centre of interest for a time at least was the flying rehearsal staged by Col. Barker and two other aviators. They flew German Fokkers and there was little in the known tricks of the air that the three daring aviators did not do during the afternoon. They looped, side-slipped, spiraled, rode in all battle formations and generally gave the spectators a wonderful thrill. The same program will be repeated each day during the exhibition.

Col. Bishop is at present on his way back from England, but on his return will join Col. Barker in daily flights. There will be at least three machines in the air every day, all enemy aircraft.

OWES HER LIFE TO "FRUIT-A-TIVES"

The Wonderful Medicine, Made From Fruit Juices and Valuable Tonics.

MADAME ROSINA FOISZ.

29 St. Rose St. Montreal.

I am writing you to tell you that I owe my life to "Fruit-a-tives." This medicine relieved me when I had given up hope of ever being well.

I was a terrible sufferer from dyspepsia—had suffered for years, and nothing I took did me any good.

I read about "Fruit-a-tives," and tried them. After taking a few boxes I am now entirely well. You have my permission to publish this letter, as I hope it will persuade other sufferers from dyspepsia to take "Fruit-a-tives" and get well.

MADAME ROSINA FOISZ.

"Fruit-a-tives" is the only medicine in the world made from fruits. It costs 50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives, Limited, Ottawa.

disabled soldiers. No tragedy drama on the street corners for them.

Happy boys who have limped back to Canada may be seen at the Exhibition in the process building (just next north of Exhibition headquarters building).

The badly wounded in France or Belgium, they are showing themselves to be real men still, in peace. They are fitting out to learn a living at a new trade—the old one no longer of use.

The ladies will be simply charmed with the wonderful display of soldier work from the hospitals, the largest collection yet, and in quality not surpassed. Sales are held daily at noon.

Each pretty article attired in some soldier's uniform, and the money it brings goes back to him—no doubt to act as a tonic too.

Watch for the sign: "Department of Soldiers' Civil Re-establishment."

EXHIBITION ILLUSTRATED.

This magnificent 52-page magazine, the Victory Year Souvenir Number, commemorating the visit of His Majesty King George VI to Canada, is now on sale at the Exhibition. It is a valuable guide to the Exhibition and contains a wealth of information and news. It is available for 25 cents per copy. Help boost Toronto and great exhibition by mailing extra copies to your friends.

MOULDERS STAND FIRM.

Unanimously rejecting an offer of 70 cents an hour and a 48-hour week made by the foundry employers, the moulders' section of the metal trades council are determined to stand firm for their original demand of 75 cents an hour and a 44-hour week. The moulders have received \$300 from the minor contributions from other outside points.

ON SERIOUS CHARGE.

On a serious charge Loney White of Niagara Falls, Ont., was arrested last night by Detective-Sergeants Elliott and Croome. White is alleged to have brought two young girls here, one of whom was under sixteen years of age.

"THIRD" TO PICNIC.

Veterans of the 2nd Battalion and their friends and families will hold a field day and picnic in High Park near the Bloor street entrance, at 2:30 o'clock this afternoon.

ACCIDENTAL DEATH.

Accidental death was the verdict presented to Coroner Dr. Clendenan at the inquest last night at the inquest touching the death of Mary Mellish, killed by a motor car on August 18. Samuel Medis was in charge of the automobile at the time of the accident.

WARD FOUR HEARS NESBITT TROUCE TORY MINISTRY

About Time to Get Out and Hustle, Says the Alderman.

The meeting held by Ward Four Conservative Association at the Albion Hall, Spadina avenue, last night could hardly be termed a party for girls. What the meeting lacked in numbers—there were not more than 50 people present—it made up in energy, for the verbal attacks made on the party leaders and the lack of enterprise in the party generally were not smoothed over by words, but went direct to the point in so measured language.

Almost immediately on T. Leister, the president of the association, taking the chair the fireworks commenced. James Hazalok, a prominent Conservative in the district, rose and wanted to know what Mr. Leister meant by going to Scarborough Beach Park on Wednesday and saying that ward four were behind the nomination of Colonel Kelly Evans for the candidature in Northeast Toronto. He wanted to know who gave him authority to make such a statement.

Mr. Leister said he had not pledged Ward Four Association, but had said that he felt sure the ward would be behind the nomination of Mr. Kelly Evans.

This explanation was not to Mr. Hazalok's liking, and he said he wanted a more satisfactory answer before he as a member of Ward Four Association would pledge himself to support a "tin pot soldier."

In some heat Colonel Kelly Evans rose and demanded to be heard. He was, however, shouted down and told his turn to speak would come in due time. After a few more "compliments" had been handed out, Ald. E. Nesbitt caught the chairman's eye, and without any reference to the late words war commenced a spirited attack on the members of the Hearst cabinet.

He said he was speaking as a good Tory to Tory ministers, and it was time for some of these ministers instead of going out and playing golf in white trousers and sending mere boys to address party meetings, did something to help the party which was in power. It was time some of them got off their seats and started something that the party would be proud to have. There were one or two good ministers at Queen's Park, but the remainder did not seem inclined to help the party, and he said he would not get out and do something "Why don't they keep the party alive?" (Cheers).

Colonel Kelly Evans, who met with a fair reception, was the next speaker. He hotly denied the charge of being a "tin pot soldier" and the charge of tracing his every action during the war to the records of his doings and work for the soldiers, and he said he would draw up a list of his doings and work for the soldiers and help to remove a lot of the misunderstanding that was created at the commencement of the meeting. The colonel went on to say that the meeting that they were not going to have an easy election fight, and he said that many of the Tories, who would come home to roost before they were proved untrue to the public, some of them did not get out in their constituencies and do some spade work. The party was not so secure today as in the time of Whitney. Out of doors they must all put on a cocoon air, but he told the meeting so their face that the party had serious times ahead. The coming election would be no child's play and no walk-over for the Tory party. The farmers were choosing their own candidates and conditions were no altering that no man could read them correctly. He hoped to win Northeast Toronto if he was selected, and he asked the meeting to give him a fair chance to meet the electors at a big meeting. (Cheers).

On the conclusion of the colonel's speech, James Hazalok withdrew his remarks about tin pot soldier and said that when he made it he was not aware of the colonel's record. He was in favor of Northeast Toronto giving a returned soldier as candidate.

J. M. Skelton and Mr. Lodge, secretary, West York Conservative Association, also addressed the meeting.

BADGES OPTIONAL.

At a conference between General Gunn and Secretary Geo. A. Gustar, of West Toronto G. W. V. A., a misunderstanding on the part of what war badges may be worn by the Prince's guard of honor, was cleared up. The general explained that regulation service dress did not include either war service badges or G. W. V. A. buttons. At the same time the general wished to get out against that no positive order had been issued. It is now left for each man to decide whether he will wear his badges or not.

SECRETARY NOT YET LOCATED.

S. P. Stratton, late secretary of the Riverdale branch G. W. V. A., who it is said, disappeared from the city at the time \$1,000 of the funds of the branch were discovered to be missing, has not yet been located according to the statement of J. E. Smith, a member of the investigating committee.

When last heard from Stratton was in Detroit.

EAST TORONTO TO SEEK CHARTER

Branch Strong Enough to Stand Alone—Housing Commission Condemned.

At a well attended meeting of the East Toronto branch G. W. V. A. held in Snell's Hall, Main street, last night, Geo. D'Arcy, president, in the chair, it was unanimously decided to apply to the Dominion executive for a charter owing to the rapid growth of the branch and its vitality. It is by the members that the East Toronto organization can stand upon its own feet. A committee composed of five members was appointed to look after the welfare of the members and soldiers' widows in the district with coal during the coming winter. The following were appointed: Comdr. H. Harris, W. Hartley, Dobson, Johnson and Stamp.

