

The Best Criterion of the Merit of

DEWAR'S WHISKY

is the over increasing demand. The high Standard of Quality which first brought the Whisky into prominence, is rigidly maintained, and every bottle CORKED in Dewar's Distilleries is a guarantee that you get the "BEST" in "SCOTCH."

Montreal Stock Market.

CONTINUED DULLNESS — MINING STOCKS INCLINED TO BE HEAVY — ADVANCE OF 2 POINTS IN ELECTRIC — GENERAL CONDITION ARE MIXED.

Montreal, March 7.

While the list of sales this forenoon would seem to indicate liveliness, yet the fact of unchanged dullness remained. There were very few buying orders in the market, and still fewer of them in line with present prices.

No sufficient reason except the quotations for the stock at London appear for the continuance of Pacific stock under par. The anomalous position of Pacific values seldom fails to be spoken of by brokers when interviewed. 101½ was the London opening to-day, for which the local equivalent is about 98½. The bearing of this stock is thus not local.

Mining stock to-day was inclined to be heavy. Payne, indeed on its one forenoon transaction was taken at an advance of 1 point on yesterday's close, and Republic at 97, closed with the same quotation as yesterday did, but in Virtue closing at 91 there was a recession of 1¼ points from previous close, and in Montreal-London closing at 28 there was a decline at the close of 4 points from yesterday.

An advance of 1¼ was made in Electric, of which the highest price this forenoon was 195. This highest was also the closing demand, while 194½ was offered for more.

Little of importance can be said about other stocks. The same prices were secured for small lots of Merchant's Bank, of Dominion Cotton, and of Richelieu and Ontario.

At 99 Can. Col. Cotton bonds were 1 point under the last price at which they sold. A decline of 1 was also made by Gas, and one of ¼ by Toronto Railway. On sale of a broken lot, Bank of Montreal was somewhat higher.

If the Cape Dutch rising can have any effect on the market here, its depressing effect will probably be offset by the passing to-day of the financial bill at Washing-

ton, the influence of which is considered favorable. Any strengthening influence from Wall Street, however, is sadly weakened by various bearish facts, such as Sugar dividend, critical position of Steel stocks and all industrials which appear to be run for stock jobbing purposes. Such strength as exists there, and may indirectly support markets here, is due chiefly to the Railroad stocks, the companies of which do good business, and show clear statements.

RICH ORE IN CUMBERLAND.

As illustrating the richness of the Cumberland ore, two samples forwarded by Mr. Galsford to Professor Donald, of Mo-

Gill, to be assayed, gave values in the one case equivalent to \$834.00 to the ton, and in the other \$150.00 to the ton.

These were not picked samples by any means. One weighed 78 lbs. and the other 20 lbs.

STRAWS.

It is reported that American capitalists interested in the Shawenigan Water & Power Co. have accumulated within the past few weeks some 200,000 shares of Republic.

Good buying in Royal Electric to-day. Talk of dividend being increased to ten per cent.

Stockholders of the I. O. 41 mine, which joins the Golden Star, have taken legal action against Louis Hall, of Duluth, and the syndicate which he represents, for damages for breach of trust. They claim that Mr. Hall and his associates sold the stock of the property on the strength of an agreement to advance the necessary funds for development work, but after the stock was sold, they declined to fulfill their part of the agreement.

MONTREAL MINING EXCHANGE.

MARKET ACTIVE AND BROAD — PRICES ARE INCLINED TO STIFFEN.

Montreal, March 7

There was ample evidence of the large interest taken by the general public in mining shares, in the manner in which the demand was distributed all over the list of stocks. Sales were numerous, embracing some of our most popular issues, and the enquiry, where no sales were made, such as in North Star, Slocan Sovereign, etc., was of the best. It is sometimes with the greatest difficulty that sales are accomplished on account of the scarcity of stock. 1.17½ was freely bid at one time for North Star without eliciting any sales. Deer Trail remains quiet, selling at 8 cents. The demand even at this low figure is decidedly poor.

Decca remains cheap selling at 6c. Any substantial demand would have an immediate effect of hoisting the stock several points.

California remains dull, orders from the west for the selling account are fairly numerous. 9 cents was paid to-day for 500 shares.

Big Three is unchanged, although steady. The demand is not so brisk. 8¼ was offered, and taken for 200 shares.

There was an improvement in Republic, which sold at 98 for 500 shares. Payne was likewise firmer, selling round \$1.28. The demand for the latter being exceptionally good and firm.

