Lumbermen Ask Justice

The Deputation Presents Strong Case For Protection of the Industry.

Judge Adlington of Toronto Gets Vacant Seat on Supreme Court Bench.

Mr. Borden Given a Hearty Welcome by Both Sides of the House.

From Our Own Correspondent. OTTAWA, Feb. 7.—At today's meeting of the cabinet the existing vacancy in the Supreme Court bench caused by the transfer of Judge Killam to the position of chief of the railway commission, was filled by the appointment of Justice Adlington, of the Exchequer court, division of Ontario High Court. R. C. Clute, K. C., Toronto, gets the vacancy thus created.

Seedsman from all parts of Canada are here to protest against Hon. Mr. Fisher's bill regarding the inspection of seeds. The seedsman have organized a referred to a special committee in order that expert evidence may be taken.

The Ontario lumbermen tendered a banquet to the Hon. Mr. Borden and his friends tonight. All are very hopeful of the result of the delegation to the government.

A deputation from Calgary arrived here tonight to ask that in the bill creating one or more provinces in the Territories neither Calgary nor Edmonton be made the temporary capital, so as to give both towns a fair chance when the people come to decide in the question.

Mr. Borden had a splendid reception when he took his seat in the house this afternoon. Both sides of the house received two bouquets, one from the opposition and the other from his successful opponents in Halifax. The opposition, Michael Carney, on Sir Wilfrid Laurier's motion, Mr. Borden was added to the committee on privileges and elections, and the committee was changed.

ORCHARD IN BARN.

Rochester, N. Y., Feb. 7.—Henry Freeland, a negro, was burned to death this morning in the barn of Patrick O'Neill in West Watson street, Weekport. He was 30 years of age and was accustomed to sleep in the barn. The origin of the fire is unknown.

COAL POCKETS BURN.

Port Jervis, N. Y., Feb. 7.—Several coal pockets of the Erie Railroad Company, a number of cars and several small buildings were burned here early today. The loss is about \$100,000.

RAILROAD RATE LEGISLATION.

Washington, D. C., Feb. 7.—Senator McCallum, formerly chairman of the interstate commerce committee on the coal commerce, favors the passage of the Esch-Downs bill for the regulation of railroad rates, and believes that the same should take effect from the house and enact it into law without amendment of any kind. He so expressed himself to the Illinois congressional delegation and the members of the Illinois Manufacturing Association, who are here urging rate legislation.

Many Added To Death Roll

Several Workers Killed by the Strikers in Warsaw Encounters.

Outbreaks in Other Cities Result In the Killing of a Score.

Warsaw, Feb. 7.—The Catholic bishop of this diocese has issued an appeal to the strikers to attend the cathedral and definitely state their claims tomorrow.

The public schools have opened and all pupils have returned, with the exception of those who will not return unless the Polish language has been introduced.

The general strike situation is unchanged. Several men were killed here by strikers today when attempts were made to resume work. Many arrests have been made.

The price of provisions has gone up. The peasants are afraid to bring in their produce. Many have been arrested.

According to a report from Radom, twenty workmen have been killed or wounded in strike disorders there today. Great numbers of workmen have been killed and forty wounded.

Grave trouble is also reported at Kutno today. Riots have been sent to Kutno from here.

POSTAL EXPANSION.

Mail Sorting on Trans-Atlantic Lines and Extension of Parcel Post.

Paris, Feb. 7.—W. H. Shallenberger, second assistant postmaster-general of the United States, and Mr. Almon of the United States, arrived in Paris today for conferences with the postal officials in Paris and London, which are expected to inaugurate a number of important changes in the management of trans-Atlantic mails. Mr. Shallenberger said today:

"The discussions are tentative but are sufficiently advanced to indicate that there is no doubt of their satisfactory conclusion. The arrangements include:—

"First—Sorting the mails on board the steamers so as to be ready for their distribution when they arrive in New York.

"Secondly—Readjustment of the trans-continental railway charges for the carrying of British mails across the United States, and from Australia.

"Thirdly—Parcel posts between the United States, Great Britain, and the United States and France."

The trip of Messrs. Shallenberger and Almon followed a conference with the American postal officials in London and Paris ready to co-operate so that little remains to be settled as to the details and the ratification of the arrangements.

