OUR STREETS

Thos. Martin, of the firm of Martin & Sons, bakers, gets over a good deal of this city during the daytime and he probably knows as much about the streets as anyone, because he has to drive over them. The bad holes are Wellington St., between Prince and Princess Sts., and St. below the convent. On Wellington St., Mr. Martin says that he could lay his horse down in one of the holes, cover the animal over with earth and no one could tell that the horse was there. "I guess the aldermen aren't running yet," concluded Mr. Martin, "because they have not been over the river to clean the pavement yet."

WOMEN'S SHOW BREEDS DISCORD

New York Ladies are in a Big Row Over Their Great Exhibition.

Naughty Features Lead Prominent Leader to go out on Strike.

New York, October 16.—The San says: Mrs. A. M. Palmer, honorary president of the Professional Woman's League, which is conducting the women's exhibition now going on at the Madison Square Garden, has resigned, because, she says, the Streets of Venice exhibit is a "mere Midway."

The members of the league became so worked up over Mrs. Palmer's denunciation of the Streets of Venice that they called a special meeting. It was expected that there would be some discord.

Mrs. Edwin Knowles, the president, did not attend the meeting and the chair was taken by "Aunt Louisa" Eldridge. Mrs. E. L. Fernandez announced that the theatrical managers were so pleased with the manner the fair had been arranged that they wanted the P. W. L. to manage their collection, except the show at the Metropolitan opera house. That alone, she said, was vindication enough of all that the league had done to make the fair a success.

Seeing that the sentiment of the meeting was against her and that she was all alone in her side of the argument, Mrs. Palmer rose from her seat and walked majestically down the aisle and laid something on the president's desk.

"There, now," she said, and immediately turned on her heel and left the room.

The meeting, headed by Mrs. Fernandez, rushed in a body to the president's desk, where they saw Mrs. Palmer's badge and realized that she had resigned.

TRIPLE MURDER

Archie Woodin Kills His Own Babe and Wife's Parents—Bloody Tragedy.

Mt. Pleasant, Mich., October 16.—The bloodiest tragedy ever recorded in the history of Isabella county took place on the farm of Joseph Gulick, five miles west of this city, this morning.

Archie Woodin, in a fit of jealous rage, killed his father-in-law, mother-in-law, and his own child, and attempted to kill himself.

Some time ago Woodin and his wife had some words and he struck her. She once left him and went to the home of her parents. Previous to this she had threatened to leave him and go to work.

This morning Woodin went to the home of his wife's parents with the intention of taking her or the child away, and got into an altercation with the old man. The accused Gulick, claiming that they were shooting on his land, followed. Woodin is then supposed to have shot his father-in-law. In his frenzy he attacked Mrs. Gulick with a knife, cutting her throat and wound up her neck, and by killing the babe and attempting to take his own life.

All were prosperous farmers and the affair has created intense excitement in the neighborhood. Sheriff Ellis has gone to the scene of the crime.

CASE SETTLED

An information was laid against Joseph Martin and Edos Chaff, charging them with poaching on the preserve of the Big Point Club. The information was laid by Joseph R. Randall, caretaker. Martin and Chaff claimed that they were shooting on the concession and some of the ducks they shot dropped on Big Point preserve. They also claimed that the Big Point Club had cut the rushes along where they had the right to shoot. Martin and Chaff settled the charge against them by each paying a dollar and costs, \$5.11 in all.

The case was to have been tried on Monday, and Mr. Forgoan was out all day yesterday in Dover west serving summonses. J. G. Kerr appeared for the club.

MITCHELL'S MANLY MESSAGE ACCEPTING THE COMMISSION

Some of the Miners are Said to Have Instructed Delegates to Reject Operators' Proposition—District President Nichols Confident that Convention Will Accept.

Scranton, Pa., Oct. 17.—Reports were circulated to-night that the locals of the United Mine Workers in West Scranton, Pittston, and some other coal localities had voted to instruct their delegates to oppose the acceptance of the operators' proposition unless the companies would agree to discharge the non-union men, take back all the old employees, drop the suits instituted against strikers and recognize the union. It was impossible to verify these reports, but they are persistently and generally circulated.

A MISCHIEVOUS REPORT.

A significant fact in this connection was the concern of District President Nichols to-day over a published report that he was at the head of a movement to oppose the acceptance of the proposition. "This report," said Mr. Nichols this evening, "is doing no end of mischief. It has caused our men to view the proposition with suspicion, and when they suspected it they commenced to look for the flaws which they supposed I had found in it. I have heard of locals in different places being disposed to oppose against the proposition, and I must admit it is causing some worry at headquarters. I am satisfied, however, that the convention will accept the proposition. I want it stated that the report that I am opposed to the commission is absolutely false, and without foundation. I have been in favor of it from the very first, and the vote of the district officers recommending its acceptance to the commission was unanimous."

"Will the leaders of the United Mine Workers give the members any advice or instructions regarding the proposition?" asked Mr. Nichols.

"I do not think so," replied Mr. Nichols. "I do not see that we are called upon to ask our men to take these fellows to task. They are not doing as they would a dear friend. In 1900 I advised that the non-unionists be treated in a friendly manner with a view of winning them over. I do not propose to do it again. As the men who continued to work at their own jobs is concerned, I have nothing to say. As for those who went into the mines and took other workmen's places, I am of the opinion they are not worth winning to our side. I do not think we want them."

CHOOSING DELEGATES.

Wilkes-Barre, Pa., Oct. 17.—In accordance with the call issued yesterday by order of the executive boards of the anthracite districts of the Miners' Union, "all locals" throughout the coal fields began electing delegates to-day to the convention which will be held here next Monday, to consider the acceptance or rejection of the arbitration plan submitted by President Roosevelt. Most of the prominent officials of the union are to-night. It is practically certain that a majority of the delegates will come to the convention instructed to vote in favor of the arbitration scheme. District officials of the union say there is fear opposition will be strong enough to defeat the efforts of those who favor ending the strike by arbitrating their differences with the operators. Mitchell does not care to anticipate the action of the convention, but from his manner it is taken that he has not the slightest doubt as to the result. He will go into the convention and make a strong speech for the acceptance of the arbitration scheme. The indications are that the convention will last two days and that there will be much debate on various features of the arbitration plan. The conditions at some of the collieries are different from those existing at other places. The principal question to be discussed before the plan is accepted by the miners will be that of taking care of all the men. The conditions of the mines are such that all the men cannot be given work immediately, and some will have to wait for weeks before the companies can take care of them. The operators will not dismiss a non-union man in order to give employment to a returning striker. It is understood the union will take care of all men who are out of work. This will be done by drawing funds from the relief fund, which is said to be growing. The district presidents and other district officers have returned to their homes for the purpose of assisting in the election of the delegates.

PREPARING TO RESUME.

The coal companies will do all in their power to meet the public demand for coal. Preparations for resuming as soon as the miners call the strike off are going on apace. It is estimated that 25 percent of the collieries will be in operation on the first day after the settlement is over.

ROOSEVELT-MITCHELL.

Washington, Oct. 17.—The latest correspondence between President Roosevelt and John Mitchell, president of the United Mine Workers, was made public at the White House to-day. It consists first, of the following telegram from President Roosevelt to Mr. Mitchell, dated Washington, Oct. 15:—

"I have appointed as commissioners Brigadier-General John M. Wilson, Mr. E. W. Parker, Judge George Grey, Mr. E. L. Clark, Mr. Thomas Watkins and Bishop John A. Spalding, with Hon. Carroll D. Wright as recorder. These names are accepted by the operators, and I now most earnestly ask and urge that the miners likewise accept this commission. It is a matter of vital concern to our people, and especially to those in our great cities who are kept well off, that the mining of coal should be resumed without a day's unnecessary delay."

