COLLECTION OF LUXURIES TAX

OTTAWA, Sept. 25—Stamps will be used after November 1 in the collection of the excise taxes imposed on sales and luxuries by the budget legislation of the last session of the Dominion parliament. Arrangements for the introduction of the new method of collection are being completed by the customs and inland revenue department. Stamps are being printed and perforating machines for their cancellation are being prepared for distribution free of charge to merchants dealing in taxable commodities. From the luxury taxes the Dominion derived a revenue of six million dollars last month.

J. L. STEWART AT OPPOS. CONVENTION

Mr. J. L. Stewart Editor of the World, and for a number of years, one of Northumberland's representatives in the local legislature, attended the Opposition Convention held last Thursday in St. John. He was appointed Northumberland's representative on the Executive Committee of the Opposition Party, and made the following remarks at the convention when called upon, to address it, by Dr. J. B. M. Baxter the new Leader of the Opposition. Mr. Stewart took the platform and in response, said that he could not truthfully say that he thanked Mr. Baxter for the publicity given him because he came to hear and not to speak. Personally he was out of the political game, but he still felt a keen interest in his party's welfare, and he was always ready to do all he could to advance its interests and get a better government. Personally he felt that no set of men could ever deserve more opposition than did the present government. Their extravagance had been such as to pass all efforts of imagination. There had piled up an enormous increase in the public debt, and had displayed such a lack of business intelligence as rendered them utterly unfit for their position. The election has been called somewhat hurriedly and nothing very much has been done in his own county of Northumberland. There were lots of good men to be found, but they all appear to be holding back. Northumberland men were notorious for their political modesty.

North Shore Critical

As far as he had been able to find out the general feeling on the North Shore was that things were not as they should be at Fredericton, and that a new administration was badly needed. He was very glad to see so many of the party present and to note the enthusiasm which prevailed, as it showed the great amount of interest taken in the situation. He hoped the meeting would be productive of good results and that when polling day was over it would be found that the new leader of the Opposition had returned to power with a good majority behind him.

CONVENTION OF INSURANCE AGENTS

The first annual convention of the Fire Insurance Agents of New Brunswick was held in Moncton Wednesday afternoon and evening, convening in the Y. M. C. A. hall. The organization, which had been in the minds of several of the agents for more than a year was consummated at a meeting in Fredericton last month. Hereafter the Association will meet in annual convention in the month of June. Due to late organization, September was chosen as the month of meeting for this year. At the afternoon session, in addition to a good deal of technical discussion engaged in by the body, Mr. F. J. G. Knowlton, the well-known insurance Underwriter, of the firm of Knowlton and Gilchrist, of St. John, gave a very interesting address on "Insurance Interests" in which he showed clearly the necessity of having an interest in the property insured.

After the afternoon session of the convention, supper was served by the Ladies' Auxiliary of the Y. M. C. A. following which the evening session was continued with Mr. R. D. Fudge, Assistant Secretary and Rating Officer of the Board of Underwriters, St. John, gave an able address on the subject of schedule rating in which he explained how the Larter & Lerner system of rating was arrived at and the benefits it is to the insurance business.

Short addresses were given by Inspector Patterson, of the Atlas Fire Insurance Co., by Mr. Arthur Braascombe, and by Mr. John Love of the North British Mercantile Insurance Co., with headquarters at Moncton.

There was a further discussion among the members with regard to business similar to other provinces in the Dominion. Apropos, the following resolution, moved by J. B. H. Storer, of Bathurst, and seconded by C. M. Angherton, of Woodstock, was passed.

"That this Association recognizes the necessity of legislation being enacted for the proper licensing of local fire insurance agents in the Province of New Brunswick, and of the enactment of a qualification law to work in conjunction therewith; and urges that definite steps be taken by the executive at the earliest possible date, having this necessity in view."

During the evening several excellent solo numbers were rendered by Mrs. Stevens and several pleasing selections were given by the Male quartette.

Hearty votes of thanks were passed and tendered to the Ladies' Auxiliary of the Y. M. C. A. for the supper and to Mrs. Stevens and the Male quartette for their music.