An amusements committee was also appointed as follows: Comdr. Parnell, Baker, Hall, Taylor, Kimmner, Hulce and Padden.

D. Monour of the Riverdale branch, the speaker of the evening, dwelt at length on many topics of interest to the members. He asserted that the paid officials of the organization should look tenaciously after the widows and orphans and demand that they get sufficient sustenance. "The government," declared the speaker, "has not yet taken the responsibility of the orphans and this should be insisted upon." The King of England said recently that poverty in England must be banished. "If the King were in Toronto he would certainly get after Dr. Noble."

Soldiers Not Trusted.

Proceeding to the speaker paid a tribute to President R. J. Roberts of the Riverdale branch for his firm stand with regard to the club houses. He said that the speaker had made up of the committee connected with this matter, consisting of nine civilians and only five veterans. "We are not to be deceived by the people for whom we went overseas and for whom hosts of our number gave up their lives," Mr. Monour also severely criticized the press for what he claimed were garbled reports and misleading statements concerning the G. W. V. A. also severely criticized the Toronto housing commission as the greatest farce ever put over the returned men. "The veterans do not want to buy the houses of Coxwell and \$4800 each, they want a cheap house to rent." Concluding he emphasized the growing strength of the organization and the need for a Toronto housing commission as the greatest farce ever put over the returned men. "The veterans do not want to buy the houses of Coxwell and \$4800 each, they want a cheap house to rent." Concluding he emphasized the growing strength of the organization and the need for a Toronto housing commission as the greatest farce ever put over the returned men.

Fourteen new members were initiated.

FOX FILM PREFERRED TO LOCAL VETERANS.

W. J. Carmichael, organizer of the G.A.C., will investigate the administration of Massey Hall. He stated that Toronto veterans are indignant that the hall should be rented to American film rather than to a local body of returned soldiers. The G.A.C. wish to rent the hall for a boxing assembly and the entertainment of the Prince of Wales, new honorary president of the association. Massey Hall has been rented to the Fox Film Co. of New York. When approached by the veterans who explained their request for the hall, it is alleged that the G.A.C. were told that the film company said: "We don't care for soldiers or anybody else, we have the hall and won't let it go." An attempt to arrange a boxing tournament whereby the hall could be used was also unsuccessful.

G. W. V. A. REQUEST OBTAINS NO HEARING.

At the board of control meeting yesterday, the request of the G. W. V. A. asking the city to help in furnishing a tent for the exhibition at the Exhibition was a real place for veterans. It was stated that the tent would be \$370.

Control Mr. McEwen strongly opposed it, declaring that the meeting had been called for a special purpose. The application, he said, was out of order and no action was taken by the board.

S. A. INVITES SOLDIERS.

Returned soldiers, their families and the number of about 300, will picnic today in High Park, near the Bloor street entrance, as guests of the Dovercourt corps of the Salvation Army. The picnic has been scheduled for 1:30 p.m., when a series of games and sports will begin. At 5 o'clock, tea will be served to all the guests.

Special provision has been made by the Dovercourt corps to make this a big and successful event, and provided good weather prevails, a large turnout and a good time is anticipated.

Motor Efficiency Depends on Spark Plug Service

Spark Plug service depends on the ability of its insulator to resist vibration, shock of cylinder explosions and extremes of temperature changes in all types of motors, in all kinds of weather, in all climates, and under every known load and road condition.

Champion Dependable Spark Plugs

are equipped with our new 3450 Insulator, the result of ten years of tedious research and 3450 distinct experiments.

It offers three times the breakage resistance to sudden temperature changes; and

It has two and one-half times the breakage resistance to shock and vibration; and

It has fifty per cent. more resistance to electric current when heated than the best previous Champion Insulator that made the name a synonym for dependability.

Besides these insulator tests, Champions are subjected to an air pressure test of 140 pounds to the square inch for compression leakage and a final inspection for imperfections. "Champion" on the insulator is your guide to better spark plugs for efficient service in every make of motor or engine, each guaranteed to give "Absolute satisfaction to the user or full repair or replacement will be made."

GRENADIER GUARDS GIVEN NO CHANCE

Music Lovers Object That Band Will Not Play Enough.

Complaints are being heard all over the city as to the arrangements made for the public performances of the British Grenadier Guards' Band at the Exhibition. During the evenings the band according to the official program is slated to play from 7:30 to 9 o'clock. This, it is pointed out, if an allowance

is made for time lost between pieces, gives the lover of music but sixty minutes to hear the band's melody. Objectors, and they are many, say that in past years the "star" band of the Exhibition has always played in public from 8 to 10 o'clock, and that they had at least one hundred minutes of good music after allowing for intervals. In addition to getting less music in the band stand this year the objectors state that the hours set for the performances are inconvenient. A man after leaving his work, going home, having supper and cleaning up has little time to spare to make the Exhibition grounds before eight o'clock. How much melody is he going to receive for his quarter?

It is said the "Guards" after finishing at the band stand will join the musical bands, but music-lovers argue that the music of the Guards' band will be swamped by the energy

of the local instrumentalists and in addition it will cost them another 35 cents to go into the grand stand.

The objectors to the present or the new program argue that the old arrangements so far as time and hours of band stand performances were concerned were better for the Exhibition, far more advantageous to the public and decidedly to the benefit of the people who love band music, and their name is legion.

You Must Keep Warm Next Winter

Comfort Says so, and the Doctor Says so, too

You must consult your comfort. Does your house feel warm on cold days, on windy days, every day, all winter long? If not, don't try to make yourself think the present heating system will do. The discomfort of an insufficiently heated house is reason enough for putting in a new hot water boiler. But a stronger reason still, is that a chilly house causes colds, rheumatism, pneumonia and sicknesses of many kinds. Poorly heated houses are where the doctors most frequently call and where they present their largest bills.

Why Don't You Write Us and Ask What It Would Cost

After all, the first thing to do is to find out what it would cost. There is no use waiting for low prices, because commodity prices in all lines of metals and building materials will not go down. The demand for materials and all the cost in connection with manufacture, show no chance of reduction. You save nothing by delay, so act promptly. A King Hot Water Boiler and simply explained in our booklets and other literature. If a new boiler will add to your comfort, substantial saving in fuel, week by week, and this is multiplied over and over as long as the system is in service. Do not let a few dollars in cost prevent you having a warm house. If you spread the cost over a lifetime of winters the cost per season is trifling. Get your heating engineer to give you estimates on a King-Hot Water System without delay.

M. O. H. CONDEMNS TENEMENT LIFE

Real Estate Expert Suggests Converting Rooming Houses Into Apartments.

PROMPT ACTION

City Fathers Must Find Immediate Solution for Growing Evil.

How can the thousands of people living in crowded quarters downtown be provided with better accommodations without adding to their expenses? was the question put by The World to a number of persons who have studied the matter.

Donald S. Corlett of East Dundas street who has dealt in real estate in the downtown house district for fourteen years, expressed the following views: "There is a situation in this district which calls for prompt attention from the city hall authorities. Being within walking distance of business, the district has become a popular rooming and apartment area. The high frontage taxes have helped to make it so because owners cannot afford to use these houses as one family residences, and many of the houses are too large and old fashioned in construction in this day of costly household help for such a purpose. Consequently, the owners are crowding them full of single roomers and families at high rents without providing proper facilities for comfortable living. What is needed is a building plan that will permit owners to convert these houses into three apartments. This would give the owner a fair revenue over the carrying charges, which a duplex arrangement would not give them. A great many houses in this district have on the ground floor a large double parlor, dining room and kitchen, and four rooms on the second floor, and three or four on the top floor. Each floor could at moderate expense be converted into a three or four room apartment and bath room. These buildings do not lend themselves so readily to division into two apartments because the middle portion of the second floor is attached to the lower apartment and the other part onto the top. It is for the officials at the city hall to find a solution."