The sorting of the mails will be inaugurated by the White Star Line on April 9, and the arrangements for the carrying of British mails across the United States, and from Australia.

The general strike situation is unchanged. Several men were killed here by strikers today when attempts were made to resume work. Many arrests have been made.

The price of provisions has gone up. The peasants are afraid to bring in their produce. Many have been arrested.

According to a report from Radom, twenty workmen have been killed or wounded in strike disorders there today. Great numbers of workmen have been killed and forty wounded.

Grave trouble is also reported at Kutno today. Riots have been sent to Kutno from here.

POSTAL EXPANSION.

Mail Sorting on Trans-Atlantic Lines and Extension of Parcel Post.

Paris, Feb. 7.—W. H. Shallenberger, second assistant postmaster-general of the United States, and Mr. Almon of the United States, arrived in Paris today for conferences with the postal officials in Paris and London, which are expected to inaugurate a number of important changes in the management of trans-Atlantic mails. Mr. Shallenberger said today:

"The discussions are tentative but are sufficiently advanced to indicate that there is no doubt of their satisfactory conclusion. The arrangements include:—

"First—Sorting the mails on board the steamers so as to be ready for their distribution when they arrive in New York.

"Secondly—Readjustment of the trans-continental railway charges for the carrying of British mails across the United States, and from Australia.

"Thirdly—Parcel posts between the United States, Great Britain, and the United States and France."

The trip of Messrs. Shallenberger and Almon followed a conference with the American postal officials in London and Paris ready to co-operate so that little remains to be settled as to the details and the ratification of the arrangements.

The sorting of the mails will be inaugurated by the White Star Line on April 9, and the arrangements for the carrying of British mails across the United States, and from Australia.

Finnish Assassins

Murder of Procurer General Has Been Expected For Years.

Was Looked Upon as Traitor to his Country by the People.

Fear That Crime Will Cause an Adoption of Policy of Repression.

ST. PETERSBURG, Feb. 7.—The assassination of Procurer General of Finland Soisalon Soisalo is believed to be undoubtedly due to political causes. The Associated Press was informed at the ministry of the interior that Soisalo was long ago marked for vengeance by the young Fenomena and Stats Noman parties, who regarded him as a traitor to his country. As procurer general he had a position independent of and in some respects even superior to that of the procurer general, and he also was the leader of the old Fenomena party, the influence of which is no longer dominant in the Diet, though it is still preponderant in the senate. It was a matter of surprise familiar with the Finnish situation that Eugene Schumann directed his revolver at Governor General Bobrikoff of Finland (who was shot June 16 last and died the following morning) instead of at Soisalo and the latter had long expected to meet a violent death. Precautions were taken to safeguard his life, but the precautions lately were somewhat relaxed because the Finns appeared to have settled down to a policy of passive obstruction without resorting to violence.

The crime is deplored by the Finns.

THE PANAMA CANAL.

Washington, Feb. 7.—Justice Stanford of the equity court today decided against Warren B. Wilson, a Chicago lawyer who sued for an injunction to restrain the secretary of the treasury from paying to the republic of Panama any of the amounts of money provided for under the treaty of the United States with Panama. Mr. Wilson in his suit, which he said he brought at his own initiative, alleged that the Panama Canal act was unconstitutional, and that the United States was without right to acquire foreign territory.

STREET SCENE IN WARSAW

THE WILNIA SQUARE.

VALUABLE JEWELS LOST.

San Francisco, Feb. 7.—F. M. Holbrook, a wealthy lumberman of Minneapolis, who accompanied by his wife, has been spending some weeks in this city, started for home today. When about to board the overland train Mrs. Holbrook discovered that a chest containing jewels valued at \$8,000 had disappeared on the way from the hotel to the railroad station. The matter was placed in the hands of the police, but so far the detectives have not succeeded in finding a clue to the missing gems.

THE RAILROAD POOL.

Argument Heard in Hearst's Suit Against Anthracite Roads.

