending of the strike we will import thousands of tons of Welsh anthracite. Other dealers may do the same." Mr. Herbert said that the Welsh coal would be much cheaper than the present price of anthracite. TELEPHONE LINEMEN'S STRIKE.

New Orleans, Sept. 12.-At a meeting of the local union, No. 4, International Brotherhood of Electrical Workers, yesterday, it was decided to attempt to carry the strike of the telephone linemen to every city in the South in which the Cumberland Telephone and Telegraph Company operates. F. E. Lockman, of St. Louis, international vice-president, was present at the meeting, and directed the deliberations, so far as this sweeping

action was concerned. A session of the international officers of the Telephone Linemen's Union has been called to meet at Washington, Sept. 16, and it is expected that the future policy of the New Orleans strike will then be passed on.

Found Brother After 55 Years.

Saginaw, Mich., Sept. 12. — After 32 years' search P. J. Savage, of Glen Falls, N. Y., has found his brother, whom he has not seen in 55 years. When they were children their mother died and the family became separated. Ansell Savage came west and located at Linwood, where the brother found him. Today they will go to the Savage farm in Albee, where these will be a family reunion, the other two brothers and sisters having been located some time ago.

## MEAT MERGER

Goes Into Operation Sept. 27-Next to Steel Trust in Magnitude.

Chicago, Sept. 12 .- The long expected merger of the great meat packing in-terests of the United States will go into active and open operation Saturday, Sept. 27, unless there should be entirely unlooked for change in the plans agreed upon by all those concerned in the deal at the meeting held here yesterday. An industrial combination, second only to the steel trust in point of magnitude and importance, therefore practically an

plished fact. The new packing combine is to be capitalized at the rate of 25 times the last year's earnings of the constituent companies. Cudahy & Co. are said to have earned about \$820,000 in 1901, which would make their share of the capital stock of the merger \$21,-000,000. On the basis of capitalization Armour & Co., whose last year's profits are supposed to have been about \$8,000,000 will receive \$200,-000,000 in the new securities in exchange for their business.

#### It is said that it is the undoubted determination of the consolidated meat interests to control all of the packing houses and stock yards of the country.

Down by Legislature. WILL APPEAL TO THE PEOPLE

The Victorian Ministry Turned

Prime Minister Barton Oriticised | that arrangements will be made to disby Australian Newspapers-The New Steamer Line.

London, Sept. 12. - A dispatch to the Times from Melbourne says that the Victoria Ministry has been defeated in the Legislative Assembly by a vote of 44 to 33 on a vital clause of the retrenchment bill, which reduces the salaries of public servants. The ministers will appeal to the country for an indorsement of their policy. A Action Taken by the People's severe struggle between the civil service and the Government is impending in consequence of the dissolution of Parliament. The factories act, which is a temporary statute, expires shortly, and consequently the decisions of the wages board, fixing the wages

paid in many trades, will lapse. This greatly incenses the trade unionists, who will make common

cause with the civil servants. BARTON SCORED BY PRESS. Cabling from Sydney, N. S. W. the correspondent of the London Daily Mail says that the speech made at Montreal, Que., by Sir Edmund Barton, prime minister of the Federation of Australia, has elicited severe criticism. Newspapers of Australia, says the correspondent, draw comparisons between the premier's deprecation of militarism and preferential trade while he was in England, which ideas were in harmony with Australian sentiment, and his flambovant utterances in Canada. which the newspapers say are worthy of Mr. Seddon, prime minister of New Zealand. Sir Edmund Barton has suddenly lost the esteem, concludes the correspondent of the Mail, that he gained by his supposed at-

titude in London. CATTLE EXCLUSION. Right Hon. Robert W. Asbury, president of the board of agriculture, speaking at the Birkenhead agricultural show today, said that during the colonial conference Canada complained of the exclusion of cattle from Great Britain, but he assured the people of Canada that no exceptional legislation

was enacted against them. IMPERIAL DEFENSE. The Graphic, referring to the Earl of Minto's declaration that it is the duty of the colonies to share in the cost of them say that they will wait until that imperial defense, says: "It will be regarded here as a truism. It is clear however, that a large section of the population of Canada is opposed to contributing to the cost of imperial dethere is not strong evidence then of fense. If for any reason war were to break out between Canada and the United States, Canada would certainly claim the assistance of the rest of the empire, and would certainly receive it. "BLOOD MONEY." After considerable debate the Battersea borough council has accept-ed the gift of \$75,000 from Andrew Carnegie to build three libraries in the borough, the council providing sites and maintenance. Councilman Raynor, one of the chief objectors to Mr. Carnegie's gift, described his offer as "blood money, for men have died in earning it." Councilman Rog-ers declared that Battersea should have nothing to do with Mr. Carnegie and the surplus wages obtained from thousands of his employes. The gift was finally accepted by a vote of 27

## SALE OF THE SHORE LINE

To the Grand Trunk Railway Company.

Henry A. Everett Said To Be Now Arranging the Deal.

Detroit, Sept. 12 .- Henry A. Everett is in New York in connection with the deal by which the Grand Trunk is to purchase the Shore Line, says the Free Press, and a dispatch from the metropolis says the sale was practicaly made some time ago, only a few details remaining to be completed. At the Detroit offices of W. B. Strang, who holds the option, however, it was reported that nothing would be given out for several days. It is understood that one thing which prevented the deal from going through was that there is about \$80,000 worth of overhead equipment for trolley service on the Shore Line, which the Grand Trunk people did not want to pay for, while Strang, who holds the op-tion, insisted that he must have pay for the wire and poles. It is expected pose of this equipment in some shape, and there seems to be little doubt that the deal will finally be com-

pleted. One railroad man said yesterday: "Why, it is likely that the Grand Trunk would save enough on the coal it has to pay for if it bought the Shore Line to pay the interest on the purchase price of the property. It would take the Grand Trunk into Toledo, where it could connect with a number of coal lines, and would give it great coal carrying business, while it would bring the Grand Trunk into one of the est freight originating districts of the country-that south of Detroit'

Amsterdam, Sept. 11.-At the reception of the Boer generals at the town hall, Gen. De Wet, in reply to the burgomaster's speech, said: "We have ask for help for the widows, orphans and other necessitous persons. Upon assistance of this kind from England the Boers cannot count. The general also remarked: "If England wishes to have the Boer descendants of the Huguenots as subjects, before God I am willing to be a loyal subject until the day of God shall come. We wish to be loyal to the new government, hoping that the latter will carry out its engagements."

