Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Library Division
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library Division
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

1890
c. 2

PREFACE.

This, the first issue of our series of Cities Directory is entirely an home production, and the work connected herewith has given employment to a number of persons, and retained within the Province some thousands of dollars, most of which has been expended on work executed on the Mainland.

The increasing prosperity of Vancouver and New Westminster cities is most encouraging, indicative of the general prosperity of the whole Province. The work contained in the following pages is presented to the public with the full confidence that, as a purely local work, it will be appreciated and receive the liberal support that a Provincial industry of its nature should receive. This book contains the first Street Directory ever published of New Westminster City.

BROAD AND GOVERNMENT STREETS,

Victoria, B.C., April, 1890.

Entered according to Act of Parliament of Canada in the year one thousand eight hundred and ninety, by R. T. WILLIAMS, in the Office of the Minister of Agriculture at Ottawa.

COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished.

The fee for registering a Copyright is one dollar, and it runs for twenty-eight years. It may also be renewed for a further term of fourteen years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published within the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine not less than ten cents, nor more than one dollar, for every copy found in possession.

List of Mayors, Municipalities and Reeves in the Province.

MAYORS.

- Nanaimo, M Bate
- New Westminster, J C Brown
- Vancouver, David Oppenheimer
- Victoria, John Grant

CHILLIWACK MUNICIPALITY

Situated on the south bank of the Fraser river about 50 miles above New Westminster, embraces the settlement of Centreville, Sardis, Sumas and Cheam. Extent about 17 miles in length and 6 miles in width. Elections are held annually. Reeve S Cawley. Councillors, Frank Lickman (Ward 1), Jonathan Reece (Ward 2), Duncan Kennedy (Ward 3), James Armstrong (Ward 4), William H Bayley (Ward 5). Clerk, S A Cawley

B.C. CITIES DIRECTORY.

PROVINCIAL GOVERNMENT LANDS.

Crown Lands in British Columbia are classified as either surveyed or unsurveyed lands, and may be acquired either by record and pre-emption, or by purchase.

Pre-emptions.

The following persons may record or pre-empt Crown lands, viz: Any person being the head of a family, a widow, or a single man over 18 years of age, being a British subject; may record surveyed or unsurveyed Crown lands which are unoccupied, unreserved and unrecorded.

Aliens may also record such surveyed or unsurveyed lands, on making a declaration of intention to become a British subject.

The quantity of land which may be recorded or pre-empted is not to exceed 320 acres northward and eastward of the Cascade or Coast Mountains, or 160 acres in the rest of the Province.

No person can hold more than one pre-emption claim at a time. Prior record or pre-emption of one claim, and all rights under it, are forfeited by subsequent record of pre-emption of another claim.

Land recorded or pre-empted cannot be transferred or conveyed till after a Crown grant has been issued.

Such land, until the Crown grant is issued, is held by occupations. Such occupation must be a bona fide personal residence of the settler or homestead settler, or his family or agent. Indians or Chinese cannot be agents.

The settler must enter into occupation of the land within thirty days after recording, and must continue to occupy it.

Continuous absence for a longer period than two months consecutively, of the settler or homestead settler, and his agent or family, is deemed cessation of occupation; but leave of absence may be granted not exceeding four months in any one year, inclusive of the two months' absence.

Land is considered abandoned if unoccupied for more than four months in the aggregate in one year, or for more than two months consecutively.

If so abandoned, the land becomes waste land of the Crown, without any cancellation of the record.

The fee on recording is two dollars.

The settler may either have the land surveyed at his own instance, subject to rectification or boundaries), or wait till the Chief Commissioner causes it to be surveyed.

After survey has been made, upon proof, by declaration in writing to himself and two other persons, of occupation from date of pre-emption, and of having made permanent improvements on the land to the value of two dollars and fifty cents per acre, the settler, on producing the pre-emption certificate, obtains a certificate of improvement.

After obtaining the certificate of improvement and paying for the land, the settler is entitled to a Crown grant in fee simple. He pays five dollars therefor.

Payment for Land and Crown Grants.

The price of Crown lands pre-empted, is *one dollar* per acre, which may be paid in *four equal instalments*, as follows—First instalment, two years from date of record or pre-emption, and each other instalment yearly thereafter, until the full amount is paid. But the last instalment is not payable till after the survey.

The Crown grant excludes gold and silver ore, and reserves to the Crown a royalty of five cents per ton on every ton of merchantable coal raised or gotten from the land, not including dross or fine slack. It also reserves to the Crown, since the 7th April, 1887, all timber on the land, except for domestic purposes. A pre-emptor, however, can obtain a license to cut the timber of his pre-emption on payment of dues at the rate of twenty-five cents per 1,000 feet board measurement.

No Crown grant can be issued to an alien who may have recorded or pre-empted by virtue of his declaring his intention to become a British subject, unless he has become naturalized.

The heirs or devisees of the homestead settler are, if resident in the province, entitled to the Crown grant, on his decease.

If they are absent from the province at the time of his death, the Chief Commissioner may dispose of the pre-emption, and make such provision for the person entitled thereto, as he may deem just.

Pre-emption for Partnership Purposes.

Partners, not exceeding four, may pre-empt as a firm 160 acres each west of the Cascades, to each partner, and 320 acres east of the Cascades, to each partner.

Each partner must represent his interest in the firm by actual residence on the land, of himself or agent. But each partner, or his agent need not reside on his particular pre-emption.

The partners, or their agents, may reside together on one homestead, if the homestead be situated on any part of the partnership pre-emption.

For obtaining a certificate of improvement, it is sufficient to show that improvements have been made on some portion of the claim, amounting in the aggregate, to two dollars and fifty cents per acre on the whole land.

MINING LAWS:

Free Miners.

