DEATH OF COLONEL FRANK KENWARD

After an illness with paralysis exending over fifteen months, which was borne with remarkable cheerfulness and true christian fortitude, Col. J. Franklin Kenward passed to his reward on Friday morning, April

27th, at his home on Erie street. Col. Kenward was one of the best known and most popular men that ever lived here. He was born in War-wick Village, Jan. 17th, 1849, and was the son of the late Mr. and Mrs. Thomas Kenward. After receiving his education he taught in several rural school sections and about 35 years ago was appointed principal of the Watford public school, which position he gave up to establish the private banking firm of Thomas & Kenward of Watford in 1890. When the Merchants Bank bought out this firm Col. Kenward became attached to the staff of the chartered bank and shortly afterwards was made local manager, which position he held until a few years ago when he was placed

on the retired pension list. On Sept. 11th, 1873 he joined the 27th Regiment, St. Clair Borderers as a Private, and being enthusiastic in military matters was gradually promoted until he was gazetted Lieut.-Colonel in 1902 which position he held for several months and then retired from the regiment retaining

his title. As a citizen of Watford Col. Kenward had the progress and welfare of the village at heart and was always interested in the promotion of any scheme for the benefit of the place. He occupied many officers of nonor and trust, being Reeve for several years, auditor, assessor, and member of the public school board for nearly a score of years, being several times honored with the chair-manship of the board. He was a memher of Court Lorne C.O.F. and the Chosen Friends. For many years he was secretary of the East Lambton Agricultural Society, which position he held up to the time of his illness.

In politics he was a Liberal and in religion an Anglican, being a most enthusiastic church worker all his life. He took great interest in Sunday school work and held the position of Superintendent of Trinity church S. S. for 27 years. He held the offices of churchwarden and sidesman a number of times, and was always ready and willing to fill any vacancy caused by the absence of others. He also filled the important office of lay reader of the parish. He was an active worker and at one time president of the Warwick township S. S. association.

The late Col. Kenward was married in 1874 to Miss Martha Eccles, of Warwick, who survives him. He leaves three sons, Dr. C. F. Ken-ward of Gary, Ind.; Dr. F. B. Ken-ward of San Francisco, Cal.; and Dr. E. D. Kenward of Lacom, Ill. He is also survived by three sisters, Mrs. F. Smith, Port Huron; Mrs. R. Clegg of London; and Mrs. W. D. Brock of Windsor.

The funeral took place Sunday afternoon and was one of the largest ever seen here. Service was held in Trinity church, many people being unable to gain admittance. People from distant parts of the county came to pay their last respects to a good and popular man. The rector, Rev. J. H. Hosford, M.A., had charge of the service and was assisted by Rev. T. D. Rayner, Congregational minister. The members of Havelock Lodge A.F.&A.M., of which deceased was a Past Master and Director of Ceremonies for many years, attended n a body. Interment was made in Watford cemetery. At conclusion of the church service the Masons took the church service the Masons took charge, and the beautiful burial service of the order was conducted by Rt. Wor. Bro. Rich. Williamson, D.D.G.M., assisted by the officers and brethren, and full Masonic honors given the deceased. The pallbearers were brother Masons, E. A. Brown, E. D. Swift, P. J. Dodds, C. Howden, J. W. McLaren and W. L. Millar.

Among those from a distance who attended the funeral were: Mrs. J. Thomas, North Branch, Mich.; Mr. and Mrs. Fred Smith, Miss Peggley, Mr. and Mrs. Allan Philips and fam-J. McLean's drive shed, wyoming, quite ill it was taken out and shortly after dropped dead in front of the bank.

#### ARBOR DAY TO-DAY

Arbor Day, or tree and flower planting day falls on Friday, May 4. The day is now observed in the United States, Great Britain, Canada, Australia, New Zealand, the West Indies, South Africa, China, France, Russia, Norway, Japan and Hawaii. The keynote of the observance of the dayis given in the folvance of the dayis given in the fol-lowing extract from a circular issued by the United States Department of Agriculture. It says: "The yearly planting of trees, accompanied by apprapriate exercises, serves to keep the "people continually reminded of the value and necessity of the work of the foresters; and they have such a far-reaching effect on the community spirit and through that on economic and social betterment that no community can afford to neglect Arbor Day. A clean and beautiful town is a source of pride to its citiens and constant incentive to then to go on and do better. A slovenly town is apt to mean slovenly inhab-itants. The celebration of Arbor Day may very well be the turning point in the attitude of a community to-wards its civic and its manner of conducting business. Nothing so help to beautify a city or town as trees, and a few things so educate the people in public spirit and foresight as the care of trees. The greatest value of Arbor Day lies in its effect upon our attitude toward the trees that are already growing; for manifestly there are thousands of trees of natural origin to one planted by man. The average citizen is only now beginning to realize the necessity for taking care of these trees, having never before considered that they needed any care.