At a subsequent luncheon Gen Botha declared that peace, which had brought them all they had desired, was due to the mediation of the Dutch premier, Dr. Kuyper, who had thus rendered service to the Boers. Gen. Botha also thanked Holland for the manner in which it had welcomed Messrs. Kruger, Steyn and Reitz. Gen. Botha, speaking again, said: We have lost our independence and have endeavored to obtain compensation from the new government for our burnt farms. We have every reason to believe no compensation will be forthcoming. Help is absolutely necessary to prevent the ruin of thous-

claims in the Zoutpansberg district There is a great rush to the district, which the prospectors are confident contains great wealth in minerals. Danger arises from whites flocking there without capital to sustain them for some months, there being few employers of labor. These men may become pressed for food, and steal from the Kaffirs, who would resent the thefts by killing the whites, the trouble eventually developing into a big native rising. There are more natives in the Zoutpansberg istrict than in all the rest of Transvaal. The banks at Pietersburg, in the Zoutpansberg, have reopened. Many Arab traders have started stores there, and are doing a large trade with the Kaffirs.

RAVAGES OF ENTERIC. London, Sept. 12.-Presiding at the sanitary science section of the sanitary congress, in session at Manchester, Sir James Crichton Browne, M.D., emphasizing the necessity for reform in the sanitary organization of the British army, said enteric fever during the South African war had reduced the fighting force by 70,000 to 80,000 men. for this the war would have been ended six months earlier and \$300,000,-000 to \$350,000,000 would have been

Ottawa, Ont., Sept. 11.-The public drinking troughs of the city were all closed yesterday morning by order of the city engineer on account of the prevalence of glanders among the horses of the city. Dr. Moore, of the department of agriculture, has agreed to dignose all suspected cases for Inspector Bartlett, of the Humane Society, and will have the nostrils of such animals as are condemned and killed preserved for the protection of the officers whose duty it is to stamp out the disease. The department will also act in conjunction with the city authorities, and render them all the

The fact that all women suffer during the birth-hour leads a great many women to accept a degree of suffering which is altogether unnecessary. Sometimes it is hours, sometimes days before the struggle is over. No medicine can absolutely eliminate pain from this time of travail, but Dr. Pierce's Favorite Prescription can and does make the baby's advent practically painless. It acts upon the organs of maternity, giving them strength and elasticity. It produces physical comfort and mental cheerfulness. It is an effective tonic, giving the mother abundant nutrition for her

child.

"I believe I owe my life to Dr. Pierce's remedies, and have long felt it my duty to acknowledge the benefit I received from Dr. Pierce's Pavorite Preseription and 'Pleasant Pellets,' "saye Mrs. Maria O. Hayzel, writing from Brookland, D. C. "Six years ago, after the birth of one of my children, I was left in a weak, rundown condition. My health seemed utterly gone. Life was a burden. I doctored with three different physicians and got no relief. I began to get worse, and to add to the complications, I suffered terribly from constipation. I chanced to see one of your advertisements and concluded to try the above remedies. I commenced to take Dr. Pierce's Favorite Prescription and 'Pleasant Pellets,' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief, it was so great, Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only for the help due solely to Dr. Pierce's medicines. She was a fine, healthy child, and the only one I have ever been able to nurse."

Asbury Park, N. J., Sept. 12.-At a great "peace" meeting just held here, in connection with the Quaker conference, nearly 2,000 Quakers were in attendance. A paper read by Henry M. Haviland, of Brooklyn, declared: "Civilization is not extended so much by stretching the boundary line as by the growth of peaceful arts. It is suspendduring national conflicts."

### OCEAN DYED CRIMSON

Atlantic for Miles Covered With Red Matter an Inch Thick.

Baltimore, Md., Sept. 12.-Capt. Delano of the steamer Chesapeake, which has just arrived from New York brought evidence of a queer phenomenon he witnessed at sea. On Sunday, she was a young girl she used to walk when ten miles southeast of Fenwicks Island lightship, the Chesapeake suddenly ran into water that was blood red. A layer of what appeared to be lead-colored dust covered the surface of the water for miles.

At first Capt. Delano thought change in the water's color could be London, Sept. 11. Washington, Sept. 12. - The secretary of the navy received a telegram yesterday from Rear Admiral Johnson commanding the Boston navy yard, saying that Chaplain William F. Morrison committed suicide by shooting in the naval hospital at Chelsea.

### PEOPLE LIVING LONGER

Rising.

Washington, D. C., Sept. 11. - The census bureau has issued a statement showing the increasing age of the population from decade to decade. The statement gives the results of computing the median instead of the average age. The median is such an age that half the population is under it and half is over it.

The median age of the total population in 1900 was 22.8, as compared with 21.9 in 1890. The median age of the white population in the last census was 23.4, and the colored, including negroes, Indians and Mongolians, was 19.7, while in 1890 the white population was 22.4 and the colored

The report shows that there was an increase in the median age of the white population during each decade from 1810 to 1900 amounting in the 90 years to 7.4 years, or an average amount of about five-sixths of a year

in a decade. The statement concludes as follows: "Many complex influences have co-operated in producing as a resultant this steady change in the age composition of the population. Three may be mentioned—the rapid progress of medical and sanitary science, which has tended to increase the average length of life; the decrease in the relative number of children born, which has made the earlier age periods less preponderant numerically in the total population; and the influx, especialy since 1840, of great numbers of adult immigrants, increasing the number in the old age

Convention of the North American Union in Philadelphia.

rhiladelphia, Sept. 11. - Delegates to the nineteenth biennial convention of the North American St. George's Union were given a reception at St. George's House. In responding for the Canadian societies, E. J. B. Pense, of Kingston, Ont., said that their ambition is to copy the excellent example set by the St. George's societies of the United States. In Canada, he said, as in the United States, a great deal of mission work is being done, not only in the west, but in foreign parts, in bringing heathen nations and tribes into civilization. Addresses were also made by A. R. Wigham, of this city, president of the North American St. George's Union; John Taylor, president of the Toronto Society; H. N. Kittson, of Hamilton, Ont; Peter Birtwistle, of London, Ont.;

and Rev. Lawrence, Caley, of this city, chaplain of the union.

The Canadian societies were represented also by W. A. Spratt, of Hamilton, and R. W. Elliott, Wm. Moss, and W. H. Williams, of Toronto. The American societies represented were the Sons of St. George and the Albion Society of Philadelphia.

the boy's head.
The lad was held suspended in the air for several moments until some of There are now unearthed a series of the cooler heads in the crowd had released him from his position. For-tunately, and this is considered remarkable by the physicians, the thill missed the arteries and nerves, preventing the boy from bleeding to death.