"Free Miners" only can have right or interest in mining claims or ditches. A "free miner" must be over 16 years of age. His certificate may be for one year (\$5), or three years (15), and is not transferable. He may enter and mine Crown lands, or, on making compensation, lands occupied for other than mining purposes. To recover wages, must have free miner's certificate.

Record, &c., of Claims.

Claims must be recorded (\$2.50), and re-recorded (\$2.50). Time allowed for record is three days after location, if within ten miles of office—one additional day for every additional ten miles, or fraction thereof. In very remote places, miners, assembled in meetings, may make valid rules temporarily. Transfers of claims or mining interests must be in writing and registered. Free miners may hold any number of claims by purchase, but only two by pre-emption, except in certain cases. Claims may be officially laid over, and leave of absence granted in certain cases, but the rule is that every full claim or full interest must be worked either by owner or agent. A free miner can, by record, get a fair share of water necessary to work claim. A claim is deemed open if unworked for 72 hours on working days, unless for sickness or other reasonable cause.

Nature and Size of Ordinary Mining Claims.

Claims, as far as possible, are rectangular and must be staked by post or tree. Sizes are, "bar diggings" 100 feet wide at high-water mark, and thence extend into the river at its lowest water level. "Dry diggings" 100 feet square. "Creek claims" 100 feet long, measured in the direction of the general course of the stream, and shall extend in width from base to base of the hill or bench on each side, but when the benches or hills are less than 100 feet apart the claim shall be 100 feet square. "Bench claims" 100 feet square. "Hill claims" base line fronting a stream 100 feet—parallel side lines at right angles thereto at summit of hill. Posts 100 feet apart. Claims not to come within 100 feet of any gulch or tributary of creek. Measurements horizontal, irrespective of surface inequalities.

Discoverers Claims.

To one discoverer, 300 feet in length. To two discoverers, 600 feet in length. To three, 800 feet in length. To four, 1000 feet in length, and to each member of a party beyond four in number, a claim of the ordinary size only.

A new stratum of auriferous earth or gravel situated in a locality where the claims are abandoned, shall, for the above purpose, be deemed a new mine, although the same locality shall have been previously worked at a different level; and dry diggings discovered in the vicinity of bar diggings shall be deemed a new mine, and vice versa. A discoverer's claim shall be reckoned as one ordinary claim.

Creek discovery claims shall extend 1000 feet on each side of the centre of the creek, or as far as the summit.

Leave of Absence.

On discovery of new lode or vein containing minerals, six months. On proving expenditure, in cash, labor, or machinery, of \$1,000 on each full interest (without reasonable return) one year. Under other conditions Gold Commissioner has option.

Mineral Claims.

"Mineral claims,"—that is, claims containing, or supposed to contain minerals, precious or base (other than coal), in lodes or veins, or rock in place—shall be 1,500 feet long and 600 feet wide, and, as nearly as possible, in rectangular form. Must have three posts (or tree posts) at equal distances along centre line, with a notice on each. Only one claim on the same lode or vein can be held, except by purchase. Quartz claims are deemed to be mineral claims.

To lawfully hold a Crown grant for a mineral claim, it must be surveyed by a surveyor approved by the Land Office; notice of application for the grant must be posted conspicuously on the land and on the Government office of the district, also inserted for sixty days in the Government Gazette and a newspaper, if any, circulating in the district, and proof must be given to the satisfaction of the Government officers that \$1,000 have been bona fide expended in money or labor upon the claim. Or a Crown grant may be got by paying \$25 per acre to the Government, in lieu of representation and expenditure on the claim.

General provisions for ordinary mining claims apply to mineral claims as far as may be.

The proper representation of a "mineral" claim requires that the sum of one hundred dollars, in money, labor, or improvements shall be expended in the first six months of every year upon the claim, to the satisfaction of a Gold Commissioner, and that the owner shall have obtained a certificate from the Gold Commissioner to that effect, within six months from the location of the claim, and thereafter within the first six months in every year, and shall have recorded the certificate immediately after its issue.

An annual tax of \$1 per acre, or fraction of an acre, of every mineral claim is payable on the 31st December.

Leases of mining ground, ditch privileges, &c, may be issued, but will not in general be granted for a longer term than ten years, or for a quantity of ground greater than --

In dry diggings, ten acres;

In bar diggings, unworked, half a mile in length along the high-water mark.

In bar diggings worked and abandoned, one mile and a half in length along the high-water mark.

In creek claims, on abandoned creeks one mile and a half in length.

The regulations as to flumes, ditches, and drainage need not be detailed, but it may be stated that the water taken into a ditch or sluice has to be measured at the ditch or sluice head. No water should be taken into a ditch or sluice except in a trough placed horizontally at the place at which the water enters it. One inch of water means half the quantity that will pass through an orifice two inches high by one inch wide, with a constant head of seven inches above the upper side of the orifice.

Coal Prospecting Licenses.

A twelve months' prospecting license for 480 acres of vacant coal land in one block, may be granted by the Government on payment of \$25. The licenses may be extended for another year if the licensee has actually explored for coal on payment of \$50. The license is not transferable without notice being given to the Chief Commissioner of Lands and Works. If a licensee wishes to purchase the coal lands, he may do so under the land Act for \$2.50 per acre.

Timber Licenses.

Unlicensed persons, except for farm or mining purposes, &c., are not permitted to cut trees on Crown lands. A timber license may be granted for 1,000 acres for four years on payment of \$10 annually, and 15 cents for each tree (except hemlock) felled, payable half-yearly. No person can hold more than one license at the same time, and it is not transferable. Mill-owners cannot saw logs taken from Crown lands (in which are included lands leased at less than ten cents an acre) until the timber does of twenty cents per thousand feet, board measure, are paid.