Washington, Feb. 7.—The hearing of arguments in the case of Wm. B. Hearst of New York against the anthracite coal carrying railroads, covering one of the arguments of the suit, began at the interstate commerce commission today. Clarence J. Shearn for the coal companies contended that a pool existed among the railroads, that the coal purchase contracts were really re-contracting between the railroads and the purchasers, and that the published rates and the published rates are unreasonable. He claimed that an increase in the price of coal to \$11.4 a ton, such as has taken place in the domestic sales during the last five years, means imposing an additional burden of \$400,000,000 on the public. He pleaded for scrupulous observance of reasonable published rates as a matter of fair dealing between the railroads and the purchasers. He claimed that the coal companies were identical with the railroad companies. Mr. Shearn applied the principal securities case to the case now under argument, contending that the interstate commerce commission itself had "troubled aside" the device of a subsidiary company and had "treated the parent company as the substance," and said the courts had held the Lehigh Coal Co. and the Lehigh Railroad Co. to be identical.

TRIOUBLED TRIFLES.

Strikers With Revolutionary Flags in Piacere Encountered With Police.

This, Feb. 7.—A crowd of 300 strikers carrying red flags invaded the center of the town Sunday morning, distributing proclamations and firing revolvers at gentlemen who tried to seize the flag. Two of the gentlemen were seriously hurt with bullets, and a third with a dagger. The police dispersed the demonstrators, arresting thirty persons, and pursuing the others into a tavern, where several of the rioters were so badly injured that they had to be sent to the hospital.

Russian Press Law And Censorship

Committee of Ministers Agree on Certain Reforms to System.

Special Conference to Be Called to Carry Out the Revision.

St. Petersburg, Feb. 7.—The committee of ministry decided to institute a special conference to revise the censorship and press laws. The president of the conference will be appointed by the Emperor and its membership will consist of the following:—

First—To abolish the existing order of censorship of the press.

Second—To abolish the existing order of censorship of the press.

Third—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Fourth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Fifth—Grant the minister of the interior the right to revise censorship regulations.

Sixth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Seventh—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Eighth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Ninth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Tenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Eleventh—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twelfth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Thirteenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Fourteenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Fifteenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Sixteenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Seventeenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Eighteenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Nineteenth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twentieth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twenty-first—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twenty-second—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twenty-third—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twenty-fourth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twenty-fifth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

Twenty-sixth—To request the minister of the interior to order that before the existing order of censorship of the press is abolished, and permit of the transfer of a newspaper from one editor to another, conditions and information of transfer to be submitted to the press department by both editors.

London, Feb. 8.—At a meeting of the Marconi Wireless Telegraph Company Ltd. it was stated, with a view to the commercial working of the scheme between England and America, that a new station with the latest improvements was nearly completed, and Canada would have a reduced rate of six pence. The station thought the pair of wireless stations would be fully employed. During the year four stations have been equipped on the St. Lawrence river and one on the coast of New Brunswick. Stations have been established to the order of the Canadian government, representing the extension of the organization of the wireless telegraph. Stations have already been established to the order of the Canadian government, representing the extension of the organization of the wireless telegraph. (From Tuesday's Daily.)
May Be Final Prices.—Commenting on the C. P. R. & N. railway deal, the Nelson Tribune says: "Equipment, one of the finest heretofore of the Pacific coast, on the road and there is much available land for factories, docks and terminal facilities for both shipping and railways. Victoria may yet be what its oldtimers say it must be, the chief city north of San Francisco."

Formal Dedication.—The formal dedication of improvements which have been made in St. Luke's church, Cedar Hill, took place last Sunday morning. The service was performed by Bishop Ferrin, who was assisted by the incumbent, Rev. R. Connell. The interior of the church has been lined and wainscoted with cedar, and the large east window is now colored, the pattern and subject "The Good Shepherd," being worthy of special praise. Other improvements are special fittings for the holy table, new communion rail, lectern and pulpit.

An Awkward Fix.—Assistant United States Attorney Edward Cushman was placed in an awkward predicament while traveling from Seattle to Port Townsend on the fish boat and when he started to dress he found that he was minus a most necessary portion of his attire, wit, his trousers. Mr. Cushman secured a tailor from the night, leaving Seattle at midnight. When he retired he pulled the door shut and thought he had secured a quiet night's sleep, but when he awoke he found a borrowed pair, when his own nether garments were found in a corner of the room. The porter, who had seen everything taken, including some important papers.