#### Got Damages for False Arrest.

Toronto, Sept. 11.-Some time ago James Cochrane, a farmer, living in the county of Grey, had James A. Grantham, a fruit and vegetable dealer in the city, arrested on a charge of stealing a horse and harness. The charge was dismissed, and today in county court a jury awarded Grantham \$200 damages against Cochrane for false arrest.

New Orleans, Sept. 10 .- The grand jury has returned an indictment against Mrs. Rose Branche Dauphin, widow of Maxmilian Dauphin, for many years president of the Louisiana State Lottery. Dauphin, who was president of the Louisiana Lottery Company, died in 1891. His, estate was inventoried at \$100,000, his widow and a friend being executors. There were heirs, including Dauphin's mother.

The estate was settled, the heirs were paid their share, and the widow and legatee came into possession of the

Eleven years after the settlement, among the effects of Judge Pordie, who had been Mrs. Dauphin's lavyer in the probate case, an old, badly-worn paper was found giving a list of a large number of bonds which apparently formed part of the Dauphin estate, but which had not figured in the inventory. Mrs. Dauphin was called on to explain. She failed to appear before a Louisiana court, but piece by piece, the trouble, buried for eleven years, was brought

Dauphin had kept his money and securities in a box in his room, and was much wealthier man than many supposed. From that box his widow, it is charged, had removed and secreted \$214,000 in securities and \$40,000 in cash. In order to cover up her work she is alleged to have sold the bonds, invested and reinvested the money in new securities, so that no trace could be found of it. She kept no bank account, and frequently had \$100,000 on her person in \$1,000 bills. Judge Lazarus, counsel for the heirs, succeeded in tracking every bond for more than twelve years. The court awarded judgment against Mrs. Dauphin for \$388,066.

## WILLIE FREEMAN'S DEATH

Mysterious Circumstances Attending Alleged Accident.

St. Thomas, Sept. 11.—The supposed accidental shooting of little 15-year-old Willie Freeman, on the Freeman farm, near Bismarck, on Monday, may develop into something sensational. After listening to the evidence of the first day's proceedings before Coroner McDirmid, the authorities have grave doubts as to the little fellow being accidentally killed. It was said that while cleaning an old shotgun it dis-charged and emptied its contents into the lad's head, but there are no signs of powder marks on the skin, which would indicate that the shot must have been fired from some distance. It is said that Government Inspector John W. Murray, of Toronto, will be sent for to clear up the mystery.

GERMAN ARMY MANEUVERS. Frankfort-on-the-Oder, Sept. 11 .-Major-Gen. Young and Brig.-Gen. Wood and their aides de camp, charged with the cavalry, led by Emperor William, today. The Americans rode with the Emperor's bodyguard. This charge was the climax of the maneuvers. About 9,000 horsemenlancers, cuirassiers and dragoons-fell upon the flank of the retreating "Blues" (defending army), capturing 30 of the latter's guns and 2,000 of its infantry. The cavalry started at daylight, made a 12-mile curve, and at about half-past 8 swept over rolling meadows and upon the enemy's forces which had been theoretically disorganized by a heavy infantry attack. The 9,000 cavalrymen made a frontage of a mile and a half, and over the oper country they rushed at a hard gallop upon the artillery and infantry, which did not cease firing until the horsemen were near at hand. Several horses fell The Emperor, mounted on a white Arab horse, directed the move-ment, and at the finish galloped ahead as recklessly as any trooper. Empress was present on horseback. The other foreign guests were on a hill around which the charge was made. Emperor William's customary morning salutation to the foreigners has been, "Well, how's the khaki brigade?"

SPAIN'S NEW DEPARTURE. Paris, Sept. 12.-The Spanish ambassador at Paris, when on the eve of starting for Biarritz to spend a holiday, was summoned to a conference by Prime Minister Sagasta at Madrid. His visit is believed to have been concerned with the wording of the Prince of the Asturias' speech, which, when was delivered, referred repeatedly to the affectionate comaradie with which he had been treated. The incident is the more significant from an article appearing concurrency in the Madrid newspaper, the Correspondencia Militar. After enumerating the various common interests of France gorically that Spain was about to abandon her long-standing policy of isolation, which has cost her her colonial empire. It added that the Liberals would not resign office before concluding a treaty with France. From many points of view it would be more practicable to form an alliance with England, but this would be unpopular in Spain, who, owing to the South African war, is now Anglo-

London, Sept. 12.—A dispatch from Fez. Morocco, to the London Times says the Berber tribe of Geruan, near Mekines, was attacked Sept. 4 by a combined movement of troops and utterly routed, with great loss of life. Much loot was taken. All the Berber tribes have submitted to the authority of the Sultan. The mother of the Sultan of Morocco died Sept. 6. She was a woman of enlightenment, and largely influenced the Sultan towards liberal treatment of his subjects.

LETTERS BY WIRE. Rome, Sept. 12.—Signor Galimberti, minister of posts and telegraphs, and the officials of his department have examined a scheme submitted by Engineer Piscicelli for the establishment of an electrical postal service. The system proposes to transmit letters in aluminium boxes, traveling on overhead wires at the rate of 400 kilometers (248 miles) an hour. Thus a letter would go from Rome to Naples in 25 minutes, and from Rome to Paris in 5 hours. Signor Galimberti has appointed a technical commission to examine the system, and report before experiments are made between Rome and Naples.

Pitiful End of Samuel Napier in the Gatineau Forests.

Quebec. Sept. 12 .- A romance and a tragedy were bound up in the life of Samuel Hawkins Napier, whose body, half eaten by rats, was brought from the pine forests of the Gatineau, 200 miles from the utmost limits of civilization, to be buried here yesterday. He was the discoverer of the largest nugget of pure gold which the world ever knew. Yet he died in a lonely hut, where for weeks together he had lived with his dog, in charge of a lumberman's supply station. His faith-

ful dog had remained near the corpse and had starved to death in turn. Napier had traveled from Melbourne, Australia, to London, with his record nugget of gold, and not only became one of the lions of the world's capital, but also the guest of royalty. Returning thence to Bathurst, New Brunswick he was elected a member of the Provincial Parliament for his native county of Gloucester. Long ago, however, the fortune which came to him so easily passed from his hands and

## WHISKARD'S Three Busy Stores 228, 230, 232 Dundas Street

## QUALITY IN DRYGOODS

IF everyone were a judge of what is good and what is not good in merchandise, a great many drygoods stores would be out of business. Don't always trust the price; it is very often misleading. If you are a judge of merchandise, look at the goods first, then the price. We are willing that you should try the "Three Busy Stores" that way.

## Silk Velvet Department.

We are offering 5 pieces of Black Silk Velvet. We won't say what it's worth. What will interest you will be the price. Note, 25 cents yard.

