

COMMISSION IS NAMED TO RUN THE STREET RAILWAY

A. K. Bunnell, Ex-Mayor C. H. Hartman and W. R. Turnbull Appointed as Commission by the City Council at Meeting Last Night—Shoe Merchants Also Get Early Closing By-Law Put Through.

A By-law, naming A. K. Bunnell, Charles H. Hartman and Walter R. Turnbull, commissioners to preside over the management of the Brantford Street Railway, was put through at a special meeting of the city council last night.

Some opposition was encountered in the appointment of the Street Railway Commissioners. Ald. Bragg and Ald. Calbeck suggesting that the city council keep the management of the road under its own wing.

Ald. Charlton as chairman of the railway committee frankly stated that his committee could not be expected to preside over the multifarious details of a broken down street railway system with success.

As matters now stand the commissioners named will act merely until January next. The city council had the power under the special act of the legislature to appoint the commissioners for the remainder of the year only.

Cigars and Whiskey To Beat Dr. Montague --Affidavit Sworn Out

Province of Manitoba is Emerging From the Liveliest Election Campaign in Many Years--Both Sides Make Accusations--Electioneering at Its Hottest To-day--Vote to be Taken on Friday.

WINNIPEG, July 9.—The campaign speaking is practically over and most of the energies of the political parties in Manitoba will now be devoted to getting out the vote to-morrow.

What is called a sworn confession, implicating George W. Prout, Liberal candidate opposing Hon. Dr. Montague in Kildonan and St. Andrews, in the distribution of liquor and cigars to the electors of his constituency is published this morning in the government press.

Another affidavit purporting to be signed by George Vincent, business partner of Prout, asserts that Vincent had been canvassing for Prout for three or four weeks and that Vincent's method was to give the electors whiskey and cigars and at the same time ask them to vote for Prout.

A message from T. C. Norris, Liberal leader, in which he predicts victory is published this morning.

JOHN KRAFCHENKO SHOWED IRON NERVE AS HE WENT TO THE GALLOWS TO-DAY

Winnipeg Murderer Believed by His Spiritual Adviser to Have Died Penitent—Could Have Escaped Had He Wished—Buried in Jail Yard.

WINNIPEG, Man., July 9.—John Krafczenko, convicted of murder, was hanged at 6.59 this morning in the provincial jail. He died as he had lived, a man of iron nerve and went to death unflinching.

This was no bravado but steady courage, for John Krafczenko died penitent. In token of penitence he proved to his spiritual adviser, Rev. Bertal Heeny during the silent watches of last night, that had he wished he could have left the cell, could have broken out as he had out of the "Old Kitchen," and a bent tattered old reaspoon was the simple implement he used to pick the massive lock of his cell before the eyes of the astonished clergyman.

"That was the last final proof—though I did not need it," said Mr. Heeny, "that Krafczenko died a Christian. He could have got away had he wished, but he stayed to face the end, genuinely regretting the pain he had caused others and willing to pay the penalty."

Heeny entered Krafczenko's cell at 11 o'clock last night and throughout the night he and the prisoner prayed every hour—and the prisoner prayed every hour—now Heeny, now Krafczenko, supplicating the Almighty. At four o'clock Krafczenko suddenly stood up from the bench on which they were then sitting.

Protracted Illness Ends Fatally—Was Once Premier of Province of New Brunswick—A Vigorous Fighter.

DORCHESTER, N.B., July 9.—The Hon. H. R. Emmerson, former minister of railways in the Laurier Liberal Government, and at one time premier of New Brunswick, died at his home here this morning. Mr. Emmerson has been ill for some time, and his death was not unexpected.

Hon. Henry Robert Emmerson was of U. E. Loyalist descent, and was born at Mauderville, N.B., September 25, 1853. He was educated at Amherst Academy, Mount Allison University, St. Joseph's College and Acadia College and Boston University. He was a prize essayist and bachelor of law, at the last named institution, and honorary doctor of law of the New Brunswick University. He married in June, 1878 Emily C. Record, who died in 1901. Mr. Emmerson practiced law here and was made a K.C. in 1899. He was at one time manager of the Merchants Bank of Halifax and connected with a number of other important commercial enterprises.

The Courier Gets There

Adj. Hargrove has recovered his parrot, which was lost yesterday morning, when it flew out of an open door at the Salvation Army barracks. Last night a young lady residing at the corner of Queen and Darling streets heard a peculiar bird cry in a tree opposite her home, but took no further notice of it until, picking up the Courier, she read of the Adjutant's lost parrot. She then looked into the tree and called the bird, which she had discovered to be a parrot. It came to her, and she at once restored it to the owner, receiving his heartfelt thanks.

ENQUIRY WILL RESULT IN PLACING BLAME

Very Heavy Documents Will Cover Causes of Empress of Ireland Wreck.

QUEBEC, July 9.—The finding of the Empress of Ireland wreck commission has now been decided upon by Lord Mersey and his co-commissioners and is being typed to-day in preparation for its delivery Saturday.

The document is upwards of 11,000 words in length. "The whole finding will not be read," said Lord Mersey to-day, "since much of it is of a technical nature, but all the salient points bearing upon questions to be answered by the commission will be read, together with the finding itself."