Mr. Mitchell answered this from Wilkes-Barre, Pa., under date of Oct. 16. After acknowledging the President's communication, he said:—"Replying thereto, I beg to inform you that your recommendations were submitted to the members of the executive board of districts one, seven and nine, United Mine Workers of America, and they have unanimously agreed to call a delegates convention to be held next Monday, and will recommend to the convention that all men now out on strike return to the positions and working places formerly occupied by them, and submit to the commission appointed by you all questions at issue between the operators and mine workers of the anthracite coal fields. In connection with this subject we are glad to know that the managers of the coal companies have decided to recede from the untenable position which they so long occupied, and to accept a modified proposition for the arbitration of the coal strike, and to give you full latitude in the selection of a commission. It will be remembered that we proposed, on Oct. 3rd, to place the whole matter in the hands of a tribunal composed of representatives of your own selection. It will also be remembered that the company managers at that time refused to accept the arbitration of the President, and that the strike was continued. In their refusal to accept your arbitration, the operators sought to hold you in part, accountable for the very conditions which you were trying to remedy, and to instruct you as to your duties concerning them. Eight days later they again appeared before you, dropping the common pleas judges, and proposing to arbitrate by a tribunal appointed by you, but attempting to prescribe within fixed and narrow limits the character and vocation of the men you were to choose. To this proposition, as the operators made it, we were unalterably opposed. First, because our respect for you as a man, and our ideas as to what is due to the dignity of your office, forbid that we should not be a party to a request of you to accept this great responsibility accompanied by detailed and impertinent restriction to the manner in which you should manage it. Second, because careful analysis of their proposition disclosed to us, as it did to you and the public, that the restrictions were too narrow to enable you to secure under them a well balanced and thoroughly impartial tribunal. But now that you have yourself removed these objections by broadening and strengthening the commission, we feel confident that our consent will declare its willingness to have all questions between the employing companies and the 95 per cent. of their employees who are members of our union determined by the board of eminent and impartial men chosen by you. We feel grateful to you, Mr. President, for the patriotic efforts which you have made to bring about the honorable settlement of the strike—efforts which you continued despite the remarkable spirit and conduct which you at first found in the coal companies. We were in a position to sympathize with you, inasmuch as we had long been forced to endure arrogance, insult and false witness from the same source. Our gratitude is due to you and to the American people and the press who have supported you and us in the long struggle which we hope is now about to close. During all these long months, which our motives have been impugned and our characters maliciously assailed, we have refrained from saying any word or taking any action which would tend to render reconciliation more difficult, but now it becomes a duty to defend ourselves against the slanders which have been heaped upon us and to proclaim that we have from the first favored reconciliation, and that we have offered arbitration, but we have invariably been met with the reply: 'We will not permit outsiders to dictate to us in the management of our affairs. We have nothing to arbitrate.' Now that the managers of the companies have been compelled by you and a thoroughly aroused public conscience to recede from this position, we are proud that the firmness and the heroic endurance of our men and women in support of their rights and of a vital principle have won

the victory. The poor underpaid mine workers of these coal regions, who toil hard from early morning until late at night for a livelihood, nobly supported by organized labor in this and other lands, have fought these corporation managers, useful lessons in civic and social duty. We exult over this tribute to the dignity of labor, because it is the triumph of right and of good public policy. We are, however, exult over our opponents; we appeal to them now, as we have from the first, to turn their eyes to the future and to co-operate with us in an effort to establish better relations between employer and employee for the advantage of both."

Mr. Mitchell then defends the united miners from the charge of lawlessness and criminality during the strike, falsely attributed to them, he says, by the operators; himself applies similar charges to the coal and iron police; declares that the action of the operators in seeking a settlement of the strike through President Roosevelt is a recognition of the Miners' Union, despite the operators' previous declaration that they would have nothing to do with the union; and sets forth at length the objects for which the miners' organization has striven since its inception.

ATTEMPTED DYNAMITE.

A box of explosives, containing ten links of giant powder, two sticks of gunpowder, two sticks of dynamite and a partly burned fuse, was found in a recently vacated house owned by a non-union man at Grassy Island, near the 13th Regiment camp, last night. A defective fuse prevented an explosion, which would have demolished the building.

WEDDED IN DETROIT

Frank Richard, of Geo. Stephens & Co., has returned from a trip to Michigan, where he attended the wedding of his brother James to Miss Emeline Consensus, of Detroit. Mr. James Richard studied the drug business with Mr. Davis, of this city, and now has a store in Wyandotte, Michigan. The wedding ceremony took place in St. Joseph church, Detroit, Father Richard of Belle River, brother of the groom, officiating. Miss Consensus belonged to the Sodality of the Virgin Mary, and the marriage was celebrated with all the ceremonies of the Order. Mr. F. Richard acted as best man, and the bride was supported by Miss Katherine Niebergall, of Windsor.

FUSILIERS' NEW COLORS.

Windsor, Oct. 17.—Thanksgiving day in Windsor closed last night with a band concert and hop in the armories, given under the auspices of the Daughters of the Regiment. The roof was decorated with red white and blue bunting, white the spiral iron stair cases leading up to the gallery were crisscrossed with dark blue. Opposite the gallery, against the wall, was erected a stand for the band and vocalists. Over 600 people were present.

In the afternoon the Daughters of the Regiment presented new colors to the Twenty-first. The presentation was made on Ouellette square and the ceremony was witnessed by a large crowd, among them many officers and soldiers from Fort Wayne. Before the presentation, the colors were trooped, a spectacle that received enthusiastic applause. Chaplain Tolmie consecrated the new colors and Col. Guilford made the presentation address. Col. Bartlett responded. Over 6,000 people were present.

DEBATING SOCIETY

The regular fortnightly meeting of this society was held in the assembly hall on Friday afternoon at three o'clock. R. M. Campbell, President, in the chair. A recitation by Alex. Ilman, and a vocal solo by Miss Rose Sheldon, were well received. The debate was on the much vexed question as to the relative merits of Napoleon and Caesar as generals. F. C. White and George Shreve, supported the affirmative (Napoleon), while Misses Edna Stripp and Lena Bullis championed Caesar. The decision was given in favor of Napoleon. Mr. Wilson Taylor acted as critic. The first number of the C. I. Star Course, under the auspices of the Literary and Musical Society, will be given on November 5th.

PROHIB. MEET.

A meeting of the prohibitionists was held in the Victoria avenue Methodist church last Thursday evening. A very large crowd was present. City President Westman made an excellent speech and gave some forcible illustrations of the ravages of the liquor traffic. Rev. Mr. Cobbedick, Rev. Mr. George and County President Parrott also gave encouraging speeches.

"We had a good meeting," said Mr. Parrott this morning, "and much enthusiasm and support was shown by these prospects. The prospects for this campaign could not look brighter. Personally, I have talked with many people in the city who have never supported us before and this time they intend to vote with us."

A convention of the Kent County Temperance Association has been called for a week from next Tuesday in the I. O. O. F. Auditorium, commencing at ten o'clock in the morning. This meeting is called for the purpose of completing the organization.

CYCLISTS MEET.

A meeting of the cyclists was held in the office of S. B. Arnold last evening. The meeting was well attended, a representative gathering of merchants and mechanics being present. The question of wheeling on the sidewalk was discussed and it was decided to make inquiry from other cities as to what privileges are given cyclists in other places. The cyclists are willing to accept any restrictions that will permit them to ride the sidewalks. They are quite willing to pay a license for the privilege. It was decided to circulate a petition and then memorialize the Council.

SIR WILFRED'S HOME COMING

The Premier was Given a Most Hearty Welcome by the People of Quebec.

An Address of Welcome, a Procession and Brilliant Illuminations in his Honor.

Quebec, Oct. 18.—The special train from Rimouski with Sir Wilfrid Laurier and party on board, reached St. Joseph de Lévis about 8.45 o'clock, where the train stopped to allow the Premier and those accompanying him to disembark, when they proceeded to the island boat wharf and took the steamer Druid, which brought them to the King's wharf. Thousands of people were assembled on the King's wharf and vicinity, and when Sir Wilfrid came ashore with his Cabinet ministers, who accompanied him, they were escorted to waiting carriages, and a procession formed, when the Premier was escorted through the principal streets of the city to the drill hall, where Sir Wilfrid was presented with an address of welcome on behalf of the citizens of Quebec, after which a display of fireworks took place from the large square in front of the drill hall, and Sir Wilfrid and his party were escorted to the Chateau Frontenac.

