You may need an Overcoat, and would like something good. We have the very best. Take a look. Our January prices are greatly in your favor. Agent 20th Century Clothing. Andrew McFarland.

## BIG FIRE

### Takes Place at the Brantford Cordage Works—The Loss Will be in the Neighborhood of \$100,000.

Fire which did about \$100,000 worth of damage, broke out about 8:45 last night in the finished stock warehouse of the Brantford Cordage Company, and only the heroic efforts of the firemen prevented the flames from destroying the whole plant. The building destroyed is situated at the extreme west end of the plant and is of sheet metal construction. The fire started in the south-west end of the building and by the time the firemen arrived, the place was a seething mass of flame. Under direction of Chief Lewis, the men laid three streams, one a thousand feet long. Fire-fighting proved difficult, owing to the fact that the building was packed to the doors and roof with stock and no headway could be made by the firemen, as there was no way possible of entering the building. The flames gradually swept northward through the building and when about a quarter of the building was gone the firemen were confronted by a new obstacle, in the shape of a combustion which seemed to be the oil in the barrels which was packed in the building very closely.

About 9:30 Chief Lewis sent for the East Ward brigade which consists of seven men and from them on the firemen confined their efforts to saving the main factory, which lies immediately south of the burned building. In doing this the men faced the most difficult and dangerous piece of work during the night. Within ten feet of the burning building a shipping platform was erected some months ago directly adjoining the main factory. Under this platform the Company had stored away many gallons of oil in barrels, and it was to save off an explosion that the Chief directed his efforts. Time after time, the flames licked hungrily near the oil storage, but the constant application of water at the tremendous spot warded off what might have resulted in loss of life. About eleven o'clock the north-west end of the warehouse fell onto the platform and axes were necessary to clear away the debris. With only two streams to play on the blaze, the firemen then found it difficult to keep the fire, but steady work on the part of the brigade kept the flames from spreading to the main building.

## ENORMOUS OUTLAY

### In Connection With the British Navy Estimates--The Cost is Expected to be Nearly Two Hundred and Fifty Millions of Dollars.

(Courier Leased Wire). LONDON, Jan. 14.—According to The Daily Mail the work of framing the British navy estimates is nearly completed. The one point remaining for discussion, namely whether five or six battleships shall be laid down depends upon the Admiralty's program. If the Admiralty decides to wait before taking action it may the Austrian ships are laid down it will be expected to begin five battleships this year. The naval program will then according to present information involve an expenditure of \$240,000,000 and will include five battleships, six light-armored cruisers, 20 destroyers, a number of submarines, and an addition to the personnel of 5,000 men, making a total of 142,500 officers and men.

The battleships will be of a new type, the largest and strongest which science can build or money supply. They will displace 27,500 or 28,000 tons, burn oil fuel alone and steam 25 knots.

Thus they will be intermediate between the present Dreadnought battleship and battle cruiser. They will be armed in all probability with eight 16-14 inch guns, each firing 2,200 pound shells, or if the 16-14 inch gun is not adopted with 15-inch guns, firing shells that weigh about 1,800 pounds.

## THIS FORTRESS

### Is Said to be in a Very Bad Shape--The Inhabitants are Suffering From Disease and the Lack of Supplies.

(Courier Leased Wire). LONDON, Jan. 14.—Conflicting reports as to the conditions in the great fortress of Adrianople are current, but it appears evident that the Turkish troops and inhabitants of the city are suffering grievously from disease and lack of supplies. They have been besieged ever since the last week of October by the Bulgarians, who have since been reinforced by large bodies of Servians fresh from their victories on the other side of the Balkan peninsula. Before the Thessaly line defending Constantinople there is a great army of Bulgarians who are strongly entrenched and fronting them in the line of fortifications stretching across the narrow neck of land, of which the Turkish capital forms the head, are large bodies of Turkish troops; some of them the remnants of the defeated armies who fled before the advancing Bulgarians, and others, fresh troops brought up from the Turkish provinces of Asia Minor.

The threatening note of the allies to the Turks is to be worded in such a way that it will become effective only in the event of the Ottoman Government refusing compliance with the advice given to it by the ambassadors of the European powers.

The members of the Balkan league are of the opinion that the note drafted by the European diplomats is so diluted that it requires the admixture of a vitalizing tonic, and this they think will be supplied by their threat to continue hostilities.

## THE VERY LATEST DESPATCHES

### Sad State of Affairs Among Young Girls in Calgary--An Engineer Killed--Toronto Horses Suffocated--Bounties for British Babies

#### OUTLAWS KILLED

(Courier Leased Wire). MANILWA, Jan. 14.—A detachment of scouts under Lieut. Fletcher, according to reports received here, came upon a large band of outlaws yesterday in South Leno. A general engagement ensued. One message from the scene of action says that fifty outlaws were killed; another that ninety outlaws were killed. The scouts suffered no loss.

#### REMARKABLE CHARGES

(Courier Leased Wire). CALGARY, Alb., Jan. 14.—That there are two hundred girls under 18 on the verge of illegitimate motherhood in Calgary; that there are private rooms in connection with the most popular grills, where mere children are wine and dined and that there are licensed chauffeurs picking up young girls in loads, are some unchallenged statements made by Ald. Prost in the city council. His remarkable charges were made in support of the curfew law which the alderman fathered and which failed of passage.

#### ENGINEER KILLED

(Courier Leased Wire). QUEBEC, Jan. 14.—A passenger train crashed into a freight at L'Islet on the Intercolonial Railway at 2 o'clock this morning. Engineer Hudson was killed and his fireman suffered a broken leg.

A number of passengers were slightly injured and were taken to Fraserville for treatment.

#### STEAMER STILL STRANDED

(Courier Leased Wire). HALIFAX, N.S., Jan. 14.—The stranded steamer Uranian still lies in the same position she has occupied at Chebucto since she ran aground on into the rocks on Sunday forenoon.

#### DIED FROM INJURIES

(Courier Leased Wire). EDMONTON, Alb., Jan. 14.—Dan Tidsbury, deputy chief of police, was injured last night by being thrown from a street car he was trying to board, and died this morning from injuries.

#### HORSES SUFFOCATED

(Courier Leased Wire). TORONTO, Jan. 14.—Twenty-eight horses were suffocated and \$15,000 damage done by fire early this morning to the plant of the Coleman Bakery Company on Euclid avenue. The fire started near the motor and burned through to the roof. Three thousand bags of flour were destroyed besides the horses killed. Only five horses were saved.

#### TO DISTRIBUTE FOWL

(Courier Leased Wire). EDMONTON, Alb., Jan. 14.—The Alberta Department of Agriculture, presided over by Hon. Duncan Marshall, has made itself popular among poultry men by agreeing to distribute male birds free of cost to farmers who will agree to keep pure bred poultry. Applications are coming in by every mail.

#### EXTENDED

(Courier Leased Wire). NEW YORK, Jan. 14.—The time limit for filing suits for damages growing out of the loss of the steamer Titanic last April, was extended to-day by Federal Judge Hand to February 11. Under a previous ruling, to-day was the last day on which claimants could file their actions. This time limit has been set aside by the Court in compliance with the request of the Oceanic Steam Navigation Company, Limited, owners of the Titanic, which was successful in proceedings to limit the liability to approximately \$66,000, the amount of passage money plus meagre salvage.

#### WAS MARRIED

(Courier Leased Wire). HALIFAX, N.S., Jan. 14.—Rev. H. W. Cunningham officiated at the marriage this morning at the Queen's Hotel, of Alice Grace, daughter of Mr. and Mrs. John Hemming of Yorkshire, England, and Jacob G. Gaudaur, of Orillia, Ont., former champion sculler of the world.

#### SOME OTHERS COULD SAY THE SAME.

(Courier Leased Wire). BRUSSELS, Jan. 14.—M. D. Andromont, a member of the Belgian chamber, celebrated for his speeches on the questions of the consular service, was appealing eloquently for a reorganization of the service yesterday when the Foreign Minister said:

"That is the same speech you made last year."

"Just so," replied the deputy calmly. "I have made it annually, word for word, for thirteen years. Nobody noticed it before."

#### A COMPETITION.

To the individual man, woman or child, who is a citizen of Brantford, and sends in the most popular name for the new vaudeville theatre on Dalhousie street, I will give a free seat for each performance, during six months.

JAMES O'REILLY.

#### PAT BURNS WILL ERECT A MORE PRETENTIOUS PACKING PLANT

(Courier Leased Wire). CALGARY, Alb., Jan. 14.—A telegram from P. Burns, owner of the packing plant destroyed in Sunday's fire contains the information that another plant much more pretentious than the one destroyed will be erected at once. The new plant is being rushed to Brantford with heavy shipments of cattle. The company has 20,000 cattle in the feeding pens and the shortage of beef will be only temporary.

#### AN EXTRAORDINARY TRAIN ACCIDENT OUT WEST

(Courier Leased Wire). CALGARY, Alb., Jan. 14.—An accident extraordinary in its results occurred Sunday evening on the Crow's Nest Pass line of the C. P. R. early this morning. The fire was wrecked, every car leaving the rails pell-mell with no injury to any of the hundred or more passengers. The wreck occurred while west of Burns. Seven cars went into the ditch, one of the pullmans turning completely over. A broken rail was the cause.

## CANAL DISPUTE

### Secretary Knox Has Framed His Answer to Great Britain--It is Expected That John Bull Will Object and Ask for Arbitration.

(Courier Leased Wire). NEW YORK, Jan. 14.—A despatch from Washington to The New York World says: Secretary of State Knox will reply to Great Britain on the canal tolls question in a few days.