Against Tenants.

When interviewed by The World Dr. Hastings, medical health officer, after having been given the substance of the foregoing suggestions, said: "That is the idea that speculative builders have been trying to have adopted for years. An apartment is only a disguised name for a tenement, and tenement houses are the curse of any city, because they destroy home life. For reasons which I have many times explained I would strongly protest against the tenement house evil ever getting a foothold in Toronto. A duplex is not so bad because each part has a separate entrance and there is usually a yard for each family. We don't want human packing cases in Toronto, we want single family houses, and the housing commission is endeavoring to solve that."

In reply to the suggestion that people are packed in now in some districts more thickly than ever before, Dr. Hastings said conditions in that respect were no worse now than they have been during the last four years.

Opponents Opposed.

Mr. John O'Neill, former controller when seen by The World recalled that he had made a strong effort when in the council to have the city attempt a solution of the downtown housing problem. He had advocated amending the bylaw to permit owners to convert houses in the district bounded by Bathurst and Parliament and south of Bloor into two, three or four family apartments, but this idea had been opposed by the so-called uplifiers who talked about gardens for every family. They refused to be practical. It would be alright to get a big piece of land outside the city and lay out homes with gardens, but Toronto has a hub population and no provision is being made for their comfort. It is no service to tell the thousands of sick and young men working in offices and stores that they must crowd into street cars morning and night to travel five miles or more to and from work. They would far rather have quarters in the heart of the city, and that is one of the reasons the houses are crowded to the roof. If the owners were allowed to convert these into apartments these people would live in comfort and would pay a higher rent than they pay now.

"Under the present bylaw," said Mr. O'Neill, "the house owner has the privilege of objecting to a house next to him being turned into an apartment, and I regard that as a weakness in the bylaw. Under present regulations the investment element is absent. One cannot pay the taxes and interest on the rent from one or two families, and consequently hundreds of houses downtown are left in a run-down and unsightly condition. This is a state of affairs that the housing commission will not solve. There will always be a downtown population and that fact must be recognized before we will get anywhere."

FESTIVAL DANCES FILL BLEACHERS

Midsummer Program of Central District Playgrounds Show Pupils' Merits.

The interest taken in playground work was evident last night by the large number of parents and adults that witnessed the best demonstration of folk dancing and games that has ever been shown at Moss Park recreation centre. The bleachers were crowded very early, and the crowd overflowed into the field.

The occasion was the combined midsummer festival of the central district playgrounds, which included Winchester, Lansdowne, O'Neill, St. Andrew, Elizabeth and Moss Park, who put on the following program: Singing games—Moss Park. Cornish May Dance—Elizabeth and St. Andrew's. Country dance—Lansdowne. Mistress Mary—Elizabeth. Potato races—Lansdowne, St. Andrew, Elizabeth and Moss Park boys. Spanish dance—Moss Park. One-step dance—St. Andrew's. Allegretto—Elizabeth. Nightingale—Elizabeth & O'Neill. Active games—Elizabeth boys. Daisies—Elizabeth, O'Neill & St. Andrew's. Siciliana—Solo dance by Miss Grace Bolton, Moss Park. Highland Fling—Elizabeth and St. Andrew's. Mountain March and Children's Polka—Moss Park. Pyramids—Elizabeth boys. French Baby—Lansdowne. Playfulness—Elizabeth. Mignonette—Elizabeth, St. Andrew, O'Neill and Moss Park. Swedish Polka—Winchester. Gondoliers—Elizabeth. Dutch dance—Elizabeth, St. Andrew, O'Neill and Moss Park. Irish Jig—Elizabeth and St. Andrew's. God Save the King.

The potato races were very keenly contested, and each playground representative was given enthusiastic support by their followers; Moss Park came first in midget and juvenile with Elizabeth taking second. The demonstration was under the direction of S. H. Armstrong, director of recreation of the city playgrounds, assisted by the following: Moss Park, Lady Principal Miss Miller, Principal L. Watson; from Elizabeth, Lady Principal Miss Seaman and Principal P. Denning; from St. Andrew's, Lady Principal Miss Butchart and Principal A. Francis; from O'Neill, Lady Principal Miss Grew and Principal H. Bryans; from Lansdowne, Lady Principal Miss Chapman and Principal J. Harris; from Winchester, Lady Principal Mrs. Johnson.

CHILDREN ACCOMPANY ARRESTED MOTHERS

Two Russian women, arrested last night charged with selling liquor, refused to enter the police van until the police officers had carried their children in also. Mrs. Annie Potchuk, 354 West Adelaide street, was arrested by Plainclothesmen Sullivan and Knight. She is alleged to have sold two bottles to the police. Sullivan allowed the baby to spend the night with its mother. "When the police arrested Mary Skibon, 24 Eastern avenue, she dressed her three small children and brought them along with her. After being registered at Court street station the mother demanded that all of the children remain with her. The sergeant on duty made arrangements for the women to keep their children in a large room on the floor above the cells.

WANT OF CAUTION LOST BOY'S LIFE

Running in front of a motor car on Jane street at 6.30 last evening, Clarence Dunn, aged 11 years, of 270 Windermere avenue, was run down and so badly injured that he died. The child was playing on the sidewalk, and without looking to see if the road was clear ran from the curbstone and was struck. Gordon Beales, Brampton, driver of the automobile, reported to Cowan avenue police station and was not detained. The body of the child was removed to the morgue and an inquest will be held.

AMERICAN CLOTHIERS ENTER AGREEMENT

An agreement to last until June next has been reached between the Associated Clothiers of Toronto and the Amalgamated Clothiers of America. They agree to operate preferential union shops. Important clauses are included dealing with wages, in which a uniform scale is laid down. Provision is also made that the new scale of 50 per cent. becomes operative on September 1st, and the balance in November of this year.

Atkins, adjutant of No. 2 military district recruiting depot, stated yesterday that since the establishment of the depot in April the following number of recruits had been obtained for the different regiments: R. C. D. 195, P. C. L. I. 82, L. S. H. 48, R. C. A. 230, R. C. R. 37, C. A. P. V. C. I. R. C. E. 4, R. C. G. A. 2, C. O. C. 27.

Mayor Church's proposal to get after the landlords has ruffled a number of realty owners who specialize in houses for rent. They resent being classed as profiteers and hold that rents should not be regulated any more than the price of shoes or clothing. Fred Holt, who has been connected with Toronto real estate for twenty years, says the money lenders are as responsible as anybody for the high rents. If they would lend money to builders at 5 per cent. instead of 7 as the city is doing with the housing commission, it would make a difference on a \$5,000 house of \$5 to \$8 a month in the rent. He says the lenders and the city with its high tax rate get most of the profit from the rents.

A. B. Kerr, formerly a North Toronto builder, said to The World: "The city does not want to overlook the fact that before the war there were about five thousand houses vacant in Toronto and that the owners had paid taxes on these properties even when they were empty about half of the time. They will never get back the lost rent. The rentals now being collected just about give the owners a fair revenue from their investment and I mean by fair revenue, about six per cent. Lack of Transportation. Mr. Kerr says the crux of the housing situation is the lack of transportation facilities. He said that at one time he had plans prepared for \$40,000 worth of houses in North Toronto, but when he saw that the paving of Yonge street and provision for a pro-

SATURDAY MORNING, AUG. 23.

