ASQUITH'S 'BIG STICK' TO COMPEL MINE OWNERS TO RAISE WAGES

Unless Agreement on Minimum Wage is Reached, Drastic Legislation is Promised—Eight Hundred Thousand Miners Quit Work, Confidence of Ultimate Victory.

LONDON, Feb. 29.—(Can. Press.)—The settlement of the threatened coal strike is yet far off. The government has not yet been able to induce all the coal owners to agree to the demand for a minimum wage made by the miners, but Premier Asquith declared to-night that if the principle of a minimum wage was not secured by agreement it would be secured by other means.

Fully 800,000 miners have already laid down their tools, and will not pick them up again until an agreement satisfactory to the miners' federation has been reached. The men have the government behind them and feel that victory has been won.

It was officially announced to-night that the conference of the cabinet ministers with the miners' federation would be continued to-morrow. Chancellor Lloyd George is drafting a minimum wage bill, but it is stated that the government is hopeful of being able to secure the establishment of the minimum wage without recourse to legislation, now that the Welsh mine owners see that they are powerless to resist longer.

Some of the railways have sent out notifications of curtailment of their services owing to the strike.

Ultimatum to Owners.

"The government having recognized the principle of a minimum wage for all underground workers, if it is not secured by agreement, it will be secured by the government by other means."

This extract from the speech made by the prime minister to the members of the National Miners' Federation, as reported in the official statement issued to-night concerning the conference held to-day, indicates the lengths to which the government is prepared to go to effect a settlement of the strike. It is virtually an ultimatum to the coal owners.

Emphasizing the point again, Mr. Asquith said that the government "were determined that the minimum wage shall become part and parcel of the organization and working of the coal industry by whatever appropriate means the government can command."

"They would be false to their duty as stewards and trustees of the general interests of the nation, continued the premier, if they did not take what steps they could to bring about a reasonable arrangement. The government felt that they were face to face with a warfare between capital and labor in the coal industry, which might paralyze all other industries in the country."

Miners' Arguments Irrefutable.

The government had started upon their investigation of the problem, the premier said, without any prejudice of party or class bias in one direction or another. Having given the fullest and most careful consideration to the evidence which the workmen had brought before them, the conclusion they had unanimously come to was that a case had been made out for ensuring to the underground workers in the coal industry, with adequate safeguards, a reasonable minimum wage.

Borden Cabinet United

MONTREAL, Feb. 29.—(Special.)—The statement is made here to-night on the very best authority that the cabinet is absolutely united on the question of the Keewatin schools, and that the minister of justice will take the strongest grounds against inserting any clause in the bill touching claims set up by the Nationalists, as such would be unconstitutional.

It is also known that the premier postponed the discussion till Tuesday next at the request of Sir Wilfrid Laurier, whose supporters are at sixes and sevens on the question.

FIRE AND PILLAGE IN PEKIN FOLLOWS MUTINY OF SOLDIERS LEGATIONS STANDING TO ARMS

Missionaries, Massed Together in Their Quarters, Are Preparing To Sell Lives Dearly—Premier Yuan's Intention To Go to Nanking Probable Cause of Outbreak—Delegates May Be Among Slain.

PEKIN, March 1.—2 a. m.—The city. The disorders have stopped. Yuan Shi Kai and the Nanking delegates, including Tang Shao Yi, are safe. No foreigners have been injured.

PEKIN, March 1, 1 a. m.—(Can. Press.)—A mutiny of Yuan Shi Kai's soldiers started at Pekin at 3 o'clock last night. Many of the natives have been killed or wounded, but so far as is known all foreigners are safe. The legation quarter is crowded, but the missionaries are holding out in their own compounds.

When the outbreak occurred it was estimated that two thousand soldiers took part, but since then the mutineers have been augmented by large numbers of police, coolies and looters. The legations know no reasons for the outbreak. The idea is expressed that Yuan Shi Kai's soldiers began the trouble when they learned that he intended to leave the capital for Nanking. The soldiers are everywhere looting from house to house. They have not spared even the foreign residences within one block of the legation quarter.

Fires were started in various sections and territory of more than a mile in area has been burned. This stretches from the Forbidden City to the building of the Chinese Foreign Board, where Yuan Shi Kai resides, the flames reaching within half a mile of the legation. The quarters occupied here to-night by Premier Yuan, who came here to notify Premier Yuan of his election as president, have been enveloped in flames.

Much reckless shooting has occurred, and one shell, which fell into the compound of the American legation, tore thru the tent of one of the soldiers of the recently-arrived reinforcements, but did not explode.

Willard D. Straight, ex-American consul-general at Mukden, and now the representative of a New York finan-

cial syndicate, is among the refugees at the American legation. His wife is with him.

The Chinese soldiers did not attempt to interfere with fleeing foreigners, but there was great danger from flying bullets and firebrands which were hurled in all directions. Mr. and Mrs. Straight saved their valuables, but deserted a richly furnished house, which was given over to the looters.