The Secretary of State's argument in rebuttal—for that is what he has made it—to the note of protest made by Sir Edward Grey, English Minister for Foreign Affairs, against the granting of free passage through the Panama canal to American ships engaged in coastwise trade has been completed, and is now being edited by Attorney-General Wickersham and Secretary of War Stimson. When the other lawyer members of the Cabinet have passed on the legal phraseology the matter will be laid before the Cabinet. It is expected that the Cabinet will discuss the answer to-morrow or at Friday's session. On December 9, Secretary Knox received Britain's protest against what that country terms discrimination in violation of the Hay-Pauncefote treaty, commonly known as the canal treaty. Throughout his reply to Sir Edward Grey, Secretary of State Knox has confined himself to an argument that under the Hay-Pauncefote treaty the American Government has the right to exclude from the payment of tolls any of its ships which do not compete with those of Great Britain.

Secretary Knox follows out closely the argument used by President Taft in his memorandum when he signed the Panama canal bill around which the protest of England is built. He holds as did the President, that article three of the Hay-Pauncefote treaty was adopted by the United States for a specific purpose, namely as the basis of the neutralization of the canal. Secretary Knox's interpretation of the words: "The canal shall be free and open to the vessels of commerce and war of all nations observing these rules, on terms of entire neutrality, so that there shall be no discrimination against any such nation or its citizens or subjects, in respect of conditions or charges or traffic, or otherwise" is that all nations will be treated alike and no discrimination made by the United States against any one of them observing the rules adopted by the United States. He takes a view contrary entirely to that held by Sir Edward Grey.

Secretary Knox fails to see any interpretation of the treaty which can be interpreted as meaning that the United States, when it agreed to the treaty, surrendered its right to regulate its own commerce through the canal. He contends that Great Britain is trying to read into the treaty the question whether the United States has surrendered the right to regulate its own shipping through the canal.

Secretary Knox has answered the other objections raised by Great Britain, one of which was the expressed fear that if the protest against the granting of free passage through the canal to coastwise ships was not pressed and insisted upon the subsidy granted to the coastwise trade would in time be extended to all American shipping and consequently come in direct conflict with British shipping.

Secretary Knox holds in his argument that the promises assumed by Great Britain are not sound. He closes his argument by asking for the further exchange of notes on the question and expressing the willingness of the Administration to do everything to adjust the dispute.

The question of arbitration will not come up for discussion until Great Britain has replied to the Knox note. It is expected that Britain's reply will be a rejection of the Knox argument, the expression of a willingness to negotiate further, and the asking for a reference of the dispute to arbitration.

#### TO-MORROW'S WEATHER

Little higher temperature.

## The Powers Reach an Important Decision

(Courier Leased Wire). LONDON, Jan. 14.—The decision recently to break up the peace conference in London simultaneously with the presentation to the Turkish Government of the note of the European powers was reached to-day by the chiefs of peace delegations of the Balkan allies.

The resolution of the representatives of Bulgaria, Greece, Montenegro and Serbia will be communicated to the Porte in a formal note. At the same time it was decided to instruct the Commanders of the Army forces to terminate the armistice which has been in operation since Dec. 3. Since that date the hostilities between Bulgaria and Serbia on one side and Turkey on the other have entirely ceased. Greece, who did not sign the armistice protocol, however, has continued fighting against Turkey, both on sea and land with varying success. Montenegro also, which was nominally a party to the armistice, has been engaged in the interim in many severe skirmishes with the troops forming the garrison of the Turkish fortress of Scutari, which shows no sign of yielding. It is believed that the Ottoman troops there, most of whom form part of the regular army, are fairly well provided with food and ammunition, as Scutari was always a great centre of the grain trade and the Turks have a considerable arsenal there.

Janina, in the south of Epirus, was made the rallying point for a large force of Turkish troops who escaped from Monastir and other places in Macedonia and Albania. The Greeks have closed all approaches to the fortress from the south, but to the north and west the communications are still open and the Turks there are able to obtain supplies.

LAST WORD.  
(Courier Leased Wire). LONDON, Jan. 14.—In the expectation that the "last word" from Constantinople will arrive here to-day, every despatch reaching the Turkish peace delegation is opened with anxiety.

## A TELEPHONE ANNOUNCEMENT.

The Women's Department of the Courier has proved so popular and there are so many calls in connection therewith that it has been found necessary to establish a separate phone.

The number is 1781, and it will appear in The Courier list of phones under the caption "Society Editor."

All those having personal, social and other items pertaining to the fair sex will kindly use the above number. This department is especially for the ladies and all communications in this regard, whether by phone, or letter, will be gladly received and carefully looked after.

are many but they can be described. A soothing and prostration, hysteria, hiccups, distressing ill peculiarities and for the derangement has had many thousands of cures. Another important efficient medicinal roots, gents. Full list of ingredients. Pierce—who is President of the Institute, at Buffalo, N. Y. Write to this Institute and medical advice, entirely free of charge, will be sent to you. Your remedies, especially all female disorders, writes Dr. J. T. Pierce, "During my long life I have seen many women who have been cured by this remedy. It is a fair trial, what it is recommended to I cannot speak too highly of its results." *lets regulate liver ill.*

**THE OLD STUFF.**  
 My son, when you go to a vodiville show you'll notice that people will shriek. At jokes they have heard since the long long ago. And heard twenty times over week. The moral is plain if you'll read as you run.  
 A novelty adds to our zest. But when it comes down to extracting the old stuff gets over the best.  
 It may be all right when you're courting a dame. To talk about them and such; But, take it from me—if you'd wish at the same.  
 You won't stick to them so much. You'll tell her that she's of a beautiful mold.  
 A stunner becomingly dressed. You'll tell her 'tis the best that men always have had.  
 The old stuff gets over the best.  
 In politics, business, society, art. However the world has progressed, it still remains true to the words I impart.  
 "The old stuff gets over the best."  
 —Exchange.

"Yes, sir, with this weapon you are absolutely invincible."

 Let us take the Brantford City Council as another example. The political standing of that body is Conservatives 13; Liberals 3. Now take a glance at the proceedings of the first meeting:  
 1. The chairmanship of an important committee, that of Building and Grounds, was given to Ald. McEwen (Liberal).  
 2. Mr. T. H. Preston (Liberal) was re-appointed on the Hospital Board.  
 3. Ald. Minshall (Liberal), was given a place on the House of Refuge Board.  
 4. Mr. D. Waterous (Liberal) kept on the Library Board.  
 5. Mr. E. Sweet (Liberal), on the Collegiate Board.  
 6. Mr. J. Dowling (Liberal) continued as County Auditor.  
 7. Mr. Charles Thompson (Liberal), made one of the Auditors.  
 Contrast that manly and broad-minded course with what used to happen when the Liberals had control of municipal affairs. Then a Tory was treated as if he was a thing apart, and the writer remembers when not one Conservative was allowed on the most important of all committees—Finance. This big-minded way of doing things has been one of the factors in Conservative success not only in Brantford and the two Brants, but also throughout the country generally.

THE SQUARE DEAL.

For some years now Conservatives have had pretty much their own way, not only in the City of Brantford, but also in the ridings comprising the four Brants.

In every instance the endeavor has been to give the square deal.

Ask any Liberal official (and there are lots of them), in either Dominion or Ontario Government employ, what he thinks of the treatment meted him since the Tories have had control?

There can be and is only one answer, "Played the game fair."

The fact is there have been no dismissals of Liberals as such anywhere, except for cause, and that basis of firing holds good in connection with any properly run business.

Let us take the Brantford City Council as another example.

The political standing of that body is Conservatives 13; Liberals 3.

Now take a glance at the proceedings of the first meeting.

1. The chairmanship of an important committee, that of Buildings and Grounds, was given to Ald. McEwen (Liberal).

2. Mr. T. H. Preston (Liberal), was re-appointed on the Hospital Board.

3. Ald. Minshall (Liberal), was given a place on the House of Revision Board.

4. Mr. D. Waterous (Liberal), kept on the Library Board.

5. Mr. E. Sweet (Liberal), on the Collegiate Board.

6. Mr. J. Dowling (Liberal), continued as County Auditor.

7. Mr. Charles Thompson (Liberal), made one of the Auditors.

Contrast that manly and broad-minded course with what used to happen when the Liberals had control of municipal affairs.

Hon. Mackenzie King, that much over-rated young man, was the leading speaker at the opening banquet.

He declared that there was no immediate necessity for giving three Dreadnoughts to the British navy.

Premier Borden, on the authority of a Liberal Government in the Old Land, has said that he was told that such a gift would be most acceptable.

Mr. Borden, knows, and Mackenzie King doesn't, and there you are.

SO NERVOUS, HE COULD NOT SLEEP

Three Months Treatment Of "Fruit-a-Lives" Cured Him

KINGSTON, ONT., Sept. 12th 1910 "The effects of 'Fruit-a-Lives' on Sleeplessness, Nervousness and Disordered condition of the Body, is simply marvelous.

I have found 'Fruit-a-Lives' to be the one medicine that will purify the blood, quiet the nerves and restore the whole system to its natural condition."

"Fruit-a-Lives" cures nervousness and Sleeplessness because this fruit medicine keeps the blood pure, the stomach sweet, the bowels regular and the skin active.

Get a box, 6 for \$2.50—trial size, 25c. At dealers or write to Fruit-a-Lives Limited, Ottawa.

A LATE START

On September 21st, 1911, Mr. W. F. Cockshutt, M.P., had the little majority of 958 votes over Mr. T. H. Preston in the City of Brantford.