Lord Mersey will personally read the finding, which has been agreed upon by the whole court. It will be signed by the three commissioners, while in the margin the four nautical assessors will sign: "We concur."

It is expected that the presentation of the finding will take about two and a half hours. The report not only deals with the actual occurrences and evidence regarding the collision and subsequent loss of life, but also included a number of recommendations regarding life saving appliances which the disaster indicates as proper for the prevention of such appalling loss of life in any future accident of a similar nature.

The report of the commission is in several sections. First is the general report of the three commissioners, Lord Mersey, Hon. E. McLeod and Sir A. Routhier, followed by their findings as to the culpability of one or other or both vessels. This is followed by the report of the nautical assessors in which they give their views and recommendations from their point of view. Then, and probably the most important of all from the future point of view, comes an appendix giving the views and recommendations of the naval experts who came out with Lord Mersey as advisers to the commission.

Though the commissioners have the power they will not take any action in regard to the punishment of this blameworthy for the wreck, it is understood, but will leave that for the federal authorities.

VALIANT QUALIFIES. CHICAGO, July 9.—Valiant, owned by Fred A. Price yesterday won the third race of the trials to select a challenger for the Richardson yachting trophy held by Canada. The first and second trials, in light weather were won by Michicago and Olympian. The south shore was eliminated from the trials to-day.

GOT TWO MONTHS. MONTREAL, July 9.—Manuel Chute, the Stordast sailor, who tried to cash money orders he picked up while-rescuing the survivors of the Empress of Ireland, was this morning given two months in jail by Judge Choquette in the sessions court. HOUSE OF LORDS ABOLISHED THE TIME LIMIT FOR ULSTER

And Provide That Exclusion Shall Apply to Ulster as a Province—Government's Concessions—Power of King in Excluded Area to be Vested in a Secretary of State—Gives No Guarantee, But Lord Lansdowne Believes Exclusion Will Prevent Civil War.

LONDON, Thursday, July 9.—Exclusion of the whole of Ulster—for an unlimited time from Home Rule was accepted in the House of Lords last night, Lord Lansdowne's amendment to the Amending Bill being carried 128 to 39. Lord Lansdowne insisted that total exclusion was the only thing which would satisfy Ulster, Lord Crewe in a rather feeble defence of the Government, refused to accept the amendment, though Lord Weardale, speaking at a Home Ruler, announced that he had reluctantly come to the conclusion that exclusion of the whole province was the only thing that would bring peace.

Neither the Government nor the Opposition supported Lord Macdonnell's proposal of "Home Rule within Home Rule," but the Lord Chancellor, Lord Loreburn, deemed it the only alternative to exclusion.

One important concession was accepted by Lord Crewe for the Government on the amendment of Viscount Middleton—namely, the substitution of a Secretary of State for the Lord Lieutenant, the effect of which will be that the relations of the Imperial Government with Ulster will be conducted direct instead of through Dublin. Throughout the debate the Ministers adopted a negative attitude, refusing to show their intentions, but displaying a readiness to receive suggestions which would be likely to relieve the critical situation.

The Discussion. The House of Lords in committee on the Government of Ireland (amendment) Bill made large changes in the measure eliminating the time limit and providing that Exclusion shall apply to Ulster as a province. An important concession was made by the Marquess of Crewe on the amendment moved by Viscount Middleton to the sub-section which provides that the power of the King in the excluded area shall be exercised by the Lord Lieutenant through such officers and departments as may be directed by orders-in-Council, Lord Middleton, having regard to the close relations, which under the rules of the Lord Lieutenant will have with the Dublin Parliament and the executive, proposed to substitute a Secretary of State for the "the Lord Lieutenant" for the purpose of the sub-section.

This means in substance that if the Government accepts, it follows that so far as the excluded area is concerned, the relations between Ulster and the Government in London will be of a direct character and not via Dublin.

Accepted by Government. In accepting this on behalf of the Government, the Marquess of Crewe said, whatever force there might be in the objection of the Lord Lieutenant exercising dual functions, he did not think it would be wise to insist that the Minister responsible for the administration of Ulster should be a secretary, which in place would mean Home Secretary. He would not oppose the amendment.

Other amendments were agreed to providing that officers and departments administered in excluded areas, shall not be officers or departments exercising executive power under the Irish Government, and that all orders-in-Council relating to the excluded areas shall not have effect without the sanction of both Houses of Parliament in this country.

Reduced Membership. A number of consequential amendments were agreed to, including one reducing the number of Irish members at Westminster from 42 to 27. The most animated discussion of the evening took place on Lord Macdonnell's scheme of "Home Rule within Home Rule." The proposal is (Continued on page four.)

Quebec Bandit Shoots Another--Still at Large

Cabman Was the Victim—He Agreed to Drive Man to a Village 12 Miles Away--Was Shot Four Times.

QUEBEC, Que., July 9.—Another victim fell before Moraud's rifle early this morning, and this time close to Quebec City. The shooting occurred about one o'clock this morning, and the victim is a cab driver, Odinet Guay, living on Saint George street, Levis.