The Hotel Contract.—A Colonist reporter yesterday interviewed Mr. F. M. Rattenbury, C. P. R. hotel architect for the western division, and asked if any information was at hand as yet regarding the awarding of the contract for the big superstructure. Mr. Rattenbury had nothing to say, but he was busy in making a definite announcement to doubt being due to the illness of Sir Thomas Shagnessy, who during the last few days has been unable to give further information asked for on certain points. In the interim the work of putting the final conditions is proceeding apace, the splendidly revealing contributing materially to the advancement of the work in hand.

The Salmon Fisheries.—Richard Hall, M. P., returned from Ottawa on Sunday. He went East to represent the case of the Canadian fishery on Vancouver Island. He interviewed Hon. Mr. Prefontaine, minister of marine and fisheries, and presented to him the views of the Vancouver Island salmon industry. He says that while the minister was impressed with the views of the local men, he thought it an opportunity time to come to an agreement with the canners of Puget Sound in regard to a closed season. If the Washington canneries do not carry on Messrs. Pendry & Sons the agreement, however, the Canadian government will at once discontinue the restrictions. The minister stated that the commission would be appointed to inquire into the whole question in relation to the salmon fisheries in British Columbia. The minister proposed a meeting proposed to have a close season of about 30 hours each week.

To Discuss Fall Fair.—As was stated by the Colonist a few days ago would be the case, a public meeting is to be held to discuss the subject of the B. C. Agricultural exhibition for the purpose of considering the advisability of holding an exhibition here this fall in place of the one at Vancouver. The exhibition will take place at New Westminster. The date has been fixed for next Tuesday evening, and the place of meeting the council chamber at the City hall. Generally speaking, the members of the B. C. Agricultural Association management will be in support of the Victoria exhibition for 1906. A member of the executive staff yesterday that he believed an unwritten agreement had been reached between Victoria and New Westminster, when both were striving for the big federal grant to the effect that the city which was granted the exhibition would be in support of the other body. But that the proposal will receive strenuous opposition here and that the matter is far from settled.

(From Wednesday's Daily.)
Brannigan, Goldstream.—Arthur L. Adams, the California expert engaged to report on the waterworks question, and Peace River project, and city engineer, C. H. Topp, examining into conditions at that point. They have been three times to the site, and probably return tomorrow, as Mr. Topp has on Thursday evening to be present at a meeting of the streets, sewers and bridges committee of the council.

Omneia and P. R. Mining Co.—At a meeting of the shareholders of the Omneia and Peace River Mining Co. Limited, held at the Law Chambers last evening, the following directors were elected: F. Peters, Captain Wil-

TOOK A SEVERE COLD.
It Settled In The Kidneys.
Pain In The Back The Result.

Catching cold and having it settle in the back is often the cause of backache—the primary cause of kidney trouble. When the back aches it is a warning that the kidneys are liable to become affected. Heed the warning; check the backache, and dispose of any chance of further trouble. If you don't, serious complications are very apt to arise. Mrs. E. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used DOAN'S KIDNEY PILLS, and is thankful for the immediate relief they gave her. See written on as follows: "It is with pleasure that I add my testimony in favor of Doan's Kidney Pills. Some time ago I took a severe cold, which, owing to my neglect, settled in my kidneys. The symptoms and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings. Doan's Kidney Pills may be procured at all dealers, or sent direct by mail on receipt of price—50 cents per box, or \$3 for \$1.25. THE DOAN KIDNEY PILL CO., TORONTO, ONT.

Hold-up Map.—According to a letter received by Sergeant of Detectives James Gorman from Chief of Police James Gorman of Great Falls, the real name of the man Davison, once arrested in connection with the C. P. R. hold-up, but once a remaining charge of stealing a bicycle, is Charles McQueen. Chief Gorman states in his letter that McQueen is a moulder by trade and his family live in Galt. About ten years ago he was sentenced to three years in Kingston penitentiary on a charge of stealing a bicycle. Chief Gorman adds that the photograph of Davison sent by the local police is really that of Charles McQueen. The police do not take seriously the identification of McQueen that he participated in the C. P. R. hold-up with two other men, and he is a well known associate of a man connected with an affair so well planned as the robbery of the express near Mission last fall.