The outcome was a sock dollager, with several pairs of the former to spare.

Shortly after the returns had been received, there was a sorrowful burial in the Expositor-back yard, with Preston as mourner-in-chief, and Mr. John Muir and Mr. J. Ruddy as back-up mourners.

The object of the event was to inter the following production of the organs—

"The Liberal Government will be sustained; even the Opposition concedes this."

"The Liberal Government had a majority of forty-five in the last Parliament. It will have a majority of fifty-five, or more, in the next House."

Sobs rent the air, and they gently led each other away while the "white plume" waved in a drooping fashion.

Later, Mr. Preston went to India, where, it is rumored, when he saw the elephants go by at the Durbar, he had an ingrowing thought as to whether it would be worse to have them go over a fellow, than what he got in Brantford the night of Sept. 21st, 1911.

Since that date, the gloom hovering over the local Liberals has been such that it has taken not an ordinary knife, but a hatchet, to get at them.

However, the Brantford Young Liberals have started a campaign to form a club of eight hundred members. That's a good idea from their standpoint. The plan is evidently formed on the basis of the Borden Club, so successfully inaugurated in the city some years ago.

There is plenty of room here for two such organizations, but our young friends, the enemy, although they should, and will doubtless do well, must not expect to beat the Borden aggregation.

They are the best and most aggressive of their kind in Ontario, and they propose to remain that way.

Hon. Mackenzie King, that much over-rated young man, was the leading speaker at the opening banquet.

He declared that there was no immediate necessity for giving three Dreadnoughts to the British navy.

Premier Borden, on the authority of a Liberal Government in the Old Land, has said that he was told that such a gift would be most acceptable.

Mr. Borden, knows, and Mackenzie King doesn't, and there you are.

SPIDERS AID SCIENCE.

His Delicate Web Is Invaluable to Instrument Makers.

When surveyors prepare to plot off sections of land into squares, circles, parallelograms, and irregular areas, they find it necessary to place something in their instruments whereby a point may be fixed definitely, precisely, and within a fraction of an inch, even though the point at which the instrument is directed be a mile distant.

If one observe the theodolite employed by surveyors, he will see across the round field of vision two or more lines running from one side to the other of the field of view.

Now these lines do not "look large" when in the theodolite. A careful examination of the diaphragm will show that these "cross wires" are nothing more or less than spiders' threads.

It has been said that but for the presence of these fine filaments of the insect the surveyor's instrument would be worth little more than scrap metal, so far as its utility in surveying is concerned. Thus does the spider aid the work of man.

The quantity of thread of the finest sort which a spider can produce at one spinning is most extraordinary. It is of record that more than four hundred feet has been spun by one spider in its patient endeavors to reach the ground from the frame on which it has been placed by the dealer.

When the web has been taken from the spider it is wound on a frame and kept for its use by the instrument maker.

It is said that the filaments of the brown spider are the finest and most uniform of all. This thread shows no kinks, such as may be readily discovered in the thread of the larger spiders and the silkworm.

Spiders' webs have been used for instruments of precision for a great many generations; and no one has ever discovered another filament so well adapted to this purpose. Platinum wire may be drawn out to the requisite fineness, but it is too easily affected by heat or cold.

In the past makers of instruments of the sort mentioned have endeavored to rule fine lines on the surface of the lens with a diamond point. It is said that about once in one hundred trials they would be able to procure a sharp point of diamond sufficiently fine for the purpose, but that when the lines were cut across the face of the lens it was found that they were ragged and uneven. Even the best grade of glass will flake a little in front of the point, and these irregularities become greatly magnified by the powerful lens. Sharpness of location with such an instrument, therefore, becomes impossible.

The spider filaments are about one one-hundred-and-twenty-fifth of an inch in diameter. The best threads are those from which the spider builds its nest. Less than an inch of the fine opaque thread is needed to fit up a considerable number of instruments.

The fixing of an instrument is a delicate task, since it is not sufficient that the lines be got approximately in the right position—they must be true to the smallest fraction of an inch. Machines capable of marking space to the fifty-thousandth part of an inch are employed to place the filaments so that the surveyor may not go wrong. The instrument used in geodesic survey and in the observatories are crossed and recrossed by a multitude of fine lines. By these are measured the distances of headlands, capes, and mountains. Railway tracks are surveyed and laid, tunnels are planned and bored, and the distances of the stars are ascertained by means of the bit of thread supplied by the humble spider. In short, without the aid of the spider the great engineering feats of the world, to say nothing of many discoveries of astronomers, would be impossible.

The Romans are very much addicted to sausages made at Lucania. The meat used was pork and a good quantity of bacon, pounded in a mortar with pepper, cumin, winter savory and moistened with garum, to which were added a few pine nuts. It has been pointed out that the Romans when they used breadcrumbs took care that the bread should be of the very finest kind and that before it was mingled with the sausage meat it should be soaked in wine. This was a precaution against the contingency of the bread passing through a sour stage of fermentation, in which case it would be undeniably unwholesome.

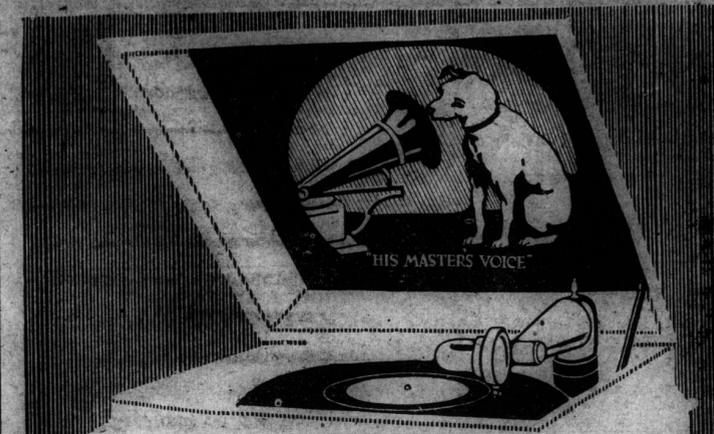

The Carinthian Canal. The four centuries between the Panama canal's first conception and its completion are by no means a record in the annals of canal construction.

The completion in 1893 of the canal across the isthmus of Corinth was the finish of a scheme for which the first survey was made in the year 600 B.C., when Periander employed the Greek engineers to carry out the work. Nero actually commenced work along the site of the present canal, but at his death it was abandoned, and the project was not revived until 1882, and this though the total length of the canal is under four miles.—London Graphic.

The Circle. The ratio of a circumference of a circle to its diameter was first ascertained to some degree of exactness by Van Ceuten, a Dutchman. He found that if the diameter of a circle was 1 the circumference would be 3.141592653589793238462643383279502884 nearly, which is exactly true to thirty-six places of decimals, and was effected by the continual bisection of an arc of a circle, a method so extremely laborious that it cost him incredible pains.

A Safety Play. "She is a confirmed gossip," said the woman who always speaks her mind. "I know it," replied the woman who doesn't. "Then why do you spend so much time visiting her?" "Because I know that when she is talking to me she isn't talking about me."

The Inward Effects of humors are worse than the outward. They engender Sarsaparilla eradicates all humors, cures all their inward and outward effects. It is the great alterative and tonic, whose merit has been everywhere established.

BREAKS A COLD IN A FEW HOURS

After the very first dose of "Pape's Cold Compound" you distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving.

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharge, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after effects as a 25 cent package of Pape's Cold Compound, which any druggist can supply—it contains no quinine—be sure you get what you ask for—accept no substitute—belongs in every home. Tastes nice—acts gently.

## OGILVIE, LOCHHEAD & CO

### JACK JOHNSON

Is Once More in the Limelight—He Was on His Way to Toronto When the U. S. Authorities Grabbed Him.

(Courier Leased Wire)  
CHICAGO, Jan. 14.—Jack Johnson, negro prize-fighter, accompanied by his white wife and two negro friends, was on a train bound for Toronto, Johnson is under \$30,000 bond to appear in the United States District Court to answer to indictment charging violations of the "Mann Act." The pugilist's bond was supposed to keep him within the state until his trial.  
Johnson is said to have told friends that he intended taking a trip to Toronto for a couple of days. Johnson announced some time ago that he had received offers to fight in Russia and the opinion was ventured that he may be intending to sail via Halifax. United States Marshall Hoy said he had no authority to stop Johnson even if he is on his way to Canada.  
No one could be aroused by telephone at the Johnson home early to-day.

Later (Courier Leased Wire)  
BATTLE CREEK, Mich., Jan. 14.—Jack Johnson, negro heavyweight pugilist, was taken off a train here early to-day by the local police and is being held pending the arrival of Chicago authorities, who requested his detention. Johnson was accompanied by his wife and two negro friends.  
According to the local officers, he admitted that he was on his way to Toronto. The pugilist is being detained at the home of a negro friend. Johnson is said to have at first insisted that the local authorities had no right to detain him, but when a patrol wagon came in sight he left the train without further complaint.  
He said he did not wish to violate any of the terms of the bond insuring his appearance in the United States District Court, and simply intended to go to Toronto to consult with Tom Flanagan, his former manager, regarding a proposed fight with Al. Falzer in Paris. He claimed that the latter's manager had offered to arrange a fight for \$25,000. Chicago detectives are expected to arrive here about noon.  
BACK TO CHICAGO.  
(Courier Leased Wire)  
CHICAGO, Jan. 14.—At a conference between federal officials it was decided to bring Johnson back to Chicago. The plan is to obtain a bench warrant for him as a fugitive and send two deputy marshals to Battle Creek to bring the pugilist home. When he arrives it is said that his bond will be cancelled and that he will be held in jail without any bail until his trial in the Federal Court.  
When application was made to Federal Judge Carpenter for a bench warrant for Johnson's arrest as a fugitive the court declined to issue the warrant. An attorney, who appeared for Johnson said he would produce his client in court to-morrow morning.  
At no time did Johnson appear to take his arrest seriously. "If I had known that I was going to stay here I'd have gotten off early and showed at a theatre," he said as he walked up the street with the officers. "I couldn't afford to let my mother's house go, besides the bond that I have put up," Johnson explained as he denied any intention of running away from the prosecution. "And I couldn't afford to turn down any fight offer either."  
(Courier Leased Wire)  
CHICAGO, Jan. 14.—The first information regarding Jack Johnson's flight from the city was given by the publication in a local newspaper of a telegram from a passenger who recognized Johnson and his party on the train.  
"If pulling a fellow out of bed in the middle of the night, when he is on a pleasure trip, mixed in with a little business, wouldn't make me mad, I'm a pretty good sort 'n't I?" he said this forenoon at the home of the negro barber, where he was staying until the Chicago officers arrive.