American Legation in Peril.

The American is the most exposed legation, lying outside the main quadrangle of the quarter. The American end of Legation-street is the only unoccupied section. The legation recently considered the advisability of putting up barricades, but not caring to excite Chinese suspicion, merely depended on sandbags and barbed wire, which has now been more effectively rearranged for defensive purposes.

The British legation is sending detachments thruout the city for the protection of British missions. The American commandant says the American missions are well supplied with rifles and are able to defend themselves. The Japanese is the only legation without frontage on the Chinese city. Therefore, the Japanese detachment is reinforcing the others and also doing special outpost service beyond the sandbags.

The Pekin garrison now numbers about two thousand, and it is not anticipated that the Chinese will attack the legations, their principal object being pillage. The sight of the soldiers along the legation walls illuminated the golden tiled roofs of the palaces and threw a glare upon the thousands crowding the streets and struggling among themselves for the loot which they were unable to carry away. As yet fires have not broken out within the Forbidden City, indicating that the Manchou troops are guarding the empress dowager and the emperor faithfully.

CENTRAL Y.M.C.A. PLANS ARE APPROVED

New Building on College St. Will Cost \$529,600 and Be Second to None in Canada—New Work and Additional Accommodation Means Further Finances Are Needed.

Plans for the new central building of the Y. M. C. A. were finally approved yesterday by the board of directors. The building will be located on College-street and extend thru to Grenville-street. The total cost of the whole enterprise will be \$529,600, and the association will use the amount to be derived from the campaign held in June, 1910, of \$300,000, and net proceeds from the sale of its old Yonge-street building, amounting to nearly \$230,000, after the paying of the mortgage which existed against the property. The new building will be entirely up-to-date in every particular and will class with anything of its kind on the continent. It will contain about two million cubic feet, the floor space being fully one-third larger than was originally planned.

The board of directors held its meeting in the office of E. R. Wood yesterday. Mr. Wood said the public should not be led to believe that the association had sufficient money to carry out all its projects.

"The friends of the Y.M.C.A. in this city should have their minds disabused of the idea that the association is in no need of further assistance from the community," said Mr. Wood. "While it is true that large buildings are in process of erection and under contract, this will involve liabilities for a larger and more far-reaching work, and instead of relieving the association of financial necessities, they will really add very materially to the budgets."

"It is no more possible to enlarge and expand such work as the association is doing without adding expense than it is to operate an industrial plant, which has twice the capacity, upon the same expenditure for wages and up-keep. We are confident that the increased output in the betterment of the lives of the boys will justify the large expenditures that we are making."

SUPERINTENDENT OF MIMICO SCHOOL ADMITS THAT BOYS WERE HANDCUFFED AND PUT ON BREAD AND WATER DIET

Features of Industrial School Investigation.

Superintendent Ferrier, in command of the institution, admits that The World's charges are "substantially correct." Punishment book is produced, showing a record of 365 registered whippings in as many days. Handcuffs worn by Wilbert Spain were produced and his story admitted to be true by superintendent. Boys tell of beatings at hands of superintendent and other officers. Straps are produced and identified by boys, who all told of handcuffs, "the walk" and other punishments. Superintendent declares that chains are the only way to restrain runaway children, while Dr. Bruce Smith declares that they are forbidden in asylums, even for the most violent maniacs.

Record Book Showed That One Whipping Had Been Administered Every Day For a Year, and Spain Boy Told That He Had Been Beaten While He Was Handcuffed to His Bed—Inquiry is Most Thorough and Continues Tuesday.

Superintendent Chester Ferrier of the Mimico Industrial School admitted before the commission appointed by the provincial government to probe into the administration of that institution at the school yesterday that all the charges published in The World against himself and that institution which gave rise to the investigation, were "substantially correct." He produced the punishment register of the school which is kept by order of the directory board and in which are entered all official whippings. This document showed that 365 whippings had been administered in 365 days, a whipping a day administered for one solid year.

The superintendent sat and listened while Mrs. Spain told of the sufferings of her boy, to the tale of sufferings told by boys who had come to consider it a wrong deserving of whipping to speak when silence was ordered or to write an unauthorized letter. He mentioned to a guard when one of the commissioners called for the production of the handcuffs which had been used to shackle the naked ankles of a child for more than thirty days. They were brought. One of them was locked and the guard produced a key to unlock it as a matter of course. The bread and water diet for children, in one case over a space of sixty days, was admitted and justified when asked.

INTERCOLONIAL HOLDS KEY TO NEW FAST STEAMSHIP LINE

Keenest of Rivalry Between C. P. R. and C.N.R. To Establish New Service Involves Securing Running Rights Over National Railway—Grand Trunk May Join in Co-operative Scheme.

OTTAWA, Feb. 29.—(Special.)—One of the most important issues now before the government concerns the contract that is likely to be made for a fast Atlantic service between Canada and Britain.

