DAILY CLEANER SELLS TO PAPER CHAIN

UNB Student Draws Sentence

By JIMMY OLSEN - Cleaner Staff Writer

16-year old Paul Hair of Bartons Dump NB, an art's student at UNB was sentenced yesterday in Saint John. The condemned was nabbed on an unorthodox narcotics charge.

Hair's discovery, a purplish leafy sea-plant which is easily obtainable the Maritimes was until now considered to be "unobjectionable" to contemporary Maritime society. This help known commonly as "Dulse", when salted with fiddlehead greens becomes a sinful concoction capable of rendering the most steadfast mind rotten with avarice and sinful desires.

Judge Floyd Smith found the accused guilty according to

the pure foods and drugs act. The sentence for the combined charges of the possession of narcotics and being under the influence of same and indecent exposure was \$500 and 99 years of hard labor at Dorchester Penitentiary. On release, if he lives that long, an investigation into how he procured the money to support this dubious habit and to consider if any ulterior motives such as sabotage of N.B. industry, were present. The jury was heard to exclaim "Boys, When the judge said they were going to lock him right up that feller was somethin' sorry." At last report Hair's ex-lanldady had left her home and applied for Welfare.

See UNB, page 5

AWARD: Former acting Brunswickan editor, J.B. (dirty, drug-crazed hippy on left) and Cleaner bossman Benny (clean-cut, Don Juan on right) clench their teeth as Benny awards the Brunswickan the Fickle Finger of Fate award (center). The Brunswickan won for excellence in court reporting. (Typical Fickle Finger)

Erbigthing Now Owns Whole Shootin' Match

By BRUNSWICKAN NEWS SERVICE

The Daily Cleaner, one of New Brunswick's fastest decaying home-rural newspapers has sold out to NB pride of industrial establishment, K.C. Erbigthing Company.

The Cleaner, one of New Brunswick's oldest most established daily newspapers has among its credits of journalistic endeavours a five star shield in tribute to its unbiased non-reporting of the Oralmocktoe news interests. Upon presenting the award the commanding officer was warm with praise.

"Never in all my travels have I encountered such good coverage of any army base. You people have not missed one piece of dirt since I came here some five years ago, you always cover our rapes and muggings so well."

The Cleaner won more honours with its 1967 coverage of an attempted coup d'etat by an angry lumberjack's son from Richabucktoo. Leading off with a fiery attack headlined Six Points to Dictatorship, The Daily Cleaner was awarded the Preventive Maintenance Award by the Edmudd Bourque Society. The Cleaner ignored all protests and insinuations that the man was to be elected by the good people of New Brunswick and the Patriarchs in the St. Jeans River valley.

The Cleaner convinced of the extreme rightness of its stand has refused to change since they must protect the citizens from the danger of creeping socialism.

With the purchase of the Daily Cleaner this brings all English language dailies under the control of Erbigthing who stresses the convenience that greater conformity will allow. This latest purchase will in no way effect the editorial department since they will continue to reprint other editorials of interest to readers.

K.C. Erbigthing Oil Company is to New Brunswick what Standard Oil is to New Jersey. Big business and their control of the mass media here will bring the much needed financial stability to the Daily Cleaner.

An informed source who declined to give his name due to personal reasons (ie his brother has an Erbigthing gas concession) commented on the recent criticism leveled at the Erbigthing Company interests

and their control of the mass media in New Brunswick.

"The control of the mass media is only a drop in the bucket considering that he only controls two of the radio and TV interests out of a possible three concessions. Erbigthing's interests have approximately three quarters of the round woodlots that were tax-free until Lewis Rubbershrewd's government decided to tax the stumpage controlled for more monies.

"Not to mention the various steel and construction companies under his control. The media is small time stuff to these concessions so why worry," he said.

Rumors were rampant that he underwrote the finances of any opposition moves against that traitor lumberjack's son, Lewis Rubbershrewd. The Cleaner and Jay Cee Vander BlowHorn vehemently denied all allegations to this effect.

Mr. Erbigthing was unavailable for comment on any indications that the media control of the Erbigthing interests was to come under Federal investigation due to adverse publicity about his control of the daily newspapers.

A usually reliable source said that this control could only benefit New Brunswick since it would lead to conformity of opinion and prevent the outside influences that might question his actions and that we must protect the people of New Brunswick from Commie, Far Left Publications.

Officials of the Cleaner say that the new ownership will not affect any present campaigns to clean up the news-stands to protect residents from obscene material.

ON POGO STICK Air Cadet Hops Into Family Tradition

By D. MANDARIN - Cleaner Staff Writer

WO1 Brian Mandarin, of the local 000 Lord Beaverswamp Air Cadet Squadron hopped into a family tradition yesterday when he leaped from the helicopter hovering 20 ft. above the ground with pogo stick in hand.

He was following a precedent established by his brother and his father before him. All experienced the same harrowing mishaps.

WO1 Mandarin struck the ground forcefully and bounced 30 ft. into the air. On his way down, the bottom of his pogo stick caught on a telephone wire and turned three somersaults before bouncing again. This time he smote the ground with his body right in the middle of a huge mud puddle. But, in the true military tradition, he jumped to his feet immediately and prepared for another jump.