### GROWS BEAUTIFUL, HEAVY HAIR WE PROVE IT—25 CENT "DANDERINE"

Destroys dandruff—Stops falling hair—Cleans and invigorates your scalp—Delightful dressing.

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.  
It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks use.

### MISHAP To a Party Who Were Bobbing—A Young Lad Has Skull Fractured

A bad accident took place last night on Main street hill, right alongside the residence of Mr. Herbert Yates. It is commonly known as "Reservoir Hill," and is used by the Terrace Hill youngsters for tobogganing.  
In this case there were seven youngsters and one man, Mr. Riches, who had one of his children along for a ride.  
A little boy named Taylor was steering, and he states that the rope broke and got underneath one of the runners, causing the bob to swerve and crash into a post.  
All of the occupants were hurt, and blood-flowed freely.  
Dr. Secord was the first on the scene, closely followed by Dr. Henwood.  
A boy named Alf. Taylor was the most seriously hurt. He had his skull fractured, and is now in the Brantford Hospital with a chance of recovery.  
The little son of Mr. Riches had the roof of his mouth fractured.  
Two other Taylor children, whose parents reside on Main street, were badly bruised.

**A MEETING WITH TURNER.**  
 The Artist Simply Enraged the Man Who Longed to See Him.  
 A printshop in London, kept by a man who thoroughly understood and appreciated the ware in which he dealt, once displayed in its window a fine but much stained and damaged engraving—one of a set from Turner's pictures. Turner chanced to pass and notice it and promptly bounced into the shop and began to abuse the dealer.  
"It's a confounded shame to treat an engraving like that!" he blustered. "What can you be thinking about to go and destroy a good thing? For it is a good thing, mind you!"  
"I destroy it!" responded the dealer hotly. "What do you mean by saying I destroyed it? And who the mischief are you. I should like to know? You don't look as if you could understand a good print when you see one. I destroy it! Bless my heart, I bought it just as it is; and I would rather keep it till tomorrow than sell it to you. And why you should put yourself out about it I can't think!"  
"Why, I did it," said Turner.  
"Did what? Did you spoil it? If you did you deserve!"  
"No, no, man; my name's Turner, and I did the drawing and engraved the plate from it."  
"Bless my heart!" ejaculated the print seller in a changed tone. "Is it possible you are the great Turner?" Then his temper rose again. "Well, sir," he added, "I have long desired to see you, and now that I have seen you I hope I shall never see you again, for a more disagreeable person I have seldom met."

**ODD USES OF WHALEBONE.**  
 Wigs Are Made of It, and It Stiffens High Grade Silks.  
 The nose of the porpoise, which whalebone is derived from whales' ribs, although many persons believe that it comes from the tail of the big animal. Both notions are incorrect.  
 The function of whalebone in the life of the whale is of the utmost importance. The lines of the whalebone plates are frayed into innumerable hairlike processes, and the whole forms a sort of sieve whereby the whale may sift out its food from the sea water. It must be remembered that the food of this gigantic creature consists chiefly of minute organisms, crustacea, mollusca, etc., floating near the surface.  
 When the whale opens its mouth and moves along a great multitude of these minute forms of life find their way in. Then the whale closes its mouth, and the water is strained out through the whalebone sieve, and the food is retained.  
 The common uses of whalebone are known to everybody. It is, however, put to two uses not generally known even in England, where the fine fur-trimmed garments mentioned are employed in the making of hairpins and wigs. By reason of their lightness they retain the curl better than does ordinary hair. Fine whalebone threads are also sometimes employed to stiffen the tissue in high grade silks—Harper's Weekly.

**Feeling For Death.**  
 For a week the self-appointed guide to the blind on their daily walks had noticed that the two men who were her special charges felt carefully of the wall on either side of the door of the asylum when passing in and out. Since she was there to lead them, that precaution seemed not at all necessary, and she finally asked their reason for it.  
 "I am looking for craps on the door," one of them told her. "They don't like to let us know how the asylum when any one dies for fear of making us feel bad, but they put craps on the door, and by feeling for it when we pass in and out we can find out for ourselves when one of us has gone."—New York Times.

**A Train For Tyler.**  
 During Mr. Tyler's incumbency of the presidential office he arranged to make an excursion in some direction and send his son Billy to arrange for a special train. It happened that the railroad superintendent was a strong Whig. As such he had no favors to bestow on the president and informed Bob that his road did not run any special trains for the president.  
 "What?" said Bob. "Did you not furnish a special train for the funeral of President Harrison?" "Yes," said the superintendent, "and if you'll bring your father in that condition you shall have the best train on the road."

**Genius and Work.**  
 Men give no credit for genius. All the genius I have lies just in this: When I have a subject to hand I study it profoundly. Day and night it is before me. I explore it in all its bearings. My mind becomes pervaded with it. Then the effort which I make for people are pleased to call the fruit of genius. It is the fruit of labor and thought.—Alexander Hamilton.

**The Literary Waitress.**  
 "Will you have a drink for your breakfast?" asked the waitress.  
 "A drink? No, thank you," replied the witty guest. "I should prefer some short stories."  
 Whereupon she brought him some faints' tails.—Chicago Post.

**A Mean Dip.**  
 Miss Parnell—I've had many chances to marry. Only a short time ago a man told me of his love. Miss Parnell—he has left you the name of the lady?—Margendorfer Hintler.  
 A business man let a man think more than he looks for. Miss de Scudery.

**FIRE**  
 (Continued from page one.)  
 out-but day we ever had and the men worked until eight o'clock last night, and half an hour later the blaze started. Mr. Messer could shed no light on the origin of the fire, as he stated the building which this morning is a total wreck contained no heating or electric wiring. As soon as the insurance arrangements are adjusted, the Company intend to rebuild. The fire was still smoldering this morning.  
 Insurance \$88,500 on contents and \$4,400 on buildings. Of this W. V. Bunnell and Co. hold \$35,000 and the Dowling Company the balance.  
 She was christened Georgiana as a compliment to Chancellor Lloyd-George. Another insurance baby has been christened Lloyd-George Churchill.  
**DIED FROM HER BURNS**  
 (Courier Leased Wire)  
 STRATHROY, Ont., Jan. 14.—Mrs. A. H. Roe is dead as a result of the burns she sustained at her store on Front street late last evening. Mrs. Roe, while going upstairs stumbled and fell backwards on her daughter, who was carrying a lighted lamp.  
 Miss Roe is suffering greatly, but has a good fighting chance.  
 Subscribe now for the Schubert Choir Concert.

**LATER DESPATCHES**  
 (Courier Leased Wire).  
 LONDON, Jan. 14.—For several days many babies born in England will bring their parents all sorts of valuable prizes in addition to the maternity benefit of the new national insurance act which took effect yesterday. The idea has so caught the public that many wealthy people are giving silver cups, posterns, spoons and money to the first babies born in various districts under the new act.  
 The first mother to become pleased and gratified by the gift of a baby was Mrs. Amy Goulding, the wife of a Haddington painter, who gave birth to a girl one minute past midnight.

### CUSTOMS OF WAR

Rules That Contending Armies Are Expected to Obey.

#### A GRIM CODE OF ETIQUETTE.

The Enemy May Be Starved to Death or Into Yielding by Stopping His Supplies, but His Food Must Not Be Poisoned—Prisoners of War.

War—that is, warfare between civilized nations—has its code of etiquette known as the customs of war, some of which are written, others tacitly agreed to, and these rules and regulations contending armies are supposed to regard as sacred and to obey them rigidly. Obvious examples of fighting etiquette are the rules which protect the Red Cross flag of the ambulance and forbid the use of explosive or, within limits, expanding bullets.

Nominally a covenant may use any means in his power to bring his foe to subjection, but there is a well defined boundary line. A leader may cut off his enemy's food and water supplies. He may subject him to all the horrors of famine and thirst, but he must not poison his food or water.

Suppose a place is besieged and that outside the walls are wells which the besiegers cannot effectively hold and which the besieged can reach under cover of night. The besieger would be justified in sending parties to fill up the wells with earth and stones or to destroy them with dynamite. On the other hand, to pollute the wells with poison or to throw dead animals into them would be an infamy.

A "prisoner of war" has his rights. He may be asked to give his parole, i. e., to promise not to escape—but he must not be forced to give his parole and is not to be punished for refusing to do so. A prisoner on parole who attempts to escape is liable to be shot, either when escaping or if retaken alive.

An unparoled prisoner may also be shot while in the act of escaping, but if recaptured it would be murder to shoot him, and he should not be punished for his attempt, though he may be placed in more rigorous confinement.