Guay was not killed outright, although four bullets from a 38 calibre revolver lodged in his body, and at the Hotel Dieu Hospital, Levis, where he was carried, he is believed to have a chance for life.

Seen by the Canadian Press Correspondent, Guay stated to-day that he was accosted at the cab stand just outside the I.C.R. station at Levis by a man dressed as a laborer, who asked to be driven to St. Henri, a village about 12 miles from Levis. There was an argument about the price, finally everything was settled, and the drive started. When the rig had gone about eight miles out in the country, a shot suddenly rang out in the still night, and with a cry Guay let go his reins. Once, twice, four times he felt the sting of a bullet entering his flesh, and losing consciousness he fell into the roadway, where he was picked up about five o'clock this morning by men going to their fields. The rig was found this morning also on the outskirts of St. Isidore, a small village in the county of Dochester, about 30 miles from Levis. The horse was exhausted, and no traces of the occupant of the rig was found.

A message from Villeroi, the scene of the initial shooting by Moraud, states blood hounds have been resorted to in an endeavor to trace the bandit. It is known that Moraud, since he was fallen upon by the English guide, Peter Brown, whom he shot in the jaw, has little provisions with him. When the detectives reached the camp he occupied when he shot Brown last Tuesday, Moraud ran away, leaving behind him his provisions, and the fact that he could not shoot game without attracting attention of the detectives, he was forced to leave his hiding place in the forest and risk detection attempting to reach the shelter of some relatives he is known to have in the vicinity of Levis.

A posse of detectives left Quebec at 8 this morning to search the woods around St. Isidore, but no word of a capture has been received. An autopsy was performed to-day on the body of Alphonse Charland, shot by Moraud, who died yesterday. A reward is likely to be offered to-day for Moraud's capture.

WILL BE ELECTED BY ACCLAMATION

Return of Austen Chamberlain in West Birmingham Unopposed

LONDON, July 9.—Austen Chamberlain has issued the following address to electors of West Birmingham: "I have accepted an invitation of the Unionist Associations of this division to become their candidate for the representation of this constituency so intimately associated with my father's name and with his whole public life. I seek your suffrage in order that, with your help, I may do what in me lies to advance the causes for which he lived and gave up his life. To make our people happier, the nation greater, our Empire more united. These were the objects of his long public service. I humbly offer whatever I can bring to the service of the same causes and of the people whom he loved."

The Labor party will not contest the West Birmingham bye-election, as it falls so closely upon the death of Joseph Chamberlain, but adheres to its original intention of fighting the seat at the general election.

Suggests That Thos. Lipton be Prosecuted

LONDON, July 9.—Criminal prosecution of Sir Thomas Lipton, the chairman, and his co-directors in Lipton Limited, was suggested by Sir Arthur Markham, a Liberal member, in a question addressed to the Attorney-General appearing in to-day's parliamentary papers. The question, the putting of which was postponed by arrangement, asks whether, in view of Justice Darling's statement that the defendants in the army canteen scandal case were acting upon a system which was encouraged by the directorate of the company, the Attorney-General "has laid the papers in the case before the public prosecutor with a view to criminal proceedings for fraud and bribery against Sir Thomas Lipton and his co-directors."

The question arose out of the recent conviction of nine army officers and eight civilian employees of Lipton Limited on charges of receiving and giving bribes to influence the allotment of supplying contracts for the army canteens.

Engineer Robert Strathearn was asphyxiated and workmen Douglas Seaton and James Miligan overcome while at work in a sewer tunnel at Toronto.

GOVERNMENT FORCES CONFIDENT ROBLIN WILL SWEEP MANITOBA

Liberal Leader Claims That There Will be Change in Government—Campaign Meetings Will be Held Up to Eve of Polling—Woman Speaker Draws Tremendous Crowds at Meetings in the Interests of the Opposition.

WINNIPEG, July 9.—The provincial election campaign reached its penultimate stage last night, but in the city here public meetings will be carried on right up to the eve of the polling. To-night Mrs. Nellie McClung whose personal campaign has been possibly the most noteworthy feature of the fight the opposition has put up is to address another meeting here. It is the first time that a woman has made any sort of mark in Manitoba politics and this fact alone, outside of her strong personality, attracts big mixed audiences wherever she speaks.

Government Confident. The government forces are as confident as ever that they will sweep the province. One of the most conservative estimates they have yet put forward was when a prominent Conservative said that at the worst they admitted the opposition might carry 17 seats, leaving 32 to the government. These 17 seats include every weak government constituency and allow the Liberals three of the six Winnipeg members. On the other hand the opposition claim they are going to win out. The government morning paper yesterday featured a report that Mr. Norris, the Liberal leader, had privately admitted that he stood no chance. Mr. Norris announced in the afternoon that this statement was false. On the contrary he believes there is going to be a change—"The Roblin government is going to be beaten and badly beaten on Friday," he said.

Grandma Kept Her Locks, Dark. Gassy Thick with a Mixture of Sage Tea and Sulphur. The old-time mixture of Sage Tea streaked and faded hair is grandmothers' Sulphur for darkening gray, her treatment, and folks are again using it to keep their hair a good even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 30 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair. Agent, George Bowles.