The same thing had happened to his father, Don Mandarin, almost twenty years previous. His brother suffered identical consequences, the

only difference being that he lost his pants on the telephone wire when he first jumped five years before.

The course in Pogo Stick Jumping is one of the local squadrons attempts to put the "air" back in Air Cadets. Only the top cadets in the squadron make the Pogo-Stick Jumping Club. Along with WO1 Mandarin, there were five other cadets who jumped.

Major D. Mandarin, Commanding Officer of the squadron, commented "These fine young men perpetuate the great traditions of the Royal Canadian Air Force."

See AIR, page 5

More Beer Drinkers

For the year ending March 31, 1968, the Canadian Liquor Control Commission announced that the total amount of beer consumed in Canada was 342,198,738 cases which was a 3.9% increase over last year. The US had only 340,259,685 cases consumed which was a 5.8% increase over last year in the States. So drink up, fellow Canadians, they're gaining on us!

Council Passes By law

The Fredericton City Council passed the anti-pornography by-law at the regular Council meeting last night by a vote of 9-6. Unfortunately, due to the explicitness of the terms and details of the by-law, the Cleaner regretfully announces that it is unprintable.

Last night at a special meeting of the Nites of Columbia, a large group of interested citizens and students turned out to propose action on the pornography crisis that exists in the Fredericton area.

The well attended meeting was held at the Monsenor Boid gospel chambers, and was under the Chairmanship of Justice I.M. Vain. In attendance also were representatives from most of the public service clubs in the Fredericton area, the most prominent of these being, Her grace, Beloved Maternal Sister Frances Z. Muckraker, the acting supreme prayer-reader of the Fredericton Chapter of the Robin winged sparrows appreciation club.

The meeting opened with a prayer to the memory of all the birds that had lost their lives in their long flight south, and then the meeting began.

Symposium Disrupted

The University of New Brunswick managed to put aside its revolutionary goals for awhile yesterday to discuss education. The day-long symposium "Education and What It Means At UNB" was called by administrators when it dawned on them that students were misunderstanding the administration of reading, writing and arithmetic to them.

But the revolutionaries still were able to disrupt that calm, rational discussion by making impertinent suggestions and asking annoying questions while the majority of hard-working, clean-living, freedom-loving students were attempting to learn from the administrators that education is listening to what our elders say and believing it, that one

side of a question is more right than the other, especially if that is the side of experienced university administrators who have held their posts for 22 years.

They have found it necessary to put injunctions on 14 students and non-students because, a spokesman said, "they have refused to obey rules that have been part of our university for 100 years."

Trudeau In Washington

Prime Minister Trudeau will be travelling to Washington to meet with President Nixon. It is to be hoped that the talks will be successful because of the close ties which have always existed between Ottawa and Washington.

New Brunswickers will look in with a special interest since we too have a special relationship with Washington. For it is well known that Ted Williams the newly named manager of the Washington Senators of the American Baseball League owns a fishing lodge in the Miramichi.

So we join the rest of the Canadian people in wishing Mr. Trudeau well.

BULLETIN

It has been reported that K.C. Erbigthing has made a bid to buy out New Brunswick's latest English-language paper, The Free North Press.

Although the Press has an editorial policy differing slightly from Erbigthing's other newspaper, he thinks it will be a valuable addition to his collection.

According to a spokesman, Erbigthing bought the Press because he wants to "tell it like it is."

But one local pundit commented that it's more likely that Erbigthing wants to stifle the Press.

"He's publicity shy and the Press' blatant support of him in recent issues is personally embarrassing."

Time To Collect

The recent scrapping of the Northumberland causeway between Cape Tormentine and Borden, points out again to the people of the Maritimes, the incredible exploitation that they can suffer at the hands of Upper Canadians. The Ottawa Federal government is obviously controlled by the business interests of Upper Canada and has little interest in developing the Maritimes.

A recent survey has shown that the province of Prince Edward Island receives only \$6,000 per inhabitant per year, as a hand out from Ottawa. It's obvious that we're being discriminated against! After all the causeway only would have cost \$500 million, a small price to pay for the tremendous benefits the rest of Canada gets from the loyal Canadians of P.E.I. The Maritimes for years has been open to change in education and all facets of social life which has paved the way for a higher standard of living for the inhabitants of the eastern provinces. Surely it's about time the rest of Canada started taking note of what's going on here.

We have been open to change, we have put so much into Confederation; seldom complaining. When are we going you start getting back what they owe us.

King Edgar The First

Several small but vocal minorities who in no way whatsoever represent the majority of clean-living, hard-working, freedom-loving Canadians are demanding that Canada do away with its ties to the British royalty.

As usual Pierre Trudeau's Liberal dictatorship will bow to the demands of minorities rather than allowing police agencies to deal with them quickly and efficiently.

We believe that if we, especially we New Brunswickers who have affectionate ties with British royalty, must break these ties, then Canada should establish a royalty of its own. Canada needs a strong leader, one who is going to show vocal minorities their proper place. We need a leader with qualities which freedom-loving people can admire and put complete faith in.

We believe that American FBI chief J. Edgar Hoover has these qualities and we would wholeheartedly support Hoover as King Edgar the First of Canada.