A prisoner may be compelled to earn his "keep" by working at his trade, if he has one, or by doing work for his captors not of a purely military nature. Thus he may be ordered to assist in draining the camp in which he is a prisoner, but it would not be fair to put him to building fortifications.

The customs of war justify the employment of spies, but under certain rules. If a soldier voluntarily turns traitor the other side is entitled to make use of him, but it is not honorable to tempt a soldier to betray his own side.

If this tempted a man may pretend to turn traitor and deceive the enemy with false information. On the other hand, voluntarily to go over to the enemy, pretending to be a traitor or deserter, would be dishonorable conduct—that is, if the pretended traitor is an officer or soldier.

### SYSTEM IN BUSINESS.

Advantage of the Man Who Knows Where to Find Things.

#### A GRIM CODE OF ETIQUETTE.

### THE TINY HUMMING BIRD.

In One Species Its Bill Is Nearly as Long as Its Body.

All humming birds, though varying much in size and color, exhibit the same form of wing, legs and feet, the wings being strong (considering the small size of the bird), while the legs and feet are remarkably weak and delicate. A clear indication that these little creatures are intended to spend almost all their time in the air.

In accordance with this we find that humming birds are never seen on the ground; that even when feeding they seldom trouble themselves to alight, but suspend themselves in the air before the flower on whose juices they mean to feed the rapid vibration of the wings causing them to appear like two fans of filmy gauze and producing at the same time that peculiar humming sound from which these birds derive their popular name.

The beak of most humming birds is long, delicate and slightly curved to enable it to reach the inmost recesses of the trumpet shaped flowers which abound in the tropical regions, but the shape of the beak is very variable, probably on account of the particular flower on which the bird feeds.

In some instances it is nearly straight, and in one species, the sword bill humming bird, it is very nearly as long as the rest of the body.—St. Louis Globe-Democrat.

### Bismarck's Mystic Number.

Bismarck held, with Pythagoras, that not 13, but 3, was the great and perfect number. Bismarck's associations with 3 were remarkable. He had served three masters. He had three names: Bismarck, Schoenhause and Lauenburg. The arms of his family are a clover leaf and three oak leaves. He was concerned in three wars and signed three treaties of peace. In the Franco-Prussian war he had three horses killed under him. He brought about the meeting of three emperors and was responsible for the triple alliance. He had three children. His family motto was "In Trinitate Robur" ("Strength in Trinity"), and contemporary caricature pictured him with three hairs on his head. Three was the beginning, the middle and the end of Bismarck.

### He Got Along Fine.

Thomas had never been able to carry a tune, and after he had been for awhile in a class where singing was obligatory his mother felt curious to know how he managed to keep up with the singing.

### The Song Bird.

They say the birds are timid. Great heavens, to be so small and lovely in a world of hawks and eagles and yet dare to sing as if the gods were good!

### STEVENSON'S GRAVE.

Its Romantic Site, In Samoa, Atop The Forest Clad Valia.

No English novelist rests in a more eccentric spot than that chosen by Robert Louis Stevenson, who is buried on the summit of the forest clad Valia, in the island of Samoa, that genial spot in the south Pacific that the gifted writer loved so well.

The day after his death at Valima, in 1894, his remains were carried to the top of this precipitous and picturesque peak by sixty sturdy Samoans, who had loved and now mourned their dead chief, Tautai.

A party of forty had previously cut a pathway through the thick, tangled wood with knives and axes, while another party had prepared the grave. With infinite care and trouble they bore him shoulder high over the rough ground to his last long home, and there, under the starry sky, they laid him to sleep forever, with the Pacific at his feet.

On either side of his tombstone is a bronze plate. One bears the words "The Tomb of Tautai," while the other is inscribed with his own requiem, beginning:

Under the wide and starry sky Dig the grave and let me lie. Forget that I am here. Forget that I am here.

### The Parrot Fish.

There are water parrots as well as land parrots. The parrot fish come from the tropics, are brilliantly colored and have beaks something like those of the parrot, for use in breaking off the coral about in order to get at the living polyp. Not all of them, however, live on animal food, some species being herbivorous. One species is found in the Mediterranean sea, where it has been known for thousands of years.

### Doncaster Races.

Doncaster is one of the four places—the other three being Chester, Epsom and Lincoln—that claim to be the cradle of the British turf. In May, 1600, the minutes of the corporation record that "Hugh Wyrall hath caused a steeple" or post, "to be set on Doncaster Moor at the west end of the horse-race," which was ordered to be "cut down." A few years later "for the preventing of autes, quarrels, murders and bloodsheds" it was agreed "that the race on Doncaster Moor be discontinued."

# Write Ideas For Moving Picture Plays

## YOU CAN WRITE PHOTO PLAYS AND EARN \$25.00 OR MORE WEEKLY

### WE WILL SHOW YOU HOW!

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP. REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for Publication."

Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure

You Will Earn \$100 Monthly for Spare Time Work

FREE Send your name and address at once for free copy of our illustrated book, "MOVING PICTURE PLAYWRITING"

Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean for you and your future.

Instantly Relieves Swollen, Inflamed Nose, Head, Throat—You Breathe Freely—Dull Headache Goes—Nasty Discharge Stops... Try "Sly's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Sly's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of

### Why Tears Flow.

All human emotions, however slight they may be, either decrease or increase the circulation of the blood. These emotions that bring tears cause the blood vessels around the eyes to expand, thus flooding the lacrimal or tear glands with blood. The tear glands always secrete a little to keep the eyes cool and moist and carry off specks of dust through the nasal passages, but the extra supply of blood increases this secretion to such an extent that it cannot go off in the usual way, so overflows.

### Dead Suns.

We know that the universe contains many "dead" suns, those which have given forth all their heat. Some astronomers think they are much more numerous than the burning ones. It is believed that once a sun is "dead" it will fly through space until it comes in contact with some other sun, dead or alive, and the impact will set them both at a tremendous heat, create new solar systems with attendant planets, and thus the process may go on throughout eternity.

### Diving Bells.

The diving bell was not mentioned before the sixteenth century. Two Greeks in that century (1588) gave an exhibition before Charles V., descending into water of considerable depth in a large inverted kettle. They took down with them a burning light. The next returned to the surface without being wet. The light was still burning.

### When Limbs and Chest Ache

ZAM-BUK GIVES EASE QUICKLY.

Have you got cold in your bones? Have you a bad attack of "general aching"? You know the feeling. Limbs ache, muscles seem to have become tired out, back aches, now and again a twinge of rheumatism strikes you here and there. Your chest feels tight, and there is a pain between your shoulders.

Cold is responsible for this condition, and a vigorous application of Zam-Buk will put you right. Take a hot bath, and then rub your chest and the aching limbs well with Zam-Buk.

Mrs. B. Gorie, 76 Berkeley St., Toronto, writes: "I cannot speak too highly of Zam-Buk. A few weeks ago I was suffering from a bad cold, which had settled in my throat, chest and limbs. I tried all kinds of remedies new and old, and found very little relief until I used Zam-Buk. On applying this to my throat and chest I found such ease and relief from the tightness and soreness I determined to use only Zam-Buk. I also rubbed it on my limbs where I felt the rheumatic pains. In three days from the time I first began applying Zam-Buk I was free from the cold in throat and chest, and also the rheumatism in my limbs."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, blood-poison, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises and skin injuries generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. Avoid harmful imitations and substitutes.

Watt.

Mrs. Norman Livingston and little daughter left yesterday for their home in Portage La Prairie after spending the holidays with their parents, Mr. and Mrs. Minter.

Miss Elizabeth Fulton, head of the domestic science department of the State Normal School of Kansas, in a lecture recently delivered at the American pie is the cause of many divorces in this country. Working on the nerves of men, pie makes the men morose and that makes their wives unhappy. "Soon the divorce courts loom up," she said, "America has gone pie crazy, and must turn back to fresh fruit, and not stick to the indigestible pie crust."

Public pensions for widows with children, instead of relief by overseers of the poor or private charitable societies, are being discussed in every part of the United States. Laws granting pensions will be proposed in many of the 42 states, whose legislatures meet this winter.

There are rumors of a dance to be given by the Brant Chapter, Daughters of the Empire, in the very near future.

Miss Marie Stewart of Alford Junction and Miss Myrtle Armstrong of Harrisburg were Sunday and Monday guests at the home of Mr. F. Drake, Sheridan Street.

Mrs. A. E. Watts, William St. will not receive on Wednesday of this week.

Miss Marion and Miss Winifred Watts are both confined to the house with gripe.

A marriage has been arranged and will probably take place in London, England, in April next between Capt. T. H. Rivers Bulkeley, C.M.G., M. V. O., Scots Guards, Esquerry and Controller to His Royal Highness the Governor-General of Canada, eldest son of Coy. C. Rivers Bulkeley C.B., and Miss Evelyn Pelly, Lady-in-Waiting to Her Royal Highness the Duchess of Connaught, and daughter of Lady Lillian Yorke, and the late Sir Henry Pelly, Bart.—Toronto News.

Lord Francis Scott of the Grenadier Guards, youngest son of the Duke of Buccleugh, and Capt. R. Grant of the "Rifle" Brigade, have arrived at Government House, and will act as aides-de-camp to His Royal Highness the Governor General for a short time.

The engagement is announced of Miss Robert Crerar, daughter of the late P. D. Crerar and Mrs. Crerar "Dundee," to Herbert R. Gallagher of San Francisco, Cal. Owing to recent bereavement, the marriage will be very quietly celebrated at the end of the month—Hamilton Herald.