Salvationists of all Colors and Grades

Very varied as to color and original character, are the members of the Salvation Army meeting this month in the Strand London, Eng. For instance, one of them, Kala by name, a merry faced representative of the Sansiah tribe in the Indian Punjab, took part for years in all sorts of robberies until he was taken in hand by the Army and persuaded to devote his energies to agriculture. With the Japanese contingent is a Chinese woman ensign, who has worked successfully among the lepers, and another member wears a wonderful turban of snakeskins. Red Indians, Finns, Zulus, and a number of Salvationist cowboys are quite ordinary members of this polyglot assembly.

Rats for Dinner. Something refreshing in music too, is included. The players include half a dozen Swiss mountain guides with their yodeling horns, and Dutch West Indian representatives, who produce "musical thunder" on their instruments made from bamboo.

From India are coming a number of European workers who have not seen the Old Country for many years. One woman officer, now a colonel, who went out from Dundee had considerable difficulty in ingratiating herself with the natives of a certain Indian village. Patient persistence overcame and an old native woman came one day and invited the colonel to her home for a meal. She went, had some cooked meat, expressed her gratification afterwards, but was horrified when the native woman said: "I am so glad you have enjoyed it. Do you know I stayed up all last night to catch those rats."

GLADSTONE'S LAST DAYS DESCRIBED BY AN OLD FRIEND

LONDON, July 4--The memoirs of Canon Maccoll just published gave an interesting account of Gladstone's last days. Canon Maccoll wrote to Lord Salisbury on March 21, 1893, as follows: "I have just returned from Bourne-mouth. I found Mr. Gladstone greatly changed, suffering, and dreadfully depressed. He sent to ask me to dine with him. When I arrived he said 'I wanted you to dine with me, but you must excuse me. I am very hard hit. I cannot talk.' His mind is all there, as his occasional remarks show. He expressed himself much concerned at your Lordship's illness, and made some acute observations on politics."

"Then he laid his elbows on the table and buried his face in his hands and this he did at intervals during dinner." After dinner he lay in the sofa, while his sons played the piano by turns. Music is the only thing that soothes him. At ten he went to bed. After saying good-night to me, he said "I don't know if I shall ever see you again; then he put his arm around my neck, said many kind things and, patting me on the back, blessed me and retired."

A day or two later the doctors pronounced Mr. Gladstone's illness incurable, and in a second letter Canon Maccoll announces this to Lord Salisbury. "How long he will last the doctors cannot say, for his physique in all other respects is excellent. It is a dreadful prospect, and he bears it so nobly. At first I prayed for death, but, realizing the agony his death would cause his wife, he prayed for life as long as she was allowed to live. But I am sure she would not survive him. Their lives have now become almost organically united. When I was there last week he said: 'I am hard hit. I have suffered so much during the past six months, and yet I ought not to complain. I have now enjoyed a life of 176 half-years almost entirely without pain, and it would be ungrateful to repine if I am now doomed to one half-year's pain.' Was it not characteristic of him to go into his calculation."

Gladstone died on May 19, 1898, and his last intelligible words were "Those poor Armenians."

During some experiments near Florence, which were necessarily on a small scale, Ulivi, with a transportable apparatus the size of a large trunk, succeeded in locating and exploding at a distance of about twelve miles some floating bombs which had been thrown into the Arno for the purpose, transmitting the fatal spark with the same ease that a Marconi gram is transmitted to a distant station.

The Ulivi apparatus consists of two parts--a projector of electric waves, the rays of which act all round spherically, and the machine for the sub-red rays, which is accomplished by an apparatus for wireless telegraphy, with a voltmeter, an ammeter, and a chronometer, while in the trunk on which these lines are placed are the electric batteries which supply the necessary energy.

When the electric waves meet with a metallic body a sound is produced which is indicated on the apparatus, and it is possible to locate its position and distance. Energy can then be put in motion, producing a spark of electricity which causes the explosion.

It is declared that this was out of the question. It would mean a committee of 16, each having a say on street railway operation, and everybody's business would be nobody's business.

A POLITICAL MOVE.

The Courier is in receipt of another lengthy communication, this time in justification of ministers preaching sermons on behalf of one political party, providing there is a big moral issue at stake.

WOODSTOCK SENTINEL REVIEW.

"There is evidently a difference of opinion in the Liberal press as to what ought to be done with the proposal for the abolition of the bar. Some take the position that as Mr. Rowell has now fully discharged his duty to the church and temperance organizations, the proposal should be dropped.

MANITOBA ELECTION.

The Provincial fight in Manitoba, which comes to an end to-morrow, has been characterized by very violent language on the part of Liberal speakers and Liberal papers. According to them, Conservatives are rotten and debased, whereas Liberals are deserving of so many halos that there is quite a corner in the market.

NOTES AND COMMENTS.

The official figures show that the Liberal candidate only won out by four in North Bruce, and a recount has been demanded. Sir Adam Beck was the guest of honor at a notable banquet given in Berlin last evening. No son of Waterloo county ever more richly deserved the tribute.

THE SHOE STORE BY-LAW

When the shoe store closing by-law came it looked as if the aldermen would be led into a maze of legal technicalities, from which they would not emerge until midnight, but Mayor Spence advised the council to take the by-law as prepared by City Solicitor Henderson, and if it was defective the shoe men would have to fight it out themselves.