### THE COMING ELECTION

The coming Ontario election will be fought under some new conditions which will be of interest to nearly every one who has a vote.

The law allows the vote to every man or woman of the age of 21 at the time of voting, provided such a person is a British subject; has been resident in Canada for at least a year prior to polling, and for three months in the electoral district. Promonths in the electoral district, Pro-vision is made that persons who have day. moved from one electoral division to another may obtain a certificate from the revising officer which will enable them to poll their votes in the new

riding. A man who is not a British sub-ject on April 12th, 1917, cannot vote unless he has since become naturalized. A woman married to a British aubject, provided she has not become a subject of a foreign power, may

vote.
Official nominations must take place at not more than 60 days and not less than 30 days after the writs have been issued. Elections are to take place in every constituency on

the eleventh day after nominations.

In each county an election board will be organized. The board will be composed of Judges of the District Court, local Registrar, Sheriff and Clerk of the Peace.

As soon as convenient after the issue of the writ these boards are to fix times and palces in ever municipality to hear complaints regarding voters' lists. Public notices must be given of such meetings. The last day for making complaints is two days before the date of the board's sit-tings. Any person entitled to vote can give notice of complaint as to any other person whose name should be on the list. Evidence before these

be on the list. Evidence before these boards is all under oath.

Ballots in Ontario elections are numbered, and each must bear the name of the printer. The hours of polling are from eight in the morning until six at night. If the Election Board so desires, the polls may be opened earlier, but not earlier than six am. Polls for railwaymen and sailors are to be opened for three days prior to the election, not including Sundays.

The chairman of each Election

The chairman of each Election The chairman of each Election Board receives \$50 for each constitu-ency in which his board acts. Every board member receives \$5 for every meeting of the board. Revising officers to bring the lists up to date are paid \$10 for an eight-hour day, and expenses. Returning officers get \$100 each and \$1 additional for every polling place in a city, town or village, and \$2 for every polling place in a township. Deputy returning officers get \$10 poll clerks \$6 and constables \$4.

#### THE TOAST LIST

At a dinner in London the Prince of Wales said that a toget list in 1815 contained no less than 21 speeches, and added: "I begin to wonder whether we are perhaps quite the men our ancestors appear to have been." Certainly that was a severe test of endurance, but it may be doubted whether it was a very useful one. The toast list is a relic of the days of heavy drinking, and more and more it has an obsolete appearance, even in countries where prohibition does not prevail. The King may be honored by singing the National An-them without the formality of taking a sip of wine or water.

The custom, however, persists. Even in modern days the banqueters are presented with a toast list in which various institutions and classes of the community are specified, and every speaker is supposed to tag his speech to the subject of the guest of of the evening, the army and navy, the learned professions, commindustry, the ladies, the Press, commerc Newspapermen usually make their escape before their peculiar toast is reached; those who remain know what an irksome thing it is, if not a nuisance, to explain to the wearied guests how important their calling is, and what are their aims. The toast of "The Ladies" is usually assigned to a humorist or sentimentalist who dilates on the charms of the "fair sex" or makes jokes at their expense

The sensible plan is to choose a few good speakers, let them select their own subjects, and appeal to their mercy to make their speeches reasonably short. There should be consideration for intellectual as well as physical powers of digestion and gueste should not be asked either to eat or to hear more than is good for them.—The Globe, April 19.

#### BE CAREFUL, GIRLS

No young lady ever lost her hero because her hands happened to be a little calloused from wielding the broom or stained from dipping them

No girl ever fell down a lot in the estimation of her hero because she stayed at home all afternoon and helped mother with the work, instead of coming down town and putting on

or coming down town and putcing on a parade of eight miles. No girl ever lost her hero because she made life more pleasant for Dad and smoothed the wrinkles from his brow and caused him to look forward to the evening at home with pleasure. No girl ever lost her hero because

she wasn't an adept at using all the latest and most popular slang of the day. There is nothing in slang for a young man to admire and much less

No girl regrets losing a hero who was a common, cheap, tin-horn sport and she had better be a kitchen queen for dad and mother all her life than a broken hearted drudge of a slave for such a brainless brat a

single day.