Miss Allen of Toronto is the guest of Mrs. James Cockshutt, Lorne Crescent, for a couple of weeks.

name of the place." "Yah, dot's de trouble," she replied. "I didn't bring his letter and I can't remember der name of der town, but it's some place out by China dot sounds like der noise a motor car makes."

The two clerks looked at each other dubiously. "What kind of a noise does a motor car make?" asked one.

"Honk, honk," suggested the other. "Yah, dot's it," exclaimed the woman. "Yah, honk, dot's de place."

"Fill it in Hong Kong," said the clerk, and she paid over the money with a sigh of relief.—Weekly Telegraph.

A good way to have all the friends you need is not to need any.

She Didn't Know Mother. Boys will be boys except when they are little catches, and Tommy was no exception.

He had broken one of the school rules, and the teacher told him to tell his mother about it, and also about the punishment he had received. This was foxy of teacher. She thought mother might thrash him again.

The next morning she asked, "Well, Tommy, did you tell your mother about your bad behavior yesterday, and how I punished you?" "Yes, miss," replied Tom quickly. "Well, what did your mother say?" was teacher's next question.

"She said she'd like to wring your neck, miss," replied Tommy calmly.

Don't Blame Him. Maud—I've just heard of a case where a man married a girl on his deathbed, so that she could have his millions when he was gone. Could you love a girl like that?"

Jack—"That's just the kind of a girl I could love. What's her address?"

THE HOUSEWIFE. Air Bath for Hair the Best Tonic. "I know of no tonics or lotions that will do the hair so much good as an air bath. I mean by an air bath to release your hair from all pins and rats, letting it fall around your shoulders, free to the fresh air. When the weather permits, sit in the open air and let the breezes blow your hair about your shoulders acting to the roots of the hair. Massage the scalp a little to open the pores to the air, and let them drink in nature's remedy for all their ills. Fresh air inside and outside will cure any ailments you may be heir to. (This is not a pun). Remember, it is a rebuke to your Creator to deny yourself fresh air." So says Lillian Russell, the beautiful actress.

The Velvet Stole. A substitute for the expensive fur stole is one of velvet. The tint should be chosen to suit the costume, and the soft velvet, made with a lining of satin to match, can be finished with a silk cord all around and tassels to correspond, or a border of ratine or the new broadtail cloth.

Valuable Sewing Hints. Beautiful buttonholes may be made in any material, no matter how thin if they are first marked and before they are cut out are stitched along each side on the machine. Cut between the two rows of stitching and there will be good foundation for the buttonhole stitches, with no danger of raveling. This makes the working of any buttonhole much easier and greatly adds to its durability.

The Waistline Once More. With the return of the natural waist line, or one very little above the natural, detachable belts have, of course, come back to us in many dainty forms. Black velvet is the most popular material for these, which are in almost every case of a style approaching the sash. That is, although they fit closely around the waist, they are adorned with one or two ends, or loops.

According to the Fifth Avenue dress parades the huge fur neckpiece has had its day, for so overdone in cheap pelts, it has fallen into disrepute with the elect of fashion and now the most distinguished throats are kept warm by narrow furry collarettes instead of being bundled in huge animal skins which trail over the shoulder and down the back.

Handkerchiefs should match the hat, so Paris sends tiny ones of brown, taupe grey and blue, more for ornament than use, and others with colors combined with white, also some exquisite embroidered mouchoirs, which have taken months to achieve.

THIS WEEK'S ADVICE. These chilly days are finding work for us. Before long somebody will have to do some waiting. Then there will be a rush in earnest. So those who have promised themselves an overcoat will be ahead by ordering ahead here. Skilful tailoring for careful dressers. Harwood,

THE PROGRESS

In Connection With the Proposed Brant County Sanatorium for the Treatment of Consumptives--Encouraging Reports are Made.

A meeting of the full Board of Trustees of The Brant Sanatorium took place at the office of Mr. A. E. Watts, Court House, recently. The Vice-President, Mr. C. Cook, was in the Chair in the absence of the President, Mr. E. L. Cockshutt. The members present were: His Worship, the Mayor, Messrs. Gould, Coles, Dr. Ashton, Watts, Olive, and K. V. Bunnell the Secretary of the Board.

Mr. Barber, the Architect for the hospital building, was present and made a statement as to the present condition of the building. The building is now in the hands of the steam fitters, who promise to have the heating system ready for steam this week when the rest of the work will be rushed to completion. Mr. Watts the Chairman of the Finance and Building Committee, submitted his report, showing that contracts had been let to the amount of \$21,321.00, most of which contracts were nearly completed.

The financial statement showed that subscriptions to the Building and Furnishing Fund to the amount of \$18,978.00 had been promised. This, together with the Government Grant, will make the amount at the disposal of the Committee \$33,000.00. Mr. Olive, Treasurer of the Association, reported that the subscribers were making a generous response to the appeal of the Committee, and that those who could do so should send in their subscriptions. At the same time any subscribers who can conveniently pay the amount of their subscriptions and have not already done so, Mr. Olive will be very pleased to receive the amount of their subscriptions, as it will be necessary in a very short time to pay the contractors the full amount of their several contracts and to enable the Committee to meet their obligations promptly, it will be necessary that all the subscriptions should be in hand.

The Committee was authorized to make a change in the hot water system to make it more effective, as the change can now be made at a very small extra expense. Plans were submitted by the Architect for the building of a cow stable and garage or horse shelter. After considerable discussion, the architect was instructed to prepare plans by which the laundry building would be extended to provide for a garage and morgue, and to prepare separate plans for a cow stable so that the stable could be located at

PUTS AN ENE TO BACKACHE QUICKLY CURES WEAK KIDNEYS

A Few Doses Give Relief, Helps Lifeless Organs Regain Health, Strength and Activity

It is useless, dangerous and unnecessary to be tortured with the digging, twisting pains of backache and rheumatism, or suffer with disagreeable kidney and bladder disorders any longer. The new discovery, Croxone, provides a remedy which every sufferer can now depend upon to promptly and surely relieve all such misery and bring about a speedy cure. Croxone cures these troubles because it quickly overcomes the very cause of the disease. It soaks right into the stopped up, inactive kidneys, through the membranes and linings; cleans out the little filtering glands; neutralizes and dissolves the poisonous uric acid and makes the kidneys filter and sift from the blood all the

waste and poisonous matter that clog the system and cause such troubles. It does not matter whether you have but slight symptoms or the most chronic, aggravated case of kidney, bladder trouble, or rheumatism that is possible to imagine, for the very principle of Croxone is such that it is practically impossible to take it into the human system without results.

You will find it different from all other remedies. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it, and all the misery and suffering that go with such troubles end.

You can secure an original package of Croxone from any first class druggist. All druggists are authorized to personally return the purchase price if it fails, to give the desired results the very first time you use it.

TO CONTRACTORS. SEALED TENDERS endorsed "Tender for Work" will be received at this Department until noon of January 17th for heating, plumbing and electric wiring and plastering of the new Veterinary College, corner of Anderson St. and University Avenue, Toronto. Also for heating, plumbing and electric wiring of the new Dormitory Building at the Institution for the Blind, Brantford. Plans and specifications may be seen and all information obtained at the Department of Public Works and the above Institution. An accepted bank cheque payable to the order of the Hon. J. O. Reaume, Minister of Public Works for five per cent of the amount of

The tender and the bona fide signatures and addresses of two securities or the bond of a guarantee company approved by the Department, must accompany each tender. The Department will not be bound to accept the lowest or any tender. By order, H. F. McNAUGHTEN, Secretary, Department of Public Works, Ontario, Toronto, Jan. 4, 1913. Newspapers publishing this advertisement without authority, will not be paid for it. "My nerves were very bad, and I control my arms and legs," writes Mrs. Robert Bustard, Maxwell, N.B. "Dr. Chase's Nerve Food cured me of what I believe was the early stage of locomotor ataxia or paralysis. I cannot describe what I suffered, but now I am entirely cured."

# ARE YOU SICK?

If So, We Can Locate Your Disease or Affliction Without Any Information From You.

FREE AT OFFICE

A new method of ascertaining and adjusting the physical cause of disease. There are comparatively few people who are perfectly well. The Chiropractic Spine Adjusters have discovered the cause of disease, and their wonderful adjustments restore ninety per cent. of those afflicted.

NO DRUGS—NO KNIFE

D. A. HARRISON, D. C. I. W.  
ELLEN E. HARRISON, D. C. I. W.  
DOCTORS OF CHIROPRACTIC.

Graduates of Robbins' Chiropractic Institute Limited. Members of the Universal Chiropractors Association and members of the Ontario Association of Chiropractors.

OFFICE: 202 Wellington St., Brantford, Ont.

Office Hours—4 to 4 p.m. and 6 to 7.30 p.m.  
Mornings and Sundays by appointment.

If This Announcement

Convinces those who have become discouraged through failure to regain health that Chiropractic is at least worth a trial, it has served its mission. Consultation and Examination free.

### Definition.

What is Chiropractic? Chiropractic (Ki-ro-prak-tic) is a word coined from two Greek words—Chiro and Praxis (in combination) Chiro-practic which means hand doing or hand practice. One who adjusts by hand any subluxated articulations of the human skeleton frame, especially the 33 bones of the spinal column for the purpose of restoring the normal flow of currents through nerves that were formerly hindered by impingement caused by the subluxation of the bones.

All movements whether normal or abnormal, of or in the body are but the personifications of mental equivalents—mental functions—guided by Innate Intelligence, creating physical expression.