Hirondelle's Achievement

Congratulations to the village of Hirondelle on the recent completion of its new Detention Camp. This picturesque village is contributing its full democratic attack upon brotherhood, liberty, and equality. This campaign is an international one, and is being enthusiastically welcomed by the democratic workers of the world.

The flames of the patriotic anti-Communist struggles of our loyal people are burning more and more fiercely, and the enemy will certainly not take its defeat lying down. They are frantically trying to revive outdated concepts of Revolutions of the Workers and armed aggression. This is utter nonsense. All one has to do is to look around to view the economic prosperity and political diversity to realize that no one is oppressed, doing their utmost to oppose our system, these radical cliques are only serving Chinese and Russian revolutionaries. However, no last-ditch struggles by these hard-core minority groups can save them from their inevitable doom.

Our great leader once pointed out: "Our system is a great system. It will certainly not allow Communism and Totalitarianism to ride roughshod over it for long."

Our great people are awakening still more. They are taking action and are tightening the noose around the neck of Red expansion. The day will soon come when the Red aggressors are driven forever from this land. Thus we salute the brave people of Hirondelle for their part in ridding our system of these undesirables. SALUTE!

We Commend Mr. Demon

We wish to commend heartily Mr. Demon's proposals for the university. If he were to run for president of the local university, we would throw our full support behind him. We agree Mr. Demon, Discipline is the answer. If such a policy were implemented, the anarchy that exists on the campuses to-day would end. Such incidents as those experienced at McGill and Sir George William would never occur if the proper restraints were employed. Order must be restored. Let peace return to the campus.

TIDAL WAVE?

J. Edgar, The Big G

J. Edgar Hoover, defender of the free society, nemesis of the Communies, law-and-order personified has unearthed another pinko.

Last week 1000 police from the FBI, the secret service, state and municipal forces joined in a country-wide sweep to arrest executive and members of the national florists association.

Hoover said the florists were part of an evil, nefarious plot involving drug-crazed hippies, a large record company and Communist agents. The plot would have infiltrated the whole of American Society had it not been for the brilliant work of Hoover and the FBI.

Hoover charged that the florists were planning to flood the market with red and pink carnations. The drug-crazed hippies, under their usual guise

of "flower children" were to distribute the flowers to all freedom-loving middle class Americans. In conjunction with this think-pink campaign the record company was going to begin redistribution of the nostalgic favourite "A white sportcoat and a pink carnation".

By this cunning psychological infiltration, the Communies were going to prepare the country for a gradual but complete takeover.

It is a credit to J. Edgar Hoover, that indomitable Rock of Gibraltar staving off the Yellow-and-Red Horde, that the United States has once again been saved.

While others around our leaders are plotting and whispering, deceiving lies, Hoover tightens his blinders of freedom and prepares himself for the next onslaught.

Without him we would be lost, J. Edgar Hoover, the big G, is our savior.

Prelude To Pornography

(Ottawa Urinal)

Modern Society is associated with sex. We are inundated with sex in every form, from every medium. We are subjected to a saturation bombardment, a torrential attack, a deluge or perversion, yet we are not amazed or aghast at the constant references and allusions to sex, because sex has become more subtle, although no less diabolical.

The vicious circle of sex is leading society to disaster; the more sex-filled movies become, the more sex-crazed the public becomes, and demand more sex for carnal pleasure.

Fashions are big business, and incorporate sex for an easy profit. The sale of perverted and despicable "smut" literature has reached unparalleled proportions. Television and other media exploit sex, and the campuses are coming alive with it. Some even sell contraceptives in vending machines.

Our society is in trouble—doses of venereal diseases are increasing to epidemic proportions; reports indicate that cancer of the cervix is caused by promiscuity and is more prevalent in promiscuous women; illegitimate children, don't have the same opportunities to grow up as normal children; reports also indicate that sex leads to mental disease.

Sexual problems have led to an unmistakable decline in our historical traditions; Religion, morals, honesty, faith, love, and trust are all disappearing. Prostitutes have to pay a horrible price for violating certain metaphysical laws.

Sex is simply not worth venereal disease, cancer, illegitimate children, unhappiness and eventual suicide. Sex and marriage are secular items, for without God's Divine Blessing they would be relegated to animal acts of lust and raw pleasure. Love and marriage are necessary to make a couple complete as contributing members of society. God has given the wisdom and power to fulfill this understanding.

Analysis And Objectivity

(The Toronto Smellogram)

Even the best policies should be periodically revised to ensure their modernization and contemporary validity. The policy of this journal is one of analysis and objectivity with a speculative flair. We are dedicated to a close critical analysis of all situations from an objective and unbiased viewpoint in our attempt to maintain the traditions of North American journalism. This necessitates the use of unquestionable sources. The various political publications, whether Left, Right, Erotic, Student, or Underground, hence are invalid sources because their highly developed subjective senses of right and wrong tend to distort their presentations. This forces us to disregard their analysis as slanted.