Montreal-London was only fairly steady. It sold from 31 to 30, buyers offering 29 at the close. It sold for less on the Stock Exchange.

Virtue was not quite so buoyant, although the demand seems of the best. Round 90 cents 2,000 shares sold earlier in the day at 93. The last sale recorded being at 91½.

War Eagle is again the subject of another law suit. Mr. Clarence J. McCuaig and Mr. Gooderham being the participants. The suit is brought by Mr. McCuaig to recover 29,500 shares of War Eagle stock, which he claims is still due him on the deal which he and Mr. Gooderham had in January, 1897. The original piece of the stock under this deal is said to be 80 cents.

There was more enquiry to-day for both Monte Christo and Virginia, stimulated no doubt by the presence of Mr. McPherson, who is at present staying in this city. The former stock sold at ¼ and ¼½ cents.

NEW YORK EXCHANGE.

AMERICAN STOCK IN LONDON UP 1/4 TO 1/2—FINANCE BILL AND ITS PROBABLE EFFECTS—SEVEN BEARISH INFLUENCES—MANAGEMENT OF INDUSTRIAL COMPANIES UNSATISFACTORY.

New York, March 7th.

Although there is no fresh news from Africa, London Markets are strong with Americans showing advances of from 1/4 to 1/2. The advances in Americans are in all probability due to the passage of the Finance bill by the Senate yesterday. The majority in its favor is rather larger than had been expected. The bill now goes to the House where its passage no doubt will be speedy, and it is not unlikely that it will be in the President's hands before the end of the week. Whether its effect on the market will be offset by the feeling of distrust which exists in regard to Industrials remains to be seen, it is undoubtedly this feeling of distrust which has prevented during the last week a very much higher level of prices from being established by the R. R. stocks.

The decline in Third Ave., reduction of sugar dividend, practical disappearance of any value at all from the U. S. flour milling shares, the exposure of the management of the American Maltng, the depreciation in the securities of International Paper, slump in Hoop, in spite of the circulation of rumors that 20 per cent. had been earned on common, and the unsettled condition of labor in Chicago which menaces the value of other Steel Cos.' securities. All these have not unnaturally had a most disturbing effect on the Stock Exchange and have been followed by heavy liquidation by holders of the new Industrial securities. Inflation of the currency will not restore this confidence. It is therefore quite possible that there will be two divisions in the stock market which will act independently of one another, that is to say there will be the Railroads and the Industrials, the movements of which may radically different. Conservative brokers in Wall Street will welcome such a change and will do all in their power to put their customers into Standard R. R. stock, which are readily acceptable as collateral by Banks and about the finances of which something can be accurately known and keep them out of the securities of Industrials, the management of which seems to be guided rather by the interests of insiders in the stock market than for the consideration of the stock holders.

MINING NEWS.

GREY EAGLE.

Grand Forks, B.O., Feb. 22.—(Special.) Recent work has demonstrated that the Grey Eagle at Phoenix has the same ledge as the Knob Hill and Old Ironsides. A drift on the 200-foot level of the Knob Hill has already been extended into the Grey Eagle, which will also be developed by vertical shafts. The face of the drift is in ore. In this connection it is interesting to note that the underground developments of the ledge on the Knob Hill and Old Ironsides aggregate over 2,600 feet of work and a vertical depth of over 500 feet on the ore has been attained, proving conclusively the continuity of the ore downwards, and dispelling any theory that may suggest itself that the ore may not go down.

The surface work on the Grey Eagle consists of two 80-foot shafts and several open cuts. One of the open cuts mentioned is about 30 feet in length and about 15 feet deep, all in solid ore, similar to that found on the surface of the Knob Hill and Old Ironsides. About 200 feet east of the above cut is another open cut over 200 feet long, exposing a magnificent body of ore. On the same property further surface exploration has uncovered another lead passing up from the Victoria claim and running parallel with the Knob Hill ledge. In the Victoria claim this ledge is being developed on the 200 and 300-foot level workings.

The Grey Eagle is one of a group of claims acquired last summer by Jay P. Graves, of Grand Forks, and S. H. G. Miner, of Granby, Que. The others are the Banner, Tip Top, and the Triangle fraction. The ledge of the Brooklyn and Stemwinder mines pass through the Banner and Tip Top claims.

The company formed to acquire them is known as the Grey Eagle Gold Mining Co., limited, with a capital of \$1,500,000. Of the proceeds of the sale of treasury stock, \$60,000 will be used for development purposes, and the installation of machinery.