Very little has leaked out so far, but enough is known to say that there is rivalry for the honor of putting on a much improved service. These rivals are the Canadian Pacific and its new associate or partner, the Allan Line, and the Canadian Northern Railway.

But more than the rivalry of these two great corporations is at stake; it involves to a large extent the policy of the government in regard to the Intercolonial Railway.

Need Fast Railway Service.

This will be evident when it is known that in all likelihood the Canadian port is to be Halifax all the year round, and that the ships are to be of the latest class and of the highest speed. Therefore, how can the best railway service, in connection with the steamships, be provided to and from the Canadian cities, even with Chicago and other American cities, which may be likely to patronize this new fast Atlantic express which is to cross the ocean in not more than four and a half days, and perhaps within 100 hours?

Rupert Becket Was Crushed Between a King St. Car and Delivery Sleigh.

Rupert Becket, 7 Bartlett-ave., aged 15 years, is in a very critical condition at the General Hospital as the result of being crushed between a King-st. car and a delivery sleigh at Kentworth-ave., yesterday. The lad's skull is fractured, and it is very doubtful whether he will recover.

First Leap Year Baby

The first coupon in the Leap-Year Mug award to arrive in the office was sent in by Mr. and Mrs. Edwin W. Smith, at Stop 27, Kingston-road, East Toronto. It records the birth of their daughter, Edith Evelyn, yesterday morning at 7.20. Miss Smith will have the honor of receiving the first World's Leap-Year Mug.

Other babies born yesterday, of which notifications have been received by The World, are a son to Mr. and Mrs. Driscoll, 467 East Gerrard-street; a daughter to Mr. and Mrs. Geo. F. Duthie; a daughter to Mr. and Mrs. Walter Lewis, 88 Manning-avenue.

BERLIN, Ont., Feb. 29.—(Special.)—The "stork express" brought a leap-year boy and girl to this city to-day who will qualify for The World's silver mugs.

MORE TO THE FRONT, PLEASE.

Jaff, Toronto:

Florida: All the people down here are the cream of America. They come to escape the rigors of the February north. They are avoiding the cold, the crowded streets, the blocked streets, the hyperborean conditions. That's why me also, as the French say. And most of these people have motors so they do not dread the crowded street car or the double fare. No, also, I sympathize with my dear subscribers who have to pay two fares and hold straps, but let them bear things patiently and some day they may come to Florida. But it's absurd for them to think of having a right to vote for tubes, rods, or single fares. Property will do that. Let them leave their case with and put their trust in Property. If they do not care to do this, let them "me down here." It's only \$50 per.

I intend to devote the main portion of my time, when I return (about the time of the apple blossoms), to historic research concerning Little York. Nothing will do so much for the civic and moral uplift of my fellow citizens as to tell them who bought the various lots that made up Wee York, and how much profit was made on each handling. These works of mine will be issued in book form and will cheer the hearts of the lonely stragglers. They will be \$5 per.

I'm surprised how these towns and settlements here are spread out. They haven't got the dear congested form of our Little York.

John.

I'd ride in Mr. Pimm's castr, but it's impossible hangin' on to the fine straps he has gin for the public. If the people'd live up clean, they'd hae na use for castr. They should live in houses and ride in castr like spines. In Scotland we hae na need to spae four' the yie bed. When's the big feck to be here?

"Salaries and Wages" Reach Large Amount

It Costs \$2361 to Care for 32 Men and \$4749 to Look After 99 Women at Belmont St. Home in Addition to Maintenance.

"How is this for salaries in one of Toronto's charities?" said a well-known and earnest church worker yesterday. Then he handed The World the last balance sheet of the Aged Women's and Aged Men's Home on Belmont-street.

"To take care of the 32 aged men the salaries and wages item is \$2361.53."

"To take care of the 99 aged women the salaries and wages item is nearly five thousand, viz., \$4749.77."

The industrial department in which 74 girls are looked after runs a laundry which earned \$472.

While the laundry receipts were \$4472 about half went in salaries and wages, namely \$2662.

The institutions received Ontario government grants separately for the industrial department \$4472, aged women \$2824, and aged men \$3845.22. Besides civic grants for each.

The institution is one of those to be reported upon by the Charities Commission.

With the big laundry business, government and civic grants, the question is being asked, why does the institution have collectors going thru the city soliciting personal subscriptions?

Light on the three lists of salaries in one institution are also being asked for by some who have been solicited for contributions.

Bowling League Scores, Curling Friendly Games, Racing On Two Tracks

Note and Comment

Not having the necessary pastebords and fearful of being turned down at the door, and further being unwilling, like nearly everyone else, to separate ourselves from any portion of a buck to gain admission, this paper was not represented at the racing bout advertised in the evening papers...

However, in order to give readers an idea as to what the show was like, telephone our friends at the Agnes-street police station, immediately opposite the scene of combat. In the absence of Inspector Cudd, Calgary's chief-elect, the sergeant in charge promptly phones the information that he had been present, of course, in the interest of law and order, and to put it in his own words, it was a very tame affair...