STRUCK A SNAG

The first snag struck was the closing of stores which carried other lines beside shoes. The by-law in this regard was changed to read that "these stores shall be closed for the sale of shoes only." The by-law thus gives some stores the privilege of remaining open and others of closing up.

CLERKS WANTED IT.

Mr. McPherson, in addressing the city council, said the by-law would be of advantage to the clerks, and he declared that to 10 o'clock Saturday night was late enough for any one to work. He had no worry about the observance of the measure. The shoe men present were pleased that the measure got through.

CHATHAM MAN HURT IN MOTOR ACCIDENT

CHATHAM, July 9.—Word has reached the city to the effect that C. S. McDonald, manager of the Heintzman & Co. piano store in this city, narrowly escaped death in an automobile near Toronto. While descending a dangerous hill, about 30 miles north of Toronto, he lost control of the car, which ran a steep embankment, badly crushing and bruising the driver. The injured man was taken to Toronto, where it was found that several ribs had been broken and his nose badly smashed. It will be several weeks before he will be able to return to this city.

MRS. CARMAN BROKE DOWN.

Mrs. Carman's iron nerve is shattered, for as the steel barred door of Mineola jail closed behind her she pulled her heavy veil over her face and broke down. Her husband and the sheriff who took her in an automobile from her home here to the jail, assisted her to the top floor of the building.

TESTIMONY OF EYE-WITNESS.

The immediate cause of the arrest was the testimony given yesterday morning by Ellwood T. Barden, an insurance agent, reliable eye-witness to the crime. Barden is under lock and key also. He is being detained as a material witness, for his story is of so great importance that the authorities said they feared an attempt might be made to get him out of the jurisdiction of the New York courts.

SAW WOMAN NEAR WINDOW.

Barden's story, briefly told, is this: At 7:30 o'clock on the night of the murder, Barden said, he determined to pay a professional visit to Dr. Carman and allow him to dress a minor injury to one of his heels. He left his home and walked to the physician's house. Arriving, he decided he could dress the injury himself and save the doctor's fee. So he walked past the house and then turned around to begin his journey home. At that instant he heard an explosion. He thought it was caused by an automobile fire, but when he looked for the machine, he could not find it. He turned his eyes toward the lawn at the side of Dr. Carman's home. A woman, tall, well built, hatless, wearing a light shirt waist and a dark skirt, was moving away from one of the windows at the side of the physician's office toward the hear of the house. She was not running, not casually strolling around the lawn; she was walking "in a hurry," the witness swore.

UNCLE WALT

The Poet Philosopher

FALSE ALARMS

I see the farmers toiling, out in their fields of wheat, and they are glad, though broiling in fifty kinds of heat. "The fields are simply reeking with finest kind of grain," I hear the farmers shrieking; "prosperity will reign! The wheat crop is simply thumping! There is no end to wheat, and all of us are humping along to easy street!" I sit upon the fence and watch the toilers strain, and see no evidences of carking care or pain. Where are the dismal grangers who raised their doleful cries, about the frightful dangers they feared from Hessian farmers? Where are the weeping farmers who lately had the crust to smut as false alarmers, and talk of smut and rust? Where is the howling haysed who said, "The drouth is near, and surely I won't raise seed to plant a crop next year?" The prophets of disaster have, canned the boding frown, and faster yet and faster they're hauling wheat to town, they draw the shining kroner, they draw the golden buck; no longer do they groan or complain about the luck. Most all our fears of evil are baseless I repeat; we talk of rust and weevil, when we should talk of wheat. WALT MASON.

The Sunday school of Alexandra Presbyterian Church held their annual picnic to the old Millay farm on the radial line yesterday afternoon, when about 200 of the scholars and members of the congregation had a most enjoyable outing. The walk from the radial to the farm was thought too far by many, and as the rain came on the sporting events had all to be called off. The children had a great time, though, bathing in the shallow water.

They also paid a visit to the new Methodist minister at Grand View, Rev. Theo. Edwards, M.A., B.D., to whom they gave a hearty welcome into the Brantford district. The party gathered at the Y. M. C. Stock Room Removed

The divisional partition which had marked the limits of the old stock room of the library was this morning removed and this revealed a spacious hall which nearly triples the present accommodation. When the new volumes arrive and the room is set out as intended there will not be another stockroom outside of Toronto that will approach it. It is well lighted and lights are being arranged over all stocks, so that a former disadvantage is removed.

Damage by Dogs

Again warnings are issued with respect to wandering dogs. On Sunday last a big brown retriever was seen in the Victoria park where it scared all the squirrels for half an hour. A resident of Victoria Street lost a guinea pig and two rabbits, which were torn up upon his lawn by vicious dog, which literally broke open the coop wherein the rabbits were kept. Beside doing this damage the flower beds and other residents have been badly mauled and there is much indignation in the district and the residents ask that the police regulation be enforced.

NOTHING IN IT

Hamilton's Big Mill Will Not Merge With the Penman Co.