Our sources have been carefully chosen upon the basis of past records and present policies. They are as humanly

infallible as is possible. Thus, because of our extraordinary sources and our integrity, you can rest assured that our conclusions are bona fide and have been substantiated by every facet of our historical tradition. Our conclusions are correct. If we call the Viet Cong the "enemy", it is a precise address, and stands as such. Our news and editorial policies are designed to objectively present the reader with an uncluttered view of all the events. Only an authoritarian bigoted Philistine would dispute this, for we maintain the highest critical and logical faculties, and, though we might imply judgement, we never pass it. It is left to the disposition of the intelligent reader, with the facts at hand, to decide his opinion for himself, without being manipulated by unscrupulous self-oriented editors and newspapermen.

Questions Contemporary Crap In Search Of Answers Game Of Wits

Who ran in the 1967 election?

Was it Lewis Rubbershrewd and Charlie Vanity?

Did Lewis introduce the Equal Opportunity plan before the election?

And would the plan have cost Erbighthing many dollars in taxes?

And did Erbighthing bring Charlie Vanity back from California to run against Rubbershrewd?

And had Charlie been dabbling in oil and real estate in South America before he settled in California?

And did Charlie get hooked up with Standard Oil of New Jersey while in South America?

And was he working with or for Standard Oil in California?

And does Standard Oil have some interest in Erbighthing enterprises?

And perhaps, did Standard Oil want to get rid of Rubbershrewd and Equal Opportunity to protect their possible interests?

And did the long arm of American big business reach out to dabble in provincial politics?

Chess is a game for the interested. Chess is a battle of wits. Chess is much like a military operation. Chess is only for a selected group. Chess is for intellectuals. Chess is for people bored by monotony.

If you do not know anything about chess and you are just about to learn chess, I would strongly advise you to take it up. However, you must be prepared to spend hours sitting before a chessboard and an opponent figuring out military maneuvers. It is a known fact that masters take days, even weeks to decide on their moves. To make games less boring, they are played by mail. This entails a good knowledge of chess or a good supply of chess books because there is no opponent with you to advise or to point out your mistakes before you make them.

Chess may also be called the game of mistakes for the simple reason that you lose by your mistakes. When you have just learned chess, your mistakes are all oversights because you are unfamiliar with the game. As you play hundreds more games, you become thoroughly familiar with the game. At this stage the only reason for your losing is that you made some stupid mistake. It must be a mistake, because at this stage, your loss is only to a player with more or the same experience. Since you are on par with each other, you cannot play tactically because your opponent will see what you are up to and vice versa. Therefore you just play around with the chessmen until one of you makes a mistake.

Families To Be Obsolete

Sociologist Richard Fairfield warns that if the hippie life-style continues at its present rate, marriage and family life will be obsolete by the 21st century. Their anti-social behavior, typified by their unruly hair, scraggly beards, outlandish clothes their refusal to wear shoes and to get jobs, their promiscuity and illicit use of drugs, can only be overcome by the honest and conscientious toil of the Police, the Landlords, the Politicians and Decent People everywhere. The atheistic, tyrannical communistic form of government desired by these inferior citizens has no place within our democratic systems. How can these people who have received so much help and financial support from law-abiding, God-fearing folks turn around and speak against our system? They are cowards and traitors and have no respect for the qualities that made this system the great nation it is. These people mistakenly believe that they are better than our tried-and-true institutions, such as the Armed Forces and the Civil Service, and therefore have only achieved disgrace for themselves and their families. These people have no consideration of how necessary it is for them to contribute to mankind and the spread of Democracy throughout the world.

By creating issues out of thin air, they play directly into the hands of rabble-rousers and professional agitators, who are only working to overthrow our sincerely moral system. Time is the best medicine for these people—five years in prison with hard labour will teach these people the value of hard work. They are racists, insecure, lacking in self-esteem and efficacy, and this leads them to believe that they can overcome the world's most powerful and efficient system. Jesus Christ guards the world, and will not let anything bad happen here.

Miss Rebecca P.C. Thornapple
RR.7, Missisquoi

Pollution Of Innuendo

(St. John Tellit Liketis)

"Down, down the River St. John . . ." right into a solid layer of sludge, dead fish and detergent bubbles. All massed close to the mouth of the river near a large pulp mill. Citizens of St. John are constantly hearing accusations that the pulp mill within its city limits is destroying the river life.

Not so! These innuendoes have been tossed around for years but no one has yet come up with a grain of proof that the mill is polluting the river. Yet always these stabs in the back.

The pollution is more than likely originating at mills up river along with this vicious whisper campaign against St. John. Pollution is one of society's most severe problems and it will never be cleaned up as long as the guilty parties keep casting aspersions away from themselves and pulling the wool over the authorities eyes.

But this paper cannot be fooled. If there were any evidence of pollution in St. John, you can be sure that it would have been exposed and condemned.

This paper has always acted in the best interests of the St. John community. Pollution is at the top of our list of priorities and the citizens can rest assured that the guilty parties will receive full coverage when it is proven who they are.

Little Known Fact

A filler is a device used by any newspaper to fill in little white spaces that have been left by a shortage of copy. Most of the time fillers are short witticisms or little-known facts. One little-known fact is how hard it is to find a good filler-writer.

Brunswickan is authorized as Second Class Mail by the Post Office Department Ottawa, and for payment of postage in cash.

SUBSCRIPTION RATES: \$3 per year in Canada, United States and foreign countries by mail.