One of the combatants again, according to the announcement referred to above, was your old friend Paddy Galvin, who visited Toronto originally as the boxing champion of Ireland. He was the trainer for Matty Matthews when the latter boxed and lost the welterweight championship of the world to Rube Ferns in the Mutual-street rink. A couple of weeks later Galvin boxed Al Weins of Buffalo, winning on a foul.

The other contestant last night was one more returning to the arena, the coming heavyweight wrestler of this world, big name, Ole Ekstrom, returning back to Pat Galvin, who was in Toronto last winter, also doing a wrestling turn. Then he was asked about the tricks resorted to in the game. Pat told us about the very things that are suspected and which at this writing it would be indelicate to mention, but you can make a pretty correct guess, yourself.

And we may never see Mike Gibson perform in any more, and it is to what an eastern writer says of the welterweight, who, however, is a mid-dleweight. There is a clamor to see Jack Dempsey and Mike Gibson fight again. The club that gets the bout will get the dough, but the result is in now Gibson's hands.

Some of the New York sporting writers who were inclined to think that Mike Gibson was a middleweight are now giving him at least some praise. Gibson, taking his work for just what it is worth, and nothing more, is the greatest fighter of his weight that has shown in years. He is as good as Tommy Ryan, and further praise is unnecessary. Mike is a find and it is a pleasure to him peer-ferm. He is more alluring even than Puckey MacFarland—and he has a punch besides. Dempsey are trying to pick out one to beat Mike. But that man isn't in sight—no yet.

There is at least one heavyweight bout in sight worth watching. Arrangements have been clinched for the 30-round fight between Bombardier Weis, the English heavyweight champion, and Albert Palmer of Iowa, in San Francisco on July 4. Tom O'Rourke acting for Palmer, accepted Promoter Edward Grady's offer two weeks ago, and Weis cabled that every condition named by Grady had O'Rourke would be satisfactory.

In all probability there will be but one spring race meeting at Louisville, and that will be at Churchill Downs. Word was received from General Manager Watt Winn that it has practically been decided not to ask for a division of racing dates this spring, and Douglas Park will get the fall meeting. The State Racing Commission is expected to meet about March 15 to assign the dates. It is understood Lexington will ask for 10 days. It is likely Louisville will want 18 days, following Lexington, and Latonia 30 days.

Canadiens Will Spend Record Sum On Lacrosse Team

MONTREAL, Feb. 28.—A special emergency meeting of the Club Canadian Athletique was held to discuss prospects of signing up players for the team entered in the Big Four Lacrosse League, and Mr. George Kennedy was empowered to spend, if necessary, a sum of \$20,000 to secure a team capable of holding its own against the other organizations.

The directors of the east end organization endorsed the arrangements made by their manager, and evidently realized that they must place a winning team in the field during the summer.

They figured out that even if they lose on the first season's working, they will break even, as they value the franchise at this figure, and as Mr. Hector Bleasdale said, we would have been prepared to pay this amount anyway to break into lacrosse, so can afford to lose it to provide a winning team.

What looks to be the final game of the Public Utilities Hockey League will be played tonight (Friday), at the Excelsior rink, starting at 8:30 between the Montreal and Toronto teams, who are the champions, while if Hydro land the game the league will be tied up.

McMaster College, winners of the western group of the Intercollegiate Hockey League, will meet R.M.A., winners of the eastern group, at the Excelsior rink on Monday night. The teams will play home and home games, total score to count.

On Saturday afternoon at 3 o'clock at the Excelsior rink varsity III, winners of the western junior section of the Intercollegiate Hockey Union, will play Kingston Collegiate institute, winners of the eastern group. The teams will play home and home games, total score to count.

It has been arranged by the O.H.A. to send down the Preston intermediate champions to meet any Canadian champion team of the best amateur team available in or around New York. No dates or opponents for Preston have been arranged as yet.

On Wednesday, Feb. 28, the employees of Geo. Mathewson, 784 East Queen-street, were entertained at the home of Mr. Mathewson, 46 Hogart-avenue. Some 20 employees of the firm spent an enjoyable evening, consisting of progressive euchre and a supper. The winners were the colors decorated in red and grey.

Athenaeum Pair Spill Pins for Good Total

Karrys and Sutherland Gather 2100 Total for Five Games in City Two-Man League.

On the Athenaeum alleys yesterday afternoon the Athenaeum gave a great exhibition of bowling when they hooked up with the Dominion in a City Two-Man League fixture.

Both Karrys and Sutherland were in fine form, collared between them and breaking the former record of 3000. Sutherland rolled 1677 while Karrys got 1002, and with such a couple they lost the first game by 5 pins with a 436 Atheneum. The scores:

SERVICE MARSHAL

Best Authority on Agriculture
in Ontario, Who Was Deputy-
Minister for Twenty Years,
Severed His Connection With
the Province Yesterday.