The "Prominent Men" or the People?

There is no end to the talk and discussion going on about the Conservative convention. One who has been declared there was not going to be a convention because the "prominent men" of the Conservative party were against it. Meanwhile, the Conservative party is enquiring how the "prominent men" came to be prominent. Also, if the less prominent men all lose their seats will the "prominent men" continue to be prominent.

An indication of the answer to these questions is given in the news from West Kent, where it is announced that George Sulman of Chatham, the sitting member, has declined to run again, so as to devote his entire time to private business. This means that the seat is lost to the Conservative party, and all because the "prominent men" refuse to have a convention and organize a platform on which an election can be fought. Mr. Sulman knows Chatham and West Kent better than Mr. McGarry's "prominent men" and he has not the same bump of optimism that Mr. McGarry exhibits when he bares his brows on Sir William Hearst's behalf.

In spite of the prominent men we believe a convention is the only thing that can save the Conservative party in Ontario. The Hamilton Spectator gives good advice when it says that the referendum should be submitted; this question out of the way, a convention should be held; and then the election. The Ottawa Journal wonders what anybody is afraid of in such a program.

It's the "prominent men" that are afraid. The Toronto Star throws some light on the subject. It favors the "prominent men" theory. It declares precedent is against the convention. As the Liberal party has only recently chosen Hon. W. M. King by a popular convention and Mr. Hartley Dewar in a popular convention to lead the Liberal hosts in the Dominion and in Ontario, the Star evidently prefers "prominent men" to do the choosing. Perhaps "prominent men" would have picked others than Messrs. King and Dewar. The Star says "Sir William Hearst was chosen in the usual way," meaning by "prominent men."

There is no doubt that he was chosen by "prominent men" or what passes for such in some circles. They came down from Ottawa refusing to have a convention or a caucus or anything but Mr. Hearst, who found himself unable to raise any objections to the method. The Star looks with favor on this method, and there must be reasons. Is Mr. Dewar not sound on the nickel question in the Star's view?

The Hamilton Herald, on the other hand, does find precedents for conventions, and suggests one for Mr. McGarry's consideration. The Herald goes back to 1834 when Sir John Macdonald and the only "big convention," it remarks, that the Conservative party ever held. The convention of 1864, which chose James P. Whitney, was a very respectable convention and quite sufficient as a precedent for any purpose.

The Herald closes its article with the following excellent advice: But even if there were no precedent, the present unsettled political situation and the uncertainty about what the Conservative party really stands for in Ontario, should be sufficient to convince the party leaders that the calling of a convention before the elections take place is, if not necessary, at least expedient.

It may be said that the "prominent men," the High Self-Appointed, know better what should be done than all the rest of the Conservative party. But then again, they may not. They may be mistaken, or it may be that their personal views of the situation are biased by considerations which obscure their perception of the real situation. Are they more considerate of their own views, these "prominent men," than they are of the safety of the party, whose fortunes they are jeopardizing? This is a question The Toronto Star is not concerned to answer, but the Ontario government has heard the answer from independent men and newspapers all over the province. Mr. G. W. Sulman is not going to face the music in West Kent, and Mr. Mark Irish is also overcrowded with business and will retire in Northeast Toronto. Manitoulin, North Ontario, St. Catharines, are tokens of the coming debacle. Mr. McGarry may put his trust in "prominent men," but his old, bold, honest-hearted, shrewd old leader told him to trust the people.

A Proper Compliment.

We congratulate Mayor Church on so quickly responding to our hint that

General Currie was one of the prominent figures of the war. The civic reception arranged for next Saturday will do Toronto more honor than it will its recipient, but General Currie will appreciate the compliment coming from the capital city of Ontario.

Beginning to Tell.

The fight of the federal authorities against the profiteers is already beginning to bear fruit in the United States. Profiteers are causing fit in some commodities and in many localities dealers declare themselves willing to abide by the decisions of the county or municipal fair price board. Attorney-General Palmer insists that he must have authority to discipline the "little gougers" as well as the big profiteer, and the corner grocer will not be exempt from criminal prosecution.

The late Sir Wilfrid Laurier once declared the corner grocer to be the poor man's best friend, but Mr. Palmer says the retailer is the man whom the consumer comes in contact with as it may be the most complain. He declared there was not going to be a convention because the "prominent men" of the Conservative party were against it. Meanwhile, the Conservative party is enquiring how the "prominent men" came to be prominent. Also, if the less prominent men all lose their seats will the "prominent men" continue to be prominent.

Mr. Hobson does not believe this is a task for the bankers. He suggests that each British consulate and vice-consulate be expanded without delay into a miniature board of trade, with experienced men trained in the trades and crafts of their districts. This consular agency should have large powers to organize credits, calling in all the commercial and industrial factors, discussing fully all their immediate requirements and how the local production could be charged with the debts and in due course paid off. Group credit of this description he regards as inevitable. In this way, he says, "we should discover a hundred unexpected elements of credit now lying in disuse—sheer economic waste."

SUGGEST W. D. EULER OFFER SEAT TO KING

Kitchener, Aug. 22.—Considerable interest is being taken in the suggestion that the sitting member of parliament, W. D. Euler, should offer his seat to the new leader, Hon. W. L. M. King, for whom a seat is being sought. The general impression however, is that Mr. Euler's followers will not give their consent to his resigning in Mr. King's favor, as many of them have formerly been connected with the Conservative party. Mr. Euler is out of the running for the seat on the matter could not be ascertained today.

REFORM INDEPENDENTS BUSY IN N. WATERLOO

Special to The Toronto World. Kitchener, Ont., Aug. 22.—Considerable interest is centered here on the convention of the North Waterloo Independent Reform Association, which is to be called in Waterloo for the purpose of selecting a candidate to the Ontario legislature. Rumor has been widely circulated that Mr. Amussen of the Kitchener, would be the candidate, but it was learned today that there are others in the field for the honor. Among those being mentioned are the Hon. J. J. O'Brien, Geo. Schnarr, of Kitchener, John Fischer, of Waterloo, and Regis John Reids, of Wellesley.

LET CHIEF RUSSELL DO IT

BY IDA L. WEBSTER. Some days ago Fire Chief Russell made a statement to the board of control that several structures in the amusement parks were not safe, and that he considered them fire traps.

So far as we can see, that should have been sufficient. The man whom the city fathers chose to make the chief of the department, which is supposed to be for the saving of life and property, said that he was of the opinion that the lives of the citizens were in danger. If he thought that way, he had a perfect right to say so. Not only that, but the board of control should have accepted his word for it.

Yesterday morning he again met the members of the board, accompanied by Leo Solman, Bob Fink and Joseph Oliver, the former representing the island, of course, the second man Scarborough Beach, and the third gentleman representing the city. In each of these places there are the structures which our fire chief objects to.

After quite a lengthy chat on the part of the controllers, Chief Russell still admitted that, in his estimation, the amusements under discussion were not safe for public use. The persons, whose amusements they were, were practically unanimous in saying that they should be closed. Chief Russell, however, so far as we know, did not say so. He said that so far as his company was concerned, they could take it out or close it. Naturally Mr. Solman was agreeable to falling in with the fire chief's idea, at least, until such time as his amusements could be overhauled and made fireproof.

With all of this, yet the board of control hesitated to close them up, or to refer the matter to the chief to do so. Anyway, there is some fool muddle about the government having control of the closing of public buildings, and therefore making it impossible for either the city architect or the fire chief to close them down. This matter is to come up again, and probably by that time one of the contraptions will have caught fire and half a hundred people have lost their lives.

