Autos Grow in Numbers and Parking Spaces Become More Inadequate.

Half an hour after sunrise on the orning of Tuesday, April 18, in the year 1905, a team of horses stood harnessed to a light express wagon on a farm in Lobo township. The state of the weather, the condition of the rutfilled roads, the distance to Landon do not enter into the story.

At five minutes to 9 o'clock, John D. Farmer of Lobo drove into the yard of a Talbot street livery stable. and paid the owners of the establishment a half-dollar, a half-dollar as big as a cartwheel, for the privilege of "parking" the two nags and his wagon for a few hours.

Traversing the 14-mile route was much more comfortable and much easier for the Lobo man this morning, 20 years later. His \$1,800 motor car whizzed into London in a half-hour. And travelling was easier today than it was a score of years back for a half thousand other farmers. They came in motors. London streets to-day are used by nearly 8,000 automobiles and trucks.

In the old days the farmer's horse and hayrack formed a big part of the street traffic on Saturdays. BAR COMMUNISTS

Move Follows Recent Toronto Convention-Those Now Members Must Resign.

Confessed Communists will in future be barred from membership in the London Individual Labor party and those already holding membership in the Labor party will be asked to resign. This was decided upon at a meeting on Sunday afternoon of the Individual Labor party, which was a follow-up of the Friday night meeting.

This move is the outcome recent Toronto convention of the Ontario Labor party. At that convention, when the Communists were able to elect a president, two delegates of the London Labor party : said to have voted with the Comunist group on resolutions. The are delegates Avery and Philips. On the suggestion of Donald Wright, president of the Individual Labor party, and on the motion of Ald. McKay, a special meeting of the party will be held next Sunday to deal finally with the matter.

QUAINT ENGLISH VILLAGE

Associated Press Despatch. Haweswater, Eng., April 19. - The picturesque village of Mardale Green, near here, with its famous old hostelry, the Dun Bull, and the hillside has been held, will shortly be submerged, for it is the intention of the Manchester city council to build a huge reservoir in that district. The quaint old village church, however, will be rebuilt on higher land.

I agree with the gentleman that it is always the part of prudence for a wife to give the soft answer that turneth away wrath, instead of retorting with a snappy comeback when her husband makes a nasty crack at her. It certainly doesn't add to the peace and harmony of a home for a wife to be ready to jump into her fighting clothes every time her husband makes a pass at her. Nothing comes of family rows but bitterness, and anger, and disillusion. Nor does any love long survive them.

I also agree with the gentleman that any woman who has cut her wisdom teeth on matrimony should be able to assay her husband's temper and tell how much of it is due

Furthermore, I opine that a wife who starts anything with her husband of an evening until after he is fed and rested, and has had his smoke and his paper unmolested, deserves to be put in the home for the incurably feeble-minded for the balance of her natural life or else bound over by the courts to keep the peace. For she is either lacking in brains or just loves a fight for the fight's sake.

It is the greatest possible pity that vomen haven't more sense of humor than they have, for if they did they would be able to laugh at many things their husbands do over which they shed scalding tears. It would enable them to see how really funny it is for a big man to get into a babyish tantrum over nothing and how much easier it is to kid him out of it than it is to make a scene over

Unhappily, however, few women have a funny bone, and fewer still Mrs. John Gemmell will address can see the joke when it is on them, tomorrow night's meeting of the Vic-

She might well forgive his faults and deal leniently with them, since they direct result of his struggle to lap her in luxury.

She is, believe me, a discerning and a tender wife who answers her husband's irasoible speeches with a pat on the head and a "there, there, it's all right," as she would a sick and fretful child, instead of going to the mat with him. DOROTHY DIX.

Hawaii Will Honor the Last Member of Ancient Monarchy.

Associated Press Despatch Honolulu, April 19.-The birthplace of Prince Jonah Kuhio Kalanianaole, last titular member of the former monarchy of Hawaii, who served the territory as its delegate to congress for more than 20 years, is to be restored to the condition in which it was 50 years ago. Also it will be made a week end and vacation spot for members of the order of Kamehameha, according to announcement by United States Marshal Oscar Cox, who has returned from a visit to the historical spot at Kuwalu, Koloa, island of Kaui.

Marshal Cox, who is an official of

the order, said that the society planned to have the rehabilitation completed for the annual meeting in June, 1926. when it is expected that all members of the order will gather there for a huge luau (native feast) and celebration.