The following are the officers of the Association:

President—Capt. J. E. Masters Moncton.
Vice-President—J. M. Flewelling St. Stephen.
Secy/Treasurer—Luke Morrison, Fredericton.
Executive Committee—Messrs. E. McCurdy, Newcastle H. B. Storer, Bathurst; C. M. Angherton, Woodstock; and Mr. Wilkinson, of Fredericton.

DISHES AND FURNITURE WILL BE FOR SALE AT THE RUMMAGE SALE IN AID OF THE MIRAMICHI HOSPITAL.

SEIZURE PART OF LARGER SHIPMENT

It develops that the heavy seizure of liquors in a car supposed to be loaded with oats at Edmundston last week was only part of a much larger consignment of spirits shipped from Quebec province and intended for Maine. A large part of the liquor in one other car was hauled over the international bridge between St. Leonard and Van Buren before it could be stopped. Whether the United States officers seized any of it before it reached its destination is not known. They were notified of the shipment of liquor into Maine but it is possible the cars were unloaded before a seizure could be made.

Gloucester County

Government—F. J. Veniot, J. P. Ryan, H. R. Leger, John G. Robitaille.

York County
Opposition—James K. Fisher, John A. Young, G. B. Hunter, C. D. Richardson.
Government—John T. Christie, P. A. Watson, J. D. Disher, Frank Coombs.

Lantic Sugar

Last call for fall fruits Do not miss your chance to preserve these last sun-ripened gifts of summertime. How your folks will enjoy them, and how pleased you will be to serve them when canned goods made with top-priced sugar are out of reach. The time for preserving foresight is when the fruit is still in season.

Lantic is your best friend in retaining the rare bouquet of luscious plums and peaches, of delicately-flavoured pears. Its tiny, snow-white crystals of purest cane dissolve so quickly into syrup of concentrated sweetness, that you can smile at the old-time caution "Let it simmer until the sugar is all dissolved"—because it's **WINE**.

Fruit will retain its natural form and colour because overcooking is unnecessary. Lantic WILL go further, and so costs less.

Storing The Vegetable Crop

The vegetable crop has been an abundant one in most places in Canada this year, and many persons will have a large quantity to store. It is important that care be taken in storing so that losses will be reduced to a minimum.

Potatoes should be dry when stored and where possible put where the temperature will not go above 40° F. or below 32°. In order that the surface of the potatoes can be kept dry and in the best condition to avoid rotting, provision should be made for air to pass underneath and through them. If they are stored in considerable or large quantities such provision is made by keeping the potatoes about six inches off the floor by first putting down a slatted temporary floor with the boards just close enough so the potatoes will not fall through, and a similar slatted temporary wall a few inches from the permanent wall would permit a still freer circulation of air. Keeping them in crate-like boxes with openings between the boards on tops and sides is a good method.

Beets, parsnips, carrots, salsify and turnips keep best under conditions somewhat similar to potatoes, though it is not so important to keep them dry. Indeed in the average cellar they are liable to become too dry and lose their firmness. If there is danger of this they may be kept in boxes and covered with a sack kept wet. In a warm cellar they will grow.

Onions are very liable to rot unless kept in a dry place. Keep them spread out as thinly as possible. Where quantities are small, an attic room where there is no frost will be found a good place to store them.

Cabbage will soon wilt in a warm, dry cellar. Keep them outside as long as possible by protecting them with leaves, straw, or soil. If they begin to crack before it is time to pull them, loosen them in the ground by twisting the plant and thus checking growth. When stored where the air is very dry they keep better with the roots and stems left on, and wrapping each head in a newspaper will prevent wilting to some extent.

Celery is left outside until danger of severe frosts. To keep well in storage it needs a moderately dry, well ventilated cool cellar for best results. The celery should be planted in the cellar in rows close together in sand or light soil, separating each row with a lath or other pieces of wood to keep the tops somewhat apart and better to ensure a circulation of air. The soil should be kept moist but the tops dry. Avoid wetting the leaves and stalks if watering is necessary.

To store green tomatoes to ripen them put in closed boxes or drawers where they will be in the dark and in a moderately warm place.

THE SIZE OF OCEAN CABLES.

Through natural associations of ideas, one would think of an ocean cable, linking lands thousands of miles apart, as being very large, and if told that it was of different sizes at various points, would assume that it is largest where the ocean is deepest.