His worship the mayor was in favor of allowing the chief to take the case into his own hands, to act as he saw fit. This is an idea which the city acknowledges Mr. Russell as the fire chief, and he should be endowed with the authority of his office. No man in his position should be forced to plead for something which he thinks is imperative. One thing is certain, if the same whiff of smoke held over a few other commissioners, there would not be so many grievances on the part of the citizens. For instance, the viaduct would be opened, and not be a crying disgrace to the community at large.

Producers in Brantford Threaten an Injunction

Special to The Toronto World. Brantford, Ont., Aug. 22.—That an injunction will be taken out against the market square is again blocked as last week, when a summer carnival brought here by the G. W. W. A., netting them \$1,000 net, occupied the square, is the legal ultimatum filed at the city hall on behalf of the producers of the district. In reply citizens and soldiers declare that the producers have as fine a combine as was ever worked and that they pay an insignificant sum for the space occupied while begrudging the veterans the use of the square for a week.

Big U. S. Electrical Firm Is Coming to Brantford

REAL ESTATE NEWS

A Victoria street lot with a one-story building, known as numbers 24, 26, 28 and 30, has been sold to the Imperial Life Insurance Company for a sum said to be in the neighborhood of \$90,000. The property was sold by John O'Neill, former controller, who owned it for many years. The Imperial Life will erect an eight-story office building on the property, of the same material and appearance and to match their present building, which was put up eight years ago. It is built of steel, concrete and brick with a terra cotta front. The new piece of land now acquired has a frontage of 55 feet with a depth of 55 feet, and the building on it is divided into four stores or offices. It is understood that the Imperial Life will secure early possession and convert it into one big office for temporary use until they get ready to build.

The Noller Realty Company has sold a lot on Woodbine avenue, east side of Gerrard, for a site for a Baptist church. They have also sold eight small houses on Gledhill avenue, outside the city limits, for \$2400 each, and a house on Gladstone avenue, near College street, for the Herbert estate.

The residence of Dr. W. H. Pierson at 26 Albany avenue has been sold to C. C. Rance. Dr. Pierson has purchased on Avenue road, hill. The sales were put thru by R. Clark & Co. This firm also sold this week the house at 52 Cowan avenue, owned by A. L. Smith, to Mr. Cable.

RADIAL STRIKERS GET ULTIMATUM

Niagara-St. Catharines Company Gives Men Until Monday to Return.

Special to The Toronto World. St. Catharines, Ont., Aug. 22.—The strike which has been declared by our employees is illegal under the provisions of the Lemieux act. By this legislation each employe is liable to incur a penalty by thus deliberately absenting himself from the service. The company does not wish at this stage to take advantage of the act in this respect, and after placing before our men the statements which have appeared offi-

cally in the press, we hereby give notice that all employes not concerned in the charges in respect to which we have evidence may return to the service on or before 10 a.m. Monday, Aug. 25, and be reinstated in their former positions. Any employe who has not returned to duty by that hour will be considered as having permanently left the service.

Men Stand by Organization. The above ultimatum was this afternoon issued by Superintendent Oliver of the Niagara, St. Catharines and Toronto Railway, which has been completely tied up since yesterday morning by a strike in all the departments because of the refusal of Mr. Oliver to meet the international representatives and discuss the demission of one of the conductors, who is business agent of the union. Yesterday Organizer Kohl made the following proposition to the committee of the board of trade: "That Mr. Oliver agree to meet the local committee and the international representative and discuss the case, and in the event of the dispute not being amicably adjusted, to submit the matter to a

board of arbitration." An answer was conveyed to a meeting of the employes this afternoon that Mr. Oliver again refused, stating that he would not meet an outsider, and further stating that the evidence was in the hands of the department of justice. The meeting unanimously reaffirmed their decision to stand by their organization.

LOCAL LABOR WATCHES. The nation-wide strike threatened by organized steel and iron workers in the United States has created considerable interest in local labor circles. Issues of fundamental importance, rather than the particular industry involved, is the cause of this trouble. Algoma steel men at the Soo were reported yesterday, in what the workers explain to be virtually a lockout. This follows a brief conference regarding hours of labor and other matters under dispute.

MANUAL TRAINING FOR RETURNED MEN

Minister of Education Visits Working Quarters in Manning Avenue School.

PRACTICAL TEACHERS

Dr. Cody Hopes Soon to Absorb Men in Schools Thruout Province.

A striking demonstration of what a returned man can accomplish and a good indication of the prominent part they are calculated to play in the practical education of the rising generation of Ontario was provided in connection with a visit paid yesterday by Hon. Dr. Cooy, minister of education, to the Manning Avenue manual training school. Here were assembled thirty returned men who are rapidly qualifying to be absorbed by the department as instructors.

Many Useful Articles

Seated at a number of benches the men were busy making a variety of useful articles. In another room, carefully laid out were the products of their handwork, which comprised exquisite and delicately made models of frames, paper knives—one was made as an Enfield bayonet model—pile drivers, musical cigar boxes, furniture, toys, checker boards, ring boards, cases, etc., etc. Everything was made to scale and the most remarkable ingenuity was displayed. There were also excellent blue prints.

The main object, as A. K. Leake, who is in charge, explained is to make the models for use of the pupils in their work in the school thruout Ontario to which the men now engaged will be drafted as circumstances permit. Among the workers are artisans as well as artists and one of them, J. E. Coles, was formerly a member of the Brantford board of education. In addition to Mr. Leake the staff comprises T. E. Carpenter, chief instructor; R. N. Shofield and S. Ticks, instructors. The men are paid a daily allowance while taking the course.

Mr. Leake, in opening a little speech-making after the inspection, said the interest and sympathy of Dr. Cody made it possible for this work to be carried on. The minister stood for a square deal for the children of the province thru fully and properly qualified teachers.

Pleasure and Inspiration

Hon. Dr. Cody declared it was a pleasure and an inspiration for him to have an opportunity of seeing the work in process and also the finished products. When he visited the school three months before the war closed it was with the special purpose of seeing what educational opportunities might be afforded and what might be done here to utilize the great army of men who might become teachers in the province of Ontario. He felt that so men would command the love, admiration and respect of the pupils more than the men who had been overseas. That idea made him determined to do everything in his power to secure as many as possible for the teaching profession and do anything he could for the men who had served in Canada and the world so magnificently at the front. It was curious too, that Major Harris had also been talking on the same question over on the other side.

Bring in Fresh Ideas

Dr. Cody alluded to the men in training at the normal school and went on to say how gratified he was that at least 50 had undertaken the work of training to be manual instructors in the schools. He hoped to be able to absorb them at the earliest possible moment. (Applause.) Mr. Leake had already planned for a continuation of their course in the immediate future and had planned (Dr. Cody) that in all his experience he had never met a class of men so wholehearted and enthusiastic. They were bringing to the work of the schools fresh ideas and new viewpoints which would be of lasting benefit to the teaching of manual training thruout the province.

Dr. Cody said the province was to be congratulated on the opportunity of receiving into the ranks of the teaching profession such a splendid accession of men. The desire was to link the heart, the head and the hand. "We are thankful to have you," the minister continued, "We feel that you are doing well to the lasting benefit of the boys and girls of the province. The children are our most cherished possession and they will receive the advantages they deserve." (Applause.)

J. E. Coles spoke appreciatively of the work of Dr. Cody and handed the latter a handsome cane made by the men as a souvenir of the occasion. Dr. Cody was handed another cane to be given to Dr. Colquhoun, the deputy minister.