Despite the fact that the spot now

Now she has plenty of time for quiet reading, exercise, shopping or whatever she feels like doing. What's the secret? Well, her husband bought her a Moffats Electric Range!

For instance, she puts the whole dinner in the Moffat oven in the afternoon. She returns at six o'clock, and the meat and other dishes are ready to serve.

She finds her Moffats Electric a great help when she is in a hurry. The elements heat up so fast-far faster than other elements. It's only a jiffy after she has started that the kettle is singing merrily, with the vegetables boiling and meat broiling.

This electric range is a money-saver. It does its work so quickly and thoroughly that it makes quite a big saving in the electric bills. And it is always ready for work-never gives a moment's trouble. Ask your electrical dealer or write us for our little free book on elec-tric ranges. Moffats, Limited, Weston,

At least a third of all we eat should come from a certain class of food elements called carbohydrates. They are very essential to proper nourishment. We must have them.

Grape-Nuts is an excellent source of the carbohydrates. The whole wheat and malted barley from which it is made give it a vast store of these energizing elements. Twenty-two hours of slow baking make the carbohydrates ready for instant assimilation in the most easily digested form.

Have the zest for living and the power to work. Eat right. Eat Grape-Nuts often. It is supremely delicious. Serve with milk or cream at breakfast or lunch time. All grocers have it. Inter-League Competition Solves Southern—Inter-County Baseball Jumble

AMATEUR BASEBALL **OFFICIALS FINALLY ACHIEVE SOLUTION**

Will Use System Followed in Western Canada Hockey.

TWO PLAYOFFS

Go Over Final Details.

Special to The Advertiser. Hamilton, April 19 .- The sub-committee of the O. B. A. A. and delegates from practically every interested city n Western Ontario, called together by W. J. Snyder, president of the O. B. 1. A., to reach a settlement applicable to the situation in which the Intercounty and Southern Ontario leagues are involved, had a merry evening here Saturday, but they solved the difficulty, or at least made gigantic strides toward

solution that Stratford, London and St. Thomas, representing the Southern Ontario loop, play through a regular schedule with such teams as the Intercounty will have, viz., Brantford, Guelph, Preston, Galt, and as far as is known now, Kitchener. Each team will play one game at home and one away with every other team in the extended league. Total games will count in determining the winner of this series. Also the first and second Southern teams finishing will play off, and the first two teams of the Intercounty will do likewise. For instance, if Stratford and London finish second and fourth in the final standing of the double grouping, these teams will compete for the right to continue in the O. B. A. A. finals, and should Guelph and Freston or two other Intercounty teams finish at the top they will meet to decide which team will represent the Intercounty, regardless of what the three Southern Ontario teams may be doing. Kitchener. Each team will play one

Ontario teams may be doing.

Follows Western System.

The winners of the Southern play-off will meet the winners of the Intercounty half or the Kent league to fight for the right to continue further in the championship. This is after the system introduced into Western Canada hockey during the past season. It provides for a season grouping of all the teams without taking away the opportunity of having a winning team represent the two leagues under their respective under the system.

The alternative plan suggested would have all the feams placed into two have all the teams placed into two groups, A and B, and would have the winners of each section play off to de-cide the ultimate championship of the league.

However, the first plan will undoubt-

However, the first plan will undoubtedly be adopted. It was approved by every delegate and official at the meeting, and though another meeting has been called for Tuesday afternoon next at Galt, this will be mainly to go over the final details and will have no effect on the approved system as worked out here.

Trolley League Approved.
The settlement of this important question took the entire attention of the meeting and little else of important ance was attended to. The affiliation of the Trolley league was approved, and the Trolley league was approved, and the reports regarding the business done by the Southern Ontario league were found in favor. The meeting decided there was nothing to the reports from several districts regarding Stratford having any traffic with Brantford in the present trouble.

During the preliminary meeting of the O. B. A. A. executive, A. V. Hillmer of Oakville acted as chairman, but for the more important business. President Snyder occapied the chair. Those present were: "Joe" Walsh, Toronto; "Bill" Smith, Toronto; "Pat" Kennedy, Thomason, Linley, Riseski and Wings, Stocker, Collins and Wells; center, Clelland; Wings, Thomason, Linley, Riseski and Wings, Thomason, Linley, Riseski and Wings, Thomason, Linley, Riseski and Linecker.