After 28 years' connection with the
department of agriculture, 20 years of
which he was deputy minister, C. C.
James, C.M.G., has taken his official de-
parture from Queen's Park. As a mark
of esteem, the staff of the department
with whom he has been so long asso-
ciated, as well as representatives from
the staff of the O.A.C., at Guelph, in-
vited Mr. James into Hon. Mr. Duff's
office yesterday, and presented him
with a gold watch and chain and en-
graved locket.

Mr. James was also the recipient of a
handsome dressing set, including dia-
mond and pearl cuff links, the gift of
district representatives of the depart-
ment of agriculture.

The valuable work that Mr. James
had done for the province was set forth
in a short address of appreciation, as
well as of regret, at his departure, by
Hon. James Duff, President Creelman
of the O. A. C., J. Lockie Wilson and
Frank Hains.

Mr. James, in reply, thanked every-
body for the unmistakable marks of
kindness shown him and for the friendly
words spoken. He intended to take
a month's holiday before commencing
his duties as commissioner for the fed-
eral minister of agriculture. That he
would always have the interests of the
Province of Ontario at heart and that
he would do every thing in his power
to secure as large a grant as possible
for the aid of the province was the
closing purport of Mr. James' remarks.

Land-Surveyors Say Lines to
Claims Conflict, But Pro-
posals of Minister Are
Not Favored.

Following the installation of officers,
the three-day convention of the On-
tario Land Surveyors was terminated
yesterday afternoon in the Engineers'
Club, 85 West King-st. The members
passed a resolution asking for a clearer
and better interpretation of the Mining
Act. Different instances were cited by
delegates where the lines of mining
claims conflict, and the men making the
survey did not make a full report of the
facts, in accordance with the mining
regulations. The meeting did not want
the minister of mines to present a plan
on the matter, as he and several
others propose doing. This act would
make it impossible for a surveyor to
measure a claim until he had received a
permit from the mines department,
and the convention was not of the
opinion that this was the best way out
of the difficulty. According to some of
the members a great many men staked
the same claims, and when a survey
was attempted it was extremely diffi-
cult to get a plan of the former survey
made by the first surveyor.

INTERCOLONIAL RAILS KEY

Continued From Page 1.

John N. B., and probably to Montreal.
The new fast line will therefore be a
great feeder to the Montreal line.
The Mackenzie interests, while they at
one time desired to get control of the
intercolonial, are willing now to spend
\$20,000,000 to build a line from Halifax
to St. John, and to give the intercol-
onial the railway business.

The Canadian Pacific are willing to
build as good a line on the coast as
and put the ships on the route within
a year if they can get what they've
long desired—running rights for their
trains over the intercolonial railway
from Halifax to St. John, and then
over their own rails thru New Brun-
swick to Montreal. This is
the offer that the intercolonial
where the government must decide.

Radial Lines to Go Northward From
Waterloo Under 25 Year Franchise.

BERLIN, Feb. 23.—(Special).—An
enthusiastic meeting at which were rep-
resentatives from Elmira, Woolwich Town-
ship, Waterloo and Berlin was held
at the city hall here to-day. The pur-
pose of the meeting was to discuss
better railway facilities northward
from Waterloo.

As a result a strong committee was
appointed to wait on President Todd
of the Great Western Railway, and
Street Railway System with a request
that his company extend its electric
road northward to Elmira and Water-
loo. It was intimated that the Pres-
ton road would extend their lines
northward if they could secure run-
ning rights in the three roads. The
five year franchise over the Berlin and
Waterloo line now owned by this city.
The twin cities are anxious to secure
the extension of railway in course of
construction west of Lake Superior.

The government bill to amend the In-
quiries Act relating to investigations
by royal commissions was given third
reading and now stands for royal as-
sent.

ATLANTIC CITY HOTELS

Marlborough-Blenheim

ALWAYS OPEN. ATLANTIC CITY, N. J. CAPACITY 1100.

This house, which would be one of the notable attractions if located
in New York, London or Paris, has aided materially in creating Atlantic
City's great, all year season. The mild climate, southern exposure and
bracing, dry sea air combine with the open plaza and salt-water overlooking
the ocean to insure the comfort and enjoyment of the guests.

THE EXQUISITE MUSIC.
always a feature, seems to be more than ever appreciated. Only solo
artists of note appear.

THE WHITE SERVICE.
used exclusively in all four dining-rooms (both American and European
plans), is most satisfactory.

THE HOT AND COLD SEA WATER BATHS
in all private bathrooms (of which there are over 400), besides being most
delicious and invigorating, have great therapeutic value. The water is
pumped directly out of the ocean and contains all the curative agents for
rheumatic and other troubles.

THE PURE CRYSTAL WATER
from our private artesian wells, 350 feet deep and flowing 200 gallons per
minute (pure and free from overabundance of mineral salts), is used through-
out the house for drinking and ice-making and all other purposes.