Preparations had been made on a large scale for the illuminations in honor of the returning Premier. The City Hall was one blaze of electric light, electrically lighted, and the French and English, surrounded by electric lights. The Parliament buildings, post office and other public buildings, as well as private houses, were decorated with illuminations at Lévis, the Island of Orleans and along the shores of the river were viewed from Dufferin Terrace. The words "Welcome Home," in large letters, lighted by electricity, were located on the Lévis heights, and at other points of vantage, such as the Island of Orleans, St. Joseph's Isle. Large bonfires welcomed the Premier, while the new I. C. E. station at Lévis was brilliantly lighted up by electricity and elaborately decorated with festoons, mottoes, etc.

DODGING IT

Civic Finance Committee Postponed the Day of Dealing With Library Board.

A special committee of the Library Board, composed of Chairman J. U. Thibodeau, Albert Sheldrick and Thos. Scullard, met the civic finance committee in Harrison Hall yesterday afternoon for the purpose of deciding whether or not the city would guarantee a maintenance of \$1,800, instead of \$1,500, as formerly decided, for the library. The finance committee president was Chairman McGoig, Ald. Thomson and Ald. Cowan.

Ald. Thomson thought the Library Board was to blame in the matter in not putting up the building according to their means.

Mr. Scullard explained that the building was costing more than had been anticipated; but if the City Council does not care to guarantee the amount we will have to look to our legal rights and get the money by deputation or otherwise. This is no threat but the city pays anyway.

The matter was discussed for some length and none of the aldermen seemed to want to take the responsibility of supporting the extra amount.

"Gentlemen, you have my sympathy," said Ald. Thomson.

"We need it," replied Mr. Scullard.

Ald. Cowan thought nothing should be said about it until the end of the year, as the money would not be needed until the spring.

"And let the new Council deal with the matter," added Mr. Thomson.

It was agreed between the two bodies that the matter be held in abeyance.

F. Marx was heard in behalf of Geo. Schoenheit in regard to a ravage in taxes amounting to \$30. The claim was allowed.

Re Chatham Bladder Twine Co.—The members of the Old Board of Directors as shareholders and not as directors have made a contra proposition of settling all litigation now pending in the courts, and all proceedings are in the meantime stayed, until a meeting of the Board of Directors considers the proposition. The members of the Board have been notified that a meeting will be held at the company's office on Monday next at 10 o'clock to consider the proposed offer of settlement.

SATURDAY, OCTOBER 18.

THANKSGIVING DAY.

Thanksgiving Day is a day of Nature, comments the St. Thomas Times. It is essentially a national and a natural holiday, without regard to political, religious or social lines. It is a day of thanksgiving for the year's blessings, and all the ills of the year are to be forgotten in acknowledging the mercies of providence which all have enjoyed. It is fitting that we all should, for this one day, forget our ills and trials, remember our Creator's bounty, and give thanks to the Giver of all Good with joy and gratitude in our hearts. "God is glorified not by our groans, but by our thanksgiving," wrote Edwin P. Whipple, and Dr. Robert South says, "A truly pious mind receives a temporal blessing with gratitude, and a spiritual one with ecstasy and transport."

While doubtless there are many who think they have little to be thankful for, the great mass of the people, who make up the nation, must recognize that there is a great deal for which we should be grateful.

The year has been a specially favorable one for the British Empire. The disastrous war in South Africa has closed in a triumph of British arms, and it is to be hoped in the inauguration of a new regime in the dark continent, which will eventually in lasting benefit to the people there, and an addition to the strength of the Empire, and be a powerful impetus in the enlightenment of the world at large.

The British nation has a special cause of thanksgiving for the coronation of the King and Queen in the midst of peace, and for the fact that no political upheaval resulted. The King and Queen were crowned amid the acclamations of all the people, and not of a dominant section merely. The United Kingdom should be thankful that it is not at the mercy of a greedy coal trust, to the extent that the Americans are.

Canadians are in duty bound to give thanks for one of the most abundant harvests ever reaped, for the blessings of peace and for the general prosperity enjoyed by all classes. We have had some minor labor troubles of our own; but they have been adjusted without serious loss. All things considered, there are in this country perhaps, the most desirable conditions of life in the world. This Canada of ours can more appropriately than any other country sing with Whittier:

"Once more the liberal year laughs out
O'er richer stores than gems of gold;
"Once more, with harvest song and shout,
Is Nature's bloodless triumph told.
"Our common Mother rests and sings,
Like Ruth, among her garnered sheaves;
Her lap is full of goodly things,
Her brow is bright with autumn leaves."

"O favours, every year made new!
Of gifts with rain and sunshine sent!
The bounty overruns our due,
The fulness shames our discontent.
Then let those altars, wreathed with flowers,
And piled with fruits, awake again
Thanksgiving for the golden hours,
The early and the latter rain!"

Or we can adopt the words of Addison:
"If gratitude is due from man to man
How much more from man to his Maker.
The Supreme Being does not only confer upon us those bounties
which proceed immediately from His hand, but even those benefits which are conveyed to us by others.
Every blessing we enjoy, by what means soever it may be bestowed upon us, is the gift of Him who is the Author of all good, the Father of mercies."

Or we can say with Henry Ward Beecher:
"As flowers carry dew-drops, trembling on their petals, ready to fall at the first waft of wind, or brush of bird—so the heart should carry its dew-drops of Thanksgiving; and at

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications. It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alternative and tonic effect. M. J. McDonald, Trenton, Ont., writes: "I had catarrh, my system was weak, blood was bad, and my liver torpid and inactive. I tried many medicines without benefit until I began taking Hood's Sarsaparilla. This medicine has completely cured me and I highly recommend it to all sufferers."

Hood's Sarsaparilla
Promises to cure and keeps the promise. It is better not to put off treatment—buy Hood's today.

the first breath of Heavenly favor, let down the sower, perfumed with the heart's gratitude."

Truly Canadians have the grandest heritage under the sun, and if proper use is made of our opportunities and advantages; if we live toward each other as men and women should live, remembering that "a grateful thought towards Heaven is the most perfect prayer," our lot is indeed one to be thankful for.

A POLITICAL RUMOR.

Says the Ottawa Citizen:
It is reported on what appears to be good authority that as soon as Sir Wilfrid Laurier returns from England, the minister of the interior, Hon. Mr. Sifton, will place his resignation in the Premier's hands. Various reasons are advanced for this step, among others that Mr. Sifton has decided to go out of politics. On the other hand, it is stated that this course has been decided upon by Hon. Mr. Sifton as the representative of the free trade element in the Liberal party to force a declaration of policy on the tariff issue from the Premier, and to settle the question of the dominance in the Cabinet of Hon. J. Israel Tarte, the reputed "master of the administration." The acceptance or refusal to accept the proffered resignation will settle the moot point once for all.

The rate of mortality among aeronautes seems on the increase. The time when the public will adopt the overhead route is certainly a long way in the future.—Toronto Globe.

By the death of Sir John Bourinot Canada loses a very experienced official, and one profoundly versed in Parliamentary lore. Sir John, like Alpheus Todd, wrote perhaps rather too much under the shadow of Government House. He resembled Todd also in not having drunk deep of the spring of political science and history, so that he was rather a minister of rules and precedents than of principles. But of rules and precedents he was a consummate master, and in that province, he will not be easily replaced.—Goldwin Smith, in Toronto Sun.

A special meeting of the Ladies Aid Society of Park street Methodist church will be held on Monday afternoon, October 20th, at half past three o'clock. A full attendance is requested.