The statement which appeared yesterday to the effect that the Eagle Knitting company and the Eagle Spinning mills, two important Hamilton industries, owned and operated by Col. J. R. Moodie, chairman of the Dominion Power and Transmission company, and his three sons, had accepted an offer to enter a merger with the Penman and Watson mills of Paris and Brantford, seems to have had its birth in the imagination of the writer. "You can positively say," said Col. Moodie, "that there is absolutely no truth whatever in the story. It is an entire fabrication, and I should think that before such a wild statement as this is published, the very least that the paper should do is to consult those who are directly concerned in the matter. Neither myself nor any of my sons had a single hint of this until we saw it published yesterday afternoon, and it has caused us a good deal of vexation and annoyance."

To The Editor

MR. HAM'S REPLY.

Mr. Joseph H. Ham addressed the following letter to Mayor Spence to-day:
Mr. John Spence,
Mayor of the City of Brantford:
Dear Sir,—Referring to your letter, which appeared in the Expositor and Courier of last evening, July 8th, would you say that the information you claim to have received in regard to your movements on the night preceding the election is incorrect in many particulars, and probably the best way to clear the matter up is to state the case as the information comes to me, backed up reliable witnesses. The statement is that they first saw you Mr. Spence, on Rawdon street at the subway, and with you in the car was Mr. John Squires, and you were talking to Mr. Jenkens and another man in the middle of the road. You then proceeded up Bruce street to Murray street, turned north to Elgin, then down Rawdon to the subway, into Brock Lane and stopped at the house of Mr. Wesley Turner. When my supporters arrived several men from different houses in the vicinity had collected around your car and were talking to you. After you had stopped your car at another house you left Brock Lane and proceeded around Bruce street again and there stopped your car. Witnesses state that here the lights were out or covered. Shortly after, your car left the vicinity. There are at least four witnesses to state what took place in Brock Lane, and many more who will testify that you stopped your car in front of Turner's place and were talking to them. I might just say in this connection that I have known the Turners ever since I was a boy, and they probably have done hundreds of dollars of work for me, and they have always been on the most friendly terms with me. Previous to your visit, Mr. Spence, I met one of the Turners and he assured me that he and his brothers were supporting me but after your visit the same man told me that he did not think that a man ought to say which way he was going to vote. I have never said for what purpose you were in that vicinity, Mr. Spence; people will have to draw their own conclusions. I am surprised to think that you have tried to drag my wife into it; the statement that she telephoned the Chief of Police that you desired a man sent down to that vicinity is entirely incorrect. I might go on making references to other incidents of the campaign which would make interesting reading for the public but I prefer to let the matter drop at the present time. If, however I might be allowed to make a suggestion to you, Mayor Spence, I would say that I am informed that there is much work in the line of local improvements such as sidewalks, etc. which the people have asked for, and which the engineer has said cannot be accomplished this year. I think that if you would put in your spare time in trying to so organize the Works Department of the city in order that this work might be done and thus give employment to many citizens who need it, it would be of more benefit to the city than for you to try to use your office for the furtherance of the aims of a political party.

Yours Truly
JOSEPH H. HAM

JOKE COSTS THIS MAN A BAD BEATING UP
PITTSBURG, Pa., July 9.—Stanley Fialek, formerly employed in one of the Westinghouse factories, last night told some of his friends, jokingly he afterwards declared, that he was going back to work to-day. Soon after midnight he was rescued by the crew of a street car from three men in Bradock avenue, who had beaten him into insensibility. Two arrests were made, and deputy sheriffs and state troopers were looking for the third assailant. There was no change in the situation in the strike district.

Newspaper postage rates and the further censoring of advertising copy will be discussed at the annual meeting of the Canadian Press Association, which opens at Toronto to-morrow.

FOOTBALL EXECUTIVE ARRANGES FOR DRAWS

No Protests Filed Last Night and a Harmonious Meeting Was Held.

There were no protests and no complaints registered with the Brantford and Paris Football executive with regard to Saturday's games, at the meeting last night, and the protest committee received a rest. The business dealt principally with the arranging of cup tie fixtures and league dates.

John Marshall and Charlie Williams were retained to the Scots, while the following players were confirmed as eligible to play on Saturday: B. Hunt and W. Carr for P. S. A.; A. Scott, Geo. Garrett and C. Davis for Paris; J. H. Howling and T. H. Scanlon for the Tigers. I. Molloy was transferred to the Scots United team.

The Courier Cup tie between Paris and the Sons, which resulted in a draw, will be replayed on July 18th, when P. Farnsworth will referee. It will be played on the S.O.E. ground. The games and referees for Saturday, July 11th, are as follows: Tutela v. Holmedale, H. Smith.

Brantford Made Third Gift to London Club

Game Was Presented to the Kockneys on a Siber Platter in the Ninth Inning—Toughest Kind of a Loss by Red Sox.

To practically win a game and then lose it is exactly what the Red Sox did yesterday afternoon at Agricultural Park in the final game with London. To have a lead of 3-0 on the visitors up to the ninth inning and then allow them to score three runs in the ninth inning, through errors that should have been avoided is tough luck and worse baseball.

With two men on bases and two out in the ninth, Reidy grounded to pitcher Taylor, but the throw to Ivers at first got away from the latter and two runs scored, and before the inning was over London had tied the game and won out in the tenth by the score of 4 to 3.