Diseases are caused by a lack of current of Innate Mental impulses. This is produced by a constricting force placed around nerves by vertebral displacements brought about by muscular contraction or concussion of forces.

Health is restored by completing the mental and physical circuit, the method of which is unique and original and does not in any way inconvenience or prohibit the patient from the ordinary duties of life.

A New Science—The Curative Powers Are Within the Body Itself.

The Chiropractic method is a new science of adjusting the cause of disease without drugs, based on a correct knowledge of anatomy, and especially the nervous system. With this knowledge of the cause of disease and our unique method of adjusting the cause, we have learned beyond question, that the curative powers are within the body itself, and that the cure of disease depends wholly upon the body—upon the Chiropractic method of bringing the functional organs into harmony allowing the Innate mental impulses to flow unobstructed to all parts of the body.

Chiropractic Not Osteopathy.

One of the most frequent questions that a Chiropractor is called upon to answer is this: "What is the difference between Chiropractic and Osteopathy?" The difference is as great as the distance between the poles. Chiropractic does not treat effects. Chiropractors do not manipulate the muscles in any way. They adjust subluxated vertebrae into proper alignment, and it takes but a fraction of a second to do it. The whole object is accomplished when the nerve force is turned on. The Osteopath will spend one half hour to two hours in treating their patients, and then only relaxing the muscles. There is as much difference between Osteopathy and Chiropractic as there is between Chiropractic and the practice of medicine. The Chiropractor confines his work to the Spinal Column ONLY, as that is the only place the nerve can be impinged or where affections can exist.

Quizzes and Answers for Chiropractors.

Do you use electric belts or batteries? No.

Do you use medicine or drugs? No. Do you practice surgery? No. Do you practice obstetrics? No. Do you rub, slap or use massage? No.

Do you use a stretching machine? No. Do you hypnotize or mesmerize your subjects? No.

Can you treat me at a distance? We could no more fix you at a distance than your fowler could fix your watch at the same distance.

Do you have to have faith? No. We adjust six months old babies.

Is there anything in your science like Christian Science, Faith Cure, Mind Cure, Metaphysics, Suggestive Therapeutics, Mental Science, Osteopathy? No.

Do you cure disease? No. We adjust the cause and nature does the healing. We remove the dams or obstructions that are restricting the life current.

CHIROPRACTIC (Spinal Adjustments). Remove the Cause of Disease Without Medicine or Knife.

There are 31 pairs of these nerves, 25 pairs of which comes from between the movable vertebrae. Any interference with them by a displacement of the vertebrae causes a diseased condition. Nerves control the skin, muscles, ligaments, mucous membrane and bones, and regulate the amount of blood sent to any part of the body by contracting and relaxing the vascular system. The blood carries the nitrogenous substances which nourishes the body. The impurities are also carried by it to the proper organs for elimination. The movements of any part of the body are controlled by the nerves. Irregular, normal or abnormal, are controlled by the nerves. There is not an ache or a pain but is the sensation of the nerves. All pain is due to pressure upon the sensory nerves. All morbid action of the body is due to lack of vital force in, or irritation of, the motor nerves. Subluxations of the vertebrae of the spinal column are the causes of 90 per cent of abnormal, deranged or diseased nerves. When a nerve is interfered with in any way, that minute disease begins and sooner or later its effects are noticed where the nerve reaches and ends. Chiropractic is a drugless system and should not be confounded with massage, magnetic or hypnotic treatment, as it bears no resemblance to the latter. Chiropractic is not Osteopathy, but reaches many diseases that Osteopathy cannot.

CHIROPRACTIC. Is Based on These Two Principles: 1. Sub-Luxation (partial displacement) of Bones causes Pressure on Nerves.

2. PRESSURE ON NERVES causes disease. The cause of disease has been and is yet mysterious to the great mass of humanity, but the mystery has been solved by the Chiropractor (spine adjuster).

My business is to adjust the cause, to RELEASE THE PRESSURE on the nerves and to restore normal action—therefore normal functions and perfect health. I do not rub, massage, knead, manipulate or treat disease.

ADJUST CAUSE. My philosophy of taking off the pressure, has the more rational claim upon all sufferers. I give a logical reason for the cause of disease.

Acute Cases. Acute cases are often relieved in one or two adjustments. In cases of long standing the vertebrae have their forms changed by long continued pressure and time is required to get them back to normal position and to restore the freedom of nerves. That this can be done has been proven beyond the shadow of a doubt in 90 per cent. of the cases adjusted.

Marvelous results follow our system of Spinal Adjustments, and we stand ready to give you abundant testimony of persons who have been restored to permanent health by our Spinal Adjustments. If you have any of the following ailments stop taking drugs. Go to a competent Chiropractor and have him take off the pressure, and health will be the result: Appendicitis, hysteria, blood diseases, heart troubles, insomnia, Bright's Disease, kidney diseases, childbed fever, lumbago, constipation, Locomotor Ataxia, consumption, (wet stages), liver diseases, bladder trouble, indigestion, bowel trouble, Lung Trouble, Diabetes, Meningitis, Dyspepsia, Nervous Debility, Female Diseases, Pneumonia, Gall Stones, Pleurisy, Grippe, Rheumatism, Sciatica, Spinal Diseases, Stomach Trouble, St. Vitus Dance, Shortness of Breath, Tetanus.

If your ailment is not mentioned, do not become discouraged, my space is limited.

I make it possible for nature to restore health WITHOUT drugs or knife.

This means YOUR DISEASE. With Interrupted Nerve Force Health Is Impossible.

Without nerve force the blood cannot circulate properly. The lack of circulation means strangulation, and strangulation causes many diseases, such as dropsy, tumors, running sores and various so-called skin diseases.

Chiropractic—Nature's Method. Frees the circulation, thereby permitting the refuse to be thrown out of the body through the natural channels.

Pressure upon Nerves causes such diseases as Paralysis, Rheumatism,

Neuralgia, Asthma, Female Diseases, and the various Diseases of the Stomach, Liver and Kidneys.

As all the motor and sensory powers are transmitted through nerves, it is plain to be seen that the nerves should be free from all abnormal pressure. Strange, but true, all the nerves of the body may be freed by adjusting the spinal vertebrae with the hands.

Removing the Cause. Chiropractors have remarkable success in removing the cause of Appendicitis, Deafness, Asthma, Rheumatism, Lumbago, Lame Back, Constipation, Piles, Female Diseases, Stomach and Kidney Trouble, Nervous Prostration and Pneumonia. NO LOCAL EXAMINATIONS used, as they are unnecessary.

Lady Patients. In no line of disease do we have better success than in the ailments which afflict womanhood. Benefits are promptly shown without the annoyance which they are subjected to under the drug treatment. The proper nerve supply being restored, the normal functions are quickly re-established.

What I All Sighed Up After—Taking Spinal Adjustments? Disease is a perversion of the normal law. To get well requires the time that is necessary to rebuild these abnormal tissues. To accomplish this means that all diseases must retrace their steps. Sometimes the steps are small, but it is all for the best; it is then that you should grip tightly and remain by your chiropractor, and in a few days you will generally see good results.

Motherhood Made Easy. Motherhood should not be as painful and dangerous as it is, an if nature had its own way it would not be so, but it is in a great majority of cases, there are some of the nerves impinged through which nature controls the organs of generation, and this makes them inactive. This would not be so if all nerves were freed to work in harmony. This has been proved by great many ladies who have taken Chiropractic spinal adjustments.

People Are Sleepless. When anything new in the light of a radical departure from what people have been educated to believe is brought before them, it is human nature to be skeptical. The man who invented the telegraph, the man who discovered the circulation of the blood were at first looked upon as lunatics or fakirs. But nothing can down truth. Many other great discoveries which at first met with scorn, have been recognized as blessings in scores of years.

The science of Chiropractic but a few years ago was unknown. To-day it is known only in communities where it has accomplished seemingly marvellous results in the cure of disease. People must believe the evidence of their senses. If a person comes to a Chiropractor with a disease which doctors have failed to cure, and that person is completely restored to health, he must believe it is not tangled up with long technicalities, he only knows he is cured. The Chiropractor tells him why he is sick, and proves that he is correct by giving the patient adjustments that allow nature to restore him to health.

Chiropractic gives nature a chance to make you well.

CHIROPRACTIC. Is Based on These Two Principles: 1. Sub-Luxation (partial displacement) of Bones causes Pressure on Nerves.

2. PRESSURE ON NERVES causes disease. The cause of disease has been and is yet mysterious to the great mass of humanity, but the mystery has been solved by the Chiropractor (spine adjuster).

I make it possible for nature to restore health WITHOUT drugs or knife.

This means YOUR DISEASE. With Interrupted Nerve Force Health Is Impossible.

Without nerve force the blood cannot circulate properly. The lack of circulation means strangulation, and strangulation causes many diseases, such as dropsy, tumors, running sores and various so-called skin diseases.

Chiropractic—Nature's Method. Frees the circulation, thereby permitting the refuse to be thrown out of the body through the natural channels.

Pressure upon Nerves causes such diseases as Paralysis, Rheumatism,

# THE GOURMET.

The Fine Art of Living In Order To Eat.

The witty Frenchman, Max O'Rell, once wrote: "The Frenchman dresses, the Englishman eats, the American horse," and although the more modern Englishman has in part renounced the approach, yet O'Rell's statement will serve as exhibiting the true distinction between the gourmet and the gourmand. To take an intelligent interest in the art of feeding, so as to derive the best possible results from it, is to become a gourmet. The gourmet is a man who, in all his food, has been in all ages and in all climates since the birth of civilization looked upon as permissible, and, temporarily, as the gourmet of the time, stands the gourmet, taking a pleasure in the mere feeding from its practical point of view, and dangerously approaching the realm of gourmet.