A FAMOUS SEED HOUSE.
An instance of commercial development and growth to proportions unusual in the career of the well-known seed firm, D. M. Ferry & Co. of Detroit, Mich. Since its establishment half a century ago, the company, following out principles of strict business integrity and building upon unquestionable merit, has steadily grown until the name of the firm is now a household word with every planter in the land.

Ferry's Seeds are famous for their purity, freshness and reliability. The greatest of care is exercised in their growing and selection, and only seeds of the highest possible standard are placed upon the market. The company has behind it the reputation of a house whose standards are the highest in the industry. The seeds are grown and selected from the growers, is carried by dealers everywhere.

MATSUO FARMERS.
Proceedings at Annual Meeting of Institute Just Held.
At the annual meeting of the Matsuo Farmers' Institute recently held, the following officers were elected for the ensuing year: H. P. Miller, president; J. P. Conway, vice-president; J. Ball, secretary-treasurer; directors, W. D. White, R. C. Gifford, and C. L. Doyne; and J. Jackman, the reeve of the municipality, W. Towan, was chosen as delegate to the Central Farmers' Institute.

Two Sides To A Question.—Mr. H. L. Salmon arrived from San Francisco yesterday, bringing his two daughters, whose custody was given him by the court in the California case, there being no other claimants as alleged by Mrs. Salmon in the statement published in the Chronicle and reprinted by the Colonist. Mr. Salmon, who is his undoubted publicity very keenly, indignantly denies the remarkable allegations contained in the petition, nor does he believe that the court would so lightly know him for years in Victoria and elsewhere, and that he would so easily be deceived by a woman who is his wife's sister.

The Pendry Works.—Very many citizens are of the opinion that an effort should be made to retain for the benefit of Victoria the big manufacturing plants owned by Messrs. Pendry & Sons, the British America Paint Works and the B. C. Soap Works—giving employment to many hands and distributing many thousands of dollars annually in the city. Hearing that Messrs. Pendry & Sons are about to seek new premises, a movement to induce the establishment to be erected in that city, offering flat-fering terms for a site. It is felt by many that the time is ripe for some steps to be taken by Victoria's public bodies to offset this move. Mayor Barnard was spoken to on the matter by some of the citizens in reply said the expediency of doing something had not been brought to his attention in any form, and he would not be likely to do so until that was done and the nature of the proposition outlined, he did not expect the matter could be properly considered.

(From Thursday's Daily.)
A Common Mistake.—In the current issue of the Illustrated London News, just received in Victoria, there is a picture of the Japanese flag, which is a mistake. The flag of the Japanese is a white field with a red sun in the center, and a white border. The flag of the United States is a blue field with thirteen stars, and a white border.

After Mill Plant.—J. McMillan, of Vancouver, was in the city on Tuesday seeking to purchase the sawmill plant conducted by D. F. Adams in the upper harbor. Negotiations are now proceeding, and it is expected that the plant will be sold to Mr. McMillan.

The Coal Market.—Harrison's weekly report of the San Francisco coal market in the latest issue says: Colonial freight rates on coal remain firm at unchanged prices, but there is a general feeling of prevailing quotation. There have been eight deliveries from British Columbia since January, aggregating over 25,000 tons, which makes it evident that Australia is a small factor in furnishing us with our coal. Up to date, the coal from the Pacific coast has been used to a large extent for the production of foreign markets. This should be a profitable market for disengaged tonnage this year, which will induce the export of coal from Australia. We yet need a further rainfall to absolutely assure us a wooded harvest.

Wedded at Vancouver.—At Vancouver on Tuesday morning Mr. Charles B. Bunting, of this city, and Miss A. B. Dickinson, daughter of Mr. Thomas Dickinson of Rexton, New Brunswick, were united in wedlock. The wedding, which was a quiet one, took place at Christ church, Rev. Mr. Owen officiating. After the ceremony the newly-wedded couple boarded the steamer Princess Victoria and left for their home, where connection was made with the Untalia, on which they sailed for California, where their honeymoon will be spent. The principals are widely known and have been in Victoria, the bridegroom having been born here, while the bride has been a resident of the city for some time past. Mr. Bunting is connected with the well known concern of Messrs. Chalmers and Mitchell.