Eddie Taylor had the Cocksneys well in hand up to the ninth and the losing of the game was in no manner his fault. The Red Sox played real baseball up to the ninth and as a result garnered in three runs.

In that fatal ninth only one ball was hit to the outfield. Errors and scratches constituted all the rest of the damage.

Roth seems to be all in, his legs having gone back on him. Undoubtedly he has been a good ball player in his day, but when a player begins to slow up, this is forgotten.

Notes of the Games

We deserve to be tail-enders. Ivers even failed to get a bingle. Lamond's work yesterday was really brilliant. No blame could be attached to the umpire. Two games this week should never have been lost. To-day the Red Sox tackle Ottawa. It looks like a chance. London has won eight games out of nine from Brantford. Get out of here London and stay out. You're a good club at that. Half the team were off the field when Ivers dropped Taylor's throw. Ivers took a poor time to pull off an error. That error cost yesterday's game. Having lost five straight games we surely are batting strong in the Gloom League. "Same as last year," yelled the fans. Well if the club wins a few games they will all be back there. Johnny Nelson on two occasions yesterday hit at bad balls. His hitting was an extreme disappointment. Does any one know a prescription whereby Eddie Taylor can get a change of luck? Don't all speak at once.

CRIPPLED SAINTS BEAT THE BEAVERS

Ottawa, With New Pitcher, Walloped Hamilton—Petes Lose to Eric

ST. THOMAS, July 9.—Toronto's two-run lead garnered in the opening inning faded into insignificance when the locals drove Bausewein from the mound in their half of the same frame and winning by the score of 4 to 2 by the time the ninth inning blew around.
The Beaver hurling selection retired with none out, and three runs scored on three consecutive hits and a base on balls when Schaeffer took up the handicap of trying to stem the tide and gained supremacy. But the task was too much, and while he held the locals his team mates could do but little with Reilly when men occupied the sacks.
Only one of the errors by the visitors developed into a run for the home team, showing with what effective pitching Schaeffer was showing the locals.
Both Scored Early
Toronto leaped into the run column right at the start when Kroy opened with a single, and went to third when Burrill bunted and Reilly threw wide to first. Ort singled through the infield and both runners scored, both the next three men were easy out and nothing further than stranded base runners were in the limelight for the visitors.
The Saints tied and secured one run to spare in their half, when Kopp singled, and he too went to third

when Bausewein duplicated Reilly's performance of throwing wide, when Inker bunted, Hadley tripled, driving in the two runs, while Kading singled off Bausewein before he was derrick, driving in Hadley with the third run. Schaeffer retired the side on grounders. In the fifth an error by Killilea gave Inker a life and with the bases filled on a walk and an error by Ort and two men down, Nevitt singled, scoring Inker, and here the scoring ended. The score, Toronto 2, St. Thomas 4.

One Hit Off Brown
PETERBORO, July 9.—In a game of 70 minutes yesterday Eric defeated the Petes by 2 to 0, both runs being scored after an infield error. It was a pitching duel between Tracey and Brown, the locals getting "but" one single. The score, Eric 2, Peterboro 0.

Finally Win a Game
HAMILTON, July 9.—The Senators got to Dolan for 12 safeties, including Lage's triple and Powers' double in the third game of the series here yesterday, which the visitors captured by a five to two score. Ottawa got to Dolan for four bingles in the first which netted one run, and for the same number in the third, which counted three tallies. Outside of these two periods he pitched good ball, issuing only one pass during the entire contest. Hamilton could not fathom Rube Marshall's speed ball and only five safe hits were garnered off him, including Barrett's and White's doubles. Good ball was dish-ed-up by both teams, despite the fact that each had two errors chalked up against them.
Ottawa's fifth run was counted in the seventh on Lage's triple, followed by White's error, while Hamilton's two tallies came in the fourth on three passes, a single, an error and a sacrifice hit. The score, Ottawa 5, Hamilton 2.

Sport Comment

Umpire Freeman who has seen a lot of baseball in his day, declared that Brantford fans would scarcely witness another game such as yesterday's in ten years. The game was considered by Freeman the very toughest kind to lose. It recalled to memory, however, a game in which he figured once when the team with which he was playing went in to bat in the ninth with the score 14-1 against them. After Freeman was the last man at bat the score was 15-14, and it was J. Buck's homer which broke it up.
The ordinary or the extraordinary fan can find little solace in the loss of yesterday's game. When Brantford wins it is a case of luck. When the club loses, it is just doing the expected. On Tuesday and Wednesday, London won from Brantford by starting something after two were down. Ivers, who has been playing fine ball, took a most inopportune time to make an error. It was that error which put the kink in things. Gabby claims that the ball which Taylor shot over to him took a mysterious curve. If it did, Taylor threw it without knowing it. At any rate, the throw was good. Perhaps as much damage was done by Ivers letting the ball get away from him as dropping it, because the runner advanced to second and scored the tying run.
A remarkable feature about that

ninth inning, was that only one ball was hit out of the diamond. The other hits were two scratches both to Thraikill, one pop fly to Roth and two bouncers to Taylor himself. In addition one man secured transportation. Thraikill drew an error for booting a scratch hit and allowing a runner home. The remarkable part of the finish was that the visitors were not actually hitting Taylor for runs, and if his pitching couldn't win, no pitching could. Taylor, with a real good team behind him, would scarcely lose a game.
London got fired trying to steal on Lamond yesterday, and a finer exhibition of throwing has seldom been shown by any catcher in this league.
This is good weather for knocking a tail-ender. At that, the general fan feels like handing out sympathy more than knocks.