Authentic figures show that the pay of a miner for mining a ton of coal in 72-1-4 cents, and that the ton very often has to consist of much more than that because of faulty measurement. The remuneration is certainly altogether too small.—Brantford Courier.

The announcement that the writs are to be issued for the Ross "referendum," will remind Ontario that the Prohibitors are booked to vote against the census returns sometime soon now. It will also remind "the workers" that a lot of deputations will be allotted presently.—Montreal Star.

Memphis Commercial Appeal.
The people of the north should remember that freezing to death is a small matter compared with the "principle involved." The principle involved is whether the coal trust shall admit the existence of the miners' union.

AN ABLE LEADER.
Ohio State Journal.

President Mitchell, of the United Mine Workers, has done more by his recent bearing for the cause of labor than perhaps any man in history. Calm, dignified, reasonable and opposed to violence, he stands in beautiful relief against the background of coal barons showing the iron hoof of unreasonable capital. And he also stands centuries in advance of Debs.

CRUELTY TO MARIE CORELLI.
Chicago Inter Ocean.

The average reader of Marie Corelli perhaps does not remember the delightful remarks which she makes in her novels about the press, and particularly about the society columns of the press, and how bitterly she assails the "snobs who seek the notice of the press."

However, the editor of the Gentlewoman (published in England) remembers them. Every expression of contempt for the newspapers and newspaper notoriety and newspaper "snobs" that Marie Corelli has written has been treasured by that person with the conviction that some day or other, sooner or later, the collection might serve a good purpose.

And sure enough, Marie Corelli, with Lady Byron as her guest, attended the Broomfield gathering in the royal enclosure recently. It is part of the business of the Gentlewoman to make special mention of such affairs as this, and the Gentlewoman did not neglect its duty. However, in mentioning those present it named Lady Byron as one of the most distinguished and omitted all mention of Marie Corelli.

Whereupon the authoress, who despises the press and loathes newspaper notoriety and entertains no thought but contempt for the "snob" who seeks it, or tolerates it, writes to the Gentlewoman complaining of the omission, and, after reciting the circumstances, says: "I can only conclude that my name was purposely omitted."

Cook's Cotton Root Compound.
Ladies' Favorite.

Is the only safe, reliable regulator on which women can depend. "In the hour and time of need."
Prepared in two degrees of strength. No. 1 and No. 2.
No. 1.—For ordinary cases is by far the best dollar medicine known.
No. 2.—For special cases—10 degrees stronger—three dollars per box.

Ladies—ask your druggist for Cook's Cotton Root Compound. Take no other as all pills, mixtures and imitations are dangerous. No. 1 and No. 2 are sold and recommended by all druggists in the Dominion of Canada. Mailed to any address on receipt of price and four-cent postage stamps.

The Cook Company, Windsor, Ont.
No. 1 and No. 2, are sold in Chatham by C. H. Gunn, & Co., Central Drug Store.

Gentlewoman frankly pleads guilty, but with the explanation that the omission was "in deference to Miss Corelli's expressed opinion of newspaper puffery." Her letter of protest, however, proves to the editor that she has been misunderstood, and that mention of her name as that of one who was among those present would have gratified her. The editor can plead only some little excuse for the mistake because of the apparent sincerity of Miss Corelli's letters and writings on the subject of "snobs" and newspapers, and so explains that "logical consistency compels him to believe that Miss Corelli, in marking her letter 'private and confidential,' only meant a request for publicity."

Although the editor of the Gentlewoman assumes the masculine gender here, yet a doubt must be allowed to linger. It does not seem possible that a man could be so cruel to a woman as the editor of the Gentlewoman is to Miss Corelli.

BE READY.

When the train you wish to board comes roaring through
Be ready;
Not a precious second will it wait while you
Wish to hurry back to see
If perhaps there still may be
Some little thing which you forgot to do.

Be ready.

When she sweetly looks at you and sighs
Be ready;
Some one else may hover near, prepared to say
The word that you in fear
Hesitate to let her hear
Love is often lost when it is turned away.

Be ready.

Opportunity will some day ring your bell,
Be ready;
She will not inquire if you are ill or well,
She will not stand waiting there
While you hasten to prepare,
She must hurry to where anxious others dwell.

Be ready.

A messenger will summon you some day,
Be ready;
He will not withdraw, implore him as you may;
He will not consent to wait
While you pray to God, too late,
To let you clear mistakes away—

Be ready.

A COMFORT AND A CARE

If Your Home is Blessed With a Baby You will Appreciate This.

A baby is a priceless comfort, but in its utter helplessness is also a great care. Anything that will relieve the tired mother and add to baby's health and happiness is both a help and a friend. This is what makes the statement of Mrs. Thos. Little, of Kingston, Ont., so interesting to all mothers. She says: "When my baby was eighteen months old he was troubled with a sour stomach and was badly constipated. These troubles made him cross and restless, and I had to be up with him a number of times during the night. I finally got a box of Baby's Own Tablets, and after giving them to him for a few days his bowels became regular, his stomach was sweetened and he slept well. I think these Tablets are just what mothers need for their little ones." Baby's Own Tablets are the best and most convenient form for administering medicine to the very young. They are safe and harmless and free from opiates. Sent post paid on receipt of price, 25 cents per box, by the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y. A book on the care of infants and children sent free on request. Write for it.

AN ANXIOUS TIME FOR NEURALGIC SUFFERERS

Paine's Celery Compound

The Only Medicine That Successfully Cures This Terrible Nervous Disorder.

Experienced physicians know well that the variable weather of this autumn month decides the fate of thousands in ill health. At the present time, men and women are falling around us like leaves before the chilling north winds.

Amongst the diseases prevalent at this time, terrible neuralgia with its sharp, lacerating and darting pains is doing its intolerable work. The winds, damp air and sudden changes in temperature, favor this pain-racking disease. The best physicians of all schools admit that Paine's Celery Compound is the only known specific for the cure of neuralgia. If you are suffering the tortments of this horrible nerve disease, we counsel you to give Paine's Celery Compound an immediate trial. It has permanently cured others; it will, without fail, meet your case. Mrs. F. McManis, Toronto, Ont., says:

"Ten years ago I was attacked with neuralgia, and thought treated by six doctors, the disease grew worse and I became utterly disheartened. One day my deliverance came. A lady who had suffered as I had, told me that Paine's Celery Compound had cured her. I used the compound, and it simply made a new woman of me. The pain vanished, I grew well, and I never felt happier in my life. All this is due to Paine's Celery Compound."

To persuade men not to gamble is to win money for them.

The greatest, the strongest, and, above all, the cleverest man is he who knows how to wait.

International Bible Lesson for Tomorrow—The Fall of Jericho—Jos. 6, 12-29.

Golden Text—"By faith the walls of Jericho fell down."

Some would have us believe that Israel crossed the Red Sea on a sand-bar, and that Jordan was dammed up for them by a landslide, and that Joshua having learned from Christ the use of gun-powder, had the walls of Jericho all mined ready to spring on the shout of Israel and make these divine miraculous interpositions only providential, natural occurrences, taking advantage of by wise leaders, like that prisoner amongst Indians, who, to save his life, threatened to destroy the sun, when he knew from his almanac, an eclipse was on. Such Satanic suggestions imply the people were deceived by their leaders into a belief of the miraculous when there was no miracle. Jericho, a strongly fortified border city, with houses built into its thick walls, was overthrown—not by the power of man—but by the power of God, who gave the city into their hands as they in faith and obedience followed His directions, which were precise and minute. Their obedience had to be as exact in every particular. After that awful silence what an awful war whoop! Israel's faith triumphed from the start, because they knew that they were obeying God and trusted Him to fulfill His word. By faith (in Israel's God) Rahab the harlot perished, not with the unbelievers, she received the spies from whom she got the promise of the scarlet line, the symbol of salvation. Joshua's faith for Ai was frustrated by Achan's sin of covetousness. What sin prevents the victory for His people now?

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clinging to the mother's arms with no desire to walk or play.