## YOUNG WOMAN'S LOVE LETTERS

Found in a Married Man's the proper time. Trunk by His Wife.

WAS THE DARLINGEST DARLING

Now He Has a Divorce Suit on His Hands - "Tootsie" Sued by the Wife.

New York, Sept. 12 .- A bundle of tropical love letters, which Mrs. Douglas Wildey Caulkins, of Yonkers, found in her husband's trunk last week, has caused a split in the Caulkins' household, a suit for abandonment, and a suit for \$25,000 damages for alienation of affections against the fair author of

the letters, says the Sun. Caulkins is a young man well known in Yonkers. He is employed by the Brewers' and Distillers' Mercantile Agency of 309 Broadway, this city. His wife was a Miss Frances Galligan, daughter of Patrick Galligan, a prosperous Yonkers contractor and quarryman. She is very pretty, and since the wedding, four years ago, not even the most intimate friends of the couple had the slightest suspicion of any

Mrs. Caulkins says that there was no trouble until about three months ago, when her husband began to stay out late at night, and sometimes remained away for two or three days at a time. When she asked him about his frequent absences he always said that business demanded his attention, and she was satisfied with this explanation until one day last week. Then she found a bundle of letters in a woman's handwriting in his trunk. She read the letters, of which the following is a mild sample:

SAMPLE LETTER. "My Darlingest Darling,-When will I be able once more to place my arms about your neck, and whisper the words of love which you know so well? Ah, hasten the day when we shall be together! It fills my heart with joy and fondness every time that I hear the footfalls of my beloved one. I never knew what love was until you came

into my life. "It is a fine thing to have such good, true man as you to love me. We will get married, of course. Sometimes I have wondered if you have told me all your life. Surely you could not be married and whisper the words of love that you do into my eager ears! You "Douggie, dearest, come to your own

tootsie wootsie soon.' The young woman who wrote this letter was Miss Mabel Secor, daughter of a well-to-do dairyman of Dobbs Ferry. Miss Secor is 22 and is very This and other letters which Mrs. Caulkins found indicated clearly that

Miss Secor did not know that Caulkins was married. Mrs. Caulkins thought that the letters explained her husband's absences pretty well, and when he came home that night she sprang the letters on

him and demanded an explanation. THE MAN'S STORY. She says that he said at first it was ment be petitioned to obtain control of a harmless flirtation, but finally admitted that he had been making love to Miss Secor. Mrs. Caulkins says he then

tried to get her to sue him for divorce, and when she refused to told her he wouldn't live with her any longer. She hasn't seen him since. As her husband had made no provi-

vision for the support of herself and her 2-year-old son, Mrs. Caulkins retained Lawyer W. H. Torpey, of this city, to bring an action for abandon-ment against Caulkins. She also began an alienation suit against Miss Secor. A warrant was issued for Caulkins last week, but the officer to whom it was given has not been able to arrest Caulkins.

THE GIRL'S DEFENSE.

The girl's father, speaking for his daughter, said vesterday that she had been completely deceived by Caulkins. He had represented himself at the Se-cor home as a Buffalo man and unmarried, and the girl had developed a sincere affection for him and had expected to marry him. Mr. Secor denounced Caulkins as a scoundrel who had deceived his daughter just as much as he had deceived his own wife and said that Mrs. Caulkins' alienation suit was outrageous.

At 228 Maxwell street the garment shop of H. Vitti was visited. It was up to the standard, the walls being

whitewashed and the floors clean. On the next floor Max Goldberg was given a warning to make the place sanitary. At 22 Maxwell street, Inspector Davies found that a door leading to a sweatshop was without a knob and could not be opened readily. This door cut off the exit of twenty men, women and children, and the inspector ordered it repaired. Several other places were investigated and all children who seemed under age were questioned, but all could product affidavits giv-

LICENSES FOR SWEATSHOPS. Inspector Davies will try to have the city ordinance enforced which requires all the proprietors of sweatshops to take out licenses. He will ask the license department of the city to make regular tours of inspection and force the proprietors to obey the sanitary laws or lose the right to run their shops. He believes that by doing this he can work wonders before the close of this fall.

The Tariff Argument.

Mr. Tarte, who has been giving comfort to the Conservative press by his very general remarks on the tariff, has furnished a more specific statement of his views on that question. He Canada "should buy from the United States and Germany, who shut their markets in our faces, articles which we can manufacture here, and sell as cheaply as they, if we have a tariff that permits us to manufacture them?" Mr. Tarte echoes the natural resentment of Canadians of all parties against the commercial attitude of the United States, and in a milder degree is that the real test? It may fairly against Germany's. But it is one thing to advocate a policy of retaliation and fort in France would not be so high, another thing to formulate it. A general increase in the tariff, which Mr. Tarte does not favor, would strike at the commercial friends of this country -Great Britain especially. This might be avoided in the case of Great Britain by increasing the British preference; but the Manufacturers' Association, which is the head and front of the agitation for a general increase in the duties, claims that the British preference is too high already, and should be reduced. The Conservative party has taken the same ground. The Government's only course in a policy of reprisals against the United States, would be to single out for tariff increases the articles largely imported from that country. This would not be difficult if the Government were actuated only by a desire to aim a blow at the United States, without regard to Canadian interests. A stroke of the pen would raise the duty on agricultural implements, our imports of which come almost exclusively from the United States, but the immediate result would be to increase the price of implements a hostile Legislature than from the to the farmers of the Northwest. The settlement of that region will not be Pennsylvania, no railroad company promoted by increasing the burden of can own coal mines, but this statute, for the present tariff schedule that it is olies and trusts, has been a dead absolutely perfect, something too sac- letter. The strike will not be an unred to lay hands on, and if it could mixed evil if it rouses the public to be "readjusted at certain points," to demand its rights and serves to throw public taxation, there would be an un- life. answerable argument for revision. It is for the advocates of revision to specify It is also incumbent on those who urge the manufacturing interests which are far we have heard of only two-the cot-

#### British, not American, competition. The Boer Generals.

The Boer generals now in Europe are presuming too much on British forebearance and generosity. Perhaps the acclaim of the London crowd, an honest tribute to their fighting qualities, led them to mistake British official sentiment and gave them the idea that they were masters of the situation. Mr. Chamberlain's firm refusal to amplify the terms of the peace agreement should have corrected this misapprehension, but if the Boer generals are correctly reported in their preciated in England as in Canada, speeches in Holland, they have not submitted with good grace. The peace concessions to the Boers were lauded by the civilized world as showing a magnanimity without parallel in the treatment of a conquered people. Great Britain's enemies even declared that the Boers had made their own terms, so anxious was King Edward to close the war before the coronation. Dewet and Botha are now in Holland appealing for funds for the Boers, and trying to foster the impression that Great Britain has exacted the pound of flesh. Dewet has no warrant for saying that the Boers cannot count upon assistance from the British people in providing for Boer widows, orphans and other necessitous persons, thousands of whom would have perished had the British not fed and clothed them while the fighting Boers were in the field. An appeal to the British public would no doubt bring a generous response, if It can be shown the Boers are in actual destitution, but Dewet and Botha are doing their best to chill British sympathy by aspersing the liberality of the conquerors.