ABSTRACT OF THE DOMINION LANDS.

WITHIN THE RAILWAY BELT IN THE PROVINCE OF BRITISH COLUMBIA.

Approved by Order in Council dated 17th September, 1887, and amended by Order in Council dated 18th March, 1889 under the Authority of Sub-section 4 of Section 1, Chapter 56 of the Revised Statutes of Canada.

Any of the forms or affidavits mentioned in these regulations can be obtained from the Dominion Land Office, New Westminster, by writing to W. Aikman.

REGULATIONS.

These Regulations apply exclusively to the public lands of the Dominion, within what is known as the Railway Belt, in the Province of British Columbia, which lands shall be styled and known as *Dominion Lands*.

The Department of the Minister of the Interior is charged with the administration and management of the Dominion Lands.

Surveys.

The Dominion lands in British Columbia shall be laid off, so far as practicable, in quadrilateral townships, each containing thirty-six sections of as nearly one mile square as the convergence of meridians permits together with an allowance of twelve acres in each section for road purposes:

Each section shall be divided into quarter-sections of one hundred and sixty acres, more or less, together with an allowance for roads of three acres in each, subject to the provisions hereinafter made.

STOVES, GAS FIXTURES, GRATES and TILES and HOUSE FURNISHINGS.

The Governor in Council may authorize any person to locate and build public highways, or to build public highways located in accordance with the preceding clause.

In the meantime, and until any such road shall have been located and constructed, a convenient right of way, not exceeding 66 feet in width, over any such land is hereby reserved for the use and convenience of settlers and land holders in passing, from time to time, to and from their locations or lands to and from any now existing public road or trail: Provided always, that such settler or land owner making use of the aforesaid privilege shall not damage the fences or crops of the occupier of any such located, sold or leased, land.

Every patent issued for lands subject to these Regulations shall contain a provision reserving to the Governor in Council the power to order the survey through such lands by a Dominion Land Surveyor of such public highways as he may deem expedient, and for that purpose to take any existing road, and any requisite area of land, whether the area of the roads and lands so taken be or be not in excess of the allowance for roads in any section, quarter-section or legal sub-division; also to enter upon such lands and take therefrom any gravel, stone, timber or other material required for the construction of such highway or any bridge connected therewith; and also to enter upon any such land for the purpose of cutting any drains necessary for the building of such highway.

Ordinary Sale of Lands.

Dominion lands, as the surveys thereof are duly made and confirmed, shall, except as otherwise hereinafter provided, be open for home-steading and purchase at such prices and on such terms and conditions as may be fixed from time to time by the Governor in Council: Provided, that no purchase shall be permitted at a less price than five dollars per acre: Provided also, that except in special cases, where otherwise ordered by the Governor in Council, no sale to one person shall exceed a section or six hundred and forty acres:

And provided also, that whenever so ordered by the Minister such unoccupied lands as may be deemed by him expedient, from time to time, may be withdrawn from ordinary sale and settlement, and sold at public auction or tender to the highest bidder—an upset price being fixed for the same:

Provided further, that any legal sub-division or other portion of Dominion lands which may be deemed by the Minister of the Interior of special value may be reserved from ordinary sale, and be disposed of in such manner and on such terms and conditions as may be fixed by the Governor in Council on the report of the Minister of the Interior.

Homestead Rights.

Any person, male or female, who is the sole head of a family, or any male who has attained the age of eighteen years, who has not heretofore had a homestead on Dominion lands in British Columbia, Manitoba, or the

North-West Territories, or does not hold or own by pre-emption record or otherwise, under the laws of the Province of British Columbia, more than one hundred and sixty acres of land within the Railway Belt in the said Province, shall, on making application in the form A in the schedule to these regulations, be entitled to obtain homestead entry for any quantity of land not exceeding one hundred and sixty acres, and being of the class of land open under the provisions of these Regulations to homestead entry:

The entry for a homestead shall entitle the recipient to take, occupy and cultivate the land entered for, and hold possession of the same to the exclusion of any other person or persons whomsoever, and to bring and maintain actions for trespass committed on the said land, the same as if a patent therefor had issued in his favor: the title to the land shall remain in the Crown until the issue of the patent therefor, and the said land shall not be liable to be taken in execution before the issue of patent:

The privilege of homestead entry shall only apply to surveyed agricultural lands: no person shall be entitled to such entry for land valuable for its timber, or for hay land, or for land on which there is a stone or marble quarry, or coal or other mineral having commercial value, or whereon there is any water power which may serve to drive machinery, or for land which, by reason of its position, such as being the shore of an important harbor, bridge site or canal site, or being either an actual or prospective railway terminus or station, will be in the public interest to withhold from such entry.

Homestead Entries and Sales Affecting Timber Lands.

All merchantable timber growing or being upon any land entered or sold within the limits of Dominion lands in British Columbia, and all gold, silver, copper, lead, iron, petroleum, coal or other mines or minerals, shall be considered as reserved from the said land and shall be the property of Her Majesty, except that the homesteader or purchaser, or those claimin under him, may cut and use such merchantable timber as may be necessary for the purpose of building, fencing or road making, on the land so entered or sold, and may also, under the authority of the Crown Timber Agent, cut and dispose of all timber required to be removed in the actual clearing of the said land for cultivation; but no merchantable timber (except for the necessary building, fencing or road making as aforesaid) shall be cut beyond the limit of such actual clearing; and all merchantable timber cut in the process of clearing, and disposed of, shall be subject to the payment of the same dues as are at the time payable by the holders of licenses to cut timber:

The patents for all lands hereafter entered or sold as aforesaid, shall contain a reservation of all merchantable timber growing or being on the said lands, which merchantable timber shall continue to be the property of Her Majesty; and any person or persons now or hereafter holding a license to cut timber on such land, may, at all times during the continuance of such license, enter upon the uncleared portion of such lands, and cut and

remove such timber, and make all necessary roads or waterways for that purpose, and for the purpose of hauling in supplies, doing no unnecessary damage thereby.