As a matter of fact, where the ocean is deepest, there the cable is thinnest, for the reason that a very large cable would be enormously heavy to raise when repairs were necessary, and moreover, where the water is very deep there is practically no movement on the bottom, and a small cable answers every purpose. In shallow water, because it is subjected to greater strains, being shifted about more or less, heavier cable is found at shore ends. These three sizes of cable are known as "deep sea," "intermediate" and "shore end," and are respectively 1, 1 3/4 and 2 3/4 inches in diameter.

A FINANCIAL CREED

The following ten points are published by the International committee of the Young Men's Christian Association:

1. Spend less than you earn—to assure your being on the road to success.
2. Make a budget to ascertain how you dispose of your income.
3. Keep a record of expenditures—to see how close you come to your estimates.
4. Have a bank account—to keep your money in a safe place and help you save.
5. Carry life insurance—to protect your loved ones in case of death.
6. Make a will—to insure your resources going quickly to those you desire.
7. Own your own home—to secure the greatest satisfaction in your home life.
8. Pay your bills promptly—to secure the greatest satisfaction in your home life.
9. Invest your money wisely—to help your country and to make a wise investment of your savings.
10. Share with others—to right your religious duty of generosity.

High Flights of Birds Recorded

Man's new power of aerial travel is giving closer observation of the flight and migration of birds. The notes of a French aviation officer shows an evident preference of swallows for a height of 2,000 feet, but other birds go higher.

Last March he met plovers at 8,500 feet, the greatest altitude at which he has yet seen bird groups. Wild ducks make their migrations at about 5,000 feet. They follow the twists and turns of their leader with extraordinary agility, and the whole flock has the appearance of manoeuvring automatically.

They climb at sixty-five miles an hour, then travel at seventy miles.

Coal Situation In Dominion

Much of the worrying which is being done with regard Canada's fuel supply for the coming winter is needless. That is the view of Hon. F. B. Carvell, chairman of the board of railway commissioners, under whose control coal imports and exports were placed by the Dominion Government during last session.

During the period from April 1 to Sept. 15, 1920, Eastern Canada imported 144,658 fewer tons of anthracite, but 1,852,065 more tons of bituminous coal than in the same period of last year, and as conditions on the other side of the international boundary are improving, so the imports of coal are increasing.

Fire Prevention Day

The Governor-General has, by proclamation, set aside Saturday, October 9, as a day on which to especially emphasize the great loss which Canadians, individually and collectively, are sustaining through destruction by fire, of both natural and created resources.

At a time of high building costs and acute scarcity of material, we are burning buildings at a criminal rate. Canada's fire loss of last year, viz., \$35,000,000, or approximately \$2.90 per capita, was the highest per capita in the world. Not only is this a complete loss of national wealth, but its replacement creates increased competition for available building supplies, thus enhancing prices for new building. Public education and a recognition of personal responsibility are essential to a reduction of the fire waste. It is particularly essential to interest the younger generation, through the Canadian teachers, in the efforts being made towards a reduction of the fire loss.

Fire Prevention Day will give a splendid opportunity for bringing this subject to the attention of pupils and should produce good results.

A New Character

When, four years ago, KING COLE ORANGE PEKOE TEA first appeared, something more than a new tea had been produced—a new character in tea had been created. Only after most searching experiments in flavor-blending were we at last able to develop that peculiarly mellow richness of flavor so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has doubled twice in the last two years.

We are confident that you will say that it is different to any tea you ever tasted.

PUBLIC WHARF

The Public Wharf is in a disagreeable
condition and the Committee of the
County Council which has charge
of it, should devote time enough, the
next visit they make to Newcastle
to look over its condition, and they
will have no hesitation in confirm-
ing our statement; The Public
Works Committee of our Town
Council this year has done some
remarkable good work in fixing our
town streets, which we admit were
in a bad condition, and now that the
Town has expended so much time
and money to put our streets in a
fairly good condition, it behooves
the Public Wharf Committee of the
County Council to at least make this
important thoroughfare passable. A
large amount of traffic goes over
this wharf each and every day and it
is one of the busiest streets in the
town. At present it is almost im-
possible for heavily laden vehicles to
go over it, without meeting with
some accident, and a little attention
given to it at once would eradicate
this trouble and save considerable
expense in the future. The neces-

ONE WOMAN'S
EXPERIENCE

Of Interest to Childless
Women.