Kitchener Uncertain.

Kitchener appears to be on the road to throwing up its berth. The officials claim only four open dates at their park and wanted to transfer their games away from home, but the other teams would not stand for it, refusing the entertain any idea of allowing an outside team to cut in on their home gates. Kitchener's withdrawal, if it goes through, will have no effect on the new plan of operation, however.

Regardless of the way they finish, the foremost teams will play off. Even if the Southern teams finish in the last three places in the double grouping they still have the opportunity to play a series to decide a winner to meet the teams

Harry Tolton, former president of the Kitchener club, gave it as his opinion in a recent street corner conservation with Knotty Lee that Kitchener ball club would not last. However, the genial Kitchener shirtmaker was always a jinx where baseball was concerned. When he used to play the games Kitchener appeared in here from the press box, the scribes used to wear masks and shinpads. Fouls that on other days soared to the side and over the top of the press box, winged their way right into the crow's nest whenever the Kitchener owner sat there.

A GOOD SOLUTION.

A good solution with a real kick was that concocted at Hamilton Saturday night. The Intercounty's chief objections are removed, and Stratford cannot have any real kick against the arrangement. It will do a great deal toward keeping interest at a high level in both leagues—this introduction of new teams and new faces.

It will incidentally be an aid in sending the best possible team against the Eastern winners, as it will stiffen competition among the more favored teams. With four strong teams eating each other up, there will be more chance for the supposedly weaker clubs to catch

EXPLODING THEORIES.

Zbyszko's unexpected win over Big Munn is an awful blow to the theory that higher education is beginning to dominate athletics, and incidentally to the Osler theory, which advocated that everybody ought to be chloroformed at 60. Chloroform is about the only remedy that will keep "Biscuits" from wrestling when he is 60, seeing that at an approximate age of 53, neither the higher education possessed by Munn and reinforced by Wather Time could keep the Pole from using his and reinforced by Father Time, could keep the Pole from using his mechanical and crude knowledge of wrestling to regain the title.

At various times there have been blights which have settled on wrestling, but never all over the continent at the same time. So the wrestlers keep moving and piling up more money in small but numerous purses than the prizefighters who get the headlines.

This applies only to the big wrestlers, though. After wrestling fell under almost actual dislike, it was only the heavies who were able to bring it by slow, tortuous and lean ways back into a scattered box office attraction. Areas where wrestling is popular are almost as clearly defined as state limits. Here in Canada, Montreal was for long the only place which took to the wrestling game, and even Montreal got fairly

Saturday's soccer program provided some interesting games, not one of the contests resulting in a runaway. Mayor Wenige and President Matt Morgan officially opened the season at the scale without doubt one of the cleanest and most scientific games, and should be well patronized, as every team was out to win. Referee Wilking then lined both teams up, the C. N. R.'s and caledonians of St. Thomas, and the mayor kicked off.

Considering the game was the first of the season, both teams put up a creditable display. The Rallroaders deserved their victory, and should have won by a larger margin, had they accepted the opportunities offered them, and had not Wright in goal been in his usual good form. The Caledonians put up a great defence, and, with the forwards combining better as the season to Bill Hazelwood, the Rallroaders' center, early in the second half. HOSPITAL 2 VETS 1.

The game at St. Thomas between the Westminster Hospital and United Vets was a splendid battle all through, and resulted in a 2—1 win for the Medicos. The Vets have got together a well-balanced team of young players, and will be heard to beat this season. The Vets met with a good defence in Burgess and McLay, the latter making his debut in senior company. The visitors returned the attack, and their inside forwards combined effectively to put in some nice combination, while. Baker, at centre half, was proving a rare stumbling block in the Vets' defence. The game had been in progress about twenty minutes, when Saunders of the Hospital team accepted a nice pass from Perryman, and, after beating the back, scored a fine goal. This reverse put the Vets on the offensive, and they tried hard to equalize, but found a sound defence in Burgess and McLay, both playing well. They were, however, not to be denied, and their center sent the ball out to the right wing, who took a short at roal the wind

By Clothes-Lines Special Sunshine Park, Florid-er-London Ont., April 18.-Mike Baker's collection of unassorted Mint leaguers distinguished themselves here this af-ternoon by staging the "farthest practice game recorded i professional baseball this season, and winning the six-inning combat, it is alleged, by a 6-2 count. Outside a little roughness of the diamond and outfield and the fact that there were no alligators to bother the outer gardeners nor real estate signs, the scene looked like Florida, listened before the recent exodus of the major leaguers for northern parts. A hot sun beat down on 100 or more fans gathered in the stands and made them shed over coats before the first inning was over. Some of the more hardy and heavier-flanneled gentry moulted to shirt aleeves by the time the fourth inning rolled around, and all the at-mosphere lacked was the cry of the peanut and pop vendors.