E. Hazelwood presented the minister with a handsome foot-rest for Mrs. Cody, whose educational work, he said, was widely recognized.

E. E. Parkhouse spoke briefly and three cheers and a tiger for Dr. Cody closed the proceedings.

PLAYS, PICTURES AND MUSIC

"Chu Chin Chow." Owing to the difficulties between the New York actors, stage employees, musicians and managers, "Chu Chin Chow," the Oriental spectacle that was to appear at the Royal Alexandra Theatre all next week, will be unable to come to Toronto. All tickets that have been sold will be honored for this presentation when the company arrives, or they can be redeemed at the theatre box office any day.

"Call the Doctor." Edward H. Robbins and his popular Robbins Players will remain for one more week, commencing Monday evening, at the Royal Alexandra, when they will present for the second time this year David Belasco's latest and what has proven to be his most successful comedy, "Call the Doctor."

When the first rumors were received that it would be impossible for "Chu Chin Chow" to arrive in Toronto, owing to the difficulties between the actors, stage hands and musicians and managers in New York, Mr. Robbins has placed the services of his entire company at the disposal of local theatregoers. The offer was accepted, and even tho all the members of the company had made their arrangements to return to New York next Tuesday they all voted to remain for the week and produce "Call the Doctor."

"The Old Homestead." Denman Thompson's famous play of rural life, comes to the Princess next week in place of "The Better Ole," which was forced to cancel owing to the actors' strike in New York city.

Of all the plays the American stage has produced, there is not one that can boast the long life and continued popularity of Denman Thompson's "The Old Homestead." It's simple story never fails to bring just as sure a response from its hearers as it did when our fathers first saw it. The quaint, wholesome philosophy of Uncle Joshua rings just as true today.

"The Old Homestead" comes here with the famous features of past years, the double quartet singing those songs that always prove so popular in the first act, the music of the Grace Church choir in the third act, and the Salvation Army.

"Mickey" Here for Fair Week.

The sensational film production, "Mickey," which is now doing its twelfth consecutive week at the Grand Opera House, will be held over for a further slight extension, the public demand still continuing so heavy that it is impossible to meet the requests this week. Commencing with a matinee on Monday "Mickey" will enter upon the thirteenth week of what has been the most remarkable engagement on the continent. The length of the engagement and the capacity patronized is a flattering testimonial to the merits of the production. Without doubt it contains all the qualities necessary for a popular offering. It is a beautiful and wholesome story, well constructed, full of delightful natural comedy and thrilling and exciting climaxes. It is a film that appeals to both old and young and one that you will not be satisfied with seeing only once. During the run at the Grand thousands have seen "Mickey" four and five times and hundreds come every week.

The Bill at Shea's

For the next week the management of Shea's Theatre has arranged an all star bill, headed by the William B. Friedlander comedy sketch, "The Man Hunt." It is replete with bright lines, clever comedy situations and wholesome humor. The special feature of the bill will be Adelalde Bell the danseuse extraordinaire, in a series of selected dances, Dawson Sisters and Jack Stern, in "Who Do You Love?" have a merry little comic sketch, while Fern and Davis present "A Nightmare Revue." Charles Irwin in "Pleasant Memories," arouses much mirth, while Nora Norine, "Nora of the Movies" will prove a favorite with audiences. Davis and Pele, sensational equilibrists and a Harold Lloyd comedy, are also included in the bill.

At Loew's Next Week

The story of "The Indestructible Wife," featuring Alice Brady at Loew's Theatre and Winter Garden next week, deals with the life of a strenuous young bride athletically inclined, whose husband becomes worried and distressed in his efforts to keep up with her. He finally adopts Shakespeare's idea and succeeds in taming her as Petruchio did the Shrew. Octavia, Handsworth, the movie star, who has forsaken the screen for a venture in vaudeville over the Marcus Loew circuit exclusively, will be an excellent supporting cast, will headline the vaudeville. Miss Handsworth is being starred in a brilliant one act comedy entitled "Twice a Week," a playlet said to have an extraordinary amount of wholesome comic situations. Mel Klee, "A Corker in Cork" with new songs and patter. Handsworth, Clifton, in a musical offering, "The Unexpected." The Three Rozellas, presenting "Music With a Smile," L'Estrange Revue, comedy sketches; Dolly and Calaine, singers and dancers; Loew's British Weekly, and the "Mutt and Jeff" animated cartoons, complete the bill.

The Hippodrome Bill

Virginia Pearson, talented Pathe star, will come to Shea's Hippodrome next week as the headline of an excellent bill, when she will be featured in the new special release, "The Bishop's Emeralds." It is a thrilling story, a plot altho not very intricate. Music reigns supreme and the story is the clearest drama with a surprising climax. Mrs. Eva Fay is too well known here to need any description. Suffice it to say that her astounding feats of mental mysticism foretelling the past, present and future will prove genuinely interesting. The Seven Glasgow Maids in smart songs, dances and crisp, refreshing comedy; Henry and Moore, black-faced comedians, with much new material; Annette and Morrell, singers and dancers; Gray and Grayson, aerial acrobats; the Revelles, Harold Lloyd comedy, and a "Lucky Thirteen" Sunshine comedy, are also included in the bill.

Midnight Maidens.

Next week's attraction at the Star Theatre will be the Burlesque Amusement Company's latest and best offering, "Midnight Maidens," headed by fantasy, comic, diabolical and demented, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to others during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

without having also visited the Regent Theatre, considered by regular patrons to be one of the most attractive motion picture theatres in Canada. The music of the famous Regent orchestra is wonderful and the film subjects always interesting. Mitchell Lewis will be featured in a most lovable story, "Jacques of the Silver North." This is a very picturesque story, full of exciting moments. "The Regentette" brings views from everywhere while the new screen magazine and "Topics of the Day" plus a Joe Martin comedy make the entertainment supremely worth while.

Hayakawa at Madison

There is no favorite of the screen who enjoys greater popularity with patrons of the Madison Theatre than Sessue Hayakawa, the distinguished Japanese actor. He will be seen at that theatre on Monday, Tuesday and Wednesday next in his latest Haworth production, "The Man Beneath," a photoplay of great power and pathos.

"The Better Ole"

"How did Captain Elliot and I happen to write 'The Better Ole,' said Captain Bruce Bairnsfather, just after the last big laugh at the Greenwich Village Theatre. New York had assured him that the play was duplicating its success in London. 'Well, to tell you the truth, I don't know how. The play just wrote itself, you might say. It was a case of two minds with but one single thought, and that was the portraying, as nearly as possible, of the lights and shadows in the romantic, mud-soaked life of old Bill.'"

Fair Week at Regent.

Visitors to the Canadian National Exhibition should not leave the city

slowly the romance of Old Bill evolved into a play." The film version of the play has been equally successful, and Toronto movie fans will again have the privilege of seeing it skillfully produced at the Allen Theatre this week.

"Auction of Souls"

Today will be the last day for seeing the big double-header bill consisting of "Choosing a Wife" and "Fannie Ward in 'The Frame Up' or 'The Profiters'" at the Strand Theatre. So all who can appreciate the best in picture drama should see it before it is no more. The picture of the sole survivor of half a million Armenian girls, Aurora Mirzaganian herself, the Armenian beauty, who escaped to America after two years of unpeppable adventures in the hands of slave dealers and Turkish harem, enacts the part of the heroine in her own life history with a courage past all belief.

"Checkers" at Massey Hall

Admittedly the greatest racing production that ever graced the legitimate stage, "Checkers," the play which has won a box office record all over America, comes to Massey Hall next week in its picturized version. And the news that William Fox has made a seven-reel feature of Henry M. Blossom's wonderful book will come as a gratifying surprise to theatre-goers of Toronto.