Toronto, Ontario.—"I suffered for a
long time from a female weakness, in-
flammation, and a terrible headache
caused by that condition. One day one
of your booklets was left at my door, and
I read how other women with troubles
like mine had been made well, so I got a
bottle of Lydia E. Pinkham's Vegetable
Compound and a package of Sanative
Wash, and it helped me wonderfully,
and I now have the finest little baby boy
that any mother could want. I want to
recommend Lydia E. Pinkham's Vege-
table Compound to any woman who has
female troubles."—Mrs. JOSEPH LA
BELLA, 775 Shaw Street, Toronto, On-
tario, Canada.

The experience of Motherhood is a
trying one to most women and marks
distinctly an epoch in their lives. Not
one woman in a hundred is prepared or
understands how to properly care for
herself. Every woman at this time
should rely upon Lydia E. Pinkham's
Vegetable Compound, a most valuable
tonic and invigorator of the female
organism.

In many homes once childless there
are now children because of the fact
that Lydia E. Pinkham's Vegetable
Compound makes women normal,
healthy and strong, and this good old,
fashioned root and herb remedy con-
tains no narcotics or harmful drugs.

ary work on this road must be done
sooner or later, and if done now,
could be performed much cheaper
than at a later date. This thorough-
fare is also an eye sore to the citi-
zens of our town and the many visi-
tors, who come and go via the boats,
and in its present condition it does
not reflect much credit on the Public
Wharf Committee. We hope this
matter will be immediately attended
to by the Committee in charge.

THE TELEPHONE SERVICE

We presume that all Telephone
Subscribers have received notice of the
increased rates, which go into
effect on and after October 1st. The
majority of our citizens do not object
to paying the increased rate, provid-
ed that they get the service that
they most undoubtedly are paying
well for. In the past the service re-
ceived by the local subscribers has

not been one, which the Telephone
Company, can very well boast about,
and it should be their ambition to
give their subscribers, in future, a
service, which will merit them the
good will of their customers. If on
the other hand, the same old ser-
vice is continued, it is up to the sub-
scribers to resent, in a most forcible
manner, the poor service which they
are at present receiving. The Tele-
phone Company have now been
given permission to exact a high
rate for their services, and if that
service is not up to the mark, it is
the duty of the Telephone Subscrib-
ers to immediately get together and
ascertain why they are not receiving
what they are paying for. We hope
the service given in future,
will not necessitate any such action
on the part of the subscribers.

THE NEW LEADER

The new leader, of the Opposition
the Hon. J. B. M. Baxter, the logical
successor to the leadership, is no
stranger to the public. As Attorney-
General in the late administration he
was instrumental in putting upon
the statute book, or laying the founda-
tion for, some of the best legislation
that exists in the province today,
and should he find himself at the
head of affairs when next the Legis-
lature meets, as it seems most likely
that he will, he may be depended
upon to add a good many more chap-
ters of useful legislation that will
further tend to improve conditions
in the province.

The Opposition should not find a
very difficult task before them at the
forthcoming election; The Govern-
ment's record lends itself readily to
the most destructive criticism; their
reckless extravagance, their utter
disregard for anything but their own
aggrandizement and party advantage,
their immature and ill-considered
schemes, all combine to prove them
unfit to administer the affairs of the
province as they ought to be admin-
istered. Another period in office,
with liberty to continue along the
lines they have followed during the
past three and a half years, will land
the province in a predicament from
which it will never recover.

From all parts of the province
come reports of the pleasure with
which the electorate are awaiting the
opportunity to again place the party
now in opposition in power. The
electors realize that the present ad-
ministration has been given its
chance and has been found wanting
in every essential that is looked for
in Good Government.

Old Time Veterans
Of The Long Ago

Two veterans of the long ago,
friends from childhood, by acci-
dent met in Truro a few days since,
and have been renewing reminiscences
of other times.

These fine old men are William
H. Bell, lately of Newcastle, N. B.,
and Murdoch McKay of East River,
Sunny Brae, Pictou Co. formerly of
Glengarry.