Holders of timber licenses, their servants and agents, shall have the right to haul their timber over the uncleared portion of any land entered as a homestead or purchased as hereinbefore provided, and to make such roads or waterways thereon as may be necessary for that purpose, doing no unnecessary damage, and to use all slides, portages, roads, waterways, or other works previously constructed or existing on any land so entered sold or leased, and the right of access to, and free use of all streams and lakes theretofore used, or that may be necessary for the passage of timber; and all land necessary for such work is hereby reserved.

Whenever the survey of any township has been finally confirmed and such township opened for homestead entry, any person who has *bond file* settled and made improvements before such confirmed survey on land in such township, shall have a prior right to obtain homestead entry for the land so settled on, provided such right be exercised within three months after the land is opened for settlement; and provided that such land has not been reserved or the right to homestead entry is not excepted under the provisions of these Regulations.

Every person applying for homestead entry shall appear and make affidavit before the local agent according to the form B, C, or D, in the schedule to these Regulations, as the circumstances require; and upon filing such affidavit with the said local agent or senior clerk, and on payment to him of an office fee of ten dollars, such person shall receive a receipt from the said local agent or senior clerk, according to the form J in the schedule to these Regulations; and such receipt shall be a certificate of entry, and shall be authority to the person obtaining it to take possession of the land described in it:

The Minister of the Interior or the Dominion Lands Board, upon requisition, may authorize any person named therein to make a homestead entry on behalf of any person signing such requisition and desiring to obtain such entry who shall make application in the form E in the schedule to these Regulations, on behalf of each of those whom he represents, and shall make an affidavit before the local agent or, in his absence, the senior clerk performing his duties, according to form F, G, or H, in the schedule to these Regulations, as the circumstances of the case require, and shall pay for each homestead entry the office fee of ten dollars hereinbefore prescribed for such entry, and shall receive for each fee so paid a receipt in the form J in the schedule hereto:

In case a dispute arises between persons claiming the right to homestead entry for the same land, the local agent, or senior clerk, or any person thereto authorized by the Minister of the Interior, shall make investigation and obtain evidence respecting the facts, and his report thereon, together with the evidence taken, shall be referred to the Minister of the Interior for decision, or to the Dominion Lands Board, Commissioner of Dominion Lands, or such person as may be appointed by the Governor in Council to consider and decide in cases of such disputes.

B.C. CITIES DIRECTORY.

Any person who has obtained a homestead entry shall be allowed a period of six months from its date within which to perfect the entry, by taking in his own person possession of the land and beginning continuous residence thereon and cultivation thereof; and if the entry be not perfected within that period it shall be void, and the land shall be open to entry by another person, or to other disposition under these Regulations by the Minister of the Interior:

Provided further, that in the case of immigrants from elsewhere than the North American continent, the Governor in Council may extend the time for the perfecting of entry to twelve months from the date thereof.

At the expiration of three years from the date of his perfecting his homestead entry the settler, or in case of his death his legal representatives upon proving to the satisfaction of the local agent that he, or they, or some of them, have resided upon and cultivated the land during the said term of three years, shall be entitled to a patent for the land, provided such proof is accepted by the Commissioner of Dominion Lands, or, in his absence, by a member of the Land Board, and on payment of one dollar per acre for the land: Provided also, that the patent therefor shall not issue to any person not then a subject of Her Majesty by birth or naturalization.

Any person proving that he has resided on the land for which he has homestead entry for twelve months from the date of his perfecting his entry therefor, and that he has brought under cultivation at least thirty acres thereof, may, before the expiration of the three years defined in sub-clause two of this clause, obtain a patent by paying two dollars and fifty cents per acre for the land.

Any person claiming a patent under a homestead entry shall also be entitled thereto upon making payment therefor at the rate of one dollar per acre and proving to the satisfaction of the Commissioner of Dominion Lands or the Dominion Lands Board,—

(a.) That he perfected his homestead entry by commencing the cultivation of the homestead within six months from the date of his homestead entry;

(b.) That within the first year after the date of his homestead entry he broke and prepared for crop not less than five acres of his homestead quarter-section; or if the land affected by his homestead entry be timber land, then in lieu of breaking and preparing for crop five acres he may substitute therefor the clearing and fencing of three acres;

(c.) That within the second year he cropped the said five acres, and broke and prepared for crop not less than ten acres in addition, making not less than fifteen acres in all; or if the land affected by his homestead entry be timber land, in lieu of cropping five acres and breaking and preparing for crop ten acres additional, he may substitute therefor cropping the three acres broken the previous year, and clearing and fencing five acres in addition, making in all eight acres cleared and fenced, three of which shall also be cropped;

(d.) That he has erected a habitable house upon his homestead before the expiration of the second year after his homestead entry, and has bona

file resided therein and has cultivated the land for three years next prior to the date of his application for his patent.

(c.) That at the commencement of the third year after the date of his homestead entry, or previously, he commenced the residence on his homestead required by the next preceding paragraph of this sub-clause.

Proof of the residence and improvements required by this clause shall be made by the claimant by affidavit, and shall be corroborated by the evidence on oath of two disinterested witnesses, resident in the vicinity of the land affected by their evidence, and accepted as sufficient by the Commissioner of Dominion Lands, or, in his absence, by a member of the Land Board; such affidavit shall be sworn and such testimony given before the local agent, or, in his absence, the senior clerk performing his duties, or some other person named for that purpose by the Minister of the Interior.