THE ROLLING CHAIRS
and Atlantic City's famous seven-mile Boardwalk along the Ocean's brink
afford an outdoor recreation for old and young, sick and strong, in both
clear and stormy weather, unequalled elsewhere in the world. Fine streets
and good roads, make good motoring and horseback riding, and the best
all-year lines in America makes golf a pleasure at all times. The Theatres
and Piers are in full operation.

Mineral Markets Show Decidedly Improved Tone

Porcupine Stocks Are Firmer But Trading is Still Dull

Hollinger Scores an Advance and Carries Whole List in its Wake—Cobalt Comparatively Unchanged.

World Office, Thursday Evening, Feb. 23. Porcupine stocks were quiet but in the main slightly firmer in to-day's session of the mining exchanges. The market showed very little initiative throughout the session, but a fairly responsive buying demand was in evidence and this sufficed to carry prices higher in some instances.

What was taken to be short covering in Hollinger carried the price of that stock to over \$11 again today, and all the close bids were only slightly higher than that level. Rest on the other hand failed to register any advance, the shares were quiet down to \$1.2. Porcupine Central and Porcupine Southern were especially strong points, with an advance shown in each.

COBALT LAKE HAD SUCCESSFUL YEAR

The annual meeting of the Cobalt Lake Mining Company, Limited, shareholders was held yesterday at noon in the Traders Bank Building. The president's report was highly gratifying and was received with acclamation. The financial statement showed a debit balance of \$22,000 at the end of 1910 had been replaced with a credit balance of \$80,247, and in addition the company had created a concentration of \$1,000,000.

GOLD CREST MINES PLAN ACTIVE WORK

The Gold Crest Mines Co., Ltd., owing what was formerly the Clark Syndicate property, located in the north-western section of Whitney, is preparing for extensive and energetic development work. The company has recently purchased a complete outfit and a full equipment of supplies.

UNITED PORCUPINE TO BORROW \$25,000

At a recent meeting of the United Porcupine Gold Mines, Ltd., the shareholders authorized the directors to borrow the sum of \$25,000 in order to provide funds to carry on development work this spring and summer. It is proposed to raise the money on a promissory note bearing 8 per cent. interest, and it is understood that the inside interests have already arranged to advance the amount next month.

LARDER LAKE NEAR PRODUCTION STAGE

Porcupine, Feb. 23.—(From Our Man Up North.)—Larder Lake district will soon rebound with the rhythmic music of the pounding of 70 stamps. The Dr. Reddick Mines will soon have 20 in line, with 16 now running. Harry Staxwell reports 10 nearly ready, while the Goldfields Limited are installing 40. A water-power plant is being built on a river with a good fall, and from this plant power will be secured.

WEST DOME CO. WILL ISSUE MORE STOCK

A special general meeting of the shareholders of the West Dome Mines, Ltd., of Porcupine, has been called for Saturday, March 3, for the purpose of authorizing a dividend of \$1.00 per share, and for the purpose of authorizing the company to allot and issue such amount of its authorized capital stock, or any part thereof, at 75 cents a share, in order to provide funds to carry on development work at the property.

Improved Conditions in Porcupine.

Porcupine, Feb. 23.—(From Our Man Up North.)—The winter in the camp this spring and summer will not be held accommodations vastly improved over a year ago. Elaborate preparations are already under way to take care of the big travel to the north, which business men optimistically see already in the distance. Chas. Fox.

Porcupine Claims Taken on Option

Porcupine, Feb. 23.—(From Our Man Up North.)—Two deals of importance are announced in the camp this week. Although the prices offered are high, yet the terms are said to be very much more favorable than was the rule last winter when buyers were on the ground in competitive bidding for gold prospects.

The Lindsay properties in the Lower Nighthawk Lake district are under option to a company for \$250,000. The option is taken up, and it is said that there is every probability that it will, that section of the district will come prominently before the public after a temporary lull. Lots in the southern Nighthawk section have been lately purchased.

The second deal is on lots in the western section and calls for a price of \$300,000. It is understood that work is to proceed in this case at once. Compared with February of last year, no two deals of the size and prominence as those closed last week were recorded, even in the hey-time of gold excitement. Chas. Fox.

Much Activity in Outlying Sections

Porcupine, Feb. 23.—(From Our Man Up North.)—The district has been laboring increases. Last week 200 extra men were engaged for assessment labor on lots where the third year's work must be filed not later than March 15.

Those interested in Deloro and Ogden townships apparently had the taking care of assessment duties to perfect titles. Turnbull, Caracellan, Price, McArthur, Langmuir and Carman are also names of prominent outlying districts. That the third year's work is being performed in so many lots in a dozen or more townships is a strong indication of the faith retained by owners in the Porcupine outlying districts. There are those who accept the situation as it stands now as meaning that an active summer in lot dealing confronts the camp. Chas. Fox.