Everybody knows the story of "Checkers," the youth who decided to

leave the life of the race track and go into a legitimate business. But the thrills which were merely suggested in the play and which were outdone in the book have been made a smashing, sensational reality in the picture. The picture has been provided with a complete orchestra under the leadership of Jules Brazil, and all the necessary scenic effects to add to the enjoyment of the production.

SIX HUNDRED VOTERS ADDED BY COURT

More than six hundred appeals, principally the wives of foreigners and returned soldiers, were added to the list in process of revision before J. C. Cameron in the voters' appeal court yesterday. J. W. Brody, appearing for H. Hartley Dewart, K.C., the sitting member, did the heavy work, and he promised 1500 more today.

The names of several hundred people were also added to the list by the workers of the Ontario referendum committee. The work was carried on with the utmost harmony and accord, neither side objecting to any of the added names.

The district taken up yesterday by Mr. Cameron is bounded on the north by College street, on the south by Queen street, on the west by Ossington avenue, and on the east by Bathurst street.

Ald. Ryding to Run.

Ald. Sam Ryding made the definite statement yesterday that he intends to run for the legislature as an independent candidate for West York.

E. W. J. OWENS, M.L.A., DISCRETLY SILENT

It is generally asserted and believed in Toronto Conservative circles that E. W. J. Owens, the provincial member of parliament for Southeast Toronto, is favorable to a conference of the party being held before the referendum is taken at a general election declared. Mr. Owens, it is said, thinks such a conference might straighten out many difficulties that now face the party. The World yesterday called upon Mr. Owens to ask him to either put his views in writing or to make a statement of his position on the question of any such conference. He, however, refused to adopt either course, and contented himself by saying, "I have nothing to say for publication."

BAIL GRANTED.

In the women's court yesterday morning, Sarah Jane Beatty was committed for trial on a charge of theft of \$800 from two returned soldiers. Bail of \$1,000 was granted.

SECOND GROWTH WHEAT DOING WELL IN WEST

Prospects Have Brightened Considerably, Says C. N. R. Crop Report.

Two features are outstanding in the detailed crop report furnished by agents of the Canadian National Railways between Port Arthur and the Rocky Mountains for the week ending Aug. 13, received in Toronto yesterday.

One is that rust has apparently retarded the quantity and quality of the yield of wheat in the south. The other is that in some cases second growth wheat is coming along fine, presaging an increased yield in those parts of the country. The chances are that, with rains general over the western country, this second crop will be a material factor in increasing yields in districts where the outlook was not particularly bright some time ago.

In many districts cutting has been completed and threshing has already commenced in many points. Estimates of yield, however, are not given by many agents for the reason that farmers prefer to wait until operations are further advanced before announcing definitely what the production will be from their farms.

ON CHICAGO MARKET

Hughes, Harcourt and Company, 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: Corn was active and advanced about two cents early and advanced about two cents under a good commission house demand and shorts covering. However, market reacted sharply later when the demand was supplied and prices fluctuated over a narrow range. Sentiment is rather mixed and the trend of values follows either buying or selling. A firmer tone in sterling exchange had some effect.

Oats were moderately active and showed a strong undertone, but fluctuated within a narrow range. The domestic cash demand continues of good volume and this is one of the sustaining features in the market.

BOARD OF TRADE SHARP ADVANCES BY GOLD STOCKS

Hollinger and Lake Shore Are Centres of Bullish Demonstrations.

Distinct improvement in tone was displayed in the local mining market yesterday, the sharp advance in Hollinger and Lake Shore having a stiffening effect upon the general run of stocks, while the turnover of nearly 120,000 shares indicated a day of fair activity. Brokers say it is difficult, if not impossible, to find orders for the better class of stocks without advancing prices quickly. The market today practically parallels that of a year ago, when the market was almost bare of speculatively-held stocks.

LIVE STOCK MARKET

The week just closing on the Union Stock Yards has shown very heavy cattle receipts about \$700 all told. Monday's receipts were especially heavy. The Reserve moved up 1/2c to 15 1/2c; Heaver a point, to 9, and Chambers-Perland half a point, to 37. The market was stationary, with a slight upward movement in the afternoon. Receipts during the week were moderate and prices held steady to strong for the week.

There has been a very good demand for choice weight butcher cows, and medium cows, and the market has held steady, selling around about \$3.50 per cwt. When the whole, the bull market has been slow, heavyweight bulls being hard to sell and the bolognas holding steady. Receipts during the week were moderate and prices held steady to strong for the week.

BIG OPERATIONS AT LARDER LAKE

Bodies of Low-Grade Ore Are Largest Ever Found in Ontario.

Special to The Toronto World. Larder Lake, Aug. 22.—Ten years ago Larder Lake was riding on the height of a boom. It was the first of the great ore discoveries of the north, and besides it secured all the reflex action of the exciting early silver discoveries. Then, because the silver operators did not know the value of the ore, the only profitable way of mining gold in Larder was by using enormous quantities of low-grade ore, and equipping immense sums of money in trying to treat high-grade rock, the camp received almost a death blow.

But in the couple of years interests that understood the technical difficulties they would have to face, and who could afford to pay no attention to the prejudices set up by the best of the properties and began developing one toward quantity treatment.

Today, development has reached that stage where it can be said positively that Larder Lake contains bodies of low-grade ore that in size far exceed anything ever located in Ontario, and that it is now only a matter of time when the construction of mills of 5,000 tons daily capacity will be started.

Larder Lake has come back. It is back on the gold map of Ontario. Energetic management will place it well up in the list of gold producers.

Operations on Big Scale. The mining company operating in Larder is the Associated Goldfields. They years ago, quietly secured property with such familiar names as Harris-Maxwell, Reddick and Kerr-Addison, and many others to a total of 2,000 acres. They were also able to quietly secure the interest in the gold mine of O'Ontario, Ontario, and that is now only a matter of time when the construction of mills of 5,000 tons daily capacity will be started.

CALL OF THE KING

HIS MAJESTY, THE KING, in the course of a recent speech, called upon his subjects to exercise thrift during the period of reconstruction.

The following are his words:— "The spirit of union, self-sacrifice and patience which our people displayed during the years of fighting will still be required if we are to reap the full benefit of the peace which we have won. And those qualities must be reinforced by the virtues of industry and thrift."

Be thrifty, therefore, and make the results of your thrift secure, by investing your savings in the...

AUSTRALIANS FOR U. S. TO LEARN AGRICULTURE

New York Aug. 21.—One hundred picked Australian soldiers will arrive here from England August 23, on their way to the University of California where they will take a special course in agriculture. It was announced here today by the Australian commission, the United States government these men will work for a year on the Davis farm attached to the university, and then return to Australia.

AVIATOR LANDS SAFE ON ROOF OF BUILDING

Newark, Aug. 22.—A successful landing and "take off" in an airplane from the roof of a building was accomplished here today by Edwin E. Coket, formerly of the Canadian aviation service and now in the employ of a local dry goods firm as an aviator. It is believed to be the first time that the feat has been accomplished in this country, although French aviator succeeded in landing on the roof of a Paris department store about a year ago.

HIGH COBALT TAXES

Coket, Aug. 22.—An extra two mills have been added to the local tax rate on the revised estimates presented to the town council, and the rates for public and separate school supporters will be 38 and 44.3 mills respectively. The general rate is 30 mills.

BRAZILIAN PROMINENT
IN MONTREAL MARKET
 Chief of Canada is Among Stocks
 to Sell Substantially
 Higher.