Every person who has obtained a homestead entry, and who proposes to apply for a patent for such homestead, shall give six months notice in writing to the Agent of Dominion Lands of his intention to make such application, and shall produce evidence to the officer who is authorized to receive the application that such notice has been duly given.

In case it is proved to the satisfaction of the Minister of the Interior that a settler has not resided upon and cultivated his homestead, except as herein provided, for at least six months in any one year, or has failed to cultivate and crop the said land during the first two years after obtaining entry therefor, or to erect a habitable house before the expiration of the second year after such entry, and to *bona fide* reside therein and cultivate the land for three years next prior to the date of his application for patent or has made any false statement in the affidavit in support of his application for entry; or if he fails, within the time provided for in these Regulations, to apply for a patent for his homestead, and to pay for the said homestead the price specified in these Regulations, the right to the land shall be forfeited and the entry therefor shall be cancelled, and the settler so forfeiting his entry shall not be eligible to obtain another entry, except in special cases, in the discretion of the Minister of the Interior.

Provided, that in the case of illness, vouched for by sufficient evidence or in the cases of immigrants requiring to return to their native land to bring out their families to their homesteads, or in other special cases, the Minister of the Interior, may, in his discretion, grant an extension of time during which a settler may be absent from his homestead without prejudice to his right therein; but the extension of time so granted shall not count as residence.

A homestead, the entry of which has been cancelled, may, at the discretion of the Minister, be held for homestead entry by another person, on such terms and conditions as the Minister of the Interior may prescribe or for sale of the land with the improvements, if any, or of the improvements alone, in connection with homestead entry thereof, to another person.

Any assignment or transfer of homestead right or any part thereof, and any agreement to assign or transfer any homestead right or any part thereof after patent shall have been obtained, made or entered into before

the issue of the patent, shall be null and void; and the person so assigning or transferring or making an agreement to assign or transfer shall forfeit his homestead right, and shall not be permitted to make another homestead entry: Provided, that a person whose homestead may have been recommended for patent by the local agent or senior clerk, and who has received from such agent or clerk a certificate to that effect in the form K in the schedule to these Regulations, countersigned by the Commissioner of Dominion Lands, or in his absence, by any member of the Dominion Lands Board, may legally dispose of and convey, assign or transfer his right and title therein.

Fruit Culture.

Any person eligible under these Regulations to obtain a homestead entry may, for fruit-growing purposes, upon payment of a fee of ten dollars, and upon making application therefor to the local agent in the form L in the schedule hereto, obtain entry for any area not in excess of one quarter-section of Dominion lands of the class open for homestead entry under these Regulations, upon the following terms and conditions:

(a) For each legal sub-division included in the land entered, the applicant shall, during the first year after the date of entry, clear at least four acres and plant the same in fruit trees, bushes, plants or vines, to the number prescribed in these Regulations:

(b) During the second year he shall clear and plant three acres additional; and any trees, plants or vines, planted the preceding year which may have died shall be replaced:

(c) During the third year he shall clear three acres additional, planting the same as in the first and second years, and replacing any trees, shrubs, plants or vines, planted during the first and second years which may have died:

(d) At the end of the third year he shall have ten acres cleared and planted with fruit trees, bushes or vines:

(e) Provided that the clearing and planting herein provided for may be made upon any portion of the land entered for:

(f) The fruit trees, bushes or vines to be planted by the applicant as herein provided shall be in the proportion set forth in the following table, according to the variety or varieties planted:—Apple trees, standards, 33 feet apart, 40 per acre; Pear trees, standards, 20 feet apart, 110 per acre; Peach trees, standards, 15 feet apart, 200 per acre; Plum trees, standards, 15 feet apart, 200 per acre; Cherry trees, standards, 20 feet apart, 110 per acre; Currant bushes, 4 feet apart by 6 feet, 1,815 per acre; Gooseberry bushes, 4 feet apart by 6 feet, 1,815 per acre; Grapes, 10 feet apart by 12 feet, 364 per acre; Raspberries, 3 feet apart by 6 feet, 2,425 per acre; Strawberries, 1 foot apart by 4 feet, 10,900 per acre.

(g.) At the expiration of five years from the date of his entry the applicant, or in case of his death his legal representative, upon proving to the satisfaction of the local agent, that there are then growing upon the

land and in healthy condition the number of trees, bushes, plants or vines' as the case may be, prescribed by these Regulations, shall be entitled to a patent for the land upon payment therefor at the rate of one dollar per acre, provided such proof is accepted by the Commissioner of Dominion Lands or, in his absence, by a member of the Land Board; but such patent shall not issue to any person who is not a subject of Her Majesty by birth or naturalization.

(h.) If any person fails to comply with any of the conditions his entry therefor shall be forfeited and cancelled, and he shall have no claim to the land whatever, except in special cases, in the discretion of the Minister of the Interior.

Grazing Lands.

The Governor in Council may, from time to time grant leases of unoccupied Dominion Lands for grazing purposes to any person or persons for such term of years and at such rent, in each case, as may be deemed expedient; and every such lease shall contain a condition by which the Governor in Council may authorize the Minister of the Interior, at any time during the term of the lease, to give the lessee notice of cancellation thereof; and at the end of two years from the service of such notice such lease shall cease and determine.

Mining and Mining Lands.

Lands containing coal or other minerals, whether in surveyed or unsurveyed territory, may be disposed of in such manner and on such terms and conditions as may, from time to time, be fixed by the Governor in Council by regulations to be made in that behalf.

It is hereby declared that no grant from the Crown of lands in freehold, or for any less estate, has operated or will operate as a conveyance of the minerals therein, unless the same are expressly conveyed in such grant.

Ditches.