The dividing line is a narrow one, and indeed, as a gourmet, the gourmet is a man who, in all his food, has been in all ages and in all climates since the birth of civilization looked upon as permissible, and, temporarily, as the gourmet of the time, stands the gourmet, taking a pleasure in the mere feeding from its practical point of view, and dangerously approaching the realm of gourmet.

The gourmet is a man who, in all his food, has been in all ages and in all climates since the birth of civilization looked upon as permissible, and, temporarily, as the gourmet of the time, stands the gourmet, taking a pleasure in the mere feeding from its practical point of view, and dangerously approaching the realm of gourmet.

The gourmet is a man who, in all his food, has been in all ages and in all climates since the birth of civilization looked upon as permissible, and, temporarily, as the gourmet of the time, stands the gourmet, taking a pleasure in the mere feeding from its practical point of view, and dangerously approaching the realm of gourmet.

## SPORT

### THE TURF

**Ex-Jockey Fuller's Case,**  
NEW YORK, Jan. 14.—Grover Cleveland Fuller, a jockey, who made \$300,000 for James E. Keen and \$75,000 for himself in one season ten years ago, pleaded guilty today to having stolen a pocket-book containing a few pennies, from an acquaintance in an uptown saloon. He was remanded for sentence till Friday. Fuller said he had not been doing anything lately except drifting.

### YACHTING.

**Chance for Canadian Boats**  
CLEVELAND, O., Jan. 14.—Winners in the sail yacht races this summer of the Interlake Yachting Association will receive \$500 in prizes. It was announced here yesterday after a meeting of the sail yacht committee at the home of Commodore George H. Worthington. The races will be held at Put-in-Bay, in conjunction with the celebration of the Perry centennial.

### BASEBALL

**To Hold Guelph's Franchise**  
GUELPH, Jan. 14.—With his duties as Chief Magistrate of the city at an end, ex-Mayor Thorp will now get to work to raise \$500 by public subscription to keep the Guelph Maple Leafs here for the present year, as per agreement with President Mackin. The team is being gathered together and a secretary-treasurer and a business manager will be appointed and everything put on a business basis. With a good season the Leafs may come out of the hole this year, but the back indebtedness has yet to be paid off.

### HOCKEY

**Hockey Results.**  
The following were the hockey results last night:—  
Senior O. H. A.  
Parkdale 13, Stratford 4.  
Peterboro 6, Kingston Front 4.  
Intermediate O. H. A.  
Midland 9, Collingwood 4.  
Goderich 4, Seaford 2.  
Junior O. H. A.  
Tor. Canoe Club 7, Parkdale 6.  
Peterboro 14, Port Hope 4.  
Oshawa 9, Cobourg 3.  
London 9, Ingersoll 6.  
Preston 3, Gal 2.  
Kingston Coll. 5, Trenton 2.  
St. Andrew's 4, Upper Canada 3.

**Hockey Gossip**  
The Toronto professionals made strenuous efforts to secure Frank Rankin, of St. Michael's, yesterday, but up to a late hour last night they were unsuccessful.  
Bill Hyland, of last year's Eaton team, turned out with the T. R. and A. A. last night, and will likely figure in their next game against Parkdale. St. Michael's yesterday participated to play an exhibition game with Preston in Hamilton to-morrow night. Some objection was raised about T. R. and A. A. playing Preston, owing to both being in the same group.  
Toronto and Tecumseh's meet to-morrow night in the N. H. A. series. Given hard ice, the contest should be a close one.  
The Eaton A. A. House Hockey League open their season to-night with two games and a skating party at Victoria College rink. The first game is in the junior series at eight p. m. between the general office and main floor, while the printing and the mail order will battle it out, commencing at nine.

**Cook's Cottin Root Compound.**  
The great Urtica Toxicaria, and other safe and effective medicinal plants, which women can depend on, sold in three degrees of strength—No. 1, 2, 3. For special cases, see per box. For prompt relief, see per box. Prepared on receipt of price. For names of Dealers, see per box. Sole Dispensary Co., Toronto, Ont. (Formerly W. Woodrow)

### Local Juniors

**Hand the Hams a Trimming in a Fast Game by a 5 to 2 Score.**

The local juniors redeemed themselves in every way last night at Hamilton by handing the Ambitious City youngsters a 5 to 2 beating. The game, which was fast and featured by hard checking throughout was one of the best contests ever put up by the juniors. The teams lined up at 8:30 sharp with Art Anglin of Toronto holding the whistle. The Brantford kids were the first to show and made the play very lively for a couple of minutes, but the change from natural to artificial ice seemed to handicap them, and many an early attempted rush was lost by a local player falling. After three minutes of fast play, Parker came through the entire Brantford line-up for the Hams, first score. Four minutes later the Hams youngsters notched another shot, the forward line playing beautiful combination and McClung put a hard one by Berry, who was playing a magnificent game in the nets. With a margin of two tallies against them, the local kids carried the play into the red shirts territory. Time after time the boys rained shots on the home crew's citadel, but the clever work of Sloan in goal and Parker at cover was responsible for the score being kept down. Twelve minutes after the game started Brantford scored their first counter, the "Gold Dust Twins" Klersey and O'Connor doing the trick. Klersey taking the shot. Three minutes of end to end play followed and both goals were in danger many times. The local lads kept the rubber in the homesters territory most of the time and O'Connor put a pretty one past Sloan from centre ice, and with the score tied the crowd went wild with excitement. At this stage of the game the Brantford crew had found their feet and were checking back very strongly. Pace and Klersey stopping many a dangerous looking rush, while Bragg at point, saved many a goal. The teams played clever hockey for the balance of the half and when the bell rang for the rest period the score was even up—2-2.

### BASEBALL

**Headachy, Bilious, Upset? "CASCARETS."**  
BILIOUS THROBING HEADACHE MEANS BOWELS ARE CLOGGED AND LIVER STAGNANT.  
You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascares—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascares, because they taste good and never gripe or sicken.

**Headachy, Bilious, Upset? "CASCARETS."**  
BILIOUS THROBING HEADACHE MEANS BOWELS ARE CLOGGED AND LIVER STAGNANT.  
You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascares—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascares, because they taste good and never gripe or sicken.

When the game was resumed the local kids were first to get going and in 30 seconds the puck was carried to the Hamilton nets, but clever guardianship on the part of Sloan kept the Brantford boys from scoring. During the interval Manager Hanley moved O'Connor up to the forward line and it was a wise move. This kid is the most likely looking player that has ever put on the blades. He is a hard check and very fast on skates, and is also a clever stick handler. The game was at this time fast and furious, but the local boys gradually but surely outplayed and outskated the Hamilton boys and two minutes after play was resumed Summerhayes put Brantford in the lead from a pass from behind the net. With victory in sight the visitors put up a determined battle. Every time the Hamilton line broke away for a rush the locals skated them hard and consequently either Summerhayes or Bragg would break up the rush. Time and again Bragg carried the puck from his goal into the enemy's territory, while the forwards followed up fast and 4 minutes later Cassidy tagged another tally for the yellow and black. Hard checking then became the order and Klersey and Pace showed their calibre in this department. The play during the last ten minutes was practically all confined to the Hamilton end. The mistake of the Brantford boys in not boring in closer on the goal after a shot, kept the score even, but Pace made the score 5 to 2 with a pretty shot five minutes later. With five minutes to go the teams played hard and Referee Anglin penalized players on both sides for over-hard checking and trips. The whistle for time found the play centered around the home goal.

Of the Hamilton team, Parker, McClung and Boyd played clever hockey, but three men do not make a hockey team, and after the first ten minutes of play their efforts were practically individual. Of the local team, O'Connor and Bragg were the shining lights, while Berry made a strong guardian of the nets. Outside of a few trips, the game was very clean. Referee Anglin giving excellent satisfaction. The teams: Hamilton (2)—Goal, Sloan; point, Ott; cover, Parker; rover, McClung; centre, Green; left wing, Crawford; right wing, Boyd. Brantford (5)—Goal, Berry; point, Bragg; cover, Summerhayes; rover, Pace; centre, O'Connor; left wing, Cassidy; right wing, Klersey. Referee, A. Anglin, Toronto. Attendance 400.

## Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, men's drake and stone root, golden seal, Oregon grape root and cherry bark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the ossification of the stomach is apt to be "out of kilter" at times; in consequence the blood is discolored, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach, puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of impurities in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes this—yes, foal "blow."

## COLDER WEATHER MEANS Warm Footwear

The selection of such Footwear is a pleasure here. We pay special attention to this line, and this year finds us with a larger and more varied stock than ever.

If there is any one line of Footwear that needs to be good, it is the heavy winter lines. We realize this, and therefore buy where quality can be gotten. We never make dazzling announcements to get the public to invest in something cheap—never.

Come in and look over our line of Waterproof Boots and Shoes, Rubbers, Rubbers and Sox, Moccasins and Flat Goods. You'll be pleased with our stock, and our prices, too, will set you thinking.

Our stock of Suit Cases, Club Bags and Trunks is very extensive, with prices ranging from 99c up.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Brantford, Ont.," will be received at this office until 4:00 p. m. on Monday, February 3, 1913, for the work mentioned.

Plans, specifications and form of contract can be seen and forms of tender obtained at the office of Mr. Thomas Hastings, Clerk of Works, Postal Station "F," Yonge St., Toronto, at the Post Office, Brantford, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (ten per cent) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for.