Lipton To Visit Coast.—Sir Thomas Lipton of London, Eng., prominent in yachting circles throughout the world, is expected to visit the American coast on various occasions, will probably visit Victoria next fall. Sir Thomas has signified his intention of visiting the coast in the company of the Lord and Clerk expedition and in all probability will include the British Columbia coast cities in his itinerary. Sir Thomas is a well known yachtsman and has been a resident of the city for some time past. He has never been an official visitor, but he is expected to visit the coast next fall. He has never been an official visitor, but he is expected to visit the coast next fall.

You Can Kill Mustard Absolutely Free.

The proof is positive and the results more than repay you for the trying course. Write for full particulars; free booklet D.

Preparing For The Big Fair
New Westminster Loses No Time In Arranging For Early Work.
Splendid Programme of Sports and Attractions Is Being Arranged.
(From Wednesday's Daily.)
At New Westminster the fact that the federal government had decided to give the grant of \$50,000 for the annual Dominion fair to be held in Victoria, has been met with interest and enthusiasm. The significance of the announcement is that the federal government means that the R. A. & L. Society, under whose auspices the big fair will be held, will have to commence at once the work of preparing the grounds.

In the first place the stock yards and the grounds for the fair will be reconstructed. The present sheds at Queen's Park have long outlived their usefulness, and are being replaced by a new and more substantial structure. The new building is another that will have to go to the general advance of the fair. The new building will have to be reconstructed. The present sheds at Queen's Park have long outlived their usefulness, and are being replaced by a new and more substantial structure. The new building is another that will have to go to the general advance of the fair.

TO PROTECT THE BEAVER.
Last week's issue of the British Columbia Gazette contains a proclamation by His Honor the Lieutenant-Governor, establishing a close season for beaver for a period of six months, commencing on the first of the present month and covers the entire area of the province. The need of such a protective measure was brought to the attention of the government by reports from various sections of the province of the increasing scarcity of this valuable fur-bearing animal, which, but a few years ago, was so abundant in the interior of the province. Indiscriminate slaughter and the absence of any protective measures, have led to a rapid decline in the number of beavers in the province.

MAJORITY LINER ASHORE.
Galveston, Texas, Feb. 8.—The Mallory liner Neva is ashore in the Brazos river near San Luis pass. She has eighteen or twenty cabin and steerage passengers on board, and the vessel is not believed to be in danger.

JUST A FLASH IN THE PAN
Insurrectionary Movement at Buenos Ayres a Failure in Fast Time.
Buenos Ayres, Feb. 7.—Government troops have been ordered to surround the headquarters of the insurrectionary movement at Buenos Ayres. The rebels have been ordered to surrender, and the government has promised to grant them a full and complete amnesty if they do so.

GENERAL SUPT. TO RESIDE HERE
Mr. Marpole of the C. P. R. Will Make His Home in Victoria.
(From Wednesday's Daily.)
It is an old saying that straw shows the way the wind is blowing, and upon the same principle it should be deeply interesting to Victorians to know that Mr. Marpole, the general superintendent of the C. P. R., has leased the house on Roberts street, Victoria, West, formerly occupied by Col. Holmes, D. Coyte, assistant general passenger agent, and Mr. B. W. Greer, assistant general freight agent, will also transfer to Victoria. But this is not a rumor, but a fact.

A REPRESENTING CONTRAST.
Toronto News.
Mr. J. H. Adams, of Ottawa, declares that he desires to have nothing to do with the distribution of patronage, which usually goes to the benefit of the local politicians. This is consistent with his attitude of independence, and it will be hailed with satisfaction by the public, who are weary of the patronage system.

THE RECENT STORM.
Blew Over Puget Sound Area, Causing Some Damage.
The gale of Tuesday while, as far as the coast was concerned, was not so severe as the storm of the previous day, but it was the most serious blow experienced in this vicinity for over a year. It was a general overcast, and the weather was very disagreeable. The wind was from the west, and it was very strong. The sea was very rough, and many small boats were driven ashore.