Mothers should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

FROM NEWFOUNDLAND

The Island by the Sea Sends Grateful Testimony for Dodd's Dyspepsia Tablets.

No medicine for Stomach Trouble has ever been favored with so many hearty and voluntary letters of recommendation as Dodd's Dyspepsia Tablets.

These unqualified testimonies come from the people in all walks of life and in all parts of the world.

No evidence which might be offered could be more satisfactory and convincing. Men and women who have been sick and suffering for years have been cured and restored to perfect good health and in their gratitude write such hearty words as those of Mrs. John F. Sillars, of Western Bay, Newfoundland, who says:

"It gives me great pleasure to be able to say that I have been cured of Dyspepsia by the use of Dodd's Dyspepsia Tablets."

"For several years I suffered. I could not eat anything without suffering intense agony afterwards. I had tried everything I could think of but could get nothing to help me and had given myself up to die before I began the use of this remedy."

"Doctors had failed to do anything for me and there did not seem to be any help or relief."

"An advertisement in some paper drew my attention to Dodd's Dyspepsia Tablets and I began to use them about eighteen months ago."

"From the first I felt relief and now, after the use of five boxes, I am well and strong, and a new woman."

"To say that I am grateful only feebly expresses what I feel. I feel that I will always recommend Dodd's Dyspepsia Tablets as a cure for Dyspepsia."

Such letters as the above have been the means of convincing many doubtful ones that there is a sure cure for Dyspepsia and all forms of Stomach Trouble. Those who are now suffering should be guided by the happy experience of Mrs. Sillars.

He was survived by a wife, a daughter, Mrs. John Depew, Detroit, and a daughter-in-law, Mrs. John Marcus. —Glencoe Transcript.

ALLUDIN' TO MOSE!

There are absent minded people in every locality, but the Chatham man is the worst. He is so absent minded that he will go to a limb and then cut it between himself and the tree he is entitled to the pennant. —Blenheim Tribune.

NIGHTFALL

Slowly, by thy hand unfurled,
Down around the weary world,
Falls the darkness; oh, how still
Is the working of thy will!

Mighty Maker, here am I,
Work in me as silently;
Vell the day's distracting sights;
Show me heaven's eternal lights.

From the darkened sky come forth
Countless stars, a wonder-world
So many gleams of glory start
From this dim abyss, my heart.

Living worlds to view be brought
In the boundless realms of thought;
High and infinite desires,
Flaming like those upper fires!

Holy Truth, eternal Right—
Let them break upon my sight;
Let them shine serenely still,
And with light my being fill.

Thou who dwellest there, I know,
Dwellest here within me, too;
May the perfect love of God
Here, as there, be shed abroad.

Let my soul be attuned
To the heavenly harmony,
Which, beyond the poor of sound,
Fills the universe around.

FOOTBALL

Jack Stevens, of the Wallaceburg football team, was in the city to-day and drove to Darrell this afternoon to arrange a postponement of the game which was to have been played there today.

The Wallaceburg team are not in the best of condition after the game with Chatham on Thanksgiving Day and wished their game with Darrell put off until next Tuesday. The Darrell boys, however, have gone to considerable expense in advertising the game and a great many of their patrons will have to be disappointed. They asked the Wallaceburg boys to either pay them \$25 to cover this expense or to forfeit the game. It seems likely that the game will be forfeited.

FROM THE CAPITAL

Geoffrey O'Hara arrived in the city to-day and was warmly greeted by all his old Maple City friends. Geoffrey was given six months leave of absence from the bank, and he spent his long vacation with his brother Walter, who had a party surveying all summer in the Roseland country. Mr. O'Hara says that he had a good time, but it is hard sometimes to be so far away from civilization. There were 15 in their party and they had loads of hard work. Their horses were coached by a red skin policeman. The Indians have a species of hold-up which they work with some success. They will run off the horses of a surveying party during the night and hide the animals. Four days afterwards the Indians will 'roll in' camp and offer to find the horses at \$10 a head. They generally get it.

Mr. O'Hara will return to Ottawa in a few days and resume his duties at the bank.

ASSISTING SOCIETY

The Ladies Assisting society of the Hinds' Methodist church, had a most successful chicken pie social and concert, Wednesday evening, October 15. The demand for chicken pie was very sufficiently supplied, and it is said that there are very few chickens left in Dover. The supper was followed by one of the best entertainments ever given. A. Dwyer and the affair was exceedingly well managed. The ladies deserve a great deal of praise for their excellent work. Over two hundred were present. The chair was very acceptably filled by Fred Stone, of Chatham.

The following program was rendered—
Chairman's address—Mr. Fred Stone.

Selection by French's orchestra.
Song—Arthur George.
Address—Rev. Mr. Neilly.
Selection—Orchestra.
Address—J. B. Kerr.
Selection—Quartette.

DEATH'S SUMMONS
After a long illness Mrs. James Johnston, Gladstone avenue, died at the Public General Hospital yesterday afternoon at 3 o'clock, at the age of 71. Two years ago she was stricken with paralysis, and seven months ago she was conveyed to St. Joseph's Hospital, and recently to the Public Hospital. For three or four weeks she has not been able to articulate a word, and for several days she had been unconscious. Besides her husband three daughters survive her—Mrs. Wm. Durham, Brantford, Minn., Mrs. L. D. Beach, of the same place, and Mrs. Fred Chanter, of Flint, Mich. The deceased was born in Glasgow, Scotland, but at eleven years of age accompanied her parents, Mr. and Mrs. Stephen Dunn, to Canada, the family settling in 1842 in Chatham township when that part and the most of Kent was a dense wilderness. Mr. Dunn hewed out a home on the 7th concession. She was married fifty years ago, her husband's family being also pioneers of the same district and concession. They lived in the township for 26 years and the remaining 24 years of their married life has been spent in the city.

The funeral will take place to-morrow afternoon at 2:30 from the family residence on Gladstone avenue, near Victoria avenue.

Deceased was a member of Victoria United Methodist Church and Rev. T. T. George, pastor, will conduct the funeral service.

MYSTERY IS CLEAR
Port Colborne, Ont., Oct. 17.—The strange disappearance of a young man named Edward Gore, of Port Colborne, has been cleared up by a letter received from his mother, who resides in Sault Ste. Marie, Mich. It was thought that the young man met with foul play, so suddenly did he drop out of sight.

Gore was going to be married to a Miss Guinter and the banns were published in the Catholic Church at Welland on two consecutive Sundays. Prior to the expected event, however, the young man took his prospective bride to Prescott to visit his mother, and on his return got off the train at Humberstone, continuing the journey on foot. But he never reached Port Colborne and in a few days his brother broke open his trunk. Ninety dollars were found, but no clue to the owner's whereabouts, and the impression gained ground that he had been done away with, until the mystery was cleared up a few days ago. The wedding is postponed indefinitely.

Walking Suits

Eminently practical, distinctly stylish and yet serve a splendid purpose for general wear. Skirts full of swing and style, are unlined and barely escape the ground, thus obviating the chief drawback of the former short "rainy day" costumes. AT \$10.00, of cheviot, black, gray or navy, jackets have the blouse effect or fitted, lined throughout with satins, strapped, stitched and trimmed with buttons, skirts trimmed to match jacket.

Practical Petticoats

Black Satens—the petticoats that so many women turn to as soon as white petticoat time is over—and its over now. These new lines are different from the last you bought, many new breeches that you'll like. The variety and moderate prices will appeal to you too.

AT \$1.00—Umbrella flounce, finished with three small ruffles with bias folds and cording above.
AT \$1.50—Deep knife plaiting, finished with narrow ruffle, lined through out.
AT \$2.00—Two side plaited flounces, finished with ruffles and cording.
AT \$2.75—Very fine Mercer Cloth, umbrella flounce, finished with 5 narrow ruffles and cording.

Talk Isn't All

We've been talking a lot about the perfect fitting qualities of our ready-to-wear clothing. But talk isn't all.