## France's Slow Growth.

The latest vital statistics compiled for the whole of France are for the year 1900, and these show that for the fourth time in eleven years the number of deaths actually exceeded the births. A parallel for this natural diminution of population would be vainly sought among all the other nations of Europe, and probably of the world. The death rate of France in 1900 was 21.9 per thousand, the birth rate was 21.4. In England the death rate was 18.2 and the birth rate 28.7. In other words France had nearly 144,-600 more deaths and 284,000 fewer births than would occur in the same number of an English population. The birth rate is the lowest in Europe and contrasts with 35.6 in the German Empire and 39.3 in Hungary. Comment-

ing on these statistics, the London

Times says: "There is no obvious reason why there should be seven deaths in France for every six in a like population in England. There ought, indeed, to be far fewer there, since our birth rate is much larger and consequently we have a greater proportion of children of an age when mortality is highest. Probably the extension of sanitary improvements on the other side of the Channel will do something towards equalizing the two nations in this respect, especially as regards some of the more distinctly preventible diseases. But phthisis has not yet been brought into this category; and we are puzzled to know why, among the third of the French population for which we have returns, that disease is just about twice as fatal in France as

in this country.' Frenchmen, who are alarmed over the stationary population of the country will find a more practical task in endeavoring to reduce the death rate than increase the birth rate by putting premiums on large families, as the Government has been urged to do. French parents regulate the size of their families to the means at their disposal. If a nation's greatness consists in numbers, France is falling behind, but be claimed that the standard of comor wealth so evenly diffused, if the population had increased in the same ratio as that of some other European countries.

#### The Coal Situation.

There is not much likelihood that the price of hard coal in this city will remain for any time as high as it is. Daspite the defiant tone of the operators, there is no doubt that a settlement of the strike is in sight. Senator Platt knew what he was talking about when he made his prediction to this effect two weeks ago. The Republican bosses in Pennsylvania are working night and day to bring the opposing forces together. Governor Stone is in constant touch with the men who control the situation, and if his personal and official influence fails he will probably call a special session of the Legislature, as he has been petitioned to do. The operators will hardly wait for this as their interests would be exposed to more danger from miners' union. Under the laws of taxation. However, no one has claimed like others nominally aimed at monopuse Mr. Tarte's phrase, so as to favor proper safeguards around this monop-Canadian producers, without adding to olistic control of a prime necessary of

The grain fields of Great Britain in the aggregate are steadily shrinking. Population is drifting to the more profitable occupations, but the dwindling of a sturdy country folk is a real danger to the Mother Country, to say nothing of her increasing dependency on foreign sources of food supply.

Arrangements Made for the New Field Secretaries - Election of Delegates.

Winnipeg, Sept. 11.-A busy day on routine business was spent by the Methodist General Conference today. The principal item was a report by the mission committee settling many points arising out of the appointment of additional field secretaries. One of the changes made was to make the term of all members of the general mission board four years, in order to give a greater permanency and efficiency to a somewhat technical work. The general trend of the new regulations is to give greater powers to superintendents, and to secure more effective control of work in home missions. A good deal of progress was made in the work of the conference, though it is doubtful if it will be completed before the end of next week.

Tomorrow the entire body go to Brandon by special train to view the wheatfields, an outing which is looked forward to with pleasure. On Saturday business will be resumed, though many delegates will be absent in the villages and towns of the province, where they are billed to preach on

TWO AGED MINISTERS. A pleasing variation from the course of business opened the evening service. The conference had the pleasure of hearing brief addresses from two of the oldest, if not the oldest, ministers in the Canadian Methodist Church, Rev Dr. George Young, now of Winnipeg, and Rev. William Ames, of Woodstock, both of whom entered the conference of 1842. Rev. Mr. Ames is the father of Mr. A. E. Ames, president of the Toronto Board of Trade. In intro-ducing these veterans, Rev. James Allen, of Sault Ste. Marie, paid a high tribute to their long and faithful services and sacrifices for the church in their 60 years of ministry. Dr. Young and Mr. Ames spoke modestly of their services, and when they had concluded the conference sang, "We'll Work Till COST OF CONFERENCE.

The conference adopted the report of fund and finance, making provision for expenditures of the meeting. provides that each delegate pay \$15 to the fund and that each annual conference pay an assessment of one per cent on its assessable funds. It also fixes the salary of the general superntendent at \$2,500 a year, with \$500 allowed for traveling expenses. It was explained that the cost of the present meeting would be about \$16,000.

REPORT ON DISCIPLINE. The report of the discipline committee was presented by Mr. N. W. Rowell, K. C. An item providing that probationers of at least one year's stand-Litchfield, Conn., Sept. 12.—Charles ing be authorized on a three-fourths vote of the ministerial session at the annual conference to administer the sacrament of the Lord's Supper and baptism was defeated. The same fate met a recommendation that ministerial delegates to the general conference consist of one for every fifteen minis-terial members of each annual conference, and the present rule of one in twelve we stand. The conference adopted a cuse providing that assistant class leaders shall only have a seat at the quarterly board where the class has a membership of 20 or more. It was agreed that leaders' meetings should be composed of ministers, probationers, circuit leaders and assistant leaders. It was also ordered that the superintendents of circuits should make strict inquiry into the moral character of leaders and assistant leaders. The committee recommended against a memorial giving a place for one layman in each district

meeting, to correspond with each superannuated minister. Mr. S. F. Lazier, K. C., Hamilton and others urged that laymen should have such representation, but on a vote the committee's report was sustained by a vote of 77 to 71, the yeas and nays having been called. ELECTION OF DELEGATES. The election of fraternal delegates to

British and American conferences occupied considerable time, balloting being carried on between other items of business. The first appointment, that of delegate to the British and Irish conferences, did not take long. On motion of Rev. Dr. Potts, the honor was given unanimously to Rev. Dr. Sutherland. Two ballots were necessary to choose a representative to the attacked with kidney trouble, and I be- Methodist Episcopal Conference of the came so run down and emaciated that United States, but Rev. CHICAGO. Chicago, Sept. II.—Wheat led all grains in a strong advance today. Business was active all round, and the trade was thoroughly aroused by the government estimate of grain yields much below expectations. Nearly every other influence was in some measure bullish, especially the threatened damage to unripe corn by frosts. As a result of these factors everything on the list closed with gains—September wheat 1½c higher. December wheat 1½c higher. December wheat 1½c to ½c higher. December on 1½c up. December corn ½c advanced, and December oats ½c to ¼c higher. January provisions closed 7½c to 1½c and 12½c to 15c higher. BEAN CROP SHORT.