Soft Ball
The Duffs and the G. S. & M. soft-ball teams meet to-night at Recreation park to battle to the finish in combat. Both teams will be strongly represented, and an excellent game will be seen.

With the City Police.
Josephine McKenzie again made her bow before Magistrate Livingston at the police court this morning when she was again charged with being a drunk and had been out for a joy ride to London, and upon arrival back here was nabbed by the police. She said she had some goods here which she intended to take with her, and it was on that account that she was not out of the city, as ordered a week ago by the bench. Again she was given a chance of making herself scarce, and this time a branch of the law will see her off to London on the train to- day.

According to the evidence, George
Yates travelled in an auto round a Dalhousie street corner at thirty miles an hour, and for this excessive speeding he was fined two dollars this morning.

Jacob Pebat got into a scrap on
Market street on Saturday, and his story was that he was set upon by two unknown men and that he beat them up. His plea was self defence, but the magistrate found that he had violated the statutes and fined him five dollars.

For some time past a foreigner has
been noted lurking around houses upon Chatham, Sheridan and Elgin streets, and the police have kept a watchful eye upon the district. The outcome was that Bogos Kalagian, an Armenian, was found upon Elgin street peering through a darkened window of a modern sized house, and was arrested. He is of medium build, dark complexioned with a dark moustache, and respectably clothed. He can speak only a few words of English and was remanded at the court this morning in order that the Armenian interpreter might be summoned.

DOCTOR'S WIFE MAY GO FREE

Alleged Eye-Witness Was Far From Place at Time of Shooting.

(By Special Wire to the Courier.)
MINEOLA, L. I., July 9.-It is not at all certain that there will be enough evidence for a grand jury indictment against Mrs. Florence Garman, charged with the murder of Mrs. Louise Bailey and yesterday commit- ted to the county jail awaiting an examination on the charge. This was the opinion Assisntant District At- torney Weeks expressed to-day.

Mrs. Garman's case was expected
to come up before the grand jury to- day, but according to Mr. Weeks, there was little likelihood of an indictment. The number of witnesses to be ex- amined would preclude this possibility to-day.

"It is not unlikely," said the Assis-
tant District Attorney, "that when Mrs. Carman appears on Monday be- fore Coroner Norton, who will then be acting in the capacity of justice of peace, she will be discharged."

At that time, Mrs. Carman's attor-
ney will have a right to cross-examine the witnesses who testify against the prisoner.

Dr. Carman, who came to Mineola
for the day, found his wife in better spirits when he visited her in jail. She seemed to have recovered her com- posure and to be less nervous.

After her husband left, Mrs. Car-
man broke down in her cell, and her condition became so acute, that the prison authorities were alarmed and called in the staff physician. She was taken to the Warden's office where she laid down on a couch and be- came quieter after sedatives had been given her. She refused, however, to go to bed.

George Levy, attorney for Mrs. Car-
man said to-day that he had discov- ered two new witnesses whose testi- mony he considered extremely val- uable. He also said he had informa- tion that two of the witnesses whose testimony had been instrumental in causing the arrest of Mrs. Carman had been far from the Carman home at the time of the murder.

He has known several days that
they suspected Mrs. Carman and added that if it had not been for the un- fortunate dictograph incident her name would never have come into the case as a suspect.

"She is innocent, as I know well,
and I am sure that in the end this will be established without a doubt," he declared.

Flames Sweep Big Promenade At Quebec

(By Special Wire to the Courier.)
QUEBEC, July 9.-Quebec's celebrated promenade, the Du- ferin Terrace, overlooking the river, and on which is built the Chateau Frontenac, the world re- nowned hostelry of the Canadian Pacific Company, is on fire, and the high wind that is blowing is fanning the flames with such a rapidity that the entire destruc- tion of the terrace is feared.

The fire was discovered at 1.30
this afternoon, and an alarm was run in at the Chateau Frontenac and when the fire fighters reached the scene, the fire had gained such a headway that the firemen were unable to reach the farther end of the promenade, and were only able to fight the flames from one side.

The entire staff of employees of
the Chateau is engaged in helping the brigade, and there is no immediate danger of the hotel being destroyed, but at one o'clock the fire had reached two large houses standing behind the terrace.

The fire is getting beyond the
control of the fire fighters. At 2 p.m. two houses are on fire and the flames are eating their way towards the Chateau Frontenac.

Fireman George Cote, of No. 9
station, was suffocated, but revived later.

There is danger of the walls of
the terrace collapsing and falling into Champlain ward, a tenement district.

Over five hundred feet of the
terrace collapsed at 1.45 p.m., and it is feared the stone walls over- looking Champlain ward will shortly collapse.