We are giving practical demonstration every day of the TRUTH of our talk. Men who haven't worn ready-to-wear clothes for years are buying from us this fall. It is a revelation to them to find in our garments all the good points which they have been paying custom tailors a lot of extra money for.

At present we have many exclusive patterns and our assortment is at its best. It's time for a man to buy who wants something different.

Our Tailor-made Suits and Overcoats are made by the most skillful men tailors in our country. In every detail they are finished with the greatest care. There is a style and character to the clothes that at once distinguishes them from the ordinary ready-made, the patterns are the choicest, the styles the most correct, the fabrics the most desirable that have been shown this season, the prices from

\$7.50 to \$15.00

The Boys' Store

Has always led the way in style, in quality, in price, the "three graces" of boys' clothing. This season we have surpassed all our former efforts, and we're proud of the results. Because our efforts are so large—the largest in the city thrice over. You are sure of finding what you want for your boys. From the best makers of boys' clothing in the country we have brought together a most captivating assortment of SUITS, TOP COATS, REEFERS and OVERCOATS. These in fabric, design and workmanship are well high perfection. The prices of the high-grade garments are from

\$2.75 to \$6.00

Our Tailor-made Raglanette Overcoats, from 44 to 50 inch length, are world beaters, at \$10, \$12, \$15.

Rev. Dr. Talmage's Sermon in Support of the New International Society, Which Has Recently Been Formed by Rev. John L. Withrow, D.D., to War Against the Sin of Profanity.

Entered According to Act of Parliament of Canada, in the year 1902, by William Bailey, of Toronto, at the Dept. of Agriculture, Ottawa.

Chicago, Oct. 12.—A vigorous protest against the prevalent habit of profanity is made by Rev. Frank De Witt Talmage in this sermon on the text Exodus xx, 7, "Thou shalt not take the name of the Lord thy God in vain."

The blasphemer's condemnation is a mighty theme. Its curse indirectly affects the whole human race. Every man belongs to one of two classes—either he is a blasphemer and therefore, on account of his profanity, comes directly under the condemnation of God, or else he belongs to that large class whose ears are polluted by his profane utterances, in which class are some who listen with indifference or contempt, while others shudder with horror as they hear the blasphemous mention of the name of their Master and King.

No street car or factory or shop or camp is entirely free from this shocking plague. In our streets and public resorts there is daily and hourly evidence of the prevalence of this pernicious habit. Not only does the husband and father swear, but his example is sometimes followed by his wife and his son and even his little children. Motormen swear at their trucks. Engineers swear at their fires. Boys swear at their baseball bats upon the playground. Merchants swear at their clerks. Employees, under their breath in the store and out of their mouths when they are away from the counters, swear at their employers. Men swear when they are buying goods. Fishermen swear at their hooks and lines and at the fish they do not catch. Commercial travelers swear because the train or the hotel meal is late or because there is no water pitcher in the bedroom. Sailors swear at the ropes and winds. Farmers swear at the cattle and the grain and the weather. Men swear at the gutter into which they tumble, and with the wagon wheel which spatters them with mud. Blasphemers swear when they are happy; they swear when they are sad; they swear at everybody and everything.

Profanity is a cruel and a cowardly habit, because it shocks the holiest feelings and pierces the hearts of thousands of Christians who are unable by law to stop this awful and blood-curdling infamy. Only the other day a telephone girl had a Chicago merchant arrested and fined \$20 and costs in the police justice court because the defendant swore at her over the wires. His defense before the justice was that he was hungry and wanted to order his dinner from a neighboring restaurant and that the girl in the central office of the telephone company would not give him the right connection. But when the justice heard the young girl's statement that she could not make the necessary connection because the lines were busy at that time, he decided against the defense of the Chicago merchant. He said, "No man has a right to hurl profane words at any public servant, trying to do his or her full duty."

The blasphemer is essentially a coward, because he inflicts suffering on persons who are powerless to resist or retaliate. It is a hard word, said the plain, unvarnished Anglo-Saxon word which describes the cowardly act. I want you swearers to realize the extent of the injuries which you are doing against some of your fellow men when you swear. I want you to fully realize how you are cutting and lacerating Christian hearts with your blood-curdling oaths by trying to put yourself, if possible, in your Christian neighbor's place, who is compelled to listen every day to the public utterances of profanity. You can judge, perhaps, how your Christian neighbor feels by supposing that some one is speaking slightly and then suddenly and slanderously of some one you very dearly love. You have a mother or a wife or, perhaps, to use a better illustration, a young daughter whom you fondly cherish. Suppose in some public place you should hear her name vilified. What would you do? Why need you answer? Even now I can see your cheek flush and your teeth become set and your hands clench together. You would immediately demand an apology from the villifier or, perhaps, if you are an impulsive man, you would raise your fist and knock that man down. You would do just what a friend of mine did some years ago in Waynesburg, W. Va. He was bringing home the dead body of his idol. As a great, rough, brutal porter took the coffin out of the baggage car, he, the father, said to him: "Man, please be careful. Don't handle that box roughly." But when the porter in spite of that plea swore at the coffin, and used a contemptuous epithet about the beloved form within it and roughly set the box tumbling upon the platform, as an average expression man lets a trunk fall to the ground, my friend doubled up his fist and knocked that porter clear into the tracks. He hit him so hard that the policeman who ran up at first thought him dead. But, though the policeman was about to arrest the suffering father, he did not, for when he heard how the porter had sworn at the body of the dead child he turned and said, "Brother, if that brutal porter comes to, hit him again a little harder than you hit him before, and I will stand by and, if necessary, help you." That spirit

which my friend showed toward the porter who swore at his little girl's body, you, O blasphemer, would show toward anyone who would insult the fair name of a pure, noble daughter, whom you devotedly loved.

Now, my sinful brother, you who are addicted to the habit of swearing in public, did you ever stop to think that nearly always there are Christians men and women around you who love the name of Jesus Christ more than they love their father or mother or wife or daughter, or you love your child? Did you ever stop to think that by your profanity you are dishonoring the name of that Christ for whom those men and women, if necessary, would be willing to die? Have you a right to insult their Christ's name any more than they have a right to insult your child? Oh, my blaspheming brother, I called you a cruel coward. I take it all back. I take that statement back, because you may have sinned thoughtlessly. I cannot believe that you have deliberately intended to do this cruel thing. In the past you have not realized the enormity of the injustice which by the public habit of profanity you are doing against some of your fellow men. You are so kind hearted you would not hurt a dog or a cat. Surely after this you will cease to use blasphemous words in public and not further cut and lash into the bleeding hearts of your Christian brothers and sisters with the sharp, merciless impiety which has heretofore proceeded from your profane lips.

Profanity is not only a cruel, but also a very foolish habit. My profane brother, can you cite me one instance in all your life when the indulgence in the habit of swearing helped you in the least? Did the stone over which you stumbled get out of your way or apologize to you because you cursed it? Did the winds ever abate when you were crossing the seas because you blasphemed them? Did your employees ever love you better or work for you harder because you lost your temper and hurled at them a whole tornado of oaths? Did your horse ever drive better because you swore at him until you were red in the face? Did the loaded stage slowing down when you cut your finger, merely because you made the air sulphurous with your denunciatory imprecations? "No!" you answer, "I cannot think of one good result that ever came from the evil of profanity." It is such a foolish habit that I sometimes wonder why God does not let sticks and stones and the dumb brutes have power of speech to rebuke man as he chides the long eared beast, or burden open his mouth and speak to the quick-tempered and unreasonable prophet of old. Fought to have better sense.

Blasphemer, have you ever stopped to consider what would be the effort of your profane words by which you condemn your fellow men if they were literally carried out? Have you ever stopped to consider that if you ask God to condemn your fellow men to the infernal regions you express a desire that through all the coming ages they will suffer greater torture than ever a human victim suffered upon the operating table, under a surgeon's knife, when anaesthetics could not be administered? You express a desire that they shall be thrown into "the lake of fire and brimstone," the lake of fire and brimstone, and shall be tormented day and night for ever and ever. You express a desire by your profane oaths to see human beings suffer as Mark Anthony and Cleopatra suffered when the operating table, under a banquet table, this guilty, merciless twain ordered poison to be administered to their slaves and prisoners so that they might witness their convulsions in the throes of a awful death.