Mr. McKay, with his wife, is a
guest with his daughter, Mrs. Andrew
McLean, Dominion Street, whose
husband died some two years ago.
He has been visiting his sisters, Mrs.
John McNutt and Mrs. Peter Grant,
Stewiacke.

Thirty years ago Mr. McKay, who
was engaged in the lumber business
in Glengarry, had quite extensive
transactions with the old Truro firm
of Messrs. Wm. Cummings and Son
and he later had charge of a portable
mill at Shubenacadie for Mr. T.
C. McMullen, The Cedars, Truro.
Since those days he has been in lum-
ber business at different times in
the West. After his marriage to
his second wife he removed to his
present home at Sunny Brae.

Mr. Bell for 36 years was a car-
penter on the Northern Division
of the I. C. R. and for long years had
been in the railway employ. He was
in Truro, when Inglis Street was a
cow-path and he was with those who
cleared the trees for the site of the
first railway station in Truro. He
helped chop down the forest between
Truro and Brookfield for the line of
railway and in three and a half years
from that time he came into Truro
in a railway train. He worked on
a steamshovel at the building of the
railway line past Bible Hill and over
to the Onslow cuttings. For his
faithful work he proudly wears a
"Long Service Medal" from His Ma-
jesty the late King Edward VII. He
and his good wife celebrated their
Golden Wedding on May 15, 1913,
and he sports a gold-headed cane
given him by fellow-citizens on that
occasion.

Mrs. Bell has since died, passing
away in June of the present year.
Mr. Bell has sold his property in
Newcastle and is now taking a little
tour among old time places and old
time scenes; and on this tour he al-
most by accident fell in with his
boyhood days'—are long friends.

Canadas Gold

Canada's gold situation has caused
anxiety in some quarters for the past
year, and much has been said and
written of it, usually the conclusion
reached is that, while it is not satis-
factory, most of the countries of the
world are in a worse condition, so
why should we worry? Rerewing
the position. The Teller, published
by the Sterling Bank of Canada, says
that in December, 1913, the gold held
by the Government and the banks of
Canada amounted to about \$142,000,
000. At the end of 1919 it had in-
creased by \$50,000,000. With a popu-
lation of less than 10,000,000, or
about one-half of one per cent. of
the population of the world, Canada
holds approximately two per cent.
of the world's gold.

"Moreover," says The Teller
"gold mining in this country would
augment our holdings of the precious
metal by \$15,000,000 annually if the
leak resulting from unfavorable con-
dition of our international cash ac-
count could be stopped. We have
our fair share of gold, probably, if
we can hold " and pay our obliga-
tions abroad with other goods. The
real problem is so to order our trade
relations that undrainsage of
gold will not take place and to make
sure that in our foreign relations we
do not have aggregate cash obliga-
tions exceeding current cash receipts.
Pending the time when Canada
can resume specie payments on de-
mand, it is important that the Govern-
ment should realize the importance
of its problem and should make every
effort to gain and to hold the confi-
dence of foreign investors. Canada is
peculiarly dependent upon foreign
capital for development purposes,
and it is of the utmost importance
that our national credit be guarded
jealously. Nothing can contribute
more effectively to that end
than adoption of such pro-
gram as will restore the
parity between our currency and
gold and renew the redemption of
our national pledges. That program
must include greater production at
home, reduced obligations abroad
through the widest application of
that term, and adequate but equi-
table taxation."

Government Meeting at Chatham a Fizzle

Last night a meeting of Government supporters was held in Chatham for the purpose of appointing delegates to attend the Convention which the Government Ticket are holding in Chatham on Thursday. The attendance consisted of twelve persons, including two reporters. The others present were mostly men, who are engaged on the new road between Newcastle and Chatham, which is a piece of Government work, also the Hon. Robt. Murray's son-in-law, a Liquor Vendor, and others who are now holding government positions.

The Hon. Robt. Murray promised the meeting that Stumpage would not be raised if the government was elected, which evidently pleased the one lumberman who was present.

GOVERNOR-GENERAL'S MOTHER IS DEAD

Vancouver, B. C., Sept. 26—The Duke of Devonshire, Governor-General of Canada, received word on Friday of the death in England of his mother, Lady Emma Cavendish. The Vice-Regal party which arrived here yesterday, will not be able to fill all their engagements on the coast as a consequence.