Montreal, Aug. 22.—Altogether a list on the Montreal Stock Exchange broadened to about sixteen issues to a total of 100 listed stocks, trading for the full day. The market was generally steady, with a few substantial rallies from the previous day, while in the general list the gains far exceeded net losses at the close.

The Canadian and Waynamack furnished the largest individual totals to the trading, each being dealt in to the extent of more than 500 shares. On this trading, Waynamack rose 1/2 point to 12 1/2, while Canadian advanced 1/2 point to 17 1/2.

Among the substantially higher stocks were Ames, Abbotts, Macdonald, Brewster and Steel Canada. The last-named rose 1 point to 4 1/2, with 50% bid, while the others added 1 point to 17 1/2, 1 1/2, and 1 1/2, respectively.

The largest declines took in one of 3 points to 17 for St. Lawrence Flour, with 10% bid, and 1 point to 10 for Canadian Dominion common.

N. Y. CURB STRONG
 New York, Aug. 22.—Trading on the curb today was of a confident nature with recoveries registered in a number of issues. The shorts, who sold extensively all thru the week markets of the past few days, bought back their stocks, and consequently the upward movement which began at the opening of the market continued for some time during the morning session. There were moderate sales of long stock picked up at the low levels of the early part of the week. Trading in the afternoon indicated that action was taking place in several issues. The close was strong.

English Capital
Negotiating for
Davidson
Consolidated
Stock

In the past we have consistently and with good judgment advised the purchase of shares in Davidson Gold Mines, Limited. The soundness of our advice has been confirmed by the recent consolidation increasing the area to more than 400 acres, thereby providing and furthering plans for the rapid and adequate development of the property.

We view this consolidation as a great stride toward bringing the mine to the status of such sterling gold producers as the Hollinger and McIntyre, the future of which had been provided for in a similar manner. English interests are negotiating for the purchase of a substantial block of the consolidated company's stock at something better than the 1/2 share, a fact which speaks for itself.

Oils and Tobaccos Leaders in Upturn—Interest in Metals Revives.

New York, Aug. 22.—Stocks made further improvement today over their successive declines of the early days of the week, the rally carrying greater conviction because it was accomplished on a small turnover, dealings falling considerably under recent large totals.

Traders seemed disposed to take a less pessimistic view of the labor situation as represented by conditions in the steel industry and evidence of support manifested in the foreign exchange market served as another reassuring factor.

A touch of the "literature" and gossip emanating from brokerage and commission houses was of a less cautious tenor, and no small part of the day's buying was credited to interests recently committed to the short side of the market.

Bull pools were moderately active in such recent favorites as motors, oils and tobaccos, where extreme gains of 2 to 8 points were made, equipments, leathers, textiles and sugars also strengthening variously.

There was a fair demand for rails of the better class, and substantial improvement among shippings was accompanied by reports of early payment of a large part of the arrears on Mercantile preferred is under consideration.

Marked revival of interest in metals was noted, not only in coppers, for which higher prices for September delivery were quoted, but also for other metals which enter extensively into the manufacture of various piece industrials.

The only stocks to reflect pronounced weakness were industrial Alcohol, which fell seven points on the proposed new capital issue, and Wilson & Co., which forfeited much of yesterday's large advance. Final prices ended on the 8 per cent. call money rate. Sales amounted to 75,000 shares.

Bonds were irregular on the lower prices made by various speculative rails; Liberty and foreign issues reacting fractionally. Sales (par value) \$2,500,000. Old U. S. coupon and registered 2s were 3/4 to 1/2 cent lower on call.

COBALT STRIKERS
ISSUE A PAPER

Editorial Says Men of Mettle Would Never Cringingly Submit to Bosses' Terms.

Cobalt, Aug. 22.—The Cobalt News issued by the miners' union executive, made its first appearance here today. Another issue is promised for next week. The paper consists of four pages, of which two and a half are devoted to the first part of a history of trade unionism in northern Ontario. It also contains the report in full of the executive to the meeting of the members of the union on Sunday, July 20, when the strike was decided upon, and letters to the war veterans, and to the miners' union.

"To Our Readers," it is stated, "a considerable correspondence is published to enable the readers to air their views on the justice and propriety of our case." After stating that the union men are aware of the possible consequences of a strike, it is declared that "men of mettle and of the members of the union are hood in the face of even the most arduous sacrifices. They would have to be able to stand up to submit to such conditions. There would have been no strike if reasonable adjustment had been possible," the article states.

McINTYRE'S OPERATIONS

Hamilton B. Wills in his weekly market letter says: As I go to press my engineer wires me as follows: "McIntyre Porcupine Mines is pushing its development program with all possible speed. The main shaft is now down to a depth of 1,350 feet, and a station is being cut at this point, after which drifting and crosscutting will commence. The foundation of the new addition to the mill is now under way which will enable this company to increase its milling capacity to 1,000 tons daily."

"I understand development work on the Pleasurium, which the McIntyre group under option, is satisfactory to date. Work on the Pleasurium property is being conducted on the 225 and 375-foot levels. I understand some very rich ore has been encountered and indications point to the McIntyre exercising its option on this property."

OUTLOOK AT DAVIDSON

F. C. Sutherland and Co. in their weekly market letter say of Davidson Consolidated: "In our opinion, the exploration already done demonstrates that it is only a question of increasing production to bring the mine into a substantial dividend payer. Large wide bodies of profitable milling ore have been opened up and indicated to extend for a considerable distance laterally and to great depth. The history of the McIntyre and Hollinger is being repeated in the Davidson Consolidated. The property is on the same shear zone, and its ore is identical with that of those two sterling mines. Crosscutting is now in progress at the 600-ft. level. We are expecting word at some moment to say that the vein has been out. In diamond drilling an 11-ft. section of this ore is indicated to carry rich values of \$22.50 to the ton. When this ore is opened up, which we expect will be next week, some highly interesting news will be forthcoming."

NO NECESSARY DELAY
IN McINTYRE REPORT

Commenting on a despatch referring to the delay in the issue of the annual report of the McIntyre Mines, an official of McIntyre pointed out that it was physically impossible to prepare the work any sooner. He said the whole ore reserves and equipment had to be recovered, and this required several weeks of work, and this was so large a job their report had not yet been received. It was the customary practice of the official said, for mines to get their reports out any more quickly, and under the Ontario companies act they had 90 days in which to do it.

BRAZILIAN SHARES
MAKE GOOD RALLY

Toronto Market is Quiet, But Tendency is Toward Higher Levels.

Brazilian traction's rally was almost the only incident worthy of mention in yesterday's extremely quiet trading on the Toronto Exchange. It has been pointed out that the recent big decline in the pound sterling gave British holders of Brazilian an inducement to sell on this side of the water for the sake of realizing a handsome profit on the exchange, but with the pound showing a tendency however feeble, to come back, the selling pressure on Brazilian has naturally lessened. Opening 5/8 up at 5 1/2, Brazilian advanced yesterday to 5 3/4, closing at the day's best for a net gain of 1/8.

In scattered transactions elsewhere in the list there was evidence of underlying firmness, New York's good rally having some local influence. Canadian Locomotive, recently neglected, brought 5/8, around the high level of the day. Dominion Iron and Steel, at 6 1/2, and Dominion Iron at 6 1/2, was a shade higher. Transpacific preferred at 8 1/2 was steady. The first transaction in Crow's Nest Coal in some time was at 5 1/2. The annual report of the corporation of a dividend of 1 1/2 per cent, evidently came as no surprise.

The Victory issues of 1913 and 1917 made up the bulk of the trading in this section. Prices were little changed. The day's transactions: Shares, 657; War Loans, \$148,550.