Droedge and Glass were the two hurlers, who worked out against their teammates, while Schoof and Dyer were worked against the simon pures. None of the pitchers toiled too seriously, and when they showed signs of bearing down too hard they were warned to unload by the Mity Mite. Every one of the quartet showed nice pitching style and a nice showed nice pitching style and a fide early-season assortment. Droedge yielded seven hits during his three-inning stay on the hill, and Glass went scatheless for a pair of his frames, but sandwiches in between frames. but sandwiches in between was a flurry of four smacks, triples by Stimpson and Brower, a double by Arnott and a single by Pete Harris, the converted golfer. Grain Markets WINNIPEG

Canadian Press Destatch.

Winnipeg, April 18.—Characteristic of recent trading on the Winnipeg market, wheat prices today maintained a fluctuating tone, which resulted finally in a mild siump during the closing stages of the session. May delivery closing at \$1.53, a decline of 2% c. July suffered a more drastic downturn, dropping 4 to \$1.49%. October finished 3% c lower at \$1.29.

Trade volue was light, with offerings unusually sparse. On early trading the market was firmer, but weakness at Chicago later influenced a drop on the local market. Seaboard advices reported total sales of wheat in all positions at 550,000 bushels and approximately 1.400,000 bushels of rye.

The coarse grain markets were dull, although light trade was worked in cats and barley.

Greater interest was shown in the cash wheat market, with spreads unchanged to fractionally higher for the off grades, Cash oats were in excellent demand, all afferings being rapidly absorbed. The remaining coarse grain commodities were quiet.

Local Market Despite the abundance of produce he Saturday market, and the host buyers, sales were slow, and this fact. oupled with the strong winds and rain yesterday, resulted in inadequate of

ferings today.

A decline in price in regard to oats occurred this morning, when 6 loads were brought to the city, and sold at \$1.50 per cwt, 5c lower than last week. Ten loads of hay passed over the local weigh scales, and brought the usual quotation of \$10 to \$12 a ton, according to quality. There was practically no sale for the product.

No wheat was offered, but the price continues at \$1.40 per bushel. There is very little demand at the present time. Butter and eggs were steady at Sat rday's prices.

Live hogs were firm at \$12.25, while iressed hogs brought \$17.

Forest, April 19.—The dramatic club of St. James' Presbyteran church presented the three-act church presented the three-act church will presented the three-act comedy, "Facing the Music," in the storm which swept over Western of Misses Jean Ross, Kate McCahill, Jean McPherson, Nettie Patterson, and Messrs, Kenneth Marsh, Walter Middleton, Kenneth McKellar, William Manson and W. Herrold, under the direction of Miss McBean. During intermissions, Miss Jessie Steele sang a vocal solo and Mr. W. D. Smith gave a violn solo.

The cast was composed of Misses Jean Ross, Kate McCahill, Ontario during Saturday night and Sunday. The London weather bureau reported 1.14 inches of rainfall during the direction of Miss McBean. During intermissions, Miss Jessie Steele sang a vocal solo and Mr. W. D. Smith gave a violn solo.

Central Part of Province Covered Foot-Deep With White Blanket.

TRAFFIC DELAYED

Canadian Press Despatch Toronto, April 19.-Old Ontario suffered a relapse of winter over the week-end, and the central portions of the province had to dig themselves out of snow, in some place a foot deep. Not only was such a heavy fall unusual so late in the season, but it followed on the heels of an electrical storm, the most severe so far this spring, which was accompanied by torrents or rain.

Saturday had been fair with a cool wind blowing much the same as the preceding days, but about midnight a rainstorm swept across the proy-ince with thunder and lightning. Soon the weather turned colder. The ain changed to hail and later to snow in places falling so deep as to block the country roads. Belleville reports snow to a depth of 12 to 15 inches, beginning to fall shortly after 2 a.m. and continuing until late this after-noon. It tied up traffic in all parts

Lindsay had 11 inches of snow. which made it necessary to shovel a road to the cemetery for two funerals.