HOLLINGER SECTION IS GROWING RAPIDLY

Porcupine, Feb. 23.—(From Our Man Up North.)—The district has been laboring increases. Last week 200 extra men were engaged for assessment labor on lots where the third year's work must be filed not later than March 15.

BIG COAL STRIKE AFFECTS COTTON

Wheat Market Closed Lower After an Early Bulge in Prices

Estimated Farm Reserves Raised to Higher Aggregate—Profit-taking Checks the Advance—Corn and Oats Higher.

CHICAGO, Feb. 22.—Discovery that an error of 20,000,000 bushels or more had been made in computing farm reserves, caused a sharp break to-day in the price of wheat. The close was a full cent up under the top point of the session and 1/4 to 3/8 below last night. Latest trading left corn at an advance of 3/4 to 5/8, and oats varying from 1/4 down to 3/8 up. In provisions the final range stretched from 25 cents to a gain of 7 1/2.

Heavy commission house selling of wheat preceded the corrected report of the estimated amount of reserves held on farms. It developed that the statistician originally responsible for the sensational figures which yesterday stirred up the grain trade of the world, had found on checking over his data, a mistake of 20,000,000 bushels and 25,000,000 bushels. This meant that the reserves should be 120,000,000 to 125,000,000, instead of 80,000,000 bushels. In a few minutes all the fresh advance since last night faded away.

Cash Corn Heavily Bought. Attention in the corn crowd centered chiefly on the fact that the July delivery had passed the May in the strongest swell of the year and remained at a premium. Both months touched a new high level for the crop. Cash corn was the rock under the speculative market, elevator people and shippers being active buyers. Receipts were light and continued to show poor quality. May fluctuated from 69 1/2 to 69 3/4, closing 69 1/2 because of sales to realize, but 3/8 higher than last night. Cash grades were firm.

It was a nervous, irregular market in oats. Cash houses were buyers, but on the ensuing advance, commission concerns sold in a decidedly free manner. Arrivals showed some increase. In the provision pit foreigners buying large amounts of lard offset to a considerable extent the influence of the hog run being larger than expected. After trading ceased, pork and ribs were unchanged to 5c down, but lard 2 1/2 to 7 1/2 up.

Northwest Receipts.
Receipts of wheat in cars at primary centres were as follows: Week Year
To-day, a. g. o. a. g. o.
Duluth 130 121
Minneapolis 130 121
Winnipeg 118 147
Chicago 82 82
Holiday a week ago.

European Markets.
The Liverpool market closed to-day on wheat, 4d to 1/2 higher than yesterday, and corn 1/2 higher. Paris unchanged to 1c lower. Antwerp unchanged, Berlin 1/2 higher and Budapest 1/2c lower.

Winnipeg Inspection.

CHICAGO GOSSIP

Error in Trade Report Creates Ill-Feeling—Market Nervous.

J. P. Bjorkell & Co. from Logan & Bryan.

Wheat—Some unexpected developments were reported in wheat both early and late to-day. Back of the excited buying was the scare in the trade started by the very low estimates on farm reserves given out to private authority yesterday. There was heavy selling of wheat on a general market the first hour, and breaks in May prices were close to 100. The unfortunate error resulted in much bad feeling in the trade. There was less action in the July price.

Erickson Perkins & Co. (J. G. Beatty) wired the following:

Wheat—The market opened steady and ruled strong during the early part of the session with further covering by views, sales of several loads were made for May-June shipment. Locally the trade in oats continues fairly active, but other lines of coarse grains are quiet. Flour is firm under a good demand for local and country account. Demand for bran and shorts is good. The trade in hogs strong. The market advanced to a temporary recovery.

MONTREAL PRODUCE.

MONTREAL, Feb. 22.—There was an increased demand from foreign buyers for Manitoba spring wheat at an advance in prices of 3d to 4 1/2d per quarter, and this, with the decline in the Winnipeg market, enabled exporters to do some business for May-June shipment. The demand from London for oats was fairly good and as prices were in line with exporters' views, sales of several loads were made for May-June shipment. Locally the trade in oats continues fairly active, but other lines of coarse grains are quiet. Flour is firm under a good demand for local and country account. Demand for bran and shorts is good. The trade in hogs strong. The market advanced to a temporary recovery.

CHICAGO GOSSIP

J. P. Bjorkell & Co. from Logan & Bryan.

Wheat—Some unexpected developments were reported in wheat both early and late to-day. Back of the excited buying was the scare in the trade started by the very low estimates on farm reserves given out to private authority yesterday. There was heavy selling of wheat on a general market the first hour, and breaks in May prices were close to 100. The unfortunate error resulted in much bad feeling in the trade. There was less action in the July price.

Erickson Perkins & Co. (J. G. Beatty) wired the following:

Wheat—The market opened steady and ruled strong during the early part of the session with further covering by views, sales of several loads were made for May-June shipment. Locally the trade in oats continues fairly active, but other lines of coarse grains are quiet. Flour is firm under a good demand for local and country account. Demand for bran and shorts is good. The trade in hogs strong. The market advanced to a temporary recovery.