WHAT'S A BILLION, ANYWAY?

We often hear and see the word, especially now, when we read in the newspapers that the World War will cost something like two hundred billions of dollars; that Germany's indemnity is twenty billions. For the financier the word has a definite meaning. To him a billion dollars represents just so much purchasing power; he knows just how much effort is required to correct it. But what does a billion mean to you?

Suppose that in the summer of 1870 a paying teller had started counting out the one-dollar bills. Counting at the rate of a hundred and fifty a minute, and working eight hours a day, three hundred days a year, allowing for Sundays, holidays, and a short vacation, he would have handled out his last bill in the summer of 1914. It's lucky we don't own a billion. Think how many people we should have to employ to keep it counted.

Feeding Value of Windfall Apples

In consideration of the scarcity, adulteration and excessive cost of feeds on the feeding value of windfall apples may be opportune. When the choice lies between feeding them or using them as fertilizer it is often preferable to use them as feed.

Contrary to the supposition that the feeding of apples interferes with the milk flow there is data to show that apples used rationally do not injuriously effect it. The mistake made has probably been to feed apples as a substitute for more nutritious feed, for example, meal or hay and not merely to replace the succulent part of the ration.

Apples unmarketable or of very low market value may be regarded as a substitute for silage and a useful place found for them in the farm dietary but their limitations to replace other feeds need to be recognized and a ration of sufficient nourishment and desirable ratio planned.

Interesting Facts About Watches

When you buy a watch, ask the dealer to open the back case and show you the regulator. If the pointer is near the centre of the dial the watch will need very little adjusting, and you can depend upon its keeping good time.

Always wind your watch in the morning and as nearly as possible at the same time every day. Many persons never stop to think about this, but wind their watches the last thing before they jump into bed.

Be good to your watch by winding it regularly, having it cleaned once a year and guarding it against undue jars or shocks, and it will repay you in faithful and accurate service.

N. B. Legislature Dissolved

The Legislature of the Province of New Brunswick has been dissolved by His Honor the Lieut. Governor, Hon. William Pugsley, Dissolution dates from today September 16th. An extra edition of the Royal Gazette of date of the 16th inst. contains the following proclamation: Whereas the Legislative Assembly of this province stands prorogued to Thursday, the thirtieth day of September instant, I have thought fit to dissolve the said Legislative Assembly and the same is hereby dissolved accordingly.

Given under my hand and seal at Fredericton the sixteenth day of September in the year of our Lord one thousand nine hundred and twenty, and in the eleventh year of our reign.

By command of the Lieutenant Governor. ROBERT MURRAY, Provincial Sec. Treasurer

No Great Surprise. The dissolution of the Legislature does not come as any great surprise as rumors of a general election apparently based upon facts have been current for some time.

In St. John today announced that the election for the new legislature would take place upon Saturday October 9th, and that nominations would be made upon the preceding Saturday October 2nd.

New Features. It is expected that political activity will begin at once. In some sections of the province organization has been under way for some time.

The registration of female voters for the first time in the history of the province will mean a heavier poll and more numerous polling booths. It also may inject new features into campaigning.

By command of the Lieutenant Governor.

Hon. Dr. J.B.M. Baxter Leader of Opposition

Hon. Dr. J. B. M. Baxter, who was elected as Leader of the Provincial Opposition, Thursday night made the following statement to the Canadian Press:

"The Opposition Party, of which I have been selected as leader, will go into this campaign resolved to re-nact itself, in accordance with the best traditions of its past history.

"It will stand essentially for prudent administration of the resources of the Province, avoiding increase of the bonded debt for services which can be met out of the annual revenue; for increase of that revenue without imposing undue burden upon any section of the people; for government on constitutional lines by the people through their representatives, and for recognition of the right of all the people to share in the administration of the affairs of the province without any distinction based upon race, or class or creed.