Just because a girl arrives at gray
hairs and faded cheeks in single
blessedness is no sign she didn't
have a chance. More than likely it is because she kept posted in market values and refused to sell her heart and happiness for a mess of pottage.

"Since November 22nd" says Mr.

London Rolling Mills, "I have had
pains though my ankles and back, It
was diagnosed as Sciatica Rheumatism. The pain was so intense it seemed I would have to quit my work at times. I walked the floor many times, as it seemed that when I would sit down or lay down, the pain would be more severe, and when I would lean over I could hardly get up again. I was unable to lace my own shoes and could hardly get out

of bed mornings, my limbs were so sore and full of pain.

"Before this attack of Sciatica Rheumatism, I had been in perfect health and never knew what it was to suffer pain. I cannot really de-acribe the torture I hav sendured. No one really knows unless they have

experienced these agonizing pains. 'Dreco was being so highly praised that my wife thought I had better try it. The first bottle helped me try it. The first bottle helped me very little, but Mrs. Eaton insisted that I keep at it. I am now on my fifth bottle and practically free from pain. It is simply wonderful the way it has relieved my rheumatism so quickly. I can sleep good and get up in the mornings feeling fine.

"Both my wife and I have told many people of the great merits of

That's encouraging, for Christianity is the world's best bet. But it would be a lot more gratifying if you could read statistics which said that our nation was being operated 97.6 per cent. according to the Golden Rule. That was the practical test which the Founder of Christianity meant to be applied to His followers. The parable about the fig tree ought to be read a great deal more than it is. TWO THINGS THAT HURT THE EYES

A person has been known to say, "I have ruined my eyes by reading too much." Not so—the eyes were made to use. One sure way to permanently injure the eyes is

READING BY INTENSE LIGHT The light should come through ground glass to soften it. Never use clear glass for either gas or electric-ity. Oil lamps give out a soft light, therefore clear glass chimneys.

READING BY DIM LIGHT

Take our advice—do not read or sew by a dim light—it will be a direct strain upon the sight centres of the brain. On these two things hang the fundamental laws of sight economy. Never use cheap or pick-up glasses—come to us for advice about

TORTURING SCIATICA

A Nerve Trouble Due to a Watery Condition of the Blood.

Fierce darting pains. Pains like red hot needles being driven through the flesh—in the thigh, perhaps down the leg to the ankle—that's sciatica. None but the victim can realize the torture of this trouble. But the sufferer need not grow discouraged; the trouble is due to the fact that the nerves are being starved by poor, watery blood, and when the blood is enriched the pains of sciatica will disappear. As a blood enricher and purifier no other medicine can equal Dr. Williams' Pink Pills. They bring to the blood just the elements necessary to restore it to normal richness and redness. That is why so many sary to restore it to normal richness and redness. That is why so many sufferers from sciatica, and other forms of nerve trouble, have found relief through taking these pills. Mr. D. M. Anderson, Beachburg, Ont, tells what Dr. Williams' Pink Pills have done for him as follows:—"Some years ago I was badly afflicted with sciatica. I could hardly walk and suffered great pain when I did so. A man who was working with me told me he had once been like that and that Dr. Williams' Pink Pills had made him all right, I began to take and that Dr. Williams' Pink Pills had made him all right. I began to take them, continuing to work, and the trouble disappeared, and I did not lose a day, although sometimes I suffered terribly. Later I had another attack, and again the pills came to my relief. Now I take three boxes of Dr. Williams' Pink Pills every spring and fall, and I have had no ettack of and fall, and I have had no attack of the trouble since that time."
You can get these pills through

any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Some quotations from recent reports:

"We depend on Long Distance to order milk and cream from farmers, and to find a market in the cities for butter,"

"A 15 cent Long Distance call enabled us to get 12 cents more a pound for our butter in a nearby city"—writes a farmer,

"Long Distance is the cheapest way to sell ice cream."

"We purchased over \$100,-000 worth of cheese by Long Distance at a cost of \$16 or .016%. This cheese we sold by Long Distance at a cost of \$30 or .03%, and never saw the buyer."

"We sell thousands of dollars of surplus milk by Long Distance."