Detroit, Sept. 12.—Michigan, the greatest bean-producing state in the Union, this year reports a 50 per cent crop, which is 2,000,000 bushels, and 20 per cent, or 800,000 bushels, left over from 1901. The reason of the shortage is the rainy weather of the spring. The output of the United States in beans is 7,000,000 bushels annually, so Michigan raises over half this amount. Last year 1,000,000 bushels were imported. Prices have not gone up yet, but there is likely to be an advance shortly.

## ORLEANS AGAIN IN OLD ENGLAND

King Removes Ban Put on Him hy Oueen Victoria.

QUEEN OF BELGIANS IS ILL

Deata of a Daughter of William Walderf Aster-Swimmer Holmes Fails Again.

London, Sept. 12.-The announcement is made that King Edward has informed the Duke of Orleans that the doors of Eugland are reopened to him. He and the Duchess of Orleans arrived in London this evening. They will go to Weybridge to offer prayer at the tomb of the Count of Paris.

It will be recalled that Queen Victoria forbade the Duke of Orleans to visit her in consequence of scandals he was mixed up in and also because of his utterances about the Boer war. QUEEN OF BELGIANS SERIOUSLY ILL.

Spa, Belgium, Sept. 12.—The Queen of the Belgians has been seized by a Miss Cora Fonger, of Belmont, is in severe attack of asthma and a physician has been hurriedly summoned from Brussels.

Marie Henriette, Queen of the Bel-gians, has been ill for a long time with a malady of the heart. She was re-ported last month to have made some FAILED AGAIN.

Dover, Eng., Sept. 12.-Frank Holmes, of Birmingham, started from Dover at 6:30 o'clock this morning in at attempt to swim the English Channel. After being in the water two hours he abandoned his attempt. Holmes was caught in a squall and

was unable to proceed. DEATH OF AN ASTOR. London, Sept. 12.-William Waldorf Astor's daughter Gwendoline died of consumption this morning at Clive-

den. Her body will be taken to New York for burial. RAIN DAMAGES CROPS. A special cable from London says: According to reports from all parts of England, the heavy rains of the last three days, coming on top of an exceptionally wet summer, have very seriously damaged the crops. Thousands of farmers find ruin starting them in the face.

Grain has suffered severely. The land has been reduced to a quagmire. In some places water is now standing among the wheat.

STEAMER GROUNDED. Colombo, Ceylon, Sept. 12.-A boat ontaining the first officer and five of the crew of the British steamer Nithsdale has arrived here. The officer reports that the Nithsdale grounded on a reef south of Cardiva, one of the Maldive Islands in the Indian Ocean, Sept. 8. All hands are safe. steamer is in a precarious condition, owing to the danger of her slipping off the reef. She has a cargo of 4,000 tons of sugar. The Nithsdale is owned

in Glasgow. SLOWER MAILS. London, Sept. 12. — After Oct. 1 mails for White Star Line steamers will not reach Queenstown until 10:15 a.m., Thursdays, instead of 7 a.m., as at present, thus considerably delaying the departure of those vessels. reason for the alteration in time is the refusal of the White Star Line to further co-operate with the general postoffice in accelerating the mail boat service from London to Dublin. The company has hitherto contributed \$30,000 yearly towards the accelerating, but it now says it feels it is no part of its duty to continue such an outlay. and the postoffice, therefore, is revert-

ing to slower trains. THE DOCK LABORERS' STRIKE. Trieste, Sept. 12.—The garrison here has been reinforced by two battalions of infantry as a precautionary measare in consequence of the strike of dock laborers. Three of the arrested leaders have been released.

As a result of the arrest of the ringeaders of a recent demonstration at rieste seven hundred dock laborers and others struck work yesterday, and the work of the port was much affected. The demonstration which led to the trouble was organized with the object of compelling the authorities to suppress a newspaper which had made itself unpopular with the workmen.

RETIREMENT OF DE STAEL. St. Petersburg, Sept. 12.—The Official Gazette today published a rescript from the Czar, acceding to the desire of Baron de Stael, to retire from the Russian ambassadorship in London, on the ground of impaired health, and appointing him a member of the council of the empire.

Mrs. Kate Collins, employed at the home of David Parent, Windsor, attempted to take her life by swallowing bedbug poison on Tuesday night. She was taken to Hotel Dieu, and is now considered out of danger.

Representatives of the Windsor, Sandwich and Amherstburg Railway are holding meetings with property-holders in various parts of Sandwich West, trying to obtain a bonus of \$2,500 and exemption from taxation for twenty years. The ratepayers of the township last month refused to grant a bonus of \$5,000 with which to extend the line to Amherstburg. It is thought, however, that the present proposal will meet with the approval of property-holders. The relatives of Mrs. James Wride, of

Leamington, are exercised over her mysterious disappearances a few weeks agoff One day Mrs. Wride visited a neighbor and left her infant child there, saying she was going to do some shopping. She has not been seen nor heard of since. Her home life is said to have been none too happy and this may explain her too happy, and this may explain her disappearance, but her relatives fear foul play. Shortly after her disappearance her husband sold the household furniture and left the home.

Mrs. Helen Dunn, wife of John Dunn, of Sparta, died at the Amasa Wood Hospital, St. Thomas, on Wednesday evening. Mrs. Dunn had been a sufferer from cancer of the stomach, and had entered the hospital to undergo an operation, which was performed two days ago. She was unable to stand the shock. The deceased, who was 59 years of age, was born in Centerville, and had resided in Sparta for twenty years. She leaves no family. Three brothers survive her—Edwin McCausland and John A. McCausland, of Aylmer, and Wesley Mc-Causland, of Aylmer, and Wesley Mc-Causland, of Manitoba. Mrs. Dunn was a member of the Baptist Church at

Sparta. Wheeling, W. Va., Sept. 11.—By the end of this week, it is believed, the coal strike in West Virginia will have closed in reality. Big Tanks Explode-Little Chance to