The provisions of the Dominion Mining Regulations having reference to the diversion and use of the water from any stream or lake, and the rights of way necessary for the construction of flumes and ditches to convey such water, shall apply to the diversion and use of the water from any stream or lake, and the rights of way necessary to the conveyance thereof in respect of the irrigation of agricultural lands.

Timber Licenses.

(a.) The word "timber" shall mean all wood and the products thereof.

It shall be unlawful for any person, without a license in that behalf, to be granted as hereinafter mentioned, to cut, fell or carry away any trees or timber upon or from any Dominion lands.

B.C. CITIES DIRECTORY.

Penalty for the first offence of two hundred and fifty dollars, and in default of immediate payment to imprisonment for three calendar months; and, for a second conviction, to both a fine of two hundred and fifty dollars and imprisonment for three calendar months.

Any person desirous of cutting or felling and carrying away trees or timber from Dominion lands may obtain a license to that effect upon proving to the satisfaction of the Minister of the Interior that he has complied with the following provisions, such proof to be made by affidavit in the form P.

(a) He shall apply in writing to the Minister of the Interior for a license, and shall also, if the land intended to be covered by such license be not included in any surveyed township, stake out the land sought for, by placing at each angle or corner of the lands a stake or post at least four inches square, and standing not less than four feet above the surface of the ground; and upon each post he shall inscribe his name, and the angle represented thereby, thus:—"A.B.'s, N.E. corner" (meaning north-east corner), or as the case may be; except such posts are so placed before the notice referred to in the next succeeding section is given, all the proceedings taken by the applicant shall be void; and with his application he shall forward to the Minister of the Interior a map or sketch of the land so staked out, specifying metes and bounds and showing thereon the best information in his power respecting the same; but if the land has already been included in any general survey, then the official number of the section or sections or part thereof applied for shall be given:

(b) He shall, after making the application for the license, publish for a period of thirty days, in the *British Columbia Gazette*, and in any newspapers circulating in the district in which the lands lie, notice of his application for timber license, and shall in such notice give the best description of the land applied for, specifying metes and bounds, and such further particulars, if any, as may be required by the Minister of the Interior.

Timber licenses (Form A) shall be granted for such area and such length of time as may be determined by the Governor in Council: the licensee shall pay to the Minister of the Interior, for the use of Her Majesty, annually, during the currency of the license, the sum of fifty dollars therefor, the first payment to be made upon the granting of the license, and subsequent payments thereafter annually on a day to be named in the license, and in default of payment of any such sum within thirty days after the same should have been paid the license shall be void.

No timber license shall be granted in respect of lands forming the site of an Indian settlement or reserve, and the Minister of the Interior may refuse to grant a license in respect of any particular land if, in his opinion it is deemed expedient in the public interest so to do.

VANCOUVER CITY.

The Western Terminus of the Canadian Pacific Railway.

A BRIEF REVIEW.

How can the history of Vancouver be briefly, interestingly and truthfully told? The most conservative statement of historical facts would seem to read like an exaggerated romance from the pen of a Haggard. The truth is, no one knows thoroughly the history of Vancouver. Its growth has been so remarkable and so rapid that there has been no time to consecutively note events. Truthful statements made today have repeatedly proven false and misleading on the morrow. The chronicler of Vancouver's remarkable achievements in growth and prosperity must needs be a shorthand writer. There is even yet no time for a summary of what has been accomplished during the few years that have passed since the birth of the city.

Until near the end of the seventies, with one or two exceptions, no effort had been made to possess the trackless wilderness where the city of Vancouver now stands. In 1885, when railroad communication was established with the eastern provinces, news of the boundless wealth, commanding beauty, and illimitable possibilities spread eastward, and the destiny of the future city was assured.

VANCOUVER DIRECTORY.

POPULATION

The city was incorporated under the name of 'VANCOUVER' on April 5th 1886, since which time its growth in population has been far more rapid than that of any other Canadian city in an equal period of its history. The growth within the past three years has shown a most marvelous increase. The following are a few statistics:—

Population in 1886	600
" 1887	2,000
" 1888	6,000
" 1889	12,000
Present population estimated	15,000

And the city's growth continues uninterrupted. The above estimate of present population is borne out by the Directory names.

Vancouver is fast gaining reputation and fame as a commercial centre. With such a vast area of tributary country, and its position as a seaport, the incentive to the establishment of manufacturing institutions is beginning to be felt, and in the near future Vancouver looks forward to the establishment of several new industries that are now on the verge of consummation. The phenomenal growth of the city and the increase in the manufactories which have been already established are a sure prophecy of unlimited progress in the future.

The following is a list of some of the manufacturing industries which are already in successful operation:—

Hastings Saw Mill Co, Royal City Planing Mills sash and door factory, Moodyville Saw Mill Co, Brunette Saw Mill Co, Fader Bros. Lumber Co., Vancouver Shingle Mills, Vancouver Iron Works, C. P. R. works and machine shops, San Juan Lime Co, six breweries, carriage and furniture factory, ship building yards, News-Advertiser bookbinding and blank book manufactory, soap manufactory, etc.

The city council has voted \$30,000 as a bonus to induce J. N. Rogers & Co. to establish a sugar refinery in Vancouver, which will not cost less than \$100,000, and give employment to 100 men. A wooden ware manufactory, two large saw mills, and two new furniture factories are projected. It is a safe prediction that all of these industries will be in actual operation before the close of the present year.

In harmony with the city's custom of keeping in the foreground of progress, she is just completing an electric street railway, with all the modern improvements. The line commences at the head of Granville street, and runs down the same to Hastings, runs east on Hastings to Cambie, along Cambie to Cordova, runs east on Cordova to Carrall, along Carrall to Powell, east on Powell to head of Westminster avenue and terminates there, a distance of four miles. The need of rapid and cheap transit in a rapidly growing city is quite obvious, and the completion of this prodigious task but illustrates the enterprise of the citizens.