"But," answers some blasphemer, "you know just as well as I that there is not one man out of a thousand who ever means what he says when he blasphemes. His profane oaths are mere exclamations. They come from the lip and not from the heart." Then, my brother, there is only one other deduction which can come from the use of this evil habit. Either you as a profane man wish to condemn your brother to eternal misery or you are lacking in reverence to God, which is precisely the attitude condemned in this commandment. Either you despise your fellow men or else you despise the name of your Creator. There is no other outcome to these two extremes. Either you are cursing your fellow man or you are mocking your divine Maker.

The profane habit is to be dreaded because it is often the outgrowth of seemingly very harmless beginnings. The blood-curdling oaths heard in the house of the rich man and among the so-called respectable members of society are not, as a rule, born among the saloons and the outcasts. They were not once the inhabitants of the slums and the places of wassal and crime. In all probability their germs were fostered in the parlors of Christian homes and in the weekday schoolrooms and even in the Sunday schoolrooms attended by Christian children. These germs of the most horrible of profane oaths were once the exclamations and ejaculations and the slang expressions so commonly used by boys and children upon city streets. They are the "By Georges," the "By That's" and the "By Other Things." They are the exclamations which are used to-day by many people who consider themselves educated and polished and refined.

Profanity can grow from seemingly very harmless beginnings. Therefore it is the duty of all Christian parents not only to refrain from the use of such unnecessary and absurd exclamations as those just quoted, but they should instill into their children the right use of the English language. The Anglo-Saxon tongue is a noble tongue. It is especially rich in vehemence, emphasis, and vigor. It should express the expression, sledge-hammer words, powerful enough to annihilate any foe. In its broad sweep of denunciatory words the English language is unequalled by any language. Therefore, Christian parents, in the education of your child,

ren you should teach them never to use slang. You should teach them that slang is only the language of the destroying monster called Profanity. You should teach them that God hurls his condemnations at slang as well as at the hideous monster called Profanity when Christ says: "Swear not at all; neither by heaven, for it is God's throne, nor by the earth, for it is his footstool; neither by Jerusalem, for it is the city of the great King. Neither shalt thou swear by thy head, because thou canst not make one hair white or black. But let your communication be, Yea, yea; nay, nay; for whatsoever is more than these cometh of evil." Could any denunciation be more vehement against the use of slang common amongst our women and children and also among the men of profanity, than these words of Jesus Christ? Profanity is a suicidal habit, because it runs directly counter to the expressed commands of God. Albert Barnes once wrote, "There is not in the universe more cause for anxiety than the God's forbearance in his dealings with the blasphemer." But that God will ultimately punish those who take his name in vain there is no doubt. The Bible distinctly asserts that the sin of blasphemy is also unquestioned. Incident upon incident can be cited to illustrate this fact.

But though Kahlil Arvine gives incident after incident where the condescending wrath of God has instantly slain the blasphemer, none of them ever made such an impression upon my mind as that which happened some years ago practically under my eyes. We were then stopping in Elizabethtown, among the Adirondack mountains. One afternoon a fearful thunderstorm came up. Before the tempest broke it was almost black as night. The air became so still that even the leaves ceased to rustle. Nature was silent, save here and there when we heard a frightened bird twitter as she fled away to her nest and young. Then the winds began to blow, and those great trees began to groan and bend like monstrous human Locoos with their children in the fatal grip of a destroying serpent dragging them down. The heavens became, at times like great rivers of fire. The lightning struck the earth again and again. Amid this battle scene of elements a party of men were gathered in a hall but a short distance from the hotel piazza. In the company was an infidel, a blaspheming scoffer. When the conversation turned upon the power of God, he arose and said, "Even in this storm I am not afraid to defy God." He stepped

to the open barn door and raised his arms as he cried: "Curse God! Strike if you dare!" Immediately there was a flash, and the blasphemer fell dead. The God who had uttered the words of my text had heard. God in one stroke of the unshathed sword of fire made that blasphemer answer for his crime.

I have written this sermon upon the blasphemer's condemnation for two purposes. The first is, I want to make the blasphemer realize his awful danger and, by the grace of God, to rescue him if possible from the awful destruction toward which he is heading. I want to rescue him by the grace of God, because, my brother, you will never be emancipated from this sinful habit of profanity unless you seek divine help. After you have been a profane man for many years your profanity becomes a part of yourself. You are bound to this evil habit by links stronger than steel. So, my profane brother, if you wish to be emancipated from this sin of profanity you must pray to God for help. You must plead and pray for divine help to resist this evil habit to the day of your death. You must pray not only for the forgiveness of your past profanities, but you must also pray that God will keep your lips pure from ever uttering another blasphemous word.

The second reason why I preach this sermon is to rally all Christian people to the support of a new interdenominational society, which has just been formed to war against the sin of profanity. I believe this society has as great a mission as the Christian Endeavor Society, the Brotherhood of Andrew and Philip or any of the other interdenominational societies which are binding together the Christian people of the land. This society is called the Anti-Profanity League. Rev. John L. Withrow, D.D., an ex-moderator of the general assembly of the Presbyterian church and the present pastor of the famous Park Street Church, Boston, has thrown the weight of his influence into it and accepted the presidency. The object of this society is to rally all Christian people together to oppose this universal evil. That society will furnish you tracts; it will teach you what to do and what to say in the unrelenting warfare hereafter we are all pledged ourselves to wage. The society called the Anti-Profanity League will arouse your holy enthusiasm if you will only let it. Oh, my brother, will you ask to overcome the worldwide sin of blasphemy as well as all the other kind of sins which are striving to destroy the throne of righteousness and are defying your Master and King? Lord God of the past, help us to make thy Son's name honored and worshipped all round this blaspheming, cursing and Holy Spirit defying world—around this world which more often hears the name of Jesus spoken in decision than in earnest, tender, heart pleading prayer.

Essentials in Horse Training.

Do not break your horse, but teach him. It is a mistake to say you must break a colt. There is nothing about him that needs breaking. All he wants is teaching or guiding. You cannot crowd everything into a horse's brain in a few hours. It takes time to teach a child. Why do you expect a horse to learn everything you desire him to know in a few hours? It is impossible. But intelligent men, owners, trainers, persons who manage horses, and every man who has a horse, should accomplish wonders in your colt.

Chatham Branch of the International Sunshine Society.

Motto—Good cheer.

Have you had a kindness shown?

Pass it on.

'Twas not given for you alone—

Pass it on.

Let it travel down the years,

Let it wipe another's tears,

Till in heaven the deed appears—

Pass it on.

The Chatham Branch of the Sunshine Society held a meeting on Friday last, when five new members were enrolled. It was decided to give a social evening in a week or so, when our Sunshine friends will be much in evidence. The members will begin work at their next meeting on a quilt, which when completed will be sent to the Children's Hospital in Toronto. The Juniors, who used this idea for giving their dues last spring, also intend to start one soon, which will serve as a Christmas present to some poor family. The Juniors held their last meeting at the residence of Mrs. Polson and spent a busy afternoon with their sewing; our Junior Branch is a very energetic band of little women. Where are the brothers, who should be Sunshine men, too?

The President has procured several Sunshine pins from headquarters. They are exceedingly pretty in design, and we think each of the members should have one.

Make the best of everything; think the best of everybody; hope the best for yourself, and persevere.

Canada's Walls resulted in getting coal from Wales.

Don't judge by appearances. Law suits never suit.

The only cash business in the world—the coal business.

The burning question of the hour—the coal strike ends.

Many are burning soft coal and they seem to be pretty well suited, too.

There is no truth that the city council went down to the city wood yard and saw wood.

Soft coal can't be called hard coal these days. It's certainly hard enough to get.