THE BROWN PERIL.
Apropos of the recent disallowance of the Immigration Act of 1905, by the Dominion authorities, there is an editorial reference in the San Francisco Argonaut to the danger to the American people possible to arise out of the free ingress of Japanese, and in reproducing a portion of its remarks there is no denial as to the political situation in British Columbia in respect to the legislation in question. That opens a very wide question. We know that the Japanese are a people who have entered very largely into the economy of various callings and industries. From that quarter there is a growing number of the Japanese who are to be brought to our ports, and over whom the Japanese government cannot exercise effective jurisdiction. This is a serious situation, and it is one that should be met with the most vigilance.

THE RAILWAY DEAL.
A Ladyship Opinion as to the Significance of the Move.
The Ladyship Leader, in his issue of Tuesday, has written an article on the railway deal, in which he has expressed his opinion on the matter. He is of the opinion that the deal is a very important one, and that it will have a great effect on the future of the province.

BRITISH NEWS
By The Cable
Shareholders of Marconi Co. Receive Report From The Directors.
Sir F. Pollock Advocates Formation of Imperial Council of Advice.
Canadian Associated Press Cable.
London, Feb. 8.—At a meeting of the Marconi Wireless Telegraph Company Ltd. it was stated, with a view to the commercial working of the scheme between England and America, that a new station with the latest improvements was nearly completed, and Canada would have a reduced rate of six pence. The station thought the pair of wireless stations would be fully employed. During the year four stations have been equipped on the St. Lawrence river and one on the coast of New Brunswick. Stations have been established to the order of the Canadian government, representing the extension of the organization of the wireless telegraph. Stations have already been established to the order of the Canadian government, representing the extension of the organization of the wireless telegraph.

WHEN YOUR CHILD SUFFERS.
For lack of knowledge of the value of Dr. Cassell's Tablets as a cure for many a mother has been worn out in the effort to relieve her child of suffering. Fevers, colds and other troubles which are common to children especially during the teething period. Though readily cured by Dr. Cassell's Tablets, if neglected, becomes chronic and may last for years.

A VERNON REAL ESTATE SCHEME
Project Which Affects Okanagan Valley to Considerable Extent.
According to a recent issue of the Vernon News, the latest real estate scheme that affects the Okanagan valley involves the laying out of a tract of a place called Larkin, and the several steps which may be necessary to ensure the sale of the property and the laying out of a charming little town in the centre of the fertile district between Vernon and Armstrong.

MEMORIES OF THE OLD SCHOOL HOUSE

Albany Press. Once more in fancy I hear the drone of the long recitation: "Arms, presence, etc." O, shade of long-suffering Virgil!

A telegram was received yesterday by Captain S. Balcom, from Buenos Ayres, telling of the arrival there of the Victoria sealing schooner E. B. Marvin.

(From Tuesday's Daily.) Sealing schooner City of San Diego is ready in James bay with her flag up. She was to have gone yesterday, but the Queen mine owned by Messrs. Waidy, Turner and Skully, has been bound for \$80,000 by Patsy Clarke, of Spokane, with good prospect of the bond being taken up.

(From Tuesday's Daily.) The local branch of the Provincial Mining Association passed a unanimous resolution today on the question of mine taxation as follows: "Resolved that the Nelson branch of the Provincial Mining Association is of the opinion that the taxing of mines in operation should be solely upon the profits earned, that in an endeavor to avoid the objections raised to a tax on net profit, on account of the supposed difficulty of determining whether the profits were or were not, it is recommended that the deduction of the mine payrolls from the net smelter or mill returns be considered in determining the amount to be accounted, this being in a measure a compromise or expedient, that the gross number of the majority of the miners engaged in the industry and the producers of the greater part of the mineral mined, endorse this opinion as to the equitable basis for mine taxation and favor as a measure of expediency the investment referred to, that in order that the fullest possible knowledge of the industry and the resources of the province be obtained, it is recommended that a commission be appointed to investigate the whole question of mine taxation, and to report a system which would be alike equitable and practical."

Mr. Wm. Blakemore, M. E., who has been consulting with the government in regard to matters concerning the mining industry, left for Nelson last night. Mr. Blakemore said: "I have just returned from an interview with the board of trade, and discussed the resolution concerning the silver-lead and provincial mining associations and the board of trade, and their views are as follows: "Resolved that the provincial government be requested to appoint a commission to investigate the whole question of mine taxation, and to report a system which would be alike equitable and practical."