MONTREAL PRODUCE.

MONTREAL, Feb. 22.—There was an increased demand from foreign buyers for Manitoba spring wheat at an advance in prices of 3d to 4 1/2d per quarter, and this, with the decline in the Winnipeg market, enabled exporters to do some business for May-June shipment. The demand from London for oats was fairly good and as prices were in line with exporters' views, sales of several loads were made for May-June shipment. Locally the trade in oats continues fairly active, but other lines of coarse grains are quiet. Flour is firm under a good demand for local and country account. Demand for bran and shorts is good. The trade in hogs strong. The market advanced to a temporary recovery.

QUEBEC RAILWAY UP IN MONTREAL MARKET

Sharp Rally on Incoming of New Demand—General List Holds About Unchanged.

Wall Street Awaits Result Of British Labor Difficulty

Stock Market Moves in Narrow Range and Records No Material Change—Sentiment Is Variable.

NEW YORK, Feb. 29.—Irregularity and dullness were again the dominant features of the stock market to-day until well into the afternoon, when prices of the speculative favorites moved upward decisively under the lead of Amalgamated Copper, which reached a new high level for the present movement.

Conflicting Factors. Domestic news of a varied character, embracing the reply of the federal government to the answer of the U. S. Steel Corporation, which the department of justice was quoted as regarding "insufficient"; renewal of negotiations looking to a voluntary dissolution of the International Harvester Co. greater firmness in the copper market, conflicting reports as to the condition of the steel and iron trade, and a mass of railroad earnings, some of which threw an interesting light on the operation of the more important transportation companies for the first month of the year.

New Financing. There were rumors of some more financing for the coming month, some of which will probably take the form of the short term notes. The total output of new securities for February was about \$30,000,000, which is somewhat in excess of the same month last year, but about \$100,000,000 of the total issues of the month immediately preceding.

London Market In Unsettled State

LONDON, Feb. 29.—Money and discount rates were unchanged, and settlement was concluded without trouble on the stock exchange, but the tone of the market was unsettled and prices declined on the coal strike, home railroads and consols leading the downward movement.

U.S. Steel Outlook Is More Favorable

Income business of U. S. Steel continues satisfactory. Orders are coming in at rate of about \$6,000,000 a day, which is equal to shipments. This would seem to indicate that if there is reduction in unfilled orders in current month it will be small.

Bank of England Statement. LONDON, Feb. 29.—The weekly Bank of England statement compares as follows with that of a year ago:

Wall Street Pointers. London Bank rate unchanged. Erie to sell \$10,000,000 five per cent. notes to complete double-tracking Chicago to New York.

European Bourses. BERLIN, Feb. 29.—Prices improved on the hours of trading, home railroads and consols were quiet on the bourse to-day.

New Insurance President. The directors of the North American Life Assurance Company have elected Mr. Edward Gurney president, and Mr. L. Goldman, managing director, vice-president. No other changes were made in the directorate.

Gold to South America. NEW YORK, Feb. 29.—National City Bank is shipping \$500,000 gold coin to Argentina on March 2.

DEPARTMENT STORE IS COINING MONEY

One of the champion dividend payers in London is Harrold's, the famous department store. The dividend for the year ended Jan. 31, 1912, amounted to £27,214 8s, over a million dollars, and the dividend was paid in the form of a 15 per cent. bonus of 9 per cent. on the ordinary shares, which, together with the interim dividend, makes a total distribution for the year of 23 per cent.

BIGGER DIVIDEND PAID BY BANK B.N.A.

The directors of the Bank of British North America announce a further dividend of 4s and a bonus of 10s per share, less income tax, making 8 per cent. for the past year, transferring to the reserve account and carrying forward about £18,000. For each of the five preceding years the dividends amounted to 7 per cent., but were paid free of income tax.

Bank Clearings Are Soaring Again

Bank clearings in Toronto continue to soar, the total for the first two months of the year being some \$60,000,000 ahead of the similar period of 1911. For the month of February clearings were \$30,000,000 more than the month last year. The following table shows the February expansion in recent years:

RAILWAY EARNINGS SHOW UP POORLY. The January earnings of the Hartman railroads, and Southern Pacific, which were made public yesterday, and as had been anticipated, showed big decreases for the month.

PROVEN INDUSTRIAL BONDS To yield from 5 1/2% to 6%.

PUBLIC UTILITY BONDS To yield from 4 1/2% to 5%.

RAILROAD EARNINGS SHOW UP POORLY. The January earnings of the Hartman railroads, and Southern Pacific, which were made public yesterday, and as had been anticipated, showed big decreases for the month.

PROVEN INDUSTRIAL BONDS To yield from 5 1/2% to 6%.

PUBLIC UTILITY BONDS To yield from 4 1/2% to 5%.