Midland, snow and lightning came together. The farmers with maple groves expect that the sugar season, which was practically over, will have a new start, although in most cases the snow was melting quite rapidly, until darkness set in. Toronto had a few inches of snow, but while it caused considerable dis-

comfort, it did not interfere with traffic to any marked extent. Kingston had its milk supply held up for a few hours, but otherwise the unexpected visitor did not damage

Claim Queen's Park Officials See Danger in Original Proposal.

Canadian Press Despatch. Toronto, April 18 .- News has leaked out of Queen's Park that the bar and the brass rail may still form part of the equipment associated with the dispensing of the government's new beer, which will be on sale in a few weeks. Official announcement was made while the Legislature was in session that customers would be served only at tables, and that bars were a thing of the past.

It is now shown that many hotels are lacking in table space, and also that tables would encourage persons to loiter, which, it is said, would not be in the best interest, either of the hotel or the customer.

Regulations governing the sale, the collection of the tax on beer are now being framed.

CHAIN OF CANNERIES TO BE BUILT IN DISTRICT

Factories With \$1,000,000 Annual Turnover to Have

Head Office Here. A chain of canning factories with an annual turnover of more than & million dolfars will soon be established in Western, Ontario, according to Frank E. Williams, president of

the Williams Canning company, with head of offices in London. The first of the string of plants will

be built at Port Stanley, while present plans call for an early start on a factory at Strathroy, where a site has already been secured. has already been secured.

Mr. Williams announced that this spring will see the completion of the Port Stanley unit. The estimated cost is \$25,000 and fifty people will

be employed at the peak of the sea-Expansion plans will be discussed at a meeting of the company directors to be held here probably within the next two weeks. Company offi-cials feel the prevalent business revival justifies the erection of more plants in Western Ontario and point out that the development of the fruit industry in the Port Stanley district augurs well for an improvement in

conditions along the lake shore. An increase in the freight business of the London and Port Stanley railway is seen when the lakeside plant is in

DISREGARD OF LAW EVIL, SAYS MINISTER

Rev. James McCrae Preaches in First Presbyterian Church.

The root of theunrest and devil in the world today is found largely in the decaying respect for authority, was brought out by the Rev. James McCrae who occpied the pulpit at First Presbyterian church last

The Rev. James McCrae is the son of the late Rev. D. L. McCrae, beloved London minister who passed away a short time ago. He delivered a stirring sermon on the subject of "The Mastery of Christ."

Taking his text from John xiil 13, he quoted the great historian Ferraro of Italy who blamed the present un-rest to lack of respect for authority. The time was coming when the truth of the statement would be realized; when people would cry out for mastery, he asserted. Child energies had to be controlled by more mature intelligence. A grown man might be led astray by his enthusiasm to the loss of his better judgement, except his enthusiasms be controlled by a

higher power.
"We speak of science as having mastered nature, but unless the discoveries of science can be controlled by spiritual forces to serve the highest ends of humanity they must be not a blessing but a bane," he said. The prodigal son craved absolute freedom had reduced him to penury freedom had reduced him to penury did he return to demand mastering of his father. Jesus Christ claimed a mastery over, first, the religious thinking of the people; secondly, over their moral conduct; thirdly, over

their religious practice.
"When people who today stand outside our church to criticize the shortcomings of professed Christians, while they in cowardice shirk the profession, when they will muster the courage they lack and undertake the unselfish asceticism which the submission to Christ's mastery demands, then we shall turn the world upside down for good, decuared Rev. The accident occurred on Queen street at 3:30 a.m. today. Glover was proceeding north along Queen street, when the auto struck the wazon in the rear. The force of the impact pushed the wrecked wazon, its occupant and the horse some 50 feet over the pavement. The cross-and and with a white turban of the victime, chanced to be on Gray street at the time. He was the first to go his brother's assistance. Glover was buried under the wreckage, and great difficulty was experienced in extricating him.

Dr. J. W. Rutherford was summoned, and gound Glover to be suffering from a compound fracture of his left leg. fractured ribs and badly bruised. The horse was injured and may have to be destroyed.