Check Flames. Beaumont, Tex., Sept., 12.—The oil field is on fire, and judging by the great volume of smoke which is flowing in from Spindle Top, there is grave danger that great loss will be sus-tained, if the field shall not be entirely

destroyed. The fire started early in the evening in some waste oil along the Texas and A. Sabine tracks, and burned about 60 feet of trestle. This was got under control, and it was believed that all danger had passed, but in the meanwhile the fire in some way had been communicated to the field and several huge settling tanks, containing thousands of barrels of petroleum, have already exploded, and others are reported as being in the direct line of the fire, which has spread over a wide

area already. The ground is saturated with oil. and there is no chance for stopping the progress of the flames tonight. The fire is spreading rapidly, and it is believed that the whole field will be

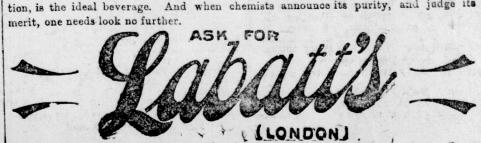

ignited before daylight. A telephone message from Gladys, which is the station at the oil field, says the whole of the Keith-Ward tract, embracing several acres and containing a large number of wells, has been burned over, and it is be-lieved that some of the wells have caught. The big tanks belonging to the Higgins Company are burning.

At 1:30 a.m. the telegraph operator at Gladys says he fears that he will soon be compelled to leave his post and all means of communication will be cut off. It is reported that two men have been seriously burned. The workmen on the hill are standing about unable to do anything even towards protecting that portion of the field which is not yet on fire. The entire apparatus of the fire department is being loaded on cars to be sent to the field, and a large num-

ber of people will go on the train. To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testing and protruding piles, the manufacturers have guaranteed it.

## PASSED NEAR PELEE

Steamship Had to Slow Down on Account of Darkness.

New Orleans, Sept. 12.- British steamship De Gama, from to New Orleans, passed wit and 35 miles of Mont Pelee during the recent eruption. When passing between St. cent and Martinique it became so dark that it was impossible to see a few feet ahead, and the vessel had to go under slow steam. The air must have been full of fine dust, for next morning the vessel was covered by it, but was indistinguishable in the dark-

Not until the De Gama reached Jamaica was the cause of the darkness known. The De Gama brought back the last party of American muleteers from South Africa, 92 in number. They had been at sea for more than three months, not being allowed to land at Cape Town.

Losses were quite generally extended all through the list, and the selling movement broadened out, many prominent stocks scoring declines of a point or more. An opening rate of 10 per cent for call money followed by a rise of 12 per cent, led to the closing out of bull accounts and encouraged short selling. Speculation became very quiet later, but showed very little tendency to-

It is a pity that David Harum could not have lived to read the item in the newspapers to the effect that the banks in North Dakota are adding to their business a department of horse trading. That would have filled David's soul with delight, and have been esteemed by him the fitting recognition of a clever career. trading has laid the modest base of nany a fortune, and we do not see that it is any less respectable than swapping railroads or syndicating steel plants. It is not the magnitude of the thing, but the way in which it is done that determines the ethics of it. Some of Mr. Dimock's customers had complained that they could not purchase from the jobbers tobaccos and cigarettes made from Canadian tobaccos save those made by

Mr. Garvey said that one reason he objected to signing the exclusive contract was because the American and Empire Companies were selling to certain retailers at as low a price as to the wholesale houses, thus taking away some of the trade which legitimately belonged to the latter.

To Mr. Campbell, Mr. Garvey said: that at the time of the signing of the contract the American Company's cigarette trade was the largest in

Canada, and therefore a desirable class of trade to handle. "Then if you received orders for other cigarettes than those of the companies are the Consumers' To-bacco Company and the Erie Tobacco Company. The firm formerly did busi-

To Mr. Fleming, Mr. Dillon said the credit for encouraging the growing of Canadian tobacco was not due to the tobacco trust, as present owners of the Empire Company, but to Mr. Archibald, who started the company. The increased sale of Canadian bacco was also largely due to the raising of the duty on tobacco.

Mr. Dillon said that the contract signed with the Empire Company was

## CHAPTER XI.

Rich took his luncheon with him that morning when he started out fishing, for he intended to row across the lake and follow the course of a trout stream beyond, and make a day of it.

It was the first day that he had been off by himself since the arrival of Annie Noble and he had investment that it Noble, and he had imagined that it would be a relief to be entirely independent, with no one to act as a restraint, or require any particular attention from

tiny island, and just as he was about to round it he heard the dip of another pair of oars, and the next moment he saw Mr. Noble's light little boat, with Annie and her maid in it, pulling in the same direction as himself.

He nodded gavly to them, and called out cheerily, as if there had been no mis-

erstanding between him and his Been over to Moss Island, Annie?"

"Been over to Moss Island, Annie?"
"No," she returned, in a subdued tone, and rowing more slowly, as if to let him pass her; "we have been lily-hunting."
"Have you had good luck?" he asked, hoping, bov-like, that she would inquire regarding his success as a fisherman.
"Pretty good." still demurely.
"Guess what I have in my basket," and he tapped it lightly as he spoke.
"Fish." she returned, indifferently.
"Of course—and trout. Such beauties, too! Now guess how many."
"I can't. I'm very stupid at guessing." she replied, sedately; then, backing water with one oar, she turned her boat half around, exclaiming with sudden interest:

Sarah, there is a lovely lily there-I must have it."
Sarah and Rich both looked where she pointed, and, true enough, there was a

nost beautiful lily just beyond their As they neared it, Annie left her oars, and, going to the stern, leaned far out, reaching her hand as deep into the water as she could, so as to secure as long a stem as possible.

"Take care, Annie!" Rich called out, his heart in his mouth as he saw her dangerous position.

But his warning came too late, for the words were scarcely uttered when she lost her balance, and, with a sharp cry of terror, disappeared beneath the water

ter.
The maid, losing her presence of mind, dropped her oars, and began to shriek in a way that might have aroused the fabled seven sleepers.
But Rich, with a few swift strokes of his oars, was alongside their boat in an instant, and watched for Annie to rise to the surface that he might reach for and save her.
But she did not rise!

But save ner.
But she did not rise!
There were only gradually widening circles and a few bubbles where she had fallen, while the water was so muddy that he could see nothing beneath the surface. In a few moments his jacket and shoes were off and he had sprung into those

were off and he had sprung into those murky depths.

He, too, disappeared, and was under water so long that the girl was in despair, believing that both were lost.

But at last Rich came to the surface, bearing in his arms the senseless form of his little comrade, while both were covered with mud and slime.

"Stop your crying and screaming, Sarah, and help us!" Rich commanded, sternly; and, awed into obedience, she took the child from him, when he crawled into the boat with all the speed he could, and, grasping the oars, pulled for the shore with a rapidity which only a desperate purpose could have prompted. As soon as they landed he seized the still unconsclous girl in his arms and ran for the farmhouse.