G. J. McQUAIG TAKES ACTION AGAINST MR. GOODERHAM IN CONNECTION WITH WAR EAGLE STOCK.

Toronto, March 6.—Mr. Clarence J. McCuaig, broker, of Montreal, to-day began suit in a non-jury court against Mr. Gooderham, president of the War Eagle Consolidating, Mining and developing Company for the recovery of 29,500 shares of stock in the War Eagle Company at 80 cents a share.

The suit arises out of the dealing of the plaintiff and defendant, who formed a partnership in 1897 for the purchase of the War Eagle mine, at Rossland, B.C., Mr. Gooderham undertaking to pay three-fifths of the purchase money, and McCuaig two-fifths of it. Mr. McCuaig was not able to carry out his agreement with regard to the purchase money, but for the work which he and Volney D. Williamson, of Rossland, did in connection with closing the deal, he claims Mr. Gooderham, under contract of January 8, 1897, undertook to hand over to him, or his nominees, \$212,500 in par value of paid up shares in the War Eagle Company upon payment of eighty cents upon the dollar of the par value of such shares. After handing over 183,000 shares he refused to hand over the remaining 29,500, although the money was tendered.

The defence is that the plaintiff agreed to accept, and was paid over 35,000 shares in payment of all claims, but he complained that he had sold about 212,500 shares of the stock for further delivery. Mr. Gooderham, although in no way bound to do so, agreed to let him have sufficient stock to supply his demand, not, however, to exceed 212,500 shares, on condition that he furnish an account of his sales up to 183,000 shares, but no more, and Mr. Gooderham claims that he was entitled to no more stock at eighty cents a share under the contract.

ANACONDA CONSOLIDATED.

Rosslund, Feb. 25, 1900.

There is nothing new to be reported this week. The first lead is still 140 feet distant from the present working end of the tunnel. From the indications in the exploration shafts, it is expected that not only this lead, but all four of them, will give a good grade of shipping ore at the depths they will be intersected. The general dullness in the mining stock market is felt by the Anaconda, but not to a very great extent, as there are enough treasury shares being disposed of to keep the regular force of men at work.

EVENING STAR.

Development in this property is accomplishing the best results. Drifting on the ore body continues, and the pay shoot is

now seven feet in width of clean shipping ore. The values in this shoot are above the average of most of the local ore. Stopping on the raise from the lower level continues. The Evening Star Company contemplates the putting in of a compressor with a capacity of about ten drills.

GIANT.

The work is at present confined to the 300-foot level, and cross-cutting towards the lead is in progress. Superintendent Tregear said last evening that there was no development of importance during the past week, notwithstanding the existence of several rumors to the effect that the ore body had been encountered.

CALIFORNIA.

Work on the tunnel continues. The machinery for a 10-drill compressor is now daily expected, as it has been on the road from Sherbrooke, Que., for the past three weeks.

DERR TRAIL.

Work has been resumed upon the property by the Philadelphia Mining company. The main shaft is now down 95 feet, and a drift to the south has been run for a distance of 75 feet. This drift is being continued. There is a fair showing of ore.

CHICAGO MARKET.

CHICAGO MARKET—March 7, 1900.

From the Bartlett Frazier Co., Chicago. H. J. Coon, Manager, 39 St. Sacramento St.

WHEAT OPENED STRONG, BUT CLOSED WEAK AT THE LOWEST OF THE DAY — CORN STEADY—PROVISIONS CLOSED STEADY AT THE DECLINE.

Chicago, March 7.

Liverpool—Opened ¼ higher; corn ½ higher.

Paris wheat, 15 lower; flour, 10 lower.

Opening—March, 5-10; May, 5-9; July, 5-8½. Closing—March, 5-10½; May, 5-9¼; July, 5-8¾.

New York—Wheat opened strong at an advance of ¼, and is now steady.

Chicago—Wheat opened steady on strong cables and reacted ¼ cent. now at last night's closing.

Don't see anything to buy wheat on. Trade in wheat light; no snap to market. Ohio reports say that the condition of growing wheat crop in Ohio has decreased 19 points since January 1st, and is now placed at only 56 per cent. of an average condition for this season of the year. Damage is attributed to severe freezing, with no snow protection, following closely upon attack by fly in fall, and early winter months. Not in many years has crop showed worse than now. Corn opened ½ higher, and strong at 35½. Oats—Dull and steady. Provisions—Opened strong. The demand is good.

N. W. Cars—Minn., 276; Duluth, 346; Last week, 528; last year, 429.

Hogs to-day, 26,000; tomorrow, 30,000.