Letters TO THE Editor

Alcohol's Evil Influence

Dear Editor:

I read with great satisfaction about your active campaign against those elements which are actively engaged in an attempt to corrupt the decent young people of today. I am sincerely concerned that the young people of our country will be influenced by the world plot to create disorder and strip humanity of its rulers and esteemed figures by alcohol's evil influence. This desire to reduce our great country to anarchy is directly related to drink. I read in the January 14th issue of the "Christian Overcomer"—that these vices are financially supported by the Communists who eventually plan to take over. Here in upper Missisquoi the proprietor of the children Store found six children drinking behind the church, the youngest was only 15 years of age.

The "Christian Overcomer" stated that the only way to guide our good youth into the

paths of decency, law and order is to take an active role to inform them of their eternal damnation and stamp out these corrupting influences. There is hope, Mr. Editor, for them if they repent, for there is always Divine Forgiveness.

I am 88 years old, and for the last 65 years, since my mother's death, I have continued to follow her wise ways by inviting our young people into my home for daily bible readings. This has been an extremely successful project, and has been welcomed by several responsible young people of our community. At all these sessions I have tried to show them the evils and terrible effects of drink, and I am proud that your upstanding newspaper had lent its voice to this commendable campaign against one of the most destructive agents in our society.

Miss Rebecca P.C. Thornapple
RR.7, Missisquoi

Discipline Is The Answer

Dear Sir:

I would like to comment on the situation as it exists in the local university. I think it is disgraceful that students could violently occupy a university building. That they should be able to sustain such an occupation is a gross denial of the freedom of every individual to enter that building. Furthermore, such actions, if allowed to continue, will surely lead to complete anarchy and the overthrow of the entire democratic process.

The trouble with the university is that the President is not experienced enough to know how to control the students. The students suffer

from a lack of discipline. There is a permissive attitude on the campus that disregards all respect for law and authority.

Discipline is the answer. If I were President, I would have the students up at 7:00 a.m. every morning doing drill, physical exercises, etc. This would give them the respect and awareness of the authority present. Anybody who caused any trouble would be expelled.

Operated on this basis, the university would return to fulfilling its function, that being to give students an education, not a course in civil war.

Yours respectively,
Feejay Demon

We Must Be Prudent

Sir: A little poem written by my eleven-year-old daughter might be of interest to your readers.

"In the early months of sixty nine KayCey's plebs got out of line

They marched on the capitol four by four Couldn't be stopped by the legislature door

They needed their cars for work they said As they calmly asked for Louis' head

They closed the tavs and the pubs all down

And forty cops drove them out of town. Don't toss them in jail We must be prudent, There wasn't one of them that was a student.

(God bless the Mommy and Daddy of this little girl for the fine job they did raising her.)

Horney - Lookinforit Wedding

Baskets of black and blue pansies and several fairies adorned the altar of the church of the Later Day Has Beens and the guest pews were marked with empty shotgun shells for the wedding of Isabella P., daughter of Mr. and Mrs. W.A.S. Lookinforit of Dopotown to Collin R., son of Mr. and Mrs. I.S. Horney of Gin County.

The Rev. Pastor Present was located to perform the double ring ceremony. Mrs. F.R. Stoppdown played the wedding music, while Mr. N.O. Crow of Dopotown was the guest soloist.

Given in marriage by an unknown patron, the bride was attended by her business partners Miss Wentfora Buck as maid of honor and Virginia Wentfora Quarter.

The groom was accompanied by his brother Mr. R.U. Horney and the brother of the bride Mr. I.R. Lookinforit.

The groom wore a rented suit from Gay Man's Wear, over athletic underwear of imitation silk. His empire tie of peau de soie in mauve and orange fell from a windsor knot to complement his velvet socks. His pants were held up for the initial part of the ceremony by pale green suspenders. His number nine patent leather shoes matched his state of tightness and harmonized nicely with the axle-grease polish in his hair.

In addition to his fag, he carried a pocket knife, a bunch of keys, a dun for the ring and his usual look of imbecility.

The groom's attendants wore rented suits from Gay Men's Wear with socks complementing those of the groom.

The bride had the nerve to wear the usual white.

The bride's father chose a Smith and Weston number 12 shotgun, with a filligreed stock for his daughter's wedding.

The reception was held at the bride's home following the ceremony. It was newly plastered and painted. This complemented the overall decorating scheme as the groom was plastered and the bride newly-painted for the occasion. The used car lot in back was closed for the morning, as was the bride's business. However, her

attendants were in operation throughout the reception.

The bride is a skinny, fast, little doll who has run after everything with pants since she was 12. She has had her own business for years. The groom is a popular, young bum who has been doing promotional work for his wife's business since he was expelled from college in his junior year.

The young couple will reside at the home of the bride's parents, which means they will sponge off the old man until he dies.

Out-of-town guests for the ceremony were from Oralmucto, Naashaawaakas, Privateville, Corporalville, Sergeantville, Majorville and Fredsville Junction.

J. O'Donnell Passes

(In most papers it's an obituary. In the Cleaner, it's news.)

Boston (BINS) - Miss J. O'Donnell, late of McNamy, passed away here yesterday. Miss O'Donnell, son of the late Katie O'Donnell and a passing lumberman, was conceived behind the McNamy general store on August 3, 1868. Her mother moved to Boston three weeks before she was born.