The fame of this city is so great throughout all the Dominion that great numbers of people are constantly arriving. This necessitates the building of many houses and business blocks, and good substantial ones they are, too. To study the characteristics of the growth and remarkable

Ferguson Building, Room 4, Cordova St., Vancouver

VANCOUVER DIRECTORY.

development of Vancouver would be like trying to analyze and account for one of the ancient miracles. Of course, it will be said that geographical advantages, and the accident of the Canadian Pacific Railway making its terminus there is what made Vancouver what it is. This is true, but besides those advantages, there has been an enterprise and a sublime faith in the future without parallel in history. No resident of Vancouver has ever had occasion to lose faith in the city. Since the day that local citizenship was born, there has been present with every citizen a loyalty and enthusiasm that gave birth to royal enterprise and magnificent results. Vancouver has never had a real estate boom. Prices of both residence and business property are below what is asked for less valuable property in the American cities on the Sound.

An eastern man's first question when thinking of coming to Vancouver is, "What is your climate?" On this side of the range of mountains that skirt the coast from north to south at varying distances, the climate is such that fuchsias will thrive the year round. Snow rarely lies more than a day or two at a time, with the possible exception of the past winter, even which was not severe enough to inconvenience any one to any degree. During the summer, the sultry and oppressive weather prevalent in the east is unknown here, and while occasionally the mercury reaches 85°, there is never a night in the year when one cannot sleep under a blanket. The city has its occasional visitations of fogs, which moderate the climate, and give needed moisture to vegetation. From a sanitary point of view, there is not a more inviting region in the whole province than Vancouver. Here, in common with all parts of the coast, there are but two seasons, wet and dry, which may account in a measure for the entire absence of many diseases prevalent in corresponding latitudes elsewhere. Sunstroke and prostration from heat are unknown, and the ratio of deaths from pulmonary complaints is notably small.

The soil varies in color and quality, from heavy clay to gravel, but excepting the gravel ridges, it is all very fertile and productive. In some places, the alluvial deposit is many feet deep.

The year 1889 was a great year in the history of Vancouver, but the present indications are that 1890 will far exceed it in the matter of building. The most important of those contemplated are the new C.P.R. general offices, which will probably cost \$50,000, and the new opera house, which will be erected by the same company at a cost of \$75,000. During 1889, the buildings erected exceeded in value \$1,500,000. No city on the Sound can boast of having more costly and substantial business blocks than Vancouver.

Stanley Park comprises all that part of the peninsula west of Coal Harbor, some nine hundred and sixty acres. It is a most delightful place for lovers of beautiful scenery to visit. It has a well made driveway of gravel and shells extending completely round it, and from some of the hill tops on this road, the view is one of the grandest imaginable.

The East End Park is located as its name would indicate, in the eastern part of the city. It contains one hundred and sixty acres, and when the extensive improvements which are contemplated are completed, it will

VANCOUVER DIRECTORY.

be a favorite resort for both tourists and residents The park was donated to the city by the Government.

The South Side Park is situated in the extreme south-eastern part of the city, and contains many natural advantages over the ordinary park. It contains forty acres, and was given to the city by a Toronto capitalist. There is a beautiful lake in the heart of this tract of land which adds very materially to its general appearance, and when certain projected improvements are made, this will be one of the handsomest parks on the coast.

GENERAL INFORMATION

There was an unusual amount of snow during the year 1889. Size of town lots 49 1-2x132 to 6. Rate of city taxation 1%, if paid within thirty days after being notified of the same being due, and 1.4% if allowed to run over the thirty days. Board and lodging at hotels ranges from \$5.00 upwards. Laborers' wages \$1.75 to \$2.50 per day, mechanics' wages from \$3.50 to \$5.50 per day. The legal hack rate is 50c per mile or \$1.00 per hour. C.P.R. steamers leave every second week for China and Japan. C. P. N. Company's steamers leave twice a week for Seattle and Tacoma direct. The distance to Victoria is 72 miles, New Westminster 20 miles. Vancouver has a well organised police force with J. M. McLaren as chief. The city debt up to the 31st of December last was only \$66,000. The population is estimated to be between fourteen and fifteen thousand. The telephone list contains nearly 300 subscribers. The city is lighted by both gas and electricity. The Water Works Co. get their water supply from the Capilano river, on the north side of Burrard Inlet Strangers will find an excellent field for investment in either real estate or business. Residence property has increased at the rate of 120 per cent during the past year.

Vancouver Water Works.

Incorporated in April 1886, for the purpose of supplying the City of Vancouver with water obtained from the Capilano which is a mountain stream of considerable magnitude, being reported to be no less than fifty miles in length, and averaging for a distance of seven miles up stream (the only portion which has as yet been surveyed) a width of 150 feet at low water. It rises in the snow crowned mountains of the Howe Sound district and flows almost due south, emptying into Burrard Inlet at the First Narrows. The source is not a mountain lake, but the accumulated waters derived from melted snow and ice falling from the mountain summit. Being a mountain stream it is throughout its whole course very rapid, averaging five feet per second, and falling at the rate of 70 to 100 feet per mile. The point where the supply is taken from is 6½ miles up stream, at which place the river was carefully gauged and ascertained to be discharging at extreme low water an average of 450,000,000 gallons per 24 hours. A double service of main pipes is being laid, which will ensure an uninterrupted supply. President, Capt John Irving Directors, Sir J W Trutch, C M G, R P Ritchet, Thomas Earle, D M Eberts. Secretary, J W McFarland. Chief Engineer, G A Keefer, C E. Resident Engineer, H B Smith, C E.

NEW WESTMINSTER CITY.