At the convention of the Provincial Opposition, Hon. J. A. Murray definitely retired from the leadership

Origin of Eels Solved After 2,200 Years

Copenhagen, Sept. 22—The question of the origin of eels, which was raised by Aristotle 2,200 years ago and has occupied deep sea scientists for the last century, has now been finally solved by an expedition promoted by Danish scientific men, and effectively supported by Councillor Anderson, manager of the East Asiatic Company, who put the four-masted motorship, Dana, at their disposal.

The expedition has discovered that eels, leaving north west Europe in the autumn, emigrate to their breeding place near the West Indies, where conditions for the development of their larvae are favorable. The larvae afterwards make their way back to the places from which their parents started on the European coast.

This discovery is not only of geographical interest, but will also yield very practical results. The supply of eels in the breeding places is inexhaustible, and there will be an unlimited supply of eel food for European countries. Eels only undertake the journey from and back to the breeding place once in their lives.

Poor Health Life's Handicap

Rich, Red Blood and Strong Nerves Needed to Win Out

It has been well said that life is a race. The full blooded man with sound nerves, the bright-eyed, rosy-cheeked woman invariably win. The nervous, dyspeptic man, and the anemic woman are left behind. Success in life is largely a question of good health and sound nerves. It is never the shaky, undecided men who are chosen for promotion; the sickly looking, pale woman is no sought after like her happy rosy sisters.

What makes all the difference is the condition of the blood. If your blood is thin and poor, your nerves are bound to suffer, because they have to depend upon good red blood for nourishment. Headaches, undecided will, a shrunken figure and pale, unattractive face tell only too plainly that the blood is at fault.

Both men and women in great numbers have found deliverance from their inferiority in life's race, caused by impoverished blood through the use of Dr. Williams' Pink Pills. They are a remedy that has been a household word to tone up the whole system, make the blood rich and red and strengthen the nerves. Mrs. S. B. Miller, Elmira, Ont., says: "I took upon Dr. Williams' Pink Pills as a family medicine, and have reason to praise them for what they have done in our home. Some years ago, while we were living in Alberta, my husband was so completely run down that he was unable to do any work, and even to carry a pail of water would exhaust him. A doctor was called in who said his heart was affected, and that medicine would be of little use to him. This greatly worried me and I finally urged him to try Dr. Williams' Pink Pills. He began their use and in a short time the swelling in his hands and feet disappeared. We decided to return to Ontario, but the doctor said he could not stand the trip. But the doctor was mistaken, for through the use of the pills, he gained such strength as to be able to look after the harvest, and in a month later we returned to Ontario. My husband still takes a box or two of the pills twice a year, and they keep him in good shape. I have also found the pills good for my growing daughters, and we are never without them in our home."

One of the best things about Dr. Williams' Pink Pills is that they do not contain the slightest trace of opiates or harmful drugs. While they are overcoming disease they are building up general conditions of good health. You can get these pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Many Failures Laid To Drop in Prices
 (Sun and New York Herald.)
 A statement that the peak of high prices has been reached and that since February there has been a steady decline, accompanied by the wrecking of many business houses, was made last night by Francis H. Mason, vice-president of the Guaranty Trust Company, in an address before the National Retail Tea and Coffee Merchants' Association in the Pennsylvania Hotel.

Mr. Mason said that the drop in prices of manufactured products had been felt only slightly yet, with the most pronounced downward trend in commodity prices. He added that the number of commercial failures was increasing, the figures for July having been 681 mercantile and industrial firms, with liabilities of almost \$23,000,000, and for August 673, with liabilities of more than \$8,000,000. The record of failures in July, 1919, was 463, with liabilities of 5,500,000.

The large failures last month exceeded those for any other August since 1894, according to Mr. Mason's figures, and liabilities involved by these defaults were the heaviest reported since 1914.

"This is not the time to borrow in order to carry large stocks of goods or to stimulate production of non-essential articles," said Mr. Mason. "These failures indicate that certain more or less painful readjustments are taking place in trade and industry. They should point the moral that in a declining market it is the part of wisdom to be short on commodities and long on credit. Commercial loans are not, however, being denied to any industry that is endeavoring to increase the production of essential goods."

Mr. Mason characterized as "hardly" any movement of manufacturers and dealers to sustain prices by artificial means, stating that this is actually an attempt to suspend the operation of economic laws. He called for the repeal of excess profits taxes on the ground that they were "a heavy, unnecessary burden upon the producer."