Returning to New Brunswick in 1888 to attend UNB, then King's College, she became the second woman to graduate, preceded only by E.D. McSkye. After a successful career in Chicago, managing a large boarding house for cats, she returned, in 1929.

The funeral is scheduled to be held in the McNamy (Loyalist United) Cemetery sometime this spring after the frost.

A friend of ours . . . who was passing . . . brought to our attention . . . that there is a . . . large . . . hole . . . forming outside the gates of the . . . University. . . . In the past . . . month and a half . . . says our informant . . . the circumference of this . . . hole has increased . . . by over 3/8th . . . of an . . . inch. . . . this is obviously due to . . . a small . . . minority . . . of students on the campus . . . who are making it harder for the . . . others . . . in the educational community . . . another matter that seems to . . . reoccur every year this time is that . . . all the landlords in the city . . . and we know how hard . . . pressed they are for funds . . . are plagued with the problem of all . . . the students . . . leaving to . . . go home for the summer . . . we know they lead a tough life . . . maybe they should jack the rents . . .

In Victorial Pubic

Mr. F.O.U.R. Star, owner of the "Eager Beaver Retriever" Detective Agency is reported sick in the Victorial Pubic Hospital. He is reported as suffering from lead poisoning. Mr. Star contracted the disease while licking pencils for distribution to his agents. The pencils, made in China, were to be used for making out parking tickets on a local university campus.

On being analyzed by the scientists of the Research and Productivity Council, the pencils were shown to contain traces of lead.

A chinese branch of a local subversive group is suspected.

Gossip

Mr. Paul Smit visited his parents in Centerville recently on his way to Upper Canada (Kingston) from Dorchester. Taken were the family car and a quantity of money.

A prayer meeting for the Kindly Club, the SPCA and animals was held in the Frederickton Church last night. No seal skin coats were in sight. Mink and ocelot predominated.

Friends of Mr. F.O.U.R. Star will be sorry to learn she is in Victorial Pubic Butcher Shop due to lead poisoning. Of course, maybe he hasn't any.

The St. Lucifer Church Ladies Mission will hold a smoke-in in the church parlor this Saturday night. Bring your own pot. No liquor allowed.

Mr. and Mrs. Coolie McKyee were honored guests at an spooa gathering last week, attended by 3,000 screaming fans. Highlight of the evening was the burning in effigy of the honored guests and their board. The entertainment was warmly received.

Mr. and Mrs. Orange of Temperance Hill, and their six children; Michael, age 12; Susan, 10; Sandra, 8; Calvin, 6; Dora, 4; and Sean, 2 (now that's using the rhythm method) spent the weekend at the home of his grandparents (the Chesley R. Dovers) in Plaster-of-Paris Rock, and over the area. Needless to say, the grand-parents were exhausted by the end of the weekend and were only too glad to say good-bye until next Christmas.

The society for the Increase of Cruelty to Husbands, Children, Pets and other dumb Animals will hold its weekly meeting in the Town Hall on Wed. at 7 p.m.

Roll Call to be answered by a contribution to the Collection of Insults, soon to be published.

Mr. and Mrs. J.C. Riles have just returned from their mid-winter vacation in the Bahamas; they are presently preparing to leave in their early spring vacation to Jamaica, which precedes their spring vacation to Florida. The Riles plan a trip to Europe this summer, to get away from it all.

Set 143A of the Temperate Women's Liberal Association held its monthly meeting in the conservative brewery, with six members answering roll call (of the twenty-six present). Business concerning periton for a permanent liquor licence was soon dealt with and refreshments provided by the brewery were enjoyed until 3 a.m.

News For Women

Cosmetics:

The latest excitement in our "Cosmetics of Tomorrow for Your Face of Today" is a kooky, vogue look we know you'll want to try soon! It's called "Look, lover, no eyes" and it features eye-less women. (What could be more helpless? Men adore helplessness.) If you are wondering how to achieve this exciting new look to wear with your spring wardrobe, here's how:

Step 1-Glue your eyes shut. (Use a good foundation glue, but one you are fairly certain you'll be able to remove-in case eyes come back in style). Do this carefully, so that no light enters. (NOTE: It will be easier to do the first eye than the second-it might be wise to get someone who can see what they're doing to assist with the

Hoaroscope

Your birthday today: You picked a bad time to have a birthday! Pretend you like your gift even if you know they bought it during the January sales and couldn't return it when they found it didn't fit, so they had to do something with it. Oh, well, tough luck! This isn't your lucky day, anyway (yesterday was).

Aries (March 21-April 19)

You shouldn't have gotten out of bed today. Something terrible is likely to happen to you. Exercise extreme caution in all transactions. Don't make any long-term agreements until the stars have sobered up.

Taurus (Apr. 20-May 20)

Yipee! Today is your lucky day! Splurge! Buy that expensive article you've been wanting. Caution need not be considered today, since all your decisions will be right. (Of course, you'll pay later!)

Gemini (May 21-June 20)

The moon and sun are in a bad position for you. Exercise caution in your love life-no sex today!

Cancer (June 21-July 21)

Your financial position is weak. Better get another loan to strengthen it. (Cheer up! The year's almost over!)