I'll wager that the Mayor wishes he had the price of that Panama of his invested in coal.

If the Northwood oil wells will only do their duty, this city needn't worry about the coal strike.

If you haven't any wood you might hire one of the Maple city musicians to play you a few cords.

How would eggs do to settle the coal strike with? They do pretty well in the matter of coffee.

With a fuelless car coming on, it will be no trouble getting a little cold this winter, which ought to be a good thing for the doctors.

The drill shed would make good fire wood for the poor, and mixed with the green wood of the park trees would help the latter to burn.

You should see the beet fields in this county; but then it would be impossible to see anything that would beat the fields of this county.

That husband who donned his wife's clothes when his own were hid by his spouse and went down town to buy booze, exceeded his wife as a person of resource by a clothes margin.

That great and exciting sport, football, opened the season auspiciously last Saturday. No fatalities; one serious injury was the principle result.

Tarte can't be such a bad fellow, after all. Why, he saw a whole lot of good things about this city, and wasn't afraid to tell the people of Toronto and Montreal about it either.

My good friend Oliver Springer, the Macabee, has a piece of real authentic witch for a watch charm. He needs to watch out lest he be held up some night and robbed of his valuable charm.

The boy was picking apples in the back yard. There was a heavily laden limb just out of reach. During an effort to twist the limb within reach, the branch broke and all the apples except three fell to the ground. The boy, as he picked the three apples remarked, "Well, I got three on the break." Then he remembered that he hadn't learned that expression in Sunday school, and glanced timidly around to see if any one was onto his game.

"Are these the Toronto school teachers?" asked the disappointed janitor of one of the Detroit schools on the occasion of the visit of the Queen City school staff to the city of the Straits. As the janitor queried, he pointed to an antediluvian collection of ancient females. The janitor was informed that he had guessed right the very first time.

"After seeing those pretty, fresh and charming Canadian girls who came over from the Maple City to visit our schools, I expected to see some pretty girls, but these freaks are a disappointment," was the sad remark of the corridor cleaner in one of Detroit's handsome homes of learning.

Dear Satellite—I have a suggestion to make. Bark is a fairly good fuel and I would suggest that the City Council all bark their skins for the benefit of the poor.

ALRIGHT YES.

Tarte is another of those fellows whose words change their meaning as soon as they get in print. It's an old story. If you say something that doesn't suit, blame the newspaper and escape condemnation.

MOON RIVER.

In addition to the several publications issued by the Grand Trunk Railway System, for the information of tourists and travellers, regarding the many charming districts in the "Highlands of Ontario," still another comes to hand, just off the press, entitled "Down the Moon River." The Moon River is a tributary to the Muskoka Lakes, in fact the outlet of this delightful water-way, and empties into the Georgian Bay, after passing for several miles through some of the most beautiful scenery in that region. This little booklet is a description of the trip by canoe down the river and is full of sound facts which will interest the tourist and angler. The illustrations give one an idea of the geological features and character of the country. A copy may be had for the asking by applying to W. R. Hall, Agent, G. R. Ry. Chatham, or to J. D. McDonald, Dist. Pass. Agent, Toronto.

FOOTBALL

ESCAPED DEFEAT.

No little disappointment was occasioned among the local football enthusiasts yesterday by the failure of the Chatham team to come to this city as previously arranged and play the Windsor team. A letter was received from the Chatham management at the last moment to the effect that the crowd from the burg on the Thames ditch would not be here. The local boys were sorely disappointed and it is needless to say that they do not appreciate their treatment at the hands of the Chathamites. That team went to Wallaceburg yesterday.

FOOTBALLISTS PRACTISING HARD.

The Sandwich football team is not at all discouraged by their showing at Chatham last Saturday, when they were defeated 2 to 4. The first goal scored was a foul, according to the Sandwich players, and was protested. The other goal was scored legitimately by Sissons of Chatham. The Sandwich defence was acknowledged to be a strong aggregation of players, but the forwards were somewhat weak.

Where the Day Changes.

Longitude, you know, is the distance around the earth from east to west and by common consent, the distance is reckoned from the observatory at Greenwich, England. The whole circumference of the earth is reckoned as 360 degrees, the one hundred and eightieth degree, half way round, being exactly in the opposite side from Greenwich. So that when we speak of a place being 75 degrees east we mean 75 degrees from Greenwich. The point exactly opposite Greenwich on the opposite side of the earth, therefore, is 180 degrees east and also 180 degrees west.

Now this point, or meridian, is where, by universal consent, the day changes, and it is in the international date line. Let us see how the change is made and note some of the curious conditions that this change gives rise to. Suppose two ships were sailing toward that line, one sailing east and the other west. One ship sailing toward the west the day is Monday.

Suppose, therefore, that it is nine o'clock in the morning, and at that hour both ships stop, one east of the line, the other west of it but within hailing distance of each other. It is nine o'clock in the morning, remember, as indicated by the sun, but on one ship it is Sunday, on the other it is Monday. For the day of the week and the day of the month both change at that line.

Then the ships sail on and the instant they cross the line the one going east changes the day from Sunday to Monday, and the one going west changes the day from Monday to Sunday, so that the first ship gains a whole day and the last ship loses one.

Home Helps and Hints.

Renovate brass chandeliers which have become dirty and discolored by washing them with water in which onions have been boiled.

To preserve roses and other flowers and to prevent their coming out faded in water put a little salt in the vase you arrange them in.

To make a damp cupboard dry keep in it a bowl of quicklime. The quicklime must be renewed from time to time.

If a chimney catches fire throw a handful of sulphur into the grate. As the sulphurous fumes ascend the fire in the chimney will die out.

To set the color of print dresses soak them in very hot brine, let them remain until the water is cold and then ring out and wash in the usual manner.

Mildew stains can be removed by rubbing plenty of soap and powdered chalk on the garment and placing it in the sun. It may be necessary to repeat this operation.

Many people think it is a waste of time to iron stockings, but if they once try the difference between darned, ironed and unironed stockings, they will speedily change their ideas.

To peel onions without tears seems impossible to some cooks. They may do so either by holding the onions under water as they peel them, or else by sticking a small paired potato on the point of the knife with which the peeling is done. In the one case the water and in the other the potato protects the eye by absorbing that which so painfully affects them.

VARICOCELE

CAN BE CURED WITHOUT THE KNIFE, PAIN OR LOSS OF TIME

BY DR. GOLDBERG'S LATEST METHOD OF TREATMENT.

According to claims made by Dr. Goldberg, Detroit's noted specialist, varicocele and strictures can be cured without pain, the use of the knife, or loss of time.

Where these claims made by an irresponsible person, we should doubt their truthfulness, but as they come from a reliable source, they are worthy of consideration.

The treatment consists of a combination of drugs, which removes all traces of the stricture, while in varicocele, it equalizes circulation, thereby restoring the parts to their natural condition; it cures nervousness, backache, smarting sensations, and unnatural discharges, thereby strengthening the organs, thus being a guaranteed cure for weak men.

If you are in need of treatment, we would advise you to write the doctor to-day, for if he accepts your case, you can pay when cured; this is certainly a fair proposition, as you need pay nothing until a complete cure has been made, and since the doctor was certain that his latest Method of Treatment was a positive cure, he could not make this offer.

The doctor is a graduate of one of New York's leading medical colleges, and since his graduation has devoted his entire attention to the treatment of varicocele, stricture and skin diseases. He has taken four special courses in the New York Post Graduate Hospital for which he received special diplomas, certificates, etc., which testify to his standing and ability.

Patients calling at his office are interviewed by him in person and all correspondence receives his personal attention.

Address him in confidence Dr. Goldberg, 208 Woodward Avenue, Detroit, Mich.

THE ROYAL MONTH AND THE ROYAL DISEASE.

Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its bunches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative—consumption.

Seeing much, suffering much, and studying much are the three pillars of learning.

Hood's Sarsaparilla cures radically—that is, it removes the roots of disease. That's better than lopping the branches.