As soon as they landed he selzed the still unconscious girl in his arms and ran for the farmhouse.

There was busy work among those terror-stricken people during the hour which followed; there were pale faces and sinking hearts gathered around that little form, for it was a hard battle that they fought with the grim foe. Death, who seemed very loath to yield that sweet spirit back to life again.

But the terrible suspense was over at last, and little Annie Noble opened her blue eyes and smiled up into the agonized faces bending above her.

Then Rich, who had refused, despite his soiled and dripping clothing to leave her until he could know whether she would live or die, gave a cry of ioy that ended in a groan of pain, and he fell fainting upon the floor.

-The Warwick correspondent of the Forest Free Press says: The lecture given by Rev. J. H. Moorhouse, of London, on Thursday evening last, under the auspices of the Anglican Church, was a most appreciative effort. His subject "Success in Life and How to Seoure It," was a popular one. Methods and qualities which mar one's prospects were pointed out and characteristics and principles which are conducive to prosperity were as clearly emphasized. Deep thinking, close reasoning, beautiful forms of expressive eloquence, wit and humor, were some of the attractive features of the lecture, which a representative audience very much enjoyed, and we trust will richly profit by. This initial lecture of a course to be provided by the Rev. G. F. Newton should create an eager ness to hear those to follow. WILL REMODEL STORES.

SHOULD GET A MEDAL. The Winnipeg Free Press says: "The many friends of Mr. R. B. Dixon, who returned from the Kootenay a few days ago (and who served in the commissariat staff corps in Montreal, To-ronto and London, Ont., 1865 to 1868, and was conspicuously connected with the Fenian raids in June, 1866) will be glad to know that he has recovered all the lost papers showing that he is entitled to the medal for the Fenian raids, June, 1866. Owing to the vicissitudes of a traveling journalist's life, Mr. Dixon lost all his military history in Western Australia in 1885. Hearing of the award of the medal while west of the Rockies in 1898, he communicated with the Australian authorities, and the result shows how perfect the search was, for all the papers were returned through the Premier of West Australia last March. Application has been made to the minister of militia for the medal, and although probably late, will, it is hoped, under the peculiar circumstances of the case, receive favorable consideration.

City Engineer and Ald. Cooper Have Dispute.

Monotonous Series of Wrangles Characterized Board Meeting.

The board of works has lost the reputation it has sometimes had of being a businesslike body. It doesn't matter now whether there is much business before them or little, they manage always to make it take up as many hours as other boards consume at their busiest times. The fact that Ald. Cooper is chairman explains it, but one person is not sufficient to meeting of the board nowadays that does not consist of a series of wran-

Last night it was the city engineer who was the party of the second part, and their debates were kept up monotonously. The city engineer is an unwilling participant in these disputes, but he no doubt considers it his unpleasant duty to keep the chairman from making nonsensical moves, even though in doing so he has to hold his

ground in much disagreeable wordflinging. Most of the trouble last night was about putting down a new coment walk | year. on Grand avenue, where, at present, the walk is in a disgraceful condition, and liable at any time to be the source of a suit for damages. The chairman was strongly opposed to doing anything about it. The city engineer was equally positive that it should be constructed, as there was no more dangerous place in the city. In one of the interminable wrangles which followed, the city engineer accused the chairman of ordering down a walk on Elias street which was not needed half

so badly as this was.
"Don't talk to me like that! Don't you talk to me like that!" Ald. Cooper understand that!" Shortly after Ald. Cooper and Ald. Jolly were wrangling about some other walks, and during this the chairman returned to the old subject, and said that the city engineer had ordered up

the Grand avenue walk, so as to benefit one party, and Mr. Graydon boiled "I did not tear it up for the benefit of any one party, and I won't have you, as alderman or chairman, of this committee, say so. I don't think you have any right to be impertinent to me and I won't stand it." He added that he wanted the chairman to understand that he did his duty at all times, in the interests of the public. Notwithstanding that the ten-mile

limit has been exceeded the Grand avenue walk and others that are in bad condition will be laid, as it was considered better to do so than let them cause accidents. Moses Cox and Ben Johnson were given the contracts for sewers on Hyman street and Princess avenue, respectively, at \$448 60, and 25 cents a foot for side drains, and \$535 and 23 cents for side drains.
On condition that Mr. Alex. Harvey build upon property opposite his residence on Talbot street within thirty days, a strip of land on that street

owned by the city will be conveyed to him. Mr. Harvey intends to build a row of residences there. committee will visit Cavendish street, the condition of which has been the cause of Mr. W. H. Bartram's action against the city. Ald. Jolly said that they did not know anything about this place, and should understand the

situation of affairs before taking ac-The secretary was instructed to refer to the street railway company William Hunter's complaint regarding the condition of the Wortley road, where the cars turn off from Beaconsfield avenue.

## THE ST. LAWRENCE TRADE

Grain Shipments This Year Show a Big Increase.

Plans for Improving Navigation Will Soon Be Carried Out.

Montreal, Sept. 12.—The shipments of grain from the St. Lawrence this season are away ahead of recent years, and do not bear out the contention of make a quarrel, and it is an odd the underwriters that the route is a dangerous one. To the end of August 10,850,830 bushels of wheat were exported from Montreal, as compared with 8,854,000 to the same date last year. There has been a big falling off in the exports of corn, but this was expected, owing to the failure of the American crop last year. The conditions prevailing this year certainly go to show that if the St. Lawrence is given half a chance it can compete successfully with New York and Boston, for both of those ports show a

decrease in grain exports to date this

IMPROVING THE ROUTE. Toronto, Sept. 11.-Mr. Sutherland, minister of marine and fisheries, arrived here today. He says he is keenly interested in improvement to navigation in the St. Lawrence, and has laid out definite plans of improvement, which will be carried out as speedily as possible. He thinks there is a great deal of ill-founded prejudice against the route. The proposition that Lloyd's should send a representative to make a personal scrutiny finds favor with Mr. Sutherland. He thinks advantage from the work he has been the suggestion will be accepted by "I won't take it! I want you to | Lloyds. "SHORE ACRES" TONIGHT. In "Shore Acres," it has been clear-ly demonstrated by James A. Herne, that a play depending entirely upon a portrayal of that which is real, without dramatic effects, as in the ordinary plays, can be written with success. In a total ignoring of the traditional conventional and unreal in stagecraft, and getting far away from artificial de-vices, the effect has been a revelation. A complete scenic production of this ideal work will be given at the Grand tonight and Saturday night with a