Leo (July 22-Aug. 22)

Foretold difficulties loom in the near future. Careful preparation for the strenuous testing should be made now. (Start cramming! It's almost exam time!)

Virgo (Aug. 23-Sept. 22)

Diligent cooperation with your superiors will pay dividends. (If you pass in your assignments on time, you've got a better chance of passing.)

Libra (Sept. 23-Oct. 22)

You've forgotten the birthday of someone very important to you-me, Starr Gazer. Beg forgiveness and be humble a few days.

Scorpio (Oct. 23-Nov. 21)

Your interest in foreign elements will be stimulated but it's wise not to pursue it. (Don't be too nice to that Scandinavian secretary when your wife is at the party too!)

Capricorn (Dec. 22-Jan. 19)

Social activities may be hampering your ability to function; cut down. (If you don't stop having parties and start studying, forget it!)

Aquarius (Jan. 20-Feb. 18)

This is the right time to bridge the gaps between people who should be co-operating. (Start speaking to your spouse again.)

Pisces (Feb. 19-Mar. 20)

Now is the time to plan future activities and correct past mistakes. (Make an appointment with a hairdresser and promise never to cut your own hair again-if it ever grows back!)

second eye.)

Step 2-Cut off eye lashes and eyebrows-you don't want any trace of them! (Again, help might be solicited from a friend who can see during this process.)

Step 3-Put on your

make-up. Use the same base for your eyes as the rest of your face, etc.

Step 4-Add blush-on and lipstick (if desired).

Step 5-Wow him with your 'new' fashion look.-Will he be surprised!

Citizens Of Tomorrow

Foggy Given Suspension

Horrors upon horrors! Ernie Foggybottom, last man on the Saps Tiddley-Wink Team, has been given a game suspension. This was the result of an investigation by I.C. Verity, president of the Big Two Tiddley-Wink League. The investigation was instigated as a result of the actions of Foggybottom in last Saturday's tiddley-wink tilt against Saint John.

Apparently, a nasty player on the Saint John team kept making references to a certain big pimple on Foggybottom's shoulders and Foggybottom, severely irritated, commenced to thrashing the disrespectful opponent. Referee Morphopolus quickly broke it up and play resumed.

Foggybottom, however, sought greater revenge. When his opponent was yawning, he neatly shot a tiddley right into his mouth, causing him to gag and choke and barf and faint. As a result, Foggybottom got the suspension.

Back-up man Flip Crackup will take over for Foggybottom in the crucial game Sunday afternoon.

Big Four To Expand

The four team Big Four hockey loop will expand to five teams next year and become the Big Five.

Restigouche will be represented next year. Team President Arthur Robichaud, no relation, said that he has been trying to gain entry into the league for 4 years and finally league President George Robichaud gave the go-ahead for next year.

The Restigouche Red Rabbits will be coached by former NHL great Joe Rubberboot and will be made up mostly of this year's five junior teams which won the

Big Two North Shore Hockey League championship.

Robichaud hopes to spend \$350 on improvements to the 45 seat Restigouche Arena. He plans to add a least five more seats and add a small coffee shop. Robichaud has gained most of the money from local contributors and 49% came from the government.

Coach Rubberboot said, "I tink dat hour team will, how do you say, do bon good nex year even dough dat dey have hexpansion. Jest look hat St. Louis Blues. We have many fine player hand I tink dat we win."

Will The Saps Fool Around Too Long?

As one long-time tiddley-wink fan said "If the Saps fool around much longer, they are going to lose the playoff series with Saint John."

That fan could be right. While there is only a three point difference in scoring between the two teams, the edge has been to the Saint John team, who are up three games in the best-of-nine series.

The Fredericton Saps have been doing a little too much winking and not enough tiddleying so far in this series. Their aim has been off and they haven't been sinking the tiddleys right in the old cup. Team Captain Barney Whozelmire has a pimple on his thumb which has been

affecting his grip on the tiddley.

To make matters worse, Ezekiel Leghorn, the team's top tiddler, has got acute hydrophobia and can't see very well. He w'n't even be able to wink, let alone tiddle. The team is in dire straits.

Barney Whozelmire had predicted that the series would end in six games. The way its going, the six games would end the series, but in Saint John's favour.

The Saps are going to need all the support they can get if they are to pull this one out of the hole. So all you tiddley-wink fans come on out and show the boys that we're really behind them.

The next game will be held at centre ice of the Coliseum on Sunday afternoon at 2:30.

On The Hill Off The Cuff

By J. LESTER McCRAYFISH

This is the first of a series of reports by your friendly neighbourhood CONSERVATIVE M.P. J. Lester McCrayfish. This first report is designed to give the good People of York-Sunbury a genuine insight into the State of Things in the nation's capital.

There are four political parties represented in the house at this time. The most important party is the CONSERVATIVES. They are the Good Guys and they are easily recognized by their party colour - white. In fact the members of this party are always wearing white - underwear. They get special member rates from their leader the Right Hon. Robert Stanfield. (Of course they must pay the full price once they are dis-membered.) Mr. Stanfield is, naturally, a Down Homer. (Canada is divided into three distinct ethnic groups; English, French, and Down Homers. Each ethnic group has its own language and section of the country.)