NEW WESTMINSTER is situated on the north bank of the Fraser river, about sixteen miles from the Gulf of Georgia, and occupies a site sloping back from the river a distance of one and a half miles at the centre of the city, decreasing to half a mile at its western, and about a mile at its eastern limit, the river sweeping to the northward and westward above and below the town. The upper portion of Lulu Island is also included in the corporate limits, and other additions to the westward and northward will shortly be made, as the owners of the suburban property cut their land into town lots for which they obtain good prices. The total length of the site at present actually within the limits is five miles.

As the land falls for the most part to the south and west, the situation of the town is very pleasant, and the formation of the surrounding country gives it the additional advantage of shelter from the prevailing winds, so that anything like a gale is exceedingly rare. From the same cause the climate is more equable than that of any other part of the province.

The place has progressed so rapidly of late that it has outrun the efforts of both the corporation and private enterprise to some extent, so that the outskirts of the city are not as well provided with good streets as is desirable, and the demand for residences constantly exceeds the supply. Last year, however, the city council went in largely for street improvement, and built nine miles of sidewalks; and a large number of houses, both for owner's use and for rent were erected, and the work, both corporate and private has been vigorously resumed this year. The city has also secured the right to take water from a mountain lake some distance out, and is now arranging for the works, having floated a loan of \$200,000 for the purpose. The New Westminster and Southern railroad is to be running into the city this summer, the rails having been shipped from England about the first of the year. In each of the years 1888 and 1889 the place increased fully twenty-five per cent, and there is every reason to believe that that rate of progress will be exceeded in 1890. As an indication of the financial standing of New Westminster it may be mentioned that a loan of \$209,000 for a railway subsidy and local improvements was recently taken up at 103½ the bonds being fifty-year at five per cent.

Although there is no "boom," real estate has, as a matter of course, increased largely in value and is steadily rising. New industries are also being undertaken, and old ones expanded.

Its situation on the Fraser makes new Westminster the natural centre of the surrounding agricultural country, and also the headquarters of the salmon canneries, in which hundreds of thousands are invested, and its manufacturing establishments are therefore numerous and prosperous. These include two iron foundries, three or four machine shops, shipyards where river steamers and other small vessels are built, and two large lumbering establishments, having a capacity of some 300,000 feet per day.

NEW WESTMINSTER DIRECTORY.

owning a fleet of six or seven steamers, and employing 700 or 800 men. These latter besides the large and growing local trade, export lumber both by rail and ship to the other parts of the Dominion and to foreign countries. Each of the mills has also a sash and door factory, a box factory, a machine and repair shop, etc.; and both turn out large quantities of lath and shingles. In addition to those already mentioned, there are cigar factories (2), breweries, and other labor-employing concerns. Just outside the city limits, another large lumber mill is almost ready for business, which will devote itself very largely to the export trade.

By river and rail, New Westminster has close and constant connection with the surrounding settlements, the other cities of the Province, the east and the United States, and its mail, telegraph and telephone facilities are quite up to the modern standard. Electric light and electric street car companies are now seeking incorporation, and will push their works at once.

The public schools, which include a high school, a central and two ward schools, employ ten teachers, and there are also a number of private and denominational schools. All the leading religious bodies have flourishing and well-attended churches.

The climatic conditions already mentioned, its pleasant and healthy situation, and the magnificent scenery by which it is surrounded, all combine to make New Westminster an attractive place of residence, while the facts that its present standing is the result of over thirty years of steady growth, and that it has always responded quickly to every increase of prosperity in the country at large, thus showing that its prosperity flows from its natural advantages and does not depend upon any adventitious circumstances, have given it first class rank as a field for the investment of capital.

The most tangible result of this is to be seen in the large number of fine blocks of brick buildings which have been erected within the past three years, and in the further fact that these are rented and occupied as soon as it is possible to move into them. In the residential parts of the city, as already mentioned, houses are constantly going up. Residences which were considered first class a few years ago now take rank as antiquated and behind the times, and wherever one turns there are similar evidences of growth and expansion.

One of the Provincial jails is located in New Westminster, as are also the Provincial Penitentiary and Asylum for the Insane. There are no civic public buildings of note; the city authorities preferring to devote their strength to the task of keeping more useful and reproductive public works, such as streets, sidewalks, water and sewerage works, &c, up to the mark, leaving the more ornamental undertakings to come afterwards. This utilitarian policy has not, however, been carried to excess, as a very considerable amount has been expended in providing a fine park for public use.

Two companies of volunteer militia, football, baseball, lacrosse, cricket and boating clubs, provide the young men and boys with a wide choice of amusement of which they largely avail themselves.

THE BEST PLACE TO GET A SUIT OF CLOTHES IN VANCOUVER IS AT DAVID EVANS, 72 Cordova Street.

JOHN DEVINE and SON, Collectors, Real Estate and Commission Agents, Accountants, &c.
No. 129 Cordova Street, Vancouver, B.C.

No census has been taken for some years and the population is estimated at 7000 to 8000,—probably the truth is between the two figures. People are however, constantly coming in, so that a very few months would put any census out of date. It should also be mentioned that large amounts of taxes are paid by non-resident holders of real property, making the city's resources in a financial sense much greater than a return of its actual population would indicate.

The city has two daily newspapers, two banks (B. C. and Montreal), and a flourishing Y. M. C. Association, with a free reading room.

Recent channel improvements at the mouth of the Fraser have put New Westminster on the list of ocean ports. H. M. ships now visit the town regularly, and the largest class of vessels can enter and leave without difficulty.

New Westminster has the only woolen mill in the Province. It has been in successful operation for some years, and has recently added new machinery. The goods manufactured are very highly spoken of, and the demand for them constantly exceeds the supply.

**DOMINION AND PROVINCIAL OFFICIALS IN
NEW WESTMINSTER.**