He said that in 1919, 1920 and 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, POLITICAL POINTS
"And whom did you vote for, Miss Sophy?"
"Well, you see, the Republican was simply stunningly good-looking. But the Democrat had always been perfectly splendid to his family, so I marked both ballots, closed my eyes, shuffled them, put one in the box and tore up the other. Nothing could be fairer than that."

FUNERAL
The funeral of the late Mrs. Charles Donovan, was held on Wednesday, Sept. 22nd, from her late residence to St. Mary's Cemetery. Service was conducted by Rev. P. W. Dixon. The pallbearers were Messrs. Peter Dunn, Matthew Murphy, W. W. Cormier, James Hachey, James Stewart and James O'Brien. Many floral tributes were sent by friends, which testify to the high esteem in which deceased was held. The funeral was under the direction of Mess. Maher Bros. of Chatham.

AN OPEN SEWER
There is an open sewer on Pleasant Street, from the Opera House up, which should be given the immediate attention of the Public Works Committee. Pleasant Street at this particular point is none too well lighted and the new sidewalk which was built this year has a considerable round to it, making the possibilities of accidents very numerous. Further, from the civic health viewpoint, it is not one that is very commendable.

DESERTERS CAPTURED
Last Saturday evening Chief of Police John A. Asaford received a telegram advising him that a number of sailors belonging to the English Navy, who had arrived recently in Quebec, enroute to Halifax, had left the train at Newcastle. On Monday, two of the deserters, William Spencer, and Wm. Alfred, surrendered to the Chief of Police, and are now awaiting transportation to Halifax, no tidings of the others have been ascertained.

PRESENTATION

The occasion of the approaching departure of Miss Gwendoline Belyea to take up her studies in Acadia University was taken advantage of by her Sunday School Class as a fitting time to present her with some tangible gift in appreciation of her loyalty and keen interest in all pertaining to the welfare of her class. The gift took the form of a brooch and an address. The address was read by Miss Mildred Somers and the presentation made by Miss Muriel Scribner, after which a most enjoyable evening was spent.

WRITS ISSUED FOR INCOME TAX
Vanouver, B. C., Sept. 26—The long arm of the law at Ottawa was felt here yesterday when the minister of Justice for Canada, Hon. C. J. Doherty, issued writs against 209 people in the city and district for failure to pay their income taxes within the required period. These writs are for a number of prominent people in the city including a high official of the C. P. R. and a K. C., and are causing quite a sensation.
All the writs are being served personally by the members of the local income tax department.

COST MORE THAN A MILLION
A vast tract of forest land and valuable water rights were included in the recent transfer of the St. George Pulp & Paper Company's property at St. George and along the Magaguadavic and tributaries. The purchase price of the entire property, including mills, is understood to be in excess of \$1,000,000, according to the Wall Street Journal. The transfer includes 105,000 acres of wood lands.

The purchaser is the Press Publishing Company of New York city, the legal name of the company owning the New York morning, evening and Sunday World. The transfer was ratified legally in New Brunswick at a special meeting of stockholders held in St. John recently and was a mere formality, the actual negotiations having taken place in the United States. The States capital previously being in control of the St. George Pulp & Paper Company's mills at St. George and at South Norwalk (Conn.). The Press Publishing Company bought the South Norwalk property some time ago.
The purchase of the New Brunswick property is expected to mean a renewal of activity at St. George, where additions are likely to be made to the plant here on. The New York World hitherto has obtained much of its immense stock of news print required from the Mr. mills at Glens Falls (N. Y.).

An Excellent Medicine For Little Ones
Baby's Own Tablets are an excellent medicine for little ones. They are a mild, but thorough laxative which soothes the stomach and regulates the bowels, thus bringing relief in cases of constipation, indigestion, colic, and other ailments.
Concerning Constipation, J. J. Chalmers, Georgetown, N. S., writes:—I have found Baby's Own Tablets excellent for my young baby in the case of constipation and colic and gives me great pleasure in recommending them to other parents. My baby was suffering from constipation and colic for several days and was very restless. I gave her a box of Baby's Own Tablets and she was cured in a few days. I have since bought a box for my other child and will recommend them to all my friends.