St. Petersburg, Feb. 7.—Madame Kuga, the opera singer who, according to the events of January 22, recently congratulated a military officer on Russia's victory, has been expelled from Russia.

St. Petersburg, Feb. 7.—Madame Kuga, the opera singer who, according to the events of January 22, recently congratulated a military officer on Russia's victory, has been expelled from Russia.

Since the destruction of the Russian Port Arthur fleet and the failure of the Baltic squadron to make good its vaunted boasts in the Far East, the Japanese sailing fleet will no longer hold aloof and this season will see a number of schooners sent to the Sea of Japan and the North Pacific by Japanese foreign owners resident in Japan. There are among the Japanese sealers a number which fly the Japanese flag, but the reality are owned by American, British and German owners, although these are registered as owned by Japanese.

AN ANECDOTE OF DISRAELI. After Disraeli was created Lord Beaconsfield and had attained great distinction by his brilliant political career, he was invited to a fashionable London home and was asked by the lady who he had taken in to dinner: "Is there anything, my Lord, that you can now possibly want which you do not already possess?" His characteristic reply, after due consideration, was: "Yes, a potato, please!"

THE ETHICAL INFLUENCE OF A GOOD SENATOR. Kansas City Star. In view of the great success of Senator William Joseph Stone on "Purity," the United States Senate is being looked upon as the following interesting incident in its winter course: Senator Benjamin F. Tillman, of South Carolina, "Protecting the American Forests," Senator Mitchell, of Oregon.

FROM THE WEST COAST. Steamer Queen City Returns From Unsuccessful Voyage. The Vancouver World says that Capt. Townsend, reached port on Sunday from the Vancouver coast, and that the steamer was full of cargo. She had fine weather throughout the voyage. Capt. S. Balcom, who went to Sechart on business connected with the establishment of the whaling station from which the steamer will operate, and which is situated on the west coast of the island of Victoria, is expected to return on her way to Victoria with her cargo. It is stated that the whaling station is not the only new industry to be established on the coast of Vancouver. It is also stated that the whaling station is not the only new industry to be established on the coast of Vancouver.

Blizzard Rages In The South Two Days Storm Rages Over the South Western States. Memphis, Tenn., Feb. 7.—With a blizzard raging in the north and east of Texas and rain and sleet falling in many districts of southern Texas, Louisiana, Mississippi and Tennessee, a weather front is sweeping over the south-western states. A blizzard has been sweeping over the cattle ranges of western Texas for two days. Thousands of cattle are reported to be suffering. Telegraphic communication is demoralized in all sections of the south-west.

Great Fall of Sleet In Arkansas and Wires Down In All Directions. Memphis, Tenn., Feb. 7.—With a blizzard raging in the north and east of Texas and rain and sleet falling in many districts of southern Texas, Louisiana, Mississippi and Tennessee, a weather front is sweeping over the south-western states. A blizzard has been sweeping over the cattle ranges of western Texas for two days. Thousands of cattle are reported to be suffering. Telegraphic communication is demoralized in all sections of the south-west.

What Some People Say. That those female lobbyists the Dominion government proposed to send to the diamond mines for actors. That it may be the news that a claim of \$100,000 has been made in the Victoria district is keeping some of the M. P. P.'s very busy. That O'Brien and Clarke may be cleared of the charge of deducting the Box at the Grand.

Not having a watch has not enlivened his chum who has one, the possession of which is a great advantage.

Dr. Huntington To Assist Japan Arrived in Victoria Yesterday On Way to Nagasaki to Join Military Hospital. Will Be Chief of the Japanese Military Hospital Service at Japanese Port. Dr. James B. Huntington of Boston, a distant relative of Collis P. Huntington, and one of the best known physicians in New England, arrived in Victoria yesterday, and after visiting friends here will embark on the Shinano Maru for Nagasaki, where he proceeds in response to a cable from the Japanese government to take charge of the military hospital. This will be the third trip made by Dr. Huntington to Japan, and he has been in charge of the hospital at Nagasaki since the outbreak of the Russo-Japanese war.