The next party is the N.D.P. This stands for Nothing Doing Party because whenever one of the other parties ask the N.D.P. for support they always reply "Nothing Doing". This Party is composed mainly of Western fur trappers, loggers and buffalo pelt hunters.

Thirdly, we have the Creditiste Party. I don't speak any French but I'd bet a barrel of fish that Creditiste is French for "separate". Their leader is Ray Al Cowet and I'm sure he's good friends with Renay Leveck.

Last and least there is the liberal party - and I mean party. They are having a ball wasting the country's money on stupid things like NATO and The League of Nations. I say let's keep Canadian money in Canada but last June the people of Upper Canada followed the pied piper, peter trowdough, and us Down Homers will have to dance to his tune for the next four years.

NEXT WEEK: A character study of Robert Stanfield and other Heavenly Bodies.

Council Approves Subway Extension

Last night, at its weekly meeting, Fredericton city council approved the extension of the Subway from its present south terminus on Carleton Street to the Canadian Pacific station on York Street.

This is in anticipation of CP's plans to provide twice-daily express service to Nashwaakias. The cost of the subway extension, \$20 million, will be jointly borne by the federal, provincial and municipal governments, paying 99 percent, one half percent and one half percent respectively.

Council publicly thanked Mr. F.R.E.E. Booter for his efforts on behalf of the railway services.

In other business, council approved the purchase of another bus for Fredericton's Border Transit. The vehicle, a 1937 school bus purchased from the Ontario department of education, is to be used to extend bus service to Trans Canada highway - Smythe Street - UNB area to four times per day.

A progress report was heard on the Walker Memorial Riverside Expressway. The Green has been destroyed and the other half of the St. John River will soon be filled in. Tearing down of homes bounded by York, Saunders, Smythe and Campbell Streets in preparation for the five-level Expressway-cross-river interchange complex is well under way.

Council approved, in principle, the establishment of first-aid stations along Queen Street to treat broken legs, etc. as a result of icy sidewalks. The city clerk tabled letters from the Fredericton Downtown Retail Merchants Association reporting that the association had voted to donate to the city its salt budget for next year to help pay for the first aid station. A check for two dollars was enclosed.

Before adjourning to the Beaverbrook, council congratulated the local kindness club for ducks wintering at the Waterloo Row Sewage Outlet.

Dear Blabby

BY BLABBY VAN

Dear Blabby,

I have a terrible problem, even though it may seem small to you. There is a big wart on the end of my nose. I've been wondering if I should have it removed before my wedding in June. (My boyfriend says he likes it.) Since it doesn't hurt me (and I'm used to looking over it.) I hesitate to take the chance of surgery. What is your advice?

Undecided

Dear Un--

You have got a real problem. My advice is to consult your minister, your mother, your best friend and perhaps a doctor. (P.S. Of course your boyfriend likes it - he doesn't want to hurt your feelings.)

Dear Blabby,

Please help me. I've written to all the columnists in the

other papers and no one has been able to give me advice. Please help me, Blabby. - please! I've written to everyone else. My psychiatrist just had a nervous breakdown and the doctors here tell me he's a patient too! What can I do? Please help me!

Desperate

Dear Des--

Sit tight. In a few weeks they'll loosen the jacket. Remember - keep smiling!

Dear Blabby,

I have a deep secret I've never told anyone in my life! I'm going to tell you because I just HAVE to tell someone. My parents adopted me when I was six. They think I'm a boy but I'm really a girl! Now that I've told you, promise

USE CLEANER

CLASSIFIEDS

you'll never tell!

Mixed-Up

Dear Mix--

I won't tell but I can't say the same for my 50 million readers!

Remember When

Ivan Brackenbubalov, a virtual unknown in the international weight-lifting circles, pulled off a stunning upset victory in the jerk-and-pull competitions in the 1922 Olympics.

At the end of the second lift, Brackenbubalov was lagging behind his main competitor, Harry Jackson (USA) by 130 lbs. Jackson got his third lift of 380 lbs. Brackenbubalov, an upstart from Russia came from out of nowhere to become Olympic Jerk-And-Pull Champion for 1922.

Stars For The Week

1. Danny Grant for his outstanding performance in the game against Montreal, in which he broke 7 sticks and set a new NHL record by collecting 14 minor penalties in one game.

2. Jean Beliveau-for his usually great performance in scoring 48 goals in one game. Incidentally, that too is a new NHL record.

3. Gump Worsley-for setting another NHL first in collecting 12 assists in one game.

CURB BOWEL

CRAMPING & GAS PAINS

Spastic colitis (wild flailing of the arms and legs) may make you suffer from dull cramping, aches or burning pains in the side, gas acidity, impotency, heartburn, broken arms, biliousness, bad breath, B.O., curly hair, straight hair, and disturb sleep. If you suffer from spastic Colitis, avoid rough scratchy women, and take a special medication like Dr. Funk's Recto Lube (No. 10 for cold weather, No. 30 for warm weather or special 10-20-30 all weather Super Lube) to relieve cramping rectal muscles, soothe sore mucus membranes, and check acidity. Not a laxative or enema. Get Dr. Funk's Recto Lube at drug store or CLEANER Office and see how fast it relieves colon and stomach discomfort.
